PROSPECTUS SUPPLEMENT

(To prospectus dated March 10, 2009)

\$300,000,000

Lincoln National Corporation

6.25% Senior Notes Due 2020

This is an offering by Lincoln National Corporation of \$300,000,000 aggregate principal amount of its 6.25% Senior Notes due 2020, or the notes.

The notes will bear interest at a rate of 6.25% per year. The notes will mature on February 15, 2020.

We will pay interest on the notes on each February 15 and August 15, commencing on August 15, 2010.

The notes will be issued in denominations of \$2,000, and integral multiples of \$1,000 in excess thereof, will be our unsecured obligations and will rank equally in right of payment with all existing and future unsecured and unsubordinated indebtedness.

We may redeem the notes in whole or in part prior to their maturity at any time at the redemption price described in Description of Senior Notes Optional Redemption.

The notes are not savings accounts, deposits or other obligations of a bank or non-bank subsidiary of Lincoln National Corporation. They are not insured by the Federal Deposit Insurance Corporation or any other governmental agency.

The notes will not be subject to redemption at the option of the holder or to any sinking fund payments.

Investing in the notes involves risks. See Risk Factors beginning on page S-5 of this prospectus supplement.

	Per Note	Total
Public offering price	99.851%	\$299,553,000
Underwriting discounts and commissions	0.650%	\$ 1,950,000
Proceeds, before expenses, to us	99.201%	\$297,603,000

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying base prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The notes will not be listed on any securities exchange. Currently, there is no public market for the notes.

Edgar Filing: LINCOLN NATIONAL CORP - Form 424B4

The underwriters expect to deliver the notes in book-entry form only, through the facilities of The Depository Trust Company, Clearstream, Luxembourg or Euroclear, as the case may be, on or about December 11, 2009 against payment therefor in immediately available funds.

No dealer, salesperson or other person is authorized to give any information or to represent anything not contained in this prospectus supplement and the accompanying base prospectus. You must not rely on any unauthorized information or representations. This prospectus supplement and the accompanying base prospectus are an offer to sell only the notes offered hereby, but only under circumstances and in jurisdictions where it is lawful to do so. The information contained in this prospectus supplement and the accompanying base prospectus is current only as of their respective dates.

Table of Contents

ABOUT THIS PROSPECTUS SUPPLEMENT

You should rely only on the information contained, or incorporated by reference, in this prospectus supplement and the accompanying base prospectus. We have not, and the underwriters have not, authorized anyone to provide you with information that is different. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and the underwriters are not, making an offer to sell the notes in any jurisdiction where the offer or sale is not permitted or in which the person making such offer or solicitation is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation. You should not assume that the information in this prospectus supplement, the accompanying base prospectus or any document incorporated by reference is accurate or complete as of any date other than the date of the applicable document. Our business, financial condition, results of operations and prospects may have changed since that date.

This document is in two parts. The first part is this prospectus supplement, which describes the specific terms of this offering of notes and also adds to and updates information contained in the accompanying base prospectus and the documents incorporated by reference into this prospectus supplement and the accompanying base prospectus. The second part, the accompanying base prospectus, gives more general information, some of which may not apply to this offering. If the description of the offering varies between this prospectus supplement and the accompanying base prospectus, you should rely on the information contained in this prospectus supplement.

Unless otherwise indicated, or the context otherwise requires, references in this prospectus supplement and the accompanying base prospectus to LNC, we, us, and our or similar terms are to Lincoln National Corporation and its subsidiaries.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Except for historical information contained or incorporated by reference in this prospectus supplement and the accompanying base prospectus, statements made, or incorporated by reference, in this prospectus supplement and the accompanying base prospectus, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, or PSLRA. A forward-looking statement is a statement that is not a historical fact and, without limitation, includes any statement that may predict, forecast, indicate or imply future results, performance or achievements, and may contain words like: believe, anticipate, expect, estimate, project, will, shall and other words or phrases with similar meaning in connection with a discussion of future operating or financial performance. In particular, these include statements relating to future actions, trends in our businesses, prospective services or products, future performance or financial results and the outcome of contingencies, such as legal proceedings. We claim the protection afforded by the safe harbor for forward-looking statements provided by the PSLRA.

Forward-looking statements involve risks and uncertainties that may cause actual results to differ materially from the results contained in the forward-looking statements. Risks and uncertainties that may cause actual results to vary materially, some of which are described within the forward-looking statements, include, among others:

Continued deterioration in general economic and business conditions, both domestic and foreign, that may affect foreign exchange rates, premium levels, claims experience, the level of pension benefit costs and funding and investment results;

Table of Contents

Continued economic declines and credit market illiquidity could cause us to realize additional impairments on investments and certain intangible assets including goodwill and a valuation allowance against deferred tax assets, which may reduce future earnings and/or affect our financial condition and ability to raise additional capital or refinance existing debt as it matures;

Uncertainty about the impact of the Troubled Asset Relief Program, or TARP, of the U.S. Department of the Treasury, or Treasury Department, on the economy;

The cost and other consequences of our participation in the TARP Capital Purchase Program, or CPP, under the Emergency Economic Stabilization Act of 2008, including the impact of existing regulation and future regulations to which we may become subject;

Legislative, regulatory or tax changes, both domestic and foreign, that affect the cost of, or demand for, LNC's products, the required amount of reserves and/or surplus, or otherwise affect our ability to conduct business, including changes to statutory reserves and/or risk-based capital, or RBC, requirements related to secondary guarantees under universal life and variable annuity products such as Actuarial Guideline 43, also known as Commissioners Annuity Reserve Valuation Method for Variable Annuities or VACARVM; restrictions on revenue sharing and 12b-1 payments; and the potential for U.S. Federal tax reform;

The initiation of legal or regulatory proceedings against LNC or its subsidiaries, and the outcome of any legal or regulatory proceedings, such as: adverse actions related to present or past business practices common in businesses in which LNC and its subsidiaries compete; adverse decisions in significant actions including, but not limited to, actions brought by federal and state authorities and extra-contractual and class action damage cases; new decisions that result in changes in law; and unexpected trial court rulings;

Changes in interest rates causing a reduction of investment income, the margins of LNC's fixed annuity and life insurance businesses and demand for LNC's products;

A decline in the equity markets causing a reduction in the sales of LNC's products, a reduction of asset-based fees that LNC charges on various investment and insurance products, an acceleration of amortization of deferred acquisition costs, or DAC, value of business acquired, or VOBA, deferred sales inducements, or DSI, and deferred front end loads, or DFEL, and an increase in liabilities related to guaranteed benefit features of LNC's variable annuity products;

Ineffectiveness of LNC's various hedging strategies used to offset the impact of changes in the value of liabilities due to changes in the level and volatility of the equity markets and interest rates;

A deviation in actual experience regarding future persistency, mortality, morbidity, interest rates or equity market returns from LNC's assumptions used in pricing its products, in establishing related insurance reserves and in the amortization of intangibles that may result in an increase in reserves and a decrease in net income, including as a result of stranger-originated life insurance business;

Changes in accounting principles generally accepted in the United States, or GAAP, that may result in unanticipated changes to LNC's net income;

Lowering of one or more of LNC's debt ratings issued by nationally recognized statistical rating organizations and the adverse impact such action may have on LNC's ability to raise capital and on its liquidity and financial condition;

S-iii

Table of Contents

Lowering of one or more of the insurer financial strength ratings of LNC's insurance subsidiaries and the adverse impact such action may have on the premium writings, policy retention, profitability of its insurance subsidiaries and liquidity;

Significant credit, accounting, fraud or corporate governance issues that may adversely affect the value of certain investments in the portfolios of LNC's companies requiring that LNC realize losses on such investments;

The impact of acquisitions and divestitures, restructurings, product withdrawals and other unusual items, including LNC's ability to integrate acquisitions and to obtain the anticipated results and synergies from acquisitions;

The adequacy and collectibility of reinsurance that LNC has purchased;

Acts of terrorism, a pandemic, war or other man-made and natural catastrophes that may adversely affect LNC's businesses and the cost and availability of reinsurance;

Competitive conditions, including pricing pressures, new product offerings and the emergence of new competitors, that may affect the level of premiums and fees that LNC can charge for its products;

The unknown impact on LNC's business resulting from changes in the demographics of LNC's client base, as aging baby-boomers move from the asset-accumulation stage to the asset-distribution stage of life; and

Loss of key management, financial planners or wholesalers.

The risks included here are not exhaustive. Other sections of this prospectus supplement, including Risk Factors beginning on page S-5, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and other documents filed with the Securities and Exchange Commission, or SEC, include additional factors that could impact our business and financial performance. Moreover, we operate in a rapidly changing and competitive environment. New risk factors emerge from time to time, and it is not possible for management to predict all such risk factors.

Further, it is not possible to assess the impact of all risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. In addition, we disclaim any obligation to update any forward-looking statements to reflect events or circumstances that occur after the date of this prospectus supplement.

Table of Contents**SUMMARY**

This summary highlights information contained elsewhere in this prospectus supplement, the accompanying base prospectus and the documents incorporated by reference. This summary sets forth the material terms of this offering, but does not contain all of the information you should consider before investing in the notes. You should read carefully this entire prospectus supplement and the accompanying base prospectus, including the documents incorporated by reference in this prospectus supplement and the accompanying base prospectus, before making an investment decision to purchase the notes, especially the risks of investing in the notes discussed in the section entitled "Risk Factors" in this prospectus supplement as well as the consolidated financial statements and notes to those consolidated financial statements incorporated by reference in this prospectus supplement and the accompanying base prospectus.

LNC

LNC is a holding company that operates multiple insurance businesses through subsidiary companies. Through our business segments, we sell a wide range of wealth protection, accumulation and retirement income products and solutions. These products include institutional and/or retail fixed and indexed annuities, variable annuities, universal life insurance, or UL, variable universal life insurance, or VUL, linked benefit UL, term life insurance and group insurance products. LNC was organized under the laws of the state of Indiana in 1968. We currently maintain our principal executive offices at 150 N. Radnor Chester Road, Radnor, Pennsylvania 19087, and our telephone number is (484) 583-1400. Lincoln Financial Group is the marketing name for LNC and its subsidiary companies. As of September 30, 2009, LNC had consolidated assets of \$181.5 billion and consolidated stockholders' equity of \$11.7 billion. For the nine months ended September 30, 2009, LNC had total revenue of \$6.1 billion and net loss of \$587 million. For the year ended December 31, 2008, LNC had total revenue of \$9.9 billion and net income of \$57 million.

We provide products and services in two operating businesses and report results through four business segments, as follows:

Business	Corresponding Segments
Retirement Solutions	Annuities and Defined Contribution
Insurance Solutions	Life Insurance and Group Protection
We also have Other Operations, which includes the financial data for operations that are not directly related to the business segments. Other Operations also includes our run-off institutional pension business, the results of certain disability income business due to the rescission of the indemnity reinsurance agreement with Swiss Re Life & Health America Inc., referred to as Swiss Re, and the results of our remaining media businesses.	

As of August 18, 2009, we and our wholly owned subsidiary, Lincoln National Investment Companies, entered into a Purchase and Sale Agreement with Macquarie Bank Limited, or MBL, pursuant to which we agreed to sell to MBL all of the outstanding capital stock of Delaware Management Holdings, Inc., our subsidiary, which provides investment products and services to individuals and institutions and the results of which comprised the former Investment Management segment. We expect this transaction to close on or around December 31, 2009.

S-1

Table of Contents

On October 1, 2009, we completed the sale of the capital stock of Lincoln National (UK) plc, or Lincoln UK, to SLF of Canada UK Limited for proceeds of approximately \$305 million, after-tax, subject to customary post-closing adjustments. We retained Lincoln UK's pension plan assets and liabilities. The results of Lincoln UK and its subsidiaries comprised the former Lincoln UK segment.

For a detailed description of LNC's business, the latest financial statements of LNC, management's discussion and analysis of LNC's financial condition and results of operations, and other important information concerning LNC, please refer to LNC's Annual Report on Form 10-K for the year ended December 31, 2008, LNC's Quarterly Report on Form 10-Q for the quarter ended September 30, 2009 and other documents filed with the SEC, which are incorporated by reference into this prospectus supplement and the accompanying base prospectus. For more information, see Documents Incorporated by Reference in the accompanying base prospectus.

Ratings Update

The Nationally Recognized Statistical Ratings Organizations rate the financial strength of our principal insurance subsidiaries and rate our debt. Ratings are not recommendations to buy our securities. Each of the rating agencies reviews its ratings periodically, and current ratings may not be maintained in the future. All ratings below are on negative outlook except for ratings of Standard & Poor's Ratings Services, or S&P, which have stable outlooks. For additional information on our financial strength or credit ratings, see Risk Factors Risk Factors Relating to Our Business. A downgrade in our financial strength or credit ratings could limit our ability to market products, increase the number or value of policies being surrendered and/or hurt our relationships with creditors.

The following summarizes the ratings for our debt and our principal insurance subsidiaries as of the date of this prospectus supplement:

	A.M. Best	Fitch	Moody's	S&P

Table of Contents

Summary of the Offering

Issuer	Lincoln National Corporation.
Securities Offered	\$300,000,000 aggregate principal amount of 6.25% Senior Notes due 2020.
The notes will be issued in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.	
Aggregate Principal Amount	\$300,000,000.
Maturity Date	The notes will mature on February 15, 2020.
Interest	Interest on the notes will accrue from the issue date until maturity at 6.25% per year calculated using a 360-day year comprised of twelve 30-day months. We will pay interest on the notes on each February 15 and August 15, commencing on August 15, 2010.
Use of Proceeds	We intend to use the net proceeds from this offering to repay at maturity the \$250 million floating rate senior notes due on March 12, 2010 and for general corporate purposes. Pending the application of the net proceeds, we expect to temporarily invest the proceeds from the sale of the notes offered hereby in short-term obligations. See Use of Proceeds.
Indenture	We will issue the notes under an indenture between us and The Bank of New York Mellon, as indenture trustee.
Ranking	The notes will be our senior unsecured debt obligations and will rank equally among themselves and with all of our other present and future unsecured and unsubordinated indebtedness. As of September 30, 2009, our consolidated indebtedness aggregated approximately \$5.2 billion. See Capitalization for the pro forma effect of this offering on our capitalization. The indenture places no limitation on the amount of additional senior indebtedness that may be incurred by us, which will rank equally with the notes. We expect from time to time to incur additional indebtedness constituting senior indebtedness.

Table of Contents

Optional Redemption	We may redeem the notes in whole or in part prior to their maturity at any time at the redemption price described in Description of Senior Notes Optional Redemption.
Form	The notes will be represented by one or more global securities registered in the name of Cede & Co., as nominee for The Depository Trust Company, referred to as DTC. Beneficial interests in the notes will be evidenced by, and transfers thereof will be effected only through, records maintained by participants in DTC.
Trustee and Principal Paying Agent	The Bank of New York Mellon.
Delivery and Clearance	We will deposit the global securities representing the notes with DTC in New York. You may hold an interest in the notes through DTC, Clearstream, Luxembourg or Euroclear Bank, as operator of the Euroclear System, directly as a participant of any such system or indirectly through organizations that are participants in such systems.
Governing Law	New York.

S-4

Table of Contents

RISK FACTORS

Your investment in the notes involves risks. You should carefully consider the risks described below as well as other information contained or incorporated by reference in this prospectus supplement and the accompanying base prospectus, including our financial statements and the notes thereto, before making an investment decision. The risks and uncertainties described below and incorporated by reference into this prospectus supplement and the accompanying base prospectus are not the only ones facing our company. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of these risks actually occur, our business, financial condition and results of operations could be materially affected. In that case, the value of the notes could decline substantially.

Risk Factors Relating to the Ownership of the Notes

We operate through our subsidiaries and, as a result, the notes will effectively be subordinated to the liabilities of our subsidiaries.

We are a holding company operating primarily through our insurance subsidiaries, and our primary assets are our equity interests in those subsidiaries. As a result, our right to receive assets upon the liquidation or recapitalization of any of our subsidiaries and your consequent right to participate in those assets, is subject to the claims of such subsidiary's creditors. Accordingly, our obligations, including the notes, are effectively subordinated to all existing and future indebtedness and other liabilities, including insurance policy-related liabilities, of our subsidiaries. As of September 30, 2009, our subsidiaries had approximately \$80 billion of outstanding liabilities that effectively rank and would rank senior to our current and future senior debt securities, unless our senior debt securities are guaranteed on a senior basis by these subsidiaries. Our subsidiaries may incur further indebtedness in the future. The notes are exclusively obligations of LNC. Our subsidiaries are not guarantors of the notes and have no obligation to pay any amounts due on the notes. Our subsidiaries are not required to provide us with funds for our payment obligations, whether by dividends, distributions, loans or other payments. In addition, any payment of dividends, distributions, loans or advances by our subsidiaries to us could be subject to statutory or contractual restrictions. Payments to us by our subsidiaries will also be contingent upon our subsidiaries' earnings and business considerations. The notes are unsecured.

We and our subsidiaries may incur additional indebtedness that may adversely affect our ability to meet our financial obligations under the notes.

The terms of the indenture and the notes do not limit the incurrence by us or our subsidiaries of indebtedness. We and our subsidiaries may incur additional indebtedness in the future, which could have important consequences to holders of the notes. For example, we may have insufficient cash to meet our financial obligations, including our obligations under the notes. Furthermore, our ability to obtain additional financing for the repayment of the notes, working capital, capital expenditures or general corporate purposes could be impaired. Additional debt could make us more vulnerable to changes in general economic conditions and also could affect the financial strength ratings of our insurance subsidiaries and the ratings of our notes.

We may be unable to repay the notes if our subsidiaries are unable to pay dividends or make advances to us.

At maturity, the entire outstanding principal amount of the notes will become due and payable by us. We may not have sufficient funds to pay the principal amount due. If we do not have sufficient funds on hand or available through existing borrowing facilities or through the declaration and payment of dividends by our subsidiaries, we will need to seek additional financing. Additional financing may not be

Table of Contents

Risk factors

available to us in the amounts necessary. We, as a holding company, are dependent upon dividends from our subsidiaries to enable us to service our outstanding debt, including the notes. For more information, see **Risk Factors Relating to Our Business**. Because we are a holding company with no direct operations, the inability of our subsidiaries to pay dividends to us in sufficient amounts would harm our ability to meet our obligations.

An active trading market for the notes may not develop.

The notes are a new issue of securities for which there is currently no public market. Any trading of the notes may be at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our performance and other factors. In addition, we do not know whether an active trading market will develop for the notes. To the extent that an active trading market does not develop, the liquidity and trading prices for the notes may be harmed.

We do not intend to apply for the notes to be listed on any securities exchange or to arrange for the notes to be quoted on any quotation system. The underwriters have advised us that they currently intend to make a market in the notes. However, they are not obligated to do so, and may discontinue any market making with respect to the notes at any time, for any reason or for no reason, without notice. If the underwriters cease to act as a market maker for the notes, we cannot assure you another firm or person will make a market in the notes.

The liquidity of any market for the notes will depend upon the number of holders of the notes, our results of operations and financial condition, the market for similar securities, the interest of securities dealers in making a market in the notes and other factors. An active or liquid trading market for the notes may not develop. We cannot assure you that you will be able to sell your notes at favorable prices or at all.

A downgrade, suspension or withdrawal of the rating assigned by a rating agency to the notes, if any, could cause the liquidity or market value of the notes to decline significantly.

Our credit ratings are an assessment by rating agencies of our ability to pay our debts when due. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the notes. These credit ratings may not reflect the potential impact of risks relating to the structure or marketing of the notes. Credit ratings are not a recommendation to buy, sell or hold any security, and may be revised or withdrawn at any time by the issuing organization in its sole discretion. Neither we nor any underwriter undertakes any obligation to maintain the ratings or to advise holders of notes of any changes in ratings. Each agency's rating should be evaluated independently of any other agency's rating.

In addition, credit rating agencies continually review their ratings for the companies that they follow, including us. The credit rating agencies also evaluate the insurance industry as a whole and may change their credit rating for us based on their overall view of our industry. A negative change in our rating could have an adverse effect on the price of the notes.

The notes will be rated by S&P, Moody's Investors Service, or Moody's and Fitch Ratings, or Fitch. There can be no assurance that these ratings will remain for any given period of time or that these ratings will not be lowered or withdrawn entirely by a rating agency if in that rating agency's judgment future circumstances relating to the basis of the rating, such as adverse changes in our company, so warrant. For more information about our ratings, see **Risk Factors Relating to Our Business**. A downgrade in our financial strength or credit ratings could limit our ability to market products, increase the number or value of policies being surrendered and/or hurt our relationships with creditors.

Table of Contents

Risk factors

We have made only limited covenants in the indenture, which may not protect your investment if we experience significant adverse changes in our financial condition or results of operations.

The indenture governing the notes does not:

require us to maintain any financial ratios or specified levels of net worth, revenues, income, cash flow or liquidity, and therefore, does not protect holders of the notes in the event that we experience significant adverse changes in our financial condition, results of operations or liquidity;

limit our ability or the ability of any of our subsidiaries to incur additional indebtedness, including indebtedness that is equal in right of payment to the notes or, subject to certain exceptions, indebtedness that is secured by liens on capital stock of certain subsidiaries; or

limit the aggregate principal amount of senior debt securities that may be issued.

Our ability to incur additional debt and take a number of other actions that are not limited by the terms of the notes could negatively affect the value of the notes.

Risk Factors Relating to Our Business

Adverse capital and credit market conditions may affect our ability to meet liquidity needs, access to capital and cost of capital.

The capital and credit markets have been experiencing extreme volatility and disruption for more than twelve months. In some cases, the markets have exerted downward pressure on availability of liquidity and credit capacity for certain issuers.

We maintain an investment portfolio of various holdings, types and maturities. These investments are subject to general credit, liquidity, market and interest rate risks. An extended disruption in the credit and capital markets could adversely affect LNC and its subsidiaries' ability to access sources of liquidity, and there can be no assurance that additional financing will be available to us on favorable terms, or at all, in the current market environment. In addition, further other-than-temporary-impairment, or OTTI, could reduce our statutory surplus, leading to lower RBC ratios and potentially reducing future dividend capacity from our insurance subsidiaries.

We need liquidity to pay our operating expenses, interest on our debt and dividends on our capital stock, to maintain our securities lending activities and to replace certain maturing liabilities. Without sufficient liquidity, we will be forced to curtail our operations, and our business will suffer. As a holding company with no direct operations, our principal asset is the capital stock of our insurance and investment management subsidiaries. Our ability to meet our obligations for payment of interest and principal on outstanding debt obligations and to pay dividends to shareholders and corporate expenses depends significantly upon the surplus and earnings of our subsidiaries and the ability of our subsidiaries to pay dividends or to advance or repay funds to us. Payments of dividends and advances or repayment of funds to us by our insurance subsidiaries are restricted by the applicable laws and regulations of their respective jurisdictions, including laws establishing minimum solvency and liquidity thresholds. Changes in these laws could constrain the ability of our subsidiaries to pay dividends or to advance or repay funds to us in sufficient amounts and at times necessary to meet our debt obligations and corporate expenses. For our insurance and other subsidiaries, the principal sources of our liquidity are insurance premiums and fees, annuity considerations, investment advisory fees, and cash flow from our investment portfolio and assets, consisting mainly of cash or assets that are readily convertible into cash. At the holding company level, sources of liquidity in normal markets also include a variety of short- and long-term instruments, including credit facilities, commercial paper and medium- and long-term debt.

