#### BANK OF THE OZARKS, INC.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Unaudited

#### 1. Organization and Principles of Consolidation

Bank of the Ozarks, Inc. (the Company ) is a bank holding company headquartered in Little Rock, Arkansas, which operates under the rules and regulations of the Board of Governors of the Federal Reserve System. The Company owns a wholly-owned state chartered bank subsidiary - Bank of the Ozarks (the Bank ) and four 100%-owned finance subsidiary business trusts - Ozark Capital Statutory Trust II ( Ozark II ), Ozark Capital Statutory Trust III ( Ozark III ), Ozark Capital Statutory Trust IV ( Ozark IV ) and Ozark Capital Statutory Trust V ( Ozark V ) (collectively, the Trusts ). The consolidated financial statements include the accounts of the Company and the Bank. Significant intercompany transactions and amounts have been eliminated in consolidation.

#### 2. Basis of Presentation

The accompanying consolidated financial statements have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) in Article 10 of Regulation S-X and in accordance with the instructions to Form 10-Q and accounting principles generally accepted in the United States (GAAP) for interim financial information. Certain information, accounting policies and footnote disclosures normally included in complete financial statements prepared in accordance with GAAP have been condensed or omitted in accordance with such rules and regulations. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company s annual report on Form 10-K for the year ended December 31, 2006.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. In the opinion of management all adjustments considered necessary, consisting of normal recurring items, have been included for a fair presentation of the accompanying consolidated financial statements. Operating results for the three and six months ended June 30, 2007 are not necessarily indicative of the results that may be expected for the full year or future periods.

Certain reclassifications of prior period amounts have been made to conform with the current period presentation. These reclassifications had no impact on previously reported net income.

#### 3. Earnings Per Share ( EPS )

Basic EPS is computed by dividing reported earnings available to common shareholders by the weighted-average number of shares outstanding. Diluted EPS is computed by dividing reported earnings available to common shareholders by the weighted-average number of shares outstanding after consideration of the dilutive effect of the Company s outstanding stock options. Options to purchase 238,650 shares of the Company s common stock were not included in the diluted EPS calculation for both the three-month and six-month periods ended June 30, 2007, and options to purchase 125,700 shares and 113,700 shares, respectively, of the Company s common stock were not included in the diluted EPS calculation for the three-month and six-month periods ended June 30, 2006 because inclusion would have been antidilutive.

Basic and diluted EPS are computed as follows:

			Three Months Ended June 30.		ıs Ended 30,
		2007	2006	2007	2006
		(In thou	isands, except	per share amo	ounts)
Common shares	weighted-average (basic)	16,769	16,716	16,764	16,705

Common share equivalents weighted-average	65	92	66	97
Common shares diluted	16,834	16,808	16,830	16,802
Net income Basic EPS Diluted EPS	\$ 8,086 \$ 0.48 0.48	\$ 7,931 \$ 0.47 0.47	\$ 15,607 \$ 0.93 0.93	\$ 16,328 \$ 0.98 0.97

#### 4. Federal Home Loan Bank of Dallas ( FHLB ) Advances

FHLB advances with original maturities exceeding one year totaled \$61.1 million at June 30, 2007. Interest rates on these advances ranged from 4.54% to 6.43% at June 30, 2007 with a weighted-average rate of 6.24%. FHLB advances of \$60.0 million maturing in 2010 may be called quarterly. At June 30, 2007 aggregate annual maturities (dollars in thousands) and weighted-average interest rates of FHLB advances with an original maturity of over one year were as follows:

Maturity	Amount	Weighted-Average Interest Rate
•		
2007	\$ 15	4.81%
2008	229	6.10
2009	33	4.81
2010	60,034	6.27
2011	31	4.80
2012	21	4.64
Thereafter	724	4.54
	\$ 61,087	6.24

#### 5. Subordinated Debentures

On September 25, 2003 Ozark III sold to investors in a private placement offering \$14 million of adjustable rate trust preferred securities, and on September 29, 2003, Ozark II sold to investors in a private placement offering \$14 million of adjustable rate trust preferred securities (collectively, 2003 Securities). The 2003 Securities bear interest, adjustable quarterly, at 90-day LIBOR plus 2.95% for Ozark III and 90-day LIBOR plus 2.90% for Ozark II. The aggregate proceeds of \$28 million from the 2003 Securities were used to purchase an equal principal amount of adjustable rate subordinated debentures of the Company that bear interest, adjustable quarterly, at 90-day LIBOR plus 2.95% for Ozark III and 90-day LIBOR plus 2.90% for Ozark II (2003 Debentures). The weighted-average interest rate on the 2003 Securities and the 2003 Debentures was 8.28% at June 30, 2007.

On September 28, 2004 Ozark IV sold to investors in a private placement offering \$15 million of adjustable rate trust preferred securities (2004 Securities). The 2004 Securities bear interest, adjustable quarterly, at 90-day LIBOR plus 2.22%. The \$15 million proceeds from the 2004 Securities were used to purchase an equal principal amount of adjustable rate subordinated debentures of the Company that bear interest, adjustable quarterly, at 90-day LIBOR plus 2.22% (2004 Debentures). The interest rate on the 2004 Securities and the 2004 Debentures was 7.58% at June 30, 2007.

On September 29, 2006 Ozark V sold to investors in a private placement offering \$20 million of adjustable rate trust preferred securities (2006 Securities). The 2006 Securities bear interest, adjustable quarterly, at 90-day LIBOR plus 1.60%. The \$20 million proceeds from the 2006 Securities were used to purchase an equal principal amount of adjustable rate subordinated debentures of the Company that bear interest, adjustable quarterly, at 90-day LIBOR plus 1.60% (2006 Debentures). The interest rate on the 2006 Securities and the 2006 Debentures was 6.96% at June 30, 2007.

In addition to the issuance of these adjustable rate securities, Ozark II and Ozark III collectively sold \$0.9 million of trust common equity, Ozark IV sold \$0.4 million of trust common equity and Ozark V sold \$0.6 million of trust common equity to the Company. The proceeds from the sales of the trust common equity were used, respectively, to purchase \$0.9 million of 2003 Debentures, \$0.4 million of 2004 Debentures and \$0.6 million of 2006 Debentures issued by the Company.

At June 30, 2007 the Company had \$64.9 million of subordinated debentures outstanding and had an asset of \$1.9 million representing its investment in the common equity issued by the Trusts. The sole assets of the Trusts are the adjustable rate debentures and the liabilities of the Trusts are the 2003 Securities, the 2004 Securities and the 2006 Securities. At June 30, 2007 the Trusts did not have any restricted net assets. The Company has, through various contractual arrangements, unconditionally guaranteed payment of all obligations of the Trusts with respect to the 2003 Securities, 2004 Securities and 2006 Securities. Additionally, there are no restrictions on the ability of the Trusts to transfer funds to the Company in the form of cash dividends, loans or advances.

The 2003 Securities and 2003 Debentures mature in September 2033 and the 2004 Securities and 2004 Debentures mature in September 2034 (the thirtieth anniversary date of each issuance). The 2006 Securities and 2006 Debentures mature December 15, 2036. All of the trust preferred securities and related debentures may be prepaid at par, subject to regulatory approval, prior to maturity at any time on or after September 25 and 29, 2008 for the two issues of 2003 Securities and 2003 Debentures, on or after September 28, 2009 for the 2004 Securities and 2004 Debentures and on or after December 15, 2011 for the 2006 Securities and 2006 Debentures, or at an earlier date upon certain changes in tax laws, investment company laws or regulatory capital requirements.

