(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulations S-T Rule 101(b)(1):

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

This Form 6-K contains forward-looking statements within the meaning of the Securities Exchange Act of 1934 as amended, and information that is based on management's beliefs as well as assumptions made by and information currently available to management. When used in this

Edgar Filing: ANSELL LTD - Form 6-K

Form 6-K, the words anticipate, approach, begin, believe, continue, expect, forecast, going forward, improved, likely, look forward, outlook, plans, potential, proposal, should and would and similar expressions are intended to identify forward-looking statements. These forward-looking statements necessarily make assumptions, some of which are inherently subject to uncertainties and contingencies that are beyond the Company's control. Should one or more of these uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, expected, estimated or projected. Specifically, the ability of the Company to realize its ongoing commitment to increasing shareholder value through its ongoing restructuring, asset dispositions, strategic review and implementation, and cost cutting initiatives, may be affected by many factors including: uncertainties and contingencies such as economic conditions both in the world and in those areas where the Company has or will have substantial operations; foreign currency exchange rates; pricing pressures on products produced by its subsidiaries; growth prospects; positioning of its business segments; future production output capacity; and the success of the Company's business strategies, including further structural and operational changes, business dispositions, internal reorganizations, cost cutting, and consolidations.

Sales Up 4.6%, the largest annual increase for 8 years

Strong Balance Sheet with gearing of 10.8%

F 06 full year dividend increased by 23.5%.

Interest in South Pacific Tyres sold and A\$122 million realised.

A\$100 million share buy-back concluded in August and a new 5.7 million share buy-back authorised.

F 07 Full Year Guidance:

Edgar Filing: ANSELL LTD - Form 6-K

Taking into account Ansell's latex price expectations and additional growth expenditures, the Company expects F 07 EPS will be in the range of US46¢-US50¢ (see Outlook for details).

Ansell Limited Full Year 2006 Results Summary

Ansell (ASX:ANN) today announced a full year Profit Attributable to Shareholders of US\$86.7 million, up on the previous year's result of US\$40.1 million. These results include US\$4.1 million and US\$60.9 million write-downs of the (now fully exited) South Pacific Tyres (SPT) investment in F 06 and F 05, respectively.

The Board has declared a final dividend of A12¢ a share unfranked, payable on 5 October, 2006. The full year dividend will therefore be A21¢ a share, an increase of A4¢ or 23.5% on the previous year. At the same time, the Board announced a new on market share buy-back of 5.7 million shares, which will take the number of shares bought back over the course of this year to 10% of Ansell's issued capital, the maximum amount permitted without additional shareholder approval.

Chairman's Comments:

Mr. Peter Barnes, Ansell's Chairman, commented "Ansell had a positive year in many aspects of its performance and the Board is pleased with strategic developments and many of the operational results. However, the unprecedented increase in raw material costs, in particular, natural rubber latex, put substantial pressure on earnings. Management has undertaken a number of initiatives in an attempt to overcome this and F 06 is a very creditable result when these costs are recognised.

He continued "F 06 contained some important achievements, one of the most significant of which was the sale of our investment in SPT which realised A\$122 million. These proceeds were the basis of an A\$100 million share buy-back undertaken during the year and which concluded in August. The acquisition of Jissbon in China during the year was Ansell's first acquisition since 2000. Ansell continues to look for other such growth opportunities across the globe.

Business Review:

Mr. Doug Tough, Ansell's Chief Executive Officer, commented "F 06's top line growth of 4.6% was the highest in 8 years and this sales momentum has continued as we start our new fiscal year of 2007.

The EBIT impact of a 73% increase in natural rubber latex prices in F 06, much of which occurred in the second half, could not be recouped with price increases, manufacturing productivity improvements and overhead cost controls. With the benefit of lower interest and tax expenses however, Ansell did meet its market commitment of EPS in the US 54 - 57¢ range. This achievement in meeting our commitments despite the volatile world commodity markets reflects the benefits of our diverse regional and business portfolios. More than 50% of our products contain no latex and so we were able to withstand relatively well, the unprecedented cost impacts on our latex-containing products .

Corporate Development:

In April 2006, Ansell acquired 75% of a leading Chinese condom marketing business, Wuhan Jissbon Sanitary Products, for US\$18.5 million. Jissbon has approximately a 10% share of the rapidly growing Chinese retail condom market.

The previously announced establishment of an Occupational glove trading subsidiary in China has also occurred and Ansell has made good progress in this market. Ansell is also pleased with growth results in Russia and other emerging markets where business in all three sectors progressed well.