Table of Contents

Risk factors

In the event that current resources do not satisfy our needs, we may have to seek additional financing. The availability of additional financing will depend on a variety of factors such as market conditions, the general availability of credit, the volume of trading activities, the overall availability of credit to the financial services industry, our credit ratings and credit capacity, as well as the possibility that customers or lenders could develop a negative perception of our long- or short-term financial prospects if we incur large investment losses or if the level of our business activity decreases due to a market downturn. Similarly, our access to funds may be impaired if regulatory authorities or rating agencies take negative actions against us. Please see Part I Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Executive Summary in LNC's Quarterly Report on Form 10-Q for the quarter ended June 30, 2009 and Summary Ratings Update in this prospectus supplement for more information on our ratings. Our internal sources of liquidity may prove to be insufficient, and in such case, we may not be able to successfully obtain additional financing on favorable terms, or at all.

Disruptions, uncertainty or volatility in the capital and credit markets may also limit our access to capital required to operate our business, most significantly our insurance operations. Such market conditions may limit our ability to replace, in a timely manner, maturing liabilities; satisfy statutory capital requirements; generate fee income and market-related revenue to meet liquidity needs; and access the capital necessary to grow our business. As such, we may be forced to delay raising capital, issue shorter term securities than we prefer, or bear an unattractive cost of capital which could decrease our profitability and significantly reduce our financial flexibility. Recently, our credit spreads have shown considerable volatility. A widening of our credit spreads could increase the interest rate we must pay on any new debt obligation we may issue. Our results of operations, financial condition, cash flows and statutory capital position could be materially adversely affected by disruptions in the financial markets.

Difficult conditions in the global capital markets and the economy generally may materially adversely affect our business and results of operations and we do not expect these conditions to improve in the near future.

Our results of operations are materially affected by conditions in the global capital markets and the economy generally, both in the U.S. and elsewhere around the world. The stress experienced by global capital markets that began in the second half of 2007, substantially increased during the second half of 2008 and continued through the first quarter of 2009. Concerns over unemployment, the availability and cost of credit, the U.S. mortgage market and a declining real estate market in the U.S. have contributed to increased volatility and diminished expectations for the economy and the markets going forward. Initially, the concerns on the part of market participants were focused on the subprime segment of the mortgage-backed securities market. However, these concerns have since expanded to include a broad range of mortgage- and asset-backed and other fixed income securities, including those rated investment grade, the U.S. and international credit and interbank money markets generally, and a wide range of financial institutions and markets, asset classes and sectors. As a result, the market for fixed income instruments has experienced decreased liquidity, increased price volatility, credit downgrade events and increased probability of default. Securities that are less liquid are more difficult to value and may be hard to sell, if desired. Domestic and international equity markets have also been experiencing heightened volatility and turmoil, with issuers (such as our company) that have exposure to the real estate, mortgage and credit markets particularly affected. These events and the reemergence of market upheavals may have an adverse effect on us, in part because we have a large investment portfolio and are also dependent upon customer behavior. Our revenues are likely to decline in such circumstances and our profit margins could erode. In addition, in the event of extreme prolonged market events, such as the global credit crisis, we could incur significant losses. Even in the absence of a market downturn, we are exposed to substantial risk of loss due to market volatility.

Table of Contents

Risk factors

Factors such as consumer spending, business investment, government spending, the volatility and strength of the capital markets and inflation all affect the business and economic environment and, ultimately, the amount and profitability of our business. In an economic downturn characterized by higher unemployment, lower family income, lower corporate earnings, lower business investment and lower consumer spending, the demand for our financial and insurance products could be adversely affected. In addition, we may experience an elevated incidence of claims and lapses or surrenders of policies. Our policyholders may choose to defer paying insurance premiums or stop paying insurance premiums altogether. Adverse changes in the economy could affect earnings negatively and could have a material adverse effect on our business, results of operations and financial condition.

Our participation in the TARP CPP subjects us to additional restrictions, oversight and costs, and has other potential consequences, that could materially affect our business, results and prospects.

On July 10, 2009, in connection with the TARP CPP, we issued and sold to the U.S. Treasury 950,000 shares of Series B preferred stock together with a related warrant to purchase up to 13,049,451 shares of our common stock at an exercise price of \$10.92 per share, in accordance with the terms of the TARP CPP, for an aggregate purchase price of \$950 million. Access to TARP CPP was an important component of our strategy to enhance our capital position and financial flexibility. We believe that the amount of our participation in the TARP CPP offers us the ability to exit the program, if necessary, to manage the potential material consequences to our businesses from the potential restrictions, oversight and costs of participation, which include the following:

Our acceptance of the TARP CPP funds could cause us to be perceived as having greater capital needs and weaker overall financial prospects than those of our competitors that have stated that they are not participating in the TARP CPP, which could adversely affect our competitive position and results;

Receipt of the TARP CPP funds subjects us to restrictions, oversight and costs that may have an adverse impact on our financial condition, results of operations and the price of our common stock. For example, the American Recovery and Reinvestment Act of 2009 and recently promulgated regulations thereunder contain significant limitations on the amount and form of bonus, retention and other incentive compensation that participants in the TARP CPP may pay to executive officers and senior management. These provisions may adversely affect our ability to attract and retain executive officers and other key personnel. Other regulatory initiatives applicable to participants in federal funding programs may also be forthcoming as the U.S. government continues to address dislocations in the financial markets. Compliance with such current and potential regulation and scrutiny may significantly increase our costs, impede the efficiency of our internal business processes, require us to increase our regulatory capital and limit our ability to pursue business opportunities in an efficient manner;

Future federal statutes may adversely affect the terms of the TARP CPP that are applicable to us and the Treasury Department may amend the terms of our agreement with them unilaterally if required by future statutes, including in a manner materially adverse to us;

Our participation in the TARP CPP imposes additional restrictions on our ability to increase our common stock dividend. In particular, we would need to obtain the U.S. Treasury's consent for any increase in our current quarterly dividend of \$0.01 per share of our common stock, as well as any stock repurchase, until the third anniversary of such investment unless, prior to such third anniversary, we redeem all of the shares of Series B preferred stock issued to the U.S. Treasury or the U.S. Treasury transfers such preferred stock to third parties. We are also unable to repurchase or redeem shares of our common stock or any series of preferred stock outstanding unless all accrued and unpaid dividends for all past dividend periods on the Series B preferred stock issued to the U.S. Treasury are fully paid; and

Table of Contents

Risk factors

If we do not repurchase the warrant from the U.S. Treasury when we repay the investment, the U.S. Treasury will liquidate the warrant, which will result in continued dilution of the ownership interest of our existing holders of common stock.

If our businesses do not perform well and/or the price of our common stock does not increase, we may be required to recognize an impairment of our goodwill or to establish a valuation allowance against the deferred income tax asset, which could have a material adverse effect on our results of operations and financial condition.

Goodwill represents the excess of the purchase price incurred to acquire subsidiaries and other businesses over the fair value of their net assets as of the date of acquisition. As of September 30, 2009, we had a total of \$3.1 billion of goodwill on our Consolidated Balance Sheets, of which \$2.2 billion related to our Insurance Solutions Life Insurance segment and \$440 million related to our Retirement Solutions Annuities segment. We test goodwill at least annually for indications of value impairment with consideration given to financial performance and other relevant factors. In addition, certain events, including a significant and adverse change in legal factors or the business climate, an adverse action or assessment by a regulator or unanticipated competition, would cause us to review the carrying amounts of goodwill for impairment. Impairment testing is performed based upon estimates of the fair value of the reporting unit to which the goodwill relates. The reporting unit is the operating segment or a business one level below that operating segment if discrete financial information is prepared and regularly reviewed by management at that level. If the implied fair value of the reporting unit's goodwill is lower than its carrying amount, goodwill is impaired and written down to its fair value, and a charge is reported in impairment of intangibles on our Consolidated Statements of Income. For the year ended December 31, 2008, we took total pre-tax impairment charges of \$176 million, primarily related to our media business, and for the quarter ended March 31, 2009, we took a \$603 million pre-tax impairment charge primarily related to our annuities business.

Subsequent reviews of goodwill could result in additional impairment of goodwill during 2009, and such write downs could have a material adverse effect on our results of operations or financial position, but will not affect the statutory capital of our insurance subsidiaries. For more information on goodwill, please see Part II Item 8. Financial Statements and Supplementary Data Note 8 and Part II Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations included in LNC's Annual Report on Form 10-K for the year ended December 31, 2008, and Part I Item 1. Financial Statements Note 8 and Part I Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations included in LNC's Quarterly Report on Form 10-Q for the quarter ended September 30, 2009.

Deferred income tax represents the tax effect of the differences between the book and tax basis of assets and liabilities. Deferred tax assets are assessed periodically by management to determine if they are realizable. Factors in management's determination include the performance of the business, including the ability to generate capital gains from a variety of sources and tax planning strategies. If, based on available information, it is more likely than not that the deferred income tax asset will not be realized, then a valuation allowance must be established with a corresponding charge to net income. Such valuation allowance could have a material adverse effect on our results of operations and financial position, but will not affect the statutory capital of our insurance subsidiaries.

Because we are a holding company with no direct operations, the inability of our subsidiaries to pay dividends to us in sufficient amounts would harm our ability to meet our obligations.

We are a holding company, and we have no direct operations. Our principal assets are the capital stock of our insurance subsidiaries.

Table of Contents

Risk factors

At the holding company level, sources of liquidity in normal markets include a variety of short- and long-term instruments, including credit facilities, commercial paper and medium- and long-term debt. However, our ability to meet our obligations for payment of interest and principal on outstanding debt obligations and to pay dividends to shareholders, repurchase our securities and pay corporate expenses depends primarily on the ability of our subsidiaries to pay dividends or to advance or repay funds to us. Under Indiana laws and regulations, our Indiana insurance subsidiaries, including LNL, our primary insurance subsidiary, may pay dividends to us without prior approval of the Indiana Insurance Commissioner, or the Commissioner, up to a certain threshold, or must receive prior approval of the Commissioner to pay a dividend if such dividend, along with all other dividends paid within the preceding twelve consecutive months exceed the statutory limitation. The current Indiana statutory limitation is the greater of 10% of the insurer's contract holders' surplus, as shown on its last annual statement on file with the Commissioner or the insurer's statutory net gain from operations for the prior calendar year.

In addition, payments of dividends and advances or repayment of funds to us by our insurance subsidiaries are restricted by the applicable laws of their respective jurisdictions requiring that our insurance subsidiaries hold a specified amount of minimum reserves in order to meet future obligations on their outstanding policies. These regulations specify that the minimum reserves shall be calculated to be sufficient to meet future obligations, giving consideration for required future premiums to be received, are based on certain specified mortality and morbidity tables, interest rates and methods of valuation, which are subject to change. In order to meet their claims-paying obligations, our insurance subsidiaries regularly monitor their reserves to ensure we hold sufficient amounts to cover actual or expected contract and claims payments. At times, we may determine that reserves in excess of the minimum may be needed to ensure sufficiency.

Changes in these laws can constrain the ability of our subsidiaries to pay dividends or to advance or repay funds to us in sufficient amounts and at times necessary to meet our debt obligations and corporate expenses. For example, in September of 2008, the National Association of Insurance Commissioners, or NAIC, adopted a new statutory reserving method known as VACARVM, which will be effective as of December 31, 2009. VACARVM has the potential to require statutory reserves well in excess of current levels for certain variable annuity riders sold by us. Requiring our insurance subsidiaries to hold additional reserves has the potential to constrain their ability to pay dividends to the holding company.

Assets in the investment general accounts of our insurance subsidiaries support their reserve liabilities. At September 30, 2009, 80% of investment general account assets were available-for-sale, or AFS, fixed maturity securities of various holdings, types and maturities. These investments are subject to general credit, liquidity, market and interest rate risks. Beginning in 2008 and continuing into 2009, the capital and credit markets have experienced an unusually high degree of volatility. As a result, the market for fixed income securities has experienced illiquidity, increased price volatility, credit downgrade events and increased expected probability of default. Securities that are less liquid are more difficult to value and may be hard to sell, if desired. These market disruptions have led to increased impairments of securities in the general accounts of our insurance subsidiaries, thereby reducing contract holders' surplus.

The earnings of our insurance subsidiaries also impact contract holders' surplus. Principal sources of earnings are insurance premiums and fees, annuity considerations, investment advisory fees, and income from our investment portfolio and assets, consisting mainly of cash or assets that are readily convertible into cash. Recent economic conditions have resulted in lower earnings in our insurance subsidiaries. Lower earnings constrain the growth in the insurance subsidiaries' capital, and therefore, can constrain the payment of dividends and advances or repayment of funds to us.

Table of Contents

Risk factors

In addition, the amount of surplus that our insurance subsidiaries could pay as dividends is constrained by the amount of surplus they hold to maintain their financial strength ratings, to provide an additional layer of margin for risk protection and for future investment in our businesses. Notwithstanding the foregoing, we believe that our insurance subsidiaries have sufficient liquidity to meet their policy holder obligations and maintain their operations.

The result of the difficult economic and market conditions in reducing the contract holders' surplus of our insurance subsidiaries has affected our ability to pay shareholder dividends and to engage in share repurchases. We have taken actions to reduce the holding company's liquidity needs, including reducing our quarterly common dividend to \$0.01 per share, as well as to increase the capital of our insurance subsidiaries through our \$690 million common stock offering in June 2009 and participation in the TARP CPP. In the event that current resources do not satisfy our current needs, we may have to seek additional financing, which may not be available or only available with unfavorable terms and conditions. For a further discussion of liquidity, see Part II Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations Review of Consolidated Financial Condition Liquidity and Capital Resources in LNC's Annual Report on Form 10-K for the year ended December 31, 2008 and Part I Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Review of Consolidated Financial Condition Liquidity and Capital Resources in LNC's Quarterly Report on Form 10-Q for the quarter ended September 30, 2009.

The difficulties faced by other financial institutions could adversely affect us.

We have exposure to many different industries and counterparties, and routinely execute transactions with counterparties in the financial services industry, including brokers and dealers, commercial banks, investment banks and other institutions. Many of these transactions expose us to credit risk in the event of default of our counterparty. In addition, with respect to secured transactions, our credit risk may be exacerbated when the collateral held by us cannot be realized upon or is liquidated at prices not sufficient to recover the full amount of the loan or derivative exposure due to it. We also may have exposure to these financial institutions in the form of unsecured debt instruments, derivative transactions and/or equity investments. There can be no assurance that any such losses or impairments to the carrying value of these assets would not materially and adversely affect our business and results of operations.

Furthermore, we distribute a significant amount of our insurance, annuity and mutual fund products through large financial institutions. We believe that the mergers of several of these entities, as well as the negative impact of the markets on these entities, has disrupted and may lead to further disruption of their businesses, which may have a negative effect on our production levels.

Our participation in a securities lending program and a reverse repurchase program subjects us to potential liquidity and other risks.

We participate in a securities lending program for our general account whereby fixed income securities are loaned by our agent bank to third parties, primarily major brokerage firms and commercial banks. The borrowers of our securities provide us with collateral, typically in cash, which we separately maintain. We invest such cash collateral in other securities, primarily in commercial paper and money market or other short term funds. Securities with a fair value of \$668 million were on loan under the program as of September 30, 2009. Securities loaned under such transactions may be sold or repledged by the transferee. We were liable for cash collateral under our control of \$694 million as of September 30, 2009.

We participate in a reverse repurchase program for our general account whereby we sell fixed income securities to third parties, primarily major brokerage firms, with a concurrent agreement to repurchase

Table of Contents

Risk factors

those same securities at a determined future date. The borrowers of our securities provide us with cash collateral which is typically invested in fixed maturity securities. The fair value of securities pledged under reverse repurchase agreements was \$364 million as of September 30, 2009.

As of September 30, 2009, substantially all of the securities on loan under the program could be returned to us by the borrowers at any time. Collateral received under the reverse repurchase program cannot be returned prior to maturity, however, market conditions on the repurchase date may limit our ability to enter into new agreements. The return of loaned securities or our inability to enter into new reverse repurchase agreements would require us to return the cash collateral associated with such securities. In addition, in some cases, the maturity of the securities held as invested collateral (i.e. securities that we have purchased with cash received from the third parties) may exceed the term of the related securities and the market value may fall below the amount of cash received as collateral and invested. If we are required to return significant amounts of cash collateral on short notice and we are forced to sell securities to meet the return obligation, we may have difficulty selling such collateral that is invested in securities in a timely manner, and we may be forced to sell securities in a volatile or illiquid market for less than we otherwise would have been able to realize under normal market conditions, or both. In addition, under stressful capital market and economic conditions, such as those conditions we have experienced recently, liquidity broadly deteriorates, which may further restrict our ability to sell securities.

Our reserves for future policy benefits and claims related to our current and future business as well as businesses we may acquire in the future may prove to be inadequate.

We establish and carry, as a liability, reserves based on estimates of how much we will need to pay for future benefits and claims. For our insurance products, we calculate these reserves based on many assumptions and estimates, including, but not limited to, estimated premiums we will receive over the assumed life of the policy, the timing of the event covered by the insurance policy, the lapse rate of the policies, the amount of benefits or claims to be paid and the investment returns on the assets we purchase with the premiums we receive.

As part of our transition plan related to the rescission of a reinsurance treaty covering our disability income business, we are conducting a reserve study to determine the adequacy of the reserves to cover contract holder obligations. This study, which we expect will be completed by the fourth quarter of 2009, could result in an increase to the reserves that we have assumed from Swiss Re pursuant to the rescission agreement. Any resulting increase may have a material impact on our results for the quarter in which the adjustment is recorded.

The sensitivity of our statutory reserves and surplus established for our variable annuity base contracts and riders to changes in the equity markets will vary depending on the magnitude of the decline. The sensitivity will be affected by the level of account values relative to the level of guaranteed amounts, product design and reinsurance. Statutory reserves for variable annuities depend upon the cumulative equity market impacts on the business in force, and therefore, result in non-linear relationships with respect to the level of equity market performance within any reporting period.

The assumptions and estimates we use in connection with establishing and carrying our reserves are inherently uncertain. Accordingly, we cannot determine with precision the ultimate amount or the timing of the payment of actual benefits and claims or whether the assets supporting the policy liabilities will grow to the level we assume prior to payment of benefits or claims. If our actual experience is different from our assumptions or estimates, our reserves may prove to be inadequate in relation to our estimated future benefits and claims.

Table of Contents**Risk factors**

Because the equity markets and other factors impact the profitability and expected profitability of many of our products, changes in equity markets and other factors may significantly affect our business and profitability.

The fee revenue that we earn on equity-based variable annuities, unit-linked accounts, VUL insurance policies and investment advisory business is based upon account values. Because strong equity markets result in higher account values, strong equity markets positively affect our net income through increased fee revenue. Conversely, a weakening of the equity markets results in lower fee income and may have a material adverse effect on our results of operations and capital resources.

The increased fee revenue resulting from strong equity markets increases the expected gross profits, or EGPs, from variable insurance products as do better than expected lapses, mortality rates and expenses. As a result, higher EGPs may result in lower net amortized costs related to DAC, DSI, VOBA, DFEL and changes in future contract benefits. However, a decrease in the equity markets, as well as worse than expected increases in lapses, mortality rates and expenses, depending upon their significance, may result in higher net amortized costs associated with DAC, DSI, VOBA, DFEL and changes in future contract benefits and may have a material adverse effect on our results of operations and capital resources. For example, in the fourth quarter of 2008, we reset our baseline of account values from which EPGs are projected. As a result of this and the impact of the volatile capital market conditions on our annuity reserves, we had a cumulative unfavorable prospective unlocking of \$223 million, after tax, during 2008.

Changes in the equity markets, interest rates and/or volatility affect the profitability of our products with guaranteed benefits; therefore, such changes may have a material adverse effect on our business and profitability.

Certain of our variable annuity products include guaranteed benefit riders. These include guaranteed death benefit, or GDB, guaranteed withdrawal benefit, or GWB, and guaranteed income benefit, or GIB, riders. Our GWB, GIB and 4LATER (form of GIB rider) features have elements of both insurance benefits accounted for under the Financial Services Insurance Claim Costs and Liabilities for Future Policy Benefits Subtopic of the Financial Accounting Standards Board, or FASB, *Accounting Standards Codification*, or ASC, referred to as benefit reserves, and embedded derivatives accounted for under the Derivatives and Hedging and the Fair Value Measurements and Disclosures Topics of the FASB ASC, referred to as embedded derivative reserves. The reserves accounted for under the Financial Services Insurance Claim Costs and Liabilities for Future Policy Benefits Subtopic of the FASB ASC resulting from a benefit ratio unlocking component are calculated in a manner consistent with our GDB, as described below. We calculate the value of the embedded derivative reserve and the benefit reserves based on the specific characteristics of each guaranteed living benefits, or GLB feature. The amount of reserves related to GDB for variable annuities is tied to the difference between the value of the underlying accounts and the GDB, calculated using a benefit ratio approach. The GDB reserves take into account the present value of total expected GDB payments, the present value of total expected GDB assessments over the life of the contract, claims paid to date and assessments to date. Reserves for our GIB and certain GWB with lifetime benefits are based on a combination of fair value of the underlying benefit and a benefit ratio approach that is based on the projected future payments in excess of projected future account values. The benefit ratio approach takes into account the present value of total expected GIB payments, the present value of total expected GIB assessments over the life of the contract, claims paid to date and assessments to date. The amount of reserves related to those GWB that do not have lifetime benefits is based on the fair value of the underlying benefit.

Both the level of expected payments and expected total assessments used in calculating the benefit ratio are affected by the equity markets. The liabilities related to fair value are impacted by changes in equity markets, interest rates and volatility. Accordingly, strong equity markets will decrease the amount of

Table of Contents**Risk factors**

reserves that we must carry, and strong equity markets, increases in interest rates and decreases in volatility will generally decrease the reserves calculated using fair value. Conversely, a decrease in the equity markets will increase the expected future payments used in the benefit ratio approach, which has the effect of increasing the amount of reserves. Also, a decrease in the equity market along with a decrease in interest rates and an increase in volatility will generally result in an increase in the reserves calculated using fair value, which are the conditions we have experienced recently.

