In accordance with Article o), Section 63 of the above referred rules, the Company informed that as of December 31, 2007, the authorized capital of the Company is Ps. 578,676,460. Its share composition is divided into 578,676,460 of registered common shares face value Ps. 1 each, and with one vote each, which are not held by controlling shareholders or groups.

The Company's principal shareholder is Cresud S.A.C.I.F. y A. with 312,529,443, shares, which represent 54.0% of the issued and outstanding capital.

As of December 31, 2008, without taking into account Cresud's holding, the amount of 266,147,017 common stock of face value Ps. 1 each and 1 vote each are held by the rest of the shareholders. Such amount of shares represents 46.0% of the issued authorized outstanding capital.

As of December 31, 2008, there are no outstanding warrants or Convertible Notes to acquire the Company's shares.

Below is an outline of the highlights of this period:

IRSA's results for the first six months reflect mainly the impact of the financial market's volatility on the consumer finance business, on the financial results derived from fluctuations in the exchange rate applied for valuing our stock of debt and on the results from our related company Banco Hipotecario S.A. caused by the lower valuation of its financial asset portfolio. The real estate operating segments remained healthy during the first six months of the fiscal year, showing good cash generation levels.

Our revenues rose by 9.0% for the first six months of this fiscal year compared to the same period of the previous year. Excluding the effect of the consumer finance segment, revenues from our real estate segments increased 17.1%.

The share of the various segments in net revenues was as follows: sales and developments increased 1.1% to Ps.63.7 million, offices and other rental properties increased 55.7% to Ps.69.8 million, shopping centers increased 13.2% to Ps.195.3 million, hotels increased 15.8% to Ps.88.0 million, consumer finance decreased 11.7% to Ps.123.6 million, and financial operations and others recorded revenues of Ps.1.1 million.

Operating income decreased by 65.5% to Ps.48.9 million, mainly due to the losses recorded in the consumer finance segment. Excluding the effect of the consumer finance segment, the operating income from the real estate segments increased 24.7% on average, to Ps.159.6 million.

Occupancy at our shopping centers has remained at high levels (98.4%). We expect to conclude the development of the PAMSA Project soon and to start up operations in the shopping center -that has been given the name Dot Baires- in the last quarter of this fiscal year. This project has aroused a high degree of acceptance among tenants, and we believe it will add substantial value to our portfolio.

The office segment continued to show good levels of income and cash flow generation. We are making progress in the marketing of the leaseable area in Edificio República, whose occupancy rate is almost two thirds of its area. We have completed the construction of 11,000 square meters of gross leaseable area in Dique IV in Puerto Madero, and we are holding negotiations with prospects for their imminent lease. As part of our portfolio management strategy, we have also sold certain lease office properties that we consider non-strategic.

Sales and Developments: IRSA-Cyrela is making progress in the construction of the Horizons project in Vicente López, that was successfully sold in 2008. IRSA has put for sale the units received under the barter agreement relating to the Caballito Nuevo project. We are evaluating the execution times of various future projects through IRSA-Cyrela.

In the second quarter of the fiscal year we provided financial assistance to our subsidiary Tarshop S.A. for Ps.105 million, under an approved plan of up to Ps.120 million, in addition to the Ps. 60 million capitalized in September 2008. The loan proceeds have been recorded as irrevocable capital contributions on account of future capital increases. This aid will provide Tarshop S.A. with a broader capital base to gear with the current market conditions, and is being accompanied by actions aimed at improving its operations and business performance.
