FINANCIAL INFORMATION

The information furnished in the accompanying unaudited Consolidated Balance Sheets, Statements of Income, Statements of Cash Flows and Statement of Changes in Shareholders' Equity reflects all adjustments, consisting of normal recurring items, which are, in the opinion of management, necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods. The accompanying financial statements and notes thereto should be read in conjunction with the financial statements and notes for the three years ended December 31, 2006 included in the Trust's 2006 Annual Report on Form 10-K filed with the Securities and Exchange Commission.

WASHINGTON REAL ESTATE INVESTMENT TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2007

(UNAUDITED)

NOTE 1: NATURE OF BUSINESS

Washington Real Estate Investment Trust (WRIT, the Company or the Trust), a Maryland Real Estate Investment Trust, is a self-administered, self-managed equity real estate investment trust, successor to a trust organized in 1960. Our business consists of the ownership and development of income-producing real estate properties in the greater Washington Metro region. We own a diversified portfolio of office buildings, medical office buildings, industrial/flex centers, multifamily properties and retail centers.

Federal Income Taxes

We believe that we qualify as a Real Estate Investment Trust (REIT) under Sections 856-860 of the Internal Revenue Code and intend to continue to qualify as such. To maintain our status as a REIT, we are required to distribute at least 90% of our ordinary taxable income to our shareholders. When selling properties, we have the option of (i) reinvesting the sale price of properties sold, allowing for a deferral of income taxes on the sale, (ii) paying out capital gains to the shareholders with no tax to the Company or (iii) treating the capital gains as having been distributed to the shareholders, paying the tax on the gain deemed distributed and allocating the tax paid as a credit to the shareholders. No properties were sold in the first six months of 2007 or in the year 2006.

NOTE 2: ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations, although we believe that the disclosures made are adequate to make the information presented not misleading. In addition, in the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These unaudited financial statements should be read in conjunction with the financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2006.

Within these notes to the financial statements, we refer to the three and six months ended June 30, 2007 as the 2007 Quarter and the 2007 Period , respectively, and the three and six months ended June 30, 2006 as the 2006 Quarter and the 2006 Period , respectively.

New Accounting Pronouncements

On January 1, 2007, we adopted FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of SFAS 109, Accounting for Income Taxes (FIN 48). FIN 48 prescribes how we should recognize, measure and present in our financial statements uncertain tax positions that have been taken or are expected to be taken in a tax return. Pursuant to FIN 48, we can recognize a tax benefit only if it is more likely than not that a particular tax position will be sustained upon examination or audit. To the extent the more likely than not standard has been satisfied, the benefit associated with a tax position is measured as the largest amount that is greater than 50% likely of being realized upon settlement. We have concluded that the effect is not material to our consolidated financial statements. Accordingly, we did not record a cumulative effect adjustment related to the adoption of FIN 48.

We are subject to U.S. federal income tax as well as income tax of the states of Maryland and Virginia and the District of Columbia but, as a REIT, we generally are not subject to income tax on our net income distributed as dividends to our shareholders.

Tax returns filed or to be filed for the 2003 through 2006 tax years are subject to examination by taxing authorities. We classify interest and penalties related to uncertain tax positions, if any, in our financial statements as a component of general and administrative expense.

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

In September 2006, the FASB also issued FASB Statement No. 157, Fair Value Measurements . SFAS No. 157 defines fair value, establishes a framework for measuring fair value in U.S. generally accepted accounting principles, and expands disclosures about fair value measurements. The effective date of this statement is for fiscal years beginning after November 15, 2007 and accordingly all the provisions of SFAS No. 157 will be considered when we adopt it in January 2008.

Table of Contents

WASHINGTON REAL ESTATE INVESTMENT TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2007
(UNAUDITED)

Revenue Recognition

Residential properties (our multifamily segment) are leased under operating leases with terms of generally one year or less, and commercial properties (our office, medical office, retail and industrial segments) are leased under operating leases with average terms of three to seven years. We recognize rental income and rental abatements from our residential and commercial leases when earned on a straight-line basis in accordance with SFAS No. 13 Accounting for Leases. Recognition of rental income commences when control of the facility has been given to the tenant. We record a provision for losses on accounts receivable equal to the estimated uncollectible amounts. This estimate is based on our historical experience and a review of the current status of the Company's receivables. Percentage rents, which represent additional rents based on gross tenant sales, are recognized when tenants' sales exceed specified thresholds.

In accordance with SFAS No. 66, Accounting for Sales of Real Estate, sales are recognized at closing only when sufficient down payments have been obtained, possession and other attributes of ownership have been transferred to the buyer and we have no significant continuing involvement.

We recognize cost reimbursement income from pass-through expenses on an accrual basis over the periods in which the expenses were incurred. Pass-through expenses are comprised of real estate taxes, operating expenses and common area maintenance costs which are reimbursed by tenants in accordance with specific allowable costs per tenant lease agreements.

Minority Interest

We entered into an operating agreement with a member of the entity that previously owned Northern Virginia Industrial Park in conjunction with the acquisition of this property in May 1998. This resulted in a minority ownership interest in this property based upon defined Company ownership units at the date of purchase. The operating agreement was amended and restated in 2002 resulting in a reduced minority ownership percentage interest. We account for this activity by recording minority expense by applying the minority owner's percentage ownership interest to the net income of the property and including such amount in our general and administrative expenses, thereby reducing net income. Minority interest expense was \$52,900 and \$105,200 for the 2007 Quarter and 2007 Period, respectively, and \$46,200 and \$96,200 for the 2006 Quarter and 2006 Period, respectively. Quarterly distributions are made to the minority owner equal to the quarterly dividend per share for each ownership unit.

Deferred Financing Costs

External costs associated with the issuance or assumption of mortgages, notes payable and fees associated with the lines of credit are capitalized and amortized using the effective interest rate method or the straight-line method which approximates the effective interest rate method over the term of the related debt. As of June 30, 2007 and December 31, 2006, the deferred financing costs of \$21.8 million and \$16.6 million, respectively, net of accumulated amortization of \$6.6 million and \$5.5 million, respectively, were included in Prepaid Expenses and Other Assets on the balance sheets. The amortization is included in interest expense on the accompanying consolidated statements of income. The amortization of debt costs included in interest expense totaled \$0.6 million and \$1.1 million for the 2007 Quarter and 2007 Period, respectively, and \$0.4 million and \$0.8 for the 2006 Quarter and 2006 Period, respectively.

Deferred Leasing Costs

Costs associated with the successful negotiation of leases, both external commissions and internal direct costs, are capitalized and amortized on a straight-line basis over the terms of the respective leases. If an applicable lease terminates prior to the expiration of its initial lease term, the carrying amount of the costs are written-off to expense. As of June 30, 2007 and December 31, 2006, deferred leasing costs of \$22.1 million and \$19.0 million, respectively, net of accumulated amortization of \$7.4 million and \$6.5 million, respectively, were included in Prepaid and Other

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

Assets on the balance sheets. The amortization of deferred leasing costs included in expense for properties classified as continuing operations totaled \$0.7 million and \$0.6 million for the 2007 and 2006 Quarters, respectively, and \$1.5 million and \$1.1 million for the 2007 and 2006 Periods, respectively.

Table of Contents

WASHINGTON REAL ESTATE INVESTMENT TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2007

(UNAUDITED)

Real Estate and Depreciation

Buildings are depreciated on a straight-line basis over estimated useful lives ranging from 28 to 50 years. All capital improvement expenditures associated with replacements, improvements, or major repairs to real property that extend its useful life are capitalized and depreciated using the straight-line method over their estimated useful lives ranging from 3 to 30 years. We also capitalize costs incurred in connection with our development projects, including capitalizing interest and other internal costs during periods in which development projects are in progress. In addition, we capitalize tenant leasehold improvements when certain criteria are met, including when we supervise construction and will own the improvements. All tenant improvements are amortized over the shorter of the useful life of the improvements or the term of the related tenant lease. Real estate depreciation expense, for properties classified as continuing operations, was \$15.0 million and \$11.6 million for the 2007 and 2006 Quarters, respectively, and \$28.8 million and \$22.3 million for the 2007 and 2006 Periods, respectively. Maintenance and repair costs are charged to expense as incurred.

We capitalize interest costs recognized on borrowing obligations while qualifying assets are being readied for their intended use in accordance with SFAS No. 34, Capitalization of Interest Cost. Total interest expense capitalized to real estate assets related to development and major renovation activities was \$1.6 million and \$2.9 million for the 2007 Quarter and Period, respectively, and \$0.8 million and \$1.5 million for the 2006 Quarter and Period, respectively. Interest capitalized is depreciated over the useful life of the related underlying assets when those assets are placed into service upon completion of development or construction.

We recognize impairment losses on long-lived assets used in operations, development assets or land held for future development, if indicators of impairment are present and the net undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount and estimated undiscounted cash flows associated with future development expenditures. If such carrying amount is in excess of the estimated cash flows from the operation and disposal of the property, we would recognize an impairment loss equivalent to an amount required to adjust the carrying amount to the estimated fair market value. There were no property impairments recognized during the 2007 and 2006 Quarters and 2007 and 2006 Periods.

We allocate the purchase price of acquired properties to the related physical assets and in-place leases based on their fair values, in accordance with SFAS No. 141, Business Combinations. The fair values of acquired buildings are determined on an as-if-vacant basis considering a variety of factors, including the physical condition and quality of the buildings, estimated rental and absorption rates, estimated future cash flows and valuation assumptions consistent with current market conditions. The as-if-vacant fair value is allocated to land, building and tenant improvements based on property tax assessments and other relevant information obtained in connection with the acquisition of the property.

The fair value of in-place leases consists of the following components (1) the estimated cost to us to replace the leases, including foregone rents during the period of finding a new tenant and foregone recovery of tenant pass-through expenses (referred to as Absorption Cost); (2) the estimated cost of tenant improvements and other direct costs associated with obtaining a new tenant (referred to as Tenant Origination Cost); (3) estimated leasing commissions associated with obtaining a new tenant (referred to as Leasing Commissions); (4) the above/at/below market cash flow of the leases, determined by comparing the projected cash flows of the leases in place to projected cash flows of comparable market-rate leases (referred to as Net Lease Intangibles); and (5) the value, if any, of customer relationships, determined based on our evaluation of the specific characteristics of each tenant's lease and our overall relationship with the tenant (referred to as Customer Relationship Value).

The amounts used to calculate Net Lease Intangibles are discounted using an interest rate which reflects the risks associated with the leases acquired. Tenant Origination Costs are included in Income Producing Property Assets on our balance sheet and are amortized as depreciation expense on a straight-line basis over the remaining life of the underlying leases. Leasing Commissions and Absorption Costs are classified as Other Assets and are amortized as amortization expense on a straight-line basis over the remaining life of the underlying leases. Net Lease Intangible Assets are classified as Other Assets and are amortized on a straight-line basis as a decrease to Real Estate Rental Revenue over the remaining term of the underlying leases. Net Lease Intangible Liabilities are classified as Other Liabilities and are amortized on a straight-line basis as an increase to Real Estate Rental Revenue over the remaining term of the underlying leases. Should a tenant terminate its lease, the

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

unamortized portions of the Tenant Origination Cost, Leasing Commissions and Absorption Costs and Net Lease Intangibles associated with that lease are written off to depreciation expense, amortization expense, and rental revenue, respectively.

Table of Contents

WASHINGTON REAL ESTATE INVESTMENT TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2007

(UNAUDITED)

Balances net of accumulated depreciation or amortization, as appropriate, of the components of the fair value of in-place leases at June 30, 2007 and December 31, 2006 are as follows (in millions):

	June 30, 2007			December 31, 2006		
	Gross Carrying Value	Accumulated Amortization	Net	Gross Carrying Value	Accumulated Amortization	Net
Tenant Origination Costs	\$ 27.6	\$ 8.5	\$ 19.1	\$ 19.8	\$ 6.4	\$ 13.4
Leasing Commissions and Absorption Costs	\$ 26.8	\$ 6.2	\$ 20.6	\$ 16.3	\$ 3.3	\$ 13.0
Net Lease Intangible Assets	\$ 9.2	\$ 3.9	\$ 5.3	\$ 9.2	\$ 3.5	\$ 5.7
Net Lease Intangible Liabilities	\$ 17.6	\$ 4.9	\$ 12.7	\$ 13.0	\$ 3.3	\$ 9.7

Amortization of these components combined was \$2.0 million and \$4.2 million for the 2007 Quarter and Period, respectively, and \$0.8 million and \$1.6 million for the 2006 Quarter and Period, respectively. No value had been assigned to Customer Relationship Value at June 30, 2007 or December 31, 2006.

Discontinued Operations

We classify properties as held for sale when they meet the necessary criteria specified by SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. These criteria include: senior management commits to and actively embarks upon a plan to sell the assets, the sale is expected to be completed within one year under terms usual and customary for such sales, and actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. Depreciation on these properties is discontinued, but operating revenues, operating expenses and interest expense continue to be recognized until the date of sale.

Under SFAS No. 144, revenues and expenses of properties that are either sold or classified as held for sale are presented as discontinued operations for all periods presented in the Consolidated Statements of Income.

Cash and Cash Equivalents

Cash and cash equivalents include investments readily convertible to known amounts of cash with original maturities of 90 days or less.

Restricted Cash

Restricted cash at June 30, 2007 and December 31, 2006 consisted of \$6.8 million and \$4.2 million, respectively, in funds escrowed for tenant security deposits for certain tenants, real estate tax, insurance and mortgage escrows and escrow deposits required by lenders on certain of our properties to be used for future building renovations or tenant improvements.

Share Based Compensation

We maintain Share Grant Plans and Incentive Stock Option Plans as described in Note 7, Share Options and Grants, which include qualified and non-qualified options and deferred shares for eligible employees. Shares are granted to officers, non-officer employees and trustees under the Share Grant Plan. Officer share grants vesting over five years vest in annual installments commencing one year after the date of grant and share grants that vest over three years vest twenty-five percent from date of grant in years one and two and fifty percent in year three. Officer performance share units, granted under an amendment to the Share Grant Plan, cliff vest at the end of a three-year performance period. Officer

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

and non-officer employee restricted share units, granted under an amendment to the Share Grant Plan, vest over five years. Trustee share grants are fully vested immediately upon date of share grant and are restricted from sale for the period of the trustee's service. Restricted share units issued to the non-executive Chairman vest over three years from the grant date and are restricted from sale for the period of the non-executive Chairman's service.

Compensation expense is recognized for share grants over the vesting period equal to the fair market value of the shares on the date of issuance. Compensation expense, for trustee grants that vest immediately upon the grant date, is fully recognized upon issuance based upon the fair market value of the shares on the date of grant. The unvested portion of officer, non-officer employee and trustee share grants is recognized in compensation cost over the vesting period.

Table of Contents

WASHINGTON REAL ESTATE INVESTMENT TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2007

(UNAUDITED)

Unvested shares are forfeited upon an employee's termination while unvested shares for employees eligible for retirement fully vest upon retirement. For shares granted to employees who are eligible for retirement or will become eligible for retirement during the vesting period, compensation cost is recognized over the explicit service period with acceleration of expense upon determination of the date of actual retirement for these employees. The Company will continue this practice for awards granted prior to January 1, 2006, when FAS 123R was adopted, and for shares granted after the adoption of FAS 123R the Company will recognize compensation expense through the date that the employee is no longer required to provide service to earn the award (e.g. the date the employee is eligible to retire). Unvested trustee shares are forfeited upon premature termination of the trustee's service.

Stock options were historically issued annually to officers, trustees and non-officer key employees under the Incentive Stock Option Plans. They were last issued to officers in 2002, to non-officer key employees in 2003 and to trustees in 2004. The options vested over a two-year period in annual installments commencing one year after the date of grant, except for trustee options which vested immediately upon the date of grant. Stock options issued prior to the adoption of FAS No. 123R are accounted for in accordance with APB No. 25, whereby if options are priced at fair market value or above at the date of grant and if other requirements are met then the plans are considered fixed and no compensation expense is recognized. Accordingly, we recognized no compensation expense for stock options.

Earnings per Common Share

We calculate basic and diluted earnings per share in accordance with SFAS No. 128, Earnings per Share. Basic earnings per share is computed as net income divided by the weighted-average common shares outstanding. Diluted earnings per share is computed as net income divided by the total weighted-average common shares outstanding plus the effect of dilutive common equivalent shares outstanding for the period. Dilutive common equivalent shares reflect the assumed issuance of additional common shares pursuant to certain of our share based compensation plans that could potentially reduce or dilute earnings per share, based on the treasury stock method. Other potentially dilutive common shares, including shares potentially resulting from the senior convertible notes, are considered when calculating diluted earnings per share.

Use of Estimates in the Financial Statements

The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

NOTE 3: REAL ESTATE INVESTMENTS

Our real estate investment portfolio, at cost, consists of properties located in Maryland, Washington, D.C. and Virginia as follows (in thousands):

	June 30, 2007	December 31, 2006
Office buildings	\$ 710,615	\$ 602,875
Medical office buildings	348,714	246,144

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

Retail centers	256,005	254,472
Multifamily properties	153,708	145,007
Industrial/Flex properties	332,284	304,765
	\$ 1,801,326	\$ 1,553,263

The amounts above reflect properties classified as continuing operations, which means they are to be held and used in rental operations (income producing property).

Table of Contents

WASHINGTON REAL ESTATE INVESTMENT TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2007
(UNAUDITED)

We have several properties in development in our office and multifamily sectors and one property in our retail sector that was in redevelopment for most of 2006, but was placed in service in 2006. The cost of our real estate portfolio in development is illustrated below (in thousands):

	June 30, 2007	December 31, 2006
Office buildings	\$ 65,700	\$ 54,168
Medical office buildings		
Retail centers		745
Multifamily	85,693	65,743
Industrial/Flex properties		
	\$ 151,393	\$ 120,656

We dispose of assets (sometimes using tax-deferred exchanges) that are inconsistent with our long-term strategic or return objectives and when market conditions for sale are favorable. The proceeds from the sales may be redeployed into other properties, used to fund development operations or to support other corporate needs, or distributed to our shareholders. Properties are considered held for sale when they meet the criteria specified by SFAS No.144 (see Note 2 Discontinued Operations). Depreciation on these properties is discontinued at that time, but operating revenues, other operating expenses and interest continue to be recognized until the date of sale. We had two properties classified as held for sale at June 30, 2007 and December 31, 2006. Those two properties were Maryland Trade Centers I and II with a total of 342,000 net rentable square feet, and they were classified as discontinued operations in the 2007 and 2006 Quarters and 2007 and 2006 Periods.

Operating results of the properties classified as discontinued operations are summarized as follows (in thousands):

	Quarter Ended June 30,		Period Ended June 30,	
	2007	2006	2007	2006
Revenues	\$ 1,831	\$ 1,718	\$ 3,627	\$ 3,423
Property expenses	(815)	(814)	(1,625)	(1,554)
Depreciation and amortization		(528)	(397)	(1,001)
	\$ 1,016	\$ 376	\$ 1,605	\$ 868

Operating income by property is summarized below (in thousands):

Property	Segment	Quarter Ended June 30,		Period Ended June 30,	
		2007	2006	2007	2006
Maryland Trade Center I	Office	\$ 533	\$ 188	\$ 840	\$ 429
Maryland Trade Center II	Office	483	188	765	439
		\$ 1,016	\$ 376	\$ 1,605	\$ 868

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

Our results of operations are dependent on the overall economic health of our markets, tenants and the specific segments in which we own properties. These segments include commercial office, medical office, retail, multifamily and industrial. All sectors are affected by external economic factors, such as inflation, consumer confidence, unemployment rates, etc., as well as by changing tenant and consumer requirements.

WRIT acquired the following properties during the first six months of 2007:

Acquisition	Property	Property	Rentable	Purchase Price
Date	Name	Type	Square Feet	(in thousands)
February 8, 2007	270 Technology Park	Industrial/Flex	157,000	\$ 26,500
March 1, 2007	Monument II	Office	205,000	78,200
March 9, 2007	2440 M Street	Medical office	110,000	50,000
June 1, 2007	Woodholme Medical Office Building	Medical office	125,000	29,000
June 1, 2007	Woodholme Center	Office	73,000	20,000
June 1, 2007	Ashburn Farm Office Park	Medical office	75,400	23,000
Total 2007 Period			745,400	\$ 226,700

WASHINGTON REAL ESTATE INVESTMENT TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2007

(UNAUDITED)

As discussed in Note 2, we allocate the purchase price to the related physical assets (land, building and tenant improvements) and in-place leases (absorption, tenant origination costs, leasing commissions, and net lease intangible assets/liabilities) based on their fair values, in accordance with SFAS No. 141, Business Combinations. Our acquisition of the properties listed above resulted in the recognition of \$7.8 million in absorption costs and \$2.7 million in leasing commissions, \$0.3 million in net intangible lease assets, \$7.9 million in tenant origination costs and \$4.6 million in net intangible lease liabilities. The weighted average life of these assets ranges from 7 to 110 months. The results of operations from these acquired properties are included in the income statement as of their respective acquisition date and forward.

The purchase of 270 Technology Park in February 2007 was funded from the proceeds of our convertible debt offering in January 2007. The purchase of Monument II in March 2007 was funded with proceeds from the January 2007 convertible debt offering and borrowings of \$30 million on our line of credit. The purchases of 2440 M Street, Woodholme Center, Woodholme Medical Office Building and Ashburn Farm Park properties were funded by borrowings on our line of credit. Gross borrowings of \$57.7 million were repaid with proceeds from the June 2007 equity offering of 1.6 million shares. Borrowings of \$67.5 million for these acquisitions on Credit Facility No. 2 remain outstanding as of June 30, 2007. For the purchase of Woodholme Medical Office Building and Ashburn Farm Park, mortgages were assumed for \$21.2 million and \$6.1 million, respectively. See discussion of the mortgages in Note 4.

The following unaudited pro-forma combined condensed statements of operations present the consolidated results of operations for the 2007 Quarter and Period and the 2006 Quarter and Period, as if the above described acquisitions had occurred at the beginning of the period of acquisition and the same period in the year prior to the acquisition. The unaudited pro-forma information does not purport to be indicative of the results that actually would have occurred if the acquisitions had been in effect for the Quarters and Periods presented. The unaudited data presented is in thousands, except per share data.

	Quarter Ended June 30,		Period Ended June 30,	
	2007	2006	2007	2006
Real estate revenues	\$ 65.6	\$ 57.2	\$ 130.9	\$ 112.2
Income from continuing operations	\$ 7.8	\$ 9.1	\$ 19.2	\$ 20.9
Net income	\$ 8.8	\$ 9.4	\$ 20.8	\$ 21.7
Diluted earnings per share	\$ 0.19	\$ 0.22	\$ 0.46	\$ 0.51

NOTE 4: MORTGAGE NOTES PAYABLE

	June 30, 2007	December 31, 2006
On September 27, 1999, we executed a \$50.0 million mortgage note payable secured by Munson Hill Towers, Country Club Towers, Roosevelt Towers, Park Adams Apartments and the Ashby of McLean. The mortgage bears interest at 7.14% per annum and interest only is payable monthly until October 1, 2009, at which time all unpaid principal and interest are payable in full.	\$ 50,000	\$ 50,000
On November 1, 2001, we assumed an \$8.5 million mortgage note payable, with an estimated fair value* of \$9.3 million, as partial consideration for our acquisition of Sullyfield Commerce Center. The mortgage bore interest at 9.00% per annum. Principal and interest were paid monthly until January 2, 2007, at which time all unpaid principal and interest were paid in full.		7,833
On October 9, 2003, we assumed a \$36.1 million mortgage note payable and a \$13.7 million mortgage note payable as partial consideration for our acquisition of the Prosperity Medical Centers. The mortgages bear interest at 5.36% per annum and 5.34% per annum, respectively. Principal and interest are payable monthly until May 1, 2013, at which time all unpaid principal and	47,038	47,441

interest are payable in full.

On August 12, 2004, we assumed a \$10.1 million mortgage note payable, with an estimated fair value* of \$11.2 million, as partial consideration for our acquisition of Shady Grove Medical

Village II. The mortgage bears interest at 6.98% per annum. Principal and interest are payable

monthly until December 1, 2011, at which time all unpaid principal and interest are payable in full.

WASHINGTON REAL ESTATE INVESTMENT TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2007

(UNAUDITED)

On December 22, 2004, we assumed a \$15.6 million mortgage note payable, with an estimated fair value* of \$17.8 million, and a \$3.9 million mortgage note payable with an estimated fair value of \$4.2 million as partial consideration for our acquisition of Dulles Business Park. The mortgages bear interest at 7.09% per annum and 5.94% per annum, respectively. Principal and interest are payable monthly until August 10, 2012, at which time all unpaid principal and interest are payable in full.	20,542	20,846
On March 23, 2005, we assumed a \$24.3 million mortgage note payable, with an estimated fair value* of \$25.0 million, as partial consideration for the acquisition of Frederick Crossing. The mortgage bears interest at 5.95% per annum. Principal and interest are payable monthly until January 1, 2013 at which time all unpaid principal and interest are payable in full.	24,015	24,246
On April 13, 2006, we assumed a \$5.7 million mortgage note payable as partial consideration for the acquisition of 9707 Medical Center Drive. The mortgage bears interest at 5.32% per annum. Principal and interest are payable monthly until July 1, 2028 at which time all unpaid principal and interest are payable in full.	5,500	5,569
On June 22, 2006, we assumed a \$4.9 million mortgage note payable as partial consideration for the acquisition of Plumtree Medical Center. The mortgage bears interest at 5.68% per annum. Principal and interest are payable monthly until March 11, 2013 at which time all unpaid principal and interest are payable in full.	4,799	4,836
On July 12, 2006, we assumed an \$8.8 million mortgage note payable as partial consideration for the acquisition of 15005 Shady Grove Road. The mortgage bears interest at 5.73% per annum. Principal and interest are payable monthly until March 11, 2013 at which time all unpaid principal and interest are payable in full.	8,682	8,751
On August 25, 2006, we assumed a \$34.2 million mortgage note payable as partial consideration for the acquisition of 20-50 West Gude Drive. The mortgage bears interest at 5.86% per annum. Principal and interest are payable monthly until March 11, 2013 at which time all unpaid principal and interest are payable in full.	33,705	33,990
On August 25, 2006, we assumed a \$23.1 million mortgage note payable as partial consideration for the acquisition of 902-904 Wind River Lane and 200 Orchard Ridge Road. The mortgage bears interest at 5.82%** per annum. Principal and interest are payable monthly until August 11, 2033** at which time all unpaid principal and interest are payable in full. The note may be repaid without penalty on August 11, 2010.	22,815	22,987
On June 1, 2007, we assumed a \$21.2 million mortgage note payable as partial consideration for the acquisition of Woodholme Medical Office Building. The mortgage bears interest at 5.29% per annum. Principal is payable beginning November 1, 2007, and principal and interest are payable monthly until November 1, 2015 at which time all unpaid principal and interest are payable in full.	21,200	
On June 1, 2007, we assumed a \$3.1 million mortgage note payable and a \$3.0 million mortgage note payable as partial consideration for our acquisition of the Ashburn Farm Office Park. The mortgages bear interest at 5.56% per annum and 5.69% per annum, respectively. Principal and interest are payable monthly until May 31, 2025 and July 31, 2023, respectively, at which time all unpaid principal and interest are payable in full.	5,598	
	\$ 254,324	\$ 237,073

* The fair value of the mortgage notes payable was estimated upon acquisition based upon dealer quotes for instruments with similar terms and maturities. There is no notation when the fair value is the same as the carrying value.

** If the loan is not repaid on August 11, 2010, from and after August 11, 2010, the interest rate adjusts to one of the following rates: (i) the greater of (A) 10.82% or (B) the Treasury Rate (determined as of August 11, 2010, and defined as the yield calculated using linear interpolation approximating the period from August 11, 2010 to August 11, 2033 on the basis of Federal Reserve Stat. Release H.15-Selected Interest Rates under the heading U.S. Governmental Security/Treasury Constant Maturities) plus 5%; or (ii) if the Note is an

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

asset of an entity formed for purposes of securitization and pursuant thereto securities rated by a rating agency have been issued, then the rate will equal: the greater of (A) 7.82% or (B) the Treasury Rate plus 2%. Due to the high probability that the mortgage will be paid off on August 11, 2010, that date is reflected in the future maturities schedule.

Total carrying amount of the above mortgaged properties was \$445.4 million and \$422.0 million at June 30, 2007 and December 31, 2006, respectively. Scheduled principal payments for the remaining six months in 2007 and the remaining years subsequent to December 31, 2007 are as follows (in thousands):

Total Principal Payments

2007	\$ 1,839
2008	4,057
2009	54,285
2010	25,973
2011	13,339
Thereafter	154,831
Total	\$ 254,324

NOTE 5: UNSECURED LINES OF CREDIT PAYABLE

As of June 30, 2007, we maintained a \$75.0 million unsecured line of credit maturing in June 2011 (Credit Facility No. 1) and a \$200.0 million line of credit maturing in November 2010 (Credit Facility No. 2).

Credit Facility No. 1

On June 29, 2007, WRIT entered into an unsecured revolving credit facility with SunTrust Bank. The facility, Credit Facility No. 1, has a committed capacity of \$75.0 million and a maturity date of June 29, 2011. The \$75.0 million facility replaces WRIT's prior unsecured revolving credit facility with SunTrust Bank, Credit Facility No. 4, which had a committed capacity of \$70.0 million and a maturity date of July 25, 2008. WRIT has the option to further increase the capacity under the new facility up to \$200.0 million from \$75.0 million to the extent banks (from a syndicate or otherwise) agree to provide the additional commitment. In addition, WRIT has the ability to extend the maturity date of the facility for an additional one-year period to June 29, 2012. Under the new facility, WRIT can obtain letters of credit up to \$15 million and swingline loans (payable on demand) up to \$15 million. As of June 30, 2007, \$1.4 million in Letters of Credit, previously issued under Credit Facility No. 4, were issued, with \$73.6 million unused and available capacity.

Borrowings under the new facility will bear interest at WRIT's option of LIBOR plus 0.375% or SunTrust Bank's prime rate. In addition, WRIT pays a facility fee currently equal to 0.125% of the \$75.0 million committed capacity, without regard to usage. Rates and fees may be adjusted up or down based on changes in WRIT's senior unsecured credit ratings.

During the 2007 Quarter and 2007 Period, there were no borrowings, and no facility fees or interest expense were incurred on Credit Facility No. 1.

Credit Facility No. 2

We had \$95.5 million outstanding as of June 30, 2007 related to Credit Facility No. 2, and \$0.9 million in Letters of Credit issued, with \$103.6 million unused and available capacity. There was \$33.0 million outstanding under this facility at December 31, 2006. During the quarter, \$28.0 million was borrowed in May to fund the acquisition of the Woodholme Portfolio, \$18.0 million was borrowed in June to fund the acquisition of

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

Ashburn Farm Office Park, and \$16.0 million was borrowed to fund development costs, certain capital improvements to real estate and acquisition related due diligence costs. We repaid \$57.7 million of gross borrowings with proceeds from the June 2007 equity offering.

Advances under this agreement bear interest at WRIT's option of LIBOR plus a spread based on the credit rating on our publicly issued debt or the higher of Wells Fargo Bank's prime rate and the Federal Funds Rate in effect on that day plus 0.5%. All outstanding advances are due and payable upon maturity in November 2010. Interest only payments are due and payable generally on a monthly basis. For the 2007 Quarter and 2007 Period, we incurred interest expense (excluding facility fees) of \$1,341,600 and \$1,817,800, respectively, representing an average interest rate of 5.81% and 5.79%, respectively, per annum.

Currently, Credit Facility No. 2 requires us to pay the lender a facility fee on the total commitment of 0.15% per annum. These fees are payable quarterly. For the 2007 Quarter and 2007 Period, we incurred facility fees of \$76,000 and \$151,000, respectively.

Table of Contents

WASHINGTON REAL ESTATE INVESTMENT TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2007
(UNAUDITED)

Credit Facility No. 3

This \$85.0 million line of credit with Bank One, NA (now J.P. Morgan) and Wells Fargo Bank, National Association was terminated on November 2, 2006 and replaced with Credit Facility No. 2. Advances under this agreement bore interest at LIBOR plus 55 basis points, based on the credit rating of our publicly issued debt. There were no borrowings outstanding and payable under the facility upon the termination of the agreement in November 2006. Interest only payments were due and payable generally on a monthly basis. We incurred \$554,900 in interest expense (excluding facility fees) for the 2006 Quarter and 2006 Period, representing an average interest rate of 5.57%, per annum.

Credit Facility No. 3 required us to pay the lender a facility fee on the total commitment of 0.15% per annum, based on the credit rating on our publicly issued debt. These fees were payable quarterly. We incurred facility fees of \$32,200 and \$63,800 for the 2006 Quarter and 2006 Period, respectively.

Credit Facility No. 4

We had no amounts outstanding as of June 30, 2007 related to Credit Facility No. 4, which was replaced by Credit Facility No. 1 on June 29, 2007. At December 31, 2006, \$28.0 million was outstanding under this facility. During the first quarter, \$28.0 million of gross borrowing was repaid with proceeds from the \$150 million 3.875% convertible notes issued in January 2007. Advances under this agreement bore interest at LIBOR plus a spread based on the credit rating on our publicly issued debt. Interest only payments were due and payable on a monthly basis. For the 2007 Period, we incurred \$96,400 in interest expense (excluding facility fees) representing an average interest rate of 5.90%. We incurred \$748,800 and \$1,241,700 in interest expense (excluding facility fees) for the 2006 Quarter and 2006 Period, respectively, representing an average interest rate of 5.49% and 5.33%, respectively, per annum.

Credit Facility No. 4 required us to pay the lender an annual facility fee on the total commitment of 0.15% per annum. These fees were payable quarterly. We incurred facility fees of \$26,500 and \$52,800 for the 2007 Quarter and 2007 Period, respectively. For the 2006 Quarter and 2006 Period, we incurred facility fees of \$30,000 and \$56,300, respectively.

Credit Facility No. 1 and No. 2 contain certain financial and non-financial covenants, all of which we have met as of June 30, 2007.

NOTE 6: NOTES PAYABLE

On August 13, 1996, we issued \$50.0 million of 7.25% unsecured 10-year notes due August 13, 2006 at 98.166% of par resulting in an effective interest rate of 7.49%. Net proceeds to the Trust after deducting underwriting expenses were \$48.8 million. These notes were paid in full on August 13, 2006, with advances from our lines of credit.

On February 20, 1998, we issued \$50.0 million of 7.25% unsecured notes due February 25, 2028 at 98.653% to yield approximately 7.36%. We also sold \$60.0 million in unsecured Mandatory Par Put Remarketed Securities (MOPPRS) at an effective borrowing rate through the remarketing date (February 2008) of approximately 6.74%. Our costs of the borrowings and related closed hedge settlements of approximately \$7.2 million are amortized over the lives of the notes using the effective interest method. These notes do not require any principal payment and are due in full at maturity.

On March 17, 2003, we issued \$60.0 million of 5.125% unsecured notes due March 2013. The notes bear an effective interest rate of 5.23%. Our total proceeds, net of underwriting fees, were \$59.1 million. We used portions of the proceeds of these notes to repay advances on our lines of credit and to fund general corporate purposes.

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

On December 11, 2003, we issued \$100.0 million of 5.25% unsecured notes due January 2014. The notes bear an effective interest rate of 5.34%. Our total proceeds, net of underwriting fees, were \$99.3 million. We used portions of the proceeds of these notes to repay advances on our lines of credit.

On April 26, 2005, we issued \$50.0 million of 5.05% senior unsecured notes due May 1, 2012 and \$50.0 million of 5.35% senior unsecured notes due May 1, 2015, at effective yields of 5.064% and 5.359% respectively. The net proceeds from the sale of the notes of \$99.1 million were used to repay borrowings under our lines of credit totaling \$90.5 million and the remainder was used for general corporate purposes.

Table of Contents

WASHINGTON REAL ESTATE INVESTMENT TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2007

(UNAUDITED)

On October 6, 2005 we issued an additional \$100.0 million of notes of the series of 5.35% senior unsecured notes due May 1, 2015, at an effective yield of 5.49%. \$93.5 million of the \$98.1 million net proceeds from the sale of these notes was used to repay borrowings under our lines of credit and to fund general corporate purposes.

On June 6, 2006, we issued \$100.0 million of 5.95% unsecured notes due June 15, 2011 at 99.951% of par, resulting in an effective interest rate of 5.96%. Our total proceeds, net of underwriting fees, were \$99.4 million. We used the proceeds of these notes to repay advances on one of our lines of credit.

On July 26, 2006 we issued an additional \$50.0 million of the series of 5.95% unsecured notes due June 15, 2011 at 100.127% of par, resulting in an effective yield of 5.92%. Our total proceeds, net of underwriting fees, were \$50.2 million. We used the proceeds of these notes to repay borrowings under our lines of credit and to fund general corporate purposes.

On September 11, 2006, we issued \$100.0 million of 3.875% senior convertible notes due September 15, 2026. On September 22, 2006, we issued an additional \$10.0 million of the 3.875% senior convertible notes due September 15, 2026, upon the exercise by the underwriter of an over-allotment option granted by WRIT. The notes were issued at 99.5% of par, resulting in an effective interest rate of 4.000%. Our total proceeds, net of underwriting fees, were \$106.7 million. We used the proceeds of these notes to repay borrowings under our lines of credit and to fund general corporate purposes.

On January 22, 2007, we issued an additional \$135.0 million of the 3.875% senior convertible notes due September 15, 2026. On January 30, 2007, we issued an additional \$15.0 million of the 3.875% senior convertible notes due September 15, 2026, upon the exercise by the underwriter of an over-allotment option granted by WRIT. The notes were issued at 100.5% of par, resulting in an effective interest rate of 4.003%. Our total proceeds, net of underwriting fees, were \$146.0 million. We used the proceeds of these notes to fund the acquisition of 270 Technology Park and a portion of the acquisition of Monument II, to repay borrowings under our lines of credit, and to fund general corporate purposes.

The senior convertible notes are convertible into shares of our common stock, at the option of the holder, under specific circumstances or on or after July 15, 2026, at an initial exchange rate of 20.090 shares of common stock per \$1,000 principal amount of notes. This is equivalent to an initial conversion price of \$49.78 per share, which represents a 22% premium over the \$40.80 closing price of our shares at the time the September 2006 transaction was priced and a 21% premium over the \$41.17 closing price of our shares at the time the January 2007 transaction was priced. Holders may convert their notes into shares of our common stock prior to the maturity date based on the applicable conversion rate during any fiscal quarter if the closing price of our common stock for at least 20 trading days in the 30 consecutive trading day period ending on the last trading day of the immediate preceding fiscal quarter is more than 130% of the conversion price per share on the last day of such preceding fiscal quarter. The initial conversion rate is subject to adjustment in certain circumstances including an adjustment to the rate if the quarterly dividend rate to common shareholders is in excess of \$0.4125 per share. In addition, the conversion rate will be adjusted if we make distributions of cash or other consideration by us or any of our subsidiaries in respect of a tender offer or exchange offer for our common stock, to the extent such cash and the value of any such other consideration per share of common stock validly tendered or exchanged exceeds the closing price of our common stock as defined in the note offering. Upon an exchange of notes, we will settle any amounts up to the principal amount of the notes in cash and the remaining exchange value, if any, will be settled, at our option, in cash, common shares or a combination thereof. The senior convertible notes could have a dilutive impact on our earnings per share calculation in the future. However, these notes are not dilutive in the period and not included in our earnings per share calculations.

On or after September 20, 2011, we may redeem the notes at a redemption price equal to the principal amount of the notes plus any accrued and unpaid interest, if any, up to, but excluding, the purchase date. In addition, on September 15, 2011, September 15, 2016 and September 15, 2021 or following the occurrence of certain change in control transactions prior to September 15, 2011, holders of these notes may require us to repurchase the notes for an amount equal to the principal amount of the notes plus any accrued and unpaid interest thereon.

WASHINGTON REAL ESTATE INVESTMENT TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2007

(UNAUDITED)

The following is a summary of our unsecured note borrowings (in thousands):

	June 30, 2007	December 31, 2006
6.74% notes due 2008	\$ 60,000	\$ 60,000
5.95% notes due 2011	150,000	150,000
5.05% notes due 2012	50,000	50,000
5.125% notes due 2013	60,000	60,000
5.25% notes due 2014	100,000	100,000
5.35% notes due 2015	150,000	150,000
3.875% notes due 2026	260,000	110,000
7.25% notes due 2028	50,000	50,000
Discount on notes issued	(2,102)	(2,204)
Premium on notes issued	1,166	459
Total	\$ 879,064	\$ 728,255

The required principal payments excluding the effects of note discounts or premium for the remaining six months in 2007 and the remaining years subsequent to December 31, 2007 are as follows (in thousands):

2007	\$
2008	60,000
2009	
2010	
2011	150,000
Thereafter	670,000
	\$ 880,000

Interest on these notes is payable semi-annually. All of the notes include certain non-financial covenants, and the non-convertible notes also include certain financial covenants, with which we must comply. Our unsecured notes include certain non-financial covenants, and our unsecured, non-convertible notes also include certain financial covenants, with which we must comply. The financial covenants include limits on our total debt, limits on our secured debt, limits on our required debt service payments and maintenance of a minimum level of unencumbered assets. On June 29, 2007 we received the consent of the holders of the notes to the modification of a financial covenant requiring that total debt not exceed 60% of total assets to increase the percentage to 65% and to change the definition of total assets to more accurately reflect the value of these assets. See Exhibit 99.1 to the Form 8-K filed on June 27, 2007 and Exhibit 99.1 to the Form 8-K filed on June 28, 2007 for a description of these and other modifications to the covenants. As of June 30, 2007 we were in compliance with all of our unsecured note covenants.

The covenants under the line of credit agreements require us to insure our properties against loss or damage in the amount of the replacement cost of the improvements at the properties. The covenants for the notes require us to keep all of our insurable properties insured against loss or damage at least equal to their then full insurable value. We have an insurance policy which has no terrorism exclusion; however, our financial condition and results of operations are subject to the risks associated with acts of terrorism and the potential for uninsured losses as the result of any such acts. Effective November 26, 2002, under this existing coverage, any losses caused by certified acts of terrorism would be partially reimbursed by the United States under a formula established by federal law. Under this formula the United States pays 85% of covered terrorism

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

losses exceeding the statutorily established deductible paid by the insurance provider, and insurers pay 10% until aggregate insured losses from all insurers reach \$100 billion in a calendar year. If the aggregate amount of insured losses under the Act exceeds \$100 billion during the applicable period for all insured and insurers combined, then each insurance provider will not be liable for payment of any amount which exceeds the aggregate amount of \$100 billion. This legislation expires December 31, 2007.

