SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

☒ **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended September 30, 2013

or

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission File Number: 000-24180

Quality Distribution, Inc.

(Exact name of registrant as specified in its charter)

Florida
(State or other jurisdiction of

59-3239073
(I.R.S. Employer

incorporation or organization)

Identification No.)

4041 Park Oaks Boulevard, Suite 200, Tampa, FL
(Address of Principal Executive Offices)

33610
(Zip Code)

813-630-5826

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act (Check one):

Large accelerated filer ☐ Accelerated filer ☒

Non-accelerated filer ☐ (Do not check if a smaller reporting company) Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Exchange Act Rule 12b-2). Yes ☐ No ☒

As of November 4, 2013, the registrant had 26,926,691 shares of Common Stock, no par value, outstanding.

QUALITY DISTRIBUTION, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Unaudited)

1. Summary of Significant Accounting Policies

Basis of Presentation

In this quarterly report, unless the context otherwise requires or indicates, (i) the terms the Company, our Company, Quality Distribution, QDI, we, us and our refer to Quality Distribution, Inc. and its consolidated subsidiaries and predecessors, (ii) the terms Quality Distribution, LLC and QD LLC refer to our wholly-owned subsidiary, Quality Distribution, LLC, a Delaware limited liability company, and its consolidated subsidiaries and their predecessors, (iii) the term QD Capital refers to our wholly-owned subsidiary, QD Capital Corporation, a Delaware corporation, (iv) the term QCI refers to our wholly-owned subsidiary, Quality Carriers, Inc., an Illinois corporation, (v) the term Boasso refers collectively to our wholly-owned subsidiary, Boasso America Corporation, a Louisiana corporation, and Boasso's former wholly-owned subsidiary, Greensville Transport Company (Greensville), a Virginia corporation which has since been merged with and into Boasso America Corporation, (vi) the term QCER refers collectively to our wholly-owned subsidiary QC Energy Resources, Inc., a Delaware corporation, and its wholly-owned subsidiaries, QC Energy Logistics, LLC, a Delaware limited liability company, QC Energy Resources, LLC, a Delaware limited liability company, QC Energy Resources Northwest, LLC, a Delaware limited liability company, and QC Energy Resources Texas, LLC, a Delaware limited liability company, as well as our wholly-owned subsidiary QC Environmental Services, Inc., a North Dakota corporation, and (vii) the term CLC refers to our wholly-owned subsidiary, Chemical Leaman Corporation, a Pennsylvania corporation.

We are engaged primarily in transportation of bulk chemicals in North America through QCI. We are the largest provider of intermodal ISO tank container and depot services in North America through Boasso. In 2011, we entered the unconventional gas and oil frac shale energy markets, providing logistics services to these markets through QCER. We conduct a significant portion of our business through a network of independent affiliates and independent owner-operators. Independent affiliates are companies which enter into various term contracts with the Company. Independent affiliates are responsible for paying for their own power equipment (including debt service), fuel and other operating costs. Most of the independent affiliates lease trailers from us. Independent owner-operators are independent contractors who, through a contract with us, supply one or more tractors and drivers for our use. Contracts with independent owner-operators may be terminated by either party on short notice. We charge independent affiliates and third parties for the use of tractors and trailers as necessary. In exchange for the services rendered, independent affiliates and independent owner-operators are normally paid a percentage of the revenues collected on each load hauled.

Our accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X and do not include all of the information and notes required by accounting principles generally accepted in the United States (GAAP) for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments and accruals) considered necessary for a fair statement of consolidated financial position, results of operations and cash flows have been included. The year ended December 31, 2012 consolidated balance sheet data was derived from our audited financial statements, but does not include all the disclosures required by GAAP. For further information, refer to our Annual Report on Form 10-K for the year ended December 31, 2012, including the consolidated financial statements and accompanying notes.

Operating results for the three and nine months ended September 30, 2013 are not necessarily indicative of the results that may be expected for any future period.

New Accounting Pronouncements

In July 2013, the Financial Accounting Standards Board (FASB) issued an accounting pronouncement related to income taxes. Under this standard, entities are required to recognize that an unrecognized tax benefit be presented in the consolidated financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward except as follows: To the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the consolidated financial statements as a liability and should not be combined with deferred tax assets. The assessment of whether a deferred tax asset is available is based on the unrecognized tax benefit and deferred tax asset that exist at the reporting date and should be made presuming disallowance of the tax position at the reporting date. These amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. We do not expect the adoption of this pronouncement to have a material effect on our consolidated financial statements.

In February 2013, the FASB issued an accounting pronouncement related to accumulated other comprehensive income (AOCI). Under this standard, entities are required to disclose additional information with respect to changes in AOCI balances by component and significant items reclassified out of AOCI. Expanded disclosures for presentation of changes in AOCI involve disaggregating the total change of each component of other comprehensive income as well as presenting separately for each such component the portion of the change in AOCI related to (1) amounts reclassified into income and (2) current-period other comprehensive income. The disclosures required with respect to income statement line item impacts would be made in either the notes to the consolidated financial statements or parenthetically on the face of the financial statements. This standard is effective beginning January 1, 2013. The adoption of this standard did not have a material impact on our consolidated financial statements.

In July 2012, the FASB issued an accounting pronouncement related to intangibles goodwill and other, which permits companies to first consider qualitative factors as a basis for assessing impairment and determining the necessity of a detailed impairment test of indefinite-lived intangible assets. The provisions for this pronouncement are effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. The adoption of this pronouncement did not have a material effect on our consolidated financial statements.

Table of Contents

Acquisition and Dispositions

During the first nine months of 2013, we did not complete any acquisitions or dispositions of businesses or independent affiliates.

Acquisition of an Independent Affiliate

During the third quarter of 2012, we terminated our business relationship with an independent affiliate due to financial and operational difficulties. On October 17, 2012, we acquired the business, certain operating assets and certain liabilities of this independent affiliate for a purchase price of \$17.1 million, paid in cash at closing. Of the total \$17.1 million, we allocated \$15.5 million to property and equipment and \$1.6 million to goodwill. The entire amount of goodwill is deductible for tax purposes. This independent affiliate operated eight terminals within the chemical logistics segment and one terminal within the energy logistics segment. Four chemical logistics terminals were immediately transitioned to other independent affiliates and the remaining terminals were initially transitioned to company operations. As of September 30, 2013, the four company-operated terminals were transitioned to independent affiliates. During this transition, operating results for the third and fourth quarters of 2012 were adversely impacted in aggregate by \$4.4 million of greater than expected operating costs and reduced profitability. During the first nine months of 2013, we recognized \$0.4 million of additional transition costs.

Dunn's Tank Service and Nassau Disposal, Inc.

On August 1, 2012, we acquired certain operating assets of Dunn's Tank Service, Inc. and the operating assets and rights of Nassau Disposal, Inc. (collectively "Dunn's"), for an aggregate purchase price of \$34.3 million paid in cash to expand our energy logistics business. An additional \$3.6 million in cash consideration was payable one year after the closing date if certain future operating and financial performance criteria were satisfied. These criteria were not met. Of the total \$34.3 million, we allocated \$12.2 million to property and equipment, \$17.3 million to goodwill and \$4.8 million to intangibles. The entire amount of goodwill is deductible for tax purposes. Dunn's provides transportation services to the unconventional oil and gas industry primarily within the Woodford shale region, primarily providing various services for oil drilling preparation and hauling flowback and production water for various energy customers. The results of Dunn's have been included in our results since the date of acquisition, and are included in our energy logistics segment.

Wylie Bice Trucking, LLC and RM Resources, LLC

On June 1, 2012, we acquired certain operating assets of Wylie Bice Trucking, LLC and the operating assets and rights of RM Resources, LLC, (collectively "Bice"), for \$81.4 million aggregate consideration to expand our energy logistics business. Bice provides transportation services to the unconventional oil and gas frac shale industry within the Bakken shale region, primarily hauling fresh water, flowback and production water, and oil for numerous energy and other customers. The flowback and production water Bice hauls is primarily disposed of utilizing six salt water injection wells we purchased from Bice. The results of the Bice acquisition have been included in our results since the date of acquisition, and are included in our energy logistics segment.

The Bice transaction was structured as two separate asset acquisitions with aggregate consideration paid to the sellers as follows: (i) \$52.2 million in cash; (ii) \$21.3 million in 5-year subordinated seller notes bearing interest annually at a 5.0% fixed rate; and (iii) \$7.9 million of approximately 0.7 million shares of Quality common stock. Up to an additional \$19.0 million was payable in cash one year after the closing date, contingent upon the collective businesses meeting certain future operating and financial performance criteria. These criteria were not met. The purchase price of the combined acquisitions has been allocated to the assets acquired according to their estimated fair values at the time

of the acquisitions as follows:

(In thousands)	Bice & RM Combined
Equipment	\$ 26,557
Non-compete agreements	400
Tradenname (a)	700
Customer-related intangibles	12,320
Goodwill (a)	48,218
Contingent consideration (b)	(6,800)
	\$ 81,395

- (a) In the second quarter of 2013, the Company performed its annual impairment analysis. As a result of this analysis, we recorded an impairment charge against a portion of the goodwill and wrote off the remaining unamortized balance of the acquired tradenames. Refer to Note 4, Goodwill and Intangible Assets for additional disclosure.
- (b) In the first quarter of 2013, it was determined that the contingent consideration would not be paid. Therefore, the Company wrote off \$6.8 million of contingent consideration which is recognized in our energy logistics results as a gain in Other (income) expense net in our Consolidated Statements of Operations for the nine months ended September 30, 2013.

Table of Contents

The non-compete agreements are amortized over an estimated six-year useful life on a straight-line basis. The customer-related intangible assets relate to acquired customer relationships and are amortized over an estimated ten-year useful life on a straight-line basis. Goodwill has been recorded because the consideration paid exceeds the fair value of the assets acquired. The goodwill acquired in these acquisitions is tax deductible.

Unaudited Pro forma Results. Businesses acquired are included in our consolidated results from the date of each acquisition. Unaudited pro forma results displayed below only represent the Bice acquisition, as our other acquisitions in 2012 did not meet the threshold for pro forma reporting. We did not consummate any business acquisitions for the nine months ended September 30, 2013. The following unaudited pro forma consolidated results are presented to show our results, on a pro forma basis, as if the 2012 acquisition of Bice had been completed as of January 1, 2012:

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2013	2012	2013	2012
	As reported	As reported	As reported	Pro forma
Operating revenues	\$ 235,671	\$ 222,078	\$ 704,389	\$ 674,763
Net income (loss) (a)(b)(c)	2,763	8,863	(19,240)	46,795
Income (loss) per common share basic	\$ 0.10	\$ 0.32	\$ (0.73)	\$ 1.78
Income (loss) per common share diluted	\$ 0.10	\$ 0.32	\$ (0.73)	\$ 1.73

- (a) Includes impairment charges of \$55.7 million in the nine months ended September 30, 2013.
 (b) Includes release of \$4.9 million of our deferred tax valuation allowance in the three months ended September 30, 2012.
 (c) Includes release of \$27.7 million in the aggregate of our deferred tax valuation allowance in the nine months ended September 30, 2012.

Trojan Vacuum Services

On April 1, 2012, we acquired certain operating assets of Trojan Vacuum Services (Trojan) to expand our energy logistics business. The purchase price was \$8.7 million paid in cash at closing, plus \$1.0 million payable in cash upon the satisfaction of certain operating and financial performance criteria. These criteria were satisfied and the full \$1.0 million was paid in January 2013. Of the total \$8.7 million, we allocated \$4.1 million to property and equipment, \$4.3 million to intangibles and \$0.3 million to goodwill. The entire amount of goodwill is deductible for tax purposes. Trojan provides transportation service to the unconventional oil and gas frac shale industry within the Eagle Ford shale region, primarily hauling flowback and production water for various energy customers. The results of the Trojan acquisition have been included in our results since the date of acquisition and are included in our energy logistics segment.

2. Variable Interest Entities

At September 30, 2013, we have a variable interest in one variable interest entity (VIE), for which we are not the primary beneficiary. We have concluded, based on our qualitative consideration of our contracts with the VIE, the operating structure of the VIE and our role with the VIE, that we do not have the power to direct the activities that

most significantly impact their economic performance. Therefore, we are not required to consolidate the operations of this VIE.

This VIE is an independent affiliate that is directly engaged in the dry bulk and chemical business through the management of trucking terminals in the North East region of the U.S. As such, this business is highly seasonal. We are involved with this VIE as a non-controlling interest. Our maximum exposure to loss as a result of our involvement with this unconsolidated VIE is limited to our recorded loans receivable which aggregated approximately \$3.0 million at September 30, 2013. These loans are secured by a second-priority lien on certain assets of the VIE.

3. Fair Value of Financial Instruments

The three-level valuation hierarchy for fair value measurements is based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. These two types of inputs create the following fair value hierarchy:

Level 1 Quoted prices for identical instruments in active markets;

Level 2 Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-derived valuations whose significant inputs are observable; and

Level 3 Instruments whose significant inputs are unobservable.

Following is a description of the valuation methodologies we used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Table of Contents***Fair Value Measurements on a Nonrecurring Basis***

The fair value of our long-term indebtedness is based on level 2 quoted market prices. As of September 30, 2013, the carrying value and fair value are as follows (in thousands):

	Carrying Value	Fair Value
9.875% Second-Priority Senior Secured Notes due 2018 (2018 Notes)	\$ 202,500	\$ 220,725

The revolving credit facility and term loan under our asset-based loan facility (the ABL Facility) is variable rate debt which is believed to be a reasonable approximation of its fair value that is determined using a coupon rate on borrowings with similar maturities, current remaining average life to maturity, borrower credit quality, and current market conditions and approximates fair value. The fair value of the 2018 Notes is estimated using various techniques including recently executed transactions in securities of the issuer or comparable issuers, market price quotations (where observable), bond spreads, fundamental data relating to the issuer, and credit default swap spreads adjusted for any basis difference between cash and derivative instruments.

The carrying amounts reported in the accompanying Consolidated Balance Sheets for cash and cash equivalents, accounts receivable and accounts payable approximate fair value because of the immediate or short-term maturities of these financial instruments.

4. Goodwill and Intangible Assets***Goodwill***

Under the FASB guidance, goodwill and intangible assets are subject to an annual impairment test as well as impairment assessments of certain triggering events. We evaluate goodwill for impairment by determining the fair value based on criteria in the FASB guidance for each reporting unit. These reporting units contain goodwill and other identifiable intangible assets as a result of previous business acquisitions. Our annual impairment test is performed during the second quarter with a measurement date of June 30th. The methodology applied in the analysis performed at June 30, 2013 was consistent with the methodology applied in prior years, but was based on updated assumptions and information, as appropriate. For our chemical logistics segment, we conducted our analysis under the revised goodwill impairment rules in which we assess qualitative factors like market capitalization and financial performance to determine whether the existence of events or circumstances leads to a determination that is more likely than not that the fair value of the reporting unit is less than its carrying amount. Based on this analysis, we concluded there were no indicators of impairment related to our chemical logistics segment. For our energy logistics and intermodal segments, we did not elect the qualitative approach and performed the two-step goodwill analysis approach. Under this approach, goodwill impairment testing is a two-step process. Step 1 involves comparing the fair value of the Company's reporting units to their carrying amounts. If the fair value of the reporting unit is greater than its carrying amount, there is no requirement to perform Step 2 of the impairment test, and there is no impairment. If the reporting unit's carrying amount is greater than the fair value, the second step must be completed to measure the amount of impairment, if any. Step 2 calculates the implied fair value of goodwill by deducting the fair value of all tangible and intangible assets, excluding goodwill, of the reporting unit from the fair value of the reporting unit as determined in Step 1. The implied fair value of goodwill determined in this step is compared to the carrying value of goodwill. If the implied fair value of goodwill is less than the carrying value of goodwill, an impairment loss is recognized equal to

the difference. As a result of our analysis, we concluded an impairment charge to goodwill of \$55.2 million was necessary at June 30, 2013 related to our energy logistics segment, and we concluded there were no indicators of impairment, as the fair value exceeded the carrying value, related to our intermodal segment. We continue to evaluate indicators of impairment quarterly in accordance with FASB guidance following our annual impairment test at June 30, 2013 through the quarter ended September 30, 2013. There were no indicators that a triggering event had occurred as of September 30, 2013.

Goodwill within the energy logistics, intermodal and chemical logistics segments is as follows (in thousands):

	December 31, 2012	Purchase Price Adjustment	Impairment	September 30, 2013
Energy Logistics	\$ 71,339	\$ 1,430	\$ (55,171)	\$ 17,598
Intermodal	31,410			31,410
Chemical Logistics	1,545			1,545
Total	\$ 104,294	\$ 1,430	\$ (55,171)	\$ 50,553

Intangible Assets

Long-lived assets held and used, including revenue earning equipment, operating property and equipment and intangible assets with finite lives, are tested for recoverability when events or changes in circumstances indicate that the carrying amount of assets may not be recoverable. Recoverability of long-lived assets is evaluated by comparing the carrying amount of an asset or asset group to management's best estimate of the undiscounted future operating cash flows (excluding interest charges) expected to be generated by the asset or asset group. If these comparisons indicate that the asset or asset group is not recoverable, an impairment loss is recognized at the amount by which the carrying value of the asset or asset group exceeds fair value.

