Table of Contents

As filed with the Securities and Exchange Commission on June 10, 2008

# SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, DC 20549

## FORM 20-F

Annual Report Pursuant to Section 13 or 15(d)

of the Securities Exchange Act of 1934

for the fiscal year ended December 31, 2007

Commission file number for securities registered

pursuant to Section 12(b) of the Act: 0-32245

Commission file number for securities registered

pursuant to Section 12(g) of the Act: 1-16269

**AMÉRICA MÓVIL, S.A.B. DE C.V.**

(exact name of registrant as specified in its charter)

**America Mobile**

(translation of registrant's name into English)

**United Mexican States**

(jurisdiction of incorporation)

**Lago Alberto 366, Colonia Anáhuac, 11320 México, D.F., México**

(address of principal executive offices)

**Securities registered pursuant to**

**Name of each exchange on which registered:**

**Section 12(b) of the Act:**

American Depositary Shares, each representing

New York Stock Exchange

20 L Shares, without par value

L Shares, without par value

New York Stock Exchange

(for listing purposes only)

**Securities registered pursuant to**

**Section 12(g) of the Act:**

American Depositary Shares, each representing 20 A Shares, without par value

A Shares, without par value

**Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:** None

**The number of outstanding shares of each of the registrant's classes of capital or common stock as of December 31, 2007:**

11,712 million	AA Shares
547 million	A Shares
22,638 million	L Shares

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.  Yes  No

If this report is an annual or transition report, indicate by checkmark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.  Yes  No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days.  Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer  Non-accelerated filer

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP  IFRS  Other

Indicate by check mark which financial statement item the registrant has elected to follow. Item 17  Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).  Yes  No

**PART I**

**Item 3. Key Information**

**SELECTED FINANCIAL DATA**

This annual report includes our audited consolidated financial statements as of December 31, 2006 and 2007 and for each of the three years ended December 31, 2005, 2006 and 2007. Our financial statements have been prepared in accordance with Mexican Financial Reporting Standards ( Mexican FRS ) and are presented in Mexican pesos. The financial statements of our non-Mexican subsidiaries have been adjusted to conform to Mexican FRS and translated to Mexican pesos. See Note 2(a)(ii) to our audited consolidated financial statements.

Mexican FRS differs in certain respects from U.S. GAAP. Note 22 to the audited consolidated financial statements provides a description of the principal differences between Mexican FRS and U.S. GAAP, as they relate to us, a reconciliation to U.S. GAAP of net income and total stockholders' equity and a condensed statement of cash flows under U.S. GAAP.

Pursuant to Mexican FRS, in our financial statements and the selected financial information set forth below:

nonmonetary assets (excluding plant, property and equipment of non-Mexican origin) and stockholders' equity are restated for inflation based on the Mexican National Consumer Price Index (*Índice Nacional de Precios al Consumidor*); plant, property and equipment of non-Mexican origin are restated based on the rate of inflation in the country of origin and converted into Mexican pesos using the prevailing exchange rate at the balance sheet date;

gains and losses in purchasing power from holding monetary liabilities or assets are recognized in income; and

all financial statements are restated in constant pesos as of December 31, 2007.

The effect of inflation accounting under Mexican FRS has not been reversed in the reconciliation to U.S. GAAP of net income and total stockholders' equity, except with respect to the methodology for restatement of imported telephone plant. See Note 22 to our audited consolidated financial statements.

Pursuant to Mexican FRS and effective for financial periods beginning on or after January 1, 2008, we will be required to restate our financial statements for inflation only when the economic environment in the country of origin qualifies as inflationary for purposes of Mexican FRS. We do not expect that inflation accounting will be applicable in 2008 to our consolidated operations. See Inflation Accounting under Item 5 and Note 2(zz) to our audited consolidated financial statements.

On July 19, 2005, we effected a three-for-one stock split. Unless otherwise noted, all share and per share data in this annual report have been adjusted to reflect the stock split for all periods presented.

On December 13, 2006, our shareholders approved the merger of América Telecom, S.A.B. de C.V., or Amtel, our then controlling shareholder, and its subsidiary Corporativo Empresarial de Comunicaciones, S.A. de C.V., or Corporativo, with us. As a result of the merger, we assumed assets and liabilities based on Amtel's unaudited financial statements as of October 31, 2006. In accordance with Mexican FRS, the merger with Amtel has been accounted for on a historical basis similar to a pooling of interest basis and we have adjusted our financial information and selected financial information presented in this annual report to include the consolidated assets, liabilities and results of operations of Amtel for all periods presented. See Note 3 to our audited consolidated financial statements.

References herein to U.S.\$ are to U.S. dollars. References herein to pesos, P. or Ps. are to Mexican pesos.

**Table of Contents**

This annual report contains translations of various peso amounts into U.S. dollars at specified rates solely for your convenience. You should not construe these translations as representations by us that the nominal peso or constant peso amounts actually represent the U.S. dollar amounts or could be converted into U.S. dollars at the rate indicated. Unless otherwise indicated, we have translated U.S. dollar amounts from constant pesos at the exchange rate of Ps. 10.8662 to U.S.\$1.00, which was the rate reported by Banco de México for December 31, 2007.

The selected financial and operating information set forth below has been derived in part from our audited consolidated financial statements, which have been reported on by Mancera S.C., a Member Practice of Ernst & Young Global, an independent registered public accounting firm. The selected financial and operating information should be read in conjunction with, and is qualified in its entirety by reference to, our audited consolidated financial statements.

- (1) In accordance with Mexican FRS, the merger with Amtel has been accounted for on a historical basis similar to a pooling of interest basis and we have adjusted our financial information and selected financial information presented in this annual report to include the consolidated assets, liabilities and results of operations of Amtel for all periods presented. See Note 3 to our audited consolidated financial statements.
- (2) Except per share, share capital and subscriber data.
- (3) We have not included net income or dividends on a per ADS basis. Each L Share ADS represents 20 L Shares and each A Share ADS represents 20 A Shares.
- (4) Nominal amounts. Figures provided represent the annual dividend declared at the general shareholders' meeting and for 2005 and 2007 include special dividends of Ps. 0.30 per share and Ps. 1.0 per share, respectively.
- (5) Nominal amounts. For more information on dividends paid per share translated into U.S. dollars, see Financial Information Dividends under Item 8. Amount in U.S. dollars translated at the exchange rate on each of the respective payment dates.
- (6) All share figures have been adjusted retroactively to reflect a reduction in L Shares as a result of our merger with Amtel. See Notes 3 and 18 to our audited consolidated financial statements. The increase in AA Shares between 2006 and 2007 was due to the exchange of shares of Amtel for our shares in connection with our merger with Amtel. Subject to certain restrictions, the shareholders of Amtel were free to elect to receive L Shares or AA Shares.
- (7) The differences between our Mexican FRS and U.S. GAAP operating revenues include the reclassification of (1) the application of EITF 01-9, Accounting Consideration Given by a Vendor to a Customer, which we have applied to all periods presented in this table and which resulted in a reclassification of certain commissions paid to distributors from commercial, administrative and general expenses under Mexican FRS to reductions in operating revenues under U.S. GAAP, and (2) the application in 2004 of EITF 00-21, Accounting for Revenue Arrangements with Multiple Deliverables, which addresses certain aspects of accounting for sales that involved multiple revenue generating products and/or services sold under a single contractual agreement. See Note 22 to our audited consolidated financial statements.
- (8) Includes non-controlling interest.
- (9) As of year-end.

**Table of Contents****EXCHANGE RATES**

Mexico has a free market for foreign exchange, and the Mexican government allows the peso to float freely against the U.S. dollar. There can be no assurance that the Mexican government will maintain its current policies with regard to the peso or that the peso will not depreciate or appreciate significantly in the future.

The following table sets forth, for the periods indicated, the high, low, average and period-end noon buying rate in New York City for cable transfers in pesos published by the Federal Reserve Bank of New York, expressed in pesos per U.S. dollar. The rates have not been restated in constant currency units and therefore represent nominal historical figures.

<b>Period</b>	<b>High</b>	<b>Low</b>	<b>Average<sup>(1)</sup></b>	<b>Period End</b>
2003	11. 4063	10. 1130	10. 8463	11. 2420
2004	11. 6350	10. 8050	11. 3095	11. 1540
2005	11. 4110	10. 4135	10. 8680	10. 6275
2006	11. 4600	10. 4315	10. 9023	10. 7995
2007	11. 2692	10. 6670	10. 9253	10. 9169
2008				
January	10. 9730	10. 8190		
February	10. 8236	10. 6730		
March	10. 8490	10. 6300		
April	10. 6005	10. 4415		
May	10. 5701	10. 3055		

(1) Average of month-end rates.

On June 9, 2008, the noon buying rate was Ps. 10.3640 to U.S.\$1.00.

We will pay any cash dividends in pesos, and exchange rate fluctuations will affect the U.S. dollar amounts received by holders of American Depositary Shares, or ADSs, on conversion by the depositary of cash dividends on the shares represented by such ADSs. Fluctuations in the exchange rate between the peso and the U.S. dollar affect the U.S. dollar equivalent of the peso price of our shares on the Mexican Stock Exchange (*Bolsa Mexicana de Valores, S.A.B. de C.V.*, or the Mexican Stock Exchange) and, as a result, can also affect the market price of the ADSs.

**Table of Contents**

**FORWARD-LOOKING STATEMENTS**

This annual report contains forward-looking statements. We may from time to time make forward-looking statements in our periodic reports to the U.S. Securities and Exchange Commission, or "SEC", on Forms 20-F and 6-K, in our annual report to shareholders, in offering circulars and prospectuses, in press releases and other written materials, and in oral statements made by our officers, directors or employees to analysts, institutional investors, representatives of the media and others. Examples of such forward-looking statements include:

projections of operating revenues, net income (loss), net income (loss) per share, capital expenditures, dividends, capital structure or other financial items or ratios;

statements of our plans, objectives or goals, including those relating to acquisitions, competition, regulation and rates;

statements about our future economic performance or that of Mexico or other countries in which we operate;

competitive developments in the telecommunications sector in each of the markets where we currently operate;

other factors or trends affecting the telecommunications industry generally and our financial condition in particular; and

statements of assumptions underlying the foregoing statements.

We use words such as believe, anticipate, plan, expect, intend, target, estimate, project, predict, forecast, guideline, should, and other similar expressions to identify forward-looking statements, but they are not the only way we identify such statements.

Forward-looking statements involve inherent risks and uncertainties. We caution you that a number of important factors could cause actual results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements. These factors, some of which are discussed under "Risk Factors", include economic and political conditions and government policies in Mexico, Brazil or elsewhere, inflation rates, exchange rates, regulatory developments, technological improvements, customer demand and competition. We caution you that the foregoing list of factors is not exclusive and that other risks and uncertainties may cause actual results to differ materially from those in forward-looking statements.

Forward-looking statements speak only as of the date they are made. We do not undertake any obligation to update such statements in light of new information or future developments.

You should evaluate any statements made by us in light of these important factors.

**Table of Contents**

**RISK FACTORS**

**Risks Relating to Our Businesses**

*Substantial and increasing competition in the wireless industry could adversely affect the revenues and profitability of our business*

Our wireless businesses face substantial competition from other wireless providers. We also face competition from fixed-line telephone companies and, increasingly, other service providers such as cable, paging, trunking and Internet companies because of the trend towards convergence of telecommunication services.

Competition in our markets has intensified in recent periods, and we expect that it will continue to intensify in the future as a result of the entry of new competitors, the development of new technologies, products and services, and the auction of additional spectrum. We also expect the current consolidation trend in the wireless industry to continue, as companies respond to the need for cost reduction and additional spectrum. This trend may result in larger competitors with greater financial, technical, promotional and other resources to compete with our businesses. Telefónica Móviles, which has important operations in Mexico and Brazil, as well as other of our markets, consolidated its position as our largest regional competitor through several acquisitions.

Among other things, our competitors could:

provide increased handset subsidies;

offer higher commissions to retailers;

provide free airtime or other services (such as Internet access);

expand their networks faster; or

develop and deploy improved wireless technologies faster.

We anticipate that competition will lead to increases in advertising and promotional spending and reductions in prices for services and handsets. In addition, portability requirements, which enable customers to switch wireless providers without changing their wireless numbers, have been introduced in some of our markets, including Mexico and Brazil, and may be introduced in other markets in the near future.

In June 2007, the Federal Telecommunications Commission (*Comisión Federal de Telecomunicaciones*, or *Cofetel*) published the rules for the portability of fixed-line and mobile telephone numbers in Mexico. One of *Cofetel*'s objectives for introducing telephone number portability is to increase competition among operators. *Cofetel* expects that the rules and regulations will be fully implemented by the third quarter of 2008.

These developments may lead to smaller operating margins, greater choices for customers, possible consumer confusion and increasing movement of customers among competitors, which may make it difficult for us to retain customers or add new customers. The cost of adding new customers may also continue to increase, reducing profitability even if customer growth continues.

Our ability to compete successfully will depend on customer service, on marketing and on our ability to anticipate and respond to various competitive factors affecting the telecommunications industry, including new services and technologies, changes in consumer preferences, demographic trends, economic conditions and discount pricing strategies by competitors. If we are unable to respond to competition and compensate for declining prices by adding new customers, increasing usage and offering new services, our revenues and profitability could decline.

---

**Table of Contents**

***Changes in government regulation could hurt our businesses***

Our businesses are subject to extensive government regulation and can be adversely affected by changes in law, regulation or regulatory policy. The licensing, construction, operation, sale, resale and interconnection arrangements of wireless telecommunications systems in Latin America and elsewhere are regulated to varying degrees by government or regulatory authorities. Any of these authorities having jurisdiction over our businesses could adopt or change regulations or take other actions that could adversely affect our operations. In particular, the regulation of prices operators may charge for their services could have a material adverse effect on us by reducing our profit margins. In Mexico, the business of Radiomóvil Dipsa, S.A. de C.V., or Telcel, is subject to extensive government regulation, principally by Cofetel, the Federal Antitrust Commission (*Comisión Federal de Competencia*, or Cofeco) and the Federal Consumer Bureau (*Procuraduría Federal del Consumidor*, or Profeco), and may be adversely affected by changes in law or by actions of Mexican regulatory authorities.

During 2006, for example, Cofetel extended the calling party pays system in Mexico to national and international long-distance calls and issued new resolutions regarding the framework for interconnection fees applicable under the local calling party pays system. Certain local fixed-line telephone companies have requested that Cofetel approve a reduction of the calling party pays interconnection fees for calls originating from their networks. If Cofetel approves such a reduction, we may be forced to further reduce our interconnection fees. See Mexican Operations Interconnection and Regulation under Item 4.

In April 2006, the Mexican Congress approved an amendment to the Federal Antitrust Law (*Ley Federal de Competencia Económica*, or Federal Antitrust Law), which, among other things, strengthens Cofeco's authority, including the ability of Cofeco to issue opinions that are binding on other governmental entities. As a result of this amendment, it is likely that Cofeco will take a more active role in enforcing the Federal Antitrust Law. A stricter or different interpretation and enforcement of the Federal Antitrust Law could affect our operations and markets.

Many Latin American countries have recently deregulated and privatized the provision of telecommunications services, including wireless services, and many of the laws, regulations and licenses that regulate our businesses became effective only recently. Consequently, there is only a limited history that would allow us to predict the impact of these legal regulations on our future operations. Furthermore, in 2005, the Brazilian National Telecommunications Agency (*Agência Nacional de Telecomunicações*, or ANATEL) defined a series of cost-based methods, including the fully allocated cost methodology, for determining interconnection fees charged by operators belonging to an economic group with significant market power. ANATEL has not published all of the applicable regulations, but the implementation of the cost-based methodology is expected to take effect in 2010. It is uncertain how ANATEL will define the criteria for determining whether an operator belongs to an economic group with significant market power for purposes of this new regulation. However, given the size of our operations in Brazil, it is likely that we would be deemed to belong to an economic group with significant market power. When these methods are ultimately implemented and if we are deemed to be an economic group with significant market power, the revenues and results of operations of our Brazilian operations may be affected. In addition, changes in political administrations could lead to the adoption of policies concerning competition, privatization and taxation of communications services that may be detrimental to our operations throughout Latin America. These restrictions, which may take the form of preferences for local over foreign ownership of communications licenses and assets, or for government over private ownership, may make it impossible for us to continue to develop our businesses. These restrictions could result in our incurring losses of revenues and require capital investments all of which could materially adversely affect our businesses and results of operations.

***Dominant carrier regulations could hurt our business by limiting our ability to pursue competitive and profitable strategies***

Cofetel is authorized to impose specific rate and other requirements on any wireless operator that is determined by Cofeco to have substantial market power in a specific market. While no determination has been made with

---

**Table of Contents**

respect to whether the wireless market in Mexico is a specific market for purposes of dominant carrier regulations or whether Telcel has substantial market power in any such market or related market, we cannot provide any assurances that the regulatory authorities will not make such a determination with respect to the wireless market or Telcel. In December 2007 and April 2008, the Cofeco initiated general market investigations to ascertain whether one or more cellular operators have substantial market power on (i) the termination (interconnection) of calls made as part of the national and international calling party pays system and (ii) local voice services, respectively. In addition, since December 2007, Cofeco has initiated several other general market investigations to ascertain whether one or more operators have substantial market power on other telecommunications markets, including (i) leasing of local and long distance transmission circuits or lines; (ii) fixed local and long distance voice termination; (iii) voice local origination services and (iv) voice local transit services provided by local fix operators. See Financial Information-Legal Proceedings-Telcel-Cofeco under Item 8.

We cannot predict whether Cofeco or Cofetel will issue resolutions or regulations that would apply specifically to dominant carriers in the wireless market. Adverse determinations against Telcel in any of the ongoing investigations could result in material fines, penalties or restrictions on our operations. We believe that if dominant carrier regulations are imposed on our business in the future, they will likely reduce our flexibility to adopt competitive market policies and impose specific tariff requirements or other special regulations on us, such as additional requirements regarding disclosure of information or quality of service. Any such new regulation could have a material adverse effect on our operations.

***We will, in the future, either have to acquire additional radio spectrum capacity or build more cell and switch sites in Mexico in order to expand our customer base and maintain the quality of our services***

Licensed radio spectrum is essential to our growth and the quality of our services, particularly for GSM and UMTS services. In order to utilize less spectrum for GSM services, we could increase the density of our network by building more cell and switch sites, but such measures could be costly and would be subject to local restrictions and approvals.

In 2005, we acquired the right to use 10 megahertz in the 1900 megahertz spectrum in each of Mexico's nine regions, through a public auction. We also bid and won the auction for an additional 10 megahertz of capacity in three principal regions, but were subsequently prohibited from acquiring this additional spectrum based on restrictions imposed by Cofeco. We cannot assure that we will be allowed to participate in any new auctions for additional spectrum capacity in Mexico.

Participation in spectrum auctions requires prior governmental authorization (including prior approval from Cofeco).

***Our concessions and licenses are subject to the imposition of fines or termination***

The terms of our concessions and licenses typically require the operator to meet specified network build-out requirements and schedules, as well as to maintain minimum quality, service and coverage standards. If we fail to comply with these and other criteria, the result could be the revocation of, or our inability to renew, our concessions or licenses, the imposition of fines or other government actions. Our ability to comply with these criteria is subject in certain respects to factors beyond our control. We cannot assure that our international businesses will be able to comply fully with the terms of their concessions or licenses or that fines imposed on us could not materially affect our business.

In Mexico, the Mexican Federal Telecommunications Law (*Ley Federal de Telecomunicaciones*, or the Telecommunications Law) and Telcel's concessions include various provisions under which the concessions may be terminated by the Mexican Ministry of Communications and Transportation (*Secretaría de Comunicaciones y Transportes*, or SCT) before their scheduled expiration dates. Among other things, these concessions may be terminated if we fail to meet specified network build-out requirements and schedules or to

---

**Table of Contents**

maintain minimum quality, service and coverage standards by, for example, interrupting service without justified cause or failing to meet interconnection requirements. Also, the Telecommunications Law gives certain rights to the Mexican government, including the right to revoke the concessions pursuant to an expropriation or to take over the management of Telcel's networks, facilities and personnel in cases of imminent danger to national security, internal peace or the national economy, natural disasters and public unrest. Furthermore, in connection with the renewal of a concession, the SCT may impose additional conditions. The loss of, or failure to renew, any one concession could have a material adverse effect on our business and results of operations.

Our concessions have specified terms, ranging typically from 10 to 30 years, and are generally subject to renewal upon payment of a fee, but renewal is not assured. Our ability to renew concessions and the terms of renewal are subject to a number of factors beyond our control, including the prevalent regulatory and political environment at the time of renewal. Fees are typically established at the time of renewal. As a condition for renewal, we may be required to agree to new and stricter terms and service requirements. For example, in order to renew our concession to provide services in Ecuador, we expect that we will be required to agree to new and stricter quality of service requirements, covering issues such as number of successful call completions, average delivery time of SMS services, area coverage and service interruptions, and other conditions. Although the Ecuadorian Government has accepted Conecel's proposal regarding the economic terms and payments to be made for the new concession, we continue in negotiations with the Ecuadorian Government to renew the license agreement before its expiration in August 2008. In case our concessions are not renewed, we are required to transfer the assets covered by the concession to the government, generally for fair market value, although certain jurisdictions provide for other valuation methodologies. We cannot provide assurances that we will be able to renew our concessions upon expiration.

***We continue to look for investment opportunities, and any future acquisitions and related financings could have a material effect on our business, results of operations and financial condition***

We continue to look for other investment opportunities in telecommunication companies primarily in Latin America and the Caribbean, including in markets where we are already present, and we often have several possible acquisitions under consideration. For example, we may pursue further market consolidation opportunities in Argentina and Brazil depending on their terms and conditions. Any future acquisitions and related financings could have a material effect on our business, results of operations and financial condition, but we cannot give any assurances that we will complete any of them. In addition, we may incur in significant costs and expenses as we integrate these companies in our systems, controls and networks.

***We may be unsuccessful in addressing the challenges and risks presented by our investments in countries outside Mexico***

We have invested in a growing number of telecommunications businesses outside our historical activity of providing wireless telecommunications services in Mexico, and we plan to continue to do so in the rest of Latin America. Whereas Mexico accounted for 63.0% of our total wireless subscribers as of December 31, 2002 and 71% of our consolidated revenues during 2002, it accounted for 32.6% of our total wireless subscribers as of December 31, 2007 and 40.8% of our consolidated revenues during 2007. During that period, Brazil, as a result of rapid subscriber growth and the acquisitions of BSE S.A. and BCP S.A. (now Claro S.A.), increased its share of our total wireless subscribers from 16.3% as of December 31, 2002 to 19.7% as of December 31, 2007, and it accounted for 18.7% of our consolidated revenues during 2007. These investments outside Mexico may involve risks to which we have not previously been exposed. Some of the investments are in countries that may present different or greater risks, including from competition, than Mexico. We cannot assure you that these investments will be successful.

***We are subject to significant litigation***

Some of our subsidiaries (including Telcel) are subject to significant litigation, which if determined adversely to our interests may have a material adverse effect on our business, results of operations, financial condition or prospects. In Mexico, Telcel is subject to proceedings for alleged antitrust practices and there are

## **Table of Contents**

pending administrative investigations regarding antitrust practices in the interconnection services market. We cannot predict how these proceedings or administrative investigations will be resolved and, if resolved contrary to our interests, what fines or restrictions may be imposed on our Mexican operations. These restrictions, which could be imposed by means of special regulations, may include significant limitations on our ability to conduct business as currently conducted or require us to divest of assets. Telcel is also subject to proceedings regarding the calculation of interconnection fees. Our significant litigation is described in *Legal Proceedings* under Item 8.

### ***A system failure could cause delays or interruptions of service, which could cause us to lose customers and revenues***

We will need to continue to provide our subscribers with reliable service over our network. Some of the risks to our network and infrastructure include the following:

physical damage to access lines;

power surges or outages;

limitations on the use of our radiobases;

software defects;

natural disasters; and

disruptions beyond our control.

Disruptions may cause interruptions in service or reduced capacity for customers, either of which could cause us to lose subscribers and incur additional expenses.

### ***If our current churn rate increases, our business could be negatively affected***

The cost of acquiring a new subscriber is much higher than the cost of maintaining an existing subscriber. Accordingly, subscriber deactivations, or churn, could have a material negative impact on our operating income, even if we are able to obtain one new subscriber for each lost subscriber. Because a substantial majority of our subscribers are prepaid, we do not have long-term contracts with those subscribers. Our weighted monthly average churn rate on a consolidated basis for the twelve-month period ended December 31, 2006 was 2.8% and for the twelve-month period ended December 31, 2007 was 2.9%. If we experience an increase in our churn rate, our ability to achieve revenue growth could be materially impaired. In addition, a decline in general economic conditions could lead to an increase in churn, particularly among our prepaid subscribers.

### ***We depend on key suppliers and vendors to provide equipment that we need to operate our business***

We depend upon various key suppliers and vendors, including Nokia, Sony-Ericsson, Motorola, LG and Samsung, to provide us with handsets and network equipment, which we need to operate our business. If these suppliers or vendors fail to provide equipment or service to us on a timely basis, we could experience disruptions, which could have an adverse effect on our revenues and results of operations. In addition, we might be unable to satisfy the requirements contained on our concessions.

### ***Our ability to pay dividends and repay debt depends on our subsidiaries' ability to transfer income and dividends to us***

We are a holding company with no significant assets other than the shares of our subsidiaries and our holdings of cash and marketable securities. Our ability to pay dividends and repay debt depends on the continued transfer to us of dividends and other income from our subsidiaries. The ability of our subsidiaries to pay dividends and make other transfers to us may be limited by various regulatory, contractual and legal constraints

that affect our subsidiaries.

## **Table of Contents**

### **Risks Relating to the Wireless Industry Generally**

#### ***Changes in the wireless industry could affect our future financial performance***

The wireless communications industry is experiencing significant changes as new technologies are developed that offer subscribers an array of choices for their communications needs. These changes include, among others, regulatory changes, evolving industry standards, ongoing improvements in the capacity and quality of digital technology, shorter development cycles for new products, and changes in end-user needs and preferences. In Mexico and in the other countries in which we conduct business, there is uncertainty as to the pace and extent of growth in subscriber demand, and as to the extent to which prices for airtime and line rental may continue to decline. If we are unable to meet future advances in competing technologies on a timely basis or at an acceptable cost, we could lose subscribers to our competitors. In general, the development of new services in our industry requires us to anticipate and respond to the varied and continually changing demands of our subscribers. We may not be able to accurately predict technological trends or the success of new services in the market. In addition, there could be legal or regulatory restraints to our introduction of new services. If these services fail to gain acceptance in the marketplace, or if costs associated with implementation and completion of the introduction of these services materially increase, our ability to retain and attract subscribers could be adversely affected.

There are three existing digital technologies for wireless communications, none of which is compatible with the others. In the past, Telcel and certain of our international businesses used time division multiple access (TDMA) technology for their digital networks, while certain of our other international businesses used code division multiple access (CDMA) as their digital wireless technology. We have introduced global system for mobile communications (GSM) technology in substantially all of our markets. Also, Telcel and some of our international businesses launched new networks using the UMTS and HSDPA third generation technology in late 2007 and 2008. We expect to complete the deployment of the third generation technology in the following years. If future wireless technologies that gain widespread acceptance are not compatible with the technologies we use, we may be required to make capital expenditures in excess of our current forecasts in order to upgrade and replace our technology and infrastructure.

#### ***The intellectual property rights utilized by us, our suppliers or service providers may infringe on intellectual property rights owned by others***

Some of our products and services use intellectual property that we own or license from others. We also provide content services we receive from content distributors, such as ring tones, text games, video games, wallpapers or screensavers, and outsource services to service providers, including billing and customer care functions, that incorporate or utilize intellectual property. We and some of our suppliers, content distributors and service providers have received, and may receive in the future, assertions and claims from third parties that the products or software utilized by us or our suppliers, content distributors and service providers infringe on the patents or other intellectual property rights of these third parties. These claims could require us or an infringing supplier, content distributor or service provider to cease engaging in certain activities, including selling, offering and providing the relevant products and services. Such claims and assertions also could subject us to costly litigation and significant liabilities for damages or royalty payments, or require us to cease certain activities or to cease selling certain products and services.

#### ***We may incur significant losses from wireless fraud and from our failure to successfully manage collections***

Our wireless businesses incur losses and costs associated with the unauthorized use of these wireless networks, particularly their analog cellular networks. These costs include administrative and capital costs associated with detecting, monitoring and reducing the incidence of fraud. Fraud also affects interconnection costs, capacity costs, administrative costs and payments to other carriers for unbillable fraudulent roaming.

## **Table of Contents**

Although we seek to combat this problem through the deployment of anti-fraud technologies and other measures, we cannot assure you that these efforts will be effective or that fraud will not result in material costs for us in the future.

Cloning, which is one form of wireless fraud, involves the use of scanners and other electronic devices to obtain illegally telephone numbers and electronic serial numbers during cellular transmission. Stolen telephone and serial number combinations can be programmed into a cellular phone and used to obtain improper access to cellular networks. Roaming fraud occurs when a phone programmed with a number stolen from one of our subscribers is used to place fraudulent calls from another carrier's market, resulting in a roaming fee charged to us that cannot be collected from the subscriber.

### ***Concerns about health risks relating to the use of wireless handsets and base stations may adversely affect our business***

Portable communications devices have been alleged to pose health risks, including cancer, due to radio frequency emissions from these devices. Lawsuits have been filed in the United States against certain participants in the wireless industry alleging various adverse health consequences as a result of wireless phone usage, and our businesses may be subject to similar litigation in the future. Research and studies are ongoing, and there can be no assurance that further research and studies will not demonstrate a link between radio frequency emissions and health concerns. Any negative findings in these studies could adversely affect the use of wireless handsets and, as a result, our future financial performance.

### ***Developments in the telecommunications sector have resulted, and may in the future result, in substantial write-downs of the carrying value of certain of our assets***

We review on an annual basis, or more frequently where the circumstances require, the value of each of our assets and subsidiaries, to assess whether those carrying values can be supported by the future cash flows expected to be derived from such assets. Whenever we consider that due to changes in the economic, regulatory, business or political environment, our goodwill, intangible assets or fixed assets may be impaired, we consider the necessity of performing certain valuation tests, which may result in impairment charges. The recognition of impairments of tangible, intangible and financial assets results in a non-cash charge on the income statement, which could adversely affect our results of operations. For example, in 2007, we recorded charges in respect of certain TDMA equipment in Colombia and Ecuador following our decision to discontinue using the equipment.

## **Risks Relating to Our Controlling Shareholders, Capital Structure and Transactions with Affiliates**

### ***Members of one family may be deemed to control us***

According to reports of beneficial ownership of our shares filed with the SEC, Carlos Slim Helú, together with his sons and daughters (together, the Slim Family), including his son and chairman of our board of directors, Patrick Slim Domit, may be deemed to control us. The Slim Family may be able to elect a majority of the members of our board of directors and to determine the outcome of other actions requiring a vote of our shareholders, except in very limited cases that require a vote of the holders of L Shares. We cannot assure you that the Slim Family will not take actions that are inconsistent with your interests.

### ***We have significant transactions with affiliates***

We engage in transactions with Teléfonos de México, S.A.B. de C.V., or Telmex, Telmex Internacional, S.A.B. de C.V., or Telmex Internacional, and certain of their subsidiaries and with certain subsidiaries of Grupo Carso, S.A.B. de C.V. and Grupo Financiero Inbursa, S.A. de C.V., all of which are affiliates of América Móvil. Many of these transactions occur in the ordinary course of business and, in the case of transactions with Telmex, are subject to applicable telecommunications regulations in Mexico. Transactions with affiliates may create the potential for conflicts of interest.

## **Table of Contents**

We also make investments together with affiliated companies, sell our investments to related parties and buy investments from related parties. We may pursue joint investments in the telecommunications industry with Telmex. For more information about our transactions with affiliates see *Related Party Transactions* under Item 7.

### ***Our bylaws restrict transfers of shares in some circumstances***

Our bylaws provide that any acquisition or transfer of more than 10% of our capital stock by any person or group of persons acting together requires the approval of our Board of Directors. If you acquire or transfer more than 10% of our capital stock, you will not be able to do so without the approval of our Board of Directors.

### ***The protections afforded to minority shareholders in Mexico are different from those in the United States***

Under Mexican law, the protections afforded to minority shareholders are different from those in the United States. In particular, the law concerning fiduciary duties of directors is not as fully developed as in other jurisdictions, there is no procedure for class actions, and there are different procedural requirements for bringing shareholder lawsuits. As a result, in practice it may be more difficult for minority shareholders of América Móvil to enforce their rights against us or our directors or controlling shareholder than it would be for shareholders of a company incorporated in another jurisdiction, such as the United States.

### ***Holders of L Shares and L Share ADSs have limited voting rights, and holders of ADSs may vote only through the depositary***

Our bylaws provide that holders of L Shares are not permitted to vote except on such limited matters as, among others, the transformation or merger of América Móvil or the cancellation of registration of the L Shares with the National Securities Registry (*Registro Nacional de Valores*) maintained by the Mexican National Banking and Securities Commission (*Comisión Nacional Bancaria y de Valores*, or *CNBV*) or any stock exchange on which they are listed. If you hold L Shares or L Share ADSs, you will not be able to vote on most matters, including the declaration of dividends, that are subject to a shareholder vote in accordance with our bylaws.

### ***Holders of ADSs are not entitled to attend shareholders meetings, and they may only vote through the depositary***

Under our bylaws, a shareholder is required to deposit its shares with a custodian in order to attend a shareholders meeting. A holder of ADSs will not be able to meet this requirement, and accordingly is not entitled to attend shareholders meetings. A holder of ADSs is entitled to instruct the depositary as to how to vote the shares represented by ADSs, in accordance with procedures provided for in the deposit agreements, but a holder of ADSs will not be able to vote its shares directly at a shareholders meeting or to appoint a proxy to do so.

### ***Mexican law and our bylaws restrict the ability of non-Mexican shareholders to invoke the protection of their governments with respect to their rights as shareholders***

As required by Mexican law, our bylaws provide that non-Mexican shareholders shall be considered as Mexicans in respect of their ownership interests in América Móvil and shall be deemed to have agreed not to invoke the protection of their governments in certain circumstances. Under this provision, a non-Mexican shareholder is deemed to have agreed not to invoke the protection of his own government by asking such government to interpose a diplomatic claim against the Mexican government with respect to the shareholder's rights as a shareholder, but is not deemed to have waived any other rights it may have, including any rights under the U.S. securities laws, with respect to its investment in América Móvil. If you invoke such governmental protection in violation of this agreement, your shares could be forfeited to the Mexican government.

## **Table of Contents**

### ***Our bylaws may only be enforced in Mexico***

Our bylaws provide that legal actions relating to the execution, interpretation or performance of the bylaws may be brought only in Mexican courts. As a result, it may be difficult for non-Mexican shareholders to enforce their shareholder rights pursuant to the bylaws.

### ***It may be difficult to enforce civil liabilities against us or our directors, officers and controlling persons***

América Móvil is a *sociedad anónima bursátil de capital variable* organized under the laws of Mexico, with its principal place of business (*domicilio social*) in Mexico City, and most of our directors, officers and controlling persons reside outside the United States. In addition, all or a substantial portion of our assets and their assets are located outside of the United States. As a result, it may be difficult for investors to effect service of process within the United States on such persons or to enforce judgments against them, including in any action based on civil liabilities under the U.S. federal securities laws. There is doubt as to the enforceability against such persons in Mexico, whether in original actions or in actions to enforce judgments of U.S. courts, of liabilities based solely on the U.S. federal securities laws.

### ***You may not be entitled to participate in future preemptive rights offerings***

Under Mexican law, if we issue new shares for cash as part of certain capital increases, we must grant our shareholders the right to purchase a sufficient number of shares to maintain their existing ownership percentage in América Móvil. Rights to purchase shares in these circumstances are known as preemptive rights. Our shareholders do not have preemptive rights in certain circumstances such as mergers, convertible debentures, public offers and placement of repurchased shares. We may not legally be permitted to allow holders of ADSs or holders of L Shares or A Shares in the United States to exercise any preemptive rights in any future capital increase unless we file a registration statement with the SEC, with respect to that future issuance of shares. At the time of any future capital increase, we will evaluate the costs and potential liabilities associated with filing a registration statement with the SEC and any other factors that we consider important to determine whether we will file such a registration statement.

We cannot assure you that we will file a registration statement with the SEC to allow holders of ADSs or U.S. holders of L Shares or A Shares to participate in a preemptive rights offering. As a result, the equity interest of such holders in América Móvil may be diluted proportionately. In addition, under current Mexican law, it is not practicable for the depositary to sell preemptive rights and distribute the proceeds from such sales to ADS holders.

## **Risks Relating to Developments in Mexico and Other Countries**

### ***Latin American economic, political and social conditions may adversely affect our business***

Our financial performance may be significantly affected by general economic, political and social conditions in the markets where we operate, particularly Mexico, Brazil and Central America. Many countries in Latin America, including Mexico and Brazil, have suffered significant economic, political and social crises in the past, and these events may occur again in the future. Many of these countries, including Argentina, Chile, Ecuador, Peru and Mexico, recently held elections. We cannot predict whether changes in administrations will result in changes in governmental policy and whether such changes will affect our business. Instability in the region has been caused by many different factors, including:

significant governmental influence over local economies;

substantial fluctuations in economic growth;

high levels of inflation;

**Table of Contents**

changes in currency values;

exchange controls or restrictions on expatriation of earnings;

high domestic interest rates;

wage and price controls;

changes in governmental economic or tax policies;

imposition of trade barriers;

unexpected changes in regulation; and

overall political, social and economic instability.

Adverse economic, political and social conditions in Latin America may inhibit demand for wireless services and create uncertainty regarding our operating environment, which could have a material adverse effect on our company.

Our business may be especially affected by conditions in Mexico and Brazil, our two principal markets. Mexico has experienced a prolonged period of slow growth since 2001, primarily as a result of the downturn in the U.S. economy. According to preliminary data, during 2007, Mexico's gross domestic product, or GDP, grew by 3.29% in real terms. In 2007, GDP grew by 4.7%. Mexico has also experienced high levels of inflation and high domestic interest rates. The annual rate of inflation, as measured by changes in the National Consumer Price Index as published by the Banco de México, was 3.75% for 2007.

Brazil has also experienced slow economic growth over the past several years. Brazil's GDP grew by an estimated 5.42% in real terms in 2007, compared to a growth rate of 3.1% in 2006. Brazil has in the past experienced extremely high rates of inflation, with annual rates of inflation during the last years reaching as high as 2,489% in 1993 and 929% in 1994, as measured by the Brazilian National Consumer Price Index. More recently, Brazil's rates of inflation were 5.7% in 2005, 3.14% in 2006 and 4.46% in 2007. Inflation, governmental measures to combat inflation and public speculation about possible future actions have in the past had significant negative effects on the Brazilian economy.

Our business may be affected by political developments in Latin America and the Caribbean. We cannot predict whether these recent events will affect our business or our ability to renew our licenses and concessions, to maintain or increase our market share or profitability or will have an impact on future strategic acquisition efforts.

***Depreciation or fluctuation of the currencies in which we conduct operations relative to the U.S. dollar could adversely affect our financial condition and results of operations***

We are affected by fluctuations in the value of the currencies in which we conduct operations compared to the U.S. dollar, in which a substantial portion of our indebtedness is denominated. Changes in the value of the various currencies in which we conduct operations against the Mexican peso, which we use as our reporting currency in our financial statements, and against the U.S. dollar may result in exchange losses or gains on our net U.S. dollar-denominated indebtedness and accounts payable. In 2007, 2006 and 2005, changes in currency exchange rates led us to report foreign exchange gains of Ps. 2,463 million, Ps. 2,321 million and Ps. 2,367 million, respectively. In addition, currency fluctuations between the Mexican peso and the currencies of our non-Mexican subsidiaries affect our results as reported in Mexican pesos. Currency fluctuations are expected to continue to affect our financial income and expense.

Major devaluation or depreciation of any such currencies may also result in disruption of the international foreign exchange markets and may limit our ability to transfer or to convert such currencies into U.S. dollars and

---

**Table of Contents**

other currencies for the purpose of making timely payments of interest and principal on our indebtedness. The Mexican government does not currently restrict, and for many years has not restricted, the right or ability of Mexican or foreign persons or entities to convert pesos into U.S. dollars or to transfer other currencies out of Mexico. The government could, however, institute restrictive exchange rate policies in the future. Also, the Brazilian government may impose temporary restrictions on the conversion of Brazilian reals into foreign currencies and on the remittance to foreign investors of proceeds from investments in Brazil. Brazilian law permits the government to impose these restrictions whenever there is a serious imbalance in Brazil's balance of payments or a reason to foresee a serious imbalance.

***Additional Mexican taxes and contributions levied on services we offer and on the exploitation of frequencies could affect our results of operations***

Taxes applicable to certain telecommunications services, as well as taxes and contributions on the exploitation of frequencies, have been enacted from time to time in Mexico, including changes to previously established fiscal regimes. Taxes or contributions of this nature could adversely affect our business and our results of operations.

Currently in Mexico, concessionaires for the 800 megahertz (Band B) radio spectrum are required to pay the Mexican government a semi-annual fee (*aprovechamiento*) ranging from 5% to 10% of the gross revenues under such concessions, whereas concessionaires for the 1900 megahertz (Bands A and D) radio spectrum are not required to pay semi-annual fees. During 2005, a Mexican court permitted Telcel to eliminate from its 800 megahertz concession for the Mexico City area (Region 9) the obligation to make this semi-annual payment, against an increase of Ps. 2,149.5 million in the up-front consideration payable for the concession (from Ps. 116.4 million to Ps. 2,265.9 million). The SCT approved the necessary adjustments to the concession in April 2006. In paying this increase in consideration, Telcel made a cash payment of Ps.150.9 million and was able to credit Ps. 1,998.5 million of previously paid semi-annual fees (*aprovechamientos*).

Pursuant to amendments to the Federal Contributions Law (*Ley Federal de Derechos*) enacted in 2003, owners of concessions in Mexico granted or renewed on or after January 1, 2003 are required to pay annual fees (*derechos*) for the use and exploitation of radio spectrum bands. The amount of annual fees (*derechos*) payable could be significant and vary depending on the relevant region and radio spectrum band. These annual fees (*derechos*) would be payable in respect of all spectrum bands, including bands, such as Band B, that are already subject to the payment of semi-annual fees based on gross revenues (*aprovechamientos*). Currently, we are not required to pay annual fees (*derechos*) in respect of our Bands A, B and D concessions since they were awarded prior to 2003, but we are required to pay annual fees (*derechos*) in respect of the right to use additional 10 megahertz of capacity in the 1900 megahertz spectrum (Band F) acquired during 2005. Telcel has challenged our obligation to pay such annual fees (*derechos*) as we believe it is contrary to the Mexican Constitution (*Constitución Política de los Estados Unidos Mexicanos*) and certain provisions of the Telecommunications Law. Telcel obtained a preliminary injunction against the payment of these fees. The authorities appealed the injunction before the corresponding court, which referred this matter to the Mexican Supreme Court (*Suprema Corte de Justicia de la Nación*, or the Mexican Supreme Court) for final resolution. We expect the Mexican Supreme Court to resolve this matter shortly. Based on the current terms of the law, the fees applicable to the 10 megahertz acquired during 2005 amount to approximately Ps. 255 million (subject to adjustment for inflation as provided by the applicable law) annually for 20 years for all 9 regions.

---

**Table of Contents**

**Item 4. Information on the Company**

**GENERAL**

We are the largest provider of wireless communications services in Latin America based on subscribers. As of December 31, 2007, we had 153.4 million subscribers in 17 countries, compared to 124.8 million at year-end 2006. Because our focus is on Latin America, a substantial majority of our wireless subscribers are prepaid customers. We also had an aggregate of approximately 3.9 million fixed lines in Central America and the Caribbean as of December 31, 2007, making us the largest fixed-line operator in Central America and the Caribbean based on the number of subscribers.

Our principal operations are:

*Mexico.* Through Radiomóvil Dipsa, S.A. de C.V., which operates under the name Telcel, we provide mobile telecommunications service in all nine regions in Mexico. As of December 31, 2007, Telcel had 50.0 million subscribers. Telcel is the largest provider of mobile telecommunications services in Mexico.

*Brazil.* With approximately 30.2 million subscribers as of December 31, 2007, we are one of the three largest providers of wireless telecommunications services in Brazil based on the number of subscribers. We operate in Brazil through our subsidiaries, Claro S.A. and Americel S.A., or Americel, under the unified brand name Claro. Our network covers the main cities in Brazil (including São Paulo and Rio de Janeiro).

*Southern Cone.* We provide wireless services in Argentina, Paraguay, Uruguay and Chile. As of December 31, 2007, we had 17.3 million subscribers in the Southern Cone region. We operate under the Claro brand in the region.

*Colombia.* We provide wireless services in Colombia under the Comcel brand. As of December 31, 2007, we had 22.3 million wireless subscribers and were the largest wireless provider in Colombia.

*Andean Region.* We provide wireless services in Peru and Ecuador. As of December 31, 2007, we had 12.4 million subscribers in the Andean region. We operate under the Porta brand in Ecuador and under the Claro brand in Peru.

*Central America.* We provide fixed-line and wireless services in Guatemala, El Salvador and Nicaragua. We also provide wireless services in Honduras. Our Central American subsidiaries provide wireless services under the Claro brand. As of December 31, 2007, our subsidiaries had 8.2 million wireless subscribers and over 2.2 million fixed-line subscribers in Central America.

In May 2008, we acquired a license for the provision of mobile voice, data and video services in Panama. The license grants the right for use of 30 megahertz in the 1900 megahertz band for a 20-year period.

*United States.* Our U.S. subsidiary, TracFone Wireless Inc., is engaged in the sale and distribution of prepaid wireless services and wireless phones throughout the United States, Puerto Rico and the U.S. Virgin Islands. It had approximately 9.5 million subscribers as of December 31, 2007.

*Caribbean.* On December 1, 2006, we consummated our acquisition of Compañía Dominicana de Teléfonos, C. por A., or Codetel. Codetel is the largest telecommunications service provider in the Dominican Republic with over 748,000 wireless subscribers, 2.7 million fixed-line subscribers and 130,000 broadband subscribers as of December 31, 2007. We provide fixed-line and broadband services in the Dominican Republic under the Codetel brand and wireless services under the Claro brand.

## Edgar Filing: AMERICA MOVIL SAB DE CV/ - Form 20-F

On March 30, 2007, we consummated our acquisition of Telecomunicaciones de Puerto Rico, Inc., or TELPRI . TELPRI is the largest telecommunications service provider in Puerto Rico with

---

## **Table of Contents**

approximately 920,000 fixed-line subscribers and 591,962 wireless subscribers as of December 31, 2007. We provide fixed-line and broadband services in Puerto Rico under the PRT brand and wireless services under the Claro brand.

On November 5, 2007, we acquired 100% of the shares of capital stock of Oceanic Digital Jamaica Limited, or Oceanic. Oceanic provides wireless and value added services throughout Jamaica, with 221,786 wireless subscribers as of December 31, 2007.

América Móvil, S.A.B. de C.V. is a *sociedad anónima bursátil de capital variable* organized under the laws of Mexico with its principal executive offices at Lago Alberto 366, Edificio Telcel I, Piso 1, Colonia Anáhuac, 11320, México D.F., México. Our telephone number at this location is (5255) 2581-4449.

## **Our Markets, Networks and Technology**

We operate pursuant to concessions, licenses or authorizations to provide wireless telecommunications services in each of the countries in which we operate. We seek to provide a full range of wireless telecommunications services in each of our markets. Our networks are consistently optimized to try to ensure maximum coverage and high quality service. In 2007, we invested Ps. 34,622 million (nominal amounts) in capital expenditures on our property, plant and equipment. We also seek to expand market share by exploring strategic acquisition opportunities in Latin America.

We use a number of mobile technologies in the markets in which we operate. All of our principal markets, except Puerto Rico (where we are in the process of deploying a GSM network), have global system for mobile communication (GSM) networks for voice and digital transmissions. Through these networks, we provide many of the voice and data services supported by GSM technology, such as short message service (SMS), circuit switch data (CSD), high speed circuit switch data (HSCSD), packet switch data through general packet radio services (GPRS) and enhanced data rates for GSM evolution (EDGE).

Beginning in 2007, we began deploying networks based on universal mobile telecommunications systems (UMTS) in certain of our principal markets, including Mexico, Brazil and Colombia. UMTS is a system based on the third generation (3G) of mobile phone standards and technology that allows the transmission of large volumes of data at high speeds. 3G technologies enable network operators to offer users a wider range of more advanced services while achieving greater network capacity through improved spectral efficiency. Services include wide-area wireless phone telephony, video calls and broadband data, all in a mobile environment. We are deploying these networks using the high-speed downlink packet access protocol (HSDPA), which is a mobile telephony communications protocol that allows networks based on UMTS to have higher data transfer speeds and capacity. Our HSDPA deployment supports down-link speeds of 3.6 megabits per second. Our 3G networks use the same technology that is generally used throughout Europe to provide 3G services. We elected to deploy the UMTS/HSDPA networks principally because:

*New market opportunities.* It allows us to enter new markets and provide new services, such as the wireless broadband market, which we believe has significant growth potential throughout Latin America.

*Handset compatibility.* UMTS handsets are compatible with our GSM networks, so a customer can use one handset to connect to our UMTS and GSM networks. This allows us to focus the deployment of our new networks in areas of high demand for 3G services, principally large urban areas.

*Spectral Compatibility.* With our new networks, we can generally offer 3G services using our existing licenses in the 850 megahertz spectrum, which is being increasingly underutilized by our remaining TDMA customers. In addition to being efficient from a cost perspective, deployment in the 850 megahertz spectrum is more efficient and provides better coverage than deployment in the 1900 megahertz spectrum.

---

## **Table of Contents**

*Increased voice capacity.* Our new networks give us approximately 5.7 times more capacity to provide voice services than our existing GSM network using our current spectrum (considering a 5 megahertz fully-used spectrum).

*Cost effective deployment.* Unlike some of the 3G networks being deployed in the United States, UMTS networks use some of the same basic network plant and equipment as GSM networks. This has permitted us to achieve a quicker and more cost effective deployment of 3G services, than would have been possible using other technologies.

We are the first operators to deploy these new technologies in most of our markets. We launched 3G services based on these new technologies in Brazil during the second half of 2007 and in Mexico and Colombia during the first quarter of 2008. As of the date of this annual report, we are offering 3G services in 14 countries in Latin America and the Caribbean. We are currently analyzing the systems in our other markets for the purpose of deploying third generation networks in all of our markets.

Our principal markets of operations are Mexico and Brazil, the two largest economies in Latin America. We are the largest provider of wireless communication services in Mexico and one of the three largest in Brazil, based on the number of subscribers at December 31, 2007. In contrast to U.S. practices, both of these markets operate under a form of calling party pays billing system, under which subscribers only pay for outgoing calls. During 2007, our Mexican operations represented 40.8% of our operating revenues and our Brazilian operations represented 18.7% of our operating revenues.

In many of our markets, the regulatory environment has become increasingly more open and flexible over the past decade. These changes have increased competition as markets have become more open to new entrants. In Mexico, these changes have exposed us to competition from domestic competitors and from international operators. In other markets, these changes have allowed us an opportunity to enter as a competitor and capture market share from local providers. However, we operate in many markets that have had and may continue to have volatile economic and political environments, and significant political changes may lead to changes in regulatory environments that can adversely affect our interests and prospects.

### **Our Strategy**

We intend to capitalize on our position as the leader in wireless telecommunications in Latin America to continue to expand our subscriber base, both by development of our existing businesses and selected strategic acquisitions in the region. We seek to become a leader in each of our markets by providing better coverage and services and benefiting from economies of scale. We closely monitor our costs and expenses, and we will continue to explore alternatives to further improve our operating margins.

### **Operating Information**

We count our wireless subscribers by the number of lines activated. We continue to count post-paid subscribers for the length of their contracts. We disconnect, or churn, our postpaid subscribers at the moment they voluntarily discontinue their service or following a prescribed period of time after they become delinquent. We disconnect our prepaid subscribers after a period of four months after they discontinue to use our service, so long as they have not activated a calling card or have received traffic. We calculate our subscriber market share by dividing our own subscriber figures into the total market subscriber figures periodically reported by the regulatory authorities in the markets in which we operate. We understand that these regulatory authorities compile total market subscriber figures based on subscriber figures provided to them by market participants, and we do not independently verify these figures.

Throughout this annual report, we make reference to certain operating data, such as average revenues per subscriber (also referred to as ARPUs), average minutes of use per subscriber (also referred to as average MOUs per subscriber) and churn rate, that are not included in our financial statements. We calculate ARPUs

## **Table of Contents**

for a given period by dividing service revenues for such period by the average number of subscribers for such period. The figure includes both prepaid and postpaid customers. We calculate churn rate as the total number of customer deactivations for a period divided by total subscribers at the beginning of such period.

We provide this operating data because it is regularly reviewed by management and because management believes it is useful in evaluating our performance from period to period. We believe that presenting information about ARPUs and MOUs is useful in assessing the usage and acceptance of our products and services, and that presenting churn rate is useful in assessing our ability to retain subscribers. This additional operating information may not be uniformly defined by our competitors. Accordingly, this additional operating information may not be comparable with similarly titled measures and disclosures by other companies.

## **History**

We were established in September 2000 in a spin-off from Telmex, a leading provider of local and long-distance telephone services in Mexico. The spin-off was implemented using a procedure under Mexican corporate law called *escisión*. The shares of our company were delivered to Telmex shareholders on February 7, 2001.

Our wireless business in Mexico is conducted through our wholly-owned subsidiary Telcel, which traces its history to the establishment in 1956 of Publicidad Turística, S.A., an affiliate of Telmex that published telephone directories. In 1981, the SCT granted Publicidad Turística, S.A. a concession for the installation and operation of a wireless telephone system in Mexico City. In 1984, Publicidad Turística, S.A. changed its name to Radiomóvil Dipsa, S.A. de C.V., and in 1989, the company began operating under the trademark Telcel.

Between 1988 and 1990, Telcel expanded its cellular network on the 800 megahertz (Band B) frequency spectrum to cover the Mexico City metropolitan area and the cities of Cuernavaca, Guadalajara, Monterrey, Tijuana and Toluca, and in 1990, Telcel began offering cellular services in all nine geographic regions of Mexico. Telcel launched a PCS system in Mexico City in 1999 and currently offers the service in all nine geographic regions of Mexico. In October 2002, Telcel launched its GSM network. Since December 2002, Telcel has been authorized to provide long-distance services.

In 1999, we began acquiring our international subsidiaries and investing in Telecom Americas and our other international affiliates. We made significant acquisitions in Latin America during the past 9 years, and our non-Mexican operations have generally experienced higher subscriber growth rates in recent periods than our Mexican operations. As a result, as of December 31, 2007, approximately 67.4% of our wireless subscribers were located outside Mexico.

In December 2006, we changed our corporate form from a *sociedad anónima de capital variable* (variable stock corporation) to a *sociedad anónima bursátil de capital variable* (publicly listed variable stock corporation).

On December 13, 2006, our shareholders approved the merger of Amtel, our then controlling shareholder, and its subsidiary, Corporativo, with us. As a result of the merger, we assumed Amtel's net indebtedness, which we refinanced in January 2007. The merger resulted in the elimination of the management fee that we previously paid to Amtel. The merger also increased the amount we may use under applicable Mexican tax rules (*cuenta de utilidad fiscal neta*, or CUFIN) to repurchase shares or pay dividends without incurring additional taxes.

See Mexican Operations, Non-Mexican Operations and Other Investments under this Item 4.

**Table of Contents****Major Subsidiaries**

The table below sets forth our principal subsidiaries, our percentage ownership in each such entity and the main activity of such entity as of the date of this annual report.

<b>Name of Company</b>	<b>Jurisdiction</b>	<b>Ownership Interest<sup>(1)</sup></b>	<b>Main Activity</b>

(1) Percentage of equity owned by América Móvil directly or indirectly through subsidiaries or affiliates.

(2) Servicios de Comunicaciones de Nicaragua, S.A. (Sercom Nicaragua) merged into ENITEL in July 2006.

**Table of Contents****MEXICAN OPERATIONS**

Our subsidiary Telcel is the leading provider of wireless communications services in Mexico. As of December 31, 2007, Telcel's cellular network covered more than 36.1% of the geographical area of Mexico, including all major cities, and 96% of Mexico's population. Telcel holds concessions to operate a wireless network in all nine geographic regions in Mexico using both the 800 megahertz and 1900 megahertz radio spectrums. As of December 31, 2007, Telcel had approximately 50.0 million cellular subscribers and, according to Cofetel, as of December 2007, an approximately 73.0% share of the Mexican wireless market. Approximately 92.6% of Telcel's cellular subscribers as of December 31, 2007 were prepaid customers.

In 2007, Telcel had revenues of Ps. 127,027 million (U.S.\$11,690 million), representing 40.8% of our consolidated revenues for such period. As of December 31, 2007, Telcel accounted for approximately 32.6% of our total wireless subscribers, as compared to 34.6% at December 31, 2006.

The following table sets forth information on our Mexican operations' financial results, subscriber base, coverage and related matters at the dates and for the periods indicated:

	2003	2004	December 31, 2005	2006	2007
	(peso amounts in constant Mexican pesos as of December 31, 2007)				
Operating revenues (millions)	Ps. 61,562	Ps. 78,999	Ps. 96,710	Ps. 113,295	Ps. 127,027
Average monthly revenues per subscriber during preceding 12 months <sup>(1)</sup>	Ps. 208	Ps. 216	Ps. 208	Ps. 196	Ps. 188
Operating income (millions)	Ps. 20,521	Ps. 28,205	Ps. 36,837	Ps. 49,814	Ps. 59,257
Cellular lines in service (thousands)	23,444	28,851	35,914	43,190	50,011
Subscriber growth during preceding 12 months	16.8%	23.1%	24.5%	20.3%	15.8%
Company penetration <sup>(2)</sup>	22.1%	27.3%	34.8%	41.4%	47.5%
Average monthly minutes of use per subscriber during preceding 12 months	81	99	103	113	143
Churn rate <sup>(3)</sup>	3.9	3.0	3.1	3.2	3.4
Employees	8,624	9,354	11,129	12,370	14,360

(1) Average for the year of the amount obtained each month by dividing service revenues by the average number of customers during such month. The figure includes both prepaid and postpaid customers.

(2) Number of Telcel cellular lines in service divided by the population of Mexico based on the latest census data available.

(3) Total number of customer deactivations for the period divided by total subscribers at the beginning of such period.

