Annual Report to Shareholders

Management's Discussion of Fund Performance

Fund Performance

Total return on net asset value (NAV^A) measures investment performance in terms of appreciation or depreciation in NAV per share, plus dividends and any capital gain distributions. Total return on market value measures investment performance in terms of appreciation or depreciation in market price per share, plus dividends and any capital gain distributions. Total returns for the Fund for various periods ended December 31, 2008 are presented below, along with those of comparative indices:

	Average Annual Total Returns		
	One Year	Five Years	Ten Years
Total Fund Investment Return Based on:			
Net Asset Value	-24.05%	-1.51%	3.32%
Market Value	-15.82%	0.10%	3.48%
Barclays Capital U.S. Corporate High Yield Index ^B	-26.16%	-0.80%	2.17%
Barclays Capital U.S. Credit Index ^C	-3.08%	2.65%	4.85%
Lipper Corporate Debt Closed-End Funds BBB Rated Category Average ^D	-13.29%	-0.86%	4.13%

The performance data quoted represent past performance and do not guarantee future results. Current performance may be lower or higher than the performance data quoted. The investment return and principal value of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than the original cost. Calculations assume reinvestment of dividends and capital gain distributions.

For the 12 months ended December 31, 2008, Western Asset Income Fund returned -24.05% based on its NAV and -15.82% based on its New York Stock Exchange (NYSE) market price per share. The Lipper Corporate Debt Closed-End Funds BBB Rated Category Average returned -13.29% over the same time frame. Please note that Lipper performance returns are based on each fund's NAV.

During the 12-month period, the Fund made distributions to common shareholders totaling \$0.98 per share.

Issue selection had a negative impact on relative performance, due in large part to 17 of the portfolio's 20 largest overweights underperforming. Sub-sector allocation also had a negative impact on relative performance, due in large part to the portfolio's overweights in Basic Industry, Financials and Energy, which returned -10.07%, -8.37% and -5.84%, respectively, as well as underweights to Non-Corporates, Consumer Noncyclicals and Capital Goods, which returned 6.68%, 4.12% and -1.27%, respectively. In addition, credit quality allocation had a negative impact on relative performance. This was due to the portfolio's overweight to BBB-rated issues, which returned -8.67% and an underweight to AAA-rated issues, which returned 8.15%.

Western Asset Management Company

Edgar Filing: Western Asset Income Fund - Form N-CSR

January 20, 2009

- ^A *Net asset value (NAV) is calculated by subtracting total liabilities and outstanding preferred stock (if any) from the closing value of all securities held by the Fund (plus all other assets) and dividing the result (total net assets) by the total number of the common shares outstanding. The NAV fluctuates with changes in the market prices of securities in which the Fund has invested. However, the price at which an investor may buy or sell shares of the Fund is the Fund 's market price as determined by supply of and demand for the Fund 's shares.*
- ^B *The Barclays Capital (formerly Lehman Brothers) U.S. Corporate High Yield Index covers the universe of fixed-rate, non-investment grade debt, including corporate and non-corporate sectors. Pay-in-kind (PIK) bonds, Eurobonds and debt issues from countries designated as emerging markets are excluded, but Canadian and global bonds (SEC registered) of issuers in non-emerging market countries are included. Original issue zero coupon bonds, step-up coupon structures and 144-As are also included.*
- ^C *The Barclays Capital (formerly Lehman Brothers) U.S. Credit Index is an index composed of corporate and non-corporate debt issues that are investment grade (rated Baa3/BBB- or higher).*
- ^D *Lipper, Inc., a wholly-owned subsidiary of Reuters, provides independent insight on global collective investments. The Lipper Corporate Debt Closed-End Funds BBB Rated Category Average is comprised of the Fund 's peer group of mutual funds.*

Long-Term Capital Gains	\$423,005	\$1,504,189
Per Share	\$0.04	\$0.16

The Fund

Western Asset Income Fund (the Fund) is a closed-end, diversified management investment company which seeks for its shareholders a high level of current income through investment in a diversified portfolio of debt securities. Substantially all of the Fund's net investment income is distributed to its shareholders. A Dividend Reinvestment Plan is available to those shareholders of record desiring it. The Fund's common shares are listed on the New York Stock Exchange (NYSE) where they trade under the symbol PAI, and price quotations can be found in publications under the abbreviation WstAssetIncoFd.

Certain Investment Policies

The Fund's investment policies provide that its portfolio must be invested as follows:

At least 75% in debt securities rated within the four highest grades, and in government securities, bank debt, commercial paper, cash or cash equivalents.

Up to 25% in other fixed income securities, convertible bonds, convertible preferred and preferred stock.

Not more than 25% in securities restricted as to resale.

The Fund is operated by a person who has claimed an exclusion from the definition of the term commodity pool operator under the Commodity Exchange Act (the CEA), and, therefore, such person is not subject to registration or regulation as a pool operator under the CEA.

Dividend Reinvestment Plan and Optional Cash Investment Service

The Fund and American Stock Transfer and Trust Company LLC (Agent), as the Transfer Agent (previously Computershare Trust Company N.A.) and Registrar of the Fund, offer two convenient ways to add shares of the Fund to your account. First, the Fund offers to all shareholders a Dividend Reinvestment Plan (Plan). Under the Plan, cash distributions (e.g., dividends and capital gains) of registered shareholders (those who own shares in their own name on the Fund's records) are automatically invested in shares of the Fund unless the shareholder elects otherwise by

Edgar Filing: Western Asset Income Fund - Form N-CSR

contacting the agent at the address set forth on the next page. Shareholders who own shares in a brokerage, bank, or other financial institution account must contact the Company where their account is held in order to participate in the Plan. Second, the Fund offers to registered shareholders the option to purchase additional whole and partial shares of the Fund through the Optional Cash Investment Service (Optional Cash Investment Service).