Increases in reserves would result in a charge to our earnings in the quarter in which the increase occurs. Therefore, we maintain a customized dynamic hedge program that is designed to mitigate the risks associated with income volatility around the change in reserves on guaranteed benefits. However, the hedge positions may not be effective to exactly offset the changes in the carrying value of the guarantees due to, among other things, the time lag between changes in their values and corresponding changes in the hedge positions, high levels of volatility in the equity markets and derivatives markets, extreme swings in interest rates, contract holder behavior different than expected and divergence between the performance of the underlying funds and hedging indices. For example, for the quarters ended September 30, 2009 and 2008, we experienced a breakage on our guaranteed living benefits net derivatives results of \$57 million and \$252 million, pre-DAC, pre-tax. Breakage is defined as the difference between the change in the value of the liabilities, excluding the amount related to the non-performance risk component, and the change in the fair value of the derivatives. The non-performance risk factor is required under the Fair Value Measurements and Disclosures Topic of the FASB ASC, which requires us to consider our own credit standing, which is not hedged, in the valuation of certain of these liabilities. A decrease in our own credit spread could cause the value of these liabilities to increase, resulting in a reduction to net income. Conversely, an increase in our own credit spread could cause the value of these liabilities to decrease, resulting in an increase to net income.

In addition, we remain liable for the guaranteed benefits in the event that derivative counterparties are unable or unwilling to pay, and we are also subject to the risk that the cost of hedging these guaranteed benefits increases, resulting in a reduction to net income. These, individually or collectively, may have a material adverse effect on net income, financial condition or liquidity.

Changes in interest rates may cause interest rate spreads to decrease and may result in increased contract withdrawals.

Because the profitability of our fixed annuity and interest-sensitive whole life, UL and fixed portion of VUL insurance business depends in part on interest rate spreads, interest rate fluctuations could negatively affect our profitability. Changes in interest rates may reduce both our profitability from spread businesses and our return on invested capital. Some of our products, principally fixed annuities, interest-sensitive whole life, UL and the fixed portion of VUL insurance, have interest rate guarantees that expose us to the risk that changes in interest rates will reduce our spread, or the difference between the amounts that we are required to pay under the contracts and the amounts we are able to earn on our general account investments intended to support our obligations under the contracts. Declines in our spread or instances where the returns on our general account investments are not enough to support the interest rate guarantees on these products could have a material adverse effect on our businesses or results of operations.

In periods of increasing interest rates, we may not be able to replace the assets in our general account with higher yielding assets needed to fund the higher crediting rates necessary to keep our interest-sensitive products competitive. We therefore may have to accept a lower spread and thus lower profitability or face a decline in sales and greater loss of existing contracts and related assets. In periods of declining interest rates, we have to reinvest the cash we receive as interest or return of principal on our investments in lower yielding instruments than available. Moreover, borrowers may prepay fixed-income

Table of Contents

Risk factors

securities, commercial mortgages and mortgage-backed securities in our general account in order to borrow at lower market rates, which exacerbates this risk. Because we are entitled to reset the interest rates on our fixed rate annuities only at limited, pre-established intervals, and since many of our contracts have guaranteed minimum interest or crediting rates, our spreads could decrease and potentially become negative. Increases in interest rates may cause increased surrenders and withdrawals of insurance products. In periods of increasing interest rates, policy loans and surrenders and withdrawals of life insurance policies and annuity contracts may increase as contract holders seek to buy products with perceived higher returns. This process may lead to a flow of cash out of our businesses. These outflows may require investment assets to be sold at a time when the prices of those assets are lower because of the increase in market interest rates, which may result in realized investment losses. A sudden demand among consumers to change product types or withdraw funds could lead us to sell assets at a loss to meet the demand for funds.

Our requirements to post collateral or make payments related to declines in market value of specified assets may adversely affect our liquidity and expose us to counterparty credit risk.

Many of our transactions with financial and other institutions, including settling futures positions, specify the circumstances under which the parties are required to post collateral. The amount of collateral we may be required to post under these agreements may increase under certain circumstances, which could adversely affect our liquidity. In addition, under the terms of some of our transactions, we may be required to make payments to our counterparties related to any decline in the market value of the specified assets.

Losses due to defaults by others could reduce our profitability or negatively affect the value of our investments.

Third parties that owe us money, securities or other assets may not pay or perform their obligations. These parties include the issuers whose securities we hold, borrowers under the mortgage loans we make, customers, trading counterparties, counterparties under swaps and other derivative contracts, reinsurers and other financial intermediaries. These parties may default on their obligations to us due to bankruptcy, lack of liquidity, downturns in the economy or real estate values, operational failure, corporate governance issues or other reasons. A further downturn in the U.S. and other economies could result in increased impairments.

Defaults on our mortgage loans and volatility in performance may adversely affect our profitability.

Our mortgage loans face default risk and are principally collateralized by commercial properties. Mortgage loans are stated on our balance sheet at unpaid principal balance, adjusted for any unamortized premium or discount, deferred fees or expenses, and are net of valuation allowances. We establish valuation allowances for estimated impairments as of the balance sheet date based on information, such as the market value of the underlying real estate securing the loan, any third party guarantees on the loan balance or any cross collateral agreements and their impact on expected recovery rates. As of September 30, 2009, there were nine impaired mortgage loans, or less than 1% of total mortgage loans, and seven mortgage loans that were two or more payments delinquent. The performance of our mortgage loan investments, however, may fluctuate in the future. In addition, some of our mortgage loan investments have balloon payment maturities. An increase in the default rate of our mortgage loan investments could have a material adverse effect on our business, results of operations and financial condition.

Table of Contents

Risk factors

Further, any geographic or sector exposure in our mortgage loans may have adverse effects on our investment portfolios and consequently on our consolidated results of operations or financial condition. While we seek to mitigate this risk by having a broadly diversified portfolio, events or developments that have a negative effect on any particular geographic region or sector may have a greater adverse effect on the investment portfolios to the extent that the portfolios are exposed.

Our investments are reflected within our consolidated financial statements utilizing different accounting bases, and, accordingly, we may not have recognized differences, which may be significant, between cost and fair value in our consolidated financial statements.

Our principal investments are in fixed maturity and equity securities, mortgage loans on real estate, policy loans, short-term investments, derivative instruments, limited partnerships and other invested assets. The carrying value of such investments is as follows:

Fixed maturity and equity securities are classified as AFS, except for those designated as trading securities, and are reported at their estimated fair value. The difference between the estimated fair value and amortized cost of such securities (i.e. unrealized investment gains and losses) is recorded as a separate component of other comprehensive income or loss, net of adjustments to DAC, policyholder related amounts and deferred income taxes;

Fixed maturity and equity securities designated as trading securities, which support certain reinsurance arrangements, are recorded at fair value with subsequent changes in fair value recognized in realized gain (loss). However, offsetting the changes to fair value of the trading securities are corresponding changes in the fair value of the embedded derivative liability associated with the underlying reinsurance arrangement. In other words, the investment results for the trading securities, including gains and losses from sales, are passed directly to the reinsurers through the contractual terms of the reinsurance arrangements. However, there are trading securities associated with the disability income business for which the reinsurance agreement with Swiss Re was rescinded, and therefore, we now retain the gains and losses on those securities;

Short-term investments include investments with remaining maturities of one year or less, but greater than three months, at the time of acquisition and are stated at amortized cost, which approximates fair value;

Mortgage loans are stated at unpaid principal balance, adjusted for any unamortized premium or discount, deferred fees or expenses, net of valuation allowances;

Policy loans are stated at unpaid principal balances;

Real estate joint ventures and other limited partnership interests are carried using the equity method of accounting; and

Other invested assets consist principally of derivatives with positive fair values. Derivatives are carried at fair value with changes in fair value reflected in income from non-qualifying derivatives and derivatives in fair value hedging relationships. Derivatives in cash flow hedging relationships are reflected as a separate component of other comprehensive income or loss.

Investments not carried at fair value in our consolidated financial statements principally, mortgage loans, policy loans and real estate may have fair values which are substantially higher or lower than the carrying value reflected in our consolidated financial statements. In addition, unrealized losses are not reflected in net income unless we realize the losses by either selling the security at below amortized cost or determine

that the decline in fair value is deemed to be other-than-temporary (i.e. impaired). Each of such asset classes is regularly evaluated for impairment under the accounting guidance appropriate to the respective asset class.

Table of Contents

Risk factors

Our valuation of fixed maturity, equity and trading securities may include methodologies, estimations and assumptions which are subject to differing interpretations and could result in changes to investment valuations that may materially adversely affect our results of operations or financial condition.

Fixed maturity, equity and trading securities and short-term investments, which are reported at fair value on our Consolidated Balance Sheets, represented the majority of our total cash and invested assets. Pursuant to the Fair Value Measurements and Disclosures Topics of the FASB ASC, we have categorized these securities into a three-level hierarchy, based on the priority of the inputs to the respective valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The determination of fair values in the absence of quoted market prices is based on: valuation methodologies; securities we deem to be comparable; and assumptions deemed appropriate given the circumstances. The fair value estimates are made at a specific point in time, based on available market information and judgments about financial instruments, including estimates of the timing and amounts of expected future cash flows and the credit standing of the issuer or counterparty. Factors considered in estimating fair value include coupon rate, maturity, estimated duration, call provisions, sinking fund requirements, credit rating, industry sector of the issuer and quoted market prices of comparable securities. The use of different methodologies and assumptions may have a material effect on the estimated fair value amounts.

During periods of market disruption, including periods of significantly increasing/decreasing or high/low interest rates, rapidly widening credit spreads or illiquidity, it may be difficult to value certain of our securities, if trading becomes less frequent and/or market data becomes less observable. There may be certain asset classes that were in active markets with significant observable data that become illiquid due to the current financial environment. In such cases, more securities may fall to Level 3 and thus require more subjectivity and management judgment. As such, valuations may include inputs and assumptions that are less observable or require greater estimation, as well as valuation methods which are more sophisticated or require greater estimation, thereby resulting in values which may be less than the value at which the investments may be ultimately sold. Further, rapidly changing and unprecedented credit and equity market conditions could materially impact the valuation of securities as reported within our consolidated financial statements and the period-to-period changes in value could vary significantly. Decreases in value may have a material adverse effect on our results of operations or financial condition.

Some of our investments are relatively illiquid and are in asset classes that have been experiencing significant market valuation fluctuations.

We hold certain investments that may lack liquidity, such as privately placed fixed maturity securities, mortgage loans, policy loans and other limited partnership interests. These asset classes represented 24% of the carrying value of our total cash and invested assets as of September 30, 2009. Even some of our very high quality assets have been more illiquid as a result of the recent challenging market conditions.

If we require significant amounts of cash on short notice in excess of normal cash requirements or are required to post or return collateral in connection with our investment portfolio, derivatives transactions or securities lending activities, we may have difficulty selling these investments in a timely manner, be forced to sell them for less than we otherwise would have been able to realize, or both.

The reported value of our relatively illiquid types of investments, our investments in the asset classes described in the paragraph above and, at times, our high quality, generally liquid asset classes, do not necessarily reflect the lowest current market price for the asset. If we were forced to sell certain of our assets in the current market, there can be no assurance that we would be able to sell them for the prices at which we have recorded them and we might be forced to sell them at significantly lower prices.

Table of Contents

Risk factors

We invest a portion of our invested assets in investment funds, many of which make private equity investments. The amount and timing of income from such investment funds tends to be uneven as a result of the performance of the underlying investments, including private equity investments. The timing of distributions from the funds, which depends on particular events relating to the underlying investments, as well as the funds' schedules for making distributions and their needs for cash, can be difficult to predict. As a result, the amount of income that we record from these investments can vary substantially from quarter to quarter. Recent equity and credit market volatility may reduce investment income for these types of investments.

In addition, other external factors may cause a drop in value of investments, such as ratings downgrades on asset classes. For example, Congress has proposed legislation to amend the U.S. Bankruptcy Code to permit bankruptcy courts to modify mortgages on primary residences, including an ability to reduce outstanding mortgage balances. Such actions by bankruptcy courts may impact the ratings and valuation of our residential mortgage-backed investment securities.

The determination of the amount of allowances and impairments taken on our investments is highly subjective and could materially impact our results of operations or financial position.

The determination of the amount of allowances and impairments varies by investment type and is based upon our periodic evaluation and assessment of known and inherent risks associated with the respective asset class. Such evaluations and assessments are revised as conditions change and new information becomes available. Management updates its evaluations regularly and reflects changes in allowances and impairments in operations as such evaluations are revised. There can be no assurance that our management has accurately assessed the level of impairments taken and allowances reflected in our financial statements. Furthermore, additional impairments may need to be taken or allowances provided for in the future. Historical trends may not be indicative of future impairments or allowances.

We adopted updates to the Investments Debt and Equity Securities Topic of the FASB ASC for our debt securities effective January 1, 2009. This adoption required that an OTTI loss be separated into the amount representing the decrease in cash flows expected to be collected, or credit loss, which is recognized in earnings, and the amount related to all other factors, or noncredit loss, which is recognized in other comprehensive income, or OCI. In addition, the requirement for management to assert that it has the intent and ability to hold an impaired security until recovery was replaced with the requirement that management assert that it does not have the intent to sell the security and that it is more likely than not that it will not have to sell the security before recovery of its cost basis.

We regularly review our AFS securities for declines in fair value that we determine to be other-than-temporary. For an equity security, if we do not have the ability and intent to hold the security for a sufficient period of time to allow for a recovery in value, we conclude that an OTTI has occurred, and the amortized cost of the equity security is written down to the current fair value, with a corresponding change to realized gain (loss) on our Consolidated Statements of Income. When assessing our ability and intent to hold the equity security to recovery, we consider, among other things, the severity and duration of the decline in fair value of the equity security as well as the cause of decline, a fundamental analysis of the liquidity, business prospects and overall financial condition of the issuer.

For a debt security, if we intend to sell a security or it is more likely than not we will be required to sell a debt security before recovery of its amortized cost basis and the fair value of the debt security is below amortized cost, we conclude that an OTTI has occurred and the amortized cost is written down to current fair value, with a corresponding charge to realized gain (loss) on our Consolidated Statements of Income. If we do not intend to sell a debt security or it is not more likely than not we will be required to

Table of Contents

Risk factors

sell a debt security before recovery of its amortized cost basis but the present value of the cash flows expected to be collected is less than the amortized cost of the debt security (referred to as the credit loss), we conclude that an OTTI has occurred and the amortized cost is written down to the estimated recovery value with a corresponding charge to realized gain (loss) on our Consolidated Statements of Income, as this is also deemed the credit portion of the OTTI. The remainder of the decline to fair value is recorded to OCI to unrealized OTTI loss on AFS securities on our Consolidated Statements of Stockholders' Equity, as this is considered a noncredit (i.e., recoverable) impairment. We had total OTTI of \$148 million for the quarter ended September 30, 2009, compared to \$237 million for the quarter ended September 30, 2008.

Related to our unrealized losses, we establish deferred tax assets for the tax benefit we may receive in the event that losses are realized. The realization of significant realized losses could result in an inability to recover the tax benefits and may result in the establishment of valuation allowances against our deferred tax assets. Realized losses or impairments may have a material adverse impact on our results of operations and financial position.

We will be required to pay interest on our capital securities with proceeds from the issuance of qualifying securities if we fail to achieve specified capital adequacy or net income and stockholders' equity levels.

As of September 30, 2009, we had approximately \$1.5 billion in principal amount of capital securities outstanding. All of the capital securities contain covenants that require us to make interest payments in accordance with an alternative coupon satisfaction mechanism, or ACSM, if we determine that one of the following triggers exists as of the 30th day prior to an interest payment date, or the determination date :

1. LNL's RBC ratio is less than 175% (based on the most recent annual financial statement filed with the State of Indiana); or
2. (i) The sum of our consolidated net income for the four trailing fiscal quarters ending on the quarter that is two quarters prior to the most recently completed quarter prior to the determination date is zero or negative, and (ii) our consolidated stockholders' equity (excluding accumulated other comprehensive income and any increase in stockholders' equity resulting from the issuance of preferred stock during a quarter), or adjusted stockholders' equity, as of (x) the most recently completed quarter and (y) the end of the quarter that is two quarters before the most recently completed quarter, has declined by 10% or more as compared to the quarter that is ten fiscal quarters prior to the last completed quarter, or the benchmark quarter.

The ACSM would generally require us to use commercially reasonable efforts to satisfy our obligation to pay interest in full on the capital securities with the net proceeds from sales of our common stock and warrants to purchase our common stock with an exercise price greater than the market price. We would have to utilize the ACSM until the trigger events above no longer existed, and, in the case of test 2 above, our adjusted stockholders' equity amount increased or declined by less than 10% as compared to the adjusted stockholders' equity at the end of the benchmark quarter for each interest payment date as to which interest payment restrictions were imposed by test 2 above.

If we were required to utilize the ACSM and were successful in selling sufficient shares of common stock or warrants to satisfy the interest payment, we would dilute the current holders of our common stock. Furthermore, while a trigger event is occurring and if we do not pay accrued interest in full, we may not, among other things, pay dividends on or repurchase our capital stock. Our failure to pay interest pursuant to the ACSM will not result in an event of default with respect to the capital securities, nor will a nonpayment of interest, unless it lasts for ten consecutive years, although such breaches may result in monetary damages to the holders of the capital securities.

Table of Contents

Risk factors

In recent quarters, we have triggered the net income test as a result of quarterly consolidated net losses, and we may continue to trigger the net income test looking forward to future quarters. However, our efforts to raise capital in the form of equity in the second and third quarters of 2009 resulted in no trigger of the overall stockholders' equity test looking forward to the quarters ending December 31, 2009 and March 31, 2010.

The calculations of RBC, net income (loss) and adjusted stockholders' equity are subject to adjustments and the capital securities are subject to additional terms and conditions as further described in supplemental indentures filed as exhibits to our Forms 8-K filed on March 13, 2007, May 17, 2006, and April 20, 2006.

A decrease in the capital and surplus of our insurance subsidiaries may result in a downgrade to our credit and insurer financial strength ratings.

In any particular year, statutory surplus amounts and RBC ratios may increase or decrease depending on a variety of factors: the amount of statutory income or losses generated by our insurance subsidiaries (which itself is sensitive to equity market and credit market conditions), the amount of additional capital our insurance subsidiaries must hold to support business growth, changes in reserving requirements, such as VACARVM and principles based reserving, our inability to secure capital market solutions to provide reserve relief, such as issuing letters of credit to support captive reinsurance structures, changes in equity market levels, the value of certain fixed-income and equity securities in our investment portfolio, the value of certain derivative instruments that do not get hedge accounting, changes in interest rates and foreign currency exchange rates, as well as changes to the NAIC RBC formulas. The RBC ratio is also affected by the product mix of the in-force book of business (i.e. the amount of business without guarantees is not subject to the same level of reserves as the business with guarantees). Most of these factors are outside of our control. Our credit and insurer financial strength ratings are significantly influenced by the statutory surplus amounts and RBC ratios of our insurance company subsidiaries. The RBC ratio of LNL is an important factor in the determination of the credit and financial strength ratings of LNC and its subsidiaries. In addition, rating agencies may implement changes to their internal models that have the effect of increasing or decreasing the amount of statutory capital we must hold in order to maintain our current ratings. In addition, in extreme scenarios of equity market declines, the amount of additional statutory reserves that we are required to hold for our variable annuity guarantees may increase at a rate greater than the rate of change of the markets. Increases in reserves reduce the statutory surplus used in calculating our RBC ratios. To the extent that our statutory capital resources are deemed to be insufficient to maintain a particular rating by one or more rating agencies, we may seek to raise additional capital through public or private equity or debt financing, which may be on terms not as favorable as in the past. Alternatively, if we were not to raise additional capital in such a scenario, either at our discretion or because we were unable to do so, our financial strength and credit ratings might be downgraded by one or more rating agencies. For more information on risks regarding our ratings, see [A downgrade in our financial strength or credit ratings could limit our ability to market products, increase the number or value of policies being surrendered and/or hurt our relationships with creditors](#) below.

A downgrade in our financial strength or credit ratings could limit our ability to market products, increase the number or value of policies being surrendered and/or hurt our relationships with creditors.

Nationally recognized rating agencies rate the financial strength of our principal insurance subsidiaries and rate our debt. Ratings are not recommendations to buy our securities. Each of the rating agencies reviews its ratings periodically, and our current ratings may not be maintained in the future. In late September and early October of 2008, A.M. Best, Fitch, Moody's and S&P each revised their outlook for

Table of Contents

Risk factors

the U.S. life insurance sector from stable to negative. We believe that the rating agencies continue to have the insurance industry on negative watch, and therefore, the industry and individual insurance companies remain under heightened scrutiny with the possibility of future downgrades if the companies or markets weaken.

Our financial strength ratings, which are intended to measure our ability to meet contract holder obligations, are an important factor affecting public confidence in most of our products and, as a result, our competitiveness. A downgrade of the financial strength rating of one of our principal insurance subsidiaries could affect our competitive position in the insurance industry by making it more difficult for us to market our products as potential customers may select companies with higher financial strength ratings and by leading to increased withdrawals by current customers seeking companies with higher financial strength ratings.

This could lead to a decrease in fees as net outflows of assets increase, and therefore, result in lower fee income. Furthermore, sales of assets to meet customer withdrawal demands could also result in losses, depending on market conditions. The interest rates we pay on our borrowings are largely dependent on our credit ratings. The recent downgrades and future downgrades of our debt ratings could affect our ability to raise additional debt, including bank lines of credit, with terms and conditions similar to our current debt, and accordingly, likely increase our cost of capital. In addition, the recent downgrades and future downgrades of these ratings could make it more difficult to raise capital to refinance any maturing debt obligations, to support business growth at our insurance subsidiaries and to maintain or improve the current financial strength ratings of our principal insurance subsidiaries. Additional future downgrades of one or more of our ratings have become more likely as several of the ratings agencies have negative outlooks on our credit and insurer financial strength ratings.

As a result of approximately \$2.1 billion in capital raising in the second and third quarters of 2009, Moody's, S&P, Fitch and A.M. Best affirmed our debt ratings and the financial strength ratings of LNL, LLANY and FPP. Our ratings outlook remains negative, with the exception of S&P, which revised its outlook to stable from negative. All of our ratings and ratings of our principal insurance subsidiaries are subject to revision or withdrawal at any time by the rating agencies, and therefore, no assurance can be given that we or our principal insurance subsidiaries can maintain these ratings. Please see Part I Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Executive Summary in LNC's Quarterly Report on Form 10-Q for the quarter ended June 30, 2009 and Summary Ratings Update in this prospectus supplement for more information on our ratings.

Certain blocks of our insurance business purchased from third-party insurers under indemnity reinsurance agreements may require us to place assets in trust, secure letters of credit or return the business, if the financial strength ratings and/or capital ratios of certain insurance subsidiaries are not maintained at specified levels.