As previously announced, the offer for Unimil SA, a Polish condom manufacturer and marketer, lapsed after the 80% minimum acceptance condition was not met.

On 25 January 2006, the sale of Ansell s 50% share of South Pacific Tyres was completed, realising A\$122.3 million. A loss against the carrying value of A\$5.5 million (US\$4.1 million) was recorded; however, this was done in exchange for the buyer accepting various residual liabilities under the Partnership Agreement.

Occupational Healthcare:

	A\$M		US\$M	
	F 05	F 06	F 05	F 06
Sales	545.7	569.2	409.8	424.6
Segment EBIT	81.3	81.3	61.0	60.7
EBIT/Sales	14.9%	14.3%	14.9%	14.3%

The Occupational business accounted for 50% of Revenue and 56% of Segment EBIT.

After a slow first half of the year (flat on last year), second half sales were strong and resulted in a net 3.6% increase year on year, with pleasing improvement in the U.S. and the emerging markets in Europe.

Maintaining Segment EBIT at F 05 levels was a good result, given increased cost pressures on synthetic materials and natural rubber latex and changes in mix.

The HyFlex® range continues to expand, with volume growth of 17% in F 06. The new AlphaTEC grip technology glove has also had an excellent first six months, with strong demand from the petrochemical industry.

Professional Healthcare:

	A\$M		US\$M	
	F 05	F 06	F 05	F 06
Sales	367.7	387.4	276.3	289.0
Segment EBIT	43.3	38.9	32.7	29.0
EBIT/Sales	11.8%	10.0%	11.8%	10.0%

The Professional business accounted for 34% of Revenue and 27% of Segment EBIT.

Sales increased a healthy 4.6% for the year, with the Americas and European Regions driving growth. Gross margins however, were hit hard by latex price increases, resulting in a sharp reduction in EBIT and return on sales.

F 06 saw the expansion of Ansell's synthetic surgical range with the introduction of a new DermaPreh®PI glove made from polyisoprene. Synthetic surgical sales globally continued to grow, up 10% in F 06.

Examination glove sales were strong, up 14% (synthetics up over 19%); however cost pressures meant margins were down.

Consumer Healthcare

	A\$M		US\$M	
	F 05	F 06	F 05	F 06
Sales	167.7	181.6	126.0	135.5
Segment EBIT	29.1	24.0	22.0	17.9
EBIT/Sales	17.4%	13.2%	17.4%	13.2%

The Consumer business accounted for 16% of Revenue and 17% of Segment EBIT.

A strong second half in retail condom sales resulted in a year on year revenue increase of 7.5%. However, dampening this was a reduction in margins mostly due to U.S. retail market promotions, though higher latex costs also contributed. EBIT was also impacted negatively in F 06 by the Surat Thani plant detention by the US Food and Drug Administration, which cost over \$1.5 million.

The expansion in China, through the acquisition of Jissbon in April, provided an additional \$3.1 million of sales and a positive EBIT contribution. Ansell is pleased that this business is performing in line with business case expectations.

The bid and tender parts of the condom business grew strongly with sales up 18%.

Finance:

Higher latex costs and new products contributed to higher inventories and strong sales in the fourth quarter led to an increase in trade receivables as at 30 June. Even though average Days Working Capital for F 06 declined, the dollar value of Working Capital at year end rose US\$16.3 million (excluding the impact of the Jissbon acquisition). Operating EBIT was down US\$6.9 million (excluding SPT), and capital expenditure rose US\$1.7 million. Net interest paid, even after the buy-back and Jissbon acquisition, declined by US\$6.5 million but this could not offset the other movements and Free Cash Flow was US\$76.7 million in F 06 vs. US\$94.5 million in F 05.

Ansell's gearing continues to be low and at 10.8%, well below last year's 19.1%. Interest cover is also robust at 26.9X and above F 05's level of 17.7X.

Given the strength of Ansell's Balance Sheet and cash flow projections, the Board has authorised a further on market buy-back of 5.7 million shares. The Board has also determined to seek shareholder approval at the Annual General Meeting to refresh the Company's ability to purchase up to 10% of its issued capital.

Impact of AIFRS:

AIFRS required changes affected the 30 June, 2005 comparative figures as follows:-

	Reported	AIFRS	
	F 05	Adjustment	F 05
EBIT (US\$M)	33.0	+16.0	49.0
Profit Attributable (US\$M)	7.9	+32.2	40.1
EPS (US¢)	4.7	+19.3	24.0
Equity (US\$M)	459.7	+15.6	475.3

Dividends:

The Board has declared an increased final dividend of A12¢ (A10¢ in 2005) per share unfranked with a record date of 14 September, 2006 and a payment date of 5 October, 2006. For non resident shareholders, dividends will not attract withholding tax.