NOTE 7: BENEFIT PLANS

Share Options and Grants

Options

We adopted the Washington Real Estate Investment Trust 2001 Stock Option Plan to replace the 1991 Stock Option Plan that expired on June 25, 2001. The plans provided for the grant of qualified and non-qualified options. Options granted under the plans were granted with exercise prices equal to the market price on the date of grant vested 50% after year one and 50% after year two and expire ten years following the date of grant. We adopted the Washington Real Estate Investment Trust Stock Option Plan for Trustees in March 1998. Options granted to trustees were granted with exercise prices equal to the market price on the date of grant and were fully vested on the grant date. The last option awards to officers were in 2002, to non-officer key employees in 2003 and to trustees in 2004. Effective 2005 officers, non-officer key employees, and trustees received annual share grant awards.

Activity under the Plans is summarized below:

	2007	
	Shares	WtdAvg Ex Price
Outstanding at January 1	451,000	\$ 24.42
Granted		
Exercised	(7,000)	\$ 24.96
Expired/Forfeited		
Outstanding at June 30	444,000	\$ 24.41
Exercisable at June 30	444,000	\$ 24.41

The 444,000 options outstanding at June 30, 2007, all of which are exercisable, have exercise prices between \$14.47 and \$33.09, with a weighted-average exercise price of \$24.41 and a weighted average remaining contractual life of 4.7 years. The aggregate intrinsic value of outstanding exercisable shares at June 30, 2007 was \$4.3 million. The aggregate intrinsic value of options exercised in 2007 was \$94,800. There have been no forfeitures of options for the 2007 Period.

Share Grants, Performance Share Units and Restricted Share Units

We maintain a Share Grant Plan for officers, trustees, and other members of management.

In 2004 and 2005, awards were granted to officers and other members of management in the form of restricted shares, with a value equal to various percentages of a participant's salary based upon WRIT's performance compared to an appropriate benchmark target, with minimum and maximum thresholds. The awards were valued based on market value at the date of grant. Shares vest ratably over a five year period from the date of grant.

In December 2006, WRIT Board of Trustees approved written amendments to the Share Grant Plan providing for the granting of restricted share units to officers and other members of management and performance share units to officers based upon various percentages of their salaries and their positions with WRIT. For officers, one-third of the award will be in the form of restricted share units that vest twenty percent per year based upon continued employment and two-thirds of the award will be in the form of performance share units. Performance targets will be set

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

annually based on appropriate benchmarks with minimum and maximum thresholds. The performance share unit awards are based on cumulative performance over three years, and will cliff vest at the end of the three year period. For other members of management, 100% of the award will be in the form of restricted shares that vest 20% per year from date of grant based on performance targets. WRIT's Chairman and former CEO was excluded from long-term awards under the Share Grant Plan in view of his announced intention to retire in 2007. With respect to the performance share units, which are based on three-year cumulative performance targets set at the beginning of each year, the grant date does not occur until all such targets are set and thus the significant terms of the award are known. Because payouts are probable, the Company estimates the compensation expense at each reporting period, until the grant date occurs and as progress towards meeting target is known, and recognizes this expense ratably over the three-year period. The estimated expense related to the 2006 performance share units based on the stock price at the end of the period was approximately \$1.9 million of which \$167,000 and \$271,000 were recognized during the 2007 Quarter and 2007 Period, respectively. The estimated expense related to the 2007 performance share units is approximately \$2.3 million of which \$261,000 and \$368,000 were recognized during the 2007 Quarter and 2007 Period, respectively. Participants who terminate prior to the end of the three-year performance period forfeit their entire portion of the award. There were 21,877 restricted share units awarded to officers and other members of management in December 2006 and 24,344 restricted share units awarded to the former CEO in the second quarter of 2007. Performance and restricted share units awarded in 2007 were valued at a weighted average price of \$36.97 per share based upon the market value on the date of grant.

WASHINGTON REAL ESTATE INVESTMENT TRUST
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2007
(UNAUDITED)

In 2004, trustees were awarded 400 share grants each. Beginning in 2005, annual long-term incentive compensation for trustees was changed from options of 2,000 shares plus 400 restricted shares to \$30,000 in restricted shares. In May 2007, the value of the restricted shares awarded to trustees was increased to \$55,000. These shares vest immediately and are restricted from sale for the period of the trustee's service.

The following are tables of activity for the quarter ended June 30, 2007 related to our share grants and restricted share unit grants.

Share Grants	2007	
	Shares	Wtd Avg. Grant Price
Vested at January 1	191,217	27.17
Unvested at January 1	115,492	33.16
Granted	15,962	37.59
Vested during year	(59,726)	33.73
Expired/Forfeited	(100)	32.50
Unvested at June 30	71,628	33.65
Vested at June 30	250,943	28.86

During the quarter ending June 30, 2007 15,962 share grants were issued to the former CEO valued at a price of \$37.59 per share based on the market value on the date of grant. The total fair value of shares vested during the Period ending June 30, 2007 is \$2.3 million. As of June 30, 2007, the total compensation cost related to non-vested share awards not yet recognized was \$1.9 million, which is expected to be recognized over a weighted-average period of 24 months on a straight-line basis.

Restricted Share Units	2007	
	Shares	Wtd Avg Grant Price
Unvested at January 1	21,877	39.54
Granted	24,344	36.97
Exercised		
Expired/Forfeited		
Unvested at June 30	46,221	38.19
Vested at June 30		

The value of unvested restricted share units at June 30, 2007 was \$1.6 million, which is expected to be recognized as compensation cost over a period of 44 months on a straight-line basis.

Total compensation expense recognized for stock based awards in the 2007 and 2006 Quarters was \$1.1 million and \$1.5 million, respectively and \$1.7 million and \$1.8 million for the 2007 and 2006 Periods, respectively. The expense related to the quarter ending June 30, 2007 includes \$87,600 related to the accelerated vesting of the share grant awards of the former CEO as required by FAS No. 123R.

Other Benefit Plans

We have a Retirement Savings Plan (the 401K Plan), which permits all eligible employees to defer a portion of their compensation in accordance with the Internal Revenue Code. Under the 401K Plan, the Company may make discretionary contributions on behalf of eligible employees. The Company made contributions to the 401(k) plan of \$94,000 and \$198,000, for the 2007 Quarter and 2007 Period, respectively and \$79,000 and \$153,000 for the 2006 Quarter and 2006 Period, respectively.

We have adopted a non-qualified deferred compensation plan for the officers and members of the Board of Trustees. The plan allows for a deferral of a percentage of annual cash compensation and trustee fees. The plan is unfunded and payments are to be made out of the general assets of the Trust. The deferred compensation liability was \$1.9 million and \$1.8 million at June 30, 2007 and December 31, 2006, respectively. Effective in 2007 under the Long Term Incentive Plan, elected deferrals of short term incentive awards by officers are converted into restricted share units and WRIT will match 25% of the deferred short term incentive in restricted share units, which vests at the end of three years.

WASHINGTON REAL ESTATE INVESTMENT TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2007

(UNAUDITED)

We established a Supplemental Executive Retirement Plan (SERP) effective July 1, 2002 for the benefit of the former CEO, who retired on May 31, 2007. Under this plan, upon the former CEO's termination of employment from the Trust for any reason other than death, discharge for cause, or total and permanent disability he was entitled to receive an annual benefit equal to his accrued benefit times his vested interest. We account for this plan in accordance with SFAS No. 87, Employers' Accounting for Pensions, whereby we accrued benefit cost in an amount resulting in an accrued balance at the end of the former CEO's employment which is not less than the present value of the estimated benefit payments to be made. For the 2007 Quarter and 2007 Period, we recognized current service cost of \$190,000 and \$253,000, respectively and \$117,000 and \$233,000 for the 2006 Quarter and 2006 Period, respectively. On December 31, 2006, WRIT adopted the recognition and disclosure provisions of SFAS No. 158. SFAS No. 158 requires the Trust to recognize the funded status (i.e., the difference between the fair value of plan assets and the projected benefit obligations) of its pension plan in the June 30, 2007 statement of financial position, with a corresponding adjustment to accumulated other comprehensive income, net of tax. Because the former CEO's SERP is unfunded, the adoption of SFAS No. 158 did not have an effect on the Trust's consolidated financial condition at June 30, 2007, or for any prior period presented and it will not affect the Trust's operating results in future periods. The Trust currently has an investment in corporate owned life insurance intended to meet the SERP benefit liability.

In November 2005, the Board of Trustees approved the establishment of a SERP for the benefit of the officers, other than the former CEO. This is a defined contribution plan under which, upon a participant's termination of employment from the Trust for any reason other than death, discharge for cause, or total and permanent disability the participant will be entitled to receive a benefit equal to the participant's accrued benefit times the participant's vested interest. We account for this plan in accordance with EITF 97-14, Accounting for Deferred Compensation Arrangements Where Amounts Earned are Held in a Rabbi Trust and Invested and SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities, whereby the investments are reported at fair value, and unrealized holding gains and losses are included in earnings. For the 2007 Quarter and 2007 Period we recognized current service cost of \$53,000 and \$106,000, respectively and \$65,000 and \$127,000 for the 2006 Quarter and 2006 Period, respectively. This plan supersedes the split dollar life insurance plan terminated in April 2006. The Company terminated the split dollar agreements regarding ownership of the policies.

In first quarter 2007 upon the death of a retired executive officer, the Company as beneficiary on a life insurance policy, earned proceeds of \$1.3 million in excess of cash surrender value, which has been reported as other income in the financial statements for the 2007 Period.

NOTE 8: EARNINGS PER SHARE

The following table sets forth the computation of net income per average share and diluted average shares (in thousands, except per share data):

	Quarter ended June 30,		Period ended June 30,	
	2007	2006	2007	2006
Numerator for basic and diluted per share calculations:				
Income from continuing operations	\$ 7,321	\$ 7,343	\$ 17,444	\$ 17,483
Discontinued operations	1,016	376	1,605	868
Net income	\$ 8,337	\$ 7,719	\$ 19,049	\$ 18,351
Denominator for basic and diluted per share calculations:				
Denominator for basic per share amounts - weighted average shares	45,490	42,852	45,212	42,454
Effect of dilutive securities:				
Employee stock option and share grant awards	168	185	195	166

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

Denominator for diluted per share amounts	45,658	43,037	45,407	42,620
Income from continuing operations per share

 (UNAUDITED)

NOTE 9: SEGMENT INFORMATION

We have five reportable segments: office buildings, medical office buildings, retail centers, multifamily properties and industrial/flex centers. Office buildings provide office space for various types of businesses and professions. Medical office buildings provide offices and facilities for a variety of medical services. Retail centers are typically neighborhood grocery store or drug store anchored retail centers. Multifamily properties provide housing for families throughout the Washington Metropolitan area. Industrial/flex centers are used for flex-office, warehousing and distribution type facilities.

Real estate revenue as a percentage of total revenue for each of the five reportable operating segments is as follows:

	Quarter Ended June 30,		Period Ended June 30,	
	2007	2006	2007	2006
Office Buildings	40%	37%	39%	37%
Medical Office Buildings	14%	12%	14%	10%
Retail Centers	16%	18%	17%	18%
Multifamily Properties	13%	15%	13%	16%
Industrial/Flex Centers	17%	18%	17%	19%

The percentage of total real estate assets, at cost, for each of the five reportable operating segments (excluding properties held for sale and in-development) is as follows:

	June 30, 2007	December 31, 2006
Office Buildings	40%	40%
Medical Office Buildings	19%	16%
Retail Centers	14%	15%
Multifamily Properties	9%	11%
Industrial/Flex Centers	18%	18%

The accounting policies of each of the segments are the same as those described in Note 2. We evaluate performance based upon operating income from the combined properties in each segment. Our reportable segments are consolidations of similar properties. They are managed separately because each segment requires different operating, pricing and leasing strategies. All of these properties have been acquired separately and are incorporated into the applicable segment.

Segment Information (in thousands):

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the Consolidated Financial Statements of the Company and the notes thereto included elsewhere herein.

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an on-going basis, we evaluate these estimates, including those related to useful lives of real estate assets, cost reimbursement income, bad debts, impairment, contingencies and litigation. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. There can be no assurance that actual results will not differ from those estimates.

The discussion that follows is based on our consolidated results of operations for the three and six months ended June 30, 2007, the 2007 Quarter and 2007 Period, respectively, and the three months and six months ended June 30, 2006, the 2006 Quarter and 2006 Period, respectively.

Forward Looking Statements

We claim the protection of the safe harbor for forward looking statements contained in the Private Securities Litigation Reform Act of 1995 for the forward looking statements contained herein. Forward looking statements include statements in this report preceded by, followed by or that include the words believe, expect, intend, anticipate, potential, project, will and other similar expressions. The following important factors in addition to those discussed in our 2006 Annual Report on Form 10-K under the caption Risk Factors, could affect our future results and could cause those results to differ materially from those expressed in the forward looking statements: (a) the economic health of our tenants; (b) the economic health of the greater Washington Metro region, or other markets we may enter, including the effects of changes in Federal government spending; (c) the supply of competing properties; (d) inflation; (e) consumer confidence; (f) unemployment rates; (g) consumer tastes and preferences; (h) stock price and interest rate fluctuations; (i) our future capital requirements; (j) compliance with applicable laws, including those concerning the environment and access by persons with disabilities; (k) governmental or regulatory actions and initiatives; (l) changes in general economic and business conditions; (m) terrorist attacks or actions; (n) acts of war; and (o) weather conditions. We undertake no obligation to update our forward looking statements or risk factors to reflect new information, future events, or otherwise.

Overview

Our revenues are derived primarily from the ownership and operation of income-producing real properties in the greater Washington Metro region. As of June 30, 2007, we owned a diversified portfolio of 88 properties, consisting of 14 retail centers, 26 general purpose office properties, 16 medical office buildings, 23 industrial/flex properties and 9 multifamily properties, totaling 12.6 million net rentable square feet, and land held for development. We have a fundamental strategy of regional focus, diversification by property type and conservative capital management.

When evaluating our financial condition and operating performance, management focuses on the following financial and non-financial indicators, discussed in further detail herein:

Net Operating Income (NOI) by segment (Non-GAAP). NOI is calculated as real estate rental revenue less real estate operating expenses. It is a supplemental measure to Net Income.

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

Economic occupancy (or occupancy defined as actual rental revenues recognized for the period indicated as a percentage of gross potential rental revenues for that period), leased percentage (the percentage of available physical net rentable area leased for our commercial segments and percentage of apartment units leased for our residential segment) and rental rates.

Leasing activity new leases, renewals and expirations.

Funds From Operations (FFO), a non GAAP supplemental measure to Net Income.

Table of Contents

WASHINGTON REAL ESTATE INVESTMENT TRUST

JUNE 30, 2007

(UNAUDITED)

Our results in the second quarter of 2007 as compared to the second quarter of 2006, showed continued improvement in both occupancy and rental rate growth. The office sector experienced NOI increases as occupancy has improved. The medical office sector remained steady with some gains in rental rates. Retail centers had strong rental rate increases that were offset by lower occupancy. The multifamily NOI was flat as increased rental rates were offset by increased operating expenses. The industrial sector posted good rental rate growth and an increase in occupancy. All commercial sectors are benefiting from NOI contributions from the acquisitions of the last 18 months.

Progress continues on our ground-up development projects at Bennett Park, formerly Rosslyn Towers, The Clayborne Apartments, formerly South Washington Street, and Dulles Station. The development at Bennett Park and The Clayborne Apartments is progressing well with completion expected in the fourth and third quarters 2007, respectively. At Dulles Station, the building shell completion occurred early in the third quarter 2007.

GENERAL

During the first six months of 2007 we completed the following significant transactions:

The acquisition of two general purpose office properties for \$96.4 million adding approximately 278,000 square feet which were 98.7% leased at the end of the Quarter, three medical office properties for \$103.8 million adding approximately 310,400 square feet which were 96.9% leased at the end of the Quarter, and one industrial/flex property for \$26.5 million adding approximately 157,000 square feet which was 97.3% leased at the end of the Quarter.

The issuance of \$150.0 million of 3.875% senior unsecured notes due 2026 at an effective yield of 4.003% raising \$146.0 million, net.

The completion of a public offering of 1,600,000 shares of beneficial interest priced at \$37.00 per share raising \$57.8 million, net.

The opening of a new unsecured revolving credit facility with SunTrust Bank with a committed capacity of \$75.0 million and a maturity date of June 29, 2011.

The completion of modification to our bond covenants from a restrictive total assets definition to a market based asset definition.

The investment of \$34.4 million in our development projects.

The execution of new leases for 899,600 square feet of commercial space.

During the first six months of 2006 we completed the following significant transactions:

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

The acquisition of four medical office properties for a purchase price of \$71.4 million, adding approximately 235,000 square feet of rentable space which was 100.0% leased at the end of the 2006 Quarter, three industrial/flex properties for a purchase price of \$34.8 million, adding approximately 404,000 square feet of rentable space which was 80.0% leased at the end of the 2006 Quarter and two retail centers, for a purchase price of \$50.3 million, adding approximately 227,000 square feet of rentable space which was 70.7% leased as of the end of the 2006 Quarter.

The completion of a public offering of 2,745,000 shares of beneficial interest priced at \$34.40 per share raising \$90.9 million, net.

The issuance of \$100.0 million of 5.95% senior unsecured notes due June 15, 2011 at an effective yield of 5.961% raising \$99.4 million, net.

The investment of \$23.0 million in the major development and redevelopment of several properties.

The execution of new leases for 777,000 square feet of commercial space.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

We believe the following critical accounting policies affect the more significant judgments and estimates used in the preparation of our consolidated financial statements. Our significant accounting policies are described in Note 2 in the Notes to the Consolidated Financial Statements.

New Accounting Pronouncements

On January 1, 2007 we adopted FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, an interpretation of FAS 109, *Accounting for Income Taxes* (FIN 48). FIN 48 prescribes how we should recognize, measure and present in our financial statements uncertain tax positions that have been taken or are expected to be taken in a tax return. Pursuant to FIN 48, we can recognize a tax benefit only if it is more likely than not that a particular tax position will be sustained upon examination or audit. To the extent the more likely than not standard has been satisfied, the benefit associated with a tax position is measured as the largest amount that is greater than 50% likely of being realized upon settlement. We have concluded that the effect is not material to our consolidated financial statements. Accordingly, we did not record a cumulative effect adjustment related to the adoption of FIN 48.

We are subject to U.S. federal income tax as well as income tax of the states of Maryland and Virginia and the District of Columbia but, as a REIT, we generally are not subject to income tax on our net income distributed as dividends to our shareholders.

Tax returns filed or to be filed for the 2003 through 2006 tax years are subject to examination by taxing authorities. We classify interest and penalties related to uncertain tax positions, if any, in our financial statements as a component of general and administrative expense.

In September 2006, the FASB also issued FASB Statement No. 157, *Fair Value Measurements*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. The effective date of this statement is for fiscal years beginning after November 15, 2007 and accordingly all the provisions of SFAS No. 157 will be considered when we adopt it in January 2008.

Revenue Recognition

Residential properties are leased under operating leases with terms of generally one year or less, and commercial properties are leased under operating leases with average terms of three to seven years. We recognize rental income and rental abatements from our residential and commercial leases when earned on a straight-line basis in accordance with SFAS No. 13, *Accounting for Leases*. Recognition of rental income commences when control of the facility has been given to the tenant. We record a provision for losses on accounts receivable equal to the estimated uncollectible amounts. This estimate is based on our historical experience and a review of the current status of the Company's receivables. Percentage rents, which represent additional rents based on gross tenant sales, are recognized when tenants' sales exceed specified thresholds.

In accordance with SFAS No. 66, *Accounting for Sales of Real Estate*, sales are recognized at closing only when sufficient down payments have been obtained, possession and other attributes of ownership have been transferred to the buyer and we have no significant continuing involvement.

We recognize cost reimbursement income from pass-through expenses on an accrual basis over the periods in which the expenses were incurred. Pass-through expenses are comprised of real estate taxes, operating expenses and common area maintenance costs which are reimbursed by tenants in accordance with specific allowable costs per tenant lease agreements.

Capital Expenditures

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

We capitalize those expenditures related to acquiring new assets, significantly increasing the value of an existing asset, or substantially extending the useful life of an existing asset. We also capitalize costs incurred in connection with our development projects, including capitalizing interest during periods in which development projects are in progress. Expenditures necessary to maintain an existing property in ordinary operating condition are expensed as incurred. In addition, we capitalize tenant leasehold improvements when certain conditions are met, including when we supervise construction and will own the improvements.

Table of Contents

WASHINGTON REAL ESTATE INVESTMENT TRUST

JUNE 30, 2007

(UNAUDITED)

Real Estate Assets

Real estate assets are depreciated on a straight-line basis over estimated useful lives ranging from 28 to 50 years. All capital improvement expenditures associated with replacements, improvements, or major repairs to real property are depreciated using the straight-line method over their estimated useful lives ranging from 3 to 30 years. All tenant improvements are amortized over the shorter of the useful life or the term of the lease.

We allocate the purchase price of acquired properties to the related physical assets and in-place leases based on their fair values, based on SFAS No. 141, *Business Combinations*. The fair values of acquired buildings are determined on an *as-if-vacant* basis considering a variety of factors, including the physical condition and quality of the buildings, estimated rental and absorption rates, estimated future cash flows and valuation assumptions consistent with current market conditions. The *as-if-vacant* fair value is allocated to land, building and tenant improvements based on property tax assessments and other relevant information obtained in connection with the acquisition of the property.

The fair value of in-place leases consists of the following components (1) the estimated cost to us to replace the leases, including foregone rents during the period of finding a new tenant and foregone recovery of tenant pass-through expenses (referred to as *Absorption Cost*), (2) the estimated cost of tenant improvements, and other direct costs associated with obtaining a new tenant (referred to as *Tenant Origination Cost*); (3) the estimated leasing commissions associated with obtaining a new tenant (referred to as *Leasing Commissions*); (4) the above/at/below market cash flow of the leases, determined by comparing the projected cash flows of the leases in place to projected cash flows of comparable market-rate leases (referred to as *Net Lease Intangible*); and (5) the value, if any, of customer relationships, determined based on our evaluation of the specific characteristics of each tenant's lease and our overall relationship with the tenant (referred to as *Customer Relationship Value*).

The amounts used to calculate Net Lease Intangibles are discounted using an interest rate which reflects the risks associated with the leases acquired. Tenant Origination Costs are included in Real Estate Assets on our balance sheet and are amortized as depreciation expense on a straight-line basis over the remaining life of the underlying leases. Leasing Commissions and Absorption Costs are classified as Other Assets and are amortized as amortization expense on a straight-line basis over the remaining life of the underlying leases. Net Lease Intangible Assets are classified as Other Assets and are amortized on a straight-line basis as a decrease to Real Estate Rental Revenue over the remaining term of the underlying leases. Net Lease Intangible Liabilities are classified as Other Liabilities and are amortized on a straight-line basis as an increase to Real Estate Rental Revenue over the remaining term of the underlying leases. Should a tenant terminate its lease, the unamortized portions of the Tenant Origination Cost, Leasing Commissions, Absorption Costs and Net Lease Intangible associated with that lease are written off to depreciation expense, amortization expense, and rental revenue, respectively. We have attributed no value to Customer Relationship Value as of June 30, 2007 or December 31, 2006.

Discontinued Operations

We dispose of assets (sometimes using tax-deferred exchanges) that are inconsistent with our long-term strategic or return objectives and when market conditions for sale are favorable. The proceeds from the sales are reinvested into other properties, used to fund development operations or to support other corporate needs, or are distributed to our shareholders.

We classify properties as held for sale when they meet the necessary criteria specified by SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. These include: senior management commits to and actively embarks upon a plan to sell the assets, the sale is expected to be completed within one year under terms usual and customary for such sales and actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn. Depreciation on these properties is discontinued, but operating revenues, operating expenses and interest expense continue to be recognized until the date of sale.

Under SFAS 144, revenues and expenses of properties that are either sold or classified as held for sale are treated as discontinued operations for all periods presented in the Statements of Income. As of June 30, 2007 and December 31, 2006 there were two properties classified as discontinued operations on our Consolidated Balance Sheets.

Table of Contents

WASHINGTON REAL ESTATE INVESTMENT TRUST

JUNE 30, 2007

(UNAUDITED)

Impairment Losses on Long-Lived Assets

We recognize impairment losses on long-lived assets used in operations when indicators of impairment are present and the net undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount. If such carrying amount is in excess of the estimated cash flows from the operation and disposal of the property, we would recognize an impairment loss equivalent to an amount required to adjust the carrying amount to the estimated fair market value. There were no property impairments recognized during the first six months of 2007 and 2006.

Federal Income Taxes

We believe that we qualify as a REIT under Sections 856-860 of the Internal Revenue Code and intend to continue to qualify as such. To maintain our status as a REIT, we are required to distribute at least 90% of our ordinary taxable income to our shareholders. When selling properties, we have the option of (i) reinvesting the sale price of properties sold, allowing for a deferral of income taxes on the sale, (ii) paying out capital gains to the shareholders with no tax to the Company or (iii) treating the capital gains as having been distributed to the shareholders, paying the tax on the gain deemed distributed and allocating the tax paid as a credit to the shareholders. No properties were sold in the first six months of 2007 and 2006.

RESULTS OF OPERATIONS

The discussion that follows is based on our consolidated results of operations for the Quarters and Periods ended June 30, 2007 and 2006. The ability to compare one period to another may be significantly affected by acquisitions completed and dispositions made during those periods.

For purposes of evaluating comparative operating performance, we categorize our properties as core, non-core or discontinued operations. A core property is one that was owned for the entirety of the periods being evaluated. A non-core property is one that was acquired during either of the periods being evaluated and is included in continuing operations. Results for properties sold or held for sale during any of the periods evaluated are classified as discontinued operations. Three properties were acquired during the 2007 Quarter and seven properties were acquired during the 2006 Quarter. A total of six properties were acquired during the 2007 Period and nine properties were acquired during the 2006 Period. Two properties are classified as discontinued operations for the 2007 and 2006 Quarters.

To provide more insight into our operating results, our discussion is divided into two main sections: (1) Consolidated Results of Operations where we provide an overview analysis of results on a consolidated basis and (2) Net Operating Income (NOI) where we provide a detailed analysis of core versus non-core property-level NOI results by segment. NOI is calculated as real estate rental revenue less real estate operating expenses.

CONSOLIDATED RESULTS OF OPERATIONS**REAL ESTATE RENTAL REVENUE**

Real Estate Rental Revenue for properties classified as continuing operations is summarized as follows (all data in thousands, except percentage amounts):

	Quarter Ended June 30,				Period Ended June 30,			
	2007	2006	Change		2007	2006	Change	
			\$	%			\$	%
Minimum base rent	\$ 56,653	\$ 46,040	\$ 10,613	23.1%	\$ 110,344	\$ 89,853	\$ 20,491	22.8%

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

Recoveries from tenants	6,528	4,359	2,169	49.8%	12,514	8,801	3,713	42.2%
Parking and other tenant charges	1,021	952	69	7.2%	2,142	1,918	224	11.7%
	\$ 64,202	\$ 51,351	\$ 12,851	25.0%	\$ 125,000	\$ 100,572	\$ 24,428	24.3%

Real estate rental revenue is comprised of (1) minimum base rent, which includes rental revenues recognized on a straight-line basis, (2) revenue from the recovery of operating expenses from our tenants and (3) other revenue such as parking, termination fees and percentage rent.

Table of Contents

WASHINGTON REAL ESTATE INVESTMENT TRUST

JUNE 30, 2007

(UNAUDITED)

Minimum base rent increased \$10.6 million (23.1%) in the 2007 Quarter compared to the 2006 Quarter primarily due to the acquisitions in 2006 and year-to-date in 2007. These acquisitions accounted for \$8.7 million of the increase in minimum base rent in the 2007 Quarter over the 2006 Quarter and \$0.9 million of the increase in recoveries from tenants. Minimum base rent from core properties in the 2007 Quarter increased \$1.9 million over the prior year driven by increased occupancy in the office and industrial sectors and increases in rental rate growth in the multifamily, office and industrial sectors, offset somewhat by decreased occupancy in the retail sector. Minimum base rent increased \$20.5 million (22.8%) in the 2007 Period compared to the 2006 Period primarily due to the acquisitions in 2006 and 2007. These acquisitions accounted for \$16.9 million of the minimum rent increase and \$2.1 million of the increase in recoveries from tenants. Minimum base rent from core properties in the 2007 Period increased by \$3.6 million due to increased occupancy in the office and industrial sectors and increased rental rates in the office, residential and industrial sectors.

A summary of consolidated economic occupancy by sector follows:

Sector	Quarter Ended June 30,			Period Ended June 30,		
	2007	2006	Change	2007	2006	Change
Office Buildings	95.1%	92.4%	2.7%	94.0%	91.7%	2.3%
Medical Office Buildings	96.1%	98.7%	(2.6%)	97.3%	98.7%	(1.4)%
Retail Centers	95.1%	96.1%	(1.0%)	94.8%	97.7%	(2.9)%
Multifamily Properties	90.8%	90.4%	0.4%	90.7%	90.6%	0.1%
Industrial/Flex Centers	94.0%	92.5%	1.5%	94.1%	93.1%	1.0%
Total	94.4%	93.3%	1.1%	94.1%	93.4%	0.7%

Economic occupancy represents actual rental revenues recognized for the period indicated as a percentage of gross potential rental revenues for that period. Percentage rents and expense reimbursements are not considered in computing either actual rental revenues or gross potential rental revenues.

Our overall consolidated economic occupancy increased 110 basis points for the 2007 Quarter over the 2006 Quarter. Occupancy in the office sector improved 270 basis points due primarily to leasing activity at 6110 Executive Boulevard, 7900 Westpark, 1600 Wilson Boulevard, 1700 Research Boulevard and 515 King Street. Industrial sector occupancy increased 150 basis points due primarily to the lease-up of Hampton South Phase II. Occupancy in the retail sector was impacted by vacancy at newly built space at the Shoppes at Foxchase and lease termination of a single tenant at South Washington Street. The medical office sector occupancy for the quarter was impacted by units pre-leased at acquisition for 2440 M Street but occupancy not commencing until July 1, 2007.

Consolidated economic occupancy was 94.1% for the 2007 Period which was an increase of 70 basis points compared to the 2006 Period. Occupancy at the various sectors was impacted by the activity in the second quarter, discussed above.

REAL ESTATE OPERATING EXPENSES

Real estate operating expenses, for properties classified as continuing operations, are summarized as follows (all data in thousands, except percentage amounts):

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

	Quarter Ended June 30,				Period Months Ended June 30,			
	2007	2006	Change		2007	2006	Change	
			\$	%			\$	%
Property operating expenses	\$ 14,321	\$ 10,650	\$ 3,671	34.5%	\$ 28,115	\$ 21,254	\$ 6,861	32.3%
Real estate taxes	5,435	4,191	1,244	29.7%	10,600	8,364	2,236	26.7%
	\$ 19,756	\$ 14,841	\$ 4,915	33.1%	\$ 38,715	\$ 29,618	\$ 9,097	30.7%

Property operating expenses include utilities, repairs and maintenance, property administration and management, operating services, common area maintenance and other operating expenses.

Real estate operating expenses were 30.8% of revenue in the 2007 Quarter and 28.9% of the revenue in the 2006 Quarter. The properties acquired in 2006 and 2007 accounted for \$2.3 million of the \$3.7 million increase in property operating expenses and \$0.7 million of the \$1.2 million increase in real estate taxes over the 2006 Quarter. Core real estate operating expenses increased \$1.9 million as a result of higher utility costs, repair and maintenance expenses and real estate taxes.

Table of Contents

WASHINGTON REAL ESTATE INVESTMENT TRUST

JUNE 30, 2007

(UNAUDITED)

Real estate operating expenses were 31.0% of revenue for the 2007 Period and 29.4% of revenue for the 2006 Period. The properties acquired in 2006 and 2007 accounted for \$4.5 million of the \$6.9 million increase in property operating expenses and \$1.4 million of the \$2.2 million increase in real estate taxes over the 2006 Period. Core real estate operating expenses increased \$3.2 million as a result of higher utility costs, repair and maintenance expenses and real estate taxes.

OTHER OPERATING EXPENSES

Other operating expenses are summarized as follows (all data in thousands, except percentage amounts):

	Quarter Ended June 30,				Period Ended June 30,			
	2007	2006	Change		2007	2006	Change	
			\$	%			\$	%
Depreciation & amortization	\$ 16,880	\$ 12,462	\$ 4,418	35.5%	\$ 33,258	\$ 23,958	\$ 9,300	38.8%
Interest expense	15,298	11,604	3,694	31.8%	29,674	21,926	7,748	35.3%
General & administrative	5,367	5,276	91	1.7%	8,250	7,931	319	4.0%
	\$ 37,545	\$ 29,342	\$ 8,203	28.0%	\$ 71,182	\$ 53,815	\$ 17,367	32.3%

Depreciation and amortization expense increased \$4.4 million (35.5%) to \$16.9 million in the 2007 Quarter from \$12.5 million in the 2006 Quarter and \$9.3 million (38.8%) to \$33.3 million in the 2007 Period from \$24.0 million in the 2006 Period due primarily to acquisitions, capital expenditures and tenant improvements. Total operating property acquisitions were \$303.0 million in 2006 and \$226.7 million in 2007 and capital and tenant improvement expenditures were \$58.2 million in 2006 and the first half 2007, combined.

Interest expense increased \$3.7 million to \$15.3 million in the 2007 Quarter from \$11.6 million the 2006 Quarter, as 2006 and first quarter 2007 acquisitions and development activity were funded primarily by debt. Mortgage interest also increased \$0.9 million for the 2007 Quarter and \$1.8 million for the 2007 Period due to the mortgage assumptions for some acquisitions in 2006 and 2007. Interest on our development projects is capitalized.

A summary of interest expense for the Quarter and Period ended June 30, 2007 and 2006, respectively, appears below (in millions):

Debt Type	Quarter Ended June 30,			Period Ended June 30,		
	2007	2006	\$ Change	2007	2006	\$ Change
Notes payable	\$ 11.9	\$ 8.3	\$ 3.6	\$ 23.3	\$ 16.2	\$ 7.1
Mortgages	3.5	2.6	0.9	6.9	5.1	1.8
Lines of credit	1.5	1.5		2.3	2.1	0.2
Capitalized interest	(1.6)	(0.8)	(0.8)	(2.9)	(1.5)	(1.4)
Total	\$ 15.3	\$ 11.6	\$ 3.7	\$ 29.6	\$ 21.9	\$ 7.7

General and administrative expenses increased to \$5.4 million for the 2007 Quarter compared to \$5.3 million for the 2006 Quarter and \$8.3 million for the 2007 Period compared to \$7.9 million for the 2006 period, primarily due to the bondholder consent solicitation fees incurred in the second quarter 2007.

OTHER INCOME

In March 2007, upon the death of a retired executive officer, the Company, as beneficiary on a life insurance policy, recognized proceeds of \$1.3 million in excess of cash surrender value, which has been reported as other income in the financial statements for the 2007 Period.

DISCONTINUED OPERATIONS

We dispose of assets that are inconsistent with our long term strategic or return objectives or where market conditions for sale are favorable. The proceeds from the sales are reinvested into other properties, used to fund development operations or support corporate needs, or distributed to our shareholders. WRIT did not dispose of any properties in the 2007 or 2006 Periods, but there were two properties classified as held for sale and reported as discontinued operations.

Table of Contents

WASHINGTON REAL ESTATE INVESTMENT TRUST

JUNE 30, 2007

(UNAUDITED)

Operating results of the properties classified as discontinued operations for the 2007 and 2006 Quarters and Periods are summarized as follows (in thousands):

	Quarter ended June 30,			Period ended June 30,		
	2007	2006	\$ Change	2007	2006	\$ Change
Revenues	\$ 1,831	\$ 1,718	\$ 113	\$ 3,627	\$ 3,423	\$ 204
Property expenses	(815)	(814)	(1)	(1,625)	(1,554)	(71)
Depreciation and amortization		(528)	528	(397)	(1,001)	604
	\$ 1,016	\$ 376	\$ 640	\$ 1,605	\$ 868	\$ 737

NET OPERATING INCOME

Real estate NOI is one of the key performance measures we use to assess the results of our operations at the property level. We provide NOI as a supplement to net income calculated in accordance with U. S. generally accepted accounting principles (GAAP). NOI does not represent net income calculated in accordance with GAAP. As such, it should not be considered an alternative to net income as an indication of our operating performance. NOI is calculated as net income, less non-real estate (other) revenue, plus interest expense, depreciation and amortization and general and administrative expenses. A reconciliation of NOI to net income is provided below.

2007 Quarter Compared to the 2006 Quarter

The following tables of selected consolidated operating data provide the basis for our discussion of NOI in the 2007 Quarter compared to the 2006 Quarter. All amounts are in thousands except percentage amounts.

	Quarter Ended June 30,			
	2007	2006	\$ Change	% Change
Real Estate Rental Revenue

WASHINGTON REAL ESTATE INVESTMENT TRUST

JUNE 30, 2007

(UNAUDITED)

	Quarter Ended June 30,	
	2007	2006
Economic Occupancy		
Core	94.8%	93.7%
Non-core ⁽¹⁾⁽²⁾	93.1%	88.2%
Total	94.4%	93.3%

⁽¹⁾ Non-core properties include:

2007 in development Bennett Park, Clayborne Apartments

2007 acquisitions 270 Technology Park, Monument II, 2440 M Street, Woodholme Medical Office Building, Woodholme Center and Ashburn Farm Office Park

2006 acquisitions Alexandria Professional Center, 9707 Medical Center Drive, 15001 Shady Grove Road, Montrose Shopping Center, Randolph Shopping Center, 9950 Business Parkway, Plumtree Medical Center, 15005 Shady Grove Road, 6565 Arlington Blvd, West Gude Drive, The Ridges and The Crescent

⁽²⁾ Discontinued operations include income from operations for:

2007 Quarter and 2006 Quarter held for sale Maryland Trade Centers I and II

We recognized NOI of \$44.4 million in the 2007 Quarter, which was \$7.9 million or 21.7% greater than in the 2006 Quarter due primarily to our acquisitions in 2006 and in the first quarter 2007. These acquired properties contributed \$8.1 million in NOI in the 2007 Quarter (18.3% of total NOI).

Core properties experienced a \$1.1 million increase (3.2%) in NOI due to a \$3.0 million increase in revenue offset somewhat by a \$1.9 million increase in property expenses. Real estate revenue benefited from increased occupancy in the office and industrial sectors, as well as increased rental rates in all sectors, offset somewhat by increased vacancy in the retail sector. The increase in core expenses was driven primarily by the office, multifamily, retail and industrial sectors, which contributed \$0.8 million, \$0.5 million, \$0.2 million and \$0.2 million respectively, to the increase as a result of higher real estate taxes, utilities and maintenance expense.

Overall economic occupancy increased from 93.3% in the 2006 Quarter to 94.4% in the 2007 Quarter as core economic occupancy increased from 93.7% to 94.8%, due largely to increases in the office sector, offset somewhat by decreases in core retail sector occupancy. As of June 30, 2007, 12.2% of the total commercial square footage leased is scheduled to expire in the next twelve months. During the 2007 Quarter, 62.9% of the square footage that expired was renewed and we executed new leases for 534,000 square feet with a 20.8% increase in rental rates. An analysis of NOI by sector follows.

2007 acquisitions Monument II and Woodholme Center

2006 acquisitions 6565 Arlington Blvd, West Gude Drive, The Ridges

2007 and 2006 held for sale Maryland Trade Centers I and II

The office sector recognized NOI of \$17.0 million in the 2007 Quarter, which was \$4.3 million or 33.5%, higher than in the 2006 Quarter due primarily to the NOI contribution of the properties acquired in 2006 and 2007. Those properties contributed \$3.6 million to the increase in NOI. Core office sector NOI was \$0.6 million (4.9 %) higher than in the comparable quarter in 2006 due primarily to increased occupancy and rental rates.

The core office rental revenue increased as rental rates were up 1.7% compared to the second quarter 2006 and occupancy increased 300 basis points. This was driven by the leasing activity at 1700 Research Boulevard, 6110 Executive Boulevard, 7900 Westpark, 1600 Wilson Boulevard, 1901 Pennsylvania Avenue and 515 King Street. Core real estate expenses increased 14.0% due primarily to increased utility cost as a result of supplier rate increases for the Maryland and DC properties and higher occupancy and real estate taxes.

Core economic occupancy increased to 95.6% from 92.6% as a result of the leasing activity at the properties described above.

As of June 30, 2007, 10.8% of the total office square footage leased is scheduled to expire in the next twelve months. During the 2007 Quarter, 47.2% of the square footage that expired was renewed and we executed new leases for 116,000 square feet of office space with a 14.4% increase in rental rates.

WASHINGTON REAL ESTATE INVESTMENT TRUST

JUNE 30, 2007

(UNAUDITED)

2007 acquisitions 2440 M Street, Woodholme Medical Office Building and Ashburn Farm Office Park

2006 acquisitions Alexandria Professional Center, 9707 Medical Center Drive, 15001 Shady Grove Road, Plumtree Medical Center, 15005 Shady Grove Road and The Crescent

The medical office sector recognized NOI of \$6.5 million in the 2007 Quarter which was \$2.2 million or 51.2% higher than the 2006 Quarter due to the properties acquired in 2006 and year to date in 2007. The acquired properties contributed \$2.2 million to the increase in NOI. Core medical office sector NOI was slightly higher than 2006 primarily due to rental rate increases being offset by higher real estates taxes and utility costs.

Core economic occupancy decreased slightly in the 2007 Quarter compared to the 2006 Quarter and as of June 30, 2007, 11.1% of the total medical office square footage leased is scheduled to expire in the next twelve months. During the 2007 Quarter, 79.0% of the square footage that expired was renewed and we executed new leases for 15,100 square feet of medical office space with a 17.8% increase in rental rates.

⁽¹⁾ Non-core properties include:

2006 acquisitions Montrose Shopping Center and Randolph Shopping Center

Retail sector NOI increased in the 2007 Quarter to \$7.8 million from \$7.4 million in the 2006 Quarter. The acquisitions in April 2006 contributed \$0.8 million (10.7%) to NOI for the current quarter. The decrease in core NOI of \$0.1 million was due to a \$0.2 million increase in real estate expenses for higher real estate taxes and higher management payroll and maintenance expenses, offset somewhat by a \$0.1 million increase in revenues.

Core economic occupancy decreased by 290 basis points compared to the 2006 Quarter primarily due to a tenant that vacated at South Washington Street. As of June 30, 2007, 11.3% of the total retail square footage leased is scheduled to expire in the next twelve months. During the quarter, 83.4% of the square footage that expired was renewed and we executed new leases for 79,300 square feet of retail space at an average rent increase of 40.6%.

