**Notes to Consolidated Financial Statements**

**(Unaudited)**

**1. BASIS OF PRESENTATION**

References to Brinker, the Company, we, us and our in this Form 10-Q are references to Brinker International, Inc. and its subsidiaries and predecessor companies of Brinker International, Inc.

Our consolidated financial statements as of March 28, 2012 and June 29, 2011 and for the thirteen week and thirty-nine week periods ended March 28, 2012 and March 30, 2011 have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). We are principally engaged in the ownership, operation, development, and franchising of the Chili's Grill & Bar (Chili's) and Maggiano's Little Italy (Maggiano's) restaurant brands. At March 28, 2012, we owned, operated or franchised 1,574 restaurants in the United States and 31 countries and two territories outside of the United States.

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and costs and expenses during the reporting period. Actual results could differ from those estimates.

The information furnished herein reflects all adjustments (consisting only of normal recurring accruals and adjustments) which are, in our opinion, necessary to fairly state the interim operating results for the respective periods. However, these operating results are not necessarily indicative of the results expected for the full fiscal year. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to SEC rules and regulations. The notes to the consolidated financial statements (unaudited) should be read in conjunction with the notes to the consolidated financial statements contained in the June 29, 2011 Form 10-K. We believe the disclosures are sufficient for interim financial reporting purposes.

**Table of Contents****2. EARNINGS PER SHARE**

Basic earnings per share is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the reporting period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. For the calculation of diluted earnings per share, the basic weighted average number of shares is increased by the dilutive effect of stock options and restricted share awards determined using the treasury stock method. We had approximately 628,000 stock options and restricted share awards outstanding at March 28, 2012 and 1.7 million stock options and restricted share awards outstanding at March 30, 2011 that were not included in the dilutive earnings per share calculation because the effect would have been anti-dilutive.

**3. FAIR VALUE MEASUREMENTS**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. In determining fair value, the accounting standards establish a three level hierarchy for inputs used in measuring fair value, as follows:

Level 1 inputs are quoted prices in active markets for identical assets or liabilities.

Level 2 inputs are observable for the asset or liability, either directly or indirectly, including quoted prices in active markets for similar assets or liabilities.

Level 3 inputs are unobservable and reflect our own assumptions.

**(a) Non-Financial Assets Measured on a Non-Recurring Basis**

During fiscal 2012, ten underperforming restaurants with a carrying value of \$1.5 million were written down to their fair value of \$0.4 million resulting in an impairment charge of \$1.1 million, which was included in other gains and charges in the consolidated statement of income for the period. During fiscal 2011, two underperforming restaurants with a carrying value of \$1.4 million were written down to their fair value of \$0.3 million resulting in an impairment charge of \$1.1 million, which was included in other gains and charges in the consolidated statement of income for the period. We determined fair value based on projected discounted future operating cash flows of the restaurants over their remaining service life using a risk adjusted discount rate that is commensurate with the risk inherent in our current business model.

The following table presents fair values for those assets measured at fair value on a non-recurring basis at March 28, 2012 and March 30, 2011 (in thousands):

	Fair Value Measurements Using			
	Level 1	Level 2	Level 3	Total
Long-lived assets held for use				
At March 28, 2012	\$ 0	\$ 0	\$ 369	\$ 369
At March 30, 2011	\$ 0	\$ 0	\$ 255	\$ 255

**Table of Contents****(b) Other Financial Instruments**

Our financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and long-term debt. The fair value of cash and cash equivalents, accounts receivable and accounts payable approximates their carrying amounts while the fair value of the 5.75% notes is based on quoted market prices. At March 28, 2012, the 5.75% notes had a carrying value of \$289.7 million and a fair value of \$307.4 million. At June 29, 2011, the 5.75% notes had a carrying value of \$289.6 million and a fair value of \$308.1 million.

