PART I - FINANCIAL INFORMATION

Item 1. Financial Statements

The interim consolidated financial statements contained herein reflect all adjustments (all of a normal, recurring nature) which, in the opinion of management, are necessary for a fair statement of the financial condition, results of operations, cash flows and changes in equity for the periods presented. They have been prepared in accordance with Rule 10-01 of Regulation S-X and do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. Operating results for the twenty six weeks ended June 25, 2011, are not necessarily indicative of the results that may be expected for the entire fiscal year ending December 31, 2011.

These interim financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's 2010 Annual Report on Form 10-K.

LANDSTAR SYSTEM, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The consolidated financial statements include the accounts of Landstar System, Inc. and its subsidiary, Landstar System Holdings, Inc., and reflect all adjustments (all of a normal, recurring nature) which are, in the opinion of management, necessary for a fair statement of the results for the periods presented. The preparation of the consolidated financial statements requires the use of management's estimates. Actual results could differ from those estimates. Landstar System, Inc. and its subsidiary are herein referred to as "Landstar" or the "Company". Significant intercompany accounts have been eliminated in consolidation.

(1) Noncontrolling Interest

In the Company's 2009 fiscal third quarter, the Company acquired A3 Integration, LLC and its subsidiaries through A3i Acquisition LLC, an entity in which the Company owned 100% of the non-voting, preferred interests and, from the date of acquisition to January 2011, 75% of the voting, common equity interests. A subsidiary of the Company purchased the remaining 25% of the voting, common equity interests in A3i Acquisition, LLC in January 2011.

(2) Significant Accounting Policies

Financial Instruments

The Company's financial instruments include cash equivalents, short and long term investments, trade and other accounts receivable, accounts payable, other accrued liabilities, current and non-current insurance claims and long term debt plus current maturities ("Debt"). The carrying value of cash equivalents, trade and other accounts receivable, accounts payable, current insurance claims and other accrued liabilities approximate fair value as the assets and liabilities are short term in nature. Short and long term investments are carried at fair value as further described in the Investments footnote below. The carrying value of non-current insurance claims approximate fair value as the Company generally has the ability to, but is not required to, settle claims in a short term. The Company's Debt includes borrowings under the Company's revolving credit facility plus borrowings relating to capital lease obligations used to finance trailing equipment. The interest rates on borrowings under the revolving credit facility are typically tied to short-term LIBOR rates that adjust monthly and, as such, carrying value approximates fair value. Interest rates on borrowings under capital leases approximate the interest rates that would currently be available to the Company under similar terms and, as such, carrying value approximates fair value.

(3) Share-based Payment Arrangements

As of June 25, 2011, the Company had two employee equity incentive plans, the 2002 employee stock option and stock incentive plan (the "ESOSIP") and the 2011 equity incentive plan (the "2011 EIP"). The Company also has a stock compensation plan for members of its Board of Directors (the "Directors Stock Compensation Plan") (each of the ESOSIP, 2011 EIP and Directors Stock Compensation Plan, a "Plan", and collectively, the "Plans"). In May 2011, the Company's shareholders approved the 2011 EIP. The provisions of the 2011 EIP, which replaces the ESOSIP, are substantially similar to the provisions of the ESOSIP. 6,000,000 shares of the Company's common stock were authorized for issuance under the 2011 EIP. No further grants can be made under the ESOSIP, including 2,239,117 shares of the Company's common stock previously reserved for issuance under the ESOSIP. Amounts recognized in the financial statements with respect to these Plans are as follows (in thousands):

	Twenty Six Weeks Ended		Thirteen Weeks Ended	
	June 25, 2011	June 26, 2010	June 25, 2011	June 26, 2010
Total cost of the Plans during the period	\$ 2,473	\$ 2,368	\$ 1,268	\$ 1,183

Edgar Filing: LANDSTAR SYSTEM INC - Form 10-Q

Amount of related income tax benefit recognized during the period	638	621	333	322
Net cost of the Plans during the period	\$ 1,835	\$ 1,747	\$ 935	\$ 861

Table of Contents

The fair value of each option grant on its grant date was calculated using the Black-Scholes option pricing model with the following weighted average assumptions for grants made in the 2011 and 2010 twenty-six-week periods:

	2011	2010
Expected volatility	35.0%	37.0%
Expected dividend yield	0.450%	0.400%
Risk-free interest rate	1.75%	2.50%
Expected lives (in years)	4.0	4.2

The Company utilizes historical data, including exercise patterns and employee departure behavior, in estimating the term that options will be outstanding. Expected volatility was based on historical volatility and other factors, such as expected changes in volatility arising from planned changes to the Company's business, if any. The risk-free interest rate was based on the yield of zero coupon U.S. Treasury bonds for terms that approximated the terms of the options granted. The weighted average grant date fair value of stock options granted during the twenty-six-week periods ended June 25, 2011 and June 26, 2010 was \$12.05 and \$11.98, respectively.

The following table summarizes information regarding the Company's stock options granted under the Plans:

	Number of	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (000s)
Options outstanding at December 25, 2010	2,295,831	\$ 39.73		
Granted	271,000	\$ 41.81		
Exercised	(94,299)	\$ 35.09		
Forfeited	(118,700)	\$ 41.59		
Options outstanding at June 25, 2011	2,353,832	\$ 40.06	6.5	\$ 11,602
Options exercisable at June 25, 2011	1,117,599	\$ 39.61	5.2	\$ 6,012

The total intrinsic value of stock options exercised during the twenty-six-week periods ended June 25, 2011 and June 26, 2010 was \$871,000 and \$7,920,000, respectively.

As of June 25, 2011, there was \$10,474,000 of total unrecognized compensation cost related to non-vested stock options granted under the Plans. The unrecognized compensation cost related to these non-vested options is expected to be recognized over a weighted average period of 3.0 years.

The fair value of each share of non-vested restricted stock issued under the Plans is based on the fair value of a share of the Company's common stock on the date of grant. The following table summarizes information regarding the Company's non-vested restricted stock under the Plans:

	Number of Shares	Grant Date Fair Value
Non-vested restricted stock outstanding at December 25, 2010	29,854	\$ 39.49
Granted	22,410	\$ 44.82
Vested	(6,056)	\$ 42.41
Forfeited	(2,938)	\$ 37.13

Edgar Filing: LANDSTAR SYSTEM INC - Form 10-Q

Non-vested restricted stock outstanding at June 25, 2011	43,270	\$	42.00
--	--------	----	-------

As of June 25, 2011, there was \$1,559,000 of total unrecognized compensation cost related to non-vested shares of restricted stock granted under the Plans. The unrecognized compensation cost related to these non-vested shares of restricted stock is expected to be recognized over a weighted average period of 2.6 years.

As of June 25, 2011, there were 118,959 shares of the Company's common stock reserved for issuance under the Directors' Stock Compensation Plan and 8,341,832 shares of the Company's common stock reserved for issuance in the aggregate under the Company's other Plans.

Table of Contents

(4) Income Taxes

The provisions for income taxes for the 2011 and 2010 twenty-six-week periods were each based on an estimated full year combined effective income tax rate of approximately 38.2%, which was higher than the statutory federal income tax rate primarily as a result of state taxes, the meals and entertainment exclusion and non-deductible stock-based compensation.

(5) Earnings Per Share

Earnings per common share attributable to Landstar System, Inc. and subsidiary are based on the weighted average number of common shares outstanding, including outstanding restricted stock, and diluted earnings per share attributable to Landstar System, Inc. and subsidiary are based on the weighted average number of common shares outstanding, including outstanding restricted stock, plus the incremental shares that would have been outstanding upon the assumed exercise of all dilutive stock options.

The following table provides a reconciliation of the average number of common shares outstanding used to calculate earnings per share attributable to Landstar System, Inc. and subsidiary to the average number of common shares and common share equivalents outstanding used to calculate diluted earnings per share attributable to Landstar System, Inc. and subsidiary (in thousands):

	Twenty Six Weeks Ended		Thirteen Weeks Ended	
	June 25, 2011	June 26, 2010	June 25, 2011	June 26, 2010
Average number of common shares outstanding	47,826	50,165	47,782	50,123
Incremental shares from assumed exercises of stock options	81	94	130	92
Average number of common shares and common share equivalents outstanding	47,907	50,259	47,912	50,215

For the twenty-six-week and thirteen-week periods ended June 25, 2011 there were 79,000 and 74,000, respectively, options outstanding to purchase shares of common stock excluded from the calculation of diluted earnings per share attributable to Landstar System, Inc. and subsidiary because they were antidilutive. For the twenty-six-week and thirteen-week periods ended June 26, 2010 there were 1,354,813 and 647,813, respectively, options outstanding to purchase shares of common stock excluded from the calculation of diluted earnings per share attributable to Landstar System, Inc. and subsidiary because they were antidilutive.