The total dividend paid relating to the F 06 year would therefore be A21¢, an increase of 23.5% on F 05 A\$17¢.

Outlook:

As the market has previously been advised, the net impact of significantly higher natural rubber latex costs, after increasing selling prices where possible and implementing new manufacturing initiatives, is expected to be approximately US\$10 million in F 07. This is based on Ansell's estimates of latex costs (~MYR5.5/wet kg) and the Company's ability to recover more of this increase.

In addition, the Board has supported increased spending on research, new product development, and business development initiatives in the pursuit of market share growth in current and emerging markets, and M&A activities. These investments in growth are likely to cost US\$12 million more in F 07.

Ansell's Chief Executive Officer, Doug Tough said: based on our current analysis of the cost landscape and our increases in growth overheads budgeted for F 07, the market should expect Ansell's EPS to be in the range of US46¢ to US50¢. We recognise the volatility in the world commodity markets and will keep the market well appraised of any changes in our outlook.

Sales up 4.6%, the largest annual increase for 8 years

Strong Balance Sheet with Gearing of 10.8%

F 06 full year Dividend Increased by 23.5%.

Interest in South Pacific Tyres sold and A\$122 million realised.

Business Review:

Ansell reported a full year Profit Attributable to Shareholders of US\$86.7 million, up on the previous year's result of US\$40.1 million. These results include US\$4.1 million and US\$60.9 million write-downs of the (now fully exited) South Pacific Tyres investment in F 06 and F 05, respectively.

The Board has declared a final dividend of A12¢ a share unfranked, payable on 5 October, 2006. The full year dividend will therefore be A21¢ a share, an increase of A4¢ or 23.5% on the previous year.

F 06's top line growth of 4.6% was the highest in 8 years however the EBIT impact of a 73% increase in natural rubber latex prices in F 06, much of which occurred in the second half, could not be recouped with price increases, manufacturing productivity improvements and overhead cost controls. With the benefit of lower interest and tax expenses however, Ansell did meet its market commitment of EPS in the US 54 - 57¢ range.

In April 2006, Ansell acquired 75% of a leading Chinese condom marketing business, Wuhan Jissbon Sanitary Products, for US\$18 million. Jissbon has approximately a 10% share of the rapidly growing Chinese retail condom market.

The establishment of an Occupational glove trading company in China has also occurred. Ansell is also pleased with growth results in Russia and other emerging markets where business in all three sectors progressed well.

However the offer for Unimil SA, a Polish condom manufacturer and marketer, lapsed after the 80% minimum acceptance condition was not met.

On 25 January, 2006 the sale of Ansell's 50% share of South Pacific Tyres was completed, realising A\$122.3 million. A loss against the carrying value of A\$5.5 million (US\$4.1 million) was recorded; however, this was done in exchange for the buyer accepting various residual liabilities under the Partnership Agreement.

Notes

1. Total Revenue

	2006	2005
	A\$m	A\$m
Revenue from the sale of goods	1,138.2	1,081.1
Revenue From Other Operating Activities		
Interest Received or Due and Receivable		
From related parties	2.4	4.0
From others	11.7	8.3
Total revenue from other operating activities	14.1	12.3
Total Revenue	1,152.3	1,093.4

2. Exceptional Items

	2006	2005
	A\$m	A\$m
Exceptional items included in profit before income tax expense		
Impairment loss on investment in South Pacific Tyres partnership and sale costs	(5.5)	(80.0)

3. Dividends Paid and Declared

	2006	2005
	A\$m	A\$m
Dividends Paid		
A final dividend of 10 cents per share unfranked for the year ended 30 June 2005 (June 2004 - 7 cents unfranked) was paid on 18 October 2005 (2004 - 14 October 2004)	16.0	12.4
An interim dividend of 9 cents per share unfranked for the year ended 30 June 2006 (June 2005 - 7 cents franked to 57%) was paid on 7 April 2006 (2005 - 8 April 2005)	14.2	11.2
	30.2	23.6

Dividends Declared

Since the end of the financial year the Directors have declared a final dividend of 12 cents per share unfranked, for the year ended 30 June 2006.

