- (1) An unspecified indeterminate aggregate initial offering price or number of the securities of each identified class is being registered as may from time to time be issued at unspecified indeterminate prices. Separate consideration may or may not be received for registered securities that are issuable on exercise, conversion or exchange of other securities or that are issued in units or represented by depository shares. In accordance with Rules 456(b) and 457(r), Zions Bancorporation is deferring payment of all the registration fee.
- (2) This Registration Statement also covers an indeterminate amount of securities that may be reoffered and resold on an ongoing basis after their initial sale in market-making transactions by affiliates of the Registrants. These securities consist of an indeterminate amount of such securities that are initially being registered, and will initially be offered and sold, under this Registration Statement and an indeterminate amount of such securities that were initially registered, and were initially offered and sold, under registration statements previously filed by the Registrants. All such market-making reoffers and resales of these securities that are made pursuant to a registration statement after the effectiveness of this Registration Statement are being made solely pursuant to this Registration Statement.

EXPLANATORY NOTE

The prospectus contained herein relates to both of the following:

the initial offering of debt securities, warrants, rights, purchase contracts, units, common stock, preferred stock and depository shares of Zions Bancorporation and capital securities of the Issuer Trusts on a continuous or delayed basis, at unspecified aggregate initial public offering prices; and

market-making transactions that may occur on a continuous or delayed basis in (1) the securities described above, after they are initially offered and sold, and (2) securities of one or more of the same classes that were initially registered under registration statements previously filed by the Registrants and were initially offered and sold prior to the date of this registration statement (but are now registered hereunder with respect to ongoing market-making transactions).

When the prospectus is delivered to an investor in the initial offering described above, the investor will be informed of that fact in the confirmation of sale. When the prospectus is delivered to an investor who is not so informed, it is delivered in a market-making transaction.

Prospectus

ABOUT THIS PROSPECTUS

This document is called a prospectus, and it provides you with a general description of the securities we may offer. Each time we sell securities, we will provide a prospectus supplement containing specific information about the terms of the securities being offered. That prospectus supplement may include a discussion of any risk factors or other special considerations that apply to those securities. The prospectus supplement may also add, update or change the information in this prospectus. If there is any inconsistency between the information in this prospectus and any prospectus supplement, you should rely on the information in that prospectus supplement. You should read both this prospectus and any prospectus supplement together with additional information described under the heading **Where You Can Find More Information**.

Zions Bancorporation, a Utah corporation, also referred to in this document as Zions, and Zions Capital Trust C and Zions Capital Trust D, each a statutory trust created under the laws of the State of Delaware (each trust is also referred to as an Issuer Trust and together as the Issuer Trusts), have filed a registration statement with the Securities and Exchange Commission, or the SEC, using a shelf registration or continuous offering process. Under this shelf process, Zions and the Issuer Trusts may offer and sell any combination of the securities described in this prospectus in one or more offerings.

Our SEC registration statement containing this prospectus, including exhibits, provides additional information about us and the securities offered under this prospectus. The registration statement can be read at the SEC's web site or at the SEC's offices. The SEC's web site and street addresses are provided under the heading **Where You Can Find More Information**.

When acquiring securities, you should rely only on the information provided in this prospectus and in the related prospectus supplement, including any information incorporated by reference. No one is authorized to provide you with different information. We are not offering the securities in any state where the offer is prohibited. You should not assume that the information in this prospectus, any prospectus supplement or any document incorporated by reference is truthful or complete for any date other than the date indicated on the cover page of these documents.

After the securities are issued, one or more of our subsidiaries, including Zions Direct, Inc. or Amegy Investments, Inc., may buy and sell any of the securities as part of their business as a broker-dealer. Those subsidiaries may use this prospectus and the related prospectus supplement in those transactions. Any sale by a subsidiary will be made at the prevailing market price at the time of sale.

Unless otherwise mentioned or unless the context requires otherwise, all references in this prospectus to **Zions**, **we**, **us**, **our** or similar references mean Zions Bancorporation and its subsidiaries.

Unless otherwise stated, currency amounts in this prospectus and any prospectus supplement are stated in United States dollars.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any document we file at the SEC's public reference room in Washington, D.C. at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. In addition, our SEC filings are available to the public at the SEC's web site at <http://www.sec.gov>. However, information on this website does not constitute a part of this prospectus. You can also inspect reports, proxy statements and other information about us at the offices of the Nasdaq Global Select Market, 1735 K Street, N.W., Washington, D.C. 20006.