Dividend Reinvestment Plan

As a participant in the Dividend Reinvestment Plan, you will automatically receive your dividend or net capital gains distribution in newly issued shares of the Fund if the market price of a share on the date of the distribution is at or above the net asset value (NAV) of a Fund share, minus estimated brokerage commissions that would be incurred upon the purchase of Fund shares on the open market. The number of shares to be issued to you will be determined by dividing the amount of the cash distribution to which you are entitled (net of any applicable withholding taxes) by the greater of the NAV per share on such date or 95% of the market price of a share on such date. If the market price of a share on such distribution date is below the NAV, minus estimated brokerage commissions that would be incurred upon the purchase of Fund shares on the open market, the Agent

Annual Report to Shareholders

will, as agent for the participants, buy shares of the Fund's stock through a broker on the open market. The price per share of shares purchased for each participant's account with respect to a particular dividend or other distribution will be the average price (including brokerage commissions, transfer taxes and any other costs of purchase) of all shares purchased with respect to that dividend or other distribution. All shares of common stock acquired on your behalf through the Plan will be automatically credited to an account maintained on the books of the Agent. Full and fractional shares will be voted by the Agent in accordance with your instructions.

Optional Cash Investment Service

Under the Optional Cash Investment Service (offered to registered shareholders only), funds received from shareholders for stock purchases will be pooled once per month. The Agent will then purchase shares of the Fund's stock through a broker on the open market. For the purposes of making purchases, the Agent will commingle each participant's funds with those of all other participants in the Plan. The Agent will hold the total shares purchased for all participants in its name or the name of its nominee and will have no responsibility for the value of such shares after their purchase.

Beneficial shareholders (those who own shares held in a brokerage, bank or other financial institution account) are not eligible to participate in this option. A beneficial shareholder may, however, have his or her shares taken out of street name and re-register such shares in his or her own name, becoming a registered shareholder in order to participate. If you wish to do so, please contact your broker, bank or nominee.

Additional Information Regarding the Plan and the Optional Cash Investment Service

The Fund will pay all costs applicable to the Plan and Optional Cash Investment Service, with the exceptions noted below. Brokerage commissions, transfer taxes and any other costs of purchase or sale by the Agent under the Plan or Optional Cash Investment Service will be charged to participants. In the event the Fund determines to no longer pay the costs applicable to the Plan and Optional Cash Service, the Agent will terminate the Plan and Optional Cash Investment Service and may, but is not obligated to, offer a new plan under which it would impose a direct service charge on participants.

All shares acquired through the Plan or the Optional Cash Investment Service receive voting rights and are eligible for any stock split, stock dividend, or other rights accruing to shareholders that the Board of Directors may declare.

You may terminate participation in the Plan or the Optional Cash Investment Service at any time by giving written notice to the Agent. Such termination will be effective prior to the record date next succeeding the receipt of such instructions or by a later date of termination specified in such instructions. Upon termination, a participant may request a certificate for the full shares credited to his or her account or may request the sale of all or part of such shares. If the participant instructs the Agent to sell the shares credited to the participant's account, the Agent may accumulate such shares and those of any other terminating participants for purposes of such sale. Brokerage charges, transfer taxes, and any other costs of sale will be allocated pro rata among the selling participants. Any such sale may be made on any securities exchange where such shares are traded, in the over-the-counter market or in negotiated transactions, and may be subject to such terms of price, delivery, etc., as the Agent may agree to. Fractional shares credited to a terminating account will be paid for in cash at the current market price at the time of termination.

Dividends and other distributions invested in additional shares under the Plan are subject to income tax just as if they had been received in cash. After year end, dividends paid on the accumulated shares will be included in the Form 1099-DIV information return to the Internal Revenue

Edgar Filing: Western Asset Income Fund - Form N-CSR

Service and only one Form 1099-DIV will be sent to each participant each year.

Inquiries regarding the Plan and the Optional Cash Investment Service, as well as notices of termination, should be directed to American Stock Transfer and Trust Company LLC, P.O. Box 922, Wall Street Station, New York, N.Y. 10269-0560 Investor Relations, telephone number (888)-888-0151.

Schedule of Portfolio Holdings

The Fund files a complete schedule of its portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q as well as in its semi-annual report to shareholders. You may obtain a free copy of the Fund's Form N-Q by writing to the Fund, or you may obtain a copy of this report (and other information relating to the Fund) from the Securities and Exchange

Annual Report to Shareholders

Fund Highlights Continued

Commission's (SEC) website (<http://www.sec.gov>). Additionally, the Fund's Form N-Q can be viewed or copied at the SEC's Public Reference Room in Washington D.C. Information about the operation of the Public Reference Room can be obtained by calling 1-202-551-8090.

Annual Certifications

In May 2008, the Fund submitted its annual CEO certification to the NYSE in which the Fund's principal executive officer certified that he was not aware, as of the date of the certification, of any violation by the Fund of the NYSE's Corporate Governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Fund's principal executive and principal financial officers have made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q, relating to, among other things, the Fund's disclosure controls and procedures and internal control over financial reporting.

Proxy Voting

You may request a free description of the policies and procedures that the Fund uses to determine how proxies relating to the Fund's portfolio securities are voted by writing to the Fund, or you may obtain a copy of these policies and procedures (and other information regarding the Fund) from the SEC's website (<http://www.sec.gov>). You may request a free report regarding how the Fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 by writing to the Fund, or you may obtain a copy of this report (and other information relating to the Fund) from the SEC's website (<http://www.sec.gov>).

Quarterly Comparison of Market Price and Net Asset Value ("NAV"), Discount or Premium to NAV and Average Daily Volume of Shares Traded

	Market Price	Net Asset Value	Premium/ (Discount)	Average Daily Volume
March 31, 2008	\$ 13.25	\$ 14.34	(7.60)%	17,005
June 30, 2008	13.14	14.19	(7.40)%	14,888
September 30, 2008	10.29	12.12	(15.10)%	19,053
December 31, 2008	10.49	10.66	(1.59)%	31,249

Notice to Shareholders

Effective October 24, 2008, the Fund implemented new investment policies under which it is able to enter into and hold interest rate futures contracts, write listed covered call options, and buy and sell put and call options on debt securities. These new policies are intended to broaden the Fund's investment opportunities and to provide the Fund's investment adviser, Western Asset Management Company, with additional flexibility to address market developments.