Under certain indemnity reinsurance agreements, one of our insurance subsidiaries, LLANY, provides 100% indemnity reinsurance for the business assumed, however, the third-party insurer, or the cedent, remains primarily liable on the underlying insurance business. Under these types of agreements, at September 30, 2009, we held statutory reserves of approximately \$3.4 billion. These indemnity reinsurance arrangements require that our subsidiary, as the reinsurer, maintain certain insurer financial strength ratings and capital ratios. If these ratings or capital ratios are not maintained, depending upon the reinsurance agreement, the cedent may recapture the business, or require us to place assets in trust or provide letters of credit at least equal to the relevant statutory reserves. Under the largest indemnity reinsurance arrangement, we held approximately \$2.4 billion of statutory reserves at September 30, 2009. LLANY must maintain an A.M. Best financial strength rating of at least B+, an S&P financial strength rating of at least BB+ and a Moody's financial strength rating of at least Ba1, as well as maintain

Table of Contents

Risk factors

a RBC ratio of at least 160% or an S&P capital adequacy ratio of 100%, or the cedent may recapture the business. Under two other arrangements, by which we established approximately \$1 billion of statutory reserves, LLANY must maintain an A.M. Best financial strength rating of at least B++, an S&P financial strength rating of at least BBB- and a Moody's financial strength rating of at least Baa3. One of these arrangements also requires LLANY to maintain an RBC ratio of at least 185% or an S&P capital adequacy ratio of 115%. Each of these arrangements may require LLANY to place assets in trust equal to the relevant statutory reserves. As of December 31, 2008, LLANY's RBC ratio exceeded 500%. Please see Part I Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Executive Summary in LNC's Quarterly Report on Form 10-Q for the quarter ended June 30, 2009 and Summary Ratings Update in this prospectus supplement for more information on our ratings.

If the cedent recaptured the business, LLANY would be required to release reserves and transfer assets to the cedent. Such a recapture could adversely impact our future profits. Alternatively, if LLANY established a security trust for the cedent, the ability to transfer assets out of the trust could be severely restricted, thus negatively impacting our liquidity.

Our businesses are heavily regulated and changes in regulation may reduce our profitability.

Our insurance subsidiaries are subject to extensive supervision and regulation in the states in which we do business. The supervision and regulation relate to numerous aspects of our business and financial condition. The primary purpose of the supervision and regulation is the protection of our insurance contract holders, and not our investors. The extent of regulation varies, but generally is governed by state statutes. These statutes delegate regulatory, supervisory and administrative authority to state insurance departments. This system of supervision and regulation covers, among other things:

Standards of minimum capital requirements and solvency, including RBC measurements;

Restrictions of certain transactions between our insurance subsidiaries and their affiliates;

Restrictions on the nature, quality and concentration of investments;

Restrictions on the types of terms and conditions that we can include in the insurance policies offered by our primary insurance operations;

Limitations on the amount of dividends that insurance subsidiaries can pay;

The existence and licensing status of the company under circumstances where it is not writing new or renewal business;

Certain required methods of accounting;

Reserves for unearned premiums, losses and other purposes; and

Edgar Filing: LINCOLN NATIONAL CORP - Form 424B4

Assignment of residual market business and potential assessments for the provision of funds necessary for the settlement of covered claims under certain policies provided by impaired, insolvent or failed insurance companies.

We may be unable to maintain all required licenses and approvals and our business may not fully comply with the wide variety of applicable laws and regulations or the relevant authority's interpretation of the laws and regulations, which may change from time to time. Also, regulatory authorities have relatively broad discretion to grant, renew or revoke licenses and approvals. If we do not have the requisite licenses and approvals or do not comply with applicable regulatory requirements, the insurance regulatory authorities could preclude or temporarily suspend us from carrying on some or all of our activities or

S-23

Table of Contents

Risk factors

impose substantial fines. Further, insurance regulatory authorities have relatively broad discretion to issue orders of supervision, which permit such authorities to supervise the business and operations of an insurance company. As of September 30, 2009, no state insurance regulatory authority had imposed on us any substantial fines or revoked or suspended any of our licenses to conduct insurance business in any state or issued an order of supervision with respect to our insurance subsidiaries, which would have a material adverse effect on our results of operations or financial condition.

In addition, Lincoln Financial Network and Lincoln Financial Distributors, as well as our variable annuities and variable life insurance products, are subject to regulation and supervision by the SEC and the Financial Industry Regulatory Authority. LNC, as a savings and loan holding company and Newton County Loan and Savings, FSB, are subject to regulation and supervision by the Office of Thrift Supervision. As a savings and loan holding company, we would also be subject to the requirement that our activities be financially-related activities as defined by federal law (which includes insurance activities). These laws and regulations generally grant supervisory agencies and self-regulatory organizations broad administrative powers, including the power to limit or restrict the subsidiaries from carrying on their businesses in the event that they fail to comply with such laws and regulations. Finally, our radio operations require a license, subject to periodic renewal, from the Federal Communications Commission to operate. While management considers the likelihood of a failure to renew remote, any station that fails to receive renewal would be forced to cease operations.

Many of the foregoing regulatory or governmental bodies have the authority to review our products and business practices and those of our agents and employees. In recent years, there has been increased scrutiny of our businesses by these bodies, which has included more extensive examinations, regular sweep inquiries and more detailed review of disclosure documents. These regulatory or governmental bodies may bring regulatory or other legal actions against us if, in their view, our practices, or those of our agents or employees, are improper. These actions can result in substantial fines, penalties or prohibitions or restrictions on our business activities and could have a material adverse effect on our business, results of operations or financial condition.

Attempts to mitigate the impact of Regulation XXX and Actuarial Guideline 38 may fail in whole or in part resulting in an adverse effect on our financial condition and results of operations.

The Model Regulation entitled Valuation of Life Insurance Policies, commonly known as Regulation XXX or XXX, requires insurers to establish additional statutory reserves for term life insurance policies with long-term premium guarantees and UL policies with secondary guarantees. In addition, Actuarial Guideline 38, or AG38, clarifies the application of XXX with respect to certain UL insurance policies with secondary guarantees. Virtually all of our newly issued term and the great majority of our newly issued UL insurance products are now affected by XXX and AG38.

As a result of this regulation, we have established higher statutory reserves for term and UL insurance products and changed our premium rates for term life insurance products. We also have implemented reinsurance and capital management actions to mitigate the capital impact of XXX and AG38, including the use of letters of credit to support the reinsurance provided by a captive reinsurance subsidiary. However, we cannot provide assurance that there will not be regulatory, rating agency or other challenges to the actions we have taken to date. The result of those potential challenges could require us to increase statutory reserves or incur higher operating and/or tax costs. Any change to or repeal of XXX or AG38 could reduce the competitive advantage of our reinsurance and capital management actions and could adversely affect our market position in the life insurance market. In addition, as a result of current capital market conditions and disruption in the credit markets, our ability to secure additional letters of credit or to secure them at current costs may impact the profitability of term and UL insurance products.

Table of Contents

Risk factors

Please see Part II Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources Sources of Liquidity and Cash Flow Subsidiaries in LNC's Annual Report on Form 10-K for the year ended December 31, 2008, and Part I Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Review of Consolidated Financial Condition Liquidity and Capital Resources Sources of Liquidity and Cash Flow in LNC's Quarterly Report on Form 10-Q for the quarter ended September 30, 2009 for a further discussion of our capital management in connection with XXX.

In light of the current downturn in the credit markets and the increased spreads on asset-backed debt securities, we also cannot provide assurance that we will be able to continue to implement actions to mitigate the impact of XXX or AG38 on future sales of term and UL insurance products. If we are unable to continue to implement those actions, we may be required to increase statutory reserves, incur higher operating costs and lower returns on products sold than we currently anticipate or reduce our sales of these products. We also may have to implement measures that may be disruptive to our business. For example, because term and UL insurance are particularly price-sensitive products, any increase in premiums charged on these products in order to compensate us for the increased statutory reserve requirements or higher costs of reinsurance may result in a significant loss of volume and adversely affect our life insurance operations.

Changes in accounting standards issued by the Financial Accounting Standards Board or other standard-setting bodies may adversely affect our financial statements.

Our financial statements are subject to the application of GAAP, which is periodically revised and/or expanded. Accordingly, from time to time we are required to adopt new or revised accounting standards or guidance that are incorporated into the FASB ASC. It is possible that future accounting standards we are required to adopt could change the current accounting treatment that we apply to our consolidated financial statements and that such changes could have a material adverse effect on our financial condition and results of operations.

Legal and regulatory actions are inherent in our businesses and could result in financial losses or harm our businesses.

We are, and in the future may be, subject to legal actions in the ordinary course of our insurance and investment management operations, both domestically and internationally. Pending legal actions include proceedings relating to aspects of our businesses and operations that are specific to us and proceedings that are typical of the businesses in which we operate. Some of these proceedings have been brought on behalf of various alleged classes of complainants. In certain of these matters, the plaintiffs are seeking large and/or indeterminate amounts, including punitive or exemplary damages. Substantial legal liability in these or future legal or regulatory actions could have a material financial effect or cause significant harm to our reputation, which in turn could materially harm our business prospects. For more information on pending material legal proceedings, please see Part II Item 8. Financial Statements and Supplementary Data Note 14 in our Annual Report on Form 10-K for the year ended December 31, 2008, and Part I Item 1. Financial Statements Note 11 in our Quarterly Report on Form 10-Q for the quarter ended September 30, 2009.

Changes in U.S. federal income tax law could increase our tax costs and make the products that we sell less desirable.

Changes to the Internal Revenue Code, administrative rulings or court decisions could increase our effective tax rate and lower our net income. In this regard, on May 11, 2009, the Treasury Department released the General Explanations of the Administration's Fiscal Year 2010 Revenue Proposals including proposals which, if enacted, would affect the taxation of life insurance companies and certain

Table of Contents

Risk factors

life insurance products. The statutory language to be enacted on the basis of these proposals would change the method used to determine the amount of dividend income received by a life insurance company on assets held in separate accounts used to support products, including variable life insurance and variable annuity contracts, that are eligible for the dividend received deduction. The dividend received deduction reduces the amount of dividend income subject to tax and is a significant component of the difference between our actual tax expense and expected amount determined using the federal statutory tax rate of 35%. Our income tax provision for the year ended December 31, 2008 included a separate account dividend received deduction benefit of \$81 million. In addition, the proposals would affect the treatment of corporate owned life insurance policies, or COLI, by limiting the availability of certain interest deductions for companies that purchase those policies. If proposals of this type were enacted, our sale of COLI, variable annuities, and variable life products could be adversely affected and our actual tax expense could increase, reducing earnings.

Our risk management policies and procedures may leave us exposed to unidentified or unanticipated risk, which could negatively affect our businesses or result in losses.

We have devoted significant resources to develop our risk management policies and procedures and expect to continue to do so in the future. Nonetheless, our policies and procedures to identify, monitor and manage risks may not be fully effective. Many of our methods of managing risk and exposures are based upon our use of observed historical market behavior or statistics based on historical models. As a result, these methods may not predict future exposures, which could be significantly greater than the historical measures indicate, such as the risk of pandemics causing a large number of deaths. Other risk management methods depend upon the evaluation of information regarding markets, clients, catastrophe occurrence or other matters that is publicly available or otherwise accessible to us, which may not always be accurate, complete, up-to-date or properly evaluated. Management of operational, legal and regulatory risks requires, among other things, policies and procedures to record properly and verify a large number of transactions and events, and these policies and procedures may not be fully effective.

We face a risk of non-collectibility of reinsurance, which could materially affect our results of operations.

We follow the insurance practice of reinsuring with other insurance and reinsurance companies a portion of the risks under the policies written by our insurance subsidiaries (known as ceding). As of December 31, 2008, we ceded approximately \$347 billion of life insurance in force to reinsurers for reinsurance protection. Although reinsurance does not discharge our subsidiaries from their primary obligation to pay contract holders for losses insured under the policies we issue, reinsurance does make the assuming reinsurer liable to the insurance subsidiaries for the reinsured portion of the risk. As of September 30, 2009, we had \$7.7 billion of reinsurance receivables from reinsurers for paid and unpaid losses, for which they are obligated to reimburse us under our reinsurance contracts. Of this amount, \$3.2 billion related to the sale of our reinsurance business to Swiss Re in 2001 through an indemnity reinsurance agreement. Swiss Re has funded a trust to support this business. The balance in the trust changes as a result of ongoing reinsurance activity and was \$2.0 billion as of September 30, 2009. As a result of Swiss Re's S&P financial strength rating dropping below AA-, Swiss Re was required to fund an additional trust of approximately \$1.8 billion as of September 30, 2009, to support this business. Swiss Re funded the new trust in October of 2009. Furthermore, approximately \$1.2 billion of the Swiss Re treaties are funds withheld structures where we have a right of offset on assets backing the reinsurance receivables.

Table of Contents

Risk factors

The balance of the reinsurance is due from a diverse group of reinsurers. The collectibility of reinsurance is largely a function of the solvency of the individual reinsurers. We perform annual credit reviews on our reinsurers, focusing on, among other things, financial capacity, stability, trends and commitment to the reinsurance business. We also require assets in trust, letters of credit or other acceptable collateral to support balances due from reinsurers not authorized to transact business in the applicable jurisdictions. Despite these measures, a reinsurer's insolvency, inability or unwillingness to make payments under the terms of a reinsurance contract, especially Swiss Re, could have a material adverse effect on our results of operations and financial condition.

Significant adverse mortality experience may result in the loss of, or higher prices for, reinsurance.

We reinsure a significant amount of the mortality risk on fully underwritten, newly issued, individual life insurance contracts. We regularly review retention limits for continued appropriateness and they may be changed in the future. If we were to experience adverse mortality or morbidity experience, a significant portion of that would be reimbursed by our reinsurers. Prolonged or severe adverse mortality or morbidity experience could result in increased reinsurance costs, and ultimately, reinsurers not willing to offer coverage. If we are unable to maintain our current level of reinsurance or purchase new reinsurance protection in amounts that we consider sufficient, we would either have to be willing to accept an increase in our net exposures or revise our pricing to reflect higher reinsurance premiums. If this were to occur, we may be exposed to reduced profitability and cash flow strain or we may not be able to price new business at competitive rates.

Catastrophes may adversely impact liabilities for contract holder claims and the availability of reinsurance.

Our insurance operations are exposed to the risk of catastrophic mortality, such as a pandemic, an act of terrorism or other event that causes a large number of deaths or injuries. Significant influenza pandemics have occurred three times in the last century, but the likelihood, timing or severity of a future pandemic cannot be predicted. In our group insurance operations, a localized event that affects the workplace of one or more of our group insurance customers could cause a significant loss due to mortality or morbidity claims. These events could cause a material adverse effect on our results of operations in any period and, depending on their severity, could also materially and adversely affect our financial condition.

The extent of losses from a catastrophe is a function of both the total amount of insured exposure in the area affected by the event and the severity of the event. Pandemics, hurricanes, earthquakes and man-made catastrophes, including terrorism, may produce significant damage in larger areas, especially those that are heavily populated. Claims resulting from natural or man-made catastrophic events could cause substantial volatility in our financial results for any fiscal quarter or year and could materially reduce our profitability or harm our financial condition. Also, catastrophic events could harm the financial condition of our reinsurers and thereby increase the probability of default on reinsurance recoveries. Accordingly, our ability to write new business could also be affected.

Consistent with industry practice and accounting standards, we establish liabilities for claims arising from a catastrophe only after assessing the probable losses arising from the event. We cannot be certain that the liabilities we have established or applicable reinsurance will be adequate to cover actual claim liabilities, and a catastrophic event or multiple catastrophic events could have a material adverse effect on our business, results of operations and financial condition.

S-27

Table of Contents

Risk factors

Competition for our employees is intense, and we may not be able to attract and retain the highly skilled people we need to support our business.

Our success depends, in large part, on our ability to attract and retain key people. Intense competition exists for the key employees with demonstrated ability, and we may be unable to hire or retain such employees, particularly in light of compensation restrictions that are applicable to us in connection with our participation in the TARP CPP. The unexpected loss of services of one or more of our key personnel could have a material adverse effect on our operations due to their skills, knowledge of our business, their years of industry experience and the potential difficulty of promptly finding qualified replacement employees. We compete with other financial institutions primarily on the basis of our products, compensation, support services and financial position. Sales in our businesses and our results of operations and financial condition could be materially adversely affected if we are unsuccessful in attracting and retaining key employees, including financial advisors, wholesalers and other employees, as well as independent distributors of our products.

Our sales representatives are not captive and may sell products of our competitors.

We sell our annuity and life insurance products through independent sales representatives. These representatives are not captive, which means they may also sell our competitors' products. If our competitors offer products that are more attractive than ours, or pay higher commission rates to the sales representatives than we do, these representatives may concentrate their efforts in selling our competitors' products instead of ours.

We may not be able to protect our intellectual property and may be subject to infringement claims.

We rely on a combination of contractual rights and copyright, trademark, patent and trade secret laws to establish and protect our intellectual property. Although we use a broad range of measures to protect our intellectual property rights, third parties may infringe or misappropriate our intellectual property. We may have to litigate to enforce and protect our copyrights, trademarks, patents, trade secrets and know-how or to determine their scope, validity or enforceability, which represents a diversion of resources that may be significant in amount and may not prove successful. The loss of intellectual property protection or the inability to secure or enforce the protection of our intellectual property assets could have a material adverse effect on our business and our ability to compete.

We also may be subject to costly litigation in the event that another party alleges our operations or activities infringe upon another party's intellectual property rights. Third parties may have, or may eventually be issued, patents that could be infringed by our products, methods, processes or services. Any party that holds such a patent could make a claim of infringement against us. We may also be subject to claims by third parties for breach of copyright, trademark, trade secret or license usage rights. Any such claims and any resulting litigation could result in significant liability for damages. If we were found to have infringed a third-party patent or other intellectual property rights, we could incur substantial liability, and in some circumstances could be enjoined from providing certain products or services to our customers or utilizing and benefiting from certain methods, processes, copyrights, trademarks, trade secrets or licenses, or alternatively could be required to enter into costly licensing arrangements with third parties, all of which could have a material adverse effect on our business, results of operations and financial condition.

Intense competition could negatively affect our ability to maintain or increase our profitability.

Our businesses are intensely competitive. We compete based on a number of factors, including name recognition, service, the quality of investment advice, investment performance, product features, price,

Table of Contents

Risk factors

perceived financial strength and claims-paying and credit ratings. Our competitors include insurers, broker-dealers, financial advisors, asset managers and other financial institutions. A number of our business units face competitors that have greater market share, offer a broader range of products or have higher financial strength or credit ratings than we do.

In recent years, there has been substantial consolidation and convergence among companies in the financial services industry resulting in increased competition from large, well-capitalized financial services firms. Many of these firms also have been able to increase their distribution systems through mergers or contractual arrangements. Furthermore, larger competitors may have lower operating costs and an ability to absorb greater risk while maintaining their financial strength ratings, thereby allowing them to price their products more competitively. We expect consolidation to continue and perhaps accelerate in the future, thereby increasing competitive pressure on us.

Anti-takeover provisions could delay, deter or prevent our change in control, even if the change in control would be beneficial to LNC shareholders.

We are an Indiana corporation subject to Indiana state law. Certain provisions of Indiana law could interfere with or restrict takeover bids or other change in control events affecting us. Also, provisions in our articles of incorporation, bylaws and other agreements to which we are a party could delay, deter or prevent our change in control, even if a change in control would be beneficial to shareholders. In addition, under Indiana law, directors may, in considering the best interests of a corporation, consider the effects of any action on shareholders, employees, suppliers and customers of the corporation and the communities in which offices and other facilities are located, and other factors the directors consider pertinent. One statutory provision prohibits, except under specified circumstances, LNC from engaging in any business combination with any shareholder who owns 10% or more of our common stock (which shareholder, under the statute, would be considered an interested shareholder) for a period of five years following the time that such shareholder became an interested shareholder, unless such business combination is approved by the board of directors prior to such person becoming an interested shareholder. In addition, our articles of incorporation contain a provision requiring holders of at least three-fourths of our voting shares then outstanding and entitled to vote at an election of directors, voting together, to approve a transaction with an interested shareholder rather than the simple majority required under Indiana law.

In addition to the anti-takeover provisions of Indiana law, there are other factors that may delay, deter or prevent our change in control. As an insurance holding company, we are regulated as an insurance holding company and are subject to the insurance holding company acts of the states in which our insurance company subsidiaries are domiciled. The insurance holding company acts and regulations restrict the ability of any person to obtain control of an insurance company without prior regulatory approval. Under those statutes and regulations, without such approval (or an exemption), no person may acquire any voting security of a domestic insurance company, or an insurance holding company which controls an insurance company, or merge with such a holding company, if as a result of such transaction such person would control the insurance holding company or insurance company. Control is generally defined as the direct or indirect power to direct or cause the direction of the management and policies of a person and is presumed to exist if a person directly or indirectly owns or controls 10% or more of the voting securities of another person. Similarly, as a result of its ownership of Newton County Loan & Savings, FSB, LNC is considered to be a savings and loan holding company. Federal banking laws generally provide that no person may acquire control of LNC, and gain indirect control of Newton County Loan & Savings, FSB, without prior regulatory approval. Generally, beneficial ownership of 10% or more of the voting securities of LNC would be presumed to constitute control.

Table of Contents

USE OF PROCEEDS

We estimate that, after deducting expenses and underwriting discounts and commissions, our net proceeds from this offering will be approximately \$295,603,000. We intend to use the net proceeds from this offering to repay at maturity the \$250 million floating rate senior notes due on March 12, 2010 and for general corporate purposes. Pending the application of the net proceeds, we expect to temporarily invest the proceeds from the sale of the notes offered hereby in short-term obligations.

RATIO OF EARNINGS TO FIXED CHARGES

	For the Nine Months Ended September 30,		For the Years Ended December 31,				
	2009	2008	2008	2007	2006	2005	2004
	(dollars in millions)						
Income (loss) from continuing operations before taxes	\$(654)	\$655	\$(137)	\$1,675	\$1,628	\$962	\$821
Sub-total of fixed charges	209	234	303	325	242	110	116
Sub-total of adjusted income (loss)	(445)	889	166	2,000	1,870	1,072	937
Interest on annuities and financial products	1,880	1,903	2,532	2,519	2,260	1,570	1,571
Adjusted income base	\$1,435	\$2,792	\$2,698	\$4,519	\$4,130	\$2,642	\$2,508
Fixed Charges							
Interest and debt expense(1)	\$194	\$209	\$281	\$284	\$223	\$89	\$94
Interest expense related to uncertain tax positions	2	10	2	21			
Portion of rent expense representing interest	13	15	20	20	19	21	22
Sub-total of fixed charges excluding interest on annuities and financial products	209	234	303	325	242	110	116
Interest on annuities and financial products	1,880	1,903	2,532	2,519	2,260	1,570	1,571
Total fixed charges	\$2,089	\$2,137	\$2,835	\$2,844	\$2,502	\$1,680	\$1,687
Ratio of sub-total of adjusted income to sub-total of fixed charges excluding interest on annuities and financial products(2)		3.80		6.15	7.73	9.75	8.08
Ratio of adjusted income base to total fixed charges(2)		1.31		1.59	1.65	1.57	1.49

(1) Interest and debt expense excludes (i) a \$64 million gain related to the early retirement of debt in the first quarter of 2009, and (ii) \$5 million related to the early retirement of debt in 2006.