The business of Telcel is subject to comprehensive regulation and oversight by the SCT, Cofetel, Cofeco and Profeco. The SCT is part of the executive branch of the Mexican federal government, and Cofetel is an independent agency of the SCT. Cofeco and Profeco are independent agencies of the Ministry of Economy (*Secretaría de Economía*). Regulation and oversight are governed by the General Communications Law (*Ley de Vías Generales de Comunicación*, or the General Communications Law), the Telecommunications Law, the telecommunications regulations adopted under both the General Communications Law and the Telecommunications Law, the Federal Antitrust Law, the Federal Customer Protection Law (*Ley Federal de Protección al Consumidor*) and the concessions and license agreements granted by the SCT. See Regulation.

Unlike the United States, Mexico uses the calling party pays system for cellular calls, under which subscribers only pay for outgoing calls.

---

## **Table of Contents**

### **Services and Products**

#### *Voice services*

Telcel offers voice services under a variety of rate plans to meet the needs of different user segments. The rate plans are either postpaid, where the customer is billed monthly for the previous month, or prepaid, where the customer pays in advance for a specified volume of use over a specified period.

Telcel's postpaid plans include the following charges:

monthly charges, which usually include a number of minutes of use and short text messages that are included in the monthly service charge;

usage charges, for usage in excess of the specified number of minutes or short text messages included in the monthly charge; and

additional charges, including charges for data services, voicemail and general information.

Certain plans include the cost of national roaming and long-distance in the price per minute so that all calls within Mexico cost the same amount per minute. Some postpaid plans are designed for high and moderate usage subscribers, who are typically willing to pay higher monthly fees in exchange for larger blocks of minutes that are included in the monthly service charge, services such as voicemail, call forwarding, call waiting, caller ID and three-way calling, and lower per minute airtime charges under a single contract. To satisfy the more limited needs of low-usage postpaid subscribers, Telcel also offers plans which provide a moderately priced, fixed monthly charge coupled with a high per minute airtime charge and relatively few included minutes. As part of postpaid plans, Telcel typically offers additional digital services such as voicemail, call forwarding, call waiting, caller ID and three-way calling, which are all included in the monthly fee. In addition, Telcel offers its postpaid customers the flexibility to manage their additional usage costs by contracting additional minutes of use under the prepaid system. Telcel also offers customized services to its corporate clients. Postpaid customers may terminate plans at any time, except customers that receive a handset as part of subscribing to a plan, which must remain with the plan for at least between one year and 18 months, depending on the cost of the handset.

Rates for postpaid plans have not increased since April 1999 and are expected to remain stable as long as the Mexican economic environment remains stable. In recent periods, Telcel has offered postpaid plans that include effective price-per-minute reductions. In addition, Telcel offers discounts that reduce the effective rates paid by its customers for calls to fixed lines or other Telcel wireless customers.

Telcel also offers several prepaid plans, none of which includes activation or monthly charges. Prepaid customers purchase a prepaid card for a specific amount of airtime and also receive additional services such as voicemail and caller ID, although these services are less comprehensive than those available under postpaid plans.

Prepaid customers typically generate lower levels of cellular usage and are often unwilling to make a fixed financial commitment or do not have the credit profile to purchase postpaid plans. Prepaid plans serve the needs of distinct consumer segments such as the youth market, families, customers with variable income who otherwise would not be able to obtain service due to their credit profile, and customers who prefer to pay in cash. Prepaid customers also include parents who wish to control costs for their children.

Basic rates for prepaid plans have remained unchanged since 2002. However, Telcel offers effective price-per-minute seasonal discounts and effective discounts under certain friends and family and other loyalty programs. Beginning in 2006, Telcel offers a preferential rate to customers who have remained active for a period of at least one year with respect to certain outgoing calls. Telcel's prepaid subscribers may choose to be billed per minute (rounding each call to the next full minute), per second (paying a fixed rate for the first minute and another fixed rate for additional seconds), and beginning on April 2007, per call (consisting of a fixed rate

## **Table of Contents**

for any call lasting up to 20 minutes). Prepaid subscribers may also choose to combine per minute and per call billing (calls lasting up to two minutes are billed on a per minute basis, while calls lasting longer than two minutes are billed on a per call basis for each additional 20 minute block).

National long distance rates for prepaid plans decreased in August 2006 from Ps. 2.61 per minute to Ps. 2.25 per minute and are expected to continue to decrease.

Telcel believes the prepaid market represents a large and growing under-penetrated market in Mexico. Compared to the average postpaid plan, prepaid plans involve higher average per minute airtime charges, lower customer acquisition costs and billing expenses, and low credit or payment risk. However, prepaid customers on average have substantially lower minutes of use than postpaid customers and do not pay monthly fees and, as a result, generate substantially lower average monthly revenues per customer.

### ***Data services***

#### ***Short Message Services (SMS)***

In January 2002, Telcel began to offer two-way SMS to its customers as part of its value-added services. Since the launch of two-way SMS, Telcel has experienced significant growth in traffic. Through arrangements with other mobile operators, Telcel began to offer to its customers the ability to send and receive short messages to and from users of networks of other carriers throughout Mexico in the fourth quarter of 2003. Since December 2004, postpaid and prepaid customers may send and receive short messages to and from users of networks in the United States and more recently to and from 34 other countries. In 2007, Telcel began to offer to its customers the ability to send and receive short messages to and from users of Nextel México, the largest trunking carrier in Mexico.

#### ***Multimedia Messaging Service (MMS)***

As an enhanced version of SMS, MMS allows customers the capability to send, in a single message, multiple color images, sounds and different size text to another mobile phone or e-mail account. Telcel began to offer MMS through GSM technology to postpaid and prepaid customers in March 2003. Beginning in 2007, Telcel customers can also send and receive multimedia messages to and from users of networks of other Mexican carriers.

#### ***Premium SMS, Premium MMS and Content Community***

In April 2002, Telcel became the first Mexican operator to offer premium information services through its SMS capabilities, including weather reports, financial quotes and entertainment news. Other content services include personalized ring tones, text and video games, wallpapers, screensavers, themes, video clips and interactive forums.

Starting in June 2006, Telcel was the first Mexican operator to offer to its postpaid customers premium information services through its MMS capabilities, including news and weather reports, horoscopes and soccer score alerts and match results.

To further enhance its content offerings with well-known brands, Telcel has built a Content Community through agreements and special alliances with nationally and internationally renowned entertainment companies. These agreements and special alliances allow Telcel to offer premium content services, through the *Ideas Telcel* portal.

## **Table of Contents**

### *Ideas Telcel*

Through the *Ideas Telcel* portal, Telcel offers its customers mobile entertainment services, including SMS, MMS, e-mail, news and personalized downloads, such as ring tones and screensavers.

In May 2006, Telcel launched TV content services which allow certain customers to access news, cartoon, documentary and sports channels through their handsets. Telcel provides these services through an agreement with a content distributor. Telcel's TV content services, are available for EDGE users with compatible handsets, and since 2007 are also available to our 3G users.

### *Internet*

Wireless application protocol, or WAP, is a global standard designed to make Internet services available to mobile telephone users. At present, Telcel offers WAP including e-mail, data and information services and electronic commerce transactions. WAP allows a micro browser in a mobile phone to link into a gateway service in Telcel's network enabling users to scroll through different pages of information of third parties on the Internet.

Telcel launched its WAP gateway in September 2000, enabling its prepaid and postpaid users in those regions to access e-mail, banking, and a variety of reservation and other types of electronic commerce services.

### *Data transmission*

Telcel offers the following data transmission services through its GSM network: circuit switch data (CSD), high speed circuit switch data (HSCSD), packet switch data through general packet radio services (GPRS) and enhanced data rates for GSM evolution (EDGE).

CSD is a system based on circuit switch platforms that provides data services by integrating the existing voice infrastructure. HSCSD offers the same service as CSD but with increased speed and data capacity.

GPRS is a non-voice value added service that allows information to be sent and received across a mobile telephone network. GPRS radio resources are used only when users are actually sending or receiving data. Rather than dedicating a radio channel to a mobile data user for a fixed period of time, the available radio resource can be concurrently shared between several users. This efficient use of scarce radio resources means that large numbers of GPRS users can share the same bandwidth and be served from a single cell. The number of users supported depends on the application being used and how much data is being transferred. Because of the spectrum efficiency of GPRS, there is less need to build in idle capacity that is only used during peak hours. GPRS therefore lets Telcel maximize the use of its network resources.

EDGE is a standardized set of improvements to the GSM radio interface. EDGE and GPRS traffic can function on any GPRS network, provided the carrier implements certain upgrades, which include certain modifications, installations and upgrades to base stations. The implementation of EDGE effectively triples the rate of gross data transmission offered by GPRS.

Because GPRS and EDGE transmit information through data channels rather than voice channels, they facilitate faster connections than previous technologies, such as CSD and HSCSD. No dial-up modem connection is necessary. The speed of GPRS and EDGE is an important feature for time critical applications, and Telcel's GPRS and EDGE services are able to accommodate corporate applications such as:

*Transmission of Still Images* Still images such as photographs, pictures, postcards, greeting cards and presentations and static web pages can be sent and received over the mobile network as they are across fixed telephone networks. GPRS and EDGE permit users to post images from a digital camera connected to a GPRS or EDGE radio device directly to an Internet site, allowing near real-time desktop publishing.

## **Table of Contents**

*Transmission of Moving Images* The capacity of GPRS and EDGE to facilitate transmission of moving images has market applications such as monitoring parking lots or building sites for intruders and sending images of patients from ambulances to hospitals.

*Web Browsing* GPRS and EDGE permit more rapid web browsing and enhanced access to web images.

*Document Sharing* GPRS and EDGE facilitate document sharing and remote collaboration, permitting people in different locations to work on the same document at the same time.

*Job Dispatch* GPRS and EDGE can be used to communicate assignments from office-based staff to mobile field staff. These job dispatch applications can then be combined with vehicle positioning applications to allow the nearest available suitable personnel to be deployed to serve a customer.

*Push E-mail and Remote LAN Access* GPRS and EDGE facilitate the extension of push e-mail systems beyond an employee's office PC. Remote LAN applications provide an employee with remote access to desk-top applications, such as intranet, push e-mail and database applications.

*Internet E-mail* Internet e-mail users can receive SMS message notifications on their mobile phones of incoming e-mail at their e-mail server.

*Vehicle Positioning* Vehicle positioning applications integrate satellite positioning systems with nonvoice mobile services. These applications can be used to deliver services including remote vehicle diagnostics and ad-hoc stolen vehicle tracking.

*File Transfer* Users can download large files from the mobile network, such as presentation documents, appliance manuals or software applications.

*Home Automation* Home automation applications will permit customers to monitor home security from outside of the office and perform other functions, such as operating certain home appliances.

### ***Push-to-Talk Services***

In 2004, Telcel began to offer push-to-talk services (two-way half duplex voice service) over its GSM network. Postpaid customers may use push-to-talk over cellular, or POC, to communicate with other Telcel customers that subscribe to this service across Mexico at no cost in addition to the fixed monthly charge. POC is geared mainly towards potential customers in the business environments.

### ***Oficina Móvil Telcel***

Oficina Móvil allows Telcel customers to access e-mail and personal information management tools, such as calendars and address books, through their handsets. Through strategic alliances with renowned companies such as BlackBerry and Windows Mobile, Telcel customers can manage multiple e-mail accounts and review and edit e-mail attachments. Telcel also offers data coverage in Mexico and other countries where we have roaming agreements.

### ***Products***

Telcel offers a variety of products as complements to its wireless service, including handsets and accessories such as chargers, headsets, belt clips and batteries. As part of its prepaid service offering, Telcel provides new customers with an *Amigo Kit*, which includes airtime, a handset, a charger and other accessories at a discounted price. For prepaid customers that own GSM handsets, Telcel also offers an *Amigo Chip*, which

## Edgar Filing: AMERICA MOVIL SAB DE CV/ - Form 20-F

includes airtime and the chip for the handset. New postpaid customers also receive a handset, a charger and other accessories complimentary or at a discounted price, if they enter into a long-term contract with Telcel.

## **Table of Contents**

Most of the handsets that Telcel currently offers are GSM dual-band, which can switch between the 800 and 1900 megahertz radio spectrums. In addition, Telcel offers tri-band and four-band handsets, which can also operate in the 900 megahertz radio spectrum and/or the 1800 megahertz radio spectrum. Telcel no longer offers analog handsets. Beginning in 2007, Telcel offers 3G handsets, which operate on our 3G network and GSM network, depending on the customer's location.

### **Interconnection**

Telcel earns interconnection revenues from calls to any of its subscribers that originate with another service provider in the same local area within Mexico (mobile or fixed) or, starting in November 2006, other service providers anywhere in Mexico or abroad. Telcel charges the service provider from whose network the call originates an interconnection charge for the time Telcel's network is used in connection with the call. Telcel must pay interconnection fees in respect of calls made by its subscribers to customers of other service providers (mobile and fixed). See Regulation Interconnection under this Item 4.

Generally, operators are free to negotiate interconnections fees among themselves, and Telcel has interconnection agreements with other service providers, including Telmex. The interconnection agreements specify a number of connection points, locations of interconnection points, the method by which signals must be transmitted and received and the costs and fees of interconnection. Although Telcel has interconnection agreements with other service providers covering more than 90% of Telcel's incoming traffic (based on 2007 data), certain fixed-line operators continue to challenge the interconnection fees charged by Telcel. Telcel charges those operators fees based on schedules determined by Cofetel. See Regulation Interconnection under this Item 4.

### **Roaming**

Telcel offers international roaming services to its subscribers. Subscribers paying the international roaming fees are able to roam outside of Mexico, using the networks of cellular service providers with which Telcel has entered into roaming agreements. Telcel has entered into approximately 385 such agreements covering GSM and TDMA networks around the world. As of the date of this annual report, Telcel had commercially launched roaming voice services covering 155 countries and GPRS services covering 95 countries. Roaming payments are channeled through Cibernet Corporation, which functions as a central international clearing house that collects and redistributes roaming fees from and to the participating providers.

Telcel offers international roaming services under a variety of rates including special rates to subscribers roaming in the U.S. border, the U.S., Canada and other markets.

GPRS roaming features provide push-to-talk and push e-mail service customers with unlimited usage within certain zones on daily or monthly bases.

Telcel launched a Virtual Home Environment feature for customers roaming in the Telcel network, which simulates the behavior of their home networks and offers customers the same services they have at home such as dialing contact numbers directly from the phone book (automatically correcting the dialing codes, short codes and direct access to voice mail and customer services).

Pursuant to a cooperation agreement we signed in 2005 with Vodafone, both groups deliver international roaming services to the other's customers. This agreement extends to Telcel and all our subsidiaries in Latin America. Initially, the services offered pursuant to the agreement include voice and GPRS roaming services, preferred roaming and virtual home environment. The parties also plan to offer pre-paid roaming and pre-paid roaming top-up services at a later stage.

## **Table of Contents**

### **Marketing**

Telcel develops customer and brand awareness through its marketing and promotion efforts and high-quality customer care. It builds upon the strength of its well-recognized brand name to increase consumer awareness and customer loyalty, employing continuous advertising efforts through print, radio, television, sponsorship of sports events and other outdoor advertising campaigns. In addition, Telcel employs concentrated advertising efforts to promote specific products and services such as the Amigo Kit and related products, certain GSM postpaid plans and certain value-added services. In October 2003, Telcel launched *Círculo Azul*, a loyalty rewards program that offers postpaid customers points that can be redeemed for handsets and other goods or services provided by third parties.

In 2007, Telcel's marketing efforts focused significantly on the promotion of Telcel's launch of 3G services in Mexico.

Telcel targets groups of customers who share common characteristics or have common needs. Telcel then assembles a packet of services that meets the particular needs of that targeted group through one of its various pricing plans.

### **Sales and Distribution**

Telcel markets its wireless services primarily through exclusive distributors located throughout Mexico. In the year ended December 31, 2007, approximately 92.2% of Telcel's sales of handsets were generated by cellular distributors (including retail chains), with approximately 5.8% from sales in company-owned stores, and approximately 2.0% from direct sales to corporate accounts.

As of March 31, 2008, Telcel had relationships with a network of over 1,000 exclusive distributors, who sell Telcel's services and products through approximately 41,000 points of sale and receive commissions. Telcel operates permanent training and evaluation programs for distributors to help maintain the level of service quality.

Telcel's company-owned retail stores offer one-stop shopping for a variety of cellular services and products. Walk-in customers can subscribe for postpaid plans, purchase prepaid cards and purchase handsets and accessories. Company-owned stores also serve as points of customer service, technical support and payment centers. As of March 31, 2008, Telcel owned and operated 231 customer sales and service centers throughout the nine regions of Mexico and will continue to open new service centers as necessary in order to offer its products directly to subscribers in more effective ways.

Telcel also distributes prepaid cards and handsets, the latter as part of the Amigo Kit consisting of handsets and free airtime ranging from 25 to 250 minutes, through distributors that include Telmex, Sears, Sanborns and its network of retail outlets. Telmex purchases the Telcel prepaid cards and handsets on the same or similar commercial terms offered to other cellular distributors. We estimate that, as of March 31, 2008, pre-paid cards are available through approximately 114,000 points of sale in Mexico.

Telcel sells prepaid airtime principally through the sale of cards. Telcel also offers customers the option of buying airtime through other means.

To service the needs of its large corporate and other high-usage customers, Telcel has a dedicated corporate sales group.

### **Billing and Collection**

Telcel bills its postpaid customers through monthly invoices, which detail itemized charges such as usage, services such as voicemail, call forwarding, call waiting, caller ID and three-way calling, and long-distance and roaming charges, in addition to applicable taxes. Customers may pay their bills through pre-authorized debit or

## **Table of Contents**

credit charges, in person at banks (including through banks' Internet websites), at Telcel retail stores and other designated retail stores, and through Telcel's Internet website.

If a postpaid customer's payment is overdue, service may be suspended until full payment for all outstanding charges is received. If the subscriber's payment is more than 60 days past due, service may be discontinued. Accounts that are more than 90 days past due are considered doubtful accounts.

A prepaid customer who purchases a prepaid card has 30 or 60 days from the date of activation of the card to use the airtime. After 30 or 60 days, the customer can no longer use that airtime for outgoing calls unless the customer activates a new card. After 180 days, unless the customer has activated a new card, the service is discontinued and the balance on the card, if any, is recognized as revenue.

## **Customer Service**

Telcel places a high priority on providing its customers with quality customer care and support. Approximately 46.5% of Telcel's employees are dedicated to customer service. Customers may call a toll-free telephone number or go to one of the customer sales and service centers located throughout the nine regions for inquiries regarding their service or plan options. In addition, using Telcel's website, subscribers may learn about the various offered rate plans, products and promotions, as well as subscribe for additional services and pay bills on line.

## **Wireless Network**

Telcel's wireless networks use principally digital technologies. Telcel uses time division multiple access (TDMA) digital technology in the 800 megahertz frequency spectrum. TDMA is a digital technology that divides radio spectrum into assigned time slots to transmit signals. In October 2002, Telcel launched a new network using global system for mobile communications (GSM) digital technology in the 1900 megahertz frequency spectrum. GSM is a digital standard used in Europe, North America and elsewhere. Because it is so widely used, it provides higher quality and faster availability of new products and services and a wider variety of suppliers than TDMA technology. In addition, GSM provides access to a better developed path toward third generation wireless technologies. In 2006, Telcel started deploying the GSM, GPRS and EDGE technologies in the 800 megahertz frequency spectrum.

### ***TDMA network***

Telcel has a nationwide TDMA network. TDMA permits the use of advanced dual-band handsets that allow for roaming across analog and digital systems and across 800 megahertz and 1900 megahertz spectrums. TDMA digital technology also allows for enhanced services and features, such as SMS, extended battery life, added call security and improved voice quality.

### ***GSM network***

Telcel has built and installed a GSM network in the 1900 megahertz frequency spectrum in all nine regions in Mexico, which began commercial operation in October 2002. Telcel continues with the expansion of its GSM network, using the 800 megahertz spectrum since 2006. The GSM network allows Telcel to augment its digital capacity and progress in its evolution toward the third generation of wireless technology. GSM technology supports a wide range of voice and data services, including SMS, MMS, CSD, high-speed CSD, GPRS and EDGE, and is currently the most widely used and tested wireless system in the world. GSM technology, which is used in all nine regions, is expected to yield global economies of scale in developing network equipment and handsets, as well as seamless global roaming capabilities.

## **Table of Contents**

Currently, Telcel's GSM network offers service in all nine regions in Mexico. As of December 31, 2007, Telcel's GSM subscriber base accounted for approximately 88.4% of Telcel's total subscribers.

Telcel upgraded the GSM/GPRS network with EDGE technology. It has implemented EDGE technology in more than 57,000 localities, including all the major cities in Mexico. EDGE can be deployed in existing spectrum with minimum changes in hardware. As customers upgrade their equipment to EDGE, Telcel expects that all the applications developed and deployed today will be able to operate at significantly higher speeds and in more places.

### ***Third generation technologies***

Third generation technologies provide high-speed wireless packet data access and all Internet-related services that can be offered through broadband with the advantage of mobility. Any successful third generation strategy must allow the wireless provider to achieve a pervasive footprint quickly and cost effectively and on a global scale through international roaming capacities.

Telcel is deploying a UMTS third generation network in Mexico using the existing 850 megahertz spectrum and began offering 3G services in February 2008. 3G technologies enable network operators to offer users a wider range of more advanced services while achieving greater network capacity through improved spectral efficiency. Services include wide-area wireless phone telephony, video calls and broadband data, all in a mobile environment. Telcel is deploying its UMTS network using the high-speed downlink packet access protocol (HSDPA), which is a mobile telephony communications protocol that allows networks based on UMTS to have higher data transfer speeds and capacity. Telcel's HSDPA deployment supports down-link speeds of 3.6 megabits per second. Our 3G networks use the same technology that is generally used throughout Europe to provide 3G services. We elected to deploy the UMTS/HSDPA networks principally because:

*New market opportunities.* It allows us to enter new markets and provide new services, such as the wireless broadband market, which we believe has significant growth potential throughout Latin America.

*Handset compatibility.* UMTS handsets are compatible with our GSM networks, so a customer can use one handset to connect to our UMTS and GSM networks. This allows us to focus the deployment of our new networks in areas of high demand for 3G services, principally large urban areas.

*Spectral Compatibility.* With our new networks, we can generally offer 3G services using our existing licenses in the 850 megahertz spectrum, which is being increasingly underutilized by our remaining TDMA customers. In addition to being efficient from a cost perspective, deployment in the 850 megahertz spectrum is more efficient and provides better coverage than deployment in the 1900 megahertz spectrum.

*Increased voice capacity.* Our new networks give us approximately 5.7 times more capacity to provide voice services than our existing GSM network using our current spectrum (considering a 5 megahertz fully-used spectrum).

*Cost effective deployment.* Unlike some of the 3G networks being deployed in the United States, UMTS networks use some of the same basic network plant and equipment as GSM networks. This has permitted us to achieve a quicker and more cost effective deployment of 3G services, than would have been possible using other technologies.

Telcel is the first operator to deploy UMTS/HSDPA technologies in Mexico. As of March 31, 2008, Telcel's UMTS/HSDPA network covered 16 of Mexico's principal cities, and Telcel plans to continue expanding its 3G coverage in Mexico throughout 2008.

---

## **Table of Contents**

### ***Spectrum***

Telcel currently holds concessions in each of the nine regions of Mexico in both the 800 megahertz and 1900 megahertz radio spectrums and has a functioning nationwide network. Three other companies also hold concessions for nationwide service using the 1900 megahertz spectrum.

Telcel currently holds 28.4 megahertz of capacity in the 1900 megahertz spectrum in each of Mexico's nine regions. It acquired 10 megahertz (Band D) of this capacity in 1998 and 10 megahertz (Band F) in 2005, in each case through public auctions. Telcel acquired 8.4 megahertz (Band A) as a result of the assignment of capacity from Unefon, S.A. de C.V. during 2005. This assignment was approved by Cofeco and the SCT and no consideration in addition to the U.S.\$267.7 million (Ps. 3,309 million) paid to Unefon in 2003 for the service agreement was paid for the assignment.

### ***Fixed wireless***

Fixed wireless technology provides wireline quality voice telephony available over cellular networks. Voice channels are delivered over the existing telephone wiring within the residence or small business premises, allowing customers to utilize their existing telephones.

Telcel provides public fixed wireless services in rural, semi-urban and urban regions in Mexico.

### **Property**

Telcel's wireless network includes transport and computer equipment, as well as exchange and transmission equipment consisting primarily of switches (which set up and route telephone calls either to the number called or to the next switch along the path, and which may also record information for billing and control purposes), cellular base stations (radio transmitters or receivers that maintain communications with the cellular telephones within given geographical areas or cells), microcells (small cells covered by low-power base stations), and local links and repeaters (equipment for radio or fiberoptic transmission between network elements). Telcel owns all of its network routing and switching equipment. During 2003 and 2004, Telcel sold its reception and transmission equipment for Ps. 4,633 million to unrelated financial institutions and subsequently leased back this property for periods of three to four years. Telcel has the option to reacquire this property at the end of the lease period. Telcel owns certain properties for commercial and administrative offices, the installation of some of its equipment, and 190 customer sales and service centers, while it leases other locations. Telcel operates certain equipment on Telmex property under a co-location agreement. See "Related Party Transactions" under Item 7.

Telcel currently relies on Ericsson for the supply of more than 61% (measured in terms of cost) of its switch and cell site equipment. Telcel purchases handsets and other customer equipment primarily from the major vendors, including Nokia, Sony-Ericsson, Motorola, LG and Samsung.

### **Competition**

Telcel faces competition from other mobile providers using the 800 megahertz spectrum and from providers with PCS licenses that have developed and continue to develop wireless service on the 1900 megahertz spectrum. Telcel's principal competitors in Mexico are Grupo Iusacell, S.A. de C.V. and Telefónica Móviles. We also compete with Nextel in certain segments. According to Cofetel, Telcel's share of the Mexican cellular market was approximately 73% as of December 31, 2007.

The effects of competition on Telcel depend, in part, on the business strategies of its competitors and the general economic and business climate in Mexico, including demand growth, interest rates, inflation and exchange rates. The effects could include loss of market share and pressure to reduce rates. Telcel believes that its strategies to meet competition will continue to help limit its loss of market share and that any loss of market share will be partly offset by increasing demand.

## **Table of Contents**

### **Regulation**

The following is a summary of certain provisions of the General Communications Law, the Telecommunications Law and the telecommunications regulations applicable to Telcel and of the various concessions held by Telcel.

#### ***General***

The General Communications Law, the Telecommunications Law and the telecommunications regulations provide the general legal framework for the regulation of telecommunications services in Mexico. The Telecommunications Law replaced certain provisions of the General Communications Law and established that only those provisions of the General Communications Law not opposed to the Telecommunications Law would remain in effect. Other regulations implementing particular provisions of the Telecommunications Law have been adopted or are pending. The main objectives of the Telecommunications Law are to promote the efficient development of the telecommunications industry, to encourage fair competition in the provision of quality, low-priced services and to assure satisfactory breadth of coverage of the Mexican population.

Under the Telecommunications Law, an operator of public telecommunications networks, such as Telcel, must operate under a concession granted by the SCT. Such a concession may only be granted to a Mexican citizen or corporation and may not be transferred or assigned without the approval of the SCT. A concession to provide services which utilize electro-magnetic frequencies, such as cellular telecommunications services, may have a term of up to twenty years and may be extended for additional terms of equal duration.

The Telecommunications Law requires public telecommunications concessionaires to establish open network architecture which permits interconnection and interoperability. Operators of private networks that do not use electro-magnetic frequencies or provide services to the public are not required to obtain a concession, permit or registration.

#### ***Regulatory oversight***

The SCT, through Cofetel, is the government agency principally responsible for regulating telecommunications services. The SCT's approval is required for any change in Telcel's bylaws. It also has broad powers to monitor Telcel's compliance with the concessions, and it can require Telcel to supply it with such technical, administrative and financial information as it may request. Telcel is required to publish its annual network expansion program and must advise the SCT of the progress of its expansion and modernization program on a quarterly basis.

Cofetel is an independent agency within the SCT, with five commissioners appointed by the President of Mexico, one of whom is appointed as chairman. Cofetel's mandate is to regulate the Mexican telecommunications sector. Many of the powers and obligations of SCT under the Telecommunications Law and the telecommunications regulations have been delegated to Cofetel.

The Telecommunications Law gives certain rights to the Mexican government in its relations with concessionaires, including the right to take over the management of an operator's networks, facilities and personnel in cases of imminent danger to national security, internal peace or the national economy, natural disasters and public unrest. The Telecommunications Law also provides that at the expiration of Telcel's concessions, the Mexican government has a right of first refusal to acquire Telcel's assets used directly in the exploitation of frequency bands. See Termination of the Concessions under this Item 4.

The Telecommunications Law authorizes SCT to impose specific rate and other requirements on any wireless operator that is determined by Cofeco to have substantial power in a specific market according to the Federal Antitrust Law. Pursuant to the Telecommunications Law, SCT has the power to adopt specific

## **Table of Contents**

regulations on rates, quality of service, disclosure of information or other special regulations. Although there can be no assurance SCT will not make a determination with respect to the wireless market in Mexico or any other market that could affect our business with respect to Telcel, to date, the SCT has not made any such determination.

In addition, we are subject to regulation from Profeco under the Federal Consumer Protection Law. This law regulates publicity, the quality of services and information required to be provided to consumers and provides a mechanism to address consumer complaints. Profeco has the authority to impose fines, which can be significant.

### ***Recent Developments in Regulation***

There have been recent changes to Mexican law that may affect our business:

In January 2008, the Mexican Congress published amendments to the Mexican tax laws. We are currently evaluating the effects, if any, that the amendments will have on our business.

On June 12, 2007, Cofetel published the rules for the portability of fixed-line and mobile telephone numbers in Mexico. One of Cofetel's objectives for introducing telephone number portability is to increase competition among operators. The portability rules allow customers to change fixed-line or mobile providers without contacting their current provider and, therefore, we may lose customers without having the opportunity to influence their decision. The rules also require that we bear the costs of changes in our network and any other investments necessary to implement portability, without being able to charge other operators. Cofetel expects that the rules and regulations will be fully implemented by the third quarter of 2008.

The Mexican Congress enacted amendments to the Telecommunications Law of April 11, 2006 aimed at strengthening the regulatory power of Cofetel, stimulating increased investment in telecommunications and increasing competition. All members of Cofetel resigned upon effectiveness of the amendments, and new members were elected. Some members of the Mexican Congress initiated a constitutional proceeding (*acción de inconstitucionalidad*) before the Mexican Supreme Court with respect to certain of the amendments. In June 2007, the Mexican Supreme Court declared unconstitutional certain of such challenged amendments. We are unable to predict the effect that this resolution, any proposal of amendment by the Mexican Congress or the adopted amendments to the Telecommunications Law will have on our business.

In April 2006, the Mexican Congress approved an amendment to the Federal Antitrust Law, which was published in the Official Gazette of the Federation (*Diario Oficial de la Federación*) on June 28, 2006. New regulations pursuant to the amended Federal Antitrust Law were published on October 12, 2007. The amendment strengthens the authority of Cofeco, by, among other things, providing Cofeco with the ability to issue opinions that are binding on other governmental entities, including SCT. The amendment also expands the definition of monopolistic practices, provides a more rigorous approval process for business combinations and establishes more stringent penalties, including substantially higher fines and the forced divestiture of assets. As a result of this amendment, it is likely that Cofeco will take a more active role in enforcing the Federal Antitrust Law. A stricter or different interpretation and enforcement of the Federal Antitrust Law could affect our operations and markets.

### ***Rates***

The Telecommunications Law provides that concessionaires may freely determine the rates for telecommunications services within the limits of their concessions. Mobile rates are not subject to a price cap or any other form of price regulation. However, Telcel and other mobile carriers operating in Mexico are required to disclose to, and register with, Cofetel their rates for mobile service prior to implementing such rates. Cofetel is

**Table of Contents**

authorized to impose specific rate requirements on any operator that is determined to have substantial market power under the Federal Antitrust Law. Although no such determination has been made with respect to the wireless market in Mexico or any other market that could affect our business, there can be no assurance that such a determination will not be made in the future.

***Concessions***

Telcel operates under several different concessions covering particular frequencies and regions. It holds nine separate regional concessions, which together cover all of Mexico, to provide cellular telecommunications services using the 800 megahertz (Band B) radio spectrum. It also holds nationwide concessions to use the 1900 megahertz (Bands A, D and F) radio spectrum and a related concession to provide cellular telecommunications services on that frequency. The 800 megahertz (Band B) concessions, except for Region 9 which covers Mexico City and the states of Mexico, Morelos and Hidalgo, require Telcel to pay semi-annual continuing fees (*aprovechamientos*) determined as a percentage of gross revenues derived from the concessionated services. The percentage is between 5% and 10%. During 2005, a Mexican court permitted Telcel to eliminate from its 800 megahertz concession for the Mexico City area (Region 9) the obligation to make this semi-annual payment, against an increase of Ps. 2,149.5 million in the up-front consideration payable for the concession (from Ps. 116.4 million to Ps. 2,265.9 million). The SCT approved the necessary adjustments to the concession in April 2006. In paying this increase in consideration, Telcel made a cash payment of Ps.150.9 million and was able to credit Ps. 1,998.5 million of previously paid semi-annual fees (*aprovechamientos*). The 1900 megahertz (Band D) concessions, which were purchased for a fixed amount in 1998, and the 1900 megahertz (Band A) concessions, which were acquired by assignment from Unefon, do not require Telcel to pay continuing fees (*aprovechamientos*).

Pursuant to amendments to the Federal Contributions Law (*Ley Federal de Derechos*) enacted in 2003, owners of concessions in Mexico granted or renewed on or after January 1, 2003 are required to pay annual fees (*derechos*) for the use and exploitation of radio spectrum bands. The amount of annual fees (*derechos*) payable could be significant and vary depending on the relevant region and radio spectrum band. These annual fees (*derechos*) would be payable in respect of all spectrum bands, including bands, such as Band B, that are already subject to the payment of semi-annual fees based on gross revenues (*aprovechamientos*). Currently, we are not required to pay annual fees (*derechos*) in respect of our Bands A, B and D concessions since they were awarded prior to 2003, but we are required to pay annual fees (*derechos*) in respect of additional 10 megahertz of capacity in the 1900 megahertz spectrum (Band F) acquired during 2005. Telcel has challenged the validity of our obligation to pay such annual fees (*derechos*) as we believe it is contrary to the Mexican Constitution (*Constitución Política de los Estados Unidos Mexicanos*) and certain provisions of the Telecommunications Law. Telcel obtained a preliminary injunction against the payment of these annual fees (*derechos*). The authorities appealed the injunction before the corresponding court, which referred this matter to the Mexican Supreme Court for final resolution. We expect the Mexican Supreme Court to resolve this matter shortly. Based on the current terms of the law, the fees applicable to the 10 megahertz acquired during 2005 amount to approximately Ps. 255 million (subject to adjustment for inflation as provided by the applicable law) annually for 20 years for all 9 regions.

The eight Band B concessions covering regions other than the Mexico City area were granted for initial terms of twenty years that will expire in 2010 or 2011. The Band B concession covering the Mexico City area (Region 9) was renewed effective October 2000 for a term of fifteen years that will expire in October 2015. The Band D concessions will expire in 2018, the Band A concessions in 2019 and the Band F concessions in 2025. All of these concessions are subject to renewal for additional 20-year terms.

In December 2002, the SCT granted Telcel a new concession to install, operate and exploit a telecommunications network to provide national and international long distance services, as well as data transmission services. The concession was granted for an initial term of 15 years, and it is subject to extension for an additional 15-year period. The concession limited Telcel to provide these services only to its wireless

## **Table of Contents**

subscribers until December 2005. In 2006, Telcel built its long distance network which allows Telcel to carry all the national long distance traffic originated from Telcel's customers to other customers. Also, since May 2007, Telcel opened its interconnection with the local network of Telmex in Mexico City.

### ***Expansion and modernization requirements***

Telcel's concessions impose a number of requirements for expansion and modernization of its network. The concessions establish certain minimum network capacities that Telcel must achieve, to extend service coverage to a targeted percentage of population. Telcel is in compliance with these requirements.

### ***Service quality requirements***

The concessions also set forth extensive requirements for the quality and continuity of Telcel's service, including, in some cases, maximum rates of incomplete and dropped calls and connection time. In May 2003, Cofetel issued the Fundamental Technical Plan for Quality of Local Mobile Services Networks, applicable to all operators, including Telcel. We monitor service quality for compliance with the requirements of the concessions and have shown marked improvement according to recent measurements conducted by Cofetel. Telcel is ready to comply with the requirements of the Fundamental Technical Plan for Quality of Local Mobile Services Networks.

### ***Competition***

The telecommunications regulations and the concessions contain various provisions designed to introduce competition in the provision of communications services. In general, the SCT is authorized to grant concessions to other parties for the provision of any of the services provided by Telcel under the concessions.

### ***Calling Party Pays***

Mexico uses the calling party pays system for cellular calls, under which subscribers only pay for outgoing calls. This replaced the mobile party pays system, under which subscribers also paid for incoming calls, in May 1999. Subscribers have the option of retaining the mobile party pays system but must change their mobile telephone number to do so. In April 2006, Cofetel extended the calling party pays system, which until then applied solely to local calls, to national and international long-distance calls effective November 2006. Under the system, long-distance calls received by mobile subscribers are paid for by the calling parties, and mobile operators do not charge airtime fees to customers receiving calls, except for roaming and certain long-distance fees applicable when subscribers receive calls outside their local areas.

Pursuant to existing regulations, operators establish the terms and conditions for the implementation of the calling party pays, including applicable interconnection fees, by agreement. In December 2006, Telmex and certain other long-distance operators (including Alestra and Maxcom) and all mobile operators in Mexico reached agreement establishing the conditions under which the long-distance calling party pays system would operate until 2010. Telcel's customers can receive calls from long-distance operators that did not subscribe the agreement or from customers of other operators that did not subscribe to the agreement, but will be charged airtime fees.

### ***Interconnection***

Terms of interconnection (including fees) are negotiated between Telcel and other public telecommunications providers. In the event they are unable to agree, Cofetel may impose terms on Telcel and the other public telecommunications networks. As further explained below, following a Cofetel ruling in September 2006, Telcel has reached agreement with fixed-line, long-distance and mobile operators comprising a substantial majority of the local and long-distance traffic delivered through Telcel's network. Under the agreements, the

**Table of Contents**

interconnection charge payable to us by another operator for a local or long-distance call from its customer to our network is Ps. 1.21 per minute for 2008 (it was Ps. 1.34 during 2007). This fee is scheduled to decrease to Ps. 1.09 per minute during 2009 and, to Ps. 1.00 per minute in 2010. These agreements cover approximately 93% of all the traffic terminated in Telcel's network.

In December 2004, Telcel reached an agreement with various other telecommunications service providers as to the interconnection fees applicable under the calling party pays system for the period from January 1, 2005 until December 31, 2007. The agreement called for a gradual reduction of 10% per year in interconnection fees charged under the calling party pays system from the 2004 rate of Ps. 1.90 per minute to Ps. 1.39 by the end of 2007. The agreement also contemplated that these reductions would be reflected in the tariffs charged by fixed operators to their users. The new framework was promoted by Cofetel, and the related agreements were registered with Cofetel.

Certain telecommunications service providers challenged the tariff framework, arguing that the proposed interconnection fees did not properly take into account certain costs and initiated proceedings with Cofetel to obtain their intervention in resolving the matter. In September 2006, Cofetel ruled on these challenges and established a schedule of fees applicable to the operators that challenged the framework. Under Cofetel's ruling, the interconnection rate for calling party pays calls that the dissenting operators must pay Telcel from January 2005 through December 2010 are as follows: Ps.1.71 per minute or fraction thereof during 2005; Ps.1.54 per minute or fraction thereof from January through September 2006; Ps.1.23 per minute or fraction thereof from October through December 2006; Ps.1.23 per minute during 2007; Ps.1.12 per minute during 2008; Ps.1.00 per minute during 2009; and Ps.0.90 per minute during 2010. In addition, Cofetel ruled that starting in 2007, interconnection fees would be charged based on the total number of seconds used during all completed calls for the month rounded to the next minute, rather than by rounding each call to the next minute, as had been the practice. In order to mitigate the effects of this change, Cofetel ruled that wireless operators were entitled to a surcharge of 25% in 2007, 18% in 2008 and 10% in 2009 over the interconnection fees billed to fixed-line operators.

Telcel initiated legal proceedings (*juicio de amparo*) challenging the resolution, and in addition, began participating in negotiations among fixed-line and wireless operators to establish a mutually acceptable interconnection tariff framework and resolve disputes arising from the resolution. During the last quarter 2006 and first quarter 2007, Telcel reached agreement with all cellular operators and a majority of the local fixed operators, including Telmex and some of the dissenting operators, to apply the following rates from 2007 through 2010: Ps.1.34 per minute or fraction of interconnection during 2007, Ps.1.21 per minute or fraction of interconnection during 2008, Ps.1.09 per minute or fraction of interconnection during 2009 and Ps.1.00 per minute or fraction of interconnection during 2010. These interconnection fees are not calculated based on the actual number of seconds of use, but rather on rounding each call to the next minute.

In December 2007, a competent court granted in part Telcel's request for relief (*amparo*), and declared null and void the September 2006 resolution on one of the dissenting parties. However, the court requested Cofetel to issue a new resolution covering the period from 2005 through 2007. Based on Cofetel's 2008 ruling, the interconnection rates for calling party pays calls that the dissenting operator must pay Telcel are as follows: Ps.1.71 per minute or fraction thereof during 2005; Ps.1.54 per minute or fraction thereof from January through September 2006; Ps.1.23 per minute or fraction thereof from October through December 2006; Ps.1.23 per minute during 2007. Under the ruling, Cofetel maintained its position that interconnection fees applicable during 2007 are to be charged based on the total number of seconds used during all completed calls for the month rounded to the next minute, rather than by rounding each call to the next minute, as had been the practice, and that wireless operators are entitled to charge a 25% premium over interconnection fees billed to fixed-line operators during 2007. Telcel expects to receive similar resolutions in connection with the other dissenting parties. Telcel has initiated legal proceedings (*juicio de amparo*) challenging the 2008 resolution, but is charging under protest the lower fees contemplated by the Cofetel resolutions to the remaining dissenting operators, while its challenges to the resolutions are pending. If such challenge is successful, Telcel will seek to collect

## **Table of Contents**

from dissenting operators any difference in fees arising from the applicability of lower rates in previous periods. The dissenting parties have requested Cofetel to establish interconnection rates for the period from 2008 to 2011. As of the date of this annual report, Cofetel has not issued a resolution establishing interconnection rates for such period.

During April 2008, Cofetel notified Telcel of new challenges to the interconnection framework filed by one of the original dissenting parties. Telcel has responded to this new challenge, and it expects that the administrative proceeding regarding this interconnection dispute will be concluded by Cofetel during second quarter of 2008. Any new order from Cofetel may result in a significant reduction to applicable interconnection rates, which in turn would affect Telcel's results since its interconnection revenues have typically exceeded the interconnection costs that it must pay to other operators. See "Legal Proceedings - Telcel - Interconnection Fees" under Item 8.

The current interconnection charge for calls made from a mobile line to a fixed line, which Telcel pays to fixed-line operators, including Telmex, is U.S.\$0.00975 per minute.

### ***Termination of the concessions***

The General Communications Law, the Telecommunications Law and the concessions include various provisions under which the concessions may be terminated before their scheduled expiration dates. Under the Telecommunications Law, the SCT may cause early termination of any of the concessions in certain cases, including:

failure to exercise rights under a concession during the 180 days after that concession is granted;

failure to expand telephone services at the rate specified in the concession;

interruption of all or a material part of the services provided by Telcel;

acts by Telcel with the effect of impeding the operations of other concessionaires;

refusing interconnection arrangements with other concessionaires;

change of jurisdiction by Telcel;

transfer, assignment of, or grant of liens to, Telcel's concessions or any asset used to provide service without SCT's approval;

failure to pay certain government fees;

violation of the prohibition against ownership of shares of Telcel by foreign states;

any material modification of the nature of Telcel's services without prior SCT's approval; and

breach of certain other obligations under the General Communications Law.

## Edgar Filing: AMERICA MOVIL SAB DE CV/ - Form 20-F

In addition, the concessions provide for early termination by the SCT following administrative proceedings in the event of:

a material and continuing violation of any of the conditions set forth in the concessions;

material failure to meet any of the service expansion requirements under the concessions;

material failure to meet any of the requirements under the concession for improvement in the quality of service;

engagement in any telecommunications business not authorized under the concession and requiring prior approval of the SCT;

**Table of Contents**

following notice and a cure period, failure without just cause to allow other concessionaires to interconnect their networks to Telcel's network; or

bankruptcy of Telcel.

The General Communications Law and all but one of Telcel's 800 megahertz concessions provide that in the event of early termination of Telcel's mobile concessions, all assets that are the subject of such concession would revert to the Mexican government without compensation to Telcel. In the event of early termination of any of Telcel's PCS concessions, the Mexican government would have the option to purchase the equipment, installations and other assets used directly for the exploitation of the frequencies which are the subject of such concession. The latter regime also applies to one of Telcel's 800 megahertz concessions.

**Speedy Móvil**

Speedy Móvil, S.A. de C.V. is a Mexican company that develops mobile data solutions for SMS, wireless Internet (WAP) and voice-activated data applications for Telcel and our other subsidiaries and investments.

In addition to developing mobile data applications, Speedy Móvil evaluates content and application providers and enters into contracts with them in order to provide our wireless providers with content and applications. No concessions or licenses are necessary for Speedy Móvil's operations.

At December 31, 2007, Speedy Móvil had 24 employees.

**Table of Contents****NON-MEXICAN OPERATIONS**

We have subsidiaries or businesses in the telecommunications sector in Brazil, the Southern Cone region (Argentina, Paraguay, Uruguay and Chile), Colombia, the Andean region (Ecuador and Peru), Central America (El Salvador, Guatemala, Honduras and Nicaragua), the United States and the Caribbean (the Dominican Republic, Jamaica and Puerto Rico). Our principal subsidiaries outside Mexico are described below. The revenues of our subsidiaries other than Telcel represented 59.2% of our consolidated revenues for 2007, as compared to 53.4% of our consolidated revenues for 2006.

In addition, we expect to have opportunities to invest in other telecommunications companies outside Mexico, especially in Latin America and the Caribbean, because we believe that the telecommunications sector will continue to be characterized by growth, technological change and consolidation. We may take advantage of these opportunities through direct investments or other strategic alliances.

The following table sets forth financial and operating information for certain of our non-Mexican operations for the periods indicated. Lines in service are presented as of year-end. For some segments or periods, information may not be comparable to prior periods because it includes the results of operations of acquired companies as from the date of consolidation in our financial statements. See Note 20 to our audited consolidated financial statements.

(1) Average for the year of the amount obtained each month by dividing service revenues by the average number of customers during such month. The figure includes both prepaid and postpaid customers.

(2) Total number of customer deactivations for a period divided by total subscribers at the beginning of such period.

(3) Includes our operations in Argentina, Chile, Paraguay and Uruguay. We started consolidating the results of our Chilean and Paraguayan operations on September 2005 and August 2005, respectively.

(4) Includes our operations in Ecuador and Peru. We started consolidating the results of our Peruvian operations in September 2005.

(5) Includes our operations in El Salvador, Guatemala, Honduras and Nicaragua. For our operations in Central America, average monthly revenues per subscriber, average monthly minutes of use per subscriber and churn rate are presented only with respect to our wireless services in these countries and do not take into consideration our fixed-line services. In March 2006, Sercom Nicaragua merged into ENITEL.

(6) We began consolidating the results of Codetel in December 2006. Average monthly revenues per subscriber, average monthly minutes of use per subscriber and churn rate are presented only with respect to our wireless services in this country and do not take into consideration our fixed-line services. ARPUs and MOUs are calculated using only periods after consolidation.

(7) Includes our operations in Puerto Rico and Jamaica. We began consolidating the results of Puerto Rico in April 2007 and of Jamaica in December 2007.

We own, directly or indirectly, a substantial majority of the telephone plant of our non-Mexican operations.

---

## **Table of Contents**

### **Brazil (Telecom Américas)**

#### ***General***

Telecom Américas is one of the three largest providers of wireless telecommunication services in Brazil, with an estimated nationwide market share in Brazil at December 31, 2007, of approximately 24.9%. Brazil is the largest market in Latin America in terms of wireless customers.

Telecom Américas provides services in Brazil under a unified brand name and it offers a variety of rate plans to its postpaid customers and offers prepaid services in all of its markets. At December 31, 2007, Telecom Américas served approximately 30.2 million subscribers compared to 23.8 million subscribers at December 31, 2006 and covered approximately 190 million licensed points of presence (POPs). At December 31, 2007, approximately 81% of Telecom Américas subscribers were prepaid customers.

Telecom Américas owns and operates cellular networks using GSM, CDMA and TDMA digital technology. We operate in Brazil under the PCS (*Serviço Móvel Pessoal*) regime. Telecom Américas launched its GSM network in 2003 in certain major urban areas, and as of December 31, 2007, the GSM network covered more than 2,445 cities and was used by 94.5% of Telecom Américas wireless subscribers. We continue rolling out the GSM network with the goal of providing similar coverage as the Band A incumbent providers in the major markets.

In addition, during the fourth quarter of 2007, we began offering 3G services in Brazil under our new UMTS/HSDPA network. We continue the rollout of UMTS/HSDPA technologies in Brazil and by March 31, 2008, our UMTS/HSDPA network covered 40 towns, where approximately 20% of Brazil's population resides. We were the first operator to offer 3G services in Brazil. In order to rollout 3G services in Brazil, during 2008, we acquired 20 megahertz of additional spectrum in each of five regions and 30 megahertz of additional spectrum in each of six regions.

We have built our operations in Brazil through a number of transactions commencing in 2000 and ending with the acquisitions of operators in the metropolitan area of São Paulo and in the states of Ceará, Piauí, Rio Grande do Norte, Paraíba, Pernambuco and Alagoas during 2003 and the acquisition of a license in the Minas Gerais region in 2005. In April 2005, Stemar, a company owned by Claro, was awarded a license to operate wireless services in the Minas Gerais region. In September 2007, Claro acquired licenses to operate wireless services in the cities of Londrina and Tamarana (Paraná) and the north region (Amazonas, Pará, Maranhão, Roraima and Amapá) in Brazil. At December 31, 2007, our two principal operating subsidiaries, Claro and Americel, had approximately 8,656 employees. We own all of our network equipment in Brazil.

We operate in Brazil through two principal operating subsidiaries, Claro and Americel. Claro is licensed to operate in the metropolitan area of São Paulo and in the states of Rio de Janeiro, Espírito Santo, São Paulo, Rio Grande do Sul, Santa Catarina, Paraná, Ceará, Piauí, Rio Grande do Norte, Paraíba, Pernambuco, Alagoas, Bahia, Sergipe, Minas Gerais, Amazonas, Pará, Maranhão, Roraima and Amapá, and Americel in seven states in the central-west and northern regions of Brazil.

Through a number of holding companies we own more than 99.97% of the share capital of BCP S.A. (now Claro S.A.) and 99.38% of the share capital of Americel S.A. BNDESPar (the private equity arm of BNDES, the Brazilian development bank) holds approximately 0.03% and 0.62% of the share capital of Claro and Americel, respectively.

#### ***Sales and Distribution***

Telecom Américas markets its wireless services primarily through retail chains (approximately 5,554 points of sale) and exclusive distributors (dealers) (approximately 3,326 points of sale) located throughout the regions where it operates in Brazil. In the year ended December 31, 2007, approximately 56.8% of Telecom Américas sales of handsets were generated by retail chains, 32.3% by exclusive distributors (dealers) and approximately

## **Table of Contents**

8.1% from sales in company-owned stores, of which there are approximately 143. Telecom Américas also sells and distributes its products and services over the Internet.

Telecom Américas has implemented permanent training and evaluation programs for dealers to help maintain the level of service quality.

Telecom Américas company-owned retail stores offer one-stop shopping for a variety of cellular services and products. Walk-in customers can subscribe for postpaid plans, prepaid plans, purchase prepaid cards and purchase handsets. Telecom Américas stores serve as customer sales and service centers and Telecom Américas expects to continue to open new service centers as necessary in order to offer its products directly to subscribers in more effective ways.

Telecom Américas has a corporate sales group to service the needs of its large corporate and other high-usage customers.

### ***Billing and Collection***

Telecom Américas bills its postpaid customers through monthly invoices, which detail itemized charges such as usage, services such as voicemail, and long-distance and roaming charges, in addition to applicable taxes. Customers may pay their bills with a credit card, through online banking, or in person at the post office, outlets of federal lottery houses (*Casas Lotéricas*) or some of Telecom Américas stores.

If a postpaid customer's payment is overdue, service may be suspended until the payment for outstanding charges is received. If the subscriber's payment is more than 60 days past due, service may be discontinued. Accounts that are more than 180 days past due are categorized as doubtful accounts.

A prepaid customer who purchases a card has between 90 and 180 days from the date of activation of the card to use the airtime. After such time, the customer can no longer use that airtime for outgoing calls unless the customer activates a new card. Sixty days after the card expires, unless the customer activates a new card, the balance on the card, if any, is recognized as revenue.

### ***Competition***

Although the number of competitors has decreased primarily as a result of consolidation, competition in the Brazilian wireless industry is substantial and varies by region. In addition to us, there are four other groups in Brazil with significant nationwide coverage. The largest is Vivo, a joint venture between Telefónica Móviles and Portugal Telecom. The joint venture or one of its partners owns interests in some of the wireless companies that were created upon the breakup of Telebrás. The others are Telecom Italia Mobile (TIM), Oi and Brasil Telecom. Other regional competitors are CTBC and Sercomtel. We also face competition from Nextel, a joint venture between Motorola and Nextel Communications, Inc., for trunking services to the corporate segment in urban areas.

### ***Regulatory environment***

In conjunction with the breakup and privatization of the Telecomunicações Brasileiras S.A. Telebrás telecommunications monopoly, Brazil opened its cellular mobile telephone service industry to private enterprises. Starting in 1997, ten cellular licenses covering all of Brazil were auctioned to wireless operators to compete against the eight incumbent providers that emerged from the Telebrás breakup and that were subsequently auctioned to private enterprises. Accordingly, there were two cellular service providers in all markets in Brazil, including the city of São Paulo, one operating in subfrequency Band A and another in subfrequency Band B. Starting in 1999, the entire Brazilian telecommunications sector has been open to competition.

## **Table of Contents**

In 1997, Brazil enacted the General Telecommunications Law (*Lei Geral de Telecomunicações*) to promote competition among service providers and establish an independent regulatory agency, ANATEL, to regulate its telecommunications industry. ANATEL has the authority to grant concessions and licenses for all telecommunications services, except for broadcasting services.

In September 2000, ANATEL published guidelines for the implementation of PCS (*Serviço Móvel Pessoal*) operations in Brazil. Under the guidelines, Brazil is divided into three regions for PCS operation within the 1800 megahertz frequency, as opposed to ten regions for the cellular service providers. Under the September 2000 guidelines, the Band A and Band B cellular providers have the option to switch to PCS, and migration to PCS is a condition for the extension of their concessions. All concessionaires in Brazil have migrated to the PCS regime. Upon migration to PCS, the Band A and Band B cellular providers have the right to apply for long distance services licenses and are no longer subject to cellular regulations that restricted them from operating in more than two regions per Band. Regulations require that migrating companies adopt PCS service plans and provide for the establishment of charges for the use of one operator's network by another. During 2003, our operating companies in Brazil exchanged their original concessions for 15-year PCS authorizations. The 15-year period started from the time the original concessions were granted, generally in 1997 or 1998. This change will allow the operating companies to extend the life of the license for an additional 15 years, upon the payment of a fee.

The September 2000 guidelines also established rules regarding the selection of up to three additional wireless providers per region, corresponding to Bands C, D and E. Beginning in February 2001, ANATEL initiated a series of auctions through which it sold rights to D-Band and E-Band licenses. After canceling the auction of new licenses under the C-Band, ANATEL implemented procedures in May 2002 for the sale of C-Band bandwidth in installments not to exceed 50 megahertz per existing service provider, through which each of Telecom Americas principal operating companies acquired bandwidth.

In December 2007, ANATEL auctioned the remaining spectrum of Bands A, B, C, D, and E to existing service providers as extension blocks. In this auction, we acquired spectrum to initiate operations in the northern region of Brazil (Amazonas, Pará, Maranhão, Amapá and Roraima) and in the cities of Londrina and Tamarana.

As part of ANATEL's plan to auction 3G licenses (in the 2100 megahertz spectrum), ANATEL issued a resolution in 2006 increasing the maximum overall spectrum permitted per operator from 50 megahertz to 80 megahertz. In December 2007, ANATEL auctioned new 3G bands (Bands F, G, I and J in the 2100 megahertz spectrum) dividing Brazil into 11 regions. In that auction, we acquired 20 megahertz of additional spectrum in each of five regions and 30 megahertz of additional spectrum in each of six regions.

In Brazil, rates for telecommunications services are regulated by ANATEL. In general, PCS licensees are authorized to increase basic plan rates only for inflation (less a factor determined by ANATEL based on the productivity of each operator during the year) and on an annual basis. However, operators are allowed to create non-basic plans (known as alternative plans) and modify them, without prior ANATEL approval. Discounts from existing service plans, both basic and non-basic, are allowed without ANATEL approval.

Currently, operators determine interconnection fees by agreement, subject to ANATEL intervention only in case of disputes. On February 2005, ANATEL commenced an arbitration proceeding against all mobile and fixed line operators in Brazil regarding the inflation adjustment applied by operators on the interconnection fees. The operators agreed on an interim price adjustment of 4.5% on mobile interconnection fees. In 2006, the arbitration panel requested that the operators hire a consulting firm to analyze and recommend a resolution to the arbitration. Because operators could not agree on a single firm, two firms were hired and each presented a report to ANATEL. While ANATEL has not reached a decision regarding the proceedings, the initial decision of ANATEL's arbitrage commission has initially decided to recommend that ANATEL confirm the 4.5% interim adjustment.

