CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus and documents that we incorporate by reference into this prospectus supplement and the accompanying prospectus contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and include this statement for purposes of complying with these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe our future plans, strategies and expectations, are generally identifiable by use of the words **believe, expect, intend, anticipate, estimate, project** or similar expressions. Factors which may cause actual results to differ materially from current expectations include, but are not limited to, (i) disruptions in financial markets, (ii) general economic and local real estate conditions, (iii) the inability of major tenants to continue paying their rent obligations due to bankruptcy, insolvency or a general downturn in their business, (iv) financing risks, such as the inability to obtain equity, debt, or other sources of financing on favorable terms, (v) changes in governmental laws and regulations, (vi) the level and volatility of interest rates, (vii) the availability of suitable acquisition opportunities, (viii) the ability to dispose of properties, (ix) changes in expected development activity, (x) increases in operating costs, (xi) tax matters, including failure to qualify as a real estate investment trust, and (xii) investments through real estate joint ventures and partnerships, which involve risks not present in investments in which we are the sole investor. Accordingly, there is no assurance that our expectations will be realized. Factors that might cause or contribute to such differences include, but are not limited to, those discussed in the sections entitled **Risk Factors** in this prospectus supplement and in our Annual Report on Form 10-K for the year ended December 31, 2011, which is incorporated by reference herein.

You should not rely on forward-looking statements since they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond our control and which could materially affect actual results, performances or achievements. Further, forward-looking statements speak only as of the date they are made, and we undertake no obligation to publicly update any of these statements in light of new information or future events.

Treasury Rate plus basis points; plus, in either case, accrued and unpaid interest on the principal amount of the notes to be redeemed to, but excluding, the redemption date. If the notes are redeemed on or after , 2022, we may redeem the notes at a redemption price equal to 100% of the principal amount of the notes to be redeemed, plus accrued and unpaid interest on the principal amount of the notes to be redeemed to, but excluding, the redemption date.
See Description of Notes Redemption at Our Option in this prospectus supplement.

Ranking

The notes will be our senior unsecured debt obligations and will rank equally with all of our existing and future senior unsecured debt obligations. However, the notes will be effectively subordinated to secured indebtedness held by us and our subsidiaries (to the extent of the value of the collateral securing the same) and any preferred equity of our subsidiaries.

Use of Proceeds

Our net proceeds from this offering are estimated to be \$ million after deducting the underwriting discount and other estimated expenses of this offering payable by us. We intend to use these net proceeds to repay amounts outstanding under our \$500 million unsecured revolving credit facility, which we borrowed for general business purposes, including for working capital, repayment of maturing debt, and for the acquisition, development and redevelopment of shopping centers. We may also use these net proceeds to retire some or all of our 3.95% convertible senior unsecured notes (3.95% Notes) and for general business purposes. See Use of Proceeds on page S-7 for more information.

Conflicts of Interest

Affiliates of certain of the underwriters are lenders under our \$500 million unsecured revolving credit facility and will receive their pro rata portions of amounts repaid under this credit facility. Additionally, affiliates of certain of the underwriters may be holders of our 3.95% Notes and may receive net proceeds from this offering to the extent net proceeds from this offering are used to redeem such notes. See Underwriting (Conflicts of Interest).

Further Issuances

We may issue additional notes ranking equally and ratably with the notes in all respects, so that such additional notes shall constitute and form a single series with the notes.

Covenants

The indenture contains various covenants applicable to the notes, including the following:

(1) we will not, and will not permit any Subsidiary to, incur any Debt if, immediately after giving effect to the incurrence of such additional Debt and the application of the proceeds thereof, the aggregate principal amount of all of our and our Subsidiaries outstanding Debt on a consolidated basis determined in accordance with generally accepted accounting principles is

Table of Contents

greater than 60% of the sum of (without duplication) (a) Total Assets as of the end of the calendar quarter covered in our Annual Report on Form 10-K or Quarterly Report on Form 10-Q, as the case may be, most recently filed with the SEC (or, if such filing is not permitted under the Securities Exchange Act of 1934, with The Bank of New York Mellon Trust Company, N.A., as trustee) prior to the incurrence of such additional Debt and (b) the purchase price of any real estate assets or mortgages receivable acquired, and the amount of any securities offering proceeds received (to the extent such proceeds were not used to acquire real estate assets or mortgages receivable or used to reduce Debt), by us or any Subsidiary since the end of such calendar quarter, including those proceeds obtained in connection with the incurrence of such additional Debt;

(2) we will not, and will not permit any Subsidiary to, incur any Debt secured by any mortgage, lien, charge, pledge, encumbrance or security interest of any kind upon any of our or our Subsidiaries' property, whether owned on the date of issuance of the notes or thereafter acquired, if, immediately after giving effect to the issuance of such additional Debt and the application of the proceeds thereof, the aggregate principal amount of all of our and our Subsidiaries' outstanding secured Debt on a consolidated basis which is secured by any mortgage, lien, charge, pledge, encumbrance or security interest on our or our Subsidiaries' property is greater than 40% of our Total Assets;

(3) we will not, and will not permit any Subsidiary to, incur any Debt if the ratio of Consolidated Income Available for Debt Service to the Annual Service Charge for the four consecutive fiscal quarters most recently ended prior to the date on which such additional Debt is to be incurred shall have been less than 1.5, on a pro forma basis after giving effect thereto and to the application of the proceeds therefrom and calculated on the assumption that (a) such Debt and any other Debt incurred by us and our Subsidiaries since the first day of such four-quarter period and the application of the proceeds therefrom, including to refinance other Debt, had occurred at the beginning of such period; (b) the repayment or retirement of any other Debt by us and our Subsidiaries since the first day of such four-quarter period had been incurred, repaid or retired at the beginning of such period (except that, in making such computation, the amount of Debt under any revolving credit facility shall be computed based upon the average daily balance of such Debt during such period); (c) in the case of Acquired Debt or Debt incurred in connection with any acquisition since the first day of such four-quarter period, the related acquisition had occurred as of the first day of such period, with the appropriate adjustments with respect to such acquisition being included in such pro forma calculation; and (d) in the case of any acquisition or disposition by us or our Subsidiaries of any asset or group of assets since the

first day of such four-quarter period, whether by merger, stock purchase or sale, or asset purchase or sale, such acquisition or disposition or any related repayment of Debt had occurred as of the first day of such period with the appropriate adjustments with respect to such acquisition or disposition being included in such pro forma calculation; and

(4) we, together with our Subsidiaries, will at all times maintain an Unencumbered Total Asset Value in an amount of not less than 150% of the aggregate outstanding principal amount of all of our and our Subsidiaries' outstanding unsecured Debt.

