SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 6-K

Report of Foreign Private Issuer

Pursuant to Rule 13a- 16 or 15d- 16 of

the Securities Exchange Act of 1934

For the month of June 2013

CGG

Tour Maine Montparnasse - 33 Avenue du Maine BP 191 - 75755 PARIS CEDEX 15 (address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

Edgar Filing: CGG - Form 6-K

If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82

Sercel launches multi-sensor Sentinel solid streamer

Paris, France June 11th 2013

Sercel announces today the launch of **Sentinel[®] MS**, its new multi-sensor solid streamer to address the needs of the E&P Industry for ever more detailed and accurate images of the subsurface.

Sentinel *MS* builds on the success of the Sentinel solid streamer. In addition to the high-quality pressure measurement provided by its hydrophone sensor the new Sentinel *MS* features two additional acceleration components offering directional measurements for both cross-line and vertical wave fronts, to deliver multi-sensor data sets for enhanced broadband imaging.

Fully compatible with Nautilus[®], Sercel's powerful all-in-one streamer positioning system, Sentinel *MS* extends marine acquisition capabilities to a new level. The addition of directional measurements to the most advanced low-noise, low-frequency capabilities of Sercel's Sentinel solid streamer family makes the new Sentinel *MS* the multi-sensor streamer system of choice in any geophysical environment.

Pascal Rouiller, CEO, Sercel, said: We have added the Sentinel *MS* multi-sensor streamer to our Sentinel family to offer the industry the best broadband capabilities as part of our on-going commitment to deliver the highest-end seismic equipment to our customers. With over 5,000 km of Sentinel streamers delivered to date, our Sentinel family, including the Sentinel *MS* and Sentinel RD, is unmistakably the best solid cable available to the industry today.

Jean-Georges Malcor, CEO, CGG, said: Sentinel has played a significant role in the development of broadband marine seismic and is at the heart of our BroadSeis[™] and StagSeis[™] marine acquisition solutions. With the launch of Sentinel *MS*, we can now take our long-offset, full-azimuth and broadband marine seismic to the next step in imaging and enhanced illumination of the most complex geologies.

About CGG

CGG (www.cgg.com) is a fully integrated Geoscience company providing leading geological, geophysical and reservoir capabilities to its broad base of customers primarily from the global oil and gas industry. Through its three complementary business divisions of Equipment, Acquisition and Geology, Geophysics & Reservoir (GGR), CGG brings value across all aspects of natural resource exploration and exploitation.

CGG employs over 9,800 people around the world, all with a Passion for Geoscience and working together to deliver the best solutions to its customers.

CGG is listed on the Euronext Paris SA (ISIN: 0000120164) and the New York Stock Exchange (in the form of American Depositary Shares, NYSE: CGG).