**4. LONG-TERM DEBT**

Long-term debt consists of the following (in thousands):

	March 28, 2012	June 29, 2011
Term loan	\$ 243,750	\$ 185,000
5.75% notes	289,671	289,557
Capital lease obligations	48,538	50,106
	581,959	524,663
Less current installments	(27,272)	(22,091)
	\$ 554,687	\$ 502,572

In August 2011, we executed a revised unsecured senior credit facility increasing the total capacity from \$400 million to \$500 million. The maturity date of the revised facility is August 2016. The facility includes a \$250 million revolver and a \$250 million term loan. The revised term loan and revolving credit facility bear interest of LIBOR plus an applicable margin, which is a function of our credit rating and debt to cash flow ratio, but is subject to a maximum of LIBOR plus 2.50%. Based on our current credit rating, we are paying interest at a rate of LIBOR plus 1.63%. One month LIBOR at March 28, 2012 was approximately 0.24%. We also expensed \$0.4 million of debt issuance costs associated with the initial borrowing due to changes in the composition and lending allocation within the bank syndicate. As of March 28, 2012, \$250 million was available under our revolving credit facility. In April 2012, we borrowed \$40 million from the revolver to fund share repurchases.

**5. OTHER GAINS AND CHARGES**

Other gains and charges consist of the following (in thousands):

	Thirteen Week Periods Ended		Thirty-Nine Week Periods Ended	
	March 28, 2012	March 30, 2011	March 28, 2012	March 30, 2011
Restaurant impairment charges	\$ 0	\$ 0	\$ 1,098	\$ 1,125
Restaurant closure charges	1,032	160	4,154	2,698
Severance and other benefits	0	990	100	4,643
Gains on the sale of assets, net	(25)	(363)	(1,365)	(1,539)
Other gains and charges, net	(1,111)	1,637	1,627	1,391
	\$ (104)	\$ 2,424	\$ 5,614	\$ 8,318

We recorded impairment charges of \$1.1 million in fiscal 2012 and 2011, respectively. The impairment charges, which were associated with underperforming restaurants that continue to operate, were measured as the excess of the carrying amount of property and equipment over the fair value. See Note 3 for fair value disclosures related to the fiscal 2012 charges.

## **Table of Contents**

During the first three quarters of fiscal 2012, we recorded \$4.2 million in restaurant closure charges, consisting primarily of \$3.2 million in lease termination charges associated with restaurants closed in prior years and \$0.4 million related to long-lived asset impairments resulting from closures.

Additionally, we recorded \$1.3 million in net charges related to legal matters in the first three quarters of fiscal 2012. Gains of approximately \$1.1 million were recorded in the third quarter related to the resolution of issues reserved for in prior years and charges of approximately \$2.4 million were recorded in the second quarter. We also recorded net year-to-date gains of \$1.4 million primarily related to land sales.

During the first three quarters of fiscal 2011, we recorded \$2.7 million in restaurant closure charges, consisting primarily of \$1.8 million in lease termination charges associated with restaurants closed in prior years and \$0.6 million related to long-lived asset impairments associated with two restaurant closures.

Additionally, we incurred \$4.6 million in severance and other benefits during fiscal 2011 resulting from organizational changes and \$1.4 million in net charges primarily relating to legal matters, partially offset by net year-to-date gains totaling \$1.5 million primarily related to land sales.

## **6. SHAREHOLDERS EQUITY**

Our Board of Directors has authorized a total of \$2,885.0 million of share repurchases. We repurchased approximately 8.4 million shares of our common stock for \$208.3 million during the first three quarters of fiscal 2012. As of March 28, 2012, approximately \$239 million was available under our share repurchase authorizations. Our stock repurchase plan has been and will be used to return capital to shareholders and to minimize the dilutive impact of stock options and other share-based awards. In the future, we may consider additional share repurchases under our plan based on several factors, including our cash position, share price, operational liquidity, proceeds from divestitures and planned investment and financing needs. During the first three quarters of fiscal 2012, approximately 1.3 million stock options were exercised resulting in cash proceeds of \$27.9 million. Repurchased common stock is reflected as a reduction of shareholders equity.

During the first three quarters of fiscal 2012, we paid dividends of \$37.9 million to common stock shareholders, compared to \$41.0 million in the prior year. Our Board of Directors approved a 14 percent increase in the quarterly dividend from \$0.14 to \$0.16 per share effective with the September 2011 dividend which was declared in August 2011. Additionally, we declared a quarterly dividend of \$12.2 million in February 2012 to be paid on March 29, 2012.