Edgar Filing: ANSELL LTD - Form 6-K

The financial effect of this dividend has not been brought to account in the financial statements for the year ended 30 June 2006 and will be recognised in subsequent financial reports.

4. Accumulated Losses

	2006	2005
	A\$m	A\$m
Accumulated losses at the beginning of the financial year	(583.8)	(606.8)
Adoption of AASB 139	0.2	
Transfers to reserves	(1.9)	(0.1)

Notes

8. Notes to the Industry and Regional Segments Report

(a) Corporate Revenue and Costs

Represents costs of Statutory Head Office, part of the costs of Ansell Healthcare's Corporate Head Office and non-sales revenue.

(b) Cash

Cash also includes Accufix Pacing Leads restricted deposits.

(c) Inter-Segment Transactions

Significant inter-segment sales were made by Asia Pacific - A\$206.8 million (US\$154.3 million) (2005 - \$196.8 million; US\$147.9 million) and Americas - A\$218.5 million (US\$163.1 million) (2005 - A\$219.9 million; US\$165.2 million). Inter-segment sales are predominantly made at the same prices as sales to major customers. Operating revenue is shown net of inter-segment values. Accordingly, the Operating revenues shown in each segment reflect only the external sales made by that segment.

(d) Industry Segments

The consolidated entity comprises the following main business segments:

Occupational Healthcare - manufacture and sale of occupational health and safety gloves.

Professional Healthcare - manufacture and sale of medical, surgical and examination gloves for hand barrier protection and infection control.

Consumer Healthcare - manufacture and sale of condoms, household gloves and other personal products.

(e) Regions

The allocation of Operating Revenue and Operating Results reflect the geographical regions in which the products are sold to external customers. Assets Employed are allocated to the geographical regions in which the assets are located.

Asia Pacific - manufacturing facilities in 4 countries and sales.

Americas - manufacturing facilities in USA and Mexico and significant sales activity.

Europe, Middle East and Africa - principally a sales region with one manufacturing facility in the UK.

	2006 A\$m	2005 A\$m	2006 US\$m	2005 US\$m
(f) Segment Capital Expenditure				
Occupational Healthcare	6.8	5.1	5.1	3.8
Professional Healthcare	7.8	6.0	5.8	4.5
Consumer Healthcare	1.9	3.0	1.4	2.3

(g) Region Capital Expenditure

Edgar Filing: ANSELL LTD - Form 6-K

Asia Pacific	10.6	8.3	7.9	6.2
Americas	4.7	4.6	3.5	3.5
Europe, Middle East and Africa	1.2	1.2	0.9	0.9
(h) Segment Depreciation				
Occupational Healthcare	10.2	9.1	7.6	6.8
Professional Healthcare	10.7	11.1	8.0	8.3
Consumer Healthcare	4.3	4.2	3.2	3.2
(i) Segment Other Non Cash Expenses				
Occupational Healthcare	10.5	11.3	7.8	8.5
Professional Healthcare	4.8	2.7	3.6	2.0
Consumer Healthcare	0.7	1.3	0.5	1.0

Appendix 4E - Page 16

Notes

9. Contingent Liabilities
Indemnities and Guarantees

Ansell Limited (the Company) has previously entered into Deeds of Indemnity with each of the Directors of the Company and certain officers of subsidiaries, in relation to liabilities that they may incur (other than to the Company and subsidiaries) as Directors of the Company and Directors of certain subsidiaries respectively, to the extent permitted by law and the Company s Constitution.

The Company has also guaranteed the performance of certain wholly-owned subsidiaries which have negative shareholders funds.

At this time, no liabilities the subject of any such indemnity or guarantee have been identified and, accordingly, it is not possible to quantify any financial obligation of the consolidated entity under these indemnities and of the Company pursuant to its guarantee.

Accufix Litigation

Only a limited number of lawsuits in relation to the Accufix Pacing Leads which have been made against certain subsidiaries remain on foot, the majority of which have been brought in France.

As at 30 June 2006, the balance of the provisions made for settlements in relation to claims is considered adequate to address any remaining liability of members of the consolidated entity.

Latex Allergy Litigation

As at 30 June 2006, there were approximately eight product liability cases pending against one or more subsidiaries in the United States in relation to allergic reaction to exposure to natural rubber latex gloves.

In a number of additional cases, distributors of latex gloves, who have also been named as defendants, are pursuing cross-claims and third party claims against several manufacturers of natural rubber latex gloves, including subsidiaries of Ansell Limited, in an effort to recover their costs related to the latex litigation. In some cases, judgement has been entered against an Ansell Limited subsidiary. The relevant subsidiaries are appealing these decisions. The Company is not a defendant in any cases in the United States.

