NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE A BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial statements and with the instructions to Form 10-Q of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. However, in the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2007, are not necessarily indicative of the results that may be expected for the year ended December 31, 2007. For further information, please refer to the consolidated financial statements and footnotes thereto included in the Company's Form 10-KSB for the year ended December 31, 2006.

NOTE B SUMMARY OF ORGANIZATION

The First Bancshares, Inc., Hattiesburg, Mississippi (the Company), was incorporated June 23, 1995, under the laws of the State of Mississippi for the purpose of operating as a bank holding company. The Company's primary asset is its interest in its wholly-owned subsidiary, The First, A National Banking Association.

At March 31, 2007, the Company had approximately \$444.6 million in assets, \$307.9 million in loans, \$385.9 million in deposits, and \$32.9 million in shareholders' equity. For the three months ended March 31, 2007, the Company reported a net income of \$711,000.

In the first quarter of 2006 and 2007, the Company declared and paid annual dividends of \$.16 and \$.30 per common share, respectively.

NOTE C EARNINGS PER COMMON SHARE

Basic per share data is calculated based on the weighted-average number of common shares outstanding during the reporting period. Diluted per share data includes any dilution from potential common stock outstanding, such as exercise of stock options.

Diluted per share	\$ 759,000	2,526,268	\$.30

NOTE D STOCK-BASED COMPENSATION

Prior to January 1, 2006, the Company's stock option plans were accounted for under the recognition and measurement provisions of APB Opinion No. 25 (Opinion 25), *Accounting for Stock Issued to Employees*, and related Interpretations, as permitted by FASB Statement No. 123, *Accounting for Stock-Based Compensation* (as amended by SFAS No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure*) (collectively SFAS 123). No stock-based employee compensation cost was recognized in the Company's consolidated statements of income through December 31, 2005, as all options granted under the plans had an exercise price equal to the market value of the underlying common stock on the date of grant. Effective January 1, 2006, the Company adopted the fair value recognition provisions of FASB Statement No. 123(R), *Share-Based Payment* (SFAS 123R), using the modified-prospective-transition method. Under that transition method, compensation cost recognized in 2006 includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant fair value calculated in accordance with the original provisions of SFAS 123, and (b) compensation cost for all share-based payments granted subsequent to December 31, 2005, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123(R). As of December 31, 2006, only 5,283 stock options were not fully vested and no stock options were granted during the three months ended March 31, 2007.

As a result of adopting SFAS 123(R) on January 1, 2006, the Company's earnings before income taxes for the three-months ended March 31, 2007, are not materially different than if it had continued to be accounted for as share-based compensation under Opinion 25. As of March 31, 2007, the Company had 5,283 stock options not fully vested and there was \$2,519 of total unrecognized compensation cost related to these non-vested options.

NOTE E COMPREHENSIVE INCOME

NOTE F STOCK DIVIDEND

During the quarter ending March 31, 2006, the company declared a two-for-one split of the common stock to be effected in the form of a 100 percent common stock dividend. The ex-split date was March 16, 2006. All per share data for previous periods have been adjusted for the stock dividend.

ITEM NO. 2 MANAGEMENTS DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
FINANCIAL CONDITION

The following discussion contains forward-looking statements relating to, without limitation, future economic performance, plans and objectives of management for future operations, and projections of revenues and other financial items that are based on the beliefs of the Company's management, as well as assumptions made by and information currently available to the Company's management. The words expect, estimate, anticipate, and believe, as well as similar expressions, are intended to identify forward-looking statements. The Company's actual results may differ materially from the results discussed in the forward-looking statements, and the Company's operating performance each quarter is subject to various risks and uncertainties that are discussed in detail in the Company's filings with the Securities and Exchange Commission, including the Risk Factors section in the Company's Registration Statement on Form SB-2 (Registration Number 333-61081) as filed with and declared effective by the Securities and Exchange Commission.

The First represents the primary asset of the Company. The First reported total assets of \$443.3 million at March 31, 2007, compared to \$416.5 million at December 31, 2006. Loans increased \$20.0 million, or 7%, during the first three months of 2007. Deposits at March 31, 2007, totaled \$387.0 million compared to \$360.4 million at December 31, 2006. For the three month period ended March 31, 2007, The First reported net income of \$874,000 compared to \$865,000 for the three months ended March 31, 2006.

NONPERFORMING ASSETS AND RISK ELEMENTS. Diversification within the loan portfolio is an important means of reducing inherent lending risks. At March 31, 2007, The First had no concentrations of ten percent or more of total loans in any single industry nor any geographical area outside its immediate market areas.

At March 31, 2007, The First had loans past due as follows:

	(\$ In Thousands)
Past due 30 through 89 days	\$ 4,572
Past due 90 days or more and still accruing	592

The accrual of interest is discontinued on loans which become ninety days past due (principal and/or interest), unless the loans are adequately secured and in the process of collection. Nonaccrual loans totaled \$2,893,000 at March 31, 2007. Any other real estate owned is carried at fair value, determined by an appraisal. Other real estate owned totaled \$595,000 at March 31, 2007. A loan is classified as a restructured loan when the interest rate is materially reduced or the term is extended beyond the original maturity date because of the inability of the borrower to service the debt under the original terms. The First had no restructured loans at March 31, 2007.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity is adequate with cash and cash equivalents of \$14.2 million as of March 31, 2007. In addition, loans and investment securities repricing or maturing within one year or less exceed \$182.2 million at March 31, 2007. Approximately \$61.6 million in loan commitments are expected to be funded within the next six months and other commitments, primarily standby letters of credit, totaled \$1.7 million at March 31, 2007.