(6) Additional Cash Flow Information

During the 2011 twenty-six-week period, Landstar paid income taxes and interest of \$25,322,000 and \$1,622,000, respectively. During the 2010 twenty-six-week period, Landstar paid income taxes and interest of \$22,731,000 and \$1,766,000, respectively. Landstar acquired operating property by entering into capital leases in the amount of \$1,515,000 and \$14,145,000 in the 2011 and 2010 twenty-six-week periods, respectively.

(7) Segment Information

The following tables summarize information about Landstar's reportable business segments as of and for the twenty-six-week and thirteen-week periods ended June 25, 2011 and June 26, 2010 (in thousands):

	June 25, 2011		Twenty Six Weeks Ended		June 26, 2010

Expenditures on long-lived assets	1,021		1,021	2,445		2,445

In the twenty-six-week and thirteen-week periods ended June 25, 2011, there were no customers who accounted for 10 percent or more of the Company's revenue. In the twenty-six-week and thirteen-week periods ended June 26, 2010, one customer accounted for approximately 12 percent and 11 percent, respectively, of the Company's revenue.

(8) Comprehensive Income

The following table includes the components of comprehensive income attributable to Landstar System, Inc. and subsidiary for the twenty-six-week and thirteen-week periods ended June 25, 2011 and June 26, 2010 (in thousands):

	Twenty Six Weeks Ended		Thirteen Weeks Ended	
	June 25, 2011	June 26, 2010	June 25, 2011	June 26, 2010
Net income attributable to Landstar System, Inc. and subsidiary	\$ 50,217	\$ 41,613	\$ 29,598	\$ 24,437
Unrealized holding gains on available-for-sale investments	454	196	443	63
Income tax on unrealized holding gains	161	70	157	23
Net unrealized holding gains	293	126	286	40
Foreign currency translation gains (losses)	213	57	7	(43)
Comprehensive income attributable to Landstar System, Inc. and subsidiary	\$ 50,723	\$ 41,796	\$ 29,891	\$ 24,434

The foreign currency translation gain or loss for each period represents the unrealized net gain or loss on the translation of the financial statements of the Company's Canadian operations. Accumulated other comprehensive income as reported as a component of equity at June 25, 2011 of \$1,387,000 represents the unrealized net gain on the translation of the financial statements of the Company's Canadian operations of \$603,000 and the cumulative unrealized holding gains on available-for-sale investments, net of income taxes, of \$784,000.

(9) Investments

Investments include investment-grade bonds and mortgage-backed securities having maturities of up to five years (the bond portfolio). Investments in the bond portfolio are reported as available-for-sale and are carried at fair value. Investments maturing less than one year from the balance sheet date are included in short-term investments and investments maturing more than one year from the balance sheet date are included in other assets in the consolidated balance sheets. Management has performed an analysis of the nature of the unrealized losses on available-for-sale investments to determine whether such losses are other-than-temporary. Unrealized losses, representing the excess of the purchase price of an investment over its fair value as of the end of a period, considered to be other-than-temporary are to be included as a charge in the statement of income while unrealized losses considered to be temporary are to be included as a component of equity. Investments whose values are based on quoted market prices in active markets are classified within Level 1. Investments that trade in markets that are not considered to be active, but are valued based on quoted market prices, are classified within Level 2. As Level 2 investments include positions that are not traded in active markets, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. Transfers between levels are recognized as of the beginning of the period. Fair value of the bond portfolio was determined using Level 1 inputs related to U.S. Treasury obligations and money market investments and Level 2 inputs related to investment-grade corporate bonds, mortgage-backed securities and direct obligations of government agencies. Net unrealized gains on the investments in the bond portfolio were \$1,214,000 and \$760,000 at June 25, 2011 and December 25, 2010, respectively.

Table of Contents

The amortized cost and fair market values of available-for-sale investments are as follows at June 25, 2011 and December 25, 2010 (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Market Value
June 25, 2011				
Money market investments	\$ 1,536	\$	\$	\$ 1,536
Mortgage-backed securities	3,105	91		3,196
Corporate bonds and direct obligations of government agencies	53,717	1,107	8	54,816
U.S. Treasury obligations	13,008	24		13,032
Total	\$ 71,366	\$ 1,222	\$ 8	\$ 72,580
December 25, 2010				
Money market investments	\$ 535	\$	\$	\$ 535
Mortgage-backed securities	3,458	64	8	3,514
Corporate bonds and direct obligations of government agencies	60,330	872	151	61,051
U.S. Treasury obligations	12,584	6	23	12,567
Total	\$ 76,907	\$ 942	\$ 182	\$ 77,667

For those available-for-sale investments with unrealized losses at June 25, 2011 and December 25, 2010, the following table summarizes the duration of the unrealized loss (in thousands):

	Less than 12 months		12 months or longer		Total	
	Fair Market Value	Unrealized Loss	Fair Market Value	Unrealized Loss	Fair Market Value	Unrealized Loss
June 25, 2011						
Corporate bonds and direct obligations of government agencies	\$ 2,143	\$ 8	\$	\$	\$ 2,143	\$ 8
December 25, 2010						
Mortgage-backed securities	\$ 225	\$ 8	\$	\$	\$ 225	\$ 8
Corporate bonds and direct obligations of government agencies	11,615	151			11,615	151
U.S. Treasury obligations	774	23			774	23
Total	\$ 12,614	\$ 182	\$	\$	\$ 12,614	\$ 182

(10) Commitments and Contingencies

Short-term investments include \$30,489,000 in current maturities of investments held by the Company's insurance segment at June 25, 2011. These short-term investments together with \$19,694,000 of the non-current portion of investments included in other assets at June 25, 2011 provide collateral for the \$45,165,000 of letters of credit issued to guarantee payment of insurance claims. As of June 25, 2011, Landstar also had \$33,499,000 of letters of credit outstanding under the Company's credit agreement.

Table of Contents

As further described in periodic and current reports previously filed by the Company with the Securities and Exchange Commission (the "SEC"), the Company and certain of its subsidiaries (the "Defendants") are defendants in a suit (the "Litigation") brought in the United States District Court for the Middle District of Florida (the "District Court") by the Owner-Operator Independent Drivers Association, Inc. ("OOIDA") and four former BCO Independent Contractors (the "Named Plaintiffs" and, with OOIDA, the "Plaintiffs") on behalf of all independent contractors who provide truck capacity to the Company and its subsidiaries under exclusive lease arrangements (the "BCO Independent Contractors"). The Plaintiffs allege that certain aspects of the Company's motor carrier leases and related practices with its BCO Independent Contractors violate certain federal leasing regulations and seek injunctive relief, an unspecified amount of damages and attorneys' fees.

On March 29, 2007, the District Court denied the request by Plaintiffs for injunctive relief, entered a judgment in favor of the Defendants and issued written orders setting forth its rulings related to the decertification of the plaintiff class and other important elements of the Litigation relating to liability, injunctive relief and monetary relief. The Plaintiffs filed an appeal with the United States Court of Appeals for the Eleventh Circuit (the "Appellate Court") of certain of the District Court's rulings in favor of the Defendants. The Defendants asked the Appellate Court to affirm such rulings and filed a cross-appeal with the Appellate Court with respect to certain other rulings of the District Court. On September 3, 2008, the Appellate Court issued its initial ruling. Each of the parties to the Litigation subsequently filed a petition with the Appellate Court seeking rehearing of the Appellate Court's ruling.

On October 4, 2010, the Appellate Court denied each of the motions for rehearing, withdrew its initial ruling and substituted a new ruling in its place. The new ruling by the Appellate Court confirmed the absence of any violations alleged by the Plaintiffs of the federal leasing regulations with respect to the written terms of all leases currently in use between the Defendants and BCO Independent Contractors. In particular, the new ruling, among other things, held that (i) the Defendants are not prohibited by the applicable federal leasing regulations from charging administrative or other fees to BCO Independent Contractors in connection with voluntary programs offered by the Defendants through which a BCO Independent Contractor may purchase discounted products and services for a charge that is deducted against the compensation payable to the BCO Independent Contractor (a "Charge-back Deduction"), (ii) in the case of a Charge-back Deduction expressed as a flat-fee in the lease, the applicable federal leasing regulations do not require Defendants to do more than disclose the flat-fee Charge-back Deduction in the lease and follow up with settlement statements that explain the final amount charged back, (iii) the Plaintiffs are not entitled to restitution or disgorgement with respect to violations by Defendants of the applicable federal leasing regulations but instead may recover only actual damages, if any, which they sustained as a result of any such violations and (iv) the claims of BCO Independent Contractors may not be handled on a class action basis for purposes of determining the amount of actual damages, if any, they sustained as a result of any violations.

