Leap Wireless International, Inc. (Leap) is filing the attached presentation materials, which update the presentation materials filed with the Securities and Exchange Commission (SEC) on July 7, 2011 as Exhibit 99.1 to Leap s current report on Form 8-K, and the presentation materials filed with the SEC on July 13, 2011 on Schedule 14A, in connection with Leap s solicitation of proxies for proposals to be voted on at its 2011 Annual Meeting of Stockholders. Leap may present the attached materials to stockholders and others on future occasions. The information contained in the attached presentation materials is summary information that is intended to be considered in the context of Leap s filings with the SEC and other public announcements. Leap undertakes no duty or obligation to publicly update or revise this information, although it may do so from time to time.

In connection with the 2011 Annual Meeting, Leap mailed to stockholders its definitive proxy statement filed with the SEC on June 28, 2011 (the Definitive Proxy Statement). In addition, Leap files annual, quarterly and special reports, proxy and information statements and other information with the SEC. Stockholders are urged to read the Definitive Proxy Statement and other information because they contain important information about Leap and the proposals to be presented at the 2011 Annual Meeting. These documents are available free of charge at the SEC s website at www.sec.gov or from Leap at www.leapwireless.com. The contents of the websites referenced herein are not deemed to be incorporated by reference into the Definitive Proxy Statement.

Leap and its directors, executive officers and certain employees may be deemed to be participants in the solicitation of proxies from stockholders in connection with the election of directors and other proposals to be voted on at the 2011 Annual Meeting. Information regarding the interests, if any, of these directors, executive officers and specified employees is included in the Definitive Proxy Statement filed by Leap with the SEC.

Agenda

Leap implemented significant changes in 2010 to

better position business
Simple, all-inclusive service plans
New device portfolio, including smartphones
Nationwide voice and data coverage
Additions to senior management to better align with customers and improve execution
Completion of significant back-office system enhancements
Believe initiatives delivered dramatic improvements in operating performance, demonstrated by:
Customer churn at lowest levels in nearly a decade, with voice churn of 2.8% in 1Q11
Smartphones and accompanying \$55 service plan comprised approximately 40% of our sales mix at 1Q11, with customer upgrades and migrations continuing at unprecedented rates
Significant improvements in average revenue per user (ARPU), driven by adoption of smartphones and higher-revenue service plans
Believe changes position Leap for improved financial results and increased stockholder value

BUSINESS UPDATE On Trajectory to Grow Stockholder Value 13

Significant Business Initiatives in 2010 to Meet Evolving Customer Needs 14

Introduced all-inclusive, unlimited nationwide voice and broadband service plans

Eliminated activation fees and telecommunications taxes to improve customer experience

Experienced significant customer adoption and migration to new service plans at YE10, two-thirds of customer base had migrated to new plans

Introduced robust, new line-up of affordable devices, including smartphones, touchscreens, feature phones and broadband devices

Increasing customer demand for new smartphones driving selection of higher-revenue service plans and increased ARPU 40% of new handset sales in 1Q11 were for smartphones

Entered into nationwide roaming agreements to allow nationwide product and service offerings

Entered into nationwide wholesale agreement to supplement 95M CPOP network with Sprint s nationwide 3G network

Believe agreements improve competitive position and enable Leap to strengthen brand, attract new customers and enhance and expand nationwide retail distribution

New Plans

New Devices

Nationwide Reach

Added other senior management leaders focused on vision and execution

to

Fundamentally overhauled back-office systems Replaced billing, inventory and point-of-sale systems Believe new systems significantly improved planning, forecasting, supply chain and procurement capabilities Continued management of balance sheet for liquidity and growth Refinanced \$1.1B of senior unsecured debt to 2020, reducing cash interest expense by \$10M annually Recently issued \$400M of senior notes to provide additional working capital for growth initiatives Entered into key strategic transactions Formed new joint venture in South Texas, acquiring ~323,000 former customers of Pocket Communications to create Leap s deeply-penetrated market Acquired complete ownership and control of Cricket markets in Chicago, Southern Wisconsin and Oregon Believe transactions improved competitive position by increasing our strength and scale while expanding offerings

customers

Better utilization of spectrum resources

Entered into agreement to swap 10-MHz of unused spectrum in exchange for 10-MHz of additional spectrum in 7 existing Cric markets