(2) The ratios of earnings to fixed charges for the nine months ended September 30, 2009 and for the year ended December 31, 2008 indicated less than one-to-one coverage and are therefore not presented. Additional earnings of \$654 million would have been required for the nine months ended September 30, 2009 and \$137 million would have been required for the year ended December 31, 2008, to achieve ratios of one-to-one coverage.

Table of Contents**CAPITALIZATION**

The following table sets forth our consolidated capitalization as of September 30, 2009 on an actual basis and includes adjustments resulting from this offering. The Actual column reflects our capitalization as of September 30, 2009 on a historical basis, without any adjustments to reflect subsequent or anticipated events. The Adjusted for Offering column includes pro forma adjustments to reflect this offering.

The following data is qualified in its entirety by, and should be read in conjunction with, our unaudited consolidated financial statements and notes thereto incorporated in this prospectus supplement and the accompanying base prospectus by reference.

Table of Contents**SELECTED CONSOLIDATED HISTORICAL FINANCIAL DATA OF LNC**

The following selected financial data should be read together with our consolidated financial statements and accompanying notes and Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the quarter ended September 30, 2009, which are incorporated herein by reference. Our historical results are not necessarily indicative of our future results. The selected financial data set forth below are derived from our consolidated financial statements for the nine months ended September 30, 2009 and years ended December 31, 2008, 2007, 2006, 2005 and 2004. Some previously reported amounts have been reclassified to conform to the presentation as of and for the nine months ended September 30, 2009. Such adjustments include but are not limited to the reclassification of the results of operations of our former Lincoln UK and Investment Management segments from income (loss) from continuing operations into income (loss) from discontinued operations.

Table of Contents

DESCRIPTION OF SENIOR NOTES

The following description of the particular terms of the notes offered hereby supplements, and to the extent inconsistent therewith replaces, the description of the general terms and provisions described under the caption Description of Securities We May Sell Senior and Subordinated Debt Securities in the accompanying base prospectus.

General

The 6.25% Senior Notes due 2020 will be issued under an indenture dated as of March 10, 2009 between us and The Bank of New York Mellon, as trustee, referred to as the indenture. The notes will mature on February 15, 2020.

The notes will initially be limited to \$300,000,000 in aggregate principal amount. We may, however, without the consent of any then-existing holders of notes, reopen the notes and issue an unlimited principal amount of additional notes of this series in the future. These additional notes will be deemed part of the same series as the notes offered hereby.

Unless previously redeemed or purchased and cancelled, we will repay the notes in cash at 100% of their principal amount together with accrued and unpaid interest thereon at maturity. We will pay principal and interest on the notes in U.S. dollars.

The notes will be our senior unsecured debt obligations and will rank equally among themselves and with all of our other present and future senior unsecured and unsubordinated obligations. The indenture does not limit the aggregate principal amount of senior debt securities that may be issued.

The notes will be redeemable by us at any time prior to maturity as described below under Optional Redemption.

The notes will not be subject to a sinking fund. The notes will be issued in fully registered book-entry form only in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The notes will be issued in the form of global securities. The global securities will be deposited with, or on behalf of, DTC, and registered in the name of DTC or a nominee, as further described below.

The provisions of the indenture relating to defeasance, which are described under the caption Description of the Securities We May Sell Senior and Subordinated Debt Securities Defeasance and Covenant Defeasance in the accompanying base prospectus, will apply to the notes.

If the scheduled maturity date for the notes falls on a day that is not a business day, the payment of interest and principal will be made on the next succeeding business day, and no interest on such payment shall accrue for the period from and after the scheduled maturity date.

Interest

The notes will bear interest at a rate of 6.25%. Interest on the notes will accrue from December 11, 2009 or from the most recent interest payment date to which interest has been paid or provided for, to but excluding the relevant interest payment date. We will make interest payments on the notes semi-annually in arrears on February 15 and August 15 of each year, beginning on August 15, 2010, to the person in whose name such notes are registered at the close of business on the immediately preceding January 31 or July 31, as applicable. Interest on the notes will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Table of Contents

If an interest payment date for the notes falls on a day that is not a business day, the interest payment shall be postponed to the next succeeding business day, and no interest on such payment shall accrue for the period from and after such interest payment date.

Optional Redemption

The notes are redeemable, in whole or in part, at our option, at any time or from time to time, upon mailed notice to the registered holders of the notes at their addresses as shown on the security register at least 30 days but not more than 60 days prior to the redemption. The redemption price will be the greater of (i) 100% of the principal amount of the notes to be redeemed and (ii) the make-whole amount, plus in each case accrued and unpaid interest to the date of redemption.

Make-whole amount means the sum of the present values of the remaining scheduled payments (as defined below) on the notes, discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months), at a rate equal to the sum of the applicable treasury rate (as defined below) plus 45 basis points.

Comparable treasury issue means the U.S. Treasury security selected by a reference treasury dealer as having an actual or interpolated maturity comparable to the remaining term of the notes called for redemption, that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities with a term comparable to such period.

Comparable treasury price means, with respect to a redemption date, (1) the average of five reference treasury dealer quotations for such redemption date, after excluding the highest and lowest reference treasury dealer quotations, or (2) if the quotation agent obtains fewer than five such reference treasury dealer quotations, the average of all such quotations.

Quotation agent means the entity appointed by us, which in any case shall not be the trustee, to determine the make-whole amount.

Reference treasury dealer means (1) UBS Securities LLC and (2) any additional primary U.S. government securities dealers, including dealers outside New York City, or each, a **primary treasury dealer**, selected by us and their successors; provided, however, that if any of them ceases to be a primary treasury dealer we will substitute another primary treasury dealer.

Reference treasury dealer quotations means, with respect to each reference treasury dealer and any redemption date, the average, as determined by the quotation agent, of the bid and ask prices for the comparable treasury issue (expressed in each case as a percentage of its principal amount) quoted in writing to the quotation agent at 5:00 p.m., New York City time, on the third business day preceding such redemption date.

Remaining scheduled payments means the remaining scheduled payments of principal and interest on the notes called for redemption that would be due after the related redemption date but for that redemption. If that redemption date is not an interest payment date with respect to the notes called for redemption, the amount of the next succeeding scheduled interest payment on such notes will be reduced by the amount of interest accrued to such redemption date.

Treasury rate means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity (computed as of the third business day immediately preceding that redemption date) of the comparable treasury issue, assuming a price for the comparable treasury issue (expressed as a percentage of its principal amount) equal to the comparable treasury price for that redemption date.

Table of Contents

We will prepare and mail a notice of redemption to each holder of notes to be redeemed by first-class mail at least 30 but not more than 60 days prior to the date fixed for redemption. On and after a redemption date, interest will cease to accrue on the notes called for redemption (unless we default in the payment of the redemption price and accrued interest). On or before a redemption date, we will deposit with a paying agent (or the trustee) money sufficient to pay the redemption price of and accrued interest on the notes to be redeemed on that date. If less than all of the notes are to be redeemed, the notes to be redeemed shall be selected by the trustee pro rata or by lot or by a method the trustee deems to be fair and appropriate.

Regarding the Trustee

We and our affiliates maintain various commercial and service relationships with the trustee and its affiliates in the ordinary course of business.

Book-Entry System

Upon issuance, the notes will be represented by one or more fully registered global certificates, each of which we refer to as a global security. Each such global security will be deposited with, or on behalf of, DTC, and registered in the name of DTC or a nominee thereof. Unless and until it is exchanged in whole or in part for notes in definitive form, no global security may be transferred except as a whole by DTC to a nominee of DTC or by a nominee of DTC to DTC or another nominee of DTC or by DTC or any such nominee to a successor of DTC or a nominee of such successor.

Beneficial interests in the notes will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC. Investors may elect to hold interest in the notes held by DTC through Clearstream Bank, société anonyme, referred to as Clearstream, Luxembourg, or Euroclear Bank S.A./N.V. as operator of the Euroclear System, referred to as the Euroclear operator, if they are participants in such systems, or indirectly through organizations that are participants in such systems. Clearstream, Luxembourg and the Euroclear operator will hold interests on behalf of their participants through customers' securities accounts in Clearstream, Luxembourg's and the Euroclear operator's names on the books of their respective depositaries, which in turn will hold such interests in customers' securities accounts in the depositaries' names on the books of DTC.

So long as DTC, or its nominee, is a registered owner of a note, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the notes represented by such note for all purposes under the indenture or other governing documents. Except as provided below, the actual owners of the notes represented by a note, referred to as the beneficial owner, will not be entitled to have the notes represented by such note registered in their names, will not receive or be entitled to receive physical delivery of the notes in definitive form and will not be considered the registered owners or holders thereof under the indenture.

Accordingly, each person owning a beneficial interest in a note must rely on the procedures of DTC and, if such person is not a participant of DTC, referred to as a participant, on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder under the indenture. We understand that under existing industry practices, in the event that LNC requests any action of holders or that an owner of a beneficial interest that a holder is entitled to give or take under the indenture, DTC would authorize the participants holding the relevant beneficial interests to give or

Table of Contents

take such action, and such participants would authorize beneficial owners owning through such participants to give or take such action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by DTC to participants, by participants to indirect participants, as defined below, and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

The following is based on information furnished by DTC:

DTC will act as securities depository for the notes. Offered securities will be issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One or more fully registered global securities will be issued for the notes, in the aggregate principal amount of such issue, and will be deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with DTC. DTC also facilitates the post-trade settlement among participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants of DTC, referred to as direct participants, include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation, referred to as DTCC. DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to DTC's system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks and trust companies, and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly, referred to as indirect participants. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of the notes under DTC's system must be made by or through direct participants, which will receive a credit for the notes on DTC's records. The ownership interest of each beneficial owner is in turn to be recorded on the records of direct participants and indirect participants. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct participants or indirect participants through which such beneficial owner entered into the transaction. Transfers of ownership interests in the notes are to be accomplished by entries made on the books of direct participants and indirect participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in the notes, except in the event that the use of the book-entry system for the notes is discontinued or other limited circumstances that may be provided in the indenture.

To facilitate subsequent transfers, all notes deposited by direct participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of the notes with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the notes. DTC's records reflect only the identity of the

Table of Contents

direct participants to whose accounts such notes are credited, which may or may not be the beneficial owners. The direct participants and indirect participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the notes. Under its usual procedures, DTC mails an Omnibus Proxy to LNC as soon as possible after the applicable record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those direct participants to whose accounts securities are credited on the applicable record date (identified in a listing attached to the Omnibus Proxy).

Payments on the notes will be made in immediately available funds to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit direct participants' accounts upon DTC's receipt of funds and corresponding detail information from LNC or the applicable agent, on the applicable payment date in accordance with their respective holdings shown on DTC's records. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in street name, and will be the responsibility of such participant and not of DTC, the applicable agent or LNC, subject to any statutory or regulatory requirements as may be in effect from time to time. Any payment to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of LNC or the applicable agent, disbursement of such payments to direct participants shall be the responsibility of DTC, and disbursement of such payments to the beneficial owners shall be the responsibility of direct participants and indirect participants.

DTC may discontinue providing its services as securities depository with respect to the notes at any time by giving reasonable notice to LNC or the applicable agent. Under such circumstances, in the event that a successor securities depository is not obtained, offered security certificates are required to be printed and delivered. LNC may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, offered security certificates will be printed and delivered.

Clearstream, Luxembourg advises that it is incorporated under the laws of Luxembourg as a professional depository. Clearstream, Luxembourg holds securities for its participating organizations, referred to as Clearstream participants, and facilitates the clearance and settlement of securities transactions between Clearstream participants through electronic book-entry changes in accounts of Clearstream participants, thereby eliminating the need for physical movement of certificates. Clearstream, Luxembourg provides to Clearstream participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream, Luxembourg interfaces with domestic markets in several countries. As a professional depository, Clearstream, Luxembourg is subject to regulation by the Luxembourg Monetary Institute.

Clearstream participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, trust companies, clearing corporations and certain other organizations and may include the underwriters. Indirect access to Clearstream, Luxembourg is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream participant either directly or indirectly.

Table of Contents

Distributions with respect to the notes held beneficially through Clearstream, Luxembourg will be credited to cash accounts of Clearstream participants in accordance with its rules and procedures, to the extent received by the U.S. depository for Clearstream, Luxembourg.

Euroclear advises that it was created in 1968 to hold securities for its participants, referred to as Euroclear participants, and to clear and settle transactions between Euroclear participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear is owned by Euroclear Clearance System Public Limited Company and operated through a license agreement by the Euroclear operator.

Euroclear participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters or agents for the notes. Indirect access to Euroclear is also available to others that clear through or maintain a custodial relationship with a Euroclear participant, either directly or indirectly.

The Euroclear operator is regulated and examined by the Belgian Banking and Finance Commission and the National Bank of Belgium. Securities clearance accounts and cash accounts with the Euroclear operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of Euroclear, and applicable Belgian law, collectively referred to as the Terms and Conditions. The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear operator acts under the Terms and Conditions only on behalf of Euroclear participants, and has no record of or relationship with persons holding through Euroclear participants.

Distributions with respect to the notes held beneficially through Euroclear will be credited to the cash accounts of Euroclear participants in accordance with the Terms and Conditions, to the extent received by the U.S. depository for Euroclear.

Global Clearance and Settlement Procedures

Initial settlement for the notes will be made in immediately available funds. Secondary market trading between DTC participants will occur in the ordinary way in accordance with DTC's rules and will be settled in immediately available funds using DTC's Same-Day Funds Settlement System. If and to the extent this prospectus supplement with respect to any of the notes indicates that investors may elect to hold interests in the notes through Clearstream, Luxembourg or Euroclear, secondary market trading between Clearstream participants and/or Euroclear participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream, Luxembourg and Euroclear and will be settled using the procedures applicable to conventional eurobonds in immediately available funds. No assurance can be given as to the effect, if any, of settlement in immediately available funds on trading activity in the notes.

Cross-market transfers between persons holding directly or indirectly through DTC on the one hand, and directly or indirectly through Clearstream or Euroclear participants, on the other, will be effected in DTC in accordance with DTC rules on behalf of the relevant European international clearing system by its

Table of Contents

U.S. depository; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depository to take action to effect final settlement on its behalf by delivering or receiving the notes in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream participants and Euroclear participants may not deliver instructions directly to DTC.

Because of time-zone differences, credits of the notes received in Clearstream, Luxembourg or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and will be credited the business day following DTC settlement date. Such credits or any transactions in the notes settled during such processing will be reported to the relevant Euroclear or Clearstream participants on such business day. Cash received in Clearstream, Luxembourg or Euroclear as a result of sales of the notes by or through a Clearstream participant or a Euroclear participant to a DTC participant will be received with value on DTC settlement date but will be available in the relevant Clearstream, Luxembourg or Euroclear cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream, Luxembourg and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of the notes among participants of DTC, Clearstream, Luxembourg and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be discontinued at any time.

Table of Contents

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

The following is a general summary of the material U.S. federal income tax consequences of the acquisition, ownership and disposition of the notes by beneficial owners of the notes. This summary is based on the Internal Revenue Code of 1986, as amended, referred to as the Code, and Treasury Department regulations, rulings and judicial decisions as of the date hereof, all of which are subject to change, possibly on a retroactive basis. The discussion applies only to beneficial owners that acquire the notes pursuant to the offering at the initial offering price and who will hold the notes as capital assets within the meaning of Section 1221 of the Code. This summary is for general information only and does not address all aspects of U.S. federal income taxation that may be relevant to holders of the notes in light of their particular circumstances or to holders subject to special rules (such as broker-dealers, a trader in securities that elects the mark-to-market method of accounting for its securities holdings, banks or other financial institutions, insurance companies, partnerships or other pass-through entities, tax-exempt organizations, U.S. holders (as defined below) that have a functional currency other than the U.S. dollar, and persons who hold the notes as part of a hedge, straddle or other integrated transaction). This summary does not address the effects of any state, local or non-U.S. tax laws or any U.S. federal estate, gift or alternative minimum tax considerations.

For purposes of the following discussion, a U.S. holder means a beneficial owner of a note that is for U.S. federal income tax purposes:

an individual citizen or resident of the United States;

a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust, if (a) a court within the United States is able to exercise primary supervision over administration of the trust and one or more U.S. persons have authority to control all substantial decisions of the trust or (b) it has a valid election in effect under applicable U.S. Treasury Department regulations to be treated as a U.S. person.

For purposes of the following discussion, a non-U.S. holder means a beneficial owner of a note that is a nonresident alien individual or a corporation, estate or trust that is not a U.S. person for U.S. federal income tax purposes.

If a partnership or an entity treated as a partnership for U.S. federal income tax purposes owns any of the notes, the tax treatment of a partner or an equity interest owner of such other entity will generally depend upon the status of the person and the activities of the partnership or other entity treated as a partnership. If you are a partner of a partnership or an equity interest owner of another entity treated as a partnership holding any of the notes, you should consult your tax advisors.

Under certain circumstances, we will be discharged from any and all obligations in respect of the indenture. Such discharge may be treated as a taxable exchange for U.S. federal income tax purposes. Holders should consult their own tax advisors regarding the U.S. federal, state, and local tax consequences of such a discharge.

Persons considering the purchase of the notes should consult their own tax advisors regarding the U.S. federal income tax considerations relating to the purchase, ownership and disposition of the notes in light of their particular circumstances, as well as the effect of any state, local, foreign or other tax laws.

Table of Contents

U.S. Holders

Interest on the Notes. It is expected, and this discussion assumes, that the notes will be issued with no more than a de minimis amount of original issue discount for U.S. federal tax purposes. Accordingly, a U.S. holder will generally be required to recognize as ordinary income any interest paid or accrued on the notes in accordance with its regular method of accounting for U.S. federal income tax purposes.

In certain circumstances, we may pay amounts on the notes that are in excess of the stated interest on or principal of the notes. We intend to take the position that the possibility that any such payment will be made is deemed not to occur under applicable Treasury Regulations. Therefore, such possibility will not affect the timing or amount of interest income that you recognize, as discussed above, unless and until any such excess payment is made. If we do pay amounts on the notes that are in excess of the stated interest on or principal of the notes, you should consult your own tax advisor about the tax treatment of such amounts.

Disposition of Notes. Upon the sale, exchange, redemption, retirement or other disposition of a note, a U.S. holder generally will recognize taxable gain or loss equal to the difference between the amount realized on the sale, exchange, redemption, retirement or other disposition (except to the extent of accrued but unpaid interest, which will be taxable as ordinary income) and such holder's adjusted tax basis in the notes. Any such gain or loss will be capital gain or loss, and will be long-term capital gain or loss if a U.S. holder has held the note for more than one year. Long-term capital gains of noncorporate U.S. holders that are recognized in taxable years beginning before January 1, 2011 are generally taxed at a maximum rate of 15%. The deductibility of capital losses is subject to limitations.

Information Reporting and Backup Withholding. Information reporting requirements generally apply in connection with payments on the notes to, and the proceeds from a sale or other disposition of the notes by, non-corporate U.S. holders. A U.S. holder will be subject to backup withholding tax (currently at a rate of 28%) on these payments if the U.S. holder fails to provide its taxpayer identification number to the paying agent and comply with certain certification procedures or otherwise establish an exemption from backup withholding. Any backup withholding from a payment to a U.S. holder will be allowed as a credit against such U.S. holder's U.S. federal income tax liability and may entitle such U.S. holder to a refund, provided that the required information is timely furnished to the IRS.

Non-U.S. Holders

Interest on the Notes. Subject to the discussion of backup withholding below, U.S. federal withholding tax will not apply to any payment of interest on a note to a non-U.S. holder if the interest qualifies for the portfolio interest exemption. This will be the case provided that the non-U.S. holder:

does not actually or constructively own 10 percent or more of the total combined voting power of all classes of our stock entitled to vote;

is not a controlled foreign corporation that is related directly or constructively to us through stock ownership;

is not a bank that acquired the notes in consideration for an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business; and

either (a) provides its name and address, and certifies, under penalties of perjury, that it is not a U.S. person, which certification may be made on an IRS Form W-8BEN or successor form, or (b) holds its notes through various foreign intermediaries and satisfies the certification requirements of applicable Treasury Department regulations.

Table of Contents

Special certification and other rules apply to certain non-U.S. holders that are entities rather than individuals, particularly entities treated as partnerships for U.S. federal income tax purposes and certain other flow through entities, and to non-U.S. holders acting as (or holding notes through) intermediaries.

If the portfolio interest exemption does not apply, payments of interest will be subject to U.S. federal withholding tax at a 30% tax rate, unless the non-U.S. holder provides us with a properly executed: (1) IRS Form W-8BEN, or successor form, claiming an exemption from or reduction in withholding under the benefit of a tax treaty or (2) IRS Form W-8ECI, or successor form, stating that interest paid on the note is not subject to withholding tax because it is effectively connected with its conduct of a trade or business in the United States.

If a non-U.S. holder is engaged in a trade or business in the United States and interest on a note is effectively connected with the conduct of that trade or business (and, if an income tax treaty applies, is attributable to a U.S. permanent establishment maintained by the non-U.S. holder), such holder (although exempt from U.S. federal withholding tax at the 30% tax rate) will be subject to U.S. federal income tax on that interest on a net income basis in the same manner as if the holder were a U.S. holder. In addition, if such holder is a foreign corporation, it may be subject to a branch profits tax equal to 30% of its earnings and profits for the taxable year, subject to adjustments, that are effectively connected with its conduct of a trade or business in the United States. However, any branch profits tax that would otherwise apply may not apply, or may apply at a reduced rate, under an applicable income tax treaty.

Disposition of Notes. Subject to the discussion of backup withholding below, any gain realized on the disposition of a note by a non-U.S. holder generally will not be subject to U.S. federal income tax unless: (i) that gain is effectively connected with the conduct of a trade or business in the United States by the holder (and, if an income tax treaty applies, is attributable to a U.S. permanent establishment maintained by the non-U.S. holder), or (ii) the holder is an individual who is present in the United States for 183 days or more in the taxable year of that disposition and other conditions are met in which case such holder will generally be subject to a United States federal income tax of 30% (or, if applicable, a lower treaty rate) on such gain. If (i) applies and the non-U.S. holder is a corporation, such holder may be subject to the branch profits tax referred to above, unless the holder qualifies for a lower rate or an exemption from such branch profits tax under an applicable income tax treaty.

Information Reporting and Backup Withholding. In general, backup withholding will not apply to a payment of interest on a note to a non-U.S. holder, or to proceeds from the disposition of a note by a non-U.S. holder, in each case, if the holder certifies under penalties of perjury that it is a non-U.S. holder and neither we nor our paying agent has actual knowledge to the contrary. Any amounts withheld under the backup withholding rules will be allowed as a credit against the non-U.S. holder's U.S. federal income tax liability and may entitle the non-U.S. holder to a refund, provided the required information is timely furnished to the IRS. In general, the amount of payments made on that note, the name and address of the beneficial owner and the amount, if any, of tax withheld may be reported to the IRS.