However, the new ruling of the Appellate Court reversed the District Court's ruling that an old version of the lease formerly used by Defendants but not in use with any current BCO Independent Contractor complied with applicable disclosure requirements under the federal leasing regulations with respect to adjustments to compensation payable to BCO Independent Contractors on certain loads sourced from the U. S. Department of Defense. The Appellate Court then remanded the case to the District Court to permit the Plaintiffs to seek injunctive relief with respect to this violation of the federal leasing regulations and to hold an evidentiary hearing to give the Named Plaintiffs an opportunity to produce evidence of any damages they actually sustained as a result of such violation.

On March 8, 2011, the Plaintiffs filed a petition with the United States Supreme Court to seek to further appeal certain portions of the Appellate Court's October 4, 2010 ruling. On March 23, 2011, the Plaintiffs requested that the United States Supreme Court consolidate such petition with a petition OOIDA subsequently filed to seek to further appeal a decision of the United States Court of Appeals for the Ninth Circuit on January 20, 2011, in a case not otherwise involving the Company, *Owner-Operator Indep. Drivers Ass'n, Inc., et al v. Swift Transp. Co., Inc.*

Although no assurances can be given with respect to the outcome of the Litigation, including the March 8, 2011 petition to the United States Supreme Court and any possible award of attorneys' fees to the Plaintiffs, the Company believes that (i) no Plaintiff has sustained any actual damages as a result of any violations by the Defendants of the federal leasing regulations and (ii) injunctive relief, if any, that may be granted by the District Court on remand is unlikely to have a material adverse financial effect on the Company.

In June 2011, Landstar System, Inc. received a Civil Investigative Demand (the "CID") from the United States Attorney for the Western District of Kentucky issued pursuant to the False Claims Act. The CID requests documents and written interrogatories limited to freight hauled to or from Fort Campbell, Kentucky by certain subsidiaries of the Company and billed to the U.S. government. The Company has been and continues to cooperate fully with this request.

Table of Contents

The Company is involved in certain claims and pending litigation, including those described herein, arising from the normal conduct of business. Based on knowledge of the facts and, in certain cases, opinions of outside counsel, management believes that adequate provisions have been made for probable losses with respect to the resolution of all such claims and pending litigation and that the ultimate outcome, after provisions therefor, will not have a material adverse effect on the financial condition of the Company, but could have a material effect on the results of operations in a given quarter or year.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the attached interim consolidated financial statements and notes thereto, and with the Company's audited financial statements and notes thereto for the fiscal year ended December 25, 2010 and Management's Discussion and Analysis of Financial Condition and Results of Operations included in the 2010 Annual Report on Form 10-K.

FORWARD-LOOKING STATEMENTS

The following is a "safe harbor" statement under the Private Securities Litigation Reform Act of 1995. Statements contained in this document that are not based on historical facts are "forward-looking statements." This Management's Discussion and Analysis of Financial Condition and Results of Operations and other sections of this Form 10-Q contain forward-looking statements, such as statements which relate to Landstar's business objectives, plans, strategies and expectations. Terms such as "anticipates," "believes," "estimates," "expects," "plans," "predicts," "may," "should," the negative thereof and similar expressions are intended to identify forward-looking statements. Such statements are by nature subject to uncertainties and risks, including but not limited to: an increase in the frequency or severity of accidents or other claims; unfavorable development of existing accident claims; dependence on third party insurance companies; dependence on independent commission sales agents; dependence on third party capacity providers; substantial industry competition; disruptions or failures in our computer systems; changes in fuel taxes; status of independent contractors; a downturn in economic growth or growth in the transportation sector; acquired businesses; intellectual property; and other operational, financial or legal risks or uncertainties detailed in Landstar's Form 10-K for the 2010 fiscal year, described in Item 1A "Risk Factors," this report or in Landstar's other Securities and Exchange Commission filings from time to time. These risks and uncertainties could cause actual results or events to differ materially from historical results or those anticipated. Investors should not place undue reliance on such forward-looking statements and the Company undertakes no obligation to publicly update or revise any forward-looking statements.

Introduction

Landstar System, Inc. and its subsidiary, Landstar System Holdings, Inc. (together, referred to herein as "Landstar" or the "Company"), is a non-asset based provider of freight transportation services and supply chain solutions. The Company offers services to its customers across multiple transportation modes, with the ability to arrange for individual shipments of freight to enterprise-wide solutions to manage all of a customer's transportation and logistics needs. Landstar provides services principally throughout the United States and to a lesser extent in Canada, and between the United States and Canada, Mexico and other countries around the world. The Company's services emphasize safety, information coordination and customer service and are delivered through a network of independent commission sales agents and third party capacity providers linked together by a series of technological applications which are provided and coordinated by the Company. Landstar markets its freight transportation services and supply chain solutions primarily through independent commission sales agents and exclusively utilizes third party capacity providers to transport and store customers' freight. The nature of the Company's business is such that a significant portion of its operating costs varies directly with revenue.

Landstar markets its freight transportation services and supply chain solutions primarily through independent commission sales agents who enter into contractual arrangements with the Company and are responsible for locating freight, making that freight available to Landstar's capacity providers and coordinating the transportation of the freight with customers and capacity providers. The Company's third party capacity providers consist of independent contractors who provide truck capacity to the Company under exclusive lease arrangements (the "BCO Independent Contractors"), unrelated trucking companies who provide truck capacity to the Company under non-exclusive contractual arrangements (the "Truck Brokerage Carriers"), air cargo carriers, ocean cargo carriers, railroads and independent warehouse capacity providers ("Warehouse Capacity Owners"). The Company has contracts with all of the Class 1 domestic and Canadian railroads and certain short-line railroads and contracts with domestic and international airlines and ocean lines. Through this network of agents and capacity providers linked together by Landstar's information technology systems, Landstar operates a transportation services and supply chain solutions business primarily throughout North America with revenue of \$2.4 billion during the most recently completed fiscal year. The Company reports the results of two operating segments: the transportation logistics segment and the insurance segment.

Table of Contents

The transportation logistics segment provides a wide range of transportation services and supply chain solutions. Transportation services offered by the Company include truckload and less-than-truckload transportation, rail intermodal, air cargo, ocean cargo, expedited ground and air delivery of time-critical freight, heavy-haul/specialized, U.S.-Canada and U.S.-Mexico cross-border, project cargo and customs brokerage. Supply chain solutions are based on advanced technology solutions offered by the Company and include integrated multi-modal solutions, outsourced logistics, supply chain engineering and warehousing. In the Company's 2009 fiscal third quarter, the Company acquired A3 Integration, LLC and its subsidiaries through A3i Acquisition LLC ("A3i Acquisition"), an entity in which the Company owned 100% of the non-voting, preferred interests and, from the date of acquisition to January 2011, 75% of the voting, common equity interests. In January 2011, the Company purchased the remaining 25% of the voting, common equity interests in A3i Acquisition. Industries serviced by the transportation logistics segment include automotive products, paper, lumber and building products, metals, chemicals, foodstuffs, heavy machinery, retail, electronics, ammunition and explosives and military hardware. In addition, the transportation logistics segment provides transportation services to other transportation companies, including logistics and less-than-truckload service providers. Each of the independent commission sales agents has the opportunity to market all of the services provided by the transportation logistics segment. Freight transportation services are typically charged to customers on a per shipment basis for the physical transportation of freight. Supply chain solution customers are generally charged fees for the services provided. Revenue recognized by the transportation logistics segment when providing capacity to customers to haul their freight is referred to herein as "transportation services revenue" and revenue for freight management services recognized on a fee-for-service basis is referred to herein as "transportation management fees." During the twenty six weeks ended June 25, 2011, transportation services revenue hauled by BCO Independent Contractors, Truck Brokerage Carriers, rail intermodal, air cargo carriers and ocean cargo carriers represented 55%, 38%, 3%, 1%, and 2%, respectively, of the Company's transportation logistics segment revenue. Transportation management fees represented 1% of the Company's transportation logistics segment revenue in the twenty-six-week period ended June 25, 2011.

The insurance segment is comprised of Signature Insurance Company, a wholly owned offshore insurance subsidiary, and Risk Management Claim Services, Inc. This segment provides risk and claims management services to certain of Landstar's operating subsidiaries. In addition, it reinsures certain risks of the Company's BCO Independent Contractors and provides certain property and casualty insurance directly to certain of Landstar's operating subsidiaries. Revenue, representing premiums on reinsurance programs provided to the Company's BCO Independent Contractors, at the insurance segment represented approximately 1% of the Company's total revenue for the twenty six weeks ended June 25, 2011.

Changes in Financial Condition and Results of Operations

Management believes the Company's success principally depends on its ability to generate freight through its network of independent commission sales agents and to efficiently deliver that freight utilizing third party capacity providers. Management believes the most significant factors to the Company's success include increasing revenue, sourcing capacity and controlling costs.

