#### **Board of Directors Compensation**

Effective as of the annual meeting of stockholders, each non-employee director will be entitled to receive an annual fee of \$32,000 for services provided from the date of the Company's annual meeting to the next annual meeting. For the current year, the annual fee was \$30,000. The annual fee is payable in March. The Chairman of the Board receives an additional annual fee of \$14,000. Non-employee directors receive additional cash compensation for service on committees. The exercise price for options granted to the directors is equal to the closing price of the Company's shares as of the day of the annual meeting.

The Company maintains a Non-Employee Director Restricted Stock Plan providing for the issuance of shares of restricted common stock of the Company to each non-employee member of the Board of Directors. Otherwise, directors receive restricted stock in lieu of \$5,500 of cash compensation and they may elect to receive restricted stock in lieu of the balance of their annual fee in increments of \$5,500. Restricted shares issued to a director do not become vested for resale for a period of five years or until the director's retirement from the Board following the director's 65th birthday. The Corporate Governance Committee also functions as the Company's nominating committee and is comprised exclusively of independent directors as defined in the Nasdaq Rules. The Corporate Governance Committee met four times during the last fiscal year.

The Corporate Governance Committee acts in conjunction with the Board of Directors to ensure that a regular evaluation is conducted of succession plans, performance, independence, and of the qualifications and integrity of the Board of Directors. The Corporate Governance Committee also reviews the applicable skills and characteristics required of nominees for election as directors. The objective is to balance the composition of the Board of Directors to achieve a combination of individuals of different backgrounds and experiences. In evaluating the suitability of nominees, the Corporate Governance Committee takes into account many factors, including the following: whether the candidate is currently or has recently been an executive officer at a publicly traded company; whether the candidate has substantial background in matters related to the Company's products or markets, in particular, supply chain management, information technology and marketing; and whether the candidate has substantial international business experience, a substantial financial background or is serving as a director at one or more publicly traded companies.

In determining whether to recommend a director for re-election, the Corporate Governance Committee considers the director's past attendance at meetings, results of annual evaluations and the director's participation in and anticipated future contributions to the Board of Directors. A director who will have reached the age of 72 prior to the date of the next annual meeting of stockholders will not be recommended for re-election at that meeting.

The Corporate Governance Committee reviews new Board of Director nominees through a series of internal discussions, reviewing available information, and interviewing selected candidates. Generally, candidates for nomination to the Board of Directors have been suggested by directors or employees. The Company does not currently employ a search firm or third party in connection with seeking or evaluating candidates.

The Corporate Governance Committee will consider director candidates recommended by security holders under the same criteria as other candidates described above. Nominations may be submitted by letter addressed to: WD-40 Company Corporate Governance Committee, Corporate Secretary, 1061 Cudahy Place, San Diego, CA 92110.

---

## AUDIT COMMITTEE REPORT

Each year the Board of Directors appoints an Audit Committee to fulfill regulatory requirements and to assist the Board in oversight of the Company's financial reporting, internal control functions and audit process. Each member of the Audit Committee meets the independence requirements set by the Nasdaq Stock Market.

The responsibilities of the Audit Committee include the selection and appointment of a independent registered public accounting firm to be hired as the Company's independent accountants. The Audit Committee is also responsible for recommending to the Board that the Company's consolidated financial statements be included in its annual report on Form 10-K.

With respect to the preparation and audit of the Company's consolidated financial statements, management is responsible for the preparation of the financial statements; the establishment of accounting and financial reporting principles; the establishment of disclosure controls and procedures; the establishment of internal control over financial reporting; the evaluation of the effectiveness of both disclosure controls and procedures and internal control over financial reporting; and the evaluation of changes in internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, internal control over financial reporting. The Company's independent registered public accountants are responsible for performing an independent audit of the consolidated financial statements; expressing an opinion as to whether the consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America; and expressing an opinion on both management's assessment of the effectiveness of internal control over financial reporting and specifically as to the effectiveness of the Company's internal control over financial reporting.