Risk Factors

You should read carefully the Risk Factors beginning on page S-5 of this prospectus supplement, as well as the risk factors discussed in our Annual Report on Form 10-K for the year ended December 31, 2011, which is incorporated by reference herein, for certain considerations relevant to an investment in the notes.

Trustee and Paying Agent

The trustee and paying agent for the notes is The Bank of New York Mellon Trust Company, N.A.

Table of Contents

RISK FACTORS

An investment in the notes involves a significant degree of risk. You should carefully consider the following risk factors, together with all of the other information included or incorporated by reference in this prospectus supplement and in the accompanying prospectus, including the additional risk factors included in our Annual Report on Form 10-K for the year ended December 31, 2011, before you decide to purchase the notes. The risks and uncertainties described below and in the referenced Form 10-K, are not the only ones we may confront. Additional risks and uncertainties not currently known to us or that we currently deem immaterial also may impair our business operations. If any of those risks actually occur, our financial condition, liquidity, operating results and prospects could be materially adversely affected. This section contains forward-looking statements.

The effective subordination of the notes may limit our ability to satisfy our obligations under the notes.

The notes will be senior unsecured debt obligations and will rank equally with all of our existing and future senior unsecured debt obligations. However, the notes will be effectively subordinated to all of our and our subsidiaries' secured indebtedness (to the extent of the value of the collateral securing such indebtedness) and any preferred equity of our subsidiaries. As of June 30, 2012, we had \$2.2 billion of indebtedness, of which \$938 million was secured indebtedness. The secured debt of our subsidiaries is included in the foregoing amount, and as of June 30, 2012, our subsidiaries had no outstanding preferred equity and no unsecured debt. In the event of a bankruptcy, liquidation, dissolution, reorganization or similar proceeding with respect to us, the holders of any secured indebtedness will be entitled to proceed directly against the collateral that secures such secured indebtedness. Therefore, such collateral will not be available for satisfaction of any amounts owed under our unsecured indebtedness, including the notes, until such secured indebtedness is satisfied in full. Subject to certain limitations, we may incur additional indebtedness. Our organizational documents do not limit the amount of indebtedness that we may incur.

As of June 30, 2012, our share of the total debt (exclusive of intercompany debt, trade payables, distributions payable, accrued expenses and other liabilities) of the entities which we account for under the equity method of accounting was approximately \$196 million. The provisions of the indenture governing the notes do not prohibit our subsidiaries from incurring additional indebtedness or issuing preferred equity in the future, provided certain conditions are satisfied.

Credit ratings may not reflect all risks of an investment in the notes.

Our credit ratings are an assessment by rating agencies of our ability to pay our debts when due. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the notes. Credit ratings are not a recommendation to buy, sell or hold any security, and may be revised or withdrawn at any time by the rating agency in its sole discretion. We do not undertake any obligation to maintain the ratings or to advise holders of notes of any change in ratings. Each agency's rating should be evaluated independently of any other agency's rating.

There can be no assurance that we will be able to maintain our current credit ratings. In the event that our current credit ratings are downgraded or removed, we would most likely incur higher borrowing costs and experience greater difficulty in obtaining additional financing, which could in turn have a material adverse effect on our financial condition, results of operations and liquidity.

The notes will restrict, but will not eliminate, our ability to incur additional debt or prohibit us from taking other action that could negatively impact holders of the notes.

We will be limited from incurring additional indebtedness under the terms of the notes and the indenture governing the notes. However, these limitations are subject to significant exceptions. See "Description of Notes—Covenants—Limitations on Incurrence of Debt" in this prospectus supplement.

Table of Contents

Our ability to recapitalize our debt and capital structure, incur additional debt, secure existing or future debt or take other actions not limited by the terms of the indenture and the notes, including repurchasing indebtedness or common or preferred shares or paying dividends, could negatively affect our ability to make payments with respect of the notes when due.

Your ability to transfer the notes may be limited by the absence of a trading market for the notes.

There is no established trading market for the notes and we have no plans to list the notes on a securities exchange. We have been advised by the underwriters that they presently intend to make a market in the notes; however, no underwriter is obligated to do so. Any market making activity, if initiated, may be discontinued at any time, for any reason, without notice. If the underwriters cease to act as market makers for the notes for any reason, we cannot assure you that another firm or person will make a market in the notes. The liquidity of any market for the notes will depend on the number of holders of the notes, our results of operations and financial condition, the market for similar securities, the interest of securities dealers in making a market in the notes and other factors. An active or liquid trading market may not develop for the notes.

The market price of the notes may be volatile.

The market price of the notes will depend on many factors that may vary over time and some of which are beyond our control including:

our operating and financial performance;

our credit ratings and the market's perception of our creditworthiness;

the amount of indebtedness we and our subsidiaries have outstanding;

prevailing market interest rates;

the market for similar securities;

competition;

the size and liquidity of the market for the notes; and

general economic conditions.

As a result of these factors, you may only be able to sell your notes at prices below those you believe to be appropriate, including prices below the price you paid for them.

An increase in interest rates could result in a decrease in the value of the notes.

In general, as market interest rates rise, notes bearing interest at a fixed rate generally decline in value. Consequently, if you purchase these notes and market interest rates increase, the market value of your notes may decline. We cannot predict the future level of market interest rates.

Table of Contents**USE OF PROCEEDS**

The net proceeds to us from the sale of the notes offered by this prospectus supplement are estimated to be \$ _____ million after deducting the underwriting discount and other estimated expenses of this offering payable by us. We intend to use these net proceeds to repay amounts outstanding under our \$500 million unsecured revolving credit facility, to retire some or all of our 3.95% Notes and general business purposes. As of September 30, 2012, we had approximately \$250 million of debt outstanding under our revolving credit facility bearing interest at a weighted average annual rate, including facility fees, of 2.01% for the nine-month period ended September 30, 2012. As of such date, we also had outstanding 3.95% Notes with an aggregate principal amount of \$54.1 million. Our revolving credit facility matures in September 2015, subject to a one-year extension at our option. The borrowings under this credit facility were used for general business purposes, including for working capital, repayment of maturing debt, and for the acquisition, development and redevelopment of shopping centers. Affiliates of certain of the underwriters are lenders under our \$500 million unsecured revolving credit facility and will receive their pro rata portions of amounts repaid under this credit facility. Additionally, affiliates of certain of the underwriters may be holders of our 3.95% Notes and may receive net proceeds from this offering to the extent net proceeds from this offering are used to retire such notes. See Underwriting (Conflicts of Interest).