#### 6. Supplementary Data for Cash Flows

Cash payments for interest by the Company during the six months ended June 30, 2007 and 2006 amounted to \$48.1 million and \$35.8 million, respectively. Cash payments for income taxes during the six months ended June 30, 2007 and 2006 were \$7.6 million and \$8.3 million, respectively. At June 30, 2007 and 2006, the Company had accrued \$4.5 million and \$3.4 million, respectively, of unsettled investment security purchases.

#### 7. Guarantees and Commitments

Outstanding standby letters of credit are contingent commitments issued by the Company generally to guarantee the performance of a customer in third party arrangements. The maximum amount of future payments the Company could be required to make under these guarantees at June 30, 2007 was \$7.5 million. The Company holds collateral to support guarantees when deemed necessary. Collateralized commitments at June 30, 2007 totaled \$5.2 million.

At June 30, 2007 the Company had outstanding commitments to extend credit of \$352 million. These commitments extend over varying periods of time with the majority to be disbursed or to expire within a one-year period.

#### 8. Stock-Based Compensation

The Company has a nonqualified stock option plan for certain key employees and officers of the Company. This plan provides for the granting of incentive nonqualified options to purchase shares of common stock in the Company. No option may be granted under this plan for less than the fair market value of the common stock, defined by the plan as the average of the highest reported asked price and the lowest reported bid price, on the date of the grant. While the vesting period and the termination date for the employee plan options are determined when options are granted, all such employee options outstanding at June 30, 2007 were issued with a vesting period of three years and expire seven years after issuance. The Company also has a nonqualified stock option plan for non-employee directors. This plan permits each director who is not otherwise an employee of the Company, or any subsidiary, to receive options to purchase 1,000 shares of the Company s common stock on the day following his or her election as a director of the Company at each annual meeting of stockholders and up to 1,000 shares upon election or appointment for the first time as a director of the Company. These options are exercisable immediately and expire ten years after issuance. All shares issued in connection with options exercised under both the employee and non-employee director stock option plans are in the form of newly issued shares.

The following table summarizes stock option activity for the six months ended June 30, 2007:

			Weig	ghted-Average	e		Aggregate Intrinsic
				Exercise	Weighted-Average Remaining Contractual Life		Value
		Optio	ons F	Price/Share	(in years)	(in t	housands) <sup>(1)</sup>
Outstanding	January 1, 2007	489,5	50 \$	23.43			
Granted		12,0	000	30.36			
Exercised		(24,4	00)	7.32			
Forfeited		(8,7	700)	22.57			
Outstanding	June 30, 2007	468,4	50 \$	24.46	4.6	\$	2,945
Exercisable	June 30, 2007	214,2	200 \$	14.82	3.6	\$	2,945

<sup>(1)</sup> Based on closing price of \$27.87 per share on June 29, 2007.

Intrinsic value for stock options is defined as the amount by which the current market price of the underlying stock exceeds the exercise price. For those stock options where the exercise price exceeds the current market price of the underlying stock, the intrinsic value is zero. The total

intrinsic value of options exercised during the six months ended June 30, 2007 and 2006 was \$0.6 million and \$1.5 million, respectively.

Options to purchase 12,000 shares of the Company s common stock were granted during both six-month periods ended June 30, 2007 and 2006. The weighted-average fair value of those stock option grants was \$8.18 and \$10.01, respectively, for the six months ended June 30, 2007 and 2006.

The weighted-average assumptions used in the Black-Scholes option pricing model for the six months ended June 30, 2007 and 2006 were as follows:

	2007	2006
Risk-free interest rate	4.56%	4.89%
Expected dividend yield	1.32%	1.17%
Expected stock volatility	22.5%	27.1%
Expected life (years)	5.0	5.0

The Company uses the U.S. Treasury yield curve in effect at the time of the grant to determine the risk-free interest rate. The expected dividend yield is estimated using the current annual dividend level and recent price of the Company s common stock at the date of grant. Expected stock volatility is based on historical volatilities of the Company s common stock, and expected life of the options represents management s estimate of the period of time the options are expected to be outstanding.

The total fair value of options to purchase shares of the Company s common stock that vested during the six months ended June 30, 2007 and 2006 was \$98,000 and \$120,000, respectively.

Stock-based compensation expense for stock options included in non-interest expense was \$0.3 million for each of the quarters ended June 30, 2007 and 2006 and \$0.5 million for each of the six-month periods ended June 30, 2007 and 2006. Total unrecognized compensation cost related to nonvested stock-based compensation was \$1.1 million at June 30, 2007 and is expected to be recognized over a weighted-average period of 1.8 years.

#### 9. Comprehensive Income

Unrealized gains and losses on investment securities available for sale, net of income taxes, are the only items included in accumulated other comprehensive income (loss). Total comprehensive income (which consists of net income and unrealized gains and losses on investment securities available for sale, net of income taxes) was \$(3.0) million and \$(2.0) million, respectively, for the three months ended June 30, 2007 and 2006 and \$5.9 million and \$2.1 million, respectively, for the six months ended June 30, 2007.

#### 10. Income Taxes

The Company adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48 (FIN 48) Accounting for Uncertainty in Income Taxes, on January 1, 2007. The adoption of FIN 48 resulted in no adjustment to opening retained earnings. The Company has no unrecognized tax benefits and does not anticipate any increase in unrecognized benefits during 2007 relative to any tax positions taken prior to January 1, 2007. Should the Company determine that any penalty and interest be accrued as a result of current or future tax positions taken on its returns, such penalties and interest will be accrued in its financial statements as other non-interest expense and as interest expense during the period in which such determination is made.

The Company and the Bank file consolidated federal and state income tax returns. These returns are subject to examination by taxing authorities for all years after 2002.

#### 11. Recent Accounting Pronouncements

In February 2007 the FASB issued Statement of Financial Accounting Standard (SFAS) No. 159, The Fair Value Option for Financial Assets and Financial Liabilities. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value with an objective of improving financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. The provisions of SFAS No. 159 are effective as of the beginning of an entity s first fiscal year that begins after November 15, 2007. Management is currently evaluating the impact, if any, that adoption of SFAS No. 159 will have on the Company s financial position, results of operations and liquidity.

In September 2006 the FASB issued SFAS No. 157, Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements, with the intent of increasing consistency and comparability in fair value measures and providing financial users with better information about the extent to which fair value is used and the effect of fair value measures on earnings for the periods reported. The provisions of SFAS No. 157 are effective for fiscal years beginning after November 15, 2007. Management is currently evaluating the impact, if any, that adoption of SFAS No. 157 will have on the Company s financial position, results of operations and liquidity.

#### Item 2. <u>Management s Discussion and Analysis of Financial Condition and Results of Operations</u> GENERAL

Net income for Bank of the Ozarks, Inc. (the Company ) was \$8.1 million for the second quarter of 2007, a 2.0% increase from net income of \$7.9 million for the comparable quarter in 2006. Diluted earnings per share were \$0.48 for the quarter ended June 30, 2007, a 2.1% increase from \$0.47 for the quarter ended June 30, 2006. For the six months ended June 30, 2007, net income totaled \$15.6 million, a 4.4% decrease from net income of \$16.3 million for the first six months of 2006. Diluted earnings per share for the first six months of 2007 were \$0.93 compared to \$0.97 for the comparable period in 2006, a 4.1% decrease.

The Company s annualized return on average assets was 1.27% for the second quarter of 2007 compared to 1.37% for the second quarter of 2006. Its annualized return on average stockholders equity was 17.8% for the second quarter of 2007 compared to 21.1% for the comparable quarter of 2006. The Company s annualized return on average assets was 1.23% for the first six months of 2007 compared to 1.46% for the first six months of 2006. Its annualized return on average stockholders equity was 17.5% for the first six months of 2007 compared to 21.7% for the comparable period of 2006.

Total assets increased to \$2.58 billion at June 30, 2007 from \$2.53 billion at December 31, 2006. Loans and leases were \$1.76 billion at June 30, 2007 compared to \$1.68 billion at December 31, 2006. Deposits were \$2.16 billion at June 30, 2007 compared to \$2.05 billion at December 31, 2006.

Stockholders equity was \$178 million at June 30, 2007 compared to \$175 million at December 31, 2006. Book value per share was \$10.62 at June 30, 2007 compared to \$10.43 at December 31, 2006. Changes in stockholders equity and book value per share reflect earnings, dividends paid, stock option transactions and changes in unrealized gains and losses on investment securities available for sale.

Annualized results for these interim periods may not be indicative of those for the full year or future periods.

#### ANALYSIS OF RESULTS OF OPERATIONS

The Company is a bank holding company whose primary business is commercial banking conducted through its wholly-owned state chartered bank subsidiary Bank of the Ozarks (the Bank ). Accordingly the Company s results of operations depend primarily on net interest income, which is the difference between the interest income from earning assets, such as loans, leases and investments, and the interest expense incurred on interest bearing liabilities, such as deposits, borrowings and subordinated debentures. The Company also generates non-interest income, including service charges on deposit accounts, mortgage lending income, trust income, bank owned life insurance (BOLI) income, other charges and fees and gains and losses on sales of investment securities and other assets.

The Company s non-interest expense consists primarily of employee compensation and benefits, net occupancy and equipment and other operating expenses. The Company s results of operations are also significantly impacted by its provision for loan and lease losses and its provision for income taxes. The following discussion provides a comparative summary of the Company s operations for the three and six months ended June 30, 2007 and 2006 and should be read in conjunction with the consolidated financial statements and related notes presented elsewhere in this report.

#### **Net Interest Income**

Net interest income is analyzed in the discussion and the following tables on a fully taxable equivalent (FTE) basis. The adjustment to convert certain income to a FTE basis consists of dividing federal tax-exempt income by one minus the Company s statutory federal income tax rate of 35%. No adjustment has been made in this analysis for income exempt from state income taxes. The FTE adjustments to net interest income were \$0.8 million and \$1.1 million, respectively, for the quarters ended June 30, 2007 and 2006 and \$1.7 million and \$2.5 million, respectively, for the six months ended June 30, 2007 and 2006.

Net interest income (FTE) increased 5.3% to \$20.1 million for the quarter ended June 30, 2007, compared to \$19.1 million for the quarter ended June 30, 2006. Net interest income (FTE) increased 3.5% to \$39.2 million for the six months ended June 30, 2007 compared to \$37.9 million for the six months ended June 30, 2006. The Company s growth in average earning assets, primarily loans and leases, offset in part by declines in net interest margin (FTE), contributed to the increase in net interest income (FTE) for the second quarter and first six months of 2007 compared to the same periods in 2006. Average earning assets increased 10.0% in the second quarter and 13.1% in the first six months of 2007 compared with the same periods in 2006.

Net interest margin (FTE) was 3.46% for the quarter ended June 30, 2007 compared to 3.61% for the comparable quarter in 2006, a decrease of 15 basis points ( bps ). Net interest margin (FTE) for the six months ended June 30, 2007 was 3.41% compared with 3.72% for the same period in 2006, a decrease of 31 bps. Yields on earning assets increased 36 bps for the quarter and 42 bps for the six months ended June 30, 2007 compared to the same periods in 2006, while the rates on interest bearing liabilities increased 57 bps for the quarter and 78 bps for the six months ended June 30, 2007 compared to the same periods in 2006. The relatively flat to inverted yield curve between short-term and long-term interest rates and the competitive environment for pricing loans and deposits were significant contributors to the decline in the Company s net interest margin (FTE).

Loan and lease yields increased 40 bps for the quarter and 50 bps for the six months ended June 30, 2007 compared to the same periods in 2006. This increase in loan and lease yields is attributable to overall increases in general interest rate levels as a result of the Federal Open Market Committee (FOMC) raising its federal funds target rate through a series of four 25 bps increases during the first half of 2006. The Company s variable rate loans and leases as a percentage of total loans and leases were 46.7% at June 30, 2007 compared to 44.1% at June 30, 2006. Variable rate loans and leases benefit the Company when interest rates are increasing by allowing it to more quickly reprice its loan and lease portfolio.

During late January 2006 and continuing throughout much of 2006, the Company implemented a more aggressive deposit pricing and growth initiative, resulting in its repricing a number of deposit products in most of its markets. This adjustment in deposit pricing, particularly the repricing of time deposits at higher rates as a result of the FOMC increases in its federal funds target rate, contributed to the Company s increase in rates on interest bearing deposits throughout 2006 and 2007 and the decline in its net interest margin (FTE) in the second quarter and first six months of 2007 compared to the same periods in 2006. The aggregate rate paid for the Company s time deposits, which generally pay higher rates than its other interest bearing deposits, increased to 73.1% and 73.2%, respectively, of the Company s average interest bearing deposits for the second quarter and first six months of 2007 compared to 66.6% and 66.5%, respectively, for the second quarter and first six months of 2006.

#### **Non-Interest Income**

The Company s non-interest income consists primarily of (1) service charges on deposit accounts, (2) mortgage lending income, (3) trust income, (4) BOLI income, (5) appraisal fees, credit life commissions and other credit related fees, (6) safe deposit box rental, operating lease income, brokerage fees and other miscellaneous fees and (7) gains and losses on sales of investment securities and other assets. Non-interest income for the second quarter of 2007 increased 13.5% to \$5.6 million compared to \$5.0 million for the second quarter of 2006. Non-interest income for the six months ended June 30, 2007 increased 4.2% to \$11.6 million compared to \$11.1 million for the six months ended June 30, 2006.

The Company s service charges on deposit accounts, which is its largest source of non-interest income, increased 20.1% and 21.0%, respectively, for the quarter and six months ended June 30, 2007 compared to the same periods in 2006. This increase is attributable to several factors including enhancements made in late 2006 to the Company s processes for applying and collecting service charges, increases in the Company s number of deposit accounts from its 2006 deposit initiative and small increases in some of its deposit account service charges.

Mortgage lending income increased 4.9% and 12.0%, respectively, for the second quarter and six months of 2007 compared to the same periods in 2006. During 2006 the Company pursued branching and corporate growth initiatives that included expanding its team of mortgage loan counselors in both existing and new markets. This increase in mortgage personnel during 2006 contributed to increases of 4.6% and 11.0%, respectively, in the volume of originations of mortgage loans for sale in the second quarter and first six months of 2007 compared to the same periods in 2006.

For the quarter and six months ended June 30, 2007, trust income increased 11.1% and 9.3%, respectively, compared to the same period in 2006, primarily due to continued growth in the Company s personal trust and investment management business.

In the quarter ended June 30, 2007, the Company had a net loss on sales of investment securities and other assets of \$47,000 compared to a \$38,000 net gain in the second quarter of 2006. For the six months ended June 30, 2007, net gains on sales of investment securities and other assets were \$0.3 million compared to \$1.9 million in the first six months of 2006.

During the first quarter of 2007, the Company sold a site previously acquired for a Jacksonville, Arkansas branch to a competitor and subsequently withdrew its contested branch application for this site. The Company recognized a gain of \$17,000 on the sale of such site and \$0.5 million of other non-interest income related to the settlement of the contested branch application. Among other things, this settlement and payment reimbursed the Company for its expenses incurred in previous quarters related to such branch application and included an agreement by the Company not to pursue any future branch application in the present city limits of Jacksonville.

The following table shows non-interest income for the three and six months ended June 30, 2007 and 2006.

#### **Non-Interest Income**

	Three Months Ended June 30,		Six Mont June	
	2007	2006	2007	2006
		(Dollars i	n thousands)	
Service charges on deposit accounts	\$ 3,107	\$ 2,587	\$ 5,942	\$ 4,909

Other	301	210	997	302
Total non-interest income	\$ 5,623	\$ 4,954	\$ 11,582	\$11,118

#### Non-Interest Expense

Non-interest expense for the second quarter of 2007 increased 7.8% to \$11.9 million compared to \$11.0 million for the comparable period in 2006. Non-interest expense for the six months ended June 30, 2007 increased 8.3% to \$24.0 million compared with \$22.1 million for the comparable period in 2006. This increase is the result of a number of factors including the ongoing costs of facilities and staff added as part of the Company s 2006 branching and corporate growth initiatives, costs from the resumption of FDIC deposit insurance assessments and cost of the Company s continued growth and expansion efforts. At June 30, 2007 compared to 666 at June 30, 2006. The growth in Company employees is primarily the result of growth in the Company s number of offices during the past twelve months and the addition of certain corporate staff members and other personnel at existing offices to support its continued growth and expansion.

The Company s efficiency ratio (non-interest expense divided by the sum of net interest income FTE and non-interest income) was 46.1% for the quarter ended June 30, 2007 compared to 45.8% for the quarter ended June 30, 2006. The Company s efficiency ratio for the six months ended June 30, 2007 was 47.2% compared to 45.2% for the same period in 2006.

The following table shows non-interest expense for the three and six months ended June 30, 2007 and 2006.

#### Non-Interest Expense

		nths Ended e 30,		hs Ended e 30,

#### **Income Taxes**

The provision for income taxes was \$3.7 million for the second quarter and \$7.2 million for the first six months of 2007 compared to \$3.5 million for the second quarter and \$7.0 million for the first six months of 2006. The effective income tax rate was 31.4% for both the second quarter and first six months of 2007 compared to 30.6% for the second quarter and 30.1% for the first six months of 2006. The decline in the Company s tax-exempt income, primarily as a result of selling a portion of its tax-exempt securities during 2006 and the first quarter of 2007, contributed to the increase in the effective tax rates for the second quarter and first six months of 2007 compared to 2007. Income exempt from both federal and state income taxes includes earnings on certain investment securities, loans and leases with state and political subdivisions, increases in the cash surrender value of BOLI and returns on an investment in a low income housing limited liability company. Certain U.S. government agency securities are exempt from state income taxes but are subject to federal income tax.

#### ANALYSIS OF FINANCIAL CONDITION

#### Loan and Lease Portfolio

At June 30, 2007 the Company s loan and lease portfolio was \$1.76 billion, compared to \$1.68 billion at December 31, 2006 and \$1.55 billion at June 30, 2006. Real estate loans, the Company s largest category of loans, include all loans made to finance the development of real property construction projects, provided such loans are secured by real estate, and all other loans secured by real estate as evidenced by mortgages or other liens. Total real estate loans were \$1.42 billion at June 30, 2007, compared to \$1.37 billion at December 31, 2006 and \$1.26 billion at June 30, 2007, compared to \$1.37 billion at December 31, 2006 and \$1.26 billion at June 30, 2007, compared to \$1.37 billion at December 31, 2006 and \$1.26 billion at June 30, 2007, compared to \$1.37 billion at December 31, 2006 and \$1.26 billion at June 30, 2007, compared to \$1.37 billion at December 31, 2006 and \$1.26 billion at June 30, 2007, compared to \$1.37 billion at December 31, 2006 and \$1.26 billion at June 30, 2007, compared to \$1.37 billion at December 31, 2006 and \$1.26 billion at June 30, 2006. This increase is primarily attributable to the Company s growth and expansion in markets with significant commercial and residential real estate development including northwest Arkansas, Dallas, Texas and Charlotte, North Carolina. The amount and type of loans and leases outstanding at June 30, 2007 and 2006 and at December 31, 2006 and their respective percentage of the total loan and lease portfolio are reflected in the following table.

#### Loan and Lease Portfolio

		June 30,				December 31,			
		2007 2006 (Dollars in thousands)				2006			
Real estate:									
Residential 1-4 family	\$	276,840	15.8%	\$	277,772	17.9%	\$	281,400	16.8%

Total loans and leases	\$ 1	,756,383	100.0%	\$ 1	1,553,893	100.0%	\$	1,677,389	100.0%

#### Nonperforming Assets

Nonperforming assets consist of (1) nonaccrual loans and leases, (2) accruing loans and leases 90 days or more past due, (3) certain restructured loans and leases providing for a reduction or deferral of interest or principal because of a deterioration in the financial position of the borrower or lessee and (4) real estate or other assets that have been acquired in partial or full satisfaction of loan or lease obligations or upon foreclosure.

The Company generally places a loan or lease on nonaccrual status when payments are contractually past due 90 days, or earlier when doubt exists as to the ultimate collection of payments. The Company may continue to accrue interest on certain loans or leases contractually past due 90 days if such loans or leases are both well secured and in the process of collection. At the time a loan or lease is placed on nonaccrual status, interest previously accrued but uncollected is generally reversed and charged against interest income. Nonaccrual loans and leases are generally returned to accrual status when payments are less than 90 days past due and the Company reasonably expects to collect all payments. If a loan or lease is determined to be uncollectible, the portion of the principal determined to be uncollectible will be charged against the allowance for loan and lease losses. Income on nonaccrual loans or leases is recognized on a cash basis when and if actually collected.

(The remainder of this page intentionally left blank)

The following table presents information concerning nonperforming assets, including nonaccrual and certain restructured loans and leases and foreclosed assets held for sale and repossessions at June 30, 2007 and 2006 and at December 31, 2006.

#### Nonperforming Assets

	June	June 30,		ember 31,
	2007	2006		2006
	(	Dollars in thousa	nds)	
Nonaccrual loans and leases	\$ 4,022	\$ 2,784	\$	5,713
Accruing loans and leases 90 days or more past due				
Restructured loans and leases				
Total nonperforming loans and leases	4,022	2,784		5,713
Foreclosed assets held for sale and repossessions <sup>(1)</sup>	2,685	391		407
Total nonperforming assets	\$ 6,707	\$ 3,175	\$	6,120
Nonperforming loans and leases to total loans and leases	0.23%	0.18%		0.34%
Nonperforming assets to total assets	0.26	0.13		0.24

(1) Foreclosed assets held for sale and repossessions are generally written down to estimated market value net of estimated selling and holding costs at the time of transfer from the loan and lease portfolio. The value of such assets is reviewed from time to time throughout the holding period with the value adjusted to the then estimated market value net of estimated selling and holding costs, if lower, until disposition.

#### Allowance and Provision for Loan and Lease Losses

Allowance for Loan and Lease Losses: The following table shows an analysis of the allowance for loan and lease losses for the six months ended June 30, 2007 and 2006 and the year ended December 31, 2006.

		Six Months Ended June 30,		
	2007	2006 (Dollars in thousand	2006 s)	
Balance, beginning of period	\$ 17,699	\$ 17,007	\$ 17,007	
Loans and leases charged off:				
Real estate	271	127	314	
Commercial and industrial	669	369	872	
Consumer	413	308	709	
Direct financing leases	92	22	63	
Agricultural (non-real estate)	36	15	107	
Total loans and leases charged off	1,481	841	2,065	
Recoveries of loans and leases previously charged off:				
Real estate	22	7	13	
Commercial and industrial	52	40	47	
Consumer	99	119	234	
Direct financing leases	5		13	
Agricultural (non-real estate)	1			
Total recoveries	179	166	307	

Net loans and leases charged off	1,302	675	1,758
Provision charged to operating expense	2,350	1,000	2,450
Balance, end of period	\$ 18,747	\$ 17,332	\$ 17,699
Net charge-offs to average loans and leases outstanding during the periods indicated	$0.15\%^{(1)}$	$0.09\%^{(1)}$	0.12%
Allowance for loan and lease losses to total loans and leases	1.07%	1.12%	1.06%
Allowance for loan and lease losses to nonperforming loans and leases	466%	623%	310%

(1) Annualized.

Provisions to and the adequacy of the allowance for loan and lease losses are determined in accordance with Statement of Financial Accounting Standards (SFAS) No. 114, Accounting by Creditors for Impairment of a Loan, and SFAS No. 5, Accounting for Contingencies, and are based on the Company s judgment and evaluation of the loan and lease portfolio utilizing objective and subjective criteria. The objective criteria utilized by the Company to assess the adequacy of its allowance for loan and lease losses and required additions to such allowance consists primarily of an internal grading system and specific allowances determined in accordance with SFAS No. 114. The Company also utilizes a peer group analysis and an historical analysis in an effort to validate the overall adequacy of its allowance for loan and lease losses and the need for additions to these objective criteria, the Company subjectively assesses the adequacy of the allowance for loan and lease losses and the need for additions thereto, with consideration given to the nature and volume of the portfolio, overall portfolio quality, review of specific problem loans and leases, national, regional and local business and economic conditions that may affect the borrowers or lessees ability to pay, the value of property securing the loans and leases, and other relevant factors.

The Company s allowance for loan and lease losses was \$18.7 million at June 30, 2007, or 1.07% of total loans and leases, compared with \$17.7 million, or 1.06% of total loans and leases, at December 31, 2006 and \$17.3 million, or 1.12% of total loans and leases, at June 30, 2006. The Company s allowance for loan and lease losses was equal to 466% of its total nonperforming loans and leases at June 30, 2007 compared to 310% at December 31, 2006 and 623% at June 30, 2006. While management believes the current allowance is appropriate, changing economic and other conditions may require future adjustments to the allowance for loan and lease losses.

*Provision for Loan and Lease Losses:* The loan and lease loss provision is based on management s judgment and evaluation of the loan and lease portfolio utilizing the criteria discussed above. The provision for loan and lease losses was \$1.3 million for the second quarter and \$2.4 million for the six months ended June 30, 2007 compared to \$0.5 million for the second quarter and \$1.0 million for the six months ended June 30, 2006.

#### **Investment Securities**

The Company s investment securities portfolio provides a significant source of revenue to the Company. At June 30, 2007 and 2006 and at December 31, 2006, the Company classified all of its investment securities portfolio as available for sale (AFS). Accordingly, its investment securities are stated at estimated fair value in the consolidated financial statements with the unrealized gains and losses, net of income tax, reported as a separate component of stockholders equity and included in accumulated other comprehensive income (loss). The table below presents the amortized cost and fair value of investment securities AFS at June 30, 2007 and 2006 and at December 31, 2006.

#### **Investment Securities**

		June 30,				ber 31,
	20	07	20	06	20	06
	Amortized	Fair	Amortized	Fair	Amortized	Fair
	Cost	Value <sup>(1)</sup>	Cost (Dollars in 1	Value <sup>(1)</sup> thousands)	Cost	Value <sup>(1)</sup>
Mortgage-backed securities	\$ 376,819	\$354,532	\$402,110	\$ 375,744	\$406,611	\$ 397,964
Obligations of state and political subdivisions	139,883	140,654	190,794	191,232	133,255	135,149
Securities of U.S. Government agencies	75,908	73,323	71,907	70,009	75,875	74,530
FHLB stock and other equity securities <sup>(2)</sup>	5,880	5,880	15,349	15,349	11,489	11,489
Other securities	1,044	1,044	3,167	3,297	1,000	1,000

Total

\$599,534 \$575,433 \$683,327 \$655,631 \$628,230 \$620,132

<sup>(1)</sup> The fair value of the Company s investment securities is based on quoted market prices where available. If quoted market prices are not available, fair values are based on market prices for comparable securities.

<sup>(2)</sup> FHLB stock and other equity securities consist of securities that do not have readily determinable fair values. These securities are carried at cost.

The Company s investment securities portfolio is reported net of unrealized losses of \$24.1 million at June 30, 2007, \$27.7 million at June 30, 2006 and \$8.1 million at December 31, 2006. Management believes that all of its unrealized losses on investment securities AFS at June 30, 2007 and 2006 and at December 31, 2006 are the result of fluctuations in interest rates and do not reflect any deterioration in the credit quality of

its investments. Accordingly management considers these unrealized losses to be temporary in nature. The Company has both the ability and the intent to hold these investment securities until maturity or until such time as fair value recovers above cost.

The Company had no net gains from the sale of investment securities in the second quarter of 2007 compared with net gains of \$27,000 in the second quarter of 2006 from the sale of approximately \$1 million of investment securities available for sale. During the first six months of 2007, the Company generated net gains of \$0.3 million from the sale of approximately \$34 million of investment securities available for sale. Net gains on sales of investment securities available for sale for the six months ended June 30, 2006 were \$1.9 million from the sale of approximately \$79 million of investment securities available for sale. The Company also purchased approximately \$8 million and \$82 million, respectively, of investment securities during the second quarter of 2007 and 2006 and approximately \$14 million and \$207 million, respectively, during the six months ended June 30, 2007 and 2006.

The Company invests in securities it believes offer good relative value at the time of purchase, and it will, from time to time reposition its investment securities portfolio. In making its decisions to sell or purchase securities, the Company considers credit ratings, call features, maturity dates, relative yields and other relevant factors.

At June 30, 2007 the estimated modified duration of the Company s investment securities portfolio is approximately 6.6 years. Modified duration is considered a measure of bond price sensitivity to changes in yield.

#### Deposits

The Company s lending and investment activities are funded primarily by deposits. The amount and type of deposits outstanding at June 30, 2007 and 2006 and at December 31, 2006 and their respective percentage of the total deposits are reflected in the following table.

#### Deposits

	June 30,				December 31,		
	2007		2006		2006		
			(Dollars in the	usands)			
Non-interest bearing	\$ 203,046	9.4%	\$ 157,301	8.7%	\$ 167,841	8.2%	
Interest bearing:							
Transaction (NOW)	413,916	19.2	436,200	24.0	400,578	19.6	
Savings	26,625	1.2	27,809	1.5	24,588	1.2	
Money market	91,813	4.3	73,233	4.0	94,261	4.6	
Time deposits less than \$100,000	503,929	23.4	392,763	21.6	479,952	23.5	
Time deposits of \$100,000 or more	916,314	42.5	731,322	40.2	877,872	42.9	
Total deposits	\$ 2,155,643	100.0%	\$ 1,818,628	100.0%	\$ 2,045,092	100.0%	

As of June 30, 2007, the Company had outstanding brokered deposits of \$395 million compared to \$309 million at December 31, 2006 and \$180 million at June 30, 2006.

#### LIQUIDITY AND CAPITAL RESOURCES

*Growth and Expansion.* At June 30, 2007 the Company, through its state chartered subsidiary bank, conducted banking operations through 63 offices in 34 communities throughout northern, western and central Arkansas, five Texas banking offices, and loan production offices in Little Rock, Arkansas and Charlotte, North Carolina.

The Company expects to continue its growth and *de novo* branching strategy in 2007 by adding three new banking offices. During the second quarter of 2007, the Company opened its third Hot Springs, Arkansas banking office and, in the remainder of 2007, it plans to add new banking offices in Fayetteville and Rogers, Arkansas. The Company also plans to replace a temporary banking office in Frisco, Texas with a new permanent facility.

During the second quarter of 2007, the Company discontinued its plan to establish a new Oklahoma bank subsidiary and closed its Tulsa loan production office. Because the Company planned to use this Oklahoma bank subsidiary as a means to ultimately branch into North Carolina, this may delay plans to expand the Company s Charlotte, North Carolina loan production office to a full-service banking operation.

Opening new offices and replacing temporary banking offices with new facilities are subject to availability of qualified personnel and suitable sites, designing, constructing, equipping and staffing such offices, obtaining regulatory and other approvals and many other conditions and contingencies that the Company cannot predict with certainty.

During the first six months of 2007, the Company spent \$10.9 million on capital expenditures for premises and equipment. The Company s capital expenditures for the full year of 2007 are expected to be in the range of \$19 million to \$25 million including progress payments on construction projects expected to be completed in 2007 and 2008, furniture and equipment costs and acquisition of sites for future development. Actual expenditures may vary significantly from those expected, depending on the number and cost of additional sites acquired for future development, progress or delays encountered on ongoing and new construction projects and other factors.

*Bank Liquidity*. Liquidity represents an institution s ability to provide funds to satisfy demands from depositors, borrowers and lessees by either converting assets into cash or accessing new or existing sources of incremental funds. Generally the Company relies on deposits, loan and lease repayments and repayments of its investment securities as its primary sources of funds. The principal deposit sources utilized by the Company include consumer, commercial and public funds customers in the Company s markets and brokered deposits. The Company has used these funds, together with Federal Home Loan Bank of Dallas (FHLB) advances, federal funds and other sources of short-term borrowings, to make loans and leases, acquire investment securities and other assets and to fund continuing operations.

Deposit levels may be affected by a number of factors, including rates paid by competitors, general interest rate levels, returns available to customers on alternative investments, general economic and market conditions and other factors. Loan and lease repayments are a relatively stable source of funds but are subject to the borrowers and lessees ability to repay the loans and leases, which can be adversely affected by a number of factors including changes in general economic conditions, adverse trends or events affecting business industry groups or specific businesses, declines in real estate values or markets, business closings or lay-offs, inclement weather, natural disasters and other factors. Furthermore, loans and leases generally are not readily convertible to cash. Accordingly, the Company may be required to rely from time to time on secondary sources of liquidity to meet loan, lease and deposit withdrawal demands or otherwise fund operations. Such sources include FHLB advances, secured and unsecured federal funds lines of credit from correspondent banks and Federal Reserve Bank (FRB) borrowings.

At June 30, 2007 the Company had substantial unused borrowing availability. This availability was primarily comprised of the following four sources: (1) \$457 million of available blanket borrowing capacity with the FHLB, (2) \$14 million of investment securities available to pledge for federal funds or other borrowings, (3) \$37 million of available unsecured federal funds borrowing lines and (4) \$164 million from borrowing programs of the FRB.

The Company anticipates it will continue to rely primarily on deposits, loan and lease repayments and repayments of its investment securities to provide liquidity. Additionally, when necessary, the sources of borrowed funds described above will be used to augment the Company s primary funding sources.

*Capital Compliance*. Bank regulatory authorities in the United States impose certain capital standards on all bank holding companies and banks. These capital standards require compliance with certain minimum risk-based capital ratios and a minimum leverage ratio. The risk-based capital ratios consist of (1) Tier 1 capital (i.e. common stockholders equity excluding goodwill, certain intangibles and net unrealized gains and losses on AFS investment securities, and including, subject to limitations, trust preferred securities (TPS) and other qualifying items) to risk-weighted assets and (2) total capital (Tier 1 capital plus Tier 2 capital, including the qualifying portion of the allowance for loan and lease losses and the portion of TPS not counted as Tier 1 capital) to risk-weighted assets. The leverage ratio is measured as Tier 1 capital to adjusted quarterly average assets.

(The remainder of this page intentionally left blank)

The Company s and the Bank s risk-based capital and leverage ratios exceeded these minimum requirements at June 30, 2007 and December 31, 2006, and are presented in the following tables.

#### **Consolidated Capital Ratios**

	June 30, 2007 (Dollars in	December 31, 2006 thousands)
Tier 1 capital:		
Stockholders equity	\$ 178,081	\$ 174,633
Allowed amount of TPS (subordinated debentures)	63,000	59,851
Net unrealized losses on AFS investment securities	14,647	4,922
Less goodwill and certain intangible assets	(6,008)	(6,140)
Total tier 1 capital	249,720	233,266
Tier 2 capital:		
Remaining amount of TPS (subordinated debentures)		3,149
Qualifying allowance for loan and lease losses	18,747	17,699
Total risk-based capital	\$ 268,467	\$ 254,114
Risk-weighted assets	\$ 2,071,005	\$ 1,991,570
Adjusted quarterly average assets for leverage capital	\$ 2,556,223	\$ 2,485,450
Ratios at end of period:		
Leverage	9.77%	9.39%
Tier 1 risk-based capital	12.06	11.71
Total risk-based capital	12.96	12.76
Minimum ratio guidelines:		
Leverage <sup>(1)</sup>	3.00%	3.00%
Tier 1 risk-based capital	4.00	4.00
Total risk-based capital	8.00	8.00

Regulatory authorities require institutions to operate at varying levels (ranging from 100-200 bps) above a minimum leverage ratio of 3% depending upon capitalization classification.

#### **Capital Ratios of the Bank**

	June 30, 2007	Decer	nber 31, 2006	
	(Dollars in	(Dollars in thousands)		
Stockholders equity Tier 1	\$ 224,762	\$	196,816	
Leverage ratio	8.81%		7.95%	
Tier 1 risk-based capital ratio	10.92		9.94	
Total risk-based capital ratio	11.83		10.83	

*Dividend Policy*. During the quarters ended June 30, 2007 and 2006, the Company paid a dividend of \$0.10 per share. On July 17, 2007, the Company s board of directors approved a dividend of \$0.11 per share to be paid during the third quarter of 2007. The determination of future dividends on the Company s common stock will depend on conditions existing at that time. The Company s goal is to continue at approximately the current level of quarterly dividend with consideration given to future changes depending on the Company s earnings, capital and liquidity needs.

(The remainder of this page intentionally left blank)

#### CRITICAL ACCOUNTING POLICY

The Company s determination of the adequacy of the allowance for loan and lease losses is considered to be a critical accounting policy. Provisions to and the adequacy of the allowance for loan and lease losses are based on management s judgment and evaluation of the loan and lease portfolio utilizing objective and subjective criteria. Changes in these criteria or the availability of new information could cause the allowance to be increased or decreased in future periods. In addition, bank regulatory agencies as part of their examination process may require adjustments to the allowance for loan and lease losses based on their judgments and estimates. See the Analysis of Financial Condition section of Management s Discussion and Analysis contained in the Company s 2006 annual report on Form 10-K for a detailed discussion of the Company s allowance for loan and lease losses.

#### FORWARD-LOOKING INFORMATION

This Management s Discussion and Analysis of Financial Condition and Results of Operations, other filings made by the Company with the Securities and Exchange Commission and other oral and written statements or reports by the Company and its management include certain forward-looking statements including, without limitation, statements about economic, competitive and interest rate conditions, plans, goals, expectations and outlook for revenue growth, net income, earnings per share, net interest margin including the expected effects of the relatively flat to inverted yield curve between short-term and long-term interest rates and intense competition, net interest income, non-interest income including service charge, mortgage lending and trust income, gains on sales of investment securities and other assets, non-interest expense including the ongoing cost of opening new offices and continued growth and expansion efforts, efficiency ratio, asset quality including changes in real estate market conditions, nonperforming loans and leases, nonperforming assets, net charge-offs, past due loans and leases, interest rate sensitivity including the effects of possible interest rate changes, future growth and expansion including the plans for opening new offices, replacing existing banking offices with new facilities and converting loan production offices to banking offices, opportunities and goals for market share growth, loan, lease and deposit growth, changes in our investment securities portfolio and other similar forecasts and statements of expectation. Words such as anticipate, believe, estimate, plan, expect, intend and similar expressions, as they relate to the Company or its management, identify forward-looking statements. Forward-looking statements made by the Company and its management are based on estimates, projections, beliefs and assumptions of management at the time of such statements and are not guarantees of future performance. The Company disclaims any obligation to update or revise any forward-looking statement based on the occurrence of future events, the receipt of new information or otherwise.

Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements made by the Company and its management due to certain risks, uncertainties and assumptions. Certain factors that may affect operating results of the Company include, but are not limited to, the following: potential delays or other problems in implementing the Company s growth and expansion strategy including delays in identifying satisfactory sites, obtaining permits, designing, constructing and opening new offices, replacing existing banking offices with new facilities or converting loan production offices to banking offices, obtaining regulatory and other approvals and employing additional personnel; the ability to attract new deposits and loans and leases; interest rate fluctuations including changes in the yield curve between short-term and long-term interest rates; competitive factors and pricing pressures; general economic conditions including their effect on investment securities values, the creditworthiness of borrowers and lesses and collateral values; changes in legal and regulatory requirements; adoption of new accounting standards or changes in existing accounting requirements; and adverse results in future litigation, as well as other factors described in this and other Company reports and statements. Should one or more of the foregoing risks materialize, or should underlying assumptions prove incorrect, actual results or outcomes may vary materially from those described in the forward-looking statements.

#### SELECTED AND SUPPLEMENTAL FINANCIAL DATA

The following tables set forth selected consolidated financial data of the Company for the three and six months ended June 30, 2007 and 2006 and supplemental quarterly financial data of the Company for each of the most recent eight quarters beginning with the third quarter of 2005 through the second quarter of 2007. These tables are qualified in their entirety by the consolidated financial statements and related notes presented elsewhere in this report.

## Edgar Filing: BANK OF THE OZARKS INC - Form 10-Q

\* Annualized based on actual days.

#### Item 3. **Quantitative and Qualitative Disclosures about Market Risk**

Interest rate risk results from timing differences in the repricing of assets and liabilities or from changes in relationships between interest rate indexes, including changes in the yield curve between short-term and long-term interest rates. The Company s interest rate risk management is the responsibility of the ALCO and Investments Committee ( ALCO ), which reports to the board of directors. The ALCO oversees the asset/liability (interest rate risk) position, liquidity and funds management and investment portfolio functions of the Company.

The Company regularly reviews its exposure to changes in interest rates. Among the factors considered are changes in the mix of interest earning assets and interest bearing liabilities, interest rate spreads and repricing periods. Typically the ALCO reviews on at least a quarterly basis the Company s relative ratio of rate sensitive assets (RSA) to rate sensitive liabilities (RSL) and the related cumulative gap for different time periods. However, the primary tool used by ALCO to analyze the Company s interest rate risk and interest rate sensitivity is an earnings simulation model.

This earnings simulation modeling process projects a baseline net interest income (assuming no changes in interest rate levels) and estimates changes to that baseline net interest income resulting from changes in interest rate levels. The Company relies primarily on the results of this model in evaluating its interest rate risk. In addition to the data in the gap table, this model incorporates a number of additional factors. These factors include (1) the expected exercise of call features on various RSA and RSL, (2) the expected rates at which various RSA and RSL will reprice, (3) the expected growth in various RSA and RSL and the expected interest rates on new RSA and RSL, (4) the expected relative movements in different interest rate indexes which are used as the basis for pricing or repricing various RSA and RSL, (5) existing and expected contractual ceiling and floor rates on various RSA and RSL, (6) expected changes in administered rates on interest bearing transaction, savings, money market and time deposit accounts and the expected impact of competition on the pricing or repricing of such accounts and (7) other factors. Inclusion of these factors in the model is intended to more accurately project the Company s changes in net interest income resulting from interest rate changes. The Company models its change in net interest income assuming interest rates go up 100 bps, up 200 bps, down 100 bps and down 200 bps. For purposes of this model, the Company assumes that the change in interest rates phases in over a 12-month period. While the Company believes this model provides a more accurate projection of its interest rate risk, the model includes a number of assumptions and predictions which may or may not be correct and may impact the model results. These assumptions and predictions include inputs to compute baseline net interest income, growth rates, expected changes in administered rates on interest bearing deposit accounts, competition and a variety of other factors that are difficult to accurately predict. Accordingly, there can be no assurance the earnings simulation model will reflect future results.

The following table presents the earnings simulation model s projected impact of a change in interest rates on the projected baseline net interest income for the 12-month period commencing June 1, 2007. This change in interest rates assumes parallel shifts in the yield curve and does not take into account changes in the slope of the yield curve.

Shift in Interest Rates	% Change in Projected Baseline
(in bps)	Net Interest Income
+200	1.5%
+100	0.8
-100	(0.4)
-200	(0.9)

In the event of a shift in interest rates, management may take certain actions intended to mitigate the negative impact to net interest income or to maximize the positive impact to net interest income. These actions may include, but are not limited to, restructuring of interest earning assets and interest bearing liabilities, seeking alternative funding sources or investment opportunities and modifying the pricing or terms of loans, leases and deposits.

The Company s gap analysis is shown in the following table. The table is not intended to present repricing dates based on contractual maturities, but management s best estimate of when RSA and RSL may be repriced based on prior experience and future expectations. Significant assumptions are used which are described in the narratives following the table. At June 30, 2007 the cumulative ratios of RSA to RSL at six months and one year were 76.16% and 69.37%, respectively. A financial institution is considered to be liability sensitive, or as having a negative gap, when the amount of its RSL maturing or repricing within a given time period exceeds the amount of its RSA also maturing or repricing within that time period. Conversely, an institution is considered to be asset sensitive, or as having a positive gap, when the amount of its RSL maturing or repricing during the same period. Generally, in a falling interest rate environment, a negative gap should result in an increase in net interest income, and in a rising interest rate environment this negative gap should adversely affect net interest income. The converse would be true for a positive gap. Due to inherent limitations in any gap analysis and since conditions change on a daily basis, these expectations may not reflect future results. As already noted the Company believes the earnings

## Edgar Filing: BANK OF THE OZARKS INC - Form 10-Q

simulation model results presented above are a more meaningful estimate of its interest rate risk and sensitivity than a gap analysis.

#### **RATE SENSITIVE ASSETS AND LIABILITIES**

		June 30, 2007				
		Period			Cumulative	Cumulative
	RSA <sup>(1)</sup>	RSL	Gap	Cumulative Gap	Gap to Total RSA	RSA to RSL
Immediate to 6 months	\$ 975,552	\$ 1,280,883	\$ (305,331)	\$ (305,331)	(13.1)%	76.2%
Over 6 12 months	190,117	399,571	(209,454)	(514,785)	(22.1)	69.4
Over 1 2 years	276,252	70,000	206,252	(308,533)	(13.2)	82.4
Over 2 3 years	202,830	62,427	140,403	(168,130)	(7.2)	90.7
Over 3 5 years	176,826	962	175,864	7,734	0.3	100.4
Over 5 years	510,595	369,574	141,021	148,755	6.4	106.8
-						
Total	\$ 2,332,172	\$ 2,183,417	\$ 148,755			

(1) Certain variable rate loans have a contractual floor and/or ceiling rate. Approximately \$94.2 million of loans were at their floor rate and approximately \$54.0 million of loans were at their ceiling rate as of June 30, 2007. These loans are shown in the earliest time period in which they could reprice even though the contractual floor/ceiling may preclude repricing to a lower/higher rate. Of these loans at their contractual floor, \$91.9 million are reflected as repricing in the immediate to six month time period, \$1.8 million in the over six to 12 month time period and the remaining \$0.5 million are reflected in various time periods exceeding 12 months. Of the loans at their contractual ceiling, \$52.9 million are reflected as repricing in the immediate to six month time period and \$1.1 million in the over six to 12 month time period.

The data used in the table above is based on contractual repricing dates for variable or adjustable rate instruments except for non-maturity interest bearing deposit accounts. With respect to non-maturity interest bearing deposit accounts, management believes certain of these deposit accounts are core to the Company s banking operations and do not reprice on a one-to-one basis as a result of interest rate movements. At June 30, 2007 the Company estimates the co-efficient for change in interest rates, assuming a 100 bps increase in interest rates, is approximately 50% for its interest bearing money market account balances, approximately 30% for its MaxYield account balances, approximately 25% for its other interest bearing transaction account balances and approximately 5% for its savings account balances. Accordingly the Company has included these portions of the non-maturity interest bearing deposit accounts as repricing immediately, with the remaining portions shown as repricing beyond five years. Management evaluates and when appropriate revises its estimates of these co-efficients for change periodically based on its ongoing assessment of competitive conditions, its relative level of interest rates paid compared to the rates paid by competitors, its expectations and strategies for adjusting its rates paid as market rates change, and other factors.

Fixed-rate callable investment securities or borrowings are scheduled on their contractual maturity unless the Company has received notification the investment security or borrowing will be called. In the event the Company has received notification of call, the investment security or borrowing is placed in the time period in which the call occurs or is expected to occur. Collateralized mortgage obligations and other mortgage-backed securities are scheduled over maturity periods utilizing Bloomberg consensus prepayment speeds based on interest rate levels at June 30, 2007. Other financial instruments are scheduled on their contractual maturity.

This gap analysis gives no consideration to a number of factors which can have a material impact on the Company s interest rate risk position. Such factors include among other things, call features on certain assets and liabilities, prepayments (except collateralized mortgage obligations and other mortgage-backed securities which are scheduled over maturity periods utilizing Bloomberg consensus prepayment speeds), interest rate floors and ceilings on various assets and liabilities, the current interest rates on assets and liabilities to be repriced in each period, and the relative changes in interest rates on different types of assets and liabilities.

At June 30, 2007 total outstanding loans and leases repricing or repaying within one year, two years and three years totaled approximately 66.7%, 80.2% and 88.6%, respectively, of total outstanding loans and leases. These loans and leases repricing or repaying include variable rate loans that may reprice, fixed rate loans and leases that are maturing and principal cash flows from regularly scheduled payments on fixed rate loans and leases during each of the respective time periods.

#### Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

An evaluation as of the end of the period covered by this quarterly report was carried out under the supervision and with the participation of the Company s management, including the Company s Chairman and Chief Executive Officer and its Chief Financial Officer and Chief Accounting Officer, of the effectiveness of the design and operation of the Company s disclosure controls and procedures, which are defined under SEC rules as controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized and reported within required time periods. Based upon that evaluation, the Company s Chairman and Chief Executive Officer and its Chief Financial Officer and Chief Accounting Officer concluded that the Company s disclosure controls and procedures were effective.

(b) Changes in Internal Control over Financial Reporting.

The Company s management, including the Company s Chairman and Chief Executive Officer and its Chief Financial Officer and Chief Accounting Officer, has evaluated any changes in the Company s internal control over financial reporting that occurred during the quarterly period covered by this report and has concluded that there was no change during the quarterly period covered by this report that has materially affected, or is reasonably likely to materially affect, the Company s internal control over financial reporting.

#### PART II. OTHER INFORMATION

#### Item 1. Legal Proceedings

The Company is party to various litigation matters arising in the ordinary course of business. While the ultimate resolution of these matters cannot be determined at this time, management of the Company does not believe that such matters, individually or in the aggregate, will have a material adverse effect on the future results of operations, financial condition or liquidity of the Company.

#### Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed in Item 1A. Risk Factors in the Company s 2006 annual report on Form 10-K filed with the Securities and Exchange Commission on March 12, 2007.

#### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company had no unregistered sales of equity securities and did not purchase any shares of its common stock during the period covered by this report.

Item 3. **Defaults Upon Senior Securities** Not Applicable.

#### Item 4. Submission of Matters to a Vote of Security Holders

Reference is made to Part II, Item 4 of the Company s quarterly report on Form 10-Q for the period ended March 31, 2007, filed with the Securities and Exchange Commission on May 8, 2007.

Item 5. Other Information Not Applicable.

#### Item 6. Exhibits

Reference is made to the Exhibit Index set forth immediately following the signature page of this report.

(The remainder of this page intentionally left blank)

DATE: August 9, 2007

#### SIGNATURE

Pursuant to the requirements of the Securities and Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