⁽¹⁾ Non-core properties include:
2007 in development Bennett Park and Clayborne Apartments

Multifamily NOI was flat due to a \$0.5 million increase in revenue offset by a \$0.5 million increase in expenses at core properties as well as \$0.1 million of expenses related to the properties in development. Core revenues were higher in the 2007 Quarter compared to the 2006 Quarter due to a 5.8% increase in rental rates as a result of renovated units at Bethesda Hill and Country Club Towers. The increase in real estate expenses was primarily due to higher payroll, maintenance and real estate tax expenses.

Total	94.0%	92.5%

⁽¹⁾ Non-core properties include:

2007 acquisition 270 Technology Park

2006 acquisition 9950 Business Parkway

The industrial sector recognized NOI of \$8.3 million in the 2007 Quarter, which was \$1.2 million (16.2 %) greater than in the 2006 Quarter due to the acquisitions of 270 Technology Park in February 2007 and 9950 Business Parkway in May 2006. These acquisitions contributed \$0.6 million to the increase in industrial sector NOI.

Core property NOI increased by \$0.5 million or 7.4% in the 2007 Quarter from the 2006 Quarter due to a \$0.7 million increase in revenue and offset somewhat by a \$0.2 million increase in expenses. Core revenues increased due to a 3.4% increase in rental rates, lower bad debt expenses and leasing activity at Hampton South Phase II, NVIP and Fullerton Industrial Center. Core property expenses increased 9.3% due to higher maintenance services cost.

Core economic occupancy increased 140 basis points over the 2006 Quarter due to the full lease-up of Hampton South Phase II and increased leasing activity at the Earhart Building and Fullerton Industrial Center. As of June 30, 2007, 14.4% of the total industrial square footage leased is scheduled to expire in the next twelve months. During the 2007 Quarter, 79.7% of the square footage that expired was renewed and we executed new leases for 323,000 square feet of industrial space at an average rent increase of 18.3%.

(UNAUDITED)

increase in core expenses was driven by the office, multifamily, retail and industrial sectors, which contributed \$1.5 million, \$0.7 million, \$0.4 million and \$0.4 million, respectively, to the increase as a result of higher real estate taxes, utilities and maintenance expense.

Overall economic occupancy increased from 93.4% in the 2006 Period to 94.1% in the 2007 Period as non-core occupancy increased primarily due to leasing activity at some acquisitions from 2006. Core economic occupancy increased from 97.2% to 97.9%, due largely to increases in the office and industrial sectors, offset somewhat by decreases in core retail and medical office sector occupancy. As of June 30, 2007, 12.2% of the total commercial square footage leased is scheduled to expire in the next twelve months. During the 2007 Period, 73.5% of the square footage that expired was renewed and we executed new leases for 899,600 square feet with a 15.8% increase in rental rates. GREEN POWER AND TRANSMISSION

The following commercially secured growth project was placed into service in 2018:

Rampion Offshore Wind Project - a wind project located off the Sussex coast in the United Kingdom, consisting of 116 turbines, which will generate approximately 400-MW. We hold an effective 24.9% interest, United Kingdom's Green Investment Bank plc holds a 25% interest and E.ON SE holds the remaining 50.1% interest in the project, which was developed and is being constructed by E.ON Climate & Renewables UK Limited, a subsidiary of E.ON SE. The Rampion Offshore Wind Project is backed by revenues from the United Kingdom's fixed-price Renewable Obligation certificates program and a 15-year power purchase agreement. The project generated first power in November 2017 and full operating capacity was reached in the second quarter of 2018.

The following commercially secured growth project is expected to be placed into service in 2019:

- Hohe See Offshore Wind Project and Expansion - a wind project located in the North Sea, off the coast of Germany that will generate approximately 497-MW, with an additional 112-MW from the expansion. The Hohe See Offshore Wind Project and Expansion will be constructed under fixed-price engineering, procurement, construction and installation contracts, which have been secured with key suppliers. The Hohe See Project and Expansion is backed by a government legislated 20-year revenue support mechanism.

GROWTH PROJECTS - REGULATORY MATTERS

United States Line 3 Replacement Program

The MNPUC approved the Certificate and Route Permit and denied petitions to reconsider the decisions. All related Certificate conditions have been finalized and are being addressed. In addition, agreement was reached with the Fond du Lac Band of Lake Superior Chippewa granting a new 20 year easement for

73

the entire Mainline including the Line 3 Replacement Project through their Reservation. The remaining permit applications have been submitted to the various federal and state agencies, including the United States Army Corps of Engineers (Army Corps), the Minnesota Department of Natural Resources, the Minnesota Pollution Control Agency and other local government agencies in Minnesota.

We anticipate that the agencies will process all of these applications in the coming months, and with timely approvals continue to expect an in-service date for the project before the end of 2019.

OTHER ANNOUNCED PROJECTS UNDER DEVELOPMENT

The following projects have been announced by us, but have not yet met our criteria to be classified as commercially secured:

LIQUIDS PIPELINES

Texas COLT Offshore Loading Project - the Texas COLT Offshore Loading Project will facilitate the direct loading of very large crude carriers from Freeport, Texas. The project consists of a terminal, a 42-inch offshore pipeline, platform and two single point mooring systems with connectivity to all key North American supply basins. The project is a joint development with Kinder Morgan Inc. and Oiltanking, and is expected to be in service by 2022.

GREEN POWER AND TRANSMISSION

Éolien Maritime France SAS - a 50% interest in Éolien Maritime France SAS (EMF), a French offshore wind development company, which is co-owned by EDF Energies Nouvelles, a subsidiary of Électricité de France S.A. EMF holds licenses for three large-scale offshore wind facilities off the coast of France that would generate approximately 1,428 MW. The development of these projects is subject to a final investment decision and regulatory approvals, the timing of which is not yet certain.

We also have a large portfolio of additional projects under development that have not yet progressed to the point of public announcement.

LIQUIDITY AND CAPITAL RESOURCES

The maintenance of financial strength and flexibility is fundamental to our growth strategy, particularly in light of the significant number and size of capital projects currently secured or under development. Access to timely funding from capital markets could be limited by factors outside our control, including but not limited to financial market volatility resulting from economic and political events both inside and outside North America. To mitigate such risks, we actively manage financial plans and strategies to ensure we maintain sufficient liquidity to meet routine operating and future capital requirements. In the near term, we generally expect to utilize cash from operations together with commercial paper issuance and/or credit facility draws and the proceeds of capital market offerings to fund liabilities as they become due, finance capital expenditures, fund debt retirements and pay common and preference share dividends. We target to maintain sufficient liquidity through securing of committed credit facilities with a diversified group of banks and financial institutions to enable us to fund all anticipated requirements for approximately one year without accessing the capital markets.

Our financing plan is regularly updated to reflect evolving capital requirements and financial market conditions and identifies a variety of potential sources of debt and equity funding alternatives.

CAPITAL MARKET ACCESS

We ensure ready access to capital markets, subject to market conditions, through maintenance of shelf prospectuses that allow for issuance of long-term debt, equity and other forms of long-term capital when

74

market conditions are attractive. In accordance with our funding plan and the simplification of corporate structure, we completed the following issuances in 2018:

Entity	Type of Issuance	Amount
(in millions of Canadian dollars, unless stated otherwise)		
Enbridge Inc.	Common shares ¹	\$12,727
Enbridge Inc.	US\$ Fixed-to-floating rate subordinated notes	US\$1,450
Enbridge Inc.	Fixed-to-floating rate subordinated notes	\$750
Texas Eastern Transmission, LP	Senior notes	US\$800

¹ In connection with the Sponsored Vehicles buy-in, refer to Simplification of Corporate Structure.

Credit Facilities, Ratings and Liquidity

To ensure ongoing liquidity and to mitigate the risk of capital market disruption, we maintain ready access to funds through committed bank credit facilities and actively manage our bank funding sources to optimize pricing and other terms. The following table provides details of our committed credit facilities at December 31, 2018.

December 31, (millions of Canadian dollars)	2018		
	Maturity	Facilities	Draws ¹ Available
Enbridge Inc.	2019-2023	5,751	2,008 3,743
Enbridge (U.S.) Inc.	2020	1,932	1,065 867
Enbridge Energy Partners, L.P. ²	2022	2,493	1,044 1,449
Enbridge Gas Distribution Inc.	2019-2020	1,018	760 258
Enbridge Pipelines Inc.	2020	3,000	2,200 800
Spectra Energy Partners, LP ³	2022	3,414	2,065 1,349
Union Gas Limited	2021	700	275 425
Total committed credit facilities		18,308	9,417 8,891

¹ Includes facility draws, letters of credit and commercial paper issuances that are back-stopped by the credit facility.

² Includes \$253 million (US\$185 million) of facilities that expire in 2020.

³ Includes \$459 million (US\$336 million) of facilities that expire in 2021.

Enbridge terminated a US\$650 million credit facility, which was scheduled to mature in 2019, and repaid drawn amounts. In addition, an unutilized Enbridge US\$100 million credit facility expired.

Enbridge (U.S.) Inc. terminated an unutilized US\$950 million credit facility, which was scheduled to mature in 2019. In addition, Enbridge (U.S.) Inc. terminated a US\$500 million credit facility, which was scheduled to mature in 2019, and repaid drawn amounts.

An unutilized EEP US\$625 million credit facility matured on December 31, 2018.

Enbridge Income Fund substantially terminated its \$1,500 million credit facility, which was scheduled to mature in 2020, and repaid drawn amounts.

Westcoast Energy Inc. terminated an unutilized \$400 million credit facility, which was scheduled to mature in 2021.

On February 7, 2019 and February 8, 2019, we terminated certain Canadian and United States dollar credit facilities, including facilities held by Enbridge, Union Gas, EEP and SEP. We also increased existing facilities or obtained new facilities to replace the terminated ones under Enbridge, Enbridge (U.S.) Inc. and EGI. As a result, our total credit facility availability increased by approximately \$390 million Canadian dollar equivalent, when translated using the year end December 31, 2018 spot rate.

In addition to the committed credit facilities noted above, we have \$807 million of uncommitted demand facilities, of which \$548 million were unutilized as at December 31, 2018. As at December 31, 2017, we had \$792 million of uncommitted credit facilities, of which \$518 million were unutilized.

Our net available liquidity of \$9,409 million at December 31, 2018 was inclusive of \$518 million of unrestricted cash and cash equivalents as reported on the Consolidated Statements of Financial Position.

Our credit facility agreements and term debt indentures include standard events of default and covenant provisions whereby accelerated repayment and/or termination of the agreements may result if we were to default on payment or violate certain covenants. As at December 31, 2018, we were in compliance with all debt covenants and expect to continue to comply with such covenants.

Strong growth in internal cash flow, ready access to liquidity from diversified sources and a stable business model have enabled us to manage our credit profile. We actively monitor and manage key financial metrics with the objective of sustaining investment grade credit ratings from the major credit rating agencies and ongoing access to bank funding and term debt capital on attractive terms. Key measures of financial strength that are closely managed include the ability to service debt obligations from operating cash flow and the ratio of debt to total capital. As at December 31, 2018, our debt capitalization ratio was 46.8% compared with 48.3% as at December 31, 2017.

During 2018, our credit ratings were affirmed as follows:

- DBRS Limited confirmed our issuer rating and medium-term notes and unsecured debentures rating of BBB (high), fixed-to-floating subordinated notes rating of BBB (low), preference share rating of Pfd-3 (high) and commercial paper rating of R-2 (high), all with stable outlooks.

- Standard & Poor's Rating Services (S&P) affirmed our corporate credit rating and senior unsecured debt rating of BBB+, preference share rating of P-2 (low) and commercial paper rating of A-1 (low), and reaffirmed a stable outlook. S&P also affirmed our global overall short-term rating of A-2.

Fitch Rating services affirmed long-term issuer default rating and senior unsecured debt rating of BBB+, preference share rating of BBB-, junior subordinated note rating of BBB-, and short-term and commercial paper rating of F2 with a stable rating outlook.

On January 25, 2019 Moody's Investor Services, Inc. upgraded our issuer and senior unsecured ratings from Baa3 to Baa2 with outlook revised to positive, upgraded our subordinated rating from Ba2 to Ba1, preference share rating from Ba2 to Ba1 and the commercial paper rating for Enbridge (U.S.) Inc. from P-3 to P-2.

We invest surplus cash in short-term investment grade money market instruments with highly creditworthy counterparties. Short-term investments were \$76 million as at December 31, 2018 compared with \$70 million as at December 31, 2017.

There are no material restrictions on our cash. Total restricted cash of \$119 million, as reported on the Consolidated Statements of Financial Position, includes EGD's and Union Gas' receipt of cash from the Government of Ontario to fund its Green Investment Fund program. In addition, our restricted cash includes cash collateral and amounts received in respect of specific shipper commitments. Cash and cash equivalents held by certain subsidiaries may not be readily accessible for alternative uses by us.

Excluding current maturities of long-term debt, at December 31, 2018 and 2017 we had a negative working capital position of \$3,024 million and \$2,538 million, respectively. In both periods, the major contributing factor to the negative working capital position was the ongoing funding of our growth capital program.

To address this negative working capital position, we maintain significant liquidity in the form of committed credit facilities and other sources as previously discussed, which enable the funding of liabilities as they become due. As at December 31, 2018 and 2017, our net available liquidity totaled \$9,409 million and

\$12,959 million, respectively, on a consolidated basis. It is anticipated that any current maturities of long-term debt will be refinanced upon maturity.

SOURCES AND USES OF CASH

December 31, (millions of Canadian dollars)	2018	2017	2016
Operating activities	10,502	6,658	5,205
Investing activities	(3,017)	(11,037)	(5,152)
Financing activities	(7,503)	3,476	840
Effect of translation of foreign denominated cash and cash equivalents	68	(72)	(19)
Net increase/(decrease) in cash and cash equivalents and restricted cash	50	(975)	874

Significant sources and uses of cash for the years ended December 31, 2018 and 2017 are summarized below:

Operating Activities

2018

The increase in cash flow delivered by operations in 2018 is a reflection of the positive operating factors discussed under Results of Operations.

Changes in operating assets and liabilities increased to a positive \$915 million from a negative \$338 million for the years ended December 31, 2018 and 2017, respectively. Our operating assets and liabilities fluctuate in the normal course due to various factors including fluctuations in commodity prices and activity levels within the Energy Services and Gas Distribution segments, the timing of tax payments, as well as timing of cash receipts and payments.

2017

The growth in cash flow delivered by operations in 2017 is a reflection of the positive operating factors discussed under Results of Operations, which included contributions from new assets of approximately \$2,574 million following the completion of the Merger Transaction.

For the year ended, partially offsetting the increase in cash flows from operating activities are transaction costs in connection with the Merger Transaction, as well as employee severance costs in relation to our enterprise-wide reduction of workforce.

Changes in operating assets and liabilities increased to \$338 million from \$368 million for the years ended December 31, 2017 and 2016, respectively, reflected negative working capital in each of those years. Our operating assets and liabilities fluctuate in the normal course due to various factors including fluctuations in commodity prices and activity levels within the Energy Services and Gas Distribution segments, the timing of tax payments, as well as timing of cash receipts and payments.

Investing Activities

We continue with the execution of our growth capital program which is further described in Growth Projects – Commercially Secured Projects. The timing of project approval, construction and in-service dates impacts the timing of cash requirements.

A summary of additions to property, plant and equipment for the years ended December 31, 2018, 2017 and 2016 is set out below:

Year ended December 31, (millions of Canadian dollars)	2018	2017	2016
Liquids Pipelines	3,102	2,797	3,956
Gas Transmission and Midstream	2,578	3,883	176
Gas Distribution	1,066	1,177	713
Green Power and Transmission	33	321	251
Energy Services	—	1	—
Eliminations and Other	27	108	32
Total capital expenditures	6,806	8,287	5,128

2018

The decrease in cash used in investing activities in 2018 was primarily attributable to proceeds from asset dispositions of \$4,452 million compared with \$628 million in 2017. This increase primarily reflected the sale of MOLP, international renewable assets and the provincially regulated portion of our Canadian Natural Gas Gathering and Processing Businesses assets. Please see Financing Activities below for further details on the use of these proceeds. Further contributing to the decrease in cash used in investing activities was activity in 2017 that was not present in 2018, relating primarily to the acquisition of an interest in the Bakken Pipeline System.

We are continuing with the execution of our growth capital program which is further described in Growth Projects - Commercially Secured Projects. Capital expenditures of \$6,806 million in 2018 compared with \$8,287 million in 2017 reflected the timing of projects approvals, construction and in-service dates which impacts the timing of cash requirements.

2017

The increase in cash used in investing activities was primarily attributable to capital expenditures of \$8,287 million compared with \$5,128 million for the comparable period, which include capital expenditures on assets and growth projects acquired through the Merger Transaction, and increased investment in equity investments. During the first half of 2017, we paid cash consideration of \$2.0 billion (US \$1.5 billion) for the acquisition of an interest in the Bakken Pipeline System. In addition, we also made an equity investment of \$0.5 billion in connection with our 50% interest in the Hohe See Offshore Wind Project.

The above increase in cash usage was partially offset by cash acquired in the Merger Transaction in the first quarter of 2017, proceeds from the disposition of the Ozark Pipeline, Sandpiper and Olympic Pipeline in 2017.

Financing Activities

2018

The increase in net cash used in financing activities resulted from the following factors:

- Repayments of maturing term notes and credits facilities, and a decrease in long-term debt issued in 2018 when compared to 2017.

During 2018, we sold an interest in our Canadian and US renewable assets to the CPPIB. The proceeds of these dispositions and the dispositions of MOLP, the provincially regulated portion of our Canadian Natural Gas Gathering and Processing Businesses assets and international renewable assets discussed in Investing Activities above, were primarily used to repay maturing term notes and credit facilities, while proceeds from hybrid securities issued during the first half of 2018 were primarily used to repay credit facilities and to repurchase or redeem Spectra Energy Capital, LLC's outstanding senior unsecured notes.

Cash from financing activities further decreased as a result of decreased contributions from noncontrolling interests and redeemable noncontrolling interests. Noncontrolling interest contributions received in 2017 related to completed projects for which there were no contributions received from noncontrolling interests in 2018. In April 2017, contributions from redeemable

noncontrolling interests were received from a secondary public offering attributable to our holdings in ENF. There were no similar offerings in 2018.

Our common share dividend payments increased in the year ended 2018, primarily due to the increase in the common share dividend rate in the first quarter of 2018, as well as an increase in the number of common shares outstanding as a result of common shares issued in connection with the Merger Transaction and the issuance of approximately 33 million common shares in December 2017 in a private placement offering.

2017

The increase in net cash generated from financing activities resulted from the following factors:

We issued a series of medium term fixed and floating rate notes, the proceeds of which were used to repay maturing term notes and credit facilities and to finance growth capital programs. For the year ended 2017, proceeds from term note issuances were primarily used to repay credit facilities and redeem tender offers for Spectra Energy's outstanding senior unsecured notes as discussed in Liquidity and Capital Resources - Capital Market Access.

The change in cash generated from financing activities reflected overall higher cash contributions from redeemable noncontrolling interests of \$1,178 million compared with \$591 million in the comparable period attributable to our holdings in ENF equity. Cash contributions were also higher for noncontrolling interests, which now include noncontrolling interests acquired through the Merger Transaction, which is more than offset by the increase in distributions to noncontrolling interests. The increase in distributions to noncontrolling interests was primarily attributable to the acquired assets, which were partially offset by the decrease in distributions resulting from the EEP strategic restructuring discussed under United States Sponsored Vehicle Strategy.

Cash provided from financing activities further increased as we completed the issuance of 33.5 million common shares for gross proceeds of approximately \$1.5 billion along with the issuance of 4 million preferred shares for gross proceeds of \$0.5 billion.

For the year ended 2017, the above increases in cash were partially offset by \$227 million paid to acquire all of the outstanding publicly-held common units of MEP during the second quarter of 2017, as well as higher cash received from the issuance of common shares in the first quarter of 2016, as a result of the issuance of 56 million common shares in March 2016.

Finally, our common share dividend payments increased in the first half of 2017, primarily due to the increase in the common share dividend rate effective March 2017, as well as higher number of common shares outstanding as a result of the issuance of approximately 75 million common shares in 2016 and 691 million common shares issued in connection with the Merger Transaction. In addition, we paid \$414 million in common share dividends to the shareholders of Spectra Energy. These dividends were declared before the closing of the Merger Transaction but were paid after the closing of the Merger Transaction.

Preference Share Issuances

Since July 2011, we have issued 315 million preference shares for gross proceeds of approximately \$7.9 billion with the following characteristics.

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

	Gross Proceeds	Dividend Rate	Dividend ^{1,7}	Per Share Base Redemption Value ²	Redemption and Conversion Option Date ^{2,3}	Right to Convert Into ^{3,4}

The holder is entitled to receive a fixed, cumulative, quarterly preferential dividend, as declared by the Board. With the exception of Series A and Series C Preference Shares, such fixed dividend rate resets every five years beginning 1 on the initial redemption and conversion option date. The Series 17 and Series 19 Preference Shares contain a feature where the fixed dividend rate, when reset every five years, will not be less than 5.15% and 4.90%, respectively. No other series of Preference Shares has this feature.

Preference Shares, Series A may be redeemed any time at our option. For all other series of Preference Shares, we 2 may, at our option, redeem all or a portion of the outstanding Preference Shares for the Base Redemption Value per share plus all accrued and unpaid dividends on the Redemption Option Date and on every fifth anniversary thereafter.

The holder will have the right, subject to certain conditions, to convert their shares into Cumulative 3 Redeemable Preference Shares of a specified series on a one-for-one basis on the Conversion Option Date and every fifth anniversary thereafter at an ascribed issue price equal to the Base Redemption Value.

With the exception of Series A Preference Shares, after the redemption and conversion option dates, holders may elect to receive quarterly floating rate cumulative dividends per share at a rate equal to: \$25 x (number of days in quarter/365) x 90 day Government of Canada treasury bill rate + 2.4% (Series C), 2.4% (Series E), 2.5% (Series G), 4.2.1% (Series I), 2.7% (Series O), 2.5% (Series Q), 2.5% (Series S), 2.4% (Series 4), 2.6% (Series 8), 2.7% (Series 10), 2.6% (Series 12), 2.7% (Series 14), 2.7% (Series 16), 4.1% (Series 18) or 3.2% (Series 20); or US\$25 x (number of days in quarter/365) x three-month United States Government treasury bill rate + 3.1% (Series K), 3.2% (Series M), 3.1% (Series 2) or 2.8% (Series 6).

The floating quarterly dividend amount for the Series C Preference Shares was increased to \$0.22685 from \$0.20342 5 on March 1, 2018, was increased to \$0.22748 from \$0.22685 on June 1, 2018, was increased to \$0.23934 from \$0.22748 on September 1, 2018 and was increased to \$0.25459 from \$0.23934 on December 1, 2018, due to reset on a quarterly basis following the issuance thereof.

6

No Series D, F, H, N, or 1 Preference shares were converted on the March 1, 2018, June 1, 2018, September 1, 2018, December 1, 2018 or June 1, 2018 conversion option dates, respectively. However, the quarterly dividend amounts for Series D, F, H, N, and 1, were reset to \$0.27875 from \$0.25000 on March 1, 2018, \$0.29306 from \$0.25000 on June 1, 2018, \$0.27350 from \$0.25000 on September 1, 2018, \$0.31788 from \$0.25000 on December 1, 2018 and US\$0.37182 from US\$0.25000 on June 1, 2018, respectively, due to reset on every fifth anniversary thereafter.

⁷ For dividends declared, see Liquidity and Capital Resources – Sources and Uses of Cash – Dividend Reinvestment and Share Purchase Plan.

Common Share Issuances

In the fourth quarter of 2018, we completed the issuance of 297 million common shares with a value of \$12.7 billion in connection with the Sponsored Vehicles buy-in. For further information refer to Simplification of Corporate Structure and Item 8. Financial Statements and Supplementary Data - Note 21. Share Capital.

On December 7, 2017, we completed the issuance of 33.5 million common shares for gross proceeds of approximately \$1.5 billion. The proceeds were used to reduce short-term indebtedness pending reinvestment in secured capital projects.

On February 27, 2017, we completed the issuance of 691 million common shares with a value of \$37.4 billion in exchange for shares of Spectra Energy in connection with the Merger Transaction. For further information, refer to Item 8. Financial Statements and Supplementary Data - Note 8. Acquisitions and Dispositions.

Dividend Reinvestment and Share Purchase Plan

On November 2, 2018, we announced the suspension of our Dividend Reinvestment and Share Purchase Plan (DRIP), effective immediately. Prior to the announcement, our shareholders were able to participate in the DRIP, which enabled participants to reinvest their dividends in our common shares at a 2% discount to market price and to make additional optional cash payments to purchase common shares at the market price, free of brokerage or other charges.

As a result of the announcement, shareholders only received dividends in cash effective with the dividend paid on December 1, 2018, to shareholders of record on November 15, 2018. If we elect to reinstate the DRIP in the future, the shareholders that were enrolled in the DRIP at the time of suspension and remain enrolled at the time of its reinstatement will automatically resume participation in the DRIP.

For the years ended December 31, 2018 and 2017, total dividends paid were \$4,661 million and \$3,562 million, respectively, of which \$3,480 million and \$2,336 million, respectively, were paid in cash and reflected in financing activities. The remaining \$1,181 million and \$1,226 million, respectively, of dividends paid were reinvested pursuant to the DRIP and resulted in the issuance of common shares rather than a cash payment. In addition to amounts paid in cash and reflected in financing activities for the year ended December 31, 2017, were \$414 million in dividends declared to Spectra Energy shareholders prior to the Merger Transaction that were paid after the Merger Transaction.

Our Board of Directors has declared the following quarterly dividends. All dividends are payable on March 1, 2019 to shareholders of record on February 15, 2019.

Common Shares ¹	\$0.73800
Preference Shares, Series A	\$0.34375
Preference Shares, Series B	\$0.21340
Preference Shares, Series C ²	\$0.25459
Preference Shares, Series D ³	\$0.27875
Preference Shares, Series F ⁴	\$0.29306
Preference Shares, Series H ⁵	\$0.27350
Preference Shares, Series J	US\$0.30540
Preference Shares, Series L	US\$0.30993
Preference Shares, Series N ⁶	\$0.31788
Preference Shares, Series P	\$0.25000
Preference Shares, Series R	\$0.25000
Preference Shares, Series 1 ⁷	US\$0.37182
Preference Shares, Series 3	\$0.25000
Preference Shares, Series 5	US\$0.27500
Preference Shares, Series 7	\$0.27500
Preference Shares, Series 9	\$0.27500
Preference Shares, Series 11	\$0.27500
Preference Shares, Series 13	\$0.27500
Preference Shares, Series 15	\$0.27500
Preference Shares, Series 17	\$0.32188
Preference Shares, Series 19 ⁸	\$0.30625

1 The quarterly dividend per common share was increased 10% to \$0.73800 from \$0.67100, effective March 1, 2019.

81

2 The floating dividend on the Series C Preference Shares is reset each quarter. The quarterly dividend amount of Series C increased to \$0.22685 from \$0.20342 on March 1, 2018, increased to \$0.22748 from \$0.22685 on June 1, 2018, increased to \$0.23934 from \$0.22748 on September 1, 2018 and increased to \$0.25459 from \$0.23934 on December 1, 2018.

3 The quarterly dividend amount of Series D increased to \$0.27875 from \$0.25000 on March 1, 2018, due to the reset of the annual dividend on every fifth anniversary of the date of issuance of the Series D Preference Shares.

4 The quarterly dividend amount of Series F increased to \$0.29306 from \$0.25000 on June 1, 2018, due to the reset of the annual dividend on every fifth anniversary of the date of issuance of the Series F Preference Shares.

5 The quarterly dividend amount of Series H increased to \$0.27350 from \$0.25000 on September 1, 2018, due to the reset of the annual dividend on every fifth anniversary of the date of issuance of the Series H Preference Shares.

6 The quarterly dividend amount of Series N increased to \$0.31788 from \$0.25000 on December 1, 2018, due to the reset of the annual dividend on every fifth anniversary of the date of issuance of the Series N Preference Shares.

7 The quarterly dividend amount of Series 1 increased to US\$0.37182 from US\$0.25000 on June 1, 2018, due to the reset of the annual dividend on every fifth anniversary of the date of issuance of the Series 1 Preference Shares.

8 The quarterly dividend amount of Series 19 increased from the first dividend of \$0.26850 payable on March 1, 2018 to the regular quarterly dividend of \$0.30625, effective June 1, 2018.

OFF-BALANCE SHEET ARRANGEMENTS

We enter into guarantee arrangements in the normal course of business to facilitate commercial transactions with third parties. These arrangements include financial guarantees, stand-by letters of credit, debt guarantees, surety bonds and indemnifications. See Item 8. Financial Statements and Supplementary Data - Note 30 Guarantees for further discussion of guarantee arrangements.

Most of the guarantee arrangements that we enter into enhance the credit standings of certain subsidiaries, non-consolidated entities or less than 100%-owned entities, enabling them to conduct business. As such, these guarantee arrangements involve elements of performance and credit risk which are not included on our Consolidated Statements of Financial Position. The possibility of us having to honor our contingencies is largely dependent upon the future operations of our subsidiaries, investees and other third parties, or the occurrence of certain future events. Issuance of these guarantee arrangements is not required for the majority of our operations.

We do not have material off-balance sheet financing entities or structures, except for normal operating lease arrangements, guarantee arrangements and financings entered into by our equity investments. For additional information on these commitments, see Item 8. Financial Statements and Supplementary Data - Note 29. Commitments and Contingencies and Note 30. Guarantees.

We do not have material off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

CONTRACTUAL OBLIGATIONS

Payments due under contractual obligations over the next five years and thereafter are as follows:

As at December 31, 2018	Total	Less than 1 year	1-3 years	3-5 years	After 5 years
(millions of Canadian dollars)					
Annual debt maturities ¹	62,967	3,255	11,651	10,534	37,527
Interest obligations ²	30,236	2,459	4,382	3,905	19,490
Operating leases ³	1,730	153	276	234	1,067
Capital leases	23	7	—	4	12
Pension obligations ⁴	162	162	—	—	—
Long-term contracts ⁵	10,970	3,885	2,575	1,232	3,278
Other long-term liabilities ⁶	—	—	—	—	—
Total contractual obligations	106,088	9,921	18,884	15,909	61,374

¹ Includes debentures, term notes, commercial paper and credit facility draws based on the facility's maturity date and excludes short-term borrowings, debt discount, debt issue costs and capital lease obligations. We have the ability under certain debt facilities to call and repay the obligations prior to scheduled maturities. Therefore, the actual timing of future cash repayments could be materially different than presented above.

² Includes debentures and term notes bearing interest at fixed, floating and fixed-to-floating rates.

³ Includes land leases.

⁴ Assumes only required payments will be made into the pension plans in 2019. Contributions are made in accordance with independent actuarial valuations as at December 31, 2018. Contributions, including discretionary payments, may vary depending on future benefit design and asset performance.

⁵ Included within long-term contracts, in the table above, are contracts that we have signed for the purchase of services, pipe and other materials totaling \$1,891 million which are expected to be paid over the next five years.

⁶ Also consists of the following purchase obligations: gas transportation and storage contracts, firm capacity payments and gas purchase commitments, transportation, service and product purchase obligations, and power commitments.

We are unable to estimate deferred income taxes (Item 8. Financial Statements and Supplementary Data - Note 25. Income Taxes) since cash payments for income taxes are determined primarily by taxable income for each discrete fiscal year. We are also unable to estimate asset retirement obligations (ARO) (Item 8. Financial Statements and Supplementary Data - Note 19. Asset Retirement Obligations), environmental liabilities (Item 8. Financial Statements and Supplementary Data - Note 29. Commitments and Contingencies) and hedges payable (Item 8. Financial Statements and Supplementary Data - Note 24. Risk Management and Financial Instruments) due to the uncertainty as to the amount and, or, timing of when cash payments will be required.

LEGAL AND OTHER UPDATES

LIQUIDS PIPELINES

Renewal of Line 5 Easement

On January 4, 2017, the Tribal Council of the Bad River Band of Lake Superior Tribe of Chippewa Indians (the Band) issued a press release indicating that the Band had passed a resolution not to renew its interest in certain Line 5 easements through the Bad River Reservation. Line 5 is included within our mainline system. The Band's resolution calls for decommissioning and removal of the pipeline from all Bad River tribal lands and watershed and could impact our ability to operate the pipeline on the Reservation. Since the Band passed the resolution, the parties have agreed to ongoing discussions with the objective of understanding and resolving the Band's concerns on a long-term basis.

Eddystone Rail Legal Matter

In February 2017, our subsidiary Eddystone Rail Company, LLC (Eddystone Rail) filed an action against several defendants in the United States District Court for the Eastern District of Pennsylvania. Eddystone Rail alleges that the defendants transferred valuable assets from Eddystone Rail's counterparty in a maritime contract, so as to avoid outstanding obligations to Eddystone Rail. Eddystone Rail is seeking payment of compensatory and punitive damages

in excess of US\$140 million. On July 19, 2017, the defendants' motions to dismiss Eddystone Rail's claims were denied. Defendants have filed Answers and Counterclaims, which together with subsequent amendments, seek damages from Eddystone Rail in excess of US\$32 million. Eddystone filed a motion to dismiss the counterclaims and defendants amended their Answer and Counterclaims on September 21, 2017. On October 12, 2017 Eddystone Rail moved to dismiss the latest version of defendants' counterclaims. On February 6, 2018, the court denied without

prejudice Eddystone Rail's motion to dismiss the defendants' counterclaims. The defendants' chances of success on their counterclaims cannot be predicted at this time. On September 7, 2018, the court granted Eddystone's motion to amend its complaint to add several affiliates of the corporate defendants as additional defendants. Motions to dismiss Eddystone's amended complaint were subsequently denied by the court. On January 25, 2019, defendants moved to dismiss Eddystone Rail's claims from the court based on lack of subject matter jurisdiction, which motion remains pending.

Dakota Access Pipeline

In February 2017, the Standing Rock Sioux Tribe and the Cheyenne River Sioux Tribe filed motions with the Court contesting the validity of the process used by the Army Corps to permit the Dakota Access Pipeline (DAPL). The plaintiffs requested the Court order the operator to shut down the pipeline until the appropriate regulatory process is completed. The Oglala Sioux and Yankton Sioux Tribes also filed claims in the case to challenge the Army Corp permit and environmental review process.

On June 14, 2017, the Court ruled that the Army Corps did not sufficiently weigh the degree to which the project's effects would be highly controversial and the Army Corps failed to adequately consider the impact of an oil spill on the hunting and fishing rights of the Tribes and on environmental justice (the June 2017 Order). The Court ordered the Army Corps to reconsider those components of its environmental analysis. On October 11, 2017, the Court issued an order that allows DAPL to continue operating while the Army Corps completes the additional environmental review required by the June 2017 Order. The Court additionally ordered DAPL to implement certain interim measures pending the Army Corps' supplemental analysis. The Army Corps issued its decision on August 31, 2018, and found that no supplemental environmental analysis is required. All four Tribes amended their complaints to include claims challenging the adequacy of the Army Corps' supplemental environmental analysis and the Army Corps is required to file the administrative record of its analysis by January 31, 2019.

On February 4, 2019, the Army Corps produced its administrative record, which includes all documents pertaining to its remand process. The plaintiff Tribes are provided with the opportunity to challenge the completeness of the Army Corps' administrative record; briefing on such challenges, should any be filed, will be completed by March 6, 2019. A schedule for filing summary judgment briefs on the merits of the plaintiff Tribes' remaining claims will be established following resolution of any administrative record challenges.

Seaway Pipeline Regulatory Matters

Seaway Crude Pipeline System (Seaway Pipeline) filed an application for market-based rates in December 2011 and refiled in December 2014. Several parties filed comments in opposition alleging that the application should be denied because Seaway Pipeline has market power in both its receipt and destination markets. On December 1, 2016, the Administrative Law Judge issued its decision which concluded that the Commission should grant the application of Seaway Pipeline for authority to charge market-based rates. By order dated May 17, 2017, the Commission affirmed the Administrative Law Judge's finding that Seaway Pipeline lacks market power in the applicable markets and granted Seaway Pipeline's application for market based rate authority. No requests for rehearing or petitions for review were filed. The order is therefore now final.

GAS TRANSMISSION AND MIDSTREAM

Sabal Trail FERC Certificate Review

Sierra Club and two other non-governmental organizations filed a Petition for Review of Sabal Trail's FERC certificate on September 20, 2016 in the D.C. Circuit Court of Appeals. On August 22, 2017, the D.C. Circuit issued an opinion denying one of the petitions, and granting the other petition in part, vacating the certificates, and remanding the case to FERC to supplement the environmental impact statement for the project to estimate the quantity of green-house gases to be released into the environment by the gas-fired generation plants in Florida that will consume the gas transported by Sabal Trail. The court withheld issuance of the mandate requiring vacatur of the certificate until seven days after the disposition of any timely petition for rehearing. On October 6, 2017, Sabal Trail

and FERC each filed

84

timely petitions for rehearing. On January 31, 2018, the court denied FERC's and Sabal Trail's petitions for rehearing. On February 5, 2018, FERC issued its final supplemental environmental impact statement in compliance with the D.C. Circuit decision. In addition, on February 6, 2018, FERC filed a motion with the court requesting a 45-day stay of the mandate. On March 7, 2018, the court granted FERC's 45-day request for stay, and directed that issuance of the mandate be withheld through March 26, 2018. On March 14, 2018 FERC issued its Order on Remand Reinstating Certificate and Abandonment Authorizations which addressed the court's ruling in the August 22, 2017 decision (March 14, 2018 Order), and on March 30, 2018 the court issued its mandate.

Sierra Club and two other non-governmental organizations, as well as the two landowners, timely requested rehearing from the FERC of the March 14, 2018 Order. On August 10, 2018, the FERC issued an order denying the requests of Sierra Club and others seeking rehearing of FERC's order on remand. No appeals related to the March 14, 2018 Order were timely filed and the March 14, 2018 Order is now final and non-appealable.

GAS DISTRIBUTION

On July 3, 2018, the government of Ontario issued Ontario Regulation 386/18 which revoked the Cap and Trade program regulation and prohibits registered participants from purchasing, selling, trading or otherwise dealing with emission allowances and credits. Subsequently, on July 6, 2018, the OEB suspended its review of EGD and Union Gas' 2018 Cap and Trade Compliance Plans. On July 25, 2018, the government of Ontario introduced Bill 4 to wind down the Cap and Trade program. Subsequently, by letter dated August 30, 2018, the OEB instructed EGD and Union Gas to request the elimination of Cap and Trade charges as part of their October 2018 Quarterly Rate Adjustment Mechanism (QRAM) application, thereby removing Cap and Trade charges from customer bills effective October 1, 2018. The letter also instructed EGD and Union Gas to request the disposition of any projected aggregate net credit balance in their Cap and Trade related deferral and variance accounts as at September 30, 2018.

In accordance with the OEB's direction, on September 11, 2018, EGD and Union Gas filed their October 2018 QRAM applications which included the requests to remove Cap and Trade charges from rates, and to refund Cap and Trade related deferral and variance account balances to customers, effective October 1, 2018. The OEB approved EGD's and Union Gas' QRAM applications on September 27, 2018.

On October 31, 2018, Bill 4 received Royal Assent from the government of Ontario, providing for the wind down of the Cap and Trade program. This resulted in a reduction of \$990 million in Intangible assets and Other long-term liabilities on the Consolidated Statements of Financial Position in the fourth quarter of 2018. There was no financial impact to the Consolidated Statements of Earnings.

OTHER LITIGATION

We and our subsidiaries are involved in various other legal and regulatory actions and proceedings which arise in the normal course of business, including interventions in regulatory proceedings and challenges to regulatory approvals and permits by special interest groups. While the final outcome of such actions and proceedings cannot be predicted with certainty, management believes that the resolution of such actions and proceedings will not have a material impact on our consolidated financial position or results of operations.

TAX MATTERS

We and our subsidiaries maintain tax liabilities related to uncertain tax positions. While fully supportable in our view, these tax positions, if challenged by tax authorities, may not be fully sustained on review.

CRITICAL ACCOUNTING ESTIMATES

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States, which require management to make estimates, judgments and

assumptions that affect the amounts reported in our consolidated financial statements and accompanying notes. In making judgments and estimates, management relies on external information and observable conditions, where possible, supplemented by internal analysis as required. We believe our most critical accounting policies and estimates discussed below have an impact across the various segments of our business.

Business Combinations

We apply the provisions of Accounting Standards Codification 805 Business Combinations in accounting for our acquisitions. The acquired long-lived assets and intangible assets and assumed liabilities are recorded at their estimated fair values at the date of acquisition. Goodwill represents the excess of the purchase price over the fair value of net assets. While we use our best estimates and assumptions to accurately value assets acquired and liabilities assumed at the date of acquisition, as well as any contingent consideration, our estimates are inherently uncertain and subject to refinement. During the measurement period, which may be up to one year from the acquisition date, we record adjustments to the assets acquired and liabilities assumed with the corresponding offset to goodwill. Upon the conclusion of the measurement period or final determination of values of assets acquired or liabilities assumed, whichever comes first, any subsequent adjustments are recorded to our consolidated statements of operations. Accounting for business combinations requires significant judgment, estimates and assumptions at the acquisition date. In developing estimates of fair values at the acquisition date, we utilize a variety of factors including market data, historical and future expected cash flows, growth rates and discount rates. The subjective nature of our assumptions increases the risk associated with estimates surrounding the projected performance of the acquired entity. On February 27, 2017, we acquired Spectra Energy for a purchase price of \$37.5 billion. In determining the valuation of tangible assets acquired, we applied the cost, market and income approaches. For intangible assets acquired, we used an income approach which included cash flow projections based on historical performance, terms found in contracts and assumptions on expected renewals. Discount rates used in the valuation were also developed using a weighted-average cost of capital based on risks specific to respective assets and returns that an investor would likely require given the expected cash flows, timing and risk.

Goodwill Impairment

Goodwill represents the excess of the purchase price over the fair value of net identifiable assets on acquisition of a business. The carrying value of goodwill, which is not amortized, is assessed for impairment annually, or more frequently if events or changes in circumstances arise that suggest the carrying value of goodwill may be impaired.

We perform our annual review for impairment at the reporting unit level, which is identified by assessing whether the components of our operating segments constitute businesses for which discrete information is available, whether segment management regularly reviews the operating results of those components and whether the economic and regulatory characteristics are similar. We determined that our reporting units are equivalent to our reportable segments, with the exception of the gas transmission and gas midstream reportable segment which is divided at the component level into two reporting units. We have the option to first assess qualitative factors to determine whether it is necessary to perform the quantitative goodwill impairment test. The quantitative goodwill impairment test involves determining the fair value of our reporting units and comparing those values to the carrying value of each reporting unit. If the carrying value of a reporting unit, including allocated goodwill, exceeds its fair value, goodwill impairment is measured at the amount by which the reporting unit's carrying value exceeds its fair value. This amount should not exceed the carrying amount of goodwill. We performed our annual review of the goodwill balance at April 1, which did not result in an impairment charge.