In 2005, ANATEL defined a series of cost-based methods, including the fully allocated cost methodology, for determining interconnection fees charged by operators belonging to an economic group with significant

---

## **Table of Contents**

market power. ANATEL has not published all of the applicable regulations, but the implementation of the cost-based methodology is expected to take effect in 2010. It is uncertain how ANATEL will define the criteria for determining whether an operator belongs to an economic group with significant market power for purposes of this new regulation. However, given the size of our operations in Brazil, it is likely that we would be deemed to belong to an economic group with significant market power. In 2008, mobile operators in Brazil will begin providing ANATEL with annual operating data (initially, for 2006 and 2007), which is intended to support ANATEL's future cost-based methods for determining interconnection fees. When these methods are ultimately implemented and if we are deemed to be an economic group with significant market power, the revenues and results of operations of our Brazilian operations may be affected.

In July 2006, Brazilian regulators adopted a change in the interconnections regime relating to the methodology required for the recognition of interconnection fees. Under the new methodology (full bill), we recognize interconnection revenues (and costs) on a gross basis, rather than on a net basis as required by the prior system (bill and keep).

In March 2007, ANATEL issued a resolution establishing the portability of fixed and mobile numbers. Through this resolution, customers have the option of retaining the fixed and mobile numbers if and when they change service providers within each state of Brazil. The implementation process of this resolution will take two years, with national roll out beginning in August 2008 in certain cities and ending in March 2009. ANATEL will define, through an administrative ruling, the one-time fee to be charged to a customer for the election to retain its number. However, the new service provider may choose cover the fee on behalf of the customer.

In 2007, ANATEL issued a revision of the PCS rules which revision came into effect in February 2008. Under the revised PCS rules, service providers are required to implement customer service centers in all regions of Brazil with more than 100,000 inhabitants, charge only for delivered SMS messages and reimburse unused prepaid credits. Other main changes to the PCS rule include the regulation of the duration of contracts with a given operator (maximum of 12 months per contract) and the right of customers to change service plans with the same operator without penalties.

## **Southern Cone**

### ***Argentina (AMX Argentina)***

AMX Argentina Holdings S.A. (previously named CTI Holdings) provides nationwide PCS wireless service in Argentina under the Claro brand name, through its wholly-owned subsidiary AMX Argentina, S.A. During the first quarter of 2008, we re-branded our services in Argentina to Claro, from CTI Móvil. In 2007, AMX Argentina Holdings S.A.'s two subsidiaries, CTI Compañía de Teléfonos del Interior, S.A. and CTI PCS, S.A. merged and changed their name to AMX Argentina S.A. We own a 100% interest in AMX Argentina, which we acquired through a series of transactions in 2003 and 2004. Since the acquisition, AMX Argentina's subscriber base has grown significantly, from 1.3 million in October 2003 to 13.5 million at December 31, 2007.

At December 31, 2007, AMX Argentina had approximately a 34.9% share of the Argentine wireless market. Approximately 75% of AMX Argentina's subscribers at December 31, 2007 resided in the interior of Argentina and the balance in the greater Buenos Aires region.

AMX Argentina began providing services in the interior of Argentina in 1994 and in Greater Buenos Aires in 2000. AMX Argentina offers basic cellular service through a variety of rate plans and also offers prepaid services. Prepaid customers represented 89% of AMX Argentina's total subscribers as of December 31, 2007. In addition, AMX Argentina offers long distance and value added services.

AMX Argentina's cellular network uses GSM, AMPS and CDMA technology and covers approximately 96% of Argentina's population. During the fourth quarter of 2007, AMX Argentina launched third generation technology networks (UMTS/HSDPA) in certain urban areas of Argentina. At December 31, 2007, AMX Argentina had 2,034 employees.

---

**Table of Contents**

AMX Argentina's principal competitors are: Telecom Personal, a subsidiary of Telecom Argentina, the principal telecom operator in Argentina, which is controlled by Telecom Italia, and Movistar, a subsidiary of Telefónica Móviles. Movistar is the company resulting from the merger in 2005 of Unifon and Movicom, which was acquired in January 2005 by Telefónica Móviles from Bell South.

AMX Argentina holds licenses covering the entire Argentine territory. These licenses contain coverage, reporting and service requirements, but do not have a fixed expiration date. The Communications Ministry (*Secretaría de Comunicaciones de la Nación*) is in charge of supervising the telecommunications industry in Argentina. It is authorized to foreclose and sell the shares of a licensee in case of specified breaches of the terms of a license.

***Chile (Claro Chile)***

In August 2005, we began providing wireless services in Chile through Claro Chile S.A.

Claro Chile provides nationwide wireless service in Chile under the Claro brand name. We own a 100% interest in Claro Chile, which we acquired in August 2005 from Endesa Participadas, S.A. for U.S.\$505 million (Ps. 5,888 million). We began including the results of Claro Chile in our audited consolidated financial statements in September 2005. Claro Chile had approximately 2.7 million wireless subscribers as of December 31, 2007.

At December 31, 2007, Claro Chile had approximately a 18% share of the Chilean wireless market and was the third largest wireless operator in Chile measured by the number of subscribers.

Claro Chile was granted one of three nationwide PCS licenses in 1997. In 1998, it began providing services in Chile under the Chilesat PCS brand, which was changed in 1999 to Smartcom and in 2006 to Claro. Claro Chile offers basic cellular service through a variety of rate plans and also offers prepaid services. Prepaid customers represented 85% of Claro Chile's total subscribers as of December 31, 2007. In addition, Claro Chile offers long distance and value added services.

Claro Chile's cellular network uses GSM technology and CDMA technology. In 2007, we launched a third generation UMTS network which covered 41% of the Chilean population by year-end. Claro Chile is currently deploying a nationwide GSM and UMTS network which is expected to cover all urban zones in Chile by the end of 2008. Claro Chile was the first operator to offer 3G services in Chile, during the fourth quarter of 2007. At December 31, 2007, Claro Chile had 1,352 employees.

Claro Chile's principal competitors are Entel PCS and Movistar, a subsidiary of Telefónica Móviles.

Claro Chile holds a concession covering the entire Chilean territory. The concession was awarded in June 1997 and covers a 30-year period. The concession contains coverage, reporting and service requirements. The Chilean Transportation and Communications Ministry (*Ministerio de Transporte y Telecomunicaciones*) is in charge of supervising the telecommunications industry in Chile. It is authorized to foreclose and sell the shares of a concessionaire in case of specified breaches of the terms of the concession.

In May 2006, Claro Chile acquired from Telefónica Móviles a concession for the use of 25 megahertz within the 800 megahertz frequency, which permits Claro Chile to increase the wireless services it provides. The term of this concession is for a 25-year period for the Metropolitan area and Region V and for an indefinite period for the rest of Chile.

***Paraguay (AMX Paraguay)***

In July 2005, we began providing wireless services in Paraguay through AMX Paraguay.

AMX Paraguay provides nationwide wireless service in Paraguay under the Claro brand. During the first quarter of 2008, we re-branded our services in Paraguay to Claro, from CTI Móvil. We own 100% interest

## **Table of Contents**

in AMX Paraguay, which we acquired in July 2005 from Hutchison Telecom for U.S.\$25 million (Ps. 295 million). We began including the results of AMX Paraguay in our audited consolidated financial statements in August 2005. AMX Paraguay had approximately 409,748 wireless subscribers as of December 31, 2007.

At December 31, 2007, AMX Paraguay had approximately 10.2% share of the Paraguayan wireless market and was the third largest wireless operator in Paraguay measured by the number of subscribers.

AMX Paraguay offers basic cellular service through a variety of rate plans and also offers prepaid services. Prepaid customers represented 82.6% of AMX Paraguay's total subscribers as of December 31, 2007. In addition, AMX Paraguay offers value added services.

AMX Paraguay's cellular network uses GSM technology and covers approximately 81.8% of Paraguay's population. AMX Paraguay is expanding its nationwide GSM network in Paraguay. AMX Paraguay began offering 3G services in Paraguay, using a new UTM/HSRPA network, during the fourth quarter of 2007. At December 31, 2007, AMX Paraguay had 90 employees.

AMX Paraguay's principal competitors are: Telcel (Milicom International), Nucleo, a subsidiary of Personal, the wireless operator of Telecom Argentina, and Hola Paraguay (KDDI Corporation).

AMX Paraguay holds a PCS 1900 spectrum license and a data transmission license covering Paraguay's three most populated cities, Asunción, Encarnación and Ciudad del Este. The licenses were granted in December 2003 and October 2004, respectively, and each covers a 5-year period. The licenses are renewable, subject to regulatory approval, and contain coverage, reporting and service requirements. The National Telecommunications Commission of Paraguay (*Comisión Nacional de Telecomunicaciones de Paraguay*) is in charge of supervising the telecommunications industry in Paraguay. It is authorized to cancel licenses in case of specified breaches of the terms of a license.

### ***AM Wireless Uruguay***

In June 2004, we acquired a 20-year license to operate three broad-band PCS frequencies in Uruguay at a cost U.S.\$18.1 million (Ps. 173 million). We began providing wireless services in Uruguay in December 2004, through AM Wireless Uruguay. AM Wireless Uruguay uses GSM technology to provide service to its customer base. AM Wireless Uruguay began offering 3G services in Uruguay, using a new UTM/HSRPA network, during the fourth quarter of 2007. As of December 31, 2007, AM Wireless Uruguay had approximately 704,579 wireless subscribers. AM Wireless Uruguay had 159 employees at December 31, 2007.

During the first quarter of 2008, we re-branded our services in Uruguay to Claro, from CTI Móvil.

As of December 31, 2007, AM Wireless Uruguay had approximately a 23% share of the Uruguayan wireless market. AM Wireless Uruguay offers basic cellular services through a variety of rate plans and prepaid services. Prepaid customers represented 87% of total subscribers as of December 31, 2007.

AM Wireless Uruguay's principal competitors are: Ancel, a company controlled by the Uruguayan government, and Movistar, a subsidiary of Telefónica Móviles.

The National Telecommunications Administration (*Administración Nacional de Telecomunicaciones*) is in charge of supervising the telecommunications industry in Uruguay.

### **Colombia (Comcel)**

Comunicación Celular S.A. (Comcel) provides wireless telecommunications services in the eastern, western and Caribbean regions of Colombia. We have operated in the eastern and western regions of Colombia since 2002 and in the Caribbean region since February 2003. We own approximately 99.4% of the share capital of Comcel.

## **Table of Contents**

At December 31, 2007, Comcel had approximately 22.3 million subscribers, compared to 19.5 million subscribers at December 31, 2006, and believed it had a 65.8% share of the wireless market. During the first quarter of 2008, Comcel began offering 3G services in Colombia under a new UMTS/HSDPA network. Comcel was the first operator to offer 3G services in Colombia. Comcel's UMTS/HSDPA network currently covers 8 cities in Colombia, which account for approximately 40% of the country's population.

Comcel offers basic cellular service through a variety of rate plans and also offers prepaid service. Prepaid customers represented 85.5% of Comcel's total subscribers as of December 31, 2007. Purchasers of Comcel's Amigo kit for prepaid service receive a cellular phone together with airtime included, enabling the customer to activate wireless service without contracts, monthly fees or credit checks. Comcel markets its services through independent local distributors and a direct sales force. In addition, Comcel and its distributors have arrangements with various supermarkets for the distribution of all of Comcel's basic services and products as well as the provision of technical service and assistance. The Amigo prepaid card is available in more than 150,000 locations nationwide. Comcel's strategy is to continue to expand its customer base through the build-out of its network.

At December 31, 2007, Comcel had 3,375 employees.

In each of the three regions of Colombia, we compete with Telefónica Móviles and Colombia Móvil, a consortium acquired by Millicom in 2006. Colombia Móvil started nationwide commercial operations in November 2003. Comcel also competes with traditional fixed-line telephone service operators. In addition, Comcel faces competition from alternative wireless services, including mobile radio and paging services, rural wireless operators and trunking services. These competing wireless services are widely used in Colombia as a substitute for fixed-line services.

The Colombian Ministry of Communications (*Ministerio de Comunicaciones*, or Ministry of Communications) and the Colombian Telecommunications Regulation Commission (*Comisión de Regulación de Telecomunicaciones*) are responsible for regulating and overseeing the telecommunications sector, including cellular operations. The Ministry of Communications, which granted the cellular concessions in 1994, supervises and audits the performances of the concessionaires' legal and contractual obligations. The activities of Comcel are also supervised by the Colombian Superintendency of Industry and Commerce (*Superintendencia de Industria y Comercio* or SIC), which enforces antitrust regulations, promotes free competition in the marketplace and protects consumer rights.

Comcel holds ten-year concessions, acquired in 1994, to provide wireless telecommunications services in the eastern, western and Caribbean regions of Colombia. Under the terms of the concessions, each of Comcel is required to make quarterly royalty payments to the Ministry of Communications based on its revenues. Under the terms of an agreement entered into in March 2004, the Ministry of Communications has agreed to renew Comcel's concessions through 2014.

## **Andean Region**

### ***Ecuador (Concel)***

Consorcio Ecuatoriano de Telecomunicaciones, S.A. (Concel) is a wireless telecommunications operator in Ecuador. We own 100% of the share capital of Concel.

At December 31, 2007, Concel had approximately 7 million subscribers, compared to approximately 5.7 million at December 31, 2006, representing a 69.36% share of the Ecuadorian wireless market. Prepaid customers represented 88.9% of Concel's total subscribers as of December 31, 2007.

Concel owns and operates a cellular network that uses a GSM technology. In November 2007, it launched a new UMTS/HSDPA network. The GSM network provides nationwide coverage and the UMTS network covers the three largest cities (Quito, Guayaquil and Cuenca), which together account for approximately 85.47% of Ecuador's population.

---

**Table of Contents**

At December 31, 2007, Conecel had 1,423 employees.

Conecel's principal competitor is Telefónica Móviles, which following the purchase of the Bell South properties in Ecuador in 2004 offers wireless local, national and international long-distance and public telephone services in Ecuador.

Conecel is subject to regulation from:

the National Telecommunications Counsel (*Consejo Nacional de Telecomunicaciones*, or Conatel), which is responsible for policy-making in the telecommunications area;

the National Telecommunications Secretariat (*Secretaría Nacional de Telecomunicaciones*, or Senatel), which is responsible for executing Conatel's resolutions; and

the Telecommunications Agency (*Superintendencia de Telecomunicaciones* or Suptel), which monitors the use of authorized frequencies and compliance with concession provisions.

Conecel holds nationwide concessions, which have been fully paid, to operate its wireless network with 25 megahertz on the 800 megahertz (Band A) radio spectrum. On 2006, Conecel obtained a concession to operate 10 megahertz on the 1900 megahertz (Sub Band E-E) radio spectrum. These include a concession for cellular telephone service that expires in August 2008, and concessions for data transmission and Internet services that expire in 2017. Conecel has been in negotiations with the Ecuadorian Government to define the terms and conditions applicable to a new concession to operate a mobile network and provide mobile services in Ecuador. In May 2008, the Ecuadorian Government accepted Conecel's proposal regarding the economic terms and payments to be made for the new concession. Pursuant to the economic offer, Conecel committed to make an initial payment of U.S.\$289 million (Ps. 3,140 million) upon the renewal of the concession. In addition, Conecel committed to make annual payments equal to 3.93% of its operating revenues for each year during the term of the concession. These annual payments include a contribution to a government fund for the provision of telecommunications services to the poor. As of the date of this annual report, we continue in negotiations with the Ecuadorian Government to renew the license agreement before its expiration, in order to continue providing mobile telecommunications services in Ecuador for an additional 15-year term commencing in August 2008. The new concession is expected to allow us to provide 3G services and to contain new and stricter quality of service requirements, covering issues such as number of successful call completions, average delivery time of SMS services, area coverage and service interruptions.

***Peru (América Móvil Perú)***

In August 2005, we began providing wireless services in Peru through América Móvil Perú, S.A.C.

América Móvil Perú provides nationwide wireless service in Peru under the Claro brand. We own a 100% interest in América Móvil Perú, which we acquired in August 2005 from TIM International N.V., a member of the Telecom Italia group, for a purchase price of \$407 million (330 million (Ps. 4,762 million) after net debt adjustments). We began including the results of América Móvil Perú in our consolidated financial statements in September 2005. América Móvil Perú had approximately 5.5 million wireless subscribers as of December 31, 2007.

At December 31, 2007, América Móvil Perú had approximately 39% share of the Peruvian wireless market and was the second largest wireless operator in Peru measured by the number of subscribers.

América Móvil Perú began providing services in certain regions of Peru in 2001. América Móvil Perú offers basic cellular service through a variety of rate plans and also offers prepaid services. Prepaid customers represented 90.30% of América Móvil Perú's total subscribers as of December 31, 2007. In addition, América Móvil Perú offers long distance and value added services.

---

## **Table of Contents**

América Móvil Perú's cellular network uses GSM technology and covers approximately 20% of Peru's population. América Móvil Perú is in the process of expanding its GSM network. In addition, during the last quarter of 2007, América Móvil Perú began offering 3G services in Peru under a new UMTS/HSDPA network. América Móvil Perú was the first operator to offer 3G services in Peru. América Móvil Perú's UMTS/HSDPA network currently covers the country's six largest cities. At December 31, 2007, América Móvil Perú had 1,407 employees.

América Móvil Perú's principal competitor is Movistar Perú, a subsidiary of Telefónica Móviles.

América Móvil Perú holds concessions to provide PCS, long-distance and value added services covering all departments in Perú. The concessions were awarded by the Ministry of Transportation and Communications (*Ministerio de Transportación y Comunicaciones*) in May 2000, March 2001 and December 2002, respectively, and each covers a 20-year period. The concessions contain coverage, reporting and service requirements. The Supervising Entity of Private Investment in Telecommunications of Peru (*Organismo Supervisor de Inversión Privada en Telecomunicaciones del Perú*) is in charge of supervising the telecommunications industry in Peru. The Ministry of Transportation and Communications (*Ministerio de Transportación y Comunicaciones*) is authorized to cancel the concessions in case of specified breaches of the terms of a concession.

Amov Perú S.A., our wholly-owned subsidiary, held a Band C 30 megahertz license covering the entire Peruvian territory, which was transferred to América Móvil Perú in April 2006.

### **Central America**

#### ***El Salvador (CTE)***

Compañía de Telecomunicaciones de El Salvador (CTE) and its subsidiaries provide fixed, mobile and other telecommunications services in El Salvador. In October 2003, we acquired a 51% interest in CTE from France Telecom and certain other investors. In December 2004, we acquired an additional 41.54% interest in CTE from the government of El Salvador. As a result of the two transactions and a number of public market transactions in El Salvador, we had a 95.8% interest in CTE at December 31, 2007.

At December 31, 2007, CTE had approximately 841,000 fixed-line subscribers and a market share of approximately 81%.

CTE's wireless business is operated by its wholly-owned subsidiary CTE Telecom Personal S.A. de C.V. Personal's cellular network uses GSM digital technology and covers approximately 92.3% of the Salvadorean population. At December 31, 2007, Personal had approximately 1.7 million wireless subscribers, which we estimate represents a market share of approximately 28%. Personal offers both prepaid and postpaid plans.

CTE offers a variety of services through its fixed-line and wireless networks, including Internet access, data transmission and satellite television, and also sells handsets and related products. CTE also operates a telephone directory business in El Salvador and offers fixed-line services in Guatemala. CTE markets and distributes its services and products directly to customers and also employs a network of independent distributors for services and products other than basic telephony, such as prepaid calling cards and handsets. At December 31, 2007, CTE and its subsidiaries had approximately 2,698 employees.

CTE is the principal provider of fixed-line services in El Salvador. CTE's principal competitor in the wireless sector is Telemovil, an affiliate of Millicom International, with a market share of approximately 40%. CTE also competes with Telefónica de El Salvador, an affiliate of Telefónica Móviles, Digicel, which is owned by a consortium of international investors and Intelfon.

CTE's business is subject to comprehensive regulation and oversight by the Salvadorean Energy and Telecommunications Agency (*Superintendencia General de Electricidad y Telecomunicaciones*). CTE holds a concession from the Salvadorean government to operate its nationwide fixed-line network and Personal holds a nationwide PCS 1900 concession to operate its cellular network.

## **Table of Contents**

### ***Guatemala (Telgua)***

Telecomunicaciones de Guatemala, S.A. (Telgua) is a fixed-line telecommunications operator in Guatemala that was privatized in November 1998. Subsidiaries of Telgua also provide wireless, Internet, cable television, paging, data transmission and other services in Guatemala. We own approximately 99.3% of the stock of Telgua.

At December 31, 2007, Telgua had approximately 1.1 million fixed-line subscribers compared to approximately 1.0 million at December 31, 2006, a market share of approximately 98.3%.

Telgua's wireless business is operated by its wholly-owned subsidiary Servicios de Comunicaciones Personales Inalámbricas, S.A. (Sercom). Sercom's cellular network uses CDMA digital technology and, as of October 2003, overlaid GSM technology. Telgua's network covers approximately 80.0% of its population. At December 31, 2007, Sercom had approximately 3.5 million wireless subscribers, representing a market share of approximately 37.6%.

Telgua offers a variety of services through its fixed-line and wireless networks, including Internet access, data transmission, cable television, two-way communication systems used mainly for group communication, and dispatch applications, or trunking, and also sells handsets and related products. Telgua markets and distributes its services and products directly to customers and also employs a network of independent distributors for services and products other than basic fixed-line telephony, such as prepaid calling cards and handsets.

Telgua continues to be the principal provider of fixed-line and mobile services in Guatemala. Telgua's principal competitors in the wireless sector are Millicom (Tigo) and Telefónica Móviles (Movistar).

At December 31, 2007, Telgua had 2,745 employees.

Telgua's business is subject to comprehensive regulation and oversight by the Guatemalan Telecommunications Agency (*Superintendencia de Telecomunicaciones*) under the General Telecommunications Law (*Ley General de Telecomunicaciones*). As of May 2006, Telgua's business is subject to regulation under certain dispositions of the free trade agreement among the Dominican Republic, Central American countries, including Guatemala, and the United States. Telgua holds a license from the Guatemalan government to operate its nationwide fixed-line network and numerous licenses to operate its cellular network on different frequencies and in different regions.

### ***Nicaragua (ENITEL)***

In December 2003, the Nicaraguan Government accepted our bid to acquire a 49% interest in Empresa Nicaragüense de Telecomunicaciones, S.A. (ENITEL) for a purchase price of U.S.\$49.6 million (Ps. 646 million). We consummated this acquisition in January 2004. ENITEL provides fixed, mobile and other telecommunications services in Nicaragua. In August 2004, we acquired an additional 50.03% interest in ENITEL from Megatel LLC and certain other investors for a price of U.S.\$128 million (Ps. 1,666 million).

At December 31, 2007, ENITEL had approximately 1.69 million wireless subscribers, which we estimate represents approximately 66.72% of the wireless market in Nicaragua, and approximately 257,588 fixed-line subscribers, which represents 100% of the fixed-line market in Nicaragua.

ENITEL's wireless network uses GSM digital technology and covers approximately 63.82% of the Nicaraguan population. ENITEL is also a major provider of fixed-line services in Nicaragua. ENITEL offers a variety of services through its fixed-line and wireless networks, including Internet access and data transmission, and also sells handsets and related products. ENITEL markets and distributes its services and products directly to customers and also employs a network of independent distributors for services and products other than basic telephony, such as prepaid calling cards and handsets.

At December 31, 2007, ENITEL had 1,865 employees.

## **Table of Contents**

The principal competitor of ENITEL in the Nicaraguan wireless sector is Telefónica Móviles (Movistar), which has a market share of approximately 33.28%.

ENITEL's business is subject to comprehensive regulation and oversight by the Nicaraguan Telecommunications Agency (*Instituto Nicaragüense de Telecomunicaciones y Correos*) under the General Telecommunications and Postal Services Law (*Ley General de Telecomunicaciones y Servicios Postales*).

### ***Honduras (Sercom Honduras)***

As part of the same transaction in which we agreed to purchase the additional 50.03% of ENITEL, we agreed to acquire all of the shares of Megatel de Honduras, S.A. de C.V., now called Servicios de Comunicaciones de Honduras, S.A. de C.V. (Sercom Honduras), which provides wireless and other telecommunications services in Honduras. The acquisition of Megatel de Honduras, S.A. de C.V. closed in June 2004.

At December 31, 2007, Sercom Honduras had approximately 1.1 million wireless subscribers, representing approximately 30.4% of the wireless market in Honduras. The Company uses GSM technology to provide service to its customer base. At December 31, 2007, Sercom Honduras had approximately 568 employees.

The principal competitor of Sercom Honduras in the Honduran wireless sector is Celtel, an affiliate of Millicom International, which has a market share of approximately 70%.

Sercom Honduras' business is subject to comprehensive regulation and oversight by the Honduran Telecommunications Agency (*Comisión Nacional de Telecomunicaciones*, or CONATEL) under the Telecommunications Law (*Ley Marco del Sector de Telecomunicaciones*).

### ***Panama***

In May 2008, Claro Panamá, S.A., our Panamanian subsidiary, obtained a license for the provision of mobile voice, data and video services in Panama. The license grants the right for use of 30 megahertz in the 1900 megahertz band for a 20-year period. We paid U.S.\$86 million (Ps. 894 million) for the license. Movistar and Cable & Wireless currently provide wireless services in Panama, and Digicel acquired a license to provide services in May 2008.

### **United States (TracFone)**

TracFone Wireless, Inc. is engaged in the sale and distribution of prepaid wireless service and wireless phones throughout the United States, Puerto Rico and the U.S. Virgin Islands. We own 98.2% of the capital stock of TracFone. We first acquired a controlling interest in TracFone in February 1999.

TracFone currently offers its prepaid wireless service and wireless handsets throughout the United States using an extensive distribution network. At December 31, 2007, TracFone had approximately 9.5 million subscribers, all of which are prepaid subscribers, and is the largest operator in the U.S. prepaid cellular market. TracFone's subscriber base increased by approximately 20% in 2007.

TracFone does not own any wireless telecommunications facilities or hold any wireless licenses. Instead, it purchases airtime through agreements with approximately 20 wireless service providers and resells airtime to customers. Through these agreements, TracFone has a nationwide network covering virtually all areas in which wireless services are available. Customer usage is controlled using patented, proprietary software installed in each phone TracFone sells, and TracFone provides customer service and manages customers as though it were a network-based carrier. TracFone has entered into agreements with Nokia, Motorola, LG and Kyocera to enable them to include TracFone's software in various handsets they produce. TracFone's business model does not require any significant recurring capital expenditures. TracFone sells handsets through a variety of U.S. retail stores and sells its prepaid airtime through a large number of independent retailers throughout the United States.

---

## **Table of Contents**

As of December 31, 2007, TracFone had 540 employees.

TracFone competes with the major U.S. wireless operators and other mobile virtual network operators. As the prepaid market has grown in the U.S., many of these entities have increased their focus on prepaid wireless services and can be expected to continue to do so in the future. TracFone is subject to the jurisdiction of the U.S. Federal Communications Commission, or FCC, and to certain U.S. telecommunications laws and regulations. TracFone is not required to procure wireless licenses to carry out its business.

### **Caribbean**

#### ***Dominican Republic (Codetel)***

Compañía Dominicana de Teléfonos, C. por A. (Codetel) provides fixed-line and wireless services in the Dominican Republic.

Codetel provides nationwide fixed-line and wireless services in the Dominican Republic under the Codetel and Claro brands, respectively. We own 100 % interest in Codetel, which we acquired on December 1, 2006 from Verizon Communications, Inc. for a purchase price of U.S.\$2.42 billion (Ps. 27,557 million) (U.S.\$2.02 billion (Ps. 23,121 million) before net cash adjustments). We began including the results of Codetel in our audited consolidated financial statements in December 2006.

Codetel had approximately 2.6 million wireless subscribers and 748,179 fixed line subscribers as of December 31, 2007. At December 31, 2007, Codetel had approximately 82.3% share of the Dominican fixed line market and was the largest fixed line operator in the Dominican Republic measured by the number of subscribers. Codetel had a 49.9% share of the wireless market and was the largest wireless operator in the Dominican Republic at December 31, 2007.

Codetel began providing services in the Dominican Republic in 1930. It offers a variety of services through its fixed-line and wireless networks, including Internet access and data transmission, and also sells handsets and related products. It also offers basic cellular service through a variety of rate plans and also offers prepaid services. Prepaid customers represented 88.5% of Codetel's total subscribers as of December 31, 2007. In addition, Codetel offers long distance and value added services.

Codetel's cellular network uses CGMA technology and covers approximately 95% of the Dominican Republic's population. Since May 2007, Codetel also uses GSM technology to provide wireless services. At December 31, 2007, Codetel had 3,123 employees.

Codetel's principal competitor is France Telecom (Orange).

Codetel holds concessions to provide telecommunication services covering the whole territory of the Dominican Republic. The first concession was awarded by the Dominican government in 1930. The latest concession was awarded by the Dominican government in 1995 for a 20-year period retroactive as of April 1990, with automatic 20-year renewals. The concessions do not contain coverage, reporting or service requirements. The Dominican Institute of Telecommunications (*Instituto Dominicano de las Telecomunicaciones* or Indotel) is in charge of supervising the telecommunications industry in the Dominican Republic. Indotel is authorized to cancel the concessions in case of specified breaches of the terms of a concession.

#### ***Jamaica (Oceanic)***

Oceanic Digital Jamaica Limited (Oceanic) provides wireless and value-added services in Jamaica.

Oceanic provides nationwide wireless services in Jamaica under the Mi Phone brand. We own 100% interest in Oceanic, which we acquired on November 5, 2007 for a purchase price of U.S.\$75.1 million (Ps. 800

---

**Table of Contents**

million) (U.S.\$73.6 million (Ps. 796 million) before net cash adjustments). We began including the results of Oceanic in our audited consolidated financial statements in December 2007.

Oceanic had approximately 221,786 wireless subscribers as of December 31, 2007, all of which were prepaid customers. At December 31, 2007, Oceanic had approximately 8.4 % share of the Jamaican wireless market.

Oceanic began providing services in Jamaica in November 2001. It offers a variety of services through its wireless networks, including web access, and also sells handsets and related products. In addition, Oceanic offers long distance and value added services, such as SMS, web access and Push to Talk.

Oceanic's cellular network uses CDMA technology and covers approximately 65% of Jamaica's population. We are currently deploying GSM and UMTS networks, which are expected to cover at least 85% of the Jamaican population by the end of 2008. At December 31, 2007, Oceanic had 121 employees.

Oceanic's principal competitors are Digicel and Cable & Wireless Jamaica.

Oceanic holds concessions to provide wireless services covering all of Jamaica. The concessions contain coverage, reporting and service requirements. The Office of Utilities Regulator (OUR) is in charge of supervising the telecommunications industry in Jamaica. The OUR is authorized to cancel the concessions in case of specified breaches of the terms of a concession.

***Puerto Rico (Telpri)***

In April 2007, we began providing fixed-line and wireless services in Puerto Rico through Telecomunicaciones de Puerto Rico, Inc. or TELPRI.

TELPRI provides nationwide fixed-line and wireless service in Puerto Rico under the Claro brand. On March 30, 2007, we acquired control of 100% of the issued and outstanding shares of common stock of TELPRI for an aggregate purchase price of U.S.\$1.89 billion (Ps. 20,946 million) (U.S.\$2.21 billion (Ps. 25,050 million) before net debt adjustments). We acquired 62.01% of TELPRI's share capital from Verizon Communications, Inc., 28% from the Puerto Rico Telephone Authority, 12.99% from Popular Inc. and 7% from an employee stock ownership plan. TELPRI had approximately 920,000 fixed-line subscribers and 591,962 wireless subscribers as of December 31, 2007.

At December 31, 2007, TELPRI had approximately 83% share of the Puerto Rican residential fixed line market and was the largest fixed line operator in Puerto Rico measured by the number of subscribers. At December 31, 2007, TELPRI had approximately 28.1% share of the Puerto Rican wireless market.

TELPRI began providing services in Puerto Rico in 1914. TELPRI is a major provider of fixed-line services in Puerto Rico. TELPRI also offers basic cellular service through a variety of rate plans and also offers prepaid services. Postpaid customers represented 81.6% of TELPRI's total subscribers as of December 31, 2007. In addition, TELPRI offers long distance and value added services.

TELPRI's cellular network uses CDMA and TDMA technology and covers approximately 97% of Puerto Rico's population. TELPRI is in the process of analyzing the infrastructure and systems in Puerto Rico for the purposes of deploying a GSM network and a UMTS/HSDPA network. At December 31, 2007, TELPRI had 4,413 employees.

TELPRI's principal competitors are AT&T, Centennial, Sprint, SunComm and Open Mobile. TELPRI and AT&T are the largest wireless operators in Puerto Rico, with each holding a similar share of the market's subscribers. In the fixed-line business TELPRI's principal competitors are Centennial Wireline, Worldnet Communications and other competitive local exchange carriers that resell our services.

**Table of Contents**

TELPRI holds concessions to provide PCS and long-distance services covering all of Puerto Rico. The concessions contain coverage, reporting and service requirements. The Federal Communications Commission and the Telecommunications Regulatory Board of Puerto Rico are in charge of supervising the telecommunications industry in Puerto Rico. The Federal Communications Commission is authorized to cancel the concessions in case of specified breaches of the terms of a concession.

**Table of Contents**

**OTHER INVESTMENTS**

Our principal investments in affiliates other than our subsidiaries are described below. Financial information provided for these affiliates has been prepared in accordance with Mexican FRS and restated in constant pesos as of December 31, 2007. We can give no assurance as to the extent, timing or cost of future international investments, and such investments may involve risks to which we have not previously been exposed.

**Telvista**

We own a 44.6% interest in Telvista, a Delaware corporation that operates call centers in the United States.

**Table of Contents****CAPITAL EXPENDITURES**

The following table sets forth our consolidated capital expenditures (in nominal amounts) for each year in the three-year period ended December 31, 2007. The table below includes capital expenditures in property, plant and equipment. We have also dedicated resources to acquire new companies and licenses and increase our interest in some of our subsidiaries, which in 2007, 2006 and 2005 amounted to Ps. 26,045 million, Ps. 24,165 million and Ps. 10,769 million, respectively. See Liquidity and Capital Resources Capital Requirements under Item 5.

	Year ended December 31, <sup>(1)</sup>		
	2005	2006	2007
	(millions of nominal pesos)		
Transmission and switching equipment	Ps. 34,807	Ps. 30,316	Ps. 32,100
Other	3,867	3,368	2,522
<b>Total capital expenditures</b>	<b>Ps. 38,674</b>	<b>Ps. 33,684</b>	<b>Ps. 34,622</b>

(1) Figures reflect amounts accrued for each period.

Our capital expenditures during 2007 related primarily to expanding the capacity of our GSM networks and deploying UMTS/HSDPA networks in many of our markets. We have budgeted capital expenditures of approximately U.S.\$4.0 billion for the year ending December 31, 2008, but this budgeted amount could change as we re-evaluate our expenditure needs during the year or as a result of any acquisitions. We expect that our capital expenditures during 2008 will primarily relate to expanding the capacity of our GSM networks and to expanding our third generation UMTS/HSDPA network coverage throughout our principal markets in Latin America. We expect to spend approximately 19% of our budgeted capital expenditures in Mexico, 47% in South America, 24% in Central America and 10% in the Caribbean. In addition, we expect to spend approximately U.S.\$ 1.2 billion during 2008 to acquire or renew licenses, principally for the acquisition of additional spectrum in Brazil (U.S.\$845 million), the renewal of our concession in Ecuador (U.S.\$289 million), the acquisition of a license in Panama (U.S.\$86 million) and the acquisition of a license in Puerto Rico (U.S.\$31 million).

We expect to finance our capital expenditures for 2008 with funds generated from operations and, depending on market conditions and our other capital requirements, new debt financings.

**Item 5. Operating and Financial Review and Prospects**

The following discussion should be read in conjunction with our audited consolidated financial statements and the notes thereto included in this annual report. Our financial statements have been prepared in accordance with Mexican FRS, which differs in certain respects from U.S. GAAP. Note 22 to the audited consolidated financial statements provides a description of the principal differences between Mexican FRS and U.S. GAAP, as they relate to us, a reconciliation to U.S. GAAP of income and total stockholders' equity, a description of how operating income under U.S. GAAP was determined and a condensed statement of cash flows under U.S. GAAP.

Pursuant to Mexican FRS, in our financial statements:

nonmonetary assets (excluding plant, property and equipment of non-Mexican origin) and stockholders' equity are restated for inflation based on the Mexican National Consumer Price Index; plant, property and equipment of non-Mexican origin are restated based on the rate of inflation in the country of origin and converted into Mexican pesos using the prevailing exchange rate at the balance sheet date;

gains and losses in purchasing power from holding monetary liabilities or assets are recognized in income; and

all amounts are restated in constant pesos as of December 31, 2007.

## **Table of Contents**

Pursuant to Mexican FRS and effective for financial periods beginning on or after January 1, 2008, we will be required to restate our financial statements for inflation only when the economic environment qualifies as inflationary for purposes of Mexican FRS. See Inflation Accounting below and Note 2 (zz) to our audited consolidated financial statements.

The following discussion analyzes certain operating data, such as ARPUs, MOUs and churn rate, that is not included in our financial statements. We calculate ARPUs for a given period by dividing service revenues for such period by the average number of subscribers for such period. The figure includes both prepaid and postpaid customers. We calculate churn rate as the total number of customer deactivations for a period divided by total subscribers at the beginning of such period.

We provide this operating data because it is regularly reviewed by management and because management believes it is useful in evaluating our performance from period to period. We believe that presenting information about ARPUs and MOUs is useful in assessing the usage and acceptance of our products and services, and that presenting churn rate is useful in assessing our ability to retain subscribers. This additional operating information may not be uniformly defined by our competitors. Accordingly, this additional operating information may not be comparable with similarly titled measures and disclosures by other companies.

We count our wireless subscribers by the number of lines activated. We continue to count postpaid subscribers for the length of their contracts. We disconnect our postpaid subscribers at the moment they voluntarily discontinue their service or following a prescribed period of time after they become delinquent. We disconnect, or churn, our prepaid subscribers after a period of four months after they discontinue to use our service, so long as they have not activated a calling card or have received traffic. We calculate our subscriber market share by dividing our own subscriber figures into the total market subscriber figures periodically reported by the regulatory authorities in the markets in which we operate. We understand that these regulatory authorities compile total market subscriber figures based on subscriber figures provided to them by market participants, and we do not independently verify these figures.

## **Inflation Accounting**

Through the end of 2007, Mexican FRS required us to recognize the effects of inflation in our financial statements. They also required us to re-express financial statements from prior periods in constant pesos as of the end of the most recent period presented. As discussed below, we do not expect that inflation accounting will be applicable in 2008.

### ***Cessation of inflation accounting under Mexican FRS***

Mexican FRS have changed for periods beginning on January 1, 2008, and the inflation accounting methods currently applied will no longer apply unless the economic environment in the country of origin qualifies as inflationary for purposes of Mexican FRS. The environment is inflationary if the cumulative inflation rate equals or exceeds an aggregate of 26% over three years (equivalent to an average of 8% in each year). Based on current forecasts, we do not expect the Mexican economic environment to qualify as inflationary in 2008 or 2009, but that could change depending on actual economic performance. However, some of our international operations may qualify as inflationary for purposes of Mexican FRS, in which case, in preparing our consolidated financial statements, we would be required to reflect the effects of inflation on the results of those operations based on the rate of inflation of the country of origin.

As a result, we expect to present financial statements without inflation accounting beginning in 2008. We will not re-express financial statements for prior periods to give retrospective effect to the cessation of inflation accounting. In this respect, our financial statements for 2008 will not be comparable to those for prior periods. In comparing our results for 2008 to results for prior periods, we expect that the most important effects of the cessation of inflation accounting, and of related changes in other accounting standards, will be as follows:

We will no longer recognize monetary gain and loss attributable to the effects of inflation on our monetary assets and liabilities. We expect our financing costs to be less volatile as a result.

---

## **Table of Contents**

We will cease to adjust the carrying values of nonmonetary assets for inflation and currency variations. We expect that this will make our depreciation charges less volatile.

We will cease to re-express results of prior periods. Financial information for dates and periods prior to 2008 will continue to be expressed in constant pesos as of December 31, 2007.

We will cease to use inflation-adjusted assumptions in determining our employee benefit obligations and instead use nominal discount rates and other assumptions. We do not expect this change to have a significant effect on our financial results in the short term, but it is difficult to predict.

We will express all of our operating flows in nominal terms.

### **Overview**

#### ***Trends in Operating Results***

We have experienced significant growth in our operating revenues (28.2% in 2007 and 23.6% in 2006) and operating income (39.6% in 2007 and 66.3% in 2006) in recent years. Besides acquisitions, the principal factors affecting our operating revenues and operating income relate to growth in subscribers and traffic. Traffic can grow as a result of increased usage by existing customers or as a result of subscriber growth or both. We have generally experienced both increased usage and subscriber growth in recent periods. Due principally to competitive pressures, we have not increased prices in recent periods. In fact, we reduced effective prices in many of our markets during 2007, which contributed to an increase in traffic, but adversely affected our ARPUs in many markets. In addition, our interconnection revenues have been adversely impacted by a reduction in interconnection rates in many of our markets. During 2008, for example, interconnection rates in Mexico and Colombia have declined by 11% and 50%, respectively, as compared to 2007 levels. We cannot provide assurances that traffic increases will continue to fully offset further price or rate declines, and therefore further price or rate declines may adversely affect our revenues and operating income.

At December 31, 2007, we had approximately 153.4 million wireless subscribers, as compared to 124.8 million at December 31, 2006, a 23.0% increase. During 2006, we experienced a 31.4 million or 33.7% increase in wireless subscribers. Subscriber growth during 2007 and 2006 was substantially attributable to organic growth by our existing subsidiaries rather than acquisitions of new companies.

We believe that many of the markets we serve provide opportunities for continued growth, and as subscribers and traffic increase, we generally expect to report higher revenue and operating income (before depreciation and amortization) as a result of economies of scale. These effects can be partly or wholly offset, however, by the effects of competition on prices and on subscriber acquisition costs. Our operating margins, particularly in certain geographic segments, have tended to decline during periods of accelerated subscriber growth because of the costs of acquiring new subscribers, which include subsidies for equipment purchases and activation commissions. As our subscriber base grows and new subscribers represent a lower fraction of our subscriber base, our operating margins have generally improved. Although we cannot give assurances that this improvement will continue. We are in the process of launching and actively promoting 3G and value-added services in many of our markets. In the short term, this may adversely affect our margins, as we incur in maintenance and depreciation expenses for the new networks and in increased subscriber acquisitions costs due to significant advertising and marketing expenses and subsidies for new 3G handsets, which tend to have higher prices than traditional GSM handsets.

Each of our markets has different competitive and economic conditions. The market and competitive conditions are independent in the different markets in which we operate, and they are sometimes subject to rapid change.

#### ***Effects of Recent Acquisitions***

During the last three years, we acquired a total of six companies throughout Latin America. The consolidation of these companies affects the comparability of our recent results. We recorded all of these

**Table of Contents**

acquisitions using the purchase method and the results of each acquired company were consolidated in our financial statements as from the month following the consummation of its acquisition. Our audited consolidated financial statements reflect the consolidation of these companies as follows:

AMX Paraguay (as of August 2005);

Claro Chile (as of September 2005);

América Móvil Perú (as of September 2005);

Codetel (as of December 2006);

TELPRI (as of April 2007); and

Oceanic (as of December 2007).

The following table sets forth the full-year revenues of the companies acquired during the last three years in millions of constant pesos as of December 31, 2007, as well as the percentage of those revenues that are included in our consolidated revenues. The table does not include results of these companies for years prior to the year during which we consummated the respective acquisitions. Revenues for periods prior to the date on which we acquired these companies are not reflected in our audited consolidated financial statements.

	2005		Annual Revenues		2006		2007	
	Ps.	% consolidated	Ps.	% consolidated	Ps.	% consolidated	Ps.	% consolidated
	(peso amounts in millions of constant Mexican pesos as of December 31, 2007)							
AMX Paraguay	247	46.9%	402	100%	304			
Claro Chile	3,510	36.4	4,145	100	5,692			100
América Móvil Perú	3,335	39.6	4,655	100	6,478			100
Codetel			10,166	9.7	10,990			100
TELPRI					13,176			74.1
Oceanic					209			6.7

Acquisitions only accounted for approximately 0.5% of our wireless subscriber growth during 2007.

On March 30, 2007 we acquired control of 100% of the issued and outstanding shares of common stock of TELPRI for an aggregate purchase price of U.S.\$1.89 billion (Ps. 20,946 million) (U.S.\$2.21 billion (Ps. 25,050 million) before net debt adjustments). TELPRI is Puerto Rico's largest telecommunications service provider.

On November 5, 2007 we acquired control of 100% of the capital stock of Oceanic for a purchase price of U.S.\$75.1 million (Ps. 800 million) (U.S.\$73.6 million (Ps. 796 million) before net cash adjustments). Oceanic provides wireless and value-added services in Jamaica.

***Merger with Amtel***

On December 13, 2006, our shareholders approved the merger of Amtel, our then controlling shareholder, and its subsidiary Corporativo, with us. In accordance with Mexican FRS, the merger with Amtel has been accounted for on a historical basis similar to a pooling of interest basis and we have adjusted our financial information and selected financial information presented in this annual report to include the assets, liabilities and results of operations of Amtel and its subsidiary for all periods presented. See Note 3 to our audited consolidated financial statements.

***Geographic Segments***

We have operations in seventeen countries, which are grouped for financial reporting purposes in 8 geographic segments. Segment information is presented in Note 20 to our audited consolidated financial statements included in this annual report. Mexico has traditionally been our principal geographic market, accounting for 40.8% of our

**Table of Contents**

total operating revenues in 2007 and 32.6% of our total wireless subscribers at December 31, 2007. The percentage of our total operating revenues represented by Mexico has decreased in recent periods (49.2% in 2005 and 46.6% in 2006) principally as a result of acquisitions outside Mexico. We expect Mexico to remain our principal geographic market in the near future but expect that our non-Mexican operations will continue to grow in importance.

Brazil is our second most important market in terms of revenues and subscribers, accounting for 18.7% of our total operating revenues in 2007 and 19.7% of our total wireless subscribers at December 31, 2007. We have made significant investments in Brazil in recent periods, through acquisitions and expansions of our networks, and the importance of our Brazilian operations has increased significantly with respect to our overall results.

Our Colombian operations have experienced accelerated subscriber growth in recent years, and as a result Colombia has become our third largest market in terms of revenues and subscribers.

The table below sets forth the percentage of our revenues and total wireless subscribers represented by each of our operating segments for the periods indicated.

	2005		2006		2007	
	% Revenues	% Subscribers <sup>(1)</sup>	% Revenues	% Subscribers <sup>(1)</sup>	% Revenues	% Subscribers <sup>(1)</sup>
Mexico	49.2	38.5	46.6	34.6	40.8	32.6
Brazil	16.8	20.0	16.9	19.1	18.7	19.7
Southern Cone <sup>(2)</sup>	7.0	9.5	8.5	10.6	8.7	11.3
Colombia	8.5	14.8	9.2	15.6	9.5	14.6
Andean Region <sup>(3)</sup>	4.4	6.5	5.3	7.2	5.2	8.1
Central America <sup>(4)</sup>	8.1	4.2	7.0	4.7	5.4	5.3
United States	6.0	6.6	6.1	6.3	5.0	6.2
Dominican Republic			0.4	1.7	3.5	1.7
Caribbean <sup>(5)</sup>					3.2	0.5
	100%	100%	100%	100%	100%	100%

(1) As of December 31.

(2) Includes our operations in Argentina, Chile, Paraguay and Uruguay.

(3) Includes our operations in Ecuador and Peru.

(4) Includes our operations in El Salvador, Guatemala, Honduras and Nicaragua.

(5) Includes our operations in Puerto Rico and Jamaica.

Our subsidiaries report significantly different operating margins, with Mexico, Ecuador, Central America and the Dominican Republic showing margins higher than our consolidated operating margin in 2007 and the remainder showing lower margins, or in the case of Chile, Paraguay and Uruguay, operating losses.

The factors that drive financial performance can differ for our operations in different countries, depending on the business model, competitive situation, regulatory environment, economic factors, capital expenditures requirements, debt profile and many other factors. Accordingly, our results of operations in each period reflect a combination of different effects in the different countries.

**Effects of Economic Conditions and Exchange Rates**

Our results of operations are affected by economic conditions in Mexico, Brazil, Colombia and in the other countries in which we operate. In periods of slow economic growth, demand for telecommunications services tends to be adversely affected.

Our results of operations are also affected by changes in currency exchange rates. Changes in the value of the various operating currencies of our subsidiaries against the U.S. dollar may result in exchange losses or gains on our net U.S. dollar-denominated indebtedness and accounts payable. The appreciation of these currencies

## **Table of Contents**

against the U.S. dollar generally results in foreign exchange gains, whereas the depreciation of these currencies against the U.S. dollar generally results in foreign exchange losses. We recorded a foreign exchange gain of Ps. 2,463 million in 2007, Ps. 2,321 million in 2006 and Ps. 2,367 million in 2005. Changes in currency exchange rates also affect the fair value of financial instruments that we may use to manage our currency risk exposures and consequently our net income. Foreign exchange results have had and may continue to have an important effect on our net income.

In addition, currency fluctuations between the Mexican peso and the currencies of our non-Mexican subsidiaries affect our results of operations as reported in Mexican pesos. We translate the results of our non-Mexican operations to Mexican pesos by applying the period-end exchange rate to the inflation-adjusted local currency amounts. Accordingly, variations in exchange rates, particularly between the Mexican peso and the Brazilian real or the Colombian peso, between years affect the comparability of our results. Our non-Mexican subsidiaries and affiliates accounted for approximately 59.2% of our 2007 operating revenues, as compared to 53.4% in 2006.

### ***Effects of Regulation***

We operate in a regulated industry. Although currently we are free to set end prices to our wireless customers, our results of operations and financial condition have been and will continue to be affected by regulatory actions and changes. In recent periods, for example, regulators have imposed or promoted decreases to the rates charged by operators for access to their networks in some of our markets, and we expect further decreases in interconnection rates in Mexico and Colombia in 2008. This has resulted in a decrease in our interconnection revenues. Through 2007, we have generally been able to fully offset the decrease in interconnection revenues with increased traffic resulting from lower effective prices to customers, but this may change. In Mexico, a national calling party pays regime was introduced in late 2006. We initially benefited from the implementation of this regime through increased interconnection revenues. However, we cannot provide assurances as to the long-term impact that this change may have on our results.

In addition, some jurisdictions are contemplating the possibility of imposing specific regulations on wireless carriers that are deemed dominant. Although we are not currently subject to any regulations or restrictions as a result of our market position, we are one of the subjects in ongoing general market investigations in Mexico to ascertain whether one or more cellular operators have substantial market power in one or more sectors of the telecommunications industry. Adverse determinations in any of these proceedings could result in specific dominant carrier regulations with respect to tariffs, quality of service and information. See Legal Proceedings Telcel Cofeco under Item 8.

### ***Composition of Operating Revenues***

Most of our operating revenues (85.5% in 2007) come from the sale of airtime and other services. Of our service revenues, the largest portion is from airtime charges for outgoing calls. We also derive a significant portion of our revenues from interconnection charges billed to other service providers for calls completed on our network. The primary driver of usage charges (airtime and interconnection charges) is traffic, which, in turn, is driven by the number of customers and by their average usage. Postpaid customers generally have an allotment of airtime each month for which they are not required to pay usage charges. Service revenues also include (1) monthly subscription charges paid by postpaid customers, (2) long-distance charges and (3) charges for value-added and other services, such as roaming, call forwarding, call waiting, call blocking and short text messaging.

Revenues from sales of prepaid services are deferred and recognized as airtime is used or when it expires, and are included under usage charges. For postpaid service, monthly fees are billed in the month prior to service, and are deferred and recognized in the month that service is provided. Revenues from airtime used by postpaid subscribers above the amount covered by their monthly fees are recognized as airtime is used.

## **Table of Contents**

We also have sales revenues from selling handsets and other equipment. Most of our new subscribers purchase a handset, and although we also sell new handsets to existing customers, changes in sales revenues are driven primarily by the number of new customers. The pricing of handsets is not geared primarily to making a profit from handset sales, because it also takes account of the service revenues that are expected to result when the handset is used.

### ***Seasonality of our Business***

Our business has been subject to a certain degree of seasonality, characterized by a higher number of new clients during the fourth quarter of each year. We believe this is driven by the Christmas shopping season.

### **Consolidated Results of Operations**

The discussion below includes the results of our transactions with affiliates, including Telmex. Affiliate transaction information is presented in Note 17 to our audited consolidated financial statements.

### ***Operating Revenues***

Operating revenues increased by 28.2% in 2007 and by 23.6% in 2006. The Ps. 68,575 million increase in revenues in 2007 reflects principally increased traffic and subscriber growth. In addition, the increase in revenues during 2007 reflected the consolidation of our operations in the Dominican Republic and Puerto Rico in late 2006 and early 2007, respectively (which accounted for about Ps. 18,999 million (or 7.8%) of the increase) and the appreciation of many of our operating currencies, particularly the Colombian peso and the Brazilian real, against the Mexican peso (which accounted for about Ps. 1,855 million (or 0.8%) of the increase). Absent effects from acquisitions and exchange rate changes, our operating revenues during 2007 would have increased by 19.6%. We experienced subscriber growth in all of our markets during 2007. Our wireless subscriber base increased by 23.0% between December 31, 2006 and December 31, 2007 and by 33.7% between December 31, 2006 and December 31, 2005.

In 2007 and 2006, we lowered the effective price of our services in some of our markets. This contributed to our ability to attract new subscribers and to an increase in usage, but had an adverse impact on average revenues per subscriber in some of our markets. In addition, our average revenues per subscriber were affected during 2006 and 2007 by lower interconnection rates in some of our principal markets and by a higher portion of our total subscriber base being represented by prepaid subscribers, which generate on average lower revenues than postpaid subscribers.

Service revenues accounted for Ps. 63,605 million of the Ps. 68,575 million increase in operating revenues in 2007. This represents a 31.4% increase in service revenues between 2006 and 2007. In addition to increases in usage charges (by 26.9%) and long-distance charges (by 23.6%), our service revenue increase included a 46.4% increase in monthly subscription charges paid by postpaid customers and a 32.3% increase in revenue from value-added and other services. During 2007, monthly subscription charges represented 22.4% of our service revenues and revenues from value-added and other services represented 15.2% of our service revenues. The increase in monthly subscription charges reflects principally our ability to attract new postpaid customers with more advanced service offerings, as well as the consolidation of our Puerto Rico operations, which accounted for approximately one-fifth of the increase. The subscriber base of our Puerto Rican wireless operations is primarily comprised of postpaid customers.

The increase in operating revenues in 2007 includes a Ps. 4,970 million, or 12.3%, increase in equipment revenues reflecting subscriber growth. Equipment revenues as a percentage of total revenues decreased from 16.6% in 2006 to 14.5% in 2007, reflecting principally lower prices for handsets and an increase in service revenues at a faster rate than our sales of equipment, as well as the fact that due to our subscriber growth in recent years, new customers increasingly account for a lower portion of our subscriber base.

## **Table of Contents**

In 2006, our operating revenues increased by Ps. 46,367 million, or 23.6%, compared to 2005. This increase reflected principally subscriber growth and increased traffic.

The increase in operating revenues in 2006 includes a Ps. 3,495 million, or 9.5% increase in equipment revenues which reflected primarily subscriber growth and the migration of customers to GSM services. Subscribers need to purchase a new handset in order to migrate to GSM. Equipment revenues as a percentage of total revenues decreased from 18.7% in 2005 to 16.6% in 2006, reflecting principally a larger and increasing proportion of our equipment revenues represented by sales of SIM cards for GSM equipment, which have a lower price than handsets.

### ***Operating Costs and Expenses***

*Cost of services and equipment* Cost of services and equipment represented 42.5% of operating revenues in 2007, 46.7% of operating revenues in 2006 and 49.5% of operating revenues in 2005. Cost of services and equipment increased by 16.7% in 2007 and 16.4% in 2006. The decrease in cost of services and equipment relative to revenues in 2007 compared to 2006 reflects primarily a reduction in interconnection rates in some of our markets, including Mexico and Colombia, an improvement in efficiencies in our costs and expenses, principally in infrastructure costs, such as links and network maintenance costs, and lower equipment subsidies.

Although our subscriber growth rates have declined in recent years, we experienced significant subscriber growth during 2007 and 2006. This impacts our margins since we incur costs, such as equipment subsidies, activation commissions and marketing expenses, when we acquire new subscribers.

Cost of equipment was Ps. 69,980 million in 2007 and Ps. 64,711 million in 2006 and primarily represents the cost of handsets sold to subscribers. Equipment costs increased by 8.1% in 2007 and by 10.8% in 2006. Our cost of equipment significantly exceeded our equipment revenues by 35.3% during 2007 and 37.8% during 2006, since we subsidize the cost of equipment for new subscribers.

Cost of services increased by 28.0% in 2007, to Ps. 62,394 million. This increase in cost of services was greater than the growth in service revenues, which increased by 31.4% in 2007. Cost of services increased faster than our service revenues in 2007, primarily due to increased interconnection fees (principally for long distance charges) and infrastructure costs. During 2007, we began incurring maintenance costs for some of our new UMTS/HSDPA networks at a time where we had not yet or had just started offering 3G services. Cost of services increased by 24.9% in 2006 as compared to 2005, while service revenues increased by 26.8% during the same period. In 2006, cost of services increased more slowly than our service revenues because of increasing scale, cost control measures and higher usage of GSM services.

*Commercial, administrative and general* Commercial, administrative and general expenses represented 17.1% of operating revenues in 2007 and 16.6% of operating revenues in 2006 and 20.1% of operating revenues in 2005. On an absolute basis, commercial administrative and general expenses increased by 31.7% in 2007 and 2.1% in 2006. The increase in commercial, administrative and general expenses in 2007 principally reflects higher advertising expenses as a results of the launch of our 3G services in many of our markets and the re-branding of some of our operations to the Claro brand. In addition, the consolidation of TELPRI accounted for Ps. 2,274 million of the increase between 2006 and 2007.

Effective in 2007, in accordance with new rules of Mexican FRS, we report our employee profit sharing obligations under commercial, administrative and general. This reclassification has been retroactively applied to all periods presented in this annual report. Telcel, like other Mexican companies, is required by law to pay to its employees, in addition to their agreed compensation and benefits, profit sharing in an aggregate amount equal to 10% of Telcel's taxable income. Porta (our Ecuadorian subsidiary) is also required to pay employee profit sharing, at a rate of 15% of Porta's taxable income.