Table of Contents

Fair value is determined by quoted market price, if available, or an estimate of projected future operating cash flows, discounted using a rate that reflects the related operating segment's average cost of funds. Long-lived assets to be disposed of including revenue earning equipment, operating property and equipment and indefinite-lived intangible assets, are reported at the lower of carrying amount or fair value less costs to sell. Based upon management's review of the value of the indefinite-lived intangible assets in our energy logistics segment, we determined that the carrying value of the acquired tradenames exceeded their implied fair value by approximately \$0.5 million based on our accelerated transition to the QCER tradename. Based upon management's review of the value of the indefinite-lived intangible assets in our chemical logistics segment and intermodal segment, we determined that no indicators of impairment exist.

Intangible assets at September 30, 2013 are as follows (in thousands):

	Gross Book Value	2013 Additions	Impairment	Accumulated Amortization	Net Book Value	Average Lives (in years)
Tradename Intermodal	\$ 7,400	\$	\$	\$	\$ 7,400	Indefinite
Tradename Energy Logistics	1,100		(521)	(579)		
Customer relationships	33,410	1,000		(8,660)	25,750	10-12
Non-compete agreements	4,311			(3,378)	933	3-6
Service agreement	1,120			(153)	967	11
	\$ 47,341	\$ 1,000	\$ (521)	\$ (12,770)	\$ 35,050	

Of the total intangibles of approximately \$35.1 million at September 30, 2013, approximately \$19.4 million was allocated to our energy logistics segment, approximately \$15.6 million was allocated to our intermodal segment and approximately \$0.1 million was allocated to our chemical logistics segment.

Intangible assets at December 31, 2012 are as follows (in thousands):

	Gross Book Value	2012 Additions	Accumulated Amortization	Net Book Value	Average Lives (in years)
Tradename Intermodal	\$ 7,400	\$	\$	\$ 7,400	Indefinite
Tradename Energy Logistics		1,100	(304)	796	2
Customer relationships	14,260	19,150	(6,292)	27,118	10-12
Non-compete agreements	3,221	1,090	(3,015)	1,296	3-6
Service agreement		1,120	(76)	1,044	11
	\$ 24,881	\$ 22,460	\$ (9,687)	\$ 37,654	

Of the total intangibles of approximately \$37.7 million at December 31, 2012, approximately \$20.9 million was allocated to our energy logistics segment, approximately \$16.6 million was allocated to our intermodal segment and approximately \$0.2 million was allocated to our chemical logistics segment.

Table of Contents

Amortization expense for the three months ended September 30, 2013 and 2012 was \$1.0 million and \$1.1 million, respectively. Amortization expense for the nine months ended September 30, 2013 and 2012 was \$3.1 million and \$2.2 million, respectively. Estimated amortization expense for intangible assets is as follows (in thousands):

2013 remaining	\$ 894
2014	3,534
2015	3,534
2016	3,530
2017	3,454
2018 and thereafter	12,704
Total	\$ 27,650

5. Long-term Indebtedness*Term Loan Facility*

On June 14, 2013, our asset-based loan facility (ABL Facility) was amended to provide for a new \$17.5 million senior secured term loan facility which was fully funded on July 15, 2013. Borrowings under the Term Loan bear interest at a margin equal to 2.50% for base rate borrowings and 3.50% for LIBOR borrowings, with a potential step-down of 0.25% after 18 months if a senior secured leverage ratio is met. Obligations under the Term Loan mature on the earlier of June 14, 2016 or the date on which the ABL Facility terminates. Beginning no earlier than the 12-month anniversary of the Term Loan and no later than the 24-month anniversary of the Term Loan, we will be subject to mandatory repayment of the principal amount of the Term Loan in equal quarterly payments for the remainder of the maturity period. Borrowing availability under our ABL Facility was expanded to include additional eligible accounts receivable and tractor and trailer equipment in conjunction with the new borrowing. We may voluntarily repay the outstanding amount under the Term Loan at any time without premium or penalty, other than customary breakage costs with respect to the LIBOR loans. As of September 30, 2013, the balance of the Term Loan was \$17.5 million. The interest rate on borrowings under the Term Loan at September 30, 2013 was 3.7%. We recorded \$0.5 million in debt issuance costs relating to the Term Loan and are amortizing these costs over the term of the Term Loan.

July 2013 Notes Redemption

On July 15, 2013, we redeemed a portion of our 9.875% Second-Priority Senior Secured Notes due 2018 (2018 Notes) in the aggregate principal amount of \$22.5 million. The redemption price for these 2018 Notes equaled 100% of the aggregate principal amount of \$22.5 million, plus accrued but unpaid interest up to the redemption date, plus a 3.0% premium of \$0.7 million. The redemption was funded with proceeds from the Term Loan described above together with borrowings under our ABL Facility. As of September 30, 2013, the balance of the 2018 Notes was \$202.5 million. In the third quarter of 2013, \$0.5 million of unamortized debt issuance costs related to this redemption were written off.

6. Income (Loss) Per Share

A reconciliation of the numerators and denominators of the basic and diluted income (loss) per share computations is as follows (in thousands, except per share amounts):

	Three months ended					
	September 30, 2013			September 30, 2012		
	Net income (numerator)	Shares (denominator)	Per-share amount	Net income (numerator)	Shares (denominator)	Per-share amount
Basic income available to common shareholders:	\$ 2,763	26,463	\$ 0.10	\$ 8,863	27,368	\$ 0.32
Effect of dilutive securities:						
Stock options		517			556	
Unvested restricted stock		157			156	
Stock warrants		9			9	
Diluted income available to common shareholders:	\$ 2,763	27,146	\$ 0.10	\$ 8,863	28,089	\$ 0.32

	Nine months ended					
	September 30, 2013			September 30, 2012		
	Net loss (numerator)	Shares (denominator)	Per-share amount	Net income (numerator)	Shares (denominator)	Per-share amount
Basic (loss) income available to common shareholders:	\$ (19,240)	26,516	\$ (0.73)	\$ 44,367	26,243	\$ 1.69
Effect of dilutive securities:						
Stock options					628	
Unvested restricted stock					172	
Stock warrants					14	
Diluted (loss) income available to common shareholders:	\$ (19,240)	26,516	\$ (0.73)	\$ 44,367	27,057	\$ 1.64

Table of Contents

The following securities were not included in the calculation of diluted income (loss) per share because such inclusion would be anti-dilutive (in thousands):

	Three months ended September 30,		Nine months ended September 30,	
	2013	2012	2013	2012
Stock options	1,914	1,808	1,970	1,737
Unvested restricted shares and stock units	282	268	327	253

7. Stock-Based Compensation

We apply the Black-Scholes valuation model in determining the fair value of share-based payments to employees. The resulting compensation expense is recognized over the requisite service period, which is generally the vesting term of two to four years.

Compensation expense is recognized only for those awards expected to vest, with forfeitures estimated based on our historical experience and future expectations. All stock-based compensation expense is classified within compensation in the Consolidated Statements of Operations.

The following table summarizes unrecognized stock-based compensation and the weighted average period over which such stock-based compensation is expected to be recognized as of September 30, 2013 (in thousands):

		Remaining years
Stock options	\$ 2,285	2.5
Restricted stock	1,913	2.6
	\$ 4,198	

These amounts do not include the cost of any additional awards that may be granted in future periods nor any changes in our forfeiture rate.

8. Employee Benefit Plans

We maintain two noncontributory defined benefit plans resulting from a prior acquisition that cover certain vested salaried participants and retirees (CLC Plan) and certain other vested participants and retirees under an expired collective bargaining agreement (TTWU Plan). Retirement benefits for employees covered by the CLC Plan are based on years of service and compensation levels. The monthly benefit for employees under the TTWU Plan is based on years of service multiplied by a monthly benefit factor. Pension costs are funded in accordance with the provisions of the applicable law. Both pension plans have been frozen since prior to January 1, 1998. There have been no new participants and no future accruals of benefits from the time the plans were frozen.

We use a December 31st measurement date for both of our plans.

The components of net periodic pension cost are estimated as follows (in thousands):

	Three months ended September 30,		Nine months ended September 30,	
	2013	2012	2013	2012
Service cost	\$ 41	\$ 44	\$ 124	\$ 132
Interest cost	463	542	1,390	1,626
Amortization of prior service cost	24	23	71	70
Amortization of loss	362	365	1,088	1,094
Expected return on plan assets	(584)	(565)	(1,753)	(1,696)
Net periodic pension cost	\$ 306	\$ 409	\$ 920	\$ 1,226

We contributed \$2.3 million to our pension plans during the nine months ended September 30, 2013. We expect to contribute an additional \$0.6 million during the remainder of 2013.

Table of Contents***Multi-employer pension plans***

At September 30, 2013, we contributed to three separate multi-employer pension plans for employees under collective bargaining agreements. These agreements cover approximately 2.5% of our total workforce, including our independent affiliates' employees and independent owner-operators providing service to us. These multi-employer pension plans provide defined benefits to retired participants. We do not directly or indirectly manage any of these multi-employer pension plans. Trustees, half of whom are appointed by the International Brotherhood of Teamsters (the Teamsters) and half of whom various contributing employers appoint, manage the trusts covering these plans. Our collective bargaining agreements with the Teamsters determine the amounts of our ongoing contributions to these plans.

We do not currently intend to withdraw from the three multi-employer pension plans or take any actions that would subject us to payment of contingent obligations upon withdrawal from such plans. Based on information provided to us from the trustees of these plans, we estimate our portion of the contingent liability in the case of a full withdrawal or termination from these plans to be approximately \$84.8 million, of which \$79.8 million relates to the Central States Southeast and Southwest Areas Pension Plan.

These defined benefit plans cover substantially all of our union employees not covered under the TTWU Plan. The actuarial present value of accumulated plan benefits and net assets available for benefits to employees under these multi-employer plans is not readily available.

9. Accumulated Other Comprehensive Loss

The components and changes to accumulated other comprehensive loss are as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2013	September 30, 2012	September 30, 2013	September 30, 2012
<u>Foreign currency translation</u>				
Beginning balance	\$ (1,089)	\$ (1,131)	\$ (1,180)	\$ (1,137)
Net gain on foreign currency translation, net of tax	(37)	(71)	54	(65)
Ending balance	\$ (1,126)	\$ (1,202)	\$ (1,126)	\$ (1,202)
<u>Pension benefits</u>				
Beginning balance	\$ (29,799)	\$ (29,468)	\$ (30,572)	\$ (30,244)
Amortization of prior service cost	24	23	71	70
Amortization of gain	362	365	1,088	1,094
Ending balance	\$ (29,413)	\$ (29,080)	\$ (29,413)	\$ (29,080)
Total AOCL ending balance	\$ (30,539)	\$ (30,282)	\$ (30,539)	\$ (30,282)

Table of Contents**10. Restructuring**

We account for restructuring costs associated with one-time termination benefits, costs associated with lease and contract terminations and other related exit activities in accordance with FASB's guidance. We previously made estimates of the costs to be incurred as part of a restructuring plan developed during 2008 and concluded at the end of 2010. The restructuring plan consisted of various actions including termination of approximately 380 non-driver positions and the consolidation, closure or affiliation of underperforming company-operated terminals, our withdrawal from three multi-employer pension plans and costs associated with the consolidation of our corporate headquarters, and resulted in charges during 2008, 2009 and 2010, primarily related to our chemical logistics segment. As of September 30, 2013, we have approximately \$1.7 million of restructuring charges included in accrued expenses on the Consolidated Balance Sheet which are expected to be paid through 2017.

In the nine months ended September 30, 2013, we had the following activity in our restructuring accrual (in thousands):

	Balance at December 31, 2012	Additions	Payments	Reductions	Balance at September 30, 2013
Restructuring costs	\$ 2,149	\$ 155	\$ (392)	\$ (204)	\$ 1,708

11. Segment Reporting***Reportable Segments***

Our chief operating decision maker manages the Company in three reportable business segments for financial reporting purposes that are distinguished primarily on the basis of services offered:

Chemical Logistics, which consists of the transportation of bulk chemicals primarily through our network of 26 independent affiliates and company-operated terminals, and equipment rental income;

Energy Logistics, which consists primarily of the transportation of fresh water, disposal water, and crude oil for the unconventional oil and gas frac shale energy markets, primarily through company-operated terminals and 3 independent affiliates; and

Intermodal, which consists of Boasso's intermodal ISO tank container transportation and depot services business primarily supporting the international movement of bulk liquids.

Segment operating income reported in our segment tables excludes amounts such as depreciation and amortization, gains and losses on disposal of property and equipment, restructuring costs, impairment charges and corporate and other unallocated amounts. Although these amounts are excluded from the reportable business segment operating income results, they are included in our reported Consolidated Statements of Operations. Most corporate and shared services overhead costs, including acquisitions costs, are included in our chemical logistics segment. We have not provided specific asset information by segment, as it is not regularly provided to our chief operating decision maker

for review.

Table of Contents

Summarized segment data and a reconciliation to income before income taxes follow (in thousands):

	Three Months Ended September 30, 2013			
	Chemical Logistics	Energy Logistics	Intermodal	Total

- (1) Includes an impairment charge of \$55.2 million of goodwill and \$0.5 million of intangible assets related to our energy logistics segment.

12. Income Taxes

At December 31, 2012, we had approximately \$1.7 million of total gross unrecognized tax benefits. Of this total, \$1.0 million (net of federal benefit on state tax issues) represents the amount of unrecognized tax benefits that, if recognized, would favorably affect the effective income tax rate in any future periods.

Included in the balance of total gross unrecognized tax benefits at December 31, 2012 was \$0.1 million related to tax positions for which it was reasonably possible that the total amounts could significantly change during the next twelve months due to expiration of the applicable statute of limitations.

For the three months ended September 30, 2013, the net change to our total gross unrecognized tax benefit was a decrease of less than \$0.1 million. Our total gross unrecognized tax benefit at September 30, 2013 was \$1.7 million. This represents the total of our unrecognized tax benefits (not including interest and penalties).

Our continuing practice is to recognize interest and/or penalties related to income tax matters in income tax expense. We had \$0.4 million (net of federal tax benefit) accrued for interest and \$0.2 million accrued for penalties at December 31, 2012. The total amount accrued for interest and penalties at September 30, 2013 was \$0.7 million.

We are subject to income tax in the U.S., Canada, and Mexico, as well as in multiple state jurisdictions. We believe we are no longer subject to U.S. federal income tax examinations for the years before 2007, to international examinations for years before 2007 and, with few exceptions, to state examinations before 2008.

The effective tax rates for the three months ended September 30, 2013 and 2012 were a tax expense of 14.8% and a tax benefit greater than 100.0%, respectively. The effective tax rate for the current quarter was different from our statutory rate primarily due to a favorable state tax adjustment. The effective tax rate for the same period in 2012 was impacted by a release of \$4.9 million of our deferred tax valuation allowance. The effective tax rates for the nine months ended September 30, 2013 and 2012 were a tax benefit of 37.8% and a tax benefit greater than 100.0%, respectively. The effective tax rate for the nine months ended September 30, 2013 was different from our statutory rate due to a partial release of the foreign tax credit valuation allowance. The effective tax rate in the same period in 2012 was impacted by a release of \$27.7 million in the aggregate of our deferred tax valuation allowance.

13. Common Stock Offering

On March 13, 2012, we sold 2.5 million shares of our common stock in an underwritten public offering, at a gross price of \$13 per share, and received net proceeds, after underwriting fees and expenses, of approximately \$30.5 million. Certain affiliates of Apollo Management, L.P. also sold 3.2 million shares in the offering.

Table of Contents

14. Share Repurchase Program

On November 20, 2012, we announced a share repurchase program pursuant to which our Board of Directors authorized the repurchase of up to \$15.0 million of our common stock in an open-ended repurchase program (the Repurchase Program). The Repurchase Program does not have an expiration date. Stock has been, and may in the future be, purchased pursuant to the Repurchase Program, from time to time, in the open market or through private transactions, subject to market conditions. Subject to applicable laws, repurchases under the Repurchase Program may be made at such times and in such amounts as we deem appropriate and may be made pursuant to Rule 10b5-1. We are not obligated to purchase any shares under the Repurchase Program and it can be discontinued at any time that we feel additional purchases are not warranted. As of September 30, 2013, we have repurchased approximately 1.2 million shares valued at \$8.1 million under the Repurchase Program.