The SEC allows us to incorporate by reference into this prospectus the information in documents we file with it. This means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be a part of this prospectus and should be read with the same care. When we update the information contained in documents that have been incorporated by reference by making future filings with the SEC, the information incorporated by reference in this prospectus is considered to be automatically updated and superseded. In other words, in the case of a conflict or inconsistency between information contained in this prospectus and information incorporated by reference into this prospectus, you should rely on the information contained in the document that was filed later.

We incorporate by reference the documents listed below and any documents we file with the SEC in the future under Section 13(a), 13(c), 14, or 15(d) of the Securities Exchange Act of 1934, as amended (the Exchange Act) until our offering is completed:

Annual Report on Form 10-K for the year ended December 31, 2008.

Current Reports on Form 8-K filed on January 23, 2009 and March 31, 2009 (except, in each case, information furnished on Form 8-K and any related exhibits).

The description of our common stock and rights set forth in our registration statement on Form 10 and Form 8-A filed pursuant to Section 12 of the Exchange Act, including any amendment or report filed with the SEC for the purpose of updating such descriptions.

You may request a copy of these filings, other than an exhibit to a filing unless that exhibit is specifically incorporated by reference into that filing, at no cost, by writing to or telephoning us at the following address:

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

Statements in this prospectus, including information incorporated by reference, that are based on other than historical data are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations or forecasts of future events and include, among others:

statements with respect to our beliefs, plans, objectives, goals, guidelines, expectations, anticipations, and future financial condition, results of operations and performance of Zions Bancorporation and its subsidiaries; and

statements preceded by, followed by or that include the words may, could, should, would, believe, anticipate, estimate, expect, intend, plan, projects, or similar expressions.

These forward-looking statements are not guarantees of future performance, nor should they be relied upon as representing management's views as of any subsequent date. Forward-looking statements involve significant risks and uncertainties and actual results may differ materially from those presented, either expressed or implied, in this prospectus, including the information incorporated by reference. You should carefully consider those risks and uncertainties in reading this prospectus. Factors that might cause such differences include, but are not limited to:

our ability to successfully execute our business plans, manage our risks, and achieve our objectives;

changes in political and economic conditions, including the political and economic effects of the current economic crisis and other major developments, including wars, military actions and terrorist attacks;

changes in financial market conditions, either internationally, nationally or locally in areas in which we conduct our operations, including without limitation, changes in business formation and growth, commercial and residential real estate development and real estate prices;

fluctuations in markets for equity, fixed-income, commercial paper and other securities, including availability, market liquidity levels, and pricing;

changes in interest rates, the quality and composition of our loan and securities portfolios, demand for loan products, deposit flows and competition;

acquisitions and integration of acquired businesses;

increases in the levels of losses, customer bankruptcies, claims and assessments;

changes in fiscal, monetary, regulatory, trade and tax policies and laws, including policies of the U.S. Department of Treasury and the Federal Reserve Board;

our participation or lack of participation in governmental programs implemented under the Emergency Economic Stabilization Act (EESA) and the American Recovery and Reinvestment Act (ARRA), including without limitation the Troubled Asset Relief

Edgar Filing: ZIONS CAPITAL TRUST D - Form S-3ASR

Program, the Capital Purchase Program, the Temporary Liquidity Guarantee Program and the Capital Assistance Program and the impact of such programs and related regulations on us and on international, national, and local economic and financial markets and conditions;

the impact of the EESA and the ARRA and related rules and regulations on the business operations and competitiveness of Zions and other participating American financial institutions, including the impact of the executive compensation limits of these acts, which may impact the ability of Zions and other American financial institutions to retain and recruit executives and other personnel necessary for their businesses and competitiveness;

the impact of certain provisions of the EESA and ARRA and related rules and regulations on the attractiveness of governmental programs to mitigate the effects of the current economic crisis, including the risks that certain financial institutions may elect not to participate in such programs, thereby decreasing the effectiveness of such programs;

continuing consolidation in the financial services industry;

new litigation or changes in existing litigation;

success in gaining regulatory approvals, when required;

changes in consumer spending and savings habits;

increased competitive challenges and expanding product and pricing pressures among financial institutions;

demand for financial services in our market areas;

inflation and deflation;

technological changes and our implementation of new technologies;

our ability to develop and maintain secure and reliable information technology systems;

legislation or regulatory changes which adversely affect our operations or business;

our ability to comply with applicable laws and regulations;

changes in accounting policies or procedures as may be required by the Financial Accounting Standards Board or regulatory agencies; and

increased costs of deposit insurance and changes with respect to Federal Deposit Insurance Corporation insurance coverage levels. We specifically disclaim any obligation to update any factors or to publicly announce the result of revisions to any of the forward-looking statements, including the information incorporated by reference, to reflect future events or developments.