DESCRIPTION OF NOTES

The following description summarizes certain terms and provisions of the notes and the indenture referred to below, does not purport to be complete and is subject to, and qualified in its entirety by reference to, the actual terms and provisions of the notes and the indenture. The information in this section supplements and, to the extent inconsistent therewith, replaces the information in the accompanying prospectus under the caption Description of Debt Securities.

Capitalized terms used but not otherwise defined herein shall have the meanings given to them in the notes or the indenture, as applicable. As used in this section, the terms we, us and our refer to Weingarten Realty Investors.

General

The notes will be issued pursuant to an indenture, dated as of May 1, 1995, which we entered into with The Bank of New York Mellon Trust Company, N.A., (successor in interest to J. P. Morgan Trust Company, National Association, successor in interest to Texas Commerce Bank National Association), as trustee, as supplemented by the First Supplemental Indenture dated August 2, 2006 and the Second Supplemental Indenture dated October 1, 2012. We refer to the indenture, as supplemented, as the indenture.

The terms of the notes include those provisions contained in the notes and the indenture and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended (the Trust Indenture Act). The notes are subject to all such terms, and holders of notes are referred to the notes, the indenture and the Trust Indenture Act for a statement thereof. Copies of the indenture and the form of the notes are available for inspection at the corporate trust office of the trustee, currently located at 601 Travis, 16th Floor, Houston, Texas 77002.

The notes will be senior unsecured debt obligations and will rank equally with each other and with all of our existing and future senior unsecured indebtedness. However, the notes will be effectively subordinated to our mortgages and other secured indebtedness (to the extent of the value of the collateral securing the same). The notes will also be effectively subordinated to all liabilities and any preferred equity of our subsidiaries. As of June 30, 2012, we had outstanding approximately \$1.3 billion of senior unsecured indebtedness held by Weingarten Realty Investors only (exclusive of intercompany debt, trade payables, distributions payable, accrued expenses and other liabilities) and approximately \$938 million of secured indebtedness held by us and our subsidiaries. As of June 30, 2012, our share of the total debt (exclusive of intercompany debt, trade payables, distributions payable, accrued expenses and other liabilities) of the entities which we account for under the equity method of accounting was approximately \$196 million. The provisions of the indenture governing the notes do not prohibit us or any of our subsidiaries from incurring additional indebtedness or issuing preferred equity in the future, subject to satisfaction of certain conditions. See Risk Factors The effective subordination of the notes may limit our ability to satisfy our obligations under the notes and Risk Factors The notes will restrict, but not eliminate, our ability to incur additional debt or prohibit us from taking other action that could negatively impact holders of the notes in this prospectus supplement.

The notes will be issued in an initial aggregate principal amount of \$ million. We may, without the consent of holders of the notes, increase the principal amount of the notes by issuing additional senior debt securities in the future on the same terms and conditions, except for any difference in the issue price, and with the same CUSIP number as the notes offered hereby, provided that such additional senior debt securities constitute part of the same issue as the notes offered hereby for U.S. federal income tax purposes. The notes offered by this prospectus supplement and any additional senior debt securities with the same terms would rank equally and ratably and would be treated as a single series of debt securities for all purposes under the indenture.

The notes will be issued only in fully registered, book-entry form, in denominations of \$1,000 and integral multiples of \$1,000 in excess thereof.

Table of Contents

If any interest payment date or the stated maturity date is not a business day, the payment otherwise required to be made on such date will be made on the next business day without any additional payment as a result of such delay. The term *business day* means, with respect to any note, any day, other than a Saturday, Sunday or any other day on which banking institutions in the City of New York are authorized or obligated by law or executive order to close. All payments will be made in U.S. dollars.

The indenture does not contain any provisions that would necessarily protect holders of notes if we become involved in a highly leveraged transaction, reorganization, merger or other similar transaction that adversely affects us or them.

Redemption at Our Option

We may redeem the notes, in whole or in part, at any time or from time to time, prior to maturity. The redemption price for notes that are redeemed before _____, 2022 will be equal to the greater of:

100% of the principal amount of the notes to be redeemed, or

the sum of the present values of the remaining scheduled payments of principal and interest on the notes to be redeemed discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus _____ basis points; plus, in either case, accrued and unpaid interest on the principal amount of the notes to be redeemed to, but excluding, the redemption date.

If the notes are redeemed on or after _____, 2022, we may redeem the notes at a redemption price equal to 100% of the principal amount of the notes to be redeemed, plus accrued and unpaid interest on the principal amount of the notes to be redeemed to, but excluding, the redemption date.

Treasury Rate means, with respect to any redemption date for the notes,

the yield, under the heading which represents the average for the immediately preceding week, appearing in the most recently published statistical release published by the Board of Governors of the Federal Reserve System designated as *Statistical Release H.15 (519)* or any successor publication which is published weekly by the Board of Governors of the Federal Reserve System and which establishes yields on actively traded United States Treasury securities adjusted to constant maturity under the caption *Treasury Constant Maturities*, for the maturity corresponding to the Comparable Treasury Issue (if no maturity is within three months before or after the maturity date, yields for the two published maturities most closely corresponding to the Comparable Treasury Issue shall be determined and the Treasury Rate shall be interpolated or extrapolated from such yields on a straight line basis, rounding to the nearest month), or

if such release (or any successor release) is not published during the week preceding the calculation date or does not contain such yields, the rate per annum equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date. The Treasury Rate shall be calculated on the third business day preceding the redemption date.

Comparable Treasury Issue means the United States Treasury security selected by the Independent Investment Banker as having a maturity comparable to the remaining term of the notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the notes.

Independent Investment Banker means Wells Fargo Securities, LLC or its successor, or if such firm is unwilling or unable to select the Comparable Treasury Issue, an independent investment banking institution of national standing appointed by us.

Table of Contents

Comparable Treasury Price means with respect to any redemption date for the notes (1) the average of four Reference Treasury Dealer Quotations as determined by the Company for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (2) if the Company obtains fewer than four such Reference Treasury Dealer Quotations, the average of all such quotations.