The allocation of goodwill to held for sale and disposed businesses is based on the relative fair value of businesses included in the particular reporting unit. Fair value of our reporting unit is estimated using a combination of discounted cash flow model and earnings multiples techniques. The determination of fair value using the discounted cash flow model technique requires the use of estimates and assumptions related to discount rates, projected operating income, terminal value growth rates, capital expenditures and working capital levels. The cash flow projections included significant judgments and assumptions relating to revenue growth rates and expected future capital expenditure. The determination of fair value using the earnings multiples technique requires assumptions to be made in relation to maintainable earnings and earnings multipliers for reporting units.

During 2018, we impaired \$1,019 million of goodwill allocated to assets held for sale.

Asset Impairment

We evaluate the recoverability of our property, plant and equipment when events or circumstances such as economic obsolescence, business climate, legal or regulatory changes, or other factors indicate we may not recover the carrying amount of our assets. We continually monitor our businesses, the market and business environments to identify indicators that could suggest an asset may not be recoverable. If it is determined that the carrying value of an asset exceeds the undiscounted cash flows expected from the asset, we will assess the fair value of the asset. An impairment loss is recognized when the carrying amount of the asset exceeds its fair value as determined by quoted market prices in active markets or present value techniques. The determination of the fair value using present value techniques requires the use of projections and assumptions regarding future cash flows and weighted average cost of capital. Any changes to these projections and assumptions could result in revisions to the evaluation of the recoverability of the property, plant and equipment and the recognition of an impairment loss in the Consolidated Statements of Earnings.

Assets held for sale

We classify assets as held for sale when management commits to a formal plan to actively market an asset or a group of assets and when management believes it is probable the sale of the assets will occur within one year. We measure assets classified as held for sale at the lower of their carrying value and their estimated fair value less costs to sell.

Regulatory Accounting

Certain of our businesses are subject to regulation by various authorities, including but not limited to, the NEB, the FERC, the Alberta Energy Regulator, the NBEUB, La Régie de l'énergie du Québec and the Ontario Energy Board (OEB). Regulatory bodies exercise statutory authority over matters such as construction, rates and ratemaking and agreements with customers. To recognize the economic effects of the actions of the regulator, the timing of recognition of certain revenues and expenses in these operations may differ from that otherwise expected under Generally accepted accounting principle in the United States of America (U.S. GAAP) for non-rate-regulated entities. Key determinants in the ratemaking process are:

- Costs of providing service, including depreciation expense;
- Allowed rate of return, including the equity component of the capital structure and related income taxes; and
- Contract and volume throughput assumptions.

The allowed rate of return is determined in accordance with the applicable regulatory model and may impact our profitability. The rates for a number of our projects are based on a cost-of-service recovery model that follows the regulators' authoritative guidance. Under the cost-of-service tolling methodology, we calculate tolls based on forecast volumes and cost. A difference between forecast and actual results causes an over or under recovery in any given year. Regulatory assets represent amounts that are expected to be recovered from customers in future periods through rates. Regulatory liabilities represent amounts that are expected to be refunded to customers in future periods through rates or expected to be paid to cover future abandonment costs in relation to the NEB's Land Matters Consultation Initiative (LMCI) and for future removal and site restoration costs as approved by the OEB.

To the extent that the regulator's actions differ from our expectations, the timing and amount of recovery or settlement of regulatory balances could differ significantly from those recorded. In the absence of rate regulation, we would generally not recognize regulatory assets or liabilities and the earnings impact would be recorded in the period the expenses are incurred or revenues are earned. A regulatory asset or liability is recognized in respect of deferred income taxes when it is expected the amounts will be recovered or settled through future regulator-approved rates. As at December 31, 2018 and 2017, our regulatory assets totaled \$4,073 million and \$3,477 million, respectively, and significant regulatory liabilities totaled \$2,252 million and \$2,366 million, respectively.

Depreciation

Depreciation of property, plant and equipment, our largest asset with a net book value at December 31, 2018 and 2017, of \$94,540 million and \$90,711 million, respectively, is charged in accordance with two primary methods. For distinct assets, depreciation is generally provided on a straight-line basis over the estimated useful lives of the assets commencing when the asset is placed in service. For largely homogeneous groups of assets with comparable useful lives, the pool method of accounting is followed whereby similar assets are grouped and depreciated as a pool. When group assets are retired or otherwise disposed of, gains and losses are not reflected in earnings but are booked as an adjustment to accumulated depreciation.

When it is determined that the estimated service life of an asset no longer reflects the expected remaining period of benefit, prospective changes are made to the estimated service life. Estimates of useful lives are based on third party engineering studies, experience and/or industry practice. There are a number of assumptions inherent in estimating the service lives of our assets including the level of development, exploration, drilling, reserves and production of crude oil and natural gas in the supply areas served by our pipelines as well as the demand for crude oil and natural gas and the integrity of our systems. Changes in these assumptions could result in adjustments to the estimated service lives, which could result in material changes to depreciation expense in future periods in any of our business segments. For certain rate-regulated operations, depreciation rates are approved by the regulator and the regulator may require periodic studies or technical updates on useful lives which may change depreciation rates.

Postretirement Benefits

We maintain pension plans, which provide defined benefit and/or defined contribution pension benefits and other postretirement benefits (OPEB) to eligible retirees. Pension costs and obligations for the defined benefit pension plans are determined using actuarial methods and are funded through contributions determined using the projected benefit method, which incorporates management's best estimates of future salary level, other cost escalations, retirement ages of employees and other actuarial factors including discount rates and mortality. We determine discount rates by reference to rates of high-quality long-term corporate bonds with maturities that approximate the timing of future payments we anticipate making under each of the respective plans. These assumptions are reviewed annually by our actuaries. Actual results that differ from assumptions are amortized over future periods and therefore could materially affect the expense recognized and the recorded obligation in future periods. The actual return on plan assets was below the expectation by \$449 million and exceeded the expectation by \$174 million for the years ended December 31, 2018 and 2017, respectively, as disclosed in Part II. Item 8. Financial Statements and Supplementary Data - Note 26. Pension and Other Postretirement Benefits. The difference between the actual and expected return on plan assets is amortized over the remaining service period of the active employees.

The following sensitivity analysis identifies the impact on the December 31, 2018 Consolidated Financial Statements of a 0.5% change in key pension and OPEB assumptions.

	Canada		United States	
	Obligation	Expense	Obligation	Expense
(millions of Canadian dollars)				
Pension				
Decrease in discount rate	317	30	60	2
Decrease in expected return on assets	—	18	—	6
Decrease in rate of salary increase	(75) —	(6) (2
OPEB				
Decrease in discount rate	22	1	15	(1
Decrease in expected return on assets	—	—	—	1

Contingent Liabilities

Provisions for claims filed against us are determined on a case-by-case basis. Case estimates are reviewed on a regular basis and are updated as new information is received. The process of evaluating claims involves the use of estimates and a high degree of management judgment. Claims outstanding, the final determination of which could have a material impact on our financial results and certain subsidiaries and investments are detailed in Part II. Item 8. Financial Statements and Supplementary Data - Note 29. Commitments and Contingencies. In addition, any unasserted claims that later may become evident could have a material impact on our financial results and certain subsidiaries and investments.

Asset Retirement Obligations

ARO associated with the retirement of long-lived assets are measured at fair value and recognized as Accounts payable and other or Other long-term liabilities in the period in which they can be reasonably determined. The fair value approximates the cost a third party would charge to perform the tasks necessary to retire such assets and is recognized at the present value of expected future cash flows. Discount rates used to estimate the present value the expected future cash flows range from 1.8% to 9.0% and 1.7% to 9.0% for the years ended December 31, 2018 and 2017, respectively. ARO is added to the carrying value of the associated asset and depreciated over the asset's useful life. The corresponding liability is accreted over time through charges to earnings and is reduced by actual costs of decommissioning and reclamation. Our estimates of retirement costs could change as a result of changes in cost estimates and regulatory requirements. Currently, for the majority of our assets, there is insufficient data or information to reasonably determine the timing of settlement for estimating the fair value of the ARO. In these cases, the ARO cost is considered indeterminate for accounting purposes, as there is no

data or information that can be derived from past practice, industry practice or the estimated economic life of the asset.

In 2009, the NEB issued a decision related to the LMCI, which required holders of an authorization to operate a pipeline under the NEB Act to file a proposed process and mechanism to set aside funds to pay for future abandonment costs in respect of the sites in Canada used for the operation of a pipeline. The NEB's decision stated that while pipeline companies are ultimately responsible for the full costs of abandoning pipelines, abandonment costs are a legitimate cost of providing service and are recoverable from the users of the pipeline upon approval by the NEB. Following the NEB's final approval of the collection mechanism and the set-aside mechanism for LMCI, we began collecting and setting aside funds to cover future abandonment costs effective January 1, 2015. The funds collected are held in trust in accordance with the NEB decision. The funds collected from shippers are reported within Transportation and other services revenues and Restricted long-term investments. Concurrently, we reflect the future abandonment cost as an increase to Operating and administrative expense and Other long-term liabilities.

CHANGES IN ACCOUNTING POLICIES

Refer to Item 8. Financial Statements and Supplementary Data - Note 3. Changes in Accounting Policies.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our earnings, cash flows and other comprehensive income (OCI) are subject to movements in foreign exchange rates, interest rates, commodity prices and our share price.

The following summarizes the types of market risks to which we are exposed and the risk management instruments used to mitigate them. We use a combination of qualifying and non-qualifying derivative instruments to manage the risks noted below.

Foreign Exchange Risk

We generate certain revenues, incur expenses, and hold a number of investments and subsidiaries that are denominated in currencies other than Canadian dollars. As a result, our earnings, cash flows and OCI are exposed to fluctuations resulting from foreign exchange rate variability.

We employ financial derivative instruments to hedge foreign currency denominated earnings exposure. A combination of qualifying and non-qualifying derivative instruments are used to hedge anticipated foreign currency denominated revenues and expenses, and to manage variability in cash flows. We hedge certain net investments in United States dollar denominated investments and subsidiaries using foreign currency derivatives and United States dollar denominated debt.

Interest Rate Risk

Our earnings and cash flows are exposed to short-term interest rate variability due to the regular repricing of our variable rate debt, primarily commercial paper. Pay fixed-receive floating interest rate swaps may be used to hedge against the effect of future interest rate movements. We have implemented a program to significantly mitigate the impact of short-term interest rate volatility on interest expense via execution of floating to fixed interest rate swaps with an average swap rate of 2.8%.

We are exposed to changes in the fair value of fixed rate debt that arise as a result of the changes in market interest rates. Pay floating-receive fixed interest rate swaps are used, when applicable, to hedge against future changes to the fair value of fixed rate debt which mitigates the impact of fluctuations in the fair value of fixed rate debt via execution of fixed to floating interest rate swaps. As of December 31, 2018 we do not have any pay floating-receive fixed interest rate swaps outstanding.

Our earnings and cash flows are also exposed to variability in longer term interest rates ahead of anticipated fixed rate term debt issuances. Forward starting interest rate swaps are used to hedge against the effect of future interest rate movements. We have established a program within some of our subsidiaries to mitigate our exposure to long-term interest rate variability on select forecast term debt issuances via execution of floating to fixed interest rate swaps with an average swap rate of 3.2%.

We also monitor our debt portfolio mix of fixed and variable rate debt instruments to manage a consolidated portfolio of floating rate debt within the Board of Directors approved policy limit of a maximum of 30% of floating rate debt as a percentage of total debt outstanding. We primarily use qualifying derivative instruments to manage interest rate risk.

Commodity Price Risk

Our earnings and cash flows are exposed to changes in commodity prices as a result of our ownership interests in certain assets and investments, as well as through the activities of our energy services subsidiaries. These commodities include natural gas, crude oil, power and NGL. We employ financial and physical derivative instruments to fix a portion of the variable price exposures that arise from physical transactions involving these commodities. We use primarily non-qualifying derivative instruments to manage commodity price risk.

Equity Price Risk

Equity price risk is the risk of earnings fluctuations due to changes in our share price. We have exposure to our own common share price through the issuance of various forms of stock-based compensation, which affect earnings through revaluation of the outstanding units every period. We use equity derivatives to manage the earnings volatility derived from one form of stock-based compensation, restricted share units. We use a combination of qualifying and non-qualifying derivative instruments to manage equity price risk.

Market Risk Management

We have a Risk Policy to minimize the likelihood that adverse cash flow impacts arising from movements in market prices will exceed a defined risk tolerance. We identify and measure all material market risks including commodity price risks, interest rate risks, foreign exchange risk and equity price risk using a standardized measurement methodology. Our market risk metric consolidates the exposure after accounting for the impact of offsetting risks and limits the consolidated cash flow volatility arising from market related risks to an acceptable approved risk tolerance threshold.

Effective January 1, 2018, the Board of Directors approved a change in our market risk metric to Cash Flow at Risk (CFaR). The policy change aligns the market risk metric with key result metrics in the organization.

CFaR is a statistically derived measurement used to measure the maximum cash flow loss that could potentially result from adverse market price movements over a one month holding period for price sensitive non-derivative exposures and for derivative instruments we hold or issue as recorded on the Consolidated Statements of Financial Position as at December 31, 2018. CFaR assumes that no further mitigating actions are taken to hedge or otherwise minimize exposures and the selection of a one month holding period reflects the mix of price risk sensitive assets at Enbridge. As a practical matter, a large portion of Enbridge's exposure could be hedged or unwound in a much shorter period if required to mitigate the risks.

The consolidated CFaR policy limit for Enbridge is 3.5% of its forward 12 month normalized cash flow. At December 31, 2018 CFaR was \$140M or 1.6% of estimated 12 month forward normalized cash flow.

LIQUIDITY RISK

Liquidity risk is the risk that we will not be able to meet our financial obligations, including commitments and guarantees, as they become due. In order to mitigate this risk, we forecast cash requirements over a 12 month rolling time period to determine whether sufficient funds will be available and maintain substantial capacity under our committed bank lines of credit to address any contingencies. Our primary sources of liquidity and capital resources are funds generated from operations, the issuance of commercial paper and draws under committed credit facilities and long-term debt, which includes debentures and medium-term notes. We also maintain current shelf prospectuses with securities regulators which enables, subject to market conditions, ready access to either the Canadian or United States public capital markets. In addition, we maintain sufficient liquidity through committed credit facilities with a diversified group of banks and institutions which, if necessary, enables us to fund all anticipated requirements for approximately one year without accessing the capital markets. We are in compliance with all the terms and conditions of our committed credit facility agreements and term debt indentures as at December 31, 2018. As a result, all credit facilities are available to us and the banks are obligated to fund and have been funding us under the terms of the facilities.

CREDIT RISK

Entering into derivative instruments may result in exposure to credit risk from the possibility that a counterparty will default on its contractual obligations. In order to mitigate this risk, we enter into risk management transactions primarily with institutions that possess strong investment grade credit ratings. Credit risk relating to derivative counterparties is mitigated through maintenance and monitoring of credit exposure limits and contractual requirements, netting arrangements, and ongoing monitoring of counterparty credit exposure using external credit rating services and other analytical tools.

We generally have a policy of entering into individual International Swaps and Derivatives Association, Inc. agreements or other similar derivative agreements with the majority of our financial derivative counterparties. These agreements provide for the net settlement of derivative instruments outstanding with specific counterparties in the event of bankruptcy or other significant credit events, and reduces our credit risk exposure on financial derivative asset positions outstanding with the counterparties in these particular circumstances.

FAIR VALUE MEASUREMENTS

The most observable inputs available are used to estimate the fair value of derivatives. When possible, we estimate the fair value of our derivatives based on quoted market prices from exchanges. If quoted market prices are not available, we use estimates from third party brokers. For non-exchange traded derivatives classified in Levels 2 and 3, we use standard valuation techniques to calculate the estimated fair value. These methods include discounted cash flows for forwards and swaps and Black-Scholes-Merton pricing models for options. Depending on the type of derivative and nature of the underlying risk, we use observable market prices (interest rates, foreign exchange rates, commodity prices and share prices, as applicable) and volatility as primary inputs to these valuation techniques. Finally, we consider our own credit default swap spread, as well as the credit default swap spreads associated with our counterparties, in our estimation of fair value.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors of Enbridge Inc.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated statements of financial position of Enbridge Inc. and its subsidiaries (together, the Company) as of December 31, 2018 and 2017, and the related consolidated statements of earnings, comprehensive income, changes in equity and cash flows for each of the three years in the period ended December 31, 2018, including the related notes (collectively referred to as the consolidated financial statements). We also have audited the Company's internal control over financial reporting as of December 31, 2018, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2018 and 2017, and their results of operations and their cash flows for each of the three years in the period ended December 31, 2018 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2018, based on criteria established in Internal Control - Integrated Framework (2013) issued by the COSO.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on the Company's consolidated financial statements and on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

1. BUSINESS OVERVIEW

The terms “we,” “our,” “us” and “Enbridge” as used in this report refer collectively to Enbridge Inc. and its subsidiaries unless the context suggests otherwise. These terms are used for convenience only and are not intended as a precise description of any separate legal entity within Enbridge.

Enbridge is a publicly traded energy transportation and distribution company. We conduct our business through five business segments: Liquids Pipelines; Gas Transmission and Midstream; Gas Distribution; Green Power and Transmission; and Energy Services. These reporting segments are strategic business units established by senior management to facilitate the achievement of our long-term objectives, to aid in resource allocation decisions and to assess operational performance.

LIQUIDS PIPELINES

Liquids Pipelines consists of common carrier and contract pipelines that transport crude oil, natural gas liquids (NGL) and refined products and terminals in Canada and the United States, including Canadian Mainline, Lakehead Pipeline System (Lakehead System), Regional Oil Sands System, Gulf Coast and Mid-Continent, Southern Lights Pipeline, Express-Platte System, Bakken System, and Feeder Pipelines and Other.

GAS TRANSMISSION AND MIDSTREAM

Gas Transmission and Midstream consists of investments in natural gas pipelines and gathering and processing facilities in Canada and the United States. Investments in natural gas pipelines include our interests in US Gas Transmission, Canadian Gas Transmission and Midstream, Alliance Pipeline, US Midstream and Other. Investments in natural gas processing include our interest in Aux Sable, a natural gas extraction and fractionation business located near the terminus of the Alliance Pipeline; Canadian Gas Transmission and Midstream assets located in northeast British Columbia and northwest Alberta; and DCP Midstream, LLC assets located primarily in Texas and Oklahoma.

GAS DISTRIBUTION

Gas Distribution consists of our natural gas utility operations, the core of which are Enbridge Gas Distribution Inc. (EGD) and Union Gas Limited (Union Gas), which serves residential, commercial and industrial customers, primarily located in Ontario. This business segment also includes natural gas distribution activities in Quebec and New Brunswick and an investment in Noverco Inc. (Noverco).

GREEN POWER AND TRANSMISSION

Green Power and Transmission consists of our investments in renewable energy assets and transmission facilities. Renewable energy assets consist of wind, solar, geothermal and waste heat recovery facilities and are located in Canada primarily in the provinces of Alberta, Ontario and Quebec and in the United States primarily in Colorado, Texas, Indiana and West Virginia. We also have assets in operation and under development located in Europe.

ENERGY SERVICES

The Energy Services businesses in Canada and the United States undertake physical commodity marketing activity and logistical services, oversee refinery supply services and manage our volume commitments on various pipeline systems.

ELIMINATIONS AND OTHER

In addition to the segments noted above, Eliminations and Other includes operating and administrative costs and the impact of foreign exchange hedge settlements, which are not allocated to business segments. Also included in Eliminations and Other are new business development activities, general corporate investments and a portion of the synergies achieved thus far related to the integration of corporate functions due to the Merger Transaction, as defined in Acquisition of Spectra Energy Corp.

SPONSORED VEHICLES BUY-IN

101

In the fourth quarter of 2018, Enbridge completed the buy-ins of our sponsored vehicles: Spectra Energy Partners, LP (SEP), Enbridge Energy Partners, L.P. (EEP), Enbridge Energy Management, L.L.C. (EEM) and Enbridge Income Fund Holdings Inc. (ENF), (referred to herein collectively as the Sponsored Vehicles) in a series of combination transactions, through which we acquired all of the outstanding equity securities of the Sponsored Vehicles not beneficially owned by us (collectively, the Sponsored Vehicles buy-in). Please refer to Note 20 - Noncontrolling Interests for further discussion of the transactions.

ACQUISITION OF SPECTRA ENERGY CORP

On February 27, 2017, Enbridge and Spectra Energy Corp (Spectra Energy) combined in a stock-for-stock merger transaction (the Merger Transaction) for a purchase price of \$37.5 billion. Under the terms of the Merger Transaction, Spectra Energy shareholders received 0.984 shares of Enbridge common stock for each share of Spectra Energy common stock that they owned, resulting in us acquiring 100% ownership of Spectra Energy. Please refer to Note 8 - Acquisitions and Dispositions for further discussion of the transaction.

DISPOSITIONS

During the years ended December 31, 2018 and 2017, we have disposed of a number of our non-core assets. Please refer to Note 8 - Acquisitions and Dispositions for further discussion of these transactions.

2. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP). Amounts are stated in Canadian dollars unless otherwise noted. As a Securities and Exchange Commission (SEC) registrant, we are permitted to use U.S. GAAP for purposes of meeting both our Canadian and United States continuous disclosure requirements.

BASIS OF PRESENTATION AND USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, as well as the disclosure of contingent assets and liabilities in the consolidated financial statements. Significant estimates and assumptions used in the preparation of the consolidated financial statements include, but are not limited to: carrying values of regulatory assets and liabilities (Note 7); purchase price allocations (Note 8); unbilled revenues; depreciation rates and carrying value of property, plant and equipment (Note 11); amortization rates of intangible assets (Note 15); measurement of goodwill (Note 16); fair value of asset retirement obligations (ARO) (Note 19); valuation of stock-based compensation (Note 22); fair value of financial instruments (Note 24); provisions for income taxes (Note 25); assumptions used to measure retirement and other postretirement benefit obligations (OPEB) (Note 26); commitments and contingencies (Note 29); and estimates of losses related to environmental remediation obligations (Note 29). Actual results could differ from these estimates.

Certain comparative figures in our Consolidated Statements of Cash Flows have been reclassified to conform to the current year's presentation. Effective September 30, 2017, we combined Cash and cash equivalents and amounts previously presented as Bank indebtedness where the corresponding bank accounts are subject to cash pooling arrangements. Net cash provided by financing activities in the Consolidated Statements of Cash Flows for the year ended December 31, 2016 have decreased by \$0.3 billion to reflect this change.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include our accounts and accounts of our subsidiaries and variable interest entities (VIEs) for which we are the primary beneficiary. A VIE is a legal entity that does not have sufficient equity at risk to finance its activities without additional subordinated financial support or is structured such that equity investors lack the ability to make significant decisions relating to the entity's

operations through voting rights or do not substantively participate in the gains and losses of the entity. Upon inception of a contractual agreement, we perform an assessment to determine whether the arrangement contains a variable interest in a legal entity and whether that legal entity is a VIE. The primary beneficiary has both the power to direct the activities of the VIE that most significantly impact the entity's economic performance and the obligation to absorb losses or the right to receive benefits from the VIE entity that could potentially be significant to the VIE. Where we conclude that we are the primary beneficiary of a VIE, we consolidate the accounts of that VIE. We assess all variable interests in the entity and use our judgment when determining if we are the primary beneficiary. Other qualitative factors that are considered include decision-making responsibilities, the VIE capital structure, risk and rewards sharing, contractual agreements with the VIE, voting rights and level of involvement of other parties. We assess the primary beneficiary determination for a VIE on an ongoing basis, if there are changes in the facts and circumstances related to a VIE. The consolidated financial statements also include the accounts of any limited partnerships where we represent the general partner and, based on all facts and circumstances, control such limited partnerships, unless the limited partner has substantive participating rights or substantive kick-out rights. For certain investments where we retain an undivided interest in assets and liabilities, we record our proportionate share of assets, liabilities, revenues and expenses. If an entity is determined to not be a VIE, the voting interest entity model is applied, where an investor holding the majority voting rights consolidates the entity.

All significant intercompany accounts and transactions are eliminated upon consolidation. Ownership interests in subsidiaries represented by other parties that do not control the entity are presented in the consolidated financial statements as activities and balances attributable to noncontrolling interests and redeemable noncontrolling interests. Investments and entities over which we exercise significant influence are accounted for using the equity method.

As a result of the Canadian Restructuring Plan, ECT, our subsidiary, determines its equity investment earnings from EIPLP using the Hypothetical Liquidation at Book Value (HLBV) method. ECT applies the HLBV method to its equity method investments where cash distributions, including both preference and residual distributions, are not based on the investor's ownership percentages. Under the HLBV method, a calculation is prepared at each balance sheet date to determine the amount that ECT would receive if EIPLP were to liquidate all of its assets, as valued in accordance with U.S. GAAP, and distribute that cash to the investors. The difference between the calculated liquidation distribution amounts at the beginning and the end of the reporting period, after adjusting for capital contributions and distributions, is ECT's share of the earnings or losses from the equity investment for the period. While ECT and EIPLP are both consolidated in these financial statements, the use of the HLBV method by ECT impacts the earnings attributable to redeemable noncontrolling interests reported on Enbridge's Consolidated Statements of Earnings for comparative periods. Redeemable noncontrolling interests on the Consolidated Statements of Financial Position as at December 31, 2017 are recognized at the maximum redemption value of the trust units held by third parties, which references the market price of ENF common shares.

REGULATION

Certain parts of our businesses are subject to regulation by various authorities including, but not limited to, the National Energy Board (NEB), the Federal Energy Regulatory Commission (FERC), the Alberta Energy Regulator, the New Brunswick Energy and Utilities Board (NBEUB), the Ontario Energy Board (OEB) and La Régie de l'Énergie du Québec. Regulatory bodies exercise statutory authority over matters such as construction, rates and ratemaking and agreements with customers. To recognize the economic effects of the actions of the regulator, the timing of recognition of certain revenues and expenses in these operations may differ from that otherwise expected under U.S. GAAP for non rate-regulated entities.

Regulatory assets represent amounts that are expected to be recovered from customers in future periods through rates. Regulatory liabilities represent amounts that are expected to be refunded to customers in future periods through rates or expected to be paid to cover future abandonment costs in relation to the

NEB's Land Matters Consultation Initiative (LMCI). Long-term regulatory assets are recorded in Deferred amounts and other assets and current regulatory assets are recorded in Accounts receivable and other. Long-term regulatory liabilities are included in Other long-term liabilities and current regulatory liabilities are recorded in Accounts payable and other. Regulatory assets are assessed for impairment if we identify an event indicative of possible impairment. The recognition of regulatory assets and liabilities is based on the actions, or expected future actions, of the regulator. To the extent that the regulator's actions differ from our expectations, the timing and amount of recovery or settlement of regulatory balances could differ significantly from those recorded. In the absence of rate regulation, we would generally not recognize regulatory assets or liabilities and the earnings impact would be recorded in the period the expenses are incurred or revenues are earned. A regulatory asset or liability is recognized in respect of deferred income taxes when it is expected the amounts will be recovered or settled through future regulator-approved rates.

Allowance for funds used during construction (AFUDC) is included in the cost of property, plant and equipment and is depreciated over future periods as part of the total cost of the related asset. AFUDC includes both an interest component and, if approved by the regulator, a cost of equity component, which are both capitalized based on rates set out in a regulatory agreement. In the absence of rate regulation, we would capitalize interest using a capitalization rate based on its cost of borrowing, whereas the capitalized equity component, the corresponding earnings during the construction phase and the subsequent depreciation would not be recognized.

For certain regulated operations to which U.S. GAAP guidance for phase-in plans applies, negotiated depreciation rates recovered in transportation tolls may be less than the depreciation expense calculated in accordance with U.S. GAAP in early years of long-term contracts but recovered in future periods when tolls exceed depreciation. Depreciation expense on such assets is recorded in accordance with U.S. GAAP and no deferred regulatory asset is recorded (Note 7).

With the approval of the applicable regulator, EGD, Union Gas and certain distribution operations capitalize a percentage of specified operating costs. These operations are authorized to charge depreciation and earn a return on the net book value of such capitalized costs in future years. To the extent that the regulator's actions differ from our expectations, the timing and amount of recovery or settlement of capitalized costs could differ significantly from those recorded. In the absence of rate regulation, a portion of such costs may be charged to current period earnings.

REVENUE RECOGNITION

For businesses that are not rate-regulated, revenues are recorded when products have been delivered or services have been performed, the amount of revenue can be reliably measured and collectability is reasonably assured. Customer credit worthiness is assessed prior to agreement signing, as well as throughout the contract duration. Certain revenues from liquids and gas pipeline businesses are recognized under the terms of committed delivery contracts rather than the cash tolls received.

Long-term take-or-pay contracts, under which shippers are obligated to pay fixed amounts rateably over the contract period regardless of volumes shipped, may contain make-up rights. Make-up rights are earned by shippers when minimum volume commitments are not utilized during the period but under certain circumstances can be used to offset overages in future periods, subject to expiry periods. We recognize revenues associated with make-up rights at the earlier of when the make-up volume is shipped, the make-up right expires or when it is determined that the likelihood that the shipper will utilize the make-up right is remote.

Certain offshore pipeline transportation contracts require Enbridge to provide transportation services for the life of the underlying producing fields. Under these arrangements, shippers pay Enbridge a fixed monthly toll for a defined period of time which may be shorter than the estimated reserve life of the underlying producing fields, resulting in a contract period which extends past the period of cash collection. Fixed monthly toll revenues are recognized ratably over the committed volume made available to

shippers throughout the contract period, regardless of when cash is received. For the years ended December 31, 2018, 2017 and 2016, cash received net of revenue recognized for contracts under make-up rights and similar deferred revenue arrangements was \$208 million, \$196 million, and \$249 million, respectively.

For rate-regulated businesses, revenues are recognized in a manner that is consistent with the underlying agreements as approved by the regulators. Natural gas utilities revenues are recorded on the basis of regular meter readings and estimates of customer usage from the last meter reading to the end of the reporting period. Estimates are based on historical consumption patterns and heating degree days experienced. Heating degree days is a measure of coldness that is indicative of volumetric requirements for natural gas utilized for heating purposes in our distribution franchise area. Since July 1, 2011, Canadian Mainline (excluding Lines 8 and 9) earnings are governed by the Competitive Toll Settlement (CTS), under which revenues are recorded when services are performed. Effective on that date, we prospectively discontinued the application of rate-regulated accounting for those assets with the exception of flow-through income taxes covered by specific rate orders.

Our Energy Services segment enters into commodity purchase and sale arrangements that are recorded gross because the related contracts are not held for trading purposes and we are acting as the principal in the transactions. For our energy marketing contracts, an estimate of revenues and commodity costs for the month of December is included in the Consolidated Statements of Earnings for each year based on the best available volume and price data for the commodity delivered and received.

DERIVATIVE INSTRUMENTS AND HEDGING

Non-qualifying Derivatives

Non-qualifying derivative instruments are used primarily to economically hedge foreign exchange, interest rate and commodity price earnings exposure. Non-qualifying derivatives are measured at fair value with changes in fair value recognized in earnings in Transportation and other services revenues, Commodity costs, Operating and administrative expense, Other income/(expense) and Interest expense.

Derivatives in Qualifying Hedging Relationships

We use derivative financial instruments to manage our exposure to changes in commodity prices, foreign exchange rates, interest rates and certain compensation tied to our share price. Hedge accounting is optional and requires Enbridge to document the hedging relationship and test the hedging item's effectiveness in offsetting changes in fair values or cash flows of the underlying hedged item on an ongoing basis. We present the earnings effects of hedging items with the hedged transaction. Derivatives in qualifying hedging relationships are categorized as cash flow hedges, fair value hedges or net investment hedges.

Cash Flow Hedges

We use cash flow hedges to manage our exposure to changes in commodity prices, foreign exchange rates, interest rates and certain compensation tied to our share price. The effective portion of the change in the fair value of a cash flow hedging instrument is recorded in Other comprehensive income/(loss) (OCI) and is reclassified to earnings when the hedged item impacts earnings. Any hedge ineffectiveness is recorded in current period earnings.

If a derivative instrument designated as a cash flow hedge ceases to be effective or is terminated, hedge accounting is discontinued and the gain or loss at that date is deferred in OCI and recognized concurrently with the related transaction. If a hedged anticipated transaction is no longer probable, the gain or loss is recognized immediately in earnings. Subsequent gains and losses from derivative instruments for which hedge accounting has been discontinued are recognized in earnings in the period in which they occur.

Fair Value Hedges

We use fair value hedges to hedge the fair value of debt instruments. The change in the fair value of the hedging instrument is recorded in earnings with changes in the fair value of the hedged asset or liability that is designated as part of the hedging relationship. If a fair value hedge is discontinued or ceases to be effective, the hedged asset or liability, otherwise required to be carried at cost or amortized cost, ceases to be remeasured at fair value and the cumulative fair value adjustment to the carrying value of the hedged item is recognized in earnings over the remaining life of the hedged item.

Net Investment Hedges

Gains and losses arising from translation of net investment in foreign operations from their functional currencies to Enbridge's Canadian dollar presentation currency are included in cumulative translation adjustments (CTA). We designate foreign currency derivatives and United States dollar denominated debt as hedges of net investments in United States dollar denominated foreign operations. As a result, the effective portion of the change in the fair value of the foreign currency derivatives as well as the translation of United States dollar denominated debt are reflected in OCI and any ineffectiveness is reflected in current period earnings. Amounts recognized previously in Accumulated other comprehensive income/(loss) (AOCI) are reclassified to earnings when there is a reduction of the hedged net investment resulting from disposal of a foreign operation.

Classification of Derivatives

We recognize the fair market value of derivative instruments on the Consolidated Statements of Financial Position as current and non-current assets or liabilities depending on the timing of the settlements and the resulting cash flows associated with the instruments. Fair value amounts related to cash flows occurring beyond one year are classified as non-current.

Cash inflows and outflows related to derivative instruments are classified as Operating activities on the Consolidated Statements of Cash Flows.

Balance Sheet Offset

Assets and liabilities arising from derivative instruments may be offset in the Consolidated Statements of Financial Position when we have the legal right and intention to settle them on a net basis.

Transaction Costs

Transaction costs are incremental costs directly related to the acquisition of a financial asset or the issuance of a financial liability. We incur transaction costs primarily from the issuance of debt and account for these costs as a deduction from Long-term debt on the Statements of Financial Position. These costs are amortized using the effective interest rate method over the term of the related debt instrument and are recorded in Interest expense.

EQUITY INVESTMENTS

Equity investments over which we exercise significant influence, but do not have controlling financial interests, are accounted for using the equity method. Equity investments are initially measured at cost and are adjusted for our proportionate share of undistributed equity earnings or loss. Equity investments are increased for contributions made to and decreased for distributions received from the investees. To the extent an equity investee undertakes activities necessary to commence its planned principal operations, we capitalize interest costs associated with its investment during such period.

RESTRICTED LONG-TERM INVESTMENTS

Long-term investments that are restricted as to withdrawal or usage, for the purposes of the NEB's LMCI, are presented as Restricted long-term investments on the Consolidated Statements of Financial Position.

OTHER INVESTMENTS

Generally, we classify equity investments in entities over which we do not exercise significant influence and that do not have readily determinable fair values as other investments measured at fair value measurement alternative and recorded at cost minus impairment, if any, plus or minus changes resulting

106

from observable price changes in orderly transactions for an identical or similar investment of the same issuer. Investments in equity securities measured using the fair value measurement alternative are reviewed for impairment each reporting period. Equity investments with readily determinable fair values are measured at fair value through net income. Dividends received from investments in equity securities are recognized in earnings when the right to receive payment is established.

Investments in debt securities are classified either as available for sale securities measured at fair value through OCI or as held to maturity securities measured at amortized cost.

NONCONTROLLING INTERESTS

Noncontrolling interests represent ownership interests attributable to third parties in certain consolidated subsidiaries. The portion of equity not owned by us in such entities is reflected as Noncontrolling interests within the equity section of the Consolidated Statements of Financial Position and, in the case of redeemable noncontrolling interests as at December 31, 2017, within the mezzanine section of the Consolidated Statements of Financial Position between long-term liabilities and equity.

Enbridge Income Fund (The Fund)'s noncontrolling interest holders had the option to redeem the Fund trust units for cash, subject to certain limitations. Redeemable noncontrolling interests as at December 31, 2017 are recognized at the maximum redemption value of the trust units held by third parties, which references the market price of ENF common shares. On a quarterly basis and up until redeemable noncontrolling interest repurchase date, changes in estimated redemption values are reflected as a charge or credit to retained earnings.

The use of the HLBV method by ECT impacts the earnings attributable to redeemable noncontrolling interests reported on our Consolidated Statements of Earnings for comparative periods.

INCOME TAXES

Income taxes are accounted for using the liability method. Deferred income tax assets and liabilities are recorded based on temporary differences between the tax bases of assets and liabilities and their carrying values for accounting purposes. Deferred income tax assets and liabilities are measured using the tax rate that is expected to apply when the temporary differences reverse. For our regulated operations, a deferred income tax liability or asset is recognized with a corresponding regulatory asset or liability, respectively, to the extent taxes can be recovered through rates. Any interest and/or penalty incurred related to tax is reflected in income taxes.

FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION

Foreign currency transactions are those transactions whose terms are denominated in a currency other than the currency of the primary economic environment in which Enbridge or a reporting subsidiary operates, referred to as the functional currency. Transactions denominated in foreign currencies are translated into the functional currency using the exchange rate prevailing at the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency using the rate of exchange in effect at the balance sheet date. Exchange gains and losses resulting from translation of monetary assets and liabilities are included in the Consolidated Statements of Earnings in the period in which they arise.

Gains and losses arising from translation of foreign operations' functional currencies to our Canadian dollar presentation currency are included in the CTA component of AOCI and are recognized in earnings upon sale of the foreign operation. Asset and liability accounts are translated at the exchange rates in effect on the balance sheet date, while revenues and expenses are translated using monthly average exchange rates.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include short-term investments with a term to maturity of three months or less when purchased.

RESTRICTED CASH

Cash and cash equivalents that are restricted as to withdrawal or usage, in accordance with specific commercial arrangements, are presented as Restricted cash on the Consolidated Statements of Financial Position.

LOANS AND RECEIVABLES

Affiliate long-term notes receivable are measured at amortized cost using the effective interest rate method, net of any impairment losses recognized. Accounts receivable and other are measured at cost.

ALLOWANCE FOR DOUBTFUL ACCOUNTS

Allowance for doubtful accounts is determined based on collection history. When we have determined that further collection efforts are unlikely to be successful, amounts charged to the allowance for doubtful accounts are applied against the impaired accounts receivable.

NATURAL GAS IMBALANCES

The Consolidated Statements of Financial Position include in-kind balances as a result of differences in gas volumes received and delivered for customers. Since settlement of certain imbalances is in-kind, changes in the balances do not have an effect on our Consolidated Statements of Earnings or Consolidated Statements of Cash Flows. Most natural gas volumes owed to or by us are valued at natural gas market index prices as at the balance sheet dates.

INVENTORY

Inventory is comprised of natural gas in storage held in EGD and Union Gas, and crude oil and natural gas held primarily by energy services businesses in the Energy Services segment. Natural gas in storage in EGD and Union Gas is recorded at the quarterly prices approved by the OEB in the determination of distribution rates. The actual price of gas purchased may differ from the OEB approved price. The difference between the approved price and the actual cost of the gas purchased is deferred as a liability for future refund or as an asset for collection as approved by the OEB. Other commodities inventory is recorded at the lower of cost, as determined on a weighted average basis, or market value. Upon disposition, other commodities inventory is recorded to Commodity costs on the Consolidated Statements of Earnings at the weighted average cost of inventory, including any adjustments recorded to reduce inventory to market value.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment is recorded at historical cost. Expenditures for construction, expansion, major renewals and betterments are capitalized. Maintenance and repair costs are expensed as incurred. Expenditures for project development are capitalized if they are expected to have future benefit. We capitalize interest incurred during construction for non-rate-regulated assets. For rate-regulated assets, AFUDC is included in the cost of property, plant and equipment and is depreciated over future periods as part of the total cost of the related asset. AFUDC includes both an interest component and, if approved by the regulator, a cost of equity component.

Two primary methods of depreciation are utilized. For distinct assets, depreciation is generally provided on a straight-line basis over the estimated useful lives of the assets commencing when the asset is placed in service. For largely homogeneous groups of assets with comparable useful lives, the pool method of accounting for property, plant and equipment is followed whereby similar assets are grouped and depreciated as a pool. When group assets are retired or otherwise disposed of, gains and losses are generally not reflected in earnings but are booked as an adjustment to accumulated depreciation.

DEFERRED AMOUNTS AND OTHER ASSETS

Deferred amounts and other assets primarily include: costs which regulatory authorities have permitted, or are expected to permit, to be recovered through future rates including deferred income taxes;

contractual receivables under the terms of long-term delivery contracts; and derivative financial instruments.

INTANGIBLE ASSETS

Intangible assets consist primarily of certain software costs, customer relationships and emission allowances. We capitalize costs incurred during the application development stage of internal use software projects. Customer relationships represent the underlying relationship from long-term agreements with customers that are capitalized upon acquisition. From January 1, 2017 through July 3, 2018, emission allowances, which are recorded at their original cost, were purchased in order to meet greenhouse gas (GHG) compliance obligations. Intangible assets are generally amortized on a straight-line basis over their expected lives, commencing when the asset is available for use, with the exception of emission allowances, which are not amortized as they will be used to satisfy compliance obligations as they come due.

GOODWILL

Goodwill represents the excess of the purchase price over the fair value of net identifiable assets on acquisition of a business. The carrying value of goodwill, which is not amortized, is assessed for impairment annually, or more frequently if events or changes in circumstances arise that suggest the carrying value of goodwill may be impaired. We perform our annual review of the goodwill balance on April 1.

We perform our annual review for impairment at the reporting unit level, which is identified by assessing whether the components of our operating segments constitute businesses for which discrete information is available, whether segment management regularly reviews the operating results of those components and whether the economic and regulatory characteristics are similar. We determined that our reporting units are equivalent to our reportable segments, with the exception of the gas transmission and gas midstream reportable segment which is divided at the component level into two reporting units. We have the option to first assess qualitative factors to determine whether it is necessary to perform the quantitative goodwill impairment test. The quantitative goodwill impairment test involves determining the fair value of our reporting units and comparing those values to the carrying value of each reporting unit. If the carrying value of a reporting unit, including allocated goodwill, exceeds its fair value, goodwill impairment is measured at the amount by which the reporting unit's carrying value exceeds its fair value. This amount should not exceed the carrying amount of goodwill.