Table of Contents

RISK FACTORS

We have included discussions of cautionary factors describing risks relating to our business and an investment in our securities in our Annual Report on Form 10-K for the year ended December 31, 2008, which is incorporated by reference into this prospectus. See [Where You Can Find More Information](#) for an explanation of how to get a copy of this report. Additional risks related to our securities may also be described in a prospectus supplement. Before purchasing our securities, you should carefully consider the risk factors we describe in any prospectus supplement or in any report incorporated by reference into this prospectus or such prospectus supplement, including our Annual Report on Form 10-K for the year ended December 31, 2008. Although we discuss key risks in those risk factor descriptions, additional risks not currently known to us or that we currently deem immaterial also may impair our business. Our subsequent filings with the SEC may contain amended and updated discussions of significant risks. We cannot predict future risks or estimate the extent to which they may affect our financial performance.

USE OF PROCEEDS

Unless otherwise specified in the applicable prospectus supplement for any offering of securities, the net proceeds we receive from the sale of these securities will be used for general corporate purposes, which may include:

funding investments in, or extensions of credit to, our subsidiaries;

funding investments in non-affiliates;

reducing or refinancing debt;

redeeming outstanding securities;

financing possible acquisitions; and

working capital.

Pending such use, we may temporarily invest net proceeds. We will disclose any proposal to use the net proceeds from any offering of securities in connection with an acquisition in the prospectus supplement relating to such offering.

Each Issuer Trust will use the proceeds from any offering of capital securities to purchase the corresponding junior subordinated debentures issued by us. We expect to use the net proceeds from the sale of the subordinated debt securities to the Issuer Trusts as described above.

Table of Contents

DESCRIPTION OF DEBT SECURITIES WE MAY OFFER

*Please note that in this section entitled **Description of Debt Securities We May Offer**, references to **Zions**, **we**, **our** and **us** refer only to **Zions Bancorporation** and not to its consolidated subsidiaries. Also, in this section, references to **holders** mean those who own debt securities registered in their own names, on the books that we or the trustee maintain for this purpose, and not those who own beneficial interests in debt securities registered in street name or in debt securities issued in book-entry form through one or more depositaries. Owners of beneficial interests in the debt securities should also read the section entitled **Legal Ownership and Book-Entry Issuance**.*

*The following description summarizes the material provisions of the senior indenture, the subordinated indenture and the debt securities to be issued under these indentures. This description is not complete and is subject to, and is qualified in its entirety by reference to, the indenture under which the debt securities are issued and the Trust Indenture Act of 1939, as amended (the **Trust Indenture Act**). The specific terms of any series of debt securities will be described in the applicable prospectus supplement, and may differ from the general description of the terms presented below. The senior indenture and the subordinated indenture have been filed as exhibits to the registration statement of which this prospectus forms a part. Whenever particular defined terms of the senior indenture or the subordinated indenture, each as supplemented or amended from time to time, are referred to in this prospectus or a prospectus supplement, those defined terms are incorporated in this prospectus or such prospectus supplement by reference.*

Debt Securities May Be Senior or Subordinated

We may issue senior or subordinated debt securities. Unless we specify otherwise in the applicable prospectus supplement, neither the senior debt securities nor the subordinated debt securities will be secured by any property or assets of ours or of our subsidiaries. If you own an unsecured debt security, you are one of our unsecured creditors.

The senior debt securities and, in the case of senior debt securities in bearer form, any related interest coupons, will constitute part of our senior indebtedness, will be issued under the senior debt indenture described below and will rank on a parity with all of our other unsubordinated debt (except to the extent such other indebtedness is secured by collateral that does not also secure the senior debt securities offered by this prospectus).

The subordinated debt securities and, in the case of subordinated debt securities in bearer form, any related interest coupons, will constitute part of our subordinated debt, will be issued under the subordinated debt indenture described below and will be subordinate in right of payment to all of our senior indebtedness, as defined below under **Subordination Provisions**. Upon the occurrence of certain events of insolvency, the subordinated debt securities will be contractually subordinated to the prior payment in full of our general obligations, as defined under **Subordination Provisions**.

Neither indenture limits our ability to incur additional secured or unsecured senior or subordinated indebtedness.

When we use the terms **debt security** or **debt securities** in this description, we mean either the senior debt securities or the subordinated debt securities.