**Table of Contents****7. SUPPLEMENTAL CASH FLOW INFORMATION**

Cash paid for income taxes and interest for the first three quarters of fiscal 2012 and 2011 are as follows (in thousands):

	<b>March 28, 2012</b>	<b>March 30, 2011</b>
Income taxes, net of refunds	\$ 27,264	\$ 29,002
Interest, net of amounts capitalized	14,073	15,248

Non-cash investing activities for the first three quarters of fiscal 2012 and 2011 are as follows (in thousands):

	<b>March 28, 2012</b>	<b>March 30, 2011</b>
Retirement of fully depreciated assets	\$ 68,184	\$ 50,856

**8. CONTINGENCIES**

In connection with the sale of restaurants to franchisees and brand divestitures, we have, in certain cases, guaranteed lease payments. As of March 28, 2012 and June 29, 2011, we have outstanding lease guarantees or are secondarily liable for \$151.2 million and \$166.1 million, respectively. This amount represents the maximum potential liability of future payments under the guarantees. These leases have been assigned to the buyers and expire at the end of the respective lease terms, which range from fiscal 2012 through fiscal 2023. In the event of default, the indemnity and default clauses in our assignment agreements govern our ability to pursue and recover damages incurred. No material liabilities have been recorded as of March 28, 2012.

In August 2004, certain current and former hourly restaurant team members filed a putative class action lawsuit against us in California Superior Court alleging violations of California labor laws with respect to meal periods and rest breaks. The lawsuit sought penalties and attorney's fees and was certified as a class action by the trial court in July 2006. In July 2008, the California Court of Appeal decertified the class action on all claims with prejudice. In October 2008, the California Supreme Court granted a writ to review the decision of the Court of Appeal and oral arguments were heard by the California Supreme Court on November 8, 2011. On April 12, 2012, the California Supreme Court issued an opinion affirming in part, reversing in part, and remanding in part for further proceedings. The California Supreme Court's opinion resolved many of the legal standards for meal periods and rest breaks in our California restaurants and we intend to vigorously defend our position on the remaining issues upon remand to the trial court. It is not possible at this time to reasonably estimate the possible loss or range of loss, if any.

We are engaged in various other legal proceedings and have certain unresolved claims pending. Reserves have been established based on our best estimates of our potential liability in certain of these matters. Based upon consultation with legal counsel, Management is of the opinion that there are no matters pending or threatened which are expected to have a material adverse effect, individually or in the aggregate, on our consolidated financial condition or results of operations.

### **GENERAL**

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ( MD&A ) is intended to help the reader understand Brinker International, our operations, and our current operating environment. For an understanding of the significant factors that influenced our performance during the quarters ended March 28, 2012 and March 30, 2011, the MD&A should be read in conjunction with the consolidated financial statements and related notes included in this quarterly report.

### **OVERVIEW**

We are principally engaged in the ownership, operation, development, and franchising of the Chili's Grill & Bar ( Chili's ) and Maggiano's Little Italy ( Maggiano's ) restaurant brands. At March 28, 2012, we owned, operated, or franchised 1,574 restaurants.

We are committed to strategies and initiatives that are centered on long-term sales and profit growth, enhancing the guest experience and team member engagement. These strategies are intended to differentiate our brands from the competition, reduce the costs associated with managing our restaurants and establish a strong presence for our brands in key markets around the world. Key economic factors such as total employment, consumer confidence and spending levels continued to improve in the third quarter; however, the economy remains suppressed. We will continue to take actions that will allow us to maintain a strong balance sheet and increase our ability to provide results in all operating environments.

Our current initiatives are designed to drive profitable sales growth and improve the guest experience in our restaurants. We have implemented a team service model at Chili's which has resulted in labor efficiencies and positive guest feedback. Additional labor savings were achieved through improved food preparation procedures, a component of our kitchen retrofit initiative which was implemented last year. Another component of this initiative is the modification of our kitchens to include improved technology and equipment to provide a more consistent, high quality product at a faster pace, while generating significant labor cost savings. We expect to complete the installation of this equipment in a substantial number of Chili's restaurants in fiscal 2012. We are also implementing new restaurant information systems which we anticipate will increase profits through increased kitchen efficiency and better inventory control. In addition to executing these operational strategies, we have repurchased shares of our common stock in order to return value to our shareholders and executed a revision to our credit facility to increase our financial flexibility while taking advantage of more favorable interest rates. We believe that the successful implementation of these operational and financial initiatives will help drive sales growth and operational efficiency while strengthening our competitive advantage and enhancing shareholder value.