There are no known trends or any known commitments or uncertainties that will result in The First's liquidity increasing or decreasing in a material way. In addition, The First is not aware of any recommendations by any regulatory authorities which would have a material effect on its liquidity, capital resources or results of operations.

Total consolidated equity capital at March 31, 2007, is \$32.9 million, or approximately 7% of total assets. On November 21, 2006, the Company closed on a public offering of its common stock. As a result of this offering, 365,000 shares were sold at a price of \$22.50 per share, with net proceeds of approximately \$8.2 million. The Company currently has adequate capital positions to meet the minimum capital requirements for all regulatory agencies. The Company's capital ratios as of March 31, 2007, are as follows:

Tier 1 leverage	8.25%
Tier 1 risk-based	10.86%
Total risk-based	12.11%

On March 26, 2002, The First Bancshares Statutory Trust 1 (the Trust), a wholly-owned subsidiary trust of the Company, issued \$7,000,000 of redeemable cumulative trust preferred securities. The Trust used the funds to acquire floating rate subordinated debentures from the Company. The debentures bear an interest rate of the 3-month LIBOR plus 3.60%. The debentures have a maturity of 30 years but are callable 5 years after issuance. These debentures were called on March 26, 2007.

On June 30, 2006, The First Bancshares Statutory Trust 2 (the Trust 2), a wholly-owned subsidiary trust of the Company, issued \$4,000,000 of redeemable cumulative trust preferred securities. The Trust 2 used the funds to acquire floating rate subordinated debentures from the Company. The debentures bear an interest rate of the 3-month LIBOR plus 1.65%. The debentures have a maturity of 30 years but are callable 5 years after issuance. The trust preferred securities qualify as Tier 1 capital up to 25% of other components of Tier 1 capital. In accordance with FIN 46,

Consolidation of Variable Interest Entities the statutory trust is not included in the consolidated financial statements. Instead the subordinated debentures due to statutory trust are included in the consolidated liabilities of the Company.

RESULTS OF OPERATIONS

The Company had a net income of \$711,000 for the three months ending March 31, 2007, compared with consolidated net income of \$759,000 for the same period last year.

Net interest income increased to \$4,169,000 from \$3,041,000 for the first three months ending March 31, 2007, or an increase of 37% as compared to the same period in 2006. Earning assets through March 31, 2007, increased \$131.9 million and interest-bearing liabilities also increased \$110.9 million when compared to March 31, 2006, reflecting an increase of 46% and 47%, respectively.

Noninterest income for the three months ending March 31, 2007, was \$654,000 compared to \$447,000 for the same period in 2006, reflecting an increase of \$207,000, or 46%. Included in noninterest income is service charges on deposit accounts, which for the three months ended March 31, 2007, totaled \$450,000 compared to \$272,000 for the same period in 2006.

The provision for loan losses was \$330,000 in the first three months of 2007 compared with \$84,000 for the same period in 2006. The allowance for loan losses of \$4.2 million at March 31, 2007 (approximately 1.40% of loans) is considered by management to be adequate to cover losses

inherent in the loan portfolio. The level of this allowance is dependent upon a number of factors, including the total amount of past due loans, general economic conditions, and management's assessment of potential losses. This evaluation is inherently subjective as it requires estimates that are susceptible to significant change. Ultimately, losses may vary from current estimates and future additions to the allowance may be necessary. Thus, there can be no assurance that charge-offs in future periods will not exceed the allowance for loan losses or that additional increases in the loan loss allowance will not be required. Management evaluates the adequacy of the allowance for loan losses quarterly and makes provisions for loan losses based on this evaluation.

Noninterest expenses increased by \$1.2 million or 52% for the three months ended March 31, 2007, when compared with the same period in 2006. This increase is primarily due to the continued growth and the opening of our Bay St. Louis and our Gulfport, MS locations as well as the acquisition of First National Bank of Wiggins.

ITEM NO. 3. CONTROLS AND PROCEDURES

As of March 31, 2007, (the Evaluation Date), we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms.

There have been no changes, significant or otherwise, in our internal controls over financial reporting that occurred during the quarter ended March 31, 2007, that has materially affected, or is reasonably likely to affect, our internal control over financial reporting.

ITEM NO. 4. RECENT ACCOUNTING PRONOUNCEMENTS

In February 2007, the Financial Accounting Standards Board (FASB) issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115* (SFAS No. 159) which permits an entity to choose to measure many financial instruments and certain other items at fair value. Most of the provisions in SFAS No. 159 are elective; however, the amendment to FASB Statement No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, applies to all entities with available-for-sale and trading securities. Some requirements apply differently to entities that do not report net income. The FASB's stated objective in issuing this standard is as follows: to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions.

The fair value option established by Statement 159 permits all entities to choose to measure eligible items at fair value at specified election dates. A business entity will report unrealized gains and losses on items for which the fair value option has been elected in earnings (or another performance indicator if the business entity does not report earnings) at each subsequent reporting date. The fair value option: (a) may be applied instrument by instrument, with a few exceptions, such as investments otherwise accounted for by the equity method; (b) is irrevocable (unless a new election date occurs); and (c) is applied only to entire instruments and not to portions of

instruments. We will adopt the provisions of SFAS No. 159 in the first quarter of 2008, as required.

In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements* (SFAS No. 157) which defines fair value, establishes a framework for measuring fair value under accounting principles generally accepted in the United States of America, and expands disclosures about fair value measurements. SFAS No. 157 applies to other accounting pronouncements that require or permit fair value measurements. This statement is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. We will be required to adopt SFAS No. 157 in the first quarter of fiscal year 2008. Management is currently evaluating the requirements of SFAS No. 157 but does not expect the impact to be significant.