The allocation of goodwill to held for sale and disposed businesses is based on the relative fair value of businesses included in the particular reporting unit. Fair value of our reporting unit is estimated using a combination of discounted cash flow model and earnings multiples techniques. The determination of fair value using the discounted cash flow model technique requires the use of estimates and assumptions related to discount rates, projected operating income, terminal value growth rates, capital expenditures and working capital levels. The cash flow projections included significant judgments and assumptions relating to revenue growth rates and expected future capital expenditure. The determination of fair value using the earnings multiples technique requires assumptions to be made in relation to maintainable earnings and earnings multipliers for reporting units.

IMPAIRMENT

We review the carrying values of our long-lived assets as events or changes in circumstances warrant. If it is determined that the carrying value of an asset exceeds the undiscounted cash flows expected from the asset, we calculate fair value based on the discounted cash flows and write the assets down to the extent that the carrying value exceeds the fair value.

With respect to investments in debt securities, we assess at each balance sheet date whether there is objective evidence that a financial asset is impaired by completing a quantitative or qualitative analysis of factors impacting the investment. If there is objective evidence of impairment, we value the expected discounted cash flows using observable market inputs and determine whether the decline below carrying

value is other than temporary. If the decline is determined to be other than temporary, an impairment charge is recorded in earnings with an offsetting reduction to the carrying value of the asset.

With respect to other financial assets, we assess the assets for impairment when there is no longer reasonable assurance of timely collection. If evidence of impairment is noted, we reduce the value of the financial asset to its estimated realizable amount, determined using discounted expected future cash flows.

ASSET RETIREMENT OBLIGATIONS

ARO associated with the retirement of long-lived assets are measured at fair value and recognized as Accounts payable and other or Other long-term liabilities in the period in which they can be reasonably determined. The fair value approximates the cost a third party would charge to perform the tasks necessary to retire such assets and is recognized at the present value of expected future cash flows. ARO are added to the carrying value of the associated asset and depreciated over the asset's useful life. The corresponding liability is accreted over time through charges to earnings and is reduced by actual costs of decommissioning and reclamation. Our estimates of retirement costs could change as a result of changes in cost estimates and regulatory requirements.

RETIREMENT AND POSTRETIREMENT BENEFITS

We maintain pension plans which provide defined benefit and defined contribution pension benefits.

Defined benefit pension plan costs are determined using actuarial methods and are funded through contributions determined using the projected benefit method, which incorporates management's best estimates of future salary levels, other cost escalations, retirement ages of employees and other actuarial factors including discount rates and mortality.

We use mortality tables issued by the Society of Actuaries in the United States (revised in 2018) and the Canadian Institute of Actuaries tables (revised in 2014) to measure our benefit obligations of our United States pension plan (the United States Plan) and our Canadian pension plans (the Canadian Plans), respectively. We determine discount rates by reference to rates of high-quality long-term corporate bonds with maturities that approximate the timing of future payments we anticipate making under each of the respective plans. Pension cost is charged to earnings and includes:

- Cost of pension plan benefits provided in exchange for employee services rendered during the year;
- Interest cost of pension plan obligations;
- Expected return on pension plan assets;
- Amortization of the prior service costs and amendments on a straight-line basis over the expected average remaining service period of the active employee group covered by the plans; and
- Amortization of cumulative unrecognized net actuarial gains and losses in excess of 10% of the greater of the accrued benefit obligation or the fair value of plan assets, over the expected average remaining service life of the active employee group covered by the plans.

Actuarial gains and losses arise from the difference between the actual and expected rate of return on plan assets for that period or from changes in actuarial assumptions used to determine the accrued benefit obligation, including discount rate, changes in headcount or salary inflation experience.

Pension plan assets are measured at fair value. The expected return on pension plan assets is determined using market related values and assumptions on the specific invested asset mix within the pension plans. The market related values reflect estimated return on investments consistent with long-term historical averages for similar assets.

For defined contribution plans, contributions made by Enbridge are expensed in the period in which the contribution occurs.

We also provide OPEB other than pensions, including group health care and life insurance benefits for eligible retirees, their spouses and qualified dependents. The cost of such benefits is accrued during the years in which employees render service.

The overfunded or underfunded status of defined benefit pension and OPEB plans is recognized as Deferred amounts and other assets, Accounts payable and other or Other long-term liabilities, on the Consolidated Statements of Financial Position. A plan's funded status is measured as the difference between the fair value of plan assets and the plan's projected benefit obligation. Any unrecognized actuarial gains and losses and prior service costs and credits that arise during the period are recognized as a component of OCI, net of tax.

Certain regulated utility operations of Enbridge record regulatory adjustments to reflect the difference between pension expense and OPEB costs for accounting purposes and the pension expense and OPEB costs for ratemaking purposes. Offsetting regulatory assets or liabilities are recorded to the extent pension expense or OPEB costs are expected to be collected from or refunded to customers, respectively, in future rates. In the absence of rate regulation, regulatory balances would not be recorded and pension and OPEB costs would be charged to earnings and OCI on an accrual basis.

STOCK-BASED COMPENSATION

Incentive Stock Options (ISO) granted are recorded using the fair value method. Under this method, compensation expense is measured at the grant date based on the fair value of the ISO granted as calculated by the Black-Scholes-Merton model and is recognized on a straight-line basis over the shorter of the vesting period or the period to early retirement eligibility, with a corresponding credit to Additional paid-in capital. Balances in Additional paid-in capital are transferred to Share capital when the options are exercised.

Restricted Stock Units (RSU) are cash settled awards for which the related liability is remeasured each reporting period. RSUs vest at the completion of a 35-month term. During the vesting term, compensation expense is recorded based on the number of units outstanding and the current market price of Enbridge's shares with an offset to Accounts payable and other or to Other long-term liabilities.

COMMITMENTS, CONTINGENCIES AND ENVIRONMENTAL LIABILITIES

We expense or capitalize, as appropriate, expenditures for ongoing compliance with environmental regulations that relate to past or current operations. We expense costs incurred for remediation of existing environmental contamination caused by past operations that do not benefit future periods by preventing or eliminating future contamination. We record liabilities for environmental matters when assessments indicate that remediation efforts are probable and the costs can be reasonably estimated. Estimates of environmental liabilities are based on currently available facts, existing technology and presently enacted laws and regulations taking into consideration the likely effects of inflation and other factors. These amounts also consider prior experience in remediating contaminated sites, other companies' clean-up experience and data released by government organizations. Our estimates are subject to revision in future periods based on actual costs or new information and are included in Environmental liabilities and Other long-term liabilities in the Consolidated Statements of Financial Position at their undiscounted amounts. There is always a potential of incurring additional costs in connection with environmental liabilities due to variations in any or all of the categories described above, including modified or revised requirements from regulatory agencies, in addition to fines and penalties, as well as expenditures associated with litigation and settlement of claims. We evaluate recoveries from insurance coverage separately from the liability and, when recovery is probable, we record and report an asset separately from the associated liability in the Consolidated Statements of Financial Position.

Liabilities for other commitments and contingencies are recognized when, after fully analyzing available information, we determine it is either probable that an asset has been impaired, or that a liability has been incurred, and the amount of impairment or loss can be reasonably estimated. When a range of probable loss can be estimated, we recognize the most likely amount, or if no amount is more likely than another,

the minimum of the range of probable loss is accrued. We expense legal costs associated with loss contingencies as such costs are incurred.

3. CHANGES IN ACCOUNTING POLICIES

CHANGES IN ACCOUNTING POLICIES

There were no changes in accounting policies during the year ended December 31, 2018.

ADOPTION OF NEW ACCOUNTING STANDARDS

Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income

Effective January 1, 2018, we adopted Accounting Standards Update (ASU) 2018-02 to address a specific consequence of the Tax Cuts and Jobs Act (TCJA or United States Tax Reform) enacted by the United States federal government on December 22, 2017. The amendments in this accounting update allowed a reclassification from accumulated other comprehensive income (AOCI) to retained earnings for stranded tax effects resulting from the TCJA. The amendments eliminated the stranded tax effects recognized as a result of the reduction of the historical United States federal corporate income tax rate to the newly enacted United States federal corporate income tax rate. The adoption of this accounting update did not have a material impact on our consolidated financial statements.

Clarifying Guidance on the Application of Modification Accounting on Stock Compensation

Effective January 1, 2018, we adopted ASU 2017-09 and applied the standard on a prospective basis. The new standard was issued to clarify the scope of modification accounting. Under the new guidance, modification accounting is required for all changes to share-based payment awards, unless all of the following conditions are met: 1) there is no change to the fair value of the award, 2) the vesting conditions have not changed, and 3) the classification of the award as an equity instrument or a debt instrument has not changed. The adoption of this accounting update did not, and is not expected to have a material impact on our consolidated financial statements.

Improving the Presentation of Net Periodic Benefit Cost related to Defined Benefit Plans

Effective January 1, 2018, we adopted ASU 2017-07 which was issued primarily to improve the income statement presentation of the components of net periodic pension cost and net periodic postretirement benefit cost for an entity's sponsored defined benefit pension and other postretirement plans. Upon adoption of this accounting update, our Consolidated Statements of Earnings presents the current service cost within Operating and administrative expenses and the other components of net benefit cost within Other income/(expense). Previously, all components of net benefit cost were presented within Operating and administrative expenses. In addition, only the service cost component of net benefit cost will be capitalized on a prospective basis. The adoption of this accounting update did not, and is not expected to have a material impact on our consolidated financial statements.

Clarifying Guidance on Derecognition and Partial Sales of Nonfinancial Assets

Effective January 1, 2018, we adopted ASU 2017-05 on a modified retrospective basis. The new standard clarifies the scope provisions of nonfinancial assets and how to allocate consideration to each distinct asset, and amends the guidance for derecognition of a distinct nonfinancial asset in partial sale transactions. The adoption of this accounting update did not have a material impact on our consolidated financial statements.

Clarifying the Presentation of Restricted Cash in the Statement of Cash Flows

Effective January 1, 2018, we adopted ASU 2016-18 on a retrospective basis. The new standard clarifies guidance on the classification and presentation of changes in restricted cash and restricted cash equivalents within the statement of cash flows. The amendments require that changes in restricted cash and restricted cash equivalents be included within cash and cash equivalents when reconciling the opening and closing period amounts shown on the statement of cash flows. For current and comparative

periods, we amended the presentation in the Consolidated Statements of Cash Flows to include restricted cash and restricted cash equivalents with cash and cash equivalents.

Simplifying Cash Flow Classification

Effective January 1, 2018, we adopted ASU 2016-15 on a retrospective basis. The new standard reduces diversity in practice of how certain cash receipts and cash payments are classified in the Consolidated Statements of Cash Flows. The new guidance addresses eight specific presentation issues. We assessed each of the eight specific presentation issues and the adoption of this ASU did not have a material impact on our consolidated financial statements.

Recognition and Measurement of Financial Assets and Liabilities

Effective January 1, 2018, we adopted ASU 2016-01 on a prospective basis. The new standard addresses certain aspects of recognition, measurement, presentation and disclosure of financial assets and liabilities. Investments in equity securities, excluding equity method and consolidated investments, are no longer classified as trading or available-for-sale securities. All investments in equity securities with readily determinable fair values are classified as investments at fair value through net income. Investments in equity securities without readily determinable fair values are measured using the fair value measurement alternative and are recorded at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for an identical or similar investment of the same issuer. Investments in equity securities measured using the fair value measurement alternative are reviewed for indicators of impairment each reporting period. Fair value of financial assets and liabilities is measured using the exit price notion. The adoption of this accounting update did not have a material impact on our consolidated financial statements.

Revenue from Contracts with Customers

Effective January 1, 2018, we adopted ASU 2014-09 on a modified retrospective basis to contracts that were not complete at the date of initial application. The new standard was issued with the intent of significantly enhancing consistency and comparability of revenue recognition practices across entities and industries. The new standard establishes a single, principles-based five-step model to be applied to all contracts with customers and introduces new and enhanced disclosure requirements. It also requires the use of more estimates and judgments than the previous standards.

In adopting Accounting Standards Codification (ASC) 606, we applied the practical expedient for contract modifications whereby contracts that were modified before January 1, 2018 were not retrospectively restated. Instead, the aggregate effect of all contract modifications occurring before that time has been reflected when identifying satisfied and unsatisfied performance obligations, determining the transaction price and allocating the transaction price to satisfied and unsatisfied performance obligations.

Revenue was previously recognized for a certain contract within the Liquids Pipelines business unit using a formula-based method. Under the new revenue standard, revenue is recognized on a straight-line basis over the term of the agreement in order to reflect the fulfillment of our performance obligation to provide up to a specified volume of pipeline capacity throughout the term of the contract.

Certain payments received from customers to offset the cost of constructing assets required to provide services to those customers, referred to as Contributions in Aid of Construction (CIACs) were previously recorded as reductions of property, plant and equipment regardless of whether the amounts were imposed by regulation or arose from negotiations with customers. Under the new revenue standard, CIACs which are negotiated as part of an agreement to provide transportation and other services to a customer are deemed to be advance payments for future services and are recognized as revenue when those future services are provided. Accordingly, negotiated CIACs are accounted for as deferred revenue and recognized as revenue over the term of the associated revenue contract. Amounts which are required to be collected from the customer based on requirements of the regulator continue to be accounted for as reductions of property, plant and equipment.

The below table presents the cumulative, immaterial effect of the adoption of ASC 606 on our

113

Consolidated Statement of Financial Position as at January 1, 2018 on each affected financial statement line item. For the year ended December 31, 2018, the effect of the adoption of ASC 606 on our Consolidated Statement of Earnings was not material.

	Balance at December 31, 2017	Adjustments Due to ASC 606	Balance at January 1, 2018
(millions of Canadian dollars)			
Assets			
Deferred amounts and other assets	6,442	(170))6,272
Property, plant and equipment, net	90,711	112	90,823
Liabilities and equity			
Accounts payable and other	9,478	62	9,540
Other long-term liabilities	7,510	66	7,576
Deferred income taxes	9,295	(62))9,233
Redeemable noncontrolling interests	4,067	(38))4,029
Deficit	(2,468)) (86)) (2,554)

The following ASU's have been issued, but not yet adopted

Clarifying Interaction between Collaborative Arrangements and Revenue from Contracts with Customers

In November 2018, ASU 2018-18 was issued to provide clarity on when transactions between entities in a collaborative arrangement should be accounted for under the new revenue standard, ASC 606. In determining whether transactions in collaborative arrangements should be accounted under the revenue standard, the update specifies that entities shall apply unit of account guidance to identify distinct goods or services and whether such goods and services are separately identifiable from other promises in the contract. ASU 2018-18 also precludes entities from presenting transactions with a collaborative partner which are not in scope of the new revenue standard together with revenue from contracts with customers. The accounting update is effective January 1, 2020 and early adoption is permitted. We are currently assessing the impact of the new standard on our consolidated financial statements.

Improvements to Related Party Guidance for Variable Interest Entities

ASU 2018-17 was issued in October 2018 to improve the related party guidance on determining whether fees paid to decision makers and service providers ("decision-maker fees") are variable interests. Under the new guidance, reporting entities must consider indirect interests held through related parties in common control arrangements on a proportionate basis, rather than as the equivalent of a direct interest in its entirety, when determining if a decision maker's fees constitute a variable interest. The accounting update is effective January 1, 2020 and must be applied on a retrospective basis. We are currently assessing the impact of the new standard on our consolidated financial statements.

Amended Guidance on Cloud Computing Arrangements

In August 2018, ASU 2018-15 was issued to provide guidance on the accounting for implementation costs incurred in a cloud computing arrangement (CCA) that is a service contract. The amendment aligns the accounting for costs incurred to implement a CCA that is a service arrangement with the guidance on capitalizing costs associated with developing or obtaining internal-use software. Additionally, ASU 2018-15 specifies that an entity would apply ASC 350-40, Internal-use software, to determine which implementation costs related to a hosting arrangement that is a service contract should be capitalized and which should be expensed. Furthermore, the amendments in the update require capitalized costs be amortized on a straight-line basis generally over the term of the arrangement and presented in the same income statement line as fees paid for the hosting service. The new standard also requires that the balance sheet presentation of capitalized implementation costs to be the same as that of the prepayment of fees related to the hosting arrangement, as well as similar consistency in classifications from a cash flow statement perspective. ASU 2018-15 is effective January 1, 2020 and we have elected to early adopt

the standard as of January 1, 2019, as permitted. We do not expect the adoption of this accounting update to have a material impact on our consolidated financial statements.

Disclosure Effectiveness

In August 2018, the Financial Accounting Standards Board issued two amendments as a part of its disclosure framework project aimed to improve the effectiveness of disclosures in the notes to financial statements.

ASU 2018-14 was issued in August 2018 to improve disclosure requirements for employers that sponsor defined benefit pension or other postretirement plans. The amendment modifies the current guidance by adding and removing several disclosure requirements while also clarifying the guidance on current disclosure requirements. ASU 2018-14 is effective January 1, 2021 and entities are permitted to adopt the standard early. We are currently assessing the impact of the new standard on our consolidated financial statements.

ASU 2018-13 was issued to improve the disclosure requirements for fair value measurements by eliminating and modifying some disclosures, while also adding new disclosures. This update is effective January 1, 2020, however entities are permitted to early adopt the eliminated or modified disclosures. We are currently assessing the impact of the new standard on our consolidated financial statements.

Improvements to Accounting for Hedging Activities

ASU 2017-12 was issued in August 2017 with the objective of better aligning a company's risk management activities and the resulting hedge accounting reflected in the financial statements. The amendments allow cash flow hedging of contractually specified components in financial and non-financial items. Under the new guidance, hedge ineffectiveness is no longer required to be measured and hedging instruments' fair value changes will be recorded in the same income statement line as the hedged item. The ASU also allows the initial quantitative hedge effectiveness assessment to be performed at any time before the end of the quarter in which the hedge is designated. After initial quantitative testing is performed, an ongoing qualitative effectiveness assessment is permitted. The accounting update is effective January 1, 2019, with early adoption permitted, and is to be applied on a modified retrospective basis. Based upon our current assessment, we do not expect the standard to have a material impact on our consolidated financial statements.

In October 2018, ASU 2018-16 was issued to permit the use of the Overnight Index Swap rate based on the Secured Overnight Financing Rate as a U.S. benchmark interest rate for hedge accounting purposes. ASU 2018-16 is effective concurrently with ASU 2017-12.

Amending the Amortization Period for Certain Callable Debt Securities Purchased at a Premium

ASU 2017-08 was issued in March 2017 with the intent of shortening the amortization period to the earliest call date for certain callable debt securities held at a premium. The accounting update is effective January 1, 2019 and will be applied on a modified retrospective basis. We do not expect the adoption of this accounting update to have a material impact on our consolidated financial statements.

Accounting for Credit Losses

ASU 2016-13 was issued in June 2016 with the intent of providing financial statement users with more useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date. Current treatment uses the incurred loss methodology for recognizing credit losses that delays the recognition until it is probable a loss has been incurred. The accounting update adds a new impairment model, known as the current expected credit loss model, which is based on expected losses rather than incurred losses. Under the new guidance, an entity will recognize as an allowance its estimate of expected credit losses, which the Financial Accounting Standards Board believes will result in more timely recognition of such losses.

Further, ASU 2018-19 was issued in November 2018 to clarify that operating lease receivables should be

115

accounted for under the new leases standard, ASC 842, and are not within the scope of ASC 326, Financial Instrument - Credit Losses. Both accounting updates are effective January 1, 2020. We are currently assessing the impact of the new standard on our consolidated financial statements.

Recognition of Leases

ASU 2016-02 was issued in February 2016 with the intent to increase transparency and comparability among organizations. It requires lessees of operating lease arrangements to recognize lease assets and lease liabilities on the statements of financial position and disclose additional key information about lease agreements. The accounting update also replaces the current definition of a lease and requires that an arrangement be recognized as a lease when a customer has the right to obtain substantially all of the economic benefits from the use of an asset, as well as the right to direct the use of the asset. The new standard became effective January 1, 2019 and in adopting ASC 842, we have applied the package of practical expedients offered in connection with this update. Application of the package of practical expedients permits entities not to reassess a) whether any expired or existing contracts contain leases in accordance with the new guidance, b) lease classifications, and c) whether initial direct costs capitalized under current guidance continue to meet the definition of initial direct costs under the new guidance. Under the new lease guidance, we have also decided to elect, by class of underlying asset, to not separate non-lease components from the associated lease components of our lessee contract and account for both components as a single lease component.

ASU 2018-01 was issued in January 2018 to address stakeholder concerns about the costs and complexity of complying with the transition provisions of the new lease requirements as they relate to land easements. The amendments provide an optional transition practical expedient to not evaluate existing or expired land easements that were not previously accounted for as leases under existing guidance. We have elected this practical expedient in connection with the adoption of the new lease requirements.

In July 2018, ASU 2018-11 was issued to address additional stakeholder concerns regarding the unanticipated costs and complexities associated with the modified retrospective transition method as well as the requirement for lessors to separate components of a contract. Under the new guidance, entities are provided with an additional transition method which allows entities to apply the new standard at the date of adoption and to elect not to recast comparative periods presented. This amendment also permits lessors to combine associated lease and non-lease components within a contract for operating leases when certain conditions are met. We have elected both of these practical expedients in the adoption of the new lease standard.

We have identified all lease contracts existing as at November 30, 2018 and have performed detailed evaluations of those lease contracts under the requirements of the transitional guidance. We estimate that we will recognize right-of-use lease assets and related lease liabilities for existing operating leases where we are the lessee in the range of \$750 million to \$900 million, with no impact to our Consolidated Statements of Earnings or Consolidated Statements of Cash Flows. This estimate represents the net present value of future lease payments payable under operating lease contracts we had entered into as at November 30, 2018, and that have commenced or are scheduled to commence by January 1, 2019. We do not expect any adjustments will be made to our accounting for existing lessor contracts as a result of implementing this new standard.

4. REVENUE

REVENUE FROM CONTRACTS WITH CUSTOMERS

Major Products and Services

Year ended December 31, 2018 (millions of Canadian dollars)	Liquids Pipelines	Gas Transmission and Midstream	Gas Distribution	Green Power and Transmission	Energy Services	Eliminations and Other	Consolidated
Transportation revenue	8,488	3,928	875	—	—	—	13,291
Storage and other revenue	101	222	196	—	—	—	519
Gas gathering and processing revenue	—	815	—	—	—	—	815
Gas distribution revenue	—	—	4,376	—	—	—	4,376
Electricity and transmission revenue	—	—	—	559	—	—	559
Commodity sales	—	1,590	—	—	—	—	1,590
Total revenue from contracts with customers	8,589	6,555	5,447	559	—	—	21,150
Commodity sales	—	—	—	—	26,070	—	26,070
Other revenue ¹	(894)6	9	8	4	25	(842)
Intersegment revenue	384	10	14	—	154	(562)—
Total revenue	8,079	6,571	5,470	567	26,228	(537)46,378

¹ Includes mark-to-market gains/(losses) from our hedging program.

We disaggregate revenue into categories which represent our principal performance obligations within each business segment because these revenue categories represent the most significant revenue streams in each segment and consequently are considered to be the most relevant revenue information for management to consider in evaluating performance.

Contract Balances

	Receivables	Contract Assets	Contract Liabilities
(millions of Canadian dollars)			
Balance as at January 1, 2018	2,475	290	992
Balance as at December 31, 2018	1,929	191	1,245

Contract receivables represent the amount of receivables derived from contracts with customers. The decrease in contract receivables for the year ended December 31, 2018, is primarily attributed to the sale of Midcoast Operating, L.P. and its subsidiaries to AL Midcoast Holdings, LLC (an affiliate of ArcLight Capital Partners, LLC), refer to Note 8 - Acquisitions and Dispositions for further discussion.

Contract assets represent the amount of revenue which has been recognized in advance of payments received for performance obligations we have fulfilled (or partially fulfilled) and prior to the point in time at which our right to the payment is unconditional. Amounts included in contract assets are transferred to accounts receivable when our right to

the consideration becomes unconditional.

Contract liabilities represent payments received for performance obligations which have not been fulfilled. Contract liabilities primarily relate to make-up rights and deferred revenue. Revenue recognized during the year ended December 31, 2018 included in contract liabilities at the beginning of the period is \$183 million. Increases in contract liabilities from cash received, net of amounts recognized as revenue during the year ended December 31, 2018 were \$449 million.

117

Performance Obligations

Segment	Nature of Performance Obligation
Liquids Pipelines	• Transportation and storage of crude oil and NGLs
	• Sale of crude oil, natural gas and NGLs
Gas Transmission and Midstream	• Transportation, storage, gathering, compression and treating of natural gas
	• Transportation of NGLs
	• Supply and delivery of natural gas
Gas Distribution	• Transportation of natural gas
	• Storage of natural gas
Green Power and Transmission	• Generation and transmission of electricity
	• Delivery of electricity from renewable energy generation facilities

There was no material revenue recognized in the year ended December 31, 2018 from performance obligations satisfied in previous periods.

Payment Terms

Payments are received monthly from customers under long-term transportation, commodity sales, and gas gathering and processing contracts. Payments from Gas Distribution customers are received on a continuous basis based on established billing cycles.

Certain contracts in the United States offshore business provide for us to receive a series of fixed monthly payments (FMPs) for a specified period which is less than the period during which the performance obligations are satisfied. As a result, a portion of the FMPs is recorded as a contract liability. The FMPs are not considered to be a financing arrangement because the payments are scheduled to match the production profiles of offshore oil and gas fields, which generate greater revenue in the initial years of their productive lives.

Revenue to be Recognized from Unfulfilled Performance Obligations

Total revenue from performance obligations expected to be fulfilled in future periods is \$67.4 billion, of which \$7.1 billion is expected to be recognized during the year ending December 31, 2019.

The revenues excluded from the amounts above based on optional exemptions available under ASC 606, as explained below, represent a significant portion of our overall revenues and revenues from contracts with customers. Certain revenues such as flow-through operating costs charged to shippers are recognized at the amount for which we have the right to invoice our customers and are excluded from the amounts for revenue to be recognized in the future from unfulfilled performance obligations above. Variable consideration is excluded from the amounts above due to the uncertainty of the associated consideration, which is generally resolved when actual volumes and prices are determined. For example, we consider interruptible transportation service revenues to be variable revenues since volumes cannot be estimated. Additionally, the effect of escalation on certain tolls which are contractually escalated for inflation has not been reflected in the amounts above as it is not possible to reliably estimate future inflation rates. Revenues for periods extending beyond the current rate settlement term for regulated contracts where the tolls are periodically reset by the regulator are excluded from the amounts above since future tolls remain unknown. Finally, revenues from contracts with customers which have an original expected duration of one year or less are excluded from the amounts above.

SIGNIFICANT JUDGMENTS MADE IN RECOGNIZING REVENUE

Long-Term Transportation Agreements

For long-term transportation agreements, significant judgments pertain to the period over which revenue is recognized and whether the agreement provides for make-up rights for the shippers. Transportation revenue earned from firm contracted capacity arrangements is recognized ratably over the contract

118

period. Transportation revenue from interruptible or volumetric-based arrangements is recognized when services are performed.

Estimates of Variable Consideration

Revenue from arrangements subject to variable consideration is recognized only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved. Uncertainties associated with variable consideration relate principally to differences between estimated and actual volumes and prices. These uncertainties are resolved each month when actual volumes are sold or transported and actual tolls and prices are determined.

Recognition and Measurement of Revenue

Year ended December 31, 2018 (millions of Canadian dollars)	Liquids Pipelines	Gas Transmission and Midstream	Gas Distribution	Green Power and Transmission	Energy Services	Consolidated
Revenue from products transferred at a point in time ¹	—	1,590	68	—	—	1,658
Revenue from products and services transferred over time ²	8,589	4,965	5,379	559	—	19,492
Total revenue from contracts with customers	8,589	6,555	5,447	559	—	21,150

¹ Revenue from sales of crude oil, natural gas and NGLs.

² Revenue from crude oil and natural gas pipeline transportation, storage, natural gas gathering, compression and treating, natural gas distribution, natural gas storage services and electricity sales.

Performance Obligations Satisfied at a Point in Time

Revenue from commodity sales where the commodity sold is not immediately consumed prior to use is recognized at the point in time when the contractually specified volume of the commodity has been delivered, as control over the commodity transfers to the customer upon delivery.

Performance Obligations Satisfied Over Time

For arrangements involving the transportation and sale of petroleum products and natural gas where the transportation services or commodities are simultaneously received and consumed by the shipper or customer, we recognize revenue over time using an output method based on volumes of commodities delivered or transported. The measurement of the volumes transported or delivered corresponds directly to the benefits received by the shippers or customers during that period.

Determination of Transaction Prices

Prices for gas processing and transportation services are determined based on the capital cost of the facilities, pipelines and associated infrastructure required to provide such services plus a rate of return on capital invested that is determined either through negotiations with customers or through regulatory processes for those operations that are subject to rate regulation.

Prices for commodities sold are determined by reference to market price indices plus or minus a negotiated differential and in certain cases a marketing fee.

Prices for natural gas sold and distribution services provided by regulated natural gas distribution operations are prescribed by regulation.

5. SEGMENTED INFORMATION

Segmented information for the years ended December 31, 2018, 2017 and 2016 are as follows:

119

Edgar Filing: WASHINGTON REAL ESTATE INVESTMENT TRUST - Form 10-Q

The measurement basis for preparation of segmented information is consistent with the significant accounting policies (Note 2).

No non-affiliated customer exceeds 10% of our third-party revenues for the year ended December 31, 2018. Our largest non-affiliated customer accounted for approximately 11.8%, and 18.0% of our third-party revenues for the years ended December 31, 2017 and 2016, respectively. A second customer accounted for approximately 10.4% of our third-party revenues for the year ended December 31, 2016. Revenues from these two customers are primarily reported in the Energy Services segment.

GEOGRAPHIC INFORMATION

1 Amounts are based on the location where the assets are held.

6. EARNINGS PER COMMON SHARE

BASIC

Earnings per common share is calculated by dividing earnings attributable to common shareholders by the weighted average number of common shares outstanding. The weighted average number of common shares outstanding has been reduced by our pro-rata weighted average interest in our own common shares of 12 million as at December 31, 2018, and 13 million as at December 31, 2017 and 2016, resulting from our reciprocal investment in Noverco.

121

DILUTED

The treasury stock method is used to determine the dilutive impact of stock options. This method assumes any proceeds from the exercise of stock options would be used to purchase common shares at the average market price during the period.

Weighted average shares outstanding used to calculate basic and diluted earnings per share are as follows:

December 31,	2018	2017	2016
(number of shares in millions)			
Weighted average shares outstanding	1,724	1,525	911
Effect of dilutive options	3	7	7
Diluted weighted average shares outstanding	1,727	1,532	918

For the years ended December 31, 2018, 2017 and 2016, 26,837,822, 14,271,615 and 10,803,672, respectively, of anti-dilutive stock options with a weighted average exercise price of \$50.38, \$56.71 and \$52.92, respectively, were excluded from the diluted earnings per common share calculation.

7. REGULATORY MATTERS

GENERAL INFORMATION ON RATE REGULATION AND ITS ECONOMIC EFFECTS

We record assets and liabilities that result from the regulated ratemaking process that would not be recorded under GAAP for non-regulated entities. See Note 2 - Significant Accounting Policies for further discussion.

A number of our businesses are subject to regulation by the NEB. We also collect and set aside funds to cover future pipeline abandonment costs for all NEB regulated pipelines as a result of the NEB's regulatory requirements under LMCI (Note 14). Amounts expected to be paid to cover future abandonment costs are recognized as long-term regulatory liabilities. Our significant regulated businesses and other related accounting impacts, are described below.

Liquids Pipelines

Canadian Mainline

Canadian Mainline includes the Canadian portion of the mainline system and is subject to regulation by the NEB. Canadian Mainline tolls (excluding Lines 8 and 9) are currently governed by the 10-year CTS, which establishes a Canadian Local Toll for all volumes shipped on the Canadian Mainline and an International Joint Tariff for all volumes shipped from western Canadian receipt points to delivery points on the Lakehead System and delivery points on the Canadian Mainline downstream of the Lakehead System. The CTS was negotiated with shippers in accordance with NEB guidelines, was approved by the NEB in June 2011 and took effect July 1, 2011. Under the CTS, a regulatory asset is recognized to offset deferred income taxes as a NEB rate order governing flow-through income tax treatment permits future recovery. No other material regulatory assets or liabilities are recognized under the terms of the CTS.

Southern Lights Pipeline

The United States portion of the Southern Lights Pipeline is regulated by the FERC and the Canadian portion of the Southern Lights Pipeline is regulated by the NEB. Shippers on the Southern Lights Pipeline are subject to long-term transportation contracts under a cost-of-service toll methodology. Toll adjustments are filed annually with the regulators. Tariffs provide for recovery of allowable operating and debt financing costs, plus a pre-determined after-tax rate of return on equity (ROE) of 10%. Southern Lights Pipeline tolls are based on a deemed 70% debt and 30% equity structure.

Gas Transmission and Midstream

British Columbia (BC) Pipeline and BC Field Services

Under the current NEB-authorized rate structure for BC Pipeline, income tax costs are recovered in tolls based on the current income tax payable and do not include accruals for deferred income tax. However, as income taxes become payable as a result of the reversal of the temporary differences that created the deferred income taxes, it is expected that tolls will be adjusted to recover these taxes. Since most of these temporary differences are related to property, plant and equipment costs, this recovery is expected to occur over the life of those assets.

On July 4, 2018, we entered into agreements to sell our Canadian natural gas gathering and processing businesses (Note 8). On October 1, 2018, we closed the sale of the provincially regulated facilities. The sale of the federally regulated facilities is expected to close in mid-2019.

Spectra Energy Partners, LP

SEP's gas transmission and storage services are regulated by the FERC. Current rates are governed by the applicable FERC-approved natural gas tariff while fee-based gathering services are governed by the applicable state oil and gas commissions.

For information related to regulatory assets acquired in the Merger Transaction for Union Gas, BC Pipelines, BC Field Services and SEP, refer to Note 8 - Acquisitions and Dispositions.

Gas Distribution

On August 30, 2018, we received a decision from the OEB approving the application to amalgamate EGD and Union Gas (Amalgamation). On October 15, 2018, we announced that we would proceed with the Amalgamation, with an expected effective date of January 1, 2019. On January 1, 2019, the Amalgamation was completed and the amalgamated company continued as Enbridge Gas Inc. (EGI).

The OEB decision also approved the rate setting mechanism for the amalgamated entity to be employed during a five-year deferred rebasing period from 2019 through 2023, after which time rates will be rebased. The decision also approved the continuation and establishment of certain deferral and variance accounts, as well as an earnings sharing mechanism that requires the amalgamated entity to share equally with customers, any earnings in excess of 150 basis points over the OEB approved ROE.

Enbridge Gas Distribution Inc.

EGD's gas distribution operations are regulated by the OEB. Rates for the years ended December 31, 2018 and 2017 were set in accordance with parameters established by the customized incentive rate plan (IR Plan). The customized IR Plan, inclusive of the requested capital investment amounts and an incentive mechanism providing the opportunity to earn above the allowed ROE, was approved, with modifications, by the OEB in 2014. The approved customized IR Plan is for establishing rates for 2014 through 2018.

As part of the customized IR Plan, the OEB approved the adoption of a new approach for determining net salvage percentages to be included within EGD's approved depreciation rates, as compared with the traditional approach previously employed. The new approach results in lower net salvage percentages for EGD, and therefore lowers

depreciation rates and future removal and site restoration reserves. The customized IR Plan also includes an earnings sharing mechanism, whereby any return over the allowed

123

rate of return for a given year under the customized IR Plan will be shared equally with customers. Within annual rate proceedings for 2015 through 2018, the customized IR plan requires allowed revenues, and corresponding rates, to be updated annually for select items.

EGD's after-tax rate of return on common equity embedded in rates was 9.0% and 8.8% for the years ended December 31, 2018 and 2017, respectively, based on a 36% deemed common equity component of capital for regulatory purposes, in both years.

Union Gas Limited

Union Gas is regulated by the OEB. Union Gas's distribution rates beginning January 1, 2014 are set under a five-year incentive regulation framework. The incentive regulation framework establishes new rates at the beginning of each year through the use of a pricing formula rather than through the examination of revenue and cost forecasts.

The incentive regulation framework includes an earnings sharing mechanism that permits Union Gas to fully retain the return on common equity from utility operations up to 9.93%, share 50% of any earnings between 9.93% and 10.93% with customers, and share 90% of any earnings above 10.93% with customers. Union Gas's approved after-tax return on common equity is fixed at 8.93% for the five-year incentive regulation term.

Enbridge Gas New Brunswick Inc.

Enbridge Gas New Brunswick Inc. is regulated by the EUB. The current rates are set, as prescribed by legislation for 2018 and 2019. In 2020 all rates will be set by cost-of-service methodology. On December 4, 2018, we announced that we entered into a definitive agreement for the sale of Enbridge Gas New Brunswick Inc. (Note 8). Closing of the transaction remains subject to the receipt of regulatory approvals and other customary closing conditions expected to occur in 2019. As such, we classified Enbridge Gas New Brunswick Inc. assets as held for sale and measured them at the lower of their carrying value or fair value less costs to sell. As the carrying value does not exceed the fair value, no impairment has been recorded for the year ended December 31, 2018.

FINANCIAL STATEMENT EFFECTS

Accounting for rate-regulated activities has resulted in the recognition of the following significant regulatory assets and liabilities:

December 31,	Recovery/Refund Period Ends	2018	2017
(millions of Canadian dollars)			
Regulatory assets/(liabilities)			
Liquids Pipelines			
Deferred income taxes	Various	1,673	1,492
Tolling deferrals	Various	(28)	(34)
Recoverable income taxes	Through 2030	27	46
Pipeline future abandonment costs ¹	Various	(201)	(141)
Gas Transmission and Midstream			
Deferred income taxes	Various	826	717
Regulatory liability related to income taxes ²	Various	(912)	(1,078)
Other	Various	94	(16)
Gas Distribution			
Deferred income taxes	Various	1,132	1,000
Purchased gas variance ³	Various	197	51
Pension plans and OPEB ⁴	Through 2033	118	102
Constant dollar net salvage adjustment	2018	6	38
Future removal and site restoration reserves ⁵	Various	(1,107)	(1,066)
Site restoration clearance adjustment	Various	—	(31)
Other	Various	(4)	31

¹Funds collected are included in Restricted long-term investments (Note 14).

²Relates to the establishment of a regulatory liability as a result of the United States tax reform legislation enacted December 22, 2017.

Purchase gas variance is the difference between the actual cost and the approved cost of natural gas reflected in rates.

³EGD and Union Gas have been granted OEB approval to refund this balance to, or to collect this balance from, customers on a rolling 12-month basis via the Quarterly Rate Adjustment Mechanism process.

⁴The balances are excluded from the rate base and do not earn an ROE.

Future removal and site restoration reserves result from amounts collected from customers by the Company, with the approval of the OEB, to fund future costs for removal and site restoration relating to property, plant and equipment.

These costs are collected as part of depreciation charged on property, plant and equipment that is recorded in rates.

⁵The balance represents the amount that the Company has collected from customers, net of actual costs expended on removal and site restoration. The settlement of this balance will occur over the long-term as future removal and site restoration costs are incurred. In the absence of rate regulation accounting, costs incurred for removal and site restoration would be charged to earnings as incurred with recognition of revenue for amounts previously collected.

OTHER ITEMS AFFECTED BY RATE REGULATION

Allowance for Funds Used During Construction and Other Capitalized Costs

Under the pool method prescribed by certain regulators, it is not possible to identify the carrying value of the equity component of AFUDC or its effect on depreciation. Similarly, gains and losses on the retirement of certain specific fixed assets in any given year cannot be identified or quantified.

Operating Cost Capitalization

With the approval of regulators, certain operations capitalize a percentage of specified operating costs. These operations are authorized to charge depreciation and earn a return on the net book value of such capitalized costs in future years. In the absence of rate regulation, a portion of such operating costs would be charged to earnings in the year incurred.

EGD entered into a services contract relating to asset management initiatives. The majority of the costs, primarily consulting fees, are being capitalized to gas mains in accordance with regulatory approval. As at December 31, 2018 and 2017, the net book value of these costs included in gas mains in Property, plant

125

and equipment, net was \$110 million and \$118 million, respectively. In the absence of rate regulation accounting, some of these costs would be charged to earnings in the year incurred.

8. ACQUISITIONS AND DISPOSITIONS

ACQUISITIONS

Spectra Energy Corp

On February 27, 2017, Enbridge and Spectra Energy combined in the Merger Transaction for a purchase price of \$37.5 billion. Under the terms of the Merger Transaction, Spectra Energy shareholders received 0.984 shares of Enbridge common stock for each share of Spectra Energy common stock that they owned, giving us 100% ownership of Spectra Energy.

Consideration offered to complete the Merger Transaction included 691 million common shares of Enbridge at US\$41.34 per share, based on the February 24, 2017 closing price on the New York Stock Exchange (NYSE), for a total value of \$37,429 million in common shares issued to Spectra Energy shareholders, plus approximately \$3 million in cash in lieu of any fractional shares, and 3.5 million share options with a fair value of \$77 million, that were exchanged for Spectra Energy's outstanding stock compensation awards.

Spectra Energy, through its subsidiaries and equity affiliates, owns and operates a large and diversified portfolio of complementary natural gas-related energy assets and is one of North America's leading natural gas infrastructure companies. Spectra Energy also owns and operates a crude oil pipeline system that connects Canadian and United States producers to refineries in the United States Rocky Mountain and Midwest regions. The combination brings together two highly complementary platforms to create North America's largest energy infrastructure company and meaningfully enhances customer optionality, positioning us for long-term growth opportunities, and strengthening our balance sheet.

The Merger Transaction has been accounted for as a business combination under the acquisition method of accounting as prescribed by Accounting Standards Codification (ASC) 805 Business Combinations. The acquired tangible and intangible assets and assumed liabilities are recorded at their estimated fair values at the date of acquisition.

The purchase price allocation has been completed as at December 31, 2017, along with the allocation of goodwill to reporting units (Note 16). Our reporting units are equivalent to our identified segments with the exception of the Gas Transmission and Midstream segment, which is composed of two reporting units: gas transmission and gas midstream.

The following table summarizes the estimated fair values that were assigned to the net assets of Spectra Energy:

126

February 27, (millions of Canadian dollars)	2017
Fair value of net assets acquired:	
Current assets (a)	2,432
Property, plant and equipment, net (b)	33,555
Restricted long-term investments	144
Long-term investments (c)	5,000
Deferred amounts and other assets (d)	2,390
Intangible assets, net (e)	1,288
Current liabilities (a)	(3,982)
Long-term debt (d)	(21,444)
Other long-term liabilities	(1,983)
Deferred income taxes (b)	(7,670)
Noncontrolling interests (f)	(8,877)
	853
Goodwill (g)	36,656
	37,509
Purchase price:	
Common shares	37,429
Cash	3
Fair value of outstanding earned stock compensation awards recorded in Additional paid-in capital	77
	37,509

a) Accounts receivable is comprised primarily of customer trade receivables and natural gas imbalances. As such, the fair value of accounts receivable approximates the net carrying value of \$1,174 million. The gross amount due of \$1,190 million, of which \$16 million is not expected to be collected, is included in current assets.