15. Commitments and Contingencies

Environmental Matters

It is our policy to comply with all applicable environmental, safety, and health laws. We also are committed to the principles of Responsible Care®, an international chemical industry initiative to enhance the industry's responsible management of chemicals. We have obtained independent certification that our chemical logistics management system is in place and functions according to professional standards, and we continue to evaluate and continuously improve our Responsible Care® Management System performance. Our current activities involve the handling, transportation and storage of bulk chemicals, both liquid and dry, wastewater from oil and gas wells and crude oil, which in many cases are classified as hazardous materials or hazardous substances. The energy logistics business operates disposal wells for non-conventional oil drilling wastewater. In addition, our former tank wash business (which was sold in 2009) and the remaining limited tank wash activities involve the generation, storage, discharge and disposal of wastes that may contain hazardous substances. As such, we and others who operate in our industry are subject to environmental, health and safety laws and regulation by U.S. federal, state and local agencies as well as foreign governmental authorities. Environmental laws and regulations are complex, and address emissions to the air, discharge onto land or water, and the generation, handling, storage, transportation, treatment and disposal of waste materials. These laws change frequently and generally require us to obtain and maintain various licenses and permits. Environmental laws have tended to become more stringent over time, and most provide for substantial fines and potential criminal sanctions for violations. Some of these laws and regulations are subject to varying and conflicting interpretations. Under certain of these laws, we could also be subject to allegations of liability for the activities of our independent affiliates or independent owner-operators.

We are potentially subject to strict joint and several liability for investigating and rectifying the consequences of spills and other releases of such substances. From time to time, we have incurred remedial costs and regulatory penalties with respect to chemical or wastewater spills and releases at our facilities and on the road, and, notwithstanding the existence of our environmental management program, we cannot: (1) assure that such obligations will not be incurred in the future, (2) predict with certainty the extent of future liabilities and costs under environmental, health, and safety laws, or (3) assure that such liabilities will not result in a material adverse effect on our business, financial condition, operating results or cash flow. We have established reserves for remediation expenses at known contamination sites when it is probable that such efforts will be required of us and the related expenses can be reasonably estimated. We have also incurred in the past, and expect to incur in the future, expenditures related to environmental compliance; however, we do not anticipate that compliance with existing environmental laws will have a material adverse effect on our earnings or competitive position.

Table of Contents*Reserves*

Our policy is to accrue remediation expenses when it is probable that such efforts will be required and the related expenses can be reasonably estimated. Estimates of costs for future environmental compliance and remediation may be impacted by such factors as changes in environmental laws and regulatory requirements, the availability and application of technology, the identification of currently unknown potential remediation sites and the allocation of costs among the potentially responsible parties under the applicable statutes. Our reserves for environmental compliance and remediation are adjusted periodically as remediation efforts progress or as additional technical or legal information becomes available. It is difficult to quantify with certainty the potential financial impact of actions regarding expenditures for environmental matters, particularly remediation, and future capital expenditures for environmental control equipment. Nevertheless, based upon the information currently available, we believe that our ultimate liability arising from such environmental matters, taking into account the reserves described below, should not be material to our business or financial condition. As of September 30, 2013 and December 31, 2012, we had reserves in the amount of approximately \$9.0 million for all environmental matters, of which the most significant are presented and discussed below.

	Number of Sites		Reserves (in millions)	
	September 30, 2013	December 31, 2012	September 30, 2013	December 31, 2012
Multi-party sites	17	15	\$ 2.0	\$ 1.7
Sole party sites:				
Bridgeport, New Jersey	1	1	4.6	4.8
William Dick, Pennsylvania	1	1	0.7	0.7
Other Properties	6	6	1.7	1.8
Total	25	23	\$ 9.0	\$ 9.0

The foregoing amounts include estimates for future expenditures over the next five years that we believe are probable and are reasonably estimable. The estimate of the range of reasonably possible costs is less certain than the estimates upon which the reserves are based, and the estimated high ends of the ranges do not represent our maximum theoretical liability.

Changes to the environmental reserves are reflected in our Consolidated Statements of Operations within the Selling and administrative category.

Property Contamination Liabilities

We have been named as (or are alleged to be) a potentially responsible party under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (CERCLA) and similar state laws at approximately 25 sites.

Multi-Party Sites

At 17 of the 25 sites, we are one of many parties with alleged liability and are negotiating with Federal, State or private parties on the scope of our obligations, if any. At 1 of the 17 sites, we are participating in the initial study to determine site remediation objectives. Since our overall liability cannot be estimated at this time, we have set reserves

for only the initial remedial investigation phase. At 2 of the 17 sites, we have explicitly denied any liability and since there has been no subsequent demand for payment, we have not established a reserve for these matters. At 4 of the 17 sites, we received notices about our potential liability which cannot be estimated at this time, and we have not established a reserve for these matters. We have estimated all future expenditures for these 17 multi-party environmental matters to be paid over the next five years to be in the range of \$2.0 million to \$3.8 million. As of September 30, 2013, we have reserved \$2.0 million.

Sole Party Sites

At 8 of the 25 sites, we are alleged to be the only responsible party and are in the process of conducting investigations and/or remediation projects. Five of these projects relate to operations conducted by CLC and its subsidiaries prior to our acquisition of CLC in 1998. These five sites are: (1) Bridgeport, New Jersey; (2) William Dick, Pennsylvania; (3) Tonawanda, New York; (4) Scary Creek, West Virginia; and (5) Charleston, West Virginia. The remaining three sites relate to investigations and potential remediation that were triggered by the New Jersey Industrial Site Recovery Act (ISRA), which requires such investigations and remediation following the sale of industrial facilities. Each of these five CLC sites is discussed in more detail below. We have estimated future expenditures over the next five years for these eight properties to be in the range of \$7.0 million to \$16.7 million. As of September 30, 2013, we have reserved \$7.0 million.

Table of Contents

Bridgeport, New Jersey

QDI is required under the terms of three federal consent decrees to perform remediation work at this operating truck terminal and tank wash site. CLC entered into consent orders with the U.S. Environmental Protection Agency (USEPA) in 1991 to treat groundwater, in 1998 to remove contamination in the wetlands, and in 2010 to assess and remediate contaminated soils at the site.

The groundwater treatment remedy negotiated with USEPA required us to construct a treatment facility for in-place treatment of groundwater contamination and a local discharge which was completed in early 2007. After various start-up issues, the treatment facility began long-term operations in July 2011 and is in the operations and maintenance phase. The plant appears to be performing in accordance with its design criteria and meeting permit requirements. Based on the first annual groundwater report, contamination does not appear to be completely delineated and a limited number of additional monitoring wells will have to be installed. Wetlands contamination has been remediated with localized restoration completed. Monitoring of the restored wetlands is required by USEPA and is on-going. USEPA has requested additional monitoring through 2017. In regard to contaminated soils, USEPA finalized the feasibility study and issued a record of decision in 2009 for the limited areas that show contamination and warrant additional investigation or work. We entered into a consent order with USEPA in 2010 to perform the remediation work, which will consist of in-place thermal treatment. In late 2012, USEPA concluded that our additional required site investigation work for delineation purposes was complete. We have finished the preliminary engineering design phase for the thermal treatment of contaminated soils and have also submitted the 95% design report to USEPA for their review and comment. We have estimated aggregate expenditures for the Bridgeport location over the next five years to be in the range of \$4.6 million to \$8.5 million. As of September 30, 2013, we have reserved \$4.6 million.

William Dick, Pennsylvania

CLC entered into a consent order with the Pennsylvania Department of Environmental Protection and USEPA in 1995 to provide a replacement water supply to area residents, treat contaminated groundwater, and perform remediation of contaminated soils at this former wastewater disposal site. The replacement water supply is complete. We completed construction of a groundwater treatment facility with local discharge in 2007 and the treatment facility began operations in 2010. Although initial soil treatment was completed in 2007, test results indicated that soil clean-up objectives were not fully achieved in both shallow and deep soil subzones. Soil piles generated from previous isolated discrete removal actions were subsequently treated on-site. During the quarter ended September 30, 2013, we received notification from USEPA that this work is now complete. The treated soil was used as backfill at the site. Negotiations with USEPA were positive concerning an approach for further limited soil remediation consisting of targeted in-situ chemical treatment of the deep soil subzones at the site. The field work has been initiated. Negotiations with USEPA will continue over remediation objectives for the final shallow soil subzone that has to be evaluated and remediated. We have estimated aggregate expenditures for the William Dick location over the next five years to be in the range of \$0.7 million to \$3.4 million. As of September 30, 2013, we have reserved \$0.7 million.

Other Properties

Tonawanda, New York: CLC entered into a consent order with the New York Department of Environmental Conservation (NYSDEC) in 1999 obligating it to perform soil and groundwater remediation at this former truck terminal and tank wash site. The state issued a record of decision in 2006. The remedial design work plan has been approved by the NYSDEC, and the remedial action phase is expected to begin during the remainder of 2013.

Scary Creek, West Virginia: CLC received a cleanup notice from the state environmental authority in 1994. The state and we have agreed that remediation can be conducted under the state's voluntary clean-up program (instead of the

state superfund enforcement program). We are currently completing the originally planned remedial investigation and the additional site investigation work.

Charleston, West Virginia: CLC completed its remediation plan for a former drum disposal area in 1995 at this truck terminal and tank wash site under the terms of a state hazardous waste permit. Supplemental groundwater monitoring was also required and completed. In 2012, we entered into the state's voluntary clean-up program which requires us to perform additional sampling to close the site. The sampling work phase that was negotiated with the State of West Virginia has been completed at the site and a report will be submitted to the West Virginia Department of Environmental Protection (WVDEP). We have requested confirmation from the WVDEP that no additional sampling work will be necessary.

ISRA New Jersey Facilities: We are obliged to conduct investigations and remediation at three current or former New Jersey tank wash and terminal sites pursuant to the state's ISRA, which requires such remediation following the sale of facilities after 1983. Two of the sites are in the process of remedial investigation with projections set in contemplation of limited soil remediation expense for contaminated areas.

One site has completed the investigation phase and a final report was submitted to New Jersey Department of Environmental Protection (NJDEP). In accordance with the report findings and with the concurrence of the NJDEP, remedial efforts included limited soil excavation at the site, deed recordation, placement of clean fill and the designation of a Classification Exception Area for the groundwater. No further field remediation work is expected and this site has entered a long-term monitoring phase.

We have estimated aggregate future expenditures over the next five years for Tonawanda, Scary Creek, Charleston and ISRA New Jersey to be in the range of \$1.7 million to \$4.8 million. As of September 30, 2013, we have reserved \$1.7 million.

Table of Contents

Other Legal Matters

We are from time to time involved in routine litigation incidental to the conduct of our business. We believe that no such routine litigation currently pending against us, if adversely determined, would have a material adverse effect on our consolidated financial position, results of operations or cash flows.

16. Guarantees

In conjunction with certain third-party financing vendors, we have established a lease purchase program to enable certain independent owner-operators to lease tractors from those third-party vendors. As part of this program, we have agreed with those third-party vendors to guarantee the lease payment obligations of participating independent owner-operators in certain circumstances. The guarantees expire at various dates beginning in 2015 through 2019 and are for an average amount per tractor of approximately \$0.1 million.

Our estimated aggregate maximum exposure under these lease guarantees was approximately \$2.9 million as of September 30, 2013, which represents the amount of the remaining lease payments on all outstanding guaranteed leases as of that date. However, upon a default, we may take actions to reduce or recoup our expenditures, including purchasing the tractor and reselling it to recover all or a portion of the amounts paid, or facilitating an arrangement between the third-party vendor and another independent owner-operator to assume the lease. In addition, up to 50% of any remaining losses related to independent owner-operators managed by independent affiliates could be recouped from those independent affiliates. Therefore, we believe our probable exposure is substantially less than \$2.9 million. We did not receive notice of any material default under these leases during the nine months ended September 30, 2013.

17. Guarantor Subsidiaries

At and during the nine months ended September 30, 2013, there were outstanding 2018 Notes that were issued by our subsidiaries, QD LLC and QD Capital. The payment obligations of QD LLC and QD Capital under the 2018 Notes are guaranteed by QDI and by all of its domestic subsidiaries other than immaterial subsidiaries as further described below.

The 2018 Notes are the senior obligations of our subsidiaries, QD LLC and QD Capital, and are secured by a subordinated, second-priority lien on assets that secure our ABL Facility through a collateral agreement that is separate from the indenture under which these notes were issued. Pursuant to an intercreditor agreement, the liens on the collateral securing the 2018 Notes rank junior in right of payment to the ABL Facility and obligations under certain hedging agreements and cash management obligations and certain other first-lien obligations. Decisions regarding the maintenance and release of the collateral secured by the collateral agreement are made by the lenders under our ABL Facility, and neither the indenture trustee nor the holders of the 2018 Notes have control of decisions regarding the release of the collateral.

The 2018 Notes are also guaranteed on a second-priority senior secured basis, jointly and severally, by QDI, subsidiary guarantors, and certain of our future U.S. restricted subsidiaries. The guarantees of the subsidiary guarantors are full and unconditional subject to customary release provisions for sales of a subsidiary in compliance with other provisions of the indenture for the 2018 Notes (the "Notes Indenture"), foreclosures of a pledge of the equity interests of the subsidiary, the right to designate a subsidiary as unrestricted under the terms of the Notes Indenture, the discharge of the 2018 Notes or the defeasance of the Notes Indenture. The guarantee of QDI is full and unconditional.

The subsidiary guarantors of all of the 2018 Notes are all of our direct and indirect domestic subsidiaries other than immaterial subsidiaries. No non-domestic subsidiaries are guarantor subsidiaries. QD Capital has no material assets or operations. QD LLC, all of the subsidiary guarantors and QD Capital are 100% owned by QDI. The subsidiary guarantors are 100% owned subsidiaries of QD LLC. QD LLC conducts substantially all of its business through and derives virtually all of its income from its subsidiaries. Therefore, its ability to make required principal and interest payments with respect to its indebtedness depends on the earnings of subsidiaries and its ability to receive funds from its subsidiaries through dividend and other payments.

QDI has no significant restrictions on its ability to receive funds from its subsidiaries. The ABL Facility and the indenture governing our 2018 Notes contain certain limitations on QD LLC's ability to make distributions to QDI. We do not consider these restrictions to be significant, because QDI is a holding company with no significant operations or assets, other than ownership of 100% of QD LLC's membership units. QD LLC's direct and indirect wholly-owned subsidiaries are generally permitted to make distributions to QD LLC, which is the principal obligor under the ABL Facility and the 2018 Notes. We do not believe that additional financial or narrative information about QDI, QD LLC, QD Capital or the subsidiary guarantors would be material to evaluating the guarantees.

The following condensed consolidating financial information for QDI, QD LLC, and QD Capital, which has no assets or operations, non-guarantor subsidiaries and combined guarantor subsidiaries presents:

Condensed consolidating balance sheets at September 30, 2013 and December 31, 2012 and condensed consolidating statements of operations for the three and nine-month periods ended September 30, 2013 and 2012, and the condensed consolidating statements of cash flows for each of the nine-month periods ended September 30, 2013 and 2012.

Elimination entries necessary to consolidate the parent company and all its subsidiaries.

ITEM 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of our results of operations and financial condition should be read in conjunction with our consolidated financial statements and the related notes included elsewhere in this report. The following discussion includes forward-looking statements. For a discussion of important factors that could cause actual results to differ from results discussed in the forward-looking statements, see Forward-Looking Statements and Certain Considerations contained elsewhere in this report.

OVERVIEW

We operate the largest chemical bulk tank truck network in North America and are also the largest provider of intermodal ISO tank container and depot services in North America. In 2011, we began providing logistics services to the unconventional oil and gas frac shale energy markets. We operate an asset-light business model and service customers across North America through our network of 88 terminals servicing the chemical markets, 13 terminals servicing the energy markets and 9 ISO tank depot services terminals (intermodal) servicing the chemical and other bulk liquid markets.

Financial Reporting Segments

We have three reportable business segments for financial reporting purposes that are distinguished primarily on the basis of services offered:

Chemical Logistics, which consists of the transportation of bulk chemicals primarily through our network of 26 independent affiliates and company-operated terminals, and equipment rental income;

Energy Logistics, which consists primarily of the transportation of fresh water, disposal water, and crude oil for the unconventional oil and gas frac shale energy markets, primarily through company-operated terminals and 3 independent affiliates; and

Intermodal, which consists of Boasso's intermodal ISO tank container transportation and depot services business primarily supporting the international movement of bulk liquids.

Chemical Logistics

Through our subsidiary, QCI, we coordinate the transport of a broad range of chemical products and provide our customers with logistics and other value-added services. Through our North American network, we are a core carrier for many of the major companies engaged in chemical processing. We believe the diversity of our customer base, geography and end-markets provide a competitive advantage.

The bulk tank truck market in North America includes all products shipped by bulk tank truck carriers and consists mainly of liquid and dry bulk chemicals (including plastics) and bulk dry and liquid food-grade products. We estimate, based on industry sources, that the highly fragmented North American for-hire segment of the bulk tank transport market generated revenues of approximately \$6.9 billion in 2012. We specifically operate in the for-hire chemical and food grade bulk transport market (which we estimated at \$4.5 billion in 2012). We believe we have the leading market share (estimated at 13.0% in 2012) in this sector based on revenues. We believe managing a larger

carrier network facilitates customer service and lane density, and provides a more favorable operating cost structure for us and our independent affiliates. As such, we believe we are well-positioned to expand our business.

Chemical bulk tank truck industry growth is generally dependent on volume growth in the industrial chemical industry, the rate at which chemical companies outsource their transportation needs, the overall capacity of the rail system, and, in particular, the extent to which chemical companies make use of the rail system for their bulk chemical transportation needs. We also believe that North American chemical producers will gain a global competitive advantage and grow domestic production (thus shipments which we can service) through the use of low cost energy sources, primarily natural gas and natural gas liquids.

The chemical bulk tank truck industry is characterized by high barriers to entry such as the time and cost required to develop the operational infrastructure necessary to handle sensitive chemical cargo, the financial and managerial resources required to recruit and train drivers, substantial and increasingly more stringent industry regulatory requirements, strong customer relationships and the significant capital investments required to build a fleet of equipment and establish a network of terminals and independent affiliates.

Our transportation revenue in the chemical logistics segment is principally a function of the volume of shipments by the bulk chemical industry, prices, the average number of miles driven per load, our market share and the allocation of shipments between tank truck transportation and other modes of transportation such as rail. Additionally, it is common practice in the bulk tank truck industry for customers to pay fuel surcharges.

Table of Contents

Energy Logistics

Our energy logistics business operated through our subsidiary, QCER, services the unconventional oil and gas frac shale energy market through the transportation of crude oil, fresh water, flowback and produced brine water, and the disposal of flowback and produced brine water, as well as providing services ancillary to these activities. During 2012, we expanded our energy logistics business through the following acquisitions:

On April 1, 2012, we acquired certain operating assets of Trojan Vacuum Services, which operates in the Eagle Ford shale. We paid \$8.7 million in cash at closing, plus \$1.0 million in cash in January 2013 upon the satisfaction of certain operating and financial performance criteria. These criteria were met.

On June 1, 2012, we acquired certain operating assets of Wiley Bice Trucking, LLC and certain operating assets and rights of RM Resources, LLC, (collectively "Bice"), which operates in the Bakken shale region, for \$81.4 million in aggregate consideration, with up to an additional \$19.0 million in cash consideration, payable one year after the closing date if certain future operating and financial performance criteria were satisfied. These criteria were not met.

On August 1, 2012, we acquired certain operating assets of Dunn's Tank Services, Inc. and its related company Nassau Disposal, Inc. (collectively "Dunn's"), which operates in the Marcellus, Woodford and Utica shale regions, for an aggregate purchase price of \$34.3 million with up to an additional \$3.6 million in cash consideration, payable one year after the closing date if certain future operating and financial performance criteria were satisfied. These criteria were not met.

As of September 30, 2013, we operate in the Bakken, Eagle Ford, Marcellus, Mississippian Limestone, Mowry, Niobrara, Permian, Tuscaloosa Marine, Utica, and Woodford shale regions in North America, all of which drill for both oil and natural gas with the exception of Marcellus, which is solely natural gas. We continue to evaluate the potential for expansion into additional shales, either directly or through independent affiliates, which would provide additional diversification to our business. Our strategy to target multiple resource-rich shales helps to diversify our customer offerings, lessen the impact of swings in any one commodity and optimize equipment utilization. We currently operate approximately 1,300 units (tractors, trailers and combination equipment) of energy equipment in this market across a diverse customer base.

Our energy logistics business is primarily involved in fluid management and logistics in the upstream segment of the energy industry, through its services in connection with the establishment and servicing of production wells, and the midstream segment of the energy industry, in connection with the transportation of crude oil. We believe the market for services such as those provided by our energy logistics business was approximately \$8.0 billion in 2012. The industry is made up of providers that include independent national or regional trucking and logistics companies such as QCER, trucking and logistics companies owned by or dedicated to large oil and gas companies, and local providers focused on one or more particular shales. Energy logistics providers are impacted by the level of new drilling activity, which impacts the transportation of fresh water and flowback water used and the provision of related services used in those activities, and the number of active wells, which impacts the transportation of crude oil and produced water and the provision of related services used in those activities. The energy logistics market is also impacted by market prices for oil and gas, which influence the production activities of our customers, the prices they are willing to pay for our services, and the shales in which they operate. We expect regulation of this industry to increase over time, but believe

that the scope of our operations and our experience with regulation in our chemical logistics business will facilitate our adaptation to new regulations and may provide us with an advantage over some of our competitors.

Intermodal

Our subsidiary, Boasso, provides intermodal ISO tank container transportation and depot services through terminals located in the eastern half of the United States. In the fourth quarter of 2011, Boasso expanded its operations through the acquisition of Greensville Transport Company, which operates at a port located in Norfolk, Virginia. Boasso's revenues are impacted by United States chemical import/export volume, in particular the number and volume of shipments through ports at which Boasso has terminals, as well as their market share at those ports.

In addition to intermodal tank transportation services, Boasso provides tank cleaning, heating, testing, maintenance and storage services to customers. Boasso provides local and over-the-road trucking primarily within the proximity of the port cities where its depots are located. Chemical manufacturers have sought to efficiently transport their products on a global basis by utilizing ISO tank containers, and we believe the resulting demand for distributors that can offer a broad range of services within the supply chain will drive future growth in this sector. We believe that our intermodal business will benefit from these trends because of its market leadership, experience and track record.

Table of Contents

The intermodal ISO tank container business generally provides services that facilitate the global movement of liquid and dry bulk chemicals, pharmaceuticals and food grade products. The proliferation of global import/export of bulk liquid chemicals has driven the movement of basic manufacturing out of the United States and has resulted in an increase in chemical plant infrastructure to service these off-shore industries. Driven by this globalization, the intermodal ISO tank container market is a growing sector of the overall liquid bulk chemical transportation sector. Demand for intermodal ISO tank containers is impacted by the aggregate volume of imports and exports of chemicals through United States ports. Demand is also impacted by the shift in modes of transportation, from drums to ISO tank containers. Economic conditions and differences among the laws and currencies of foreign nations may also impact the volume of shipments. We operate in the global intermodal ISO tank container transportation and depot services market, which we believe was approximately a \$1.0 to \$1.5 billion market in 2012.

Our Networks

Our businesses have networks that consist of terminals owned or operated by independent affiliates and terminals owned or operated by us and a driver pool consisting of independent owner-operator drivers, affiliate-employed drivers and company-employed drivers. Independent affiliates are independent companies with which we contract to operate trucking terminals and provide transportation services exclusively on our behalf in defined markets. The independent affiliates generally provide the capital necessary to service their contracted business and are also responsible for most of the operating costs associated with servicing the contracted business. Due to several factors, including our ownership of the customer contracts and relationships, our provision of back-office support in areas such as claims, our direct relationship with independent owner-operators, the presence of non-compete agreements with the independent affiliates, and, in some cases, our ownership of the trailers utilized in the contracted business, our relationships with the independent affiliates tend to be long-term in nature, with minimal voluntary turnover. Independent owner-operators are generally individual drivers who own or lease their tractors and agree to provide transportation services to us under contract.

We believe our use of independent affiliates and independent owner-operators provides us with the following benefits:

Locally owned and operated independent affiliate terminals can provide superior, tailored customer service.

Independent affiliates and independent owner-operators generally are paid a fixed, contractual percentage of revenue collected on each load they transport creating a variable cost structure that mitigates against cyclical downturns.

Reliance on independent affiliates and independent owner-operators creates an asset-light business model that generally reduces our capital investment.

At present, our businesses rely upon independent affiliates and independent owner-operators to varying degrees. Our chemical logistics business operates primarily through independent affiliate terminals located throughout the continental United States and independent owner-operator drivers. Our intermodal business relies primarily on company terminals located near ports in the eastern half of the United States and independent owner-operator drivers. Our energy logistics business currently relies upon company terminals, which will affect the overall mix of our asset-light business, located near shale regions that have historically experienced frac shale drilling for natural gas and oil and independent owner-operator drivers; however, it also operates through independent affiliate terminals in certain shale regions. We expect to continue to add independent affiliates and independent owner-operators to our

energy logistics business with the goal of reducing capital investment needs while improving return on invested capital.

Recent Significant Transactions

August 2013 Secondary Offering

On August 14, 2013, former shareholders including funds affiliated with Apollo Global Management, LLC, sold 4.7 million shares of our common stock in an underwritten public offering, at a gross price of \$8.60 per share. We did not receive any proceeds from the sale of the shares by the selling shareholders in this offering. However, we incurred and paid approximately \$0.5 million in underwriting fees and expenses associated with this offering.

July 2013 Notes Redemption

On July 15, 2013, we redeemed a portion of our 2018 Notes in the aggregate principal amount of \$22.5 million. The redemption price for these 2018 Notes equaled 100% of the aggregate principal amount of \$22.5 million, plus accrued but unpaid interest up to the redemption date, plus a 3.0% premium. The redemption was funded with proceeds from the Term Loan described below together with borrowings under our asset-based loan facility (ABL Facility).

June 2013 ABL Facility Amendment Term Loan Facility

On June 14, 2013, our ABL Facility was amended to provide for a new \$17.5 million senior secured term loan facility which was fully funded on July 15, 2013 (the Term Loan). Borrowings under the Term Loan bear interest at a rate equal to an applicable margin plus, at our option, either a base rate or LIBOR. The applicable margin at September 30, 2013 was 2.50% for base rate borrowings and 3.50% for LIBOR borrowings, with a potential step-down of 0.25% after 18 months if a senior secured leverage ratio is met. Obligations under the Term Loan mature on the earlier of June 14, 2016 or the date on which the ABL Facility terminates.

Table of Contents

May 2013 New Independent Affiliate

On May 1, 2013, we began affiliating our energy logistics trucking operations in the Marcellus shale region by converting three company-operated terminals to affiliated operations. The affiliation is a new relationship with an independent operator who is based in the Williamsport, Pennsylvania area and operates an existing oilfield services company. In conjunction with this effort, the new independent affiliate purchased and leased certain transportation equipment to ensure sufficient capacity for the combined customer base and execute a smooth transition of the business. In the second quarter of 2013, we incurred charges of approximately \$1.5 million related to this conversion, most of which were due to losses on equipment sales.

In October 2013, we transitioned our Utica shale operations in Ohio to this same independent affiliate, and plans are currently in place to transition our Woodford shale operations in Oklahoma to an independent affiliate, which is expected to occur early in 2014.

November 2012 Share Repurchase Program

On November 20, 2012, we announced a share repurchase program pursuant to which our Board of Directors authorized the repurchase of up to \$15.0 million of our common stock in an open-ended repurchase program (the Repurchase Program). Stock has been, and may in the future be, purchased pursuant to the Repurchase Program, from time to time, in the open market or through private transactions, subject to market conditions. We are not obligated to purchase any shares under the Repurchase Program, and it can be discontinued at any time that we feel additional purchases are not warranted. As of September 30, 2013, we have repurchased approximately 1.2 million shares valued at \$8.1 million under the Repurchase Program.

October 2012 Acquisition of an Independent Affiliate

During the third quarter of 2012, we terminated our business relationship with an independent affiliate due to financial and operational difficulties. On October 17, 2012, we acquired the business, certain operating assets and certain liabilities of this independent affiliate for a purchase price of \$17.1 million, paid in cash at closing. Of the total \$17.1 million, we allocated \$15.5 million to property and equipment and \$1.6 million to goodwill. The entire amount of goodwill is deductible for tax purposes. This independent affiliate operated eight terminals within the chemical logistics segment and one terminal within the energy logistics segment. Four chemical logistics terminals were immediately transitioned to other independent affiliates, and the remaining terminals were initially transitioned to company operations. As of September 30, 2013, the four remaining company-operated terminals were transitioned to independent affiliates. During this transition, operating results for the third and fourth quarters of 2012 were adversely impacted in aggregate by \$4.4 million of greater than expected operating costs and reduced profitability. During the first nine months of 2013, we recognized \$0.4 million of additional transition costs.

September 2012 ABL Facility Amendment

On September 27, 2012, we entered into an amendment to our ABL Facility. The amendment increased our maximum borrowing capacity under the Facility from \$250.0 million to \$350.0 million. The maturity, interest rate and other material terms and conditions under the ABL Facility remained the same.

August 2012 Asset Acquisition Dunn's Tank Service and Nassau Disposal, Inc.

On August 1, 2012, we acquired certain operating assets of Dunn's Tank Service, Inc. and the operating assets and rights of Nassau Disposal, Inc., (collectively Dunn's), for an aggregate purchase price of \$34.3 million paid in cash to

expand our energy logistics business. Of the total \$34.3 million, we allocated \$12.2 million to property and equipment, \$17.3 million to goodwill and \$4.8 million to intangibles. The entire amount of goodwill is deductible for tax purposes. Dunn's provides transportation services to the unconventional oil and gas industry primarily within the Woodford shale region, primarily providing various services for oil drilling and preparation and hauling flowback and production water for various energy customers. The results of Dunn's have been included in our results since the date of acquisition, and are included in our energy logistics segment.

June 2012 Asset Acquisitions Wylie Bice Trucking, LLC and RM Resources, LLC

On June 1, 2012, we acquired certain operating assets of Wylie Bice Trucking, LLC and the operating assets and rights of RM Resources, LLC, (collectively Bice), for \$81.4 million aggregate consideration to expand our energy logistics business. Of the total \$81.4 million, we allocated \$48.2 million to goodwill, \$26.6 million to property and equipment, \$13.4 million to intangibles and \$6.8 million to contingent consideration. Of the \$48.2 million allocated to goodwill, \$41.4 million is deductible for tax purposes. Bice provides transportation services to the unconventional oil and gas frac shale industry within the Bakken shale region, primarily hauling fresh water, flowback and production water, and oil for numerous energy and other customers. The flowback and production water Bice hauls is primarily disposed of utilizing six salt water injection wells we purchased from Bice. The results of the Bice acquisitions have been included in our results since the date of acquisition, and are included in our energy logistics segment.

Table of Contents

April 2012 Asset Acquisition Trojan Vacuum Services

On April 1, 2012, we acquired certain operating assets of Trojan Vacuum Services (Trojan) to expand our energy logistics business. The purchase price was \$8.7 million paid in cash at closing, plus \$1.0 million payable in cash upon the satisfaction of certain operating and financial performance criteria. These criteria were satisfied and the full \$1.0 million was paid in January 2013. Of the total \$8.7 million, we allocated \$4.1 million to property and equipment, \$4.3 million to intangibles and \$0.3 million to goodwill. The entire amount of goodwill is deductible for tax purposes. Trojan provides transportation service to the unconventional oil and gas frac shale industry within the Eagle Ford shale region, primarily hauling flowback and production water for various energy customers. The results of the Trojan acquisition have been included in our results since the date of acquisition and are included in our energy logistics segment.

March 2012 Common Stock Offering

On March 13, 2012, we sold 2.5 million shares of our common stock in an underwritten public offering, at a gross price of \$13 per share, and received net proceeds, after underwriting fees and expenses, of approximately \$30.5 million. Certain affiliates of Apollo Management, L.P. also sold 3.2 million shares in the offering. We used our net cash proceeds to repay outstanding borrowings under our ABL Facility.

Table of Contents

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

We identified what we believe to be the more critical accounting policies that impact the financial statements, some of which are based on management's best estimates available at the time of preparation, in our Annual Report on Form 10-K for the year ended December 31, 2012. We have not made any material changes to those policies during the period covered by this Quarterly Report on Form 10-Q except for the following:

Assets held-for-sale We conducted a review of our fleet requirements during the second and third quarters of 2013. As a result of that review, we determined that there were a group of tractors and trailers which were in excess of our needs and which we classified as held-for-sale.

Goodwill and Intangible Assets We evaluate goodwill and indefinite-lived intangible assets for impairment at least annually during the second quarter with a measurement date of June 30, and more frequently if indicators of impairment arise, in accordance with FASB guidance. We evaluate goodwill for impairment by determining the fair value for each reporting unit, our chemical logistics segment, energy logistics segment and intermodal segment. These reporting units contain goodwill and other identifiable intangible assets as a result of previous business acquisitions. As a result of our annual impairment test, we concluded an impairment charge of \$55.7 million of which \$55.2 million related to goodwill and \$0.5 million related to intangibles was necessary at June 30, 2013, which was solely related to our energy logistics segment. There were no indicators of impairment in our chemical logistics segment or our intermodal segment.

We have evaluated at least quarterly whether indicators of impairment exist by reviewing our market capitalization. There were no indications from our quarterly reviews that a triggering event had occurred since the prior period's goodwill impairment test at June 30, 2013 through the quarter ended September 30, 2013.

Goodwill

For our chemical logistics segment, we conducted our analysis under the revised goodwill impairment rules in which we assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that is more likely than not that the fair value of the reporting unit is less than its carrying amount. Based on this analysis, we concluded there were no indicators of impairment related to our chemical logistics segment and there was no requirement to perform the two-step quantitative goodwill impairment test. The key qualitative factors that led to this conclusion were (i) the excess amount or "cushion" between each of the reporting unit's fair value and carrying value as indicated on the Company's prior quantitative assessment; (ii) the significant increase in the share price and market capitalization of the Company since the prior goodwill impairment analysis; and (iii) the overall positive financial performance of the reporting units and related improvements in the five-year plan.