The Audit Committee has reviewed the consolidated financial statements of the Company for the fiscal year ended August 31, 2006. The Audit Committee has discussed the preparation of the consolidated financial statements with management and with the Company's independent registered public accounting firm, PricewaterhouseCoopers LLP, and the Audit Committee has met separately with PricewaterhouseCoopers LLP and with management to discuss issues relating to the preparation and audit of the financial statements.

For the fiscal year ended August 31, 2006, management has completed the documentation, testing and evaluation of the Company's system of internal control over financial reporting as required by Section 404 of the Sarbanes-Oxley Act of 2002. The Audit Committee has been kept apprised of management's activities in the completion of such work and evaluation and the Audit Committee has provided oversight and advice with respect to the process undertaken by management. The Audit Committee will continue to oversee such work being undertaken by the Company for the fiscal year ending August 31, 2007.

The Audit Committee has taken the following steps in making its recommendation that the Company's financial statements be included in its annual report on Form 10-K for the fiscal year ended August 31, 2006:

1. At regularly scheduled meetings of the Audit Committee, management and PricewaterhouseCoopers LLP provided periodic reports as to the work undertaken by the Company to complete the documentation, testing and evaluation of the Company's system of internal control over financial reporting. Upon completion of such work and upon preparation of the Company's consolidated financial statements for the year ended August 31, 2006, the Audit Committee reviewed a report provided by management on the effectiveness of the Company's internal control over financial reporting.
2. The Audit Committee discussed with PricewaterhouseCoopers LLP, the Company's independent registered public accounting firm for fiscal year ended August 31, 2006, those matters required to be discussed by Statement on Auditing Standards No. 61 and PCAOB Auditing Standard No. 2, including information concerning the scope and results of the audit. These communications and discussions are intended to assist the Audit Committee in overseeing the financial reporting and disclosure process.

3. The Audit Committee discussed with PricewaterhouseCoopers LLP its independence and received from PricewaterhouseCoopers LLP a letter concerning independence as required under applicable independence standards for auditors of public companies. This discussion and disclosure helped the Audit Committee in evaluating such independence.
4. The Audit Committee reviewed and discussed with the Company's management and PricewaterhouseCoopers LLP, the Company's audited consolidated balance sheet at August 31, 2006, and consolidated statements of income, cash flows and stockholders' equity for the fiscal year ended August 31, 2006.
5. The Audit Committee has reviewed PricewaterhouseCoopers LLP's Report of Independent Registered Public Accounting Firm and Management's Report on Internal Control over Financial Reporting included in the Company's annual report on Form 10-K. Based on the reviews and discussions explained above, the Audit Committee recommended to the Board that the Company's financial statements be included in its annual report on Form 10-K for its fiscal year ended August 31, 2006. PricewaterhouseCoopers LLP has been selected to serve as the Company's independent auditors for the fiscal year ending August 31, 2007.

#### Supplemental Death and Retirement Benefit Plans

The Company maintains Supplemental Death Benefit Plans for certain key employees. Under the Death Benefit Plan agreements, a participating employee's designated beneficiary or the employee's estate will receive a death benefit equal to the employee's then current base salary in the event of death prior to retirement from the Company. No death benefit is payable if retirement benefits become due upon the employee's retirement under the Retirement Benefit Plan agreement.

The Company also maintains Supplemental Retirement Benefit Plans for certain key employees. Under the Retirement Benefit Plan agreements, participating employees will receive retirement benefits in the event of the participant's retirement on or after a designated retirement date. The annual retirement benefit for participating employees will be equal to twenty-five percent (25%) of the employee's then current base salary, payable in quarterly installments over a period of fifteen years.

All benefits under the plans will be subject to payroll taxes and required withholding for state and federal income taxes as deferred compensation. The benefits are funded by key man life insurance policies purchased and owned by the Company. The Board of Directors determines which key employees will participate in the plans and the amount of benefits payable for each participant. Non-employee directors do not participate in the plans.

Based upon current (2007) base salaries, the death benefits and annual retirement benefits to be provided under the plans to the executive officers named in the Summary Compensation Table above are set forth below. The retirement benefit will not be payable unless the executive officer retires with the Company on or after reaching the specified retirement age. In such event, the actual amount of the annual benefit will be dependent upon the executive's then current annual salary.