While customer demand, which is subject to overall economic conditions, ultimately drives increases or decreases in revenue, the Company primarily relies on its independent commission sales agents to establish customer relationships and generate revenue opportunities. Management's primary focus with respect to revenue growth is on revenue generated by independent commission sales agents who on an annual basis generate \$1 million or more of Landstar revenue ("Million Dollar Agents"). Management believes future revenue growth is primarily dependent on its ability to increase both the revenue generated by Million Dollar Agents and the number of Million Dollar Agents through a combination of recruiting new agents and increasing the revenue opportunities generated by existing independent commission sales agents. During the 2010 fiscal year, 468 independent commission sales agents generated \$1 million or more of Landstar revenue and thus qualified as Million Dollar Agents. During the 2010 fiscal year, the average revenue generated by a Million Dollar Agent was \$4,576,000 and revenue generated by Million Dollar Agents in the aggregate represented 89% of consolidated Landstar revenue.

Table of Contents

Management monitors business activity by tracking the number of loads (volume) and revenue per load by mode of transportation. Revenue per load can be influenced by many factors other than a change in price. Those factors include the average length of haul, freight type, special handling and equipment requirements, fuel costs and delivery time requirements. For shipments involving two or more modes of transportation, revenue is classified by the mode of transportation having the highest cost for the load. The following table summarizes this data by mode of transportation:

	Twenty Six Weeks Ended		Thirteen Weeks Ended	
	June 25, 2011	June 26, 2010	June 25, 2011	June 26, 2010
Revenue generated through (in thousands):				
BCO Independent Contractors	\$ 669,748	\$ 631,736	\$ 362,854	\$ 345,595
Truck Brokerage Carriers	472,391	466,163	258,668	246,408
Rail intermodal	34,832	34,092	18,367	19,316
Ocean cargo carriers	26,031	20,835	12,198	11,700
Air cargo carriers	16,900	8,562	9,340	3,959
Other ⁽¹⁾	27,645	28,421	14,134	14,743
	\$ 1,247,547	\$ 1,189,809	\$ 675,561	\$ 641,721

Number of loads:

BCO Independent Contractors	402,730	420,770	210,690	223,020
Truck Brokerage Carriers	287,210	308,330	151,470	158,980
Rail intermodal	14,830	15,490	7,570	8,620
Ocean cargo carriers	3,950	3,110	2,120	1,650
Air cargo carriers	4,000	3,130	2,050	1,630
	712,720	750,830	373,900	393,900

Revenue per load:

BCO Independent Contractors	\$ 1,663	\$ 1,501	\$ 1,722	\$ 1,550
Truck Brokerage Carriers	1,645	1,512	1,708	1,550
Rail intermodal	2,349	2,201	2,426	2,241
Ocean cargo carriers	6,590	6,699	5,754	7,091
Air cargo carriers	4,225	2,735	4,556	2,429

(1) Includes premium revenue generated by the insurance segment and warehousing and transportation management fee revenue generated by the transportation logistics segment.

Also critical to the Company's success is its ability to secure capacity, particularly truck capacity, at rates that allow the Company to profitably transport customers' freight. The following table summarizes available truck capacity providers:

	June 25, 2011	June 26, 2010
BCO Independent Contractors	7,711	7,818
Truck Brokerage Carriers:		
Approved and active ⁽¹⁾	17,696	16,670
Other approved	8,984	9,047

Edgar Filing: LANDSTAR SYSTEM INC - Form 10-Q

	26,680	25,717
Total available truck capacity providers	34,391	33,535
Number of trucks provided by BCO Independent Contractors	8,231	8,399

Table of Contents

(1) Active refers to Truck Brokerage Carriers who moved at least one load in the 180 days immediately preceding the fiscal quarter end. The Company incurs costs that are directly related to the transportation of freight that include purchased transportation and commissions to agents. The Company incurs indirect costs associated with the transportation of freight that include other operating costs and insurance and claims. In addition, the Company incurs selling, general and administrative costs essential to administering its business operations. Management continually monitors all components of the costs incurred by the Company and establishes annual cost budgets which, in general, are used to benchmark costs incurred on a monthly basis.

Purchased transportation represents the amount a BCO Independent Contractor or other third party capacity provider is paid to haul freight. The amount of purchased transportation paid to a BCO Independent Contractor is primarily based on a contractually agreed-upon percentage of revenue generated by the haul. Purchased transportation paid to a Truck Brokerage Carrier is based on either a negotiated rate for each load hauled or a contractually agreed-upon rate. Purchased transportation paid to rail intermodal, air cargo or ocean cargo carriers is based on contractually agreed-upon fixed rates. Purchased transportation as a percentage of revenue for truck brokerage, rail intermodal and ocean cargo services is normally higher than that of BCO Independent Contractor and air cargo services. Purchased transportation is the largest component of costs and expenses and, on a consolidated basis, increases or decreases in proportion to the revenue generated through BCO Independent Contractors and other third party capacity providers, transportation management fees and revenue from the insurance segment. Purchased transportation as a percent of revenue also increases or decreases in relation to the availability of truck brokerage capacity, the price of fuel on revenue hauled by Truck Brokerage Carriers and, to a lesser extent, on revenue hauled by railroads and air and ocean cargo carriers. Purchased transportation costs are recognized upon the completion of freight delivery.

Commissions to agents are based on contractually agreed-upon percentages of revenue or net revenue, defined as revenue less the cost of purchased transportation, or net revenue less a contractually agreed upon percentage of revenue retained by Landstar. Commissions to agents as a percentage of consolidated revenue will vary directly with fluctuations in the percentage of consolidated revenue generated by the various modes of transportation, transportation management fees and revenue from the insurance segment and with changes in net revenue on services provided by Truck Brokerage Carriers and rail intermodal, air cargo and ocean cargo carriers. Commissions to agents are recognized upon the completion of freight delivery.

The Company's gross profit equals revenue less the cost of purchased transportation and commissions to agents. Gross profit divided by revenue is referred to as gross profit margin. The Company's operating margin is defined as operating income divided by gross profit.

In general, gross profit margin on revenue hauled by BCO Independent Contractors represents a fixed percentage of revenue due to the nature of the contracts that pay a fixed percentage of revenue to both the BCO Independent Contractors and independent commission sales agents. For revenue hauled by Truck Brokerage Carriers, gross profit margin is either fixed or variable as a percent of revenue, depending on the contract with each individual independent commission sales agent. Under certain contracts with independent commission sales agents, the Company retains a fixed percentage of revenue and the agent retains the amount remaining less the cost of purchased transportation (the retention contracts). Gross profit margin on revenue hauled by rail, air cargo carriers, ocean cargo carriers and Truck Brokerage Carriers, other than those under retention contracts, is variable in nature as the Company's contracts with independent commission sales agents provide commissions to agents at a contractually agreed upon percentage of net revenue. Approximately 68% of the Company's revenue in the twenty-six-week period ended June 25, 2011 had a fixed gross profit margin.

Maintenance costs for Company-provided trailing equipment, BCO Independent Contractor recruiting costs and the provision for uncollectable advances and other receivables due from BCO Independent Contractors and independent commission sales agents are the largest components of other operating costs.

Potential liability associated with accidents in the trucking industry is severe and occurrences are unpredictable. For commercial trucking claims, Landstar retains liability up to \$5,000,000 per occurrence. The Company also retains liability for each general liability claim up to \$1,000,000, \$250,000 for each workers' compensation claim and up to \$250,000 for each cargo claim. The Company's exposure to liability associated with accidents incurred by Truck Brokerage Carriers, rail intermodal capacity providers and air cargo and ocean cargo carriers who transport freight on behalf of the Company is reduced by various factors including the extent to which they maintain their own insurance coverage. A material increase in the frequency or severity of accidents, cargo claims or workers' compensation claims or the unfavorable development of existing claims could be expected to materially adversely affect Landstar's results of operations.

Employee compensation and benefits account for over half of the Company's selling, general and administrative costs.

Table of Contents

Depreciation and amortization primarily relate to depreciation of trailing equipment, amortization of intangible assets and depreciation of information technology hardware and software.