Table of Contents

THE U.S. FEDERAL INCOME TAX DISCUSSION SET FORTH ABOVE IS INCLUDED FOR GENERAL INFORMATION ONLY AND MAY NOT BE APPLICABLE DEPENDING UPON A HOLDER'S PARTICULAR SITUATION. HOLDERS SHOULD CONSULT THEIR TAX ADVISORS REGARDING THE TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF THE NOTES, INCLUDING THE TAX CONSEQUENCES UNDER STATE, LOCAL, FOREIGN AND OTHER TAX LAWS.

S-44

Table of Contents**UNDERWRITING**

Under the terms and subject to the conditions contained in an underwriting agreement, dated as of the date of this prospectus supplement, the underwriters named below, for whom UBS Securities LLC and U.S. Bancorp Investments, Inc. are acting as representatives, have severally agreed to purchase, and we have agreed to sell to them, severally, the respective principal amount of the notes set forth opposite their names below:

Underwriter	Principal Amount of Notes
UBS Securities LLC	\$ 127,500,000
U.S. Bancorp Investments, Inc.	105,000,000
BNY Mellon Capital Markets, LLC	15,000,000
KeyBanc Capital Markets Inc.	15,000,000
Mitsubishi UFJ Securities (USA), Inc.	15,000,000
Comerica Securities, Inc.	7,500,000
Fifth Third Securities, Inc.	7,500,000
The Williams Capital Group, L.P.	7,500,000
Total	\$ 300,000,000

Under the terms and conditions of the underwriting agreement, if the underwriters take any of the notes, then the underwriters are obligated to take and pay for all of the notes. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of the non-defaulting underwriters may be increased or the offering may be terminated.

Notes sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus supplement. Any notes sold by the underwriters to securities dealers may be sold at a discount from the initial public offering price of up to 0.40% of the principal amount of notes. Any such securities dealers may resell any notes purchased from the underwriters to certain other brokers or dealers at a discount from the initial public offering price of up to 0.25% of the principal amount of notes. If all the notes are not sold at the initial offering price, the representatives may change the offering price and the other selling terms. The offering of the notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

The aggregate proceeds to us are set forth on the cover page hereof before deducting our expenses in offering the notes. We estimate that we will spend approximately \$2.0 million for registration fees, printing fees, rating agency, trustee and legal fees and other expenses allocable to the offering.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments the underwriters may be required to make in respect thereof.

The notes are offered for sale only in those jurisdictions in the United States where it is legal to make such offers. The notes are a new issue of securities with no established trading market. We have been advised by the underwriters that they intend to make a market in the notes but they are not obligated to do so and may discontinue market-making at any time without notice. No assurance can be given as to the liquidity of, or the trading market for, the notes.

In connection with the offering, the underwriters may purchase and sell notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of notes than they are

Table of Contents

required to purchase in the offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

These activities, as well as other purchases by the underwriters for their own account, may stabilize, maintain or otherwise affect the market price of the notes. As a result, the price of the notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected in the over-the-counter market or otherwise.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the notes. In addition, neither we nor any of the underwriters make any representation that the underwriters will engage in these transactions.

From time to time, certain of the underwriters have provided, and may provide, various financial advisory, investment banking, commercial banking or investment management services to us and our affiliates, for which they have received and may continue to receive customary fees and commissions. Affiliates of UBS Securities LLC, U.S. Bancorp Investments, Inc., BNY Mellon Capital Markets, LLC, KeyBanc Capital Markets Inc., Mitsubishi UFJ Securities (USA), Inc., Comerica Securities, Inc. and Fifth Third Securities, Inc. act as lenders on our existing lines of credit or term loan, as applicable. In addition, the underwriters may, from time to time, engage in transactions with or perform services for us in the ordinary course of business, including acting as distributors of various life, annuity, defined contribution and investment products of our subsidiaries.

Notice to Prospective Investors in the European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive, each, a Relevant Member State, from and including the date on which the European Union Prospectus Directive, or the EU Prospectus Directive, is implemented in that Relevant Member State, or the Relevant Implementation Date, an offer of notes described in this prospectus supplement may not be made to the public in that Relevant Member State prior to the publication of a prospectus in relation to the notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the EU Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of notes to the public in that Relevant Member State at any time:

to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;

to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than 43,000,000 and (3) an annual net turnover of more than 50,000,000, as shown in its last annual or consolidated accounts;

to fewer than 100 natural or legal persons (other than qualified investors as defined in the EU Prospectus Directive) subject to obtaining the prior consent of the book-running managers for any such offer; or

in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an offer of notes to the public in relation to any notes in any Relevant Member State means the communication in any form and by any means of

S-46

Table of Contents

sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe for the notes, as the same may be varied in that Relevant Member State by any measure implementing the EU Prospectus Directive in that Relevant Member State, and the expression EU Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

Notice to Prospective Investors in the United Kingdom

This prospectus supplement and the accompanying base prospectus is only being distributed to and is only directed at (i) persons who are outside the United Kingdom or (ii) to investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, or the Order, or (iii) high net worth entities, and other persons to whom it may lawfully be communicated, falling within Article 49(2)(a) to (d) of the Order, all such persons together being referred to as relevant persons. The notes are only available to, and any invitation, offer or agreement to subscribe, purchase or otherwise acquire such notes will be engaged in only with, relevant persons. Any person who is not a relevant person should not act or rely on this prospectus supplement and the accompanying base prospectus or any of their contents.

VALIDITY OF SENIOR NOTES

The validity of the notes will be passed upon for us by Blank Rome LLP and for the underwriters by Sullivan & Cromwell LLP. Blank Rome LLP and Sullivan & Cromwell LLP will rely upon the opinion of Dennis L. Schoff, Esquire, Senior Vice President, General Counsel and Secretary of LNC, as to matters of Indiana law. As of December 7, 2009, Mr. Schoff beneficially owned approximately 233,944 shares of our common stock, including options exercisable within sixty days of December 7, 2009.

fully and unconditionally guaranteed, as described herein,

by Lincoln National Corporation

We will provide you with more specific terms of these securities in supplements to this prospectus. The securities we may offer may be convertible into or exercisable or exchangeable for our other securities.

By this prospectus, we or selling securityholders may offer, from time to time, the securities described in this prospectus separately or together in any combination. Lincoln National Capital VII, Lincoln National Capital VIII and Lincoln National Capital IX are Delaware statutory trusts which may offer from time to time trust preferred securities representing preferred undivided beneficial interests in the assets of the applicable trust.

We, the selling securityholders or the trusts may offer and sell these securities to or through one or more underwriters, dealers and agents, or directly to purchasers, on a continuous or delayed basis, at prices and on other terms to be determined at the time of offering. We, the selling securityholders or the trusts reserve the sole right to accept, and together with any agents, dealers and underwriters, reserve the right to reject, in whole or in part, any proposed purchase of securities. If any agents, dealers or underwriters are involved in the sale of any securities, the applicable prospectus supplement will set forth any applicable commissions or discounts. The net proceeds to us, the selling securityholders or the trusts from the sale of securities also will be set forth in the applicable prospectus supplement.

Edgar Filing: LINCOLN NATIONAL CORP - Form 424B4

Unless otherwise stated in a prospectus supplement, none of these securities will be listed on any securities exchange. Our common stock is listed on the New York and Chicago Stock Exchanges under the symbol LNC.

Before you invest, you should carefully read this prospectus, any applicable prospectus supplement and information described under the headings *Where You Can Find More Information* and *Documents Incorporated by Reference*.

Investing in our securities involves risks. See Risk Factors beginning on page 7 of this prospectus.

For North Carolina Residents: The Commissioner of Insurance for the State of North Carolina has not approved or disapproved these securities nor has the Commissioner ruled upon the accuracy or adequacy of this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is March 10, 2009.

ABOUT THIS PROSPECTUS

This prospectus is one part of a shelf registration statement that we have filed on Form S-3 with the Securities and Exchange Commission, or the SEC, under the Securities Act of 1933, as amended, or the Securities Act. Under the shelf registration statement, we and the trusts are registering an unspecified amount of each class of the securities described in this prospectus, as applicable, and we may sell, from time to time, in one or more offerings, any combination of the securities described in this prospectus and the trusts may sell the trust preferred securities. In addition, we or the trusts or any of their respective affiliates may use this prospectus and the applicable prospectus supplement in a remarketing or other sale transaction involving the securities after their initial sale.

This prospectus provides you with a general description of the securities we or the trusts may offer. Each time we or the trusts sell securities, we or the trusts will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add to, update, supplement or clarify information contained in this prospectus. This prospectus does not contain all of the information set forth in the registration statement and the exhibits to the registration statement. For further information concerning us, the trusts and the securities, you should read the entire registration statement and the additional information described under Documents Incorporated by Reference below.

You should rely only on the information contained or incorporated by reference in this prospectus. We have not, and any underwriter, dealer, agent or remarketing firm has not, authorized any person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and any underwriter, dealer, agent or remarketing firm is not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted or in which the person making such offer or solicitation is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation. You should assume that the information appearing in this prospectus is accurate as of the date on the front cover. Our business, financial condition, results of operations and prospects may have changed since that date.

Unless otherwise indicated, or the context otherwise requires, all references in this prospectus to LNC, we, our, us, or similar terms refer to Lincoln National Corporation together with its subsidiaries. Unless otherwise indicated, or the context otherwise requires, references in this prospectus to the trusts are to Lincoln National Capital VII, Lincoln National Capital VIII and Lincoln National Capital IX, collectively, and, references to a trust are to Lincoln National Capital VII, Lincoln National Capital VIII and Lincoln National Capital IX, individually.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information and documents with the SEC. You may read and copy any document we file with the SEC:

in the public reference room maintained by the SEC in Washington, D.C. (100 F Street, N.E., Room 1580, Washington, D.C. 20549). Copies of such materials can be obtained from the SEC's public reference section at prescribed rates. You may obtain information on the operation of the public reference room by calling the SEC at (800) SEC-0330, or

on the SEC website located at www.sec.gov.

This Prospectus is part of a Registration Statement filed on Form S-3 with the SEC under the Securities Act. This prospectus does not contain all of the information set forth in the Registration Statement and the exhibits and schedules to the Registration Statement. For further information concerning us, the trusts and the securities, you should read the entire Registration Statement and the additional information described under Documents

Table of Contents

Incorporated by Reference below. The Registration Statement has been filed electronically and may be obtained in any manner listed above. Any statements contained in this prospectus concerning the provisions of any document are not necessarily complete, and, in each instance, reference is made to the copy of such document filed as an exhibit to the Registration Statement or otherwise filed with the SEC. Each such statement is qualified in its entirety by such reference.

Information about us is also available on our website at <http://www.lincolnfinancial.com>. This URL and the SEC's URL above are intended to be inactive textual references only. Information on our or the SEC's website is not a part of this prospectus.

DOCUMENTS INCORPORATED BY REFERENCE

The SEC's rules allow us to incorporate by reference information into this prospectus. This means that we can disclose important information to you by referring you to another document. Any information referred to in this way is considered part of this prospectus from the date we file that document. Any reports filed by us with the SEC after the date of this prospectus and before the date that the offering of the securities by means of this prospectus is terminated will automatically update and, where applicable, supersede any information contained in this prospectus or incorporated by reference in this prospectus.

We incorporate by reference into this prospectus the following documents or information filed (File No. 1-6028) with the SEC (other than, in each case, information deemed to have been furnished or not filed in accordance with the SEC rules):

Those portions of our Proxy Statement for our 2008 Annual Meeting of Shareholders which were also incorporated by reference into Part III of our Annual Report on Form 10-K for the fiscal year ended December 31, 2007;

Our Annual Report on Form 10-K for the fiscal year ended December 31, 2008;

Our Current Report on Form 8-K filed with the SEC on January 13, 2009; and

The description of our Common Stock contained in Form 10 filed with the SEC on April 28, 1969, including any amendments or reports filed for the purpose of updating that description.

Each document filed subsequent to the date of this Registration Statement pursuant to Sections 13(a), 13(c), 14 and 15(d) of the Securities Exchange Act of 1934, as amended, prior to the filing of a post-effective amendment which indicates that all securities offered have been sold or which deregisters all securities then remaining unsold, shall be deemed to be incorporated by reference in this Registration Statement and to be a part hereof from the date of the filing of such documents. Any statement contained in a document incorporated or deemed to be incorporated herein by reference shall be deemed to be modified or superseded for purposes of this Registration Statement to the extent that a statement contained herein (or in any other subsequently filed document which also is or is deemed to be incorporated by reference herein) modifies or supersedes such statement. Any such statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute part of this Registration Statement.

We will provide without charge to each person to whom this prospectus is delivered, upon the written or oral request of such person, a copy of the documents incorporated by reference as described above (other than exhibits to such documents unless such exhibits are specifically incorporated by reference into such documents). Please direct your oral or written request to:

Table of Contents

LNC

LNC is a holding company which operates multiple insurance and investment management businesses through subsidiary companies. Through our business segments, we sell a wide range of wealth protection, accumulation and retirement income products and solutions. These products include institutional and/or retail fixed and indexed annuities, variable annuities, universal life insurance, variable universal life insurance, term life insurance, mutual funds and managed accounts. LNC was organized under the laws of the state of Indiana in 1968. We currently maintain our principal executive offices at 150 N. Radnor Chester Road, Radnor, Pennsylvania 19087, and our telephone number is (484) 583-1400.

Lincoln Financial Group is the marketing name for LNC and its subsidiary companies. As of December 31, 2008, LNC had consolidated assets of \$163.1 billion and consolidated stockholders' equity of \$8.0 billion. For the year ended December 31, 2008, LNC had total revenue of \$9.9 billion and net income of \$57 million.

We provide products and services in four operating businesses and report results through six business segments, as follows:

Business	Corresponding Segments
Retirement Solutions	Annuities Defined Contribution
Insurance Solutions	Life Insurance Group Protection
Investment Management	Investment Management
Lincoln UK	Lincoln UK

We also have other Operations, which includes our run-off institutional pension business, financial data for operations that are not directly related to the business segments, unallocated corporate items and the ongoing amortization of deferred gain on the indemnity reinsurance portion of the sale of our former reinsurance segment to Swiss Re Life & Health America Inc., referred to as Swiss Re, in the fourth quarter of 2001. Unallocated corporate items include investment income on investments related to the amount of statutory surplus in our insurance subsidiaries that is not allocated to our business units and other corporate investments, interest expense on short-term and long-term borrowings and certain expenses, including restructuring and merger-related expenses.

THE LINCOLN TRUSTS

We created Lincoln National Capital VII, Lincoln National Capital VIII and Lincoln National Capital IX. Each trust is a statutory trust formed under Delaware law pursuant to a trust agreement executed by LNC, as sponsor of the trust, and the Delaware trustee described below, and the filing of a certificate of trust with the Delaware Secretary of State. We will execute amended and restated trust agreements for the trusts substantially in the form filed as an exhibit to the registration statement that includes this prospectus. We refer to the trust agreements, each as amended and restated, in this prospectus as the trust agreements. These trust agreements will state the terms and conditions for the trusts to issue and sell their trust preferred securities and common securities, which we refer to collectively in this prospectus as the trust securities. Each trust agreement will be qualified as an indenture under the Trust Indenture Act of 1939.

Each trust exists for the exclusive purposes of:

issuing and selling its trust securities;

using the proceeds from the sale of its trust securities to acquire a series of corresponding junior subordinated debt securities issued by LNC, which we refer to as corresponding junior subordinated debt securities; and

Table of Contents

engaging in only those other activities necessary, convenient or incidental to the above purposes.

Unless otherwise specified in the applicable prospectus supplement, each trust has a term of approximately 55 years, but may terminate earlier as provided in the applicable trust agreement. Each trust's business and affairs are conducted by its trustees, each appointed by LNC as holder of the trust's common securities. Unless otherwise specified in the applicable prospectus supplement, there are four trustees of each trust, which we collectively refer to as the issuer trustees, as follows:

Administrative Trustees: Two of the trustees, whom we refer to as administrative trustees, are persons who are employees or officers of or who are affiliated with LNC.

Property, Guarantee and Indenture Trustee: The third trustee is The Bank of New York Mellon (as successor in interest to Bank One Trust Company, National Association), a financial institution that is unaffiliated with LNC, and which serves as the property trustee under the trust agreement. The Bank of New York Mellon (as successor in interest to Bank One Trust Company, National Association) also acts as the guarantee trustee under the guarantee agreement, and the indenture trustee under a junior subordinated indenture.

Delaware Trustee: The fourth trustee, BNY Mellon Trust of Delaware (as successor in interest to Bank One Trust Company, National Association), that is unaffiliated with LNC, serves as the Delaware trustee under the trust agreement.

LNC will hold directly or indirectly all of the common securities of each of the trusts. Unless otherwise indicated in the applicable prospectus supplement, the common securities will represent an aggregate liquidation amount equal to at least 3% of each trust's total capital. As the direct or indirect holder of the common securities of a trust, LNC will generally have the sole right to appoint, remove or replace the property trustee and/or the Delaware trustee for the trust. However, if a subordinated debt security event of default under the trust agreement for the trust has occurred and is continuing, the holders of a majority in liquidation preference of the related trust preferred securities will be entitled to appoint, remove or replace the property trustee and/or the Delaware trustee for the trust. In no event will the holders of the trust preferred securities have the right to vote to appoint, remove or replace the administrative trustees; such voting rights are vested exclusively in LNC, as the direct or indirect owner of the common securities of the trust. The duties and obligations of each issuer trustee are governed by the applicable trust agreement. LNC will pay all fees and expenses related to each trust and the offering of the trust preferred securities and will pay, directly or indirectly, all ongoing costs, expenses and liabilities of each trust.

The common securities of a trust owned directly or indirectly by LNC will rank equally, and payments will be made on such common securities proportionately with the trust preferred securities of the trust, except as provided below. Upon the occurrence and continuance of an event of default under a trust agreement resulting from a subordinated debt security event of default, periodic cash distributions (which we refer to as distributions) and payments upon liquidation, redemption or otherwise with respect to the trust securities of a trust must be paid or delivered to the holders of the trust preferred securities of that trust before the holders of the common securities of that trust. See Description of Securities We May Sell Trust Preferred Securities Subordination of Common Securities.

Except as otherwise provided in the applicable prospectus supplement:

each trust will sell its trust preferred securities to the public and its common securities to LNC;

concurrently with the issuance by a trust of its trust preferred securities, the trust will use the proceeds from these sales to buy a series of corresponding junior subordinated debt securities from LNC with the same financial terms as the trust preferred securities;

LNC will pay interest on the corresponding junior subordinated debt securities at the same rate and at the same times as the trust makes payments on the trust preferred securities. The trust will use the payments it receives on the corresponding subordinated debt securities to make the corresponding payments on the trust preferred securities;

Table of Contents

LNC will, on a subordinated basis, fully and unconditionally guarantee the payment by the trust of the trust preferred securities to the extent described in this prospectus. We refer to this as the guarantee. Both the corresponding subordinated debt securities and the guarantee will be subordinated to LNC's existing and future senior indebtedness, and will effectively be subordinated to existing and future senior obligations of LNC's subsidiaries;

the corresponding junior subordinated debt securities will be the sole assets of each trust; and

payments under the corresponding junior subordinated debt securities and the related expense agreement with LNC will be the only revenue of each trust.

LNC may redeem the corresponding subordinated debt securities (and cause the redemption of the trust securities) or may terminate each trust and cause the corresponding subordinated debt securities to be distributed to the holders of trust preferred securities in liquidation of their interests in such trust in certain circumstances. See Description of Securities We May Sell Trust Preferred Securities Liquidation Distribution Upon Termination.

The rights of the holders of trust preferred securities are described in the applicable trust agreement and the Delaware Statutory Trust Act. The principal executive office of each trust is located at 150 N. Radnor Chester Road, Radnor, Pennsylvania 19087, and its telephone number is (484) 583-1400.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES****Lincoln National Corporation and Subsidiaries****Historical Ratio of Earnings to Fixed Charges**

(dollars in millions)

	For The Years Ended December 31,				
	2008	2007	2006	2005	2004
Income (loss) from continuing operations before taxes	\$ (25)	\$ 1,874	\$ 1,778	\$ 1,075	\$ 1,036
Sub-total of fixed charges	303	325	242	110	116
Sub-total of adjusted income	278	2,199	2,020	1,185	1,152
Interest on annuities and financial products	2,532	2,519	2,260	1,570	1,571
Adjusted income base	\$ 2,810	\$ 4,718	\$ 4,280	\$ 2,755	\$ 2,723
Fixed Charges					
Interest and debt expense ⁽¹⁾	\$ 281	\$ 284	\$ 223	\$ 89	\$ 94
Interest expense related to uncertain tax positions	2	21			
Portion of rent expense representing interest	20	20	19	21	22
Sub-total of fixed charges excluding interest on annuities and financial products	303	325	242	110	116
Interest on annuities and financial products	2,532	2,519	2,260	1,570	1,571
Total fixed charges	\$ 2,835	\$ 2,844	\$ 2,502	\$ 1,680	\$ 1,687
Ratio of sub-total of adjusted income to sub-total of fixed charges excluding interest on annuities and financial products ⁽²⁾		6.77	8.35	10.77	9.93
Ratio of adjusted income base to total fixed charges ⁽²⁾		1.66	1.71	1.64	1.61

(1) Interest and debt expense excludes \$5 million related to the early retirement of debt in 2006.

(2) The ratios of earnings to fixed charges for the year ended December 31, 2008, indicated less than one-to-one coverage and are therefore not presented. Additional earnings of \$25 million would have been required for the year ended December 31, 2008, to achieve ratios of one-to-one coverage.

Table of Contents

RISK FACTORS

Investing in our securities involves risks. You should carefully consider the risks described in any prospectus supplement and those incorporated by reference into this prospectus before making an investment decision. The risks and uncertainties described in any prospectus supplement and incorporated by reference into this prospectus are not the only ones facing our company. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of these risks actually occur, our business, financial condition and results of operations could be materially affected. In that case, the value of our securities could decline substantially.

USE OF PROCEEDS

We intend to use the net proceeds from the sales of the securities as set forth in the applicable prospectus supplement.

DESCRIPTION OF SECURITIES WE MAY SELL

Senior and Subordinated Debt Securities

General

We may issue senior debt securities in one or more series under the indenture, dated as of March 10, 2009, between LNC and The Bank of New York Mellon, as trustee, which we refer to as the senior indenture. We may also issue subordinated debt securities in one or more series under the indenture to be entered into between LNC and The Bank of New York Mellon, as trustee, which we refer to as the subordinated indenture and together with the senior indenture as the indentures or each of the senior indenture and the subordinated indenture individually, as the applicable indenture. For purposes of this section, we refer to: (i) the senior debt securities together with the subordinated debt securities as the debt securities; and (ii) The Bank of New York Mellon, or any successor or additional trustee, in its respective capacity as trustee under the applicable indenture, as the trustee. The indentures are filed as exhibits to the registration statement that includes this prospectus. See *Where You Can Find More Information* for information on how to obtain copies of the indentures. The indentures have been qualified under the Trust Indenture Act of 1939, as amended, which we refer to as the Trust Indenture Act.