We Are A Holding Company

We are a holding company and a legal entity separate and distinct from our subsidiaries, and our right to participate in any distribution of assets of any subsidiary upon its liquidation, reorganization or otherwise, and the ability of holders of debt securities to benefit indirectly from such distribution, is subject to superior claims. Accordingly, our senior debt securities and subordinated debt securities will be structurally subordinated to all indebtedness and other liabilities, including trade payables and lease obligations, of each of our subsidiaries, except to the extent we may be a creditor of that subsidiary with recognized senior claims. Claims on our subsidiary banks by creditors other than us include long-term debt, including subordinated and junior subordinated debt issued by our

Table of Contents

subsidiary, Amegy Corporation, and substantial obligations with respect to deposit liabilities and federal funds purchased, securities sold under repurchase agreements, other short-term borrowings and various other financial obligations. If we are entitled to participate in any assets of any of our subsidiaries upon the liquidation or reorganization of the subsidiary, the rights of holders of the senior debt securities and subordinated debt securities with respect to those assets will be subject to the contractual subordination of the subordinated debt securities.

The Senior Debt Indenture and the Subordinated Debt Indenture

The senior debt securities are governed by the senior debt indenture, and the subordinated debt securities are governed by the subordinated debt indenture. Each indenture is a contract between us and The Bank of New York Mellon Trust Company, N.A., as successor to J.P. Morgan Trust Company, National Association, as trustee, which indenture may be supplemented from time to time as provided therein. The indentures are substantially identical, except for our covenants described under [Restriction on Sale or Issuance of Capital Stock of Major Constituent Banks](#), which are included only in the senior debt indenture, the provisions relating to subordination, which are included only in the subordinated debt indenture, and the provisions relating to defaults and events of default.

The trustee under each indenture has two main roles:

first, the trustee can enforce your rights against us if we default. There are some limitations on the extent to which the trustee acts on your behalf, which we describe later under [Events of Default and Defaults](#);

second, the trustee performs administrative duties for us, such as sending you interest payments and notices. See [Our Relationship with the Trustee](#) below for more information about the trustee.

When we refer to the indenture or the trustee with respect to any debt securities, we mean the indenture under which those debt securities are issued and the trustee under that indenture.

We May Issue Many Debt Securities or Series of Debt Securities

We may issue as many debt securities or distinct series of debt securities under either indenture as we wish. This section summarizes terms of the debt securities that apply generally to all debt securities or series of debt securities. The provisions of each indenture allow us not only to issue debt securities with terms different from those of debt securities previously issued under that indenture, but also to reopen previously issued debt securities and issue additional debt securities of the same series as such debt securities, with the same CUSIP number, stated maturity, interest payment dates, if any, and other terms, except for the date of issuance and issue price. We will describe the financial and other specific terms of your debt securities in the applicable prospectus supplement. Those terms may vary from the terms described here.

As you read this section, please remember that the specific terms of your debt security as described in your prospectus supplement will supplement and, if applicable, may modify or replace the general terms described in this section. The statements we make in this section may not apply to your debt security.

When we refer to a series of debt securities, we mean a series issued under the applicable indenture. When we refer to your prospectus supplement, we mean the prospectus supplement describing the specific terms of the debt security you purchase.

Amounts That We May Issue

Neither indenture limits the aggregate amount of debt securities that we may issue, whether secured or unsecured, or the number of series or the aggregate amount of any particular series of debt securities. We may issue debt securities, as well as increase the total authorized amount, at any time without your consent and without notifying you.

Table of Contents

In addition, we have issued and have outstanding, and may in the future issue, junior subordinated debentures to certain financing trust affiliates, which will issue capital securities guaranteed by us on the same subordinated basis as the junior subordinated debentures. The junior subordinated debentures and related guarantees generally rank junior to the subordinated debt securities. The terms debt securities, senior debt securities and subordinated debt securities do not include the junior subordinated debentures or related guarantees.

We are not subject to financial or similar restrictions by the terms of the debt securities, except as described under **Restriction on Sale or Issuance of Capital Stock of Major Constituent Banks** below. The indentures do not contain any covenants designed to afford holders of debt securities protection in the event of a highly leveraged transaction involving us.

Principal Amount, Stated Maturity and Maturity

Unless otherwise specified in the applicable prospectus supplement, the principal amount of a debt security means the principal amount payable at its stated maturity, unless such amount is not determinable, in which case the principal amount of a debt security is its face amount.