The following table sets forth the percentage relationships of purchased transportation and commissions to agents, both being direct costs, to revenue and indirect costs as a percentage of gross profit for the periods indicated:

	Twenty Six Weeks Ended		Thirteen Weeks Ended	
	June 25, 2011	June 26, 2010	June 25, 2011	June 26, 2010
Revenue	100.0%	100.0%	100.0%	100.0%
Purchased transportation	75.4	76.3	75.5	76.4
Commissions to agents	7.9	7.3	8.0	7.3
Gross profit margin	16.7%	16.4%	16.5%	16.3%
Gross profit	100.0%	100.0%	100.0%	100.0%
Investment income	0.4	0.3	0.4	0.2
Indirect costs and expenses:				
Other operating costs	7.5	8.0	6.9	7.6
Insurance and claims	11.9	13.4	12.1	13.2
Selling, general and administrative	35.1	37.8	32.1	35.3
Depreciation and amortization	6.1	6.1	5.7	5.9
Operating margin	39.8%	35.0%	43.6%	38.2%

TWENTY SIX WEEKS ENDED JUNE 25, 2011 COMPARED TO TWENTY SIX WEEKS ENDED JUNE 26, 2010

Revenue for the 2011 twenty-six-week period was \$1,247,547,000, an increase of \$57,738,000, or 5%, compared to the 2010 twenty-six-week period. Revenue increased \$57,787,000, or 5%, at the transportation logistics segment. The increase in revenue at the transportation logistics segment was primarily attributable to a higher revenue per load of approximately 11%, partially offset by a 5% decrease in the number of loads hauled. Included in the 2011 and 2010 twenty-six-week periods were transportation management fees of \$10,419,000 and \$8,992,000, respectively.

Truck transportation revenue hauled by BCO Independent Contractors and Truck Brokerage Carriers (together the third-party truck capacity providers), which represented 92% of total revenue for the twenty-six-week period ended June 25, 2011, was \$1,142,139,000 for the twenty-six-week period ended June 25, 2011, an increase of \$44,240,000, or 4%, compared to the 2010 twenty-six-week period. The number of loads hauled by third-party truck capacity providers in the 2011 twenty-six-week period decreased 5% compared to the 2010 twenty-six-week period, while revenue per load increased 10% over the same period. The decrease in the number of loads hauled by third-party truck capacity providers was primarily attributable to the anticipated reduction of freight hauled on behalf of one customer in the Company's less-than-truckload substitute line haul service offering. Less-than-truckload substitute line haul revenue was \$38,143,000 and \$147,751,000 in the 2011 and 2010 twenty-six-week periods, respectively. The increase in revenue per load on revenue hauled by third-party truck capacity providers was primarily attributable to tighter truck capacity in the domestic market during the twenty six weeks ended June 25, 2011. Fuel surcharges on Truck Brokerage Carrier revenue identified separately in billings to customers and included as a component of Truck Brokerage Carrier revenue were \$45,226,000 and \$42,015,000 in the 2011 and 2010 periods, respectively. Fuel surcharges billed to customers on revenue hauled by BCO Independent Contractors are excluded from revenue.

Transportation revenue hauled by rail intermodal, air cargo and ocean cargo carriers (together the multimode capacity providers), which represented 6% of total revenue for the twenty-six-week period ended June 25, 2011, was \$77,763,000 for the twenty-six-week period ended June 25, 2011, an increase of \$14,274,000, or 22%, compared to the 2010 twenty-six-week period. The number of loads hauled by multimode capacity providers in the 2011 twenty-six-week period increased 5% compared to the 2010 twenty-six-week period, and revenue per load increased 17% over the same period. The increase in revenue per load on revenue hauled by multimode capacity providers is influenced by many factors including the mode of transportation used, length of haul, complexity of freight, density of freight lanes, fuel costs and availability

of capacity.

Table of Contents

Purchased transportation was 75.4% and 76.3% of revenue in the 2011 and 2010 twenty-six-week periods, respectively. The decrease in purchased transportation as a percentage of revenue was primarily attributable to reduced less-than-truckload substitute line-haul revenue, which typically has a higher rate of purchased transportation, partially offset by an increased rate of purchased transportation paid to Truck Brokerage Carriers. Commissions to agents were 7.9% of revenue in the 2011 period and 7.3% of revenue in the 2010 period. The increase in commissions to agents as a percentage of revenue was primarily attributable to decreased less-than-truckload substitute line-haul revenue, which typically has a lower commission rate.

Investment income at the insurance segment was \$921,000 and \$574,000 in the 2011 and 2010 twenty-six-week periods, respectively. The increase in investment income was primarily due to an increased average rate of return on investments held by the insurance segment in the 2011 period.

Other operating costs were 7.5% and 8.0% of gross profit in the 2011 and 2010 periods, respectively. The decrease in other operating costs as a percentage of gross profit was primarily attributable to the effect of increased gross profit and a reduction in certain outsourced logistics services costs, partially offset by increased trailing equipment maintenance costs in the 2011 period. Insurance and claims were 11.9% of gross profit in the 2011 period and 13.4% of gross profit in the 2010 period. The decrease in insurance and claims as a percentage of gross profit was primarily due to an increase in the percent of gross profit contributed from revenue hauled by Truck Brokerage Carriers, which has a lower claims risk profile, and decreased cargo claims costs in the 2011 period. Selling, general and administrative costs were 35.1% of gross profit in the 2011 period and 37.8% of gross profit in the 2010 period. The decrease in selling, general and administrative costs as a percentage of gross profit was primarily attributable to the effect of increased gross profit and a lower provision for bonuses under the Company's incentive compensation plan. Depreciation and amortization was 6.1% of gross profit in both the 2011 and 2010 periods.

The provisions for income taxes for the 2011 and 2010 twenty-six-week periods were based on an estimated full year combined effective income tax rate of approximately 38.2%, which was higher than the statutory federal income tax rate primarily as a result of state taxes, the meals and entertainment exclusion and non-deductible stock compensation expense.

The net losses attributable to noncontrolling interest of \$62,000 and \$446,000 in the 2011 and 2010 twenty-six-week periods, respectively, represent the noncontrolling investor's 25 percent share of the net loss incurred by A3i Acquisition through January 2011. The Company purchased the remaining 25 percent of A3i Acquisition in January 2011.

Net income attributable to the Company was \$50,217,000, or \$1.05 per common share (\$1.05 per diluted share), in the 2011 twenty-six-week period. Net income attributable to the Company was \$41,613,000, or \$0.83 per common share (\$0.83 per diluted share), in the 2010 twenty-six-week period.

THIRTEEN WEEKS ENDED JUNE 25, 2011 COMPARED TO THIRTEEN WEEKS ENDED JUNE 26, 2010

Revenue for the 2011 thirteen-week period was \$675,561,000, an increase of \$33,840,000, or 5%, compared to the 2010 thirteen-week period. Revenue increased \$33,935,000, or 5%, at the transportation logistics segment. The increase in revenue at the transportation logistics segment was primarily attributable to a higher revenue per load of approximately 11%, partially offset by a 5% decrease in the number of loads hauled. Included in the 2011 and 2010 thirteen-week periods were transportation management fees of \$5,596,000 and \$4,928,000, respectively.

Truck transportation revenue hauled by third-party truck capacity providers, which represented 92% of total revenue for the thirteen-week period ended June 25, 2011, was \$621,522,000 for the thirteen-week period ended June 25, 2011, an increase of \$29,519,000, or 5%, compared to the 2010 thirteen-week period. The number of loads hauled by third-party truck capacity providers in the 2011 thirteen-week period decreased 5% compared to the 2010 thirteen-week period, while revenue per load increased 11% over the same period. The decrease in the number of loads hauled by third-party truck capacity providers was primarily attributable to the anticipated reduction of freight hauled on behalf of one customer in the Company's less-than-truckload substitute line haul service offering. Less-than-truckload substitute line haul revenue was \$18,793,000 and \$70,531,000 in the 2011 and 2010 thirteen-week periods, respectively. The increase in revenue per load on revenue hauled by third-party truck capacity providers was primarily attributable to tighter truck capacity in the domestic market during the thirteen weeks ended June 25, 2011. Fuel surcharges on Truck Brokerage Carrier revenue identified separately in billings to customers and included as a component of Truck Brokerage Carrier revenue were \$25,918,000 and \$23,056,000 in the 2011 and 2010 periods, respectively. Fuel surcharges billed to customers on revenue hauled by BCO Independent Contractors are excluded from revenue.

Table of Contents

Transportation revenue hauled by multimode capacity providers, which represented 6% of total revenue for the thirteen-week period ended June 25, 2011, was \$39,905,000 for the thirteen-week period ended June 25, 2011, an increase of \$4,930,000, or 14%, compared to the 2010 thirteen-week period. The number of loads hauled by multimode capacity providers in the 2011 thirteen-week period decreased 1% compared to the 2010 thirteen-week period, while revenue per load increased 16% over the same period. The increase in revenue per load on revenue hauled by multimode capacity providers is influenced by many factors including the mode of transportation used, length of haul, complexity of freight, density of freight lanes and availability of capacity.

Purchased transportation was 75.5% and 76.4% of revenue in the 2011 and 2010 thirteen-week periods, respectively. The decrease in purchased transportation as a percentage of revenue was primarily attributable to reduced less-than-truckload substitute line-haul revenue, which typically has a higher rate of purchased transportation. Commissions to agents were 8.0% of revenue in the 2011 period and 7.3% of revenue in the 2010 period. The increase in commissions to agents as a percentage of revenue was primarily attributable to decreased less-than-truckload substitute line-haul revenue, which typically has a lower commission rate.