Reference Treasury Dealer means (1) Merrill Lynch, Pierce, Fenner & Smith Incorporated, J.P. Morgan Securities LLC and a Primary Treasury Dealer (as defined herein) selected by Wells Fargo Securities, LLC or their successors and, (2) at our option, up to two other primary U.S. Government securities dealers in New York City (each, a Primary Treasury Dealer), provided, however, that if any of the foregoing shall cease to be a Primary Treasurer Dealer, we will substitute therefor another Primary Treasury Dealer.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Company, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Company by such Reference Treasury Dealer at 5:00 p.m., New York City time, on the third business day preceding such redemption date.

We may exercise our redemption option by causing the trustee to mail (or otherwise transmit in accordance with DTC procedures) written notice of such redemption to the registered holders of the particular notes to be redeemed not less than 30 nor more than 60 calendar days prior to the date of redemption. If less than all the notes are to be redeemed at our option, the trustee shall select, in such manner as it shall deem fair and appropriate and in accordance with DTC procedures, the notes to be redeemed in whole or in part.

Unless we default in payment of the redemption price, on and after any redemption date interest will cease to accrue on the notes or portions thereof called for redemption.

Interest

Interest on the notes will accrue at the rate of % per year from and including October , 2012 or the most recent interest payment date to which interest has been paid or provided for, and will be payable semi-annually in arrears on March 15 and September 15 of each year, beginning March 15, 2013. We will pay interest to those persons who were holders of record of such notes on the first day of the month of each interest payment date. Interest on the notes will be computed on the basis of a 360-day year consisting of twelve 30-day months.

Maturity

The notes will mature on , 2022 and will be paid against presentation and surrender thereof at the corporate trust office of the trustee.

Trustee

The Bank of New York Mellon Trust Company, N.A. will be the trustee, registrar and paying agent. If an event of default occurs and is continuing, the trustee will be required to use the degree of care and skill of a prudent man in the conduct of his own affairs. The trustee will become obligated to exercise any of its powers under the indenture at the request of any of the holders of any notes only after those holders have offered the trustee indemnity satisfactory to it.

Covenants

Limitations on Incurrence of Debt. The notes will provide that we will not, and will not permit any Subsidiary to, incur any Debt if, immediately after giving effect to the incurrence of such additional Debt and the application of the proceeds thereof, the aggregate principal amount of all of our and our Subsidiaries' outstanding Debt on a consolidated basis determined in accordance with generally accepted accounting principles is greater than 60% of the sum of (without duplication) (1) Total Assets as of the end of the calendar quarter covered in our Annual Report on Form 10-K or Quarterly Report on Form 10-Q, as the case may be, most recently filed with the SEC (or, if such filing is not permitted under the Exchange Act, with the trustee) prior to the incurrence of such additional Debt and (2) the purchase price of any real estate assets or mortgages receivable acquired, and the amount of any securities offering proceeds received (to the extent such proceeds were not used to acquire real estate assets or mortgages receivable or used to reduce Debt), by us or any Subsidiary since the end of such calendar quarter, including those proceeds obtained in connection with the incurrence of such additional Debt.

In addition to the foregoing limitation on the incurrence of Debt, the notes will provide that we will not, and will not permit any Subsidiary to, incur any Debt secured by any mortgage, lien, charge, pledge, encumbrance or security interest of any kind upon any of our or any of our Subsidiaries' property, whether owned on the date of issuance of the notes or thereafter acquired, if, immediately after giving effect to the incurrence of such additional Debt and the application of the proceeds thereof, the aggregate principal amount of all of our and our Subsidiaries' outstanding Debt on a consolidated basis which is secured by any mortgage, lien, charge, pledge, encumbrance or security interest on our or our Subsidiaries' property is greater than 40% of our Total Assets.

Furthermore, the notes also will provide that we will not, and will not permit any Subsidiary to, incur any Debt if the ratio of Consolidated Income Available for Debt Service to the Annual Service Charge for the four consecutive fiscal quarters most recently ended prior to the date on which such additional Debt is to be incurred shall have been less than 1.5, on a pro forma basis after giving effect thereto and to the application of the proceeds therefrom, and calculated on the assumption that (1) such Debt and any other Debt incurred by us and our Subsidiaries since the first day of such four-quarter period and the application of the proceeds therefrom, including to refinance other Debt, had occurred at the beginning of such period; (2) the repayment or retirement of any other Debt by us and our Subsidiaries since the first day of such four-quarter period had been incurred, repaid or retired at the beginning of such period (except that, in making such computation, the amount of Debt under any revolving credit facility shall be computed based upon the average daily balance of such Debt during such period); (3) in the case of Acquired Debt or Debt incurred in connection with any acquisition since the first day of such four-quarter period, the related acquisition had occurred as of the first day of such period with the appropriate adjustments with respect to such acquisition being included in such pro forma calculation; and (4) in the case of any acquisition or disposition by us or our Subsidiaries of any asset or group of assets since the first day of such four-quarter period, whether by merger, stock purchase or sale, or asset purchase or sale, such acquisition or disposition or any related repayment of Debt had occurred as of the first day of such period with the appropriate adjustments with respect to such acquisition or disposition being included in such pro forma calculation.

Maintenance of Unencumbered Total Asset Value. The notes will provide that we, together with our Subsidiaries, will at all times maintain an Unencumbered Total Asset Value in an amount of not less than 150% of the aggregate outstanding principal amount of all our and our Subsidiaries' outstanding unsecured Debt.

Insurance. The notes will provide that we will, and will cause each of our Subsidiaries to keep all of its insurable properties insured against loss or damage at least equal to their then full insurable value with insurers of recognized responsibility and, if such insurer has publicly rated debt, the rating for such debt must be at least investment grade with a nationally recognized rating agency.

SUPPLEMENTAL FEDERAL INCOME TAX CONSIDERATIONS

The following discussion supplements the discussion contained under the heading "Federal Income Tax Consequences" in the accompanying prospectus and supersedes such discussion to the extent inconsistent with such discussion.

