FORWARD-LOOKING STATEMENTS

Forward-looking statements included in this prospectus supplement, the accompanying prospectus, information incorporated by reference herein and therein and any related free writing prospectus are based on various facts and derived utilizing numerous important assumptions that are subject to known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements include the information concerning our future financial performance, business strategy, projected plans and objectives, as well as projections of macroeconomic and industry trends, which are inherently unreliable due to the multiple factors that impact economic trends, and any such variations may be material. Statements preceded by, followed by or that otherwise include the words "believes," "expects," "anticipates," "intends," "projects," "estimates," "plans," and similar expressions or future or conditional verbs such as "will," "should," and "could" are generally forward looking in nature and not historical facts. You should understand that the following important factors could affect our future results and cause actual results to differ materially from those expressed in the forward-looking statements:

risks related to general business, economic, employment and political conditions and the U.S. residential real estate markets, either regionally or nationally, including but not limited to:

a lack of improvement in the number of homesales, stagnant or declining home prices and/or a deterioration in other economic factors that particularly impact the residential real estate market and the business segments in which we operate;

a lack of improvement in consumer confidence;

the impact of recessions, slow economic growth, disruptions in the banking system and high levels of unemployment in the U.S. and abroad;

increasing mortgage rates and down payment requirements and/or constraints on the availability of mortgage financing, including but not limited to the potential impact of various provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act and regulations that may be promulgated thereunder relating to mortgage financing as well as other factors that tighten underwriting standards;

legislative, tax or regulatory changes that would adversely impact the residential real estate market, including potential reforms of the Federal National Mortgage Association ("Fannie Mae"), the Federal Home Loan Mortgage Corporation ("Freddie Mac") and the Federal Housing Administration, and potential tax code reform, which could reduce the amount that taxpayers would be allowed to deduct for home mortgage interest;

negative trends and/or a negative perception of the market trends in value for residential real estate;

renewed high levels of foreclosure activity including but not limited to the release of homes already held for sale by financial institutions;

insufficient or excessive regional home inventory levels;

Edgar Filing: REALOGY HOLDINGS CORP. - Form 424B3

the inability or unwillingness of homeowners to enter into homesale transactions due to negative equity in their existing homes; and

lower homeownership rates or failure of homeownership rates to return to more typical levels;

our geographic and high-end market concentration, particularly with respect to our company owned brokerage operations;

our inability to enter into franchise agreements with new franchisees or to realize royalty revenue growth from them;

our inability to renew existing franchise agreements or maintain franchisee satisfaction with our brands;

S-iii

existing franchisees may incur operating losses if sales volume decreases which may impede their ability to grow or continue operations. Additionally, debt incurred by our franchisees during the downturn may hinder long-term growth and their ability to pay back indebtedness;

disputes or issues with entities that license us their trade names for use in our business that could impede our franchising of those brands;

actions by our franchisees that could harm our business or reputation, non-performance of our franchisees, controversies with our franchisees or actions against us by third parties with which our franchisees have business relationships;

competition in our existing and future lines of business;

our failure to comply with laws, regulations and regulatory interpretations and any changes in laws, regulations and regulatory interpretations;

seasonal fluctuations in the residential real estate brokerage business which could adversely affect our business, financial condition and liquidity;

the loss of any of our senior management or key managers or employees or other significant labor or employment issues;

the failure or significant disruption from various causes of our critical information technologies;

adverse effects of natural disasters or environmental catastrophes;

risks related to our international operations;

risks associated with our substantial indebtedness and interest obligations, including risks related to having to dedicate a substantial portion of our cash flows from operations to service our debt, risks related to our ability to refinance our indebtedness and to incur additional indebtedness, risks associated with our ability to comply with our senior secured leverage ratio covenant under our senior secured credit facility, interest rate risk, and risks related to an event of default under our outstanding indebtedness;

changes in corporate relocation practices resulting in fewer employee relocations;

an increase in the claims rate of our title underwriter;

our inability to securitize certain assets of our relocation business, which would require us to find an alternative source of liquidity that may not be available, or if available, may not be on favorable terms;

Edgar Filing: REALOGY HOLDINGS CORP. - Form 424B3

limitations on flexibility in operating our business due to restrictions contained in our debt agreements;

risks that could materially adversely impact our equity investment in PHH Home Loans LLC, our joint venture with PHH Corporation, including increases in mortgage interest rates, decreases in operating margins, and the impact of regulatory changes, litigation, investigations and inquiries;

any remaining resolutions or outcomes with respect to Cendant Corporation's contingent liabilities, including any adverse impact on our future cash flows;

any adverse resolution of litigation, governmental proceedings or arbitration awards; and

new types of taxes or increases in state, local or federal taxes that could diminish profitability or liquidity.

Should one or more of these risks or uncertainties materialize, or should any of these assumptions prove incorrect, our actual results may vary in material respects from those projected in these forward-looking statements. You should consider these important factors, as well as the risk factors set forth in our Annual Report filed on Form 10-K for the year ended December 31, 2012 (the "10-K"), which is incorporated by reference, the accompanying prospectus and in the other documents incorporated by reference herein and therein, in evaluating any statement made in this prospectus supplement.

Any forward-looking statement made by us in this prospectus supplement, the accompanying prospectus or in any documents incorporated by reference herein speaks only as of the date on which we make it. TRADEMARKS AND SERVICE MARKS

We own or have rights to use the trademarks, service marks and trade names that we use in conjunction with the operation of our business. Some of the more important trademarks that we own or have rights to use that appear in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein, include the CENTURY 21[®], COLDWELL BANKER[®], ERA[®], THE CORCORAN GROUP[®], COLDWELL BANKER COMMERCIAL[®], SOTHEBY'S INTERNATIONAL REALTY[®] and BETTER HOMES AND GARDENS[®] REAL ESTATE marks, which are registered in the United States and/or registered or pending registration in other jurisdictions, as appropriate, to the needs of our relevant business. Each trademark, trade name or service mark of any other company appearing in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein, is owned by such company.

MARKET AND INDUSTRY DATA AND FORECASTS

This prospectus supplement includes and incorporates by reference data, forecasts and information obtained from independent trade associations, industry publications and surveys and other information available to us. Some data is also based on our good faith estimates, which are derived from management's knowledge of the industry and independent sources. The National Association of Realtors (NAR), Fannie Mae and Freddie Mac were the primary sources for third-party industry data and forecasts. While data provided by NAR and Fannie Mae are two indicators of the direction of the residential housing market, we believe that homesale statistics will continue to vary between us, on the one hand, and NAR and Fannie Mae, on the other, because they use survey data in their historical reports and forecasting models whereas we use data based on actual reported results. In addition to the differences in calculation methodologies, there are geographical differences and concentrations in the markets in which we operate versus the national market. For instance, comparability is impaired due to NAR's utilization of seasonally adjusted annualized rates whereas we report actual period over period changes and their use of median price for their forecasts compared to our average price. Additionally, NAR data is subject to periodic review and revision. While we believe that the industry data presented herein is derived from the most widely recognized sources for reporting U.S. residential housing market statistical data, we do not endorse or suggest reliance on this data alone.

Forecasts regarding rates of home ownership, median sales price, volume of homesales and other metrics included in the documents incorporated by reference herein to describe the housing industry are inherently uncertain or speculative in nature and actual results for any period may materially differ. Industry publications and surveys and forecasts generally state that the information contained therein has been obtained from sources believed to be reliable, but such information may not be accurate or complete. We have not independently verified any of the data from third-party sources nor have we ascertained the underlying economic assumptions relied upon therein. Statements as to our market position are based on market data currently available to us. While we are not aware of any misstatements regarding industry data provided herein, our estimates involve risks and uncertainties and are subject to change based upon various factors, including those discussed under the headings Risk Factors and Forward-Looking Statements and other factors discussed in the documents incorporated by reference herein. Similarly, we believe our internal research is reliable, even though such research has not been verified by any independent sources.

