ITEM 2. ACQUISITION OR DISPOSITION OF ASSETS

On February 6, 2004 (the Effective Date), Genome Therapeutics Corp., a Massachusetts corporation (Genome), completed the acquisition of GeneSoft Pharmaceuticals, Inc., a Delaware corporation (Genesoft), pursuant to the terms of an Agreement and Plan of Merger and Reorganization (the Merger Agreement). The merger (the Merger) was structured as a reverse triangular merger, pursuant to which a wholly-owned subsidiary of Genome merged with and into Genesoft, with Genesoft surviving as a wholly-owned subsidiary of Genome. Immediately after the Merger, the surviving entity was merged with and into a second wholly-owned subsidiary of Genome. The Merger and the merger of the surviving entity into the second wholly-owned subsidiary of Genome are intended to qualify as a tax-free reorganization under Section 368(a) of the Internal Revenue Code.

At the effective time of the Merger (the Effective Time), Genome became obligated to issue a total of 28,571,405 shares (the Shares) of its common stock (i) in exchange for all outstanding shares of capital stock of Genesoft, (ii) as payment of certain interest and related amounts due to Genesoft's note holders and (iii) upon the exercise of Genesoft options and warrants, which were assumed by Genome. Each share of Genesoft common stock outstanding at the Effective Time was converted into the right to receive 1.19 shares of Genome common stock. The conversion ratio was determined through arm's length negotiations. Approximately 4,800,000 of the Shares will be issued as payment of interest and related amounts to Genesoft's noteholders.

Genome also assumed at the Effective Time approximately \$24 million of debt of Genesoft, \$2 million of which is equipment financing debt. Genome assumed the remainder of this debt by issuing approximately \$22 million of 5% Genome convertible notes due in February 2009 that are convertible into Genome common stock at any time prior to maturity, at the option of the holder, at a price of \$6.6418 per share. Genome is obligated to file a re-sale registration statement on Form S-3 to register the shares of common stock underlying the convertible notes and the shares issued as payment of interest and related amounts on the Genesoft notes.

On the Effective Date, Genome also closed a common stock offering (the Offering) in which it issued 16.8 million shares of Genome common stock at a per-share price of \$5.25 resulting in net proceeds to Genome of approximately \$80 million, after payment of expenses and fees.

The issuance of Genome common stock to Genesoft's shareholders under the Merger Agreement as described above was registered under the Securities Act of 1933, as amended (the Act), pursuant to Genome's registration statement on Form S-4 (File No. 333-111171) (the Merger Registration Statement) filed with the Securities and Exchange Commission (the SEC) and declared effective on December 30, 2003. The Joint Proxy Statement/Prospectus included in the Merger Registration Statement contains additional information about the Merger and related transactions. A copy of the Merger Agreement is attached as Exhibit 2.1 to Genome's Current Report on Form 8-K filed with the SEC on November 18, 2003, and is incorporated herein by reference. The foregoing description on the Merger Agreement is qualified in its entirety by reference to the Merger Agreement.

The issuance of Genome common stock in connection with the Offering was registered under the Act, pursuant to Genome's registration statements on Form S-3 (File No. 333-111273)

and Form S-3 (File No. 333-112435) (collectively, the Financing Registration Statements) becoming effective, respectively, on February 2, 2004 and February 3, 2004. The prospectus included in the Financing Registration Statements contains additional information about the Offering.

On February 6, 2004, Genome issued a press release announcing the closing of the Merger, which is attached hereto as Exhibit 99.1.