During the fourth quarter of 2017, we identified certain transactions that were not reflected in the purchase price equation. This resulted in a \$67 million and \$548 million increase in current assets and current liabilities, respectively, and a \$481 million decrease in long-term debt.

b) We have applied the valuation methodologies described in ASC 820 Fair Value Measurements and Disclosures, to value the property, plant and equipment purchased. The fair value of Spectra Energy's rate-regulated property, plant and equipment was determined using a market participant perspective, which is their carrying amount. The fair value of the remaining non-regulated property, plant and equipment was determined primarily using variations of the income approach, which is based on the present value of the future after-tax cash flows attributable to each non-regulated asset. Some of the more significant assumptions inherent in the development of the values, from the perspective of a market participant, include, but are not limited to, the amount and timing of projected future cash flows (including revenue and profitability); the discount rate selected to measure the risks inherent in the future cash flows; the assessment of the asset's life cycle; the competitive trends impacting the asset; and customer turnover.

During the third quarter of 2017, Spectra Energy's right-of-way agreements were reclassified from intangible assets to property, plant and equipment to conform the presentation of these agreements with our accounting policy pertaining to rights-of-way. The purchase price allocation above reflects this reclassification, which amounted to \$830 million as at February 27, 2017. There is no change in the amortization period for the right-of-way agreements as a result of this reclassification.

During the fourth quarter of 2017, we finalized our fair value measurement of the BC Pipeline & Field Services businesses, which resulted in decreases to property, plant and equipment of \$1,955 million and deferred income tax liabilities of \$661 million as at February 27, 2017.

- Long-term investments represent Spectra Energy's 50% equity investment in DCP Midstream LLC (DCP Midstream), Gulfstream Natural Gas System, L.L.C., Nexus Gas Transmission, LLC (Nexus), Steckman Ridge LP, Islander East Pipeline Company, L.L.C., Southeast Supply Header L.L.C., and 20% equity interest in PennEast Pipeline Company LLC (PennEast). The fair value of these investments was determined using an income approach.
- c) Fair value of long-term debt was determined based on the current underlying Government of Canada and United States Treasury interest rates on the corresponding bonds, as well as an implied credit spread based on current market conditions and resulted in an increase in the book value of debt of \$1.5 billion. The fair value adjustment to long-term debt related to rate-regulated entities of \$629 million also results in a regulatory offset in Deferred amounts and other assets in the Consolidated Statements of Financial Position.

During the fourth quarter of 2017, deferred amounts and other assets decreased by \$530 million as at February 27, 2017 due to the finalization of BC Pipelines & Field Services' fair value measurement, as discussed under (b) above.

During the fourth quarter of 2017, we identified certain transactions that were not reflected in the purchase price equation. This resulted in a \$481 million decrease in long-term debt, as discussed under (a) above.

- e) Intangible assets primarily consist of customer relationships in the non-regulated business, which represent the underlying relationship from long-term agreements with customers that are capitalized upon acquisition, determined using the income approach. Intangible assets are amortized on a straight-line basis over their expected lives.

During the third quarter of 2017, intangible assets decreased by \$830 million as at February 27, 2017 due to a reclassification to property, plant and equipment, as discussed under (b) above.

The fair value of intangible assets acquired through the Merger Transaction, by major classes is as follows:

As at February 27, 2017 (millions of Canadian dollars)	Weighted Average Amortization Rate	Fair Value
Customer relationships ¹	3.7 %	739
Project agreement ²	4.0 %	105
Software	11.1 %	329
Other	4.2 %	115
		1,288

¹ Represents customer relationships in the non-regulated business, which were capitalized upon acquisition.

² Represents a project agreement between SEP, NextEra Energy, Inc., Duke Energy Corporation (Duke Energy) and Williams Partners L.P. In accordance with the agreement, payments will be made, based on our proportional ownership interest in Sabal Trail Transmission, LLC (Sabal Trail), as certain milestones of the project are met. Amortization of the intangible asset began on July 3, 2017, when Sabal Trail was placed into service (Note 13).

- f) The fair value of Spectra Energy's noncontrolling interests includes approximately 78.4 million SEP common units outstanding to the public, valued at the February 24, 2017 closing price of US\$44.88 per common unit on the NYSE, and units held by third parties in Maritimes & Northeast Pipeline, L.L.C., Sabal

Trail and Algonquin Gas Transmission, L.L.C., valued based on the

128

underlying net assets of each reporting unit and preferred stock held by third parties in Union Gas and Westcoast Energy Inc.

During the third quarter of 2017, we finalized our fair value measurement of Sabal Trail, which resulted in an increase to noncontrolling interests of \$85 million as at February 27, 2017.

g) We recorded \$36.7 billion in goodwill, which is primarily related to expected synergies from the Merger Transaction. The goodwill balance recognized is not deductible for tax purposes. Factors that contributed to the goodwill include the opportunity to expand our natural gas pipelines segment, the potential for cost and supply chain optimization synergies, existing assembled assets and work force that cannot be duplicated at the same cost by a new entrant, franchise rights and other intangibles not separately identifiable because they are inextricably linked to the provision of regulated utility service and the enhanced scale and geographic diversity which provide greater optionality and platforms for future growth.

During the third quarter of 2017, goodwill increased by \$85 million as at February 27, 2017 due to the finalization of the fair value measurement of Sabal Trail as discussed under (f) above.

During the fourth quarter of 2017, goodwill increased by \$1,824 million as at February 27, 2017 due to the finalization of the fair value measurement of BC Pipelines & Field Services as discussed under (b) above.

Acquisition-related expenses incurred were approximately \$231 million. Costs incurred for the years ended December 31, 2017 and 2016 of \$180 million and \$51 million, respectively, are included in Operating and administrative expense in the Consolidated Statements of Earnings.

Upon completion of the Merger Transaction, we began consolidating Spectra Energy. Since the closing date of February 27, 2017 through December 31, 2017, Spectra Energy has generated approximately \$5,740 million in revenues and \$2,574 million in earnings.

Our supplemental pro forma consolidated financial information for the years ended December 31, 2017 and 2016, including the results of operations for Spectra Energy as if the Merger Transaction had been completed on January 1, 2016 are as follows:

Year ended December 31,	2017	2016
(unaudited; millions of Canadian dollars)		
Revenues	45,669	40,934
Earnings attributable to common shareholders ¹	2,902	2,820

¹ Merger Transaction costs of \$180 million (after-tax \$131 million) were excluded from earnings for the year ended December 31, 2017.

Tupper Main and Tupper West

On April 1, 2016, we acquired the Tupper Main and Tupper West gas plants and associated pipelines (the Tupper Plants) located in northeastern BC for cash consideration of \$539 million. The purchase price for the Tupper Plants was equal to the fair value of identifiable net assets acquired and accordingly, we did not recognize any goodwill as part of the acquisition. Transaction costs incurred by us totaled approximately \$1 million and are included in Operating and administrative expense in the Consolidated Statements of Earnings. The Tupper Plants are a part of our Gas Transmission and Midstream segment.

Since the closing date through December 31, 2016, the Tupper Plants generated approximately \$33 million in revenues and \$22 million in earnings before interest and income taxes. If the acquisition had closed on January 1,

2016, the Consolidated Statements of Earnings for the year ended December 31, 2016 would have shown revenues of \$44 million and earnings before interest and income taxes of \$28 million.

The final purchase price allocation was as follows:

April 1,	2016
(millions of Canadian dollars)	
Fair value of net assets acquired:	
Property, plant and equipment	288
Intangible assets	251
	539
Purchase price:	
Cash	539

In 2018, the assets of the Tupper Plants were subsequently reclassified to assets held for sale and sold as part of the provincially regulated assets of the Canadian Natural Gas Gathering and Processing transaction. See Assets Held for Sale section below for further details of the transaction.

OTHER ACQUISITIONS

Chapman Ranch Wind Project

On September 9, 2016, we acquired a 100% interest in the 249 megawatt (MW) Chapman Ranch Wind Project (Chapman Ranch) located in Texas for cash consideration of \$65 million (US\$50 million), of which \$62 million (US\$48 million) was allocated to property, plant and equipment and the balance allocated to Intangible assets. On November 2, 2016, we invested a further \$40 million (US\$30 million) in Chapman Ranch, of which \$23 million (US\$17 million) was related to Property, plant and equipment and the balance related to Intangible assets. There would have been no effect on our earnings if the transaction had occurred on January 1, 2016 as the project was under construction and had not generated revenues to date. Chapman Ranch is a part of our Green Power and Transmission segment.

New Creek Wind Project

In November 2015, we acquired a 100% interest in the 103 MW New Creek Wind Project (New Creek) for cash consideration of \$48 million (US\$36 million), with \$35 million (US\$26 million) of the purchase price allocated to Property, plant and equipment and the balance allocated to Intangible assets. New Creek was placed into service in December 2016 and is a part of our Green Power and Transmission segment.

Midstream Business

On February 27, 2015, EEP acquired, through its partially-owned subsidiary, Midcoast Energy Partners, L.P. (MEP), the midstream business of New Gulf Resources, LLC located in Texas for \$106 million (US\$85 million) in cash and a contingent future payment of up to \$21 million (US\$17 million). The acquisition consisted of a natural gas gathering system that is in operation and is a part of our Gas Transmission and Midstream segment. Of the purchase price, we allocated \$69 million (US\$55 million) to Property, plant and equipment and the balance to Intangible assets. In 2016, we determined that the likelihood of making any future contingent payments was remote.

ASSETS HELD FOR SALE

Enbridge Gas New Brunswick

In December 2018, we entered into an agreement for the sale of Enbridge Gas New Brunswick Limited Partnership and Enbridge Gas New Brunswick Inc. (collectively, EGNB) to Liberty Utilities (Canada) LP, a wholly-owned subsidiary of Algonquin Power and Utilities Corp., for a cash purchase price of \$331 million. EGNB operates and maintains natural gas distribution pipelines in southern New Brunswick, and its related assets are included in our Gas Distribution segment. Subject to certain regulatory approvals and customary closing conditions, the transaction is expected to close in 2019.

As these assets represented a portion of a reporting unit, we allocated a portion of the goodwill of the reporting unit to these assets using a relative fair value approach. As such, we have classified EGNB assets and an allocated goodwill

of \$133 million as held for sale and measured them at the lower of their

130

carrying value or fair value less costs to sell. As the carrying value does not exceed the fair value, no impairment has been recorded for the year ended December 31, 2018.

Canadian Natural Gas Gathering and Processing Businesses

On July 4, 2018, we entered into agreements to sell our Canadian natural gas gathering and processing businesses to Brookfield Infrastructure Partners L.P. and its institutional partners for a cash purchase price of approximately \$4.3 billion, subject to customary closing adjustments. Separate agreements were entered into for those facilities currently governed by provincial regulations and those governed by federal regulations (collectively, Canadian Natural Gas Gathering and Processing Businesses assets). On October 1, 2018, we closed the sale of the provincially regulated facilities for proceeds of approximately \$2.5 billion. These assets were included within our Gas Transmission and Midstream segment. Please see Dispositions discussion below for further details regarding the transaction.

As at December 31, 2018, the net assets of the federally regulated facilities of our Canadian Natural Gas Gathering and Processing Business remain classified as held for sale, including \$55 million of allocated goodwill. The sale of the federally regulated facilities is expected to close in mid-2019 for proceeds of approximately \$1.8 billion.

In addition, upon classifying the Canadian Natural Gas Gathering and Processing Businesses assets as held for sale in the third quarter of 2018, as these assets represented a portion of a reporting unit, we allocated a portion of the goodwill of the reporting unit to these assets using a relative fair value approach. As a result of the goodwill allocation, the carrying value of Canadian Natural Gas Gathering and Processing Businesses assets is greater than the sale price consideration less the cost to sell. Therefore, we recorded a goodwill impairment of \$1,019 million on the Consolidated Statements of Earnings for the year ended December 31, 2018. The held for sale classification represented a triggering event and required us to perform a goodwill impairment test for the related reporting unit. The results of the test did not indicate any additional goodwill impairment.

Line 10 Crude Oil Pipeline

In the first quarter of 2018, we satisfied the condition as set out in our agreements for the sale of our Line 10 crude oil pipeline (Line 10), which originates near Hamilton, Ontario and terminates at West Seneca, New York. Our subsidiaries, Enbridge Pipelines Inc. and EEP, own the Canadian and United States portions of Line 10, respectively, and the related assets are included in our Liquids Pipeline segment.

We expect to close the sale of Line 10 within one year, subject to regulatory approval and certain closing conditions. As such, during the first quarter of 2018, we classified Line 10 assets as held for sale and measured them at the lower of their carrying value or fair value less costs to sell, which resulted in a loss of \$154 million (\$95 million after-tax attributable to us) included within Asset impairment on the Consolidated Statements of Earnings for the year ended December 31, 2018.

St. Lawrence Gas Company, Inc.

In August 2017, we entered into an agreement to sell the issued and outstanding shares of St. Lawrence Gas Company, Inc. (St. Lawrence Gas) for cash proceeds of approximately \$96 million (US\$70 million). Subject to regulatory approval and certain pre-closing conditions, the transaction is expected to close in 2019. As at December 31, 2018 and 2017, St. Lawrence Gas, which is a part of our Gas Distribution segment, was classified as held for sale in the Consolidated Statements of Financial Position.

The table below summarizes the presentation of net assets held for sale in our Consolidated Statements of Financial Position.

December 31, 2018 December 31, 2017

(millions of Canadian dollars)

Accounts receivable and other (current assets held for sale)	117	424
Deferred amounts and other assets (long-term assets held for sale) ¹	2,383	1,190
Accounts payable and other (current liabilities held for sale)	(63)	(315)
Other long-term liabilities (long-term liabilities held for sale)	(96)	(34)
Net assets held for sale	2,341	1,265

¹ Included within Deferred amounts and other assets at December 31, 2018 and 2017 respectively is property, plant and equipment of \$2.1 billion and \$1.1 billion.

DISPOSITIONS

Canadian Natural Gas Gathering and Processing Businesses

On October 1, 2018, we closed the sale of the provincially regulated facilities of the Canadian Natural Gas Gathering and Processing Businesses assets for proceeds of approximately \$2.5 billion. After closing adjustments, a gain on disposal of \$34 million before tax was included in Other income/(expense) in the Consolidated Statements of Earnings. Please see Assets Held for Sale discussion above for further details regarding the transaction.

Renewable Assets

On August 1, 2018, we closed the sale of a 49% interest in all of our Canadian renewable assets, a 49% interest in two United States renewable assets and 49% of our interest in the Hohe See Offshore wind power project and its subsequent expansion, both concurrently under construction in Germany, (collectively, the Renewable Assets) to the Canada Pension Plan Investment Board (CPPIB). Total cash proceeds from the transaction were \$1.75 billion. In addition, CPPIB will fund their pro-rata share of the remaining capital expenditures on the Hohe See Offshore wind power project. We maintain a 51% interest in the Renewable Assets and will continue to manage, operate and provide administrative services for these assets.

A loss on disposal of \$20 million (€14 million) was included in Other income/(expense) in the Consolidated Statements of Earnings for the sale of 49% of our interest in the Hohe See Offshore wind power project and its subsequent expansion. Subsequent to the sale, the remaining interests in these assets continue to be accounted for as an equity method investment, and are a part of our Green Power and Transmission segment.

Gains of \$62 million and \$17 million (US\$13 million) were included in Additional paid-in capital in the Consolidated Statements of Financial Position for the sale of 49% interest in the Canadian and United States renewable assets, respectively. Subsequent to the sale, because we maintained a controlling interest, these assets continue to be consolidated and are a part of our Green Power and Transmission segment. In addition, we recognized noncontrolling interests in our Consolidated Statements of Financial Position as at December 31, 2018 to reflect the interests that we do not hold (Note 20).

Also, a deferred income tax recovery of \$267 million (\$196 million attributable to us) was recorded in the year ended December 31, 2018 as a result of the agreement entered into during the second quarter of 2018 for the Renewable Assets (Note 25).

In connection with our sale of the Renewable Assets, we have new consolidated and unconsolidated VIEs (Note 12).

Midcoast Operating, L.P.

On August 1, 2018, we closed the sale of Midcoast Operating, L.P. and its subsidiaries (collectively, MOLP) to AL Midcoast Holdings, LLC (an affiliate of ArcLight Capital Partners, LLC) for total cash proceeds of \$1.4 billion (US\$1.1 billion). After closing adjustments recorded in the fourth quarter of 2018, a loss on disposal of \$41 million (US\$32 million) was included in Other income/(expense) in the

Consolidated Statements of Earnings. MOLP conducted our United States natural gas and natural gas liquids gathering, processing, transportation and marketing businesses, and was a part of our Gas Transmission and Midstream segment.

Upon closing of the sale, we also recorded a liability of \$387 million (US\$298 million) for future volume commitments retained by us. The associated loss is included in the loss on disposal of \$41 million discussed above. As at December 31, 2018, \$79 million (US\$58 million) and \$296 million (US\$216 million) were included in Accounts payable and other and Other long-term liabilities, respectively, on the Consolidated Statements of Financial Position.

In the second quarter of 2018, our equity method investment in the Texas Express NGL pipeline system, together with the MOLP assets that have been held for sale since December 31, 2017, also met the conditions for assets held for sale. The \$447 million carrying value of Texas Express NGL pipeline system equity investment and an allocated goodwill of \$262 million, were included within the disposal group as at June 30, 2018 and subsequently disposed on August 1, 2018.

In the first quarter of 2018, as a result of entering into a definitive sales agreement, the fair value of the assets held for sale as at March 31, 2018 were revised based on the sale price. Accordingly, we recorded a loss of \$913 million (\$701 million after-tax). This loss has been included within Asset impairment on the Consolidated Statements of Earnings for the year ended December 31, 2018.

Previously as at December 31, 2017, we classified these assets as held for sale and measured them at the lower of their carrying value or fair value less costs to sell, which resulted in an asset impairment loss of \$4.4 billion (\$2.8 billion after-tax) and a related goodwill impairment of \$102 million, which were included in the Consolidated Statement of Earnings for the year ended December 31, 2017.

Sandpiper Project

During the years ended December 31, 2018 and 2017, we sold unused pipe related to the Sandpiper Project (Sandpiper) for cash proceeds of approximately \$38 million (US\$30 million) and \$148 million (US\$111 million), respectively. Gains on disposal of \$29 million (US\$22 million) and \$83 million (US\$63 million) before tax were included in Operating and administrative expense in the Consolidated Statements of Earnings for the years ended December 31, 2018 and 2017, respectively. These assets were a part of our Liquids Pipelines segment.

Olympic Pipeline

On July 31, 2017, we completed the sale of our interest in Olympic Pipeline for cash proceeds of approximately \$203 million (US\$160 million). A gain on disposal of \$27 million (US\$21 million) before tax was included in Other income/(expense) in the Consolidated Statements of Earnings. This interest was a part of our Liquids Pipelines segment.

Ozark Pipeline

In 2016, we classified the Ozark Pipeline assets as held for sale. On March 1, 2017, we completed the sale of the Ozark Pipeline assets to a subsidiary of MPLX LP for cash proceeds of approximately \$294 million (US\$220 million), including reimbursement of costs. A gain on disposal of \$14 million (US\$10 million) before tax was included in Operating and administrative expense in the Consolidated Statements of Earnings. These assets were a part of our Liquids Pipelines segment.

South Prairie Region

On December 1, 2016, we completed the sale of the South Prairie Region assets for cash proceeds of approximately \$1.1 billion. A gain on disposal of \$850 million before tax was included in Other income/(expense) in the Consolidated Statements of Earnings. These assets were a part of our Liquids Pipelines segment.

OTHER DISPOSITIONS

133

In December 2016, we sold other miscellaneous non-core assets for cash proceeds of approximately \$286 million.

9. ACCOUNTS RECEIVABLE AND OTHER

December 31,	2018	2017
(millions of Canadian dollars)		
Trade receivables and unbilled revenues ¹	4,711	5,325
Short-term portion of derivative assets	498	296
Other	1,308	1,432
	6,517	7,053

¹ Net of allowance for doubtful accounts of \$64 million and \$50 million as at December 31, 2018 and 2017, respectively.

During 2017, in conjunction with its restructuring actions (Note 20), EEP terminated a receivable purchase agreement with a special purpose entity wholly-owned by us.

10. INVENTORY

December 31,	2018	2017
(millions of Canadian dollars)		
Natural gas	776	695
Crude oil	482	744
Other commodities	81	89
	1,339	1,528

Adjustments of \$93 million, nil and nil were included in Commodity costs on the Consolidated Statements of Earnings for the years ended December 31, 2018, 2017 and 2016, respectively, to reduce inventory to market value.

11. PROPERTY, PLANT AND EQUIPMENT

December 31,	Weighted Average Depreciation Rate	2018	2017
(millions of Canadian dollars)			
Pipelines	2.6	% 50,078	47,720
Pumping equipment, buildings, tanks and other	3.0	% 16,935	16,610
Land and right-of-way ¹	2.7	% 2,603	2,538
Gas mains, services and other	3.2	% 17,474	17,026
Compressors, meters and other operating equipment	1.7	% 5,893	5,774
Processing and treating plants	1.5	% 1,634	1,440
Storage	1.9	% 1,713	1,545
Wind turbines, solar panels and other	4.2	% 5,063	4,804
Power transmission	2.6	% 383	365
Vehicles, office furniture, equipment and other buildings and improvements	5.9	% 630	390
Under construction	—	9,778	7,601
Total property, plant and equipment ²		112,184	105,813
Total accumulated depreciation		(17,644)	(15,102)
Property, plant and equipment, net		94,540	90,711

¹ The measurement of weighted average depreciation rate excludes non-depreciable assets.

² Certain assets were reclassified as held for sale as at December 31, 2018 and December 31, 2017 (Note 8).

Depreciation expense for the years ended December 31, 2018, 2017 and 2016 was \$2.9 billion, \$2.9 billion and \$2.0 billion, respectively.

IMPAIRMENT

Northern Gateway Project

On November 29, 2016, the Canadian Federal Government directed the NEB to dismiss our Northern Gateway Project application and the Certificates of Public Convenience and Necessity have been rescinded. In consultation with potential shippers and Aboriginal equity partners, we assessed this decision and concluded that the project cannot proceed as envisioned. After taking into consideration the amount recoverable from potential shippers on the Northern Gateway Project, we recognized an impairment of \$373 million (\$272 million after-tax), which is included in Impairment of property, plant and equipment in the Consolidated Statements of Earnings. This impairment loss is based on the full carrying value of the assets, which have an estimated fair value of nil, and are a part of our Liquids Pipelines segment.

Sandpiper Project

On September 1, 2016, we announced that EEP applied for the withdrawal of regulatory applications pending with the Minnesota Public Utilities Commission for Sandpiper. In connection with this announcement and other factors, we evaluated Sandpiper for impairment. As a result, we recognized an impairment loss of \$992 million (\$81 million after-tax attributable to us) for the year ended December 31, 2016, which is included in Impairment of property, plant and equipment in the Consolidated Statements of Earnings. Sandpiper is a part of our Liquids Pipelines segment. The estimated remaining fair value of Sandpiper was based on the estimated price that would be received to sell unused pipe, land and other related equipment in its current condition, considering the current market conditions for sale of these assets at the time. The valuation considered a range of potential selling prices from various alternatives that could be used to dispose of these assets. The estimated fair value, with the exception of \$3 million in land, was reclassified into Deferred amounts and other assets in the Consolidated Statements of Financial Position as at December 31, 2016. During 2017, we disposed of substantially all of the remaining Sandpiper assets (Note 8).

Other

For the year ended December 31, 2016, we recorded impairment charges of \$11 million related to EEP's non-core trucking assets and related facilities, which are a part of our Gas Transmission and Midstream segment.

Impairment charges were based on the amount by which the carrying values of the assets exceeded fair value, determined using expected discounted future cash flows, and such charges are included in Impairment of property, plant and equipment on the Consolidated Statements of Earnings.

12. VARIABLE INTEREST ENTITIES

CONSOLIDATED VARIABLE INTEREST ENTITIES

Enbridge Canadian Renewable LP (ECRLP)

To facilitate the sale on August 1, 2018 of the Renewable Assets (Note 8), we and our subsidiaries transferred our Canadian renewable assets to a newly formed partnership, ECRLP. Subsequently, a 49% interest in ECRLP was sold to CPPIB. ECRLP is a VIE as its limited partners do not have substantive kick-out rights or participating rights. Because we have the power to direct the activities of ECRLP, we are exposed to potential losses, and we have the right to receive benefits from ECRLP, we are considered the primary beneficiary.

Enbridge Energy Partners, L.P.

EEP is a Delaware limited partnership and is considered a VIE as its limited partners do not have substantive kick-out rights or participating rights. Through our wholly-owned subsidiary, Enbridge Energy Company, Inc. (EECI), we have the power to direct EEP's activities and have a significant impact on

EEP's economic performance. Along with an economic interest held through an indirect common interest and general partner interest through EECI, and through our 100% ownership of EECI, we are the primary beneficiary of EEP. As at December 31, 2017, our economic interest in EEP was 34.6% and the public owned the remaining interests in EEP. As at December 31, 2018, subsequent to the Sponsored Vehicles buy-in (Note 20), our interest in EEP was 100%.

Enbridge Income Fund

The Fund is an unincorporated open-ended trust established by a trust indenture under the laws of the Province of Alberta and is considered a VIE by virtue of its capital structure. We are the primary beneficiary of the Fund through our 100% direct common interest in the Fund. We also serve in the capacity of Manager of the Fund and Affiliates. As at December 31, 2017, our combined economic interest and direct common interest in the Fund were 82.5% and 29.4%, respectively. As at December 31, 2018, subsequent to the Sponsored Vehicles buy-in (Note 20), our interest in the Fund was 100%.

Enbridge Commercial Trust (ECT)

We have the ability to appoint the majority of the trustees to ECT's Board of Trustees, resulting in a lack of decision making ability for the holders of the common trust units of ECT. As a result, ECT is considered to be a VIE and although we do not have a common equity interest in ECT, we are considered to be the primary beneficiary of ECT. We also serve in the capacity of Manager of ECT, as part of the Fund and Affiliates.

Enbridge Income Partners LP (EIPLP)

EIPLP, formed in 2002, is involved in the generation, transportation and storage of energy through interests in its Liquids Pipelines business, including the Canadian Mainline, the Regional Oil Sands System, a 50.0% interest in the Alliance Pipeline, which transports natural gas, and its renewable and alternative power generation facilities. EIPLP is a partnership between a direct wholly-owned subsidiary of Enbridge and ECT. EIPLP is considered a VIE as its limited partners lack substantive kick-out rights and participating rights. Through a majority ownership of EIPLP's General Partner, 100% ownership of Enbridge Management Services Inc. (a service provider for EIPLP), and a direct common interest in EIPLP, we have the power to direct the activities that most significantly impact EIPLP's economic performance and have the obligation to absorb losses and the right to receive residual returns that are potentially significant to EIPLP, making us the primary beneficiary of EIPLP. As at December 31, 2017, our economic interest and direct common interest in EIPLP were 73.5% and 53.1%, respectively. As at December 31, 2018, subsequent to the Sponsored Vehicles buy-in (Note 20), our interest in EIPLP was 100%.

Green Power and Transmission

Through various subsidiaries, we have a majority ownership interest in Magic Valley, Wildcat, Keechi Wind Project (Keechi), New Creek and Chapman Ranch wind facilities. These wind facilities are considered VIEs due to the members' lack of substantive kick-out rights and participating rights. We are the primary beneficiary of these VIEs by virtue of our voting rights, our power to direct the activities that most significantly impact the economic performance of the wind facilities, and our obligation to absorb losses.

Enbridge Holdings (DakTex) L.L.C.

Enbridge Holdings (DakTex) L.L.C. (DakTex) is owned 75% by a wholly-owned subsidiary of Enbridge and 25% by EEP, through which we have an effective 27.6% interest in the equity investment, Bakken Pipeline System (Note 13). EEP is the primary beneficiary because it has the power to direct DakTex's activities that most significantly impact its economic performance. We consolidate EEP and by extension also consolidate DakTex.

Spectra Energy Partners, LP

SEP is a natural gas and crude oil infrastructure master limited partnership and is considered a VIE as its limited partners do not have substantive kick-out rights or participating rights. We are the primary

beneficiary of SEP because we have the power to direct SEP's activities that most significantly impact its economic performance. We acquired a 75% ownership in SEP through the Merger Transaction in 2017. As at December 31, 2018, subsequent to the Sponsored Vehicles buy-in (Note 20), our interest in SEP was 100%.

Valley Crossing Pipeline, LLC

Valley Crossing Pipeline, LLC (Valley Crossing), a wholly-owned subsidiary of Enbridge, has constructed a natural gas pipeline to transport natural gas within Texas. The pipeline was placed into service in October 2018. Following the completion of the pipeline construction and beginning of the long term transportation services agreement, Valley Crossing was concluded to have sufficient equity at risk to finance its activities without additional subordinated financial support and thus is no longer a VIE after October 2018.

Other Limited Partnerships

By virtue of a lack of substantive kick-out rights and participating rights, substantially all limited partnerships wholly-owned by us and/or our subsidiaries are considered VIEs. As these entities are 100% owned and directed by us with no third parties having the ability to direct any of the significant activities, we are considered the primary beneficiary.

The following table includes assets to be used to settle liabilities of our consolidated VIEs and liabilities of our consolidated VIEs for which creditors do not have recourse to our general credit as the primary beneficiary. These assets and liabilities are included in the Consolidated Statements of Financial Position.

December 31, (millions of Canadian dollars)	2018	2017
Assets		
Cash and cash equivalents	506	368
Restricted cash	27	—
Accounts receivable and other	2,073	2,132
Accounts receivable from affiliates	5	3
Inventory	244	220
	2,855	2,723
Property, plant and equipment, net	72,737	68,685
Long-term investments	6,481	6,258
Restricted long-term investments	244	206
Deferred amounts and other assets	3,156	2,921
Intangible assets, net	317	296
Goodwill	29	29
Deferred income taxes	131	145
	85,950	81,263

Accounts payable to affiliates	4	131
Interest payable	303	312
Environmental liabilities	22	35
Current portion of long-term debt	1,034	2,129
	4,563	5,951
Long-term debt	29,577	31,469
Other long-term liabilities	5,074	4,301
Deferred income taxes	6,911	3,010
	46,125	44,731
Net assets before noncontrolling interests	39,825	36,532

We do not have an obligation to provide financial support to any of the consolidated VIEs.

UNCONSOLIDATED VARIABLE INTEREST ENTITIES

We currently hold several equity investments in limited partnerships that are assessed to be VIEs due to limited partners not having substantive kick-out rights or participating rights. We have determined that we do not have the power to direct the activities of the VIEs that most significantly impact the VIEs' economic performance. Specifically, the power to direct the activities of a majority of these VIEs is shared amongst the partners. Each partner has representatives that make up an executive committee who makes significant decisions for the VIE and none of the partners may make major decisions unilaterally.

The carrying amount of our interest in VIEs that are unconsolidated and our estimated maximum exposure to loss as at December 31, 2018 and 2017 is presented below.

	Carrying Amount of Investment in VIE	Enbridge's Maximum Exposure to Loss
December 31, 2018 (millions of Canadian dollars)		
Aux Sable Liquid Products L.P. ¹	311	375
Eolien Maritime France SAS ²	68	784

Other	21	21
	5,821	9,815

¹ At December 31, 2018, the maximum exposure to loss includes a guarantee by us for our respective share of the VIE's borrowing on a bank credit facility.

² At December 31, 2018, the maximum exposure to loss includes the portion of our parental guarantee that has been committed in project construction contracts in which we would be liable for in the event of default by the VIE and an outstanding affiliate loan receivable for \$202 million held by us.

3

At December 31, 2018, the maximum exposure to loss includes the portion of our parental guarantee that has been committed in project construction contracts in which we would be liable for in the event of default by the VIE.

⁴ At December 31, 2018, the maximum exposure to loss is limited to our equity investment as these companies are in operation and self-sustaining.

⁵ At December 31, 2018, the maximum exposure to loss includes the remaining expected contributions to the joint venture and parental guarantees for our portion of capacity lease agreements.

⁶ At December 31, 2018 the maximum exposure to loss includes the remaining expected contributions to the joint venture.

⁷ At December 31, 2018, the maximum exposure to loss includes the portion of our parental guarantee that has been committed in project contracts in which we would be liable for in the event of default by the VIE.

⁸ At December 31, 2018 the maximum exposure to loss includes the carrying value of an outstanding affiliate loan receivable for \$102 million held by us.

⁹ As at December 31, 2018, the carrying amount of investment and maximum exposure to loss related to Hohe See Offshore Wind Project are included in the amounts shown for ERII.

We do not have an obligation to and did not provide any additional financial support to the VIEs during the years ended December 31, 2018 and 2017.

Enbridge Renewable Infrastructure Investments S.a.r.l. (ERII)

To facilitate the sale on August 1, 2018 of the Renewable Assets (Note 8), we transferred our interest in the Hohe See Offshore wind facilities and its subsequent expansion to a newly formed entity, ERII. Subsequently, a 49% interest in ERII was sold to CPPIB. ERII is a VIE due to insufficient equity at risk to finance its activities. We are not the primary beneficiary of ERII since the power to direct the activities of ERII that most significantly impacts its economic performance is shared. We account for ERII by using the equity method as we retain significant influence through a 51% voting interest in substantive decisions.

Sabal Trail Transmission, LLC

SEP owns a 50% interest in Sabal Trail, a joint venture that operates a pipeline originating in Alabama that transports natural gas to Florida and has been classified as a variable interest entity.

On April 30, 2018, Sabal Trail issued US\$500 million in aggregate principal amount of 4.25% senior notes due in 2028, US\$600 million in aggregate principal amount of 4.68% senior notes due in 2038 and US\$400 million in aggregate principal amount of 4.83% senior notes due in 2048. Sabal Trail distributed net proceeds from the offering to the members as a partial reimbursement of construction and development costs incurred by the members. The net distribution made to SEP was US\$744 million and was used to pay down indebtedness and is included within Distributions from equity investments in excess of cumulative earnings on the Consolidated Statements of Cash Flows for the year ended December 31, 2018. These events triggered reconsideration and as a result, it was concluded that Sabal Trail was no longer a VIE as of June 30, 2018 due to sufficient equity at risk to finance its activities.

On February 15, 2017, EEP acquired an effective 27.6% interest in the Dakota Access and Energy Transfer Crude Oil Pipelines (collectively, the Bakken Pipeline System) for a purchase price of \$2 billion (US\$1.5 billion). The Bakken Pipeline System was placed into service on June 1, 2017. For details regarding our funding arrangement, refer to Note 20 - Noncontrolling Interests.

²Owns the Southern Access Extension Project.

³Certain assets of the Alliance Pipeline are pledged as collateral to Alliance Pipeline lenders.

⁴On February 27, 2017, we acquired Spectra Energy's interests in DCP Midstream, Gulfstream Natural Gas System, L.L.C, Nexus, PennEast, Southeast Supply Header L.L.C., Steckman Ridge LP and other equity investments as part

of the Merger Transaction (Note 8).

On February 27, 2017, we acquired Spectra Energy's consolidated interest in Sabal Trail as part of the Merger Transaction (Note 8). On July 3, 2017, Sabal Trail was placed into service and the assets, liabilities, and noncontrolling interests were deconsolidated as at the in-service date.

On August 1, 2018 the sale of Midcoast Operating, L.P. and its subsidiaries closed. Upon closing of the sale, our interest in the Texas Express NGL pipeline system was sold along with the MOLP assets. The carrying value of \$447 million of our equity method investment in the Texas Express NGL pipeline system was included within the disposal group of the transaction. For further details on the sale transaction please refer to Note 8 - Acquisitions and Dispositions.

140

On February 8, 2017, we acquired an effective 50% interest in EnBW Hohe See GmbH & Co. KG. On August 1, 2018 we transferred our interest in the Hohe See Offshore wind facilities and its subsequent expansion to a newly formed entity, ERII. Subsequently, we sold a 49% interest in ERII to CPPIB, reducing our interest in the project to 25.5%.

Equity investments include the unamortized excess of the purchase price over the underlying net book value of the investees' assets at the purchase date. As at December 31, 2018, this comprised of \$2.2 billion in Goodwill and \$706 million in amortizable assets. As at December 31, 2017, this comprised of \$2.0 billion in Goodwill and \$643 million in amortizable assets.

For the years ended December 31, 2018, 2017 and 2016, dividends received from equity investments were \$2.8 billion, \$1.4 billion and \$825 million, respectively.

Summarized combined financial information of our interest in unconsolidated equity investments (presented at 100%) is as follows:

	Year Ended December 31,								
	2018			2017			2016		
	Seaway	Other	Total	Seaway	Other	Total	Seaway	Other	Total

Sabal Trail Transmission, LLC

On July 3, 2017, Sabal Trail was placed into service. In accordance with the Sabal Trail LLC Agreement, upon the in-service date, the power to direct Sabal Trail's activities became shared with its members. We are no longer the primary beneficiary and deconsolidated the assets, liabilities and noncontrolling interests related to Sabal Trail as at the in-service date.

At deconsolidation, our 50% interest in Sabal Trail was recorded at its fair value of \$2.3 billion (US\$1.9 billion), which approximated its carrying value as a long-term equity investment. As a result, there was no gain or loss recognized for the year ended December 31, 2017 related to the remeasurement of the retained equity interest to its fair value. The fair value was determined using the income approach which is based on the present value of the future cash flows.

Noverco Inc.

As at December 31, 2018 and 2017, we owned an equity interest in Noverco through ownership of 38.9% of its common shares and an investment in preferred shares. The preferred shares are entitled to a cumulative preferred dividend based on the average yield of Government of Canada bonds maturing in 10 years plus a margin of 4.38%.

As at December 31, 2018 and 2017, Noverco owned an approximate 1.4% and 1.9% reciprocal shareholding in our common shares, respectively. Noverco sold 4.4 million common shares in December

141

2018 and purchased 1.2 million common shares in February 2016. Shares purchased and sold were treated as treasury stock on the Consolidated Statements of Changes in Equity.

As a result of Noverco's reciprocal shareholding in our common shares, as at December 31, 2018 and 2017, we had an indirect pro-rata interest of 0.5% and 0.7%, respectively, in our own shares. Both the equity investment in Noverco and shareholders' equity have been reduced by the reciprocal shareholding of \$88 million and \$102 million as at December 31, 2018 and 2017. Noverco records dividends paid from us as dividend income and we eliminate these dividends from our equity earnings of Noverco. We record our pro-rata share of dividends paid by us to Noverco as a reduction of dividends paid and an increase in our investment in Noverco.

14. RESTRICTED LONG-TERM INVESTMENTS

Effective January 1, 2015, we began collecting and setting aside funds to cover future pipeline abandonment costs for all NEB regulated pipelines as a result of the NEB's regulatory requirements under LMCI. The funds collected are held in trusts in accordance with the NEB decision. The funds collected from shippers are reported within Transportation and other services revenues on the Consolidated Statements of Earnings and Restricted long-term investments on the Consolidated Statements of Financial Position. Concurrently, we reflect the future abandonment cost as an increase to Operating and administrative expense on the Consolidated Statements of Earnings and Other long-term liabilities on the Consolidated Statements of Financial Position.

We routinely invest excess cash and various restricted balances in securities such as commercial paper, bankers acceptances, corporate debt securities, Canadian equity securities, treasury bills and money market securities in the United States and Canada.

As at December 31, 2018 and 2017, we had restricted long-term investments held in trust and classified as available for sale or held to maturity of \$323 million and \$267 million, respectively. We had estimated future abandonment costs related to LMCI of \$212 million and \$151 million as at December 31, 2018 and 2017, respectively.

15. INTANGIBLE ASSETS

The following table provides the weighted average amortization rate, gross carrying value, accumulated amortization and net carrying value for each of our major classes of intangible assets:

December 31, 2018 ¹ (millions of Canadian dollars)	Weighted Average		Accumulated	
	Amortization Rate	Cost	Amortization	Net
Customer relationships	5.0	% 762	70	692
Power purchase agreements	4.4	% 96	21	75
Project agreement ²	4.0	% 164	10	154
Software	11.4	% 1,827	814	1,013
Other intangible assets	4.1	% 508	70	438
		3,357	985	2,372

December 31, 2017 ¹ (millions of Canadian dollars)	Weighted Average		Accumulated	
	Amortization Rate	Cost	Amortization	Net
Customer relationships	3.5	% 967	41	926
Power purchase agreements	3.5	% 99	17	82
Project agreement ²	4.0	% 150	3	147
Software	11.3	% 1,760	714	1,046
Other intangible assets ³	4.4	% 1,162	96	1,066
		4,138	871	3,267

1 Certain assets were reclassified as held for sale as at December 31, 2018 and December 31, 2017 (Note 8).

2 Represents a project agreement acquired from the Merger Transaction (Note 8).

3 The measurement of weighted average amortization rate excludes non-depreciable intangible assets.

For the years ended December 31, 2018, 2017 and 2016, our amortization expense related to intangible assets totaled \$281 million, \$280 million and \$177 million, respectively. The following table presents our forecast of amortization expense associated with existing intangible assets for the years indicated as follows:

	2019	2020	2021	2022	2023
Forecast of amortization expense (millions of Canadian dollars)	278	251	227	205	186

16. GOODWILL

IMPAIRMENT

Gas Transmission and Midstream

Canadian Natural Gas Gathering and Processing Businesses

During the year ended December 31, 2018, we recorded a goodwill impairment charge of \$1,019 million related to our Canadian Natural Gas Gathering and Processing Businesses assets which were classified as held for sale in the third quarter. The provincially regulated assets were subsequently sold in the fourth quarter (Note 8). As these assets represented a portion of a reporting unit, we allocated a portion of the goodwill of the reporting unit to these assets

using a relative fair value approach. In connection with the write-down of the carrying values of the assets held for sale to its sale price consideration less costs to sell, the related goodwill was impaired. We also performed a goodwill impairment test for the related reporting unit resulting in no additional impairment charge.

US Midstream

During the year ended December 31, 2017, we recorded a goodwill impairment charge of \$102 million related to certain assets in our Gas Transmission and Midstream segment classified as held for sale (Note 8). Goodwill was allocated to certain disposal groups qualifying as a business based on a relative fair value approach. In connection with the write-down of the carrying values of the assets held for sale to its fair value less costs to sell, the related goodwill was impaired. The fair value of these assets were estimated using the discounted cash flow method, which was negatively impacted by prolonged decline in commodity prices and deteriorating business performance. We also performed goodwill impairment testing on the associated gas midstream reporting unit resulting in no additional impairment charge.