Developed

and

launched

unique

Muve

Music

service

Unlimited music-download service designed specifically for mobile devices

Expect service will provide Leap with differentiated product in nationwide, mass-merchant retail channels

TM

New Initiatives Driving Churn Down 16

1Q11 churn reached lowest level in almost 10 years:

Consolidated churn of 3.1%, improving 140 basis points Y-O-Y

1Q11 voice churn of 2.8%, improving 170 basis points Y-O-Y

Churn improvements believed to be direct result of changes management implemented:

All-inclusive pricing

Smartphones at affordable prices

Nationwide voice and data coverage

Believe lower levels of churn signal productive, structural business change

May experience some near-term moderation in churn improvement

Voice Churn

Optimizing our Network for Multiple

Product Opportunities

Utilizing Data Network Capacity

Source: Internal Leap projections of network capacity and current and expected customer data product usage and performance, which are subject to change.

Continue to see strong demand

for data services due to continued

strength of smartphone service plans Expanding and managing network capacity through: Device mix, market-level focus Network management initiatives Additional equipment and cell sites Potential for session-based data Consumer trends driving strong uptake in smartphones and other higher-ARPU services Opportunity to generate significant cash flow $\sim 1M$ ~2.8M ~1.8M Approximate capacity usage as of 1Q11 4Q10 Capacity Forecast

1Q11 Capacity Forecast

Strategically Implementing LTE to Support Next Phase of Growth 23

Leap $\,$ s LTE implementation being managed through gradual ramp-up and phased

to

be

in

place when costs of LTE devices reach attractive levels for our customers Leap is launching its own LTE network beginning in 2011 and expects to supplement its LTE facilities coverage through roaming arrangements **Industry Milestones** 2013 2012 2011 2010 Leap Milestones First LTE markets in the U.S. First LTE smartphone launches Integrated LTE chipset available Integrated LTE devices introduced Device costs begin hitting broadly appealing consumer price points Leap launches R&D market Expected launch of first Leap LTE trial market Expected Leap commercial LTE deployment Expected growth of 4G on prepaid

Leap s Strategy Widely Supported 24

Leap executed well by driving growth mainly through smartphone adoption while containing opex. Despite upcoming seasonal net add softness in 2Q and 3Q, we **expect the benefits** of rising ARPU to translate into EBITDA margin expansion

```
from 17% in 1Q11 to 22%
in 4Q11.
Deutsche Bank, 5/6/11
 We believe that given the high ASPs for LTE handsets coupled
with the painfully slow smartphone experience of 1xRTT speeds,
Metro finds itself between a rock and a hard place. Leap, on the
other
hand,
might
have
found
itself
in
sweet
spot,
where
it could take advantage of falling 3G handset prices and leverage
smartphone growth (and the Android platform) to grow EBITDA
and margins faster than consensus anticipates in 2012.
Citadel, 5/25/11
 We expect continued success in existing markets plus
ramping execution in new markets will allow Leap to
generate
a
16%+
EBITDA
CAGR
2011-2014
which
at
the current 2012E EBITDA multiple leaves the company, in our
view, among the most attractively valued growth-based
investments in our coverage universe.
Bank of America Merrill Lynch, 5/5/11
 We believe the increased smartphone
penetration coupled with the All-
Inclusive plan will continue to improve
churn
as
such,
we
are
trimming
2011E
churn
by 20 bps to 3.6%.
```

-

RBC Capital, 5/6/11

Leap showed solid execution of its

turnaround strategy
that began back in
August 10. While we continue to believe Leap
has good potential, in the near term, its go-tomarket strategy is still in transition and is
carrying substantial near term costs. **LEAP** s
focus on smart phones is beginning to
show benefits in ARPU, churn, and
subscriber

growth

SunTrust, 5/6/11

; ;