* * * * *

Additional Information about interest rate futures contracts, options on debt securities, and related risks

The Fund may engage in a variety of transactions using derivatives, such as futures and options. Derivatives are financial instruments whose value depends upon, or is derived from, the value of something else, such as one or more underlying investments, indexes or currencies. Derivatives may be traded on organized exchanges, or in individually negotiated transactions with other parties (these are known as over-the-counter derivatives). The Fund may use derivatives both for hedging and non-hedging purposes, including for purposes of enhancing returns. Although the Fund's investment adviser has the flexibility to make use of certain derivatives, it may choose not to for a variety of reasons, even under very volatile market conditions. Derivatives involve special risks and costs and may result in losses to the Fund. The successful use of derivatives requires sophisticated management, and, to the extent that derivatives are used, the Fund will depend on the Adviser's ability to analyze and manage derivative transactions. The prices of derivatives may move in unexpected ways, especially in abnormal market conditions. Some derivatives are leveraged and therefore may magnify or otherwise increase investment losses to the Fund. The Fund's use of derivatives may also increase the amount of taxes payable by shareholders. Other risks arise from the potential inability to termi-

Annual Report to Shareholders

nate or sell derivative positions. A liquid secondary market may not always exist for the Fund's derivatives positions at any time. In fact, many over-the-counter derivative instruments will not have liquidity beyond the counterparty to the instrument. Over-the-counter derivative instruments also involve the risk that the other party will not meet its obligations to the Fund.

The policies of the Fund put certain restrictions on the Fund's ability to engage in these transactions. For example, the Fund may write listed covered call options and buy and sell put and call options on debt securities in an amount not to exceed 15% of the value of its total assets. Additionally, the Fund will only enter into and hold interest rate futures contract, if, immediately thereafter, the sum of (a) the then aggregate futures market prices of financial instruments required to be delivered under open futures contracts sales of the Fund and (b) the aggregate purchase prices under open futures contract purchases of the Fund, would not exceed 30% of the total assets of the Fund, at market value.

Annual Report to Shareholders

Portfolio Diversification

December 31, 2008^A

The pie and bar charts above represent the composition of the Fund's portfolio as of December 31, 2008.

^A *The Fund is actively managed. As a result, the composition of its portfolio holdings and sectors is subject to change at any time.*

^B *Standard & Poor's Ratings Services provide capital markets with credit ratings for the evaluation and assessment of credit risk.*

^C *Yankee Bond A dollar-denominated bond issued in the U.S. by foreign entities.*

N.M. Not Meaningful.

- ^A *Rule 144a Security* A security purchased pursuant to Rule 144a under the Securities Act of 1933 which may not be resold subject to that rule except to qualified institutional buyers. These securities, which the Fund's investment adviser has determined to be liquid, represent 16.66% of net assets.
- ^B *Indexed Security* The rates of interest earned on these securities are tied to the London Interbank Offered Rate (LIBOR), the Euro Interbank Offered Rate (EURIBOR) Index, the Consumer Price Index (CPI), the one-year Treasury Bill Rate or the ten-year Japanese Government Bond Rate. The coupon rates are the rates as of December 31, 2008.
- ^C *Stepped Coupon Security* A security with a predetermined schedule of interest or dividend rate changes at which time it begins to accrue interest or pay dividends according to the predetermined schedule.
- ^D *Bond is currently in default.*
- ^E *Credit Linked Security* The rates of interest earned on these securities are tied to the credit rating assigned by Standard & Poor's Rating Service and/or Moody's Investors Services.
- ^F *Illiquid security valued at fair value under the procedures approved by the Board of Directors.*
- ^G *The coupon rates shown on variable rate securities are the rates at December 31, 2008. These rates vary with the weighted average coupon of the underlying loans.*
- ^H *On September 7, 2008, the Federal Housing Finance Agency placed Fannie Mae and Freddie Mac into Conservatorship.*
- ^I *Yankee Bond* A dollar-denominated bond issued in the U.S. by foreign entities.
- ^J *Non-income producing.*
- ^K *At December 31, 2008, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:*

Gross unrealized appreciation	\$ 1,652,362
Gross unrealized depreciation	(41,058,521)
Net unrealized depreciation	\$ (39,406,159)

^B Total expenses reflects operating expenses prior to any voluntary expense waivers and/or compensating balance credits. Expenses net of waivers reflects total expenses before compensating balance credits but net of any voluntary expense waivers. Expenses net of all reductions reflects expenses less any compensating balance credits and/or voluntary expense waivers.

See notes to financial statements.

Annual Report to Shareholders

Notes to Financial Statements

1. Significant Accounting Policies:

Western Asset Income Fund (the Fund) is registered under the Investment Company Act of 1940, as amended (1940 Act), as a closed-end diversified investment company.

The Fund's primary investment objective is to provide current income for its shareholders. Capital appreciation, when consistent with current income, is a secondary investment objective.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements:

Investment Valuation

The Fund's securities are valued under policies approved by and under the general oversight of the Board of Directors. Effective January 1, 2008, the Fund adopted Statement of Financial Accounting Standards No. 157 (FAS 157). FAS 157 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Fund's investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Debt securities are valued at the last quoted bid prices provided by an independent pricing service that are based on transactions in debt obligations, quotations from bond dealers, market transactions in comparable securities and various other relationships between securities. Equity securities for which market quotations are available are valued at the last sale price or official closing price on the primary market or exchange on which they trade. When prices are not readily available, or are determined not to reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund may value these securities at fair value as determined in accordance with the procedures approved by the Fund's Board of Directors.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets carried at fair value:

Edgar Filing: Western Asset Income Fund - Form N-CSR

	December 31, 2008	Quoted Prices (Level 1)	Other Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments in Securities	\$ 96,829,441	\$ 47,473	\$ 96,744,768	\$ 37,200

Annual Report to Shareholders

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value:

	Investments in Securities
Balance as of December 31, 2007	\$
Net purchases (sales)	519,225
Accrued Premiums/Discounts	8,522
Realized Gain (Loss)	
Change in unrealized appreciation (depreciation)	(490,547)
Transfers in and/or out of Level 3	
Balance as of December 31, 2008	\$ 37,200

Security Transactions

Security transactions are accounted for as of the trade date. Realized gains and losses from security transactions are reported on an identified cost basis for both financial reporting and federal income tax purposes.

For the year ended December 31, 2008, security transactions (excluding short-term investments) were as follows:

Purchases		Proceeds From Sales	
U.S. Gov t Securities	Other	U.S. Gov t Securities	Other
\$539,544	\$ 24,040,208	\$ 269,204	\$ 20,517,093

Foreign Currency Translation

Assets and liabilities initially expressed in non-U.S. currencies are translated into U.S. dollars using currency exchange rates determined prior to the close of trading on the New York Stock Exchange, usually at 2:00 p.m. Eastern time. Purchases and sales of securities and income and expenses are translated into U.S. dollars at the prevailing market rates on the dates of such transactions. The effects of changes in non-U.S. currency exchange rates on investment securities and other assets and liabilities are included with the net realized and unrealized gain or loss on investment securities.