In conjunction with the discussion contained under the heading "Federal Income Tax Consequences" in the accompanying prospectus, the following discussion summarizes the material federal income tax consequences associated with an investment in the notes. The tax treatment of a note holder will vary depending upon the holder's particular situation, and this discussion and the related discussion in the accompanying prospectus address only holders that hold notes as a capital asset and do not deal with all aspects of taxation that may be relevant to particular holders in light of their personal investment or tax circumstances. This section also does not deal with all aspects of taxation that may be relevant to certain types of holders to which special provisions of the federal income tax laws apply, including:

dealers in securities or currencies;

traders in securities that elect to use a mark-to-market method of accounting for their securities holdings;

banks and other financial institutions;

tax-exempt organizations (except to the limited extent discussed in "Federal Income Tax Consequences - Taxation of Tax-Exempt Holders" in the accompanying prospectus);

certain insurance companies;

persons liable for the alternative minimum tax;

persons that hold securities as a hedge against interest rate or currency risks or as part of a straddle or conversion transaction;

non-U.S. individuals and foreign corporations (except to the limited extent discussed in "Federal Income Tax Consequences - Taxation of Non-U.S. Holders" in the accompanying prospectus and "Taxation of Non-U.S. Holders of Notes" in this prospectus supplement); and

holders whose functional currency is not the U.S. dollar.

The statements in this section and the related section in the accompanying prospectus are based on the Internal Revenue Code of 1986, as amended (the "Code"), its legislative history, current and proposed regulations under the Code, published rulings and court decisions. This summary and the summary in the accompanying prospectus describe the provisions of these sources of law only as they are currently in effect. All of these sources of law may change at any time, and any change in the law may apply retroactively. We cannot assure you that new laws, interpretations of law or court decisions, any of which may take effect retroactively, will not cause any statement in this section to be inaccurate.

This section and the related section in the accompanying prospectus are not a substitute for careful tax planning. We urge you to consult your tax advisor regarding the specific tax consequences to you of ownership of our securities and of our election to be taxed as a REIT. Specifically, you should consult your tax advisor regarding the federal, state, local, foreign, and other tax consequences to you regarding the purchase, ownership and sale of our notes. You should also consult with your tax advisor regarding the impact of potential changes in the applicable tax laws.

Taxation of Weingarten Realty Investors as a REIT

Edgar Filing: WEINGARTEN REALTY INVESTORS /TX/ - Form 424B5

Locke Lord LLP will provide us an opinion that for our taxable year ended December 31, 2011 we qualified as a REIT under the Code, that we are organized and our manner of operation is in conformity with the requirements for qualification and taxation as a REIT under the Code as of the date of this Registration Statement Supplement, and that our proposed manner of operation and diversity of equity

ownership will enable us to continue to satisfy the requirements for qualification and taxation as a REIT under the Code for 2012. You should be aware, however, that opinions of counsel are not binding upon the Internal Revenue Service or any court. In providing its opinion, Locke Lord LLP is relying, as to certain factual matters, upon the statements and representations contained in certificates provided to Locke Lord LLP by us.

Taxation of Non-U.S. Holders of Notes

The rules governing U.S. federal income taxation of nonresident alien individuals, foreign corporations, foreign partnerships and other foreign shareholders are complex. This section is only a summary of certain of such rules and should be read in conjunction with the discussion contained under the heading **Federal Income Tax Consequences Taxation of Non-U.S. Holders** in the accompanying prospectus. We urge non-U.S. holders to consult their own tax advisors to determine the impact of federal, state, and local income tax laws on ownership of debt securities, including any reporting requirements.

Interest on the Notes. Subject to the discussion on backup withholding below, a non-U.S. holder generally will not be subject to U.S. federal income or withholding tax on payments of interest on a note, provided that:

the non-U.S. holder is not (a) a direct or indirect owner of 10% or more of our voting stock, (b) a controlled foreign corporation related to us through stock ownership, or (c) a bank whose receipt of interest on a note is pursuant to a loan agreement entered into in the ordinary course of business;

such interest payments are not effectively connected with the conduct by the non-U.S. holder of a trade or business within the U.S.; and

we or our paying agent receives certain information from the non-U.S. holder (or a financial institution that holds the notes on behalf of the non-U.S. holder in the ordinary course of its trade or business), including a valid Internal Revenue Service Form W-8BEN or an acceptable substitute form upon which the non-U.S. holder certifies, under penalties of perjury, that he is a non-U.S. person.

Special certification rules apply to foreign partnerships, estates and trusts, and in certain circumstances, certifications as to foreign status of partners, trust owners, or beneficiaries may be required to be provided to our paying agent or to us. In addition, special rules apply to payments made through a qualified intermediary.

A non-U.S. holder that is not exempt from tax under these rules generally will be subject to withholding at a rate of 30% unless:

the income is effectively connected with the conduct of a U.S. trade or business, or

an applicable income tax treaty provides for a lower rate of, or exemption from, withholding tax (and we or our paying agent receives a properly executed Internal Revenue Service Form W-8BEN).

Except to the extent provided by an applicable tax treaty, interest on a note that is effectively connected with the conduct by a non-U.S. holder of a trade or business in the United States generally will be subject to U.S. federal income tax on a net basis at the rates applicable to U.S. persons. A non-U.S. holder that is treated as a corporation for U.S. federal income tax purposes may also be subject to the 30% branch profits tax (subject to reduction under an applicable tax treaty). If interest is subject to U.S. federal income tax on a net basis in accordance with the rules described in the preceding sentences, payments of such interest will not be subject to withholding so long as the non-U.S. holder provides us or the paying agent with an Internal Revenue Service Form W-8ECI. To claim the benefit of an income tax treaty, the non-U.S. holder must timely provide the appropriate, properly executed IRS forms.

Table of Contents

Disposition of the Notes. Subject to the discussion on backup withholding below, a non-U.S. holder generally will not be subject to U.S. federal income or withholding tax on gain from the sale, redemption or other disposition of a note unless:

such gain is effectively connected with the conduct by the non-U.S. holder of a U.S. trade or business or is attributable to a permanent establishment that the non-U.S. holder maintains in the U.S. (if required by an applicable income tax treaty); or

such non-U.S. holder is a nonresident alien individual who was present in the U.S. for 183 days or more during the taxable year of disposition and meets certain other requirements.