This summary of the indentures and the debt securities relates to terms and conditions applicable to the debt securities generally. We will summarize the particular terms of any series of debt securities in the applicable prospectus supplement. If indicated in the prospectus supplement, the terms of any series may differ from the terms summarized below. Because the summary of the material provisions of the indentures and the debt securities set forth below and the summary of the material terms of a particular series of debt securities set forth in the applicable prospectus supplement are not complete, you should refer to the indentures and the debt securities for complete information regarding the terms and provisions of the indentures (including defined terms) and the debt securities. Wherever we refer to particular articles, sections or defined terms of the indentures in this prospectus or in a prospectus supplement, those articles, sections or defined terms are incorporated in this prospectus and the prospectus supplement by reference, and the statement with respect to which such reference is made is qualified in its entirety by such reference. In addition, unless specified otherwise, references to such particular articles, sections or defined terms are applicable to both the senior indenture and the subordinated indenture.

The senior debt securities will be unsecured and will rank on parity with all of our other unsecured and unsubordinated obligations. Unless otherwise provided in the prospectus supplement, each series of subordinated debt securities will rank equally with all other series of subordinated debt securities issued under the subordinated indenture and will be unsecured and subordinate and junior in right of payment to all of our senior debt (as defined below). See *Subordination Under Subordinated Indenture*.

Table of Contents

We are a non-operating holding company and our consolidated subsidiaries own almost all of our operating assets. We rely primarily on dividends from our subsidiaries to meet our obligations. The payment of dividends by our insurance company subsidiaries is limited under the insurance company holding company laws of the states in which those subsidiaries are domiciled. Accordingly, the debt securities will be effectively subordinated to all existing and future liabilities of our subsidiaries, and holders of debt securities should look only to our assets for payments on the debt securities.

Unless we state otherwise in the applicable prospectus supplement, the indentures do not limit us in incurring or issuing other secured or unsecured debt under either of the indentures or any other indenture that we may have entered into or enter into in the future.

Terms of Debt Securities

We may issue the debt securities in one or more series through an indenture that supplements the senior indenture or the subordinated indenture, as applicable, or through a resolution of our board of directors, an authorized committee of our board of directors or any of our officers delegated the power of either our board of directors or an authorized committee of our board of directors.

You should refer to the applicable prospectus supplement for the specific terms of the debt securities. These terms may include the following:

title of the debt securities of the series;

any limit upon the aggregate principal amount of the debt securities of the series;

maturity date(s) or the method of determining the maturity date(s);

interest rate(s), if any, or the method of determining the interest rate(s);

date(s) from which interest will accrue;

date(s) on which interest will be payable;

place(s) where we may pay principal, premium, if any, and interest, if any, and where you may present the debt securities for registration of transfer or exchange;

place(s) where notices and demands relating to the debt securities and the applicable indenture may be made;

redemption or early payment provisions;

sinking fund or similar provisions;

attachment to the debt securities of the series of warrants, options or other rights to purchase or sell our stock or other securities;

Edgar Filing: LINCOLN NATIONAL CORP - Form 424B4

authorized denominations if other than denominations of \$1,000;

if other than the principal amount of the debt securities, the portion of the principal amount of the debt securities that is payable upon declaration of acceleration of maturity;

any deletions or modifications of or additions to the events of default or covenants specified in the applicable indenture;

form(s) of the debt securities of the series;

currency, currencies, or currency unit(s), if other than U.S. dollars, in which the debt securities are denominated and/or in which the principal of, premium, if any, and interest, if any, on the debt securities is payable;

Table of Contents

if the principal of and premium, if any, or interest, if any, on any of the debt securities of the series is to be payable, at our election or at the election of the holder of the debt securities, in a currency or currencies, or currency unit(s), other than that in which the debt securities are denominated, the period(s) within which, and the terms and conditions upon which, such election may be made, or the other circumstances under which any of the debt securities are to be so payable;

if the amount of payments of principal of and premium, if any, or interest, if any, on any of the debt securities of the series may be determined with reference to an index or indices, the manner in which such amounts are determined;

any additions or changes to the applicable indenture relating to a series of debt securities necessary to permit or facilitate the issuance of the debt securities in bearer form, registrable or not registrable as to principal, and with or without interest coupons;

whether any debt securities of the series are to be issuable initially in temporary global form or definitive global form and, if so, whether beneficial owners of interests in any such definitive global debt security may exchange such interests for debt securities of such series and of like tenor of any authorized form and denomination and the circumstances under which and the place or places where any such exchanges may occur, if other than in the manner set forth in the applicable indenture;

if the debt securities of the series are to be issued upon the exercise of warrants, the time, manner and place for such debt securities to be authenticated and delivered;

whether and under what circumstances and with what procedures and documentation we will pay additional amounts on any of the debt securities of the series to any holder who is not a U.S. person, in respect of any tax assessment or governmental charge withheld or deducted and, if so, whether we will have the option to redeem such debt securities rather than pay additional amounts;

the person to whom any interest on any debt security of the series is payable, if other than the person in whose name that debt security is registered and the extent to which any interest payable on a temporary global debt security will be paid if other than in the manner provided in the applicable indenture;

the terms and conditions of any right or obligation we would have, or any option you would have, to convert or exchange the debt securities into cash or any other securities or property of our company or any other person and any changes to the applicable indenture with respect to the debt securities to permit or facilitate such conversion or exchange;

in the case of the subordinated indenture, any provisions regarding subordination; and

additional terms not inconsistent with the provisions of the applicable indenture.

Debt securities may also be issued under the indentures upon the exercise of warrants. See Warrants.

We may, in certain circumstances, without notice to or consent of the holders of the debt securities, issue additional debt securities having the same terms and conditions as the debt securities previously issued under this prospectus and any applicable prospectus supplement, so that such additional debt securities and the debt securities previously offered under this prospectus and any applicable prospectus supplement form a single series, and references in this prospectus and any applicable prospectus supplement to the debt securities shall include, unless the context otherwise requires, any further debt securities issued as described in this paragraph.

Special Payment Terms of Debt Securities

Edgar Filing: LINCOLN NATIONAL CORP - Form 424B4

We may issue one or more series of debt securities at a discount below their stated principal amount. These may bear no interest or interest at a rate which at the time of issuance is below market rates. We will describe U.S. federal tax consequences and special considerations relating to any series in the applicable prospectus supplement.

Table of Contents

The purchase price of any of the debt securities may be payable in one or more foreign currencies or currency units. The debt securities may be denominated in one or more foreign currencies or currency units, or the principal of, premium, if any, or interest, if any, on any debt securities may be payable in one or more foreign currencies or currency units. We will describe the restrictions, elections, U.S. federal income tax considerations, specific terms and other information relating to the debt securities and any foreign currencies or currency units in the applicable prospectus supplement.

If we use any index to determine the amount of payments of principal of, premium, if any, or interest, if any, on any series of debt securities, we will also describe in the applicable prospectus supplement the special U.S. federal income tax, accounting and other considerations applicable to the debt securities.

Payment and Paying Agents

Unless we state otherwise in an applicable prospectus supplement, we will pay principal of, premium, if any, and interest, if any, on your debt securities at the office of the trustee for your debt securities in the City of New York or at the office of any other paying agent that we may designate.

Unless we state otherwise in an applicable prospectus supplement, we will pay any interest on debt securities to the registered owner of the debt security at the close of business on the record date for the interest, except in the case of defaulted interest.

Any moneys or U.S. government obligations (including the proceeds thereof) deposited with the trustee or any paying agent, or then held by us in trust, for the payment of the principal of, premium, if any, or interest, if any, on any debt security that remains unclaimed for two years after the principal, premium or interest has become due and payable will be repaid to us. After repayment to us, you are entitled to seek payment only from us as a general unsecured creditor.

Denominations, Registration and Transfer

Except as we may describe in the applicable prospectus supplement, we will issue debt securities in fully registered form without coupons and in denominations of \$1,000 and any integral multiple of \$1,000.

Debt securities of any series will be exchangeable for other debt securities of the same series, in any authorized denominations, of a like tenor and aggregate principal amount and having the same terms. You may present debt securities for exchange, as described above, or for registration of transfer, at the office of the security registrar or at the office of any transfer agent we designate for that purpose. You will not incur a service charge but you must pay any taxes, assessments and other governmental charges as described in the applicable indenture. We will appoint the trustee as the initial security registrar under the applicable indenture. We may at any time rescind the designation of any transfer agent that we initially designate or approve a change in the location through which the transfer agent acts. We will specify the transfer agent in the applicable prospectus supplement. We may at any time designate additional transfer agents.

Global Debt Securities

We may issue all or any part of a series of debt securities in the form of one or more global debt securities. We will appoint the depository holding the global debt securities. Unless we otherwise state in the applicable prospectus supplement, the depository will be The Depository Trust Company, or DTC. We will issue global debt securities in registered form and in either temporary or definitive form. Unless it is exchanged for individual debt securities, a global debt security may not be transferred except:

by the depository to its nominee;

by a nominee of the depository to the depository or another nominee; or

by the depository or any nominee to a successor of the depository, or a nominee of the successor.

Table of Contents

We will describe the specific terms of the depository arrangement in the applicable prospectus supplement. We expect that the following provisions will generally apply to these depository arrangements.

Beneficial Interests in a Global Debt Security

If we issue a global debt security, the depository for the global debt security or its nominee will credit on its book-entry registration and transfer system the principal amounts of the individual debt securities represented by the global debt security to the accounts of persons that have accounts with it. We refer to those persons as participants in this prospectus. The accounts will be designated by the dealers, underwriters or agents for the debt securities, or by us if the debt securities are offered and sold directly by us. Ownership of beneficial interests in a global debt security will be limited to participants or persons who may hold interests through participants. Ownership and transfers of beneficial interests in the global debt security will be shown on, and transactions can be effected only through, records maintained by the applicable depository or its nominee, for interests of participants, and the records of participants, for interests of persons who hold through participants. The laws of some states require that you take physical delivery of securities in definitive form. These limits and laws may impair your ability to transfer beneficial interests in a global debt security.

So long as the depository or its nominee is the registered owner of a global debt security, the depository or its nominee will be considered the sole owner or holder of the debt securities represented by the global debt security for all purposes under the applicable indenture. Except as provided below, you:

will not be entitled to have any of the individual debt securities represented by the global debt security registered in your name;

will not receive or be entitled to receive physical delivery of any debt securities in definitive form; and

will not be considered the registered owner or holder of the debt securities under the applicable indenture.

Payments of Principal, Premium and Interest

We will make principal, premium, if any, and interest, if any, payments on global debt securities to the depository that is the registered holder of the global debt security or its nominee. The depository for the global debt securities will be solely responsible and liable for all payments made on account of your beneficial ownership interests in the global debt security and for maintaining, supervising and reviewing any records relating to your beneficial ownership interests.

We expect that the depository or its nominee, upon receipt of any principal, premium, if any, or interest, if any, payment immediately will credit participants' accounts with amounts in proportion to their respective beneficial interests in the principal amount of the global debt security as shown on the records of the depository or its nominee. We also expect that payments by participants to you, as an owner of a beneficial interest in the global debt security held through those participants, will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in street name. These payments will be the responsibility of those participants.

Issuance of Individual Debt Securities

Unless we state otherwise in the applicable prospectus supplement, if a depository for a series of debt securities is at any time unwilling, unable or ineligible to continue as depository, we will appoint a successor depository or we will issue individual debt securities in exchange for the global debt security.

Redemption

Unless we state otherwise in an applicable prospectus supplement, debt securities will not be subject to any sinking fund, and we may, at our option, redeem all or any part of debt securities of any series prior to their stated maturity.

Table of Contents

Except as we may otherwise specify in the applicable prospectus supplement, the redemption price for any debt security which we redeem will equal 100% of the principal amount plus any accrued and unpaid interest up to, but excluding, the redemption date.

We will mail notice of any redemption of debt securities at least 30 days but not more than 60 days before the redemption date to the registered holders of the debt securities at their addresses as shown on the security register. On and after the redemption date, interest will cease to accrue on the debt securities or the portions of the debt securities called for redemption.

Consolidation, Merger and Transfer of Assets

We will not consolidate with or merge into any other person or convey or transfer our assets substantially as an entirety to any person, unless:

the person formed by such consolidation or into which we merge or the person which acquires by conveyance or transfer our assets substantially as an entirety is an entity that is organized and existing under the laws of the United States of America or any state thereof or the District of Columbia and that expressly assumes our obligations relating to the debt securities;

immediately after giving effect to the consolidation, merger, conveyance or transfer, there exists no event of default, and no event which, after notice or lapse of time, or both, would become an event of default; and

other conditions described in the applicable indenture are met.

This covenant would not apply to the direct or indirect conveyance or transfer of all or any portion of the stock, assets or liabilities of any of our wholly owned subsidiaries to us or to our other wholly owned subsidiaries.

Limitation on Liens on Stock of Restricted Subsidiaries

We will not, nor will we permit any restricted subsidiary to, issue, assume or guarantee any debt for borrowed money, which we refer to in this prospectus as debt, secured by a mortgage, security interest, pledge, lien or other encumbrance upon any shares of stock of any restricted subsidiary without effectively providing that the senior debt securities (together with, if we so determine, any other debt of or guarantee by us ranking equally with the senior debt securities and then existing or thereafter created) will be secured equally and ratably with that debt.

For purposes of this prospectus, restricted subsidiary means The Lincoln National Life Insurance Company so long as it remains a subsidiary, as well as any successor to all or a principal part of the assets of that subsidiary and any other subsidiary which our board of directors designates as a restricted subsidiary.

Limitation on Issuance or Disposition of Stock of Restricted Subsidiaries

We will not, nor will we permit any restricted subsidiary to, issue, sell, assign, transfer or otherwise dispose of, directly or indirectly, any capital stock, other than nonvoting preferred stock, of any restricted subsidiary, except for:

the purpose of qualifying directors;

sales or other dispositions to us or one or more restricted subsidiaries;

the disposition of all or any part of the capital stock of any restricted subsidiary for consideration which is at least equal to the fair value of that capital stock as determined by our board of directors acting in good faith; or

Table of Contents

an issuance, sale, assignment, transfer or other disposition required to comply with an order of a court or regulatory authority of competent jurisdiction, other than an order issued at our request or the request of any restricted subsidiary.

For the purposes of this prospectus, **capital stock** means any and all shares, interests, rights to purchase, warrants, options, participations or other equivalents of or interests in corporate stock.

Modification and Waiver

Modification

We and the trustee may modify and amend the applicable indenture by entering into a supplemental indenture with the consent of the holders of not less than a majority in aggregate principal amount of the outstanding debt securities of all series affected by such supplemental indenture (acting as one class). However, no modification or amendment may, without the consent of the holder of each outstanding debt security affected:

change the stated maturity of the principal of, or any installment of principal of or interest payable on, any debt security;

reduce the principal amount of, or the rate of interest on or any premium payable upon the redemption of, or the amount of the principal of an original issue discount security that would be due and payable upon a declaration of acceleration of the maturity of such debt security;

change any place of payment where, or the currency, currencies or currency unit(s) in which any debt security or any premium or the interest on any debt security is payable;

impair your right to institute suit for the enforcement of any payment on any debt security on or after the stated maturity or redemption date;

affect adversely the terms, if any, of conversion or exchange of any debt security into cash, any other securities or property of our company or any other person;

reduce the percentage in aggregate principal amount of outstanding debt securities, the consent of whose holders is necessary to modify or amend the applicable indenture, to waive compliance with certain provisions of the applicable indenture or certain defaults and consequences of such defaults set forth in the applicable indenture;

change any of our obligations to maintain an office or agency as set forth in the applicable indenture;

modify any of these provisions or any of the provisions relating to the waiver of certain past defaults, except to increase the required percentage to effect such action, to provide, with respect to any particular series, the right to condition the effectiveness of any applicable supplemental indenture as to that series on the consent of holders of a specified percentage of the aggregate principal amount of the outstanding debt securities of such series, or to provide that certain other provisions may not be modified or waived without the consent of all of the holders of the outstanding debt securities affected; or

in case of the subordinated indenture, modify the provisions with respect to the subordination of outstanding subordinated debt securities in a manner materially adverse to the holders of such outstanding subordinated debt securities.

Waiver

Edgar Filing: LINCOLN NATIONAL CORP - Form 424B4

The holders of at least a majority in aggregate principal amount of all outstanding debt securities and the holders of at least a majority in aggregate principal amount of the outstanding debt securities of each series to be affected may waive compliance by us with certain restrictive covenants of the applicable indenture.

Table of Contents

The holders of not less than a majority in aggregate principal amount of the outstanding debt securities of a series may, on behalf of the holders of all debt securities of that series, waive any past default under the applicable indenture relating to that series of debt securities and the consequences of such default. However, a default in the payment of the principal of, or premium, if any, or interest, if any, on any debt security of that series or relating to a covenant or provision which under the applicable indenture relating to that series of debt security cannot be modified or amended without the consent of the holder of each outstanding debt security of that series affected cannot be so waived.

Events of Default

Unless we state otherwise in the applicable prospectus supplement, under the terms of the applicable indenture, each of the following constitutes an event of default for a series of debt securities:

default for 30 days in the payment of any installment of interest, if any, when due;

default in the payment of principal, or premium, if any, when due (subject to the bullet point below);

default for 30 days in the payment for a sinking, purchase or analogous fund when due;

default in the performance, or breach, of any covenant or warranty in the applicable indenture for 60 days after written notice;

certain events of bankruptcy, insolvency or reorganization; and

any other event of default provided with respect to debt securities of that series.

We are required to furnish the trustee annually with a statement as to the fulfillment of our obligations under the applicable indenture.

The indentures provide that the trustee may withhold notice to you of any default, except in respect of the payment of the principal of or premium, if any, or interest on any debt securities or the payment of any sinking fund installment with respect to debt securities, if the trustee considers the withholding of such notice to be in the interests of the holders of the debt securities.

Effect of an Event of Default

If an event of default exists (other than an event of default in the case of certain events of bankruptcy as described below), the trustee or the holders of not less than 25% in aggregate principal amount of a series of outstanding debt securities may declare the principal amount, or, if the debt securities are original issue discount securities, such portion of the principal amount of such debt securities as may be specified in the terms of that series, of all of the debt securities of that series, together with accrued interest, if any, on such debt securities, to be due and payable immediately, by a notice in writing to us and to the trustee if given by holders. Upon that declaration, the principal (or specified) amount, together with accrued interest, if any, on such debt securities, will become immediately due and payable, subject to applicable subordination provisions in case of the subordinated indenture. However, at any time after a declaration of acceleration has been made, but before a judgment or decree for payment of the money due has been obtained, the holders of not less than a majority in aggregate principal amount of a series of outstanding debt securities may, subject to conditions specified in the applicable indenture, rescind and annul that declaration and its consequences.

If an event of default in the case of certain events of bankruptcy exists with respect to debt securities of any series at that time outstanding, the principal amount of all debt securities of that series or, if any debt securities of that series are original issue discount securities, such portion of the principal amount of such debt securities as may be specified in the terms of that series, will automatically, and without any declaration or other action on the part of the trustee or any holder of such outstanding debt securities, become immediately due and payable.

Table of Contents

Subject to the provisions of the applicable indenture relating to the duties of the trustee, if an event of default exists, the trustee will be under no obligation to exercise any of its rights or powers under the applicable indenture at your request or direction, unless you have offered to the trustee security or indemnity satisfactory to it against the costs, expenses and liabilities which the trustee might incur in compliance with such request or direction.

Subject to the provisions for the security or indemnification of the trustee, the holders of not less than a majority in aggregate principal amount of a series of outstanding debt securities have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee in connection with the debt securities of that series.

Legal Proceedings and Enforcement of Right to Payment

You will not have any right to institute any proceeding in connection with the applicable indenture or for any remedy under the applicable indenture, unless you have previously given to the trustee written notice of a continuing event of default with respect to debt securities of that series. In addition, the holders of at least 25% in aggregate principal amount of a series of the outstanding debt securities or, in the case of an event of default in case of certain events of bankruptcy, of all series (voting as a class) with respect to which such event of default is continuing, must have made written request, and offered indemnity satisfactory, to the trustee to institute that proceeding as trustee, and, within 60 days following the receipt of that notice, the trustee must not have received from such holders a direction inconsistent with that request, and must have failed to institute the proceeding.

However, you will have an absolute and unconditional right to receive payment of the principal of, premium, if any, and interest, if any, on that debt security on the due dates expressed in the debt security (or, in the case of redemption, on the redemption date) and to institute a suit for the enforcement of that payment.

Satisfaction and Discharge

The indentures provide that when, among other things, all debt securities not previously delivered to the trustee for cancellation:

have become due and payable;

will become due and payable at their stated maturity within one year; or

are to be called for redemption within one year under arrangements satisfactory to the trustee for the giving of notice of redemption by the trustee in our name and at our expense, and

we deposit or cause to be deposited with the trustee, money or U.S. government obligations or a combination thereof, as trust funds, in an amount and in the currency or currency unit in which such debt securities are payable to be sufficient to pay and discharge the entire indebtedness on the debt securities not previously delivered to the trustee for cancellation, for the principal, and premium, if any, and interest, if any, to the date of the deposit or to the stated maturity or redemption date, as the case may be,

then the applicable indenture will cease to be of further effect with respect to a series of debt securities, and we will be deemed to have satisfied and discharged the applicable indenture with respect to such series. However, we will continue to be obligated to pay all other sums due under the applicable indenture and to provide the officer's certificate and opinion of counsel described in the applicable indenture.

Defeasance and Covenant Defeasance

Unless we state otherwise in the applicable prospectus supplement, the indentures provide that we may discharge all of our obligations, other than as to transfers and exchanges and certain other specified obligations,

Table of Contents

under any series of the debt securities at any time, and that we may also be released from our obligations described above under Consolidation, Merger and Transfer of Assets, Limitation on Liens on Stock of Restricted Subsidiaries, Limitation on Issuance or Disposition of Stock of Restricted Subsidiaries and from certain other obligations, as applicable, including obligations imposed by supplemental indentures with respect to that series, if any, and elect not to comply with those sections and obligations without creating an event of default. Discharge under the first procedure is called defeasance and under the second procedure is called covenant defeasance.