Repurchase Agreements

The Fund may enter into repurchase agreements with institutions that its investment adviser has determined are creditworthy. Each repurchase agreement is recorded at cost. Under the terms of a typical repurchase agreement, a fund takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and of the fund to resell, the obligation at an agreed-upon price and time, thereby determining the yield during a fund's holding period. When entering into repurchase agreements, it is the Fund's policy that its custodian acting on the fund's behalf, or a third party custodian take possession of the underlying collateral securities, the market value of which, at all times, at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business

Edgar Filing: Western Asset Income Fund - Form N-CSR

day, the value of the collateral is marked to market to ensure the adequacy of the collateral. If the counterparty defaults, the Fund generally has the right to use the collateral to satisfy the terms of the repurchase transaction. However, if the market value of the collateral declines during the period in which the Fund seeks to assert its rights or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

Distributions to Common Shareholders

Investment income and distributions to shareholders are recorded on the ex-dividend date. Dividends from net investment income are declared and paid monthly. Net capital gain distributions are declared and paid after the end of the tax year in which the gain is realized. An additional distribution may be made in December to the extent necessary in order to comply with federal excise tax requirements. Distributions are determined in accordance with federal income tax regulations, which may differ from those determined in accordance with accounting principles generally accepted in the United States of America; accordingly, periodic reclassifications are made within the Fund's capital accounts to reflect income and gains available for distribution under federal income tax regulations. Interest income and expenses are recorded on the accrual basis. Bond discounts and premiums are amortized and included in interest income for financial reporting and federal income tax purposes.

Annual Report to Shareholders

Notes to Financial Statements Continued

Compensating Balance Credits

The Fund has an arrangement with its custodian bank, whereby a portion of the custodian's fee is paid indirectly by credits earned on the Fund's cash on deposit with the bank. This deposit arrangement is an alternative to purchasing overnight investments.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

Credit and Market Risk

Investments in structured securities collateralized by residential real estate mortgages are subject to certain credit and liquidity risks. When market conditions result in an increase in default rates of the underlying mortgages and the foreclosure values of underlying real estate properties are materially below the outstanding amount of these underlying mortgages, collection of accrued interest and principal on these investments may be doubtful. Such market conditions may significantly impair the value of these investments resulting in a lack of correlation between their credit ratings and values.

Other

In the normal course of business, the Fund enters into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent upon claims that may be made against the Fund in the future and, therefore, cannot be estimated; however, based on experience, the risk of material loss from such claims is considered remote.

2. Federal Income Taxes:

It is the Fund's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, the Fund intends to distribute substantially all of its income and net realized gains on investments, if any, to shareholders each year. Therefore, no federal income tax provision is required in the Fund's financial statements.

Management has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years and has concluded that as of December 31, 2008 no provision for income tax would be required in the Fund's financial statements. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

Reclassifications:

Edgar Filing: Western Asset Income Fund - Form N-CSR

Generally accepted accounting principles (GAAP) require that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share. During the current year, the Fund had no reclassifications.

Distributions to Shareholders:

The tax character of distributions paid during the fiscal years ended December 31, was as follows:

	2008	2007
Distributions paid from:		
Ordinary Income	\$ 8,839,304	\$ 9,076,779
Net Long-term Capital Gains	386,757	1,413,109
Total Distributions Paid	\$ 9,226,061	\$ 10,489,888

Annual Report to Shareholders

Accumulated Earnings on a Tax Basis:

As of December 31, 2008, the components of accumulated earnings on a tax basis were as follows:

Undistributed ordinary income net	\$ 1,096,139
Capital loss carryforward (*)	(676,492)
Other book/tax temporary differences ^(a)	(2,899,247)
Unrealized appreciation/(depreciation) ^(b)	(39,406,159)
Total accumulated earnings/(losses) - net	\$ (41,885,759)

(*) As of December 31, 2008, the Fund had the following net capital loss carryforward remaining:

	Year of Expiration	Amount
	12/31/2016	\$ (676,492)

This amount will be available to offset any future taxable capital gains.

^(a) Other book/tax temporary differences are attributable primarily to the deferral of post-October capital losses for tax purposes, interest accrued for tax purposes on defaulted securities and book/tax differences in the timing of the deductibility of various expenses.

^(b) The difference between book-basis and tax-basis unrealized appreciation / (depreciation) is attributable primarily to the tax deferral of losses on wash sales and book/tax differences on the treatment of losses on certain securities.

Tax Cost of Investments:

As of December 31, 2008, the aggregate cost of investments for federal tax purposes was \$136,235,600.

3. Forward Currency Exchange Contracts:

Forward foreign currency contracts are marked-to-market daily using forward foreign currency exchange rates supplied by an independent pricing service. The change in a contract's market value is recorded by the Fund as an unrealized gain or loss. When the contract is closed or delivery is taken, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

The use of forward foreign currency contracts does not eliminate fluctuations in the underlying prices of the Fund's securities, but it does establish a rate of exchange that can be achieved in the future. These forward foreign currency contracts involve market risk in excess of amounts reflected in the financial statements. Although forward foreign currency contracts used for hedging purposes limit the risk of loss due to a decline in the value of the hedged currency, they also limit any potential gain that might result should the value of the currency increase. In

Edgar Filing: Western Asset Income Fund - Form N-CSR

addition, the Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts.

At December 31, 2008, the Fund had no open forward foreign currency exchange contracts.

4. Common Shares:

Of the 9,389,431 shares of common stock outstanding at December 31, 2008, the Adviser owns 213,100 shares.

5. Securities Lending:

The Fund may lend its securities to approved brokers to earn additional income and receives cash and U.S. government securities as collateral against the loans. Cash collateral received is invested in a money market pooled account by the Fund's lending agent. Collateral is maintained over the life of the loan in an amount not less than 100% of the value of loaned securities. Such collateral is in the possession of the Fund's custodian. Cash is invested in the State Street Navigator Securities Lending Prime Portfolio and is included in the Fund's Portfolio of Investments. As with other extensions of credit, the Fund may bear the risk of delay in recovery or even loss of rights to the collateral should the borrower of the securities fail financially. As of the year ended December 31, 2008, there were no securities on loan.