The estimate of the gas midstream reporting unit's fair value required the use of significant unobservable inputs representative of a Level 3 fair value measurement, including assumptions related to the future performance of the reporting unit.

DISPOSITIONS

In 2018, we derecognized \$262 million of goodwill on the disposition of Midcoast Operating, L.P. and its subsidiaries and \$366 million on the disposition of the provincially regulated facilities of our Canadian Natural Gas Gathering and Processing Business (Note 8).

In 2017, we derecognized \$29 million of goodwill on the disposition of Olympic Pipeline (Note 8).

ASSETS HELD FOR SALE

As at December 31, 2018, the net assets of the federally regulated facilities of our Canadian Natural Gas Gathering and Processing Business remain classified as held for sale, including \$55 million of allocated goodwill. In addition, as at December 31, 2018, the net assets of EGNB were also classified as held for sale, including \$133 million of allocated goodwill.

ACQUISITIONS

In 2017, we recognized \$36.7 billion of goodwill on the Merger Transaction (Note 8).

12018 - US\$4,700 million; 2017 - US\$4,700 million.

On December 21, 2018, Enbridge and Enbridge Income Fund (the Fund) completed a transaction to exchange certain series of the Fund's outstanding medium-term notes (Legacy Fund Notes) for an equal principal amount of newly issued medium term notes of Enbridge, having financial terms that are the same as the financial terms of the Fund Notes. See Debt Exchange discussion below.

2018 - \$2,400 million and US\$3,200 million; 2017 - \$1,650 million and US\$1,750 million. For the initial 10 years, the notes carry a fixed interest rate. Subsequently, the interest rate will be floating and set to equal the three-month Bankers' Acceptance Rate or London Interbank Offered Rate (LIBOR) plus a margin.

The notes would be converted automatically into Conversion Preference Shares in the event of bankruptcy and related events.

2018 - \$750 million and US\$1,200 million; 2017 - \$750 million and US\$1,200 million. Carries an interest rate equal to the three-month Bankers' Acceptance Rate plus a margin of 59 basis points or LIBOR plus a margin of 40 or 70 basis points.

2018 - \$1,906 million and US\$69 million; 2017 - \$1,593 million and US\$907 million.

Primarily capital lease obligations.

2018 - US\$780 million; 2017 - US\$391 million.

2018 - US\$4,550 million; 2017 - US\$5,050 million.

2018 - US\$400 million; 2017 - US\$400 million. Carries an interest rate equal to the three-month LIBOR plus a margin of 379.75 basis points.

2018 - US\$764 million; 2017 - US\$1,453 million.

2018 - US\$920 million; 2017 - US\$963 million.

Included in medium-term notes is \$100 million with a maturity date of 2112.

2018 - \$1,905 million and US\$216 million; 2017 - \$1,080 million and US\$286 million.

2017 - US\$400 million.

Debt acquired in conjunction with the Merger Transaction (Note 8).

2018 - US\$173 million; 2017 - US\$1,329 million.

2018 - US\$110 million; 2017 - US\$110 million.

2018 - US\$6,040 million; 2017 - US\$5,740 million.

2018 - US\$400 million; 2017 - US\$400 million. Carries an interest rate equal to the three-month LIBOR plus a margin of 70 basis points.

2018 - US\$1,512 million; 2017 - US\$2,254 million.

Primarily debt discount and debt issue costs.

Weighted average interest rate - 2.3%; 2017 - 1.4%.

SECURED DEBT

Senior secured notes, totaling \$183 million as at December 31, 2018, includes project financings for M&N Canada and Express-Platte System. Ownership interests in M&N Canada and certain of its accounts, revenues, business contracts and other assets are pledged as collateral. Express-Platte System notes payable are secured by the assignment of the Express-Platte System transportation receivables and by the Canadian portion of the Express-Platte pipeline system assets.

CREDIT FACILITIES

The following table provides details of our committed credit facilities at December 31, 2018:

December 31, (millions of Canadian dollars)	Maturity	2018		
		Total Facilities	Draws ¹	Available
Enbridge Inc.	2019-2023	5,751	2,008	3,743
Enbridge (U.S.) Inc.	2020	1,932	1,065	867
Enbridge Energy Partners, L.P. ²	2022	2,493	1,044	1,449
Enbridge Gas Distribution Inc.	2019-2020	1,018	760	258
Enbridge Pipelines Inc.	2020	3,000	2,200	800
Spectra Energy Partners, LP ^{3,4}	2022	3,414	2,065	1,349
Union Gas Limited ⁴	2021	700	275	425
Total committed credit facilities		18,308	9,417	8,891

- 1 Includes facility draws, letters of credit and commercial paper issuances that are back-stopped by the credit facility.
- 2 Includes \$253 million (US\$185 million) of facilities that expire in 2020.
- 3 Includes \$459 million (US\$336 million) of facilities that expire in 2021.
- 4 Committed credit facilities acquired in conjunction with the Merger Transaction (Note 8).

Enbridge terminated a US\$650 million credit facility, which was scheduled to mature in 2019, and repaid drawn amounts. In addition, an unutilized Enbridge US\$100 million credit facility expired.

Enbridge (U.S.) Inc. terminated an unutilized US\$950 million credit facility, which was scheduled to mature in 2019. In addition, Enbridge (U.S.) Inc. terminated a US\$500 million credit facility, which was scheduled to mature in 2019, and repaid drawn amounts.

An unutilized EEP US\$625 million credit facility matured on December 31, 2018.

Enbridge Income Fund substantially terminated its \$1,500 million credit facility, which was scheduled to mature in 2020, and repaid drawn amounts.

Westcoast Energy Inc. terminated an unutilized \$400 million credit facility, which was scheduled to mature in 2021. The facility was acquired in conjunction with the Merger Transaction.

On February 7, 2019 and February 8, 2019, we terminated certain Canadian and United States dollar credit facilities, including facilities held by Enbridge, Union Gas, EEP and SEP. We also increased existing facilities or obtained new facilities to replace the terminated ones under Enbridge, Enbridge (U.S.) Inc. and EGI. As a result, our total credit facility availability increased by approximately \$390 million Canadian dollar equivalent, when translated using the year end December 31, 2018 spot rate.

In addition to the committed credit facilities noted above, we have \$807 million of uncommitted demand credit facilities, of which \$548 million were unutilized as at December 31, 2018. As at December 31, 2017, we had \$792 million of uncommitted credit facilities, of which \$518 million were unutilized.

Credit facilities carry a weighted average standby fee of 0.2% per annum on the unused portion and draws bear interest at market rates. Certain credit facilities serve as a back-stop to the commercial paper programs and we have the option to extend such facilities, which are currently set to mature from 2020 to 2023.

As at December 31, 2018 and 2017, commercial paper and credit facility draws, net of short-term borrowings and non-revolving credit facilities that mature within one year of \$7,967 million and \$10,055 million, respectively, are supported by the availability of long-term committed credit facilities and therefore have been classified as long-term debt.

LONG-TERM DEBT ISSUANCES

The following are long-term debt issuances made during 2018 and 2017, excluding the debt exchange discussed below:

Company	Issue Date		Principal Amount
(millions of Canadian dollars unless otherwise stated)			
Enbridge Inc.			
	March 2018	Fixed-to-floating rate subordinated notes due March 2078 ¹	US\$850

January 2018	4.15% senior notes due January 2048 ⁹	US\$400
June 2017	Floating rate notes due June 2020 ¹⁰	US\$400
Union Gas Limited		
November 2017	2.88% medium-term notes due November 2027	\$250
November 2017	3.59% medium-term notes due November 2047	\$250

Notes mature in 60 years and are callable on or after year 10. For the initial 10 years, the notes carry a fixed interest rate of 6.25%. Subsequently, the interest rate will be set to equal the three-month LIBOR plus a margin of 364 basis points from years 10 to 30, and a margin of 439 basis points from years 30 to 60.

Notes mature in 60 years and are callable on or after year 10. For the initial 10 years, the notes carry a fixed interest rate of 6.625%. Subsequently, the interest rate will be set to equal the Canadian Dollar Offered Rate plus a margin of 432 basis points from years 10 to 30, and a margin of 507 basis points from years 30 to 60.

Notes mature in 60 years and are callable on or after year five. For the initial five years, the notes carry a fixed interest rate of 6.375%. Subsequently, the interest rate will be set to equal the three-month LIBOR plus a margin of

359 basis points from years five to 10, a margin of 384 basis points from years 10 to 25, and a margin of 459 basis points from years 25 to 60.

4 Carries an interest rate equal to the three-month Bankers' Acceptance Rate plus 59 basis points.

5 Carries an interest rate equal to the three-month LIBOR plus 70 basis points.

Matures in 60 years and are callable on or after year 10. For the initial 10 years, the notes carry a fixed interest rate of 5.5%. Subsequently, the interest rate will be set to equal the three-month LIBOR plus a margin of 342 basis points from year 10 to 30, and a margin of 417 basis points from year 30 to 60.

7 Matures in 60 years and are callable on or after year 10. For the initial 10 years, the notes carry a fixed interest rate of 5.4%. Subsequently, the interest rate will be set to equal the three-month Bankers' Acceptance Rate plus a margin of 325 basis points from year 10 to 30, and a margin of 400 basis points from year 30 to 60.

8 Carries an interest rate equal to the three-month LIBOR plus 40 basis points.

9 Issued through Texas Eastern Transmission, L.P. (Texas Eastern), a wholly-owned operating subsidiary of SEP.

10 Carries an interest rate equal to the three-month LIBOR plus 70 basis points.

1 Cash consideration disclosed for repayments where the cash paid differs from the principal amount.

The loss on debt extinguishment of \$64 million (US\$50 million), net of the fair value adjustment recorded upon completion of the Merger Transaction, was reported within Interest expense in the Consolidated Statements of Earnings.

The loss on debt extinguishment of \$50 million (US\$38 million), net of the fair value adjustment recorded upon completion of the Merger Transaction, was reported within Interest expense in the Consolidated Statements of Earnings.

DEBT EXCHANGE

On December 21, 2018, Enbridge and the Fund completed a transaction to exchange certain series of the Legacy Fund Notes for an equal principal amount of newly issued medium term notes of Enbridge (Enbridge Notes), having financial terms that are the same as the financial terms of the Fund Notes.

The following Enbridge Notes were issued in exchange for the previously held Fund Notes:

- Enbridge 4.10% medium-term notes, due February 22, 2019 issued in exchange for Fund 4.10% medium-term notes, due February 22, 2019 with a principal amount of \$300 million;
- Enbridge 4.85% medium-term notes, due November 12, 2020 issued in exchange for Fund 4.85% medium-term notes, due November 12, 2020 with a principal amount of \$100 million;
- Enbridge 4.85% medium-term notes, due February 22, 2022 issued in exchange for Fund 4.85% medium-term notes, due February 22, 2022 with a principal amount of \$200 million;
- Enbridge 3.94% medium-term notes, due January 13, 2023 issued in exchange for Fund 3.94% medium-term notes, due January 13, 2023 with a principal amount of \$275 million;
- Enbridge 3.95% medium-term notes, due November 19, 2024 issued in exchange for Fund 3.95% medium-term notes, due November 19, 2024 with a principal amount of \$500 million; and
- Enbridge 4.87% medium-term notes, due November 21, 2044 issued in exchange for Fund 4.87% medium-term notes, due November 21, 2044 with a principal amount of \$250 million.

DEBT COVENANTS

Our credit facility agreements and term debt indentures include standard events of default and covenant provisions whereby accelerated repayment and/or termination of the agreements may result if we were to default on payment or violate certain covenants. As at December 31, 2018, we were in compliance with all debt covenants.

INTEREST EXPENSE

19. ASSET RETIREMENT OBLIGATIONS

Our ARO relate mostly to the retirement of pipelines, renewable power generation assets, obligations related to right-of way agreements and contractual leases for land use.

The liability for the expected cash flows as recognized in the financial statements reflected discount rates ranging from 1.8% to 9.0%.

A reconciliation of movements in our ARO liabilities is as follows:

December 31, (millions of Canadian dollars)	2018	2017
Obligations at beginning of year	793	232
Liabilities acquired	—	546
Liabilities disposed	(13)	—
Liabilities incurred	145	—

20. NONCONTROLLING INTERESTS

NONCONTROLLING INTERESTS

The following table provides additional information regarding Noncontrolling interests as presented in our Consolidated Statements of Financial Position:

December 31,	2018	2017
(millions of Canadian dollars)		
Algonquin Gas Transmission, L.L.C. ¹	518	476
Enbridge Energy Management, L.L.C. ²	—	34
Enbridge Energy Partners, L.P. ³	—	138
Enbridge Gas Distribution Inc. ⁴	—	100
Maritimes & Northeast Pipeline, L.L.C. ¹	613	572
Renewable energy assets ⁵	1,961	806
Spectra Energy Partners, LP ⁶	—	4,335
Union Gas Limited ⁷	—	110
Westcoast Energy Inc. ⁸	841	1,005
Other ⁹	32	21
	3,965	7,597

¹ Represents subsidiaries of SEP and the interests in these subsidiaries held by third parties.

On December 20, 2018, we executed the definitive agreement with EEM and acquired all of the publicly held shares of EEM not already owned by us or our subsidiaries. As at December 31, 2017, the balance represented 88.3% interest in EEM held by public shareholders.

On December 20, 2018, we executed the definitive agreement with EEP and acquired all of the publicly held Class A common units of EEP not already owned by us or our subsidiaries. As at December 31, 2017, the balance represented 68.2% interest in EEP held by public unitholders.

⁴ On November 29, 2018, EGD redeemed all of its four million cumulative redeemable preferred shares held by third parties. As at December 31, 2017, the balance of these preferred shares was \$100 million.

On August 1, 2018, we closed the sale of 49% of our interest in the Renewable Assets (Note 8). The remaining balance represents the tax equity investors' interests in Magic Valley, Wildcat, Keechi, New Creek and Chapman Ranch wind facilities, which are accounted for using the HLBV method, with an additional 20.0% noncontrolling interest in each of the Magic Valley and Wildcat wind facilities held by third parties as at December 31, 2018 and 2017.

On December 17, 2018, we closed the definitive agreement with SEP and acquired all of the publicly listed common units of SEP not already owned by us or our subsidiaries. As at December 31, 2017, the balance represented 25.7% interest in SEP held by public unitholders.

⁷ On November 29, 2018, Union Gas redeemed all of its four million cumulative redeemable preferred shares held by third parties. As at December 31, 2017, the balance of these preferred shares was \$110 million.

Represents the 16.6 million cumulative redeemable preferred shares and 12 million cumulative first preferred shares as at December 31, 2018 and 2017 held by third parties in Westcoast Energy Inc., and the 22.0% interest in Maritimes & Northeast Pipeline Limited Partnership held by third parties as at December 31, 2018 and 2017.

⁹ Represents subsidiary of EEP and the interests in this subsidiary held by third parties.

United States Sponsored Vehicles Buy-in

On August 24, 2018, we entered into a definitive agreement with SEP under which we agreed to acquire all of the outstanding public common units of SEP not already owned by us or our subsidiaries on the basis of 1.111 of our common shares for each common unit of SEP. Upon the closing of the transaction on December 17, 2018, we acquired all of the public common units of SEP and SEP became an indirect, wholly-owned subsidiary of Enbridge. The transaction is valued at \$3.9 billion based on the closing price of our common shares on the New York Stock Exchange on December 14, 2018. As a result of this buy-in, we recorded a decrease in Noncontrolling interests, Additional paid-in capital and Deferred income tax liabilities of \$3.0 billion, \$642 million and \$167 million,

respectively.

On September 17, 2018, we entered into definitive agreements with each of EEP and EEM under which we agreed to acquire all of the outstanding public class A common units of EEP and all of the outstanding public listed shares of EEM not already owned by us or our subsidiaries. Under the agreements, EEP public unitholders will receive 0.335 of our common shares for each class A common unit of EEP, and

153

EEM public shareholders will receive 0.335 of our common shares for each listed share of EEM. Upon the closing of the respective transactions on December 20, 2018, we acquired all of the public Class A common units of EEP and shares of EEM, and both EEP and EEM became indirect, wholly-owned subsidiaries of Enbridge. The EEP and EEM transactions are valued at \$3.0 billion and \$1.3 billion, respectively, based on the closing price of our common shares on the New York Stock Exchange on December 19, 2018. As a result of the buy-ins, collectively for EEP and EEM, we recorded an increase in Noncontrolling interests and a decrease in Additional paid-in capital and Deferred income tax liabilities of \$185 million, \$3.7 billion and \$707 million, respectively.

For discussion on the roll-up of ENF, refer to Canadian Sponsored Vehicles Buy-in under Redeemable Noncontrolling Interests below.

Renewable Assets

On August 1, 2018, we closed the sale of a 49% interest in all of our Canadian renewable assets and a 49% interest in two United States renewable assets to CPPIB (Note 8). As a result, we recorded an increase in Noncontrolling interests, Additional paid-in capital and Deferred income tax liabilities of \$1,183 million, \$79 million and \$27 million, respectively, in the third quarter of 2018. For 2018, CPPIB's distributions and allocation of earnings were not proportionate to its ownership.

SEP Incentive Distribution Rights

As at December 31, 2017, we collectively owned a 75% ownership interest in SEP, together with 100% of SEP's incentive distribution rights (IDRs). On January 22, 2018, Enbridge and SEP announced the execution of a definitive agreement, resulting in us converting all of our IDRs and general partner economic interests in SEP into 172.5 million newly issued SEP common units. As part of the transaction, all of the IDRs were eliminated. In the first quarter of 2018, we held a non-economic general partner interest in SEP and owned approximately 403 million SEP common units, representing approximately 83% of SEP's outstanding common units. As a result of this restructuring, we recorded a decrease in Noncontrolling interests of \$1.5 billion and increases in Additional paid-in capital and Deferred income tax liabilities of \$1.1 billion and \$333 million, respectively. Subsequently in 2018, we acquired all of the outstanding common units of SEP (refer to United States Sponsored Vehicles Buy-in above).

Enbridge Energy Partners, L.P.

United States Sponsored Vehicle Strategy

On April 28, 2017, we completed a strategic review of EEP and took the actions described below. As a result of these actions, we recorded an increase in Noncontrolling interests of \$458 million, inclusive of foreign currency translation adjustments, and a decrease in Additional paid-in capital of \$421 million, net of deferred income taxes of \$253 million.

Acquisition of Midcoast Assets and Privatization of MEP

On April 27, 2017, we completed our previously-announced merger through a wholly-owned subsidiary, through which we privatized MEP by acquiring all of the outstanding publicly-held common units of MEP for total consideration of approximately US\$170 million.

On June 28, 2017, we acquired, through a wholly-owned subsidiary, all of EEP's interest in the Midcoast gas gathering and processing business for cash consideration of US\$1.3 billion plus existing indebtedness of MEP of US\$953 million.

As a result of the above transactions, 100% of the Midcoast gas gathering and processing business was owned by us and subsequently sold on August 1, 2018 (see Note 8 - Acquisitions and Dispositions for further details).

EEP Strategic Restructuring Actions

On April 27, 2017, EEP redeemed all of its outstanding Series 1 Preferred Units held by us at face value of US\$1.2 billion through the issuance of 64.3 million Class A common units to us. We also irrevocably

waived all of our rights associated with our ownership of 66.1 million Class D units and 1,000 Incentive Distribution Units of EEP, in exchange for the issuance of 1,000 Class F units. The Class F units are entitled to (i) 13% of all distributions in excess of US\$0.295 per EEP unit, but equal to or less than US\$0.35 per EEP unit, and (ii) 23% of all distributions in excess of US\$0.35 per EEP unit. The irrevocable waiver was effective with respect to distributions declared with a record date after April 27, 2017. In connection with these strategic restructuring actions, EEP reduced its quarterly distribution from US\$0.583 per unit to US\$0.35 per unit. Further, in conjunction with the restructuring actions, EEP terminated a receivable purchase agreement with a special purpose entity wholly-owned by us.

Finalization of Bakken Pipeline System Joint Funding Agreement

On April 27, 2017, we entered into a joint funding arrangement with EEP. Pursuant to this joint funding arrangement, we own 75% and EEP owns 25% of the combined 27.6% effective interest in the Bakken Pipeline System. Under this arrangement, EEP retains a five-year option to acquire an additional 20% interest in the Bakken Pipeline System.

Upon the execution of the joint funding arrangement, EEP repaid the outstanding balance on its US\$1.5 billion credit agreement with us, which it had drawn upon to fund the initial purchase.

REDEEMABLE NONCONTROLLING INTERESTS

The following table presents additional information regarding Redeemable noncontrolling interests as presented in our Consolidated Statements of Financial Position:

Year ended December 31, (millions of Canadian dollars)	2018	2017	2016
Balance at beginning of year	4,067	3,392	2,141
Earnings attributable to redeemable noncontrolling interests	117	175	268
Other comprehensive income/(loss), net of tax			
Change in unrealized loss on cash flow hedges	3	(21)	(17)
Other comprehensive loss from equity investees	14	—	—
Reclassification to earnings of loss on cash flow hedges	—	57	9
Foreign currency translation adjustments	4	(6)	(3)
Other comprehensive income/(loss), net of tax	21	30	(11)
Distributions to unitholders	(300)	(247)	(202)
Contributions from unitholders	70	1,178	591
Modified retrospective adoption of accounting standard (note 3)	(38)	—	—
Net dilution gain/(loss)	76	(169)	(81)
Redemption value adjustment	456	(292)	686
Sponsored vehicle buy-in ¹	(4,469)	—	—
Balance at end of year	—	4,067	3,392

¹ On November 8, 2018, we executed the definitive agreement with ENF and acquired all of the publicly held shares of ENF not already owned by us or our subsidiaries.

Canadian Sponsored Vehicle Buy-in

On September 17, 2018, we entered into a definitive agreement with ENF under which we would acquire all of the outstanding public common shares of ENF not already owned by us or our subsidiaries on the basis of 0.735 of our common shares and cash of \$0.45 for each common share of ENF. Upon the closing of the transaction on November 8, 2018, we acquired all of the public common shares of ENF and ENF become a wholly-owned subsidiary of Enbridge. The transaction, excluding the cash component, is valued at \$4.5 billion based on the closing price of our common shares on the Toronto Stock Exchange on November 7, 2018. As a result of this buy-in, we recorded a decrease in Redeemable noncontrolling interests and Additional paid-in capital of \$4.5 billion and \$25 million, respectively, with nil deferred tax impact.

As at December 31, 2017 and 2016, Redeemable Noncontrolling Interest represented 56.5% and 45.6%, respectively, of interests in the Fund's trust units that are held by third parties.

21. SHARE CAPITAL

Our authorized share capital consists of an unlimited number of common shares with no par value and an unlimited number of preference shares.

COMMON SHARES

Preference Shares, Series 19	4.90	% \$1.22500	\$25	March 1, 2023	Series 20

The holder is entitled to receive a fixed, cumulative, quarterly preferential dividend, as declared by the Board of Directors. With the exception of Series A and Series C Preference Shares, such fixed dividend rate resets every five years beginning on the initial redemption and conversion option date. The Series 17 and Series 19 Preference Shares contain a feature where the fixed dividend rate, when reset every five years, will not be less than 5.15% and 4.90%, respectively. No other series of Preference Shares has this feature.

Series A Preference Shares may be redeemed any time at our option. For all other series of Preference Shares, we may at our option, redeem all or a portion of the outstanding Preference Shares for the Base Redemption Value per share plus all accrued and unpaid dividends on the Redemption Option Date and on every fifth anniversary thereafter.

The holder will have the right, subject to certain conditions, to convert their shares into Cumulative Redeemable Preference Shares of a specified series on a one-for-one basis on the Conversion Option Date and every fifth anniversary thereafter at an ascribed issue price equal to the Base Redemption Value.

4

With the exception of Series A Preference Shares, after the redemption and conversion option dates, holders may elect to receive quarterly floating rate cumulative dividends per share at a rate equal to: $\$25 \times (\text{number of days in quarter}/365) \times 90 \text{ day Government of Canada treasury bill rate} + 2.4\%$ (Series C), 2.4% (Series E), 2.5% (Series G), 2.1% (Series I), 2.7% (Series O), 2.5% (Series Q), 2.5% (Series S), 2.4% (Series 4), 2.6% (Series 8), 2.7% (Series 10), 2.6% (Series 12), 2.7% (Series 14), 2.7% (Series 16), 4.1% (Series 18) or 3.2% (Series 20); or $\text{US}\$25 \times (\text{number of days in quarter}/365) \times \text{three-month United States Government treasury bill rate} + 3.1\%$ (Series K), 3.2% (Series M), 3.1% (Series 2) or 2.8% (Series 6).

The floating quarterly dividend amount for the Series C Preference Shares was increased to \$0.22685 from \$0.20342 on March 1, 2018, was increased to \$0.22748 from \$0.22685 on June 1, 2018, was increased to \$0.23934 from \$0.22748 on September 1, 2018 and was increased to \$0.25459 from \$0.23934 on December 1, 2018, due to reset on a quarterly basis following the issuance thereof.

No Series D, F, H, N, or 1 Preference shares were converted on the March 1, 2018, June 1, 2018, September 1, 2018, December 1, 2018 or June 1, 2018 conversion option dates, respectively. However, the quarterly dividend amounts for Series D, F, H, N, and 1, were increased to \$0.27875 from \$0.25000 on March 1, 2018, \$0.29306 from \$0.25000 on June 1, 2018, \$0.27350 from \$0.25000 on September 1, 2018, \$0.31788 from \$0.25000 on December 1, 2018 and US\$0.37182 from US\$0.25000 on June 1, 2018, respectively, due to reset on every fifth anniversary thereafter.

DIVIDEND REINVESTMENT AND SHARE PURCHASE PLAN

On November 2, 2018, we announced the suspension of our DRIP, effective immediately. Prior to the announcement, our shareholders were able to participate in the DRIP, which enabled participants to reinvest their dividends in our common shares at a 2% discount to market price and to make additional optional cash payments to purchase common shares at the market price, free of brokerage or other charges. Refer to Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations - Share Issuances for details on dividends paid.

SHAREHOLDER RIGHTS PLAN

The Shareholder Rights Plan is designed to encourage the fair treatment of shareholders in connection with any takeover offer for us. Rights issued under the plan become exercisable when a person and any related parties acquires or announces its intention to acquire 20% or more of our outstanding common shares without complying with certain provisions set out in the plan or without approval of our Board of Directors. Should such an acquisition occur, each rights holder, other than the acquiring person and related parties, will have the right to purchase our common shares at a 50% discount to the market price at that time.

22. STOCK OPTION AND STOCK UNIT PLANS

We maintain four long-term incentive compensation plans: the ISO Plan, the Performance Stock Options (PSO) Plan, the Performance Stock Units (PSU) Plan and the RSU Plan. A maximum of 60 million common shares were reserved for issuance under the 2002 ISO Plan, of which 50 million have been issued to date. A further 71 million common shares have been reserved for issuance under the 2007 ISO and PSO Plans, of which 17 million have been issued to date. The PSU and RSU Plans grant notional units as if a unit was one Enbridge common share and are payable in cash.

Prior to the Merger Transaction, Spectra Energy had a long-term incentive plan providing for the granting of stock options, restricted and unrestricted stock awards and units, and other equity-based awards. Upon closing of the Merger Transaction, Enbridge replaced existing Spectra Energy share-based payment awards with awards that will be settled in shares of Enbridge, with Spectra Energy's cash-settled phantom awards included in the fair value of the net assets acquired (Note 8).

Total stock-based compensation expense recorded for the years ended December 31, 2018, 2017 and 2016 was \$106 million, \$165 million and \$130 million, respectively. Disclosure of activity and assumptions for material stock-based compensation plans are included below.

INCENTIVE STOCK OPTIONS

Key employees are granted ISOs to purchase common shares at the market price on the grant date. ISOs vest in equal annual installments over a four-year period and expire 10 years after the issue date.

December 31, 2018	Number	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (years)	Aggregate Intrinsic Value
(options in thousands; intrinsic value in millions of Canadian dollars)				
Options outstanding at beginning of year	34,366	45.41		
Options granted	5,775	32.32		
Options exercised ¹	(2,519)	27.11		
Options cancelled or expired	(3,235)	44.11		
Options outstanding at end of year	34,387	43.47	6.1	108
Options vested at end of year ²	21,064	43.48	4.7	84

The total intrinsic value of ISOs exercised during the years ended December 31, 2018, 2017 and 2016 was \$42 million, \$62 million and \$123 million, respectively, and cash received on exercise was \$15 million, \$17 million and \$37 million, respectively.

² The total fair value of ISOs vested during the years ended December 31, 2018, 2017 and 2016 was \$36 million, \$44 million and \$36 million, respectively.

Weighted average assumptions used to determine the fair value of ISOs granted using the Black-Scholes-Merton option pricing model are as follows:

Year ended December 31,	2018	2017	2016
Fair value per option (Canadian dollars) ¹	3.86	6.00	7.37
Valuation assumptions			
Expected option term (years) ²	5	5	5
Expected volatility ³	21.9 %	20.4 %	25.1 %
Expected dividend yield ⁴	6.4 %	4.4 %	4.4 %
Risk-free interest rate ⁵	2.2 %	1.2 %	0.8 %

Options granted to United States employees are based on NYSE prices. The option value and assumptions shown are based on a weighted average of the United States and the Canadian options. The fair values per option for the years ended December 31, 2018, 2017 and 2016 were \$3.75, \$5.66 and \$7.01, respectively, for Canadian employees and US\$3.30, US\$5.72 and US\$6.60, respectively, for United States employees.

² The expected option term is six years based on historical exercise practice and three years for retirement eligible employees.

³ Expected volatility is determined with reference to historic daily share price volatility and consideration of the implied volatility observable in call option values near the grant date.

⁴ The expected dividend yield is the current annual dividend at the grant date divided by the current stock price.

⁵ The risk-free interest rate is based on the Government of Canada's Canadian Bond Yields and the United States Treasury Bond Yields.

Compensation expense recorded for the years ended December 31, 2018, 2017 and 2016 for ISOs was \$28 million, \$40 million and \$43 million, respectively. As at December 31, 2018, unrecognized compensation expense related to non-vested stock-based compensation arrangements granted under the ISO Plan was \$23 million. The expense is expected to be fully recognized over a weighted average period of approximately two years.

RESTRICTED STOCK UNITS

We have a RSU Plan where cash awards are paid to certain of our employees following a 35-month maturity period. RSU holders receive cash equal to our weighted average share price for 20 days prior to the maturity of the grant multiplied by the units outstanding on the maturity date.

December 31, 2018	Number	Weighted Average Remaining Contractual Life (years)	Aggregate Intrinsic Value
(units in thousands; intrinsic value in millions of Canadian dollars)			
Units outstanding at beginning of year	1,693		
Units granted	542		
Units cancelled	(191)		
Units matured ¹	(971)		
Dividend reinvestment	140		
Units outstanding at end of year	1,213	1.3	52

¹ The total amount paid during the years ended December 31, 2018, 2017 and 2016 for RSUs was \$41 million, \$39 million and \$56 million, respectively.

Compensation expense recorded for the years ended December 31, 2018, 2017 and 2016 for RSUs was \$32 million, \$46 million and \$51 million, respectively. As at December 31, 2018, unrecognized compensation expense related to non-vested units granted under the RSU Plan was \$26 million. The expense is expected to be fully recognized over a weighted average period of approximately two years.

23. COMPONENTS OF ACCUMULATED OTHER COMPREHENSIVE INCOME/(LOSS)

Changes in AOCI attributable to our common shareholders for the years ended December 31, 2018, 2017 and 2016 are as follows:

	Cash Flow Hedges	Net Investment Hedges	Cumulative Translation Adjustment	Equity Investees	Pension and OPEB Adjustment	Total
(millions of Canadian dollars)						
Balance at January 1, 2018	(644))(139)77	10	(277)(973)

24. RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

MARKET RISK

Our earnings, cash flows and OCI are subject to movements in foreign exchange rates, interest rates, commodity prices and our share price (collectively, market risks). Formal risk management policies, processes and systems have been designed to mitigate these risks.

The following summarizes the types of market risks to which we are exposed and the risk management instruments used to mitigate them. We use a combination of qualifying and non-qualifying derivative instruments to manage the risks noted below.

Foreign Exchange Risk

We generate certain revenues, incur expenses, and hold a number of investments and subsidiaries that are denominated in currencies other than Canadian dollars. As a result, our earnings, cash flows and OCI are exposed to fluctuations resulting from foreign exchange rate variability.

We employ financial derivative instruments to hedge foreign currency denominated earnings exposure. A combination of qualifying and non-qualifying derivative instruments are used to hedge anticipated foreign currency denominated revenues and expenses, and to manage variability in cash flows. We hedge certain net investments in United States dollar denominated investments and subsidiaries using foreign currency derivatives and United States dollar denominated debt.

Interest Rate Risk

Our earnings and cash flows are exposed to short-term interest rate variability due to the regular repricing of our variable rate debt, primarily commercial paper. Pay fixed-receive floating interest rate swaps may be used to hedge against the effect of future interest rate movements. We have implemented a program to significantly mitigate the impact of short-term interest rate volatility on interest expense via execution of floating to fixed interest rate swaps with an average swap rate of 2.8%.

We are exposed to changes in the fair value of fixed rate debt that arise as a result of the changes in market interest rates. Pay floating-receive fixed interest rate swaps are used, when applicable, to hedge against future changes to the fair value of fixed rate debt which mitigates the impact of fluctuations in the fair value of fixed rate debt via execution of fixed to floating interest rate swaps. As of December 31, 2018, we do not have any pay floating-receive fixed interest rate swaps outstanding.

Our earnings and cash flows are also exposed to variability in longer term interest rates ahead of anticipated fixed rate term debt issuances. Forward starting interest rate swaps are used to hedge against the effect of future interest rate movements. We have established a program within some of our subsidiaries to mitigate our exposure to long-term interest rate variability on select forecast term debt issuances via execution of floating to fixed interest rate swaps with an average swap rate of 3.2%.

We also monitor our debt portfolio mix of fixed and variable rate debt instruments to manage a consolidated portfolio of floating rate debt within the Board of Directors approved policy limit of a maximum of 30% of floating rate debt as a percentage of total debt outstanding. We primarily use qualifying derivative instruments to manage interest rate risk.

Commodity Price Risk

Our earnings and cash flows are exposed to changes in commodity prices as a result of our ownership interests in certain assets and investments, as well as through the activities of our energy services subsidiaries. These commodities include natural gas, crude oil, power and NGL. We employ financial and physical derivative instruments to fix a portion of the variable price exposures that arise from physical transactions involving these commodities. We use primarily non-qualifying derivative instruments to manage commodity price risk.

Equity Price Risk

Equity price risk is the risk of earnings fluctuations due to changes in our share price. We have exposure to our own common share price through the issuance of various forms of stock-based compensation, which affect earnings through revaluation of the outstanding units every period. We use equity derivatives to manage the earnings volatility derived from one form of stock-based compensation, restricted share units. We use a combination of qualifying and non-qualifying derivative instruments to manage equity price risk.

TOTAL DERIVATIVE INSTRUMENTS

The following table summarizes the Consolidated Statements of Financial Position location and carrying value of our derivative instruments.

We generally have a policy of entering into individual International Swaps and Derivatives Association, Inc. agreements, or other similar derivative agreements, with the majority of our financial derivative counterparties. These agreements provide for the net settlement of derivative instruments outstanding with specific counterparties in the event of bankruptcy or other significant credit events, and reduces our credit risk exposure on financial derivative asset positions outstanding with the counterparties in those circumstances. The following table summarizes the maximum potential settlement amounts in the event of these specific circumstances. All amounts are presented gross in the Consolidated Statements of Financial Position.

Commodity contracts - power (megawatt per hour (MW/H))	64	66	(3)	(43)	(43)	(43)) ¹ (43)) ²

¹ As at December 31, 2018, thereafter includes an average net purchase/(sell) of power of (43) MW/H for 2024 through 2025.

² As at December 31, 2017, thereafter includes an average net purchase/(sell) of power of (43) MW/H for 2023 through 2025.

The Effect of Derivative Instruments on the Statements of Earnings and Comprehensive Income

The following table presents the effect of cash flow hedges and net investment hedges on our consolidated earnings and consolidated comprehensive income, before the effect of income taxes:

	2018	2017	2016
(millions of Canadian dollars)			
Amount of unrealized gain/(loss) recognized in OCI			
Cash flow hedges			
Foreign exchange contracts	19	(5)	(19)
Interest rate contracts	(190)	6	(90)
Commodity contracts	2	11	14
Other contracts	(3)	1	39
Net investment hedges			
Foreign exchange contracts	31	284	22
	(141)	297	(34)
Amount of (gain)/loss reclassified from AOCI to earnings (effective portion)			
Foreign exchange contracts ¹	5	(104)	2
Interest rate contracts ^{2,3}	161	388	145
Commodity contracts ⁴	(1)	(9)	(12)
Other contracts ⁵	3	8	(29)
	168	283	106
Amount of (gain)/loss reclassified from AOCI to earnings (ineffective portion and amount excluded from effectiveness testing)			
Interest rate contracts ^{2,3}	23	(4)	61
	23	(4)	61

¹ Reported within Transportation and other services revenues and Other income/(expense) in the Consolidated Statements of Earnings.

² Reported within Interest expense in the Consolidated Statements of Earnings.

³ For the year ended December 31, 2017, includes settlements of \$296 million loss related to the termination of long-term interest rate swaps as not highly probable to issue long-term debt.

⁴ Reported within Transportation and other services revenues, Commodity sales revenues, Commodity costs and Operating and administrative expense in the Consolidated Statements of Earnings.

⁵ Reported within Operating and administrative expense in the Consolidated Statements of Earnings.

We estimate that a loss of \$18 million from AOCI related to cash flow hedges will be reclassified to earnings in the next 12 months. Actual amounts reclassified to earnings depend on the foreign exchange rates, interest rates and commodity prices in effect when derivative contracts that are currently outstanding mature. For all forecasted transactions, the maximum term over which we are hedging exposures to the variability of cash flows is 36 months as at December 31, 2018.

Fair Value Derivatives

For interest rate derivative instruments that are designated and qualify as fair value hedges, the gain or loss on the derivative as well as the offsetting loss or gain on the hedged item attributable to the hedged risk is included in Interest expense in the Consolidated Statements of Earnings.

Year ended December 31,	2018	2017
(millions of Canadian dollars)		
Unrealized gain/(loss) on derivative	7	(10)
Unrealized gain/(loss) on hedged item	1	11

Realized gain/(loss) on derivative (8)2
Realized gain/(loss) on hedged item (1)(2)

168

Non-Qualifying Derivatives

The following table presents the unrealized gains and losses associated with changes in the fair value of our non-qualifying derivatives:

Year ended December 31, (millions of Canadian dollars)	2018	2017	2016
Foreign exchange contracts ¹	(1,390)	1,284	935
Interest rate contracts ²	5	157	73
Commodity contracts ³	485	(199)	(508)
Other contracts ⁴	(3)	—	9
Total unrealized derivative fair value gain/(loss), net	(903)	1,242	509

For the respective annual periods, reported within Transportation and other services revenues (2018 - \$1,108 million loss; 2017 - \$800 million gain; 2016 - \$497 million gain) and Other income/(expense) (2018 - \$282 million loss; 2017 - \$484 million gain; 2016 - \$438 million gain) in the Consolidated Statements of Earnings.

²Reported as an (increase)/decrease within Interest expense in the Consolidated Statements of Earnings.

For the respective annual periods, reported within Transportation and other services revenues (2018 - \$66 million gain; 2017 - \$104 million loss; 2016 - \$52 million loss), Commodity sales (2018 - \$599 million gain; 2017 - \$90 million gain; 2016 - \$474 million loss), Commodity costs (2018 - \$193 million loss; 2017 - \$223 million loss; 2016 - \$38 million gain) and Operating and administrative expense (2018 - \$13 million gain; 2017 - \$38 million gain; 2016 - \$20 million loss) in the Consolidated Statements of Earnings.

⁴ Reported within Operating and administrative expense in the Consolidated Statements of Earnings.

LIQUIDITY RISK

Liquidity risk is the risk that we will not be able to meet our financial obligations, including commitments and guarantees, as they become due. In order to mitigate this risk, we forecast cash requirements over a 12 month rolling time period to determine whether sufficient funds will be available and maintain substantial capacity under our committed bank lines of credit to address any contingencies. Our primary sources of liquidity and capital resources are funds generated from operations, the issuance of commercial paper and draws under committed credit facilities and long-term debt, which includes debentures and medium-term notes. We also maintain current shelf prospectuses with securities regulators which enables, subject to market conditions, ready access to either the Canadian or United States public capital markets. In addition, we maintain sufficient liquidity through committed credit facilities with a diversified group of banks and institutions which, if necessary, enables us to fund all anticipated requirements for approximately one year without accessing the capital markets. We are in compliance with all the terms and conditions of our committed credit facility agreements and term debt indentures as at December 31, 2018. As a result, all credit facilities are available to us and the banks are obligated to fund and have been funding us under the terms of the facilities.

CREDIT RISK

Entering into derivative instruments may result in exposure to credit risk from the possibility that a counterparty will default on its contractual obligations. In order to mitigate this risk, we enter into risk management transactions primarily with institutions that possess strong investment grade credit ratings. Credit risk relating to derivative counterparties is mitigated through maintenance and monitoring of credit exposure limits and contractual requirements, netting arrangements, and ongoing monitoring of counterparty credit exposure using external credit rating services and other analytical tools.

We have credit concentrations and credit exposure, with respect to derivative instruments, in the following counterparty segments:

December 31,	2018	2017
(millions of Canadian dollars)		
Canadian financial institutions	28	82
United States financial institutions	107	19
European financial institutions	84	145
Asian financial institutions	6	2
Other ¹	337	137
	562	385

¹ Other is comprised of commodity clearing house and physical natural gas and crude oil counterparties.

As at December 31, 2018, we provided letters of credit totaling nil in lieu of providing cash collateral to our counterparties pursuant to the terms of the relevant ISDA agreements. We held no cash collateral on derivative asset exposures as at December 31, 2018 and December 31, 2017.

Gross derivative balances have been presented without the effects of collateral posted. Derivative assets are adjusted for non-performance risk of our counterparties using their credit default swap spread rates, and are reflected at fair value. For derivative liabilities, our non-performance risk is considered in the valuation.

Credit risk also arises from trade and other long-term receivables, and is mitigated through credit exposure limits and contractual requirements, assessment of credit ratings and netting arrangements. Within EGD and Union Gas, credit risk is mitigated by the utilities' large and diversified customer base and the ability to recover an estimate for doubtful accounts through the ratemaking process. We actively monitor the financial strength of large industrial customers and, in select cases, have obtained additional security to minimize the risk of default on receivables. Generally, we classify and provide for receivables older than 30 days as past due. The maximum exposure to credit risk related to non-derivative financial assets is their carrying value.