For energy logistics and intermodal segments, we did not elect the qualitative approach and performed the two-step goodwill analysis approach. Under the FASB guidance, the process of evaluating the potential impairment of goodwill under the two-step process requires significant judgment at many points during the analysis. In the first step, we determine whether there is an indication of impairment by comparing the fair value of a reporting unit to its carrying amount, including goodwill. If, based on the first step, we determine that there is an indication of goodwill impairment, we assess the impairment in step two in accordance with the FASB guidance.

In the first step, we determine the fair value for each reporting unit using a combination of three valuation approaches: the market approach, the income approach and cost approach. The market approach uses a guideline company methodology which is based upon a comparison of us to similar publicly-traded companies within our industry. We derive a market value of invested capital or business enterprise value for each comparable company by multiplying the

price per share of common stock of the publicly traded companies by their total common shares outstanding and adding each company's current level of debt. We calculate a business enterprise multiple based on revenue and earnings from each company, then apply those multiples to each reporting unit's revenue and earnings to conclude a reporting unit business enterprise value. Assumptions regarding the selection of comparable companies are made based on, among other factors, capital structure, operating environment and industry. As the comparable companies were typically larger and more diversified than our reporting units, multiples were adjusted prior to application to our reporting units' revenues and earnings to reflect differences in margins, long-term growth prospects and market capitalization.

Table of Contents

The income approach uses a 5-year discounted debt-free cash flow analysis to measure fair value by estimating the present value of future economic benefits. To perform the discounted debt-free cash flow analysis, we develop a pro forma analysis of each reporting unit to estimate future available debt-free cash flow and discount estimated debt-free cash flow by an estimated industry weighted average cost of capital based on the same comparable companies used in the market approach. Per the FASB guidance, the weighted average cost of capital is based on inputs (e.g., capital structure, risk, etc.) from a market participant's perspective and not necessarily from the reporting unit or QDI's perspective. Future cash flow is projected based on assumptions for our economic growth, industry expansion, future operations and the discount rate, all of which require significant judgments by management.

The cost approach estimates the fair value by quantifying the amount of money that would be required to repurchase or reproduce the asset under review. The estimates are developed multiples from publicly available transactional data of acquired comparable target companies.

After computing a separate business enterprise value under the income approach, market approach and cost approach, we apply a weighting to them to derive the business enterprise value of the reporting unit. For energy logistics, income approach, market approach and cost approach were weighted 50%, 25% and 25%, respectively, in the analysis performed at June 30, 2013. For intermodal, income approach, market approach and cost approach were weighted 50%, 40% and 10%, respectively. The weightings are evaluated each time a goodwill impairment assessment is performed and give consideration to the relative reliability of each approach at that time. Based on these weightings we concluded a business enterprise value for each reporting unit. We then added the fair value of the identifiable assets and liabilities of the reporting unit to the concluded business enterprise value to derive an implied fair value of the reporting unit. The implied fair value is compared to the reporting unit's carrying value of total assets. Upon completion of the analysis in step one, we determined that the carrying amount of our energy logistics reporting unit exceeded its fair value, requiring a step two analysis to be performed for this reporting unit, and we determined that the fair value of our intermodal reporting unit exceeded its carrying amount; therefore, not requiring a step two analysis.

In step two of the goodwill impairment test, the amount of impairment loss is determined by comparing the implied fair value of each reporting unit's goodwill with the carrying value of the reporting unit's goodwill. This involves testing the definite-lived assets in accordance with FASB guidance using undiscounted cash flows. Then a fair value allocation is performed for each reporting unit based on the business enterprise value obtained in step one. From that we determine the actual goodwill impairment for each reporting unit based on the goodwill residual amount. If the carrying amount of reporting unit goodwill exceeds the implied fair value of that goodwill, an impairment loss must be recognized in an amount equal to the excess. The loss recognized cannot exceed the carrying amount of goodwill. After a goodwill impairment loss is recognized, the adjusted carrying amount of goodwill will be its new accounting basis. Upon completion of step two of the analysis, an impairment charge within our energy logistics segment was determined.

Table of Contents

The methodology applied in the analysis performed at June 30, 2013 was consistent with the methodology applied in prior years, but was based on updated assumptions, as appropriate. During the second quarter of 2013, we determined that our expectations for revenue and profitability were lower than original estimates used when our acquisitions were made in 2012. Estimates of future cash flows used in the analysis performed at June 30, 2013 are lower than those used in the prior-year analysis. In addition, our weighted average cost of capital used in the analysis at June 30, 2013 was higher than that used in 2012 due to an increase in the reporting unit risk premium coupled with the market-driven inputs to weighted average cost of capital. The discount rates utilized in the analysis also reflect market-based estimates of the risks associated with the projected cash flows of individual reporting units and were increased from the prior-year analysis to reflect increased risk due to current volatility in the economic environment.

If there are changes to the methods used to allocate carrying values, if management's estimates of future operating results change, if there are changes in the identified reporting units or if there are changes to other significant assumptions, the estimated carrying values for each reporting unit and the estimated fair value of our goodwill could change significantly, and could result in future impairment charges which could materially impact our results of operations and financial condition.

Intangible assets

Long-lived assets held and used, including revenue earning equipment, operating property and equipment and intangible assets with finite lives, are tested for recoverability when circumstances indicate that the carrying amount of assets may not be recoverable. Recoverability of long-lived assets is evaluated by comparing the carrying amount of an asset or asset group to management's best estimate of the undiscounted future operating cash flows (excluding interest charges) expected to be generated by the asset or asset group. If these comparisons indicate that the asset or asset group is not recoverable, an impairment loss is recognized at the amount by which the carrying value of the asset or asset group exceeds fair value. Fair value is determined by quoted market price, if available, or an estimate of projected future operating cash flows, discounted using a rate that reflects the related operating segment's average cost of funds. Long-lived assets to be disposed of including revenue earning equipment, operating property and equipment and indefinite-lived intangible assets, are reported at the lower of carrying amount or fair value less costs to sell. Based upon management's review of the value of the indefinite-lived intangible assets in our energy logistics segment, we determined that the carrying value of the acquired tradenames exceeded their implied fair value by \$0.5 million based on our accelerated transition to the QCER tradename. Based upon management's review of the value of the indefinite-lived intangible assets in our chemical logistics segment and intermodal segment, we determined that no indicators of impairment exist.

NEW ACCOUNTING PRONOUNCEMENTS

Refer to Note 1, Summary of Significant Accounting Policies New Accounting Pronouncements for discussion of recent accounting pronouncements and for additional discussion surrounding the adoption of accounting standards.

Table of Contents**RESULTS OF OPERATIONS**

The following table presents certain condensed consolidated financial information, as a percentage of revenue, for the three and nine months ended September 30, 2013 and 2012:

	Three months ended September 30,		Nine months ended September 30,	
	2013	2012	2013	2012
OPERATING REVENUES:				
Transportation	72.9%	72.1%	72.5%	70.8%
Service revenue	13.7	14.2	13.9	14.3
Fuel surcharge	13.4	13.7	13.6	14.9
Total operating revenues	100.0	100.0	100.0	100.0
OPERATING EXPENSES:				
Purchased transportation	65.0	64.4	63.4	66.6
Compensation	10.4	10.1	10.8	9.2
Fuel, supplies and maintenance	11.1	10.8	11.3	9.1
Depreciation and amortization	2.7	2.7	2.8	2.3
Selling and administrative	3.5	3.7	3.4	4.0
Insurance costs	2.0	2.0	1.9	1.9
Taxes and licenses	0.5	0.4	0.5	0.3
Communication and utilities	0.4	0.4	0.4	0.4
(Gain) loss on disposal of property and equipment	(0.4)	0.2	(0.4)	0.0
Impairment charges	0.0	0.0	7.9	0.0
Total operating expenses	95.2	94.7	102.0	93.8
Operating income (loss)	4.8	5.3	(2.0)	6.2
Interest expense	3.5	3.5	3.4	3.5
Interest income	(0.1)	(0.1)	(0.1)	(0.1)
Write-off of debt issuance costs	0.0	0.0	0.1	0.0
Other income, net	0.0	(0.1)	(1.0)	0.0
Income (loss) before income taxes	1.4	2.0	(4.4)	2.8
Provision for (benefit from) income taxes	0.2	(2.1)	(1.7)	(4.2)
Net income (loss)	1.2%	4.1%	(2.7%)	7.0%

Table of Contents

The following table shows the number of terminals, drivers, tractors, trailers and energy logistics equipment that we manage (including independent affiliates and independent owner-operators) as of September 30:

	2013	2012
Terminals (1)	110	111
Drivers (2)	3,415	3,223
Tractors	2,897	2,941
Trailers (3)	5,259	5,248
Energy logistics equipment (4)	1,335	1,360

- (1) See the following table for terminals by segment.
 (2) Includes approximately 700 and 600 drivers for the energy logistics business segment as of September 30, 2013 and 2012, respectively.
 (3) Excludes approximately 1,500 chassis used in our intermodal business segment as of September 30, 2013 and 2012.
 (4) Includes tractors, trailers and combination equipment.

Our network terminals and facilities consisted of the following as of September 30:

	2013 Terminals	2012 Terminals
Chemical logistics independent affiliate trucking terminals	84	83
Chemical logistics company-operated trucking terminals	4	9
Energy logistics independent affiliate energy terminals	6	2
Energy logistics company-operated energy terminals	7	8
Intermodal container services terminals/depots	9	9
Total	110	111

Three Months Ended September 30, 2013 Compared to Three Months Ended September 30, 2012

For the quarter ended September 30, 2013, total revenues were \$235.7 million, an increase of \$13.6 million, or 6.1%, from revenues of \$222.1 million for the same period in 2012. Transportation revenue increased by \$11.8 million, or 7.4%, primarily due to an increase in energy logistics revenue of \$5.7 million due to expanded operations in certain shales. In addition, we had an increase of \$4.9 million in our chemical logistics business due to increased pricing and higher volumes, and we had an increase of \$1.2 million in our intermodal business due to stronger demand for ISO container shipments.

Service revenue increased \$0.6 million, or 2.0%. This increase was primarily due to an increase in our intermodal depot services revenue of \$1.3 million due to an increase in demand for ISO container shipments, offset by a reduction in our energy logistics business of \$0.8 million primarily due to a reduction in disposal well revenue. Our chemical logistics service revenue remained flat.

Table of Contents

Fuel surcharge revenue increased \$1.2 million, or 3.8%, primarily due to an increase in our chemical logistics business of \$0.8 million and an increase of \$0.7 million in our intermodal business partially offset by a decrease in our energy logistics business of \$0.3 million. We have fuel surcharge programs in place with the majority of our chemical logistics and intermodal customers. Most of these programs typically involve a specified computation based on the changes in fuel prices. As a result, some of these programs have a short time lag between when fuel prices change and when this change is reflected in revenues. It is not meaningful to compare the amount of fuel surcharge revenue or the change in fuel surcharge revenue between reporting periods to fuel expense, or the change in fuel expense between periods, as a significant portion of fuel costs is included in purchased transportation.

Purchased transportation increased \$10.1 million, or 7.1%, due to an increase of \$6.8 million in costs related to servicing our chemical logistics business. In addition, we had an increase of \$2.5 million in costs related to servicing our energy logistics market, and we had an increase of \$0.8 million in costs related to servicing our intermodal business. Total purchased transportation as a percentage of transportation revenue and fuel surcharge revenue increased slightly to 75.3% for the current quarter versus 75.1% for the prior-year quarter. Our independent affiliates generated 91.8% of our chemical logistics transportation revenue and fuel surcharge revenue for the three months ended September 30, 2013 compared to 89.2% for the comparable prior-year period. During the 2013 and 2012 periods, we paid our independent affiliates approximately 85% of chemical logistics transportation revenue and paid independent owner-operators approximately 65% of chemical logistics transportation revenue.

During the three months ended September 30, 2013, hauling for the energy market was performed primarily by company-operated terminals and independent affiliates and, in some cases, by independent third-party carriers. During this period, company-operated terminals generated approximately 63% of energy logistics revenue, and independent affiliates and third-party carriers generated approximately 37%. During the quarter ended September 30, 2012, company-operated terminals generated approximately 88% of energy logistics revenue, and independent affiliates and third-party carriers generated approximately 12%. We typically pay these independent contractors between 70% and 95% of transportation revenue depending on their type of association with the Company. We expect the percentage of revenues generated by independent affiliates to increase over time if we successfully affiliate more of our company-operated terminals or establish new independent affiliate-operated terminals.

Compensation expense increased by \$1.9 million, or 8.5%, due primarily to an increase of \$1.4 million in our energy logistics business due to increased transportation revenue and an increase in our chemical logistics business of \$0.3 million. Compensation expense in our intermodal business increased \$0.2 million.

Fuel, supplies and maintenance increased \$2.1 million, or 8.8%, due primarily to an increase of \$1.6 million related to our energy logistics business due to increased maintenance costs of \$1.3 million and an increase in equipment rent of \$0.3 million. We had an increase of \$0.7 million related to our intermodal business due to an increase in maintenance costs of \$0.5 million and an increase in equipment rent of \$0.2 million. In addition, we had a decrease of \$0.2 million related to our chemical logistics business resulting from a decrease in fuel costs of \$0.5 million offset by an increase in equipment rent expense of \$0.3 million.

Depreciation and amortization expense increased \$0.3 million, or 4.6%, primarily due to an increase in depreciation in our energy logistics business offset by a slight decrease in amortization expense for acquired intangible assets.

Selling and administrative expenses increased \$0.1 million, or 0.9%, primarily due to an increase in our energy logistics business of \$0.4 million. This increase was offset by a decrease of \$0.3 million in our chemical logistics business.

Insurance costs increased \$0.2 million, or 5.3%, due to an increase in the volume of claims. As a percentage of revenue, insurance expense was slightly below the Company's target range of 2% to 3% of total revenue.

For the quarter ended September 30, 2013, we recognized a gain on disposal of revenue equipment of \$1.0 million. For the quarter ended September 30, 2012, we recognized a loss on disposal of revenue equipment of \$0.4 million.

For the quarters ended September 30, 2013 and 2012, operating income was \$11.6 million in both periods.

Table of Contents

Interest expense increased by \$0.5 million, or 6.5%, in the quarter ended September 30, 2013, primarily due to the \$0.7 million premium paid on the redemption of a portion of our 2018 Notes.

The provision for income taxes was \$0.5 million for the quarter ended September 30, 2013, compared to a benefit from income taxes of \$4.6 million for the same period in 2012. The effective tax rates for the quarter ended September 30, 2013 and 2012 were a tax expense of 14.8% and a tax benefit of more than 100%, respectively. The effective tax rate for the current quarter was different from our statutory rate primarily due to favorable state tax adjustment. The effective tax rate for the same period in 2012 was impacted by a release of \$4.9 million of our deferred tax valuation allowance.

For the quarter ended September 30, 2013, we had net income of \$2.8 million compared to net income of \$8.9 million for the same period in 2012 as a result of the above-mentioned items.

Nine Months Ended September 30, 2013 Compared to Nine Months Ended September 30, 2012

Comparability for the nine months ended September 30, 2013 to the nine months ended September 30, 2012 is affected by acquisitions consummated in 2012. In April 2012, we acquired certain operating assets of Trojan, in June 2012, we acquired certain operating assets of Bice, and in August 2012, we acquired certain operating assets of Dunn s. Trojan, Bice and Dunn s are collectively referred to as the 2012 Energy Acquisitions and are included in our energy logistics segment.

For the nine months ended September 30, 2013, total revenues were \$704.4 million, an increase of \$77.7 million, or 12.4%, from revenues of \$626.7 million for the same period in 2012. Transportation revenue increased \$66.7 million, or 15.0%, primarily due to an increase in new energy logistics revenue of \$50.2 million, of which \$38.5 related to the 2012 Energy Acquisitions. In addition, we had an increase of \$13.6 million in our chemical logistics revenue due to increased pricing and higher volumes, and an increase of \$2.9 million in our intermodal business due to an increase in demand for ISO container shipments.

Service revenue increased \$8.8 million, or 9.8%. This increase was primarily due to an increase in our intermodal depot services of \$4.7 million, higher energy logistics revenue of \$3.5 million, of which \$2.3 million was due to the 2012 Energy Acquisitions, and an increase in our chemical logistics business of \$0.6 million.

Fuel surcharge revenue increased \$2.2 million, or 2.3%, primarily due to an increase in our chemical logistics business of \$1.6 million and an increase of \$1.0 million in our intermodal business, partially offset by a decrease in our energy logistics business of \$0.4 million. We have fuel surcharge programs in place with the majority of our chemical logistics and intermodal customers. As a result, most of these programs typically involve a specified computation based on the changes in fuel prices, and some of these programs have a short time lag between when fuel prices change and when this change is reflected in revenues. It is not meaningful to compare the amount of fuel surcharge revenue or the change in fuel surcharge revenue between reporting periods to fuel expense, or the change in fuel expense between periods, as a significant portion of fuel costs is included in purchased transportation.