Investment income at the insurance segment was \$393,000 and \$289,000 in the 2011 and 2010 thirteen-week periods, respectively. The increase in investment income was primarily due to an increased average rate of return on investments held by the insurance segment in the 2011 period.

Other operating costs were 6.9% and 7.6% of gross profit in the 2011 and 2010 periods, respectively. The decrease in other operating costs as a percentage of gross profit was primarily attributable to the effect of increased gross profit and a reduction in certain outsourced logistics services costs, partially offset by increased trailing equipment maintenance costs in the 2011 period. Insurance and claims were 12.1% of gross profit in the 2011 period and 13.2% of gross profit in the 2010 period. The decrease in insurance and claims as a percentage of gross profit was primarily due to an increase in the percent of gross profit contributed from revenue hauled by Truck Brokerage Carriers, which has a lower claims risk profile, and decreased cargo claims costs in the 2011 period. Selling, general and administrative costs were 32.1% of gross profit in the 2011 period and 35.3% of gross profit in the 2010 period. The decrease in selling, general and administrative costs as a percentage of gross profit was primarily attributable to the effect of increased gross profit and a lower provision for bonuses under the Company's incentive compensation plan. Depreciation and amortization was 5.7% of gross profit in the 2011 period compared with 5.9% in the 2010 period. The decrease in depreciation and amortization as a percentage of gross profit was primarily due to the effect of increased gross profit.

The provisions for income taxes for the 2011 and 2010 thirteen-week periods were based on an estimated full year combined effective income tax rate of approximately 38.2%, which was higher than the statutory federal income tax rate primarily as a result of state taxes, the meals and entertainment exclusion and non-deductible stock compensation expense.

Net income attributable to the Company was \$29,598,000, or \$0.62 per common share (\$0.62 per diluted share), in the 2011 thirteen-week period. Net income attributable to the Company was \$24,437,000, or \$0.49 per common share (\$0.49 per diluted share), in the 2010 thirteen-week period.

CAPITAL RESOURCES AND LIQUIDITY

Working capital and the ratio of current assets to current liabilities were \$185,623,000 and 1.6 to 1, respectively, at June 25, 2011, compared with \$142,571,000 and 1.5 to 1, respectively, at December 25, 2010. Landstar has historically operated with current ratios within the range of 1.5 to 1 to 2.0 to 1. Cash provided by operating activities was \$23,467,000 in the 2011 twenty-six-week period compared with \$26,247,000 in the 2010 twenty-six-week period. The decrease in cash flow provided by operating activities was primarily attributable to the timing of collections of trade receivables. The number of days sales outstanding in accounts receivable, representing gross outstanding receivables divided by the average revenue per day for the most recent period, increased to 48 days outstanding at June 25, 2011 compared to 46 days outstanding at June 26, 2010. The increase in the number of days sales outstanding in accounts receivable was primarily attributable to the decrease in revenue from one customer that historically had paid the Company quickly on revenue generated under the Company's less-than-truckload substitute line haul service offering.

The Company paid \$0.10 per share, or \$4,788,000, in cash dividends during the twenty-six-week period ended June 25, 2011. It is the intention of the Board of Directors to continue to pay a quarterly dividend. During the twenty-six-week period ended June 25, 2011, the Company purchased 196,693 shares of its common stock at a total cost of \$9,266,000. As of June 25, 2011, the Company may purchase up to an additional 525,969 shares of its common stock under its authorized stock purchase program. Long-term debt, including current maturities, was \$111,154,000 at June 25, 2011, \$10,457,000 lower than at December 25, 2010.

Table of Contents

Equity was \$282,480,000, or 72% of total capitalization (defined as long-term debt including current maturities plus equity), at June 25, 2011, compared to \$250,967,000, or 67% of total capitalization, at December 25, 2010. The increase in equity was primarily a result of net income and the effect of the exercises of stock options during the period, partially offset by the purchase of the noncontrolling interest and dividends paid by the Company.

On June 27, 2008, Landstar entered into a credit agreement with a syndicate of banks and JPMorgan Chase Bank, N.A., as administrative agent (the Credit Agreement). The Credit Agreement, which expires on June 27, 2013, provides \$225,000,000 of borrowing capacity in the form of a revolving credit facility, \$75,000,000 of which may be utilized in the form of letter of credit guarantees.

The Credit Agreement contains a number of covenants that limit, among other things, the incurrence of additional indebtedness. The Company is required to, among other things, maintain a minimum Fixed Charge Coverage Ratio, as defined in the Credit Agreement, and maintain a Leverage Ratio, as defined in the Credit Agreement, below a specified maximum. The Credit Agreement provides for a restriction on cash dividends and other distributions to stockholders on the Company's capital stock to the extent there is a default under the Credit Agreement. In addition, the Credit Agreement under certain circumstances limits the amount of such cash dividends and other distributions to stockholders in the event that after giving effect to any payment made to effect such cash dividend or other distribution, the Leverage Ratio would exceed 2.5 to 1 on a pro forma basis as of the end of the Company's most recently completed fiscal quarter. The Credit Agreement provides for an event of default in the event, among other things, that a person or group acquires 25% or more of the outstanding capital stock of the Company or obtains power to elect a majority of the Company's directors. None of these covenants are presently considered by management to be materially restrictive to the Company's operations, capital resources or liquidity. The Company is currently in compliance with all of the debt covenants under the Credit Agreement.

At June 25, 2011, the Company had \$80,000,000 in borrowings outstanding and \$33,499,000 of letters of credit outstanding under the Credit Agreement. At June 25, 2011, there was \$111,501,000 available for future borrowings under the Credit Agreement. In addition, the Company has \$45,165,000 in letters of credit outstanding as collateral for insurance claims that are secured by investments and cash equivalents totaling \$50,183,000. Investments, all of which are carried at fair value, include investment-grade bonds and mortgage-backed securities having maturities of up to five years. Fair value of investments is based primarily on quoted market prices. See Notes to Consolidated Financial Statements for further discussion on measurement of fair value of investments.

Historically, the Company has generated sufficient operating cash flow to meet its debt service requirements, fund continued growth, both internal and through acquisitions, complete or execute share purchases of its common stock under authorized share purchase programs, pay dividends and meet working capital needs. As a non-asset based provider of transportation services and supply chain solutions, the Company's annual capital requirements for operating property are generally for trailing equipment and information technology hardware and software. In addition, a significant portion of the trailing equipment used by the Company is provided by third party capacity providers, thereby reducing the Company's capital requirements. During the 2011 twenty-six-week period, the Company purchased \$2,829,000 of operating property and acquired \$1,515,000 of trailing equipment by entering into capital leases. Landstar anticipates purchasing approximately \$39,000,000 in operating property, primarily new trailing equipment to replace older trailing equipment and information technology equipment, during the remainder of fiscal year 2011 either by purchase or lease financing.

Management believes that cash flow from operations combined with the Company's borrowing capacity under the Credit Agreement will be adequate to meet Landstar's debt service requirements, fund continued growth, both internal and through acquisitions, pay dividends, complete the authorized share purchase programs and meet working capital needs.

LEGAL MATTERS

As further described in periodic and current reports previously filed by the Company with the Securities and Exchange Commission (the SEC), the Company and certain of its subsidiaries (the Defendants) are defendants in a suit (the Litigation) brought in the United States District Court for the Middle District of Florida (the District Court) by the Owner-Operator Independent Drivers Association, Inc. (OOIDA) and four former BCO Independent Contractors (the Named Plaintiffs and, with OOIDA, the Plaintiffs) on behalf of all independent contractors who provide truck capacity to the Company and its subsidiaries under exclusive lease arrangements (the BCO Independent Contractors). The Plaintiffs allege that certain aspects of the Company's motor carrier leases and related practices with its BCO Independent Contractors violate certain federal leasing regulations and seek injunctive relief, an unspecified amount of damages and attorneys' fees.

Table of Contents

On March 29, 2007, the District Court denied the request by Plaintiffs for injunctive relief, entered a judgment in favor of the Defendants and issued written orders setting forth its rulings related to the decertification of the plaintiff class and other important elements of the Litigation relating to liability, injunctive relief and monetary relief. The Plaintiffs filed an appeal with the United States Court of Appeals for the Eleventh Circuit (the Appellate Court) of certain of the District Court's rulings in favor of the Defendants. The Defendants asked the Appellate Court to affirm such rulings and filed a cross-appeal with the Appellate Court with respect to certain other rulings of the District Court. On September 3, 2008, the Appellate Court issued its initial ruling. Each of the parties to the Litigation subsequently filed a petition with the Appellate Court seeking rehearing of the Appellate Court's ruling.