In addition to these cost saving initiatives, we are also driving strategic initiatives that will further enhance sales and guest traffic. We continually evaluate our menu at Chili's to improve quality, freshness and value by introducing new items and improving existing favorites. We recently reconfigured the lighter choices section of our menu by adding new items that are available at both lunch and dinner. We have refined our value offerings in both dayparts, including the addition of new items to our lunch combo platform to improve the pace of service. Additionally, we have recently enhanced our steak offerings, resulting in higher guest preference in this section of the menu. We believe these changes will further enhance sales and drive incremental traffic. We will continue to utilize value offerings as a tool to drive incremental sales; however, this is only one aspect of our overall sales strategy. We are committed to offering a compelling everyday menu that provides items our guests prefer at a solid value. We are remodeling a significant number of company-owned restaurants in fiscal 2012, revitalizing Chili's in a way which enhances the relevance of the brand and raises guest expectations

regarding the quality of the experience. Improvements at Chili's will have the most significant impact on the business; however, our results will also benefit through additional contributions from Maggiano's and our global business. Maggiano's sales trends continue to improve, driven by offering guests a great value with Classic Pasta, the new Marco's Meal offering, new menu items and direct marketing. We believe our unique food and signature drinks, improved service and updated atmospheres will result in stronger brands and sustainable sales and profit growth through increased guest loyalty and traffic.

Global expansion allows further diversification which will enable us to build strength in a variety of markets and economic conditions. This expansion will come through franchise relationships, joint venture arrangements and equity investments, taking advantage of demographic and eating trends which we believe will accelerate in the international market over the next decade. Our growing percentage of franchise operations both domestically and internationally enable us to improve margins as royalty payments impact the bottom line.

The casual dining industry is a competitive business which is sensitive to changes in economic conditions, trends in lifestyles and fluctuating costs. Our priority remains increasing profitable growth over time. We believe that this focus, combined with discipline around the use of capital and efficient management of operating expenses, will enable us to maintain our position as an industry leader. We remain confident in the financial health of our company, the long-term prospects of the industry as well as our ability to perform effectively in a competitive marketplace and a variety of economic environments.

## REVENUES

Revenues for the third quarter of fiscal 2012 increased to \$742.0 million, a 3.5% increase from the \$717.1 million generated for the same quarter of fiscal 2011. Revenues for the thirty-nine week period ended March 28, 2012 were \$2,092.4 million, a 2.4% increase from the \$2,043.9 million generated for the same period in fiscal 2011. The increase in revenue was primarily attributable to an increase in comparable restaurant sales. This increase was partially offset by a \$5.2 million reduction in revenues resulting from a change in the estimate of gift card breakage due to an increase in gift card redemption experience recorded in the third quarter of fiscal 2012. This adjustment reduced diluted earnings per share by four cents. Comparable restaurant sales were not impacted. Comparable restaurant sales for the third quarter and year-to-date periods are as follows:

- (1) Revenues generated by franchisees are not included in revenues on the consolidated statements of income; however, we generate royalty revenue and advertising fees based on franchise sales, where applicable. We believe including franchise comparable restaurant sales provides investors information regarding brand performance that is relevant to current operations and may impact future restaurant development.
- (2) System-wide comparable restaurant sales are derived from sales generated by company-owned Chili s and Maggiano s restaurants in addition to the sales generated at franchisee operated restaurants.

## **Table of Contents**

Chili's revenues increased 3.5% to \$629.9 million in the third quarter of fiscal 2012 from \$608.4 million in the prior year primarily driven by an increase in comparable restaurant sales of 4.6% resulting from favorable menu prices and improved guest traffic. For the year-to-date period, Chili's revenues increased 2.2% to \$1,751.7 million from \$1,714.5 million in fiscal 2011 driven by an increase in comparable restaurant sales of 2.7% resulting from improved guest traffic and favorable menu prices, partially offset by unfavorable product mix shifts. These increases were partially offset by a \$4.5 million reduction related to the gift card breakage adjustment recorded in the third quarter.

