Description of Credit Facility Amendments

The BOA Omnibus Amendment, the BofA Repo Amendment, the DB Amendment and the MS Amended Facility are each referred to herein as a Credit Facility Amendment and collectively referred to as the Credit Facility Amendments. The BOA Parties, Deutsche Bank and the Morgan Stanley Parties are collectively referred to herein as the Secured Creditors and each, a Secured Creditor.

Each Credit Facility Amendment, among other things, extends the maturities of the respective facility to September 30, 2010. The maturity date for each facility may be further extended to March 30, 2011 at the discretion of the respective Secured Creditor. However, if certain conditions are met, the decision by a Secured Creditor to not extend may result in such Secured Creditor losing the benefit of certain new collateral (described below) that was posted under the restructuring.

Each Credit Facility Amendment eliminates all mark-to-market requirements with respect to the underlying asset collateral value. Each Credit Facility Amendment eliminates any outstanding margin calls and the right to make future margin calls.

The new interest rate on the facilities is the greater of 30-day LIBOR plus 3.50% or 5.50%. If the facilities are further extended, as described above, then the interest rate during the extension period will be 30-day LIBOR plus 4.00%. Each Credit Facility Amendment also requires payment of a deferred restructuring fee in the amount of 8% of the outstanding balance of the Credit Facilities as of May 15, 2009, which is due and payable to each Secured Creditor on the earliest of: (a) the date all loans and purchased assets are prepaid, paid or repaid in full, (b) the maturity date of the facility, and (c) any date the balance of the loans is declared or becomes automatically accelerated. The deferred restructuring fee is broken into two components: a 1% fee, which is characterized as a guaranteed fee, and a 7% fee, which is characterized as a secondary fee and which will be paid only to the extent afforded by the respective Secured Creditor's collateral, in the absence of an event of default.

Each Credit Facility Amendment also imposes restrictions or conditions on the incurrence or restructuring of any indebtedness and the payment of fees and other amounts to the Manager of the Company and its affiliates. In addition, each Credit Facility Amendment amends certain definitions, including Event of Default, in order to make such terms substantially uniform across all facilities.

The Credit Facility Amendments replace existing scheduled amortization payments with cash management requirements. All cash received from the primary collateral will be used first to pay interest and then to reduce each lender's principal balance. The Company has agreed to reduce the principal balance for each Secured Creditor through the application of certain proceeds under this process by an agreed upon amount, measured on a cumulative basis, at the end of each quarter starting with the period ending September 30, 2009. If the Company does not satisfy such required reduction, the Company has 90 days to cure such shortfall or an event of default would occur.

The Secured Creditors will continue to hold the same primary collateral, consisting of U.S. and non-U.S. denominated commercial real estate loan assets. In addition, the Credit Facility Amendments contemplate that the Secured Creditors receive a security interest in all unencumbered assets of the Company, as well as a subordinated second lien on each other's primary collateral. The cash flows generated by the bulk of the formerly unencumbered assets will be deposited monthly into a cash management account that will be available for use by the Company for its operations pursuant to a prescribed budget, subject to (i) the absence of any defaults under the facilities and (ii) the cure of any outstanding deficiency in the required reductions of the principal balance of any Secured Creditor, as described above. In the event of an uncured event of default, the cash management account proceeds must be used to pay down the relevant lender's debt until the deficiency has been cured.

Description of Credit Facility Guarantees

The BofA Amended Parent Guaranty, the BofA Amended Guaranty, the DB Guaranty Amendment, and the MS Amended Guaranty are each referred to herein as a Credit Facility Guaranty and collectively referred to as the Credit Facility Guarantees.

The existing financial covenants in each Credit Facility Guaranty were modified and apply to each Credit Facility Guaranty as follows:

Tangible net worth cannot fall below \$400 million plus 75% of any equity offering proceeds at any quarter end, and cannot fall by more than 20% in any one quarter or more than 40% in any four-quarter period;

The debt service coverage ratio must be at least 1.40; and

Total debt to tangible net worth ratio may not exceed 2.5.

The Company also agreed, among other things, to certain other terms in each Credit Facility Guaranty which establish (i) certain required quarterly operating earnings, (ii) restrictions or conditions on the incurrence or restructuring of any indebtedness and the payment of fees and other amounts to the Manager of the Company and its affiliates and (iii) limits on acquiring new assets. The Company has also agreed, among other things, to obtain the unanimous written consent of its independent directors prior to voluntarily filing for bankruptcy or taking similar actions.

On May 18, 2009, the Company issued a press release announcing, among other things, the general terms of the Credit Facility Amendments and the Credit Facility Guarantees, a copy of which is filed as Exhibit 99.1 hereto and incorporated herein by reference.