As of the close of business on September 18, 2008, Lehman Brothers Holding Inc. was in default of the security lending agreement with the Fund. As a result, State Street Corporation, as Securities Lending Agent, took possession of the collateral and

Annual Report to Shareholders

Notes to Financial Statements Continued

repurchased some of the securities in the Fund through open market purchases. Under Statement of Financial Accounting Standards No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (FAS 140), the criteria for sales accounting have been met. As a result of recording the sale of the original securities out on loan at market value and the repurchase of the securities into the Fund at replacement value, the Fund had realized losses of \$81,805, which did not have a material impact on the financial statements or net asset value of the Fund.

6. Transactions with Affiliates and Certain Other Parties:

The Fund has entered into an Investment Advisory Agreement with Western Asset Management Company (Adviser), which is a wholly owned subsidiary of Legg Mason, Inc., pursuant to which the Adviser provides investment advice and administrative services to the Fund. In return for its services, the Fund pays the Adviser a monthly fee at an annual rate of 0.70% of the average monthly net assets of the Fund up to \$60,000,000 and 0.40% of such net assets in excess of \$60,000,000. If expenses (including the Adviser's fee but excluding interest, taxes, brokerage fees, the expenses of any offering by the Fund of its securities, and extraordinary expenses beyond the control of the Fund) borne by the Fund in any fiscal year exceed 1.5% of average net assets up to \$30,000,000 and 1% of average net assets over \$30,000,000 the Adviser has contractually agreed to reimburse the Fund for any excess.

The Adviser voluntarily waived expenses amounting to \$24,000 for the year ended December 31, 2008.

Western Asset Management Company Limited (WAML) provides the Fund with investment research, advice, management and supervision and a continuous investment program for the Fund's portfolio of non-dollar securities consistent with the Fund's investment objectives and policies. As compensation, the Adviser pays WAML a fee based on the pro rata assets of the Fund managed by WAML during the month.

Under the terms of an Administrative Services Agreement among the Fund, the Adviser, and Legg Mason Fund Adviser, Inc. (Administrator), the Adviser (not the Fund) pays the Administrator a monthly fee of \$3,000, an annual rate of \$36,000.

7. Director Compensation:

Each Director of the Fund who is not an interested person (as defined in the 1940 Act) of the Fund, Western Asset or WAML receives an aggregate fee of \$70,000 annually for serving on the combined Board of Directors/Trustees of the Fund, Western Asset Funds, Inc. and Western Asset Premier Bond Fund. Each Director also receives a fee of \$7,500 and related expenses for each meeting of the Board or of a committee attended in-person and a fee of \$2,500 for participating in each telephonic meeting. The Chairman of the Board and the Chairman of the Audit Committee each receive an additional \$25,000 per year for serving in such capacities. Each member of the Audit Committee receives a fee of \$6,000 for serving as a member of the Audit Committee. Other committee members receive a fee of \$3,000 for serving as a member of each committee upon which they serve. All such fees are allocated among the Fund, Western Asset Funds, Inc. and Western Asset Premier Bond Fund according to each such investment company's average annual net assets. Director Ronald Olson receives from Western Asset an aggregate fee of \$70,000 annually for serving on the combined Board of Directors/Trustees of the Fund, Western Asset Funds, Inc. and Western Asset Premier Bond Fund, as well as a fee of \$7,500 and related expenses for each meeting of the Board attended in person and a fee of \$2,500 for participating in each telephonic meeting.

8. Recent Accounting Pronouncements:

In March 2008, the FASB issued the Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (FAS 161). FAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. FAS 161 requires enhanced disclosures about the Fund's derivative and hedging activities, including how such activities are accounted for and their effect on the Fund's financial position, performance and cash flows. Management is currently evaluating the impact the adoption of FAS 161 will have on the Fund's financial statements and related disclosures.

Annual Report to Shareholders

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of Western Asset Income Fund:

In our opinion, the accompanying statement of assets and liabilities, including the portfolio of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Western Asset Income Fund (the Fund) at December 31, 2008, the results of its operations, the changes in its net assets, and the financial highlights for each of the periods presented, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements) are the responsibility of the Fund s management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2008 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

^(A) Each officer holds office until his or her respective successor is chosen and qualified, or in each case until he or she sooner dies, resigns, is removed with or without cause or becomes disqualified. Each of the Directors of the Fund holds office until his or her successor shall have been duly elected and shall qualify, subject to prior death, resignation, retirement, disqualification or removal from office and applicable law and the rules of the New York Stock Exchange.

^(B) Each Director also serves as a Trustee of Western Asset Premier Bond Fund (closed-end investment company) and as a Director of Western Asset Funds, Inc. (open-end investment company), which are considered part of the same Fund Complex as the Fund. In addition, Mr. Gerken serves as Director/Trustee to 159 other portfolios associated with Legg Mason & Co., LLC or its affiliates. Legg Mason & Co., LLC is an affiliate of the Adviser.

^(C) Mr. Gerken is an interested person (as defined in section 2(a)(19) of the Investment Company Act of 1940, as amended (the "1940 Act")) of the Fund because of his positions with subsidiaries of, and ownership of shares of common stock of, Legg Mason, Inc., the parent company of the Adviser.

^(D) Mr. Olson is an interested person (as defined above) of the Fund because his law firm has provided legal services to the Adviser.

^(E) Each officer of the Fund is an interested person (as defined above) of the Fund.

Annual Report to Shareholders

Board Consideration of the Investment Advisory and Subadvisory Agreements

The Executive and Contracts Committee of the Board of Directors considered the Investment Advisory Agreement (the *Advisory Agreement*) between the Fund and Western Asset Management Company (*Western Asset*) and the Investment Subadvisory Agreement (together with the *Advisory Agreement*, the *Agreements*) between Western Asset Management Company and Western Asset Management Company Limited (*WAML*) with respect to the Fund at meetings held on September 9, 2008 and October 17, 2008. At a meeting held on November 18, 2008, the Executive and Contracts Committee reported to the full Board of Directors its considerations with respect to the *Agreements*, and the Board of Directors, including a majority of the Independent Directors, considered and approved renewal of the *Agreements*.