It is not possible at this time to quantify the potential financial impact of the remaining cases on the consolidated entity, however they are not considered to have a material potential impact on the results either individually or on an aggregate basis.

Business and Asset Sales

The Company and various subsidiaries have, as part of the consolidated entity s historical asset and business sale program, provided warranties, indemnities and other undertakings and, in some instances, the Company has guaranteed the warranties, indemnities and other obligations of various subsidiaries, to the purchasers of assets and businesses. At this time, it is not possible to quantify the potential financial impact of those warranties, indemnities, undertakings or guarantees upon the consolidated entity. From time to time, the Company has received notices from purchasers of its businesses pursuant to the relevant sale agreements. No formal proceedings are currently on foot and, accordingly, it is not possible at this time to quantify the potential financial impact on the consolidated entity.

10. Contingent Assets
Exide Corporation

Edgar Filing: ANSELL LTD - Form 6-K

US legal proceedings are continuing against entities in the Exide Group in connection with the sale of the GNB business. Proceedings against those entities in the Exide Group that have not filed for bankruptcy (Non-bankrupt Entities) were transferred to the Delaware bankruptcy court (the Court) where the Court determined that all of the consolidated entity s claims against the Non-bankrupt Entities may only be asserted against Exide Technologies, Inc., a company which has emerged from bankruptcy.

The consolidated entity has requested that the Court reconsider its decision and the Court has denied that request. The consolidated entity has filed an appeal to the United States District Court (the Appeal Court) and, under the rules of the Appeal Court, the consolidated entity participated in a mediation with the Exide Group. The mediation did not result in an agreement among the parties regarding any of the claims each has asserted against the other. The parties have fully briefed the issues on appeal, but no decision has yet been issued by the Appeal Court. The consolidated entity will continue to pursue recovery of the amounts owed by the Exide Group, but as to the reorganised Company (Exide Technologies, Inc) the consolidated entity expects to recover only stock in that Company. The ultimate amount of the consolidated entity s claims has not yet been determined and therefore the amount and value of the stock that may be recovered from Exide Technologies, Inc. is also undetermined.

Appendix 4E - Page 17

Notes

11. Impact of Adopting Australian Equivalents to IFRS

International Financial Reporting Standards (IFRS) form the basis of Australian Accounting Standards adopted by the Australian Accounting Standards Board, being Australian equivalents to IFRS (AIFRS). These are the consolidated entity's first financial statements prepared in accordance with AIFRS and AASB 1 *First-time Adoption of Australian Equivalents to International Financial Reporting Standards* has been applied. The consolidated entity has taken the exemption available under AASB 1 to only apply AASB 132 *Financial Instruments: Disclosure and Presentation* and AASB 139 *Financial Instruments: Recognition and Measurement* from 1 July 2005.

In preparing its opening AIFRS balance sheet at 1 July 2004 and comparative information for the year ended 30 June 2005, the consolidated entity has adjusted amounts previously reported in financial statements prepared in accordance with its old basis of accounting (previous AGAAP) with the exception of comparative information in respect of AASB 132 and AASB 139.

Details of the impact of adopting AIFRS on the consolidated entity's income statement and balance sheet is set out in the following tables and the notes that accompany the tables. There was no material impact on previously reported cash flow information as a result of the adoption of AIFRS.

Impact on the Income Statement for the year ended 30 June 2005

Notes

11. Impact of Adopting Australian Equivalents to IFRS (continued)
Notes to the Income Statement and Balance Sheet tables

(a) Defined benefit superannuation plans/post retirement health benefits

AIFRS requires the consolidated entity to record on its balance sheet as an asset or liability any surplus or deficit of each of its defined benefit superannuation funds. The AASB 1 election to recognise all cumulative actuarial gains and losses at the date of transition through accumulated losses was adopted as was the option available as a result of the early adoption of AASB 119 *Employee Benefits* to record all subsequent actuarial gains or losses directly in accumulated losses.

In prior years certain US subsidiaries had recorded liabilities in respect of commitments under defined benefit pension plans and post retirement health benefit schemes. In addition amounts had been remitted to the pension plans in excess of required contributions and included within prepayments. Adjustments were required to restate these balances.