FAIR VALUE MEASUREMENTS

Our financial assets and liabilities measured at fair value on a recurring basis include derivative instruments. We also disclose the fair value of other financial instruments not measured at fair value. The fair value of financial instruments reflects our best estimates of market value based on generally accepted valuation techniques or models and is supported by observable market prices and rates. When such values are not available, we use discounted cash flow analysis from applicable yield curves based on observable market inputs to estimate fair value.

FAIR VALUE OF FINANCIAL INSTRUMENTS

We categorize our derivative instruments measured at fair value into one of three different levels depending on the observability of the inputs employed in the measurement.

Level 1

Level 1 includes derivatives measured at fair value based on unadjusted quoted prices for identical assets and liabilities in active markets that are accessible at the measurement date. An active market for a derivative is considered to be a market where transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis. Our Level 1 instruments consist primarily of exchange-traded derivatives used to mitigate the risk of crude oil price fluctuations.

Level 2

Level 2 includes derivative valuations determined using directly or indirectly observable inputs other than quoted prices included within Level 1. Derivatives in this category are valued using models or other industry standard valuation techniques derived from observable market data. Such valuation techniques

include inputs such as quoted forward prices, time value, volatility factors and broker quotes that can be observed or corroborated in the market for the entire duration of the derivative. Derivatives valued using Level 2 inputs include non-exchange traded derivatives such as over-the-counter foreign exchange forward and cross currency swap contracts, interest rate swaps, physical forward commodity contracts, as well as commodity swaps and options for which observable inputs can be obtained.

We have also categorized the fair value of our held to maturity preferred share investment and long-term debt as Level 2. The fair value of our held to maturity preferred share investment is primarily based on the yield of certain Government of Canada bonds. The fair value of our long-term debt is based on quoted market prices for instruments of similar yield, credit risk and tenor.

Level 3

Level 3 includes derivative valuations based on inputs which are less observable, unavailable or where the observable data does not support a significant portion of the derivatives' fair value. Generally, Level 3 derivatives are longer dated transactions, occur in less active markets, occur at locations where pricing information is not available or have no binding broker quote to support Level 2 classification. We have developed methodologies, benchmarked against industry standards, to determine fair value for these derivatives based on extrapolation of observable future prices and rates. Derivatives valued using Level 3 inputs primarily include long-dated derivative power contracts and NGL and natural gas contracts, basis swaps, commodity swaps, power and energy swaps, as well as options. We do not have any other financial instruments categorized in Level 3.

We use the most observable inputs available to estimate the fair value of our derivatives. When possible, we estimate the fair value of our derivatives based on quoted market prices. If quoted market prices are not available, we use estimates from third party brokers. For non-exchange traded derivatives classified in Levels 2 and 3, we use standard valuation techniques to calculate the estimated fair value. These methods include discounted cash flows for forwards and swaps and Black-Scholes-Merton pricing models for options. Depending on the type of derivative and nature of the underlying risk, we use observable market prices (interest, foreign exchange, commodity and share price) and volatility as primary inputs to these valuation techniques. Finally, we consider our own credit default swap spread as well as the credit default swap spreads associated with our counterparties in our estimation of fair value.

We have categorized our derivative assets and liabilities measured at fair value as follows:

December 31, 2018 (millions of Canadian dollars)	Level 1	Level 2	Level 3	Total Gross Derivative Instruments	
Financial assets					
Current derivative assets

The significant unobservable inputs used in the fair value measurement of Level 3 derivative instruments were as follows:

December 31, 2018 (fair value in millions of Canadian dollars)	Fair Value	Unobservable Input	Minimum Price/Volatility	Maximum Price/Volatility	Weighted Average Price/Volatility	Unit of Measurement
Commodity contracts - financial ¹						
Natural gas	(9) Forward gas price	2.54	6.37	3.58	\$/mmbtu ³
Crude	28) Forward crude price	27.50	123.20	59.32	\$/barrel
NGL	—) Forward NGL price	—	—	—	\$/gallon
Power	(91)	16.21	96.72	48.33	\$/MW/H

		Forward power price				
Commodity contracts - physical ¹						
Natural gas	(119)	Forward gas price	1.09	6.95	1.51	\$/mmbtu ³
Crude	186	Forward crude price	16.45	123.22	59.22	\$/barrel
NGL	(6)	Forward NGL price	0.13	1.40	0.59	\$/gallon
	(11)					

¹ Financial and physical forward commodity contracts are valued using a market approach valuation technique.

² One million British thermal units (mmbtu).

If adjusted, the significant unobservable inputs disclosed in the table above would have a direct impact on the fair value of our Level 3 derivative instruments. The significant unobservable inputs used in the fair value measurement of Level 3 derivative instruments include forward commodity prices and, for option contracts, price volatility. Changes in forward commodity prices could result in significantly different fair values for our Level 3 derivatives. Changes in price volatility would change the value of the option

contracts. Generally, a change in the estimate of forward commodity prices is unrelated to a change in the estimate of price volatility.

Changes in net fair value of derivative assets and liabilities classified as Level 3 in the fair value hierarchy were as follows:

Year ended December 31, (millions of Canadian dollars)	2018	2017
Level 3 net derivative asset/(liability) at beginning of period	(387)	(295)
Total gain/(loss)		
Included in earnings ¹	206	(184)
Included in OCI	2	4
Settlements	168	88
Level 3 net derivative liability at end of period	(11)	(387)

¹ Reported within Transportation and other services revenues, Commodity costs and Operating and administrative expense in the Consolidated Statements of Earnings.

Our policy is to recognize transfers as at the last day of the reporting period. There were no transfers between levels as at December 31, 2018 or 2017.

FAIR VALUE OF OTHER FINANCIAL INSTRUMENTS

Our other long-term investments in other entities with no actively quoted prices are classified as Fair Value Measurement Alternative (FVMA) investments and are recorded at cost less impairment. The carrying value of FVMA and other long-term investments totaled \$102 million and \$99 million as at December 31, 2018 and 2017, respectively.

We have Restricted long-term investments held in trust totaling \$323 million and \$267 million as at December 31, 2018 and 2017, respectively, which are recognized at fair value.

We have a held to maturity preferred share investment carried at its amortized cost of \$478 million and \$371 million as at December 31, 2018 and 2017, respectively. These preferred shares are entitled to a cumulative preferred dividend based on the yield of 10-year Government of Canada bonds plus a margin of 4.38%. The fair value of this preferred share investment approximates its face value of \$580 million as at December 31, 2018 and 2017.

As at December 31, 2018 and 2017, our long-term debt had a carrying value of \$63.9 billion and \$64.0 billion, respectively, before debt issuance costs and a fair value of \$64.4 billion and \$67.4 billion, respectively. We also have noncurrent notes receivable carried at book value recorded in Deferred amounts and other assets in the Consolidated Statements of Financial Position. As at December 31, 2018 and 2017, the noncurrent notes receivable had a carrying value of \$97 million and \$89 million, and a fair value of \$97 million and \$89 million, respectively.

The fair value of other financial assets and liabilities other than derivative instruments, other long-term investments, restricted long-term investments and long-term debt approximate their cost due to the short period to maturity.

NET INVESTMENT HEDGES

We have designated a portion of our United States dollar denominated debt, as well as a portfolio of foreign exchange forward contracts, as a hedge of our net investment in United States dollar denominated investments and subsidiaries.

During the years ended December 31, 2018 and 2017, we recognized an unrealized foreign exchange loss of \$479 million and a gain of \$367 million, respectively, on the translation of United States dollar denominated debt and an unrealized gain on the change in fair value of our outstanding foreign exchange forward contracts of \$30 million and \$286 million, respectively, in OCI. During the years ended December 31, 2018 and 2017, we recognized a realized loss of \$45 million and \$198 million, respectively, in OCI associated with the settlement of foreign exchange forward contracts and also recognized a realized loss of \$14 million and gain of \$23 million, respectively, in OCI associated with the settlement of United States dollar denominated debt that had matured during the period. There was no ineffectiveness during the years ended December 31, 2018 and 2017.

25. INCOME TAXES

INCOME TAX RATE RECONCILIATION

Year ended December 31, (millions of Canadian dollars)	2018	2017	2016
Earnings before income taxes	3,570	569	2,451
Canadian federal statutory income tax rate	15	% 15	% 15
Expected federal taxes at statutory rate	536	85	368
Increase/(decrease) resulting from:			
Provincial and state income taxes ¹	(24)	133	34
Foreign and other statutory rate differentials	94	(601)	(56)
Impact of United States tax reform ²	(2)	(2,045)	—
Effects of rate-regulated accounting	(163)	(189)	(116)
Foreign allowable interest deductions	(134)	(124)	(107)
Part VI.1 tax, net of federal Part I deduction	76	68	56
Impairment of goodwill ³	192	15	—
Intercompany sale of investment ⁴	—	—	6
United States BEAT tax	43	—	—
Non-taxable portion of gain/(loss) on sale of investment to unrelated party ⁵	31	—	(61)
Valuation allowance ⁶	(172)	(17)	22
Intercorporate investments ⁷	(149)	77	—
Noncontrolling interests	(47)	(80)	(15)
Other	(44)	(19)	11
Income tax (recovery)/expense	237	(2,697)	142
Effective income tax rate	6.6	% (474.0)%	5.8 %

¹ The change in provincial and state income taxes from 2017 to 2018 reflects the increase in earnings from the Canadian operations, the impact of the US tax reform on state income tax expense, and the impact of changes to the unitary state income tax rate in 2018.

² The amount was due to the enactment of the TCJA by the United States on December 22, 2017, which included a reduction in the federal corporate income tax rate from 35% to 21% effective for taxation years beginning after December 31, 2017.

³ The amount relates to the federal component for the tax effect of impairment of goodwill.

⁴ In November 2016, certain assets were sold to entities under common control. The intercompany gains realized on these transfers were eliminated. However, because these transactions involved the sale of partnership units, tax consequences were recognized in earnings.

⁵ The amount represents the federal component of the non-taxable portion of the gain on the sales of the Canadian Natural Gas Gathering and Processing Businesses in 2018 and the South Prairie Region assets in 2016 to unrelated

parties.

The increase from 2017 to 2018 is due to the federal component of the tax effect of a valuation allowance on the 6 deferred tax assets related to an outside basis temporary difference that, in 2018, was now more likely than not to be realized.

175

The amount relates to the federal component of changes in assertions regarding the manner of recovery of 7intercorporate investments such that deferred tax related to outside basis temporary differences was required to be recorded for Renewable Assets in 2018 and for EIPLP in 2017.

COMPONENTS OF PRETAX EARNINGS AND INCOME TAXES

Year ended December 31,	2018	2017	2016
(millions of Canadian dollars)			
Earnings/(loss) before income taxes			
Canada	118	2,200	2,034
United States	2,582	(2,431)	(333)
Other	870	800	750
	3,570	569	2,451
Current income taxes			
Canada	311	129	74
United States	66	46	21
Other	8	5	4
	385	180	99
Deferred income taxes			
Canada	(598)	299	188
United States	439	(3,160)	(151)
Other	11	(16)	6
	(148)	(2,877)	43
Income tax (recovery)/expense	237	(2,697)	142

COMPONENTS OF DEFERRED INCOME TAXES

Deferred tax assets and liabilities are recognized for the future tax consequences of differences between carrying amounts of assets and liabilities and their respective tax bases. Major components of deferred income tax assets and liabilities are as follows:

December 31,	2018	2017
(millions of Canadian dollars)		
Deferred income tax liabilities		
Property, plant and equipment	(7,018)	(4,089)
Investments	(4,441)	(6,596)
Regulatory assets	(756)	(977)
Other	(192)	(50)
Total deferred income tax liabilities	(12,407)	(11,712)
Deferred income tax assets		
Financial instruments	1,103	697
Pension and OPEB plans	181	258
Loss carryforwards	1,820	1,781
Other	1,274	1,057
Total deferred income tax assets	4,378	3,793
Less valuation allowance	(51)	(286)
Total deferred income tax assets, net	4,327	3,507
Net deferred income tax liabilities	(8,080)	(8,205)
Presented as follows:		
Total deferred income tax assets	1,374	1,090
Total deferred income tax liabilities	(9,454)	(9,295)
Net deferred income tax liabilities	(8,080)	(8,205)

A valuation allowance has been established for certain loss and credit carryforwards, and outside basis temporary differences on investments that reduce deferred income tax assets to an amount that will more likely than not be realized.

176

As at December 31, 2018 and 2017, we recognized the benefit of unused tax loss carryforwards of \$3.4 billion and \$3.8 billion, respectively, in Canada which expire in 2025 and beyond.

As at December 31, 2018 and 2017, we recognized the benefit of unused tax loss carryforwards of \$3.4 billion and \$2.1 billion, respectively, in the United States which expire in 2023 and beyond.

As at December 31, 2018 and 2017, we recognized the benefit of unused capital loss carryforwards of nil and \$143 million, respectively, in Canada.

As at December 31, 2018 and 2017, we recognized the benefit of unused capital loss carryforwards of nil and \$20 million, respectively, in the United States.

We have not provided for deferred income taxes on the difference between the carrying value of substantially all of our foreign subsidiaries and their corresponding tax basis as the earnings of those subsidiaries are intended to be permanently reinvested in their operations. As such these investments are not anticipated to give rise to income taxes in the foreseeable future. The difference between the carrying values of the investments and their tax bases is largely a result of unremitted earnings and currency translation adjustments. The unremitted earnings and currency translation adjustment for which no deferred taxes have been recognized in respect of foreign subsidiaries were \$5.8 billion and \$2.1 billion for the period December 31, 2018 and 2017, respectively. If such earnings are remitted, in the form of dividends or otherwise, we may be subject to income taxes and foreign withholding taxes. The determination of the amount of unrecognized deferred income tax liabilities on such amounts is not practicable.

Enbridge and one or more of our subsidiaries are subject to taxation in Canada, the United States and other foreign jurisdictions. The material jurisdictions in which we are subject to potential examinations include the United States (Federal) and Canada (Federal, Alberta and Ontario). We are open to examination by Canadian tax authorities for the 2010 to 2018 tax years and by United States tax authorities for the 2013 to 2018 tax years. We are currently under examination for income tax matters in Canada for the 2013 to 2017 tax years and in the United States for the 2013 to 2014 tax years. We are not currently under examination for income tax matters in any other material jurisdiction where we are subject to income tax.

United States Tax Reform

On December 22, 2017, the United States enacted the TCJA. As disclosed in our Annual Report on Form 10-K, as filed with the Securities and Exchange Commission on February 16, 2018, we made certain estimates for the measurement and accounting of certain effects of the TCJA for the year ended and as at December 31, 2017. As we continue to gather, prepare and analyze the necessary information in reasonable detail to complete the accounting for the impact of TCJA, we continue to refine our estimates. During the first quarter of 2018 we refined our calculation of the regulatory liability associated with the TCJA which resulted in a \$30 million reduction to the overall regulatory liability. An additional reduction to the regulated liability in the amount of \$223 million was recorded in the fourth quarter in connection with rate cases filed that eliminated a portion of regulated liability formerly included in SEP's rate base.

We recorded \$43 million in tax expense for the year ended December 31, 2018 in connection with the Base Erosion and Anti-abuse Tax (BEAT); and we recorded no provision for the Global Intangible Low Taxed Income Tax (GILTI).

Most changes to the TCJA are effective for taxation years beginning after December 31, 2017. While the changes are broad and complex, the most significant change was the reduction in the corporate federal income tax rate from 35% to 21%. In 2017 we were also impacted by a one-time deemed repatriation or "toll" tax on undistributed earnings and profits of United States controlled foreign affiliates, including Canadian subsidiaries.

In 2017 we made reasonable estimates for the measurement and accounting of certain effects of the TCJA in accordance with SEC Staff Accounting Bulletin No.118 (SAB 118). Accordingly, we recorded a provisional \$34 million increase to our 2017 current income tax provision related to the toll tax, payable over eight years. We recorded a provisional \$2.0 billion decrease to our 2017 deferred income tax provision related to the reduction in the corporate federal income tax rate. The accounting for these provisional items decreased our accumulated deferred income tax liability by \$3.1 billion and increased our regulatory liability by \$1.1 billion in 2017. We have also adjusted our valuation allowance for certain deferred tax assets existing at December 31, 2016 for the reduction in the corporate federal income tax rate by \$0.2 billion. We have recognized these provisional tax impacts and included these amounts in our consolidated financial statements for the year ended December 31, 2017.

UNRECOGNIZED TAX BENEFITS

Year ended December 31, (millions of Canadian dollars)	2018	2017
Unrecognized tax benefits at beginning of year	150	84
Gross increases for tax positions of current year	2	15
Gross increases for tax positions of prior year	—	65
Gross decreases for tax positions of prior year	(12)	—
Change in translation of foreign currency	3	(2)
Lapses of statute of limitations	(3)	(8)
Settlements	(1)	(4)
Unrecognized tax benefits at end of year	139	150

The unrecognized tax benefits as at December 31, 2018, if recognized, would impact our effective income tax rate. We do not anticipate further adjustments to the unrecognized tax benefits during the next 12 months that would have a material impact on our consolidated financial statements.

We recognize accrued interest and penalties related to unrecognized tax benefits as a component of income taxes. Income taxes for the years ended December 31, 2018 and 2017 were \$5 million expense and \$3 million recovery, respectively, of interest and penalties. As at December 31, 2018 and 2017, interest and penalties of \$12 million and \$8 million, respectively, have been accrued.

26. PENSION AND OTHER POSTRETIREMENT BENEFITS

PENSION PLANS

We maintain registered and non-registered, contributory and non-contributory pension plans which provide defined benefit and/or defined contribution pension benefits covering substantially all employees. The Canadian Plans provide Company funded defined benefit and/or defined contribution pension benefits to our Canadian employees. The United States Plans provide Company funded defined benefit pension benefits to our United States employees. We also maintain supplemental pension plans that provide pension benefits in excess of the basic plans for certain employees.

Defined Benefit Plans

Benefits payable from the defined benefit plans are based on each plan participant's years of service and final average remuneration. These benefits are partially inflation-indexed after a plan participant's retirement. Our contributions are made in accordance with independent actuarial valuations and are invested primarily in publicly-traded equity and fixed income securities.

Defined Contribution Plans

Contributions are generally based on each plan participant's age, years of service and current eligible remuneration. For defined contribution plans, benefit costs equal amounts required to be contributed by us.

Benefit Obligation, Plan Assets and Funded Status

The following table details the changes in the projected benefit obligation, the fair value of plan assets and the recorded asset or liability for our defined benefit pension plans:

December 31, (millions of Canadian dollars)	Canada		United States	
	2018	2017	2018	2017
Change in projected benefit obligation				
Projected benefit obligation at beginning of year	4,033	2,270	1,279	508

Other	—	—	(10))(13)
Fair value of plan assets at end of year ²	3,523	3,619	1,045	1,097
Underfunded status at end of year	(474))(414)	(169))(182)
Presented as follows:				
Deferred amounts and other assets	29	38	—	—
Accounts payable and other	(9))(60)	(4))(3)
Other long-term liabilities	(494))(392)	(165))(179)
	(474))(414)	(169))(182)

The accumulated benefit obligation for our Canadian pension plans was \$3.7 billion as at December 31, 2018 and 2017. The accumulated benefit obligation for our United States pension plans was \$1.2 billion as at December 31, 2018 and 2017.

Assets in the amount of \$7 million (2017 - \$9 million) and \$39 million (2017 - \$40 million), related to our Canadian and United States non-registered supplemental pension plan obligations, are held in grantor trusts that, in accordance with federal tax regulations, are not restricted from creditors. These assets are committed for the future settlement of benefit obligations included in the underfunded status as at the end of the year, however they are excluded from plan assets for accounting purposes.

Certain of our pension plans have accumulated benefit obligations in excess of the fair value of plan assets. For these plans, the projected benefit obligations, accumulated benefit obligations and the fair value of plan assets were as follows:

	Canada		United States	
	2018	2017	2018	2017
December 31, (millions of Canadian dollars)				
Projected benefit obligations	1,422	1,444	1,214	1,280
Accumulated benefit obligations	1,299	1,306	1,179	1,217
Fair value of plan assets	1,064	1,131	1,045	1,098

Amount Recognized in Accumulated Other Comprehensive Income

The amounts of pre-tax AOCI relating to our pension plans are as follows:

	Canada		United States	
	2018	2017	2018	2017
December 31, (millions of Canadian dollars)				
Net actuarial loss	435	334	133	112
Prior service credit	—	—	(3)	—
Total amount recognized in AOCI ¹	435	334	130	112

¹ Includes amounts related to cumulative translation adjustment.

Net Benefit Costs Recognized

The components of net benefit cost and other amounts recognized in pre-tax OCI related to our pension plans are as follows:

	Canada			United States		
	2018	2017	2016	2018	2017	2016
Year ended December 31, (millions of Canadian dollars)						
Service cost	149	156	129	45	48	26
Interest cost	130	116	73	38	35	16
Expected return on plan assets	(245)	(201)	(127)	(88)	(57)	(21)
Amortization/settlement of net actuarial loss	25	29	32	7	10	3
Amortization/curtailment of prior service cost	—	—	—	3	—	—
Net defined benefit costs	59	100	107	5	36	24
Defined contribution benefit costs	11	11	3	19	15	—
Net benefit cost recognized in Earnings	70	111	110	24	51	24
Amount recognized in OCI:						
Amortization/settlement of net actuarial loss	(11)	(14)	(14)	(7)	(9)	(6)
Amortization/curtailment of prior service cost	—	—	—	(3)	—	—
Net actuarial loss arising during the year	112	38	28	28	—	16
Total amount recognized in OCI	101	24	14	18	(9)	10
Total amount recognized in Comprehensive income	171	135	124	42	42	34

We estimate that approximately \$32 million related to the Canadian pension plans and \$0 million related to the United States pension plans as at December 31, 2018 will be reclassified from AOCI into earnings in the next 12 months.

Actuarial Assumptions

The weighted average assumptions made in the measurement of the projected benefit obligations and net benefit cost of our pension plans are as follows:

	Canada			United States			
	2018	2017	2016	2018	2017	2016	
Projected benefit obligations							
Discount rate	3.8	%3.6	%4.0	% 3.9	%3.5	%4.0	%
Rate of salary increase	3.2	%3.2	%3.7	% 2.8	%3.1	%3.3	%
Net benefit cost							
Discount rate	3.6	%4.0	%4.2	% 3.4	%4.0	%4.1	%
Rate of return on plan assets	6.8	%6.5	%6.5	% 7.4	%7.2	%7.2	%
Rate of salary increase	3.2	%3.7	%3.6	% 2.9	%3.3	%3.2	%

The overall expected rate of return is based on the asset allocation targets with estimates for returns on equity and debt securities based on long-term expectations.

OTHER POSTRETIREMENT BENEFITS

OPEB primarily includes supplemental health and dental, health spending accounts and life insurance coverage for qualifying retired employees on a non-contributory basis.

The following table details the changes in the accumulated postretirement benefit obligation, the fair value of plan assets and the recorded asset or liability for our defined benefit OPEB plans:

	Canada		United States	
	2018	2017	2018	2017
December 31, (millions of Canadian dollars)

The amounts of pre-tax AOCI relating to our OPEB plans are as follows:

	Canada		United States	
	2018	2017	2018	2017
December 31, (millions of Canadian dollars)				
Net actuarial (gain)/loss	(29)	17	(15)	(15)
Prior service credit	(2)	(2)	(15)	(11)
Total amount recognized in AOCI ¹	(31)	15	(30)	(26)

¹ Includes amounts related to cumulative translation adjustment.

Net Benefit Costs Recognized

The components of net benefit cost and other amounts recognized in pre-tax OCI related to our OPEB plans are as follows:

Year ended December 31, (millions of Canadian dollars)	Canada			United States		
	2018	2017	2016	2018	2017	2016
Service cost	8	7	4	3	5	4
Interest cost	10	10	6	10	10	5
Expected return on plan assets	—	—	—	(12)	(10)	(6)
Amortization/settlement of net actuarial gain	—	—	—	(1)	—	—
Amortization/curtailment of prior service (credit)/cost	—	1	—	(4)	—	—
Net benefit cost recognized in Earnings	18	18	10	(4)	5	3
Amount recognized in OCI:						
Amortization/settlement of net actuarial gain/(loss)	—	(1)	(1)	1	1	(1)
Amortization/curtailment of prior service credit	—	—	—	4	—	—
Net actuarial (gain)/loss arising during the year	(46)	(8)	2	(1)	(42)	12
Prior service (credit)/cost	—	(3)	—	(8)	1	(12)
Total amount recognized in OCI	(46)	(12)	1	(4)	(40)	(1)
Total amount recognized in Comprehensive income	(28)	6	11	(8)	(35)	2

We estimate that approximately nil related to the Canadian OPEB plans and \$2 million related to the United States OPEB plans as at December 31, 2018 will be reclassified from AOCI into earnings in the next 12 months.

Actuarial Assumptions

The weighted average assumptions made in the measurement of the accumulated postretirement benefit obligations and net benefit cost of our OPEB plans are as follows:

	Canada			United States		
	2018	2017	2016	2018	2017	2016
Accumulated postretirement benefit obligations						
Discount rate	3.8	%3.6	%4.0	%4.0	%3.5	%3.6
Net OPEB cost						
Discount rate	3.6	%4.0	%4.2	%3.3	%4.0	%3.8
Rate of return on plan assets	N/A	N/A	N/A	5.7	%6.0	%6.0

The overall expected rate of return is based on the asset allocation targets with estimates for returns on equity and debt securities based on long-term expectations.

Assumed Health Care Cost Trend Rates

The assumed rates for the next year used to measure the expected cost of benefits are as follows:

	Canada		United States	
	2018	2017	2018	2017
Health care cost trend rate assumed for next year	5.6	%5.5	%7.4	%7.4
Rate to which the cost trend is assumed to decline (the ultimate trend rate)	4.4	%4.4	%4.5	%4.5
Year that the rate reaches the ultimate trend rate	2034	2034	2037	2037

A 1% change in the assumed health care cost trend rate would have the following effects for the year ended and as at December 31, 2018:

	Canada		United States
	1%		1%
	Decrease		Decrease
	Increase		Increase

(millions of Canadian dollars)

Effect on total service and interest costs	1	(1)	1	(1)
Effect on accumulated postretirement benefit obligation	20	(16)	18	(17)

PLAN ASSETS

We manage the investment risk of our pension funds by setting a long-term asset mix policy for each plan after consideration of: (i) the nature of pension plan liabilities; (ii) the investment horizon of the plan; (iii) the going concern and solvency funded status and cash flow requirements of the plan; (iv) our operating environment and financial situation and our ability to withstand fluctuations in pension contributions; and (v) the future economic and capital markets outlook with respect to investment returns, volatility of returns and correlation between assets.

The asset allocation targets and major categories of plan assets are as follows:

Asset Category	Canada		United States			
	Target Allocation	December 31, 2018	Target Allocation	December 31, 2017		
Equity securities	40.0 - 70.0%	45.8 %	52.0 %	52.5 - 70.0%	51.7 %	47.1 %
Fixed income securities	27.5 - 60.0%	33.4 %	34.2 %	27.5 - 30.0%	32.9 %	47.7 %
Other	0.0 - 20.0%	20.7 %	13.8 %	0.0 - 20.0%	15.4 %	5.2 %

The following tables summarize the fair value of plan assets for our pension and OPEB plans recorded at each fair value hierarchy level.

Total OPEB plan assets at fair value	—	—	—	—	213	—	—	213

1 Level 1 assets include assets with quoted prices in active markets for identical assets.

2 Level 2 assets include assets with significant observable inputs.

3 Level 3 assets include assets with significant unobservable inputs.

4 The fair values of the infrastructure and real estate investments are established through the use of valuation models.

185

Changes in the net fair value of plan assets classified as Level 3 in the fair value hierarchy were as follows:

Pension

	Canada		United States	
December 31,	2018	2017	2018	2017
(millions of Canadian dollars)				
Balance at beginning of year	340	281	56	40

EXPECTED BENEFIT PAYMENTS AND EMPLOYER CONTRIBUTIONS

Year ended December 31, 2019 2020 2021 2022 2023 2023-2027
(millions of Canadian dollars)

Pension

Canada	174	180	187	194	201	1,104
United States	124	96	97	98	95	438

OPEB

Canada	13	12	13	13	13	39
United States	26	26	25	24	23	98

In 2019, we expect to contribute approximately \$114 million and \$47 million to the Canadian and United States pension plans, respectively, and \$13 million and \$7 million to the Canadian and United States OPEB plans, respectively.

RETIREMENT SAVINGS PLANS

In addition to the retirement plans discussed above, we also have defined contribution employee savings plans available to both Canadian and United States employees. Employees may participate in a matching contribution where we match a certain percentage of before-tax employee contributions of up to 5% of eligible pay per pay period for Canadian employees and up to 6% of eligible pay per pay period for United States employees. For the years ended December 31, 2018, 2017 and 2016, we expensed pre-tax employer matching contributions of \$13 million, \$14 million and nil for Canadian employees and \$27 million, \$31 million and \$13 million for United States employees, respectively.

27. CHANGES IN OPERATING ASSETS AND LIABILITIES

Year ended December 31, (millions of Canadian dollars)	2018	2017	2016
Accounts receivable and other	857	(783)	(437)
Accounts receivable from affiliates	54	24	(7)
Inventory	164	(289)	(371)
Deferred amounts and other assets	226	(138)	(183)
Accounts payable and other	(151)	277	386
Accounts payable to affiliates	(122)	(62)	71
Interest payable	25	124	20
Other long-term liabilities	(138)	509	153
	915	(338)	(368)

28. RELATED PARTY TRANSACTIONS

Related party transactions are conducted in the normal course of business and unless otherwise noted, are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

SERVICE AGREEMENTS

Vector Pipeline L.P. (Vector), a joint venture, contracts our services to operate the pipeline. Amounts for these services, which are charged at cost in accordance with service agreements, were \$7 million, \$14 million and \$7 million for the years ended December 31, 2018, 2017 and 2016, respectively.

TRANSPORTATION AGREEMENTS

Certain wholly-owned subsidiaries within the Liquids Pipelines, Gas Transmission and Midstream, Gas Distribution and Energy Services segments have committed and uncommitted transportation arrangements with several joint venture affiliates that are accounted for using the equity method. Total amounts charged to us for transportation services for the years ended December 31, 2018, 2017 and 2016 were \$572 million, \$721 million and \$644 million, respectively.

AFFILIATE REVENUES AND PURCHASES

Certain wholly-owned subsidiaries within the Gas Distribution and Energy Services segments made natural gas and NGL purchases of \$322 million, \$142 million and \$98 million from several joint venture affiliates during the years ended December 31, 2018, 2017 and 2016, respectively.

Natural gas sales of \$122 million, \$60 million and \$49 million were made by certain wholly-owned subsidiaries within the Energy Services segment to several joint venture affiliates during the years ended December 31, 2018, 2017 and 2016, respectively.

DCP Midstream processes certain of our pipeline customers' gas to meet gas quality specifications in order to be transported on our system. DCP Midstream processes the gas and sells the NGLs that are extracted from the gas. A portion of the proceeds from those sales are retained by DCP Midstream and the balance is remitted to us. We received proceeds of \$52 million (US\$40 million) and \$47 million (US\$36 million) during the years ended December 31, 2018, and 2017, respectively, from DCP Midstream related to those sales.

In addition to the above, we recorded other revenues from DCP Midstream and its affiliates related to the transportation and storage of natural gas of \$14 million (US\$11 million) and \$4 million (US\$3 million) during the years ended December 31, 2018, and 2017, respectively.

In the ordinary course of business, we are reimbursed by joint venture partners for operating and maintenance expenses for certain projects. We received reimbursements from Spectra Energy joint

ventures of \$28 million (US\$22 million) and \$10 million (US\$8 million) during the years ended December 31, 2018, and 2017, respectively.

RECOVERIES OF COSTS

We provide certain administrative and other services to certain operating entities acquired through the Merger Transaction, and recorded recoveries of costs from these affiliates of \$104 million (US\$80 million) and \$88 million (US\$68 million) for the years ended December 31, 2018, and 2017, respectively. Cost recoveries are recorded as a reduction to Operating and administrative expense in the Consolidated Statements of Earnings.

LONG-TERM NOTES RECEIVABLE FROM AFFILIATES

As at December 31, 2018, amounts receivable from affiliates include a series of loans totaling \$769 million (\$275 million as at December 31, 2017), which require quarterly interest payments at annual interest rates ranging from 4% to 8%. These amounts are included in deferred amounts and other assets in the Consolidated Statements of Financial position.

29. COMMITMENTS AND CONTINGENCIES

COMMITMENTS

At December 31, 2018, we have commitments as detailed below.

	Total	Less than 1 year	2 years	3 years	4 years	5 years	Thereafter
(millions of Canadian dollars)							
Annual debt maturities ¹	62,967	3,255	9,262	2,389	4,571	5,963	37,527
Interest obligations ²	30,236	2,459	2,279	2,103	2,022	1,883	19,490
Purchase of services, pipe and other materials, including transportation ^{3,4}	10,493	3,833	1,473	1,000	754	406	3,027
Operating leases	1,079	132	134	100	98	93	522
Capital leases	23	7	—	—	2	2	12
Maintenance agreements	477	52	51	51	50	22	251
Land lease commitments	651	21	21	21	21	22	545
Total	105,926	7,518	13,220	5,664	7,518	8,391	61,374

¹ Includes debentures, term notes, commercial paper and credit facility draws based on the facility's maturity date and excludes short-term borrowings, debt discount, debt issue costs and capital lease obligations. We have the ability under certain debt facilities to call and repay the obligations prior to scheduled maturities. Therefore, the actual timing of future cash repayments could be materially different than presented above.

² Includes debentures and term notes bearing interest at fixed, floating and fixed-to-floating rates.

³ Includes capital and operating commitments.

⁴ Consists primarily of gas transportation and storage contracts, firm capacity payments and gas purchase commitments, transportation, service and product purchase obligations, and power commitments.

Total rental expense for operating leases included in Operating and administrative expense were \$91 million, \$108 million and \$79 million for the years ended December 31, 2018, 2017 and 2016, respectively.

ENVIRONMENTAL

We are subject to various federal, state and local laws relating to the protection of the environment. These laws and regulations can change from time to time, imposing new obligations on us.

Environmental risk is inherent to liquid hydrocarbon and natural gas pipeline operations, and Enbridge and our affiliates are, at times, subject to environmental remediation at various contaminated sites. We manage this

environmental risk through appropriate environmental policies and practices to minimize any

188

impact our operations may have on the environment. To the extent that we are unable to recover payment for environmental liabilities from insurance or other potentially responsible parties, we will be responsible for payment of liabilities arising from environmental incidents associated with the operating activities of our liquids and natural gas businesses.

AUX SABLE

Notice of Violation

In September 2014, Aux Sable US received a Notice and Finding of Violation (NFOV) from the United States Environmental Protection Agency (EPA) for alleged violations of the Clean Air Act related to the Leak Detection and Repair program, and related provisions of the Clean Air Act permit for Aux Sable's Channahon, Illinois facility. As part of the ongoing process of responding to the September 2014 NFOV, Aux Sable discovered what it believed to be an exceedance of currently permitted limits for Volatile Organic Material. In April 2015, a second NFOV from the EPA was received in connection with this potential exceedance. Aux Sable engaged in discussions with the EPA to evaluate the impacts and ultimate resolution of these issues, including with respect to a draft Consent Decree, and those discussions are continuing. The Consent Decree, which is effective as of December 31, 2018, did not have a material impact.

On October 14, 2016, an amended claim was filed against Aux Sable by a counterparty to an NGL supply agreement. On January 5, 2017, Aux Sable filed a Statement of Defence with respect to this claim. While the final outcome of this action cannot be predicted with certainty, at this time management believes that the ultimate resolution of this action will not have a material impact on our consolidated financial position or results of operations.

TAX MATTERS

We and our subsidiaries maintain tax liabilities related to uncertain tax positions. While fully supportable in our view, these tax positions, if challenged by tax authorities, may not be fully sustained on review.

OTHER LITIGATION

We are subject to various other legal and regulatory actions and proceedings which arise in the normal course of business, including interventions in regulatory proceedings and challenges to regulatory approvals and permits by special interest groups. While the final outcome of such actions and proceedings cannot be predicted with certainty, management believes that the resolution of such actions and proceedings will not have a material impact on our consolidated financial position or results of operations.

30. GUARANTEES

In the normal course of conducting business, we enter into agreements which indemnify third parties and affiliates. Examples include indemnifying counterparties pursuant to sale agreements for assets or businesses in matters such as breaches of representations, warranties or covenants, loss or damages to property, environmental liabilities, and litigation and contingent liabilities. We may indemnify third parties for certain liabilities relating to environmental matters arising from operations prior to the purchase or transfer of certain assets and interests. Similarly, we may indemnify the purchaser of assets for certain tax liabilities incurred while we owned the assets, a misrepresentation related to taxes that result in a loss to the purchaser or other certain tax liabilities related to those assets.

We may also be a party to agreements with subsidiaries, jointly owned entities, unconsolidated entities such as equity method investees, or entities with other ownership arrangements that require us to provide financial and performance guarantees. Financial guarantees include stand-by letters of credit, debt guarantees, surety bonds and indemnifications. To varying degrees, these guarantees involve elements of performance and credit risk, which are not included on our Consolidated Statements of Financial Position. Performance guarantees require us to make payments to a third party if the guaranteed affiliate entity does not perform on its contractual obligations, such as debt agreements, purchase or sale agreements,

and construction contracts and leases. We typically enter into these arrangements to facilitate commercial transactions with third parties.

The likelihood of having to perform under these guarantees and indemnifications is largely dependent upon future operations of various subsidiaries, investees and other third parties, or the occurrence of certain future events. We cannot reasonably estimate the total maximum potential amounts that could become payable to third parties and affiliates under such agreements described above; however, historically, we have not made any significant payments under guarantee or indemnification provisions. While these agreements may specify a maximum potential exposure, or a specified duration to the guarantee or indemnification obligation, there are circumstances where the amount and duration are unlimited. The guarantees and indemnifications have not had, and are not reasonably likely to have, a material effect on our financial condition, changes in financial condition, earnings, liquidity, capital expenditures or capital resources.

31. SUBSEQUENT EVENTS

On January 1, 2019, the previously approved OEB application to amalgamate EGD and Union Gas took effect and the amalgamated company continued as EGI. Refer to Note 7 - Regulatory Matters for further discussion.

On January 15, 2019, Enbridge closed the acquisition of 100% of pipeline and tankage infrastructure assets at the Cheecham tank farm for a purchase price of \$265 million. These assets were acquired from Athabasca Oil Corporation and were associated with the Leismer SAGD oil sands assets, and are included in our Liquids Pipelines segment.

Our wholly-owned subsidiaries, EEP and SEP (the Partnerships), commenced solicitations to holders of certain of the Partnerships' senior unsecured notes (the Notes) to amend (the Amendments) the respective indentures governing the Notes. The purpose of the consent solicitations is to modify the reporting covenant contained in the indentures governing the respective Notes to provide that, in the event Enbridge guarantees a series of such Notes, then in lieu of the respective Partnership's current reporting obligations, Enbridge would be subject to the reporting obligations under such indenture similar to those in the indenture governing Enbridge's U.S. dollar denominated senior notes. The Amendments will also add provisions, in the event Enbridge guarantees a series of Notes, implementing the unconditional guarantee of such series of Notes by Enbridge.

On January 18, 2019, the Partnerships received the requisite consents from the holders of the majority in principal amount of each series of outstanding Notes (collectively, the "Consenting EEP and SEP Notes"). On January 22, 2019, each Partnership entered into supplemental indentures to effect the proposed amendments described in the consent solicitation statement dated January 8, 2019 (the "Statement") with respect to each series of the Consenting EEP and SEP Notes and, together with Enbridge, entered into supplemental indentures to implement the unconditional guarantee of each series of Consenting EEP and SEP Notes by Enbridge as described in the Statement.

Subject to the terms and conditions set forth in the Statement, each Partnership made a cash payment of \$1.00 for each \$1,000 principal amount of a series of its Notes to each holder of record of that series of Notes who delivered (and did not revoke) a consent to the applicable Amendments. The supplemental indentures that were executed in connection with the completion of the consent solicitations will bind all holders of the Consenting EEP and SEP Notes.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

DISCLOSURE CONTROLS AND PROCEDURES

Disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed in reports filed with, or submitted to, securities regulatory authorities is recorded, processed, summarized and reported within the time periods specified under Canadian and United States securities law. As at December 31, 2018, an evaluation was carried out under the supervision of and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operations of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in reports that we file with or submits to the Securities and Exchange Commission (SEC) and the Canadian Securities Administrators is recorded, processed, summarized and reported within the time periods required.

INTERNAL CONTROL OVER FINANCIAL REPORTING

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in the rules of the SEC and the Canadian Securities Administrators. Our internal control over financial reporting is a process designed under the supervision and with the participation of executive and financial officers to provide reasonable assurance regarding the reliability of financial reporting and the preparation of our financial statements for external reporting purposes in accordance with U.S. GAAP.

Our internal control over financial reporting includes policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect transactions and dispositions of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. GAAP; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Our internal control over financial reporting may not prevent or detect all misstatements because of inherent limitations. Additionally, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with our policies and procedures.

Our management assessed the effectiveness of our internal control over financial reporting as at December 31, 2018, based on the framework established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, our management concluded that we maintained effective internal control over financial reporting as at December 31, 2018.

The effectiveness of our internal control over financial reporting as at December 31, 2018 has been audited by PricewaterhouseCoopers LLP, independent auditors appointed by our shareholders. As stated in their Report of Independent Registered Public Accounting Firm which appears in Item 8. Financial

Statements and Supplementary Data, they expressed an unqualified opinion on the effectiveness of our internal control over financial reporting as of December 31, 2018.

Changes in Internal Control Over Financial Reporting

During the three months ended December 31, 2018, there has been no material change in our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers

On October 30, 2018, Michael McShane announced his retirement from the Board of Directors, effective October 31, 2018. Mr. McShane has served on the Board of Directors since February 27, 2017, prior to which he was a director of Spectra Energy Corp. His decision to retire from the Board of Directors was based on the demands of his time from other professional and personal commitments, and was not the result of any disagreement relating to our operations, policies or practices.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Reference to "Executive Officers" is included in Part I. Item 1. Business of this report. Other information in response to this item, including information on our directors, is incorporated by reference from our Proxy Statement to be filed with the SEC relating to our 2019 annual meeting of shareholders.

ITEM 11. EXECUTIVE COMPENSATION

Information in response to this item is incorporated by reference from our Proxy Statement to be filed with the SEC relating to our 2019 annual meeting of shareholders.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS
