STRONG START TO THE YEAR MAINTAIN OUR FOCUS

Quarterly message to all employees from Marius Kloppers, CEO

By now you will be aware BHP Billiton has made an offer to Rio Tinto shareholders to combine our two companies. We believe that our offer of 3.4 BHP Billiton shares for each Rio Tinto share is compelling and responsible. The process that now follows will be complex and long. The necessary regulatory clearances are expected to be obtained in the second half of 2008. We have a small, dedicated team working on this transaction.

While these processes take their course, we still have a vibrant business to manage and customers who depend on our products for their success. For the vast majority of us, the central task over coming months is to stay focused on running our operations in a safe and excellent manner. Whatever the final outcome of our offer for Rio Tinto, our performance will continue to be measured by safely delivering productivity and profitability.

So, it is timely that our Interim Results - announced this week - show an excellent operating and financial performance. Sadly, we cannot say the same about our safety performance. As I said in my meetings with the media and the analysts yesterday, the only acceptable performance on safety is to have no fatalities, to deliver *zero harm*.

Our production performance across the business was strong, with record or equal record production for seven of our major commodities. We significantly increased production across a further six commodities. Production records or equal records were achieved by 12 assets in six of our CSGs. Well done to all involved in these outcomes.

Growth during this period was also strong. We completed seven major growth projects and approved four new projects. We currently have 14 major projects under development with a total budgeted investment of US\$9,405 million.

Our results also record outstanding cost control in the face of significant cost pressures. You can read more about our results in this issue of *Resourceful Minds*.

I know I can count on your continuing support and hard work in the months ahead.

SAFETY WEEK UPDATE

Safety Week was a great success right across the company. I have been very encouraged by the level of engagement and impressed by the range and quality of ideas that have come forward. I want to record my appreciation to all who participated. We need to keep this momentum going to ensure our awareness remains at this level throughout the entire year. Our safety group and the GMC are now considering the ideas and feedback generated through Safety Week. We will review our procedures as necessary and establish an ongoing safety campaign. In the meantime please keep safety at the forefront of your mind as you go about your work. We simply must be relentless on safety.

Thank you for your efforts during the first half of this year - I wish you all a safe and successful third quarter.

Marius Kloppers