Purchased transportation increased \$29.2 million, or 7.0%, due to an increase of \$21.3 million in costs related to servicing the energy logistics market, of which \$14.4 million was due to the 2012 Energy Acquisitions. Purchased transportation also increased \$7.1 million related to our chemical logistics business and \$0.8 million related to our intermodal business. Total purchased transportation as a percentage of transportation revenue and fuel surcharge revenue decreased to 73.7% for the nine months ended September 30, 2013 versus 77.7% for the same period in 2012. Our independent affiliates generated 89.1% of our chemical logistics transportation revenue and fuel surcharge revenue for the nine months ended September 30, 2013 compared to 91.1% for the comparable prior-year period. This

decrease resulted primarily from the change in mix from independent affiliate trucking terminals to company-operated terminals. During the 2013 and 2012 periods, we paid our independent affiliates approximately 85% of chemical logistics transportation revenue and paid independent owner-operators approximately 65% of chemical logistics transportation revenue.

Table of Contents

During the first nine months of 2013, hauling for the energy market was performed by company-operated terminals, independent affiliates and independent third-party carriers. In the first nine months of 2013, company-operated terminals generated approximately 71% of the energy logistics revenue, and independent affiliates and third-party carriers generated approximately 29%. In the first nine months of 2012, company-operated terminals generated approximately 82% of the energy logistics revenue and independent affiliates and third-party carriers generated approximately 18%. We typically pay these independent contractors between 70% and 95% depending on their type of association with the company.

Compensation expense increased \$18.7 million, or 32.5%, due to an increase of \$12.7 million in our energy logistics business, of which \$10.4 million was due to the 2012 Energy Acquisitions, an increase of \$5.3 million in our chemical logistics business due to an increase in company-operated terminals, prior to their re-affiliation beginning in the second quarter of 2013, and an increase in our intermodal business of \$0.7 million.

Fuel, supplies and maintenance increased \$22.6 million, or 39.6%, due to an increase of \$14.4 million related to our energy logistics business, of which \$11.6 million was due to the 2012 Energy Acquisitions. We had an increase of \$6.4 million related to our chemical logistics business resulting primarily from an increase in fuel costs of \$2.4 million, an increase in equipment rent expense of \$2.8 million, and an increase in repairs and maintenance expense and other terminal costs of \$1.2 million, primarily at our company-operated terminals. In addition, we had an increase of \$1.8 million related to our intermodal business primarily due to an increase in maintenance costs of \$1.0 million, an increase in equipment rent of \$0.5 million and an increase in fuel costs of \$0.3 million.

Depreciation and amortization expense increased \$5.3 million, or 36.6%, primarily due to an increase in depreciation in our energy logistics business and an increase in amortization expense for acquired intangible assets. We expect our depreciation and amortization expense to continue to be higher in 2013 than in 2012 as energy logistics equipment and intangible assets acquired during 2012 are depreciated and amortized, respectively, for a full twelve months.

Selling and administrative expenses decreased \$0.9 million, or 3.6%, primarily due to a decrease in our chemical logistics business of \$3.7 million which is due to a reduction in acquisition-related costs and professional fees. We had an increase in our energy logistics business of \$2.4 million, most of which was due to the 2012 Energy Acquisitions, and we had an increase of \$0.4 million in our intermodal business.

Insurance costs increased \$1.7 million, or 14.9%, due to an increase in claims in our energy logistics business. As a percentage of revenue, insurance expense was slightly below the Company's target range of 2% to 3% of total revenue.

Taxes and licenses increased \$1.2 million, or 53.1%, due to an increase in chemical logistics of \$0.4 million, energy logistics of \$0.4 million and intermodal of \$0.4 million.

For the nine months ended September 30, 2013, we recognized a net gain on disposal of property and equipment of \$2.5 million which was comprised of a gain of \$2.6 million on the sale of property offset by a net loss of \$0.1 million on the disposal of revenue equipment. For the nine months ended September 30, 2012, we recognized a gain on disposal of revenue equipment of less than \$0.1 million.

For the nine months ended September 30, 2013, we recorded a non-cash impairment charge to goodwill and intangibles in the amount of \$55.7 million as a result of our annual impairment analysis performed as of June 30, 2013. The charge related to our energy logistics segment. Further information regarding our impairment analysis is included in our Critical Accounting Policies and Estimates regarding Goodwill and Intangible Assets.

Edgar Filing: QUALITY DISTRIBUTION INC - Form 10-Q

For the nine months ended September 30, 2013, we incurred an operating loss of \$14.6 million compared to operating income of \$38.9 million for the same period in 2012. The decrease was primarily due to the non-cash impairment charge described above.

Interest expense increased \$1.7 million, or 7.9%, in the nine months ended September 30, 2013, primarily due to an increase in our weighted average ABL Facility borrowings which were primarily used to fund the 2012 Energy Acquisitions and the \$0.7 million premium paid on the redemption of a portion of our 2018 Notes. We expect our interest expense for 2013 to continue to be higher than in the comparable period of 2012 due to higher average debt balances.

Other income of \$7.3 million for the nine months ended September, 30, 2013 consists primarily of adjustments to our liability for contingent consideration payments related to the acquisition of Bice.

The benefit from income taxes was \$11.7 million for the nine months ended September 30, 2013, compared to a benefit from income taxes of \$26.6 million for the same period in 2012. The effective tax rates for the nine months ended September 30, 2013 and 2012 were 37.8% and more than 100%, respectively. The effective tax rate for the nine months ended September 30, 2013 was different from our statutory rate due to a partial release of the foreign tax credit valuation allowance. The effective tax rate in the same period in 2012 was impacted by a release of \$27.7 million in the aggregate of our deferred tax valuation allowance.

For the nine months ended September 30, 2013, we incurred a net loss of \$19.2 million compared to net income of \$44.4 million for the same period in 2012 as a result of the above-mentioned items.

Table of Contents*Segment Operating Results*

We have three reportable business segments for financial reporting purposes that are distinguished primarily on the basis of services offered:

Chemical Logistics, which consists of the transportation of bulk chemicals primarily through our network of 26 independent affiliates and company-operated terminals, and equipment rental income;

Energy Logistics, which consists primarily of the transportation of fresh water, disposal water, and crude oil for the unconventional oil and gas frac shale energy markets, primarily through company-operated terminals and 3 independent affiliates; and

Intermodal, which consists of Boasso's intermodal ISO tank container transportation and depot services business primarily supporting the international movement of bulk liquids.

Segment operating income reported in our segment tables excludes amounts such as depreciation and amortization, gains and losses on disposal of property and equipment, restructuring costs, impairment charges and corporate and other unallocated amounts. Although these amounts are excluded from the business segment operating income results, they are included in our reported Consolidated Statements of Operations. Most corporate and shared services overhead costs, including acquisition costs, are included in our chemical logistics segment. We have not provided specific asset information by segment, as it is not regularly provided to our chief operating decision maker for review.

Summarized segment operating results are as follows (in thousands):

	Three Months Ended September 30, 2013			
	Chemical Logistics	Energy Logistics	Intermodal	Total
Operating Revenues:				
Transportation	\$ 112,704	\$ 40,819	\$ 18,376	\$ 171,899

- (1) Includes an impairment charge of \$55.2 million of goodwill and \$0.5 million of intangible assets related to our energy logistics segment.

Table of Contents

Three Months Ended September 30, 2013 Compared to Three Months Ended September 30, 2012

Operating revenue:

Chemical Logistics revenues increased \$5.9 million, or 3.9%, for the quarter ended September 30, 2013 compared to the same period for 2012, primarily due to an increase in transportation revenue of \$4.9 million, which was driven by increased pricing and higher volumes. Chemical logistics shipment demand continues to be strong. In addition, fuel surcharge revenue increased \$0.8 million due to increased transportation revenue, and service revenue increased by \$0.2 million due primarily to increased trailer rent. Driver counts were slightly higher in the 2013 period due to continued aggressive focus on recruiting and retention; however, industry-wide tightness in driver capacity could limit our ability to meet increasing customer demand for the remainder of 2013.

Energy Logistics revenues increased \$4.6 million, or 11.9%, for the quarter ended September 30, 2013 primarily due to organic growth in the Eagle Ford shale region and the on-boarding of the new Marcellus independent affiliate. These increases were partially offset by reduced asset utilization in our Woodford shale operations and by slower customer drilling activity in the Bakken shale region, which resulted in lower fresh and disposal water transportation volumes.

Intermodal revenues increased \$3.1 million, or 9.8%, for the quarter ended September 30, 2013 compared to the same period in 2012, due to increases in trucking revenue, as well as stronger storage, rental and service revenue. Demand for ISO container shipments continues to be favorable, which has resulted in increases in trucking volumes and related service activity.

Segment operating income:

Chemical Logistics operating income decreased \$0.8 million, or 8.6%, for the quarter ended September 30, 2013 compared to the same period in 2012 primarily due to higher equipment lease expense and incremental depreciation expense from the independent affiliate asset acquisition in the fourth quarter of 2012. The company-operated terminals we took over from the independent affiliate conversion in the third quarter of last year negatively impacted our margins during 2013. While we have now re-affiliated these terminals to existing independent affiliates, future margin improvements on these locations will not be realized until mid-2014 as we provided certain financial incentives to accelerate the conversions.

Energy Logistics operating income decreased \$1.6 million, or 39.8%, for the quarter ended September 30, 2013 primarily due to reduced margins in our Woodford shale region from high asset repositioning costs and aggressive rationalization programs and our Bakken shale region due to lower than expected profitability. These were offset by improvement in our Eagle Ford and Marcellus shale regions. We have plans in place to affiliate our Oklahoma operations in early 2014.

Intermodal operating income increased \$1.4 million, or 31.8%, for the quarter ended September 30, 2013 compared to the same period in 2012, due primarily to increased storage and service revenues which typically carry higher margins, profitability increases in our Northeast region, and the non-recurrence of steep equipment repair costs which impacted the prior-year period.

Nine Months Ended September 30, 2013 Compared to Nine Months Ended September 30, 2012

Comparability for the nine months ended September 30, 2013 to the nine months ended September 30, 2012 is affected by acquisitions consummated in 2012. In April 2012, we acquired certain operating assets of Trojan, in June 2012, we acquired certain operating assets of Bice, and in August 2012, we acquired certain operating assets of

Dunn s. Trojan, Bice and Dunn s are collectively referred to as the 2012 Energy Acquisitions and are included in our energy logistics segment.

Operating revenue:

Chemical Logistics revenues increased \$15.7 million, or 3.5%, for the nine months ended September 30, 2013 compared to the same period for 2012 primarily due to an increase in transportation revenue of \$13.6 million which was driven by increased pricing and higher volumes. Chemical logistics shipment demand continues to be strong. We had an increase of \$1.6 million in fuel surcharge revenue due to increased transportation revenue and an increase in service revenue of \$0.6 million due primarily to increased trailer rent. Driver counts were slightly higher in 2013 due to continued aggressive focus on recruiting and retention; however, industry-wide tightness in driver capacity could limit our ability to meet increasing customer demand for the remainder of 2013.

Energy Logistics revenues increased \$53.4 million, or 70.3%, for the nine months ended September 30, 2013 due to our 2012 Energy Acquisitions, revenue from the strong and growing Eagle Ford shale region and the on-boarding of the new Marcellus independent affiliate. These increases were partially offset by lower customer drilling activity in the Bakken shale region which resulted in a decline in fresh and disposal water transportation revenues and reduced asset utilization in our Oklahoma operations.

Table of Contents

Intermodal revenues increased \$8.6 million, or 8.6%, for the nine months ended September 30, 2013 compared to the same period in 2012 due to continued strong demand for ISO container shipments which has led to increases in trucking volumes and a stable to upward environment for pricing. Revenue increases were also the result of strong storage, rental and service revenue.

Operating income:

Chemical Logistics operating income decreased \$0.8 million, or 2.8%, for the nine months ended September 30, 2013 compared to the same period in 2012, primarily due to higher equipment lease expense, higher medical claims and incremental depreciation expense from the independent affiliate asset acquisition in the fourth quarter of 2012. These decreases were offset by a reduction in professional fees related to the 2012 Energy Acquisitions. The company-operated terminals we took over from the independent affiliate conversion in the third quarter of last year negatively impacted our margins during 2013. While we have now re-affiliated these terminals to existing independent affiliates, future margin improvements on these locations will not be realized until mid-2014 as we provided certain financial incentives to accelerate the conversions.

Energy Logistics operating income increased \$1.0 million, or 10.6%, for the nine months ended September 30, 2013 primarily due to the 2012 Energy Acquisitions, growth in our Eagle Ford shale business and the affiliation of our Marcellus shale business. Growth in operating income over the prior-year period was limited by reduced profitability within the Bakken region, costs associated with the reorganization of this segment including closure of our command center operations in the Marcellus shale, reduced asset utilization in Oklahoma and high equipment repositioning costs.

Intermodal operating income increased \$4.8 million, or 33.1%, for the nine months ended September 30, 2013 compared to the same period in 2012 due primarily to increased storage and service revenues which carry higher margins, profitability increases in our Northeast region and the non-recurrence of steep equipment repair costs which impacted the prior year period.

Liquidity and Capital Resources

Our primary cash needs consist of debt service, working capital, capital expenditures, acquisitions and share repurchases. Our working capital needs depend upon the timing of our collections from customers and payments to others, as well as our capital and operating lease payment obligations. Our capital expenditures primarily relate to acquiring tractors and trailers to grow and maintain the chemical and energy logistics fleet. We reduce our capital expenditure requirements for our chemical logistics and energy logistics businesses by utilizing independent affiliates and independent owner-operators.

Independent affiliates and independent owner-operators typically supply their own tractors, which reduces our capital investment requirements. For the nine months ending September 30, 2013, capital expenditures were \$19.2 million and proceeds from sales of property and equipment were \$18.0 million. We generally expect our sustaining capital expenditures, net of proceeds from property and equipment sales, to be approximately 1% to 2% of operating segment revenues annually. We expect net capital expenditures to be approximately \$4.0 to \$6.0 million for 2013. Some of our independent affiliates who are engaged with us in the chemical logistics or energy logistics markets may at times purchase some portion of this equipment from us. Actual amounts could differ materially because of operating needs, growth needs, regulatory changes, covenants in our debt arrangements, other expenses or other factors.

Debt service currently consists of required interest payments on the outstanding balance of our ABL Facility, our Term Loan and our outstanding 2018 Notes, as well as acquisition-related indebtedness. We have no major debt

maturities prior to August 2016, when our ABL Facility matures. We may from time to time repurchase or redeem additional amounts of our outstanding debt or may repurchase outstanding shares of our common stock. Our Board of Directors has approved a share repurchase program for up to \$15.0 million in shares of our common stock, of which \$6.9 million remained available at September 30, 2013. Separately, we have a long-term goal to reduce the outstanding amount of our indebtedness and reduce our interest expense. Any repurchases or redemptions would depend upon prevailing market conditions, our liquidity requirements, contractual restrictions and other factors we consider important. Future repurchases or redemptions may materially impact our liquidity, future tax liability and results of operations.

Our primary sources of liquidity for operations during the 2013 and 2012 periods have been cash flow from operations and borrowing availability under the ABL Facility. At September 30, 2013, we had \$82.4 million of borrowing availability under the ABL Facility. We periodically make business acquisitions with cash as part or all of the consideration. Some acquisitions provide us with new assets to pledge under our ABL Facility and increase our borrowing capacity. Further, we increased our maximum borrowing capacity under the ABL Facility by amendment on September 27, 2012. Our ABL Facility was amended again on June 14, 2013 to provide for a \$17.5 million Term Loan, which was fully funded on July 15, 2013. Borrowing availability under our ABL Facility was expanded to include additional eligible accounts receivable and tractor and trailer equipment in conjunction with the new borrowing. Proceeds from the Term Loan, together with additional borrowings under our ABL Facility, were used to fund the redemption of \$22.5 million in original principal amount of our 2018 Notes on July 15, 2013.

We believe that, based on current operations and anticipated growth, our cash flow from operations, together with other available sources of liquidity, will be sufficient to fund anticipated capital expenditures, operating expenses and our other anticipated liquidity needs for the next 12 months. Anticipated debt maturities in 2016, the acquisition of other businesses or other events that we do not foresee may require us to seek alternative financing, such as restructuring or refinancing our long-term debt, selling assets or operations or selling additional debt or equity securities. If these alternatives were not available in a timely manner or on satisfactory terms or were not permitted under any of our debt agreements and we default on our obligations, our debt could be accelerated and our assets might not be sufficient to repay in full all of our obligations.