In arriving at their decision to renew the *Agreements*, the Directors met with representatives of Western Asset and WAML (together, the *Advisers*), including relevant investment advisory personnel; reviewed a variety of information prepared by the *Advisers* and materials provided by Lipper Inc. (*Lipper*) and counsel to the Independent Directors; and reviewed performance and expense information for peer groups of comparable funds selected and prepared by Lipper. These reviews were in addition to information obtained by the Directors at their regular quarterly meetings with respect to the Fund's performance and other relevant matters, such as information on differences between the Fund's share price and net asset value per share, and related discussions with the *Advisers'* personnel.

As part of their review, the Directors examined the *Advisers'* ability to provide high quality investment management services to the Fund. The Directors considered the investment philosophy and research and decision-making processes of the *Advisers*; the experience of their key advisory personnel responsible for management of the Fund; the ability of the *Advisers* to attract and retain capable research and advisory personnel; the capability and integrity of the *Advisers'* senior management and staff; and the level of skill required to manage the Fund. In addition, the Directors reviewed the quality of the *Advisers'* services with respect to regulatory compliance and compliance with the investment policies of the Fund and conditions that might affect the *Advisers'* ability to provide high quality services to the Fund in the future under the *Agreements*, including the *Advisers'* business reputation, financial condition and operational stability. Based on the foregoing, the Directors concluded that the *Advisers'* investment process, research capabilities and philosophy were well suited to the Fund given its investment objectives and policies, and that the *Advisers* would be able to meet any reasonably foreseeable obligations under the *Agreements*.

In reviewing the quality of the services provided to the Fund, the Directors also reviewed comparisons of the performance of the Fund to the performance of certain comparable funds in two peer groups of funds that invest at least 65% of their assets in corporate and government debt issues rated in the top four grades. The Directors noted that although the performance of the Fund was below the average of each peer group for the one- and three-year periods ended August 31, 2008, it was average or above average for the five- and ten-year periods ended on that date.

The Directors also considered the management fee and total expenses payable by the Fund. They reviewed information concerning management fees paid to investment advisers of similarly-managed funds, as well as fees paid by the *Advisers'* other clients, including separate accounts managed by the *Advisers*. The Directors observed that the management fee paid by the Fund to Western Asset was at the median of the funds in its Lipper peer group, and that Western Asset was responsible for payment of the management fee to WAML. They noted that the management fee paid by the Fund was generally higher than the fees paid by other clients of the *Advisers* with similar investment strategies, but that the administrative and operational responsibilities for the *Advisers* with respect to the Fund were also relatively higher. In light of these differences, the Directors concluded that the differences in management fees from those paid by the *Advisers'* other clients were reasonable. The Directors also noted that the Fund's total expenses were at the median of the funds in its Lipper peer group.

The Directors further evaluated the benefits of the advisory relationship to the *Advisers*, including, among others, the profitability of the relationship to the *Advisers*; the direct and indirect benefits that the *Advisers* may receive from their relationship with the Fund, including any *fallout* benefits, such as reputational value derived from serving as investment adviser; and the affiliation between the *Advisers* and Legg Mason Fund Adviser, Inc., the Fund's administrator. In that connection, the Directors concluded that the *Advisers'* profitability was consistent with levels

Edgar Filing: Western Asset Income Fund - Form N-CSR

of profitability that had been determined by courts not to be excessive.

Finally, the Directors considered, in light of the profitability information provided by the Advisers, the extent to which economies of scale would be realized by the Advisers as the assets of the Fund grow. The Directors concluded that, because the

Annual Report to Shareholders

Board Consideration of the Investment Advisory and Subadvisory Agreements Continued

Fund is a closed-end fund and does not make a continuous offer of its securities, the Fund's size was relatively fixed and it would be unlikely that the Advisers would realize economies of scale from the Fund's growth.

In their deliberations with respect to these matters, the Independent Directors were advised by their independent counsel, who are independent of the Advisers within the meaning of the SEC rules regarding the independence of counsel. The Independent Directors weighed the foregoing matters in light of the advice given to them by their independent counsel as to the law applicable to the review of investment advisory contracts. In arriving at a decision, the Directors, including the Independent Directors, did not identify any single matter as all-important or controlling, and the foregoing summary does not detail all the matters considered. The Directors judged the terms and conditions of the Agreements, including the investment advisory fees, in light of all of the surrounding circumstances.

Based upon their review, the Directors, including all of the Independent Directors, determined, in the exercise of their business judgment, that they were generally satisfied with the quality of investment advisory services being provided by the Advisers, but would continue to closely monitor the Advisers' performance in light of the Fund's recent relative underperformance; that the fees to be paid to the Advisers under the Agreements were fair and reasonable, given the scope and quality of the services rendered by the Advisers; and that approval of the Agreements was in the best interest of the Fund and its shareholders.

Privacy Policy

The Fund is committed to keeping nonpublic personal information secure and confidential. This notice is intended to help a shareholder understand how the Fund fulfills this commitment.

From time to time, the Fund, through its Service Providers, may collect a variety of personal information, including:

Information received on applications and forms, via the telephone, and through websites;

Information about transactions with the Fund, affiliates, or others (such as purchases, sales, or account balances); and

Information about shareholders received from consumer reporting agencies.

The Fund does not disclose shareholder nonpublic personal information, except as permitted by applicable law or regulation. For example, the Fund may share this information with others in order to process transactions. Any information provided to companies that perform services on behalf of the Fund, such as printing and mailing, or to other financial institutions with which the Fund has joint marketing agreements are required to protect the confidentiality of shareholders' information and to use it only to perform the services for which the companies were hired.

The Fund, through its Service Providers, maintains physical, electronic, and procedural safeguards to protect shareholder non-public personal information. Access to this information is restricted.

If a shareholder decides at some point either to close his/her account(s) or become an inactive customer, the Fund will continue to adhere to these privacy policies and practices with respect to shareholder nonpublic personal information.

This report is transmitted to the shareholders of Western Asset Income Fund for their information. This is not a prospectus, circular or representation intended for use in the purchase of shares of the Fund or any securities mentioned in this report.

Edgar Filing: Western Asset Income Fund - Form N-CSR

In accordance with Section 23(c) of the Investment Company Act of 1940, the Fund hereby gives notice that it may, from time to time, repurchase its shares in the open market at the option of the Board of Directors, and on such terms as the Board of Directors shall determine.