Maggiano's revenues increased 3.4% to \$94.7 million in the third quarter of fiscal 2012 from \$91.6 million in the same quarter of fiscal 2011. For the year-to-date period, Maggiano's revenues increased 3.4% to \$290.9 million from \$281.2 million in fiscal 2011. The increase in revenue was driven by comparable restaurant sales increases of 3.9% and 3.4% for the third quarter and year-to-date periods of fiscal 2012, respectively, resulting from favorable menu prices and improved traffic, partially offset by a \$0.7 million reduction related to the gift card breakage adjustment recorded in the third quarter.

Royalty and franchise revenues increased 1.8% to \$17.4 million in the third quarter of fiscal 2012 compared to \$17.1 million in the prior year. For the year-to-date period, royalty and franchise revenues increased 3.3% to \$49.8 million compared to \$48.2 million in fiscal 2011. The increase is primarily due to an increase in royalty revenues driven by the net addition of seven franchised restaurants since March 30, 2011. Royalty revenues are recognized based on the sales generated by our franchisees and reported to us. Our franchisees generated approximately \$415 million in sales for the third quarter of fiscal 2012, an increase of 3.5% over the prior year. For the year-to-date period, our franchisees generated approximately \$1,193 million in sales, an increase of 4.0% over prior year.

## **COSTS AND EXPENSES**

Cost of sales, as a percent of revenues, increased to 27.6% for the third quarter and 27.3% for the year-to-date periods of fiscal 2012 from 27.2% and 26.9% for the respective prior year periods. Cost of sales was negatively impacted in the current year by an increase in commodity pricing on beef, oils and dairy, partially offset by favorable menu pricing. Third quarter cost of sales as a percent of revenues was also negatively impacted by approximately 0.1% due to the gift card breakage adjustment to revenues.

Restaurant labor, as a percent of revenues, decreased to 31.5% for the third quarter of fiscal 2012 from 31.8% in the prior year and decreased to 31.7% for the year-to-date period from 32.2% in the prior year. The decrease was primarily driven by decreased hourly labor costs resulting from the rollout of new kitchen equipment, changes in the vacation policy and sales leverage related to higher revenue. Year-to-date restaurant labor was also positively impacted by lower hourly labor costs resulting from food preparation initiatives at Chili's as well as lower health insurance expenses. Third quarter restaurant labor as a percent of revenues was also negatively impacted by approximately 0.2% due to the gift card breakage adjustment to revenues. Restaurant labor includes all compensation-related expenses, including benefits and incentive compensation, for restaurant employees at the general manager level and below.

Restaurant expenses, as a percent of revenues, decreased to 22.1% for the third quarter of fiscal 2012 from 22.7% in the prior year and decreased to 23.4% for the year-to-date period from 24.0% in the prior year. The decrease was primarily driven by sales leverage on fixed costs related to higher revenue, lower repair and maintenance expenses, credit card fees, worker's compensation insurance expenses and utilities expenses. Third quarter restaurant expenses as a percent of revenues was also negatively impacted by approximately 0.1% due to the gift card breakage adjustment to revenues.

## **Table of Contents**

Depreciation and amortization decreased \$0.9 million for the third quarter of fiscal 2012 and \$3.6 million for the year-to-date period of fiscal 2012 compared to the same periods of the prior year primarily driven by fully depreciated assets and restaurant closures. These decreases were partially offset by an increase in depreciation due to asset replacements and investments in existing restaurants.

General and administrative expenses increased \$4.4 million for the third quarter primarily due to higher performance based compensation and a decrease in income resulting from the expiration of the transaction services agreements with Macaroni Grill and On The Border. General and administrative expenses increased \$7.0 million for the year-to-date period of fiscal 2012 as compared to the prior year primarily due to the impact of the expiration of the transaction services agreements mentioned above.

Other gains and charges in fiscal 2012 include charges of \$1.1 million related to the impairment of long-lived assets held for use associated with underperforming restaurants. Additionally, we incurred \$3.2 million in lease termination charges associated with restaurants closed in prior periods and \$0.4 million related to long-lived asset impairments resulting from closures. We also recorded \$1.3 million in net charges related to legal matters, partially offset by net year-to-date gains of \$1.4 million primarily related to land sales.

Other gains and charges in fiscal 2011 include charges of \$1.1 million related to the impairment of long-lived assets held for use associated with underperforming restaurants. Additionally, we incurred \$1.8 million in lease termination charges related to previously closed restaurants and a \$0.6 million charge related to long-lived asset impairments associated with two restaurant closures. We also incurred \$4.6 million in severance and other benefits resulting from organizational changes and \$1.4 million in net charges primarily related to legal matters, partially offset by net year-to-date gains totaling \$1.5 million primarily related to land sales.