The term **stated maturity** with respect to any debt security means the day on which the principal amount of your debt security is scheduled to become due. The principal of your debt security may become due sooner, by reason of redemption or acceleration after an event of default or otherwise in accordance with the terms of your debt security. The day on which the principal of your debt security actually becomes due, whether at the stated maturity or otherwise, is called the maturity of the principal.

We also use the terms **stated maturity** and **maturity** to refer to the days when other payments become due. For example, we may refer to a regular interest payment date when an installment of interest is scheduled to become due as the **stated maturity** of that installment. When we refer to the **stated maturity** or the **maturity** of a debt security without specifying a particular payment, we mean the stated maturity or maturity, as the case may be, of the principal.

Governing Law

The indentures are, and the debt securities will be, governed by New York law.

Currency of Debt Securities

Unless otherwise specified in the applicable prospectus supplement, amounts that become due and payable on your debt security will be payable in U.S. dollars. You will have to pay for your debt securities by delivering the requisite amount for the principal, in U.S. dollars or other specified currency, to the underwriter or dealer that we name in the prospectus supplement related to your debt securities, unless other arrangements have been made between you and us or you and that dealer.

Types of Debt Securities

We may issue any of the three types of senior debt securities or subordinated debt securities described below. A debt security may have elements of each of the three types of debt securities described below. For example, a debt security may bear interest at a fixed rate for some periods and at a floating rate in others. Similarly, a debt security may provide for a payment of principal at maturity linked to an index and also bear interest at a fixed or floating rate.

Table of Contents

Fixed Rate Debt Securities

A debt security of this type will bear interest at a fixed rate described in the applicable prospectus supplement. This type includes zero coupon debt securities, which bear no interest and are instead issued at a price lower than the principal amount. See Original Issue Discount Debt Securities below for more information about zero coupon and other original issue discount debt securities.

Each fixed rate debt security, except any zero coupon debt security, will bear interest from its original issue date or from the most recent date to which interest on the debt security has been paid or made available for payment. Interest will accrue on the principal of a fixed rate debt security at the fixed rate per annum stated in the applicable prospectus supplement, until the principal is paid or made available for payment. Each payment of interest due on an interest payment date or at maturity will include interest accrued from and including the last date to which interest has been paid, or made available for payment, or from the issue date if none has been paid, or made available for payment, to but excluding the interest payment date or the date of maturity. We will compute interest on fixed rate debt securities on the basis of a 360-day year of twelve 30-day months (30/360 (ISDA) day count convention). We will pay interest on each interest payment date and at maturity as described below under Payment Mechanics for Debt Securities in Registered Form.

If your debt security is a zero coupon debt security, the applicable prospectus supplement may specify the original issue discount and the information necessary to determine the accreted value. The accreted value will be (1) as of any date prior to the stated maturity, an amount equal to the sum of (A) the original issue price of your debt security and (B) the portion of the excess of the principal amount of your debt security over the original issue price that shall have been accreted from the original issue price on a daily basis and compounded annually on a date specified in the applicable prospectus supplement, up to and including the stated maturity, at a rate that will be specified in the applicable prospectus supplement from the original issue date, computed on the basis of a 360-day year of twelve 30-day months (30/360 (ISDA) day count convention); and (2) as of any date on or after the stated maturity, the principal amount of your debt security.

Floating Rate Debt Securities

A debt security of this type will bear interest at rates that are determined by reference to an interest rate formula. In some cases, the rates may also be adjusted by adding or subtracting a spread or multiplying by a spread multiplier and may be subject to a minimum rate or a maximum rate. If your debt security is a floating rate debt security, the formula and any adjustments that apply to the interest rate will be specified in your prospectus supplement.

Each floating rate debt security will bear interest from its original issue date or from the most recent date to which interest on your debt security has been paid or made available for payment. Interest will accrue on the principal of a floating rate debt security at a rate per annum determined according to the interest rate formula stated in the applicable prospectus supplement, until the principal is paid or made available for payment. We will pay interest on each interest payment date and at maturity as described below under Payment Mechanics for Debt Securities in Registered Form.

Calculation Agent. Calculations relating to floating rate debt securities will be made by the calculation agent, an institution that we appoint as our agent for this purpose. That institution may include any affiliate of ours, such as Zions First National Bank. The prospectus supplement for a particular floating rate debt security will name the institution that we have appointed to act as the calculation agent for that debt security as of its original issue date. We may appoint a different institution to serve as calculation agent from time to time after the original issue date of the debt security without your consent and without notifying you of the change. Absent manifest error, all determinations of the calculation agent will be final and binding on you and us, without any liability on the part of the calculation agent.