Name	Death Benefit	Annual Retirement Benefit	Retirement Age
Garry O. Ridge	\$ 535,500	\$ 133,875	65
Michael J. Irwin	\$ 266,500	\$ 66,625	65
Graham P. Milner	\$ 238,700	\$ 59,675	65

#### Change of Control Severance Agreements

On February 14, 2006, the Company terminated pre-existing employment agreements with the executive officers named in the Summary Compensation Table above. Each executive officer serves in office at the pleasure of the

Board of Directors. On February 14, 2006, the Company entered into Change of Control Severance Agreements ( "Severance Agreements" ) with each of the named executive officers and with one additional executive officer. The new Severance Agreements provide that each executive officer will receive certain severance benefits if he is terminated without Cause or resigns for Good Reason , as those terms are defined in the Severance Agreements, within two years after a Change of Control as defined in the Severance Agreements and summarized below. If the executive officer's employment is terminated during the aforementioned two-year period by the Company without Cause or by the executive officer for Good Reason, the executive officer will be entitled to a lump sum payment (subject to limits provided by reference to Section 280G of the Internal Revenue Code which limits the deductibility of certain payments to executives upon a change in control) of twice the executive officer's salary, calculated based on the greater of the executive officer's then current annual salary or a 5-year average, plus twice the executive officer's bonus compensation, calculated based on the greater of the most recent annual bonus compensation or a 5-year average. Further, any of the executive officer's stock options and other equity incentive benefits that are not then fully vested will be accelerated and vested in full following such termination of employment within such two-year period and the executive officer will be entitled to continuation of health and welfare benefits under the Company's then existing benefit plans or equivalent benefits. No employment rights or benefits other than the change of control severance benefits are provided by the Severance Agreements.

For purposes of the Severance Agreements and subject to the express provisions and limitations contained therein, Change of Control means a transaction or series of transactions by which a person or persons acting together acquire more than 30% of the Company's outstanding shares; a change in a majority of the incumbent members of the Company's board of directors as specified in the Severance Agreements, a reorganization, merger or consolidation as specified in the Severance Agreements or a sale of substantially all of the assets or complete liquidation of the Company. As specified more particularly in the Severance Agreements, Change of Control does not include a reorganization, merger or consolidation or a sale or liquidation where a majority of incumbent members of the board of directors continue in office and more than 60% of the Company's pre-transaction shareholders continue to maintain control of the resulting or successor company.

The Severance Agreements have a term of two years, subject to automatic renewal for successive two year periods unless notice of non-renewal is provided by the Company's board of directors not less than six months prior to the end of the current term. The term of the Severance Agreements will be automatically extended for a term of two years following any Change of Control.

## COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

### Role and Membership of the Compensation Committee

The Compensation Committee of the Board (the Committee) is responsible for setting and administering the policies that govern executive compensation and the stock ownership programs for employees of the Company. The Committee also serves as the Stock Option Committee under the Company's 1990 Incentive Stock Option Plan. The Committee operates pursuant to a charter that further outlines the specific authority, duties and responsibilities of the Committee. The charter is periodically reviewed and revised by the Committee and the Board and is available on the Company's website at [www.wd40.com](http://www.wd40.com) under the Officers & Directors section.

During the fiscal year ended August 31, 2006, the Compensation Committee was comprised of John C. Adams, Jr. (Chairman), Mario L. Crivello, Richard A. Collato, Linda A. Lang and Gary L. Luick. None of the Committee members is currently or has been at any time an officer or an employee of WD-40 Company. The Committee meets at scheduled times during the year and holds additional meetings from time to time to review and discuss executive compensation issues. The Committee may also consider and take action by written consent. The Committee met four times during fiscal year 2006.

The Company's Human Resources Department supports the Compensation Committee in its work and in some cases acts pursuant to delegated authority to fulfill various functions in administering the Company's compensation programs. The Committee has the authority to engage the services of outside advisers, experts and others to assist the Committee with its responsibilities. In accordance with this authority, the Committee directly engages Compensia, Inc. as independent outside compensation consultant to advise the Committee on compensation practices and policies relating to the executive officers. The independent consulting firm does not advise management of the Company, and receives no other compensation from the Company.

