- <sup>A</sup> *Treasury Inflation-Protected Security* Treasury security whose principal value is adjusted daily in accordance with changes to the Consumer Price Index for All Urban Consumers. Interest is calculated on the basis of the current adjusted principal value.
- <sup>B</sup> *All or a portion of this security is on loan.*
- <sup>C</sup> *All or a portion of this security is collateral to cover futures and option contracts.*
- <sup>D</sup> *Position, or a portion thereof, with an aggregate market value of \$74,170 has been segregated to collateralize the reverse repurchase agreement.*
- <sup>E</sup> *Indexed Security* The rate of interest earned on this security is tied to the London Interbank Offered Rate ( LIBOR ) or the ten year treasury bill. The coupon rate is the rate as September 30, 2006.
- <sup>F</sup> *Private Placement*
- <sup>G</sup> *Illiquid*
- <sup>H</sup> *Yankee Bond* A dollar-denominated bond issued in the U.S. by foreign entities.
- <sup>I</sup> *Rule 144a Security* A security purchased pursuant to Rule 144a under the Securities Act of 1933 which may not be resold subject to that rule except to qualified institutional buyers. These securities, which the Fund's investment adviser had determined to be liquid, represent 1.8% of net assets.
- <sup>J</sup> *Stepped coupon security* A security with a predetermined schedule of interest or dividend rate changes, at which time it begins to accrue interest or pay dividends.

#### **Security Valuation**

The Fund's securities are valued on the basis of readily available market quotations or, lacking such quotations, at fair value as determined under policies approved by and under the general oversight of the Board of Trustees. In determining fair value, all relevant qualitative and quantitative factors available are considered. These factors are subject to change over time and are reviewed periodically. The Fund may use fair value pricing instead of market quotations to value one or more securities if the Fund believes that, because of special circumstances, doing so would more accurately reflect the prices the Fund expects to realize on the current sale of those securities. Further, because of the inherent uncertainty of valuation, those estimated values may differ significantly from quoted or published values or from the values that would have been used had a ready market for the investments existed, and the differences could be material.

With respect to the Fund, where a security is traded on more than one market, which may include foreign markets, the securities are generally valued on the market considered by the Fund's adviser to be the primary market. The Fund will value its foreign securities in U.S. dollars on the basis of the then-prevailing exchange rates.

#### **Securities Lending**

The Fund lends its securities to approved brokers to earn additional income and receives cash and U.S. government securities as collateral against the loans. Cash collateral received is invested in a money market pooled account by the Fund's lending agent. Collateral is maintained over the life of the loan in an amount not less than 100% of the value of loaned securities. At September 30, 2006, the market value of the securities on loan to broker-dealers was \$155,150 for which the Fund received collateral of \$158,304 in cash. Such collateral is in the possession of the Fund's custodian. The cash was invested in the State Street Navigator Securities Lending Prime Portfolio and is included in the Fund's portfolio of investments. As with other extensions of credit, the Fund may bear the risk of delay in recovery or even loss of rights to the

collateral should the borrower of the securities fail financially.

### Options, Futures and Swap Agreements

The current market value of an exchange traded option is the last sale price or, in the absence of a sale, the price obtained by reference to broker-dealer quotations. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded. Futures contracts are marked-to-market on a daily basis. As the contract's value fluctuates, payments known as variation margin are made or received by the Fund each day, depending on the daily fluctuation in the value of the contract. The daily changes in contract value are recorded as unrealized gains or losses, and the Fund recognizes a gain or loss when the contract is closed. Swap agreements are generally priced daily based upon quotations provided by brokers and the change, if any, is recorded as unrealized appreciation or depreciation.

The following is a summary of open credit default swap contracts outstanding at September 30, 2006:

Agreement With:	Termination Date	The Fund Agrees to Pay	The Fund will Receive	Contract Notional Amount	Unrealized Appreciation/ (Depreciation)
JP Morgan Chase & Co.  (Eastman Kodak Corporation,  7.25%, due 11/15/13)	March 20, 2011	Specified amount upon credit event notice <sup>A</sup>	2.60% Quarterly	\$ 10,000	\$ 159
JP Morgan Chase & Co.  (Ford Motor Credit Corporation,  7.00%, due 10/1/13)	March 20, 2011	Specified amount upon credit event notice <sup>A</sup>	5.10% Quarterly	10,000	543
JP Morgan Chase & Co.  (General Motors Credit Corporation,  6.875%, due 8/28/12)	March 20, 2011	Specified amount upon credit event notice <sup>A</sup>	4.17% Quarterly	10,000	879
				\$ 30,000	\$ 1,581

<sup>A</sup> Upon bankruptcy or failure to make a scheduled interest payment, the Fund will pay \$1,000; upon default, the Fund will pay \$10,000. Other information regarding the Fund is available in the Fund's most recent Report to Shareholders. This information is available on the Securities and Exchange Commission's website ([www.sec.gov](http://www.sec.gov)).

**Item 2 Controls and Procedures**

- (a) Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund 2 (the Registrant) principal executive and principal financial officers have concluded, based on their evaluation of the Registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the Registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the Registrant on Form N-Q is recorded, processed, summarized and reported within the required time periods in the Securities and Exchange Commission's rules and forms and that information required to be disclosed by the Registrant in the reports that it files or submits on Form N-Q is accumulated and communicated to the Registrant's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.