Except to the extent provided by an applicable tax treaty, gain from the sale or disposition of a note that is effectively connected with a non-U.S. holder's U.S. trade or business generally will be subject to U.S. federal income tax on a net basis at the rates applicable to a U.S. Holder. A non-U.S. holder that is treated as a corporation for U.S. federal income tax purposes may also be subject to the 30% branch profits tax (subject to reduction under an applicable tax treaty). If such gains are realized by a non-U.S. holder who is a nonresident alien individual who was present in the U.S. for 183 days or more during the taxable year of disposition, then such non-U.S. holder generally will be subject to U.S. federal income tax at a rate of 30% (subject to reduction under an applicable tax treaty) on the amount by which capital gains from U.S. sources (including gains from the sale or other disposition of the notes) exceed capital losses allocable to U.S. sources. To claim the benefit of an income tax treaty, the non-U.S. holder must timely provide a valid Internal Revenue Service Form W-8BEN or an acceptable substitute form upon which the non-U.S. holder certifies, under penalties of perjury, that he is a non-U.S. person.

Backup Withholding and Information Reporting With Respect to Notes. Payments of interest to a non-U.S. holder with respect to which the requisite certification, as described above, has been received (or for which an exemption has otherwise been established) generally will not be subject to backup withholding. This exemption does not apply if we or our paying agent has actual knowledge that such holder is a U.S. person (or that the conditions of any such exemption are not in fact satisfied). Information reporting (on Internal Revenue Service Form 1042-S) will generally apply to payments of interest even if certification is provided and the interest is exempt from the 30% U.S. federal withholding tax. Copies of these information returns may also be made available to the tax authorities of the country in which the non-U.S. holder resides under the provisions of a specific treaty or agreement.

Neither information reporting nor backup withholding generally will apply to a payment of the proceeds of a disposition of debt securities that is effected by or through the foreign office of a foreign broker so long as the foreign broker does not have certain types of specified relationships to the U.S. Information reporting and backup withholding generally will apply to a payment of the proceeds of a disposition of debt securities that is effected by or through a U.S. office of any broker, unless the broker can reliably associate the payment with an Internal Revenue Service Form W-8BEN or other documentation that establishes that the person is the foreign beneficial owner of the payment. Information reporting generally will also apply to a payment of the proceeds of a disposition of debt securities that is effected through a foreign office of a U.S. broker or a foreign broker with certain types of specified relationships to the U.S., unless the broker can reliably associate the payment with an Internal Revenue Service Form W-8BEN or other documentation that establishes that the person is the foreign beneficial owner of the payment. Backup withholding is not an additional tax. Any amount withheld from a payment to a holder under the backup withholding rules is creditable against the holder's actual U.S. federal income tax liability, if any, and a refund may be obtained of any amounts withheld in excess of such holder's actual U.S. federal income tax liability, provided that such holder files the appropriate forms and/or returns with the IRS.

Proposed Treasury Regulations Regarding Certain Asset Dispositions

If we acquire any asset from a corporation which is or has been a C corporation in a transaction in which the basis of the asset in our hands is less than the fair market value of the asset, in each case determined at the time we acquired the asset, and we subsequently recognize gain on the disposition of the

Table of Contents

asset during the ten-year period beginning on the date on which we acquired the asset, then as described in the accompanying prospectus under the heading Federal Income Tax Consequences Taxation of Weingarten Realty Investors as a REIT, we generally will be required to pay tax at the highest regular corporate tax rate on this gain to the extent of the excess of (a) the fair market value of the asset over (b) our adjusted basis in the asset, in each case determined as of the date on which we acquired the asset. The results described in this paragraph with respect to the recognition of gain assume that the C corporation refrains from making an election to recognize gain with respect to its disposition of the asset under existing Treasury Regulations on its tax return for the year in which we acquire the asset from the C corporation.

The IRS has issued Proposed Treasury Regulations which would exclude from the application of this built-in gains tax any gain from the sale of property acquired by us in an exchange under Section 1031 (a like kind exchange) or 1033 (an involuntary conversion) of the Code. These Proposed Treasury Regulations will not be effective unless they are issued in final form, and as of the date of this prospectus supplement, it is not possible to determine whether the Proposed Treasury Regulations will be finalized in their current form or at all.

Tax Rates

The maximum tax rate for non-corporate taxpayers for (1) capital gains, including certain capital gain dividends, is generally 15% (although depending on the characteristics of the assets which produced these gains and on designations which we may make, certain capital gain dividends may be taxed at a 25% rate) and (2) qualified dividend income is generally 15%. However, dividends payable by REITs are not eligible for the 15% tax rate on qualified dividend income, except to the extent that certain holding requirements have been met and the REIT's dividends are attributable to dividends received from taxable corporations (such as its taxable REIT subsidiaries), to income that was subject to tax at the corporate/REIT level (for example, if the REIT distributed taxable income that it retained and paid tax on in the prior taxable year), or to dividends properly designated by the REIT as capital gain dividends. For taxable years beginning after December 31, 2012, the 15% the capital gains tax rate is currently scheduled to increase to 20% and the rate applicable to dividends will increase to the tax rate then applicable to ordinary income. In addition, U.S. holders that are corporations may be required to treat up to 20% of some capital gain dividends as ordinary income.

In addition, certain U.S. holders that are individuals, estates or trusts are required to pay an additional 3.8% tax on, among other things, dividends, interest on and capital gains from the sale or other disposition of stock or debt obligations for taxable years beginning after December 31, 2012. U.S. holders should consult their tax advisors regarding the effect, if any, of these additional taxes on their ownership and disposition of our capital stock or debt securities.

Foreign Accounts

A 30% withholding tax may be imposed on dividends and interest on, and gross proceeds from the sale or other disposition of, our capital stock or debt securities paid to a foreign financial institution or to a non-financial foreign entity (in each case, as specially defined in the Code), unless (1) the foreign financial institution undertakes certain diligence and reporting, (2) the non-financial foreign entity either certifies it does not have any substantial United States owners or furnishes identifying information regarding each substantial United States owner, or (3) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules. If the payee is a foreign financial institution and is subject to the diligence and reporting requirements in clause (1) above, it must enter into an agreement with the United States Treasury requiring, among other things, that it undertake to identify accounts held by certain United States persons or United States-owned foreign entities, annually report certain information about such accounts, and withhold 30% on payments to non-compliant foreign financial institutions and certain other account holders.

Although these rules currently apply to applicable payments made after December 31, 2012 (other than payments made on certain debt securities discussed below), the IRS has issued Proposed Treasury

Table of Contents

Regulations providing that the withholding provisions described above will generally apply only to payments of dividends or interest made on or after January 1, 2014 and to payments of gross proceeds from a sale or other disposition of stock or debt securities on or after January 1, 2015. In addition, although these rules currently would not apply to debt securities outstanding on March 18, 2012, the Proposed Treasury Regulations indicate that the rules would not apply to debt securities outstanding on January 1, 2013.