*Depreciation and amortization* Depreciation and amortization increased by 45.0% in 2007 and by 22.6% in 2006. As a percentage of revenues, depreciation and amortization increased from 11.6% in 2006 to 13.1% in 2007. The increases in depreciation and amortization in 2007 and 2006 reflect the substantial investments made

---

## **Table of Contents**

in our networks, particularly in connection with the launch and expansion of GSM services in many of our markets and the integration of our recently acquired Caribbean operations. In 2007, we also experienced an increase in depreciation and amortization as a result of the shortening of useful lives and faster depreciation of TDMA and GSM equipment in certain markets, particularly in Colombia and Brazil, due to expected migration of customers to third generation technologies. This change resulted in an increase in our depreciation expense for 2007 of Ps. 5,796 million.

### ***Operating Income***

Operating income increased by 39.6% in 2007 and 66.3% in 2006. With the exception of Chile, Uruguay and Paraguay, all of our subsidiaries reported operating income in 2007. In 2006, all of our subsidiaries other than Telecom Americas reported operating income.

Operating margin (operating income as a percentage of operating revenues) was 27.3% in 2007, 25.1% in 2006 and 18.7% in 2005. The improvement in our operating margin during 2006 and 2007 reflects principally an improvement in margins on our wireless activities across our geographic segments, particularly in Argentina, Brazil, Colombia and Mexico, where revenues are increasing at a faster rate than costs as a result of our increased scale in those markets.

### ***Comprehensive Financing (Income) Cost***

Under Mexican FRS, comprehensive financing cost reflects interest income, interest expense, foreign exchange gain or loss, gain or loss attributable to the effects of inflation on monetary assets and liabilities, and other financing costs.

We had comprehensive financing cost of Ps. (387) million in 2007, as compared to comprehensive financing cost of Ps. (28) million in 2006 and Ps. (2,790) million in 2005. The increase in comprehensive financing cost between 2007 and 2006 reflects principally an increase in other financing costs, net of Ps. 1,744 million, which more than offset an increase in net monetary gain of Ps. 1,190 million. Our net interest expense and foreign exchange gains remained relatively stable between 2006 and 2007. The increase in other financing costs, net includes losses on the value in our investment in U.S. Commercial Corp., which amounted to Ps. 1,363 million 2007 and Ps. 1,375 million in 2006. (In December 2007, we donated our 19.7% interest in U.S. Commercial Corp. to Fundación Carso, S.A. de C.V. See Related Party Transactions Transactions with Other Affiliates under Item 7.) The decrease in our comprehensive financing cost between 2006 and 2005 reflects principally a decrease in net other financing costs of Ps. 2,287 million, a decrease in net interest expense of Ps. 729 million and a decrease in foreign exchange gain of Ps. 46 million. These factors more than offset a decrease in net monetary gain of Ps. 200 million.

For 2007 and 2006, changes in the components of comprehensive financing cost were as follows:

In 2007, we had a decrease in net interest expense of Ps. 52 million (not including change in fair value or costs of our financial derivative instruments). The decrease was primarily attributable to a change in Mexican FRS that effective 2007 requires the capitalization of interest and other financing costs relating to debt incurred to finance capital expenditures. In 2006, we had a decrease in net interest expense of Ps. 729 million (not including changes in fair value or costs of our financial derivative instruments). The decrease was primarily related to a decline in the average cost of our indebtedness and higher interest income resulting from an increase in our average cash balance.

We had a foreign exchange gain, net of Ps. 2,463 million in 2007, as compared to a gain of Ps. 2,321 million in 2006 and Ps. 2,367 million in 2005. The foreign exchange gain in 2007 was primarily attributable to currency appreciation of the Mexican peso against the U.S. dollar and of the Brazilian real and the Colombian peso against the Mexican peso and the U.S. dollar. Our foreign exchange results are determined on the basis of the exchange exposures faced by our different operating currencies against the U.S. dollar and the Mexican peso, and not just on the basis of changes between the Mexican peso and the U.S. dollar.

**Table of Contents**

Since 2002, our average monetary liabilities have exceeded our average monetary assets, resulting in net gains from monetary position. In 2007, we reported a Ps. 5,038 million net monetary gain, as compared to Ps. 3,848 million in 2006 and Ps. 4,056 million in 2005. The increase in 2007 was primarily related to higher inflation in many of our markets, as well as an increase in our average net indebtedness. In 2008, we do not expect to record monetary gains or loss following the cessation of inflation accounting under Mexican FRS. See *Inflation Accounting* in this Item 5.

We reported a net other financing cost of Ps. 3,153 million in 2007, Ps. 1,409 million in 2006 and Ps. 3,696 million in 2005. Net other financing costs include valuation of financial instruments, commissions, fair-value gains and losses on investments, and gains and losses on the sale of investments. In 2007, our net financing costs were principally attributable to the write-off of our investment in U.S. Commercial Corp. following its delisting (Ps. 1,363 million) and fair value losses on our derivative instruments. Our net financing costs in 2006 were principally attributable to losses of Ps. 1,375 million on the value of our investment in U.S. Commercial Corp.

***Income Tax***

Our effective rates of provisions for corporate income tax as a percentage of pretax income were 27.7%, 27.7% and 1.0% for 2007, 2006 and 2005, respectively. The increase in our effective tax rate in 2007 principally reflects an increase in operating income, as well as our general use in full of non-operating losses previously generated by non-Mexican operations. The increase in our effective tax rate in 2006 principally reflects an increase in operating income, as well as the absence of tax losses in 2006 as compared to 2005. The decrease in our effective tax rate in 2005 principally reflects lower provisions as a result of significant tax losses recognized in Mexico arising from an internal corporate reorganization undertaken during the fourth quarter of 2005. As part of this reorganization, AM Latin America LLC, a Delaware limited liability company through which we held our interests in the non-Mexican operations, sold its interests in our non-Mexican operations to other subsidiaries generally located in our different geographic markets. The one-time capital loss recorded in connection with this reorganization resulted in a reduction of Ps. 10,913 million to our income tax expense during 2005. See Note 19(a) to our audited consolidated financial statements included in this annual report. The statutory rate of Mexican corporate income tax was 28% in 2007, 29% in 2006 and 30% in 2005. The Mexican corporate income tax rate is scheduled to remain at 28% in 2008.

On January 1, 2008, a new flat rate business tax ( *Impuesto Empresarial a Tasa Única* or *IETU* ) was introduced into Mexican legislation. *IETU* is calculated by reference to the income derived from the transfer of goods, the lease of assets and the rendering of services. There are transitional provisions which provide that the rate for fiscal years 2008 and 2009 will be 16.5% and 17% respectively. Thereafter, the rate will be 17.5%.

***Other Income (Expense), Net***

In 2007, we recorded other expense net of Ps. 3,713 million, compared to other income net of Ps. 484 million in 2006 and other expense net of Ps. 442 million in 2005. The expense in 2007 reflects principally our decision to discontinue the use of certain TDMA equipment in Colombia and Ecuador. The income in 2006 reflects principally a gain recorded in connection with the modification of Telcel's 800 megahertz concession for Region 9. See Note 9.1 to our audited consolidated financial statements.

***Equity in Results of Affiliates***

Our proportionate share of the results of equity-method affiliates resulted in net gains of Ps. 58 million in 2007 and Ps. 38 million in 2006 and losses of Ps. 46 million in 2005. The net gains in 2007 and 2006 reflect principally our share of the net gains reported by Telvista. The net losses in 2005 reflect principally our share of the net losses reported by Telvista.

**Table of Contents****Net Income**

We had net income of Ps. 58,588 million in 2007, Ps. 44,422 million in 2006 and Ps. 33,053 million in 2005. The increase in net income in 2007 principally reflected our increased operating income, which was partially offset by an increase in our income tax expense. The increase in net income in 2006 reflects principally the increase in operating income. The increase in net income in 2005 principally reflects the increase in operating income and the decrease in income tax expense.

**Results of Operations by Geographic Segment**

We discuss below the operating results of our subsidiaries that provide telecommunication services in our principal markets. All amounts discussed below are presented in accordance with Mexican FRS. Note 2(a)(ii) to our audited consolidated financial statements included in this annual report describes how we translate the financial statements of our non-Mexican subsidiaries. We restate the financial statements of our foreign subsidiaries for inflationary effects using restatement factors of the relevant country and then convert foreign currency amounts into Mexican pesos, using, for items from the statement of operations, the exchange rate between the Mexican peso and the local currency at the end of the applicable year. Accordingly, changes in the rates of inflation in our markets and exchange rate changes between the Mexican peso and those currencies could significantly affect reported results in Mexican pesos and the comparability of reported results with those of prior years. Financial statements for 2005 and 2006 are restated at constant pesos as of December 31, 2007 based on the annual rate of inflation in Mexico. The data reported for the year ended December 31, 2006 was restated in constant pesos as of December 31, 2007 by applying a factor of 1.0375.

The following table sets forth the exchange rate used to translate the results of our significant non-Mexican operations, as expressed in Mexican pesos per foreign currency unit, and the change from the rate used in the prior year.

	Mexican pesos per foreign currency unit					
	2005	% Change	2006	% Change	2007	% Change
Guatemalan quetzal	1.4092	(3.0)%	1.4324	1.6%	1.4239	(0.6)%
U.S. dollar <sup>(1)</sup>	10.7109	(4.9)	10.881	1.5	10.8662	(0.1)
Brazilian real	4.5759	7.8	5.0893	11.2	6.1345	20.5
Colombian peso	0.0047	(0.0)	0.0049	4.2	0.0054	10.2
Argentine peso	3.5326	(6.6)	3.5535	0.5	3.4506	(2.9)
Dominican peso			0.322		0.316	(1.9)

(1) The U.S. dollar is the sole monetary instrument and unit of account and the main currency for transaction purposes in Ecuador. Note 20 to our audited consolidated financial statements includes certain financial information of our operations by country. Except as discussed below, the following discussion is based on the segment data included in that note.

**Table of Contents**

The following table sets forth the number of subscribers and the rate of subscriber growth by geographic segment during the last three years.

	Number of subscribers (in thousands) as of December 31, <sup>(1)</sup>					
	2005	% Change	2006	% Change	2007	% Change
<b>Wireless</b>						
Mexico	35,914	24.5%	43,190	20.3%	50,011	15.8%
Brazil	18,659	36.6	23,881	28.0	30,228	26.6

Caribbean <sup>(6)</sup>					920	
<b>Total Fixed</b>	<b>1,996</b>	<b>18.2</b>	<b>2,831</b>	<b>41.8</b>	<b>3,866</b>	<b>36.5</b>
<b>Total Lines</b>	<b>95,325</b>	<b>51.3</b>	<b>127,608</b>	<b>33.9</b>	<b>157,287</b>	<b>23.3</b>

(1) Includes total subscribers of all consolidated subsidiaries in which we hold an economic interest.

(2) Includes Argentina, Chile, Paraguay and Uruguay. We began consolidating our Chilean and Paraguayan operations in 2005.

(3) Includes Ecuador and Peru. We began consolidating our Peruvian operations in 2005.

(4) Includes El Salvador, Guatemala, Honduras and Nicaragua.

(5) We began consolidating our Dominican operations in 2006.

(5) Includes Puerto Rico and Jamaica. We began consolidating our Puerto Rican and Jamaican operations in 2007.

(6) Includes El Salvador, Guatemala and Nicaragua.

**Mexico**

Telcel's operating revenues increased by 12.1% in 2007 and by 17.14% in 2006, benefiting from subscriber growth and increases in traffic and (during 2006) in interconnection revenues. We believe that the increase in traffic and interconnection revenues during 2006 resulted primarily from the implementation of the national calling party pays system in Mexico. The increase in revenues during both years also reflect growth in the sale of value-added services. The number of Telcel subscribers increased by 15.8% between December 31, 2007 and 2006, compared to an increase of approximately 20.3% between December 31, 2006 and 2005.

We experienced increases in average MOUs per subscriber of approximately 26.5% in 2007 and approximately 10% in 2006. ARPUs decreased in 2006 and 2007 by approximately 5.0%. During both years, particularly in 2007, we lowered the price of some of our services in Mexico through new commercial plans and promotions, which contributed to the increase in subscribers and MOUs but had a negative impact on ARPUs. In addition, in 2007 and 2006, our ARPUs were negatively affected by lower interconnection rates and an increase in the share of our total traffic represented by data services, such as SMS messaging, which on average generate lower revenues per minute of use than voice services. Reductions in interconnection tariffs for calls between fixed and mobile phones became effective in Mexico as of January 2005. The reduction was of 10% in 2005,

**Table of Contents**

increasing to 19% in 2006 and 27% in 2007, in each case as compared to 2004 rates. See Information on the Company Mexican Operations Regulation Interconnection under Item 4. Telcel has typically received more revenue from such fees than it has had to pay to fixed line operators for interconnection services. Telcel's churn rate increased from approximately 3.1% in 2005 to 3.2% in 2006 and 3.4% in 2007.

Operating income increased by 19% in 2007, and by 35% in 2006. Our operating margin was 46.6% in 2007 and 43.9% in 2006. While operating revenues increased by 12.1% in 2007, our operating costs and expenses increased by 6.8% in 2007. In 2007, we were able to increase our subscriber base and traffic without significantly increasing (on a proportional basis) our subscriber acquisition and publicity costs. Finally, Telcel's depreciation and amortization expenses have decreased slightly as a percentage of its operating revenues, from 6.7% in 2006 to 6.3 in 2007.

For Mexico, the financial information set forth in Note 20 to our audited financial statements includes revenues and costs from group corporate activities, such as licensing fees and group overhead expenses. The discussion above is based solely on our operating results in Mexico and excludes the results of our group corporate activities.

***Brazil***

Telecom Americas' operating revenues increased by 42.0% in 2007 and 24.4% in 2006. The increase in operating revenue in 2007 and 2006 was primarily attributable to increased traffic and subscriber growth. In addition, the relative appreciation of the Brazilian real against the Mexican peso in 2007 compared to 2006 and in 2006 compared to 2005 contributed to the increase in operating revenues in both years, particularly in 2007 when the Brazilian real appreciated against the Mexican peso by approximately 13%. In 2007, more than a one fourth (or 12.7% of the 42.0%) increase was due to currency effects. The increase in revenues during 2006 also reflects a change in the methodology required in Brazil for the recognition of interconnection fees from bill and keep to full bill. Under the new methodology, we recognize interconnection revenues (and costs) on a gross basis, rather than on a net basis as required by the prior system. Had Telecom Americas accounted for interconnection fees on a consistent basis during both 2006 and 2005, operating revenues in 2006 would have increased by 17.7%. The number of Telecom Americas subscribers increased by 6.3 million subscribers from December 31, 2006 to December 31, 2007, to approximately 30.2 million subscribers. In 2006, the number of Telecom Americas subscribers increased by 5.2 million subscribers, to approximately 23.9 million subscribers as of December 31, 2006.

During 2007, average MOUs per subscriber increased by 10% and ARPUs increased by 17.6%, as compared to 2006. The increase in average MOUs during 2007 reflects the impact on traffic of our lowering of prices through new commercial plans and promotions. This effect was partially offset by an increase in the portion of our subscriber base represented by prepaid customers, who generally record less minutes of use than postpaid subscribers. The increase in ARPUs during 2007 was primarily attributable to increased traffic and the effect of the appreciation of the Brazilian real against the Mexican peso. Our churn rate was 2.0% in 2007 and 2.8% in 2006.

Telecom Americas reported an operating income of Ps. 608 million in 2007, as compared to a Ps. 4,316 million operating loss in 2006. The operating income in 2007 and the decline in operating losses in Brazil during 2006 as compared to 2005 (54.4%) reflect primarily an improvement in our cost management, in particular with respect to interconnection and collection costs and improvement in the efficiency of our billing efforts. Operating income in 2007 also reflects an increase in depreciation expense of Ps. 2,740 million attributable to the revaluation of the value of certain TDMA assets due to the shortening of their useful lives. Had Telecom Americas not taken this charge, operating margin in 2007 would have increased from Ps. 608 million to Ps. 3,348 million. In addition, our operating margin in Brazil (1.04% in 2007 and (-10.5)% in 2006) continues to be

**Table of Contents**

affected by a high level of depreciation and amortization expenses relative to revenues due to the significant expenses incurred to deploy networks in the country. Depreciation and amortization expenses represented 23.9% of our operating revenues in Brazil during 2007 and 2006.

***Southern Cone Argentina, Chile, Paraguay and Uruguay***

Our operating revenues in Argentina, Chile, Paraguay and Uruguay increased by 32.2% in 2007 and 50.5% in 2006. The increase in 2007 was attributable primarily to subscriber growth. In 2007, the number of subscribers in the Southern Cone increased by 4.0 million subscribers, to approximately 17.3 million subscribers as of December 31, 2007. Average MOUs per subscriber decreased by 5.2% in 2007 compared to 2006, while ARPUs decreased by 3.8% during the same period, and we experienced an increase in our churn rate, from 1.9% in 2006 to 2.5% in 2007. The decline in MOUs and ARPUs in 2007 principally reflected subscriber growth. New subscribers in Argentina, Paraguay and Uruguay generally generate lower average revenues than existing subscribers as a result of higher airtime subsidies and lower usage. In addition, ARPUs in both years were negatively affected by an increase in the share of total traffic represented by data services, such as SMS messaging, which on average generate lower revenues per minute of use than voice services.

We reported operating income of Ps. 2,691 million in 2007 in our operations in the Southern Cone, as compared to operating income in 2006 of Ps. 1,355 million. This reflected principally both the increased scale of our business in Argentina and lower acquisition costs per subscriber, principally lower average handset acquisition costs.

***Colombia***

Our operating revenues in Colombia increased by 33.1% in 2007 and by 32.4% in 2006. The increase in operating revenues in 2007 and 2006 was attributable principally to subscriber growth, increased traffic and the appreciation of the Colombian peso against the Mexican peso. The Colombian peso appreciated 12.7% against the Mexican peso in 2007, and currency appreciation accounted for approximately 40% (or 14% of the 33.1%) of the increase in revenues during 2007. These factors more than offset a decrease in interconnection tariffs of 50% in Colombia beginning in December 2007. In 2007, the number of subscribers in Colombia increased by 14.4% to approximately 22.3 million as of December 31, 2007. In 2006, the number of subscribers in Colombia increased by 41.7%, to approximately 19.5 million. We experienced an increase in average MOUs per subscriber of 6.1% in 2007 and a decrease by 7.6% in 2006, while ARPUs increased by approximately 12.9% in 2007 and decreased by approximately 25.6% in 2006. The increase in ARPUs during 2007 reflected principally the appreciation of the Colombian peso against both the U.S. dollar and the Mexican peso. A substantial majority of our subscriber growth in Colombia in recent years was attributable to an increase in prepaid customers, which generate on average less minutes of use and revenues than postpaid customers. Our churn rate in Colombia increased from 1.7% in 2006 to 2.3% in 2007.

Our operating income in Colombia increased by 59.8% in 2007 and more than tripled in 2006. Our operating margin was 25.7% in 2007 and 21.4% in 2006. The increase in operating margin during 2007 resulted principally from a combination of factors, including the increased scale of our business in Colombia, a reduction in subscriber acquisition costs, the effects of currency appreciation and the decrease in interconnection tariffs. In Colombia, we generate more traffic to other operators than we receive from them. Operating income in 2007 also reflects an increase in depreciation expense of Ps. 3,296 million attributable to the revaluation of the value of certain GSM assets due to the shortening of their useful lives.

***Andean Region Ecuador and Peru***

Our operating revenues in Ecuador and Peru increased by 26.0% in 2007 and by 47.3% in 2006. The increase in operating revenues in 2007 and 2006 was attributable principally to subscriber growth and increased traffic. In 2007, the number of subscribers in the Andean Region increased by 37.3% to approximately 12.4 million as of December 31, 2007. In 2006, the number of subscribers in the Andean Region increased by 49.2% to approximately 9.0 million as of December 31, 2006. Our average MOUs per subscriber increased 7.8%

**Table of Contents**

in 2007 and remained flat in 2006, while our ARPUs decreased by approximately 12.2% in 2007 and by approximately 21.1% in 2006. The decline in ARPUs during 2007 and 2006 reflected principally subscriber growth. Our churn rate in the Andean Region remained at 3.0% in 2006 and 2007.

Our operating income in the Andean Region increased by 32.4% in 2007. Our operating margin was 23.0% in 2007 and 21.9% in 2006. The increase in operating margin during 2007 resulted principally from a combination of factors, including lower expenses and lower handset acquisition costs.

***Central America El Salvador, Guatemala, Honduras and Nicaragua***

Operating revenues in El Salvador, Guatemala, Honduras and Nicaragua decreased by 1.2% in 2007 and increased by 7.6% in 2006. The decrease reflected principally a decrease in international and domestic fixed line traffic and long distance revenues and a significant decrease in prices for wireless services as a result of increased competition. In 2007, the number of wireless subscribers in Central America increased by 38.8%, to approximately 8.2 million as of December 31, 2007, and the number of fixed line subscribers remained at approximately 2.2 million as of December 31, 2007 and December 31, 2006. For the year ended December 31, 2007, wireless services accounted for approximately 50.2% of our operating revenues in Central America, and fixed-line and other services for approximately 49.8%, as compared to 41.7% and 58.3%, respectively, in 2006.

During 2007, we experienced a 7.3% decline in average MOUs and a 18.5% decline in ARPUs, as compared to 2006. These declines primarily reflected increased competition for wireless customers in the region.

Our operating income in Central America decreased in 2007, to Ps. 4,698 million from Ps. 5,106 million in 2006, and decreased by 8.0% in 2006. Operating margin for this segment was 27.7% in 2007 and 29.8% in 2006. The decrease in operating income and margin in 2007 reflected principally lower revenues and increased subscriber acquisition costs, particularly in equipment subsidies and advertising costs. The decrease in operating income and margin in 2006 reflected principally increased maintenance costs in El Salvador and Guatemala in connection with damage and losses caused by hurricanes in the region and plant theft and increased advertising costs as a result of promotions to reinforce our Claro brand for wireless services in the region.

***United States***

TracFone's operating revenues increased by 5.8% in 2007 and 24.6% in 2006. The increase in operating revenues in 2007 was attributable principally to subscriber growth and increased traffic. In 2007, the number of TracFone subscribers increased by 20.5%, to approximately 9.5 million as of December 31, 2007, and in 2006, the number of TracFone subscribers increased by 28.7%, to approximately 7.9 million as of December 31, 2006. Although average MOUs per subscriber increased in 2007 as compared to 2006 (by 9.1%) and in 2006 as compared to 2005 (by 4.7%), ARPUs declined by approximately 10.7% in 2007 compared to 2006 and by 10.1% in 2006 as compared to 2005. The decline in ARPUs in 2007 and 2006 was primarily attributable to the increasing portion of TracFone's traffic that is comprised of digital traffic, which results in lower revenues per minute than analog traffic. The churn rate decreased from 5.3% in 2006 to 4.6% in 2007.

TracFone's operating income was Ps. 1,503 million in 2007 and Ps. 758 million in 2006. TracFone's operating margin increased from 5.1% in 2006 to 9.6% in 2007. The increase in operating margin principally reflected lower handset acquisition costs, as well as an increase in revenues in proportion to service, operation and commercial costs.

***Caribbean******Dominican Republic***

Operating revenues in the Dominican Republic were Ps. 10,990 million for the year ended December 31, 2007, of which Ps. 4,255 million (38.7%) corresponded to wireless services and Ps. 6,735 million (61.3%) corresponded to fixed line services. During 2007, operating income in the Dominican Republic was Ps. 3,946 million, representing a 35.9% operating margin.

---

## **Table of Contents**

### **Puerto Rico and Jamaica**

Since consolidation, operating revenues in Puerto Rico were Ps. 9,766 million for 2007, of which Ps. 3,057 million (31.3%) corresponded to wireless services and Ps. 6,709 million (68.7%) corresponded to fixed line services. During 2007, operating income in Puerto Rico was Ps. 1,974 million, representing a 20.2% operating margin.

Since consolidation, for 2007 operating revenues in Jamaica were Ps. 14 million and operating loss was Ps. 16 million.

We began consolidating the results of our Puerto Rican operations in April 2007. We purchased Oceanic in November 2007, and we started consolidating our Jamaican operations in December 2007.

### **Liquidity and Capital Resources**

#### ***Principal Uses of Operating Cash***

We use the cash that we generate from our operations primarily for the following purposes (figures in the following paragraphs are in nominal amounts):

We must make substantial capital expenditures to continue expanding and improving our networks in each country in which we operate. In 2007 and 2006, we invested approximately Ps. 34,622 million and Ps. 33,684 million, respectively, in plant, property and equipment. We have budgeted capital expenditures for 2008 to be approximately U.S.\$4.0 billion. See Capital Expenditures under Item 4.

During 2007 and 2006, we spent approximately Ps. 25,258 million (principally for the acquisition of TELPRI) and Ps. 24,165 million (principally for the acquisition of Codetel), respectively, in order to acquire new companies and licenses and increase our interests in some of our subsidiaries. During 2008, we expect to spend approximately U.S.\$1.2 billion to acquire or renew licenses, principally U.S.\$845 million to acquire additional spectrum in Brazil, U.S.\$289 million to renew our concession in Ecuador, U.S.\$86 million to acquire a license in Panama and U.S.\$31 million to acquire a license in Puerto Rico. The amount we spend on acquisitions and licenses varies significantly from year to year, depending on acquisition opportunities, concession renewal schedules and needs for more spectrum.

We must pay interest on our indebtedness and repay principal when due.

If we have resources after meeting our obligations and capital expenditure requirements, we may pay dividends, and/or repurchase our own shares from time to time. We paid Ps. 41,298 million in dividends in 2007 and Ps. 4,164 million in dividends in 2006, and our shareholders have approved the payment of a Ps. 0.26 dividend per share in July 2008. Dividends for 2007 include an extraordinary dividend of Ps. 1.0 per share paid in November 2007, for a total of Ps. 35,023 million. We also spent (including commissions and value-added taxes) Ps. 12,717 million repurchasing our own shares in the open market in 2007 and Ps. 6,528 million in 2006. In 2006, we also reduced our share capital by approximately 603 million L Shares, in respect of the Ps. 13,746 in net indebtedness that we assumed as part of the merger with Amtel. Our shareholders have authorized additional repurchases, and whether we do so will depend on considerations including market price and our other capital requirements. We have made additional repurchases in 2008.

**Table of Contents**

The following table summarizes certain contractual liabilities as of December 31, 2007. Our purchase obligations and approximately 57.2% of our debt described below are denominated in U.S. dollars. The table does not include accounts payable or pension liabilities, and amounts set forth in the table do not include interest.

	Total	Payments Due by Period			After 5 years
		Less than 1 year (millions of constant pesos as of December 31, 2007)	1-3 years	4-5 years	
Contractual obligations as of December 31, 2007:					
Equipment leases	Ps. 4,557	Ps. 3,976	Ps. 581		
Real estate leases	13,929	3,235	4,985	Ps. 3,384	Ps. 2,325
Long-term debt	84,800		24,567	6,925	53,308
Short-term debt	19,952	19,952			
Purchase obligations <sup>(1)</sup>	13,601	13,601			
<b>Total</b>	<b>Ps. 136,839</b>	<b>Ps. 40,764</b>	<b>Ps. 30,133</b>	<b>Ps. 10,309</b>	<b>Ps. 55,633</b>

(1) See discussion below.

The table above includes U.S.\$845 million payable in 2008 for the acquisition of additional spectrum in Brazil. In addition, during 2008, we expect to pay U.S.\$289 million to renew our concession in Ecuador, U.S.\$86 million to acquire a license in Panama and U.S.\$31 million to acquire a license in Puerto Rico. Other than the amounts described in the table above, we had no other outstanding material purchase commitments as of December 31, 2007. We enter into a number of supply, advertising and other contracts in the ordinary course of business, but we do not believe that any of those contracts are material to our liquidity.

Under many of our concessions and licenses, we are required to make annual royalty payments in order to continue using such concessions and licenses. These payments are typically calculated as a percentage of gross revenues generated under such concessions and licenses. In the case of the 1900 megahertz spectrum (Band F) concessions in Mexico, however, we are required to pay Ps. 255 million (subject to adjustment for inflation) annually for 20 years in respect of the 10 megahertz acquired during 2005.

We could have opportunities in the future to invest in other telecommunications companies outside Mexico, primarily in Latin America and the Caribbean, because we believe the telecommunications sector in Latin America will continue to undergo consolidation. For example, we may pursue further market consolidation opportunities in Brazil and Argentina depending on their terms and conditions. We can give no assurance as to the extent, timing or cost of such investments. Some of the assets that we acquire may require significant funding for capital expenditures. See the discussion included earlier in this Item 5 under *Overview Effects of Recent Acquisitions* for more information about these transactions.

**Capital Resources**

We generate substantial resources from our operations. On a consolidated basis, operating activities provided Ps. 100,580 million in 2007 and Ps. 75,087 million in 2006.

In addition to funds generated from operations, we have used new borrowings to fund acquisitions and capital expenditures and refinance debt. We have traditionally relied on a combination of equipment financings, borrowings from international banks and borrowings in the Mexican and international capital markets.

We believe that our working capital is sufficient for our present requirements.

---

**Table of Contents**

***Outstanding Indebtedness***

As of December 31, 2007, our total consolidated indebtedness was Ps. 104,752 million. This compares to a total consolidated indebtedness of Ps. 115,251 million as of December 31, 2006.

Our cash and cash equivalents amounted to Ps. 11,972 million at December 31, 2007. This compares to cash and cash equivalents of Ps. 42,958 million as of December 31, 2006.

Without taking into account the effects of hedging instruments that we use to manage our interest rate and currency risk liabilities, approximately 69.3% of our indebtedness at December 31, 2007 was denominated in currencies other than Mexican pesos (approximately 57.2% in U.S. dollars and 12.1% in other currencies, principally in Colombian and Chilean pesos), and approximately 32.2% of our consolidated debt obligations bore interest at floating rates. Of our total debt at December 31, 2007, Ps. 19,953 million (or 19.1%) was classified as short-term.

Our net debt (total debt minus cash and cash equivalents) at December 31, 2007 increased by 28.3% as compared to December 31, 2006. Net debt at December 31, 2007 increased to Ps. 92,780 million as compared to Ps. 72,293 million at December 31, 2006. This increase reflects, among other things, the acquisition of TELPRI in March 2007 and the payment of an extraordinary dividend in November 2007.

Since 2004, we have relied on the international debt markets as a principal source of financing, and in September 2006, we established a shelf registration for debt securities with the SEC. We have issued U.S.\$4.6 billion in dollar-denominated senior notes (of which U.S.\$300 million matured in 2007) and Ps. 13,000 million in peso-denominated senior notes in the international debt markets. As a result of these offerings, we have been able to extend the average life of our indebtedness at attractive rates. As of the date of this annual report, our dollar-denominated senior notes are rated A3 (positive outlook) by Moody's Investors Service, BBB+(positive outlook) by Standard and Poor's Rating Group and A- by Fitch Ratings. Adverse economic conditions or changing circumstances may, however, cause our ratings to be downgraded. The weighted average cost of all our third-party debt at December 31, 2007 (excluding commissions and reimbursement of certain lenders for Mexican taxes withheld) was approximately 6.94%.

Our major categories of indebtedness at December 31, 2007 are as follows:

*U.S. dollar-denominated senior notes.* At December 31, 2007, we had approximately U.S.\$4,293 billion (Ps. 46,649 million) outstanding under several series of U.S. dollar-denominated senior notes issued in the international capital markets between 2004 and 2007:

U.S.\$500 million (Ps. 5,433 million) senior notes due 2008, bearing interest at a floating rate of LIBOR plus 0.10%;

U.S.\$495 million (Ps. 5,379 million) senior notes due 2009, bearing interest at a fixed rate of 4.125%;

U.S.\$798 million (Ps. 8,671 million) senior notes due 2014, bearing interest at a fixed rate of 5.500%;

U.S.\$500 million (Ps. 5,433 million) senior notes due 2015, bearing interest at a fixed rate of 5.750%;

U.S.\$600 million (Ps. 6,520 million) senior notes due 2017, bearing interest at a fixed rate of 5.625%;

---

**Table of Contents**

U.S.\$1,000 billion (Ps. 10,866 million) senior notes due 2035, bearing interest at a fixed rate of 6<sup>3</sup>/<sub>8</sub>%; and

U.S.\$400 million (Ps. 4,347 million) senior notes due 2037, bearing interest at a fixed rate of 6.125%.

*Mexican- peso denominated senior notes.* At December 31, 2007, we had approximately Ps. 13,000 million outstanding under two series of peso-denominated senior notes sold in the international and Mexican capital markets: on October 5, 2005, we issued Ps. 5,000 million in principal amount of 9.0% senior notes due January 2016 and on December 18, 2006 we issued Ps. 8,000 million in principal amount of 8.46% senior notes due 2036. These notes are denominated in Mexican pesos, but all amounts in respect of the notes are payable in U.S. dollars, unless a holder of notes elects to receive payment in Mexican pesos in accordance with certain specified procedures.

*Mexican peso-denominated domestic senior notes (certificados bursátiles).* At December 31, 2007, we had Ps. 10,500 million in domestic senior notes that were sold in the Mexican capital markets. These domestic senior notes were issued by us between 2002 and 2007, and have varying maturities, ranging from 2008 through 2018. Some bear interest at fixed rates, and others at variable rates based on Cetes (a rate based on the cost of Mexican treasuries) or TIIE (a Mexican interbank rate). Recent issuances of domestic senior notes include:

On April 11, 2007 we issued Ps. 500 million in 5-year floating domestic senior notes. The notes bear interest at a discount of 6 basis points below TIIE, and mature on April 5, 2012.

On November 1, 2007 we issued Ps. 2,500 million in 3-year floating domestic senior notes. The notes bear interest at a discount of 10 basis points below TIIE, and mature on October 28, 2010.

On November 1, 2007 we issued Ps. 2,000 million in 10-year fixed rate domestic senior notes. The notes bear interest at a rate of 8.39% per annum, and mature on October 19, 2017.

On March 7, 2008 we issued Ps. 2,500 million in 10-year fixed rate domestic senior notes. The notes bear interest at a rate of 8.11% per annum, and mature on February 22, 2018.

*Mexican peso-denominated commercial paper.* At December 31, 2007, we had Ps. 3,000 million in commercial paper that was sold in the Mexican capital markets. These notes bear interest at fixed rates ranging from 7.04% to 7.88%.

*Bank loans.* At December 31, 2007, we had approximately Ps. 13,235 million outstanding under a number of bank facilities bearing interest principally at variable rates based on TIIE or LIBOR. Of that amount, Ps. 8,150 million were obtained under a U.S.\$2 billion revolving syndicated facility that matures in April 2011. Loans under the facility bear interest at LIBOR plus a spread. The facility limits our ability to incur on secured debt and pledge assets, to effect a merger as a result of which the surviving entity would not be América Móvil or Telcel, or to sell substantially all of our assets or control of Telcel. In addition, the facility requires us to maintain a consolidated ratio of debt to EBITDA not greater than 4.0 and a consolidated ratio of EBITDA to interest expense not less than 2.5. The loan is subject to acceleration if there is a change of control.

*Sale and leasebacks.* During 2003 and 2004, Telcel entered into sale and leaseback transactions with respect to a portion of its telephone plant. At December 31, 2007, lease payment obligations under these contracts amounted to Ps. 3,534 million. Payments are due on a monthly basis through 2008 and bear interest at a variable rate based on TIIE plus a spread. In addition, in 2004 and 2005, Concel entered into sale and leaseback transactions with respect to a portion of its telephone plant. At December 31, 2007,

## Edgar Filing: AMERICA MOVIL SAB DE CV/ - Form 20-F

lease payment obligations under the contract amounted to U.S.\$62.42 million (Ps. 678 million). Payments are due on a monthly basis through 2008 and bear interest at LIBOR plus a spread. Our Nicaraguan and Honduran subsidiaries have also entered into sale and lease back transactions with respect to portions of their telephone plants.

---

**Table of Contents**

*Colombian peso-denominated notes.* In 2004, Comcel issued Colombian peso-denominated notes that were sold in the Colombian capital markets in three different series. These notes bear interest at a variable rate based on the Colombian consumer price index rate (IPC) plus a spread, and mature in 2010 and 2013. These notes are guaranteed by América Móvil. In 2006, Comcel issued Colombian peso-denominated notes that were sold in the Colombian capital markets. These notes bear interest at a 7.59% fixed rate, and mature in 2016. These notes are not guaranteed by América Móvil. At December 31, 2007, the aggregate principal amount outstanding under these notes was Ps. 4,854 million.

All of the notes issued by América Móvil in the international and Mexican capital markets and amounts due under our U.S.\$2 billion revolving syndicated loan facility are guaranteed by Telcel.

At December 31, 2007, Telcel had, on an unconsolidated basis, unsecured and unsubordinated obligations under indebtedness of approximately Ps. 3,534 million (U.S.\$325 million), excluding debt owed to us or our other subsidiaries and guarantees of parent company and subsidiary indebtedness. As of that same date, Telcel had unsecured obligations under guarantees of parent company and subsidiary indebtedness of approximately Ps. 84,154 million (U.S.\$ 7,745 million). In addition, at December 31, 2007, our operating subsidiaries other than Telcel had indebtedness of Ps. 14,612 million (U.S.\$ 1,345 million).

**Risk Management**

We regularly assess our interest rate and currency exchange exposures in order to determine how to manage the risk associated with these exposures. We use derivative instruments as an economic hedge to adjust our exposures. We have also used derivative instruments from time to time to seek to reduce our costs of financing. Our practices vary from time to time depending on our judgment of the level of risk, expectations as to exchange or interest rate movements and the costs of using derivative instruments. We may stop using derivative instruments or modify our practices at any time. As of December 31, 2007, after taking into account derivative transactions, approximately 27% of our total debt was denominated in U.S. dollars and approximately 39% was subject to floating rates.

As of December 31, 2007, we had entered into U.S. dollar-Mexican peso cross currency swaps in respect of U.S.\$1,350 million of our total U.S. dollar-denominated debt. Under these swaps, we have replaced our obligation to make payment in U.S. dollars with an obligation to make payment in Mexican pesos. In addition, we had entered into U.S. dollar-Mexican peso forwards for a total of U.S.\$1,650 million to hedge our exposure to our U.S. dollar denominated debt.

As of December 31, 2007, we had entered into a Mexican peso-U.S. dollar cross currency and interest rate swap in respect of Ps.1,000 million of our total Mexican peso at a variable rate denominated debt. Under this swap we replaced our obligation to make payment in Mexican pesos at a variable rate with an obligation to make payment in U.S. dollars at a variable rate.

A portion of our peso-denominated indebtedness bears interest at floating rates. We have entered into interest rate coverage transactions to reduce our exposure to changes in Mexican interest rates. Specifically, we have entered into interest rate swaps in which we pay interest at a fixed rate and receive interest on a floating rate, on a notional amount in Mexican pesos. As of December 31, 2007, the aggregate notional amount of domestic interest rate swaps was Ps. 1,000 million.

The aggregate effect of all of our derivative instruments during 2007 was a gain of Ps. 23.9 million reflected as other financing costs, net of comprehensive financing income (cost) in our financial statements.

---

## **Table of Contents**

As of December 31, 2007, the fair value of our derivative instruments was Ps. 288 million.

### **Off-Balance Sheet Arrangements**

As of December 31, 2007, we had no off-balance sheet arrangements that require disclosure under applicable SEC regulations.

### **U.S. GAAP Reconciliation**

We had net income under U.S. GAAP of Ps. 55,419 million in 2007, Ps. 40,639 million in 2006 and Ps. 33,028 million in 2005. Compared to Mexican FRS, net income under U.S. GAAP was approximately 5.4% lower in 2007 and 8.5% lower in 2006.

There are several differences between Mexican FRS and U.S. GAAP that affect our net income and stockholders' equity. The most significant differences in their effect on 2007 net income related to the restatement of the carrying value of property, plant and equipment to reflect the effects of inflation, and the depreciation of previously capitalized interest under U.S. GAAP. Under Mexican FRS, in order to reflect the effects of inflation on our imported telephone plant and equipment, we restate its value based on the rate of inflation in the respective country of origin and the prevailing exchange rate at the balance sheet date. The use of this method, which is known as the specific indexation method, is not permitted under U.S. GAAP, and as a result, for purposes of U.S. GAAP, we restate nonmonetary assets based on the Mexican National Consumer Price Index. During 2007, restatement based on the Mexican National Consumer Price Index would have resulted in a higher carrying value for our plant and equipment and higher depreciation expenses, and the corresponding U.S. GAAP reconciliation adjustments resulted in decreases in our net income and increases in our stockholders' equity under U.S. GAAP as compared to Mexican FRS. Through 2006, we expensed net financing costs on assets under construction under Mexican FRS, whereas for U.S. GAAP purposes, these costs were capitalized in property plant and equipment and depreciated over the lives of the related assets. This difference has resulted in significant reconciliation adjustments between our Mexican FRS and U.S. GAAP results. Starting in 2007, Mexican FRS provides for the capitalization of net financing costs on assets under construction, similar to U.S. GAAP. The remaining difference between the two accounting principles is that under Mexican FRS all financing costs (including monetary gains directly associated with borrowings in local currency and foreign currency exchange gains (or losses) in the case of borrowings in foreign currency) can be capitalized, whereas U.S. GAAP permits capitalization solely of interest expense. Other differences that had a significant effect on 2007 net income relate to the recording of deferred income taxes and employee profit sharing, the presentation of non-controlling interests, the difference in amortization expenses resulting from diverging methods for the capitalization of certain license payments made in 2006 and the effect of inflation accounting on U.S. GAAP adjustments. For a discussion of the principal differences between Mexican FRS and U.S. GAAP, see Note 22 to our audited consolidated financial statements.

### **Use of Estimates in Certain Accounting Policies**

In preparing our financial statements, we make estimates concerning a variety of matters. Some of these matters are highly uncertain, and our estimates involve judgments we make based on the information available to us. In the discussion below, we have identified several of these matters for which our financial presentation would be materially affected if either (1) we used different estimates that we could reasonably have used or (2) in the future we change our estimates in response to changes that are reasonably likely to occur.

The discussion addresses only those estimates that we consider most important based on the degree of uncertainty and the likelihood of a material impact if we used a different estimate. There are many other areas in which we use estimates about uncertain matters, but the reasonably likely effect of changed or different estimates is not material to our financial presentation.

---

**Table of Contents*****Purchase accounting purchase price allocation***

During 2007, 2006 and 2005, we made a number of acquisitions applying the acquisition method of accounting. Accounting for the acquisition of a business under the purchase method requires the allocation of the purchase price to the various assets and liabilities of the acquired business. For most assets and liabilities, purchase price allocation is accomplished by recording the asset or liability at its estimated fair value. The most difficult estimations of individual fair values are those involving properties, plants and equipment and identifiable intangible assets, such as our licenses and trademarks. We use all available information to make these fair value determinations, including the retention of appraisers to determine the fair value of property and equipment, trademarks and an examination of the market value of licenses with similar characteristics to determine the fair value of licenses.

***Estimated useful lives of plant, property and equipment***

We estimate the useful lives of particular classes of plant, property and equipment in order to determine the amount of depreciation expense to be recorded in each period. Depreciation expense is a significant element of our costs and expenses, amounting in 2007 to Ps. 31,163 million, or 13.8% of our operating costs and expenses. See Note 8 to our audited consolidated financial statements.

We currently depreciate most of our telephone plant and equipment based on an estimated useful life determined upon the expected particular conditions of operations and maintenance in each of the countries in which we operate. The estimates are based on our historical experience with similar assets, anticipated technological changes and other factors, taking into account the practices of other telecommunications companies. We review estimated useful lives each year to determine whether they should be changed, and at times, we have changed them for particular classes of assets. We may shorten the estimated useful life of an asset class in response to technological changes, changes in the market or other developments. This results in increased depreciation expense. For example, during 2007, we shortened the useful life of TDMA and GSM equipment, particularly in Colombia and Brazil, to reflect the expected migration of customers to newer technologies. This change resulted in an increase in our depreciation expense for 2007 of Ps. 5,796 million. See Note 8 to our audited consolidated financial statements.

***Impairment***

When there are indications of impairment in the value of long-lived assets, the recoverable value of the related assets is estimated. The recoverable value of the related assets is defined as the higher of the asset's net selling price or its value in use, which is computed based on discounted cash flows. When the net carrying amount of an asset exceeds its recoverable value, the difference is recognized as an impairment loss.

***Deferred Taxes***

We are required to estimate our income taxes in each of the jurisdictions in which we operate. This process involves the jurisdiction-by-jurisdiction estimation of actual current tax exposure and the assessment of temporary differences resulting from the differing treatment of certain items, such as accruals and amortization, for tax and financial reporting purposes. These differences result in deferred tax assets and liabilities, which are included in our consolidated balance sheets. We must assess in the course of our tax planning procedures the fiscal year of the reversal of our deferred tax assets and liabilities, and if there will be future taxable profits in those periods. We reverse in the current year deferred tax assets and liabilities for timing differences that have been recorded if we anticipate that the future reversal will take place in a tax-loss year. If we estimate that timing differences of a current year will be reversed in a later tax-loss year, we do not record deferred tax assets and liabilities for those timing differences. Significant management judgment is required in determining our provisions for income taxes, deferred tax assets and liabilities. The analysis is based on estimates of taxable income in the jurisdictions in which the group operates and the period over which the deferred tax assets and liabilities will be recoverable or settled. If actual results differ from these estimates, or we adjust these estimates in future periods, our financial position and results of operations may be materially affected.

## **Table of Contents**

We record a valuation allowance to reduce the deferred tax assets to an amount that we believe is more likely than not to be realized. In assessing the need for the valuation allowance, we considered future taxable income and ongoing tax planning strategies. In the event that our estimates of projected future taxable income and benefits from tax planning strategies are lowered, or changes in current tax regulations are enacted that would impose restrictions on the timing or extent of our ability to utilize the tax benefits of net operating loss carry-forwards in the future, an adjustment to the recorded amount of net deferred tax assets would be made, with a related charge to income. As of December 31, 2007, we had a valuation allowance covering approximately 83.4% of our deferred tax assets of Ps. 21,960 million.

### ***Provisions***

Provisions are recorded when, at the end of the period, we have a present obligation as a result of past events, whose settlement requires an outflow of resources that is considered probable and can be measured reliably. This obligation may be legal or constructive, arising from, but not limited to, regulation, contracts, common practice or public commitments, which have created a valid expectation for third parties that we will assume certain responsibilities. The amount recorded is the best estimation performed by our management in respect of the expenditure that will be required to settle the obligations, considering all the information available at the date of our financial statements, including the opinion of external experts, such as legal advisors or consultants. Provisions are adjusted to account for changes in circumstances for ongoing matters and the establishment of additional accruals for new matters.

If we are unable to reliably measure the obligation, no provision is recorded and information is then presented in the notes to our consolidated financial statements.

Because of the inherent uncertainties in this estimation, actual expenditures may be different from the originally estimated amount recognized.

### ***Allowance for Doubtful Accounts***

We maintain an allowance for doubtful accounts for estimated losses resulting from the failure of our customers, distributors and cellular operators to make required payments. We base these estimates on the individual conditions of each of the markets in which we operate that may impact the collectibility of accounts. In particular, in making these estimates we take into account (i) with respect to accounts with customers, the number of days since the calls were made, (ii) with respect to accounts with distributors, the number of days invoices are overdue and (iii) with respect to accounts with cellular operators, both the number of days since the calls were made and any disputes with respect to such calls. The amount of loss, if any, that we actually experience with respect to these accounts may differ from the amount of the allowance maintained in connection with them.

### **Changes in Mexican FRS**

Note 2(zz) to our audited consolidated financial statements discusses new accounting pronouncements under Mexican FRS that came into force in 2007. Some of these pronouncements have already been fully implemented in the financial statements included in this annual report. Others will require us to change our financial presentation in 2008 in ways that we expect to have a material effect on our results of operations and our balance sheet. In particular, the cessation of inflation accounting, as described above, will also entail changes in accounting for foreign currency translation and for employee benefit obligations.

**Table of Contents**

**Item 6. Directors, Senior Management and Employees**

**MANAGEMENT**

**Directors**

Our Board of Directors has broad authority to manage our company. The Board of Directors is supported by our committees, especially by our Audit Committee, which is comprised by independent members and oversees our corporate practices. In particular, the Board of Directors must approve prior opinion of the competent committee, among others:

our non-ordinary course transactions with related parties;

the use and disposition of the company's assets;

certain material transactions such as (a) transactions not in the ordinary course of business, (b) transactions representing an investment greater than 5% of the company's assets on a consolidated basis and (c) transactions involving guarantees or the incurrence of financial obligations for more than 5% of the company's assets on a consolidated basis;

executive and director compensation;

appoint and discharge our chief executive officer; and

waivers for board members, executives and other persons with influence on the company, to benefit from business opportunities pertaining to the company. The Company must publicly disclose any case in which the resolution of the board differs from the opinion of the committee regarding any of these matters.

Additionally, in the event that a person or group of persons intend to acquire an amount of shares equal or exceeding 10% of our voting stock, our Board of Directors' authorization is required. In the event that our Board of Directors rejects the relevant authorization, it shall appoint a substitute acquirer.

Our bylaws provide for the Board of Directors to consist of between five and 21 directors and allow for the appointment of an equal number of alternate directors. Directors need not be shareholders. A majority of our directors and a majority of the alternate directors must be Mexican citizens and elected by Mexican shareholders. A majority of the holders of the AA Shares and A Shares voting together elect a majority of the directors and

**Table of Contents**

alternate directors, provided that any holder or group of holders of at least 10% of the total AA Shares and A Shares is entitled to name one director and an alternate director. Two directors and two alternate directors, if any, are elected by a majority vote of the holders of L Shares. Each alternate director may attend meetings of the Board of Directors and vote in the absence of a corresponding director. Directors and alternate directors are elected or ratified at each annual ordinary general meeting of shareholders and each annual ordinary special meeting of holders of L Shares, and each serves until a successor is elected and takes office. In accordance with the Mexican Securities Market Law (*Ley del Mercado de Valores*, or the Mexican Securities Market Law ), shareholders are required to make a determination as to the independence of our directors, though the CNBV may challenge this determination. Pursuant to our bylaws and the Mexican Securities Law, at least 25% of our directors must be independent. In order to have a quorum for a meeting of the Board of Directors, a majority of those present must be Mexican nationals.

All of the current members of the Board of Directors and the Executive Committee and the President of the Audit Committee, as well as of the Compensation and Investments Committees were elected or ratified at a shareholders meeting held in April 29, 2008, with ten directors elected by the AA Shares and A Shares voting together and two directors elected by the L Shares. No alternate directors were appointed.

Our bylaws provide that the members of the Board of Directors are appointed for terms of one year. Pursuant to Mexican law, members of the Board continue in their positions after the expiration of their terms for up to an additional 30 day period if new members are not appointed. Furthermore, in certain circumstances provided under the Mexican Securities Law, the Board of Directors may appoint temporary directors who then may be ratified or substituted by the shareholders meetings. The names and positions of the current members of the Board, their year of birth, and information concerning their committee membership and principal business activities outside América Móvil are as follows:

Directors elected by holders of Series AA and Series A Shares:

Patrick Slim Domit	Born:	1969
Chairman and Member of the Executive Committee	First elected:	2004
	Term expires:	2009

## **Table of Contents**

Alejandro Cantú Jiménez, our General Counsel, serves as Corporate Secretary and Rafael Robles Míaja as Corporate Pro-Secretary.

Daniel Hajj Aboumrad is the son-in-law of Carlos Slim Helú. Patrick Slim Domit is the son of Carlos Slim Helú.

### **Executive Committee**

Our bylaws provide that the Executive Committee may generally exercise the powers of the Board of Directors, with certain exceptions. In addition, the Board of Directors is required to consult the Executive Committee before deciding on certain matters set forth in the bylaws, and the Executive Committee must provide its views within ten calendar days following a request from the Board of Directors, the Chief Executive Officer or the Chairman of the Board of Directors. If the Executive Committee is unable to make a recommendation within ten calendar days or if a majority of the Board of Directors or any other corporate body duly acting within its mandate determines in good faith that action cannot be deferred until the Executive Committee makes a recommendation, the Board of Directors is authorized to act without such recommendation. The Executive Committee may not delegate its powers to special delegates or attorneys-in-fact.

The Executive Committee is elected from among the directors and alternate directors by a majority vote of the holders of common shares (AA Shares and A Shares). The Executive Committee is currently comprised of three members. The majority of its members must be Mexican citizens and elected by Mexican shareholders. Two members of the Executive Committee are named by our Mexican controlling shareholders and one member by AT&T, Inc. (formerly SBC International, Inc.). See **Major Shareholders** under Item 7. The current members of the Executive Committee are Messrs. Patrick Slim Domit and Daniel Hajj Aboumrad, named by the Mexican controlling shareholders, and Mr. Rayford Wilkins, named by AT&T.

### **Audit Committee**

The Audit Committee consists of Messrs. Alejandro Soberón Kuri, chairman, David Ibarra Muñoz and Carlos Bremer Gutiérrez. The mandate of the Audit Committee is to assist our Board of Directors in overseeing our operations, establish and monitor procedures and controls in order to ensure that the financial information we distribute is useful, appropriate and reliable and accurately reflects our financial position. In particular, the Audit Committee is required to, among other things:

provide opinions to the Board of Directors on certain matters as provided by the Mexican Securities Market Law;

call shareholders meetings and recommend inclusion of matters it deems appropriate on the agenda;

informing the Board of Directors of our internal controls and their adequacy;

select our auditors, review the scope and terms of their engagement, and determine their compensation;

monitor the performance of our auditors and re-evaluate the terms of their engagement;

recommend procedures for preparing financial statements and internal controls;

monitor internal controls and accounting for specified types of matters;

propose procedures for the preparation of financial statements for internal use that are consistent with the published financial statements;

assist the Board of Directors in preparing reports provided by the Mexican Securities Market Law;

discuss with the auditors the annual financial statements and the accounting principles being applied in the annual and the interim financial statements and based on such discussions, recommend their approval to the Board of Directors;

## **Table of Contents**

resolve disagreements between our management and auditors relating to our financial statements;

request the opinion of independent experts, when deemed appropriate or when required by law;

approve services to be provided by our auditors, or establish policies and procedures for the pre-approval of services by our auditors;

obtain from our auditors an audit report that includes a discussion of critical accounting policies used by the Company, any alternative treatments within generally accepted accounting principles for material items that have been discussed by management with our auditor, and any other written communications between our auditors and management;

report to the Board of Directors on its activities;

develop procedures for the receipt, retention and treatment of complaints regarding accounting, internal controls or auditing matters, including for the confidential submission of concerns regarding such matters by employees;

evaluation of performance of the external auditors;

review and discussion of the financial statements of the company and advising the board of directors of the committee's recommendations for approval of such financial statements;

the receipt and analysis of recommendations and observations to its functions from shareholders, members of the board of directors and senior management, and the authority to act upon such recommendations and observations; and

perform any other functions the Board of Directors may delegate to the Audit Committee.

In addition, pursuant to our bylaws, the Audit Committee is in charge of our corporate governance functions under the Mexican securities laws and is required to submit an annual report to the Board of Directors with respect to our corporate and audit practices. The Audit Committee shall request opinions of our executive officers for purposes of preparing the annual report. The Board of Directors must seek the opinion of the Audit Committee regarding any transaction with a related party that is outside the ordinary course of our business as defined under the Mexican Securities Market Law. Each member of the Audit Committee is independent, as independence is determined by our shareholders pursuant to the Mexican Securities Market Law and as defined under Rule 10A-3 of the U.S. Securities and Exchange Act of 1934.

## **External Auditor**

Our external auditor is Mancera, S.C., a Member Practice of Ernst & Young Global, an independent registered public accounting firm. Pursuant to our bylaws, the external auditor is required to issue a report in connection with our financial statements. The external auditor may be called to participate in meetings of our Board of Directors and may be in attendance at our shareholders' meetings. However, the external auditor shall have no vote and shall not engage in any discussion which may affect his independent status or may create a conflict of interest. The external auditor is responsible for the preparation of the audit report (*dictamen*) of our financial statements. The auditing firm is selected by the Board of Directors based on the opinion of the Audit Committee.

## **Compensation Committee**

The Compensation Committee consists of Messrs. David Ibarra Muñoz and Pablo Roberto González Guajardo. The mandate of the Compensation Committee is to assist the Board of Directors in evaluating and compensating our senior executives. In particular, the Compensation Committee is required to:

recommend to the Board of Directors procedures for the selection and succession of our chief executive officer and our principal executives;

propose criteria for evaluating executive performance;

**Table of Contents**

analyze the proposals of the chief executive officer concerning the structure and amount of compensation for our senior executive and raise them with the Board of Directors;

review new executive compensation programs and the operations of existing programs;

establish contracting practices to avoid excessive payments to executives;

assist the Board of Directors in developing appropriate personnel policies;

participate with the Board of Directors in developing a plan for employees to invest in our L Shares and review the implementation of such plan;

report to the Board of Directors on its activities; and

perform any other functions the Board of Directors may delegate to the Compensation Committee.

**Investments Committee**

The Investments Committee consists of Messrs. Patrick Slim Domit, Daniel Hajj Aboumrad, Pablo Roberto Gonzalez Guajardo, Alejandro Soberón Kuri, David Ibarra Muñoz, Rayford Wilkins and María Asunción Aramburuzabala Larregui. The mandate of the Investments Committee is to analyze, approve and execute the terms and conditions of proposed investments and acquisitions. The Committee has authority to review, approve and execute any and all actions required to consummate proposed investments and acquisitions.

**Senior Management**

The names, responsibilities and prior business experience of our senior officers are as follows:

Daniel Hajj Aboumrad Chief Executive Officer	Appointed:	2000
	Business experience:	Director of Telmex's Mexican subsidiaries, Chief Executive Officer of Compañía Hulera Euzkadi, S.A. de C.V.
Carlos José García Moreno Elizondo Chief Financial Officer	Appointed:	2001
	Business experience:	General Director of Public Credit at the Secretaría de Hacienda y Crédito Público, Managing Director of UBS Warburg, Associate Director of financing at Petróleos Mexicanos (Pemex)
Carlos Cárdenas Blásquez Latin American Operations	Appointed:	2000
	Business experience:	Various positions at Telmex, including Operating Manager for the paging service company Buscatel, S.A. de C.V. and Vice-President of operations for Telmex USA, Manager at Grupo Financiero Inbursa, S.A. de C.V.

Edgar Filing: AMERICA MOVIL SAB DE CV/ - Form 20-F

Alejandro Cantú Jiménez  
General Counsel

Appointed: 2001

Business experience: Mijares, Angoitia, Cortés y Fuentes, S.C.

José Elías Briones Capetillo  
Administration and Finance

Appointed: 2001

Business experience: Comptroller of Telcel

Mr. Carlos Cárdenas Blásquez is the son-in-law of Jaime Chico Pardo, one of our directors.