PACAM-AR-(02/09) TN09-4350

Item 2 Code of Ethics

- (a) Western Asset Income Fund (Registrant) has adopted a Code of Ethics, as defined in the instructions to Item 2 of Form N-CSR, that applies to the Registrant's principal executive, financial and accounting officers, a copy of which is attached as an exhibit to this Form N-CSR.
- (b) Omitted.
- (c) Not applicable.
- (d) Not applicable.
- (e) Not applicable.

Item 3 Audit Committee Financial Expert

The Audit Committee of the Registrant's Board of Directors is comprised solely of Directors who are independent (as such term has been defined by the Securities and Exchange Commission (SEC) in regulations implementing Section 407 of the Sarbanes-Oxley Act of 2002 (the Regulations)). In addition, the Board of Directors of the Registrant has determined that Mr. Ronald J. Arnault qualifies as an audit committee financial expert (as such term has been defined in the Regulations) based on its review of his pertinent experience, knowledge and education. The SEC has stated that the designation or identification of a person as an audit committee financial expert pursuant to this Item 3 of Form N-CSR does not impose on such person any duties, obligations or liability that are greater than the duties, obligations and liabilities imposed on such person as a member of the Audit Committee and the Board of Directors in absence of such designation or identification

Item 4 Principal Accounting Fees and Services

(a) Audit Fees

Fiscal Year Ended December 31, 2007 \$33,000

Fiscal Year Ended December 31, 2008 \$33,200

(b) Audit-Related Fees

Fiscal Year Ended December 31, 2007 \$2,800

Fiscal Year Ended December 31, 2008 \$3,500

Services include interim audit security pricing.

PricewaterhouseCoopers LLP billed fees in the amount of \$208,000 and \$230,000 for non-audit services that required preapproval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the Registrant's fiscal years ended December 31, 2007 and December 31, 2008, respectively.

During each of the years ended December 31, 2007 and December 31, 2008, PricewaterhouseCoopers LLP conducted a SAS 70 audit to review and test operating effectiveness of controls placed in operation for Western Asset Management Company. During the year ended December 31, 2008, PricewaterhouseCoopers LLP reviewed the Australian Superannuation Circular.

(c) Tax Fees

Fiscal Year Ended December 31, 2007 \$2,400

Fiscal Year Ended December 31, 2008 \$4,000

Services include preparation of federal and state income tax returns and preparation of excise tax returns.

PricewaterhouseCoopers LLP did not bill fees for tax services that required pre-approval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the Registrant's last two fiscal years.

(d) All Other Fees

There were no fees billed to the Registrant during each of the last two fiscal years by PricewaterhouseCoopers LLP that were not disclosed in Items 4(a), (b) or (c).

PricewaterhouseCoopers LLP did not bill fees for services not included in Items 4(a), (b) or (c) above that required preapproval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the Registrant's last two fiscal years.

- (e) (1) The Audit Committee has determined that all work performed for the Registrant by PricewaterhouseCoopers LLP will be preapproved by the full Audit Committee and, therefore, has not adopted preapproval policies and procedures.
(2) None.

(f) Not applicable.

(g) Non-Audit Fees

Fiscal Year Ended December 31, 2007 \$472,000

Fiscal Year Ended December 31, 2008 \$315,300

- (h) The Audit Committee of the Registrant has considered whether the non-audit services that were rendered by the Registrant's principal accountant to the Registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the investment adviser and that were not preapproved by the Audit Committee are compatible with maintaining the principal accountant's independence.

Item 5 Audit Committee of Listed Registrants

The Registrant has a separately designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The Audit Committee of the Registrant is comprised of Ronald J. Arnault, William E.B. Siart, Louis A. Simpson and Jaynie Miller Studenmund.

Item 6 Schedule of Investments

The schedule of investments in securities of unaffiliated issuers as of the close of the reporting period is included as part of the annual report to shareholders filed under Item 1 hereto.

Item 7 Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies

The Registrant has delegated the voting of proxies relating to its portfolio securities to its investment advisers, Western Asset Management Company and Western Asset Management Company Limited (together, the Advisers). The Proxy Voting Policies and Procedures of the Advisers are attached as an exhibit to this Form N-CSR.

Item 8 Portfolio Managers of Closed-End Management Investment Companies

As of December 31, 2008, a team of investment professionals at the Advisers, led by Chief Investment Officer S. Kenneth Leech, Deputy Chief Investment Officer Stephen A. Walsh and Portfolio Manager Jeffrey D. Van Schaick, manages the Western Asset Income Fund (the Fund).

Messrs. Leech, Walsh and Van Schaick have each served as portfolio managers for the Advisers for over five years.

The Fund is managed by a team of portfolio managers, sector specialists and other investment professionals. Messrs. Leech, Walsh and Van Schaick serve as co-team leaders responsible for day-to-day strategic oversight of the Fund s investments and for supervising the day-to-day operations of the various sector specialist teams dedicated to the specific asset classes in which the Fund invests.

Edgar Filing: Western Asset Income Fund - Form N-CSR

Other Accounts

As of December 31, 2008, in addition to the Fund, the portfolio managers were responsible for the day-to-day management of certain other accounts, as follows:

Type of Account	Number of Accounts Managed	Total Assets Managed	Number of Accounts Managed for which Advisory Fee is Performance-Based	Assets Managed for which Advisory Fee is Performance-Based
S. Kenneth Leech:				
Registered Investment Companies	110	\$ 100,385,474,440	0	0
Other pooled investment vehicles	281	\$ 195,319,138,291	0	0
Other accounts	969	\$ 217,490,220,115	94	\$ 22,992,729,662
Jeffrey D. Van Schaick:				
Registered Investment Companies	3	\$ 726,787,034	0	0
Other pooled investment vehicles	4	\$ 510,261,884	0	0
Other accounts	14	\$ 2,905,313,962.51	2	\$ 187,120,427
Stephen A. Walsh:				
Registered Investment Companies	110	\$ 100,385,474,440	0	0
Other pooled investment vehicles	281	\$ 195,319,138,291	0	0
Other accounts	969	\$ 217,490,220,115	94	\$ 22,992,729,662

Note: With respect to Mr. Leech and Mr. Walsh, the numbers above reflect the overall number of portfolios managed by the Advisers.