Table of Contents*Cash Flows*

The following summarizes our cash flows for the nine months ended September 30, 2013 and 2012 as reported in our consolidated statements of cash flows in the accompanying consolidated financial statements (in thousands):

	Nine months ended September 30,	
	2013	2012
Net cash and cash equivalents provided by operating activities	\$ 39,351	\$ 8,569
Net cash and cash equivalents used in investing activities	(3,032)	(115,190)
Net cash and cash equivalents (used in) provided by financing activities	(35,761)	105,496
Net increase (decrease) in cash and cash equivalents	558	(1,125)
Cash and cash equivalents at beginning of period	2,704	4,053
Cash and cash equivalents at end of period	\$ 3,262	\$ 2,928

Net cash provided by operating activities was \$39.4 million for the nine-month period ended September 30, 2013, compared to \$8.6 million provided by operating activities in the comparable 2012 period. The \$30.8 million increase in cash provided by operating activities was primarily due to higher net collections of receivables primarily from our energy logistics business. In addition, the increase in other assets for the current period was less than in the prior-year period when we issued \$6.3 million in notes to a former independent affiliate.

Net cash used in investing activities totaled \$3.0 million for the nine-month period ended September 30, 2013, compared to \$115.2 million used in the comparable 2012 period. The \$112.2 million reduction in cash used in investing activities was due primarily to the 2012 Energy Acquisitions of \$95.2 million. In the 2013 period, we had increased proceeds from sales of property and equipment of \$10.5 million and reduced capital expenditures of \$8.3 million. In addition, we acquired a customer list for \$1.0 million and paid \$1.0 million of contingent consideration for Trojan.

Net cash used in financing activities was \$35.8 million during the nine-month period ended September 30, 2013, compared to \$105.5 million provided by financing activities in the comparable 2012 period. In the 2013 period, we received proceeds of \$17.5 million from a new Term Loan under our ABL Facility which was utilized towards the partial redemption of \$22.5 million of our 2018 Notes. In addition, cash flow from operations and property and equipment sales enabled us to pay down \$19.7 million of our existing ABL Facility. We also paid down \$5.4 million of other debt and capital lease obligations, funded share repurchases of \$4.5 million and paid \$0.9 million of financing costs associated with our new Term Loan and ABL Facility amendment. In the 2012 period, increased net borrowings of \$80.2 million under our ABL Facility, and net cash received from our equity offering of approximately \$30.5 million, were utilized to fund the 2012 Energy Acquisitions and to pay down \$6.8 million of other debt and capital lease obligations and to pay financing fees of \$0.8 million in connection with our ABL Facility and the October 2012 amendment.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on our financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources, all within the meaning of Item 303(a)(4) of Regulation S-K.

Contractual Obligations

The following is a schedule of our long-term contractual commitments, including the current portion of our long-term indebtedness at September 30, 2013 over the periods we expect them to be paid (in thousands):

	Total	Remainder of 2013	Years 2014 & 2015	Years 2016 & 2017	Thereafter 2018
Operating leases (1)	\$ 95,816	\$ 6,040	\$ 42,103	\$ 38,677	\$ 8,996
Total indebtedness (2)(3)	387,799	1,049	17,295	166,955	202,500
Capital leases	2,244	432	1,630	182	
Interest on indebtedness (4)	118,309	6,520	50,986	44,139	16,664
Total contractual cash obligations (5)(6)(7)(8)	\$ 604,168	\$ 14,041	\$ 112,014	\$ 249,953	\$ 228,160

- (1) These obligations represent the minimum rental commitments under all non-cancelable operating leases including the guaranteed residual values at the end of the leases. Commitments also include the operating lease for our corporate headquarters.

Table of Contents

We expect that some of our operating lease obligations for tractors and trailers will be partially offset by rental revenue from subleasing the tractors to independent affiliates and independent owner-operators and subleasing trailers to independent affiliates.

(2) Includes aggregate unamortized discount of \$1.0 million related to the 2018 Notes.

Table of Contents

- (3) Assumes repayment of the principal amount of the Term Loan in equal quarterly amounts beginning on the 12-month anniversary of the Term Loan.
- (4) Amounts presented for interest payments assume that all long-term debt obligations outstanding as of September 30, 2013 will remain outstanding until maturity, and interest rates on variable-rate debt in effect as of September 30, 2013 will remain in effect until maturity.
- (5) Excludes long-term pension obligations as we are unable to reasonably estimate the ultimate amount or timing of settlement of such obligations. As of September 30, 2013, obligations of \$18.6 million were reflected in the Consolidated Balance Sheet. This amount represented our unfunded status of such plans, which is the difference between our projected benefit obligation and the fair value of plan assets, as of such date. See Note 8 of the Notes to Consolidated Financial Statements.
- (6) Excludes liabilities associated with environmental matters as we are unable to reasonably estimate the ultimate amount or timing of settlement of such liabilities. Liabilities of \$9.0 million, which represent our reserves for environmental compliance and remediation, were reflected in the Consolidated Balance Sheet as of September 30, 2013. See Note 15 of the Notes to Consolidated Financial Statements.
- (7) Excludes accrued loss and damage claims as we are unable to reasonably estimate the ultimate amount or timing of settlement of such claims. As of September 30, 2013, accrued loss and damage claims of \$18.1 million, which represented the balance of our reserves for such liabilities, were reflected in the Consolidated Balance Sheet.
- (8) Excludes liabilities associated with uncertain tax positions as we are unable to reasonably estimate the ultimate amount or timing of settlement of such positions. See Note 12 of the Notes to Consolidated Financial Statements.

Long-term Debt

Long-term debt consisted of the following (in thousands):

	September 30, 2013	December 31, 2012
Capital lease obligations	\$ 2,244	\$ 6,038
ABL Facility	141,500	161,200
Term Loan	17,500	
9.875% Second-Priority Senior Secured Notes, due 2018	202,500	225,000
5% Subordinated Acquisition Notes	21,300	21,300
Other Notes	4,999	6,533
Long-term debt, including current maturities	390,043	420,071
Discount on Notes	(1,006)	(1,265)
	389,037	418,806
Less current maturities of long-term debt (including capital lease obligations)	(8,842)	(7,831)
Long-term debt, less current maturities (including capital lease obligations)	\$ 380,195	\$ 410,975

Debt Retirement

Edgar Filing: QUALITY DISTRIBUTION INC - Form 10-Q

The following is a schedule of our indebtedness at September 30, 2013 over the periods we are required to pay such indebtedness (in thousands):

	Remainder of 2013	2014	2015	2016	2017	Thereafter	Total
Capital lease obligations	\$ 432	\$ 1,297	\$ 333	\$ 106	\$ 76	\$	\$ 2,244
ABL Facility				141,500			141,500
Term Loan (1)		5,833	7,778	3,889			17,500
9.875% Second-Priority Senior Secured Notes, due 2018 (2)						202,500	202,500
5% Subordinated Acquisition Notes					21,300		21,300
Other Notes	1,049	2,600	1,084	266			4,999
Total	\$ 1,481	\$ 9,730	\$ 9,195	\$ 145,761	\$ 21,376	\$ 202,500	\$ 390,043

- (1) Assumes repayment of the principal amount of the Term Loan in equal quarterly amounts beginning on the 12-month anniversary of the Term Loan.
- (2) Amounts do not include the remaining unamortized original issue discount of \$1.0 million related to the 2018 Notes.

Table of Contents

The following is a schedule of our debt issuance costs (in thousands) as of September 30, 2013:

	Write-off Additional of Debt 2013				
	December 31, 2012	Issuance Costs	Issuance Costs	Amortization Expense	September 30, 2013
ABL Facility	\$ 4,845	\$	\$ 416	\$ (1,137)	\$ 4,124
Term Loan			519	(52)	467
9.875% Second-Priority Senior Secured Notes, due 2018	4,665	(420)		(619)	3,626
Total	\$ 9,510	(420)	\$ 935	\$ (1,808)	\$ 8,217

Amortization expense of deferred issuance costs was \$0.6 million and \$0.5 million for each of the three months ending September 30, 2013 and 2012, respectively, and is included in interest expense. Amortization expense of deferred issuance costs was \$1.8 million and \$1.6 million for each of the nine months ending September 30, 2013 and 2012, respectively, and is included in interest expense. We are amortizing these costs over the term of the debt instruments.

The ABL Facility***Revolving Credit Facility***

Our ABL Facility provides for a revolving credit facility with a maturity of August 19, 2016. On September 27, 2012, our maximum borrowing capacity under the facility was increased from \$250.0 million to \$350.0 million. Borrowing availability under our ABL Facility did not change as a result of this amendment. Changes in borrowing availability result from increases or decreases in assets securing the ABL Facility. The ABL Facility includes borrowing capacity of up to \$150.0 million for letters of credit and up to \$30.0 million for swingline borrowings on same-day notice. The ABL Facility is available for working capital needs and general corporate purposes, including permitted acquisitions. At September 30, 2013, we had \$82.4 million of borrowing availability under the ABL Facility.

Borrowings under the revolving credit facility bear interest at a rate equal to an applicable margin plus, at our option, either a base rate or LIBOR. The applicable margin at September 30, 2013 was 1.00% for base rate borrowings and 2.00% for LIBOR borrowings. The applicable margin for borrowings will be reduced or increased based on aggregate borrowing base availability under the ABL Facility and may be further reduced in the event that our fixed charge coverage ratio as calculated under the ABL Facility exceeds a target level. The base rate is equal to the highest of the prime rate, the federal funds overnight rate plus 0.50% and 30-day LIBOR plus 1.00%. In addition to paying interest on outstanding principal under the ABL Facility, we are required to pay an unutilized commitment fee to the lenders quarterly at a rate ranging from 0.25% to 0.50%, depending on the average utilization of the ABL Facility. We also pay customary letter of credit fees quarterly. We may voluntarily repay outstanding borrowings under the revolving credit facility of the ABL Facility at any time without premium or penalty, other than customary breakage costs with respect to LIBOR loans. The interest rate on borrowings under the revolving credit facility at September 30, 2013 was 2.2%.

The borrowing base for the ABL Facility consists of eligible accounts receivable, inventory, tractor and trailer equipment, real property and certain other equipment.

We recorded \$6.8 million in debt issuance costs relating to the ABL Facility. We are amortizing the debt issuance costs over the remaining term of the ABL Facility. The September 2012 amendment to our ABL Facility was treated as a modification under FASB guidance.

Term Loan Facility

On June 14, 2013, our ABL Facility was amended to provide for a new \$17.5 million senior secured term loan facility which was fully funded on July 15, 2013. Borrowings under the Term Loan bear interest at a rate equal to an applicable margin plus, at our option, either a base rate or LIBOR. The applicable margin at September 30, 2013 was 2.50% for base rate borrowings and 3.50% for LIBOR borrowings, with a potential step-down of 0.25% after 18 months if a senior secured leverage ratio is met. Obligations under the Term Loan mature on the earlier of June 14, 2016 or the date on which the ABL Facility terminates. Beginning no earlier than the 12-month anniversary of the Term Loan and no later than the 24-month anniversary of the Term Loan, we will be subject to mandatory repayment of the principal amount of the Term Loan in equal quarterly payments for the remainder of the maturity period. Borrowing availability under our ABL Facility was expanded to include additional eligible accounts receivable and tractor and trailer equipment in conjunction with the new borrowing. We may voluntarily repay the outstanding amount under the Term Loan at any time without premium or penalty, other than customary breakage costs with respect to the LIBOR loans. The interest rate on borrowings under the Term Loan at September 30, 2013 was 3.7%.

Table of Contents

We recorded \$0.5 million in debt issuance costs relating to the Term Loan. We are amortizing the debt issuance costs over the term of the Term Loan.

9.875% Second-Priority Senior Secured Notes Due 2018

On November 3, 2010, we issued \$225.0 million aggregate principal amount of the 2018 Notes. With the proceeds of the issuance of the 2018 Notes, we repaid and redeemed certain of our previously outstanding notes and paid down a portion of our outstanding borrowings under the previous ABL Facility.

Interest on the 2018 Notes is payable at a rate of 9.875% per annum, semiannually on May 1 and November 1 of each year. The payment obligations of QD LLC and QD Capital under the 2018 Notes are guaranteed by QDI and by all of its 100%-owned domestic subsidiaries other than immaterial subsidiaries. The 2018 Notes are senior obligations of QD LLC and QD Capital and are secured by a second-priority lien on certain assets. Pursuant to an intercreditor agreement, the liens on the collateral securing the 2018 Notes rank junior in right of payment to the ABL Facility and obligations under certain hedging agreements and cash management obligations and certain other first-lien obligations.

The 2018 Notes mature on November 1, 2018. Prior to November 1, 2014, we may redeem the 2018 Notes, in whole or in part, at a price equal to 100% of the principal amount of the 2018 Notes redeemed, plus accrued and unpaid interest to the redemption date, plus an additional make-whole premium intended to capture the value of holding the 2018 Notes through November 1, 2014, but not less than 1%. During any twelve-month period prior to November 1, 2014, we may also redeem up to 10% of the original aggregate principal amount of the 2018 Notes at a redemption price of 103%, plus accrued and unpaid interest to the redemption date. On or after November 1, 2014, we may redeem the 2018 Notes, in whole or in part, at the following prices (expressed as a percentage of principal amount), plus accrued and unpaid interest to the redemption date, if redeemed during the 12-month period commencing on November 1 of the years set forth below:

Period	Redemption Price
2014	104.938%
2015	102.469%
2016 and thereafter	100.000%

We recorded \$6.6 million in debt issuance costs relating to the 2018 Notes, of which \$6.4 million was related to the new issuance and \$0.2 million of unamortized debt issuance costs related to our 10% Senior Notes due 2013 which are no longer outstanding. We are amortizing these costs over the term of the 2018 Notes.

On July 15, 2013, we redeemed a portion of the 2018 Notes in the aggregate principal amount of \$22.5 million. The redemption price for these 2018 Notes equaled 100% of the aggregate principal amount of \$22.5 million, plus accrued but unpaid interest up to the redemption date, plus a 3.0% premium of \$0.7 million. In the third quarter of 2013, \$0.5 million of unamortized debt issuance costs related to this redemption were written off.

5% Subordinated Acquisition Notes

We issued promissory notes in an aggregate principal amount of \$21.3 million as part of the consideration for the Bice acquisition. The promissory notes bear interest at a fixed rate of 5.0% per annum and mature June 1, 2017. Payments of interest only are scheduled for the end of each calendar quarter with principal payable in full at maturity. The

promissory notes are unsecured and subordinated. The notes are non-negotiable and non-transferable and may be prepaid in whole or in part at any time without premium or penalty.

Collateral, Guarantees and Covenants

The ABL Facility contains a fixed charge coverage ratio which only needs to be met if borrowing availability is less than a designated amount ranging from \$20.0 million to \$35.0 million, depending upon the size of our borrowing base. The ABL Facility contains a number of covenants that, among other things, restrict, subject to certain exceptions: (i) our ability to sell assets; (ii) incur additional indebtedness; (iii) prepay other indebtedness, including the 2018 Notes; (iv) pay dividends and distributions or repurchase QDI's capital stock; (v) create liens on assets; (vi) make investments; (vii) make certain acquisitions; (viii) engage in mergers or consolidations; (ix) engage in certain transactions with affiliates; (x) amend certain charter documents and material agreements governing subordinated indebtedness, including the 2018 Notes; (xi) change our business; and (xii) enter into agreements that restrict dividends from QD LLC's subsidiaries. The ABL Facility also contains certain customary affirmative covenants and events of default.

Table of Contents

The indenture governing the 2018 Notes contains covenants that restrict, subject to certain exceptions, our ability to, among other things: (i) incur additional debt or issue certain preferred shares; (ii) pay dividends on or make other distributions in respect of QDI's common stock or make other restricted payments; (iii) make certain investments; (iv) sell certain assets; (v) create or permit to exist dividend and/or payment restrictions affecting restricted subsidiaries; (vi) create liens on certain assets to secure debt; (vii) consolidate, merge, sell or otherwise dispose of all or substantially all assets; (viii) enter into certain transactions with affiliates; and (ix) designate subsidiaries as unrestricted subsidiaries. The indenture also provides certain customary events of default, which, if any of them occurs, may result in the principal, interest and any other monetary obligations on the then outstanding 2018 Notes becoming payable immediately.

The payment obligations under the ABL Facility are senior secured obligations of QD LLC and QD Capital and are secured by a first-priority lien on certain assets and guaranteed by QDI and by all of its domestic restricted subsidiaries other than immaterial subsidiaries. The payment obligations of QD LLC and QD Capital under the 2018 Notes are guaranteed by QDI and by all of its domestic subsidiaries other than immaterial subsidiaries. The 2018 Notes, and the guarantees thereof, are senior obligations of QD LLC and QD Capital and are secured by a second-priority lien on certain assets. Pursuant to an intercreditor agreement, the liens on the collateral securing the 2018 Notes rank junior in right of payment to the ABL Facility and obligations under certain hedging agreements and cash management obligations and certain other first lien obligations. We were in compliance with the covenants under the ABL Facility and the 2018 Notes at September 30, 2013.