## **Table of Contents**

### **Chief Executive Officer**

Under our bylaws, the chief executive officer is entrusted with the performance, conduct and execution of our day-to-day business activities. The chief executive officer is responsible for recommending our internal control and internal audit guidelines and presenting business strategies for the approval of the Board of Directors. The chief executive officer is also required to present an annual report to the Board of Directors discussing, among other things:

the operations of the Company in the relevant year, as well as the policies followed and, if applicable, the principal pending projects;

the financial condition of the Company;

the recent results of the Company; and

the changes in the Company's financial condition.

### **Compensation of Directors and Senior Management**

The aggregate compensation paid to our directors (including compensation paid to members of our Audit Committee) and senior management in 2007 was approximately Ps. 3.5 million and Ps. 28.8 million, respectively. We do not provide pension, retirement or similar benefits to our directors in their capacity as directors. Our executive officers are eligible for retirement and severance benefits required by Mexican law on the same terms as all other employees, and we do not separately set aside, accrue or determine the amount of our costs that is attributable to executive officers.

### **Share Ownership**

According to beneficial ownership reports filed with the SEC on May 4, 2007, Carlos Slim Helú holds 120,000 of our A Shares, 433 million of our AA Shares and 564 million of our L Shares directly, and his son and chairman of our Board of Directors, Patrick Slim Domit, holds 444 million of our AA Shares and 516 million of our L Shares directly. In addition, according to beneficial ownership reports filed with the SEC, Carlos Slim Helú, together with his sons and daughters, including Patrick Slim Domit, may be deemed to control us through their beneficial ownership held by a trust and another entity and their direct ownership of shares. See **Major Shareholders** under Item 7 and **Bylaws Share Capital** under Item 8.

Except as described above, according to the ownership reports of shares or other securities or rights in our shares prepared by our directors and members of senior management and provided to us, none of our directors or executive officers is the beneficial owner of more than 1% of any class of our capital stock. Directors and members of senior management are requested to provide ownership information of Company shares or other securities or rights in our shares on a yearly basis.

**Table of Contents****EMPLOYEES**

The following table sets forth the number of employees and a breakdown of employees by main category of activity and geographic location as of the end of each year in the three-year period ended December 31, 2007:

	December 31,		
	2005	2006	2007
Number of employees	34,650	39,876	49,091
Category of activity:			
Wireless	28,453	31,047	36,389
Fixed	6,197	8,829	12,702
Geographic location:			
Mexico	11,129	12,370	14,360
South America	15,470	16,115	18,496
Central America	7,537	7,573	7,874
Caribbean	0	3,287	7,823
United States	515	531	538

As of December 31, 2007, the Progressive Union of Communication and Transport Workers of the Mexican Republic (*Sindicato Progresista de Trabajadores de Comunicación y Transporte de la República Mexicana*) represented approximately 86.0% of the employees of Telcel. All management positions at Telcel are held by non-union employees. Salaries and certain benefits are renegotiated every year. In April 2008, Telcel and the union agreed to a 4.3% nominal increase in basic wages, retroactive to March 1, 2008.

Under our labor agreements and Mexican labor law, we are obligated to pay seniority premiums to retiring employees and pension and death benefits to retired employees. Retirees will be entitled to receive pension increases whenever salary increases are granted to current employees.

Some of our foreign subsidiaries, including our Brazilian subsidiaries, Telgua, ENITEL, CTE, AMX Argentina and TELPRI, also have active employee unions.

We believe that we have good current relations with our workforce.

**Item 7. Major Shareholders and Related Party Transactions****MAJOR SHAREHOLDERS**

The following table sets forth our capital structure as of April 30, 2008:

Series	Number of Shares (millions)	Percent of Capital	Percent of Voting Shares(*)
L Shares (no par value)	22,381	64.6	
AA Shares (no par value)	11,712	33.8	95.6%
A Shares (no par value)	540	1.6	4.4
Total	34,634	100%	100.00%

(\*) Except on limited matters for which L Shares have voting rights.

According to reports of beneficial ownership of our shares filed with the SEC on May 4, 2007, Carlos Slim Helú, together with his sons and daughters (together, the Slim Family), may be deemed to control us through their beneficial ownership held by a trust and another entity and

their direct ownership of shares.

**Table of Contents**

Our former controlling shareholder, Amtel, and AT&T Inc., as successors of Carso Global Telecom and SBC International, Inc., respectively, were parties to an agreement relating to their ownership of AA Shares. Among other things, the agreement subjects certain transfers of AA Shares by either party to a right of first offer in favor of the other party, although the right of first offer does not apply to the conversion of AA Shares to L Shares, as permitted by our bylaws, or the subsequent transfer of L Shares. The agreement also provides for the composition of the Board of Directors and the Executive Committee and for each party to enter into a Management Services Agreement with us. According to reports of beneficial ownership of our shares filed with the SEC on May 4, 2007, the Slim Family and a Mexican trust that holds AA Shares for the benefit of the Slim Family (the Control Trust) expect to enter into amendments of the agreement with AT&T pursuant to which the Slim Family and the Control Trust will act as successor to Amtel (except that we do not expect to enter into a Management Services Agreement with the Control Trust or the Slim Family). According to reports of beneficial ownership filed with the SEC, the Slim Family may be deemed to control us through their beneficial ownership of shares held by the Control Trust and Inmobiliaria Carso and their direct ownership of shares. See Directors and Executive Committee under Item 6 and Related Party Transactions under this item 7.

The following table identifies each owner of more than 5% of any series of our shares as of April 30, 2008. Except as described in the table below and the accompanying notes, we are not aware of any holder of more than 5% of any series of our shares.

Shareholder	AA Shares		A Shares		L Shares		Percent of Voting Shares(*)
	Shares Owned (millions)	Percent of Class	Shares Owned (millions)	Percent of Class	Shares Owned (millions)	Percent of Class	
Control Trust <sup>(1)</sup>	5,446	46.5		%		%	44.4%
AT&T Inc. <sup>(2)</sup>	2,869	24.5					23.4
Inmobiliaria Carso <sup>(3)</sup>	696	5.9					5.7
FMR LLC <sup>(4)</sup>					1,297	5.7	
Capital Group International, Inc. <sup>(5)</sup>			49	8.8			0.4

(\*) Except on limited matters for which L Shares have voting rights.

- (1) Based on beneficial ownership reports filed with the SEC on May 4, 2007, the Control Trust is a Mexican trust which directly holds AA Shares for the benefit of the members of the Slim Family. Members of the Slim Family, including Carlos Slim Helú, directly own an aggregate of 1,779,218,535 AA Shares and 1,979,425,027 L Shares representing 15.19% and 8.63%, respectively, of each series and 14.50% of the total voting shares. According to such reports, none of these members of the Slim Family individually directly own more than 5% of any of our shares. According to reports of beneficial ownership of shares filed with the SEC on May 4, 2007, the Slim Family may be deemed to control us through their beneficial ownership of shares held by the Control Trust and Inmobiliaria Carso and their direct ownership of shares.
- (2) Based on beneficial ownership reports filed with the SEC on February 11, 2008. In accordance with Mexican law and our bylaws, AT&T holds its AA Shares through a Mexican trust. See Bylaws Limitations on Share Ownership under Item 10.
- (3) Inmobiliaria Carso, S.A. de C.V. is a *sociedad anónima de capital variable* organized under the laws of Mexico. Inmobiliaria Carso is a real estate holding company. The Slim Family beneficially owns, directly or indirectly, a majority of the outstanding voting equity securities of Inmobiliaria Carso. The Slim Family may be deemed to control us through their beneficial ownership held by the Control Trust and Inmobiliaria Carso and their direct ownership of shares.
- (4) Based on beneficial ownership reports on Schedule 13G filed with the SEC on February 13, 2008, we believe that as of December 31, 2007, FMR LLC was the beneficial owner of approximately 1,297 million of our L Shares. This holding would have represented 5.7% of our outstanding L Shares as of April 30, 2008. We do not know whether this institution has changed its investment in our L Shares since December 31, 2007.
- (5) Based on beneficial ownership reports on Schedule 13G filed with the SEC on February 5, 2008, we believe that as of December 31, 2007, Capital Group International, Inc. was the beneficial owner of approximately 49 million of our A Shares. This holding would have represented 8.8% of our outstanding A Shares as of April 30, 2008. We do not know whether this institution has changed its investment in our A Shares since December 31, 2007.

**Table of Contents**

As of April 30, 2008, 64.1% of the outstanding L Shares were represented by L Share ADSs, each representing the right to receive 20 L Shares, and 1.6% of the L Share ADSs were held by 12,000 registered holders with addresses in the United States. As of such date, 29.3% of the A Shares were held in the form of A Share ADSs, each representing the right to receive 20 A Shares, and 21.1% of the A Share ADSs were held by 5,454 registered holders with addresses in the United States. Each A Share may be exchanged at the option of the holder for one L Share.

We may repurchase our shares on the Mexican Stock Exchange from time to time up to a specified maximum aggregate value authorized by the holders of AA Shares and A Shares. As of December 31, 2007, we had been authorized by our shareholders to repurchase shares with an aggregate value of up to Ps. 50,000 million, and to date during 2008 we have been authorized to repurchase an additional Ps. 55,000 million. As of April 30, 2008, we had repurchased 6,732 million L Shares and 30 million A Shares, with an aggregate value of approximately Ps. 56,232 million.

---

**Table of Contents**

**RELATED PARTY TRANSACTIONS**

**Transactions with Telmex, Telmex Internacional and subsidiaries**

We have, and expect to continue to have, a variety of contractual relationships with Telmex, Telmex Internacional and their subsidiaries, including some of their international subsidiaries.

According to beneficial ownership reports filed with the SEC, Telmex and Telmex Internacional may be deemed to be under common control with us. Telmex is the only nationwide provider of fixed-line telephony in Mexico and a leading provider of fixed local and long-distance services. Telmex Internacional offers voice, data and Internet services in Brazil, Chile, Argentina, Peru, Colombia and Ecuador; pay cable and satellite television in some of these countries; and print and Internet-based yellow pages directories in Mexico, the United States, Argentina and Peru. Telmex Internacional was established on December 26, 2007 by means of a procedure under Mexican corporate law called *escisión*, by which Telmex split off its Latin American and yellow pages directory businesses.

***Continuing Commercial Relationships***

Because both we, on the one hand, and Telmex or Telmex Internacional, on the other hand, provide telecommunications services in some of the same geographical markets, we have extensive operational relationships. These relationships include interconnection between their respective networks; use of facilities, particularly for the co-location of equipment on premises owned by Telmex; use of their private circuits; the provision of long distance services to our customers; and use by each of the services provided by the other. These relationships are subject to a variety of different agreements, and the most significant of these relationships are between Telcel and Telmex in Mexico and between the operating subsidiaries of Telecom Americas and Embratel, a subsidiary of Telmex Internacional that provides fixed-line telecommunication services, in Brazil. Many of them are also subject to specific regulations governing telecommunications services. The terms of these agreements are generally similar to those on which each company does business with unaffiliated parties.

These operational relationships are material to our financial performance. In 2007, Ps. 19,703 million of our total operating revenues were attributable to interconnection with Telmex and its subsidiaries, primarily representing payments under the calling party pays system arising from fixed-to-mobile calls. We had Ps. 1,004 million in accounts receivable from Telmex and certain of its subsidiaries, and accounts payable of Ps. 1,075 million to Embratel at December 31, 2007. Also in 2007, Ps. 6,891 million of our cost of sales was attributable to payments to Telmex and its subsidiaries, primarily representing interconnection payments for long-distance calls carried by Telmex or its subsidiaries and use of facilities under leases and collocation agreements with Telmex or its subsidiaries.

***Other Commercial Relationships***

In 2006, Telmex Perú and América Móvil Perú, agreed to jointly build a fiber optic network along the coast of Peru of approximately 2,823 kilometers. The project will be completed in different phases. The first phase entails the construction of a portion of the network for an amount of U.S.\$43 million. The construction of this phase was awarded through a private beauty-contest process to our affiliates Carso Infraestructura y Construcción, S.A. de C.V. (CICSA) and Grupo ConduMex, S.A. de C.V. We may consider awarding additional phases of the project to CICSA, ConduMex or other affiliated entities.

In addition, in 2005, Telmex Argentina and AMX Argentina agreed to jointly build a fiber optic backbone network in Argentina of approximately 1,943 kilometers. The project will be completed in different phases. One of these phases entails the construction by CICSA of a portion of the network for an amount of Ps. 260,785 million (U.S.\$24 million). We may consider awarding additional phases or portions of the phases of the project to CICSA or other of our affiliated entities.

## **Table of Contents**

In 2007, Conecel began building a fiber optic network in Ecuador of approximately 1,546 kilometers. The project will be completed in different phases. The project entails the construction of the network by CICSА pursuant to an agreement between CICSА and Conecel. Amounts due under this agreement (approximately U.S.\$23.7 million (Ps. 257,528 million)) will be payable at the conclusion of the project, which is expected to occur by the end of 2008.

In November 2005, Embratel entered into an agreement with our subsidiary Telecom Americas to provide backbone network capacity to our operating companies in Brazil for a period of 20 years. Under this agreement our subsidiaries in Brazil are required to pay Embratel a monthly fee that ranges between R\$4.0 million and R\$6.0 million, depending on the capacity provided under the agreement.

In the ordinary course of business, our subsidiaries in Brazil lease real property from Embratel. The aggregate amount of consideration paid for these leases is approximately R\$71.6 million on an annual basis. We may, from time to time, lease additional real estate from Embratel. In addition, Embratel leases real property from our subsidiaries in Brazil. The aggregate amount of annual payments received by our subsidiaries under the leases is R\$14.9 million.

In July 2005, Claro Chile and Telmex Chile entered in to an agreement for the provision of capacity and infrastructure by Telmex Chile for a period of 20 years. Pursuant to the agreement, Claro Chile pays a monthly disbursement of U.S.\$17.5 million (Ps. 190.0 million) as from September 2005.

Telmex distributes Telcel handsets and prepaid cards on commercial terms, and Embratel provides call center services to the operating subsidiaries of Telecom Américas.

The terms of these agreements are generally similar to those on which each company does business with unaffiliated parties.

## ***Other Transactions***

From time to time, we make investments together with affiliated companies and sell or buy investments to or from affiliated companies. We have pursued joint investments in the telecommunications industry with Telmex.

In April 2006, we announced that Telmex and we had entered together into an agreement with Verizon to acquire through an equally-owned joint venture Verizon's 28.5% indirect equity interest in CANTV for an aggregate purchase price of U.S.\$676.6 million in cash. However, the agreement was terminated by the parties in February 2007 as a result of failure to obtain necessary governmental and other regulatory approvals in Venezuela.

## **Transactions with Other Affiliates**

We have an agreement to receive consulting services from AT&T. In 2007, we paid U.S.\$7.5 million to AT&T in compensation for their services. During each of 2006 and 2005, we paid U.S.\$1 million to AT&T for its services. We have agreements with AT&T International that provide for AT&T International completing our international calls to the United States and for our completing AT&T International's calls from the United States.

Prior to our merger with AMTEL, we had a management services agreement with AMTEL, pursuant to which we paid AMTEL U.S.\$28.5 million in 2006 and U.S.\$30 million in 2005.

Telcel purchases materials or services from a variety of companies that, according to beneficial ownership reports filed with the SEC, are under common control with us. These services include insurance and banking services provided by Grupo Financiero Inbursa, S.A. de C.V. and its subsidiaries. In addition, we sell products in Mexico through the Sanborns and Sears store chains. Telcel purchases these materials and services on terms no less favorable than it could obtain from unaffiliated parties, and would have access to other sources if our affiliates ceased to provide them on competitive terms.

**Table of Contents**

In December 2007, we donated our 19.7% interest in U.S. Commercial Corp., S.A.B. de C.V., a Mexican holding company that delisted its shares from the Mexican Stock Exchange earlier in 2007 and the parent company of CompUSA, Inc., to Fundación Carso, S.A. de C.V., a charitable organization organized by members of the Slim Family. Subsequently, U.S. Commercial Corp. sold 100% of the shares of CompUSA, Inc. to an unaffiliated third party. The Slim Family, our controlling shareholder, also controls U.S. Commercial Corp. In 2007, we wrote-off the remaining value of our investment in U.S. Commercial Corp. (Ps. 1,363 million).

Note 17 to our audited consolidated financial statements included in this annual report provides additional information about our related party transactions.

**Item 8. Financial Information**

See Item 18 Financial Statements and pages F-1 through F-81.

**DIVIDENDS**

We have paid cash dividends on our shares each year since 2001. The table below sets forth the nominal amount of dividends paid per share in each year indicated, in pesos and translated into U.S. dollars at the exchange rate on each of the respective payment dates. The figures presented below, for all periods, have been adjusted to reflect the three-for-one stock split effected on July 19, 2005.

<b>Year ended</b>	<b>Pesos per Share</b>	<b>Dollars per Share</b>
<b>December 31,</b>		
2007	Ps. 1.20	U. S.\$0.1104
2006	0.1000	0.0091
2005 <sup>(1)</sup>	0.3700	0.0345

(1) Includes the payment of an extraordinary dividend in December 2005, as described below.

The declaration, amount and payment of dividends by América Móvil is determined by majority vote of the holders of AA Shares and A Shares, generally on the recommendation of the Board of Directors, and depends on our results of operations, financial condition, cash requirements, future prospects and other factors deemed relevant by the holders of AA Shares and A Shares. We declared a dividend in April 2005 of Ps. 0.07 per share, payable in four installments of Ps. 0.0175 per share in June, September and December 2005 and March 2006. In addition, in December 2005, we declared an extraordinary dividend of Ps 0.30 per share, which was paid in a single installment on December 23, 2005. In April 2006, our shareholders authorized a dividend of Ps. 0.10 per share, which was paid in a single installment in July 2006. In April 2007, our shareholders authorized a dividend of Ps. 0.20 per share, which was paid in a single installment in July 2007. In October 2007, our shareholders approved an extraordinary dividend of Ps. 1.0 per share, which was paid in a single installment in November 2007. In April 2008, our shareholders authorized a dividend of Ps. 0.26 per share, payable in a single installment in July 2008. These dividends were or will be paid on each series of our shares.

Our bylaws provide that holders of AA Shares, A Shares and L Shares participate on a per-share basis in dividend payments and other distributions, subject to certain preferential dividend rights of holders of L Shares. See Bylaws Dividend Rights and Bylaws Preferential Rights of L Shares under Item 10.

**LEGAL PROCEEDINGS**

In each of the countries in which we conduct operations, we are party to various legal proceedings in the ordinary course of business. These proceedings include, without limitation, tax, labor, antitrust and contractual claims and claims regarding interconnection practices or agreements and tariffs. See Note 16 to our audited consolidated financial statements included in this annual report.

Our concessions are generally subject to early termination for violations of certain service, quality, coverage standards and certain interconnection obligations. We are also party to a number of proceedings regarding our

---

**Table of Contents**

compliance with concession standards. As of the date of this annual report, we believe that none of these proceedings is likely to result in the revocation of any of our material concessions.

Below is a summary of the most significant legal proceedings in which we are currently involved.

**Telcel**

***Cofeco***

In December 2007 and April 2008, the Cofeco initiated general market investigations to ascertain whether one or more cellular operators have substantial market power on (i) the termination (interconnection) of calls made as part of the national and international calling party pays system and (ii) local voice services, respectively. As is contemplated by applicable law, Cofeco requested Telcel and certain of its subsidiaries to participate in the investigations. As of the date of this annual report, Telcel and its subsidiaries have reserved their right to participate in the future, depending on the evolution of the investigation and the scope of preliminary findings (*dictamen preliminar*) to be published by Cofeco, as is required by law. The investigations are scheduled to conclude during 2008. According to the Antitrust Law and the Telecommunications Law, if substantial market power is determined by Cofeco on one or more carriers, the SCT could impose specific dominant carrier regulations on such operators with respect to tariffs, quality of service and information, which may result in significant limitations on the ability of those operators to continue conducting business as currently conducted.

In addition to the investigation described above, since December 2007, Cofeco has initiated several other general market investigations to ascertain whether one or more operators have substantial market power on other telecommunications markets, including (i) leasing of local and long distance transmission circuits or lines; (ii) fixed local and long distance voice termination; (iii) voice local origination services and (iv) voice local transit services provided by local fix operators. As is contemplated by applicable law, Cofeco requested Telcel and certain of its subsidiaries to participate in the investigations. As of the date of this annual report, Telcel and its subsidiaries have reserved their right to participate in the future, depending on the evolution of the investigation and the scope of preliminary findings (*dictamen preliminar*) to be published by Cofeco, as is required by law. These investigations are scheduled to conclude during 2008.

During the past six years, Cofeco has initiated administrative proceedings against Telcel for alleged anti-competitive behavior primarily in connection with (i) actions by certain distributors of Telcel in relation to the purchase and sale of cellular phones; (ii) exclusivity agreements with certain content providers; and (iii) antitrust practices in the interconnection market. These proceedings are in varying procedural stages, and no final ruling against Telcel has been issued.

Adverse determinations against Telcel in any of these proceedings could result in material fines, penalties or restrictions on our operations. We have not made provisions in our financial statements for these potential liabilities since at the time our most recent financial statements were published, the amount of the possible contingency could not be reasonably estimated.

***Interconnection***

In December 2004, Telcel reached an agreement with various other telecommunications service providers as to the interconnection fees applicable under the calling party pays system for the period from January 1, 2005 until December 31, 2007. The agreement called for a gradual reduction of 10% per year in interconnection fees charged under the calling party pays system from the 2004 rate of Ps. 1.90 per minute to Ps. 1.39 by the end of 2007. The agreement also contemplated that these reductions would be reflected in the tariffs charged by fixed operators to their users. The new framework was promoted by Cofetel, and the related agreements were registered with Cofetel.

Certain telecommunications service providers challenged the tariff framework, arguing that the proposed interconnection fees did not properly take into account certain costs and initiated proceedings with Cofetel to

---

**Table of Contents**

obtain their intervention in resolving the matter. In September 2006, Cofetel ruled on these challenges and established a framework of fees applicable to the operators that challenged the previous framework. Based on Cofetel's ruling, the interconnection rate for calling party pays calls that the dissenting operators must pay Telcel from January 2005 through December 2010 are as follows: Ps.1.71 per minute or fraction thereof during 2005; Ps.1.54 per minute or fraction thereof from January through September 2006; Ps.1.23 per minute or fraction thereof from October through December 2006; Ps.1.23 per minute during 2007; Ps.1.12 per minute during 2008; Ps.1.00 per minute during 2009; and Ps.0.90 per minute during 2010. In addition, Cofetel ruled that starting in 2007, interconnection fees would be charged based on the total number of seconds used during all completed calls for the month rounded to the next minute, rather than by rounding each call to the next minute, as had been the practice. In order to mitigate the effects of this change, Cofetel ruled that wireless operators were entitled to a surcharge of 25% in 2007, 18% in 2008 and 10% in 2009 over the interconnection fees billed to fixed-line operators.

Telcel initiated legal proceedings (*juicio de amparo*) challenging the resolution, and in addition, began participating in negotiations among fixed-line and wireless operators to establish a mutually acceptable interconnection tariff framework and resolve disputes arising from the resolution. During the last quarter 2006 and first quarter 2007, Telcel reached agreement with all cellular operators and a majority of the local fixed operators, including Telmex and some of the dissenting operators, to apply the following rates from 2007 through 2010: Ps.1.34 per minute or fraction of interconnection during 2007, Ps.1.21 per minute or fraction of interconnection during 2008, Ps.1.09 per minute or fraction of interconnection during 2009 and Ps.1.00 per minute or fraction of interconnection during 2010. These interconnection fees are not calculated based on the actual number of seconds of use, but rather on rounding each call to the next minute. These agreements cover approximately 93% of all the traffic terminated in Telcel's network.

In December 2007, a competent court granted in part Telcel's request for relief (*amparo*), and declared null and void the September 2006 resolution on one of the dissenting parties. However, the court requested Cofetel to issue a new resolution covering the period from 2005 through 2007. Based on Cofetel's 2008 ruling, the interconnection rates for calling party pays calls that the dissenting operator must pay Telcel are as follows: Ps.1.71 per minute or fraction thereof during 2005; Ps.1.54 per minute or fraction thereof from January through September 2006; Ps.1.23 per minute or fraction thereof from October through December 2006; Ps.1.23 per minute during 2007. Under the ruling, Cofetel maintained its position that interconnection fees applicable during 2007 are to be charged based on the total number of seconds used during all completed calls for the month rounded to the next minute, rather than by rounding each call to the next minute, as had been the practice, and that wireless operators are entitled to charge a 25% premium over interconnection fees billed to fixed-line operators during 2007. Telcel expects to receive similar resolutions in connection with the other dissenting parties. Telcel has initiated legal proceedings (*juicio de amparo*) challenging the 2008 resolution, but is charging under protest the lower fees contemplated by the Cofetel resolutions to the remaining dissenting operators, while its challenges to the resolutions are pending. If such challenge is successful, Telcel will seek to collect from dissenting operators any difference in fees arising from the applicability of lower rates in previous periods. The dissenting parties have requested Cofetel to establish interconnection rates for the period from 2008 to 2011. As of the date of this annual report, Cofetel has not issued a resolution establishing interconnection rates for such period.

During April 2008, Cofetel notified Telcel of new challenges to the interconnection framework filed by one of the original dissenting parties. Telcel has responded to this new challenge, and it expects that the administrative proceeding regarding this interconnection dispute will be concluded by Cofetel during second quarter of 2008. Any new order from Cofetel may result in a significant reduction to applicable interconnection rates.

***Short Message Services (SMS)***

Under the terms of its concessions for the 800 megahertz spectrum, Telcel must pay to the Mexican federal government a royalty based on gross revenues from concessioned services. The royalty is levied at rates that vary from region to region and average approximately 6%.

---

## **Table of Contents**

Telcel believes that short message services are value-added services, which are not concessioned services, and that revenues from short message services should not be subject to this royalty.

In related proceedings, Cofotel has ruled that short text messages are subject to the interconnection regulatory regime and that such services do not constitute value-added services. Telcel is currently disputing these issues in an administrative proceeding, but has made provisions in its financial statements for this potential liability. As of December 31, 2007, Telcel had provisioned Ps. 412.2 million.

### ***Trademarks Tax Assessment***

On March 3, 2006, the Mexican Tax Administration System (*Sistema de Administración Tributaria*, or SAT ) notified Telcel of an assessment of Ps. 281.7 million (Ps. 155.8 million plus adjustments, fines and late fees) as a result of a tax deduction made by Telcel in 2003 of Ps. 1,267.7 million in connection with royalty payments made to another of our subsidiaries for the use of certain trademarks. In June 2007, the SAT notified us of an additional assessment of Ps.541.5 million (Ps.258.5 million plus adjustments, fines and late fees) as a result of a tax deduction made by us in 2003 in connection with the aforementioned royalty payments. We and Telcel believe that these deductions were made in accordance with applicable law and have challenged the validity of these assessments.

In December 2007, the SAT notified Telcel of a new assessment of Ps.453.6 million (Ps.243.6 million plus adjustments, fines and late fees) in connection with a deduction of advertising expenses made by Telcel in 2004 in the amount of Ps.1,678.6 million. The SAT is challenging the validity of this deduction, alleging that the deduction is unfounded because Telcel is already paying a royalty for the use of the trademarks. Telcel believes that the SAT's argument is unfounded and has challenged the assessment in court.

Based on these assessments, we expect that the SAT will challenge deductions made during 2005, 2006 and 2007 for royalty payments and/or expenses associated with the trademarks. We have not made specific provisions in our financial statements for these potential liabilities.

### **Comcel**

#### ***Voice over IP***

In March 2000, the SIC issued Resolution No. 4954, requiring Comcel to pay a fine of approximately U.S.\$100 thousand (approximately Ps.1 million) for alleged anti-competitive behavior. In addition to this administrative fine, the SIC ordered Comcel to pay damages to other long distance operators. The long distance operators estimated their damages to be U.S.\$70 million (approximately Ps.760 million). Comcel requested an administrative review of the damages decision, which was denied in June 2000. Comcel appealed, and the appeal was rejected in November 2000. Comcel resubmitted the appeal in February 2001. Comcel also filed a special action in court challenging the denial of the administrative review.

Following a series of court proceedings, a Colombian appeals court in June 2002 ordered that Comcel's February 2001 appeal be granted and that the administrative decision against Comcel be reviewed. After additional proceedings, the Constitutional Court revoked the June 2002 decision and ordered the continuance of the procedure for the determination of damages to the other operators.

### **Telecom Americas**

#### ***Anatel Inflation-Related Adjustments***

ANATEL has challenged each of Tess, S.A., or Tess , and ATL-Telecom Leste, S.A., or ATL , regarding the calculation of inflation-related adjustments due under these companies' concession agreements with ANATEL. Forty percent of the concession price under each of these agreements was due upon execution and 60% was due in three equal annual installments (subject to inflation-related adjustments and interest) beginning in 1999. Both companies have made these concession payments, but ANATEL has rejected the companies' calculation of the inflation-related adjustments and requested payment of the alleged shortfalls.

## **Table of Contents**

The companies have filed declaratory and consignment actions in Brazilian courts seeking resolution of the disputes. The court of first instance ruled against AT&T's filing for declaratory action in October 2001 and AT&T's filing for consignment action in September 2002. Subsequently, AT&T filed appeals, which are pending. In September 2003, the court of first instance ruled against TSP's filing for consignment action. Subsequently, TSP filed an appeal, which is still pending. No ruling has been made to date with respect to the declaratory action filed by TSP.

The aggregate contested amounts are approximately U.S.\$178 million (including potential penalties and interest) (approximately Ps.1,922 million). On December 31, 2005, both AT&T and TSP were merged into BCP, S.A. ( BCP ). In April 2008, BCP changed its name to Claro S.A.

We have made specific provisions in our financial statements for these potential liabilities.

### ***BNDESPar***

Prior to the acquisition of Telet and Americel, by Telecom Americas, BNDESPar, a subsidiary of BNDES, the Brazilian development bank, had entered into investment and other shareholder agreements with Americel, Telet and certain of their significant shareholders. Under these agreements, BNDESPar had the right, among others, to participate in the sale of shares of Telet and Americel in the event of certain transfers of control, for so long as BNDESPar held 5% of the share of capital in those companies. In October 2003, Telecom Americas increased the capital of each of Telet and Americel and BNDESPar's ownership fell below 5% from approximately 20% in each, as it elected not to exercise its preemptive rights. Subsequently, BNDESPar sent official notices to Telet and Americel reserving its rights under the agreements with respect to certain past transfers of shares. In November 2004, BNDESPar filed a lawsuit with the competent court of Rio de Janeiro claiming that BNDESPar is entitled to sell its shares in Telet and Americel to Telecom Americas for approximately U.S.\$164 million (approximately Ps.1,777 million). We do not believe that BNDESPar has valid grounds for its claims against Telecom Americas. We cannot provide assurance, however, that Telecom Americas will ultimately prevail in this dispute. We have not made specific provisions in our financial statements for this potential liability.

### ***Lune Patent Case***

A Brazilian company claims that wireless operators in Brazil have infringed its patent over certain caller ID technology. The plaintiff first brought a patent infringement case in a state court in Brasília, Federal Capital of Brazil, against Americel and later brought cases, as part of two separate proceedings, against other 23 defendants. Although the Company believes that the patent does not cover the technology that is used by Americel to provide caller ID services, Americel lost the case at the trial level and on first appeal. After the judgment against Americel was rendered, a federal court in Rio de Janeiro, Brazil, rendered a preliminary injunction decision suspending the effects of the patent, in an action filed by a supplier of caller ID technology. This injunction was later upheld on appeal, and the proceeding for judicial review on the merits of the validity of the patent is in its initial stages.

Americel filed three special appeals against the decision of the state court in Brasília, seeking review at the Superior Court of Justice (which is the highest court in Brazil to decide on questions of federal law) and Supreme Court (the highest court in Brazil to decide on questions of constitutional law). The Court of Appeals has determined that two of Americel's special appeals will be heard by the Superior Court of Justice. Americel's request for a special appeal before the Supreme Court was denied. Americel filed a motion requesting the reversal of this decision which is still pending.

The cases against the other operators are currently suspended as a result of the preliminary injunction suspending the effects of the patent. The plaintiff has brought these cases to the same state trial court that heard the case against Americel, but the defendants have requested that the cases be remitted to another court on jurisdictional grounds. The Americel judgment does not bind other state courts or federal courts of Brazil. The Company does not expect that there will be a resolution of these other cases within this year.

**Table of Contents**

In the case against Americel, the plaintiff has requested the court to initiate the necessary proceedings for the execution of judgment. The court has estimated that the award for damages could amount to as much as approximately U.S.\$270 million (approximately Ps.2,916 million). In September 2006, the Higher Court of Justice of Brazil unanimously ruled to stay the trial, due to the injunction suspending the validity of the patent in question. The Company expects that the trial will remain stayed as long as the patent remains suspended. Furthermore, Americel benefits from a limited contractual indemnity from its equipment suppliers (Nortel Networks) in respect of trademark infringement. The Company has not made specific provisions in the accompanying financial statements to cover these potential liabilities.

***Tax Assessments against Americel***

In December 2005, the Secretaria da Receita Federal do Brasil (the Brazilian Federal Revenue Service) issued three tax assessments against Americel in respect of withholding income taxes and PIS and COFINS taxes (contributions levied on gross revenue) for 2000 through 2005. The total amount of the tax assessments is of approximately R\$224.2 million (approximately P.1,376 million), including R\$88.8 million (approximately P.541 million) of taxes and contributions plus fines and interest. The Company has challenged these assessments, and its challenge is pending before the Conselho de Contribuintes (Brazilian Taxpayers Council) in Brasilia. The Company did not make any specific provisions in the accompanying 2007 financial statements to cover these potential liabilities.

***Tax Assessments against ATL***

In March 2006, the Brazilian Federal Revenue Service issued two tax assessments against ATL in respect of certain tax credits claimed by ATL and derived from non-cumulative contributions levied on gross income (PIS and COFINS). Under the Brazilian tax legislation, the calculation and payment of PIS and COFINS has two different regimes, the cumulative and non-cumulative regimes. The applicability of a regime depends on the nature of the company and its business sector. The cumulative regime applies to revenues derived from the provision of telecommunications services, while the sale of handsets is taxed under the non-cumulative regime. The non-cumulative regime is based on the value-added concept and allows the taxpayer to claim tax credits corresponding to preceding transactions. ATL (as well as other of the Company's Brazilian subsidiaries) offsets the tax credit derived from the non-cumulative regime for the sale of handsets (the balance between the purchase and the sale of handsets), against contributions owed under the cumulative regime. The Brazilian Federal Revenue Service is arguing that tax credits derived from the non-cumulative regime may not be used to offset contributions owed under the cumulative regime. The total amount of the tax assessments is approximately R\$54.9 million (approximately Ps.334 million), including R\$24.1 million (approximately Ps.147 million) of taxes and contributions plus R\$30.8 million (approximately Ps.188 million) of fines and interest. We have challenged these assessments, and the challenge is pending before the Brazilian Taxpayers Council. We did not make any specific provisions in our financial statements to cover these potential liabilities. On December 31, 2005, ATL was merged into BCP. In April 2008, BCP changed its name to Claro S.A.

**Conecel*****Tax Assessments***

In December 2007 and January 2008, the *Servicio de Rentas Internas de Ecuador* (the Ecuadorian Revenue Service or the SRI) informed Conecel that it intends to issue tax assessments against Conecel amounting to approximately U.S.\$138 million (not including interest or penalties) (approximately Ps.1,490 million), in respect of special consumption (ICE), value-added, income and withholding taxes for the years 2003 to 2006. As of December 31, 2007, Conecel had provisioned U.S.\$19.6 million (approximately Ps.213 million). In March 2008, the SRI issued tax assessments against Conecel in respect of such taxes amounting to approximately U.S.\$46 million (not including interest or penalties) (approximately Ps.496 million), and Conecel expects to receive additional assessments in respect of the remainder during 2008. Conecel has agreed to pay U.S.\$14.3 million (approximately Ps.155 million) to the SRI in respect of the assessments issued in March 2008. Conecel believes that no additional amounts are due by it in respect of these assessments and potential assessments.

**Table of Contents****Item 9. The Offer and Listing****TRADING MARKETS**

Our shares and ADSs are listed or quoted on the following markets:

L Shares	Mexican Stock Exchange Mexico City
	Mercado de Valores Latinoamericanos en Euros (LATIBEX) Madrid
L Share ADSs	New York Stock Exchange New York
	FWB Frankfurter Wertpapierbörse Frankfurt
A Shares	Mexican Stock Exchange Mexico City

**TRADING ON THE MEXICAN STOCK EXCHANGE**

The Mexican Stock Exchange, located in Mexico City, is the only stock exchange in Mexico. Founded in 1907, it is organized as a corporation and operates under a concession from the Ministry of Finance and Public Credit (*Secretaría de Hacienda y Crédito Público*). Trading on the Mexican Stock Exchange takes place principally through automated systems between the hours of 8:30 a.m. and 3:00 p.m. Mexico City time, each business day. The Mexican Stock Exchange operates a system of automatic suspension of trading in shares of a particular issuer as a means of controlling excessive price volatility, but under current regulations this system does not apply to securities such as the A Shares or the L Shares that are directly or indirectly (for example, through ADSs) quoted on a stock exchange (including for these purposes NASDAQ) outside Mexico.

Settlement is effected three business days after a share transaction on the Mexican Stock Exchange. Deferred settlement, even by mutual agreement, is not permitted without the approval of the CNBV. Most securities traded on the Mexican Stock Exchange, including those of América Móvil, are on deposit with S.D.

### **Item 10. Additional Information**

#### **BYLAWS**

Set forth below is a brief summary of certain significant provisions of our bylaws and Mexican law. This description does not purport to be complete and is qualified by reference to our bylaws, which have been filed as an exhibit to this annual report. For a description of the provisions of our bylaws relating to our Board of Directors, Executive and Audit Committees and External Auditor, see Item 6 Directors, Senior Management and Employees.

#### **Mexican Securities Market Law**

In July 2006 a new Mexican Securities Market Law came into effect. Such new law introduced significant changes to the then current legal regime, including:

the establishment of a separate corporate form of organization for issuers with stock registered in the CNBV and listed on the Mexican Stock Exchange;

the redefinition of the functions and structure of the board of directors, including (i) increasing the number of members of the board of directors (up to 21, with independent members comprising at least 25%) and (ii) requiring that the status of the members of the board of directors as independent be determined by the shareholders' meeting, subject to the CNBV's authority to challenge such determination;

a legal framework applicable to the chief executive officer (*director general*) and executive officers (*directivos relevantes*) entrusted with the day-to-day management of the company;

a more precise definition of fiduciary duties, including the duty of care and the duty of loyalty, for members of the board of directors and its secretary, the chief executive officer and other executive officers;

more defined liability for members of the board of directors and its secretary with respect to the operations and performance of the company, including (i) the payment of damages and losses resulting from their lack of care or loyalty and (ii) criminal penalties of up to 12 years of imprisonment for certain illegal acts involving willful misconduct. The company or shareholders that represent 5% or more of the capital stock of the company may bring civil actions to enforce the new liability provisions described under (i) above, whereas criminal actions under (ii) above may only be brought by the Mexican Ministry of Finance, after consulting with the CNBV and, in certain cases, by the victim;

the elimination of the requirement that a company have a statutory auditor, and the delegation to the committee performing corporate governance and audit functions and the external auditors of specific obligations regarding corporate governance and oversight;

the requirement that all members of the committees that performed the audit and corporate governance functions be independent as qualified by the shareholders;

## Edgar Filing: AMERICA MOVIL SAB DE CV/ - Form 20-F

enhanced functions and responsibilities of the audit committee, including (i) evaluation of performance of the external auditors, (ii) review and discussion of the financial statements of the company and advising the board of directors of the committee's recommendations for approval of such financial statements, (iii) oversight of internal controls and internal audit procedures of the company, (iv) the receipt and analysis of recommendations and observations to its functions from shareholders, members of the board of directors and senior management, and the authority to act upon such recommendations and observations and (v) the authority to call a shareholders' meeting and to contribute to the meeting's agenda;

## **Table of Contents**

the requirement that the shareholders meeting approve all transactions that represent 20% or more of the consolidated assets of the company within a given fiscal year; and

the inclusion of a new set of rules requiring a company to obtain prior authorization from the CNBV to carry out public offerings of securities and tender offers.

On December 13, 2006, we amended our bylaws in order to reflect the amendments to the Mexican Securities Market Law.

## **Organization and Register**

América Móvil is a *sociedad anónima bursátil de capital variable* organized in Mexico under the Mexican General Corporations Law (*Ley General de Sociedades Mercantiles*) and the Mexican Securities Market Law. It was registered in the Public Registry of Commerce of Mexico City on October 13, 2000 under the number 263,770.

## **Share Capital**

Our capital stock comprises AA Shares, without par value, A Shares, without par value and L Shares, without par value. All of the outstanding shares are fully paid and non-assessable.

AA Shares and A Shares have full voting rights. Holders of L Shares may vote only in limited circumstances as described under Voting Rights under this Item 10. The rights of holders of all series of capital stock are identical except for the voting rights and the limitations on non-Mexican ownership of AA Shares. The AA Shares, which must always represent at least 51% of the combined AA Shares and A Shares, may be owned only by holders that qualify as Mexican investors as defined in the Foreign Investment Law (*Ley de Inversión Extranjera*) and our bylaws. See Limitations on Share Ownership under this Item 10.

Each AA Share or A Share may be exchanged at the option of the holder for one L Share, provided that the AA Shares may never represent less than 20% of our outstanding capital stock or less than 51% of our combined AA Shares and A Shares.

## **Voting Rights**

Each AA Share and A Share entitles the holder thereof to one vote at any meeting of our shareholders. Each L Share entitles the holder to one vote at any meeting at which holders of L Shares are entitled to vote. Holders of L Shares are entitled to vote only to elect two members of the Board of Directors and the corresponding alternate directors and on the following matters:

the transformation of América Móvil from one type of company to another;

any merger of América Móvil;

the extension of our corporate life;

our voluntary dissolution;

a change in our corporate purpose;

transaction that represent 20% or more of the Company's consolidated assets;

a change in our state of incorporation;

removal of our shares from listing on the Mexican Stock Exchange or any foreign stock exchange; and

any action that would prejudice the rights of holders of L Shares.

---

## **Table of Contents**

A resolution on any of the specified matters requires the affirmative vote of both a majority of all outstanding shares and a majority of the AA Shares and the A Shares voting together.

Under Mexican law, holders of shares of any series are also entitled to vote as a class on any action that would prejudice the rights of holders of shares of such series, and a holder of shares of such series would be entitled to judicial relief against any such action taken without such a vote. There are no other procedures for determining whether a proposed shareholder action requires a class vote, and Mexican law does not provide extensive guidance on the criteria to be applied in making such a determination.

### **Shareholders Meetings**

General shareholders meetings may be ordinary meetings or extraordinary meetings. Extraordinary general meetings are those called to consider certain matters specified in Article 182 of the Mexican General Corporations Law (*Ley General de Sociedades Mercantiles*), including, principally, amendments of the bylaws, liquidation, merger and transformation from one type of company to another, as well as to consider the removal of our shares from listing on the Mexican Stock Exchange or any foreign stock exchange. General meetings called to consider all other matters are ordinary meetings. The two directors elected by the holders of L Shares are elected at a special meeting of holders of L Shares. All other matters on which holders of L Shares are entitled to vote would be considered at an extraordinary general meeting.

A special meeting of the holders of L Shares must be held each year for the election or ratification of directors. An ordinary general meeting of the holders of AA Shares and A Shares must be held each year to consider the approval of the financial statements for the preceding fiscal year, to elect or ratify directors and to determine the allocation of the profits of the preceding year. An ordinary general shareholder meeting of all shareholders, including holders of L Shares, must be held to consider the approval of all transactions that represent 20% or more of our consolidated assets within the corresponding immediately preceding quarter of any fiscal year.

The quorum for an ordinary general meeting of the AA Shares and A Shares is 50% of such shares, and action may be taken by a majority of the shares present. If a quorum is not available, a second meeting may be called at which action may be taken by a majority of the AA Shares and A Shares present, regardless of the number of such shares. Special meetings of holders of L Shares are governed by the same rules applicable to ordinary general meetings of holders of AA Shares and A Shares. The quorum for an extraordinary general meeting at which holders of L Shares may not vote is 75% of the AA Shares and A Shares, and the quorum for an extraordinary general meeting at which holders of L Shares are entitled to vote is 75% of the outstanding capital stock. If a quorum is not available in either case, a second meeting may be called and action may be taken, provided a majority of the shares entitled to vote is present. Whether on first or second call, actions at an extraordinary general meeting may be taken by a majority vote of the AA Shares and A Shares outstanding and, on matters which holders of L Shares are entitled to vote, a majority vote of all the capital stock.

Holders of 20% of our outstanding capital stock may have any shareholder action set aside by filing a complaint with a court of law within 15 days after the close of the meeting at which such action was taken and showing that the challenged action violates Mexican law or our bylaws. In addition, any holder of our capital stock may bring an action at any time within five years challenging any shareholder action. Relief under these provisions is only available to holders:

who were entitled to vote on, or whose rights as shareholders were adversely affected by, the challenged shareholder action; and

whose shares were not represented when the action was taken or, if represented, were voted against it.

Shareholders meetings may be called by the Board of Directors, its chairman, its corporate secretary, the President of the Audit Committee or a court. The Chairman of the Board of Directors or the President of the Audit Committee may be required to call a meeting of shareholders by the holders or 10% of the outstanding

## **Table of Contents**

capital stock. Notice of meetings must be published in the Official Gazette of the Federation (*Diario Oficial de la Federación*) or a newspaper of general circulation in Mexico City at least 15 days prior to the meeting.

In order to attend a meeting, shareholders are required to deposit their shares at the office of our corporate secretary with a Mexican or foreign banking institution or with a Mexican exchange broker. The depository for the L Share ADSs and the A Share ADSs does not satisfy this requirement, so ADS holders are not entitled to attend shareholder meetings. However, ADS holders may still vote through the depository.

## **Dividend Rights**

At the annual ordinary general meeting of holders of AA Shares and A Shares, the Board of Directors submits our financial statements for the previous fiscal year, together with a report thereon by the Board, to the holders of AA Shares and A Shares for approval. The holders of AA Shares and A Shares, once they have approved the financial statements, determine the allocation of our net profits for the preceding year. They are required by law to allocate 5% of such net profits to a legal reserve, which is not thereafter available for distribution except as a stock dividend, until the amount of the legal reserve equals 20% of our capital stock. The remainder of net profits is available for distribution.

All shares outstanding at the time a dividend or other distribution is declared are entitled to participate in such dividend or other distribution, subject to certain preferential rights of the L Shares. See **Preferential Rights of L Shares** under this Item 10.

## **Preferential Rights of L Shares**

Holders of L Shares are entitled to receive a cumulative preferred annual dividend of 0.00042 pesos per share before any dividends are payable in respect of any other class of América Móvil capital stock. If we pay dividends with respect to any fiscal year in addition to the L Share preferred dividend, such dividends must be allocated:

first, to the payment of dividends with respect to the A Share and AA Shares, in an equal amount per share, up to the amount of the L Share preferred dividend, and

second, to the payment of dividends with respect to all classes of América Móvil shares such that the dividend per share is equal. Upon liquidation of América Móvil, holders of L Shares will be entitled to a liquidation preference equal to:

accrued but unpaid L Share preferred dividends, plus

0.00833 pesos per share (representing the capital attributable to such shares as set forth in our bylaws) before any distribution is made in respect of our other capital stock in accordance with Article 113 of the Mexican General Corporations Law (*Ley General de Sociedades Mercantiles*).

Following payment in full of any such amount, holders of AA Shares and A Shares are entitled to receive, if available, an amount per share equal to the liquidation preference paid per L Share. Following payment in full of the foregoing amounts, all shareholders share equally, on a per share basis, in any remaining amounts payable in respect of our capital stock.

## **Limitation on Capital Increases**

Our bylaws require that any capital increase be represented by new shares of each series in proportion to the number of shares of each series outstanding.

---

## **Table of Contents**

### **Preemptive Rights**

In the event of a capital increase, except in certain circumstances such as mergers, convertible debentures, public offers and placement of repurchased shares, a holder of existing shares of a given series has a preferential right to subscribe for a sufficient number of shares of the same series to maintain the holder's existing proportionate holdings of shares of that series. Preemptive rights must be exercised within the next 15 calendar days following the publication of notice of the capital increase in the Official Gazette of the Federation (*Diario Oficial de la Federación*) and a newspaper of general circulation in Mexico City. Under Mexican law, preemptive rights cannot be traded separately from the corresponding shares that give rise to such rights. As a result, there is no trading market for the rights in connection with a capital increase. Holders of ADSs may exercise preemptive rights only through the depository. We are not required to take steps that may be necessary to make this possible.

### **Limitations on Share Ownership**

Our bylaws provide that at least 20% of our capital stock must consist of AA Shares. Our bylaws also provide that A Shares and L Shares together cannot represent more than 80% of our capital stock. AA Shares can only be held or acquired by:

Mexican citizens;

Mexican corporations whose capital stock is held completely by Mexican citizens;

Mexican corporations in which at least 51% of their capital stock may only be held or acquired by (i) Mexican citizens or (ii) Mexican corporations;

Mexican credit and insurance companies;

Mexican investment companies operating under the Investment Companies Law (*Ley de Sociedades de Inversión*) and Mexican institutional investors as defined in the Mexican Securities Market Law; and

Trusts expressly permitted to acquire AA Shares in accordance with Mexican law and in which (i) the majority of the trustee's rights are held by Mexican citizens, corporations whose capital stock is held by Mexican citizens in its majority, and Mexican credit, insurance and investment companies, or (ii) the AA Shares controlled by the trust represent a minority of the outstanding AA Shares and are voted in the same manner as the majority of the outstanding AA Shares.

If foreign governments or states acquire our AA Shares, such shares would immediately be rendered without effect or value.

Non-Mexican investors cannot hold AA Shares except through trusts that effectively neutralize their votes. AT&T, one of our shareholders, holds its AA Shares through a trust that has been approved by relevant authorities in Mexico for this purpose.

### **Restrictions on Certain Transactions**

Our bylaws provide that any transfer of more than 10% of the combined A Shares and AA Shares, effected in one or more transactions by any person or group of persons acting in concert, requires prior approval by our Board of Directors. If the Board of Directors denies such approval, however, Mexican law and our bylaws require it to designate an alternate transferee, who must pay market price for the shares as quoted on the Mexican Stock Exchange.

Further, the ordinary shareholders meeting shall approve all transactions that represent 20% or more of our consolidated assets within the corresponding immediately preceding quarter of any fiscal year.

## **Table of Contents**

### **Restrictions on Deregistration in Mexico**

Our shares are registered with the National Securities Registry maintained by the CNBV, as required under the Mexican Securities Market Law and regulations issued by the CNBV.

If we wish to cancel our registration, or if it is cancelled by the CNBV, we are required to conduct a public offer to purchase all the outstanding shares prior to such cancellation. Such offer shall be addressed exclusively to those persons other than the members of the controlling group of shareholders, who were shareholders or holders of other securities representing such shares (i) as of the date set forth by the CNBV, if the registration is cancelled by resolution thereof, or (ii) as of the date of the resolution adopted by the general extraordinary shareholders meeting, if the registration is cancelled voluntarily.

Our bylaws provide that if, after the public offer is concluded, there are still outstanding shares held by the general public, América Móvil will be required to create a trust for a period of six months, into which we will be required to contribute funds in an amount sufficient to purchase, at the same price as the offer price, the number of outstanding shares held by the general public that did not consent to the offer.

Unless the CNBV authorizes otherwise, upon the prior approval of the Board of Directors which must take into account the opinion of the audit committee, the offer price will be the higher of: (i) the average of the closing price during the previous 30 days on which the shares may have been quoted, or (ii) the book value of the shares in accordance with the most recent quarterly report submitted to the CNBV and to the Mexican Stock Exchange.

The voluntary cancellation of the registration shall be subject to (i) the prior authorization of the CNBV, and (ii) the authorization of not less than 95% of the outstanding capital stock in a general extraordinary shareholders meeting.

### **Tender Offer Rules**

Our bylaws provide that any purchasers or group of purchasers that obtain or increase a significant participation (*i.e.*, 30% or more) in the capital stock of the company, without conducting a previous public offer in accordance with the applicable rules issued by the CNBV, would not have the right to exercise the corporate rights of their shares, and that the company will not register such shares in the share registry book.

### **Other Provisions**

*Variable capital.* We are permitted to issue shares constituting fixed capital and shares constituting variable capital. All of our outstanding shares of capital stock constitute fixed capital. The issuance of variable-capital shares, unlike the issuance of fixed-capital shares, does not require an amendment of the bylaws, although it does require a majority vote of the AA Shares and the A Shares.

*Forfeiture of shares.* As required by Mexican law, our bylaws provide that any alien who at the time of incorporation or at any time thereafter acquires an interest or participation in the capital of the corporation shall be considered, by virtue thereof, as Mexican in respect thereof and shall be deemed to have agreed not to invoke the protection of his own government, under penalty, in case of breach of such agreement, of forfeiture to the nation of such interest or participation. Under this provision a non-Mexican shareholder is deemed to have agreed not to invoke the protection of his own government by asking such government to interpose a diplomatic claim against the Mexican government with respect to the shareholder's rights as a shareholder, but is not deemed to have waived any other rights it may have, including any rights under the U.S. securities laws, with respect to its investment in América Móvil. If the shareholder invokes such governmental protection in violation of this agreement, its shares could be forfeited to the Mexican government. Mexican law requires that such a provision be included in the bylaws of all Mexican corporations unless such bylaws prohibit ownership of shares by non-Mexican persons.

---

## **Table of Contents**

*Exclusive jurisdiction.* Our bylaws provide that legal actions relating to the execution, interpretation or performance of the bylaws shall be brought only in Mexican courts.

*Duration.* América Móvil's existence under the bylaws continues indefinitely.

*Purchase of our own shares.* According to the bylaws, we may repurchase our shares on the Mexican Stock Exchange at any time at the then prevailing market price. Any such repurchase must conform to guidelines established by the Board of Directors, and the amount available to repurchase shares must be approved by the general ordinary shareholders meeting. The economic and voting rights corresponding to repurchased shares may not be exercised during the period in which we own such shares, and such shares are not deemed to be outstanding for purposes of calculating any quorum or vote at any shareholders' meeting during such period.

*Conflict of interest.* A shareholder that votes on a business transaction in which its interest conflicts with América Móvil's may be liable for damages, but only if the transaction would not have been approved without its vote.

*Appraisal rights.* Whenever the shareholders approve a change of corporate purposes, change of nationality of the corporation or transformation from one type of company to another, any shareholder entitled to vote on such change that has voted against it may withdraw from América Móvil and receive the book value attributable to its shares, provided it exercises its right within 15 days following the adjournment of the meeting at which the change was approved.

## **Rights of Shareholders**

The protections afforded to minority shareholders under Mexican law are different from those in the United States and many other jurisdictions. The substantive law concerning fiduciary duties of directors has not been the subject of extensive judicial interpretation in Mexico, unlike many states in the United States where duties of care and loyalty elaborated by judicial decisions help to shape the rights of minority shareholders. Mexican civil procedure does not contemplate class actions, which permit shareholders in U.S. courts to bring actions on behalf of other shareholders. Shareholders cannot challenge corporate action taken at a shareholders' meeting unless they meet certain procedural requirements, as described above under "Shareholders' Meetings."

As a result of these factors, in practice it may be more difficult for our minority shareholders to enforce rights against us or our directors or controlling shareholders than it would be for shareholders of a U.S. company.

In addition, under the U.S. securities laws, as a foreign private issuer we are exempt from certain rules that apply to domestic U.S. issuers with equity securities registered under the U.S. Securities Exchange Act of 1934, including the proxy solicitation rules and the rules requiring disclosure of share ownership by directors, officers and certain shareholders. We are also exempt from the corporate governance requirements of the NYSE and NASDAQ, except that since July 2005 we are subject to the requirements concerning audit committees and independent directors adopted pursuant to the Sarbanes-Oxley Act of 2002. For a comparison of our corporate governance policies and the corporate governance requirements of the NYSE and NASDAQ, see "Corporate Governance" under this Item 10.

## **Enforceability of Civil Liabilities**

América Móvil is organized under the laws of Mexico, and most of our directors, officers and controlling persons reside outside the United States. In addition, all or a substantial portion of our assets and their assets are located in Mexico. As a result, it may be difficult for investors to effect service of process within the United States on such persons. It may also be difficult to enforce against them, either inside or outside the United States, judgments obtained against them in U.S. courts, or to enforce in U.S. courts judgments obtained against them in courts in jurisdictions outside the United States, in any action based on civil liabilities under the U.S. federal securities laws. There is doubt as to the enforceability against such persons in Mexico, whether in original actions or in actions to enforce judgments of U.S. courts, of liabilities based solely on the U.S. federal securities laws.

**Table of Contents**

**CERTAIN CONTRACTS**

Telcel holds concessions granted by the SCT with respect to its licenses in each of the nine regions in Mexico. See Mexican Operations Regulation under Item 4. A number of our subsidiaries and affiliates also hold concessions granted by regulatory authorities in the countries in which they operate. See Mexican Operations, Non-Mexican Operations Telecom Americas and Other Investments under Item 4.

Our agreements with related parties are described in Related Party Transactions under Item 7.

**EXCHANGE CONTROLS**

Mexico has had a free market for foreign exchange since 1991, and the government has allowed the peso to float freely against the U.S. dollar since December 1994. There can be no assurance that the government will maintain its current foreign exchange policies. See Exchange Rates under Item 3.

**CORPORATE GOVERNANCE PRACTICES**

The disclosure of the significant ways our corporate governance practices differ from those required for U.S. companies under the New York Stock Exchange and the NASDAQ listing standards is posted on our website and can be accessed at [www.americamovil.com](http://www.americamovil.com).

---

**Table of Contents**

**TAXATION**

The following summary contains a description of certain Mexican federal and U.S. federal income tax consequences of the acquisition, ownership and disposition of L Shares, A Shares, L Share ADSs or A Share ADSs, but it does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a decision to purchase, hold or sell shares or ADSs.

The Convention for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion and the Protocols thereto between the United States and Mexico entered into force on January 1, 1994 and has been amended by an additional protocol that entered into force on July 3, 2003 (together, the Tax Treaty). The United States and Mexico have also entered into an agreement concerning the exchange of information with respect to tax matters.

