**ITEM 1.01. Entry Into A Material Definitive Agreement.**

Effective February 23, 2006, Flow International Corporation amended the terms of certain key executive retention program (KERP) agreements entered into with certain executives in July 2003, at the beginning of its turnaround. These agreements were intended to provide key executives with incentives to remain with the Company by providing periodic cash payments and a stock distribution in January 2007. As the Company's financial condition has improved, reducing the risk that key executives will seek other employment, and the Company's stock price has rapidly increased, dramatically increasing the cost to the Company associated with the equity portion of the retention agreements, the Company has agreed to terminate these agreements and distribute remaining unpaid amounts. The Board of Directors believes that utilizing performance-based compensation for the Company's executives is in the Company's best interest. Terminating the retention program so that executive compensation is entirely performance based is consistent with this belief.

**ITEM 9.01. Financial Statements and Exhibits.**