Interest expense decreased to \$6.5 million for the third quarter of fiscal 2012 and \$20.1 million for the year-to-date period of fiscal 2012 compared to \$7.2 million and \$21.4 million for the respective prior year periods primarily driven by lower interest rates, partially offset by a \$0.4 million write-off of deferred financing fees related to the revision of the unsecured senior credit facility that was executed in August 2011.

## **INCOME TAXES**

The effective income tax rate increased to 28.2% for the third quarter compared to 27.5% in the prior year primarily due to increased earnings. The effective income tax rate increased to 28.8% for the year-to-date period compared to 22.5% in the prior year primarily due to the resolution of certain state tax positions resulting in a positive impact in the prior year as well as increased earnings in the current year.

**Table of Contents****LIQUIDITY AND CAPITAL RESOURCES****Cash Flows****Cash Flow from Operating Activities**

During the first three quarters of fiscal 2012, net cash flow provided by operating activities was \$233.8 million compared to \$188.2 million in the prior year. The increase was driven by significant changes in working capital during the prior fiscal year resulting primarily from the sale of On The Border. The On The Border sale negatively impacted cash paid for taxes in the prior year due to the gain realized on the transaction. Additionally, the settlement of liabilities and payment of transaction costs subsequent to the sale of On The Border negatively impacted prior year cash flow.

The working capital deficit increased to \$208.6 million at March 28, 2012 from a deficit of \$184.2 million at June 29, 2011 primarily due to treasury stock purchases, quarterly dividend payments, seasonal purchasing volume and the increase in current installments of long-term debt.

**Cash Flow from Investing Activities**

	<b>Thirty-Nine Week Periods Ended</b>	
	<b>March 28, 2012</b>	<b>March 30, 2011</b>
Net cash used in investing activities (in thousands):		
Payments for property and equipment	\$ (85,177)	\$ (48,892)

Investment in equity method investee	(1,083)	(1,921)
	<b>\$ (81,916)</b>	<b>\$ (42,117)</b>

Net cash used in investing activities for the first nine months of fiscal 2012 increased to approximately \$81.9 million compared to \$42.1 million in the prior year. Capital expenditures increased to \$85.2 million for the first nine months of fiscal 2012 compared to \$48.9 million for the same period of fiscal 2011. The increase in capital spending was primarily related to our kitchen retrofit initiative, the ongoing Chili's reimage program and purchases of new and replacement restaurant furniture and equipment. We estimate that our capital expenditures during fiscal 2012 will be approximately \$120 million and will be funded entirely by cash from operations.

**Table of Contents****Cash Flow from Financing Activities**

	Thirty-Nine Week Periods Ended	
	March 28, 2012	March 30, 2011
Net cash used in financing activities (in thousands):		
Purchases of treasury stock	\$ (208,347)	\$ (358,983)
Proceeds from issuance of long term debt	70,000	0
Payments of dividends	(37,850)	(40,996)

Payments on long-term debt	(12,187)	(10,846)
Other	(696)	243
	\$ (161,134)	\$ (383,731)

Net cash used in financing activities for the first nine months of fiscal 2012 decreased to approximately \$161.1 million compared to \$383.7 million in the prior year primarily due to lower spending on share repurchases and the \$70.0 million in proceeds received from the revised term loan in the first quarter.

We repurchased approximately 3.1 million shares of our common stock for \$82.7 million during the third quarter of fiscal 2012 and a total of 8.4 million shares for approximately \$208.3 million year-to-date. Subsequent to the end of the quarter, we repurchased approximately 1.4 million shares for \$39.0 million.

In August 2011, we executed a revised unsecured senior credit facility increasing total capacity from \$400 million to \$500 million. The maturity date of the revised credit facility is August 2016. The revised facility includes a \$250 million revolver and a \$250 million term loan. In connection with the revision of the facility, we increased the term loan borrowings by \$70.0 million. The revised term loan and revolving credit facility bears interest at LIBOR plus an applicable margin, which is a function of our credit rating and debt to cash flow ratio, but is subject to a maximum of LIBOR plus 2.50%. Based on our current credit rating, we are paying interest at a rate of LIBOR plus 1.63%. One month LIBOR at March 28, 2012 was approximately 0.24%.