This discussion does not constitute, and should not be considered as, legal or tax advice to holders. The discussion is for general information purposes only and is based upon the federal tax laws of Mexico (including the Mexican Income Tax Law and the Mexican Federal Tax Code) and the United States as in effect on the date of this annual report (including the Tax Treaty), which are subject to change, and such changes may have retroactive effect. Holders of shares or ADSs should consult their own tax advisers as to the Mexican, U.S. or other tax consequences of the purchase, ownership and disposition of shares or ADSs, including, in particular, the effect of any foreign, state or local tax laws.

**Mexican Tax Considerations**

The following is a general summary of the principal consequences under the Mexican Income Tax Law (*Ley del Impuesto sobre la Renta*, or the Mexican Income Tax Law) and rules and regulations thereunder, as currently in effect, of an investment in shares or ADSs by a holder that is not a resident of Mexico and that will not hold shares or ADSs or a beneficial interest therein in connection with the conduct of a trade or business through a permanent establishment in Mexico (a nonresident holder).

For purposes of Mexican taxation, the definition of residence is highly technical and residence arises in several situations. Generally, an individual is a resident of Mexico if he or she has established his or her home or center of vital interests in Mexico, and a corporation is considered a resident if it has its place of effective management in Mexico. However, any determination of residence should take into account the particular situation of each person or legal entity.

If a legal entity or an individual is deemed to have a permanent establishment in Mexico for Mexican tax purposes, all income attributable to that permanent establishment will be subject to Mexican income taxes, in accordance with applicable tax laws.

This summary does not address all of the Mexican tax consequences that may be applicable to specific holders of the shares (including a holder that controls the Company, an investor that holds 10% or more of the shares or holders that constitute a group of persons for purposes of Mexican law). It also does not purport to be a comprehensive description of all the Mexican tax considerations that may be relevant to a decision to purchase, own or dispose of the shares. In particular, this summary does not describe any tax consequences arising under the laws of any state, locality, municipality or taxing jurisdiction other than certain federal laws of Mexico.

*Tax Treaties*

Provisions of the Tax Treaty that may affect the taxation of certain U.S. holders (as defined below) are summarized below.

The Mexican Income Tax Law has established procedural requirements for a nonresident holder disposing of his shares to be entitled to the benefits under any of the tax treaties to which Mexico is a party. These

---

## **Table of Contents**

procedural requirements include among others the obligation to (i) prove tax treaty residence, (ii) present tax calculations made by authorized certified public accountants, and (iii) appoint representatives in Mexico for taxation purposes.

### *Payment of Dividends*

Dividends, either in cash or in kind, paid with respect to the L Shares, A Shares, L Share ADSs or A Share ADSs will not be subject to Mexican withholding tax.

### *Taxation of Dispositions*

Under current Mexican law and regulations, there is no basis for the Mexican tax authorities to impose taxes on income realized by a nonresident holder from a disposition of shares or ADSs which are registered in the Mexican Stock Exchange, provided that (i) the transaction is carried out through (a) the Mexican Stock Exchange, (b) other securities exchanges or markets approved by the Mexican Ministry of Finance and Public Credit (*Secretaría de Hacienda y Crédito Público*), or (c) other securities exchanges or markets with ample securities trading that are located in countries with which Mexico has entered into an income tax treaty, such as the NYSE, the *FWB Frankfurter Wertpapierbörse*, NASDAQ and the *Mercado de Valores Latinoamericanos en Euros (LATIBEX)*, and (ii) certain other requirements are met, including that the acquisition was made pursuant to a non-restricted open market offer. Sales or other dispositions of shares or ADSs carried out in other circumstances generally are subject to Mexican tax, except to the extent that a nonresident holder is eligible for benefits under an income tax treaty to which Mexico is a party.

Pursuant to the Tax Treaty, gains realized by a U.S. resident which is eligible to receive benefits pursuant to the Tax Treaty from the sale or other disposition of shares, even if the sale or disposition is not carried out under the circumstances described in the preceding paragraphs, will not be subject to Mexican income tax, provided that the gains are not attributable to a permanent establishment or a fixed base in Mexico, and further provided that such U.S. holder owned less than 25% of the shares representing our capital stock (including ADSs), directly or indirectly, during the 12-month period preceding such disposition. U.S. residents should consult their own tax advisors as to their possible eligibility under the treaty.

Gains realized by other nonresident holders that are eligible to receive benefits pursuant to other income tax treaties to which Mexico is a party may be exempt from Mexican income tax in whole or in part. Non-U.S. holders should consult their own tax advisers as to their possible eligibility under such treaties.

If a corporation is a resident in a tax haven (as defined by the Mexican Income Tax Law), the applicable rate will be 40% on the gross income obtained.

### *Other Mexican Taxes*

Under certain circumstances, a nonresident holder will not be liable for estate, inheritance or similar taxes with respect to its holdings of shares or ADSs; provided, however, that gratuitous transfers of shares may in certain circumstances result in imposition of a Mexican tax upon the recipient. There are no Mexican stamp, issue registration or similar taxes payable by a nonresident holder with respect to shares or ADSs.

## **U.S. Federal Income Tax Considerations**

The following is a summary of certain U.S. federal income tax consequences to U.S. holders (as defined below) of the acquisition, ownership and disposition of shares or ADSs. The summary does not purport to be a comprehensive description of all of the tax consequences of the acquisition, ownership or disposition of shares or ADSs. The summary applies only to U.S. holders that will hold their shares or ADSs as capital assets and does not apply to special classes of U.S. holders such as dealers in securities or currencies, holders with a functional currency other than the U.S. dollar, holders of 10% or more of our voting shares (whether held directly or

---

## **Table of Contents**

through ADSs or both), tax-exempt organizations, financial institutions, holders liable for the alternative minimum tax, securities traders electing to account for their investment in their shares or ADSs on a mark-to-market basis, and persons holding their shares or ADSs in a hedging transaction or as part of a straddle or conversion transaction.

For purposes of this discussion, a U.S. holder is a holder of shares or ADSs that is:

a citizen or resident of the United States of America,

a corporation organized under the laws of the United States of America or any state thereof, or

otherwise subject to U.S. federal income taxation on a net income basis with respect to the shares or ADSs.

***Each U.S. holder should consult such holder's own tax advisor concerning the overall tax consequences to it of the ownership or disposition of shares or ADSs that may arise under foreign, state and local laws.***

### ***Treatment of ADSs***

In general, a U.S. holder of ADSs will be treated as the owner of the shares represented by those ADSs for U.S. federal income tax purposes. Deposits or withdrawals of shares by U.S. holders in exchange for ADSs will not result in the realization of gain or loss for U.S. federal income tax purposes. U.S. holders that withdraw any shares should consult their own tax advisors regarding the treatment of any foreign currency gain or loss on any pesos received in respect of such shares.

### ***Taxation of Distributions***

In this discussion, we use the term dividends to mean distributions paid out of our current or accumulated earnings and profits with respect to shares or ADSs. In general, the gross amount of any dividends will be includible in the gross income of a U.S. holder as ordinary income on the day on which the dividends are received by the U.S. holder, in the case of shares, or by the depository, in the case of ADSs. Dividends will be paid in pesos and will be includible in the income of a U.S. holder in a U.S. dollar amount calculated by reference to the exchange rate in effect on the date that they are received by the U.S. holder, in the case of shares, or by the depository, in the case of ADSs (regardless of whether such pesos are in fact converted into U.S. dollars on such date). If such dividends are converted into U.S. dollars on the date of receipt, a U.S. holder generally should not be required to recognize foreign currency gain or loss in respect of the dividends. U.S. holders should consult their own tax advisors regarding the treatment of foreign currency gain or loss, if any, on any pesos received by a U.S. holder or depository that are converted into U.S. dollars on a date subsequent to receipt. Dividends paid by us will not be eligible for the dividends-received deduction allowed to corporations under the U.S. Internal Revenue Code of 1986, as amended (the Code).

Subject to certain exceptions for short-term and hedged positions, the U.S. dollar amount of dividends received by an individual prior to January 1, 2011 with respect to the ADSs will be subject to taxation at a maximum rate of 15% if the dividends are qualified dividends. Dividends paid on the ADSs will be treated as qualified dividends if (i) the ADSs are readily tradable on an established securities market in the United States and (ii) we were not, in the year prior to the year in which the dividend was paid, and are not, in the year in which the dividend is paid a passive foreign investment company (PFIC). The ADSs are listed on the New York Stock Exchange, and will qualify as readily tradable on an established securities market in the United States so long as they are so listed. Based on our audited consolidated financial statements and relevant market and shareholder data, we believe that we were not treated as a PFIC for U.S. federal income tax purposes with respect to the 2006 or 2007 taxable year. In addition, based on our audited consolidated financial statements and our current expectations regarding the value and nature of our assets, the sources and nature of our income, and relevant market and shareholder data, we do not anticipate becoming a PFIC for our 2008 taxable year. Based on

---

**Table of Contents**

existing guidance, it is not entirely clear whether dividends received with respect to the shares will be treated as qualified dividends, because the shares are not themselves listed on a U.S. exchange. In addition, the U.S. Treasury has announced its intention to promulgate rules pursuant to which holders of ADSs or common stock and intermediaries through whom such securities are held will be permitted to rely on certifications from issuers to establish that dividends are treated as qualified dividends. Because such procedures have not yet been issued, it is not clear whether we will be able to comply with them. Holders of ADSs and common shares should consult their own tax advisors regarding the availability of the reduced dividend tax rate in the light of their own particular circumstances.

Distributions of additional shares or ADSs to U.S. holders with respect to their shares or ADSs that are made as part of a pro rata distribution to all of our shareholders generally will not be subject to U.S. federal income tax.

***Taxation of Dispositions***

A U.S. holder generally will recognize capital gain or loss on the sale or other disposition of the shares or ADSs in an amount equal to the difference between the U.S. holder's basis in such shares or ADSs (in U.S. dollars) and the amount realized on the disposition (in U.S. dollars, determined at the spot rate on the date of disposition if the amount realized is denominated in a foreign currency). Gain or loss recognized by a U.S. holder on such sale or other disposition generally will be long-term capital gain or loss if, at the time of disposition, the shares or ADSs have been held for more than one year. Long-term capital gain recognized by a U.S. holder that is an individual is taxed at reduced rates of tax. The deduction of a capital loss is subject to limitations for U.S. federal income tax purposes.

Gain, if any, realized by a U.S. holder on the sale or other disposition of the shares or ADSs generally will be treated as U.S. source income for U.S. foreign tax credit purposes. Consequently, if a Mexican withholding tax is imposed on the sale or disposition of the shares, a U.S. holder that does not receive significant foreign source income from other sources may not be able to derive effective U.S. foreign tax credit benefits in respect of these Mexican taxes. U.S. holders should consult their own tax advisors regarding the application of the foreign tax credit rules to their investment in, and disposition of, the shares.

***Information Reporting and Backup Withholding***

Dividends on, and proceeds from the sale or other disposition of, the shares or ADSs paid to a U.S. holder generally may be subject to the information reporting requirements of the Code and may be subject to backup withholding unless the holder:

establishes that it is a corporation or other exempt holder, or

provides an accurate taxpayer identification number on a properly completed Internal Revenue Service Form W-9 and certifies that no loss of exemption from backup withholding has occurred.

The amount of any backup withholding from a payment to a holder will be allowed as a credit against the U.S. holder's U.S. federal income tax liability and may entitle such holder to a refund, provided that certain required information is furnished to the Service.

***U.S. Tax Consequences for Non-U.S. holders***

*Distributions.* A holder of shares or ADSs that is, with respect to the United States, a foreign corporation or a non-resident alien individual (a non-U.S. holder) generally will not be subject to U.S. federal income or withholding tax on dividends received on shares or ADSs, unless such income is effectively connected with the conduct by the holder of a U.S. trade or business.

---

**Table of Contents**

*Dispositions.* A non-U.S. holder of shares or ADSs will not be subject to U.S. federal income or withholding tax on gain realized on the sale of shares or ADSs, unless:

such gain is effectively connected with the conduct by the holder of a U.S. trade or business, or

in the case of gain realized by an individual holder, the holder is present in the United States for 183 days or more in the taxable year of the sale and certain other conditions are met.

*Information Reporting and Backup Withholding.* Although non-U.S. holders generally are exempt from backup withholding, a non-U.S. holder may be required to comply with certification and identification procedures in order to establish its exemption from information reporting and backup withholding.

**DOCUMENTS ON DISPLAY**

We file reports, including annual reports on Form 20-F, and other information with the SEC pursuant to the rules and regulations of the SEC that apply to foreign private issuers. You may read and copy any materials filed with the SEC at its public reference rooms in Washington, D.C. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. As a foreign private issuer, we have been required to make filings with the SEC by electronic means since November 2002. Any filings we make electronically will be available to the public over the Internet at the SEC's web site at <http://www.sec.gov> and at our website at <http://www.americamovil.com>. (This URL is intended to be an inactive textual reference only. It is not intended to be an active hyperlink to our website. The information on our website, which might be accessible through a hyperlink resulting from this URL, is not and shall not be deemed to be incorporated into this annual report.)

**Item 11. Quantitative and Qualitative Disclosures about Market Risk**

**EXCHANGE RATE AND INTEREST RATE RISKS**

We are exposed to market risk principally from changes in interest rates and currency exchange rates. Interest rate risk exists principally with respect to our net financial liabilities bearing interest at floating rates. Interest rate risk also exists with respect to the fair value of fixed-rate financial assets and liabilities. Exchange rate risk exists with respect to our financial assets and liabilities denominated in currencies other than Mexican pesos, principally on our U.S. dollar denominated debt. We are also subject to exchange rate risks with respect to our investments outside Mexico.

At December 31, 2007, we had approximately Ps. 7,373 million (as compared to Ps. 26,463 million as of December 31, 2006) in financial assets denominated in currencies other than Mexican pesos, principally consisting of cash, short-term investments and marketable securities, and approximately Ps. 72,568 million (as compared to Ps. 73,184 million as of December 31, 2006) in financial liabilities denominated in currencies other than Mexican pesos, consisting of debt. Approximately 82% of our non-peso indebtedness as of December 31, 2007 was denominated in U.S. dollars, whereas only a small portion of our operating cash flow is denominated in U.S. dollars. As of December 31, 2007, we had Ps. 68,567 million of debt that bore interest at floating rates.

We regularly assess our interest rate and currency exchange exposures and determine whether to adjust our position. We may use derivative instruments as an economic hedge to adjust our exposures. Our hedging practices vary from time to time depending on our judgment of the level of risk, expectations as to interest or exchange rate movements and the costs of using derivative instruments. See Risk Management under Item 5. We have also used derivative instruments from time to time to seek to reduce our costs of financing. We may stop using derivative instruments or modify our practices at any time.

---

**Table of Contents**

**SENSITIVITY ANALYSIS DISCLOSURES**

The potential increase in net debt and corresponding foreign exchange loss, taking account our hedging transactions, that would have resulted as a December 31, 2007 from a hypothetical, instantaneous 10% depreciation of all of our operating currencies against the U.S. dollar, would have been approximately Ps. 4,304 million. Such depreciation would have also resulted in additional interest expense of approximately Ps. 267 million per annum, reflecting the increased costs of servicing foreign currency indebtedness.

A hypothetical, immediate increase of 100 basis points in the interest rates applicable to our floating rate financial liabilities at December 31, 2007 would have resulted in additional interest expense of approximately Ps. 419 million per year, assuming no change in the principal amount of such indebtedness.

The above sensitivity analyses are based on the assumption of unfavorable movements in exchange or interest rates applicable to each homogeneous category of financial assets and liabilities. A homogeneous category is defined according to the currency in which financial assets and liabilities are denominated and assumes the same exchange rate or interest rate movement with each homogeneous category. As a result, exchange rate risk and interest rate risk sensitivity analysis may overstate the impact of exchange rate or interest rate fluctuations for such financial instruments, as consistently unfavorable movements of all exchange rates or interest rates are unlikely.

**Item 12. Not Applicable**

**Item 13. Defaults, Dividend Arrearages and Delinquencies**

None.

**Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds**

None.

**Item 15. Controls and Procedures**

(a) *Disclosure controls and procedures.* We carried out an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2007. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based upon our evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms, and that it is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

(b) *Management's annual report on internal controls over financial reporting.*

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended. Under the supervision and with the participation of our management, including our Board of Directors, Chief Executive Officer, Chief Financial Officer and other personnel, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

---

**Table of Contents**

Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with Mexican Financial Reporting Standards, including the reconciliation to U.S. GAAP in accordance with Item 18 of Form 20-F. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with Mexican FRS, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on our financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Based on our evaluation under the framework in Internal Control Integrated Framework, our management concluded that our internal control over financial reporting was effective as of December 31, 2007.

Our management's assessment of the effectiveness of the company's internal control over financial reporting as of December 31, 2007 excludes, in accordance with applicable guidance provided by the SEC, an assessment of the internal control over financial reporting of Oceanic, which we acquired in November 2007. Oceanic represented approximately 0.23% of our net assets at December 31, 2007, and 0.004% and (0.03)% of our total consolidated revenues and our net income, respectively, for the year ended December 31, 2007.

Mancera, S.C., a Member Practice of Ernst & Young Global, an independent registered public accounting firm, our independent auditor, issued an attestation report on our internal control over financial reporting on June 2, 2008.

*(c) Attestation Report of the registered public accounting firm.*

**Report of Independent Registered Public Accounting Firm on Internal Control Over Financial Reporting.**

**The Board of Directors and Shareholders of América Móvil, S.A.B. de C.V.**

We have audited América Móvil, S.A.B. de C.V.'s internal control over financial reporting as of December 31, 2007, based on criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). América Móvil, S.A.B. de C.V.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States of America). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with Mexican Financial Reporting Standards, including the reconciliation to U.S. GAAP in

---

**Table of Contents**

accordance with Item 18 of Form 20F. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with Mexican Financial Reporting Standards, including the reconciliation to U.S. GAAP in accordance with Item 18 of Form 20F, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As indicated in the accompanying Management's Annual Report on Internal Control over Financial Reporting, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of Oceanic Digital Jamaica (ODJ), a subsidiary in Jamaica, which is included in the 2007 consolidated financial statements of América Móvil, S.A.B. de C.V. and constituted 0.24% and 0.23% of total and net assets, respectively, as of December 31, 2007 and 0.00% and (0.03%) of revenues and net income, respectively for the year then ended. Our audit of internal control over financial reporting of América Móvil, S.A.B. de C.V. also did not include an evaluation of the internal control over financial reporting of Oceanic Digital Jamaica (ODJ), a subsidiary in Jamaica.

In our opinion, América Móvil, S.A.B. de C.V. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2007, based on the COSO criteria.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States of America), the consolidated balance sheets of América Móvil, S.A.B. de C.V. and subsidiaries as of December 31, 2006 and 2007 and the related consolidated statements of income, changes in stockholder's equity, and changes in financial position for each of the three years in the period ended December 31, 2007 of América Móvil, S.A.B. de C.V. and our report dated June 2, 2008 expressed an unqualified opinion thereon.

Mancera, S.C.

A Member Practice of

Ernst & Young Global

/s/ Agustin Aguilar Laurents

Agustin Aguilar Laurents

Mexico City, Mexico

June 2, 2008

(d) *Changes in internal control over financial reporting.* There has been no change in our internal control over financial reporting during 2007 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**Table of Contents****Item 16A. Audit Committee Financial Expert**

Our Board of Directors has determined that Carlos Bremer Gutiérrez qualifies as an audit committee financial expert, and Mr. Bremer Gutiérrez is independent, within the meaning of this Item 16A.

**Item 16B. Code of Ethics**

We have adopted a code of ethics, as defined in Item 16B of Form 20-F under the Securities Exchange Act of 1934, as amended. Our code of ethics applies, among others, to our chief executive officer, chief financial officer and comptroller, and persons performing similar functions. Our code of ethics is available on our web site at [www.americamovil.com](http://www.americamovil.com). If we amend any provisions of our code of ethics that apply to our chief executive officer, chief financial officer, comptroller and persons performing similar functions, or if we grant any waiver of such provisions, we will disclose such amendment or waiver on our web site at the same address.

**Item 16C. Principal Accountant Fees and Services  
Audit and Non-Audit Fees**

The following table sets forth the fees billed to us and our subsidiaries by our independent auditors, Mancera, during the fiscal years ended December 31, 2006 and 2007:

	Year ended December 31, 2006                      2007 (thousands of constant pesos as of December 31, 2007)	
Audit fees	Ps. 44,772	Ps. 55,224
Audit-related fees	9,049	5,819
Tax fees	17,190	19,269
Other fees	2,659	6,439
Total fees	Ps. 73,670	Ps. 86,751

Audit fees in the above table are the aggregate fees billed by Mancera and its affiliates in connection with the audit of our annual financial statements, the review of our interim financial statements and statutory and regulatory audits.

Audit-related fees in the above table are the aggregate fees billed by Mancera and its affiliates for the review of reports on our operations submitted to Cofetel and attestation services that are not required by statute or regulation.

Tax fees in the above table are fees billed by Mancera and its affiliates for tax compliance services, tax planning services and tax advice services.

Other fees in the above table are fees billed by Mancera and its affiliates primarily related to assistance in connection with information technology services.

**Audit Committee Approval Policies and Procedures**

Our audit committee has not established pre-approval policies and procedures for the engagement of our independent auditors for services. Our audit committee expressly approves on a case-by-case basis any engagement of our independent auditors for audit and non-audit services provided to us or our subsidiaries.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Stockholders of

América Móvil, S.A.B. de C.V.

We have audited the accompanying consolidated balance sheets of América Móvil, S.A.B. de C.V. and subsidiaries as of December 31, 2006 and 2007 and the related consolidated statements of income, changes in stockholders' equity and changes in financial position for each of the three years in the period ended December 31, 2007. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of TracFone Wireless, Inc., a consolidated subsidiary, whose assets account for approximately 1% of the consolidated totals at December 31, 2006 and 2007 and whose operating revenues account for approximately 6%, 6% and 5% of the related consolidated totals for the years ended December 31, 2005, 2006 and 2007. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for TracFone Wireless, Inc., is based solely on the report of the other auditors.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation (including the Company's conversion of the financial statements of TracFone Wireless, Inc. to Mexican Financial Reporting Standards). We believe that our audits and the report of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of other auditors, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of América Móvil, S.A.B. de C.V. and subsidiaries at December 31, 2006 and 2007, and the consolidated results of their operations, and changes in their financial position for each of the three years in the period ended December 31, 2007, in conformity with Mexican Financial Reporting Standards, which differ in certain respects from accounting principles generally accepted in the United States of America (see Note 22 to the consolidated financial statements).

As discussed in Note 2 (1) to the consolidated financial statements, in 2007 the Company adopted the provisions of Mexican Financial Reporting Standard D-6, *Capitalization of the Comprehensive Result of Financing*.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), América Móvil, S.A.B. de C.V.'s internal control over financial reporting as of December 31, 2007, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated June 2, 2008, expressed an unqualified opinion thereon.

**Report of Independent Registered Certified Public Accounting Firm**

Board of Directors and Stockholders

TracFone Wireless, Inc.

Miami, Florida

We have audited the accompanying consolidated balance sheets of TracFone Wireless, Inc. as of December 31, 2007 and 2006 and the related consolidated statements of income, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2007. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of TracFone Wireless, Inc. at December 31, 2007 and 2006, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2007, in conformity with accounting principles generally accepted in the United States of America.

**Table of Contents****AMÉRICA MÓVIL, S.A.B. DE C.V. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Amounts in thousands of constant Mexican pesos as of December 31, 2007

and thousands of U.S. dollars, except when indicated otherwise)

**1. Description of Business**

América Móvil, S.A.B. de C.V. and subsidiaries (collectively, the Company or América Móvil) provides wireless and fixed communications services in Latin America. América Móvil obtains its revenues primarily from telecommunications services, including the sale of airtime (including interconnection under the calling party pays program), monthly rent, long-distance charges, and other services (including roaming, value added services and other service charges), as well as the proceeds from the sale of cellular phones and accessories.

América Móvil has authorization, licenses, permits and concessions (hereinafter collectively referred to as licenses) to build, install, operate and use both public and private telecommunications networks and provide telecommunication services (mostly mobile and fixed-line telephony) in the countries in which the Company has presence, except for in the U.S. These licenses will expire on various dates between the years 2008 and 2046.

Some of these licenses require the payment to the respective governments of a share in sales determined as a percentage of revenues from services under concession. The percentage is set as either a fixed rate or in some cases based on the size of the number of channels in operation (except for Guatemala and El Salvador).

**Merger**

At an extraordinary meeting held on December 13, 2006, the stockholders agreed to merge América Telecom, S.A.B. de C.V. (AMTEL) and Corporativo Empresarial, S.A. de C.V. (Corporativo) into América Móvil (see Note 3 for additional information).

Before the merger, AMTEL held a 66.66% of the voting shares of América Móvil and 40.74% of the Company's total equity.

**Equity investments in subsidiaries and affiliated companies**

At December 31, 2006 and 2007, América Móvil's equity interest in its principal subsidiaries and affiliated companies is as follows:

Company	Country	Equity interest at December 31	
		2006	2007
<b>Subsidiaries:</b>			
<b>AMX Tenedora, S.A. de C.V.</b>	Mexico	100.0%	<b>100.0%</b>

(1) The name "Telecom Américas" as used hereinafter refers collectively to the companies Claro Participaciones, Alecan, Americel and BCP, all of which operate under the trademark "Claro".

(2) The name "CTE" as used hereinafter refers collectively to the companies CTE, Personal, Cablenet, Telecomoda and Publicom.

(3) Companies acquired in 2006 and 2007 (see Note 10).

(4) In January 2007, CTI PCS, S.A. was merged into CTI Compañía de Teléfonos de Interior, S.A. de C.V., the surviving company. Such merger had no effect on the Company's consolidated financial statements. The companies changed their name in July 2007.

The above mentioned subsidiaries provide mobile telephony services. Telgua, CTE, Enitel, Dominicana and Puerto Rico provide mainly, among other telecommunication services, fixed-line telephone services.

TracFone resells cellular airtime on a prepaid basis through retailers to customers who use telephones equipped with TracFone software. TracFone does not own a cellular infrastructure but purchases airtime from mobile carriers throughout the United States.

On February 29, 2008, América Móvil's Chief Executive Officer, General Counsel and Chief Financial Officer authorized the issuance of the Company's consolidated Mexican Financial Reporting Standards (Mexican FRS) financial statements and notes as of December 31, 2006 and 2007 and for each of the three years in the period ended December 31, 2007. The accompanying consolidated financial statements which consist of those Mexican FRS consolidated financial statements and notes, as supplemented by the accompanying US GAAP disclosures presented in Notes 22 and 23, were authorized for issuance herein by América Móvil's Chief Executive Officer, General Counsel and Chief Financial Officer on June 2, 2008.

---

## **Table of Contents**

### **2. Summary of Significant Accounting Policies and Practices**

The most significant accounting policies and practices observed in the preparation of these financial statements, in conformity with Mexican FRS, are described below:

#### **a) Consolidation and basis of translation of financial statements of foreign subsidiaries**

##### **i) Consolidation and equity method**

The consolidated financial statements include the accounts of América Móvil and those of its subsidiaries. All the companies operate in the telecommunications sector or provide services to companies operating in such sector. Non-controlling interest relates to the Company's foreign subsidiaries.

All intercompany balances and transactions have been eliminated in the consolidated financial statements.

The investment in associated companies is valued using the equity method, which basically consists of recognizing the Company's proportional share in the net income or loss and the stockholders' equity of its investees.

The results of operations of the subsidiaries and associates were included in the Company's consolidated financial statements as of the month following the acquisition.

##### **ii) Basis of translation of financial statements of foreign subsidiaries**

The financial statements of foreign subsidiaries and associates, which in the aggregate account for approximately 51%, 54% and 59% of the Company's total operating revenues for 2005, 2006 and 2007, respectively, and approximately 65% and 75% of the Company's total assets at December 31, 2006 and 2007, were translated into Mexican pesos as follows:

The financial statements as reported by the subsidiaries abroad, in the local currency, were adjusted to conform to Mexican FRS in force and later restated to constant pesos based on the inflation rate of the country in which the subsidiary operates.

Balance sheet amounts, except for stockholders' equity, are translated at the prevailing exchange rate at year-end. Stockholders' equity accounts are translated at the prevailing exchange rate at the time capital contributions were made and earnings were generated. Income statement amounts were translated to constant Mexican pesos using the prevailing exchange rate at the end of the reporting period.

Translation differences are recorded in stockholders' equity in the caption "Effect of translation of foreign entities" under "Other comprehensive income items". At December 31, 2005, 2006 and 2007, the translation (loss) gain was Ps. (347,774), Ps. 1,273,306 and Ps. 10,001,762, respectively.

The financial statements at December 31, 2005 and 2006 of the subsidiaries abroad were restated to Mexican pesos with purchasing power at December 31, 2007, based on the rate of inflation in Mexico. The effects of inflation and variances in the exchange rates of each country were not material.

Exchange differences and the monetary position effect derived from intercompany monetary items are included in the consolidated statements of income.

#### **b) Revenue recognition**

Revenues are recognized at the time services are provided. Mobile telecommunications services are provided either under prepaid (calling cards) or under contract (post-paid) plans. In both cases, airtime revenues are recognized as a customer uses the airtime or when the card expires in the case of prepayments or for unused airtime.

## **Table of Contents**

Monthly basic rent under post-paid plans is billed in arrears based on the rates approved by the regulatory authorities in each country and corresponds to services rendered, except in Mexico and Colombia, where basic monthly rent is billed one month in advance. Revenues are recognized at the time services are provided. Billed revenues for the service not yet rendered are recognized as deferred revenues.

Revenues from interconnections services, which consist of calls of other carriers that enter the Company's cellular network (incoming interconnections services), are recognized at the time the service is provided. Such services are billed based on rates previously agreed with the other carriers.

Long-distance charges refer to airtime used in receiving from or making calls to regions or coverage areas outside of the area where the customer service is activated. The related revenues are recognized at the time the service is provided.

Roaming charges represent airtime charged to customers for making or receiving calls outside their coverage areas or abroad. The related revenues are recognized at the time the service is provided based on the rates agreed upon with other domestic and international carriers.

Value added services and other services include voice services and data transmission services (such as two-way and written messages, call information, ring tones, emergency services, among others). Revenues from such services are recognized at the time they are provided or in the case of ring tones, when the services are downloaded.

Sales of handsets and accessories, which for the most part are made to authorized distributors, are recorded as revenue when a) the products are delivered and accepted by the distributor, b) distributors do not have return right and c) probability of collection is reasonably assured.

Discounts granted on the sale of cellular equipment to wholesalers, retailers and department store chains are recognized as reductions in sales prices.

Telgua, ENITEL, CTE, Dominicana and Puerto Rico's revenues from telephone line installation fees (net of related costs) are deferred and recognized over the estimated average life of subscribers.

The Company usually does not charge activation fees to its customers; however, in certain regions, depending upon market, certain activation fees are charged. The Company recognizes revenues from these fees when billed. These revenues are not deferred because they are not significant to the Company's financial statements taken as a whole.

### **c) Cost of cellular telephone equipment**

The cost related to cellular telephone equipment is recognized in the statements of income at the time the corresponding income is recognized. Shipping and handling costs for wireless handsets sold to distributors are classified as costs of sales.

Cellular equipment and accessories inventories are valued at their cost of acquisition using the average cost method.

### **d) Interconnection costs**

Interconnection costs represent the costs of outgoing calls from the Company's cellular networks to other carriers' network, the costs of link-ups between fixed and cellular networks, long-distance charges and rent paid for use of infrastructure (links, ports and measured usage), all of which are recognized as costs at the time the service is received.

## **Table of Contents**

### **e) Commissions paid to distributors**

Commissions paid with respect to the activation of postpaid customers are recognized as expenses at the time the new customer is activated in the system and may begin using the Company's network.

Loyalty and sales volumes commissions are accrued on a monthly basis on the basis of statistical information regarding customer retention, sales volume and the number of acquired customers by each distributor. Loyalty commissions are paid to distributors for customers that remain so for a specified period of time, and sales volume commissions are paid at the time the distributor reaches certain ranges of activated customers.

### **f) Recognition of the effects of inflation**

The Company recognizes the effects of inflation on its financial information. Consequently, the amounts shown in the accompanying financial statements and in these notes are expressed in thousands of Mexican pesos with purchasing power at December 31, 2007. The restatement factors applied to the financial statements at December 31, 2005 and 2006 as originally issued were 1.0405 and 1.0375, respectively, as determined based on the Mexican National Consumer Price Index (NCPI) published by Banco de México.

The more important inflation accounting concepts and procedures are described below:

#### **Stockholders' equity**

Stockholders' equity accounts were restated based on the NCPI.

#### **Net monetary position gain**

This represents the effect of inflation on monetary assets and liabilities. The related amounts are included in the statements of income as a part of the caption Comprehensive financing cost.

Other accumulated comprehensive income items include: the deficit from restatement of stockholders' equity, which consists of the accumulated monetary position gain at the time the provisions of Bulletin B-10 were first applied, of Ps. 19,327, and the loss from holding non-monetary assets, which represents the difference between restatement by the specific indexation method and restatement based on the NCPI, which at December 31, 2005, 2006 and 2007 aggregates Ps. (15,513,949), Ps. (14,062,719) and Ps. (14,562,294), respectively.

The statement of changes in financial position is prepared based on the financial statements expressed in constant Mexican pesos. The source and application of resources represent the differences between beginning and ending financial statement balances in constant Mexican pesos. Monetary and foreign exchange gains and losses are not treated as non-cash items in the determination of resources provided by operations.

### **g) Cash and cash equivalents**

Cash and cash equivalents consist basically of bank deposits and highly liquid investments with original maturities of less than 90 days. Such investments are stated at acquisition cost plus accrued interest, similar to market value.

### **h) Short-term investments**

All marketable equity securities are included in short-term investment and have been classified as either trading or available-for-sale securities. All investments in trading and available for sale securities are presented at market value. Changes in the fair value of instruments classified as trading securities are recognized in results of operations. Changes in the market value of instruments classified as available-for-sale are included in stockholders' equity until they are sold.

## **Table of Contents**

Should there be objective and lasting evidence of impairment in the value of either its instruments available for sale or held to maturity, the Company determines the amount of the related loss and recognizes such loss as part of the comprehensive financing income (cost). For the years ended at December 31, 2006 and 2007, since the loss on fair value of securities available-for-sale was other than temporary, the Company included an impairment loss of Ps. 1,375,713 and Ps. 1,362,900, respectively, in the statements of income.

Those changes associated with the purchase, sale and maturity of financial instruments classified as available-for-sale and held-to-maturity are to be recognized in the statement of changes in financial position as changes derived from investing activities, while changes in the initial and ending balance of instruments held for trading are to be recognized in such statement as changes derived from operating activities.

During the years ended December 31, 2006 and 2007, there were no transfers between financial asset categories.

### **i) Allowance for doubtful accounts**

The Company recognizes periodically in its results of operations an allowance for doubtful accounts for its portfolios of postpaid customers, distributors and network operators (basically for interconnection fees). The allowance is based primarily on past write-off experience and on the aging of accounts receivable balances, as well as management's estimates as to when dispute proceedings with operators are resolved.

Collection policies and procedures vary by the type of credit extended, payment history of customers and the age of the unpaid calls.

### **j) Inventories**

Cellular equipment inventories are initially recognized at historical acquisition cost, as valued using the average-cost method, and are subsequently restated to constant Mexican pesos (considering inventory turnover). The stated value of inventories is not in excess of net realizable value.

### **k) Business acquisitions and goodwill**

Business acquisitions are recorded using the acquisition method. The acquisition of non-controlling interest is considered a transaction between entities under common control and any difference between the purchase price and the carrying value of net assets acquired is recognized as an equity transaction.

Goodwill represents the difference between the acquisition cost and the fair value of the net assets acquired at purchase date.

Goodwill is recorded initially at acquisition cost and is then restated using adjustment factors derived from the NCPI.

Goodwill is no longer amortized, but rather is subject to annual impairment valuations and adjustments at the end of each year, or during the year if there are indications of impairment.

At December 31, 2005, 2006 and 2007, there are no impairment losses recognized by the Company.

### **l) Telephone plant, property and equipment**

Telephone plant, property and equipment and construction in progress are restated as described below:

Through December 31, 1996, items comprising the telephone plant in Mexico were restated based on the acquisition date and cost of each asset by applying the factors derived from specific indexes determined by the Company and validated by an independent appraiser registered with the National Banking and Securities Commission (CNBV).

**Table of Contents**

Effective January 1, 1997, the use of this procedure for the restatement of plant, property and equipment was disallowed and therefore, as of such date, this caption is restated in each country as follows:

The December 31, 1996, appraised value of the imported telephone plant, as well as the cost of subsequent additions to such imported plant, were restated based on the rate of inflation in the respective country of origin and then translated into Mexican pesos using the prevailing exchange rate at the balance sheet date (specific indexation factors).

The appraised value of land and buildings and other fixed assets of domestic origin at December 31, 1996, and the cost of subsequent additions to such assets were, restated based on the NCPI.

At December 31, 2007 and 2006, approximately 85% of the book value of plant, property and equipment at such dates has been restated using specific indexation factors.

Depreciation is computed on restated values using the straight-line method based on the estimated useful lives of the related assets, starting the month after the assets are put into use.

Annual depreciation rates are as follows:

Telephone plant	10% to 33%
System-performance monitoring equipment included in telephone plant	33%
Buildings	3%
Other assets	10% to 25%

As of January 1, 2007, the Company adopted the provisions of Mexican FRS D-6, *Capitalization of the Comprehensive Result of Financing*, establishing that entities must capitalize comprehensive result of financing (CRF), which corresponds to net costs of interest expense, exchange differences, the monetary position result and other related financial costs.

The Comprehensive result of financing incurred during the building and installation period are capitalized and restated using the NCPI. Through December 31, 2006, the Company did not capitalize the CRF. The net effect of the capitalization of CRF in 2007 was an increase in net income of 2007 of Ps. 1,158,576 (Ps. 834,175 net of taxes).

The value of plant, property and equipment is reviewed on an annual basis. When the recoverable value of an asset, which is the greater between its selling price and value in use (the present value of future cash flows), is lower than its net carrying amount, the difference is recognized as an impairment loss.

During the year ended December 31, 2007, the Company wrote-off the remaining carrying value of its telephone plant that utilizes TDMA technology in Colombia and Ecuador. This write-down was made after considering both technological obsolescence of TDMA in those specific geographies and also other economic and operational considerations. This write-off amounted to Ps. 2,735 million and has been included as a component of other (expenses) income, net in the accompanying 2007 consolidated statement of income. The Company also began to accelerate TDMA depreciation in Brazil (see Note 8). No impairment charges were recorded in either 2005 or 2006.

**m) Licenses and trademarks**

Licenses to operate wireless telecommunications networks are accounted for at cost or at fair value at the acquisition date, restated based on the inflation factors of each country, and amortized using the straight-line method over periods ranging from 15 to 40 years, that correspond to the usage period of each license.

## **Table of Contents**

Trademarks are recorded at their market value at the date acquired, as determined by independent appraisers, and are amortized using the straight-line method over a ten-year period.

The values of the Company's intangible assets with defined useful lives is reviewed annually and whenever there are indications of impairment in such values. When the recovery value of an asset, which is the greater between its selling price and value in use (the present value of future cash flows), is lower than its net carrying amount, the difference is recognized as an impairment loss.

Intangible assets with indefinite useful lives, including those that are not yet available for use and intangibles with defined useful lives whose amortization period exceeds 20 years from the date they were available for use, are tested for impairment at the end of each year.

At December 31, 2005, 2006 and 2007, the Company recorded no loss from impairment in the value of intangibles shown in the consolidated balance sheet.

### **n) Leases**

#### Sale and leaseback

The Company entered into sales and leaseback agreements that meet the conditions for consideration as a financial leases. Such agreements gave rise to losses derived from the difference between the 'assets' selling price and its value in books that result in the recognition of deferred charges that are being amortized based on the remaining useful life of the related assets at the time of sale.

#### Operating leases

Rent paid under operating leases is recognized in results of operations as it accrues.

#### Financial leases

Lease arrangements are recognized as capital leases if (i) the ownership of the leased asset is transferred to the lessee upon termination of the lease; (ii) the agreement includes an option to purchase the asset at a reduced price; (iii) the term of the lease is basically the same as the remaining useful life of the leased asset; or (iv) the present value of minimum lease payments is substantially the same as the market value of the leased asset, net of any tax benefit or scrap value.

### **o) Exchange differences**

Transactions in foreign currency are recorded at the prevailing exchange rate at the time of the related transactions. Foreign currency denominated assets and liabilities are translated at the prevailing exchange rate at the balance sheet date. Exchange differences determined from such date to the time foreign currency denominated assets and liabilities are settled or translated at the balance sheet date are charged or credited to operations, except for those arising on foreign currency denominated loans for the construction of fixed assets, as such costs are capitalized as comprehensive result of financing during the construction stage.

See Note 15 for the Company's foreign currency position at the end of each year and the exchange rates used to translate foreign currency denominated balances.

### **p) Accounts payable and accrued liabilities**

Accruals are recognized whenever (i) the Company has current obligations (legal or assumed) derived from past events, (ii) the liability will most likely give rise to a future cash disbursement for its settlement and (iii) the liability can be reasonably estimated.

## **Table of Contents**

When the effect of the time value of money is material, provision amounts are determined as the present value of the expected disbursements to settle the obligation. The discount rate is determined on a pre-tax basis and reflects current market conditions at the balance sheet date and, where appropriate, the risks specific to the related liability. Where discounting is used, an increase in the provision is recognized as a financial expense.

Contingent liabilities are recognized only when they will most likely give rise to a future cash disbursement for their settlement. Also, commitments are only recognized when they will generate a loss.

### **q) Labor obligations**

In the subsidiaries of certain countries in which the Company operates, as is the case of the subsidiaries in Mexico (Radiomóvil Dipsa, S.A. de C.V.) and in Puerto Rico (Telecomunicaciones de Puerto Rico, S.A.), there are defined benefit plans that require the valuation and recognition of the accumulated effects of retirement and post-retirement labor obligations. Such effects are determined based on actuarial studies performed by independent experts using the projected unit-credit method.

In Ecuador, the Company has an individual capitalization pension plan, whereby it purchases a single-premium deferred annuity from an insurance company, for which the Company only makes a yearly premium payment. In accordance with Mexican accounting Bulletin D-3, *Labor Obligations*, this plan falls under the category of a defined contribution plan and thus, only the net period cost of the plan must be disclosed.

In conformity with the labor laws of the rest of the countries in which the Company operates, there are no statutory defined benefit plans or compulsory defined contribution structures for companies. However, the foreign subsidiaries make contributions to national pension, social security and severance plans in accordance with the percentages and rates established by the applicable laws.

Such contributions are made to bodies designated by each government and are recorded as expenses when incurred.

### **r) Income tax and employee profit sharing**

The Company recognizes deferred taxes using the asset and liability method. Under this method, deferred taxes are recognized on basically all temporary differences in balance sheet accounts for financial and tax reporting purposes, using either the enacted income tax rate or the flat-rate business tax (FRBT) rate, as the case may be, at the balance sheet date, or the rate that will be in effect at the time the temporary differences giving rise to deferred tax assets and liabilities are expected to be recovered or settled.

The Company evaluates periodically the probability of recovering deferred tax assets and, if necessary, creates a valuation allowance for those assets that are unlikely to be recovered.

Deferred employee profit sharing is determined only on temporary differences in the reconciliation of current year net income to taxable income for employee profit sharing purposes, provided there is no indication that the related liability or asset will not be realized in the future.

Asset tax is offset against deferred income tax, making the appropriate evaluation of its recoverability.

### **s) Advertising**

Advertising costs are expensed as incurred. For the years ended December 31, 2005, 2006 and 2007, advertising expense aggregated Ps. 6,121,140, Ps. 5,408,146 and Ps. 7,175,663, respectively.

**Table of Contents****t) Comprehensive income**

Comprehensive income consists of current year net income plus the following items applied to stockholders' equity: the effect of translation of financial statements of foreign entities, changes in non-controlling interest, the result from holding non-monetary assets, the changes in the fair value of instruments classified as available-for-sale, the effect of the swap valuation, and the effect of current year deferred taxes. At December 31, 2006 and 2007, an analysis of other accumulated comprehensive income items is as follows:

	2006	2007
Net monetary position gain upon adoption of B-10	Ps. 19,327	Ps. 19,327
Effect of translation of foreign entities	(373,879)	9,769,836
Result from holding non-monetary assets	(14,062,719)	(14,562,294)
Deferred taxes	851,596	771,928
	Ps. (13,565,675)	Ps. (4,001,203)

**u) Earnings per share**

The Company determined earnings per share by dividing net income by the average weighted number of shares issued and outstanding during the period. In determining the average weighted number of shares issued and outstanding, shares acquired by repurchase have been excluded. As a result of the merger mentioned in Note 3, all information relative to shares and earnings per share has been retroactively adjusted to recognize the net cancellation of shares mentioned in Note 3.

**v) Use of estimates**

The preparation of financial statements in conformity with Mexican FRS requires the use of estimates and assumptions that could affect the amounts reported in the financial statements and in the accompanying notes. Actual results could differ from these estimates.

**w) Concentration of risk**

The Company invests a portion of its surplus cash in time deposits in financial institutions with strong credit ratings. The Company has no significant concentrations of credit risks in its accounts receivable, as it has a broad customer base that is geographically diverse.

The Company operates internationally; consequently, it is exposed to market risks from fluctuations in exchange rates.

Approximately 45%, 34% and 21% of the Company's aggregate interconnection expenditures for the years ended December 31, 2005, 2006 and 2007, respectively, represented services rendered by one supplier; approximately 65%, 63%, and 75%, respectively, of the aggregate cost of cellular telephone equipment for such periods represented purchases from three suppliers; and approximately 41%, 81% and 58%, respectively, of telephone plant purchases were made from two suppliers.

If any of these suppliers fails to provide the Company with services or equipment on a timely and cost effective basis, the Company's business and results of operations could be adversely affected.

**x) Derivative financial instruments**

The Company uses currency swaps and forward contracts to mitigate foreign currency risks. However, since the Company has not formally documented the hedge relationship, it does not apply hedge accounting rules to derivative financial instruments.

## **Table of Contents**

Derivatives are presented in the balance sheet at their fair value, which is obtained from financial institutions with which the Company has entered into the related agreements. Changes in the fair value of derivatives are recognized in the accompanying statement of income under Other financing costs, net caption.

In addition to derivatives, the Company's principal financial instruments consist of bank loans, financial leases, accounts payable and loans granted. The main purpose of these liability instruments is to finance the Company's operations. The Company has several financial assets, such as accounts receivable and short-term deposits, that are derived directly from its business.

The main risks associated with the Company's financial instruments are cash flow risk, liquidity risk, market risk and credit risk. The Board of Directors reviews and approves the Company's risk management policies.

### **y) Statement of income presentation**

Costs and expenses in the Company's statement of income are presented by a combination of their nature and function since such classification is the one followed in our industry, thereby allowing comparability with other companies in the telecommunications industry.

The presentation of operating income is shown in the statement of income, since operating income is an important indicator used for evaluating the Company's performance. Operating income consists of ordinary revenues and operating costs and expenses and thus excludes other ordinary income (expense). This presentation is comparable to the one used in the financial statements for the years ended December 31, 2005 and 2006.

### **z) Segments**

Segment information is prepared based on information used by the Company in its decision-making processes based on the geographical areas in which América Móvil operates.

### **zz) New accounting pronouncements**

#### **i) The most important new pronouncements that came into force in 2007 are as follows:**

##### **Mexican Financial Reporting Standards**

##### **Mexican FRS B-3, *Statement of Operations***

Mexican FRS B-3 establishes the guidelines for classifying income, costs and expenses as either ordinary or non-ordinary and modifies certain Mexican FRS. The primary sections of the statement of income have been redefined to embody the concepts of "ordinary items" and the classification of income. Also, the caption Initial accumulated effect of accounting changes has been eliminated from such statement, as established in Mexican FRS B-1, *Accounting Changes and Error Corrections*.

Mexican FRS B-3 also allows entities to present costs and expenses in the statement of operations, based on their function or nature or a combination of both. Mexican FRS B-3 does not require the presentation of operating income in the statement of operations, but still allows for it when operating income is deemed to be an important indicator for evaluating a particular entity's performance. When an entity does decide to include the operating income caption, Mexican FRS B-3 requires the disclosure of the items comprising such caption and a justification for its inclusion in the statement of income.

##### **Mexican FRS C-13, *Related Parties***

This Mexican FRS broadens the concept of related parties to include immediate family members of key management personnel or directors, as well as funds derived from labor obligation plans. Mexican FRS C-13 also requires the following disclosures: i) the relationship between the controlling company and its subsidiaries,

## **Table of Contents**

irrespective of whether transactions were carried out between them in the period; ii) the name of the direct controlling company and, when different from such, the name of the principal controlling company of the economic entity to which the entity belongs; and iii) compensation granted to the entity's key management personnel or directors (in the case of public companies). This standard allows entities to disclose, only when there are enough elements to sustain such an assertion, that the transactions carried out with related parties are on terms similar to market conditions.

The adoption of the requirements of Mexican FRS C-13 had no effect on the Company's financial position or on its results of operations.

### ***Mexican FRS D-6, Capitalization of the Comprehensive Cost of Financing***

Mexican FRS D-6 establishes that entities must capitalize comprehensive result of financing (CRF), which had been optional, under Mexican accounting Bulletin C-6, *Property, Plant and Equipment*.

Capitalized CRF is defined as the amount attributable to qualifying assets that could have been avoided if its acquisition had not taken place, which in the case of Mexican peso denominated financing, includes its interest and the net monetary position, and in the case of foreign currency denominated financing, it also includes any exchange gain or losses. Qualifying assets are defined as those assets acquired by an entity requiring a prolonged period of time to carryout the activities to get them ready for their intended use, that are to be sold or leased that require a prolonged period to be acquired or readied for its sale or lease including inventories that require a period of time to take possession or to get them in conditions for their sale. The capitalization of the comprehensive result of financing starts and continues while investments for its acquisition are being made, the activities required for conditioning the asset for sale or use are underway and interest is being accrued.

Mexican FRS D-6 establishes that the amount of capitalized CRF will be determined based on the loans that were specifically used to acquire the qualifying assets, or if such identification cannot be made, by applying the weighted average capitalization rate for financing to the weighted average number of investments in qualifying assets made during the acquisition period. Financing with imputed interest cost may be capitalized against the cost of acquired assets, since the financing is recognized at its present value.

For the year ended December 31, 2007, the adoption of Mexican FRS D-6 represented a decrease in comprehensive financing cost and an increase in current year income for the year of Ps. 1,158,576 (Ps. 834,175 net of deferred taxes). Had the Company adopted Mexican FRS D-6 for the years ended December 31, 2005 and 2006, comprehensive financing cost would have decreased by Ps. 1,266,249 and Ps. 1,379,688, respectively.

### ***Mexican FRS interpretation 4, Presentation of Employee Profit Sharing in the Statement of Operations***

Mexican FRS interpretation 4 establishes, based on the result of the analysis of Mexican FRS B-3, Mexican FRS D-3 and Mexican FRS D-4, that employee profit sharing must be presented in the statements of income as an ordinary expense.

### ***Mexican FRS interpretation 8, Effects of the Flat-Rate Business Tax***

In December 2007, the Consejo Mexicano para la Investigación y desarrollo de Normas de la Información Financiera, A.C. (Mexican Financial Information Standards Research Development Board or CINIF) issued the Mexican FRS interpretation 8, which is effective for years beginning on or after October 1, 2007. Such standard was created as a result of the need to clarify whether the new flat rate business tax (FRBT) should be treated as a tax on profits and to establish the guidelines for its accounting treatment.

Mexican FRS interpretation 8 establishes that the FRBT is a tax on income; therefore its effects should be recognized in conformity with the provisions of Mexican accounting Bulletin D-4, *Accounting for Income Tax, Asset Tax and Employee Profit Sharing*, and as of January 1, 2008, in conformity with Mexican FRS D-4, *Taxes*

---

**Table of Contents**

*on Profits.* Based on the conclusions of this Interpretation, an entity must first prepare financial projections to determine whether its future taxable base would result in a FRBT payable or regular income tax payable. Based on the results of these projections, taxpayers will be able to identify the expected behavior of FRBT and regular income tax.

Entities that have determined that they will essentially pay FRBT in future years must recognize the effects of deferred FRBT in their financial statements dated between October 1 and December 31, 2007. This deferred tax must correspond to the temporary differences and FRBT credits existing in 2007 for which payment or recovery of FRBT is expected as of or after 2008. Therefore, those entities that have determined that they will essentially pay FRBT in the future must also eliminate the deferred income tax asset or liability recognized at such date. These adjustments give rise to an expense or income that must be recognized in the 2007 statement of income as part of the caption Taxes on Income or in stockholders' equity when it relates to other comprehensive income (loss) items.

The deferred tax rate is the rate enacted and established in the tax provisions at the date of the financial statements, which is expected to be in force at the time the deferred FRBT assets and liabilities will be realized (16.5% in 2008, 17% in 2009 and 17.5% in 2010 and subsequent years).

Deferred FRBT for the period must be recognized as a deferred tax expense or income in the statement of income of the period as part of the tax on profits caption, or in stockholders' equity for those amounts associated with comprehensive income items, and as a non-current asset or long-term liability in the balance sheet. In the notes to the financial statements, the Company must disclose an analysis of the taxes on income presented in the statement of income, showing the amounts of current and deferred FRBT expense. The entity must also mention the deferred FRBT related to other comprehensive items.

Based on the FRBT Law, an entity must determine the amount of asset tax generated through 2007 that it will be able to recover as of 2008. This amount must be recognized in the 2007 financial statements as a tax account receivable and any amount of asset tax considered unrecoverable must be recognized as an expense in the 2007 statement of income as part of the Taxes on income caption. Starting 2008, the balance of recoverable taxes must be reviewed on each financial statement closing date and written down when there is evidence that some amounts may not be recoverable.

The deferred effects from the application of this new tax in lieu of the asset tax, represented a decrease in the 2007 net income of Ps. 117,237.

**ii) The most important new pronouncements that come into force in 2008 are as follows:**

***Mexican FRS B-2, Statement of Cash Flows***

In November 2007, Mexican FRS B-2 was issued by the CINIF to replace Mexican accounting Bulletin B-12, *Statement of Changes in Financial Position*. This standard establishes that the statement of changes in financial position will be substituted by a statement of cash flows as part of the basic financial statements. The main differences between both statements lie in the fact that the statement of cash flows will show the entity's cash receipts and disbursements for the period, while the statement of changes in financial position showed the changes in the entity's financial structure rather than its cash flows. In an inflationary environment, the amounts of both financial statements are expressed in constant Mexican pesos. However, in preparing the statement of cash flows, the entity must first eliminate the effects of inflation for the period and, accordingly, determine cash flows at constant Mexican pesos, while in the statement of changes in financial position, the effects of inflation for the period are not eliminated.

Mexican FRS B-2 establishes that in the statement of cash flows, the entity must first present cash flows derived from operating activities, then from investing activities, the sum of these activities and finally cash flows

## **Table of Contents**

derived from financing activities. The statement of changes in financial position first shows the entity's operating activities, then financing activities and finally its investing activities. Under this new standard, the statement of cash flows may be determined by applying the direct or indirect method.

The transitory rules of Mexican FRS B-2 establish that the application of this standard is prospective. Therefore, the financial statements for years ended prior to 2008 presented for comparative purposes, should include a statement of changes in financial position, as established by Mexican accounting Bulletin B-12.

### **Mexican FRS B-10, *Effects of Inflation***

In July 2007, the CINIF issued Mexican FRS B-10, *Effects of Inflation*, which is applicable for years beginning on or after January 1, 2008 and replaces Mexican accounting Bulletin B-10, *Accounting Recognition of the Effects of Inflation on Financial Information*. Mexican FRS B-10 defines the two economic environments in Mexico that will determine whether or not entities must recognize the effects of inflation on financial information: i) inflationary, when inflation is equal to or higher than 26%; accumulated in the preceding three fiscal years (an 8% annual average); and ii) non-inflationary, when accumulated inflation for the preceding three fiscal years is less than the aforementioned accumulated 26%. Based on these definitions, the effects of inflation on financial information must be recognized only when entities operate in an inflationary environment.

Mexican FRS B-10 also establishes the accounting rules applicable whenever the economy changes from any type of environment to the other. When the economy changes from an inflationary environment to a non-inflationary one, the entity must maintain in its financial statements the effects of inflation recognized through the immediate prior year, since the amounts of prior periods are taken as the base amounts of the financial statements for the period of change and subsequent periods. Whenever the economy changes from a non-inflationary environment to an inflationary one, the effects of inflation on the financial information must be recognized retrospectively, meaning that all information for prior periods must be adjusted to recognize the accumulated effects of inflation of the periods in which the economic environment was considered non-inflationary.

This standard also abolishes the use of the specific-indexation method for the valuation of imported fixed assets and the replacement-cost method for the valuation of inventories, thus eliminating the result from holding non-monetary assets. Therefore, at the date this Mexican FRS comes into force, entities which have recognized any accumulated result from holding non-monetary assets in their stockholders' equity, under Retained earnings (accumulated deficit), must identify the realized and unrealized portions of such result.

The realized result from holding non-monetary assets must be reclassified to Retained earnings, while the unrealized portion must be maintained as such within stockholders' equity, and reclassified to results of operations when the asset giving rise to it is realized. Whenever it is deemed impractical to separate the realized from the unrealized result from holding non-monetary assets, the full amount of this item may be reclassified to the Retained earnings caption.

The effect of the adoption of this standard on the Company's 2008 financial statements shall be the Company's ceasing to recognize the effects of inflation on its financial information (to the extent that inflation stays at current levels) and its reclassifying the total amount of the result from holding non-monetary assets to retained earnings.

### **Mexican FRS B-15, *Foreign Currency Translation***

In November 2007, the CINIF issued Mexican FRS B-15, *Foreign Currency Translation*, which is effective for years beginning on or after January 1, 2008. This standard replaces the previous Mexican accounting Bulletin B-15, *Transactions in Foreign Currency and Translation of Financial Statements of Foreign Operations*, as of its effective date.

## **Table of Contents**

Since Mexican FRS B-15 includes the concepts of recording currency, functional currency and reporting currency, the standard eliminates the concept of integrated foreign operations and foreign entity established in Mexican accounting Bulletin B-15. The recording currency is defined as that currency in which accounting records are kept. Functional currency is the currency in which cash flows are generated and the reporting currency is that in which the financial statements are presented.