Mr. Leech and Mr. Walsh are involved in the management of all the Advisers' portfolios, but they are not solely responsible for particular portfolios. The Advisers' investment discipline emphasizes a team approach that combines the efforts of groups of specialists working in different market sectors. The individuals that have been identified are responsible for overseeing implementation.

of the Advisers' overall investment ideas and coordinating the work of the various sector teams. This structure ensures that client portfolios benefit from a consensus that draws on the expertise of all team members.

Potential Conflicts of Interest (as of December 31, 2008)

Potential conflicts of interest may arise in connection with the management of multiple accounts (including accounts managed in a personal capacity). These could include potential conflicts of interest related to the knowledge and timing of the Fund's trades, investment opportunities and broker selection. Portfolio managers may be privy to the size, timing and possible market impact of the Fund's trades.

It is possible that an investment opportunity may be suitable for both the Fund and other accounts managed by a portfolio manager, but may not be available in sufficient quantities for both the Fund and the other accounts to participate fully. Similarly, there may be limited opportunity to sell an investment held by the Fund and another account. A conflict may arise where the portfolio manager may have an incentive to treat an account preferentially as compared to the Fund because the account pays a performance-based fee or the portfolio manager, the Advisers or an affiliate has an interest in the account. The Advisers have adopted procedures for allocation of portfolio transactions and investment opportunities across multiple client accounts on a fair and equitable basis over time. All eligible accounts that can participate in a trade share the same price on a pro-rata allocation basis in an attempt to mitigate any conflict of interest. Trades are allocated among similarly managed accounts to maintain consistency of portfolio strategy, taking into account cash availability, investment restrictions and guidelines, and portfolio composition versus strategy.

With respect to securities transactions for the Fund, the Advisers determines which broker or dealer to use to execute each order, consistent with their duty to seek best execution of the transaction. However, with respect to certain other accounts (such as pooled investment vehicles that are not registered investment companies and other accounts managed for organizations and individuals), the Advisers may be limited by the client with respect to the selection of brokers or dealers or may be instructed to direct trades through a particular broker or dealer. In these cases, trades for the Fund in a particular security may be placed separately from, rather than aggregated with, such other accounts. Having separate transactions with respect to a security may temporarily affect the market price of the security or the execution of the transaction, or both, to the possible detriment of the Fund or the other account(s) involved. Additionally, the management of multiple accounts may result in a portfolio manager devoting unequal time and attention to the management of the Fund and/or other account.

It is theoretically possible that portfolio managers could use information to the advantage of other accounts they manage and to the possible detriment of the Fund. For example, a portfolio manager could short sell a security for an account immediately prior to the Fund's sale of that security. To address this conflict, the Advisers have adopted procedures for reviewing and comparing selected trades of alternative investment accounts (which may make directional trades such as short sells) with long-only

accounts (which includes the Fund) for timing and pattern related issues. Trading decisions for alternative investment and long-only accounts may not be identical even though the same portfolio manager may manage both types of accounts. Whether an Adviser allocates a particular investment opportunity to only alternative investment accounts or to alternative investment and long-only accounts will depend on the investment strategy being implemented. If, under the circumstances, an investment opportunity is appropriate for both its alternative investment and long only accounts, then it will be allocated to both on a pro-rata basis.

A portfolio manager may also face other potential conflicts of interest in managing the Fund, and the description above is not a complete description of every conflict of interest that could be deemed to exist in managing both the Fund and the other accounts listed above.

Compensation of Portfolio Managers (as of December 31, 2008)

With respect to the compensation of the portfolio managers, the Advisers' compensation system assigns each employee a total compensation target and a respective cap, which are derived from annual market surveys that benchmark each role with their job function and peer universe. This method is designed to reward employees with total compensation reflective of the external market value of their skills, experience, and ability to produce desired results.

Standard compensation includes competitive base salaries, generous employee benefits, and a retirement plan.

In addition, employees are eligible for bonuses. These are structured to closely align the interests of employees with those of the Advisers, and are determined by the professional's job function and performance as measured by a formal review process. All bonuses are completely discretionary. One of the principal factors considered is a portfolio manager's investment performance versus appropriate peer groups and benchmarks. Because portfolio managers are generally responsible for multiple accounts (including the Fund) with similar investment strategies, they are compensated on the performance of the aggregate group of similar accounts, rather than a specific account. A smaller portion of a bonus payment is derived from factors that include client service, business development, length of service to the Advisers, management or supervisory responsibilities, contributions to developing business strategy and overall contributions to the Advisers' business.

Finally, in order to attract and retain top talent, all professionals are eligible for additional incentives in recognition of outstanding performance. These are determined based upon the factors described above and include Legg Mason, Inc. stock options and long-term incentives that vest over a set period of time past the award date.

Portfolio Manager Ownership of Fund Securities

The following table provides the dollar range of securities beneficially owned by each portfolio manager as of December 31, 2008:

Portfolio Manager	Dollar Range of Fund Securities Beneficially Owned
S. Kenneth Leech	\$100,001 - \$500,000
Jeffrey D. Van Schaick	None
Stephen A. Walsh	None

Item 9 Purchases of Equity Securities by Closed-End Management Investment Companies and Affiliated Purchasers

Not applicable.

Item 10 Submission of Matters to a Vote of Security Holders

There have been no material changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Directors that have been implemented since the Registrant last provided disclosure in response to the requirements of this Item 10.

Item 11 Controls and Procedures

- (a) The Registrant's principal executive and principal financial officers have concluded, based on their evaluation of the Registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the Registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the Registrant on Form N-CSR is recorded, processed, summarized and reported within the required time periods in the SEC's rules and forms and that information required to be disclosed by the Registrant in the reports that it files or submits on Form N-CSR is accumulated and communicated to the Registrant's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

- (b) There were no changes in the Registrant's internal control over financial reporting during the Registrant's second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12 Exhibits

- (a)(1) Code of Ethics subject to the disclosure required by Item 2 filed as an exhibit hereto.
- (a)(2) Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 filed as an exhibit hereto.
- (a)(3) Not applicable.
- (b) Certifications pursuant to Rule 30a-2(b) under the Investment Company Act of 1940 filed as an exhibit hereto.
- (c) Proxy Voting Policies and Procedures pursuant to the disclosure required by Item 7 filed as an exhibit hereto.