BOARD OF DIRECTORS Experienced and Independent 25

Leap s Independent Slate of Nominees 26

Leap s Commitment to Good Corporate Governance
27
All directors (other than CEO) are independent under NASDAQ rules; all have alignment of interests with stockholders
Wide range of relevant operational and financial expertise represented
Non-executive Chairman of the Board
Directors are elected annually

Each board committee composed entirely of independent directors All directors attended more than 75% of Board and committee meetings in 2010 Company has adopted and disclosed Corporate Governance Guidelines

 $Leap \ and \ Metro \ s \ discussions \ also \ limited \ by \ Leap \ s \ 4Q07 \ restatement \ and \ FCC-mandated \ M\&A \quad quiet \ period \ for \ spectrum \ auction \ participants$

In 2008 and 2009, Leap approached Metro regarding possible joint opportunities, including partnerships to own/operate certain markets but significant discussions did not develop Leap also engaged in discussions with **AWS** spectrum holders and others regarding strategic and operating opportunities In 2010, Leap undertook comprehensive review

of strategic

alternatives to build stockholder value

Board added additional independent directors to help oversee process and ensure broad perspective

Appointed Special Committee of independent directors to oversee review

Special Committee and its financial advisors initiated discussions with numerous parties regarding potential strategic opportunities, including MetroPCS

Leap also began developing important new product and service plan offerings, which it believed would significantly improve operational performance

Special Committee and Board unanimously determined to pursue Leap s current operational strategy rolled out in 2010, which Leap believes has yielded significant results 28

Leap s compensation program tied to corporate performance, aligning

interests

of

management with those of stockholders

Substantial majority of total compensation opportunity consists of annual cash bonus and long-term equity, which are tied to corporate and individual performance

2010 was period of continued, intense competition within wireless industry and ongoing transition in Leap s business, as new initiatives were implemented to improve competitive positioning and operational performance

Because many of Leap s new initiatives were introduced in 2H10, they did not significantly impact full-year 2010 results but are now leading to improved financial and operational performance

Compensation earned by senior management, including CEO, reflects

business

and

responsible

executive

compensation

program

No increases in CEO s \$750K base salary or annual target bonus in 2010 or 2011, which were significantly below 50th percentile provided by peer companies

CEO recommended that he receive no cash bonus award for 2010

based upon Company s business

transition and expected near-term business performance

More than two-thirds of CEO s total compensation for 2010 consisted of long-term equity

compensation,

primarily

consisting

of

performance-vested

restricted

shares

with

vesting

tied

to

stock

price appreciation

Remaining executive officers received no increase to 2010 or 2011 base salaries, cash bonus awards wellbelow target bonus levels and equity compensation consisting primarily of performance-vested restricted shares

29

Governance
Pentwater s Claims
Reality
35
Leap s Board lacks strong
corporate governance and

perspective

candidates bring highly relevant skills and expertise

Four Leap directors have ties

to MHR and acted improperly as directors of Loral Space and Communications Leap s 2010 executive compensation was unreasonable All directors elected on annual basis All directors NASDAQ-independent (other than CEO), with wide range of operational and financial expertise **Board** expanded to eight in 2009 to bring additional skills and perspectives Two new

to help Leap at this stage of growth MHR s 19.8% stake aligns its interests with other stockholders. Unlike Pentwater, MHR has never reduced its stake or shorted Leap s stock Loral s stock price has increased ~440% since Loral decision in September 2008 and Dr. Rachesky, Mr. Harkey and Mr. Targoff all served on the Loral Board during this time period 2010 executive compensation responsible and appropriate in light of corporate performance and business transition No increase to 2010 or

Pentwater s Claims versus the Reality Governance (cont d) Pentwater s Claims Reality 36 Leap adopted poison pill to

entrench management and stifle the voices of stockholders

Tax benefit preservation plan **adopted to deter potential ownership** change

under tax laws that would jeopardize ~\$2B of Leap s NOLs

Generally ownership change occurs when greater than 50% change in ownership by 5% stockholders in any rolling 3-year period. When Plan implemented, Leap believed cumulative ownership change was in the **mid-40s**