The Proposed Treasury Regulations described above will not be effective until they are issued in their final form, and as of the date of this prospectus supplement, it is not possible to determine whether the proposed regulations will be finalized in their current form or at all. Prospective investors should consult their tax advisors regarding these withholding provisions.

UNDERWRITING (CONFLICTS OF INTEREST)

Subject to the terms and conditions of an underwriting agreement dated the date of this prospectus supplement, we have agreed to sell to the underwriters named below, for whom Wells Fargo Securities, LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and J.P. Morgan Securities LLC are acting as bookrunning managers and representatives, and such underwriters have severally agreed to purchase from us, the principal amount of the notes appearing opposite their names below:

Underwriters	Principal Amount of Notes
Wells Fargo Securities, LLC	
Merrill Lynch, Pierce, Fenner & Smith Incorporated	\$
J.P. Morgan Securities LLC	
Total	\$

The underwriting agreement provides that the obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other customary closing conditions. The underwriters must purchase all of the notes if they purchase any of the notes. The underwriters will sell the notes to the public when and if the underwriters buy the notes from us.

The underwriters have advised us that they propose to offer some of the notes directly to the public at the public offering price appearing on the cover page of this prospectus supplement and some of the notes to certain dealers at the public offering price less a concession not to exceed % of the principal amount of the notes. The underwriters may allow, and dealers may realow, a concession not to exceed % of the principal amount of the notes on sales to other dealers. After the public offering of the notes, the public offering price and other selling terms to dealers may be changed.

The following table shows the underwriting discount that we are to pay to the underwriters in connection with this offering.

Underwriters	Paid by Weingarten
Per note	%
Total	\$

The notes are a new issue of securities with no established trading market. We do not intend to apply for listing of the notes on any national securities exchange or for quotation on any automated quotation system. The underwriters have advised us that they intend to make a market for the notes, but they have no obligation to do so and may discontinue market making at any time without providing any notice. No assurance can be given as to the liquidity of any trading market for the notes.

In connection with the offering of the notes, certain of the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the notes. Specifically, the underwriters may over allot in connection with the offering, creating a short position. In addition, the underwriters may bid for, and purchase, the notes in the open market to cover short positions or to stabilize the price of the notes. Any of these activities may stabilize or maintain the market price of the notes above independent market levels, but no representation is made hereby of the magnitude of any effect that the transactions described above may have on the market price of the notes. The underwriters will not be required to engage in these activities, and may engage in these activities, and may end any of these activities, at any time without notice.

We estimate that our total expenses for this offering (excluding the underwriting discount) will be \$.

We expect to deliver the notes against payment for the notes on or about the date specified in the next to last paragraph on the cover page of this prospectus supplement.

Table of Contents

We have agreed that for a period of 30 days from the date of this prospectus supplement, we will not offer, sell, contract to sell or otherwise dispose of any debt securities that are substantially similar to the notes without the prior written consent of the underwriters.

In connection with this offering, certain of the underwriters or securities dealers may distribute this prospectus supplement and the accompanying prospectus by electronic means, such as email. Certain of the underwriters may facilitate Internet distribution for this offering to certain of their respective Internet subscription customers. In addition, certain of the underwriters may allocate notes for sale to their respective online brokerage customers. An electronic prospectus supplement and the accompanying prospectus may be made available on the website maintained by any such underwriter. Other than this prospectus supplement and the accompanying prospectus in electronic format, the information on any such website is not part of this prospectus supplement or the accompanying prospectus.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

We expect that delivery of the notes will be made against payment therefor on the 5th business day following the date hereof (this settlement cycle being referred to as T+5). Pursuant to Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to that trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes on the date of this prospectus supplement or the next succeeding business days will be required, by virtue of the fact that the notes initially will settle in T+5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement and should consult their own advisor.

Certain of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings with us from time to time in the ordinary course of their business for which they have received or will receive customary compensation.

Affiliates of certain of the underwriters are lenders under our \$500 million unsecured revolving credit facility and have been paid customary fees. We intend to use the net proceeds from this offering to repay amounts outstanding under this credit facility. Accordingly, such affiliates will receive their pro rata portions of the net proceeds from this offering used to repay borrowings thereunder. We may also use net proceeds from this offering to retire some or all of our 3.95% Notes. To the extent affiliates of certain of the underwriters hold any of our 3.95% Notes that are retired, such holders will receive a portion of the net proceeds from this offering. The amount received by affiliates of an underwriter may exceed 5% of the proceeds from this offering (not including underwriting discounts). Nonetheless, in accordance with Rule 5121 of the Financial Industry Regulatory Authority, Inc., the appointment of a qualified independent underwriter is not necessary in connection with this offering because REITs are excluded from that requirement. Certain of the underwriters or their affiliates that have a lending relationship with us routinely hedge their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions that consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such short positions could adversely affect the future trading prices of the notes offered hereby.

**RATIO OF EARNINGS TO FIXED CHARGES AND
RATIO OF EARNINGS TO COMBINED FIXED CHARGES
AND PREFERRED DIVIDENDS**

The following table sets forth the ratio of earnings to fixed charges and the ratio of earnings to combined fixed charges and preferred dividends for the periods shown:

	Six Months Ended		Year Ended December 31,				
	2011	2010	2010	2009	2008	2007	2006

- (1) The ratio of earnings to fixed charges is computed by dividing earnings by fixed charges. For this purpose, earnings consists of income from continuing operations before taxes (which includes equity in earnings of unconsolidated subsidiaries and partnerships only to the extent of dividends or distributions from operations received) plus fixed charges (other than any interest that has been capitalized) and amortization of previously capitalized interest; and fixed charges consists of interest expense (including amortization of loan costs and debt discounts), and interest that has been capitalized.

For this purpose, earnings consists of income from continuing operations before taxes (which includes equity in earnings of unconsolidated subsidiaries and partnerships only to the extent of dividends or distributions from operations received) plus fixed charges (other than any interest that has been capitalized) and amortization of previously capitalized interest; fixed charges consists of interest expense (including amortization of loan costs and debt discounts), and interest that has been capitalized; and preferred dividends consists of the amount of pre-tax earnings that would be required to cover preferred dividend requirements.