### Executive Compensation Philosophy

WD-40 Company's executive compensation program is designed to achieve four primary objectives:

Attract and retain executive officers capable of leading WD-40 Company to the fulfillment of its business objectives.

Offer competitive compensation opportunities that reward individual contributions and the achievement of key corporate milestones.

Align the interests of executive officers and stockholders through long-term equity compensation.

Ensure that total compensation is commensurate with the performance and value created for stockholders.

The main components used to support these objectives are base salary, performance incentive, pension/profit sharing and equity compensation (each of which is discussed in detail below). For each of these elements of pay, the Company's strategy is to examine peer group compensation practices and deliver pay in the 25th to 75th percentile of the peer group with an overarching goal of ensuring an appropriate pay-for-performance alignment.

#### *Peer Group*

The peer group the Committee examines to assess the competitiveness of the Company's executive compensation includes consumer products companies that are in a comparable range with respect to several metrics, principally business strategy, market capitalization, and revenues. The peer group may include some or all of the companies that are included in the market indices in the graph included under Stock Performance Graph in this Proxy Statement, labor market competitors and other companies regarded as having executive compensation best practices.

The peer group is reviewed annually by the Committee and adjustments are made as necessary to ensure the group continues to properly reflect the market in which the Company competes for talent. The Committee also reviews annually the executive pay practices and levels of other similarly sized companies as reported in industry surveys and reports from compensation consulting firms. This information is considered when making recommendations for each element of compensation.

### **Components of Executive Compensation Program**

#### *Base Salary*

Base salaries for the CEO and executive officers are established at the beginning of each fiscal year. The Compensation Committee approves salaries and other components of compensation for all executive officers other than the CEO. The Committee makes a recommendation to the Board for approval of the CEO's salary and other components of compensation. Position scope and complexity as well as external market factors are used to determine base salary ranges. Salary changes are based on guidelines established for all employees using individual performance and comparable adjustments from midpoint levels for the various job classifications. After considering the factors listed above, the CEO's input with respect to the executive officer group (except the CEO), and promotions/changes in responsibilities that took place during the year, the Committee approved and recommended salary increases for fiscal year 2006 that averaged 5% for the executive officers named in the Summary Compensation Table (the actual salaries are reported in the Summary Compensation Table.) The Committee and Board have approved the following salary increases (averaging 6.3%) for the executive officers named in the Summary Compensation Table for fiscal year 2007:

	<b>2006 Base Salary</b>	<b>2007 Base Salary</b>	<b>Percent Increase</b>
<b>Executive Officer</b>			
Garry O. Ridge	\$ 510,000	\$ 535,500	5.0%
Michael J. Irwin	\$ 250,989	\$ 266,500	6.2%
Graham P. Milner	\$ 227,052	\$ 238,700	5.1%
Michael L. Freeman	\$ 242,634	\$ 266,500	9.8%
William B. Noble	\$ 294,341	\$ 321,200	5.1%

#### *Performance Incentive*

The Company uses the Performance Incentive program to tie employee compensation to the Company's financial performance relative to its annual operating plan. At the beginning of each year, the Board approves specific performance targets for the upcoming year, along with associated weightings and an objective formula for calculation of the Performance Incentive award for all employees, including the executive officers. Each executive officer's incentive award is based entirely on corporate performance as measured by the Company's EBITDA (earnings before interest, taxes, depreciation and amortization) on a consolidated basis and for relevant financial reporting segments depending upon the executive officer's job classification. The Performance Incentive for the Chief Executive Officer and the Chief Financial Officer is also based on return on invested capital. Depending upon performance results, the Performance Incentive bonus can range from 0-100% of base salary for the Chief Executive Officer and from 0-60% of base salaries for other executive officers. In October of the following year and before payment, the Committee reviews the Company's financial results and confirms calculation of the Incentive Performance awards for each of the executive officers in accordance with the objective criteria established for the program at the beginning of the year. For fiscal year 2006, the executive officers named in the Summary Compensation Table earned a Performance Incentive that was, on average, 64.1% of their total performance incentive opportunity (actual amounts are reported in the Summary Compensation Table.) The CEO received a performance incentive of \$319,400 representing 62.7% of his incentive opportunity.