On October 4, 2010, the Appellate Court denied each of the motions for rehearing, withdrew its initial ruling and substituted a new ruling in its place. The new ruling by the Appellate Court confirmed the absence of any violations alleged by the Plaintiffs of the federal leasing regulations with respect to the written terms of all leases currently in use between the Defendants and BCO Independent Contractors. In particular, the new ruling, among other things, held that (i) the Defendants are not prohibited by the applicable federal leasing regulations from charging administrative or other fees to BCO Independent Contractors in connection with voluntary programs offered by the Defendants through which a BCO Independent Contractor may purchase discounted products and services for a charge that is deducted against the compensation payable to the BCO Independent Contractor (a Charge-back Deduction), (ii) in the case of a Charge-back Deduction expressed as a flat-fee in the lease, the applicable federal leasing regulations do not require Defendants to do more than disclose the flat-fee Charge-back Deduction in the lease and follow up with settlement statements that explain the final amount charged back, (iii) the Plaintiffs are not entitled to restitution or disgorgement with respect to violations by Defendants of the applicable federal leasing regulations but instead may recover only actual damages, if any, which they sustained as a result of any such violations and (iv) the claims of BCO Independent Contractors may not be handled on a class action basis for purposes of determining the amount of actual damages, if any, they sustained as a result of any violations.

However, the new ruling of the Appellate Court reversed the District Court's ruling that an old version of the lease formerly used by Defendants but not in use with any current BCO Independent Contractor complied with applicable disclosure requirements under the federal leasing regulations with respect to adjustments to compensation payable to BCO Independent Contractors on certain loads sourced from the U. S. Department of Defense. The Appellate Court then remanded the case to the District Court to permit the Plaintiffs to seek injunctive relief with respect to this violation of the federal leasing regulations and to hold an evidentiary hearing to give the Named Plaintiffs an opportunity to produce evidence of any damages they actually sustained as a result of such violation.

On March 8, 2011, the Plaintiffs filed a petition with the United States Supreme Court to seek to further appeal certain portions of the Appellate Court's October 4, 2010 ruling. On March 23, 2011, the Plaintiffs requested that the United States Supreme Court consolidate such petition with a petition OOIDA subsequently filed to seek to further appeal a decision of the United States Court of Appeals for the Ninth Circuit on January 20, 2011, in a case not otherwise involving the Company, *Owner-Operator Indep. Drivers Ass'n, Inc., et al v. Swift Transp. Co., Inc.*

Although no assurances can be given with respect to the outcome of the Litigation, including the March 8, 2011 petition to the United States Supreme Court and any possible award of attorneys' fees to the Plaintiffs, the Company believes that (i) no Plaintiff has sustained any actual damages as a result of any violations by the Defendants of the federal leasing regulations and (ii) injunctive relief, if any, that may be granted by the District Court on remand is unlikely to have a material adverse financial effect on the Company.

In June 2011, Landstar System, Inc. received a Civil Investigative Demand (the CID) from the United States Attorney for the Western District of Kentucky issued pursuant to the False Claims Act. The CID requests documents and written interrogatories limited to freight hauled to or from Fort Campbell, Kentucky by certain subsidiaries of the Company and billed to the U.S. government. The Company has been and continues to cooperate fully with this request.

The Company is involved in certain claims and pending litigation, including those described herein, arising from the normal conduct of business. Based on knowledge of the facts and, in certain cases, opinions of outside counsel, management believes that adequate provisions have been made for probable losses with respect to the resolution of all such claims and pending litigation and that the ultimate outcome, after provisions therefor, will not have a material adverse effect on the financial condition of the Company, but could have a material effect on the results of operations in a given quarter or year.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The allowance for doubtful accounts for both trade and other receivables represents management's estimate of the amount of outstanding receivables that will not be collected. Historically, management's estimates for uncollectible receivables have been materially

Table of Contents

correct. Although management believes the amount of the allowance for both trade and other receivables at June 25, 2011 is appropriate, a prolonged period of low or no economic growth may adversely affect the collection of these receivables. Conversely, a more robust economic environment may result in the realization of some portion of the estimated uncollectible receivables.

Landstar provides for the estimated costs of self-insured claims primarily on an actuarial basis. The amount recorded for the estimated liability for claims incurred is based upon the facts and circumstances known on the applicable balance sheet date. The ultimate resolution of these claims may be for an amount greater or less than the amount estimated by management. The Company continually revises its existing claim estimates as new or revised information becomes available on the status of each claim. Historically, the Company has experienced both favorable and unfavorable development of prior years' claims estimates. During the 2011 and 2010 twenty-six-week periods, insurance and claims costs included \$1,070,000 and \$170,000, respectively, of unfavorable adjustments to prior years' claims estimates. It is reasonably likely that the ultimate outcome of settling all outstanding claims will be more or less than the estimated claims reserve at June 25, 2011.

The Company utilizes certain income tax planning strategies to reduce its overall cost of income taxes. Upon audit, it is possible that certain strategies might be disallowed resulting in an increased liability for income taxes. Certain of these tax planning strategies result in a level of uncertainty as to whether the related tax positions taken by the Company would result in a recognizable benefit. The Company has provided for its estimated exposure attributable to such tax positions due to the corresponding level of uncertainty with respect to the amount of income tax benefit that may ultimately be realized. Management believes that the provision for liabilities resulting from the uncertainty in certain income tax positions is appropriate. To date, the Company has not experienced an examination by governmental revenue authorities that would lead management to believe that the Company's past provisions for exposures related to the uncertainty of such income tax positions are not appropriate.

The Company tests for impairment of goodwill at least annually, typically in the fourth quarter, based on a two-step impairment test. The first step compares the fair value of each reporting unit with its carrying amount, including goodwill. Fair value of each reporting unit is estimated using a discounted cash flow model and market approach. The model includes a number of significant assumptions and estimates including future cash flows and discount rates. If the carrying amount exceeds fair value under the first step of the impairment test, then the second step is performed to measure the amount of any impairment loss. Only the first step of the impairment test was required in 2010 as the estimated fair value of the reporting units significantly exceeded carrying value.

Significant variances from management's estimates for the amount of uncollectible receivables, the ultimate resolution of self-insured claims, the provision for uncertainty in income tax positions and impairment of goodwill can all be expected to positively or negatively affect Landstar's earnings in a given quarter or year. However, management believes that the ultimate resolution of these items, given a range of reasonably likely outcomes, will not significantly affect the long-term financial condition of Landstar or its ability to fund its continuing operations.

EFFECTS OF INFLATION

Management does not believe inflation has had a material impact on the results of operations or financial condition of Landstar in the past five years. However, inflation in excess of historic trends might have an adverse effect on the Company's results of operations.

SEASONALITY

Landstar's operations are subject to seasonal trends common to the trucking industry. Results of operations for the quarter ending in March are typically lower than the quarters ending June, September and December.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to changes in interest rates as a result of its financing activities, primarily its borrowings on the revolving credit facility, and investing activities with respect to investments held by the insurance segment.

On June 27, 2008, Landstar entered into a credit agreement with a syndicate of banks and JPMorgan Chase Bank, N.A., as administrative agent (the Credit Agreement). The Credit Agreement, which expires on June 27, 2013, provides \$225,000,000 of borrowing capacity in the form of a revolving credit facility, \$75,000,000 of which may be utilized in the form of letter of credit guarantees.

Table of Contents

Borrowings under the Credit Agreement bear interest at rates equal to, at the option of the Company, either (i) the greater of (a) the prime rate as publicly announced from time to time by JPMorgan Chase Bank, N.A. and (b) the federal funds effective rate plus .5%, or, (ii) the rate at the time offered to JPMorgan Chase Bank, N.A. in the Eurodollar market for amounts and periods comparable to the relevant loan plus, in either case, a margin that is determined based on the level of the Company's Leverage Ratio, as defined in the Credit Agreement. As of June 25, 2011 and December 25, 2010, the weighted average interest rates on borrowings outstanding were 1.07% and 1.14%, respectively. During the second quarter of 2011, the average outstanding balance under the Credit Agreement was approximately \$93,340,000. Assuming that debt levels on the Credit Agreement remain at \$80,000,000, the balance at June 25, 2011, a hypothetical increase of 100 basis points in current rates provided for under the Credit Agreement is estimated to result in an increase in interest expense of \$800,000 on an annualized basis. Based on the borrowing rates in the Credit Agreement and the repayment terms, the fair value of the outstanding borrowings as of June 25, 2011 was estimated to approximate carrying value.

Long-term investments, all of which are available-for-sale and are carried at fair value, include investment-grade bonds and mortgage-backed securities having maturities of up to five years. Assuming that the long-term portion of investments remains at \$42,091,000, the balance at June 25, 2011, a hypothetical increase or decrease in interest rates of 100 basis points would not have a material impact on future earnings on an annualized basis. Short-term investments include short-term investment-grade instruments and the current maturities of investment-grade bonds and mortgage-backed securities. Accordingly, any future interest rate risk on these short-term investments would not be material.