The effect of this on the consolidated entity is to:

increase retirement benefit obligations by \$20.0 million at 1 July 2004 and by \$25.2 million at 30 June 2005;

decrease non-current provisions by \$4.4 million at 1 July 2004 and by \$3.5 million at 30 June 2005;

decrease current other assets by \$1.6 million at 1 July 2004 and by \$1.2 million at 30 June 2005; and

increase accumulated losses by \$17.2 million at 1 July 2004, decrease expenses by \$2.0 million and increase accumulated losses by actuarial losses of \$7.7 million for the year 30 June 2005.

(b) Share-based payments

Options and/or Performance Share Rights (PSRs) are granted to executives under the Ansell Limited Stock Incentive Plan. Under previous AGAAP no expense was required to be recognised for options/PSRs issued to employees however the consolidated entity had previously recorded a charge to the profit and loss based on the expected vesting of PSRs with the accrual for the previous year of \$3.7 million being recorded within current payables. AIFRS requires the recognition of an expense for the fair value of both options and PSRs with a corresponding increase in a share-based payments reserve. The consolidated entity has applied AIFRS to all options/PSRs granted but not vested at 1 January 2005.

The effect of this on the consolidated entity is to:

decrease current payables by \$3.7 million at 30 June 2005;

Edgar Filing: ANSELL LTD - Form 6-K

increase the share-based payments reserve by \$1.1 million at 1 July 2004 and by \$5.7 million at 30 June 2005; and to

increase accumulated losses by \$1.1 million at 1 July 2004 and increase expenses by \$0.9 million for the year ended 30 June 2005.

(c) Foreign Currency

The consolidated entity elected to apply the exemption in AASB 1 resulting in the cumulative balance of the foreign currency translation reserve being deemed to be zero as at the date of transition to AIFRS. This had the effect of resetting the debit balance in the foreign currency translation reserve of \$279.6 million at 1 July 2004 to zero and increasing accumulated losses by this amount. At 30 June 2005 the foreign currency translation reserve was increased by \$256.2 million and accumulated losses increased by \$256.2 million. There was no impact on reported profit for the year ended 30 June 2005.

(d) Business Combinations

The consolidated entity has elected not to apply AASB 3 Business Combinations retrospectively. Under AASB 3 goodwill amortisation is prohibited and replaced by impairment testing. Goodwill was amortised under previous AGAAP. The effect is to reduce goodwill amortisation by \$20.5 million for the year ended 30 June 2005 and to increase the carrying value of goodwill by \$20.5 million as at 30 June 2005.

(e) Intangible Assets

Under previous AGAAP capitalised development costs net of provision for amortisation were included on the balance sheet under the classification Non-Current Assets - Other . Under AASB 138 Intangible Assets, capitalised development costs are disclosed within Intangible Assets. The effect of this is on the consolidated entity is to reduce Non-Current Assets - Other by \$2.1 million and increase Intangible Assets by \$2.1 million as at 30 June 2005.

Notes

11. Impact of Adopting Australian Equivalents to IFRS (continued)
Notes to the Income Statement and Balance Sheet tables (continued)

(f) Income Tax

Under previous AGAAP a deferred tax asset for accumulated tax losses was only recognised when it was virtually certain that such losses would be recouped. Under AIFRS a deferred tax asset is recognised in respect of accumulated tax losses when it is probable that such losses will be recouped. Management has reassessed the potential recovery of tax losses and has considered, among other things, the fact that the Group's US operations had generated taxable income in the three years to 30 June 2005 and expect to continue to generate taxable income in the foreseeable future. Available projections for the foreseeable future indicate that a portion of available US revenue losses will probably be recouped, and as such a deferred tax asset in respect of such losses has been recognised at 30 June 2005.

In addition the tax status of subsidiaries in other countries was also reviewed and it was deemed necessary to book additional deferred tax assets and deferred tax liabilities under the stricter requirements of AIFRS.

The effect of this on the consolidated entity is to:

increase deferred tax assets by 0.9 million at 1 July 2004 and \$22.8 million at 30 June 2005;

increase deferred tax liabilities by \$3.1 million at 1 July 2004 and \$3.5 million at 30 June 2005; and to

increase accumulated losses by \$2.2 million at 1 July 2004 and decrease income tax expense by \$21.5 million for the year ended 30 June 2005.

(g) Revenue

Under previous AGAAP proceeds from the disposal of property, plant and equipment and other investments were disclosed as part of revenue in the income statement. Under AIFRS the gain or loss on such disposals are recognised on a net basis as income or an expense rather than recognising the consideration received as revenue. The effect of this on the consolidated entity is to reduce revenue and expenses by \$1.4 million for the year ended 30 June 2005.