Defeasance or covenant defeasance may be effected only if:

we irrevocably deposit with the trustee money or U.S. government obligations or a combination thereof, as trust funds in an amount sufficient to pay on the respective stated maturities or the redemption date, the principal of and any premium and interest on, all debt securities of that series along with an opinion of a nationally recognized firm of independent accountants expressed in a written certification as to the sufficiency of the deposit;

we deliver to the trustee an opinion of counsel to the effect that:

the holders of the debt securities of that series will not recognize gain or loss for U.S. federal income tax purposes as a result of the deposit, defeasance and discharge or as a result of the deposit and covenant defeasance; and

the deposit, defeasance and discharge or the deposit and covenant defeasance will not otherwise alter those holders' U.S. federal income tax treatment of payments on the debt securities of that series (in the case of a defeasance, this opinion must be based on a ruling of the Internal Revenue Service or a change in U.S. federal income tax law occurring after the date of execution of the applicable indenture);

no event of default under the applicable indenture has occurred and is continuing;

such defeasance or covenant defeasance does not result in a breach or violation of, or constitute a default under, any indenture or other agreement or instrument for borrowed money to which we are a party or by which we are bound;

such defeasance or covenant defeasance does not result in the trust arising from such deposit constituting an investment company within the meaning of the Investment Company Act of 1940, as amended, unless such trust will be registered under the Investment Company Act of 1940 or exempt from registration thereunder;

we deliver to the trustee an officer's certificate and an opinion of counsel, each stating that all conditions precedent with respect to such defeasance or covenant defeasance have been complied with; and

other conditions specified in the applicable indenture are met.

The subordinated indenture will not be discharged as described above if we have defaulted in the payment of principal of, premium, if any, or interest, if any, on any senior debt, as defined below under Subordination Under Subordinated Indenture, and that default is continuing or an event of default on the senior debt then exists and has resulted in the senior debt becoming or being declared due and payable prior to the date it otherwise would have become due and payable.

Conversion or Exchange

We may issue debt securities that we may convert or exchange into cash or other securities or property of our company or any other person. If so, we will describe the specific terms on which the debt securities may be

Table of Contents

converted or exchanged in the applicable prospectus supplement. The conversion or exchange may be mandatory, at your option, or at our option. The applicable prospectus supplement will describe the manner in which the shares of common stock or other securities, property or cash you would receive would be issued or delivered.

Subordination Under Subordinated Indenture

In the subordinated indenture, we have agreed, and holders of subordinated debt securities will be deemed to have agreed, that any subordinated debt securities are subordinate and junior in right of payment to all senior debt to the extent provided in the subordinated indenture.

Upon any payment or distribution of assets to creditors upon any liquidation, dissolution, winding up, reorganization, assignment for the benefit of creditors, marshaling of assets or any bankruptcy, insolvency, debt restructuring or similar proceeding in connection with our insolvency or bankruptcy, the holders of senior debt will first be entitled to receive payment in full of principal of, premium, if any, and interest, if any, on the senior debt before the holders of subordinated debt securities will be entitled to receive or retain any payment of the principal of, premium, if any, or interest, if any, on the subordinated debt securities.

If the maturity of any subordinated debt securities is accelerated, the holders of all senior debt outstanding at the time of the acceleration will first be entitled to receive payment in full of all amounts due, including any amounts due upon acceleration, before you will be entitled to receive any payment of the principal of, premium, if any, or interest on the subordinated debt securities, other than sinking fund payments.

We will not make any payments of principal of, premium, if any, or interest, if any, on the subordinated debt securities (other than any sinking fund payment) if:

a default in any payment on senior debt then exists,

an event of default on any senior debt resulting in the acceleration of its maturity then exists, or

any judicial proceeding is pending in connection with any such default.

When we use the term "debt" we mean, with respect to any person, the principal of, premium, if any, and interest, if any, on debt of such person, whether incurred on, prior to, or after, the date of the subordinated indenture, whether recourse is to all or a portion of the assets of that person and whether or not contingent, which includes:

every obligation of, or any obligation guaranteed by, that person for money borrowed,

every obligation of, or any obligation guaranteed by, that person evidenced by bonds, debentures, notes or other similar instruments, including obligations incurred in connection with the acquisition of property, assets or businesses but excluding the obligation to pay the deferred purchase price of any such property, assets or business if payable in full within 90 days from the date such debt was created,

every capital lease obligation of that person,

leases of property or assets made as part of any sale and lease-back transaction to which that person is a party, and

any amendments, renewals, extensions, modifications and refundings of any such debt.

Edgar Filing: LINCOLN NATIONAL CORP - Form 424B4

The term "debt" does not include trade accounts payable or accrued liabilities arising in the ordinary course of business.

When we use the term "senior debt" we mean the principal of, premium, if any, and interest, if any, on debt, whether incurred on, prior to, or after, the date of the subordinated indenture, unless the instrument creating or

Table of Contents

evidencing that debt or pursuant to which that debt is outstanding states that those obligations are not superior in right of payment to the subordinated debt securities or to other debt which ranks equally with, or junior to, the subordinated debt securities. Interest on this senior debt includes interest accruing on or after the filing of any petition in bankruptcy or for reorganization relating to us, whether or not the claim for post-petition interest is allowed in that proceeding.

However, senior debt will not include:

any debt of our company which, when incurred and without regard to any election under Section 1111(b) of Title 11 of the United States Code, was without recourse to our company,

any debt of our company to any of our subsidiaries,

debt to any employee of our company or any of our subsidiaries,

any liability for taxes,

debt or other monetary obligations to trade creditors or assumed by our company or any of our subsidiaries in the ordinary course of business in connection with the obtaining of goods, materials or services, and

the subordinated debt securities.

The subordinated indenture provides that we may change the subordination provisions relating to any particular issue of subordinated debt securities prior to issuance. We will describe any change in the prospectus supplement relating to the subordinated debt securities.

Governing Law

The indentures and the debt securities will be governed by and construed in accordance with the laws of the State of New York.

Concerning the Trustees

The trustee will have all the duties and responsibilities of an indenture trustee specified in the Trust Indenture Act. The trustee is not required to expend or risk its own funds or otherwise incur financial liability in performing its duties or exercising its rights and powers if it reasonably believes that it is not reasonably assured of repayment or adequate indemnity.

We and our affiliates maintain various commercial and service relationships with the trustee and its affiliates in the ordinary course of business.

Table of Contents

Junior Subordinated Debt Securities

We may issue junior subordinated debt securities in one or more series under a junior subordinated indenture, dated as of March 10, 2009 between LNC and The Bank of New York Mellon, as junior subordinated indenture trustee. The junior subordinated indenture (including the form of the junior subordinated debt securities) is filed as an exhibit to the registration statement that includes this prospectus. The junior subordinated indenture has been qualified under the Trust Indenture Act. See [Where You Can Find More Information](#) for information on how to obtain the junior subordinated indenture.

This summary of the junior subordinated indenture and the junior subordinated debt securities relates to terms and conditions applicable to the junior subordinated debt securities generally. We will summarize the particular terms of any series of junior subordinated debt securities in the applicable prospectus supplement. If indicated in the prospectus supplement, the terms of any series may differ from the terms summarized below. Because the summary of the material provisions of the junior subordinated indenture and the junior subordinated debt securities set forth below and the summary of the material terms of a particular series of junior subordinated debt securities set forth in the applicable prospectus supplement are not complete, you should refer to the forms of the junior subordinated indenture and the junior subordinated debt securities for complete information regarding the terms and provisions of the junior subordinated indenture (including defined terms) and the junior subordinated debt securities. Wherever we refer to particular articles, sections or defined terms of the junior subordinated indenture in this prospectus or in a prospectus supplement, those articles, sections or defined terms are incorporated in this prospectus and the prospectus supplement by reference, and the statement with respect to which such reference is made is qualified in its entirety by such reference.

General

Each series of junior subordinated debt securities will rank equally with all other series of junior subordinated debt securities, unless otherwise provided in the supplemental indenture, and will be unsecured and subordinate and junior in right of payment to the extent and in the manner set forth in the junior subordinated indenture to all of our senior debt as defined in the junior subordinated indenture, which includes all debt issued under our senior indenture or subordinated indenture. See [Subordination](#).

We are a non-operating holding company and our consolidated subsidiaries own almost all of our operating assets. We rely primarily on dividends from our subsidiaries to meet our obligations. The payment of dividends by our insurance company subsidiaries is limited under the insurance company holding company laws of the states in which those subsidiaries are domiciled. Accordingly, the junior subordinated debt securities will be effectively junior subordinated to all existing and future liabilities of our subsidiaries, and holders of junior subordinated debt securities should look only to our assets for payments on the junior subordinated debt securities. Except as otherwise provided in the applicable prospectus supplement, the junior subordinated indenture does not limit our incurrence or issuance of other secured or unsecured debt, whether under the junior subordinated indenture or any other indenture that we may have entered into or may enter into in the future or otherwise. See [Subordination](#) and the prospectus supplement relating to any offering of junior subordinated debt securities.

We will issue the junior subordinated debt securities in one or more series pursuant to an indenture supplemental to the junior subordinated indenture or a resolution of our board of directors (as defined in the junior subordinated indenture) or a committee thereof.

The applicable prospectus supplement will describe the following terms of the junior subordinated debt securities:

the title of the junior subordinated debt securities;

any limit upon the aggregate principal amount of the junior subordinated debt securities;

Table of Contents

the date or dates on which the principal of the junior subordinated debt securities is payable (which we refer to as the stated maturity) or the method of determination of the stated maturity;

the rate or rates, if any, at which the junior subordinated debt securities will bear interest, the interest payment dates on which interest will be payable, our right, if any, to defer or extend an interest payment date and the regular record date for interest payable on any interest payment date or the method by which any of these items will be determined;

the place or places where the principal of and premium, if any, and interest on the junior subordinated debt securities will be payable and where the junior subordinated debt securities may be presented for registration of transfer or exchange and the place or places where notices and demands to or upon us regarding the junior subordinated debt securities and the junior subordinated indenture may be made;

the periods, terms and conditions upon which junior subordinated debt securities may be redeemed, in whole or in part, at our option;

our obligation or right, if any, or the obligation or right of, if any, a holder to redeem, purchase or repay the junior subordinated debt securities and the terms and conditions upon which the junior subordinated debt securities shall be redeemed, repaid or purchased, in whole or in part, pursuant to such obligation;

the denominations in which any junior subordinated debt securities shall be issuable if other than denominations of \$25 and any integral multiple thereof;

if other than in U.S. dollars, the currency or currencies (including currency unit or units) in which the principal of and premium and interest, if any, on the junior subordinated debt securities shall be payable, or in which the junior subordinated debt securities shall be denominated;

any additions, modifications or deletions in the events of default or covenants specified in the junior subordinated indenture with respect to the junior subordinated debt securities;

if other than the principal amount, the portion of the principal amount of junior subordinated debt securities that shall be payable upon declaration of acceleration of the maturity thereof;

any additions or changes to the junior subordinated indenture with respect to a series of junior subordinated debt securities as shall be necessary to permit or facilitate the issuance of the series in bearer form, registrable or not registrable as to principal, and with or without interest coupons;

any index or indices used to determine the amount of payments of principal of and premium, if any, on the junior subordinated debt securities and the manner in which these amounts will be determined;

the terms and conditions relating to the issuance of a temporary global security representing all of the junior subordinated debt securities of the series and the exchange of the temporary global security for definitive junior subordinated debt securities of the series;

Edgar Filing: LINCOLN NATIONAL CORP - Form 424B4

whether the junior subordinated debt securities of the series will be issued in whole or in part in the form of one or more global securities and, in such case, the depository for the global securities, which depository will be a clearing agency registered under the Securities Exchange Act of 1934, as amended;

the appointment of any paying agent or agents;

the terms and conditions of any right of us or a holder to convert or exchange the junior subordinated debt securities into our other securities or property;

the form of trust agreement and guarantee agreement, if applicable;

the relative degree, if any, to which junior subordinated debt securities of the series shall be senior or subordinated to other series of our junior subordinated debt securities in right of payment, whether other series of junior subordinated debt securities are outstanding or not; and

any other terms of the junior subordinated debt securities not inconsistent with the provisions of the junior subordinated indenture.

Table of Contents

We may, in certain circumstances, without notice to or consent of the holders of the junior subordinated debt securities, issue additional junior subordinated debt securities having the same terms and conditions as junior subordinated debt securities as previously issued under this prospectus and any applicable prospectus supplement, so that such additional junior subordinated debt securities and the junior subordinated debt securities previously offered under this prospectus and any applicable prospectus supplement form a single series, and references in this prospectus and any applicable prospectus supplement to the junior subordinated debt securities shall include, unless the context otherwise requires, any further junior subordinated debt securities issued as described in this paragraph.

We may sell junior subordinated debt securities at a substantial discount below their stated principal amount, bearing no interest or interest at a rate which is below market rates at the time of issuance. We will describe certain U.S. federal income tax consequences and special considerations applicable to any junior subordinated debt securities in the applicable prospectus supplement.

The purchase price of any junior subordinated debt securities may be payable in one or more foreign currencies or currency units. Junior subordinated debt securities may be denominated in one or more foreign currencies or currency units, or the principal of, or premium or interest, if any, on any junior subordinated debt securities may be payable in one or more foreign currencies or currency units. We will describe the restrictions, elections, certain U.S. federal income tax consequences, specific terms and other information with respect to the junior subordinated debt securities and foreign currency or currency units in the applicable prospectus supplement.

If we use any index to determine the amount of any principal, premium or interest payable with respect to any series of junior subordinated debt securities, we will describe the special U.S. federal income tax, accounting and other considerations in the applicable prospectus supplement.

Denominations, Registration and Transfer

Except as we may describe in the applicable prospectus supplement, we will issue debt securities in fully registered form without coupons and in denominations of \$25 and any integral multiple of \$25.

Debt securities of any series will be exchangeable for other debt securities of the same series, in any authorized denominations, of a like tenor and aggregate principal amount and having the same terms.

You may present debt securities for exchange, as described above, or for registration of transfer, at the office of the security registrar or at the office of any transfer agent we designate for that purpose. You will not incur a service charge but you must pay any taxes, assessments and other governmental charges as described in the junior subordinated indenture. We will appoint the trustee as the initial security registrar as specified in the junior subordinated indenture. We may at any time rescind the designation of any transfer agent that we initially designate or approve a change in the location through which the transfer agent acts. We will specify the transfer agent in the applicable prospectus supplement. We may at any time designate additional transfer agents.

Global Junior Subordinated Debt Securities

We may issue all or any part of a series of junior subordinated debt securities in the form of one or more global junior subordinated debt securities. We will appoint the depository holding the global junior subordinated debt securities. Unless we otherwise state in the applicable prospectus supplement, the depository will be The Depository Trust Company, or DTC. We will issue global junior subordinated debt securities in registered form and in either temporary or definitive form. Unless it is exchanged for individual debt securities, a global junior subordinated debt security may not be transferred except:

by the depository to its nominee;

Table of Contents

by a nominee of the depository to the depository or another nominee; or

by the depository or any nominee to a successor of the depository, or a nominee of the successor.

We will describe the specific terms of the depository arrangement in the applicable prospectus supplement. We expect that the following provisions will generally apply to these depository arrangements.

Beneficial Interests in a Global Junior Subordinated Debt Security

If we issue a global junior subordinated debt security, the depository for the global junior subordinated debt security or its nominee will credit on its book-entry registration and transfer system the principal amounts of the individual debt securities represented by the global junior subordinated debt security to the accounts of persons that have accounts with it. We refer to those persons as participants in this prospectus. The accounts will be designated by the dealers, underwriters or agents for the debt securities, or by us if the debt securities are offered and sold directly by us. Ownership of beneficial interests in a global junior subordinated debt security will be limited to participants or persons who may hold interests through participants. Ownership and transfers of beneficial interests in the global junior subordinated debt security will be shown on, and transactions can be effected only through, records maintained by the applicable depository or its nominee, for interests of participants, and the records of participants, for interests of persons who hold through participants. The laws of some states require that you take physical delivery of securities in definitive form. These limits and laws may impair your ability to transfer beneficial interests in a global junior subordinated debt security.

So long as the depository or its nominee is the registered owner of a global junior subordinated debt security, the depository or its nominee will be considered the sole owner or holder of the junior subordinated debt securities represented by the global junior subordinated debt security for all purposes under the junior subordinated indenture. Except as provided below, you:

will not be entitled to have any of the individual junior subordinated debt securities represented by the global junior subordinated debt security registered in your name;

will not receive or be entitled to receive physical delivery of any junior subordinated debt securities in definitive form; and

will not be considered the registered owner or holder of the junior subordinated debt securities under the junior subordinated indenture.

Payments of Principal, Premium and Interest

We will make principal, premium, if any, and interest, if any, payments on global junior subordinated debt securities to the depository that is the registered holder of the global junior subordinated debt security or its nominee. The depository for the global junior subordinated debt securities will be solely responsible and liable for all payments made on account of your beneficial ownership interests in the global junior subordinated debt security and for maintaining, supervising and reviewing any records relating to your beneficial ownership interests.

We expect that the depository or its nominee, upon receipt of any principal, premium, if any, or interest, if any, payment immediately will credit participants accounts with amounts in proportion to their respective beneficial interests in the principal amount of the global junior subordinated debt security as shown on the records of the depository or its nominee. We also expect that payments by participants to you, as an owner of a beneficial interest in the global junior subordinated debt security held through those participants, will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in street name. These payments will be the responsibility of those participants.

Table of Contents

Issuance of Individual Debt Securities

Unless we state otherwise in the applicable prospectus supplement, if a depository for a series of debt securities is at any time unwilling, unable or ineligible to continue as depository, we will appoint a successor depository or we will issue individual debt securities in exchange for the global junior subordinated debt security.

Payment and Paying Agents

Unless otherwise indicated in the applicable prospectus supplement, we will pay the principal of and any premium and interest on junior subordinated debt securities at the office of the junior subordinated indenture trustee in the City of New York, or at the office of any paying agent or paying agents as we may designate from time to time in the applicable prospectus supplement.

Unless otherwise indicated in the applicable prospectus supplement, we will make payments of interest on junior subordinated debt securities to the person or entity in whose name the junior subordinated debt security is registered at the close of business on the regular record date for such interest, except in the case of defaulted interest. We may at any time designate additional paying agents or rescind the designation of any paying agent. However, we will be required to maintain at all times a paying agent in each place of payment for each series of junior subordinated debt securities.

Any moneys that we deposit with the junior subordinated indenture trustee or any paying agent, or then held by us in trust, for the payment of the principal of and any premium or interest on any junior subordinated debt security that remains unclaimed for two years after becoming due and payable will be repaid to us at our request. After that time, the holder of the junior subordinated debt security will look, as a general unsecured creditor, only to us for payment of those amounts.

Option to Extend Interest Payment Date

If provided in the applicable prospectus supplement and subject to any terms, conditions and covenants contained in the prospectus supplement, we will have the right at any time and from time to time during the term of any series of junior subordinated debt securities to defer payment of interest for that number of consecutive interest payment periods as may be specified in the applicable prospectus supplement (each of which we refer to as an extension period). However, no extension period may extend beyond the stated maturity of the applicable series of junior subordinated debt securities. We will describe certain U.S. federal income tax consequences and special considerations applicable to the junior subordinated debt securities in the applicable prospectus supplement.

Redemption

Unless otherwise indicated in the applicable prospectus supplement:

junior subordinated debt securities will not be subject to any sinking fund;

we may, at our option, redeem the junior subordinated debt securities of any series in whole at any time or in part from time to time. We may redeem junior subordinated debt securities in denominations larger than \$25 in part but only in integral multiples of \$25;

the redemption price for any junior subordinated debt security shall equal the principal amount of the security, plus any accrued and unpaid interest to the redemption date; and

if a special event as described below has occurred and is continuing with respect to a series of junior subordinated debt securities, we may, at our option, redeem that series of junior subordinated debt

Table of Contents

securities in whole, but not in part, at any time within 90 days of the occurrence of the special event, at a redemption price equal to 100% of the principal amount of the junior subordinated debt securities of that series then outstanding plus accrued and unpaid interest to the redemption date.

A special event means a tax event or an investment company event. A tax event occurs when we receive an opinion of counsel experienced in such matters to the effect that as a result of any amendment to, or change or announced prospective change in, the laws or regulations of the U.S. or any political subdivision or taxing authority in the U.S., or as a result of any official administrative pronouncement or judicial decision interpreting or applying those laws or regulations, which amendment or change is effective or which pronouncement or decision is announced on or after the date of issuance of the preferred securities of a trust, there is more than an insubstantial risk that:

the trust is, or will be within 90 days of the date of the opinion, subject to U.S. federal income tax with respect to income received or accrued on the corresponding series of junior subordinated debt securities;

interest payable by us on the series of subordinated debt securities is not, or within 90 days of the date of the opinion will not be, deductible by us, in whole or in part, for U.S. federal income tax purposes; or

the trust is, or will be within 90 days of the date of the opinion, subject to more than a de minimis amount other taxes, duties or other governmental changes.

An investment company event occurs when, in respect of a trust, we receive an opinion of counsel experienced in such matters to the effect that, as a result of a change in law or regulation or a change in interpretation or application of law or regulation by any legislative body, court, governmental agency or regulatory authority, the trust is, or will be considered an investment company that is required to be registered under the Investment Company Act of 1940, as amended, which becomes effective on or after the date of original issuance of the preferred securities of the trust.

We will mail notice of any redemption at least 30 days but not more than 60 days before the redemption date to each holder of junior subordinated debt securities to be redeemed at its registered address. Unless we default in payment of the redemption price, interest will cease to accrue on those junior subordinated debt securities called for redemption on and after the redemption date.

Restrictions on Certain Payments

We will also covenant, as to each series of junior subordinated debt securities issued to a trust, that we will not, and will not permit any of our subsidiaries to:

declare or pay any dividends or distributions on, or redeem, purchase, acquire or make a liquidation payment with respect to, any of our capital stock;

make any payment of principal, interest or premium, if any, on or repay, repurchase or redeem any of our debt securities that rank equally with or junior in interest to the junior subordinated debt securities; or

make any guarantee payments with respect to any guarantee by us of the debt securities of any of our subsidiaries if that guarantee ranks equally or junior in interest to the junior subordinated debt securities;

if at such time:

any event has occurred of which we have actual knowledge that, with the giving of notice or the lapse of time, or both, would constitute a junior subordinated debt security event of default with respect to the junior subordinated debt securities of that series,

which default we have not taken reasonable steps to cure;

Table of Contents

we are in default with respect to its payment of any obligations under the guarantee relating to those trust preferred securities; or

we have given notice of our selection of an extension period as provided in the junior subordinated indenture with respect to the junior subordinated debt securities of that series and have not rescinded such notice, or that extension period, or any extension of that extension period, shall be continuing.

The following actions are not subject to the restrictions described above:

dividends or distributions in our common stock;

redemptions or purchases of any rights pursuant to a rights plan, if any, and the declaration of a dividend of rights or the issuance of stock under a plan in the future;

payments under any guarantee; and

purchases of common stock related to the issuance of common stock under any of our benefit plans for its directors, officers or employees.

Modification of Junior Subordinated Indenture

From time to time, we and the junior subordinated indenture trustee may, without the consent of the holders of any series of junior subordinated debt securities, amend, waive or supplement the junior subordinated indenture for specified purposes, including, among other things:

curing ambiguities, defects or inconsistencies, as long as the cure does not materially adversely affect the interest of the holders of any series of junior subordinated debt securities or, in the case of corresponding junior subordinated debt securities, the holders of the related trust preferred securities so long as they remain outstanding; and