PROSPECTUS SUPPLEMENT SUMMARY

*This summary highlights information contained elsewhere in, or incorporated by reference into, this prospectus supplement and the accompanying prospectus. You should read in their entirety this prospectus supplement, the accompanying prospectus and any related free writing prospectus, together with all documents incorporated by reference herein and therein, carefully before making an investment decision to purchase our common stock. You should also carefully consider the matters discussed, and incorporated by reference herein and therein, including in the section entitled *Risk Factors* in the 10-K. All amounts in this prospectus supplement are expressed in U.S. dollars and the financial statements have been prepared in accordance with generally accepted accounting principles in the United States (GAAP).*

Our Company

We are the preeminent and most integrated provider of residential real estate services in the U.S. We are the world's largest franchisor of residential real estate brokerages with some of the most recognized brands in the real estate industry, the largest owner of U.S. residential real estate brokerage offices, the largest U.S. and a leading global provider of outsourced employee relocation services and a significant provider of title and settlement services. Our owned and franchised brokerage businesses are more than two and a half times larger than their nearest competitor and, in 2012, we were involved in approximately 26% of domestic existing homesale transaction volume that involved a real estate brokerage firm. Our revenue is derived on a fee-for-service basis, and given our breadth of complementary service offerings, we are able to generate fees from multiple aspects of a residential real estate transaction. Our operating platform is supported by our portfolio of industry leading franchise brokerage brands, including Century 21[®], Coldwell Banker[®], Coldwell Banker Commercial[®], ERA[®], Sotheby's International Realty[®] and Better Homes and Gardens[®] Real Estate and we also own and operate the Corcoran Group[®] and CitiHabitats brands. Our multiple brands and operations allow us to derive revenue from many different segments of the residential real estate market, in many different geographies and at varying price points.

Recent Developments

The following preliminary, unaudited financial information reflects our expectations with respect to our results of operations for the quarter ended June 30, 2013, based on currently available information. We have not yet finalized our financial statements as of and for the quarter ended June 30, 2013, and our independent registered public accounting firm has not audited, reviewed, compiled or performed any procedures with respect to the preliminary financial information presented below and accordingly does not express an opinion or any form of assurance with respect thereto. Actual results for the period may differ materially from the preliminary estimates presented below.

Preliminary Results for the Quarter Ended June 30, 2013

Net revenue for the three months ended June 30, 2013 is expected to be in the range of \$1.529 billion to \$1.539 billion, representing an increase of 17% to 18% compared to the three months ended June 30, 2012. Adjusted EBITDA for the three months ended June 30, 2013 is expected to be in the range of \$276 million to \$280 million, representing a 26% to 28% increase compared to the three months ended June 30, 2012. Net income attributable to Realogy Holdings for the quarter is expected to be in the range of \$80 million to \$90 million, an improvement of approximately \$110 million compared to the three months ended June 30, 2012. The 2013 second quarter net income is after taking into account approximately \$67 million of interest expense, \$44 million of depreciation and amortization, \$43 million of loss on the early extinguishment of debt and \$26 million of expense relating to the April 2013 issuance of common stock under the phantom value plan, which was primarily non-cash. Basic earnings per share for the three months ended June 30, 2013 is expected to be in the range of \$0.55 to \$0.62, or, excluding the loss on early extinguishment of debt and phantom value plan expense, \$1.03 to \$1.09.

Table of Contents

The significant improvement in our expected second quarter Adjusted EBITDA is a result of our increased homesale transaction volume, the strength of our business model and the strength of the housing market recovery. Our homesale transaction volume increased 21% year-over-year during the quarter, which is four percentage points higher than the top end of our prior guidance issued on May 1, 2013. The increased volume is attributed to demand outstripping supply, moderately improved inventory levels and continued historically high affordability levels despite a rising mortgage rate environment.

On a combined basis, which includes RFG and NRT, our overall second quarter homesale transaction volume (homesale transaction sides times average sale price) improved 21% year-over-year (compared to our previously stated guidance range of 14% to 17% issued on May 1, 2013). Specifically, RFG had a 10% increase in homesale transaction sides and a 10% increase in average homesale price year-over-year during the second quarter to approximately \$237,000, while NRT, with its concentration in 35 major metropolitan markets, had a 12% increase in homesale transaction sides and a 7% increase in average homesale price to approximately \$478,000.

Based on the visibility we have into the coming months from our open contracts in June and July, we currently anticipate third quarter 2013 homesale transaction volume to increase in the high teens year-over-year on a RFG and NRT combined basis, leading to continued strength in revenue and EBITDA growth in the third quarter.

In addition, the number of business days in the second quarter of 2013 was unchanged from the second quarter of 2012, whereas the third quarter of 2013 will include one additional business day compared to the same period in 2012.

At June 30, 2013, our net debt was \$4.0 billion, which included \$140 million of borrowings under our revolving credit facility.

A reconciliation of net income (loss) attributable to Realogy Holdings to Adjusted EBITDA for the three months ended June 30, 2012 and the anticipated range of net income attributable to Realogy Holdings to Adjusted EBITDA for the three months ended June 30, 2013 is set forth in the following table:

Redemptions and Notes Offering

In April 2013, Realogy Holdings used the remaining net proceeds from its initial public offering, cash on hand and for the 12.00% Senior Notes only, borrowings under its revolving credit facility to redeem (i) all of the approximately \$130 million aggregate outstanding principal amount of its 12.00% Senior Notes for a total consideration of approximately \$138 million, which amount included the applicable redemption premium and accrued interest and (ii) all of the approximately \$200 million aggregate outstanding principal amount of its 12.375% Senior Subordinated Notes and 13.375% Senior Subordinated Notes for a total consideration of approximately \$201 million, which amount included accrued interest and for the 13.375% Senior Subordinated Notes, the applicable redemption premium.

On April 26, 2013, Realogy Group, our indirect wholly-owned subsidiary, issued \$500 million aggregate principal amount of 3.375% Senior Notes, and the net proceeds of approximately \$494 million from that offering, together with borrowings under its revolving credit facility, were used to redeem all of the \$492 million aggregate outstanding principal amount of its 11.50% Senior Notes. On May 28, 2013, Realogy Group completed the 11.50% Senior Notes redemption and paid total consideration of approximately \$527 million, which included the applicable redemption premium and accrued interest.

April 2013 Secondary Offering and this Offering

On April 16, 2013, the Company completed a public offering of 40.25 million shares of its common stock, which were offered by the selling stockholders in this offering at a price of \$44.00 per share (the April 2013 Offering). The Company did not receive any proceeds from the April 2013 Offering, and after completion of that offering, funds affiliated with or managed by Apollo Management VI, L.P., an entity affiliated with Apollo Management, L.P. (collectively referred to as Apollo), held approximately 25.1 million shares of common stock equal to an approximate 17% ownership interest in the Company.

After giving effect to this offering, the selling stockholders will no longer own any common stock of the Company and the existing securityholders agreement with such selling stockholders will terminate.

Pursuant to the terms of our Phantom Value Plan, certain of our executive officers are eligible to receive payment, at their election, in shares of our common stock, cash or a combination thereof, as a result of the sale of shares of common stock by RCIV Holdings (Luxembourg) S.à r.l, a selling stockholder in this offering and an affiliate of Apollo. Such officers have elected to receive all of such payment in shares of common stock which would result in an aggregate payment of 413,131 shares of common stock to such officers following this offering (consisting of 359,247 unrestricted shares, before giving effect to the forfeiture of shares to pay the officers' minimum withholding taxes upon issuance of the shares, and 53,884 shares in restricted stock awards) and, assuming a price per share of \$47.57 (the purchase price for this offering), a third quarter 2013 charge of approximately \$18 million. In addition, we will recognize a \$26 million charge in the second quarter 2013 related to the issuance of shares pursuant to elections of certain of our executive officers under the Phantom Plan in connection with the April 2013 Offering (consisting of 575,515 unrestricted shares, or 302,973 net shares after giving effect to the forfeiture of 272,542 of such shares to pay the officers' minimum withholding taxes upon issuance of the shares, and 86,322 shares in restricted stock awards). See also Capitalization.

Board of Directors

On June 26, 2013, Jessica M. Bibliowicz and Fiona P. Dias were appointed to our board of directors (the Board of Directors). Concurrent with these appointments, we announced the resignation of Scott M. Kleinman from our Board of Directors. Ms. Bibliowicz and Ms. Dias have been determined by the Board of Directors to be independent directors for purposes of the listing standards of the NYSE.

We have been informed by Apollo that immediately following the closing of this offering, Travis W. Hennings and M. Ali Rashid, representatives of Apollo, will resign from our Board of Directors. As a result, our Board of Directors will consist of five independent directors, our Chairman and Chief Executive Officer, and one non-management director who is not independent. We continue to consider potential candidates for inclusion on our Board of Directors as additional independent directors.

Our results of operations for the three months ended March 31, 2013 are not necessarily indicative of the results that may be expected for the full year.

The summary historical consolidated financial data and operating statistics presented below should be read in conjunction with the sections in this prospectus supplement titled *Use of Proceeds* and *Capitalization* and our consolidated financial statements, the accompanying notes and the other financial information incorporated by reference in this prospectus supplement.

- (1) Total expenses for the year ended December 31, 2012 includes costs related to our October 2012 initial public offering (IPO) of \$361 million, composed of a non-recurring cash fee of approximately \$105 million paid to certain significant holders of the Convertible Notes (attributable to the semi-annual interest payment thereon) and a non-cash expense of \$256 million relating to shares of common stock issued to holders of the Convertible Notes pursuant to letter agreements entered into in connection with the IPO.
- (2) If the IPO and related transactions as described in our final prospectus filed with the SEC on October 11, 2012 had been completed on January 1, 2012, our interest expense, net, and net loss attributable to Realogy Holdings for the year ended December 31, 2012 of \$528 million and \$543 million, respectively, would each have been reduced by \$233 million. If the \$105 million cash fee amount described in note (1) had been included in interest expense and not reflected as an IPO-related cost due to the letter agreements entered into with Convertible Note holders, our 2012 annualized cash interest savings would have been \$338 million.
- (3) We define EBITDA as net income (loss) attributable to Realogy Holdings before depreciation and amortization, interest expense, net (other than relocation services interest for securitization assets and securitization obligations) and income taxes. We believe EBITDA facilitates company-to-company operating performance comparisons by backing out potential differences caused by variations in capital structures (affecting net interest expense), taxation, the age and book depreciation of facilities (affecting relative depreciation expense) and the amortization of intangibles, which may vary for different companies for reasons unrelated to operating performance. We further believe that EBITDA is frequently used by investors, securities analysts and other interested parties in their evaluation of companies, many of which present an EBITDA measure when reporting their results.

Adjusted EBITDA calculated for a 12-month period corresponds to the definition of EBITDA, calculated on a pro forma basis, used in our senior secured credit facility to calculate the senior secured leverage ratio. Adjusted EBITDA includes adjustments to EBITDA for merger costs, restructuring costs and former parent legacy costs (benefit), net, IPO related costs for the Convertible Notes, loss on the early extinguishment of debt, pro forma cost savings for restructuring initiatives, pro forma effect of business optimization initiatives, non-cash charges, non-recurring fair value adjustments for purchase accounting, pro forma effect of acquisitions and new franchisees, Apollo management fees, fees for secondary offering and incremental securitization interest costs, in each case calculated as of the beginning of the 12-month period. Adjusted EBITDA calculated for a three-month period adjusts for the same items as for a 12-month period, except that the pro forma effect of cost savings, business optimizations and acquisitions and new franchisees are calculated as of the beginning of the three-month period instead of the 12-month period. EBITDA and Adjusted EBITDA are supplemental measures of performance that are not required by, or presented in accordance with GAAP, and may be calculated differently by other companies, including other companies in our industry, limiting their usefulness as comparative measures. EBITDA and Adjusted EBITDA should not be considered in isolation or as a substitute to any GAAP measures and should be assessed alongside other performance measures, including operating income, net income and our other GAAP results. For further discussion of EBITDA and Adjusted EBITDA, see the section entitled Management's Discussion and Analysis of Financial Condition and Results of Operations Non-GAAP Financial Measures in our 10-K incorporated herein by reference.

Set forth in the table below is a reconciliation of net loss attributable to Realogy Holdings to Adjusted EBITDA as calculated in accordance with the senior secured credit facility and presented in certificates delivered to the lenders under the senior secured credit facility for the years ended December 31, 2012, 2011 and 2010 and for the twelve months ended March 31, 2013. We have derived the Adjusted EBITDA data for the twelve months ended March 31, 2013 by adding the data for the year ended December 31, 2012 and the three months ended March 31, 2013 and then subtracting the data for the three months ended March 31, 2012.

We have made a number of assumptions in calculating such estimates and there can be no assurance that we would have generated the projected levels of EBITDA had we owned the acquired entities or entered into the franchise contracts at the

beginning of the period.

Table of Contents

- (1) These amounts include all franchisees except for our Company Owned Real Estate Brokerage Services segment.
- (2) A closed home sale side represents either the buy side or the sell side of a homesale transaction. The first quarter of 2013 contained one less business day than the first quarter of 2012, which adversely impacted the first quarter 2013 homesale transaction volume by approximately 2% compared to the prior year period.
- (3) Represents the average selling price of closed homesale transactions.
- (4) Represents the average commission rate earned on either the buy side or sell side of a homesale transaction.
- (5) Represents the average percentage of our franchisees' commission revenue (excluding NRT) paid to the Real Estate Franchise Services segment as a royalty. The net effective royalty rate does not include the effect of non-standard incentives granted to some franchisees. Royalty fees are charged to all franchisees pursuant to the terms of the relevant franchise agreements and are included in each of the real estate brands' franchise disclosure documents. Non-standard incentives are occasionally used by the sales force as consideration for new or renewing franchisees. Due to the limited number of franchisees that receive these non-standard incentives, we believe excluding such incentives from the net effective royalty rate provides a more meaningful average for typical franchisees. We anticipate that as the housing market recovery continues and our franchise revenues increase, the impact of these non-standard incentives on the net effective royalty rate will decrease accordingly. The inclusion of these non-standard incentives would reduce the net effective royalty rate by approximately 16 basis points for the year ended December 31, 2012.
- (6) Represents net domestic royalties earned from our franchisees (excluding NRT) divided by the total number of our franchisees' closed homesale sides.
- (7) Our real estate brokerage business has a significant concentration of offices and transactions in geographic regions where home prices are at the higher end of the U.S. real estate market, particularly the east and west coasts. The real estate franchise business has franchised offices that are more widely dispersed across the United States than our real estate brokerage operations. Accordingly, operating results and homesale statistics may differ between our brokerage and franchise businesses based upon geographic presence and the corresponding homesale activity in each geographic region.
- (8) Represents gross commission income divided by closed homesale sides. Gross commission income includes commissions earned in homesale transactions and certain other activities, primarily leasing and property management transactions.
- (9) Represents the total number of transferees served by the relocation services business. Revenue is recognized when services are performed. The amounts presented for the year ended December 31, 2010 include 26,087 initiations as a result of the acquisition of Primacy in January 2010.
- (10) Represents the number of completed referral transactions from which we earned revenue from real estate brokers. The amounts presented for the year ended December 31, 2010 include 4,997 referrals as a result of the acquisition of Primacy in January 2010.
- (11) Represents the number of title and closing units processed as a result of a home purchases.
- (12) Represents the number of title and closing units processed as a result of homeowners refinancing their home loans.
- (13) Represents the average fee we earn on purchase title and refinancing title units.

- and the 13.375% Senior Subordinated Notes, including related redemption premiums but excluding accrued and unpaid interest. We anticipate that our annualized cash interest savings from the redemption of such notes, the amendment and restatement of our senior secured credit facility completed in March 2013, the issuance of the 3.375% Senior Notes and incremental borrowings under our revolving credit facility will be approximately \$71 million, based on our debt balances as of March 31, 2013, and assuming LIBOR rates as of March 31, 2013. On March 31, 2013, we had approximately \$135 million outstanding under the revolving credit facility and no outstanding letters of credit under such facility, leaving \$340 million of available capacity. See also Note (1).
 - (3) The term loan facility is \$1,920 million less a discount of \$19 million. The interest rates with respect to term loans under the term loan facility are based on, at our option, (a) adjusted LIBOR plus 3.50% (with a LIBOR floor of 1.00%) or (b) ABR plus 2.50% (with an ABR floor of 2.0%).
 - (4) Consists of \$492 million of 11.50% Senior Notes, less a discount of \$2 million.
 - (5) Consists of \$130 million of 12.00% Senior Notes, less a discount of \$1 million.
 - (6) Consists of \$190 million of 12.375% Senior Subordinated Notes, less a discount of \$2 million.
 - (7) As adjusted accumulated deficit was reduced by \$43 million due to the loss on the early extinguishment of the 12.375% Senior Subordinated Notes, the 13.375% Senior Subordinated Notes, the 12.00% Senior Notes and the 11.50% Senior Notes. Accumulated deficit does not include charges relating to the Phantom Value Plan. Pursuant to the terms of the Realogy Group Phantom Value Plan, certain of the Company's executive officers are eligible to receive cash payment, or at their election, shares of the Company's common stock, or a combination thereof, as a result of the sale of shares of common stock held by RCIV Holdings (Luxembourg), a selling stockholder in the April 2013 Offering as well as a selling stockholder in this offering and an affiliate of Apollo. All of the participants elected to receive their payment in shares of common stock in connection with the April 2013 Offering, pursuant to which we issued 575,515 unrestricted shares, or 302,973 net shares after giving effect to the forfeiture of 272,542 of such shares to pay the officers' minimum withholding taxes upon issuance of the shares, and 86,322 shares in restricted stock awards. The participants have also elected to receive payment in shares of common stock in connection with this offering. Therefore such officers will receive 359,247 unrestricted shares of common stock equal to the dollar amount then due (before giving effect to the forfeiture of shares to pay the officers' minimum withholding taxes upon issuance of the shares), plus 53,884 restricted shares of common stock. The restricted shares of common stock will vest based on the participants continued employment, on the first anniversary of issuance. Assuming a price per share of \$47.57 (the purchase price for this offering), the Company will recognize a third quarter 2013 charge of approximately \$18 million and approximately \$1 million in each of the next three quarters related to this offering. The Company will also recognize a non-cash charge of approximately \$26 million in the second quarter of 2013 and approximately \$1 million in each of the next three quarters related to the issuance of shares under the Phantom Plan in connection with the April 2013 Offering.
 - (8) Total capitalization excludes our securitization obligations which are collateralized by relocation related assets and appear in our current liabilities.

DIVIDEND POLICY

We do not currently anticipate paying dividends on our common stock. Any declaration and payment of future dividends to holders of our common stock will be at the discretion of our Board of Directors and will depend on many factors, including our financial condition, earnings, cash flows, capital requirements, level of indebtedness, statutory and contractual restrictions applicable to the payment of dividends and other considerations that our Board of Directors deems relevant. See the section in the 10-K titled Risk Factors Risks Related to an Investment in Our Common Stock We have no plans to pay regular dividends on our common stock, so stockholders may not receive funds without selling their common stock. Because Realogy Holdings is a holding company and has no direct operations, we will only be able to pay dividends from our available cash on hand and any funds we receive from our subsidiaries. The terms of our indebtedness restrict our subsidiaries from paying dividends to us. Our title insurance underwriter is subject to regulations that limit its ability to pay dividends or make loans or advances to us, principally to protect policyholders. Under Delaware law, dividends may be payable only out of surplus, which is our net assets minus our liabilities and our capital, or, if we have no surplus, out of our net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year. As a result, we may not pay dividends according to our policy or at all, if, among other things, we do not have sufficient cash to pay the intended dividends, if our financial performance does not achieve expected results or the terms of our indebtedness prohibit it.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

FOR NON-U.S. HOLDERS OF COMMON STOCK

The following is a summary of certain U.S. federal income tax considerations relevant to non-U.S. holders (as defined below) with respect to the ownership and disposition of our common stock. The following summary is based on current provisions of the Code, Treasury regulations and judicial and administrative authority, all of which are subject to change, possibly with retroactive effect. State, local, estate and foreign tax consequences are not summarized, nor are tax consequences to special classes of investors including, but not limited to, tax-exempt organizations, insurance companies, banks or other financial institutions, partnerships or other entities classified as partnerships for U.S. federal income tax purposes, dealers in securities, persons liable for the alternative minimum tax, U.S. expatriates, traders in securities that elect to use a mark-to-market method of accounting for their securities holdings, persons who have acquired our common stock as compensation or otherwise in connection with the performance of services, or persons that will hold our common stock as a position in a hedging transaction, straddle, conversion transaction or other risk reduction transaction. Tax consequences may vary depending upon the particular status of an investor. The summary is limited to non-U.S. holders who will hold our common stock as capital assets (generally, property held for investment). Each potential investor should consult its own tax advisor as to the U.S. federal, state, local, foreign and any other tax consequences of the purchase, ownership and disposition of our common stock.

For purposes of this summary, the term non-U.S. holder means a beneficial owner of our common stock that, for U.S. federal income tax purposes, is: (i) an individual who is classified as a non-resident of the United States, (ii) a foreign corporation, or (iii) a foreign estate or foreign trust.

If a partnership (including any entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds our common stock, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. If you are treated as a partner in such an entity holding our common stock, you should consult your own tax advisor as to the particular U.S. federal income tax consequences applicable to you.

Distributions

Distributions with respect to our common stock will be treated as dividends to the extent paid from our current or accumulated earnings and profits as determined for U.S. federal income tax purposes. Generally, distributions treated as dividends paid to a non-U.S. holder with respect to our common stock will be subject to a 30% U.S. withholding tax, or such lower rate as may be specified by an applicable income tax treaty.

Dividends that are effectively connected with a non-U.S. holder's conduct of a trade or business within the United States (and, if a tax treaty applies, are attributable to a U.S. permanent establishment of such non-U.S. holder) are generally subject to U.S. federal income tax on a net income basis in the same manner as if the non-U.S. holder were a United States person, as defined under the Code, and are exempt from the 30% withholding tax (assuming compliance with certain certification requirements). Any such effectively connected dividends received by a non-U.S. holder that is a corporation may also, under certain circumstances, be subject to an additional branch profits tax at a rate of 30% (or lower applicable treaty rate). A non-U.S. holder who claims the benefit of an applicable tax treaty generally will be required to satisfy applicable certification and other requirements. Non-U.S. holders should consult their own tax advisors regarding their entitlement to benefits under a relevant tax treaty. A non-U.S. holder can generally meet the relevant certification requirement by providing a properly executed IRS Form W-8BEN (if the holder is claiming the benefits of an income tax treaty) or Form W-8ECI (if the dividends are effectively connected with a trade or business in the United States) or suitable substitute form.

Dispositions

Subject to the discussion below concerning backup withholding, a non-U.S. holder generally will not be subject to U.S. federal income or withholding tax with respect to gain realized on the sale, exchange or other

Table of Contents

disposition of our common stock unless (i) the gain is effectively connected with such non-U.S. holder's conduct of a trade or business within the United States (and, if a tax treaty applies, is attributable to a U.S. permanent establishment of such non-U.S. holder), (ii) in the case of a non-U.S. holder that is a non-resident alien individual, such non-U.S. holder is present in the United States for 183 or more days in the taxable year of disposition, and certain other conditions are met or (iii) we are or have been a United States real property holding corporation for U.S. federal income tax purposes.

In the case described above in (i), the gain on the disposition of our common stock will be recognized in an amount equal to the difference between the amount of cash and the fair market value of any other property received for the common stock and the non-U.S. holder's basis in the common stock. Such gain or loss generally will be capital gain or loss and will be long-term capital gain or loss if the common stock has been held for more than one year. In the case of a non-U.S. holder that is a foreign corporation, such gain may also be subject to an additional branch profits tax at a rate of 30% (or a lower applicable treaty rate). In the case described above in (ii), the non-U.S. holder generally will be subject to a flat income tax at a rate of 30% (or lower applicable treaty rate) on any capital gain recognized on the disposition of our common stock, which may be offset by certain U.S. source capital losses.

We believe we are not and do not anticipate becoming a United States real property holding corporation for U.S. federal income tax purposes.

Information Reporting and Backup Withholding

Payment of dividends, and the tax withheld with respect thereto, is subject to information reporting requirements. These information reporting requirements apply regardless of whether withholding was reduced or eliminated by an applicable income tax treaty. Under the provisions of an applicable income tax treaty or agreement, copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which the non-U.S. holder resides. U.S. backup withholding will generally apply on payment of dividends to non-U.S. holders unless such non-U.S. holders furnish to the payor an IRS Form W-8BEN (or other applicable form), or otherwise establish an exemption and the payor does not have actual knowledge or reason to know that the holder is a United States person, as defined under the Code, that is not an exempt recipient.

Payment of the proceeds of a sale of our common stock within the United States or conducted through certain U.S.-related financial intermediaries is subject to information reporting and, depending on the circumstances, backup withholding, unless the non-U.S. holder, or beneficial owner thereof, as applicable, certifies that it is a non-U.S. holder on IRS Form W-8BEN (or other applicable form), or otherwise establishes an exemption and the payor does not have actual knowledge or reason to know the holder is a United States person, as defined under the Code, that is not an exempt recipient.

Any amount withheld under the backup withholding rules from a payment to a non-U.S. holder is allowable as a credit against such non-U.S. holder's U.S. federal income tax, which may entitle the non-U.S. holder to a refund, provided that the non-U.S. holder timely provides the required information to the IRS. Moreover, certain penalties may be imposed by the IRS on a non-U.S. holder who is required to furnish information but does not do so in the proper manner. Non-U.S. holders should consult their own tax advisors regarding the application of backup withholding in their particular circumstances and the availability of and procedure for obtaining an exemption from backup withholding.

Foreign Account Tax Compliance Act

After June 30, 2014, withholding at a rate of 30% will generally be required on dividends in respect of, and, after December 31, 2016, gross proceeds from the sale or other disposition of, our common stock held by or through certain foreign financial institutions (including investment funds), unless such institution enters into an

Table of Contents

agreement with the Secretary of the Treasury to report, on an annual basis, information with respect to shares in, and accounts maintained by, the institution to the extent such shares or accounts are held by certain United States persons or by certain non-U.S. entities that are wholly or partially owned by United States persons and to withhold on certain payments. An intergovernmental agreement between the United States and an applicable foreign country, or future United States Treasury regulations, may modify these requirements. Accordingly, the entity through which our common stock is held will affect the determination of whether such withholding is required. Similarly, dividends in respect of, and gross proceeds from the sale of, our common stock held by an investor that is a non-financial non-U.S. entity that does not qualify under certain exemptions will be subject to withholding at a rate of 30%, unless such entity either (i) certifies to us that such entity does not have any substantial United States owners or (ii) provides certain information regarding the entity's substantial United States owners, which we will in turn provide to the Secretary of the Treasury. We will not pay any additional amounts to holders in respect of any amounts withheld. Non-U.S. holders are encouraged to consult their tax advisors regarding the possible implications of the legislation on their investment in our common stock.

UNDERWRITING

Goldman, Sachs & Co. and J.P. Morgan Securities LLC are acting as the underwriters in connection with this offering. Subject to the terms and conditions set forth in an underwriting agreement among us, the selling stockholders and the underwriters, the underwriters have agreed to purchase 25,125,070 shares of common stock from the selling stockholders at a price of \$47.57 per share, which will result in approximately \$1.2 billion of proceeds to the selling stockholders.

The underwriting agreement provides that the underwriters' obligation to purchase shares of common stock depends on the satisfaction of the conditions contained in the underwriting agreement including:

the obligation to purchase all of the shares of common stock offered hereby, if any of the shares are purchased;

that the representations and warranties made by us and the selling stockholders to the underwriters are true;

that there is no material change in our business or the financial markets; and

that we and the selling stockholders deliver customary closing documents to the underwriters.

We and the selling stockholders have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities. The offering of shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

The underwriters may receive from purchasers of the shares nominal brokerage commissions in amounts agreed with the purchasers. The underwriters propose to offer the shares of common stock for sale from time to time in one or more transactions on the NYSE, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices, subject to receipt and acceptance by the underwriters and subject to their right to reject any order in whole or in part. The underwriters may effect such transactions by selling the shares of common stock to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or purchasers of shares of common stock for whom they act as agents or to whom they sell as principals. The difference between the price at which the underwriters purchase shares of common stock and the price at which the underwriters resell such shares of common stock may be deemed underwriting compensation.

The expenses of the offering are estimated at \$0.9 million and are payable by us.

Lock-Up Agreement

We have agreed that, subject to certain exceptions, for 45 days after the date of this prospectus supplement, without the prior written consent of both underwriters, we will not directly or indirectly, (1) offer for sale, sell, pledge, or otherwise dispose of (or enter into any transaction or device that is designed to, or could be expected to, result in the disposition by any person at any time in the future of) any shares of our common stock (including, without limitation, shares of our common stock that may be deemed to be beneficially owned by us in accordance with the rules and regulations of the SEC and shares of common stock that may be issued upon exercise of any options or warrants) or securities convertible into or exercisable or exchangeable for our common stock, (2) enter into any swap or other derivatives transaction that transfers to another, in whole or in part, any of the economic consequences of ownership of our common stock or (3) make any demand for or exercise any right or file or cause to be filed a registration statement, including any amendments thereto, with respect to the registration of any shares of our common stock or securities convertible, exercisable or exchangeable into our common stock or any of our other securities.

Table of Contents

The underwriters, in their discretion, may release our common stock and other securities subject to the lock-up agreement described above in whole or in part at any time with or without notice. When determining whether or not to release our common stock and other securities from the lock-up agreement, the underwriters will consider, among other factors, our reasons for requesting the release, the number of shares of our common stock and other securities for which the release is being requested and market conditions at the time.

Listing

Our common stock is listed on the NYSE under the symbol `RLGY`.

Price Stabilization, Short Positions and Penalty Bids

Until the distribution of the shares is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing our common stock. However, the underwriters may engage in transactions that stabilize the price of the common stock, such as bids or purchases to peg, fix or maintain that price.

In connection with the offering, the underwriters may purchase and sell our common stock in the open market. These transactions may include short sales, purchases on the open market to cover positions created by short sales and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. Covered short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares described above. The underwriters may close out any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the option to purchase additional shares. Naked short sales are sales in excess of the option to purchase additional shares. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of shares of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the underwriter has repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. The underwriters may conduct these transactions on the NYSE, in the over-the-counter market or otherwise.

None of us, the selling stockholders or any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. In addition, none of us, the selling stockholders or any of the underwriters make any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Electronic Distribution

In connection with the offering, certain of the underwriters or securities dealers may distribute prospectus supplements by electronic means, such as e-mail.

Surplus is defined as the excess, if any, at any given time, of the total assets of a corporation over its total liabilities and statutory capital. The value of a corporation's assets can be measured in a number of ways and may not necessarily equal their book value.

Liquidation Rights. Upon liquidation, dissolution or winding up, the holders of common stock are entitled to receive ratably the assets available for distribution to the stockholders after payment of liabilities and accrued but unpaid dividends and liquidation preferences on any outstanding preferred stock.

Other Matters. The common stock has no preemptive, subscription or conversion rights. There are no redemption or sinking fund provisions applicable to the common stock. All outstanding shares of our common stock are fully paid and non-assessable.

Preferred Stock

Pursuant to our amended and restated certificate of incorporation, shares of preferred stock are issuable from time to time, in one or more series, with the designations of the series, the dividend rates and whether such dividends will be cumulative or non-cumulative, the voting conversion or exchange rights of the shares of the series (if any), redemption rights, whether or not the shares of the series will be entitled to the benefit of a retirement or sinking fund, liquidation rights, the powers, preferences and relative, participation, optional or other special rights (if any), and any qualifications, limitations or restrictions thereof as our Board of Directors from time to time may adopt by resolution (and without further stockholder approval), subject to certain limitations. Each series will consist of that number of shares as will be stated and expressed in the certificate of designations providing for the issuance of the stock of the series, which number may be increased or decreased from time to time by the Board Directors. All shares of any one series of preferred stock will be identical.

Composition of Board of Directors; Election and Removal of Directors; Number of Directors

In accordance with our amended and restated certificate of incorporation and our amended and restated bylaws, the number of directors comprising our Board of Directors will be determined from time to time by our Board of Directors, and only a majority of the Board of Directors may fix the number of directors; provided that in no event shall the total number of directors be less than three nor more than fifteen.

At the date of this prospectus, the Board of Directors consists of eight members, four of whom are non-management Directors and three of whom are independent directors under applicable listing standards and our corporate governance documents. The Board of Directors is currently divided into three classes, each with three-year terms (other than with respect to the initial terms of the Class I and Class II directors, which are one and two years, respectively), so that one-third of the Directors, or as near to one-third as possible, are elected at each annual meeting for three-year terms.

The classes of directors are as follows:

V. Ann Hailey, M. Ali Rashid and Brett White are Class I Directors, whose initial term will expire at the 2013 annual meeting of stockholders to be held on May 7, 2013;

Travis W. Hennings and Scott M. Kleinman are Class II Directors, whose initial term will expire at the 2014 annual meeting of stockholders; and

Marc E. Becker, Richard A. Smith and Michael J. Williams are Class III Directors, whose initial term will expire at the 2015 annual meeting of stockholders.

The classification of directors has the effect of making it more difficult for stockholders to change the composition of our Board of Directors. Each director is to hold office until his successor is duly elected and qualified or until his earlier death, resignation or removal. Any vacancies on our Board of Directors may be filled

Table of Contents

only by the affirmative vote of a majority of the remaining directors, although less than a quorum. Our amended and restated certificate of incorporation provides that stockholders do not have the right to cumulative votes in the election of directors. At any meeting of our Board of Directors, except as otherwise required by law, a majority of the total number of directors then in office will constitute a quorum for all purposes.

Special Meetings of Stockholders

Our amended and restated bylaws provide that special meetings of the stockholders may be called only by the majority of the Board of Directors or the chairman of the Board of Directors, and only proposals included in the company's notice may be considered at such special meetings.

Certain Corporate Anti-Takeover Provisions

Certain provisions in our amended and restated certificate of incorporation, amended and restated bylaws and the Amended and Restated Securityholders Agreement dated as of October 12, 2012 between us and investment funds affiliated with, or co-investment vehicles managed by, Apollo Management VI, L.P. (collectively, the Apollo Funds) that indirectly beneficially own our common stock (the Apollo Securityholders Agreement) may be deemed to have an anti-takeover effect and may delay, deter or prevent a tender offer or takeover attempt that a stockholder might consider to be in its best interests, including attempts that might result in a premium being paid over the market price for the shares held by stockholders. The Apollo Funds are affiliates of Apollo Global Management, LLC (together with its subsidiaries, Apollo). See Certain Relationships and Related Transactions, and Director Independence Apollo Securityholders Agreement in Part III, Item 13 of our Annual Report on Form 10-K for the year ended December 31, 2012, incorporated by reference herein.

Preferred Stock

Our amended and restated certificate of incorporation contains provisions that permit our Board of Directors to issue, without any further vote or action by the stockholders, shares of preferred stock in one or more series and, with respect to each such series, to fix the number of shares constituting the series and the designation of the series, the dividend rates and whether such dividends will be cumulative or non-cumulative, the voting conversion or exchange rights of the shares of the series (if any), redemption rights, whether or not the shares of the series will be entitled to the benefit of a retirement or sinking fund, liquidation rights, the powers, preferences and relative, participation, optional and other special rights, if any, and any qualifications, limitations or restrictions, of the shares of such series. See Preferred Stock above.

Classified Board

Our amended and restated certificate of incorporation and amended and restated bylaws provide that our Board of Directors is divided into three classes of directors, with the classes to be as nearly equal in number as possible, and the number of directors on our Board of Directors may be fixed only by the majority of our Board of Directors, as described above in Composition of Board of Directors; Election and Removal of Directors; Number of Directors.

Removal of Directors, Vacancies

At any time if at least 25% of the voting power of all the shares of the Company is owned by the Apollo Funds and if the Apollo Funds cast their votes associated with such shares in favor of the proposed action, our stockholders will be able to remove directors only by the affirmative vote of the holders of a majority of the voting power entitled to vote for the election of directors. At any other time, our stockholders will be able to remove directors only for cause and only by the affirmative vote of the holders of 75% of the voting power entitled to vote for the election of directors. Vacancies on our Board of Directors may be filled only by a majority of our Board of Directors, although less than a quorum.

Table of Contents

No Cumulative Voting

Our amended and restated certificate of incorporation provides that stockholders do not have the right to cumulative votes in the election of directors. Cumulative voting rights would have been available to the holders of our common stock if our amended and restated articles of incorporation had not specifically provided that cumulative voting was not available.

No Stockholder Action by Written Consent; Calling of Special Meetings of Stockholders

Our amended and restated certificate of incorporation does not permit stockholder action without a meeting by consent for so long as less than a majority of the voting power of all the shares of the Company is owned by the Apollo Funds. Our amended and restated bylaws also provide that special meetings of the stockholders may be called only by a majority of the Board of Directors or the chairman of the Board of Directors, and only proposals included in the Company's notice may be considered at such special meetings.

Advance Notice Requirements for Stockholders Proposals and Director Nominations

Our amended and restated bylaws provide that stockholders seeking to bring business before an annual meeting of stockholders, or to nominate candidates for election as directors at an annual meeting of stockholders, must provide timely notice thereof in writing. To be timely, a stockholder's notice generally will have to be delivered to and received at our principal executive offices not less than 60 days nor more than 120 days prior to the first anniversary of the preceding year's annual meeting; provided, that in the event that the date of such meeting is advanced more than 30 days prior to, or delayed by more than 30 days after, the anniversary of the preceding year's annual meeting of our stockholders, a stockholder's notice to be timely will have to be so delivered not earlier than the close of business on the 120th day prior to such meeting and not later than the close of business on the later of the 90th day prior to such meeting or, if the first public announcement of the date of such annual meeting is less than 100 days prior to such meeting, the tenth day following the day on which public announcement of the date of such meeting is first made. Our amended and restated bylaws also specify certain requirements as to the form and content of a stockholder's notice. These provisions may preclude stockholders from bringing matters before an annual meeting of stockholders or from making nominations for directors at an annual meeting of stockholders.

Apollo Funds Approval Rights

At any time, if the Apollo Funds beneficially own at least 25% of the voting power of our outstanding common stock, the approval of a majority of the directors designated to the Board of Directors by the Apollo Funds will be required for, among other things, a consolidation or merger with or into any other entity, a transfer of all or substantially all of our assets to another entity or another transaction that would trigger a Change of Control as defined in our senior secured credit facility or the indentures governing our secured and unsecured notes. See Certain Relationships and Related Transactions, and Director Independence - Apollo Securityholders Agreement in Part III, Item 13 of our Annual Report on Form 10-K for the year ended December 31, 2012, incorporated by reference herein.

All the foregoing provisions of our amended and restated certificate of incorporation, amended and restated bylaws and the Apollo Securityholders Agreement could discourage potential acquisition proposals and could delay or prevent a change in control. These provisions are intended to enhance the likelihood of continuity and stability in the composition of the Board of Directors and in the policies formulated by the Board of Directors and to discourage certain types of transactions that may involve an actual or threatened change of control. These same provisions may delay, deter or prevent a tender offer or takeover attempt that a stockholder might consider to be in its best interest. In addition, such provisions could have the effect of discouraging others from making tender offers for our shares and, as a consequence, they also may inhibit fluctuations in the market price of our common stock that could result from actual or rumored takeover attempts. Such provisions also may have the effect of preventing changes in our management.

Delaware Anti-Takeover Law

Section 203 of the DGCL provides that, subject to exceptions specified therein, an interested stockholder of a Delaware corporation shall not engage in any business combination, including general mergers or consolidations or acquisitions of additional shares of the corporation, with the corporation for a three-year period following the time that such stockholder becomes an interested stockholder unless:

prior to such time, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced (excluding specified shares); or

on or subsequent to such time, the business combination is approved by the board of directors of the corporation and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least 66 2/3% of the outstanding voting stock not owned by the interested stockholder.

Under Section 203, the restrictions described above also do not apply to specified business combinations proposed by an interested stockholder following the announcement or notification of one of such specified transactions involving the corporation and a person who had not been an interested stockholder during the previous three years or who became an interested stockholder with the approval of a majority of the corporation's directors, if such transaction is approved or not opposed by a majority of the directors who were directors prior to any person becoming an interested stockholder during the previous three years or were recommended for election or elected to succeed such directors by a majority of such directors.

Except as otherwise specified in Section 203, an interested stockholder is defined to include:

any person that is the owner of 15% or more of the outstanding voting stock of the corporation, or is an affiliate or associate of the corporation and was the owner of 15% or more of the outstanding voting stock of the corporation at any time within three years immediately prior to the date of determination; and

the affiliates and associates of any such person.

Under some circumstances, Section 203 makes it more difficult for a person who is an interested stockholder to effect various business combinations with us for a three-year period. We have elected to be exempt from the restrictions imposed under Section 203.

Corporate Opportunity

Under our amended and restated certificate of incorporation, to the extent permitted by law:

any director or officer of the Company who is also an officer, director, employee, managing director or other affiliate of Apollo (each a Covered Apollo Person) has the right to, and has no duty to abstain from, exercising such right to, conduct business with any business that is competitive or in the same line of business as us, do business with any of our clients, customers, vendors or lessors, or make investments in the kind of property in which we may make investments;

if a Covered Apollo Person or any of its officers, partners, directors or employees acquire knowledge of a potential transaction that could be a corporate opportunity, he has no duty to offer such corporate opportunity to us;

we have renounced any interest or expectancy in, or in being offered an opportunity to participate in, such corporate opportunities;
and

Table of Contents

in the event that any of our directors and officers who is also a director, officer, partner or employee of any Covered Apollo Person acquires knowledge of a corporate opportunity or is offered a corporate opportunity, provided that this knowledge was not acquired solely in such person's capacity as our director or officer and such person acted in good faith, then such person will be deemed to have fully satisfied such person's fiduciary duty and will not be liable to us if any of the Apollo Covered Person pursues or acquires such corporate opportunity or if such person did not present the corporate opportunity to us.

Amendment of Our Certificate of Incorporation

Our amended and restated certificate of incorporation provides that at any time the Apollo Funds control at least 25% of the voting power of the outstanding shares of common stock, it may be amended by the affirmative vote of a majority of the outstanding stock entitled to vote thereon, so long as the Apollo Funds vote in favor of such amendment. At any other time, our amended and restated certificate of incorporation can be amended by the affirmative vote of 75% of the outstanding stock entitled to vote thereon or by the vote of a majority of the board of the directors. The Apollo Funds' prior written consent is required for any amendment, modification or repeal of the provisions discussed above under Corporate Opportunity regarding the ability of Apollo-related directors to direct or communicate corporate opportunities to Apollo.

Amendment of Our Bylaws

Our amended and restated certificate of incorporation provides that at any time the Apollo Funds control at least 25% of the voting power of the outstanding shares of common stock, the amended and restated bylaws can be amended with the affirmative vote of a majority of the outstanding stock entitled to vote thereon or by the vote of a majority of the board of the directors, so long as the Apollo Funds vote in favor of such amendment. At any other time our amended and restated certificate of incorporation provides that the amended and restated bylaws can be amended by the affirmative vote of 75% of the outstanding stock entitled to vote thereon or by the vote of a majority of the board of the directors.

Limitation of Liability and Indemnification

Our amended and restated certificate of incorporation limits the liability of our directors to the maximum extent permitted by Delaware law. Delaware law provides that directors will not be personally liable for monetary damages for breach of their fiduciary duties as directors, except with respect to liability:

for any breach of the director's duty of loyalty to us or our stockholders;

for acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law;

for any unlawful payments of dividends or unlawful stock repurchases or redemption as provided in Section 174 of the DGCL; or

for any transaction from which the director derived any improper personal benefit.

However, if the DGCL is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of our directors will be eliminated or limited to the fullest extent permitted by the DGCL, as so amended. The modification or repeal of this provision of our amended and restated certificate of incorporation will not adversely affect any right or protection of a director existing at the time of such modification or repeal.

Our amended and restated certificate of incorporation and bylaws provide that we will, to the fullest extent from time to time permitted by law, indemnify our directors and officers against all liabilities and expenses in any suit or proceeding, arising out of their status as an officer or director or their activities in these capacities. We

Table of Contents

will also indemnify any person who, at our request, is or was serving as a director, officer, trustee, employee or agent of another corporation, partnership, joint venture, trust or other enterprise. We may, by action of our Board of Directors, provide indemnification to our employees and agents within the same scope and effect as the foregoing indemnification of directors and officers. In addition, we have entered into separate indemnification agreements with each of our directors and executive officers. These indemnification agreements require us, among other things, to indemnify our directors and executive officers against liabilities that may arise by reason of their status or service as directors or officers, other than liabilities arising from willful misconduct.

The right to be indemnified includes the right of an officer or a director to be paid expenses, including attorneys' fees, in advance of the final disposition of any proceeding, provided that, if required by law, we receive an undertaking to repay such amount if it will be determined that he or she is not entitled to be indemnified.

Our Board of Directors may take such action as it deems necessary to carry out these indemnification provisions, including adopting procedures for determining and enforcing indemnification rights and purchasing insurance policies. Our Board of Directors may also adopt bylaws, resolutions or contracts implementing indemnification arrangements as may be permitted by law. Neither the amendment nor the repeal of these indemnification provisions, nor the adoption of any provision of our amended and restated certificate of incorporation inconsistent with these indemnification provisions, will eliminate or reduce any rights to indemnification relating to such person's status or any activities prior to such amendment, repeal or adoption.

We believe these provisions will assist in attracting and retaining qualified individuals to serve as directors and officers.

PLAN OF DISTRIBUTION

The selling stockholders may offer and sell the securities covered by this prospectus from time to time in one or more transactions, including without limitation:

directly to one or more purchasers;

through agents;

to or through underwriters, brokers or dealers; or

through a combination of any of these methods.

In addition, the manner in which the selling stockholders may sell some or all of the securities covered by this prospectus includes any method permitted by law, including, without limitation, through:

a block trade in which a broker-dealer will attempt to sell as agent, but may position or resell a portion of the block, as principal, in order to facilitate the transaction;

purchases by a broker-dealer, as principal, and resale by the broker-dealer for its account;

ordinary brokerage transactions and transactions in which a broker solicits purchasers; or

The selling stockholders may also enter into hedging transactions. For example, the selling stockholders may:

enter into transactions with a broker-dealer or affiliate thereof in connection with which such broker-dealer or affiliate will engage in short sales of the common stock pursuant to this prospectus, in which case such broker-dealer or affiliate may use shares of common stock received from the selling stockholders to close out its short positions;

sell securities short and redeliver such shares to close out the short positions;

enter into option or other types of transactions that require the selling stockholders to deliver common stock to a broker-dealer or an affiliate thereof, who will then resell or transfer the common stock under this prospectus; or

loan or pledge the common stock to a broker-dealer or an affiliate thereof, who may sell the loaned shares or, in an event of default in the case of a pledge, sell the pledged shares pursuant to this prospectus.

The securities covered by this prospectus may be sold:

on a national securities exchange;

in the over-the-counter market; or

in transactions otherwise than on an exchange or in the over-the-counter market, or in combination.

In addition, the selling stockholders may enter into derivative or hedging transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. In connection with such a transaction, the third parties may sell securities covered by and pursuant to this prospectus and an applicable prospectus supplement or pricing supplement, as the case may be. If so, the third party may use securities borrowed from the selling stockholders or others to settle such sales and may use securities received from the selling stockholders to close out any related short positions. The selling stockholders may also loan or pledge securities covered by this prospectus and an applicable prospectus supplement to third parties, who may sell the loaned securities or, in an event of default in the case of a pledge, sell the pledged securities pursuant to this prospectus and the applicable prospectus supplement or pricing supplement, as the case may be.

General

Any public offering price and any discounts, commissions, concessions or other items constituting compensation allowed or reallocated or paid to underwriters, dealers, agents or remarketing firms may be changed from time to time. Any selling stockholders, underwriters, dealers, agents and remarketing firms that participate in the distribution of the offered securities may be underwriters as defined in the Securities Act. Any discounts or commissions they receive from the selling stockholders and any profits they receive on the resale of the offered securities may be treated as underwriting discounts and commissions under the Securities Act. The selling stockholders will identify any underwriters, agents or dealers and describe their commissions, fees or discounts in the applicable prospectus supplement or pricing supplement, as the case may be.

The selling stockholders and other persons participating in the sale or distribution of the securities will be subject to applicable provisions of the Exchange Act, and the rules and regulations thereunder, including Regulation M. This regulation may limit the timing of purchases and sales of any of the securities by the selling stockholders or any other person. The anti-manipulation rules under the Exchange Act may apply to sales of securities in the market and to the activities of the selling stockholders and any affiliates of the selling stockholders. Furthermore, Regulation M may restrict the ability of any person engaged in the distribution for a period of up to five business days before the distribution. These restrictions may affect the marketability of the securities and the ability of any person or entity to engage in market-making activities with respect to the securities.

Table of Contents

The selling stockholders are not restricted as to the price or prices at which they may sell the securities. Sales of such securities may have an adverse effect on the market price of the securities.

Moreover, it is possible that a significant number of shares of common stock could be sold at the same time, which may have an adverse effect on the market price of the securities.

We cannot assure you that the selling stockholders will sell all or any portion of the securities offered hereby.

Underwriters and Agents

If underwriters are used in a sale, they will acquire the offered securities for their own account. The underwriters may resell the offered securities in one or more transactions, including negotiated transactions. These sales may be made at a fixed public offering price or prices, which may be changed, at market prices prevailing at the time of the sale, at prices related to such prevailing market prices or at negotiated prices. The selling stockholders may offer the securities to the public through an underwriting syndicate or through a single underwriter. The underwriters in any particular offering will be mentioned in the applicable prospectus supplement or pricing supplement, as the case may be.

Unless otherwise specified in connection with any particular offering of securities, the obligations of the underwriters to purchase the offered securities will be subject to certain conditions contained in an underwriting agreement that we and the applicable selling stockholders will enter into with the underwriters at the time of the sale to them. The underwriters will be obligated to purchase all of the securities of the series offered if any of the securities are purchased, unless otherwise specified in connection with any particular offering of securities. Any initial offering price and any discounts or concessions allowed, reallocated or paid to dealers may be changed from time to time.

The selling stockholders may designate agents to sell the offered securities. Unless otherwise specified in connection with any particular offering of securities, the agents will agree to use their best efforts to solicit purchases for the period of their appointment. The selling stockholders may also sell the offered securities to one or more remarketing firms, acting as principals for their own accounts or as agents for us or any selling stockholders. These firms will remarket the offered securities upon purchasing them in accordance with a redemption or repayment pursuant to the terms of the offered securities. A prospectus supplement or pricing supplement, as the case may be will identify any remarketing firm and will describe the terms of its agreement, if any, with the selling stockholders and its compensation.

In connection with offerings made through underwriters or agents, the selling stockholders may enter into agreements with such underwriters or agents pursuant to which the selling stockholders receive outstanding securities in consideration for the securities being offered to the public for cash. In connection with these arrangements, the underwriters or agents may also sell securities covered by this prospectus to hedge their positions in these outstanding securities, including in short sale transactions. If so, the underwriters or agents may use the securities received from the selling stockholders under these arrangements to close out any related open borrowings of securities.

Dealers

The selling stockholders may sell the offered securities to dealers as principals. The selling stockholders may negotiate and pay dealers commissions, discounts or concessions for their services. The dealer may then resell such securities to the public either at varying prices to be determined by the dealer or at a fixed offering price agreed to with the selling stockholders at the time of resale. Dealers engaged by the selling stockholders may allow other dealers to participate in resales.

Direct Sales

The selling stockholders may choose to sell the offered securities directly. In this case, no underwriters or agents would be involved.

Table of Contents

Institutional Purchasers

The selling stockholders may authorize agents, dealers or underwriters to solicit certain institutional investors to purchase offered securities on a delayed delivery basis pursuant to delayed delivery contracts providing for payment and delivery on a specified future date. The applicable prospectus supplement or pricing supplement, as the case may be will provide the details of any such arrangement, including the offering price and commissions payable on the solicitations.

The selling stockholders will enter into such delayed contracts only with institutional purchasers that the selling stockholders approve. These institutions may include commercial and savings banks, insurance companies, pension funds, investment companies and educational and charitable institutions.

Indemnification; Other Relationships

We and the selling stockholders may have agreements with agents, underwriters, dealers and remarketing firms to indemnify them against certain civil liabilities, including liabilities under the Securities Act. Agents, underwriters, dealers and remarketing firms, and their affiliates, may engage in transactions with, or perform services for, the selling stockholders in the ordinary course of business. This includes commercial banking and investment banking transactions.

We may agree to indemnify in certain circumstances the selling stockholders against certain liabilities, including liabilities under the Securities Act. The selling stockholders may agree to indemnify us in certain circumstances against certain liabilities, including liabilities under the Securities Act.

Market-Making, Stabilization and Other Transactions

In connection with any offering of common stock, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, syndicate covering transactions and stabilizing transactions. Short sales involve syndicate sales of common stock in excess of the number of shares to be purchased by the underwriters in the offering, which creates a syndicate short position. Covered short sales are sales of shares made in an amount up to the number of shares represented by the underwriters' over-allotment option. In determining the source of shares to close out the covered syndicate short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option. Transactions to close out the covered syndicate short involve either purchases of the common stock in the open market after the distribution has been completed or the exercise of the over-allotment option. The underwriters may also make naked short sales of shares in excess of the over-allotment option. The underwriters must close out any naked short position by purchasing shares of common stock in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of bids for or purchases of shares in the open market while the offering is in progress for the purpose of pegging, fixing or maintaining the price of the securities.

In connection with any offering, the underwriters may also engage in penalty bids. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the securities originally sold by the syndicate member are purchased in a syndicate covering transaction to cover syndicate short positions. Stabilizing transactions, syndicate covering transactions and penalty bids may cause the price of the securities to be higher than it would be in the absence of the transactions. The underwriters may, if they commence these transactions, discontinue them at any time.

Fees and Commissions

We will pay the expenses, other than underwriting discounts and commissions, associated with the registration and sale of shares to be sold by the selling stockholders. The selling stockholders will pay any underwriting discounts, selling commissions or other minor expenses.