Assets and liabilities of the Company's Canadian operations are translated from their functional currency to U.S. dollars using exchange rates in effect at the balance sheet date and revenue and expense accounts are translated at average monthly exchange rates during the period. Adjustments resulting from the translation process are included in accumulated other comprehensive income. Transactional gains and losses arising from receivable and payable balances, including intercompany balances, in the normal course of business that are denominated in a currency other than the functional currency of the operation are recorded in the statements of income when they occur. The net assets held at the Company's Canadian subsidiary at June 25, 2011 were, as translated to U.S. dollars, less than 1% of total consolidated net assets. Accordingly, any translation gain or loss related to the Canadian operation would not be material.

Item 4. Controls and Procedures

As of the end of the period covered by this quarterly report on Form 10-Q, an evaluation was carried out, under the supervision and with the participation of the Company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended). Based on that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of June 25, 2011, to provide reasonable assurance that information required to be disclosed by the Company in reports that it filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

There were no significant changes in the Company's internal controls over financial reporting during the Company's fiscal quarter ended June 25, 2011 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

In designing and evaluating controls and procedures, Company management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Because of the inherent limitation in any control system, no evaluation or implementation of a control system can provide complete assurance that all control issues and all possible instances of fraud have been or will be detected.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

As further described in periodic and current reports previously filed by the Company with the Securities and Exchange Commission (the SEC), the Company and certain of its subsidiaries (the Defendants) are defendants in a suit (the Litigation) brought in the United

Table of Contents

States District Court for the Middle District of Florida (the District Court) by the Owner-Operator Independent Drivers Association, Inc. (OOIDA) and four former BCO Independent Contractors (the Named Plaintiffs and, with OOIDA, the Plaintiffs) on behalf of all independent contractors who provide truck capacity to the Company and its subsidiaries under exclusive lease arrangements (the BCO Independent Contractors). The Plaintiffs allege that certain aspects of the Company s motor carrier leases and related practices with its BCO Independent Contractors violate certain federal leasing regulations and seek injunctive relief, an unspecified amount of damages and attorneys fees.

On March 29, 2007, the District Court denied the request by Plaintiffs for injunctive relief, entered a judgment in favor of the Defendants and issued written orders setting forth its rulings related to the decertification of the plaintiff class and other important elements of the Litigation relating to liability, injunctive relief and monetary relief. The Plaintiffs filed an appeal with the United States Court of Appeals for the Eleventh Circuit (the Appellate Court) of certain of the District Court s rulings in favor of the Defendants. The Defendants asked the Appellate Court to affirm such rulings and filed a cross-appeal with the Appellate Court with respect to certain other rulings of the District Court. On September 3, 2008, the Appellate Court issued its initial ruling. Each of the parties to the Litigation subsequently filed a petition with the Appellate Court seeking rehearing of the Appellate Court s ruling.

On October 4, 2010, the Appellate Court denied each of the motions for rehearing, withdrew its initial ruling and substituted a new ruling in its place. The new ruling by the Appellate Court confirmed the absence of any violations alleged by the Plaintiffs of the federal leasing regulations with respect to the written terms of all leases currently in use between the Defendants and BCO Independent Contractors. In particular, the new ruling, among other things, held that (i) the Defendants are not prohibited by the applicable federal leasing regulations from charging administrative or other fees to BCO Independent Contractors in connection with voluntary programs offered by the Defendants through which a BCO Independent Contractor may purchase discounted products and services for a charge that is deducted against the compensation payable to the BCO Independent Contractor (a Charge-back Deduction), (ii) in the case of a Charge-back Deduction expressed as a flat-fee in the lease, the applicable federal leasing regulations do not require Defendants to do more than disclose the flat-fee Charge-back Deduction in the lease and follow up with settlement statements that explain the final amount charged back, (iii) the Plaintiffs are not entitled to restitution or disgorgement with respect to violations by Defendants of the applicable federal leasing regulations but instead may recover only actual damages, if any, which they sustained as a result of any such violations and (iv) the claims of BCO Independent Contractors may not be handled on a class action basis for purposes of determining the amount of actual damages, if any, they sustained as a result of any violations.

However, the new ruling of the Appellate Court reversed the District Court s ruling that an old version of the lease formerly used by Defendants but not in use with any current BCO Independent Contractor complied with applicable disclosure requirements under the federal leasing regulations with respect to adjustments to compensation payable to BCO Independent Contractors on certain loads sourced from the U. S. Department of Defense. The Appellate Court then remanded the case to the District Court to permit the Plaintiffs to seek injunctive relief with respect to this violation of the federal leasing regulations and to hold an evidentiary hearing to give the Named Plaintiffs an opportunity to produce evidence of any damages they actually sustained as a result of such violation.

On March 8, 2011, the Plaintiffs filed a petition with the United States Supreme Court to seek to further appeal certain portions of the Appellate Court s October 4, 2010 ruling. On March 23, 2011, the Plaintiffs requested that the United States Supreme Court consolidate such petition with a petition OOIDA subsequently filed to seek to further appeal a decision of the United States Court of Appeals for the Ninth Circuit on January 20, 2011, in a case not otherwise involving the Company, *Owner-Operator Indep. Drivers Ass n, Inc., et al v. Swift Transp. Co., Inc.*

Although no assurances can be given with respect to the outcome of the Litigation, including the March 8, 2011 petition to the United States Supreme Court and any possible award of attorneys fees to the Plaintiffs, the Company believes that (i) no Plaintiff has sustained any actual damages as a result of any violations by the Defendants of the federal leasing regulations and (ii) injunctive relief, if any, that may be granted by the District Court on remand is unlikely to have a material adverse financial effect on the Company.

In June 2011, Landstar System, Inc. received a Civil Investigative Demand (the CID) from the United States Attorney for the Western District of Kentucky issued pursuant to the False Claims Act. The CID requests documents and written interrogatories limited to freight hauled to or from Fort Campbell, Kentucky by certain subsidiaries of the Company and billed to the U.S. government. The Company has been and continues to cooperate fully with this request.

The Company is involved in certain claims and pending litigation, including those described herein, arising from the normal conduct of business. Based on knowledge of the facts and, in certain cases, opinions of outside counsel, management believes that adequate provisions have been made for probable losses with respect to the resolution of all such claims and pending litigation and that the ultimate outcome, after provisions therefor, will not have a material adverse effect on the financial condition of the Company, but could have a material effect on the results of operations in a given quarter or year.

Table of Contents**Item 1A. Risk Factors**

For a discussion identifying risk factors and other important factors that could cause actual results to differ materially from those anticipated, see the discussions under Part I, Item 1A, Risk Factors in the Company's Annual Report on Form 10-K for the fiscal year ended December 25, 2010, and in Management's Discussion and Analysis of Financial Condition and Results of Operations and Notes to Consolidated Financial Statements in this Quarterly Report on Form 10-Q.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**Purchases of Equity Securities by the Company**

The following table provides information regarding the Company's purchases of its Common Stock during the period from March 27, 2011 to June 25, 2011, the Company's second fiscal quarter:

Fiscal Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares That May Yet Be Purchased Under the Program
March 26, 2011				722,662
March 27, 2011 April 23, 2011		\$		722,662
April 24, 2011 May 21, 2011	196,693	47.11	196,693	525,969
May 22, 2011 June 25, 2011				525,969
Total	196,693	\$ 47.11	196,693	

On August 23, 2010, Landstar System, Inc. announced that it had been authorized by its Board of Directors to purchase up to 2,000,000 shares of its common stock from time to time in the open market and in privately negotiated transactions. As of June 25, 2011, the Company may purchase 525,969 shares of its common stock under this authorization. No specific expiration date has been assigned to the August 23, 2010 authorization.

During the twenty-six-week period ended June 25, 2011, Landstar paid dividends as follows:

Dividend Amount per Share	Declaration Date	Record Date	Payment Date
\$ 0.05	January 25, 2011	February 14, 2011	March 11, 2011
\$ 0.05	April 20, 2011	May 5, 2011	May 27, 2011

On June 27, 2008, Landstar entered into a credit agreement with a syndicate of banks and JPMorgan Chase Bank, N.A., as administrative agent (the Credit Agreement). The Credit Agreement provides for a restriction on cash dividends and other distributions to stockholders on the Company's capital stock to the extent there is a default under the Credit Agreement. In addition, the Credit Agreement, under certain circumstances, limits the amount of such cash dividends and other distributions to stockholders in the event that, after giving effect to any payment made to effect such cash dividend or other distribution, the Leverage Ratio would exceed 2.5 to 1 on a pro forma basis as of the end of the Company's most recently completed fiscal quarter.