The Board has approved a business plan for fiscal year 2007 which includes the specific performance targets for the Performance Incentive program. There were no changes in the weightings or formulas to be applied in calculating the Performance Incentive program for any of the executive officers for 2007.

### *Pension and Profit Sharing Plans*

Since 1963 the Company has maintained tax qualified Pension and Profit Sharing Plans for the benefit of all full time employees, including executive officers. The Company's present WD-40 Company Profit Sharing/401(k) Plan provides for mandatory employer contributions for participating employees equal to 10% of their covered compensation and permits discretionary employer contributions up to 5% of their covered compensation. The Plan also allows employees, with 401(k) tax treatment, to defer up to the allowable IRS limits for each calendar year and provides a matching contribution equal to one-half of such amounts deferred, up to a maximum of 3.3% of their covered compensation. In calendar year 2006, covered compensation includes all salary and bonus compensation up to \$220,000 and the maximum amount permitted to be contributed to the Plan for an employee, including 401(k) deferrals and employer matching contributions, is \$44,000. The Plan serves to provide Company employees with tax-advantaged retirement savings as an additional component of overall compensation. The Company's contributions to the Plan may be invested by employees in a Company Stock Fund invested in shares of the Company's common stock.

### *Equity Compensation*

Equity compensation is a critical component to the Company's efforts to attract and retain executives and key employees, encourage employee ownership in the Company, link pay with performance and align the interests of executive officers with those of stockholders. The Company provides executive officers with a substantial economic interest in the long-term appreciation of the Company's common stock through the grant of stock options at the beginning of each fiscal year, subject to vesting restrictions. Stock options provide value only if the Company's stock price increases (which benefits all stockholders), and only if the executive or employee remains with the Company until his or her options vest. The Company's standard practice is to grant options that vest over a three-year period.

The Company is sensitive to the concerns of its stockholders regarding the dilutive impact of stock options. Accordingly, the Company has designed its option grant practices to reflect an appropriate balance between stockholders' dilution concerns and the Company's need to remain competitive by recruiting and retaining high-performing employees.

All of the Company's equity plans have been approved by stockholders.

The Company's aggregate stock granting practices are conservative. For fiscal year 2006, the Board granted options to purchase a total of 215,500 shares to 64 Company employees, including the CEO and executive officers who, as a group, received 69,000 of the total options granted. The options were granted on October 18, 2005 with an exercise price of \$27.27 per share.

The guidelines for equity grants are structured in consideration of peer group practice with respect to the economic value of equity compensation provided, but also taking company performance against the Company's internal business plan and compared to the peer group into account.

Equity grants to individual executive officers are generally based on Company/individual performance in the preceding year, but also on the expected future contribution and long-term retention of the executive officer.

Due to changes in equity accounting regulations and the related shift in equity compensation practices, the Compensation Committee asked management to conduct a comprehensive review of the Company's executive and broader employee equity program in 2005 and 2006. The purpose of this review was to determine if the current stock option program: i) supports the Company's executive/employee attraction and retention initiatives; ii) provides the appropriate incentive to executives and employees to create long-term stockholder value; and iii) serves the best interests of the Company's stockholders. At this time, the Committee believes that stock options priced at the full fair market value of the Company's common stock on the date of grant best achieve the objectives stated above. However, the Committee believes that it will be prudent to consider other forms of equity compensation if business conditions and/or competitive practice change.

For fiscal year 2007, the Committee approved the following stock option grants to the executive officers named in the Summary Compensation Table:

Executive Officer	2007 Stock Option Grant
Garry O. Ridge	35,000
Michael J. Irwin	10,000
Graham P. Milner	10,000
Michael L. Freeman	10,000
William B. Noble	10,000

The options were granted on October 17, 2006 with an exercise price of \$35.99 per share.