Plan restricted acquisition of 5% or more of stock by new holders without exemption by Board, but also restricted existing 5% holders (including MHR Fund Management) from acquiring additional shares

When Plan adopted, no stockholder had indicated it would be nominating directors

On

June

16,

2011,

when

finalizing

items

for

2011

Annual

Meeting,

Board:

reviewed cumulative ownership change by 5% stockholders, which had decreased to 29%

as a result of decrease, determined Plan was no longer necessary; and

terminated Plan

after more than 2 months of silence from

Pentwater

and

before

Pentwater

filed

proxy

statement

to

pursue

contest

Pentwater

never

requested

a

waiver

to

acquire

greater

than

5%

of

Leap

shares; in fact, Pentwater sold Leap shares

while Plan was in place

Pentwater s Claims
versus the Reality
Strategic Transactions
Leap s Board is entrenched, not
open to a strategic transaction
and should not have rejected
MetroPCS
proposal to merge

with Leap in September 2007 Pentwater s Claims Reality 37 Leap s Board continually looks for opportunities to deliver increased value to stockholders; management has regularly stated that it sees the logic of further consolidation in the industry In 2007, Leap entered discussions with Metro following its unsolicited public offer Discussions limited by Leap s 4Q07 restatement and FCC-mandated M&A "quiet period" for spectrum auction participants In 2008 and 2009, Leap approached Metro regarding possible joint opportunities, including partnerships own/operate

certain
markets

but

significant discussions did not develop

Leap also engaged in **discussions with AWS spectrum holders and others** regarding strategic and operating opportunities

In 2010,

Leap

undertook

comprehensive

strategic

review

and

initiated

discussions with numerous parties, including Metro

Board added additional independent directors to help oversee process and ensure broad perspective

After comprehensive review, Special Committee and Board unanimously determined to pursue Leap s current operational strategy, rolled out in 2010, which Leap believes has yielded significant results

Pentwater s Claims versus the Reality Operations

Leap introduced all-inclusive service

plans in response to customer demand as soon as possible within constraints of prior customer billing system Leap has experienced strong customer adoption and migration to new service plans at YE10, two-thirds of customer base had migrated to new plans Mis-timed move to an all-in pricing model Pentwater s Claims Reality 38 Emphasizing and poorly executing a faulty broadband strategy Leap deployed 3G strategy focused on increasing demand for data services Led initially with broadband due to attractive device pricing Consumers now transitioning rapidly to smartphones as prices decline

Believe
Leap s
3G
strategy
a
success
-
Broadband contributed \$72.2 of adjusted OIBDA over last 4 quarters
-
Believe 3G investment well-timed; initial Broadband product and
investment created opportunity for return in smartphone margins Leap
now realizing
As
a
result
of
slow
LTE
adoption,
competitors
now
forced
to
substantially increase 3G activities

Pentwater s Claims and the Reality Operations (cont d) Pentwater s Claims Reality 39 Mis-managing handset inventory

Mis-management of cost structure relative to competitors Some momentum lost in mid-2010, but believe issues addressed through senior management changes and more robust back-office systems and forecasting Leap s underlying cost structure is similar to **MetroPCS** when adjusted for relative market penetration Recurring costs per unit (such as non-product network costs) are sensitive to customer penetration G&A spend similar when aligned with MetroPCS reporting format (which excludes customer care and billing) See Appendix Leap focused on minimizing absolute spend despite challenges associated with managing approximately three times as many discrete markets Higher CPGA costs reflect direct-channel focus Device subsidy costs are lower due, in part, to lower indirect dealer compensation costs associated with higher direct sales mix o Headcount reflects acquisition of former **Pocket** markets,

