PART III NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

OMNI Energy Services Corp. (the Company) is unable to file its Quarterly Report on Form 10-Q for the quarter ended June 30, 2010 without unreasonable effort or expense. As previously disclosed in the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission (the Commission) on July 22, 2010, the Audit Committee of the Board of Directors of the Company, with the assistance of management, completed their internal review of the Company's accounting for subordinated promissory notes in connection with certain acquisitions which occurred in prior periods. As disclosed, the Audit Committee and management concluded that the Company's previously issued financial statements included in the following reports filed with the Commission should no longer be relied upon: (1) the audited consolidated financial statements for the fiscal years ended December 31, 2009, 2008, 2007 and 2006, included in the Company's Annual Reports on Form 10-K for the years ended December 31, 2009, 2008, 2007 and 2006, and (2) the interim period unaudited financial statements for the quarterly periods in each of the fiscal years ended December 31, 2009, 2008, 2007 and 2006, each as included in the Company's Quarterly Reports on Form 10-Q for each such quarterly period. As a result, the Company has determined to amend its Annual Report on Form 10-K for the fiscal year ended December 31, 2009 to reflect the restatement of the financial statements reflected therein (fiscal years ended December 31, 2009, 2008, 2007 and 2006).

Due to the time requirements of the restatement, the Company requires additional time to complete its financial statements for the quarter ended June 30, 2010 and to prepare and file its Quarterly Report on Form 10-Q for the quarter ended June 30, 2010.

- (2) Have all other period reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or Section 30 of the Investment Company Act of 1940 during the preceding 12 months or for such shorter period that the registrant was required to file such reports been filed? If answer is no, identify report(s). Yes No
Form 10-Q for the quarter ended March 31, 2010 has not been filed.

- (3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof? Yes No
If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

The Company's business is driven by the supply and demand of hydrocarbon commodities in the United States and, to a certain extent, the international markets. Virtually all of the Company's customers are involved in the exploration and/or production of oil and natural gas in the continental United States and the coastal waters of the Gulf of Mexico.

Edgar Filing: OMNI ENERGY SERVICES CORP - Form NT 10-Q

The Company's second quarter 2010 operating results reflect conditions quite comparable to the same period in 2009. The only significant difference between the quarters is an increase in interest expense as a result of higher interest rates associated with the Company's Senior Credit Facility.

The Company's operating results for the six months ended June 30, 2010 reflect the challenging conditions primarily in the first quarter of 2010 facing the markets in which it operates. The Company's geographic expansion into the northeast in the Marcellus Shale was particularly challenged by extreme weather conditions in the first quarter of 2010 and had a significant adverse impact on the Company's ability to execute work in its Seismic Services segment.

The Company, like the entire industry in which it operates, is subject to the volatility in commodity prices, financial markets which continue to be tight and the resulting impact on the Company's customers and their capital spending.