Derived from the adoption of the aforementioned concepts, this standard also establishes new procedures for translating transactions with companies abroad, from the recording currency to the functional currency, and from the functional currency to the reporting currency.

Under FRS B-15, the first step in the translation of foreign operations is to determine the functional currency, which is usually the currency of the primary economic environment in which the foreign operation is carried out. However, the functional currency may in some cases differ from the local currency or recording currency, which occurs when these currencies do not represent the currency in which cash flows of foreign operations are expressed.

If the functional currency differs from the recording currency, the financial statements must be translated into their functional currency, as follows: i) monetary assets and liabilities by applying the exchange rates at the balance sheet date; ii) non-monetary assets and liabilities, as well as stockholders' equity accounts, at the historical exchange rate; and iii) revenues, costs and expenses at the historical exchange rate, except for the effects of non-monetary assets and liabilities on results of operations of the period, such as depreciation and cost of sales, which must be translated at the historical exchange rate used in the translation of the corresponding balance sheet item. Translation differences shall be carried directly to the income statement.

Once the financial statements have been expressed in the functional currency, they must be translated into the reporting currency by applying: i) the exchange rates at the balance sheet date to all asset, liability and stockholders' equity accounts and ii) the historical exchange rate to revenues, costs and expenses. Any difference resulting from the translation or the consolidation process or from applying the equity method must be recognized as a cumulative translation adjustment as part of Comprehensive income in stockholders' equity.

This procedure is applicable to operations carried out in a non-inflationary environment. For foreign operations carried out in an inflationary environment, Mexican FRS B-15 requires that the effects of inflation on financial information be recognized prior to translation and in conformity with Mexican accounting Bulletin B-10, using the price index of the country in which the operations are carried out. Once the effects of inflation on financial information have been recognized in the recording currency: i) asset, liability and stockholders' equity accounts must be translated using the prevailing exchange rate at the balance sheet date; ii) income statement accounts must be translated at the exchange rate at the balance sheet date; and iii) difference resulting from the translation or the consolidation process or from applying the equity method must be recognized as a cumulative translation adjustment as part of Comprehensive income in stockholders' equity.

Mexican FRS B-15 establishes that the preparation of comparative financial statements must take into account the economic environment of the reporting entity, since if the entity operates in a non-inflationary economic environment, the financial statements from prior years included for comparative purposes shall be presented with no charge to the translation made at the issuance date. However, if the reporting entity operates in an inflationary economic environment, the financial statements included for comparative purposes must be expressed in Mexican pesos with purchasing power at the latest balance sheet date.

At the date of the audit report on these financial statements, management is evaluating what effect the observance of this accounting pronouncement will have on the Company's results of operations and financial position.

## **Table of Contents**

### **Mexican FRS D-3, *Employees Benefits***

On January 1, 2008, the new Mexican FRS D-3, *Employee Benefits*, issued by the CINIF, went into effect and replaced the old Mexican accounting Bulletin D-3, *Labor Obligations*. The most significant changes contained in Mexican FRS D-3 are as follows: i) shorter periods for the amortization of unamortized items, with the option to credit or charge actuarial gains or losses directly to results of operations, as they accrue; ii) elimination of the recognition of an additional liability and resulting recognition of an intangible asset and comprehensive income item; iii) accounting treatment of current-year and deferred employee profit sharing, requiring that deferred employee profit sharing be recognized using the asset and liability method established under Mexican FRS D-4; and iv) current-year and deferred employee profit sharing expense is to be presented as an ordinary expense in the income statement rather than as part of taxes on profits.

The adoption of this standard in 2008 will require that both the additional liability and the related intangible asset and comprehensive income item be eliminated and that the unamortized items have an effect on results of operations in a period not exceeding five years. The initial effect of the recognition of deferred employee profit sharing must be charged or credited to retained earnings with no effect on results of operations for the year ending December 31, 2008.

At the date of the audit report on these financial statements, management is evaluating what effect the observance of this accounting pronouncement will have on the Company's results of operations and financial position.

### **Mexican FRS D-4, *Taxes on Profits***

In July 2007, the CINIF issued Mexican FRS D-4, *Taxes on Profits*, which is applicable for years beginning on or after January 1, 2008 and replaces Mexican accounting Bulletin D-4, *Accounting for Income Tax, Asset Tax and Employee Profit Sharing*. The most significant changes included in this standard with respect to Mexican accounting Bulletin D-4 are as follows: i) the concept of permanent differences is eliminated, since the asset and liability method requires the recognition of deferred taxes on all differences in balance sheet accounts for financial and tax reporting purposes, regardless of whether they are permanent or temporary; ii) since current-year and deferred employee profit sharing is considered as an ordinary expense, it is excluded from this standard and is now addressed under Mexican FRS D-3; iii) asset tax is required to be recognized as a tax credit and, consequently, as a deferred income tax asset only in those cases in which there is certainty as to its future realization; and iv) the cumulative effect of adopting Mexican accounting Bulletin D-4 is to be reclassified to retained earnings, unless it is identified with comprehensive items in stockholders' equity not yet taken to income.

Under this standard, the accumulated effect of deferred income tax, derived from the adoption of Mexican accounting Bulletin D-4, will temporarily be reclassified to retained earnings, except for the portion corresponding to comprehensive income items, which will be reclassified to results of operations when the item giving rise to them is taken to income.

#### **zz.1) Convenience translation**

U.S. dollar amounts as of December 31, 2007 shown in the financial statements have been included solely for the convenience of the reader and are translated from Mexican pesos with purchasing power as of December 31, 2007, divided by an exchange rate of Ps. 10.87 per dollar, which is the December 31, 2007 exchange rate. Such translations should not be construed as a representation that the peso amounts have been or could be converted into U.S. dollars at this or any other rate.

#### **zz.2) Reclassifications**

Certain amounts and captions shown in the 2005 and 2006 financial statements as originally issued have been reclassified for uniformity of presentation with the 2007 financial statements. The changes in these reclassifications

**Table of Contents**

were recognized retrospectively in the balance sheet and the Statement of Changes in Financial Position, in conformity with Mexican FRS B-1, *Accounting Changes and Error Corrections*. Based on the provisions of Mexican accounting Bulletin B-3, the Company reclassified from 2005 and 2006, Ps. 5,162 and Ps. 342,637, respectively, from the Taxes on profits caption to the employee profit sharing recognized as part of operating income. In addition the Company reclassified Ps. 1,375,713 of unrealized losses on marketable securities from the investing activities section in 2006 to the operating activity section. Also the Company reclassified Ps. 1,905,126 of tax asset from Accounts payable and a to Deferred tax caption.

**3. Merger**

At an extraordinary meeting held on December 13, 2006, the stockholders agreed to merge América Telecom, S.A.B. de C.V. ( AMTEL ) and Corporativo Empresarial, S.A. de C.V. ( Corporativo ) (disappearing companies) into América Móvil (surviving company).

Prior to the merger, the principal business strategy of AMTEL and Corporativo was to hold equity interest in América Móvil.

Derived from the merger, (i) the stockholders of AMTEL received 4.07128 shares of América Móvil for each of their shares (before the merger, AMTEL hold 14,630,000,000 of América Móvil shares), (ii) América Móvil cancelled, on a net basis, 603,143,698 Series L shares (658 and 772 million shares in 2004 and 2005, respectively) and issued 14,026,856,302 shares of the corresponding series.

The stockholders of AMTEL, at their request and subject to not exceeding the limits corresponding to each series of shares and to the holding restrictions contained in América Móvil s bylaws, received shares of América Móvil on a proportional basis (see Note 18).

Derived from the fact that AMTEL and Corporativo were entities under the common control of the Company s majority stockholder, in conformity with Mexican FRS, América Móvil restructured the financial information from prior years so as to present corporate information of 2005 combining the results of operations of the merged entities in a way similar to a pooling of interest.

Highlights of net income, stockholders equity and earnings per share comparing amounts as originally disclosed in 2005 and those including the effects of the merger, are as follows:

	December 31, 2005
<b>Net income:</b>	
As first issued	Ps. 34,157,057
Restructured (as presented)	33,052,906
<b>Stockholders equity:</b>	
As first issued	92,472,363
Restructured (as presented)	77,908,931
<b>Earnings per share:</b>	
As first issued	0.96
Restructured (as presented)	0.92

**Table of Contents**

A summary of the effects of the merger on the statement of income for the year ended December 31, 2005 is as follows:

	Year ended December 31, 2005			
	As first issued	Results of merged companies	Eliminations	As presented
Total revenues	Ps. 196,637,794	Ps. 356,449	Ps. (356,449)	Ps. 196,637,794
Operating costs and expenses	160,267,554	16,699	(356,449)	159,927,804
Operating income	36,370,240	339,750		36,709,990
Comprehensive financing cost	(1,288,989)	(1,501,464)		(2,790,453)
Other expenses	(440,973)	(762)		(441,735)
Income tax provisions	(363,493)	58,324		(305,169)
Equity interest in net loss of affiliated companies	(45,734)			(45,734)
Net income (loss) before non-controlling interest	34,231,051	(1,104,152)		33,126,899
Non-controlling interest	(73,993)			(73,993)
Net income (loss)	Ps. 34,157,058	Ps. (1,104,152)	Ps.	Ps. 33,052,906

**4. Short Term Investments**

An analysis of the Company's investments in marketable securities at December 31, 2006 and 2007 is as follows:

	2006		2007	
	Cost	Fair value	Cost	Fair value
For trading securities:				
Equity securities	Ps. 1,029,123	Ps. 1,549,312	Ps. 52,372	Ps. 49,931
Available-for-sale securities:				
US Commercial (CompUSA)	595,318	595,318		
	Ps. 1,624,441	Ps. 2,144,630	Ps. 52,372	Ps. 49,931

a) At December 31, 2005, 2006 and 2007, the net unrealized gain (loss) on for-trading securities was Ps. (23,166), Ps. 520,189 and Ps. (2,441), respectively. The net realized gain was Ps. 98,142, Ps. 15,214 and Ps. 29,604 for the years ended December 31, 2005, 2006 and 2007, respectively. All such valuation results are recognized in results of operations.

b) At December 31, 2005, the net unrealized loss on investments classified as available-for-sale of Ps. 371,182 was recorded under other accumulated comprehensive income items in the statement of changes in stockholders' equity. At December 31, 2006, the amount of the unrealized loss resulting from the loss of the market value mentioned in the following paragraph, was reclassified to comprehensive cost of financing under the other financial expenses caption, as a result of the loss in market value as described below.

c) As a result of the loss in the market value of the securities of the issuer U.S. Commercial (USCO), in 2006 and 2007, the Company recorded an other than temporary loss of Ps. 1,375,713 and Ps. 1,362,900, respectively, in its results of operations under the other financing costs, net caption. In December 2007, USCO's shares were transferred to the Carso Foundation (a related party) as a charitable donation.

**Table of Contents****5. Accounts Receivable**

a) An analysis of this caption at December 31 is as follows:

	December 31,	
	2006	2007
Subscribers	Ps. 17,169,209	Ps. 22,724,331
Distributors	9,080,482	11,341,424
Cellular operators for interconnections and other connections	7,161,102	7,961,177
Recoverable taxes	5,830,178	6,656,109
Sundry debtors	3,111,413	2,117,730
	42,352,384	50,800,771
Less: Allowance for doubtful accounts of customers and distributors	(4,324,981)	(6,044,433)
Total	Ps. 38,027,403	Ps. 44,756,338

b) An analysis of activity in the allowance for doubtful accounts for the years ended December 31, 2005, 2006 and 2007 is as follows:

	2005	2006	2007
Balance at the beginning of the period	Ps. (3,452,083)	Ps. (4,042,952)	Ps. (4,324,981)
Increase through charge to expenses	(3,024,632)	(2,908,572)	(4,642,250)
Charges to allowance	2,433,763	2,626,543	2,922,798
Balance at the end of the period	Ps. (4,042,952)	Ps. (4,324,981)	Ps. (6,044,433)

c) In 2005 and 2006, Enitel sold, without recourse, its fully reserved bad debt portfolio to unrelated parties for Ps. 161 (USD 13) and Ps. 1,749 (USD 155), respectively.

**6. Inventories**

An analysis of inventories is as follows:

	December 31,	
	2006	2007
Cellular telephones, accessories, cards and others	Ps. 21,075,155	Ps. 22,193,767
Less:		
Reserve for obsolete and slow-moving inventories	(1,006,440)	(1,133,737)
Total	Ps. 20,068,715	Ps. 21,060,030

**Table of Contents****7. Other Assets**

a) An analysis of this caption at December 31 is as follows:

	December 31,	
	2006	2007
<b>Current assets:</b>		
Sale and leaseback of a portion of the telephone plant	Ps. 1,619,243	<b>Ps. 1,647,361</b>
Advances to suppliers (including advertising, insurance and maintenance)	2,040,667	<b>1,345,239</b>
Other	146,030	<b>161,185</b>
	<b>Ps. 3,805,940</b>	<b>Ps. 3,153,785</b>
<b>Non-current assets:</b>		
Long-term taxes	Ps. 1,088,986	<b>Ps. 1,189,069</b>
Sale and leaseback of a portion of the telephone plant	6,149,266	<b>4,865,308</b>
Prepayment to related parties for optic fiber usage (Telmex and Telmex Internacional)		<b>1,029,529</b>
Other	649,814	<b>1,751,349</b>
<b>Total</b>	<b>Ps. 7,888,066</b>	<b>Ps. 8,835,255</b>

a) From January 2003 to December 2007, the Company sold part of its telephone plant to unrelated parties for Ps. 6,793 million and then again leased the plant under financial leaseback agreements. Such assets are being amortized based on the remaining useful lives of the assets at the time of sale.

Amortization expense for the years ended December 31, 2005, 2006 and 2007 was Ps. 1,570,831, Ps. 2,397,096 and Ps. 3,118,875, respectively.

**8. Plant, Property and Equipment**

a) An analysis of plant, property and equipment is as follows:

	December 31,	
	2006	2007
Telephone plant and equipment	Ps. 194,541,015	<b>Ps. 259,846,353</b>
Land and buildings	9,404,080	<b>16,218,421</b>
Other assets	23,966,060	<b>31,130,595</b>
	227,911,155	<b>307,195,369</b>
Less: Accumulated depreciation	(97,967,307)	<b>(161,588,087)</b>
Net	129,943,848	<b>145,607,282</b>
Construction in progress and advances to equipment suppliers	11,808,647	<b>19,740,478</b>
Inventories, primarily for use in the construction of the telephone plant	1,337,460	<b>1,736,146</b>
<b>Total</b>	<b>Ps. 143,089,955</b>	<b>Ps. 167,083,906</b>

**Table of Contents**

b) Included in plant, property and equipment are assets held under capital leases at December 31, 2006 and 2007, as follows:

	2006	2007
Assets under capital leases	Ps. 6,113,779	Ps. 6,793,053
Accumulated depreciation	(1,792,126)	(3,136,116)
	Ps. 4,321,653	Ps. 3,656,937

c) Depreciation expense for the years ended December 31, 2005, 2006 and 2007 was Ps. 16,559,682, Ps. 19,774,627 and Ps. 31,162,660, respectively.

d) Given the speed in which important breakthroughs and changes in telecommunications equipment technology arise, the Company reevaluates periodically the estimated useful life of its telephone plant and adjusts the plant's remaining useful life accordingly. In 2007, the Company increased the depreciation rate of TDMA technology and certain other assets primarily in Brazil and Colombia. This change in estimate was made to better reflect the technological advances of telecommunications equipment and other operational decisions. The effect of the depreciation rate increase was a Ps. 5,796 million increase in depreciation for 2007.

e) During the year ended December 31, 2007, the Company acquired assets that qualify to determine a capitalized interest, the amount of those assets was Ps. 21,103,165 and capitalized comprehensive financing income for the same period of Ps. 1,158,576. An analysis is as follows:

	2007
Accumulated amount of investment to acquire qualifying assets	Ps. 21,103,165
Capitalized comprehensive financing cost	1,158,576
Amortization or depreciation terms	7 years
Annual capitalization rate	5.8%

f) An analysis of the comprehensive cost of financing to capitalize accounts for the year is as follows:

	Year ended December 31, 2007
Total comprehensive cost of financing accrued	Ps. (1,546,061)
Capitalized amount	1,158,576
Comprehensive cost of financing	Ps. ( 387,485)

**Table of Contents****9. Intangible Assets**

An analysis of intangible assets at December 31, 2006 and 2007 is as follows:

---

**Table of Contents**

a) A description of the principal changes in the caption Licenses at December 31, 2006 and 2007 is as follows:

**For the year ended December 31, 2007:**

In March 2007, the Company acquired Telecomunicaciones de Puerto Rico, Inc. including its licenses' (See Note 10.I).

In September 2007, the Company was granted the rights to exploit the 1,895 and 1,970 MHZ radio spectrum frequency F sub-bands to operate and provide cellular telephony services in El Salvador. The amount paid by the Company for such licenses was Ps. 177,269.

In September 2007, the Company acquired a B band license for frequencies between 835 and 894 MHZ to operate and provide cellular telephony services in Peru. The amount paid by the Company for such licenses was Ps. 251,965.

**For the year ended December 31, 2006:**

1) A definitive ruling issued by the Federal Tax and Administration Court in favor of Telcel established that:

i) The consideration paid by Telcel to the Federal Government in the amount of Ps. 116,422 as initial payment and additional payments of Ps. 1,998,539 for the annual share of gross revenues derived from the 15-year extension (expiring in October 2015) to the concession originally granted by the Ministry of Communications and Transportation (SCT) in October 2000, was unjustified, since such considerations were determined based on a law that was no longer in force.

ii) Telcel should in fact have made a one-time payment for the granting of the concession, in conformity with the law applicable at that time. On April 11, 2006, the SCT ordered a one-time modification to the amount of the consideration from Ps. 116,422 to Ps. 2,265,931, for the extension and modification of the concession granted.

Thus in April 2006, the Company adjusted the value of the license considering what best reflects the current status of the asset, in conformity with Mexican FRS, as follows: i) recognizing the value of the concession granted by the Federal Government and its corresponding amortization through April 2006, based on the new value assigned by the SCT, which gave rise to a net investment for licenses of Ps. 1,354,070 (Ps. 2,265,931 in investment, less Ps. 838,151 in accumulated amortization, less Ps. 73,710 of the original net cost of the investment); ii) recognizing an increase in the value of the license of Ps. 2,149,509, covered by a cash payment of Ps. 150,970 and a recovery of Ps. 1,998,539 of the payment made to Federal Government for its share in gross income; and iii) recording a credit to results of operations of Ps. 1,203,100 in the other income caption.

2) Pursuant to amendments to the Federal Contributions Law (Ley Federal de Derechos) enacted in 2003, owners of concessions in Mexico granted or renewed on or after January 1, 2003 are required to pay annual fees (derechos) for the use and exploitation of radio spectrum bands. Telcel has challenged its obligation to pay such annual fees (derechos) as it believes it is contrary to the Mexican Constitution and certain provisions of the Telecommunications Law. Telcel has obtained a preliminary injunction against the payment of these fees. The authorities appealed such resolution before the corresponding court, which sent this matter to the Mexican Supreme Court (Suprema Corte de Justicia de la Nación or the Mexican Supreme Court ) for final resolution. If the Mexican Supreme Court confirms the favorable resolution issued by the lower court that granted the injunction to Telcel, Telcel may register a gain as a result of such final resolution.

3) In May 2006, the Company acquired two 800 MHz licenses to operate and provide cellular telephony services in Santiago, Chile. The amount paid by the Company for such licenses was Ps. 542,483.

**Table of Contents**

b) License amortization and trademark amortization expense for the year ended December 31, 2005 was Ps. 3,938,607 and Ps. 899,563, respectively.

c) During 2006 and 2007, the Company also acquired Ps. 2,703,837 and Ps. 685,679, respectively, in customer related intangible assets as a result of certain acquisitions. These intangible assets are being amortized over their estimate lives in a 20 year period.

d) Subsequent event As part of its strategy to rollout 3G services in Brazil, the Company was awarded a license to operate 20 megahertz of additional spectrum in each of five regions and 30 megahertz of additional spectrum in each of six regions of Brazil. The amount paid for this new right during April 2008 was Ps. 8,600 million (approximately 1.4 billion Brazilian reais).

**10. Equity Investments and Others**

An analysis of this caption at December 31, 2006 and 2007 is as follows:

	2006	2007
Investments in:		
Associates (Grupo Telvista, S.A. de C.V.)	Ps. 468,881	Ps. 527,524
Other investments	111,848	62,091
Total	Ps. 580,729	Ps. 589,615

**I. Investments in subsidiaries**

During 2006 and 2007, the Company made a number of investments in subsidiaries as described below. The Company determined the fair value of the net assets acquired. An analysis of the acquisition price of the net assets acquired per company based on estimated fair values at the acquisition date is as follows:

**2007 Acquisitions**

	Telecomunicaciones		
	de Puerto Rico, Inc.	Oceanic Digital Jamaica Limited	Total
Current assets	Ps. 4,747,995	Ps. 160,850	Ps. 4,908,845

% of equity acquired	100%	100%	
Net assets acquired	3,418,031	678,956	4,096,987
Amount paid	20,946,236	800,279	21,746,515
Goodwill generated	Ps. 17,528,205	Ps. 121,323	Ps. 17,649,528

**Table of Contents****a) Telecomunicaciones de Puerto Rico**

As a result of its expansion in Latin America, on March 30, 2007, the Company acquired 100% of the outstanding shares of Telecomunicaciones de Puerto Rico, Inc. The shares were acquired from Verizon Communications, the government of Puerto Rico, Banco Popular and the employees of such company, who before the sale respectively held 52%, 28%, 13% and 7% of the total shares at such date. The Company paid Ps. 20,946,236 (USD 1,890 million before the net debt assumed, which was approximately Ps. 4,104,288 or USD 370,830). At the time of acquisition, the Company recognized a liability for the new subsidiary's retirement and post-retirement labor obligations of approximately Ps. 10,216 (USD 934 million).

Telecomunicaciones de Puerto Rico provides telecommunication services, including fixed-line and cellular services in Puerto Rico. Puerto Rico's results of operations have been included in the consolidated financial statements since April 2007. The Company expects the acquisition of Puerto Rico to contribute to the strategy of becoming the leading wireless communication provider in Latin America.

**b) Oceanic Digital Jamaica Limited**

In November 2007, the Company completed the acquisition from foreign investors of 100% of the outstanding shares of Oceanic Digital Jamaica, LTD. Oceanic Digital Jamaica (ODJ) provides mobile telephone and value added services in the Republic of Jamaica. The amount paid for the acquisition was Ps. 800,279 (USD 73,648) before net cash of Ps. 15,548 (USD 1,431). Jamaica's results of operations have been included in the consolidated financial statements since December 2007. The Company expects the acquisition of Jamaica to contribute to the strategy of becoming the leading wireless communication provider in Latin America.

An analysis of the preliminary purchase price of the net assets acquired per Company based on fair values at the acquisition date is presented in the table above.

At December 31, 2007 the Company is waiting on final purchase price allocation report.

**2006 Acquisitions**

a) On December 1, 2006, the Company acquired 100% of the shares of Compañía Dominicana Teléfonos C. por A. from Verizon Communications, Inc., for which the Company paid Ps. 27,557,056 (USD 2,415,000) (USD 2.06 billion before net cash adjustments). Dominicana's results of operations have been included in the consolidated financial statements since that date. Compañía Dominicana provides telecommunication services, including fixed-line and cellular services in the Dominican Republic. The Company expects the acquisition of Dominicana to contribute to the strategy of becoming the leading wireless communication provider in Latin America. An analysis of the fair value of the net assets acquired is as follows:

	<b>Compañía Dominicana de Teléfonos C. por A.</b>
Current assets	Ps. 7,336,616
Fixed assets	8,965,886
Trademarks	214,203
Other assets	296,328
Less:	
Total liabilities	2,813,513
Fair value of net assets acquired	Ps. 13,999,520
% of equity acquired	100%
Net assets acquired	13,999,520
Amount paid	27,557,056
Goodwill generated	Ps. 13,557,536

**Table of Contents****2005 Acquisitions**

In 2005, the Company acquired the following companies, whose purchase price was distributed as follows:

	Smartcom (Chile)	América móvil Perú S.A.C.	AMX Paraguay	Total
Current assets	Ps. 1,750,161	Ps. 656,278	Ps. 128,663	Ps. 2,535,102
Fixed assets	3,686,088	2,153,230	229,037	6,068,355
Licenses	425,848	972,160	5,891	1,403,899
Other assets	197,874	1,634,836	8,687	1,841,397
Less:				
Liabilities other than debt	866,985	1,606,360	74,622	2,547,967

Fair value of net assets acquired	5,192,986	2,931,263	294,536	8,418,785
% of equity acquired	100%	100%	100%	100%
Net assets acquired	5,192,986	2,931,263	294,536	8,418,785
Amount paid	5,887,844	4,783,592	294,536	10,965,972
Goodwill generated	Ps. 694,858	Ps. 1,852,329	Ps.	Ps. 2,547,187

**a) AMX Paraguay**

In July 2005, the Company acquired a 100% interest in Hutchinson Paraguay, S.A. (currently AMX Paraguay, S.A.), for which paid Ps. 294,536 (US\$ 25 million). AMX Paraguay provides telecommunication services, including wireless services, throughout the Republic of Paraguay.

**b) Claro Chile (formerly SMARTCOM)**

In August 2005, the Company acquired from the Spanish company Grupo Endesa Participadas, S.A. a 100% interest in the Chilean company Smartcom, S.A. Smartcom provides telecommunication services, including wireless services, throughout the Republic of Chile. The total amount paid for the net assets acquired was Ps. 5,887,844 (US\$ 505 million).

**c) América Móvil Perú, S.A.C.**

In August 2005, the Company acquired from TIM International N.V., a subsidiary of the Telecom Italia Group, a 100% interest in the Peruvian company, TIM Peru S.A.C. (nowadays América Móvil Peru S.A.C.), for which the Company paid Ps. 4,783,592 (US\$ 408 million). América Móvil Peru provides telecommunication services, including wireless services, throughout the Republic of Peru.

**Other acquisitions**

a) In 2006 and 2007, the Company paid Ps. 11,247 and Ps. 53,184, respectively, to acquire non-controlling interests in Guatemala, El Salvador, Nicaragua and Colombia. The book value of such shares was Ps. 10,590 and Ps. 46,580, respectively, and the difference between the book value and price paid is reflected in stockholder equity. As a result of these acquisitions, the Company's equity interest increased from 99.1% to 99.2% in Guatemala; from 99.3% to 99.5% in Nicaragua; and from 99.2% to 99.4% in Colombia.

b) On October 31, 2006, the Company exercised its option to acquire 1.1% of Telecom América's capital stock from a minority stockholder, thus increasing its shareholding from 98.9% to 100%. The Company paid Ps. 1,916,630 (USD 172.5 million) for the shares whose book value was Ps. 491,256. The difference between the book value and price paid is reflected in stockholder equity.

**Table of Contents**

c) In 2005, the Company paid Ps. 96,970 (US\$ 8,092) to acquire non-controlling interest shares in Brazil, Guatemala, Nicaragua and El Salvador. The book value of such shares was Ps. 600,147 and the difference between the book value and purchase price was recognized in stockholders' equity. Due to such acquisition, the Company's equity interest increased from 97.8% to 98.9% in Brazil, from 99% to 99.08% in Guatemala, from 99% to 99.26% in Nicaragua and from 94.9% to 95.75% in El Salvador.

**Sale of subsidiaries and affiliated companies**

In July 2005, the Company (following a capital reduction in which all the stockholders participated proportionally), sold its 40.3% equity interest in Technology and Internet, LLC and its 25% equity interest in Technology Fund One, LLC to Grupo Condumex, S.A. de C.V. (related party) for Ps. 34,436 (US\$ 3 million). Such sale gave rise to a loss of Ps. 86,662, which was recognized in stockholders' equity, since the sale was made between entities under common control

**General**

The Company is not obligated to make any further payments or provide any form of additional or contingent consideration related to these acquisitions, other than those already disclosed.

**Unaudited pro forma financial data**

The following unaudited consolidated pro forma financial data for the years ended December 31, 2005, 2006 and 2007 have not been audited and are based on the Company's historical financial statements, adjusted to give effect to (i) the series of acquisitions mentioned in the preceding paragraphs; and (ii) certain accounting adjustments related to the amortization of licenses and adjustments related to depreciation of fixed assets of the acquired companies.

The unaudited pro forma adjustments assume that the acquisitions were made at the beginning of the year of acquisition and the immediately preceding year and are based upon available information and other assumptions that management considers reasonable. The pro forma financial information data does not purport to represent what the effect on the Company's consolidated operations would have been had the transactions in fact occurred at the beginning of each year, nor are they intended to predict the Company's results of operations.

	<b>Unaudited pro forma consolidated for the years ended December 31,</b>	
	<b>2005</b>	<b>2006</b>
Operating revenues	Ps. 210,666,487	Ps. 252,186,067
Income from continued operations	34,990,027	47,205,180
Net income	34,990,027	47,205,180
Earnings per share (in Mexican pesos)	0.94	1.28

**Table of Contents****11. Financial instruments**

At December 31, 2006 and 2007, the financial instruments contracted by the Company are as follows:

Financial instrument	Amounts in millions			
	2006		2007	
	Notional amount	Fair value	Notional amount	Fair value
Interest-rate swaps in Mexican pesos	Ps. 3,000	Ps. 79	Ps. 2,000	Ps. 79
Cross-currency swaps	US\$ 1,410	(208)	US\$ 1,110	(245)
Interest-rate swaps and cross-currency swaps	US\$ 400	(319)	US\$ 350	(134)
Forwards dollar-peso	US\$ 770	(609)	US\$ 1,650	(17)
<b>Total</b>		<b>Ps. (1,057)</b>		<b>Ps. (317)</b>

With respect to the aforementioned financial instruments the valuation gain (loss) at December 31, 2005, 2006 and 2007 amounted Ps. (1,308,843), Ps. 504,771 and Ps. 23,851, respectively. Such amounts were included in the statement of income as part of comprehensive cost of financing under the caption Other financing costs, net.

**12. Labor Obligations**

The Company's obligations for post-retirement seniority premiums, pension and retirement plans and medical services in the countries in which it operates and that have benefit and defined contribution plans are as follows:

**a) Puerto Rico****Pension plan**

In accordance with the provisions of the Employee Retirement Income Security Act issued in 1974, all full-time employees are entitled to a pension plan and the contributions to such plan are income tax deductible.

This pension plan is comprised of two types of payment:

- a) Life-long or retirement pension to which employees are entitled to when they have reach a certain number of years of service and that is computed by applying certain percentages to the number of years of service and based on the employee's salary of the last three years.
- b) The payment of an amount that ranges from 9 to 12 months of the employee's current salary. The number of months (9 to 12) also depends on the years of service.

**Table of Contents**

The benefit costs and obligations, together with the status of the funds and costs related to these post-retirement pension plans, are as follows:

	Pensions and sum of benefits	Post-retirement benefits
Projected benefit obligation at beginning of year		
Acquisition effect	Ps. 15,199,076	Ps. 7,122,088
Labor cost	184,291	57,113
Financial cost on projected benefit obligation	670,336	322,672
Actuarial loss		84,343
Other amended plans		(164,536)
Payments from trust fund	(810,293)	(276,686)
Projected benefit obligation at end of year	Ps. 15,243,410	Ps. 7,144,994
Changes in plan assets:		
Established fund at beginning of year		
Acquisition effect	Ps. 12,514,255	Ps.
Projected return on plan assets	781,597	
Employer contributions	1,041,210	276,686
Payments from trust fund	(810,295)	(276,686)
Established fund at end of year	Ps. 13,526,767	Ps.
Net liabilities	Ps. (1,716,642)	Ps. (7,144,994)
Unrecognized actuarial loss, net	(2,065)	84,343
Liabilities	Ps. (1,718,707)	Ps. (7,060,651)
Balance sheet amounts are comprised of the following:		
Current liability items	Ps.	Ps. ( 318,173)
Non-current liability items	(1,716,642)	(6,826,821)
Net pension liability	Ps. (1,716,642)	Ps. (7,144,994)

**Net period cost**

The net period cost at December 31 is comprised of the following elements:

	Pensions and sum of benefits	Post-retirement benefits
Labor cost	Ps. 184,291	Ps. 47,779
Financial cost on projected benefit obligation	670,336	322,672
Projected return on plan assets	(779,532)	
	Ps. 75,095	Ps. 370,451
Projected benefit obligation	Ps. 15,243,410	Ps. 7,144,994
Accumulated benefit obligation	13,953,983	7,144,994
Fair value of plan assets	13,526,767	
<b>Actuarial assumption</b>		

Edgar Filing: AMERICA MOVIL SAB DE CV/ - Form 20-F

The average actuarial rates used to determine labor obligations are as follows:

Long-term rate of return	<b>8.50%</b>	
Rate of future salary increases	<b>4.00%</b>	<b>4.00%</b>

F-36

**Table of Contents**

The average rates and other actuarial assumptions used in determining post-retirement obligations for medical services and others are as follows:

	Post retirement benefits
Cost percentage of increase in health care for the following year	7.00%
Cost percentage due to death	5.00%
Year to which this level will be maintained	2010

The average rates and other actuarial assumptions used to determine the net period cost of post-retirement obligations are as follows:

	Post retirement benefits
Cost percentage of increase in health care for the following year	8.50%
Cost percentage due to death	5.00%
Year to which this level will be maintained	2010

**Plan assets**

The Company invests its plan assets at the following percentages:

Capital instruments	61%
Debt instruments	35%
Other	4%
	<b>100%</b>

**Cash flows**

During 2007, the Company contributed approximately Ps. 1,041,210 (US\$ 95,787) to the pension plan fund and Ps. 276,686 (US\$ 25,454) to the post-retirement obligations fund. In accordance with current regulations, during 2008, the Company expects to contribute approximately Ps. 1,445 (US\$ 133) to the pension plan fund and Ps. 315 (US\$ 29) to the post-retirement obligations fund.

**Estimated future payments**

An analysis of the payments for labor obligations the Company expects to make in succeeding years is as follows:

	Pensions and sum of benefits	Post retirement benefits
2008	Ps. 978,697	Ps. 355,629
2009	980,783	381,143
2010	977,958	403,234
2011	971,666	422,532
2012	963,680	441,374
2013-2017	5,122,283	2,470,333

**Table of Contents**

An analysis of future payments for medicines is as follows:

	Post retirement benefits
2008	Ps. 37,445
2009	39,455
2010	40,966
2011	42,063
2012	42,987
2013-2017	221,877

b) For Mexico and Ecuador, the net period cost in 2005, 2006 and 2007 is Ps. 2,713, Ps. 3,323 and Ps. 3,819, respectively, for Mexico and Ps. 6,730, for Ecuador. The balance of labor obligations at December 2006 and 2007 is Ps. 14,084 and Ps. 17,652, respectively, for Mexico and Ps. 23,321 and Ps. 30,051, respectively, for Ecuador.

**13. Accounts Payable and Accrued Liabilities**

a) An analysis of accounts payable and accrued liabilities caption is as follows:

	December 31	
	2006	2007

**Table of Contents**

Except for the fixed-rate senior notes, interest rates on the Company's debts are subject to variances in international and local rates. The Company's weighted average cost of borrowed funds at December 31, 2007 was approximately 7.18% (6.88% in 2006).

Such rate does not include interest, commissions or the reimbursements for Mexican tax withholdings (typically 4.9% of the interest payment) that the Company must make to international lenders. In general, fees on financing transactions add ten basis points to financing costs.

An analysis of the Company's short-term debt at December 31, 2006 and 2007 is as follows:

<b>Debt</b>	<b>2006</b>	<b>2007</b>
Domestic senior notes	Ps. 11,308,750	<b>Ps. 8,433,100</b>

2013	1,146,200
2014 and thereafter	53,307,563
<b>Total</b>	<b>Ps. 84,799,487</b>

**Senior Notes.** At December 31, 2005, the Company had senior notes of USD 3,253 (Ps. 35,349 million) maturing in 2009 and 2035. During 2006 and 2007, América Móvil has issued the following senior notes:

- In December 2006, Ps. 8,000 million, maturing in 2036 and bearing annual interest of 8.46%, which is payable semiannually in June and December, beginning on June 18, 2007. In 2006 and 2007, accrued interest on the notes was Ps. 25,357 and Ps. 686,200, respectively.
- In December 2006, USD 500 million (Ps. 5,644 million), maturing in 2008 and bearing variable annual interest at the three-month LIBOR plus 10 base points, which is payable quarterly beginning on March 27, 2007. In 2006 and 2007, accrued interest on the notes was Ps. 3,428 and Ps. 298,171, respectively.
- In October 2007, USD 600 million (Ps. 6,520 million), maturing in 2017 and bearing fixed annual interest at 5.625%, and USD 400 million (Ps. 4,346 million), maturing in 2037 and bearing fixed annual interest at 6.125%; interest on both loans is payable biannually beginning on May 15, 2008. In 2007, accrued interest on the loans was Ps. 62,141 and Ps. 45,110, respectively.

All senior notes are unconditionally guaranteed by Telcel.

**Lines of credit guaranteed by institutions to promote exports** The Company has medium and long-term financing programs for the purchase of equipment, whereby certain institutions, to promote exports, provide

**Table of Contents**

financial support to purchase export equipment from their respective countries. The outstanding balance under these plans at December 31, 2006 and 2007 is Ps. 909,046 (USD 81 million) and Ps. 705,654 (USD 65 million), respectively.

**Domestic senior notes** The Mexican Banking and Securities Commission (CNBV) has authorized the Company to establish five programs for the issuance of domestic senior notes guaranteed by Telcel, four of these programs are for Ps. 5,000 million each, and the most recent program authorized by the CNBV in April 2006, is for Ps. 10,000 million. At December 31, 2006, the Company had made various issues for the first three programs for amounts ranging from Ps. 400 million to Ps. 1,750 million and maturities ranging from 3 to 7 years. At December 31, 2006 and 2007, the domestic senior note debt aggregates Ps. 7,314,375 and Ps. 10,150,000, respectively. In general, these issues bear a floating interest rate established as a percentage of either the Mexican weighted interbank interest rate (TIIE) or the Mexican treasury certificate (CETES) rate.

In addition to the above, the Company has a commercial paper program authorized by the CNBV of Ps. 3,000 million which, at December 31, 2007, has been entirely issued.

**General**

At December 31, 2006 and 2007, the Company had a number of bank facilities for approximately Ps. 22,917 million (USD 2,000 million) and Ps. 11,579 million (USD 1,066 million), respectively, bearing interest at the LIBOR plus a spread. Such facilities have similar terms as to covenants, and under all of the facilities América Móvil and Telcel are guarantors.

The Company is subject to financial and operating covenants under the loan agreements that limit America Móvil's and/or Telcel's ability to pledge assets, carry out certain types of mergers and sell off all or substantially all of its assets. The covenants do not restrict the ability of the subsidiaries to pay dividends or other distributions to the Company. The most restrictive financial covenants require the Company to maintain a consolidated ratio of debt to EBITDA not greater than 4 to 1 and a consolidated ratio of EBITDA to interest expense of no less than 2.5 to 1 (based on the terms of the loan agreements). For some of its loans, Telcel is subject to financial covenants similar to those applicable to América Móvil.

A number of the financing instruments are subject to either acceleration or repurchase at the holder's option if there is a change in the Company's control. At December 31, 2007 and 2006, the Company was in compliance with all of its loan covenants.

At December 31, 2007, approximately 74% of the total outstanding consolidated debt is guaranteed by Telcel.

**Table of Contents****15. Foreign Currency Position and Transactions**

**16. Commitments and Contingencies**

a) As of December 31, 2007, the Company has entered into various leases (as a lessee) with related and third parties for the buildings in which its offices are located, as well as with owners of property where the Company has installed radio bases. The leases generally run from one to fourteen years.

Provided below is an analysis of minimum rent payments due in the next five years. In some cases, amounts are subject to an annual increase based on the NCPI.

**Table of Contents**

At December 31, 2007, the Company had the following commitments under non-cancelable leases:

Year ended December 31	Capital lease	Operating lease
2008	Ps. 4,185,822	Ps. 3,235,302
2009	470,646	2,678,127
2010	125,211	2,306,543
2011	5,733	1,911,185
2012	3,921	1,472,402
2013 and thereafter		2,325,320
<b>Total</b>	<b>4,791,333</b>	<b>Ps. 13,928,879</b>
Less interest	(235,138)	
Present value of minimum net rental payments	4,556,195	
Less current portion	(3,975,648)	
<b>Long-term obligations</b>	<b>Ps. 580,547</b>	

Rent charged to expenses in 2005, 2006 and 2007 aggregated Ps. 2,929,426, Ps. 4,092,642 and Ps. 5,052,082, respectively.

**b) Commitments**

At December 31, 2007, some of the Company's subsidiaries had commitments to acquire equipment for their GSM and 3G networks for up to approximately USD 205 million (approximately Ps. 2,228 million). The estimated completion period for projects in progress ranges from 3 to 6 months, depending on the type of project and the equipment supplier, as well as the type of asset.

**c) Contingencies****Telcel****Cofeco**

In December 2007 and April 2008, the Comisión Federal de Competencia ( Mexican Federal Antitrust Commission or Cofeco ) initiated general market investigations to ascertain whether one or more cellular operators have substantial market power on (i) the termination (interconnection) of calls made as part of the national and international calling party pays system and (ii) local voice services, respectively. As is contemplated by applicable law, Cofeco requested Radiomóvil Dipsa, S.A. de C.V. ( Telcel ) and certain of its subsidiaries to participate in the investigations. As of the date of the accompanying financial statements, Telcel and its subsidiaries have reserved their right to participate in the future, depending on the evolution of the investigation and the scope of preliminary findings (dictamen preliminar) to be published by Cofeco, as is required by law. The investigations are scheduled to conclude during 2008. According to the Ley Federal de Competencia Económica ( Mexican Antitrust Law ) and the Ley Federal de Telecomunicaciones ( Mexican Telecommunications Law ), if substantial market power is determined by Cofeco on one or more carriers, the Comisión Federal de Telecomunicaciones (the Mexican Federal Communications Commission or Cofetel ) could impose specific dominant carrier regulations on such operators with respect to tariffs, quality of service and information, which may result in significant limitations on the ability of those operators to continue conducting business as currently conducted.

In addition to the investigation described above, since December 2007, Cofeco has initiated several other general market investigations to ascertain whether one or more operators have substantial market power on other telecommunications markets, including (i) leasing of local and long distance transmission circuits or lines; (ii) fixed local and long distance voice termination; (iii) voice local origination services and (iv) voice local

---

**Table of Contents**

transit services provided by local fix operators. As is contemplated by applicable law, Cofeco requested Telcel and certain of its subsidiaries to participate in the investigations. As of the date of the accompanying financial statements, Telcel and its subsidiaries have reserved their right to participate in the future, depending on the evolution of the investigation and the scope of preliminary findings (dictamen preliminar) to be published by Cofeco, as is required by law. These investigations are scheduled to conclude during 2008.

During the past six years, Cofeco has initiated administrative proceedings against Telcel for alleged anti-competitive behavior primarily in connection with (i) actions by certain distributors of Telcel in relation to the purchase and sale of cellular phones; (ii) exclusivity agreements with certain content providers; and (iii) antitrust practices in the interconnection market. These proceedings are in varying procedural stages, and no final ruling against Telcel has been issued.

Adverse determinations against Telcel in any of these proceedings could result in material fines, penalties or restrictions on Company's operations. Telcel has not made provisions in the accompanying financial statements for these potential liabilities since as of the date of the accompanying financial statements, the amount of the possible contingency could not be reasonably estimated.

*Interconnection*

In December 2004, Telcel reached an agreement with various other telecommunications service providers as to the interconnection fees applicable under the calling party pays system for the period from January 1, 2005 until December 31, 2007. The agreement called for a gradual reduction of 10% per year in interconnection fees charged under the calling party pays system from the 2004 rate of Ps.1.90 per minute to Ps.1.39 by the end of 2007. The agreement also contemplated that these reductions would be reflected in the tariffs charged by fixed operators to their users. The new framework was promoted by the Cofetel and the related agreements were registered with Cofetel.

Certain telecommunications service providers challenged the tariff framework, arguing that the proposed interconnection fees did not properly take into account certain costs, and initiated proceedings with Cofetel to obtain their intervention in resolving the matter. In September 2006, Cofetel ruled on these challenges and established a framework of fees applicable to the operators that challenged the previous framework. Based on Cofetel's ruling, the interconnection rate for calling party pays calls that the dissenting operators must pay Telcel from January 2005 through December 2010 are as follows: Ps.1.71 per minute or fraction thereof during 2005; Ps.1.54 per minute or fraction thereof from January through September 2006; Ps.1.23 per minute or fraction thereof from October through December 2006; Ps.1.23 per minute during 2007; Ps.1.12 per minute during 2008; Ps.1.00 per minute during 2009; and Ps.0.90 per minute during 2010. In addition, Cofetel ruled that starting in 2007, interconnection fees would be charged based on the total number of seconds used during all completed calls for the month rounded to the next minute, rather than by rounding each call to the next minute, as had been the practice. In order to mitigate the effects of this change, Cofetel ruled that wireless operators were entitled to a surcharge of 25% in 2007, 18% in 2008 and 10% in 2009 over the interconnection fees billed to fixed-line operators.

Telcel initiated legal proceedings (juicio de amparo) challenging the resolution, and in addition, began participating in negotiations among fixed-line and wireless operators to establish a mutually acceptable interconnection tariff framework and resolve disputes arising from the resolution. During the last quarter 2006 and first quarter 2007, Telcel reached agreement with all cellular operators and a majority of the local fixed operators, including Telmex and some of the dissenting operators, to apply the following rates from 2007 through 2010: Ps.1.34 per minute or fraction of interconnection during 2007, Ps.1.21 per minute or fraction of interconnection during 2008, Ps.1.09 per minute or fraction of interconnection during 2009 and Ps.1.00 per minute or fraction of interconnection during 2010. These interconnection fees are not calculated based on the actual number of seconds of use, but rather on rounding each call to the next minute. These agreements cover approximately 93% of all the traffic terminated in Telcel's network.

---

**Table of Contents**

In December 2007, a competent court granted in part Telcel's request for relief (amparo), and declared null and void the September 2006 resolution on one of the dissenting parties. However, the court requested Cofetel to issue a new resolution covering the period from 2005 through 2007. Based on Cofetel's 2008 ruling, the interconnection rates for calling party pays calls that the dissenting operator must pay Telcel are as follows: Ps.1.71 per minute or fraction thereof during 2005; Ps.1.54 per minute or fraction thereof from January through September 2006; Ps.1.23 per minute or fraction thereof from October through December 2006; Ps.1.23 per minute during 2007. Under the ruling, Cofetel maintained its position that interconnection fees applicable during 2007 are to be charged based on the total number of seconds used during all completed calls for the month rounded to the next minute, rather than by rounding each call to the next minute, as had been the practice, and that wireless operators are entitled to charge a 25% premium over interconnection fees billed to fixed-line operators during 2007. Telcel expects to receive similar resolutions in connection with the other dissenting parties. Telcel has initiated legal proceedings (juicio de amparo) challenging the 2008 resolution, but is charging under protest the lower fees contemplated by the Cofetel resolutions to the remaining dissenting operators, while its challenges to the resolutions are pending. If such challenge is successful, Telcel will seek to collect from dissenting operators any difference in fees arising from the applicability of lower rates in previous periods.

During April 2008, Cofetel notified Telcel of new challenges to the interconnection framework filed by one of the original dissenting parties. Telcel has responded to this new challenge, and it expects that the administrative proceeding regarding this interconnection dispute will be concluded by Cofetel during second quarter of 2008. Any new order from Cofetel may result in a significant reduction to applicable interconnection rates.

*Short message services (SMS)*

Under the terms of its concessions for the 800 megahertz spectrum, Telcel must pay the federal government a royalty based on gross revenues from concessioned services. The royalty is levied at rates that vary from region to region, and average approximately 6%.

Telcel believes that short message services are value-added services, which are not concessioned services, and that revenues from short message services should not be subject to this royalty.

In related proceedings, Cofetel has ruled that short text messages are subject to the interconnection regulatory regime and that such services do not constitute value-added services. Telcel is currently disputing these issues in an administrative proceeding, but has made provisions in the accompanying financial statements for this potential liability. As of December 31, 2007, Telcel had provisioned Ps.412.2 million.

*Trademarks tax assessment*

In March 2006, the Servicio de Administración Tributaria ( Mexican Tax Administration Service or SAT ), notified Telcel of an assessment of Ps.281.7 million (Ps.155.8 million plus adjustments, fines and late fees) as a result of a tax deduction made by Telcel in 2003 of Ps.1,267.7 million in connection with royalty payments made to another of the Company's subsidiaries for the use of certain trademarks. In June 2007, the SAT notified the Company of an additional assessment of Ps.541.5 million (Ps.258.5 million plus adjustments, fines and late fees) as a result of a tax deduction made by the Company in 2003 in connection with the aforementioned royalty payments. The Company and Telcel believe that these deductions were made in accordance with applicable law and have challenged the validity of these assessments.

In December 2007, the SAT notified Telcel of a new assessment of Ps.453.6 million (Ps.243.6 million plus adjustments, fines and late fees) in connection with a deduction of advertising expenses made by Telcel in 2004 in the amount of Ps.1,678.6 million. The SAT is challenging the validity of this deduction, alleging that the deduction is unfounded because Telcel is already paying a royalty for the use of the trademarks. Telcel believes that the SAT's argument is unfounded and has challenged the assessment in court.

---

**Table of Contents**

Based on these assessments, The Company expects that the SAT will challenge deductions made during 2005, 2006 and 2007 for royalty payments and/or expenses associated with the trademarks. The Company has not made specific provisions in the accompanying financial statements for these potential liabilities.

**Comcel**

Voice/IP

In March 2000, the Superintendencia de Industria y Comercio (the Colombian Superintendency of Industry and Commerce or SIC) issued Resolution No. 4954, requiring Comunicación Celular, S.A. (Comcel) to pay a fine of approximately US\$100 thousand (approximately Ps.1 million) for alleged anti-competitive behavior. In addition to this administrative fine, the SIC ordered Comcel to pay damages to other long distance operators. The long distance operators estimated their damages to be US\$70 million (approximately Ps.760 million). Comcel requested an administrative review of the damages decision, which was denied in June 2000. Comcel appealed, and the appeal was rejected in November 2000. Comcel resubmitted the appeal in February 2001. Comcel also filed a special action in court challenging the denial of the administrative review.

Following a series of court proceedings, a Colombian appeals court in June 2002 ordered that Comcel's February 2001 appeal be granted and that the administrative decision against Comcel be reviewed. After additional proceedings, the Constitutional Court revoked the June 2002 decision and ordered the continuance of the procedure for the determination of damages to the other operators.

In January 2008, SIC determined damages payable by Comcel to other operators to amount to US\$1.8 million (approximately Ps.19 million). Both parties have appealed the SIC's decision, and the appeal is pending before the Tribunal Superior de Bogotá (the Superior Court of Bogota).

**Telecom Américas**

Related Anatel inflation adjustments

The Agência Nacional de Telecomunicações (the Brazilian Federal Communications Commission or ANATEL) has challenged each of Tess, S.A. (Tess) and ATL-Telecom Leste, S.A. (ATL) regarding the calculation of inflation-related adjustments due under these companies' concession agreements with ANATEL. Forty percent of the concession price under each of these agreements was due upon execution and 60% was due in three equal annual installments (subject to inflation-related adjustments and interest) beginning in 1999. Both companies have made these concession payments, but ANATEL has rejected the companies' calculation of the inflation-related adjustments and requested payment of the alleged shortfalls.

The companies have filed declaratory and consignment actions in Brazilian courts seeking resolution of the disputes. The court of first instance ruled against ATL's filing for declaratory action in October 2001 and ATL's filing for consignment action in September 2002. Subsequently, ATL filed appeals, which are pending. In September 2003, the court of first instance ruled against Tess' filing for consignment action. Subsequently, Tess filed an appeal, which is still pending. No ruling has been made to date with respect to the declaratory action filed by Tess.

The aggregate contested amounts are approximately US\$ 178 million (including potential penalties and interest) (approximately Ps. 1,922 million). On December 31, 2005, both ATL and Tess were merged into BCP, S.A. (BCP).

The Company has made specific provisions in the accompanying financial statements for these potential liabilities.

---

**Table of Contents**

**BNDESPar**

Prior to the acquisition of Telet, S.A. ( Telet ) and Americel, S.A. ( Americel ) by Telecom Americas Limited ( Telecom Americas ), BNDESPar a subsidiary of BNDES, the Brazilian development bank, had entered into investment and other shareholder agreements with Americel, Telet and certain of their significant shareholders. Under these agreements, BNDESPar had the right, among others, to participate in the sale of shares of Telet and Americel in the event of certain transfers of control, for so long as BNDESPar held 5% of the share of capital in those companies. In October 2003, Telecom Americas increased the capital of each of Telet and Americel and BNDESPar's ownership fell below 5% from approximately 20% in each, as it elected not to exercise its preemptive rights. Subsequently, BNDESPar sent official notices to Telet and Americel reserving its rights under the agreements with respect to certain past transfers of shares. In November 2004, BNDESPar filed a lawsuit with the competent court of Rio de Janeiro claiming that BNDESPar is entitled to sell its shares in Telet and Americel to Telecom Americas for approximately US\$164 million (approximately Ps.1,777 million). The Company does not believe that BNDESPar has valid grounds for its claims against Telecom Americas. The Company cannot provide assurance, however, that Telecom Americas will ultimately prevail in this dispute. The Company has not made specific provisions in the accompanying financial statements for this potential liability.

**Lune Patent Case**

A Brazilian company claims that wireless operators in Brazil have infringed its patent over certain caller I.D. technology. The plaintiff first brought a patent infringement case in a state court in Brasília, Federal Capital of Brazil, against Americel and later brought cases, as part of two separate proceedings, against other 23 defendants. Although the Company believes that the patent does not cover the technology that is used by Americel to provide caller I.D. services, Americel lost the case at the trial level and on first appeal. After the judgment against Americel was rendered, a federal court in Rio de Janeiro, Brazil, rendered a preliminary injunction decision suspending the effects of the patent, in an action filed by a supplier of caller I.D. technology. This injunction was later upheld on appeal, and the proceeding for judicial review on the merits of the validity of the patent is in its initial stages.

Americel filed three special appeals against the decision of the state court in Brasilia, seeking review at the Superior Court of Justice (which is the highest court in Brazil to decide on questions of federal law) and Supreme Court (the highest court in Brazil to decide on questions of constitutional law). The Court of Appeals has determined that two of Americel's special appeals will be heard by the Superior Court of Justice. Americel's request for a special appeal before the Supreme Court was denied. Americel filed a motion requesting the reversal of this decision which is still pending.

The cases against the other operators are currently suspended as a result of the preliminary injunction suspending the effects of the patent. The plaintiff has brought these cases to the same state trial court that heard the case against Americel, but the defendants have requested that the cases be remitted to another court on jurisdictional grounds. The Americel judgment does not bind other state courts or federal courts of Brazil. The Company does not expect that there will be a resolution of these other cases within this year.

In the case against Americel, the plaintiff has requested the court to initiate the necessary proceedings for the execution of judgment. The court has estimated that the award for damages could amount to as much as approximately US\$270 million (approximately Ps.2,916 million). In September 2006, the Higher Court of Justice of Brazil unanimously ruled to stay the trial, due to the injunction suspending the validity of the patent in question. The Company expects that the trial will remain stayed as long as the patent remains suspended. Furthermore, Americel benefits from a limited contractual indemnity from its equipment supplier (Nortel Networks) in respect of trademark infringement. The Company has not made specific provisions in the accompanying financial statements to cover these potential liabilities.

**Table of Contents**

## Tax Assessments against Americel

In December 2005, the Secretaria da Receita Federal do Brasil (the Brazilian Federal Revenue Service) issued three tax assessments against Americel in respect of withholding income taxes and PIS and COFINS taxes (contributions levied on gross revenue) for 2000 through 2005. The total amount of the tax assessments is of approximately R\$224.2 million (approximately Ps.1,376 million), including R\$88.8 million (approximately Ps.541 million) of taxes and contributions plus fines and interest. The Company has challenged these assessments, and its challenge is pending before the Conselho de Contribuintes (Brazilian Taxpayers Council) in Brasilia. The Company did not make any specific provisions in the accompanying 2007 financial statements to cover these potential liabilities.

## Tax Assessments against ATL

In March 2006, the Brazilian Federal Revenue Service issued two tax assessments against ATL in respect of certain tax credits claimed by ATL and derived from non-cumulative contributions levied on gross income (PIS and COFINS). Under the Brazilian tax legislation, the calculation and payment of PIS and COFINS has two different regimes, the cumulative and non-cumulative regimes. The applicability of a regime depends on the nature of the company and its business sector. The cumulative regime applies to revenues derived from the provision of telecommunications services, while the sale of handsets is taxed under the non-cumulative regime. The non-cumulative regime is based on the value-added concept and allows the taxpayer to claim tax credits corresponding to preceding transactions. ATL (as well as other of the Company's Brazilian subsidiaries) offsets the tax credit derived from the non-cumulative regime for the sale of handsets (the balance between the purchase and sale of handsets), against contributions owed under the cumulative regime. The Brazilian Federal Revenue Service Federal is arguing that tax credits derived from the non-cumulative regime may not be used to offset contributions owed under the cumulative regime. The total amount of the tax assessments is approximately R\$54.9 million (approximately Ps.334 million), including R\$24.1 million (approximately Ps.147 million) of taxes and contributions plus R\$30.8 million (approximately Ps.188 million) of fines and interest. The Company has challenged these assessments, and its challenge is pending before the Brazilian Taxpayers Council. The Company did not make any specific provisions in the accompanying 2007 financial statements to cover these potential liabilities. On December 31, 2005, ATL was merged into BCP.

**Conecel**

## Expiration of Conecel's license

The Consorcio Ecuatoriano de Telecomunicaciones, S.A. (CONECEL) (Conecel) license expires in August 2008. As of the date of the accompanying financial statements, Conecel has been in negotiations with the Ecuadorian government to define the terms and conditions applicable to a new license to operate a mobile network and provide mobile services in Ecuador, including the economic terms and payments to be made to the Ecuadorian Government for the new license. As of the date of the accompanying financial statements, there are uncertainties as to Conecel's ability to renew the license agreement before such date, in order to continue providing mobile telecommunications services in Ecuador for an additional 15-year term.