DESCRIPTION OF DEBT SECURITIES

We may issue senior and subordinated debt securities. Neither the senior debt securities nor the subordinated debt securities will be secured by any of our or our subsidiaries' property or assets. By owning our debt securities, you will be one of our unsecured creditors.

Indentures

Any senior debt securities will be issued under a senior indenture dated as of May 1, 1995 between us and JPMorgan Chase Bank, as trustee, and any subordinated debt securities will be issued under a subordinated indenture dated as of May 1, 1995 between us and JPMorgan Chase Bank, as trustee. The term "trustee" as used in this prospectus refers to any bank that we may appoint as trustee under the terms of the applicable indenture, in its capacity as trustee for the senior debt securities or the subordinated debt securities.

We have summarized specific terms and provisions of the indentures. The summary is not complete. The indentures have been incorporated by reference as exhibits to the registration statement of which this prospectus is a part. We urge you to read the indentures because they, and not this description, fully define the rights of holders of debt securities. The indentures are subject to the Trust Indenture Act of 1939, as amended. To obtain copies of the indentures, see "Where You Can Find More Information" on page 1.

General

Unless otherwise provided in the prospectus supplement, the debt securities (whether senior or subordinated) will be our direct, unsecured general obligations. The senior debt securities will rank equally with all of our other unsecured and unsubordinated indebtedness. The subordinated debt securities will be subordinated and junior in right of payment to the prior payment in full of our present and future senior debt securities. See "Subordinated Debt Securities" below.

The indentures do not limit the amount of debt securities that we can offer. Each indenture allows us to issue debt securities up to the principal amount that may be authorized by us. We may issue additional debt securities without your consent. We may issue debt securities in one or more series. All debt securities of one series need not be issued at the same time and, unless otherwise provided, a series may be reopened, without the consent of the holders of the debt securities of such series, for issuances of additional debt securities of such series.

Without your consent, we may engage in a highly leveraged transaction, a restructuring, a transaction involving a change in control, or a merger or similar transaction that may adversely affect holders of debt securities.

Modification of the Indentures

To change or modify either indenture, we must obtain the consent of holders of at least a majority in principal amount of all outstanding debt securities affected by that change. The consent of holders of at least a majority in principal amount of each series of outstanding debt securities is required to waive compliance by us with specific covenants in an indenture. We must obtain the consent of each holder affected by a change:

to extend the maturity, or to reduce the principal, redemption premium or interest rate;

change the place of payment, or the currency, for payment;

limit the right to sue for payment;

reduce the level of consents needed to approve a change to an indenture; or

modify any of the foregoing provisions or any of the provisions relating to the waiver of certain past defaults or certain covenants, except to increase the required level of consents needed to approve a change to an indenture.

Table of Contents

Senior Debt Securities

Any additional senior debt securities we issue will rank equally in right of payment with the senior debt securities offered by this prospectus and the applicable prospectus supplement. Further, the senior indenture does not prohibit us from issuing additional debt securities that may rank equally in right of payment to the senior debt securities. Any senior debt securities offered pursuant to the senior indenture will be senior in right of payment to all subordinated debt securities issued under the subordinated indenture.

Subordinated Debt Securities

The subordinated debt securities will have a junior position to all of our senior debt. Under the subordinated indenture, payment of the principal, interest and any premium on the subordinated debt securities will generally be subordinated and junior in right of payment to the prior payment in full of all senior debt. The subordinated indenture provides that no payment of principal, interest and any premium on the subordinated debt securities may be made in the event of any insolvency, bankruptcy or similar proceeding involving us or our properties.

The subordinated indenture will not limit the amount of senior debt that we may incur. All series of subordinated debt securities as well as other subordinated debt issued under the subordinated indenture will rank equally with each other in right of payment.

The subordinated indenture prohibits us from making a payment of principal, premium, interest or sinking fund payments for the subordinated debt securities during the continuance of any default on senior debt or any default under any agreement pursuant to which the senior debt was issued beyond the grace period, unless and until the default on the senior debt is cured or waived.

Upon any distribution of our assets in connection with any dissolution, winding-up, liquidation, reorganization, bankruptcy or other similar proceeding, the holders of all senior debt securities will first be entitled to receive payment in full of the principal, any premium and interest due on the senior debt before the holders of the subordinated debt securities are entitled to receive any payment. Because of this subordination, if we become insolvent, our creditors who are not holders of senior debt or of the subordinated debt securities may recover less, ratably, than holders of senior debt but may recover more, ratably, than holders of the subordinated debt securities.

Additional Terms of Debt Securities

A prospectus supplement and any supplemental indentures relating to any series of debt securities being offered will include specific terms relating to the offering. These terms will include some or all of the following:

the type and title of debt securities offered;

any limit upon the total principal amount of the series of debt securities;

the total principal amount and priority of the debt securities;

the percentage of the principal amount at which the debt securities will be issued and any payments due if the maturity of the debt securities is accelerated;

the dates on which the principal of and premium, if any, on the debt securities will be payable or the method of determining such date;

the interest rates (which may be fixed or variable) that the debt securities will bear, or the method for determining such rates;

the dates from which the interest on the debt securities will accrue and be payable, or the method of determining those dates;

Table of Contents

the date or dates on which interest will be payable and the record date or dates to determine the persons who will receive payment;

the period or periods within which, the price or prices at which, the currency (if other than U.S. dollars) in which, and the other terms and conditions upon which, the debt securities may be redeemed, in whole or in part, at our option, if we have that option;

the obligation, if any, we have to redeem or repurchase the debt securities pursuant to any sinking fund or similar provisions or upon the happening of a specified event or at the option of a holder; and the period or periods within which, the price at which, and the other terms and conditions upon which, such debt securities shall be redeemed or purchased, in whole or in part;

the denominations in which the debt securities are authorized to be issued;

if the amount of principal of, or premium, if any, or interest on, the debt securities may be determined with reference to an index or pursuant to a formula or other method, the method in which such amounts will be determined;

any changes to or additional events of default or covenants set forth in the indentures;

the terms of subordination, if any;

any special tax implications of the debt securities, including provisions for original issue discount securities;

provisions, if any, granting special rights to the holders of the debt securities if certain specified events occur; the circumstances, if any, under which we will pay additional amounts on the debt securities held by non-U.S. persons for taxes, assessments or similar charges;

whether the debt securities will be issued in registered or bearer form or both;

the date as of which any debt securities in bearer form and any temporary global security representing outstanding securities are dated, if other than the original issuance date of the debt securities;