Calculation of Interest. For each floating rate debt security, the calculation agent will determine, on the corresponding interest calculation or interest determination date, as described in the applicable prospectus supplement, the interest rate that takes effect on

each interest reset date. In addition, the calculation agent will calculate the amount of interest that has accrued during each interest period i.e., the period from and including an interest payment date (or with respect to the initial interest period, the original issue date) to but excluding the next succeeding interest payment date. For each interest period, the calculation agent will calculate the amount of accrued interest by multiplying the face amount of the floating rate debt security by an accrued interest factor for the interest period. Unless we specify otherwise in the applicable prospectus supplement, this factor will be equal to the number of days in the applicable interest period divided by 360 (Actual/360 (ISDA) day count convention).

Upon the request of the holder of any floating rate debt security, the calculation agent will provide for that debt security the interest rate then in effect, and, if determined, the interest rate that will become effective on the next interest reset date.

All percentages resulting from any calculation relating to any debt security will be rounded upward or downward, as appropriate, to the next higher or lower one hundred-thousandth of a percentage point, e.g., 9.876541% (or .09876541) being rounded down to 9.87654% (or .0987654) and 9.876545% (or .09876545) being rounded up to 9.87655% (or .0987655). All amounts used in or resulting from any calculation relating to a floating rate debt security will be rounded upward or downward, as appropriate, to the nearest cent, with one-half cent or one-half of a corresponding hundredth of a unit or more being rounded upward.

In determining the base rate that applies to a floating rate debt security during a particular interest period, the calculation agent may obtain rate quotes from various reference banks or dealers active in the relevant market, as described in the applicable prospectus supplement. Those reference banks and dealers may include the calculation agent itself and its affiliates, as well as any underwriter, dealer or agent participating in the distribution of the relevant floating rate debt securities and its affiliates, and they may include our affiliates.

Indexed Debt Securities

A debt security of this type provides that the principal amount payable at its maturity, and/or the amount of interest payable on an interest payment date, will be determined by reference to

securities of one or more issuers;

one or more currencies;

one or more commodities;

any other financial, economic or other measure or instrument, including the occurrence or non-occurrence of any event or circumstance;

one or more indices; and/or

one or more baskets of the items described above.

An indexed debt security may provide either for cash settlement or for physical settlement by delivery of the underlying security or another property of the type listed above. An indexed debt security may also provide that the form of settlement may be determined at our option or at the holder's option. Some indexed debt securities may be exchangeable, at our option or the holder's option, for securities of an issuer other than us.

If you purchase an indexed debt security, your prospectus supplement will include information about the relevant index or indices, about how amounts that are to become payable will be determined by reference to the price or value of that index and about the terms on which the security may be settled physically or in cash. Your prospectus supplement will also identify the calculation agent that will calculate the amounts payable with respect to the indexed debt security and will have sole discretion in doing so. The calculation agent may be one of our affiliates. See

Original Issue Discount Debt Securities

A fixed rate debt security, a floating rate debt security or an indexed debt security may be an original issue discount debt security. A debt security of this type is issued at a price lower than its principal amount and may provide that, upon redemption or acceleration of its maturity, an amount less than its principal amount may be payable. An original issue discount debt security may be a zero coupon debt security. A debt security issued at a discount to its principal may, for U.S. federal income tax purposes, be considered an original issue discount debt security, regardless of the amount payable upon redemption or acceleration of maturity. See United States Taxation Taxation of Debt Securities United States Holders Original Issue Discount below for a brief description of the U.S. federal income tax consequences of owning an original issue discount debt security.

Form of Debt Securities

We will issue each debt security in global i.e., book-entry form only, unless we specify otherwise in the applicable prospectus supplement. Debt securities in book-entry form will be represented by a global security registered in the name of a depository, which will be the holder of all the debt securities represented by the global security. Those who own beneficial interests in a global debt security will do so through participants in the depository's securities clearing system, and the rights of these indirect owners will be governed solely by the applicable procedures of the depository and its participants. We describe book-entry securities under Legal Ownership and Book-Entry Issuance.

In addition, we will issue each debt security in registered form, without coupons, unless the conditions for issuance of bearer securities described under Securities Issued in Bearer Form are met and we choose to issue the debt security in bearer form. We describe bearer securities under Securities Issued in Bearer Form. As we note in that section, some of the features that we describe in this section entitled Description of Debt Securities We May Offer may not apply to bearer securities.