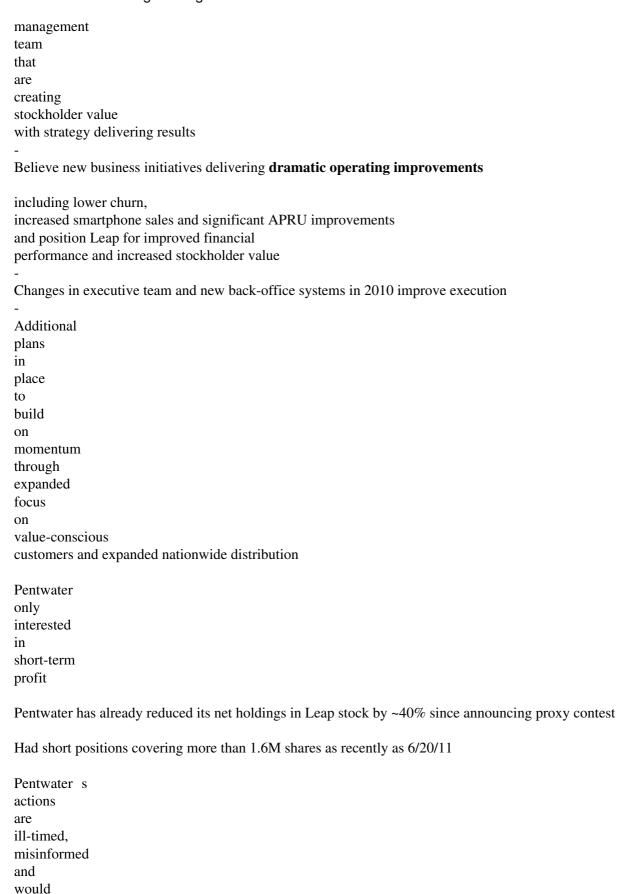

greater number

of

discrete markets and higher number of direct stores

CONCLUSION
Vote **FOR**Leap s Nominees on the **WHITE**Proxy Card
40

Leap led by strong, experienced Board and

not benefit Leap s stockholders Pentwater lacks any strategy for the Company beyond actions Leap already pursuing Pentwater did not comply with Bylaws in Leap s view and their proposals don t stack up against management s on-going execution Pentwater is not the right choice 41 Leap s Directors Are Creating Stockholder Value and Committed to Company s Long-Term Success Do not jeopardize Leap s positive momentum vote FOR Leap s nominees on the WHITE proxy card

APPENDIX

annual advisory

vote

Stock option exchange program

Exchange of underwater employee options for lesser number of replacement options with exercise price equal to current FMV

Members

of

Leap s

board

and

executive

officers

will

not

be

allowed

to

participate

Only options with exercise price of \$30 or higher are eligible for exchange (well exceeds closing prices of Leap common stock for prior 52-week period)

Black-Scholes value of new options will be substantially less than value of surrendered options; exchange will not result in incremental accounting cost

Replacement

options

will

be

subject

to

three

years

of

additional

vesting

Options exchanged will be returned to plans for future grants

Other 2011 Annual Meeting Agenda Items

Leap separately reports G&A (1Q11: \$95.4M) and selling cost (1Q11: \$109.8M)

Leap, however, includes Customer Care

G&A

Selling Cost

and Billing expense (1Q11:\$33.7M) in reported G&A; Metro does not include in reported G&A but instead includes in Cost of Service Bar charts above eliminate \$33.7M of Leap 1Q11 Customer Care and Billing expense from Leap G&A to align with Metro SG&A reporting methodology Leap sells greater percentage of handsets in Company-owned stores. Leap Selling Cost reflects expenses

Source: Leap s and MetroPCS s quarterly reports on Form 10-Q and related earnings releases for the quarter

related to larger number of retail stores and retail store employees

ended March 31, 2011. Covered POPs calculations based on 95.3M POPs for Leap and 98.7M POPs for MetroPCS

SG&A Per Covered POP 1Q09 1Q11 45

Leap currently operates in 65 markets and MetroPCS operates in 13

Relative quarterly spending varies depending on companies respective market launch activities and

promotional efforts

Increased sales and marketing expense for Leap in 1Q09 due to market launch activities in Philadelphia and Chicago

Increased promotional efforts for Leap in 3Q09 in response to competitive Boost Mobile activity

Despite significant difference in number of markets, only a 6% average difference in SG&A per covered POP over last four quarters