During the first nine months of fiscal 2012, no funds were drawn from the revolving credit facility; however, \$40 million was drawn from the revolver in April 2012 to fund share repurchases. As of March 28, 2012, we were in compliance with all financial debt covenants.

As of March 28, 2012, our credit rating by Standard and Poor's (S&P) was BBB- (investment grade) with a stable outlook. Our corporate family rating by Moody's was Ba1 (non-investment grade) and our senior unsecured rating was Ba2 (non-investment grade) with a stable outlook. Our goal is to retain our investment grade rating from S&P and ultimately regain our investment grade rating from Moody's.

We paid dividends of \$37.9 million to common stock shareholders in the first nine months of fiscal 2012 compared to \$41.0 million in dividends paid in same period of fiscal 2011. Our Board of Directors approved a 14 percent increase in the quarterly dividend from \$0.14 to \$0.16 per share effective with the September 2011 dividend which was declared in August 2011. Additionally, we declared a quarterly dividend of \$12.2 million in February 2012 to be paid on March 29, 2012. We will continue to target a 40 percent dividend payout ratio to provide additional return to shareholders.

Our Board of Directors has authorized a total of \$2,885.0 million of share repurchases. As of March 28, 2012, approximately \$239 million was available under

## **Table of Contents**

our share repurchase authorizations. Our stock repurchase plan has been and will be used to return capital to shareholders and to minimize the dilutive impact of stock options and other share-based awards. During the first three quarters of fiscal 2012, approximately 1.3 million stock options were exercised resulting in cash proceeds of \$27.9 million. Repurchased common stock is reflected as a reduction of shareholders equity.

We have evaluated ways to monetize the value of our owned real estate and determined that the alternatives considered are more costly than other financing options currently available due to a combination of the income tax impact and higher effective borrowing rates.

### **Cash Flow Outlook**

We believe that our various sources of capital, including future cash flow from operating activities of continuing operations and availability under our existing credit facility are adequate to finance operations as well as the repayment of current debt obligations. We are not aware of any other event or trend that would potentially affect our liquidity. In the event such a trend develops, we believe that there are sufficient funds available under our credit facility and from our internal cash generating capabilities to adequately manage our ongoing business.

## **RECENT ACCOUNTING PRONOUNCEMENTS**

We reviewed all significant newly issued accounting pronouncements and concluded that they either are not applicable to our operations or that no material effect is expected on our financial statements as a result of future adoption.

## **Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

There have been no material changes in our quantitative and qualitative market risks since the prior reporting period.

## **Item 4. CONTROLS AND PROCEDURES**

Based on their evaluation of our disclosure controls and procedures (as defined in Rules 13a-15 and 15d-15 under the Securities Exchange Act of 1934 [the Exchange Act]), as of the end of the period covered by this report, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures are effective.

There were no changes in our internal control over financial reporting during our second quarter ended March 28, 2012, that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting.

## **FORWARD-LOOKING STATEMENTS**

We wish to caution you that our business and operations are subject to a number of risks and uncertainties. We have identified certain factors in Part I, Item 1A Risk Factors in our Annual Report on Form 10-K for the year ended June 29, 2011 and below in Part II, Item 1A Risk Factors in this report on Form 10-Q, that could cause actual results to differ materially from our historical results and from those projected in forward-looking statements contained in this report, in our other filings with the SEC, in our news releases, written or electronic communications, and verbal statements by our representatives. We further caution that it is not possible to see all such factors, and you should not consider the identified factors as a complete list of all risks and uncertainties.

## **PART II. OTHER INFORMATION**

### **Item 1. LEGAL PROCEEDINGS**

Information regarding legal proceedings is incorporated by reference from Note 8 to our consolidated financial statements set forth in Part I of this report.

### **Item 1A. RISK FACTORS**

There has been no material change in the risk factors set forth in Part I, Item 1A, Risk Factors in our Annual Report on Form 10-K for the year ended June 29, 2011.

The above risks and other risks described in this report and our other filings with the SEC could have a material impact on our business, financial condition or results of operations. It is not possible to predict or identify all risk factors. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also impair our operations. Therefore, the risks identified are not intended to be a complete discussion of all potential risks or uncertainties.