Other Liabilities and Obligations

As of September 30, 2013, we had \$23.9 million in outstanding letters of credit issued under the ABL Facility that may be drawn by third parties to satisfy some of the obligations described above and certain other obligations. We are required to provide letters of credit to our insurance administrator to support our claims paying capability. The letter of credit issued to our insurance administrator had a maximum draw amount of \$20.0 million as of September 30, 2013. If we fail to meet certain terms of our agreement, the insurance administrator may draw down the entire letter of credit. The remaining \$3.9 million of outstanding letters of credit as of September 30, 2013 relates to various other obligations.

In conjunction with certain third-party financing vendors, we have established a lease purchase program to enable certain independent owner-operators contracting with us to lease tractors from those third-party vendors. As part of this program, we have agreed with those third-party vendors to guarantee the lease payment obligations of participating owner-operators in certain circumstances. The amount of the remaining payments on all outstanding guaranteed leases was approximately \$2.9 million as of September 30, 2013.

Our obligations for environmental matters, accrued loss and damage claims and long-term pension obligations are considered within Contractual Obligations.

Other Issues

While uncertainties relating to environmental, labor and other regulatory matters exist within the trucking industry, management is not aware of any trends or events likely to have a material adverse effect on liquidity or the accompanying consolidated financial statements. Our credit ratings are affected by many factors, including our financial results, operating cash flows and total indebtedness.

The ABL Facility and the indentures governing the 2018 Notes contain certain limitations on QD LLC's ability to make distributions to QDI. We do not consider these restrictions to be significant, because QDI is a holding company

with no significant operations or assets, other than ownership of 100% of QD LLC's membership units. QD LLC's direct and indirect 100%-owned subsidiaries are generally permitted to make distributions to QD LLC, which is the principal obligor under the ABL Facility and the 2018 Notes.

FORWARD-LOOKING STATEMENTS AND CERTAIN CONSIDERATIONS

This report, along with other documents that are publicly disseminated by us, contains or might contain forward-looking statements within the meaning of the Securities Exchange Act of 1934, as amended. All statements included in this report and in any subsequent filings made by us with the SEC, other than statements of historical fact, that address activities, events or developments that we or our management expect, believe or anticipate will or may occur in the future, are forward-looking statements. These statements represent our reasonable judgment on the future based on various factors and using numerous assumptions and are subject to known and unknown risks, uncertainties and other factors that could cause our actual results and financial position to differ materially. We claim the protection of the safe harbor for forward-looking statements provided in the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act and Section 21E of the Exchange Act. Examples of forward-looking statements include: (i) projections of revenue, earnings, capital structure and other financial items, (ii) statements of our plans and objectives, (iii) statements of expected future economic performance, and (iv) assumptions underlying statements regarding us or our business. Forward-looking statements can be identified by, among other things, the use of forward-looking language, such as targets, hopes, believes, expects, estimates, may, will, should, could, intends, anticipates or scheduled to or the negatives of those terms, or other variations of those terms or comparable language, or by discussions of strategy or other intentions.

Table of Contents

Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that could cause our actual results to differ materially from those contemplated by the statements. The forward-looking information is based on various factors and was derived using numerous assumptions. Important factors that could cause our actual results to be materially different from the forward-looking statements include the following risks and other factors discussed under the Item 1A Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2012 and in our Quarterly Reports on Form 10-Q. These factors include:

the effect of local, national and international economic, credit, capital and labor market conditions on the economy in general, and on the particular industries in which we operate, including excess capacity in the industry, the availability of qualified drivers, changes in fuel and insurance prices, interest rate fluctuations, and downturns in customers' business cycles and shipping requirements;

our substantial leverage and our ability to make required payments and comply with restrictions contained in our debt arrangements or to otherwise generate sufficient cash from operations or borrowings under our ABL Facility to fund our liquidity needs;

competition and rate fluctuations, including fluctuations in prices and demand for transportation services as well as for commodities such as natural gas and oil;

our reliance on independent affiliates and independent owner-operators;

reclassification of our independent contractors, such as our independent owner-operators, as a result of legislative, judicial or regulatory changes or for any other reason;

a shift away from or slowdown in production in the shale regions in which we have energy logistics operations;

our liability as a self-insurer to the extent of our deductibles as well as changing conditions and pricing in the insurance marketplace;

increased unionization, which could increase our operating costs or constrain operating flexibility;

changes in or our inability to comply with, governmental regulations and legislative changes affecting the transportation industry generally or in the particular segments in which we operate;

federal and state legislative and regulatory initiatives, which could result in increased costs and additional operating restrictions upon us or our oil and gas frac shale energy customers;

our ability to access and use our salt water disposal wells and other disposal sites and methods in our energy logistics business;

our ability to comply with current and future environmental regulations and the increasing costs relating to environmental compliance;

potential disruption at U.S. ports of entry;

diesel fuel prices and our ability to recover costs through fuel surcharges;

our ability to attract and retain qualified drivers;

terrorist attacks and the cost of complying with existing and future anti-terrorism security measures;

our dependence on senior management;

the potential loss of our ability to use net operating losses to offset future income;

potential future impairment charges;

our ability to successfully identify acquisition opportunities, consummate such acquisitions and successfully integrate acquired businesses and converted and new affiliates and achieve the anticipated benefits and synergies of acquisitions and conversions, the effects of the acquisitions and conversions on the acquired businesses' existing relationships with customers, governmental entities, affiliates, owner-operators and employees, and the impact that acquisitions and conversions could have on our future financial results and business performance and other future conditions in the market and industry from the acquired businesses;

our ability to execute plans to profitably operate in the transportation business and disposal well business within the energy logistics market;

our success in entering new markets;

adverse weather conditions;

changes in health insurance benefit regulations;

our liability for our proportionate share of unfunded vested benefit liabilities, particularly in the event of our withdrawal from any of our multi-employer pension plans; and

changes in planned or actual capital expenditures due to operating needs, changes in regulation, covenants in our debt arrangements and other expenses, including interest expenses.

Table of Contents

In addition, there may be other factors that could cause our actual results to be materially different from the results referenced in the forward-looking statements. All forward-looking statements contained in this Quarterly Report on Form 10-Q are qualified in their entirety by this cautionary statement. Forward-looking statements speak only as of the date they are made, and we do not intend to update or otherwise revise the forward-looking statements to reflect events or circumstances after the date of this Quarterly Report on Form 10-Q or to reflect the occurrence of unanticipated events.

ADDITIONAL INFORMATION AVAILABLE ON COMPANY WEBSITE

Our most recent Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports may be viewed or downloaded electronically or as paper copies from our website: www.qualitydistribution.com as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. Our recent press releases are also available to be viewed or downloaded electronically at www.qualitydistribution.com. We will also provide electronic or paper copies of our SEC filings free of charge on request. We regularly post or otherwise make available information on the Investor Relations section of our website that may be important to investors. Any information on or linked from our website is not incorporated by reference into this Quarterly Report on Form 10-Q.

ITEM 3 Quantitative and Qualitative Disclosures about Market Risk

We are subject to market risks from (i) interest rates due to our variable interest rate indebtedness, (ii) foreign currency fluctuations due to our international operations and (iii) increased commodity prices due to the diesel consumption necessary for our operations. During the nine months ended September 30, 2013, we have not held derivative instruments or engaged in other hedging transactions to reduce our exposure to such risks.

Interest Rate Risk

We are exposed to the impact of interest rate changes through our variable-rate borrowings under the ABL Facility. With regard to the revolving credit facility of the ABL Facility, at QD LLC's option, the applicable margin for borrowings at September 30, 2013 was 1.00% with respect to base rate borrowings and 2.00% with respect to LIBOR borrowings. The applicable margin for such borrowings will be reduced or increased based on aggregate borrowing base availability under the ABL Facility and may be further reduced in the event that our fixed charge coverage ratio as calculated under the ABL Facility exceeds a target level. With respect to the Term Loan, the applicable margin for borrowings is 2.50% for base rate borrowings and 3.50% for LIBOR borrowings, with a potential step-down of 0.25% near the end of 2014 if a senior secured leverage ratio is met. The base rate under the ABL Facility is equal to the highest of the prime rate, the federal funds overnight rate plus 0.50% and 30-day LIBOR plus 1.00%.

	Balance at September 30, 2013 (\$ in 000s)	Interest Rate at September 30, 2013	Effect of 1% Increase (\$ in 000s)
ABL Facility	\$ 141,500	2.23%	\$ 1,415
Term Loan	17,500	3.68%	175
Total	\$ 159,000		\$ 1,590

At September 30, 2013, a 1% increase in the current per annum interest rate would result in \$1.6 million of additional interest expense during the next 12 months. The foregoing calculation assumes an instantaneous 1% increase in the rates under the ABL Facility and that the principal amount under both the revolving credit facility and the Term Loan is the amount outstanding as of September 30, 2013. The calculation therefore does not account for the differences in the market rates upon which the interest rates of our indebtedness are based, our option to elect the lowest of three different interest rates under our borrowings or other possible actions, such as prepayment, that we might take in response to any rate increase.

Foreign Currency Exchange Rate Risk

Operating in international markets involves exposure to the possibility of volatile movements in foreign exchange rates. The currencies in each of the countries in which we operate affect:

the results of our international operations reported in United States dollars; and

the value of the net assets of our international operations reported in United States dollars.

These exposures may impact future earnings or cash flows. Revenue from foreign locations (Canada and Mexico) represented approximately 4.2% of our consolidated revenue for the nine months ended September 30, 2013 and 4.8% of our consolidated revenue for the nine months ended September 30, 2012. The economic impact of foreign exchange rate movements is complex because such changes are often linked to variability in real growth, inflation, interest rates, governmental actions and other factors. These changes, if

Table of Contents

material, could cause us to adjust our financing and operating strategies. Therefore, to isolate the effect of changes in currency does not accurately portray the effect of these other important economic factors. As foreign exchange rates change, translation of the income statements of our international subsidiaries into U.S. dollars affects year-over-year comparability of operating results. While we may hedge specific transaction risks, we generally do not hedge translation risks because we believe there is no long-term economic benefit in doing so.

Assets and liabilities for our Canadian operations are matched in the local currency, which reduces the need for dollar conversion. Our Mexican operations use the United States dollar as their functional currency. Any foreign currency impact on translating assets and liabilities into dollars is included as a component of shareholders' deficit. Our revenue results for the nine months ended September 30, 2013 were negatively impacted by \$0.6 million in foreign currency movement, primarily due to the weakening of the Canadian dollar against the United States dollar.

Changes in foreign exchange rates that had the largest impact on translating our international operating profits for the first nine months of 2013 related to the Canadian dollar versus the United States dollar. We estimate that a 1% adverse change in the Canadian dollar foreign exchange rate would have decreased our revenues by approximately \$0.3 million for the nine months ended September 30, 2013, assuming no changes other than the exchange rate itself. Our intercompany loans are subject to fluctuations in exchange rates primarily between the United States dollar and the Canadian dollar. Based on the outstanding balance of our intercompany loans at September 30, 2013, a change of 1% in the exchange rate for the Canadian dollar would cause a change in our foreign exchange result of less than \$0.1 million.

Commodity Price Risk

The price and availability of diesel fuel are subject to fluctuations due to changes in the level of global oil production, seasonality, weather, global politics and other market factors. Historically, we have been able to recover a majority of fuel price increases from our customers in the form of fuel surcharges. The price and availability of diesel fuel can be unpredictable as well as the extent to which fuel surcharges can be collected to offset such increases. In the three months and nine months ended September 30, 2013 and 2012, a majority of fuel costs were covered through fuel surcharges.

ITEM 4 Controls and Procedures

Evaluation of disclosure controls and procedures

As required by Exchange Act Rules 13a-15(b) and 15d-15(b), management has evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on their evaluation, management concluded our disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e)) were effective as of September 30, 2013 to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and were effective as of September 30, 2013 to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) during the quarter ended September 30, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1 Legal Proceedings

Other than reported in Item 3 Legal Proceedings of our Annual Report on Form 10-K for the year ended December 31, 2012, Note 20. Commitments and Contingencies to our audited consolidated financial statements contained in such Form 10-K and Note 15. Commitments and Contingencies to our unaudited consolidated financial statements included in this report, we are not currently a party to any material pending legal proceedings other than routine matters incidental to our business, and no material developments have occurred in any proceedings described in such Form 10-K.

ITEM 1A Risk Factors

You should carefully consider the factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2012 included under Item 1A Risk Factors in addition to the other information set forth in this report. The risks described in our Annual Report on Form 10-K and our Quarterly Reports on Form 10-Q are not the only risks facing our Company.

Table of Contents

We may be subject to the risks set forth below:

Reclassification of our independent contractors, such as our independent owner-operators, as employees could increase our costs and adversely impact our business.

We use a significant number of independent contractors, such as our independent owner-operators, in all three segments of our business, consistent with long-standing industry practices. Regulatory authorities and private parties have recently asserted within the trucking industry that some independent contractors should be classified as employees based upon their interpretations of existing rules and regulations. Legislative, judicial, or regulatory (including tax) authorities could also introduce proposals or assert interpretations of existing rules and regulations that would change to employee the classification of a significant number of independent contractors doing business with us. The costs associated with reclassification, including any related regulatory action or litigation, could have a material adverse effect on our results of operations and our financial position.

Table of Contents

ITEM 2 Unregistered Sales of Equity Securities and Use of Proceeds

ISSUER PURCHASES OF EQUITY SECURITIES

On November 20, 2012, we announced a share repurchase program pursuant to which our Board of Directors authorized the repurchase of up to \$15.0 million of our common stock in an open-ended repurchase program (the Repurchase Program). Stock has been, and may in the future be, purchased pursuant to the Repurchase Program, from time to time, in the open market or through private transactions, subject to market conditions. Subject to applicable laws, repurchases under the Repurchase Program may be made at such times and in such amounts as we deem appropriate and may be made pursuant to Rule 10b5-1. We are not obligated to purchase any shares under the Repurchase Program, and it can be discontinued at any time that we feel additional purchases are not warranted.

As of September 30, 2013, we have repurchased approximately 1.2 million shares valued at \$8.1 million under the Repurchase Program, with authority to repurchase an additional \$6.9 million of shares. No shares were repurchased under the Repurchase Program during the three months ended September 30, 2013. However, shares were surrendered during the period by employees in order to satisfy statutory tax withholding obligations in connection with the vesting of stock-based compensation awards. Shares surrendered consisted of 662 shares during July 2013 at an average price per share of \$10.37 and 914 shares during September 2013 at an average price per share of \$9.38. For the three months ended September 30, 2013, a total of 1,576 shares were surrendered at an average price per share of \$9.80.

ITEM 3 Defaults Upon Senior Securities

None.

ITEM 4 Mine Safety Disclosures

Not applicable.

ITEM 5 Other Information

Disclosure Pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act

Apollo Global Management, LLC (Apollo) has provided notice to us that, as of October 24, 2013, certain investment funds managed by affiliates of Apollo beneficially owned approximately 22% of the limited liability company interests of CEVA Holdings, LLC (CEVA), and that CEVA may be deemed to be our affiliate, though this statement is not an admission of such. As a result, we may be required to provide disclosures as set forth below pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012 (ITRA) and Section 13(r) of the Securities Exchange Act of 1934, as amended (the Exchange Act).

Apollo has informed us that CEVA has provided them with the information below relevant to Section 13(r) of the Exchange Act. The disclosure below does not relate to any activities conducted by us and does not involve us or our management. The disclosure relates solely to activities conducted by CEVA and its consolidated subsidiaries. We have not independently verified or participated in the preparation of the disclosure below.

Through an internal review of its global operations, CEVA has identified the following transactions in an Initial Notice of Voluntary Self-Disclosure that CEVA filed with the U.S. Treasury Department Office of Foreign Assets Control (OFAC) on October 28, 2013. CEVA 's review is ongoing. CEVA will file a further report with OFAC after completing its review.

The internal review indicates that, in December 2012, CEVA Freight Italy Srl (CEVA Italy) provided customs brokerage and freight forwarding services for the export to Iran of two measurement instruments to the Iranian Offshore Engineering Construction Company, a joint venture between two entities that are identified on OFAC's list of Specially Designated Nationals (SDN). The revenues and net profits for these services were approximately \$1,260.64 USD and \$151.30 USD, respectively. In February 2013, CEVA Freight Holdings (Malaysia) SDN BHD (CEVA Malaysia) provided customs brokerage for export and local haulage services for a shipment of polyethylene resin to Iran shipped on a vessel owned and/or operated by HDS Lines, also an SDN. The revenues and net profits for these services were approximately \$779.54 USD and \$311.13 USD, respectively. In September 2013, CEVA Malaysia provided customs brokerage services for the import into Malaysia of fruit juice from Alifard Co. in Iran via HDS Lines. The revenues and net profits for these services were approximately \$227.41 USD and \$89.29 USD, respectively.

These transactions violate the terms of internal CEVA compliance policies, which prohibit transactions involving Iran. Upon discovering these transactions, CEVA promptly launched an internal investigation, and is taking action to block and prevent such transactions in the future. CEVA intends to cooperate with OFAC in its review of this matter.