## Tax Assessments

In December 2007 and January 2008, the Servicio de Rentas Internas de Ecuador (the Ecuadorian Revenue Service or the SRI) informed Conecel that it intends to issue tax assessments against Conecel amounting to approximately US\$138 million (not including interest or penalties) (approximately Ps.1,490 million), in respect of special consumption (ICE), value-added, income and withholding taxes for the years 2003 to 2006. As of December 31, 2007, Conecel had provisioned US\$19.6 million (approximately Ps.213 million). In March 2008, the SRI issued tax assessments against Conecel in respect of such taxes amounting to approximately US\$46 million (not including interest or penalties) (approximately P.496 million), and Conecel expects to receive additional assessments in respect of the remainder during 2008. Conecel has agreed to pay US\$14.3 million (approximately Ps.155 million) to the SRI in respect of the assessments issued in March 2008. Conecel believes that no additional amounts are due by it in respect of these assessments and potential assessments.

**Table of Contents****17. Related Parties**

a) An analysis of balances due from/to related parties at December 31, 2006 and 2007 is provided below. All the companies are considered associates, since América Móvil's primary stockholders are also either direct or indirect stockholders of the related parties.

	December 31	
	2006	2007
<b>Accounts receivable:</b>		
Teléfonos de México, S.A.B. de C.V. and subsidiaries (except Embratel)	Ps. 1,003,263	<b>Ps. 1,003,718</b>
Sanborns Hermanos, S.A. de C.V.	197,164	<b>133,207</b>
Sears Roebuck, S.A. de C.V.	102,350	<b>119,590</b>
Grupo Telvista, S. A. de C.V.	17,789	
Other	73,480	<b>78,095</b>
<b>Total</b>	<b>Ps. 1,394,046</b>	<b>Ps. 1,334,610</b>
<b>Accounts payable:</b>		
Fianzas Guardiana Inbursa, S.A. de C.V.	51,621	<b>59,596</b>
Seguros Inbursa, S.A. de C.V.	80,729	<b>64,511</b>
Embratel Participacoes, S.A.	2,046,479	<b>1,074,597</b>
Other	121,771	<b>51,071</b>
<b>Total</b>	<b>Ps. 2,300,600</b>	<b>Ps. 1,249,775</b>

b) América Móvil receives services from several subsidiaries of Grupo Carso, S.A. de C.V., Grupo Financiero Inbursa, S.A. de C.V. (Inbursa) and Teléfonos de México and subsidiaries (Telmex) and subsidiaries of Telmex Internacional. The Company's transactions with Telmex and subsidiaries of Telmex Internacional include, among others, the interconnection of their respective networks and the use of the related party's facilities, specifically the co-location of switchboard equipment in the facilities owned by Telmex. The Company's transactions with Inbursa include insurance and bank services, among others.

c) América Móvil has entered into an agreement with AT&T (formerly SBC) to receive consultancy services. In 2007, the Company paid US\$ 7.5 million (Ps. 81.5 million) for services received.

In 2006, the Company paid US\$ 28.5 million (Ps. 322 million) to AMTEL (with whom América Móvil had an agreement before the merger) and US\$ 1 million (Ps. 11.2 million) to AT&T for services received.

In 2005, the Company paid US\$ 30.0 million (Ps. 347 million) to AMTEL and US\$ 1 million (Ps. 11.5 million) to AT&T in compensation for their services.

d) For the years ended December 31, 2005, 2006 and 2007, the Company conducted the following transactions with related parties (mainly with Telmex):

	2005	2006	2007
<b>Revenues:</b>			
Calling Party Pays interconnection fees and others	Ps. 13,342,790	Ps. 13,909,498	<b>Ps. 19,702,718</b>
<b>Costs:</b>			
Payments for long-distance, circuits and others	6,213,592	6,541,648	<b>6,891,049</b>
<b>Commercial, administrative and general expenses:</b>			
Advertising	821,897	811,248	<b>1,229,726</b>
Other, net	544,694	766,314	<b>896,249</b>
Interest expense, net	(367,623)	(380,787)	

**Table of Contents**

e) Telcel has entered into various leasing and co-location agreements with a subsidiary of Telmex. Under these agreements, Telcel pays monthly fees for the use of Telmex antenna and repeater space and has the right to install its interconnection equipment.

f) In July 2005, Claro Chile and Telmex Chile (subsidiaries of Telmex) entered into an agreement for the provision of capacity, whereby the latter agrees to provide capacity and infrastructure use over the following 20 years. Such agreement gives rise to a monthly disbursement of USD 17.5 million (Ps. 190 million), beginning in September 2005. The amount recorded in results of operations of 2006 and 2007 for this agreement was USD 218 million (Ps. 2,368 million) and USD 222 million (Ps. 2,412 million), respectively. Such disbursement is presented as part of sales and services.

g) In 2005, Telmex Argentina, a subsidiary of Telmex, and AMX Argentina (formerly, CTI Móvil) agreed to jointly install a network of fiber optic trunk lines in Argentina approximately 1,943 kilometers in length. The project will be completed in 2008 for an approximate cost of Ps. 260,785 (USD 24 million).

h) Telecom Americas (through its operating subsidiaries) and Embratel, a subsidiary of Telmex, both provide telecommunications services in certain regions of Brazil; consequently, they have significant operating relationships between themselves, mainly the interconnection of their respective networks and the provision of long-distance services by Embratel.

i) In November 2005, Embratel entered into a contract with Telecom Américas to provide trunk line capacity to the operating subsidiaries in Brazil for a period of 20 years. Through this contract, the subsidiaries in Brazil are obligated to pay monthly fees to Embratel of between R. 4.0 million and R. 6.0 million (approximately Ps. 24.5 million and Ps. 36.8 million, respectively), depending on the capacity established in the contract for each subsidiary. Such amounts are included in cost of services.

j) In the normal course of operations, the Company's subsidiaries in Brazil have entered into lease agreements with Embratel. The total annual rent under such lease agreements is approximately R. 71.6 million (approximately Ps. 439.2 million). As well, Embratel leases properties from América Móvil's subsidiaries in Brazil. The total annual rent received by the subsidiaries is R. 14.9 million (approximately Ps. 91.4 million). The net amount of rent between the Brazilian subsidiaries is included in the caption Cost of sales and services in the statement of income.

k) On December 26, 2006, CICS Perú S.A., Telmex Peru, S.A. and América Móvil Perú, SAC entered into a turnkey fiber optic network construction contract for approximately USD 43 million. At the date of the contract, América Móvil Perú, SAC. has made payments equal to 20% of the value of six sections of the network in use of USD 2.6 million.

l) An analysis of employee benefits granted to the Company's key managers or relevant directors is as follows:

	2005	2006	2007
Current and Non-current Direct Benefits	Ps. 17,224	Ps. 19,991	Ps. 30,302
During the years ended December 31, 2005, 2006 and 2007 there were no termination benefits.			

m) As disclosed in Note 4, in December 2007, USCO's shares were transferred to the Carso Foundation (related party) as a charitable donation.

**Table of Contents**

**18. Stockholders Equity**

*Shares*

a) Before the merger described in Note 3, the Company's capital stock consisted of a fixed amount of Ps. 402,900 (historical), represented by 48,348 million shares (including treasury shares for re-subscription in terms of the Securities Trading Act and the general provisions issued by the CNBV), divided into: (i) 11,420 million common registered Series AA shares, with no par value; (ii) 980 million common registered Series A shares, with no par value and; (iii) 35,948 million registered Series L shares, with no par value and limited voting rights. All of the above-mentioned shares were fully subscribed and paid in.

b) As a result of the merger, the Company's capital stock consisted of a fixed amount of Ps. 397,873 (historical), represented by 47,744 million shares (including treasury shares for re-subscription in terms of the Securities Trading Act and the general provisions issued by the CNBV), divided into: (i) 11,717 million common registered Series AA shares, with no par value; (ii) 599 million common registered Series A shares and; (iii) 35,428 million registered Series L shares. All of the above-mentioned shares were fully subscribed and paid in.

c) In July 2005, the Company carried out a three-for-one share split of the Company's outstanding shares, as was approved at the ordinary stockholders meeting held on April 27, 2005; consequently, the Company's capital stock at December 31, 2005, 2006 and 2007 was represented by 36,246 million shares (10,914 million of Series AA, 760 million of Series A and 24,570 million of Series L) for 2005, 35,907 million shares (10,860 million of Series AA, 571 million of Series A and 24,475 million of Series L) for 2006 and 34,897 million shares (11,712 million of Series AA, 547 million of Series A and 22,638 million of Series L) for 2007. Such amounts include the retroactive effect of the split and the effects of the merger and represent fixed capital stock at such date.

d) At December 31, 2005, 2006 and 2007, the Company had treasury shares for re-subscription in terms of the Securities Trading Act and the general provisions issued by the CNBV as follows: 12,098 million shares (12,067 million Series L and 31 million Series A) for 2005, 12,440 million shares (12,409 million Series L and 31 million Series A) for 2006 and 12,847 million shares (12,815 million Series L and 32 million Series A) for 2007.

e) Holders of Series AA and Series A shares have full voting rights. Holders of Series L shares are entitled to vote only to elect two members of the Board of Directors and the corresponding alternate directors and on the following matters: Extension of the term of América Móvil, its voluntary dissolution or a change in its corporate purpose, change in its nationality, transformation of América Móvil from one type of company to another, any merger of América Móvil, as well as the cancellation of the registration of the shares issued by the Company in the National Registry of Securities and Intermediaries and in other foreign stock exchanges, with the exception of valuation systems or other markets not organized as stock exchanges. All Series AA, A and L shares confer the same rights and obligations on the holders.

The Company's bylaws contain restrictions and limitations related to the subscription and acquisition of Series AA shares by foreign investors.

f) In conformity with the Company's bylaws, Series AA shares must represent at all times no less than 20% and no more than 51% of the Company's capital stock and also must represent at all times no less than 51% of the combined number of Series AA and Series A common shares with full voting rights.

Series AA shares may only be subscribed or acquired by Mexican individuals, Mexican corporations and/or trusts expressly authorized to do so in conformity with the applicable legislation in force. Common A shares, which may be freely subscribed, must account for no more than 19.6% of the Company's capital stock and no more than 49% of the common shares. Common registered shares (with full voting rights represented by

## Table of Contents

Series AA and Series A shares) may not exceed 51% of the Company's capital stock. Lastly, the combined number of Series L shares, which have limited voting rights and may be freely subscribed, and Series A shares may not exceed 80% of the Company's capital stock. For purposes of determining these restrictions, the percentages mentioned above refer only to the number of shares outstanding.

### Dividends

g) In April 2005, and, the stockholders approved payment of a cash dividend of \$ 0.046 peso per share for a total dividend of Ps. 1,701,709 payable in four installments in June, September and December of 2005, and in March 2006.

On December 13, 2005, the stockholders approved payment of an extraordinary cash dividend to be distributed in a single payout on December 23, 2005 at \$ 0.19 peso per share for a total dividend of Ps. 6,996,767.

On April 26, 2006, the Company's stockholders approved payment of a cash dividend of \$ 0.06 peso per share payable in full on July 26, 2006 for a total amount of Ps. 2,289,219.

On April 27, 2007, the Company's stockholders approved payment of a cash dividend of \$ 0.20 peso per Series AA, A and L share, for a total distribution of Ps. 7,240,625, payable in full on July 27, 2007 against coupon No. 22 of the titles that represent the Company's capital stock.

On October 29, 2007, the Company's stockholders approved payment of a cash dividend of \$ 1.00 peso per Series AA, A and L share, for a total distribution of Ps. 35,414,993, payable in full on November 6, 2007 against coupon No. 23 of the titles that represent the Company's capital stock.

All the information has been adjusted to give retroactive effect to the business combination and split carried out; consequently, the information above may not necessarily coincide with the information shown in the legal records of the dates on which the stockholders' meetings were held.

The aforementioned dividends were paid from the net tax profit account (CUFIN).

### Repurchase of shares

h) During the three-year period ended December 31, 2007, the Company has repurchased shares, as shown below. The amount of the repurchase price in excess of the capital stock represented by the shares was charged to retained earnings:

Year	No. of shares in millions			Amount in thousands of Mexican pesos		Historical amount in thousands of Mexican pesos	
	Series L	Series A		Series L	Series A	Series L	Series A
2005	547	1.5		Ps. 5,648,851	Ps. 21,238	Ps. 5,101,008	Ps. 19,357
2006	338	0.5		Ps. 7,788,888	Ps. 10,040	Ps. 7,262,485	Ps. 9,382
<b>2007</b>	<b>405</b>	<b>0.8</b>		<b>Ps. 12,829,295</b>	<b>Ps. 27,143</b>	<b>Ps. 12,617,400</b>	<b>Ps. 26,915</b>

i) In conformity with Article 20 of the Mexican Corporations Act, at least 5% of the Company's net income of the year must be appropriated to increase the legal reserve. This practice must be continued each year until the legal reserve reaches at least 20% of capital stock.

## 19. Income Tax, Flat Rate Business Tax, Asset Tax and Employee Profit Sharing

### a) Mexico

1) Effective January 2002, the Ministry of Finance and Public Credit authorized América Móvil to consolidate its tax results with those of its Mexican subsidiaries. Global Central América, S.A. de C.V., one of the Company's subsidiaries, is excluded from this tax consolidation.

**Table of Contents**

2) As of 2007, the 1.25% asset tax rate is payable on the average value of most assets net of certain liabilities. Through December 31, 2006, asset tax was payable at the 1.8% rate on the average value of most assets net of certain liabilities. Asset tax payable for the years ended December 31, 2005, 2006 and 2007 was Ps. 1,156,120, Ps. 701,224 and Ps. 1,854,082, respectively. Such amounts were remitted through the crediting of income tax paid in both years. The 2005 asset tax was offset by the excess of income tax over asset tax paid in prior years in the amount of Ps. 570,534.

Asset tax for the year ended December 31, 2006 was determined on a consolidated basis for Mexican subsidiaries and offset against income tax in the tax consolidation.

Asset tax charged to Mexican subsidiaries for the year ended December 31, 2005 corresponds to the amount shown in the provision for income tax in the statement of income, since the 2005 consolidated tax profit of Ps. 36,381,148 was decreased by the available tax loss carry forward in the same amount, which consequently gave rise to a gain of Ps. 10,914,344 in the statement of income.

The Flat Rate Business Tax (FRBT) Law was published in the *Official Gazette* on October 1, 2007. This Law will come into force as of January 1, 2008 and abolish the Asset Tax Law. The FRBT Law establishes a procedure for determining asset tax payable through December 2007, which can be recovered as of 2008.

## 3) Statutory corporate tax rate

a) The corporate income tax rate applicable in 2005, 2006 and 2007 was 30%, 29% and 28%, respectively. In subsequent years, the income tax rate shall be 28% provided no change in the rate is legislated.

b) In 2005, the effect of the gradual decrease in the income tax rate is reflected in the computation of deferred taxes of the Mexican subsidiaries and represents a Ps. 56 million charge to results of operations.

4) At December 31, 2007, the balance of the Company's Restated contributed capital account (CUCA) and Net tax profit account (CUFIN) (including the effects of the merger) aggregated Ps. 53,190,710 and Ps. 33,670,552, respectively.

As a result of the merger of América Telecom (disappearing company) into América Móvil (surviving company), the Company's CUCA balance decreased by Ps. 21,768,825 and its CUFIN balance increased by Ps. 12,064,275.

5) An analysis of income tax charged to results of operations for the years ended December 31, 2005, 2006 and 2007 is as follows:

	2005	2006	2007
<b>In Mexico:</b>			
Current year income tax		Ps. 13,445,810	<b>Ps. 11,096,983</b>
Deferred income tax	Ps. (2,357,968)	(887,063)	<b>5,250,377</b>
Deferred FRBT			<b>117,237</b>
Asset tax	585,586	701,224	<b>1,080,303</b>
<b>Abroad:</b>			
Current year income tax	2,628,562	2,821,020	<b>5,617,616</b>
Deferred income tax	(551,011)	937,153	<b>(708,249)</b>
<b>Total</b>	<b>Ps. 305,169</b>	<b>Ps. 17,018,144</b>	<b>Ps. 22,454,267</b>

Since current Mexican tax legislation recognizes partially the effects of inflation on certain items that give rise to deferred taxes, the current year net monetary effect on such items has been included in the income tax expense of the year.

**Table of Contents**

## 6) Tax credits

The 2005 income tax of Mexican subsidiaries includes a tax credit of Ps. 1,014 million (Ps. 895 million historical) resulting from the favorable ruling in an appeal against the tax authority's rejection of certain deductions in connection with the tax treatment given the loss on sale of shares (Ps. 565,309 in 2007 from the recovery of asset tax paid on prior years).

7) A reconciliation of the statutory corporate income tax rate to the effective income tax rate recognized by the Company for financial reporting purposes is as follows:

	Year ended December 31,		
	2005	2006	2007
Statutory income tax rate in Mexico	30.0%	29.0%	28.0%
Effect of non-taxable, non-deductible items:			
Cost of financing	2.82	(0.3)	0.4
Effect of decrease in rate	0.22		
Recoverable taxes	(0.65)		
Asset tax	1.69	0.5	(0.4)
Deductible employee profit sharing			(0.1)
Tax benefit from tax consolidation			(1.0)
Tax benefit derived from carry forward of tax losses	(41.25)	(0.5)	(1.8)
Operations of subsidiaries abroad		(1.5)	(0.9)
Effect of merger	(0.14)	0.7	
Other	2.22	2.2	0.7
Effective tax rate on Mexican operations	(5.09)	30.1	24.9
Revenues and costs of foreign subsidiaries	6.0	(2.4)	2.7
Effective income tax rate before effect derived from the recognition of deferred FRBT	0.91%	27.7%	27.6
Deferred FRBT			0.1
Effective income tax rate	0.91%	27.7%	27.7%

8) An analysis of the effects of temporary differences on deferred tax assets and liabilities is as follows:

	December 31	
	2006	2007
<b>Deferred tax assets</b>		
Liability provisions	Ps. (2,298,323)	Ps. (2,645,603)
Other	(1,109,892)	(676,260)
Deferred income	(1,690,197)	(1,492,015)
Tax losses	(12,913,042)	(17,145,849)
	(18,011,454)	(21,959,727)
<b>Deferred tax liabilities</b>		
Fixed assets	3,341,595	4,433,668
Sale and leaseback	2,327,504	971,445
Inventories	1,299,436	888,698
Licenses	584,869	759,370

Edgar Filing: AMERICA MOVIL SAB DE CV/ - Form 20-F

Deferred effects of tax consolidation in Mexican subsidiaries	1,905,126	<b>4,101,855</b>

Total deferred taxes	Ps. 5,427,863	<b>Ps. 12,496,344</b>

F-55

**Table of Contents**

9) In Mexico and Ecuador the Company is legally required to pay employee profit sharing, in addition to the compensation and benefits to which employees are contractually entitled. The statutory employee profit sharing rate in 2005, 2006 and 2007 was 10% of taxable income in Mexico and 15% in Ecuador.

Starting in 2006, employee profit sharing paid to employees will be deductible under certain circumstances for income tax purposes in Mexico. For Ecuador, employee profit sharing is deductible from current year income tax. This deduction aggregated Ps. 293,847 in 2006 and Ps. 85,476 in 2007 in Mexico.

10) The deferred tax asset of Ps. 820,577 shown in the balance sheet at December 31, 2006 refers to TracFone and Enitel's partial reversal of their valuation allowance (for tax loss carry forwards) as a result of both the partial realization of such assets during 2005 and the evaluation of the adequacy of the reserve.

The deferred tax asset of Ps. 3,395,396 shown in the balance sheet at December 31, 2007, refers to TracFone, Enitel, Puerto Rico, which is mainly attributable to labor obligations and Colombia, due to the differences between the book and tax values of its plant and equipment.

An analysis of the effect of temporary differences giving rise to the deferred tax asset at December 31, 2006 and 2007 is as follows:

	December 31	
	2006	2007
<b>Deferred tax assets</b>		
Liability provisions	Ps. ( 209,524)	<b>Ps. (1,020,968)</b>
Other	(268,406)	<b>(755,204)</b>

Tax losses	(595,433)	<b>(299,224)</b>
	(1,078,781)	<b>(2,075,396)</b>
<b>Deferred tax liabilities</b>		
Fixed assets	29,621	<b>(1,330,956)</b>
Licenses	(36,151)	
Other	2,682	<b>(50,807)</b>
	(3,848)	<b>(1,381,763)</b>
Less: Valuation allowance	262,052	<b>61,763</b>
<b>Deferred tax asset</b>	<b>Ps. ( 820,577)</b>	<b>Ps. (3,395,396)</b>

11) The Flat Rate Business Tax Law (FRBT) was published on October 1, 2007. This Law will come into force as of January 1, 2008 and abolish the Asset Tax Law.

Current-year FRBT is computed by applying the 17.5% (16.5% in 2008 and 17% in 2009) rate to income determined on the basis of cash flows, net of authorized credits.

FRBT credits derive mainly from the unamortized negative FRBT base and salary credits and social security contributions, as well as credits derived from the deduction of certain investments, such as those made in inventories and fixed assets, during the transition period from the date on which the FRBT comes into force.

FRBT shall be payable only to the extent it exceeds income tax for the same period. In other words, to determine FRBT payable, income tax paid in a given period shall first be subtracted from the FRBT of the same period and the difference shall be the FRBT payable.

Should a negative FRBT base be determined because deductions exceed taxable income, there will be no FRBT payable. The amount of the negative base multiplied by the FRBT rate results in a FRBT credit, which may be applied against income tax for the same year or, if applicable, against FRBT payable in the next ten years.

**Table of Contents**

On the basis of the financial projections for the next four years and future retrospective computations of historical results, the Company considers that most of its Mexican subsidiaries will essentially pay income tax, since the subsidiaries have historically generated income tax and as a result of the immediate deduction of fixed assets acquired for FRBT purposes, income tax in most of the Mexican subsidiaries will be greater than FRBT.

The deferred FRBT shown basically corresponds to the effect of inventories of a subsidiary that historically had asset tax payable.

**b) Subsidiaries abroad**

## 1) Results

The foreign subsidiaries determine their income tax based on the individual results of each subsidiary and in conformity with the specific tax regime of each country. An analysis of the aggregate pretax income and aggregate tax provisions of these subsidiaries in 2005, 2006 and 2007 is as follows:

	2005	December 31 2006	2007
Aggregate pretax income	Ps. 9,469,398	Ps. 13,793,495	Ps. 22,894,721
Aggregate tax provisions	2,628,562	2,821,020	5,617,616

## 2) Tax losses

At December 31, 2007, América Móvil's foreign subsidiaries have available tax loss carry forwards as follows:

Country	Available tax loss carry forward in millions of pesos at December 31, 2007	Tax benefit
Brazil	Ps. 36,269	Ps. 15,134
Argentina	179	92
USA	105	54
Chile	8,953	1,522
Peru	1,326	398
Puerto Rico	539	210
Nicaragua	115	34
Total	Ps. 47,486	Ps. 17,444

The rules for tax loss carry forwards in the different countries in which the Company operates are as follows:

i) In Brazil there is no limit on the carry forward of tax losses; however, the carry forward in each year may not exceed 30% of the tax base for such year, so that in the year on which taxable income is generated, the effective tax rate is 25% rather than the 34% corporate rate.

ii) In Argentina, the tax loss of a given year may be carried forward only against the taxable earnings of the succeeding five years. Of the Ps. 179 million shown in the table above shall expire in 2012.

iii) In Ecuador, the tax loss of a given year may be carried forward only against the taxable earnings of the succeeding five years and may be used solely for up to 25% of the taxable earnings of each year, so that the effective tax rate is 18.75% with the tax loss carry forward benefit rather than the 25% rate.

**Table of Contents**

iv) In Chile, the carry forward of tax losses has no expiration. The corporate tax rate is 17%; therefore, at the time tax losses are incurred taxpayers may enjoy a maximum 17% benefit of the amount of the loss.

v) In the U.S. and specifically in the State of Florida, which is where the Company resides, tax losses may be carried forward in the succeeding 20 years. The Company expects to utilize its carried forward tax losses in 2008.

vi) In Peru, the Company entered into a tax stabilization agreement, which establishes among other points, that the Company's tax losses must be carried forward in the following four years, commencing in 2006.

**20. Segments**

América Móvil operates primarily in one operating segment (cellular services); however, as mentioned in Note 1 above, the Company has international telecommunications operations in Mexico, Guatemala, Nicaragua, Ecuador, El Salvador, Brazil, Argentina, Colombia, United States, Honduras, Chile, Peru, Paraguay, Uruguay, the Dominican Republic, Puerto Rico and Jamaica. The accounting policies for the segments are the same as those described in Note 2.

Company management analyzes the financial and operating information by geographical segment. However, the information for significant subsidiaries, whose income aggregates more than 10% of consolidated revenues and more than 10% of consolidated assets, is presented separately.

## Edgar Filing: AMERICA MOVIL SAB DE CV/ - Form 20-F

- (1) Mexico includes Telcel and corporate operations and assets
- (2) Mercosur includes Argentina, Chile, Paraguay and Uruguay
- (3) Andean includes Ecuador and Peru.
- (4) Central America includes Guatemala, El Salvador, Honduras and Nicaragua.
- (5) Excludes Puerto Rico
- (6) Caribbean includes Puerto Rico and Jamaica

F-59

## **Table of Contents**

### **21. Subsequent Events**

- a) At a stockholders' meeting held on February 1, 2008, it was agreed to increase the fund to repurchase the Company's own shares by Ps. 15,000,000.
- b) On April 29, 2008 America Movil's stockholders approved the payment of a one-time cash dividend of Ps. 0.26 (cents) per share. America Movil anticipates that it will pay in July 2008 an aggregate of approximately nine billion pesos related to this dividend. The Company also approved the authorization of Ps. 40,000,000 in treasury share repurchases.
- c) After year end the Company has begun to offer so-called third generation (3G) UMTS/HSDPA network services in several Latin American countries. Such services allow customers to access value added high-speed data transfer services, including access to the wireless broad band. The Company expects these services to be available in most significant Latin American cities by the end of 2008.
- d) In May 2008, the Ecuadorian Government accepted Conecel's proposal regarding the economic terms and payments to be made for the new concession. The aggregate payment made by Conecel during the 15-year term of the new concession will be U.S.\$480 million (Ps. 5,216 million).
- e) On May 7, 2008, the Company was the winning bidder of the public auction for the provision of mobile voice, data and video services (PCS) in Panama. The license obtained by its Panamanian subsidiary, Claro Panamá, S.A., grants the right for the use and exploitation of 30 megahertz in the 1900 megahertz band for a 20-year period for an amount of US\$ 86 million (Ps. 902 million approximately)

### **22. Differences between Mexican and U.S. GAAP**

The Company's consolidated financial statements are prepared in accordance with Mexican FRS, which differ in certain respects from generally accepted accounting principles in the United States (U.S. GAAP).

The reconciliation to U.S. GAAP does not include the reversal of the adjustments to the financial statements for the effects of inflation required under Mexican FRS (Bulletin B-10), as permitted by the U.S. Securities and Exchange Commission Rules.

The principal differences between Mexican FRS and U.S. GAAP, as they relate to the Company, are described below together with an explanation, where appropriate, of the method used to determine the adjustments that affect operating income, net income, total stockholders equity and cash flows provided by operating, investing and financing activities.

#### **Income Statement Information:**

Cost of sales as shown in the income statement, includes cost of sales of telephone equipment and other in the amount of Ps. 58,406,266, Ps. 65,748,724 and Ps.69,979,814, for the years ended December 31, 2005, 2006 and 2007, respectively.

#### **Cash Flow Information:**

Under Mexican FRS, the Company presents consolidated statements of changes in financial position, as described in Note 2. The changes in the consolidated financial statement balances included in this statement constitute resources provided by and used in operating, financing and investing activities stated in constant pesos (including monetary and foreign exchange gains and losses).

Statement of Financial Accounting Standards (SFAS) No.95, Statement of Cash Flows, does not provide guidance with respect to inflation adjusted financial statements. In accordance with Mexican FRS, the changes in

**Table of Contents**

current and long-term debt due to restatement in constant pesos, including the effect of exchange differences, are presented in the statement of changes in financial position in the financing activities section. The Company has adopted the guidance issued by the AICPA SEC Regulations Committee's International Practices Task Force in its meeting held on November 24, 1998, encouraging foreign registrants that file price level adjusted financial statements to provide cash flow statements that show separately the effects of inflation on cash flows.

If the monetary gain and the exchange gain or loss related to the debt were treated as components of operating activities, summarized consolidated statements of cash flows derived from information prepared in accordance with U.S. GAAP would be as follows:

	Year ended December 31,		
	2005	2006	2007
<b>Operating activities</b>			
Net income	Ps. 33,028,246	Ps. 40,638,699	Ps. 55,419,072

**Table of Contents**

Net cash provided by operating activities reflect cash payments for interest, income tax and employee profit sharing as follows:

	Year ended December 31		
	2005	2006	2007
Interest paid, net of capitalized interest	Ps. 3,104,466	Ps. 4,185,444	Ps. 4,873,123
Income tax paid	7,410,704	1,722,717	25,225,647
Employee profit paid	308,429	230,218	232,402

Cash flows from purchases of trading securities during 2005, 2006 and 2007 were Ps.0, Ps. 1,014,038 and Ps.0, respectively. Cash flows from sales of trading securities during 2005, 2006 and 2007 were Ps. 923,950, Ps.0, and Ps. 1,499,382, respectively. Cash flows from purchases of available-for-sale securities during 2005, 2006 and 2007 were Ps. 0, Ps. 0 and Ps. 789,100, respectively.

**Capitalized Interest:**

Under U.S. GAAP, interest on borrowings in foreign currencies or comprehensive cost of financing incurred during the construction period must be considered as an additional cost of constructed assets to be capitalized in plant, property and equipment and depreciated over the lives of the related assets. The amount of the capitalized interest for U.S. GAAP purposes was determined by applying the weighted average rate of interest of financing.

Under Mexican FRS in force through December 31, 2006, the Company did not capitalize the comprehensive cost of financing in its Mexican FRS financial statements. Starting January 1, 2007, the Company commenced capitalizing the comprehensive cost of financing on assets under construction, which as a result of adopting Mexican FRS D-6, include interest expense and monetary gains directly associated with borrowings in local currency, and in addition, foreign currency exchange gains (losses) in the case of borrowings in foreign currency.

The reconciling items for 2006 and 2005 show the capitalization of interest as required under U.S. GAAP, whereas the reconciling item for 2007 only includes the reversal of the monetary gain and foreign exchange results capitalized under Mexican FRS, related to borrowings denominated in foreign currencies.

**Valuation of Plant, Property and Equipment:**

As previously discussed in Note 8, through December 31, 1996, items comprising the telephone plant were restated based on the acquisition date and cost, applying the factors derived from the specific indexes determined by the Company and validated by an independent appraiser registered with the CNBV. Since January 1, 1997, the valuation method of plant, property and equipment was modified, as Bulletin B-10 eliminated the use of appraisals to restate inventories and plant, property and equipment (thus for Mexican FRS purposes plant, property and equipment of non-Mexican origin are restated based on the rate of inflation in the respective country of origin). The alternate restatement method allowed by Bulletin B-10, which was the one adopted in 1997 by the Company, is not acceptable for U.S. GAAP purposes; consequently, the difference between this method and the restatement of inventories and plant, property and equipment based on the NCPI was taken to the U.S. GAAP reconciliations subsequently presented.

As a result of this adjustment, plant, property and equipment and stockholders' equity increased by Ps. 10,165,225 in 2006 and Ps.7,591,953 in 2007 and depreciation expense increased by Ps. 1,812,634, Ps. 1,922,245 and Ps.3,072,871, in 2005, 2006 and 2007, respectively.

**Deferred Income Tax and Deferred Employee Profit Sharing:**

As mention in the Note 19, under Mexican FRS, deferred income tax is determined on all temporary differences in balance sheets accounts for financial and tax reporting purposes, using the enacted income tax rate at the balance sheet date, which basically is in conformity with requirements of SFAS 109 Accounting for income taxes.

**Table of Contents**

The Company is required to pay employee profit sharing in accordance with Mexican labor law. Deferred employee profit sharing under U.S. GAAP has been determined following the guidelines of SFAS No. 109. Under Mexican FRS, the deferred portion of employee profit sharing is determined on temporary non-recurring differences with a known turnaround time.

The following table summarizes the significant components of deferred taxes under U.S. GAAP (after giving effect to the differences between Mexican FRS and U.S. GAAP as they relate to the Company as described in this reconciliation footnote), at December 31, 2006 and 2007:

	2006			2007		
	Income	Employee	Deferred	Income	Employee	Deferred
	Tax	Profit	Taxes	Tax	Profit	Taxes
		Sharing			Sharing	
Deferred tax assets:						
Tax loss carry forwards	Ps. 12,913,042		Ps. 12,913,042	Ps. 17,145,849		Ps. 17,145,849
Accrued liabilities	2,298,323	Ps. 331,531	2,629,854	2,645,603	Ps. 502,631	3,148,234
Deferred revenues	1,733,974	554,109	2,288,083	1,638,151	351,710	1,989,861
Other	1,109,892	82,090	1,191,982	676,260	50,217	726,477
Valuation allowance	(13,522,323)		(13,522,323)	(18,325,339)		(18,325,339)
<b>Total deferred tax assets</b>	<b>4,532,908</b>	<b>967,730</b>	<b>5,500,638</b>	<b>3,780,524</b>	<b>904,558</b>	<b>4,685,082</b>
Deferred tax liabilities						
Fixed assets	(8,046,178)	(667,724)	(8,713,902)	(7,021,798)	(496,354)	(7,518,152)
Inventories	(1,299,436)		(1,299,436)	(888,698)		(888,698)
Sale and lease back	(2,327,504)	(479,722)	(2,807,226)	(971,445)	(364,171)	(1,335,616)
Licenses	(272,404)	57,067	(215,337)	(1,036,660)	45,648	(991,012)
Deferred effects of tax consolidation in Mexican subsidiaries	(1,905,126)		(1,905,126)	(4,101,855)		(4,101,855)
Forward contracts with affiliates				(3,181,000)		(3,181,000)
Deferred FRBT				(117,237)		(117,237)
Other	(458,475)		(458,475)	(1,677,458)		(1,677,458)
<b>Total deferred tax liabilities</b>	<b>(14,309,123)</b>	<b>(1,090,379)</b>	<b>(15,399,502)</b>	<b>(18,996,151)</b>	<b>(814,877)</b>	<b>(19,811,028)</b>
<b>Net deferred tax liabilities</b>	<b>Ps. (9,776,215)</b>	<b>Ps. (122,649)</b>	<b>Ps. (9,898,864)</b>	<b>Ps. (15,215,627)</b>	<b>Ps. 89,681</b>	<b>Ps. (15,125,946)</b>

In accordance with Mexican FRS purposes, deferred tax liabilities of Ps. 5,427,863 and Ps. 12,496,344 were recognized at December 31, 2006 and 2007, respectively. In addition, during 2006 and 2007, under Mexican FRS and US GAAP purposes, deferred tax assets of Ps. 820,577 and Ps. 3,395,396 were recognized. Deferred assets recognized under Mexican FRS are not reconciled since there are not US GAAP adjustments that affect its computation.

## **Table of Contents**

Undistributed earnings of the Company's foreign subsidiaries amounted to approximately Ps. 3,490 million and Ps. 12,154 million at December 31, 2006 and 2007. Those earnings are considered to be indefinitely reinvested; accordingly, no provision for income taxes has been provided thereon. Upon repatriation of those earnings, in the form of dividends or otherwise, the Company would be subject in some cases to both Mexican income taxes (subject to an adjustment for foreign tax credits) and withholding taxes payable to the various foreign countries.

Determination of the amount of unrecognized deferred income tax liability is not practicable due to the complexities associated with its hypothetical calculation; however, unrecognized foreign tax credit carry forwards would be available to reduce some portion of the liability.

### **Transactions between entities under common control**

Starting January 1, 2005, the Company adopted the requirements of new Mexican Accounting Bulletin B-7, Business Combinations, under which, any difference between the acquisition cost and the carrying value of net assets acquired, on transactions between entities under common control are recognized in stockholders equity as a capital transaction. For U.S. GAAP purposes transactions between entities under common control are also recognized as a capital transaction but are recorded at the lower of net book value or fair value. This difference gave rise to a reconciling item of Ps. 86,662, which has been included in the income statement U.S. GAAP reconciliation, derived from the sale of Technology and Internet, LLC in June 2005.

### **Acquisition of non-controlling interest**

Also under Mexican FRS, the adoption of Bulletin B-7, requires that acquisitions of non controlling interests be treated as an equity transaction and any difference between the acquisition cost and the carrying value of the net assets acquired be recognized in equity, whereas under U.S. GAAP, the acquisition of non-controlling interest is treated as a business combination, and any difference between the acquisition cost and the fair value of the net assets acquired is treated as goodwill.

As of December 31, 2006 and 2007, the reconciliation of stockholders' equity includes a Ps. 922,854 and Ps.929,458 adjustments related to acquisition of non-controlling interests, respectively.

### **Goodwill**

Beginning January 1, 2005, due to the adoption of Mexican accounting Bulletin B-7, goodwill is no longer amortized, but rather is subject to periodic impairment valuations.

For US GAAP purposes, the Company adopted SFAS No. 142, "Goodwill and Other Intangible Assets" in 2002. Up to December 31, 2004, the Company recognized and accumulated benefit of Ps. 4,483,032, for the non amortization of goodwill, under US GAAP

In 2005, 2006 and 2007, the Company performed the required impairment tests of goodwill and intangible assets and the tests did not result in an impairment charge.

### **Licenses**

As mentioned in Note 9, under Mexican FRS, the Company adjusted the value of the license to reflect the current status of the asset by recognizing the value of the concession granted by the Federal Government and its corresponding amortization through April 2006, based on the new value assigned by the SCT, increasing the net investment on such license by Ps. 1,354,070 (Ps. 2,265,931 in investment less Ps. 838,151 in accumulated amortization less cancellation of original net value of license for Ps. 73,710). The increase in the value of the license of Ps. 2,149,509 was settled with a cash payment of Ps. 150,970 and compensating of the additional

**Table of Contents**

payments for the annual share of gross revenues in the amount of Ps. 1,998,539, which resulted a net credit to results of operations of Ps. 1,203,100 included in other income, based on the adjusted investment value of the license.

Amortization expense for the remaining eight months period ended December 31, 2006, amounted to P. 103,465. The total effect of the mentioned entries represented a net credit to the income statement for Mexican FRS purposes of Ps. 1,099,635.

For U.S. GAAP, the Company would only capitalize the amount paid in cash, as the compensation of the additional payments was made with the same entity and did not generate any cash flows.

Furthermore, the amortization expense is not adjusted retrospectively; rather, the new net value of the license under U.S. GAAP, in the amount of Ps. 224,680 is amortized over the remaining term of the license. The U.S. GAAP reconciliations show the reversal of adjustments made under Mexican FRS, in the amount of Ps. 1,099,635, (credit of Ps. 1,203,100 less amortization expenses of Ps. 103,465) and amortization expense to be recognized under U.S. GAAP in the amount of Ps. 18,086 for 2006 and a decrease in the amortization expense for 2007 in the amount of Ps. 127,399.

**Non-controlling Interest:**

In conformity with MFRS, the share of net income corresponding to non-controlling interests is not deducted to arrive to the Company's net income, and it is also presented as a component of stockholders' equity in our balance sheet, immediately after the caption total majority stockholders' equity. For U.S. GAAP purposes, non-controlling interest ( non-controlling interest ) is excluded from the Company's net income and from stockholders' equity and included as a mezzanine item in the balance sheet. As a result of the above, for US GAAP purposes the Company reclassified non-controlling interest from stockholders' equity, decreasing its total stockholders' equity by Ps. 684,137 and Ps. 633,700 at December 31, 2006 and 2007, respectively. In addition, non-controlling interest as reported in the income statement under Mexican FRS in the statement of operations of Ps. (73,993), Ps. (87,517) and Ps.(109,822) in 2005, 2006 and 2007, respectively have been excluded from net income in the income statement reconciliation.

**Other accumulated comprehensive income (loss)**

The cumulative effects of the surplus are as follows:

Concept	2006	2007
Restatement of stockholders' equity	Ps. 825,749	Ps. 825,749
Deferred taxes on the difference between indexed cost and replacement cost	1,841,497	3,380,202
The effect of translation of financial statements foreign entities	(1,487,259)	8,656,455
	Ps. 1,179,987	Ps. 12,862,406

**Accounting for Consideration Given by a Vendor to a Customer**

EITF 01-9, "Accounting for Consideration Given by a Vendor to a Customer" (EITF 01-9) addresses the income statement characterization of consideration given by a vendor to a customer. EITF 01-9 is relevant to the Company particularly in respect to accounting for commissions paid to distributors with respect to the activation of postpaid plans, the commissions that are paid to distributors only if a distributor completes a specified cumulative level of revenue transactions and commissions paid to distributors when a customer remains with the Company for a specified time period.

Application of EITF 01-9 represented a reclassification for US GAAP purposes of commissions paid to distributors from commercial and administrative expenses to reductions in operating revenues of Ps. 12,022,497,

## **Table of Contents**

Ps. 11,496,108 and Ps.12,245,020 for the years ended December 31, 2005, 2006 and 2007, respectively. In addition, during 2005, the company reclassified Ps. 1,143,915 of interest expense recorded under Mexican FRS under the caption other financing cost as a reduction of revenues, due to the fact that such interest under US GAAP should be considered an incentive to customers.

### **Accounting for Revenue Arrangements with Multiple Deliverables**

EITF 00-21 Accounting for revenue arrangements with multiple deliverables addresses certain aspects of accounting for sales that involve multiple revenue generating products and/or services sold under a single contractual agreement. For América Móvil, this rule became effective for sales agreements entered into beginning January 1, 2004.

### **Disclosure about Fair Value of Financial Instruments**

In accordance with SFAS No. 107, Disclosures about Fair Value of Financial Instruments, under U.S. GAAP it is necessary to provide information about the fair value of certain financial instruments for which it is practicable to estimate that value.

The carrying amounts of cash and short-term investments, accounts receivable and accounts payable and accrued liabilities approximate fair values due to the short term maturity of these instruments. The fair value of total debt, excluding capital leases, is estimated using discounted cash flow analyses based on current borrowing rates offered to the Company for debt of the same remaining maturities and the market value for senior notes at December 31, 2006 and 2007. As of December 31, 2006 and 2007, the carrying value of total debt is Ps. 110,575,001 and Ps.100,196,199, respectively. The fair value is Ps. 108,397,195 at December 31, 2006 and Ps. 100,757,845 at December 31, 2007.

### **Effects of Inflation Accounting on the U.S. GAAP Adjustments:**

To determine the net effect on the consolidated financial statements of recognizing the adjustments described above, it is necessary to recognize the effects of applying the Mexican FRS inflation accounting provisions (described in Note 2) to such adjustments. These effects are taken into consideration in the preparation of U.S. GAAP reconciliations of net income, operating income and equity.

### **SFAS 158 Employers accounting for defined benefit pension and other postretirement plans, an amendment of FASB Statements No. 87, 88, 106 and 132(R):**

SFAS 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans, an Amendment of FASB Statements Nos. 87, 88, 106 and 132(R), requires (1) recognition on the balance sheet of an asset for a defined benefit plan's over funded status or a liability for a plan's under funded status, (2) measurement of a defined benefit plan's assets and its obligations that determine its funded status as of the end of the employer's fiscal year, and (3) recognition of the changes in the funded status of a defined benefit postretirement plan as a component of other comprehensive income in the year the changes occur.

The requirement to recognize the funded status of a defined benefit plan and the disclosure requirements are effective for fiscal years ending after December 15, 2006.

**Table of Contents***Summary*

Net income, operating income and total stockholders' equity, adjusted to take into account the material differences between Mexican FRS and U.S. GAAP, are as follows:

	2005	Year ended December 31, 2006	2007
Net income before non-controlling interest as reported under Mexican FRS	Ps. 33,126,899	Ps. 44,509,465	<b>Ps. 58,697,333</b>

**Recent accounting pronouncements****Accounting for uncertainty in income taxes:**

The Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN48) as of January 1, 2007.

We establish reserves to remove some or all of the tax benefit of any of our tax positions at the time we determine that it becomes uncertain based upon one of the following conditions: (1) the tax position is not more likely than not to be sustained, (2) the tax position is more likely than not to be sustained, but for a lesser amount, or (3) the tax position is more likely than not to be sustained, but not in the financial period in which the tax position was originally taken.

For purposes of evaluating whether or not a tax position is uncertain, (1) we presume the tax position will be examined by the relevant taxing authority that has full knowledge of all relevant information, (2) the technical merits of a tax position are derived from authorities such as legislation and statutes, legislative intent, regulations, rulings and case law and their applicability to the facts and circumstances of the tax position, and (3) each tax position is evaluated without consideration of the possibility of offset or aggregation with other tax positions taken.

A number of years may elapse before a particular uncertain tax position is audited and finally resolved or when a tax assessment is raised. The number of years subject to tax assessments varies depending on the tax jurisdiction and is generally five years for the countries in which the Company principally operates. The tax benefit that has been previously reserved because of a failure to meet the more likely than not recognition threshold would be recognized in our income tax expense in the first period when the uncertainty disappears under any one of the following conditions: (1) the tax position is more likely than not to be sustained, (2) the tax position, amount, and/or timing is ultimately settled through negotiation or litigation, or (3) the statute of limitations for the relevant taxing authority to examine and challenge the tax position has expired.

---

## **Table of Contents**

The adoption of FIN 48 did not have a material impact on the Company's financial statements and did not result in a cumulative adjustment to retained earnings at adoption, because all uncertain tax positions not more likely than not to be sustained were reserved in prior years.

The Company has recorded a liability of Ps. 73,730 in accrued liabilities (including interest and monetary correction of Ps. 761) as of December 31, 2006. During the year ended December 31, 2007, the company only recorded additional interest of Ps. 23,836. The Company will continue to recognize interest and penalties on liabilities recorded for unrecognized tax benefits in interest expense.

### **EITF 06-3**

In June 2006, the EITF ratified the consensus on EITF Issue No. 06-3 (EITF 06-03), How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That is, Gross versus Net Presentation). EITF 06-03 concluded that the presentation of taxes assessed by a governmental authority that is directly imposed on a revenue-producing transaction between a seller and a customer, such as sales, use, value-added and certain excise taxes is an accounting policy decision that should be disclosed in a company's financial statements. In addition, companies that record such taxes on a gross basis should disclose the amounts of those taxes in interim and annual financial statements for each period for which an income statement is presented if those amounts are significant. EITF 06-03 is effective for interim and annual reporting periods beginning after December 15, 2006. The Company continued with its accounting policy of net presentation; therefore, the adoption of EITF 06-03 did not have any impact on our financial condition or results of operations.

A summary of the most important new pronouncements in U.S. GAAP that will come into force in 2008 or after and may apply to the Company is as follows:

### **Fair value measurement (FASB Statement 157):**

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurement. SFAS No. 157 defines fair value, establishes a framework for the measurement of fair value, and enhances disclosures about fair value measurements. The statement does not require any new fair value measures.

The statement is effective for fair value measures already required or permitted by other standards for fiscal years beginning after November 15, 2007. The Company is required to adopt SFAS No. 157 beginning on January 1, 2008. SFAS No. 157 is required to be applied prospectively, except for certain financial instruments. Any transition adjustment will be recognized as an adjustment to opening retained earnings in the year of adoption. The Company is currently evaluating the impact of adopting this standard on its consolidated results of operations and financial position.

### **Business Combinations (FASB Statement No. 141(R))**

On December 4, 2007, the Financial Accounting Standards Board (FASB) issued Statement No. 141 (R), Business Combinations (Statement 141 (R)). This new standard significantly changes the financial accounting and reporting of business combination transactions.

Current practice under Statement 141 involves accumulating costs of acquiring a target entity and allocating those costs to individual assets acquired and liabilities assumed.

In step acquisitions and partial acquisitions, this process generally results in recognizing the acquiree's assets and liabilities as a mixture of values at the acquisition date (or dates) and, to the extent of interest in the acquiree not held by the acquirer, historical carrying values (i.e. accounting bases established before the acquirer made its acquisition(s)). Those historical carrying values are attributed to the non-controlling interests (previously referred to as non-controlling interests) in the acquiree.

---

**Table of Contents**

Under Statement 141 (R) a business combination is treated as a transaction in which an entity (the acquirer) takes control of another entity (the target), the fair value of the underlying exchange transaction should be used to establish a new accounting basis of the acquired entity.

Furthermore, because obtaining control leaves the acquirer responsible and accountable for all of the acquiree's assets, liabilities, and operations, the acquirer should recognize and measure the fair value of the acquiree as a whole, and the assets acquired and liabilities assumed at their full fair values as of the date control is obtained, regardless of the percentage ownership in the acquiree or how the acquisition was achieved (e.g., a step acquisition, a single purchase resulting in control, or a change in control without a purchase of equity interests).

The most significant changes to business combination accounting pursuant to Statement 141 (R) include recognizing, with certain exceptions, 100% of the fair values of assets acquired, liabilities assumed, and non-controlling interests in acquisitions of less than a 100% controlling interest when the acquisition constitutes a change in control of the acquired entity; measuring acquirer shares in consideration for a business combination at fair value on the acquisition date; recognizing contingent consideration arrangements at their acquisition-date fair values, with subsequent changes in fair value generally reflected in earnings; with certain exceptions, recognizing preacquisition loss and gain contingencies at their acquisition-date fair values; capitalizing in-process research and development (IPR&D) assets acquired; expensing, as incurred, acquisition-related transaction costs; capitalizing acquisition-related restructuring costs only if the criteria in Statement 146 are met as of the acquisition date; and recognizing changes that result from a business combination transaction in an acquirer's existing income tax valuation allowances and tax uncertainty accruals as adjustments to income tax expense.

Statement 141 (R) is required to be adopted concurrently with Statement 160 and is effective for business combination transactions for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Early adoption is prohibited.

The Company is currently evaluating the effect of adopting this new standard.

**Accounting for Non-controlling Interests (FASB Statement No. 160)**

On December 4, 2007, the FASB issued Statement No. 160, Non-controlling Interests in Consolidated Financial Statements, an amendment of ARB No. 51 (Statement 160). This new standard did not change significantly the financial accounting and reporting of non-controlling (or minority) interests in consolidated financial statements.

Statement 160 defines a non-controlling interest as: The portion of the equity (residual interests) in a subsidiary attributable to the owners of the subsidiary other than the parent and the parent's associates .

In current U.S. GAAP, equity interests not held by the controlling shareholders are generally referred to as non-controlling interests.

In a significant change from current U.S. GAAP practice, Statement 160 requires that non-controlling interests in subsidiaries be reported as a component of equity in the consolidated statement of financial position. This contrasts with the prevailing practice of reporting non-controlling interests as a mezzanine item between liabilities and stockholder's equity. Statement 160 is based on an economic entity concept of consolidated financial statements.

In acknowledgement of the difference between non-controlling interests in consolidated subsidiaries and controlling interests in a consolidated group, Statement 160 requires the presentation of non-controlling interests and controlling interests as separate components of equity in the statement of financial position along with comprehensive disclosures about attributes and transactions pertaining to non-controlling interests.

## **Table of Contents**

Statement 160 requires that earnings attributed to the non-controlling interests be reported as part of consolidated earnings and not as a separate component of income or expense, and disclosure of the attribution of consolidated earnings to the controlling and non-controlling interests on the face of the consolidated income statement.

Statement 160 also amends FASB No. 128, Earnings per Share, to specify that earnings per share data in consolidated financial statements that include one or more partially-owned subsidiaries is calculated using only the amount of earnings attributable to the controlling interests.

Changes in a parent's controlling ownership interest that do not result in a loss of control of the subsidiary will now be treated as transactions among shareholders in the consolidated entity. These transactions include decreases or increases in a parent's controlling ownership interest in any subsidiary-issued security that is classified in accordance with GAAP as equity in the consolidated statement of financial position (e.g., common stock, preferred stock, etc.).

Under SFAS 160, when there is a decrease in ownership interest in a subsidiary, the carrying amount of the non-controlling interest should be increased to reflect the change in the non-controlling interest's ownership in the subsidiary's net assets. Any difference between consideration received and the adjustment made to the carrying amount of the non-controlling interest should be recognized directly in equity attributable to the controlling interest (i.e., as an adjustment to paid-in capital).

When an increase in ownership interest in a subsidiary occurs, the carrying amount of the non-controlling interest is adjusted to reflect the non-controlling interest's reduced ownership interest in the subsidiary's net assets.

Any difference between consideration paid by the parent to the non-controlling interest holders and the adjustment to the carrying amount of the non-controlling ownership interests in the subsidiary is recognized directly in equity attributable to the controlling interest (i.e., paid-in capital).

Statement 160 is effective for the first annual reporting period beginning on or after December 15, 2008, and earlier application is prohibited. Statement 160 is required to be adopted prospectively, except for the following provisions, which are required to be adopted retrospectively:

Reclassify non-controlling interests from the mezzanine to equity, separate from the parent's shareholders' equity in the consolidated statement of financial position.

Recast consolidated net income (loss) to include net income (loss) attributable to both the controlling and non-controlling interests. The Company is currently evaluating the effect of adopting this new standard.

### **The Fair Value Option for Financial Assets and Financial Liabilities, Including an amendment of FASB Statement No. 115 (FASB Statement No. 159)**

In February 2007, the Financial Accounting Standards Board (FASB or the Board) issued FASB Statement No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (the Statement or Statement 159). Statement 159 allows entities to voluntarily choose, at specified election dates, to measure many financial assets and financial liabilities (as well as certain nonfinancial instruments that are similar to financial instruments) at fair value (the fair value option, or FVO). The election is made on an instrument-by-instrument basis and is irrevocable. If the fair value option is elected for an instrument, the Statement specifies that all subsequent changes in fair value for that instrument shall be reported in earnings (or another performance indicator for entities such as not-for-profit organizations that do not report earnings).

## **Table of Contents**

The fair value option will mitigate some of the volatility in reported earnings that results from the use of different measurement attributes to account for financial assets and financial liabilities. By electing the fair value option, an entity can achieve consistent accounting for related assets and liabilities without having to apply complex hedge accounting provisions.

Statement 159 requires extensive disclosures whose primary objective is to facilitate comparison among entities that choose different measurement attributes for similar assets and liabilities, as well as, comparison of similar assets and liabilities for which an individual entity selects different measurement attributes.

The Statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007 (January 1, 2008 for the Company).

The effect of initial adoption will be accounted for as a cumulative-effect adjustment through beginning retained earnings.

For items existing at the effective date for which the fair value option is elected, the following disclosures should be provided:

A schedule that presents the pretax portion of the cumulative effect adjustment for items on that line.

The fair value at the effective date for items for which the FVO is elected.

The carrying amount of items immediately before electing FVO.

The net effect on the entity's deferred tax assets and liabilities of electing the FVO.  
The Company is currently evaluating the effect of adopting this new standard.

### **Definition of Settlement in FASB Interpretation No. 48 (FSP FIN 48-1)**

On May 2, 2007, the FASB issued FSP FIN 48-1, Definition of Settlement in FASB Interpretation 48 ( FSP FIN 48-1 ), which amends FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, to provide guidance on how an enterprise should determine whether a tax position is effectively settled for the purpose of recognizing previously unrecognized tax benefits. In the FSP, it was concluded that, for purposes of applying paragraph 10(b) of FIN 48, settlement has effectively occurred if the taxing authority has completed all of its required or expected examination procedures, the enterprise does not intend to appeal or litigate any aspect of the tax position, and it is considered remote that the taxing authority would reexamine the tax position. The FSP also includes guidance defining when a tax position is considered effectively settled through examination.

This FSP is to be applied upon the initial adoption of FIN 48. An enterprise that applied FIN 48 in a manner consistent with the provisions of this FSP would continue to apply the provisions in this FSP from the date of initial adoption on FIN 48. However, an enterprise that did not apply FIN 48 in a manner consistent with the provisions of this FSP is required to retrospectively apply the provisions in this FSP to the date of the initial adoption of FIN 48. The adoption of this FSP did not have a material impact on Company's results of operations and financial condition.

### **Amendment of FASB Interpretation No. 39 (FSP FIN 39-1)**

In April 2007, the FASB issued FASB Staff Position ( FSP ) FIN 39-1, which amends certain aspects of FASB Interpretation No. 39, Offsetting of Amounts Related to Certain Contracts an interpretation of APB Opinion No. 10 and FASB Statement No. 105 ( FSP FIN 39-1 ). FSP FIN 39-1 amends paragraph 10 of FIN 39 to permit a reporting entity to offset fair value amounts recognized for the right to reclaim cash collateral (a receivable) or the obligation to return cash collateral (a payable) against fair value amounts, including amounts that approximate fair value, recognized for derivative instruments executed with the same counterparty under the

**Table of Contents**

same master netting arrangement. Derivative instruments permitted to be netted for the purposes of the FSP include those instruments that meet the definition of a derivative in FASB Statement No. 133, Accounting for Derivative Financial Instruments and Hedging Activities, including those that are not included in the scope of Statement 133 (for example, a financial guarantee, weather derivatives, etc.). The decision to apply the guidance of the FSP FIN 39-1 is an accounting policy decision and should be consistently applied.

The FSP is effective for fiscal years beginning after November 15, 2007, with early application permitted. A reporting entity should recognize the effects of applying this FSP as a change in accounting principle through retrospective application for all financial statement presented. If it is impracticable to apply the guidance in this FSP retrospectively for all financial statements presented, the reporting entity should disclose why it is impracticable and apply the guidance in this FSP retrospectively for as many consecutive prior financial statements as practicable. Upon adoption of this FSP, a reporting entity is permitted to change its accounting policy to offset or not offset fair value amounts recognized for derivative instruments under master netting arrangements.

**Table of Contents****23. Supplemental Guarantor Information**

As mentioned in Note 14, the Company has issued senior notes in the United States. These notes are fully and unconditionally guaranteed by Telcel.

**Consolidating Condensed Financial Information**

The following consolidating information presents condensed consolidating balance sheets as of December 31, 2006 and 2007 and condensed consolidating statements of income and cash flows for each of the three years in the period ended December 31, 2007 of the Company and Telcel (The wholly-owned Guarantor Subsidiary ). These statements are prepared in accordance with Mexican FRS with the exception that the subsidiaries are accounted for as investments under the equity method rather than being consolidated. The guarantees of the Guarantor are full and unconditional. The significant differences between Mexican FRS and U.S. GAAP as they affect the Guarantor are set out below.

The Company's consolidating condensed financial information for the (i) Company; (ii) its wholly-owned subsidiary Telcel (on stand alone basis), which is a wholly and unconditional guarantor under the Senior Notes; (iii) the combined non-guarantor subsidiaries; iv) eliminations and v) the Company's consolidated financial statements are as follows:
