PROSPECTUS SUPPLEMENT

(To Prospectus dated April 15, 2011)

4,500,000 Shares

TriMas Corporation
Common Stock

We are offering 4,500,000 shares of our common stock. We will receive all of the net proceeds from the sale of such common stock.

Our common stock is listed on the NASDAQ Global Select MarketSM and trades under the ticker symbol TRS. On September 10, 2013, the last reported sale price of our common stock on the NASDAQ Global Select MarketSM was \$35.54 per share.

	Per Share	Total
Public offering price	\$35.40	\$159,300,000
Underwriting discounts and commissions	\$1.593	\$7,168,500
Proceeds to the Company, before expenses	\$33.807	\$152,131,500

We have granted the underwriters an option to purchase up to an additional 675,000 shares from us at the public offering price, less underwriting discounts and commissions, within 30 days from the date of this prospectus supplement. If the underwriters exercise this option in full, the total underwriting discounts and commissions will be \$8,243,775 and the total proceeds, before expenses, to us will be \$174,951,225.

Investing in our common stock involves certain risks. See Risk Factors on page S-11 of this prospectus supplement, Risk Factors beginning on page 3 of the accompanying prospectus and the Risk Factors section beginning on page 15 of our Annual Report on Form 10-K for the year ended December 31, 2012, which is incorporated herein by reference.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus supplement or the accompanying prospectus. Any representation to the

contrary is a criminal offense.

The underwriters are offering the shares of our common stock as set forth under Underwriting (Conflicts of Interest). Delivery of the shares of common stock will be made on or about September 16, 2013.

You should read this prospectus supplement and the documents incorporated by reference carefully before you invest. Such documents contain important information you should consider when making your investment decision. See Information Incorporated by Reference on page S-27. If you are in a jurisdiction where offers to sell, or solicitations of offers to purchase, the securities offered by this document are unlawful, or if you are a person to whom it is unlawful to direct these types of activities, then the offer presented in this prospectus supplement does not extend to you. You should rely only on the information provided in this prospectus supplement, documents incorporated by reference in this prospectus supplement and any related free writing prospectus. We have not authorized anyone to provide you with different information.

Table of Contents

ABOUT THIS PROSPECTUS SUPPLEMENT

Unless the context otherwise requires, the terms TriMas, the Company, we, us and our refer to TriMas Corporation and its subsidiaries.

This document is in two parts. The first part is this prospectus supplement, which describes the specific terms of this offering and certain other matters. The second part, the accompanying prospectus, provides more general information about us and our common stock. Generally, when we refer to the prospectus, we are referring to both parts of this document combined. To the extent information in this prospectus supplement conflicts with information in the accompanying prospectus, you should rely on the information in this prospectus supplement. You should rely only on the information contained in, or incorporated by reference in, this prospectus supplement and the accompanying prospectus and any related free writing prospectus. None of the Company or the underwriters has authorized anyone to provide information different from that contained in, incorporated or deemed incorporated by reference into this prospectus supplement or the accompanying prospectus.

Before you invest, you should read the registration statement of which this document forms a part, this document, the accompanying prospectus and the documents incorporated by reference herein that are described under the heading Information Incorporated by Reference.

The information in this document may only be accurate on the date of the document. You should assume that the information appearing in this prospectus supplement is accurate only as of the date on the front cover of this prospectus supplement. Our business, financial condition, results of operations and prospects may have changed since that date.

We are not making an offer of these securities in any jurisdiction where the offer is not permitted.

Table of Contents

SPECIAL NOTE REGARDING FORWARD-LOOKING INFORMATION

This prospectus supplement and any documents we incorporate by reference herein may contain forward-looking statements (as that term is defined by the federal securities laws) about our financial condition, results of operations and business. You can find many of these statements by looking for words such as *may*, *will*, *expect*, *anticipate*, *believe*, *estimate* and similar words used in this prospectus supplement.

These forward-looking statements are subject to numerous assumptions, risks and uncertainties. Because the statements are subject to risks and uncertainties, actual results may differ materially from those expressed or implied by the forward-looking statements. We caution readers not to place undue reliance on the statements, which speak only as of the date of this prospectus supplement.

The cautionary statements set forth above should be considered in connection with any subsequent written or oral forward-looking statements that we or persons acting on our behalf may issue. We do not undertake any obligation to review or confirm analysts' expectations or estimates or to release publicly any revisions to any forward-looking statement to reflect events or circumstances after the date of this prospectus supplement or to reflect the occurrence of unanticipated events.

We disclose important factors that could cause our actual results to differ materially from our expectations under *Risk Factors* and elsewhere in this prospectus supplement or any documents we incorporate by reference herein or therein. These cautionary statements qualify all forward-looking statements attributed to us or persons acting on our behalf. When we indicate that an event, condition or circumstance could or would have an adverse effect on us, we mean to include effects upon our business, financial and other condition, results of operations, prospects and ability to service our debt. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial position and results of operations or cash flows.

Risks and uncertainties that could cause actual results to vary materially from those anticipated in the forward-looking statements included in this prospectus supplement include general economic conditions in the markets in which we operate, industry-related factors and offering-related factors such as:

Our businesses depend upon general economic conditions and we serve some customers in highly cyclical industries; as such, we may be subject to the loss of sales and margins due to an economic downturn or recession;

Many of the markets we serve are highly competitive, which could limit the volume of products that we sell and reduce our operating margins;

Our growth strategy includes the impact of acquisitions. If we are unable to identify attractive acquisition candidates, successfully integrate acquired operations or realize the intended benefits of our acquisitions, we may be adversely affected;

We may be unable to successfully implement our business strategies. Our ability to realize our business strategies may be limited;

Increases in our raw material or energy costs or the loss of critical suppliers could adversely affect our profitability and other financial results;

Our products are typically highly engineered or customer-driven and we are subject to risks associated with changing technology and manufacturing techniques that could place us at a competitive disadvantage;

Table of Contents

We depend on the services of key individuals and relationships, the loss of which could materially harm us;

We have substantial debt principal and interest payment requirements that may restrict our future operations and impair our ability to meet our obligations;

Restrictions in our debt instruments and accounts receivable facility limit our ability to take certain actions and breaches thereof could impair our liquidity;

We have significant goodwill and intangible assets, and future impairment of our goodwill and intangible assets could have a material negative impact on our financial results;

We may face liability associated with the use of products for which patent ownership or other intellectual property rights are claimed;

We may be unable to adequately protect our intellectual property;

We may incur material losses and costs as a result of product liability, recall and warranty claims that may be brought against us;

Our business may be materially and adversely affected by compliance obligations and liabilities under environmental laws and regulations;

Our borrowing costs may be impacted by our credit ratings developed by various rating agencies;

We have significant operating lease obligations and our failure to meet those obligations could adversely affect our financial condition;

We may be subject to further unionization and work stoppages at our facilities or our customers may be subject to work stoppages, which could seriously impact the profitability of our business;

Our healthcare costs for active employees and future retirees may exceed our projections and may negatively affect our financial results;

A growing portion of our sales may be derived from international sources, which exposes us to certain risks which may adversely affect our financial results and impact our ability to service debt;

Our stock price may be subject to significant volatility due to our own results or market trends;

Edgar Filing: TRIMAS CORP - Form 424B5

Your stock ownership may experience future dilution as a result of future equity offerings and other issuances of our common stock or other securities;

Future sales of our common stock in the public market could cause our stock price to fall;

Provisions of Delaware law, our certificate of incorporation and by-laws, could delay or prevent a change in control of our company, which could adversely impact the value of our common stock;

Management will have broad discretion as to the use of proceeds from this offering, and we may use the proceeds in ways that you and other stockholders may not approve;

We have no plans to pay regular dividends on our common stock, so you may not receive funds without selling your common stock; and

Other factors, including those related to our common stock, included herein, in the accompanying prospectus and the documents incorporated herein by reference.

S-3

Table of Contents

PROSPECTUS SUPPLEMENT SUMMARY

The following summary should be read together with the information contained in or incorporated by reference in other parts of this prospectus supplement and the accompanying prospectus. This summary highlights selected information from this prospectus supplement and the accompanying prospectus to help you understand the offering of our common stock. You should read this prospectus supplement and the accompanying prospectus, including the documents we incorporate by reference, carefully to understand fully our common stock as well as other considerations that are important to you in making a decision to invest in our common stock. You should pay special attention to the Risk Factors section beginning on page S-11 of this prospectus supplement, the Risk Factors section beginning on page 3 of the accompanying prospectus and the Risk Factors section in our Annual Report on Form 10-K for the year ended December 31, 2012 to determine whether an investment in our common stock is appropriate for you. This prospectus supplement and the accompanying prospectus include forward-looking statements that involve risks and uncertainties.

THE COMPANY

We are a global designer, manufacturer and distributor of products for commercial, industrial and consumer markets. Most of our businesses share important characteristics, including: leading market positions, strong brand names, broad product offerings in focused markets, established distribution networks, relatively high operating margins, relatively low capital investment requirements with significant opportunities for both organic growth and acquisitions. We use a common operating model across TriMas and all of our businesses. The TriMas Operating Model is the framework that provides commonality and consistency across our businesses, wherever possible given the diverse nature of our businesses, and drives how we plan, budget, measure, review, incent and reward our people. It provides the foundation for determining our priorities, executing our growth and productivity initiatives and allocating capital. We believe that a majority of our 2012 net sales were in markets in which our products enjoy the number one or number two market position within their respective product categories. Our leadership position across most of these markets provides numerous growth opportunities, including: expansion into new markets, geographies and products supplemented by strategic acquisitions.

We operate through six reportable segments which had net sales and operating profit for the year ended December 31, 2012 as follows: Packaging (net sales: \$275.2 million; operating profit: \$57.6 million), Energy (net sales: \$190.2 million; operating profit: \$17.8 million), Aerospace & Defense (net sales: \$78.6 million; operating profit: \$20.8 million), Engineered Components (net sales: \$200.0 million; operating profit: \$28.0 million), Cequent Asia Pacific Europe Africa (Cequent APEA) (net sales: \$128.6 million; operating profit: \$12.3 million) and Cequent Americas (net sales: \$400.4 million; operating profit: \$27.4 million).

While each reportable segment has distinctive products, some of which are described below, we believe our balanced portfolio of businesses shares several common attributes.

Packaging

We believe Packaging is a leading designer, manufacturer and distributor of specialty, highly-engineered closure and dispensing systems for a range of end markets, including steel and plastic industrial and consumer packaging applications. Packaging manufactures high-performance, value-added products that are designed to enhance its customers' ability to store, transport, process and dispense various products for the agricultural, beverage, cosmetic, food, household products, industrial, medical, nutraceutical, personal care and pharmaceutical markets. Packaging's products include steel and plastic closure caps, drum enclosures, rings and levers, and specialty plastic closure

Table of Contents

and dispensing systems, such as foamers, pumps and specialty sprayers. We acquired Innovative Molding in August 2011, which expanded our specialty plastic closures business, and 70% of Arminak & Associates in February 2012, enhancing our product scope in packaging solutions for cosmetics, personal care, beauty aids and household product markets.

Our Packaging brands, which include Rieke®, Arminak & Associates®, Englass®, Innovative Molding and Stof® are well established and recognized in their respective markets. With a more than 90 year operating history, Packaging has a long history of product innovation and we believe that our research and development capabilities provide us with a sustainable competitive advantage relative to our competitors.

Energy

We believe Energy is a leading manufacturer and distributor of metallic and non-metallic gaskets, bolts, industrial fasteners and specialty products for the petroleum refining, petrochemical, oil field and industrial markets. With operations principally in North America and newer locations in Europe, Asia and South America, Lamons supplies gaskets and complementary fasteners to both maintenance repair operations and industrial original equipment manufacturers. Our companies and brands which comprise this segment include Lamons®, South Texas Bolt & Fitting (STBF), CIFAL Industrial e Comercial Ltda ("CIFAL"), Gasket Vedações Técnicas Ltda (GVT), acquired in January 2013, and Wulfrun Specialised Fasteners Limited ("Wulfrun") and Tat Lee (Thailand) Ltd., both acquired in April 2013.

Aerospace & Defense

We believe Aerospace & Defense is a leading designer and manufacturer of a diverse range of products for use in focused markets within the aerospace and defense industries. This segment's products include aerospace components and fasteners and military munitions components to serve aircraft and weapons platforms sold to the U.S. government. In general, these products are highly-engineered, customer-specific items that are sold into focused markets with few competitors. Aerospace & Defense's brands include Monogram Aerospace Fasteners, Martinic Engineering and NI Industries, which are well established and recognized in their markets.

Engineered Components

We believe Engineered Components is a leading designer, manufacturer and distributor of a variety of natural gas powered engines and parts, gas compressors, gas production equipment, meter runs, engine electronics and chemical pumps all engineered for use in oil and natural gas production, as well as high-pressure and low-pressure cylinders for the transportation, storage and dispensing of compressed gases. In general, these products are highly-engineered, customer-specific items that are sold into focused markets with few competitors. Engineered Components brands include Arrow® Engine and Norris Cylinder which are well established and recognized in their respective markets.

Cequent APEA and Cequent Americas

We believe Cequent, which includes our Cequent APEA and Cequent Americas reportable segments, is a leading designer, manufacturer and distributor of a wide variety of high quality, custom-engineered towing, trailer and cargo management products and other accessories. These products, which are similar for both of the Cequent APEA and Cequent Americas segments, are designed to support all original equipment manufacturers (OEM), original equipment suppliers (OES) and aftermarket customers within the agricultural, automotive, construction, horse/livestock, industrial, marine, military, recreational, trailer and utility markets. We believe that Cequent's brand names and product lines are among the most recognized and extensive in the industry.

Table of Contents

While Cequent APEA focuses its sales and manufacturing efforts in the Asia Pacific, Europe and South Africa regions, Cequent Americas is focused on the North and South American regions. Cequent Americas consists of two businesses: Cequent Performance Products (CPP), a leading manufacturer of aftermarket and OEM towing and trailer products and accessories, and Cequent Consumer Products (CCP), a leading provider of towing, trailer, vehicle protection and cargo management solutions serving the end-user through retailers. Cequent's brands include Aqua-Clear®, Bargman®, Bulldog®, Draw-Tite®, Engetran, Fulton®, Hayman-Reese, Harp®, Hidden Hitch®, Highland®, Kovil®, Laitner, Pro Series, Reese®, Reese CarryPower, Reese Outfitter®, Reese Power Sports, Reese® Towpower, ROLA®, Trail Com, Tekonsha®, Tow Ready®, TriMotive, Wesbar® and Witter Towbar Systems.

OUR STRENGTHS

We believe our competitive strengths include:

Leading Market Positions, Global Presence with Strong Brand Names

We believe that we maintain a leading market position in each of our segments and that we offer some of the most established high-quality brands and premier service capabilities within our addressable markets. Many of our companies and brands have over 50 years of history in the markets we serve and benefit significantly from customer recognition and brand loyalty. We've established global platforms to broaden our international reach which provides a competitive advantage in serving many of our largest customers. In addition, we've developed an extensive distribution network which includes company owned and third party channels. Our in-house highly trained sales force works directly with our global network of distributors to ensure we provide a consistent level of high-quality service and develop detailed insight regarding customer trends and preferences. It is our belief that a majority of our 2012 net sales were in markets in which our products enjoy the number one or number two market position within their respective product categories.

Diverse, Defensible Product Offering with Well Established Customer Relationships

We sell our products to a wide range of end-users across a broad spectrum of end markets, most of which we believe possess strong and sustainable long-term growth characteristics. Our principal end markets include consumer-oriented specialty dispensing packaging, oil and gas, aerospace and defense, industrial manufacturing, and the automotive installer and retailer aftermarkets. We believe we have limited customer concentration, as no individual products or product families comprise more than 10% of our net sales, which provides us with a degree of protection against a downturn in any specific end-market. Furthermore, a significant portion of our products represent highly-engineered, customized solutions, which we believe positions our businesses to achieve favorable pricing and establish preferred supplier relationships.

Significant Opportunities for Both Organic Growth and Acquisitions

Over the past few years, we have successfully executed our growth strategies via bolt-on acquisitions and geographic expansion in several of our reportable segments. We also have experienced significant market share gains within our businesses and continued to develop and introduce new products, both of which are aiding in our double-digit top-line growth rate despite low levels of economic growth. These accomplishments have enabled us to broaden our product portfolio and cross-sell our existing products to new markets while introducing our newly-acquired products into our existing markets. In order to capture these opportunities, we strategically increased our investments in inventory levels, acquisition capital and capital projects in certain of our businesses compared to historical levels to ensure we had the products available and capacity ready, particularly in our higher-margin platforms, to support the significant sales growth.

Table of Contents

Strong Operating Cash Flow Generation and History of Deleveraging

Our business model allows us to generate significant operating cash flow due to our strong operating margins, efficient working capital management and disciplined approach to capital expenditures. During the three years ended December 31, 2012, we generated approximately \$264 million of net cash provided by operating activities, net of acquisition impact, and reduced our total debt by approximately \$92 million. Given our strong operating cash flow and earnings growth, we remain focused on reducing our leverage providing the flexibility to pursue future organic and inorganic growth initiatives.

Experienced Management Team with a Proven Track Record of Success

Our management team has been led by David Wathen, President and Chief Executive Officer since joining our Company in January 2009. Mr. Wathen brings over three decades of industrial manufacturing experience, most recently as President and Chief Executive Officer of the North American Operations of Balfour Beatty, Inc. in addition to senior leadership positions at several premier industrial companies including Eaton, Allied Signal, Emerson Electric and General Electric. Furthermore, our Chief Financial Officer, A. Mark Zeffiro, joined TriMas in June 2008 and brings over twenty years of financial leadership experience, most recently at Black & Decker and previously with General Electric. Our management team has a proven track record of successfully integrating acquired companies into our operations and realizing the intended benefits of our acquisitions. We believe the overall talent level within our organization is a competitive strength, and we have added a number of highly experienced key managers across our platforms over the past several years. Our management team is consistently focused on implementing continuous operating improvements and actively reviewing strategic plans and capital allocation processes across our businesses, effectively balancing current performance while remaining focused on growth potential.

OUR STRATEGY

Guided by our experienced management team, we strive to create shareholder value by seeking to generate high single-digit sales growth, continuous productivity and asset efficiency improvements coupled with development of a talented workforce. We believe this focus will result in high levels of financial performance and cash flow generation, which we intend to redeploy to pursue the following strategies:

Continue Product Innovation

We believe that we have a successful history of developing innovative products by working closely with our customers to identify new applications and opportunities. Product development and expanded market and product line offerings will continue to drive organic growth initiatives. We have a significant number of new product initiatives, including product solutions such as VISEGRIP® steel flange and plug closure, the POLY-VISEGRIP plastic closure, the FLEXSPOUT flexible pouring spout, the FLEXSPOUT® II closure system (used on five gallon pails for the paint, oil and chemical industries), the DuraTouch® product line of small pump sprayers, the intelligent bolt (allowing the clamp load of a bolted joint to be monitored), the next generation Composi-Lok® (offering weight reduction with a flush break upon installation), the vapor and recovery system (improving efficiency and durability of oil and gas compression products), a process for manufacturing ISO cylinders capable of holding pressure gases, the F-2 aluminum jack and RV landing gear in trailer related products, as well as innovations in brake controls (P3), custom harnesses, LED lighting and electrical accessories. Future success in our business segments is characterized by our ability to provide innovative solutions which continuously improve features and functions that exceed our customer needs and command premium prices, ultimately gaining market share.

Table of Contents

Pursue Growth Opportunities in New Products and International Expansion

We are focused on organic growth initiatives across our businesses to support increased revenue and profitability. These initiatives include launching new products in growing end markets, expanding geographically and cross-selling existing products, services and capabilities. Additionally, we employ an internal sales force and use third-party agents and distributors in key geographic markets, including Europe, South America, Asia and South Africa. Our businesses rely upon strong historical relationships, custom engineering capability, significant brand recognition, broad product offerings, and expansive distribution capabilities.

Pursue Strategic Bolt-On Acquisitions on a Disciplined Basis

We believe that our businesses have significant opportunities to grow through disciplined, strategic acquisitions. We typically seek bolt-on acquisitions, in which we would acquire another industry participant or product line within our existing industries in order to enhance the strengths of our core businesses. Our acquisition criteria generally consist of transactions that include the following characteristics:

Supplement existing product lines;

Expand geographic footprint;

Gain access to or expand additional distribution channels; and

Realize both revenue and cost synergies

We actively review potential acquisition candidates and believe there will be numerous opportunities to add to our existing business portfolio.

Commitment to On-Going Productivity Improvements

After successfully executing an extensive Profit Improvement Plan in 2009, which included restructuring several of our businesses, we have launched an ongoing target to drive 3-5% total gross cost productivity gains annually and to utilize savings to fund growth. We continue to reduce fixed costs and improve productivity and flexibility throughout each business to achieve this objective. Our initiatives have included, and will continue to include, projects related to lean productivity initiatives, continuous improvements in manufacturing processes, Six Sigma, facility and operational rationalization, improved supply chain management and consolidation to best-in-class low-cost providers, rationalization of manufacturing footprint into lower-cost countries and outsourcing initiatives.

RECENT DEVELOPMENTS

During the first half of 2013, we completed acquisitions for an aggregate amount of approximately \$47 million, net of cash acquired. Of these acquisitions, the most significant included Martinic Engineering, Inc. ("Martinic") within our Aerospace and Defense reportable segment, Wulfrun Specialised Fasteners Limited ("Wulfrun") within our Energy reportable segment, and C.P. Witter Limited ("Witter") within our Cequent APEA segment.

Martinic is a manufacturer of highly-engineered, precision machined, complex parts for commercial and military aerospace applications, including auxiliary power units, as well as electrical, hydraulic and pneumatic systems located in the United States and generated approximately \$13 million in revenue for the twelve months ended December 31, 2012.

Wulfrun is a manufacturer and distributor of specialty bolting and CNC machined components for use in critical oil and gas, pipeline and power generation applications located in the United

Table of Contents

Kingdom and generated approximately \$10 million in revenue for the twelve months ended December 31, 2012.

Witter, also located in the United Kingdom, is a manufacturer of highly-engineered towbars and accessories which are distributed through a wide network of commercial dealers, and generated approximately \$20 million in revenue for the twelve months ended March 31, 2013.

We also acquired Gasket Vedacoes Tecnicas Ltda (GVT) in January 2013, substantially all of the business assets of Tat Lee (Thailand) Ltd. (Tat Lee) in April 2013, and the towing technology business assets of AL-KO in July 2013. With the acquisition of GVT, Lamons business has expanded its global footprint and product portfolio in the rapidly growing energy market of Brazil. The acquisition of Tat Lee enhances our capabilities throughout Southeast Asia for our Energy business, while the acquisition of the towing assets from AL-KO adds to our Cequent product content and further expands our footprint into Europe.

Subject to market and other conditions, we are considering an opportunistic refinancing of our existing senior secured credit facilities, currently consisting of a \$250.0 million revolving credit facility due October 2017, a \$200.0 million term loan A facility due October 2017 and a \$200.0 million term loan B facility due October 2019. No assurance can be given that we will proceed with a transaction, or, if we proceed, that we will be able to obtain terms that are acceptable to us.

OUR EXECUTIVE OFFICES AND STRUCTURE

TriMas Corporation is a Delaware corporation. Our principal executive offices are located at 39400 Woodward Avenue, Suite 130, Bloomfield Hills, Michigan 48304. Our telephone number is (248) 631-5450. Our web site address is www.trimascorp.com. Information contained on our web site is not a part of this prospectus supplement or the accompanying prospectus.

TriMas Corporation is a holding company with no material assets of its own other than 100% of the capital stock of an intermediate holding company, TriMas Company LLC. TriMas Company LLC directly or indirectly owns our domestic and foreign operating subsidiaries, which represent the primary source of all of our revenues and the primary owners of all of our material assets. Our senior secured credit facility is issued by TriMas Company LLC and guaranteed by us and TriMas Company LLC's domestic subsidiaries (other than its receivables financing subsidiary).

As of December 31, 2012, we employed approximately 5,500 people, of whom approximately 24% were unionized and approximately 50% were located outside the United States. We currently have collective bargaining agreements covering twelve facilities worldwide, three of which are in the United States. Employee relations have generally been satisfactory.

CONFLICTS OF INTEREST

As described in Use of Proceeds, the net proceeds from this offering may be used to repay indebtedness, including indebtedness under our revolving credit facility and our accounts receivable facility. Because certain affiliates of the underwriters are lenders under our revolving credit facility and because more than 5% of the proceeds of this offering, not including underwriting compensation, may be received by affiliates of one or more underwriters, which underwriter or underwriters are participating in this offering and are members of the Financial Industry Regulatory Authority (FINRA), this offering is being conducted in compliance with FINRA Rule 5121. Pursuant to that rule, the appointment of a qualified independent underwriter is not necessary in connection with this offering.

Table of Contents

THE OFFERING

<i>Common stock offered by us</i>	4,500,000 shares (or 5,175,000 shares if the underwriters' option is exercised in full).
<i>Common stock outstanding immediately after this offering</i>	44,254,014 shares (or 44,929,014 shares if the underwriters' option is exercised in full).
<i>Underwriters' option</i>	We have granted the underwriters an option exercisable for a period of 30 days from the date of this prospectus to purchase up to an additional 675,000 shares of common stock at the public offering price, less the underwriting discount.
<i>Use of Proceeds</i>	We estimate that our net proceeds from the sale of our common stock in this offering, after deducting the underwriting discount and other estimated offering expenses payable by us, will be approximately \$151,781,500 (or approximately \$174,601,225 if the underwriters' option is exercised in full). We intend to use the net proceeds from this offering for general corporate purposes. General corporate purposes may include acquisitions, repayment of debt (including our revolving credit facility and accounts receivable facility), additions to working capital and capital expenditures. Net proceeds may be temporarily invested prior to deployment for their intended purposes. See Use of Proceeds.
<i>Risk Factors</i>	Investing in our common stock involves a high degree of risk. You should consider carefully all the information included or incorporated by reference in this prospectus supplement and the sections entitled Risk Factors beginning on page S-11 of this prospectus supplement, page 3 of the accompanying prospectus and page 15 of our Annual Report on Form 10-K for the year ended December 31, 2012 before deciding whether to purchase our common stock in this offering.
<i>NASDAQ Global Select MarketSM symbol</i>	TRS
Except as otherwise indicated, all information in this prospectus supplement assumes the underwriters' option has not been exercised.	

The number of shares of our common stock to be outstanding after this offering is based on the number of shares outstanding on June 30, 2013, which includes 694,462 restricted shares.

Table of Contents

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the risks described below and discussed under the section captioned "Risk Factors" contained in our Annual Report on Form 10-K for the year ended December 31, 2012, which is incorporated by reference in this prospectus supplement and the accompanying prospectus, and all other information contained in this prospectus supplement and the accompanying prospectus and incorporated by reference in this prospectus supplement and the accompanying prospectus before purchasing our common stock. These risks and uncertainties are not the only ones facing us. Additional risks and uncertainties that we are unaware of, or that we currently deem immaterial, also may become important factors that affect us. If any of such risks or the risks described below or in our Annual Report on Form 10-K for the year ended December 31, 2012 occur, our business, financial condition or results of operations could be materially and adversely affected. In that case, the trading price of our common stock could decline, and you may lose some or all of your investment.

Risks Related to this Offering of Our Common Stock

Management will have broad discretion as to the use of proceeds from this offering, and we may use the proceeds in ways that you and other stockholders may not approve.

Our management will have broad discretion to allocate the net proceeds from this offering, and investors will be relying on the judgment of our management regarding the use of these proceeds. Our management could spend the net proceeds in ways that you and other stockholders may not approve or in ways that do not improve our results of operations or enhance the value of our common stock. Our failure to apply these funds effectively could have a material adverse effect on our business or financial condition, and cause the price of our common stock to decline.

Your stock ownership may experience future dilution as a result of future equity offerings and other issuances of our common stock or other securities.

In order to raise additional capital, we may in the future offer additional shares of our common stock or other securities convertible into or exchangeable for our common stock, including convertible debt. We cannot assure you that we will be able to sell shares or other securities in any other offering at a price per share that is equal to or greater than the price per share paid by investors in this offering, and investors purchasing shares or other securities in the future could have rights that are superior to existing stockholders. The price per share at which we sell additional shares of our common stock or other securities convertible into or exchangeable for our common stock in future transactions may be higher or lower than the price per share in this offering. As of June 30, 2013, the number of outstanding shares of our common stock, \$0.01 par value, was 39,754,014 shares, which includes 694,462 restricted shares and excludes all stock options and shares reserved under our long-term equity incentive plans. You will incur dilution upon the grant of any shares under our long-term equity incentive plans and upon exercise of any outstanding stock options.

Table of Contents

USE OF PROCEEDS

We estimate that the net proceeds from this offering will be approximately \$151,781,500, or \$174,601,225 if the underwriters exercise their option to purchase additional shares in full, after deducting underwriting discounts and our estimated expenses of the offering.

We intend to use the net proceeds from this offering for general corporate purposes. General corporate purposes may include acquisitions, repayment of debt (including our revolving credit facility and accounts receivable facility), additions to working capital and capital expenditures. Net proceeds may be temporarily invested prior to deployment for their intended purposes. See Capitalization. Certain affiliates of the underwriters are lenders under our revolving credit facility and, as a result, may receive a portion of the proceeds of this offering. See Underwriting (Conflicts of Interest) Conflicts of Interest.

Table of Contents**CAPITALIZATION**

The following table sets forth our cash and cash equivalents and our capitalization as of June 30, 2013:

On an actual basis; and

On an as adjusted basis, after giving effect to this offering and the use of proceeds therefrom.

You should read this table together with the Use of Proceeds section found in this prospectus supplement and the Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations sections beginning on pages 3 and 23, respectively, of our Quarterly Report on Form 10-Q for the quarter ended June 30, 2013, which is incorporated herein by reference.

	As of June 30, 2013	
	Actual	As Adjusted
	(in thousands)	
Cash and cash equivalents(1)	\$ 18,830	\$ 170,610
Long-term Debt(2):		
Senior Secured Credit Facility		
Revolving Credit Facility(3)	16,210	16,210
Tranche A term loan	197,500	197,500
Tranche B term loan	198,500	198,500
Accounts Receivable Facility(2)(5)	58,500	58,500
Other debt(4)	9,940	9,940
Total debt	480,650	480,650
Shareholders' Equity	341,220	493,000
Total Capitalization	\$ 821,870	\$ 973,650

- (1) The As Adjusted column considers the impact of estimated fees and expenses related to this offering, including legal and accounting fees, discounts and commissions.
- (2) For a description of our Long-term Debt and our Accounts Receivable Facility, see Note 12 (Long-term Debt) to the Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2012 and Note 10 (Long-term Debt) to the Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2013, each of which is incorporated herein by reference.
- (3) At June 30, 2013, the Company had \$210.2 million potentially available under its Revolving Credit Facility, after giving effect to approximately \$23.6 million of letters of credit issued and outstanding. However, including availability under its Accounts Receivable Facility and after consideration of leverage restrictions contained in the Credit Agreement, at June 30, 2013 the Company had \$179.2 million of borrowing capacity available to it for general corporate purposes.
- (4) TriMas Company LLC's Australian subsidiary is party to a debt agreement which matures on September 30, 2013 and is secured by substantially all the assets of the subsidiary.
- (5) At June 30, 2013, the Company had \$33.4 million available but not utilized under its Accounts Receivable Facility.

Table of Contents

DIVIDEND POLICY

We did not pay dividends in 2011, 2012 or in the six months ended June 30, 2013. Our senior secured credit facility restricts the payment of dividends on our common stock. Our current policy is to retain earnings to repay debt and finance our operations and acquisitions. See the discussion under Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources and Note 12 to the Company's financial statements captioned Long-term Debt, included in Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2012.

S-14

Table of Contents**MARKET PRICE OF COMMON STOCK**

Our common stock is traded on the NASDAQ Global Select MarketSM under the symbol TRS. On June 30, 2013 there were 39,754,014 shares of our common stock outstanding. On September 10, 2013, the closing price of our common stock was \$35.54. The following table sets forth the high and low sale prices per share of our common stock as reported on the NASDAQ Global Select MarketSM with regard to each of our fiscal quarters during the periods indicated:

	High Sale Price	Low Sale Price
2013:		
Second Quarter	\$ 37.39	\$ 27.16
First Quarter	\$ 32.69	\$ 27.54
2012:		
Fourth Quarter	\$ 28.56	\$ 22.34
Third Quarter	\$ 25.12	\$ 18.26
Second Quarter	\$ 24.51	\$ 18.69
First Quarter	\$ 25.50	\$ 18.06
2011:		
Fourth Quarter	\$ 21.40	\$ 13.46
Third Quarter	\$ 27.09	\$ 13.52
Second Quarter	\$ 24.89	\$ 19.45
First Quarter	\$ 22.20	\$ 17.31

The table above shows only historical information. This may not be meaningful information to you in determining whether to purchase shares of our common stock. You are urged to obtain current market quotations for our common stock and to review carefully the other information contained in or incorporated by reference into this prospectus supplement and the accompanying prospectus.

We did not pay dividends in 2011, 2012 or the six months ended June 30, 2013. See Dividend Policy.

For a description of our common stock, see Description of our Capital Stock in the prospectus.

Table of Contents**UNDERWRITING (CONFLICTS OF INTEREST)**

Deutsche Bank Securities Inc., J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated, Goldman, Sachs & Co. and Wells Fargo Securities, LLC are acting as joint bookrunners in the offering and Deutsche Bank Securities Inc. and J.P. Morgan Securities LLC are acting as representatives (the "representatives") of the several underwriters named below. Subject to the terms and conditions of the underwriting agreement dated the date of this prospectus, we have agreed to sell to the underwriters, on a several and not joint basis, and each of the underwriters has severally agreed to purchase, the shares of common stock indicated in the following table at the price set forth on the front cover page of this prospectus supplement.

Underwriters	Number of Shares
Deutsche Bank Securities Inc.	1,440,000
J.P. Morgan Securities LLC	1,170,000
Merrill Lynch, Pierce, Fenner & Smith Incorporated	450,000
Goldman, Sachs & Co.	450,000
Wells Fargo Securities, LLC	450,000
KeyBanc Capital Markets Inc.	270,000
Barrington Research Associates, Inc.	90,000
Roth Capital Partners, LLC	90,000
Sidoti & Company, LLC	90,000
Total	4,500,000

The underwriting agreement provides that the obligation of the underwriters to purchase the shares of common stock offered hereby is subject to certain conditions precedent and that the underwriters will purchase all of the shares of common stock offered by this prospectus supplement if any of these shares are purchased, other than the shares covered by the option described below, unless and until this option is exercised.

We have granted the underwriters an option to buy up to an additional 675,000 shares of common stock. They may exercise that option for 30 days. If any shares of common stock are purchased pursuant to this option, the underwriters will severally purchase shares in approximately the same proportion as set forth in the table above.

The underwriters may receive from purchasers of the shares normal brokerage commissions in amounts agreed with such purchasers.

The Company's common stock is traded on the NASDAQ Global Select MarketSM under the symbol "TRS".

We have been advised that the underwriters propose to offer the shares of common stock to the public at the public offering price set forth on the cover of this prospectus supplement and to dealers at a price that represents a concession not in excess of \$0.9558 per share under the public offering price. After the initial public offering, the underwriters may change the offering price and other selling terms.

The following table shows the underwriting discount to be paid to the underwriters in connection with this offering. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase up to 675,000 additional shares of common stock:

	Without Option Exercise	With Full Option Exercise
Total Underwriting Discount	\$ 7,168,500	\$ 8,243,775

Table of Contents

The underwriters are purchasing the common shares from us at \$33.807 per share. In addition, we estimate that the total expenses of this offering payable by us, excluding underwriting discounts and commissions, will be approximately \$350,000.

We have agreed to indemnify the underwriters against some specified types of liabilities, including liabilities under the Securities Act of 1933 (the Securities Act), and to contribute to payments the underwriters may be required to make in respect of any of these liabilities.

We have agreed that, subject to certain exceptions, we will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, or file with the Securities and Exchange Commission (the SEC) a registration statement under the Securities Act, relating to, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, without the prior written consent of the representatives, for a period of 45 days after the date of this prospectus supplement.

Heartland Industrial Associates L.L.C. and the Company s directors and executive officers have agreed with the representatives, on behalf of the underwriters, subject to certain exceptions, not to dispose of or hedge any of their common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus supplement continuing through the date 45 days after the date of this prospectus supplement, except with the prior written consent of the representatives. Excluded from this agreement are dispositions of common stock by the Company s directors and executive officers in an aggregate amount not to exceed 125,000 shares per director or executive officer. This agreement does not apply to any existing employee benefit plans and the issuance of shares of common stock in connection with an acquisition (not exceeding 5% of the shares outstanding after this offering).

In connection with the offering, the underwriters may purchase and sell shares of our common stock in the open market. These transactions may include short sales, purchases to cover positions created by short sales and stabilizing transactions. If the underwriters commence these activities, the underwriters may discontinue them at any time. Short sales involve the sale by the underwriters of a greater number of shares than the underwriters are required to purchase in the offering. The underwriters may close out any short position by purchasing shares in the open market. The underwriters are more likely to create a short position if it is concerned that there may be downward pressure on the price of the shares in the open market prior to the completion of the offering.

Stabilizing transactions consist of various bids for or purchases of our common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters have advised us that the underwriters do not intend to confirm sales to any account over which it exercises discretionary authority.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or slowing a decline in the market price of our common stock. Additionally, these purchases may stabilize, maintain or otherwise affect the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the Nasdaq Global Select MarketSM, in the over-the-counter market or otherwise.

A prospectus supplement in electronic format is being made available on an Internet site maintained by the representatives of this offering. Other than the prospectus supplement in electronic format, the information on the representatives websites and any information contained in any other

Table of Contents

website maintained by the representatives is not part of the prospectus supplement or the registration statement of which the prospectus supplement forms a part.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory, investment banking, commercial banking and other services for us for which they received or will receive customary fees and expenses. Furthermore, certain of the underwriters and their respective affiliates may, from time to time, enter into arms-length transactions with us in the ordinary course of their business. In particular, affiliates of Deutsche Bank Securities Inc., J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated, Goldman, Sachs & Co., Wells Fargo Securities, LLC and KeyBanc Capital Markets Inc. are lenders under our revolving credit facility.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve our securities and/or instruments. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities or instruments.

Conflicts of Interest

As described in Use of Proceeds, the net proceeds from this offering may be used to repay indebtedness, including indebtedness under our revolving credit facility and our accounts receivable facility. Because certain affiliates of the underwriters are lenders under our revolving credit facility and because more than 5% of the proceeds of this offering, not including underwriting compensation, may be received by affiliates of one or more underwriters, which underwriter or underwriters are participating in this offering and are members of FINRA, this offering is being conducted in compliance with FINRA Rule 5121. Pursuant to that rule, the appointment of a qualified independent underwriter is not necessary in connection with this offering.

Notice to Investors in the European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State) an offer to the public of any shares which are the subject of the offering contemplated by this prospectus supplement may not be made in that Relevant Member State other than the offers contemplated in the prospectus once the prospectus has been approved by the competent authority in such Member State and published and passported in accordance with the Prospectus Directive as implemented in the Relevant Member State except that an offer to the public in that Relevant Member State of any shares may be made at any time under the following exemptions under the Prospectus Directive, if they have been implemented in that Relevant Member State:

to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;

to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than 43,000,000 and (3) an annual net turnover of more than 50,000,000, as shown in its last annual or consolidated accounts;

Table of Contents

by the underwriters to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the underwriters for any such offer; or

in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of shares shall result in a requirement for the publication by the Issuer or any underwriter of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an offer to the public in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any shares to be offered so as to enable an investor to decide to purchase any shares, as the same may be varied in that member state by any measure implementing the Prospectus Directive in that member state and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

Notice to Investors in the United Kingdom

Each underwriter has represented and agreed that (a) it has only communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000, or the FSMA, received by it in connection with the issue or sale of the shares (i) to investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, or the Order, or (ii) to high net worth entities, and other persons to whom it may lawfully be communicated, falling within Article 49(2)(a) and (d) of the Order, with all such persons together being referred to as relevant persons, and (b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the shares of our common stock in, from or otherwise involving the United Kingdom. This prospectus supplement and its contents are confidential and should not be distributed, published or reproduced (in whole or in part) or disclosed by recipients to any other persons in the United Kingdom. Any person in the United Kingdom that is not a relevant person should not act or rely on this document or any of its contents.

Notice to Prospective Investors in Hong Kong

The shares may not be offered or sold in Hong Kong by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong), or (ii) to professional investors within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a prospectus within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong) and no advertisement, invitation or document relating to the shares may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to shares which are or are intended to be disposed of only to persons outside Hong Kong or only to professional investors within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

Notice to Prospective Investors in Singapore

This prospectus supplement has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus supplement and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the shares may not be

Table of Contents

circulated or distributed, nor may the shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore, or the SFA, (ii) to a relevant person pursuant to Section 275(1), or any person pursuant to Section 275(1A), and in accordance with the conditions specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA, in each case subject to compliance with conditions set forth in the SFA.

Where the shares are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or

a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the shares pursuant to an offer made under Section 275 of the SFA except:

to an institutional investor (for corporations, under Section 274 of the SFA) or to a relevant person defined in Section 275(2) of the SFA, or to any person pursuant to an offer that is made on terms that such shares, debentures and units of shares and debentures of that corporation or such rights and interest in that trust are acquired at a consideration of not less than S\$200,000 (or its equivalent in a foreign currency) for each transaction, whether such amount is to be paid for in cash or by exchange of securities or other assets, and further for corporations, in accordance with the conditions specified in Section 275 of the SFA;

where no consideration is or will be given for the transfer; or

where the transfer is by operation of law.

Notice to Prospective Investors in Japan

The shares of common stock have not been and will not be registered under the Financial Instruments and Exchange Law, as amended (the FIEL). Each underwriter has represented and agreed that the shares which it purchases will be purchased by it as principal and that, in connection with the offering, it will not, directly or indirectly, offer or sell any shares in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or entity organized under the laws of Japan) or to others for reoffer or resale, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan, except pursuant to an exemption from the registration requirements under the FIEL and otherwise in compliance with such law and any other applicable laws, regulations and ministerial guidelines of Japan.

Notice to Prospective Investors in Switzerland

The prospectus does not constitute an issue prospectus pursuant to Article 652a or Article 1156 of the Swiss Code of Obligations, and the shares will not be listed on the SIX Swiss Exchange. Therefore, the prospectus may not comply with the disclosure standards of the Swiss Code of Obligations and/or the listing rules (including any prospectus schemes) of the SIX Swiss Exchange. Accordingly, the shares may not be offered to the public in or from Switzerland, but only to a selected and limited circle of investors, which do not subscribe to the shares with a view to distribution.

Table of Contents

Notice to Prospective Investors in Qatar

The shares described in this prospectus supplement have not been, and will not be, offered, sold or delivered, at any time, directly or indirectly in the State of Qatar in a manner that would constitute a public offering. This prospectus supplement has not been, and will not be, registered with or approved by the Qatar Financial Markets Authority or Qatar Central Bank and may not be publicly distributed. This prospectus supplement is intended for the original recipient only and must not be provided to any other person. It is not for general circulation in the State of Qatar and may not be reproduced or used for any other purpose.

Notice to Prospective Investors in Saudi Arabia

No offering, whether directly or indirectly, will be made to an investor in the Kingdom of Saudi Arabia unless such offering is in accordance with the applicable laws of the Kingdom of Saudi Arabia and the rules and regulations of the Capital Market Authority, including the Capital Market Law of the Kingdom of Saudi Arabia. The shares will not be marketed or sold in the Kingdom of Saudi Arabia by us or the underwriters.

This prospectus supplement may not be distributed in the Kingdom of Saudi Arabia except to such persons as are permitted under the Office of Securities Regulation issued by the Capital Market Authority. The Saudi Arabian Capital Market Authority does not make any representation as to the accuracy or completeness of this prospectus supplement and expressly disclaims any liability whatsoever for any loss arising from, or incurred in reliance upon, any part of this prospectus supplement. Prospective purchasers of the shares offered hereby should conduct their own due diligence on the accuracy of the information relating to the shares. If you do not understand the contents of this prospectus supplement, you should consult an authorized financial advisor.

Notice to Prospective Investors in the United Arab Emirates

This offering has not been approved or licensed by the Central Bank of the United Arab Emirates (UAE), Securities and Commodities Authority of the UAE and/or any other relevant licensing authority in the UAE including any licensing authority incorporated under the laws and regulations of any of the free zones established and operating in the territory of the UAE, in particular the Dubai Financial Services Authority (DFSA), a regulatory authority of the Dubai International Financial Centre (DIFC). The offering does not constitute a public offer of securities in the UAE, DIFC and/or any other free zone in accordance with the Commercial Companies Law, Federal Law No 8 of 1984 (as amended), DFSA Offered Securities Rules and NASDAQ Dubai Listing Rules, accordingly, or otherwise. The shares may not be offered to the public in the UAE and/or any of the free zones.

The shares may be offered and issued only to a limited number of investors in the UAE or any of its free zones who qualify as sophisticated investors under the relevant laws and regulations of the UAE or the free zone concerned.

Table of Contents

CERTAIN UNITED STATES FEDERAL INCOME AND ESTATE TAX CONSEQUENCES

TO NON-U.S. HOLDERS

The following is a summary of certain United States federal income and estate tax consequences of the purchase, ownership and disposition of our common stock. This summary deals only with common stock purchased in this offering that is held as a capital asset by a non-U.S. holder (as defined below).

This summary is based upon provisions of the Internal Revenue Code of 1986, as amended (the Code), and regulations, other administrative pronouncements and judicial decisions as of the date hereof. Those authorities may be changed, perhaps retroactively, so as to result in United States federal income and estate tax consequences different from those summarized below. We cannot assure you that a change in law will not alter significantly the tax considerations that we describe in this summary.

This summary does not address all aspects of United States federal income and estate taxes or other United States federal tax laws (such as gift tax laws or the Medicare tax on certain investment income) and does not deal with foreign, state, local or other tax considerations that may be relevant to non-U.S. holders in light of their particular circumstances. In addition, it does not represent a detailed description of the United States federal income or estate tax consequences applicable to you if you are subject to special treatment under the United States federal income or estate tax laws (including if you are a financial institution, tax exempt entity, United States expatriate, controlled foreign corporation, passive foreign investment company, person subject to the alternative minimum tax, dealer in securities, broker, person who has acquired our common stock as part of a straddle, hedge, conversion transaction or other integrated investment, or a partnership or other pass-through entity for United States federal income tax purposes (or an investor in such a pass-through entity)).

We have not and are not planning to seek any rulings from the Internal Revenue Service (the IRS) regarding the matters discussed below. There can be no assurance that the IRS will not take positions concerning the tax consequences of the purchase, ownership or disposition of shares of our common stock that are different from those discussed below.

Except as modified for estate tax purposes, a non-U.S. holder means a beneficial owner of our common stock that, for United States federal income tax purposes, is an individual, corporation, estate or trust other than:

an individual who is a citizen or resident of the United States;

a corporation created or organized under the laws of the United States, any state thereof or the District of Columbia;

an estate the income of which is subject to United States federal income taxation regardless of its source; or

a trust if it (1) is subject to the primary supervision of a court within the United States and one or more United States persons have the authority to control all substantial decisions of the trust or (2) has a valid election in effect under applicable United States Treasury regulations to be treated as a United States person.

If any entity or arrangement treated as a partnership for United States federal income tax purposes holds our common stock, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership and upon certain determinations made at the partner level. If you are a partner of a partnership considering an investment in our common stock, you should consult your tax advisors.

Table of Contents

If you are considering the purchase of our common stock, you should consult your own tax advisors concerning the particular United States federal income and estate tax consequences to you of the purchase, ownership and disposition of our common stock, as well as the consequences to you arising under other United States federal tax laws and the laws of any other applicable taxing jurisdiction, in light of your particular circumstances.

Except as noted below under **Additional Withholding Requirements**, this discussion does not address the United States federal income tax consequences of FATCA (as defined below).

Dividends

If we make distributions on our common stock, those payments will constitute dividends for United States federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under United States federal income tax principles. If we are unable to determine what portion, if any, of a distribution is paid from our current or accumulated earnings and profits, we generally will be required to presume that the entire distribution is paid from our earnings and profits.

To the extent any distributions on our common stock exceed both our current and our accumulated earnings and profits, they will constitute a return of capital and will first reduce your basis in our common stock (determined on a share by share basis), but not below zero, and then will be treated as gain from the sale of stock.

In the event that we pay dividends on our common stock, the dividends paid to a non-U.S. holder generally will be subject to withholding of United States federal income tax at a 30% rate, or such lower rate as may be specified by an applicable income tax treaty, of the gross amount of the dividends paid. However, dividends that are effectively connected with the conduct of a trade or business by the non-U.S. holder within the United States generally are not subject to the withholding tax, provided that certain certification and disclosure requirements are satisfied. Instead, such dividends are generally subject to United States federal income tax on a net income basis in the same manner as if the non-U.S. holder were a United States person as defined under the Code (unless an applicable income tax treaty provides otherwise). A foreign corporation may also be subject to a **branch profits tax** at a 30% rate (or such lower rate as may be specified by an applicable income tax treaty) on its effectively connected earnings and profits (subject to adjustments).

A non-U.S. holder of our common stock who wishes to claim the benefit of an applicable income tax treaty rate for dividends will be required (a) to complete IRS Form W-8BEN (or other applicable form) and certify under penalty of perjury that such holder is not a United States person as defined under the Code and is eligible for treaty benefits or (b) if our common stock is held through certain foreign intermediaries, to satisfy the relevant certification requirements of applicable United States Treasury regulations. Special certification and other requirements apply to certain non-U.S. holders that are pass-through entities rather than corporations or individuals.

A non-U.S. holder of our common stock eligible for a reduced rate of United States federal withholding tax pursuant to an income tax treaty may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS.

Gain on Disposition of Common Stock

Any gain realized by a non-U.S. holder on the disposition of our common stock generally will not be subject to United States federal income tax unless:

the gain is effectively connected with a trade or business of the non-U.S. holder in the United States;

Table of Contents

the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of that disposition, and certain other conditions are met; or

our common stock constitutes a United States real property interest by reason of our status as a United States real property holding corporation for United States federal income tax purposes (USRPHC) at any time during the shorter of the five-year period ending on the date of the disposition or the period that the non-U.S. holder held our common stock (the applicable period).

In the case of a non-U.S. holder described in the first bullet point immediately above, the gain will be subject to United States federal income tax on a net income basis generally in the same manner as if the non-U.S. holder were a United States person as defined under the Code (unless an applicable income tax treaty provides otherwise), and a non-U.S. holder that is a foreign corporation may also be subject to a branch profits tax equal to 30% (or such lower rate as may be specified by an applicable income tax treaty) of its effectively connected earnings and profits (subject to adjustments). In the case of a non-U.S. holder described in the second bullet point immediately above, except as otherwise provided by an applicable income tax treaty, the gain, which may be offset by United States source capital losses, will be subject to a 30% tax even though the individual is not considered a resident of the United States under the Code.

We believe that we are not, and we do not anticipate becoming, a USRPHC. If, however, we are or become a USRPHC, so long as our common stock is considered regularly traded on an established securities market, only a non-U.S. holder who actually or constructively holds or held (at any time during the applicable period) more than 5% of our common stock will be subject to United States federal income tax on the disposition of our common stock. There can be no assurance that our common stock will qualify and continue to qualify as regularly traded on an established securities market. Any taxable gain generally would be taxed in the same manner as gain that is effectively connected income, except that the branch profits tax will not apply. Non-U.S. holders should consult their own advisors about the consequences that could result if we are, or become, a USRPHC.

Information Reporting and Backup Withholding

We must report annually to the IRS and to each non-U.S. holder the amount of dividends paid to such holder and the tax withheld with respect to such dividends, regardless of whether withholding was required. Copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which the non-U.S. holder resides under the provisions of an applicable income tax treaty or agreement.

A non-U.S. holder will be subject to backup withholding (currently at a rate of 28%) on dividends paid to such holder unless such holder certifies under penalty of perjury that it is a non-U.S. holder, or such holder otherwise establishes an exemption.

Information reporting and, depending on the circumstances, backup withholding will apply to the proceeds of a sale or other disposition of our common stock within the United States or conducted through certain United States related financial intermediaries, unless the non-U.S. holder certifies under penalty of perjury that it is a non-U.S. holder, or such non-U.S. holder otherwise establishes an exemption.

Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a non-U.S. holder's United States federal income tax liability provided the required information is timely furnished to the IRS.

Table of Contents

Additional Withholding Requirements

Under sections 1471 through 1474 of the Code (provisions which are commonly referred to as FATCA), the relevant withholding agent may be required to withhold 30% of any dividends paid after June 30, 2014, and any proceeds of a sale or other disposition of our common stock paid after December 31, 2016, to (i) a foreign financial institution (whether holding common stock for its own account or on behalf of its account holders/investors) unless such foreign financial institution agrees to verify, report and disclose its U.S. account holders and meets certain other specified requirements or (ii) a non-financial foreign entity that is the beneficial owner of the common stock (or is holding common stock on behalf of any other non-financial foreign entity) unless such entity certifies that it does not have any substantial United States owners or provides the name, address and taxpayer identification number of each substantial United States owner and such entity meets certain other specified requirements. Non-U.S. holders should consult their own tax advisors regarding the effect of this newly enacted legislation.

Federal Estate Tax

Any shares of our common stock that are owned (or treated as owned) by an individual who is not a citizen or resident of the United States (as specially defined for United States federal estate tax purposes) at the time of death will be included in such individual's gross estate for United States federal estate tax purposes, unless an applicable estate tax treaty provides otherwise, and, therefore, may be subject to United States federal estate tax.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the SEC. Our SEC filings can be read and copied at the SEC's Public Reference Room at 100 F. Street, N.E., Washington, D.C. 20549. The public may obtain information on the operation of the public reference room by calling the SEC at 1-800-SEC-0330. Our SEC filings are also available over the Internet at the SEC's website at <http://www.sec.gov>. Our shares of common stock are listed and traded on the NASDAQ Global Select MarketSM under the trading symbol TRS. Our reports, proxy statements and other information can also be read at the offices of the NASDAQ Global Select MarketSM, One Liberty Plaza, 165 Broadway, New York, New York 10006. General information about us, including our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, as well as any amendments and exhibits to those reports, are available free of charge through our website at www.trimascorp.com as soon as reasonably practicable after we file them with, or furnish them to, the SEC. Information on, or accessible through, our website is not incorporated into this prospectus supplement or the accompanying prospectus or our other securities filings and is not a part of these filings.

We have filed a registration statement on Form S-3 (Registration Number 333-172525) under the Securities Act with the SEC pursuant to which the shares of common stock are being offered by this prospectus supplement. Neither this prospectus supplement nor the accompanying prospectus contains all the information contained in the registration statement because certain parts of the registration statement are omitted in accordance with the rules and regulations of the SEC. The registration statement and the documents filed as exhibits to the registration statement are available for inspection and copying as described above.

INFORMATION INCORPORATED BY REFERENCE

The SEC allows us to incorporate by reference the information we file with it, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be part of this prospectus supplement and information we file later with the SEC will automatically update and supersede this information. We incorporate by reference the documents listed below and any future filings made with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act. The documents we are incorporating by reference as of their respective dates of filing are as follows:

Our Annual Report on Form 10-K for the year ended December 31, 2012, filed on February 26, 2013;

Our Quarterly Report on Form 10-Q for the quarter ended March 31, 2013, filed on April 25, 2013;

Our Quarterly Report on Form 10-Q for the quarter ended June 30, 2013, filed on July 25, 2013;

Our Current Reports on Form 8-K and 8-K/A, as applicable, filed with the SEC on January 11, 2013, February 25, 2013, March 5, 2013, March 6, 2013, March 14, 2013, March 28, 2013, May 14, 2013, August 5, 2013 and August 23, 2013 (in each case, other than the exhibits furnished pursuant to Item 9.01);

Our Definitive Proxy Statement on Schedule 14A, filed on April 5, 2013; and

The description of our common stock contained in our registration statement on Form 8-A (File No. 001-10716).

Table of Contents

We are not, however, incorporating by reference any documents or portions thereof, whether specifically listed above or filed in the future, that are not deemed filed with the SEC, including any information furnished pursuant to Items 2.02 or 7.01 of Form 8-K or certain exhibits furnished pursuant to Item 9.01 of Form 8-K.

All documents we file with the SEC pursuant to Section 13(a), 13(c), 14 or 15(d) of the Exchange Act after the date of this prospectus supplement but before the termination of the offering by this prospectus supplement shall be deemed to be incorporated herein by reference and to be a part hereof from the date of the filing of those documents.

Any statement contained in a document incorporated by reference herein shall be deemed to be modified or superseded for all purposes to the extent that a statement contained in this prospectus supplement or in any other subsequently filed document which is also incorporated or deemed to be incorporated by reference, modifies or supersedes such statement. Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this prospectus supplement.

You may request, orally or in writing, a copy of these documents, which will be provided to you at no cost, by contacting: Investor Relations, 39400 Woodward Avenue, Suite 130, Bloomfield Hills, Michigan 48304, (248) 631-5450.

PROSPECTUS

COMMON STOCK AND DEBT SECURITIES

GUARANTEES OF DEBT SECURITIES OF TRIMAS

CORPORATION BY THE SUBSIDIARY GUARANTORS

AND

11,904,972 SHARES OF COMMON STOCK OFFERED BY THE SELLING STOCKHOLDER

We may sell from time to time in one or more offerings up to \$250,000,000 in the aggregate of:

shares of our common stock;

our secured or unsecured debt securities, in one or more series, which may be either senior, senior subordinated or subordinated debt securities; and

any combination of the foregoing.

We may sell any combination of these securities, in one or more offerings, up to an aggregate offering price of \$250,000,000 on terms to be determined at the time of the offering. The debt securities registered hereunder may be fully and unconditionally guaranteed by certain subsidiaries of the TriMas Corporation, which may include the Subsidiary Guarantors. In addition, the Selling Stockholder may sell from time to time up to 11,904,972 shares of our common stock and may issue an indeterminate number of shares of our common stock upon stock splits, stock dividends or similar transactions in accordance with Rule 416 of the Securities Act of 1933, held by the Selling Stockholder described in the section entitled **Selling Stockholders** on page 31 of this prospectus. The Selling Stockholder may offer and sell any of the shares of common stock from time to time at fixed prices, at market prices or at negotiated prices, and may engage a broker, dealer or underwriter to sell the shares. For additional information on the possible methods of sale that may be used by the Selling Stockholder, you should refer to the section entitled **Plan of Distribution** on page 32 of this prospectus. We will not receive any proceeds from the sale of the shares of common stock by the Selling Stockholder. We are contractually obligated to pay all expenses of registration incurred in connection with this offering for the sale of our common stock by the Selling Stockholder, except any underwriting discounts and commissions and expenses incurred by the Selling Stockholder in disposing of the shares.

This prospectus describes some of the general terms that may apply to these securities. We will provide the specific terms of any such offering in one or more supplements to this prospectus each time we sell securities hereunder. We can only use this prospectus to offer and sell our securities by also including a prospectus supplement relating to any such offer and sale.

We or the Selling Stockholder may sell the securities directly to you, through agents, underwriters and broker-dealers that we or the Selling Stockholder select. If we or the Selling Stockholder use agents, underwriters or broker-dealers to sell the securities, we will name them and describe their compensation in a prospectus supplement.

Our common stock is listed on the NASDAQ Global Select Market under the symbol **TRS**. On February 22, 2011, the last reported sale price of our common stock on the NASDAQ Global Select Market was \$21.01.

You should consider carefully the risks that we have described in Risk Factors beginning on page 3 before deciding whether to invest in our common stock.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is April 15, 2011.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission (the SEC) utilizing a shelf registration process or continuous offering process, which allows us to offer and sell any combination of the securities described in this prospectus in one or more offerings and allows the Selling Stockholder to offer and sell in one or more offerings. Using this prospectus, we may offer up to a total dollar amount of \$250,000,000 of these securities and the Selling Stockholder may offer to sell up to 11,904,972 shares of our common stock.

This prospectus provides you with a general description of the securities we or the Selling Stockholder may offer. Each time we or the Selling Stockholder offer to sell securities pursuant to this registration statement and the prospectus contained herein, we will provide a prospectus supplement that will contain specific information about the terms of that offering. That prospectus supplement may include additional risk factors about us and the terms of that particular offering. Prospectus supplements may also add to, update or change the information contained in this prospectus. To the extent that any statement that we make in a prospectus supplement is inconsistent with statements made in this prospectus, the statements made in this prospectus will be deemed modified or superseded by those made in such prospectus supplement. In addition, as we describe in the section entitled Information Incorporated by Reference, we have filed and plan to continue to file other documents with the SEC that contain information about us and the business conducted by us and our subsidiaries. Before you decide whether to invest in any of these securities, you should read this prospectus, the prospectus supplement that further describes the offering of these securities and the information we file with the SEC.

Unless the context otherwise requires, the terms TriMas, the Company, the registrants, we, us and our refer to TriMas Corporation and its subsidiaries, and the term Subsidiary Guarantors refers to, collectively, TriMas Company LLC, Arrow Engine Company, Cequent Performance Products, Inc., Cequent Consumer Products, Inc., Compac Corporation, Dew Technologies, Inc., Hi-Vol Products LLC, Keo Cutters, Inc., Lake Erie Products Corporation, Monogram Aerospace Fasteners, Inc., NI Industries, Inc., Norris Cylinder Company, Richards Micro-Tool, Inc., Rieke Corporation, Rieke Leasing Co., Incorporated, Rieke of Mexico, Inc., The Hammerblow Company, LLC, TriMas International Holdings LLC, Lamons Gasket Company and Towing Holding LLC.

ABOUT THE REGISTRANTS

We are a global manufacturer and distributor of products for commercial, industrial and consumer markets. Most of our businesses share important characteristics, including leading market shares, strong brand names, broad product offerings, established distribution networks, relatively high operating margins, relatively low capital investment requirements, product growth opportunities and strategic acquisition opportunities. We believe that a majority of our 2010 net sales were in markets in which our products enjoy the number one or number two market position within their respective product categories. In addition, we believe that in many of our businesses, we are one of only a few manufacturers in the geographic markets where we currently compete.

Our principal executive offices are located at 39400 Woodward Avenue, Suite 130, Bloomfield Hills, Michigan 48304. Our telephone number is (248) 631-5450. Our web site address is www.trimascorp.com. The information on our website is not part of this prospectus.

Table of Contents

THE OFFERING BY SELLING STOCKHOLDER

<i>Selling Stockholder</i>	Heartland Industrial Associates, L.L.C. (Heartland, or the Selling Stockholder)
<i>Common stock offered by the Selling Stockholder</i>	Up to 11,904,972 shares of our common stock(1)
<i>Use of proceeds</i>	Proceeds from the sale of common stock covered by this prospectus will be received by the Selling Stockholder. We will not receive any proceeds from the sale of the shares of common stock covered by this prospectus. We have been advised by the Selling Stockholder that the shares they may sell under this prospectus would be sold, if at all, in order to provide liquidity to the Selling Stockholder s investors.
<i>NASDAQ symbol</i>	TRS

- (1) The offering by the Selling Stockholder also relates to an indeterminate number of shares of our common stock that may be issued upon stock splits, stock dividends or similar transactions in accordance with Rule 416 of the Securities Act of 1933.

Table of Contents

RISK FACTORS

Investment in our securities involves risks. Prior to making a decision about investing in our securities, you should consider carefully the risk factors, together with all of the other information contained or incorporated by reference in this prospectus and any prospectus supplement, including any additional specific risks described in the section entitled "Risk Factors" contained in any supplements to this prospectus, as well as any amendments thereto reflected in subsequent filings with the United States Securities and Exchange Commission (the "SEC"), which are incorporated herein by reference in their entirety. The risks and uncertainties described below are those that we have identified as material, but are not the only risks and uncertainties facing us. Additional risks and uncertainties not currently known to us or that we currently believe are immaterial may also impact our business operations, financial results and liquidity.

Risks Related to Our Business

We have a history of net losses.

While we generated net income of \$45.3 million for the year ended December 31, 2010, we incurred net losses of \$0.2 million and \$136.2 million for the years ended December 31, 2009 and 2008, respectively. The loss in 2008 principally resulted from pre-tax, non-cash goodwill and indefinite-lived impairment charges of \$166.6 million, included in continuing operations. The losses in 2009 and 2008 were also impacted by losses from discontinued operations of \$13.0 million and \$12.1 million, respectively. In addition, interest expense associated with our highly leveraged capital structure, non-cash expenses such as depreciation and amortization of intangible assets and other asset impairments also contributed to our net losses. We may experience net losses in the future.

Our businesses depend upon general economic conditions and we serve some customers in highly cyclical industries; as such we are subject to the loss of sales and margins due to an economic downturn or recession.

Our financial performance depends, in large part, on conditions in the markets that we serve in both the U.S. and global economies. Some of the industries that we serve are highly cyclical, such as the automotive, construction, industrial equipment, energy, aerospace and electrical equipment industries. We may experience a reduction in sales and margins as a result of a downturn in economic conditions or other macroeconomic factors. Lower demand for our products may also negatively affect the capacity utilization of our production facilities, which may further reduce our operating margins.

Many of the markets we serve are highly competitive, which could limit the volume of products that we sell and reduce our operating margins.

Many of our products are sold in competitive markets. We believe that the principal points of competition in our markets are product quality and price, design and engineering capabilities, product development, conformity to customer specifications, reliability and timeliness of delivery, customer service and effectiveness of distribution. Maintaining and improving our competitive position will require continued investment by us in manufacturing, engineering, quality standards, marketing, customer service and support of our distribution networks. We may have insufficient resources in the future to continue to make such investments and, even if we make such investments, we may not be able to maintain or improve our competitive position. We also face the risk of lower-cost foreign manufacturers located in China, Southeast Asia and other regions competing in the markets for our products and we may be driven as a consequence of this competition to increase our investment overseas. Making overseas investments can be highly complicated and we may not always realize the advantages we anticipate from any such investments. Competitive pressure may limit the volume of products that we sell and reduce our operating margins.

Table of Contents

Increases in our raw material or energy costs or the loss of critical suppliers could adversely affect our profitability and other financial results.

We are sensitive to price movements in our raw materials supply base. Our largest material purchases are for steel, copper, aluminum, polyethylene and other resins and energy. Prices for these products fluctuate with market conditions and we have experienced sporadic increases recently. We may be unable to completely offset the impact with price increases on a timely basis due to outstanding commitments to our customers, competitive considerations or our customers' resistance to accepting such price increases and our financial performance may be adversely impacted by further price increases. A failure by our suppliers to continue to supply us with certain raw materials or component parts on commercially reasonable terms, or at all, could have a material adverse effect on us. To the extent there are energy supply disruptions or material fluctuations in energy costs, our margins could be materially adversely impacted.

We may be unable to successfully implement our business strategies. Our ability to realize our business strategies may be limited.

Our businesses operate in relatively mature industries and it may be difficult to successfully pursue our growth strategies and realize material benefits therefrom. Even if we are successful, other risks attendant to our businesses and the economy generally may substantially or entirely eliminate the benefits. While we have successfully utilized some of these strategies in the past, our growth has principally come through acquisitions.

Our products are typically highly engineered or customer-driven and we are subject to risks associated with changing technology and manufacturing techniques that could place us at a competitive disadvantage.

We believe that our customers rigorously evaluate their suppliers on the basis of product quality, price competitiveness, technical expertise and development capability, new product innovation, reliability and timeliness of delivery, product design capability, manufacturing expertise, operational flexibility, customer service and overall management. Our success depends on our ability to continue to meet our customers' changing expectations with respect to these criteria. We anticipate that we will remain committed to product research and development, advanced manufacturing techniques and service to remain competitive, which entails significant costs. We may be unable to address technological advances, implement new and more cost-effective manufacturing techniques, or introduce new or improved products, whether in existing or new markets, so as to maintain our businesses' competitive positions or to grow our businesses as desired.

We depend on the services of key individuals and relationships, the loss of which could materially harm us.

Our success will depend, in part, on the efforts of our senior management, including our chief executive officer. Our future success will also depend on, among other factors, our ability to attract and retain other qualified personnel. The loss of the services of any of our key employees or the failure to attract or retain employees could have a material adverse effect on us.

We have substantial debt and interest payment requirements that may restrict our future operations and impair our ability to meet our obligations.

We continue to have indebtedness that is substantial in relation to our shareholders' equity. As of December 31, 2010, we have approximately \$494.7 million of outstanding debt and approximately \$112.3 million of shareholders' equity. After consideration of our interest rate swap agreements, approximately 10% of our debt bears interest at variable rates. We may experience material increases in our interest expense as a result of increases in interest rate levels generally. Our debt service payment obligations in 2010 were approximately \$47.7 million and, based on amounts outstanding as of December 31, 2010, a 1% increase in the per annum

Table of Contents

interest rate for our variable rate debt would increase our interest expense by approximately \$0.3 million annually. Our degree of leverage and level of interest expense may have important consequences, including:

our leverage may place us at a competitive disadvantage as compared with our less leveraged competitors and make us more vulnerable in the event of a downturn in general economic conditions or in any of our businesses;

our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate may be limited;

our ability to obtain additional financing in the future for working capital, capital expenditures, acquisitions, business development efforts, general corporate or other purposes may be impaired;

a substantial portion of our cash flow from operations will be dedicated to the payment of interest and principal on our indebtedness, thereby reducing the funds available to us for other purposes, including our operations, capital expenditures, future business opportunities or obligations to pay rent in respect of our operating leases; and

our operations are restricted by our debt instruments, which contain material financial and operating covenants, and those restrictions may limit, among other things, our ability to borrow money in the future for working capital, capital expenditures, acquisitions, rent expense or other purposes.

Our ability to service our debt and other obligations will depend on our future operating performance, which will be affected by prevailing economic conditions and financial, business and other factors, many of which are beyond our control. Our business may not generate sufficient cash flow, and future financings may not be available to provide sufficient net proceeds, to meet these obligations or to successfully execute our business strategies.

Restrictions in our debt instruments and accounts receivable facility limit our ability to take certain actions and breaches thereof could impair our liquidity.

Our credit facility and the indenture governing our senior secured notes contain covenants that restrict our ability to:

pay dividends or redeem or repurchase capital stock;

incur additional indebtedness and grant liens;

make acquisitions and joint venture investments;

sell assets; and

make capital expenditures.

Our credit facility also requires us to comply with financial covenants relating to, among other things, interest coverage and leverage. Our accounts receivable facility contains covenants similar to those in our credit facility and includes additional requirements regarding our receivables. We may not be able to satisfy these covenants in the future or be able to pursue our strategies within the constraints of these covenants. Substantially all of our assets and the assets of our domestic subsidiaries (other than our special purpose receivables subsidiary) are

Edgar Filing: TRIMAS CORP - Form 424B5

pledged as collateral pursuant to the terms of our credit facility. A breach of a covenant contained in our debt instruments could result in an event of default under one or more of our debt instruments, our accounts receivable facility and our lease financing arrangements. Such breaches would permit the lenders under our credit facility to declare all amounts borrowed thereunder to be due and payable, and the commitments of such lenders to make further extensions of credit could be terminated. In addition, such breach may cause a termination of our accounts receivable facility. Each of these circumstances could materially and adversely impair our liquidity.

Table of Contents

We have significant goodwill and intangible assets, and future impairment of our goodwill and intangible assets could have a material negative impact on our financial results.

We test goodwill and indefinite-lived intangible assets for impairment on an annual basis as of October 1, and more frequently if we experience changes in our business conditions that indicate an interim test may be required, by comparing the estimated fair values with their respective carrying values. We estimate the fair value of our goodwill and indefinite-lived intangible assets utilizing a combination of a discounted cash flow approach, which is based upon management's operating budget and internal five-year forecast, and market-based valuation measures that consider earnings multiples (for goodwill testing) and royalty rates (for indefinite-lived intangible asset testing). We test goodwill for impairment by comparing the estimated fair value of each of our reporting units, determined using a combination of the aforementioned techniques, to its respective carrying value on our balance sheet. If carrying value exceeds fair value, then a possible impairment of goodwill exists and further evaluation is performed. We test indefinite-lived intangible assets by comparing the estimated fair value of the assets, determined based on discounted future cash flows related to the net amount of royalty expenses avoided due to the existence of the trademark or trade name, to the carrying value. If the carrying value exceeds fair value, an impairment charge is recorded.

The utilization of a discounted cash flow approach in the impairment test for both goodwill and indefinite-lived intangible assets requires us to make significant estimates regarding future revenues and expenses, projected capital expenditures, changes in working capital and the appropriate discount rate. The projections also take into account several factors including current and estimated economic trends and outlook, costs of raw materials, consideration of our market capitalization in comparison to the estimated fair value of our reporting units determined using discounted cash flow analyses and other factors that are beyond our control.

At December 31, 2010, our goodwill and intangible assets were approximately \$365.8 million and represented approximately 39.6% of our total assets. Our net loss of \$136.2 million for the year ended December 31, 2008, included \$166.6 million of pre-tax charges for impairment of goodwill and indefinite-lived intangible assets in continuing operations, and \$0.9 million of such charges in discontinued operations. If we experience declines in sales and operating profit or do not meet our current and forecasted operating budget, we may be subject to future goodwill impairments. In addition, while the fair value of our remaining goodwill exceeds its carrying value, significantly different assumptions regarding future performance of our businesses or significant declines in our stock price could result in additional impairment losses. Because of the significance of our goodwill and intangible assets, any future impairment of these assets could have a material adverse effect on our financial results.

We may face liability associated with the use of products for which patent ownership or other intellectual property rights are claimed.

We may be subject to claims or inquiries regarding alleged unauthorized use of a third party's intellectual property. An adverse outcome in any intellectual property litigation could subject us to significant liabilities to third parties, require us to license technology or other intellectual property rights from others, require us to comply with injunctions to cease marketing or using certain products or brands, or require us to redesign, reengineer, or rebrand certain products or packaging, any of which could affect our business, financial condition and operating results. If we are required to seek licenses under patents or other intellectual property rights of others, we may not be able to acquire these licenses on acceptable terms, if at all. In addition, the cost of responding to an intellectual property infringement claim, in terms of legal fees and expenses and the diversion of management resources, whether or not the claim is valid, could have a material adverse effect on our business, results of operations and financial condition.

We may be unable to adequately protect our intellectual property.

While we believe that our patents, trademarks and other intellectual property have significant value, it is uncertain that this intellectual property or any intellectual property acquired or developed by us in the future, will

Table of Contents

provide a meaningful competitive advantage. Our patents or pending applications may be challenged, invalidated or circumvented by competitors or rights granted thereunder may not provide meaningful proprietary protection. Moreover, competitors may infringe on our patents or successfully avoid them through design innovation. Policing unauthorized use of our intellectual property is difficult and expensive, and we may not be able to, or have the resources to, prevent misappropriation of our proprietary rights, particularly in countries where the laws may not protect such rights as fully as in the U.S. The cost of protecting our intellectual property may be significant and have a material adverse effect on our financial condition and future results of operations.

We may incur material losses and costs as a result of product liability, recall and warranty claims that may be brought against us.

We are subject to a variety of litigation incidental to our businesses, including claims for damages arising out of use of our products, claims relating to intellectual property matters and claims involving employment matters and commercial disputes.

We currently carry insurance and maintain reserves for potential product liability claims. However, our insurance coverage may be inadequate if such claims do arise and any liability not covered by insurance could have a material adverse effect on our business. Although we have been able to obtain insurance in amounts we believe to be appropriate to cover such liability to date, our insurance premiums may increase in the future as a consequence of conditions in the insurance business generally or our situation in particular. Any such increase could result in lower net income or cause the need to reduce our insurance coverage. In addition, a future claim may be brought against us that could have a material adverse effect on us. Any product liability claim may also include the imposition of punitive damages, the award of which, pursuant to certain state laws, may not be covered by insurance. Our product liability insurance policies have limits that, if exceeded, may result in material costs that could have an adverse effect on our future profitability. In addition, warranty claims are generally not covered by our product liability insurance.

Further, any product liability or warranty issues may adversely affect our reputation as a manufacturer of high-quality, safe products, divert management's attention, and could have a material adverse effect on our business. In addition, the Lamons Gasket business within our Energy reportable segment is a party to lawsuits related to asbestos contained in gaskets formerly manufactured by it or its predecessors. Some of this litigation includes claims for punitive and consequential as well as compensatory damages. We are not able to predict the outcome of these matters given that, among other things, claims may be initially made in jurisdictions without specifying the amount sought or by simply stating the minimum or maximum permissible monetary relief, and may be amended to alter the amount sought. Of the 8,200 claims pending at December 31, 2010, 40 set forth specific amounts of damages (other than those stating the statutory minimum or maximum). 28 of the 40 claims sought between \$1.0 million and \$5.0 million in total damages (which includes compensatory and punitive damages), 9 sought between \$5.0 million and \$10.0 million in total damages (which includes compensatory and punitive damages) and 3 sought over \$10.0 million (which includes compensatory and punitive damages). Solely with respect to compensatory damages, 30 of the 40 claims sought between \$50,000 and \$600,000, 7 sought between \$1.0 million and \$5.0 million and 3 sought over \$5.0 million. Solely with respect to punitive damages, 28 of the 40 claims sought between \$1.0 million and \$2.5 million, 9 sought between \$2.5 million and \$5.0 million and 3 sought over \$5.0 million. Total defense costs from January 1, 2010 to December 31, 2010 were approximately \$2.9 million and total settlement costs (exclusive of defense costs) for all asbestos cases since inception have been approximately \$5.8 million through December 31, 2009. To date, approximately 50% of our costs related to defense and settlement of asbestos litigation have been covered by our primary insurance. Effective February 14, 2006, we entered into a coverage-in-place agreement with our first level excess carriers regarding the coverage to be provided to us for asbestos-related claims when our primary insurance is exhausted. The coverage-in-place agreement makes asbestos defense costs and indemnity insurance coverage available to us that might otherwise be disputed by the carriers and provides a methodology for the administration of such expenses. Nonetheless, the Company believes it is likely that there will to be a period within the next three years, prior to the commencement of coverage under this agreement and following exhaustion of the Company's

Table of Contents

primary insurance coverage, during which the Company likely will be solely responsible for defense costs and indemnity payments, the duration of which would be subject to the scope of damage awards and settlements paid. We also may incur significant litigation costs in defending these matters in the future. We may be required to incur additional defense costs and pay damage awards or settlements or become subject to equitable remedies that could adversely affect our businesses.

Our business may be materially and adversely affected by compliance obligations and liabilities under environmental laws and regulations.

We are subject to federal, state, local and foreign environmental laws and regulations which impose limitations on the discharge of pollutants into the ground, air and water and establish standards for the generation, treatment, use, storage and disposal of solid and hazardous wastes, and remediation of contaminated sites. We may be legally or contractually responsible or alleged to be responsible for the investigation and remediation of contamination at various sites, and for personal injury or property damages, if any, associated with such contamination. We have been named as potentially responsible parties under CERCLA (the federal Superfund law) or similar state laws in several sites requiring clean-up related to disposal of wastes we generated. These laws generally impose liability for costs to investigate and remediate contamination without regard to fault and under certain circumstances liability may be joint and several resulting in one responsible party being held responsible for the entire obligation. Liability may also include damages to natural resources. We have entered into consent decrees relating to two sites in California along with the many other co-defendants in these matters. We have incurred substantial expenses for each of these sites over a number of years, a portion of which has been covered by insurance. In addition to the foregoing, our businesses have incurred and likely will continue to incur expenses to investigate and clean up existing and former company-owned or leased property, including those properties made the subject of sale-leaseback transactions for which we have provided environmental indemnities to the lessors. Additional sites may be identified at which we are a potentially responsible party under the federal Superfund law or similar state laws. We must also comply with various health and safety regulations in the U.S. and abroad in connection with our operations.

We believe that our business, operations and facilities are being operated in compliance in all material respects with applicable environmental and health and safety laws and regulations, many of which provide for substantial fines and criminal sanctions for violations. Based on information presently known to us and accrued environmental reserves, we do not expect environmental costs or contingencies to have a material adverse effect on us. The operation of manufacturing plants entails risks in these areas, however, and we may incur material costs or liabilities in the future that could adversely affect us. There can be no assurance that we have been or will be at all times in substantial compliance with environmental health and safety laws. Failure to comply with any of these laws could result in civil, criminal, monetary and non-monetary penalties and damage to our reputation. In addition, potentially material expenditures could be required in the future. For example, we may be required to comply with evolving environmental and health and safety laws, regulations or requirements that may be adopted or imposed in the future or to address newly discovered information or conditions that require a response.

Our growth strategy includes the impact of acquisitions. If we are unable to identify attractive acquisition candidates, successfully integrate acquired operations or realize the intended benefits of our acquisitions, we may be adversely affected.

One of our principal growth strategies is to pursue strategic acquisition opportunities. Since our separation from Metaldyne in June 2002, we have completed fifteen acquisitions. Each of these acquisitions required integration expense and actions that negatively impacted our results of operations and that could not have been fully anticipated beforehand. In addition, attractive acquisition candidates may not be identified and acquired in the future, financing for acquisitions may be unavailable on satisfactory terms and we may be unable to accomplish our strategic objectives in effecting a particular acquisition. We may encounter various risks in acquiring other companies, including the possible inability to integrate an acquired business into our operations,

Table of Contents

diversion of management's attention and unanticipated problems or liabilities, some or all of which could materially and adversely affect our business strategy and financial condition and results of operations.

We have significant operating lease obligations and our failure to meet those obligations could adversely affect our financial condition.

We lease many of our manufacturing facilities and certain capital equipment. Our annualized rental expense in 2010 under these operating leases was approximately \$15.4 million. A failure to pay our rental obligations would constitute a default allowing the applicable landlord to pursue any remedy available to it under applicable law, which would include taking possession of our property and, in the case of real property, evicting us. These leases are categorized as operating leases and are not considered indebtedness for purposes of our debt instruments.

We may be subject to further unionization and work stoppages at our facilities or our customers may be subject to work stoppages, which could seriously impact the profitability of our business.

As of December 31, 2010, approximately 28% of our work force in our continuing operations was unionized under several different unions and bargaining agreements. If our unionized workers were to engage in a strike, work stoppage or other slowdown in the future, we could experience a significant disruption of our operations. In addition, if a greater percentage of our work force becomes unionized, our labor costs and risks associated with strikes, work stoppages or other slowdowns may increase.

On July 10, 2009, we reached a mutually agreeable settlement with the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (Union) regarding the duration of a neutrality agreement we have with the Union. The agreement commits us to remain generally neutral in Union organizing drives through the duration of the agreement. On August 17, 2009, the Union began an organizing drive under the terms of the neutrality agreement at our facility located in Houston, Texas, which is included in our Energy segment. Since the Union obtained a simple majority of authorization cards during the organizing drive, on November 4, 2009 we recognized the Union at this facility. The recognition requires us and the Union to negotiate a first collective bargaining agreement within 180 days from the date of recognition. Under the neutrality agreement, there is no threat of strike or work slowdown during the first collective bargaining agreement. On December 10, 2009, we received a notice of filing petition for union decertification at the Houston, Texas facility. A decertification vote administered by the National Labor Relations Board occurred on August 26, 2010, however, those ballots were impounded in light of the Union's previously filed request for review. The matter is still pending with the National Labor Relations Board.

On December 4, 2009, we received a notice of filing petition for union representation election filed by the International Association of Machinists and Aerospace workers with regard to our Engineered Components facility located in Plymouth, Massachusetts. On January 15, 2010, a vote was held according to the rules of the National Labor Relations Board. The union was unsuccessful in receiving the simple majority of the required votes; therefore, the Plymouth, Massachusetts facility remains union free.

Other than as described above, we are not aware of any present active union organizing drives at any of our other facilities. We cannot predict the impact of any further unionization of our workplace.

Many of our direct or indirect customers have unionized work forces. Strikes, work stoppages or slowdowns experienced by these customers or their suppliers could result in slowdowns or closures of assembly plants where our products are included. In addition, organizations responsible for shipping our customers' products may be impacted by occasional strikes or other activity. Any interruption in the delivery of our customers' products could reduce demand for our products and could have a material adverse effect on us.

Table of Contents

Our healthcare costs for active employees and future retirees may exceed our projections and may negatively affect our financial results.

We maintain a range of healthcare benefits for our active employees and a limited number of retired employees pursuant to labor contracts and otherwise. Healthcare benefits for active employees and certain retirees are provided through comprehensive hospital, surgical and major medical benefit provisions or through health maintenance organizations, all of which are subject to various cost-sharing features. Some of these benefits are provided for in fixed amounts negotiated in labor contracts with the respective unions. If our costs under our benefit programs for active employees and retirees exceed our projections, our business and financial results could be materially adversely affected. Additionally, foreign competitors and many domestic competitors provide fewer benefits to their employees and retirees, and this difference in cost could adversely impact our competitive position.

A growing portion of our sales may be derived from international sources, which exposes us to certain risks which may adversely affect our financial results and impact our ability to service debt.

Approximately 17.6% of our net sales for the year ended December 31, 2010 were derived from sales by our subsidiaries located outside of the U.S. We may significantly expand our international operations through internal growth and acquisitions. Sales outside of the U.S., particularly sales to emerging markets, and manufacturing in non-US countries are subject to various other risks which are not present within U.S. markets, including governmental embargoes or foreign trade restrictions such as anti-dumping duties, changes in U.S. and foreign governmental regulations, tariffs and other trade barriers, the potential for nationalization of enterprises, foreign exchange risk and other political, economic and social instability. In addition, there are tax inefficiencies in repatriating cash flow from non-U.S. subsidiaries that could affect our financial results and reduce our ability to service debt.

Our stock price may be subject to significant volatility due to our own results or market trends.

If our revenue, earnings or cash flows in any quarter fail to meet the investment community's expectations, there could be an immediate negative impact on our stock price. Our stock price could also be impacted by broader market trends and world events unrelated to our performance.

Risks Related to Our Common Stock

Future sales of our common stock in the public market could cause our stock price to fall.

Sales of a substantial number of shares of our common stock in the public market, or the perception that these sales might occur, could depress the market price of our common stock and could impair our ability to raise capital through the sale of additional equity securities. We have 400,000,000 shares of common stock authorized for issuance under our certificate of incorporation and 34,065,856 shares of common stock outstanding as of December 31, 2010. All of the shares of common stock sold in this offering will be freely tradeable without restrictions or further registration under the Securities Act. In addition, certain parties to our shareholders agreement have the right, subject to the limitations in the shareholders agreement, to exercise certain piggyback registration rights in connection with other registered offerings. Substantial sales by Heartland or the perception that these sales will occur may materially and adversely affect the price of our common stock.

If we sell or issue additional shares of common stock to finance future acquisitions, your stock ownership could be diluted.

Part of our growth strategy is to expand into new markets and enhance our position in existing markets through acquisitions. In order to successfully complete acquisitions we may target or fund our other activities, we may issue additional equity securities that could be dilutive to our earnings per share and to your stock ownership. The timing and quantity of the shares of our common stock that will be sold may have a negative

Table of Contents

impact on the market price of our common stock. Sales of substantial amounts of our common stock (including shares issued upon the exercise of stock options or in connection with acquisition financing), or the perception that such sales could occur, may materially and adversely affect prevailing market prices for our common stock.

Possible volatility in our stock price could negatively affect our stockholders.

The trading price of our common stock may be volatile in response to a number of factors, many of which are beyond our control, including actual or anticipated variations in quarterly financial results; changes in financial estimates or recommendations by securities analysts; changes in accounting standards, policies, guidance, interpretations or principles; sales of common stock by us or members of our management team; and announcements by our competitors of significant acquisitions, strategic partnerships, joint ventures or capital commitments. In addition, our financial results may be below the expectations of securities analysts and investors. If this were to occur, the market price of our common stock could decrease, possibly significantly.

In addition, the U.S. securities markets have experienced significant price and volume fluctuations. These fluctuations often have been unrelated to the operating performance of companies in these markets. Broad market and industry factors may negatively affect the price of our common stock, regardless of our operating performance. In the past, following periods of volatility in the market price of an individual company's securities, securities class action litigation often has been instituted against that company. The institution of similar litigation against us could result in substantial costs and a diversion of our management's attention and resources, which could negatively affect our financial results.

Heartland owns approximately 33.9% of our voting common equity.

Heartland Industrial Partners (Heartland) beneficially owns approximately 33.9% of our outstanding voting common equity. As a result, Heartland has the power to substantially influence all matters submitted to our stockholders, exercise significant influence over our decisions to enter into any corporate transaction and any transaction that requires the approval of stockholders regardless of whether other stockholders believe that any such transactions are in their own best interests. For example, Heartland could cause us to make acquisitions that increase the amount of our indebtedness, sell revenue-generating assets or cause us to undergo a going private transaction with it or one of its affiliates based on its ownership without a legal requirement of unaffiliated shareholder approval. In addition, Heartland has the power to control the election of a majority of our directors. So long as Heartland continues to own a significant amount of the outstanding shares of our common stock, it will continue to be able to strongly influence or effectively control our decisions. Its interests may differ from other stockholders and it may vote in a way with which other stockholders disagree. In addition, this concentration of ownership may have the effect of preventing, discouraging or deterring a change of control. One of our directors is the Managing Member of Heartland's general partner.

We are party to certain transactions with Heartland and its affiliates which may continue in the future.

While we have no current plans with respect to additional related party transactions with Heartland or its affiliates, apart from those existing and ordinary course matters we may enter into such transactions in the future. Our debt instruments currently require that, principles of corporate law may recommend that and we intend to, enter into such transactions only on arm's length third party terms. However, we cannot assure you that, should we enter into any such transactions, they would not be detrimental to us and to shareholders other than the relevant affiliated party or that there will be relevant arm's length third party transactions to which we may compare.

Table of Contents

Provisions of Delaware law, our certificate of incorporation and by-laws, could delay or prevent a change in control of our company, which could adversely impact the value of our common stock.

Our certificate of incorporation and by-laws contain provisions that could make it more difficult for a third party to acquire us, even if doing so might be beneficial to our shareholders. Our certificate of incorporation and by-laws impose various procedural and other requirements, which could make it more difficult for shareholders to effect certain corporate actions. For example, our certificate of incorporation authorizes our Board of Directors to determine the rights, preferences, privileges and restrictions of an unissued series of preferred stock, without any vote or action by our shareholders. Thus, our Board of Directors is able to authorize and issue shares of preferred stock with voting or conversion rights that could adversely affect the voting or other rights of holders of our common stock. Additional provisions include the sole power of our Board of Directors to fix the number of directors, limitations on the removal of directors, the sole power of our Board of Directors to fill any vacancy on our board, whether such vacancy occurs as a result of an increase in the number of directors or otherwise, and the inability of shareholders to act by written consent to call special meetings. These rights may have the effect of delaying or deterring a change of control of our company. In addition, a change of control of our company may be delayed or deterred as a result of our having three classes of directors. These provisions could limit the price that certain investors might be willing to pay in the future for shares of our common stock. See Description of Capital Stock.

We have no plans to pay regular dividends on our common stock, so you may not receive funds without selling your common stock.

We have not declared or paid cash dividends on our common stock since becoming a stand-alone entity in June 2002 and we do not anticipate paying any cash dividends on our common stock in the foreseeable future. In addition, restrictions in our credit facility and our indenture governing the notes restrict our ability to pay dividends. We currently intend to retain future earnings, if any, to finance our business and growth strategies. Any decision to declare and pay dividends in the future will be made at the discretion of our Board of Directors and will depend on, among other things, our results of operations, cash requirements, financial condition, contractual restrictions and other factors that our Board of Directors may deem relevant.

SPECIAL NOTE REGARDING FORWARD-LOOKING INFORMATION

This prospectus, any prospectus supplement and any documents we incorporate by reference herein or therein may contain forward-looking statements (as that term is defined by the federal securities laws) about our financial condition, results of operations and business. You can find many of these statements by looking for words such as may, will, expect, anticipate, believe, estimate and similar words used in this prospectus.

These forward-looking statements are subject to numerous assumptions, risks and uncertainties. Because the statements are subject to risks and uncertainties, actual results may differ materially from those expressed or implied by the forward-looking statements. We caution readers not to place undue reliance on the statements, which speak only as of the date of this prospectus.

The cautionary statements set forth above should be considered in connection with any subsequent written or oral forward-looking statements that we or persons acting on our behalf may issue. We do not undertake any obligation to review or confirm analysts' expectations or estimates or to release publicly any revisions to any forward-looking statement to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events.

We disclose important factors that could cause our actual results to differ materially from our expectations under "Risk factors" and elsewhere in this prospectus or any documents we incorporate by reference herein or therein. These cautionary statements qualify all forward-looking statements attributed to us or persons acting on our behalf. When we indicate that an event, condition or circumstance could or would have an adverse effect on us, we mean to include effects upon our business, financial and other condition, results of operations, prospects and ability to service our debt. Additional risks and uncertainties not currently known to us or that we currently deemed to be immaterial also may materially adversely affect our business, financial position and results of operations or cash flows.

Risks and uncertainties that could cause actual results to vary materially from those anticipated in the forward-looking statements included in this prospectus include general economic conditions in the markets in which we operate and industry-related factors such as:

We have a history of net losses;

Our businesses depend upon general economic conditions and we serve some customers in highly cyclical industries; as such we are subject to the loss of sales and margins due to an economic downturn or recession;

Many of the markets we serve are highly competitive, which could limit the volume of products that we sell and reduce our operating margins;

Increases in our raw material or energy costs or the loss of critical suppliers could adversely affect our profitability and other financial results;

We may be unable to successfully implement our business strategies. Our ability to realize our business strategies may be limited;

Our products are typically highly engineered or customer driven and we are subject to risks associated with changing technology and manufacturing techniques that could place us at a competitive disadvantage;

We depend on the services of key individuals and relationships, the loss of which could materially harm us;

Edgar Filing: TRIMAS CORP - Form 424B5

We have substantial debt and interest payment requirements that may restrict our future operations and impair our ability to meet our obligations;

Table of Contents

Restrictions in our debt instruments and accounts receivable facility limit our ability to take certain actions and breaches thereof could impair our liquidity;

We have significant goodwill and intangible assets, and future impairment of our goodwill and intangible assets could have a material negative impact on our financial results;

We may face liability associated with the use of products for which patent ownership or other intellectual property rights are claimed;

We may be unable to adequately protect our intellectual property;

We may incur material losses and costs as a result of product liability, recall and warranty claims that may be brought against us;

Our business may be materially and adversely affected by compliance obligations and liabilities under environmental laws and regulations;

Our growth strategy includes the impact of acquisitions. If we are unable to identify attractive acquisition candidates, successfully integrate acquired operations or realize the intended benefits of our acquisitions, we may be adversely affected;

We have significant operating lease obligations and our failure to meet those obligations could adversely affect our financial condition;

We may be subject to further unionization and work stoppages at our facilities or our customers may be subject to work stoppages, which could seriously impact the profitability of our business;

Our healthcare costs for active employees and future retirees may exceed our projections and may negatively affect our financial results;

A growing portion of our sales may be derived from international sources, which exposes us to certain risks which may adversely affect our financial results and impact our ability to service debt;

Our stock price may be subject to significant volatility due to our own results or market trends;

Future sales of our common stock in the public market could cause our stock price to fall;

If we sell or issue additional shares of common stock to finance future acquisitions, your stock ownership could be diluted;

Possible volatility in our stock price could negatively affect our stockholders;

Heartland has the power to substantially influence all matters submitted to our stockholders and exercise significant influence over our decisions;

We are party to certain transactions with Heartland and its affiliates which may continue in the future;

Provisions of Delaware law, our certificate of incorporation and by-laws, could delay or prevent a change in control of our company, which could adversely impact the value of our common stock; and

We have no plans to pay regular dividends on our common stock, so you may not receive funds without selling your common stock.

Table of Contents

USE OF PROCEEDS

Unless otherwise indicated in a prospectus supplement, we intend to use the net proceeds that we receive from the sale of any securities by us covered by this prospectus for general corporate purposes including the reduction of outstanding indebtedness, acquisitions, capital expenditures and working capital and any other purposes that we specify in the applicable prospectus supplement.

We will not receive any proceeds from the sale of the shares of our common stock by the Selling Stockholder. We have been advised by the Selling Stockholder that the shares they may sell under this prospectus would be sold, if at all, in order to provide liquidity to the Selling Stockholder's investors.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth our ratio of earnings to fixed charges for each of the periods indicated:

	2006	Fiscal year Ended December 31,			2010
	2006	2007	2008	2009	2010
Ratio of earnings to fixed charges(1)	n/a	n/a	n/a	1.3x	2.1x

- (1) For purposes of calculating the ratio of earnings to fixed charges, earnings represents income (loss) from continuing operations before income taxes plus fixed charges. Fixed charges include interest expense, including amortization of deferred financing costs and debt extinguishment costs, and the portion of operating rental expense which management believes is representative of the interest component of rent expense (assumed to be 33%). For the years ended December 31, 2008, 2007 and 2006, additional earnings of \$123.6 million, \$174.9 million, and \$110.6 million, respectively, would have been required to make the ratio 1.0x.

Table of Contents

DESCRIPTION OF OUR CAPITAL STOCK

The following is a description of the material terms of our amended and restated certificate of incorporation and bylaws. We refer to our certificate of incorporation as so amended as our certificate of incorporation. The certificate of incorporation, authorizes us to issue 400,000,000 shares of common stock, par value \$0.01 per share, and 100,000,000 shares of preferred stock, par value \$0.01 per share.

Common Stock

As of December 31, 2010, there were outstanding 34,065,856 shares of common stock held of record by 601 stockholders and there were no shares of preferred stock issued and outstanding. In addition, there were 1,742,086 shares of common stock reserved for issuance upon exercise of outstanding stock options, of which 925,182 were vested. The holders of common stock are entitled to one vote per share on all matters to be voted on by the stockholders. Accordingly, holders of a majority of the shares of common stock entitled to vote in any election of directors may elect all of the directors standing for election. Holders of common stock are entitled to receive ratably such dividends as may be declared by the Board of Directors out of funds legally available therefor. Our credit facilities and the indenture governing the notes impose restrictions on our ability to pay dividends on common stock. In the event of our liquidation, dissolution or winding up, holders of common stock are entitled to share ratably in all assets remaining after payment of liabilities and the liquidation preferences of any outstanding shares of preferred stock. Holders of our common stock have no preemptive, subscription, redemption or conversion rights. There are no redemption or sinking fund provisions applicable to the common stock. All outstanding shares of common stock are fully paid and nonassessable.

Preferred Stock

As of December 31, 2010, there were no outstanding shares of preferred stock. Our certificate of incorporation authorizes the Board of Directors, subject to limitations prescribed by law, to issue up to 100,000,000 shares of preferred stock in one or more series and to fix the rights, preferences, privileges, qualifications and restrictions granted to or imposed upon such preferred stock, including dividend rights, dividend rates, conversion rights, voting rights (which may be greater than one vote per share), rights and terms of redemption, sinking fund provisions for the redemption or purchase of the shares and liquidation preference, any or all of which may be greater than the rights of the common stock. The issuance of preferred stock could:

adversely affect the voting power of holders of common stock and reduce the likelihood that such holders will receive dividend payments and payments upon liquidation;

decrease the market price of our common stock; or

delay, deter or prevent a change in our control.

We have no current plans to issue any shares of preferred stock although they may be issued in the future.

The purpose of authorizing our Board of Directors to issue preferred stock and determine its rights and preferences is to eliminate delays associated with a shareholder vote on specific issuances. The issuance of preferred stock, while providing desirable flexibility in connection with possible acquisitions and other corporate purposes, could have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from attempting to acquire, a majority of our outstanding voting stock. The existence of the authorized but undesignated preferred stock may have a depressive effect on the market price of our common stock.

Shareholders Agreement

Heartland and other investors are parties to a shareholders agreement regarding their ownership of our common stock.

Table of Contents

Anti-Takeover Effects of Delaware Law and Our Certificate of Incorporation and By-laws

Delaware Law

We have elected to opt out of the provisions of Section 203 of the Delaware General Corporation Law. In general, Section 203 prohibits a public Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder, unless either the person becoming an interested stockholder or the business combination is approved in a prescribed manner. A business combination includes mergers, asset sales or other transactions resulting in a financial benefit to the stockholder. An interested stockholder is a person who, together with affiliates and associates, owns, or within three years, did own, 15.0% or more of the corporation's voting stock.

Certificate of Incorporation and By-law Provisions

Certain provisions of our certificate of incorporation and by-laws may have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from attempting to acquire, control of us. Such provisions could limit the price that certain investors might be willing to pay in the future for shares of our common stock and may limit the ability of stockholders to remove current management or directors or approve transactions that stockholders may deem to be in their best interest and, therefore, could adversely affect the price of our common stock.

Classified Board. Our certificate of incorporation provides that our Board of Directors will be divided into three classes of directors, with the classes to be as nearly equal in number as possible. As a result, approximately one-third of our Board of Directors will be elected each year. The classification of directors will have the effect of making it more difficult for stockholders to change the composition of our board. Our certificate of incorporation and the by-laws provide that subject to any rights of holders of preferred stock to elect additional directors under specified circumstances, the number of directors will be fixed from time to time exclusively pursuant to a resolution adopted by the board, but must consist of not less than three or more than fifteen directors.

Under the Delaware General Corporation Law, unless otherwise provided in our certificate of incorporation, directors serving on a classified board may be removed by the stockholders only for cause.

No Cumulative Voting. The Delaware General Corporation Law provides that stockholders are not entitled to the right to cumulate votes in the election of directors unless our certificate of incorporation provides otherwise. Our certificate of incorporation does not expressly provide for cumulative voting. Under cumulative voting, a majority stockholder holding a sufficient percentage of a class of shares may be able to ensure the election of one or more directors.

Advance Notice Requirements for Stockholder Proposals and Director Nominations. Our by-laws provide that stockholders seeking to nominate candidates for election as directors or to bring business before an annual meeting of stockholders must provide timely notice of their proposal in writing to the corporate secretary. Generally, to be timely, a stockholder's notice must be received at our principal executive offices not less than 90 nor more than 120 days prior to the first anniversary of the previous year's annual meeting. Our by-laws also specify requirements as to the form and content of a stockholder's notice. These provisions may impede stockholders' ability to bring matters before an annual meeting of stockholders or make nominations for directors at an annual meeting of stockholders.

No Action by Written Consent; Special Meeting. Our certificate of incorporation and by-laws provide that any action required or permitted to be taken by our stockholders must be effected at a duly called annual or special meeting of stockholders and may not be effected by any consent in writing. In addition, our by-laws provide that special meetings of our stockholders may be called only by the Board of Directors or the chairman of the Board of Directors.

Table of Contents

Authorized but Undesignated Stock. The authorization of undesignated preferred stock makes it possible for the Board of Directors to issue preferred stock with voting or other rights or preferences that could impede the success of any attempt to change control of us or otherwise render more difficult or discourage an attempt to obtain control of our company by means of a merger, tender offer, proxy contest or otherwise, and thereby protect the continuity of our management and possibly deprive the stockholders of opportunities to sell their shares of common stock at prices higher than prevailing market prices.

Limitation of Liability and Indemnification

Our certificate of incorporation contains provisions that limit the personal liability of each of our directors for monetary damages for breach of fiduciary duty as a director, except for liability

- (a) for any breach of a director's duty of loyalty to us or our affiliates or our stockholders,
- (b) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law,
- (c) under Section 174 of the DGCL, or
- (d) for any transaction from which the director derived an improper personal benefit.

The inclusion of this provision in our certificate of incorporation may have the effect of reducing the likelihood of derivative litigation against directors, and may discourage or deter stockholders or management from bringing a lawsuit against directors for breach of their duty of care, even though such an action, if successful, might otherwise have benefited us and our stockholders. Our by-laws allow us to indemnify our directors, officers, employees and agents to the fullest extent permitted by the DGCL.

Our certificate of incorporation further provides that we will indemnify and hold harmless each person who was or is made a party or is threatened to be made a party to or is otherwise involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he or she is or was a director or officer of ours, whether the basis of such proceeding is alleged action in an official capacity as a director or officer or in any other capacity while serving as a director or officer, to the fullest extent permitted by the Delaware General Corporation Law. This right of indemnification shall include the right to have paid by us the expenses, including attorneys fees, incurred in defending any such proceeding in advance of its final disposition. If Delaware law so requires, however, the advancement of such expenses incurred by a director or officer in such person's capacity as a director or officer (and not in any other capacity in which service was or is rendered by such person) will only be made upon the delivery to us of an undertaking by or on behalf of such person to repay all amounts so advanced if it shall ultimately be determined by final judicial decision, from which there is no further right to appeal, that such person is not entitled to be indemnified for such expenses by us.

We have entered into indemnity agreements with our directors and certain of our executive officers for the indemnification and advancement of expenses to these persons. We believe that these provisions and agreements are necessary to attract and retain qualified directors and executive officers. We also intend to enter into these agreements with our future directors and certain of our executive officers. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling our company pursuant to the foregoing provisions, we have been informed that, in the opinion of the Commission, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

There is currently no pending material litigation or proceeding involving any director, executive officer, employee or agent where indemnification will be required or permitted. We are not aware of any threatened litigation or proceeding that might result in a claim for such indemnification.

DESCRIPTION OF DEBT SECURITIES AND GUARANTEES

The following description discusses the general terms and provisions of the debt securities that we may offer under this prospectus. The debt securities may be issued as senior debt securities or subordinated debt securities. The indebtedness represented by the senior debt securities will rank equally with all of our other unsecured and unsubordinated debt. The indebtedness represented by the subordinated debt securities will rank junior and be subordinate in right of payment to the prior payment in full of our senior debt, to the extent and in the manner set forth in the applicable prospectus supplement for the securities.

The senior debt securities and the subordinated debt securities will be issued under separate indentures between us and one or more U.S. banking institutions. The trustee for each series of our debt securities will be identified in the applicable prospectus supplement. We may refer to the indenture covering the senior debt securities as the senior indenture and the indenture covering the subordinated debt securities as the subordinated indenture. Together the senior indenture and the subordinated indenture are called indentures.

The forms of the indentures are filed as exhibits to the registration statement of which this prospectus is a part. The indentures are subject to and governed by the Trust Indenture Act of 1939, or the Trust Indenture Act, and may be supplemented or amended from time to time following their execution. We have not yet selected a trustee for either of the indentures, and we have not yet executed either indenture. Prior to issuing any debt securities, we will be required to select a trustee for the applicable indenture or indentures, qualify the trustee or trustees under the Trust Indenture Act and execute the applicable indenture or indentures.

The form of each indenture gives us broad authority to set the particular terms of each series of debt securities, including the right to modify certain of the terms contained in the indenture. The particular terms of a series of debt securities and the extent, if any, to which the particular terms of the issue modify the terms of the applicable form of indenture will be described in the prospectus supplement relating to such series of debt securities.

The following summary describes selected provisions of the indentures. This summary does not describe every aspect of the debt securities or the applicable indenture and is subject to, and qualified in its entirety by reference to, all the provisions of the applicable indenture, including the terms defined in the applicable indenture. We urge you to read the applicable indenture in its entirety. This summary is also subject to, and qualified in its entirety by reference to, the description of the particular debt securities in the applicable prospectus supplement.

General

The indentures provide that we will be able to issue an unlimited aggregate principal amount of debt securities under each indenture, in one or more series, and in any currency or currency units. We are not required to issue all debt securities of one series at the same time and, unless otherwise provided, we may reopen a series, without the consent of the holders of the debt securities of that series, for issuances of additional debt securities of that series.

Prior to the issuance of each series of debt securities, the terms of the particular securities will be specified in a supplemental indenture or a resolution of our board of directors or in one or more officer's certificates pursuant to a board resolution. We will describe in the applicable prospectus supplement the terms of the debt securities being offered, including:

the title, and the price at which we will sell, the offered debt securities;

whether the offered debt securities are senior debt securities or subordinated debt securities;

the aggregate principal amount of the offered debt securities;

the date or dates on which principal will be payable or how to determine such date or dates;

Table of Contents

the rate or rates or method of determination of interest;

the date from which interest will accrue;

the dates on which interest will be payable and any record dates for the interest payable on the interest payment dates;

the place of payment on the offered debt securities;

any obligation or option we have to redeem, purchase or repay the offered debt securities, or any option of the registered holder to require us to redeem or repurchase offered debt securities, and the terms and conditions upon which the offered debt securities will be redeemed, purchased or repaid;

the currency or currencies, including composite currencies or currency units, in which payment of the principal of (or premium, if any) or interest, if any, on any of the offered debt securities will be payable if other than the currency of the United States of America;

any index, formula or other method used to determine the amount of principal, premium, if any, or interest;

the terms and conditions upon which payment on the offered debt securities may change;

whether the offered debt securities are defeasible;

any addition to or change in the events of default;

any addition to or change in the covenants in the applicable indenture;

the terms of any right to convert the offered debt securities into common shares; and

any other terms of the offered debt securities not inconsistent with the provisions of the applicable indenture.

If the offered debt securities are denominated in whole or in part in any currency other than U.S. dollars, if the principal of (and premium, if any) or interest, if any, on the offered debt securities are to be payable in a currency or currencies other than that in which the debt securities are to be payable, or if any index is used to determine the amount of payments of principal of (and premium, if any) or interest on any series of the debt securities, material federal income tax, accounting and other considerations applicable thereto will be described in the applicable prospectus supplement.

If so provided in the applicable prospectus supplement, we may issue our debt securities at a discount below their principal amount and pay less than the entire principal amount of our debt securities upon declaration of acceleration of their maturity. The applicable prospectus supplement will describe all material federal income tax, accounting and other considerations applicable to any such original issue discount securities.

The general provisions of the indentures do not contain any provisions that would limit our ability or the ability of our subsidiaries to incur indebtedness or that would afford holders of our debt securities protection in the event of a highly leveraged or similar transaction involving us

or any of our subsidiaries. Please refer to the applicable prospectus supplement for information with respect to any deletions from, modifications of or additions to, the events of default described below that are applicable to the offered debt securities or any covenants or other provisions providing event risk or similar protection.

Payment

Unless we state otherwise in the applicable prospectus supplement, we will pay interest on a debt security on each interest payment date to the person in whose name the debt security is registered as of the close of business on the regular record date relating to the interest payment date.

Table of Contents

Unless we state otherwise in the applicable prospectus supplement, we will pay principal of and any premium on the debt securities at stated maturity, upon redemption or otherwise, upon presentation of the debt securities at the office of the applicable trustee, as our paying agent, or at other designated places. Any other paying agent initially designated for the debt securities of a particular series will be identified in the applicable prospectus supplement.

Form, Transfers and Exchanges

The debt securities of each series will be issued only in fully registered form, without interest coupons. Unless we state otherwise in the applicable prospectus supplement, the debt securities will be issued in denominations of \$1,000 each or multiples thereof.

Subject to the terms of the applicable indenture and the limitations applicable to global securities, you may exchange or transfer debt securities at the corporate trust office of the trustee or at any other office or agency maintained by us for that purpose, without the payment of any service charge, except for any tax or governmental charge.

Global Securities

The debt securities of any series may be issued, in whole or in part, by one or more global certificates that will be deposited with the depository identified in the applicable prospectus supplement.

No global security may be exchanged in whole or in part for the debt securities registered in the name of any person other than the depository for that global security or any nominee of that depository except in the following circumstances or as otherwise provided in the applicable prospectus supplement. The depository may discontinue providing its services as depository with respect to the securities at any time by giving reasonable notice to us or the applicable trustee. Under such circumstances, in the event that a successor depository is not obtained, certificates are required to be printed and delivered. In addition, we may decide to discontinue use of the system of book-entry-only transfers through a depository. In that event, certificates will be printed and delivered to the depository.

Unless otherwise stated in any prospectus supplement, The Depository Trust Company, or DTC, will act as depository. Beneficial interests in global certificates will be shown on, and transfers of global certificates will be effected only through records maintained by DTC and its participants.

Events of Default

Unless otherwise specified in the applicable prospectus supplement, an event of default occurs with respect to debt securities of any series if:

we do not pay any interest on any debt securities of the applicable series within 30 days of the due date (following any deferral allowed under the terms of the debt securities and elected by us);

we do not pay principal or premium, if any, on any debt securities of the applicable series at maturity;

we do not deposit any sinking fund payment when due by the terms of the applicable debt securities;

we default in the performance, or are in breach, of a covenant or warranty of the applicable indenture (other than a covenant or warranty a default in whose performance or whose breach is elsewhere specifically dealt with or which expressly has been included in the applicable indenture solely for the benefit of debt securities other than that series), and such default or breach continues for a period of 60 days after there has been given by registered or certified mail, to us by the applicable trustee or to us and the applicable trustee by the holders of at least 25% of the principal amount of debt securities of the affected series, a written notice specifying such default or breach and requiring it to be remedied;

Table of Contents

certain events of bankruptcy, insolvency, receivership or reorganization with respect to us occur; or

any other event of default provided with respect to debt securities of that series occurs.

No event of default with respect to a series of debt securities necessarily constitutes an event of default with respect to the debt securities of any other series issued under the indentures.

Each indenture requires us to file annually with the applicable trustee an officers' certificate as to our compliance with all conditions and covenants under the applicable indenture. Each indenture provides that the applicable trustee may withhold notice to the holders of a series of debt securities of any default, except payment defaults on those debt securities, if it considers such withholding to be in the interest of the holders of that series of debt securities.

If an event of default occurs and is continuing with respect to any series of debt securities, then either the applicable trustee or the holders of not less than 25% in principal amount of the outstanding debt securities of that series may declare the principal amount, or, if any debt securities of that series are original issue discount securities, that portion of the principal amount of those original issue discount securities as may be specified in the terms of those original issue discount securities, of all of the debt securities of that series to be due and payable immediately, by a notice in writing to us, and to the applicable trustee if given by the holders, and upon any such declaration that principal amount, or specified amount, plus accrued and unpaid interest, and premium, if any, will become immediately due and payable. Upon payment of that amount in the currency in which the debt securities are denominated (except as otherwise provided in the applicable indenture or the applicable prospectus supplement), all of our obligations in respect of the payment of principal of the debt securities of that series will terminate.

After a declaration of acceleration has been made and before the trustee has obtained a judgment or decree for payment of the money due on any series of debt securities, the holders of not less than a majority in aggregate principal amount of the outstanding debt securities of that series, by written notice to us and the applicable trustee, may rescind and annul the declaration and its consequences, subject to any terms or conditions specified in the applicable prospectus supplement.

If an event of default results from bankruptcy, insolvency or reorganization, the principal amount of all the debt securities of a series, or that portion of the principal amount of such debt securities as may be specified in the applicable prospectus supplement, will automatically become immediately due and payable.

Subject to the provisions of each indenture relating to the duties of the applicable trustee, in case an event of default with respect to our debt securities of a particular series occurs and is continuing, the applicable trustee will be under no obligation to exercise any of its rights or powers under that indenture at the request, order or direction of any of the holders of debt securities of that series, unless the holders have offered to the applicable trustee reasonable security or indemnity against the costs, expenses and liabilities which might be incurred by it in complying with such request or direction. Subject to the provisions for the indemnification of the applicable trustee, the holders of a majority in principal amount of the outstanding debt securities of that series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the applicable trustee under the applicable indenture, or exercising any trust or power conferred on the applicable trustee with respect to the debt securities of that series.

Table of Contents

Merger or Consolidation

Each indenture provides that we may not consolidate with or merge or wind up into any other entity, whether or not we are the surviving entity, and that we may not sell, assign, convey, transfer or lease our properties and assets substantially as an entirety to any person, unless:

the entity formed by the consolidation or into which we are merged, or the person which acquires us or which leases our properties and assets substantially as an entirety, is an entity organized and existing under the laws of the United States of America or any State or territory of the United States or the District of Columbia, and expressly assumes, by supplemental indenture, the due and punctual payment of the principal of (and premium, if any) and interest on all the outstanding debt securities and the performance of all of our covenants under the applicable indenture;

immediately after giving effect to such transaction, no event of default under the applicable indenture, and no event which after notice or lapse of time or both would become an event of default, has happened and is continuing; and

all other conditions specified in the applicable prospectus supplement are met.

Modification or Waiver

Without prior notice to or the consent of any holders, we and the applicable trustee may modify the applicable indenture for any of the following purposes:

to evidence the succession of another entity to us and the assumption by that successor of our covenants and obligations under the applicable indenture and under our debt securities issued thereunder;

to add one or more covenants or other provisions for the benefit of the holders of all or any series of debt securities, and if those covenants are to be for the benefit of less than all series, stating that those covenants are expressly being included solely for the benefit of that series, or to surrender any right or power conferred upon us;

to add any additional events of default for all or any series of debt securities, and if those events of default are to be applicable to less than all series, stating that those events of default are expressly being included solely to be applicable to that series;

to change or eliminate any provision of the applicable indenture or to add any new provision to the applicable indenture that does not adversely affect the interests of the holders;

to provide security for the debt securities of any series or to provide that any of our obligations under the debt securities or the applicable indenture shall be guaranteed and the terms and conditions for the release or substitution of the security or guarantee;

to supplement any of the provisions of the applicable indenture to the extent necessary to permit or facilitate the defeasance and discharge of any series of debt securities, provided, that any such action will not adversely affect the interests of the holders of debt securities of that series or any other series of debt securities issued under the applicable indenture in any material respect;

to establish the form or terms of debt securities of any series as permitted by the applicable indenture;

to evidence and provide for the acceptance of appointment of a separate or successor trustee with respect to one or more series of debt securities and to add to or change any of the provisions of the applicable indenture as is necessary to provide for or facilitate the administration of the trusts thereunder by more than one trustee;

to cure any ambiguity, defect or inconsistency;

to eliminate any conflict between the terms of the applicable indenture and the debt securities issued thereunder and the Trust Indenture Act; or

Table of Contents

to modify any other provisions with respect to matters or questions arising under the applicable indenture that will not be inconsistent with any provision of the applicable indenture, provided, those other provisions do no