#### *Benefits and Perquisites*

The benefits and perquisites offered to the Company's executive officers are substantially the same as those offered to all employees. The Company provides medical and other benefits to executives that are generally available to other employees, as well as a company car, laptop computer and cellular telephone. Frequent flyer mileage is available to employees for personal use and for upgrades from coach or business class as provided for business travel according to the Company's travel policies. The Company maintains Supplemental Death and Retirement Plans for certain key employees including all of the executive officers named in the Summary Compensation Table. The plans are described in greater detail under the Executive Compensation section of this Proxy Statement.

#### **Compliance with Internal Revenue Code Section 162(m)**

Section 162(m) of the Internal Revenue Code (the "Code") generally provides that publicly held companies may not deduct compensation paid to certain of its top executive officers to the extent that such compensation exceeds \$1 million per officer in a calendar year. Compensation that is performance-based compensation within the meaning of the Code does not count toward the \$1 million limit. The Compensation Committee has determined that ordinary income recognized by the Company's executive officers as a result of their exercise of stock options granted by the Board under the Company's 1990 Incentive Stock Option Plan having an exercise price at least equal to the fair market value of the Company's common stock on the date of grant, qualifies as performance-based compensation as defined under Section 162(m) of the Code. The Company expects that amounts of compensation paid to each of its executive officers in 2006 will not exceed the \$1 million limit under Section 162(m) of the Code. The Committee believes it is in the best interests of the Company to have executive officer compensation be fully deductible under Section 162(m). However, the Committee and Board nevertheless retain the discretion to provide compensation that potentially may not be fully deductible to reward performance and/or enhance retention.

#### **Conclusion**

The Compensation Committee believes that the Company's compensation program is consistent with its philosophy and goals for success. Furthermore, the executive officer compensation program is responsible to shareholder interests as evidenced by the Company's less than 50th percentile overall compensation market position compared to above 60th percentile performance for fiscal year 2006 relative to peers in key measures of revenue growth, operating income growth, EBITDA growth, and growth in market capitalization.

**ITEM NO. 2**

**RATIFICATION OF APPOINTMENT OF INDEPENDENT ACCOUNTANTS**

The Audit Committee of the Board of Directors has appointed PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Company to audit the consolidated financial statements of the Company for fiscal year 2007. Although ratification by stockholders is not required by law, the Audit Committee has determined that it is desirable to request ratification of this selection by the stockholders. Notwithstanding its selection, the Audit Committee, in its discretion, may appoint new independent accountants at any time during the year if the Audit Committee believes that such a change would be in the best interests of the Company and its stockholders. If the stockholders do not ratify the appointment of Pricewaterhouse-Coopers LLP, the Audit Committee may reconsider its selection.

A majority of the votes of the common stock present or represented at the meeting is required for approval. Broker non-votes will be voted in favor of approval. PricewaterhouseCoopers LLP acted as the Company's independent registered public accounting firm during the past fiscal year and, unless the Audit Committee appoints new independent accountants, PricewaterhouseCoopers LLP will continue to act in such capacity during the current fiscal year. It is anticipated that a representative of PricewaterhouseCoopers LLP will attend the Annual Meeting of Stockholders, will have an opportunity to make a statement if he or she desires to do so and will be available to respond to appropriate questions.

The Audit Committee's policy is to pre-approve all audit and permissible non-audit products and services provided by the independent accountants. These products and services may include audit services, audit-related services, tax services, software and other products or services. Pre-approval is generally provided for up to one year and any pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent accountants and management are required to periodically report to the Audit Committee regarding the extent of services provided by the independent accountants in accordance with this pre-approval, and the fees for the services performed to date. The Audit Committee may also pre-approve particular services on a case-by-case basis. The possible effect on the independence of the accountants is considered by the Audit Committee. There is no direct or indirect understanding or agreement that places a limit on current or future years' audit fees.

**Audit Fees**

PricewaterhouseCoopers LLP has provided audit services to the Company for each of the past two fiscal years. Audit fees consist of fees for professional services rendered for the audit of the Company's consolidated annual financial statements and review of the interim consolidated financial statements included in quarterly reports and services that are normally provided by PricewaterhouseCoopers LLP in connection with statutory and regulatory filings or engagements.
