Acorn International Reports Fourth Quarter and Full Year 2013 Financial Results

SHANGHAI, China, March 18, 2014 Acorn International, Inc. (NYSE: ATV) (Acorn or the Company), a media and branding company in China engaged in developing, promoting and selling products through extensive direct and distribution networks, today announced its unaudited financial results for the fourth quarter and full year ended December 31, 2013.

Summary Results for the Fourth Quarter of 2013

Net revenues were \$35.7 million, a decrease of 39.5% from \$59.1 million in the fourth quarter of 2012.

Gross profit was \$17.6 million, a decrease of 31.4% from \$25.7 million in the fourth quarter of 2012.

Gross margin increased to 49.3%, as compared to 43.4% in the fourth quarter of 2012.

Operating loss was \$14.0 million, as compared to \$8.2 million in the fourth quarter of 2012.

Net loss attributable to Acorn was \$13.8 million, as compared to \$9.4 million in the fourth quarter of 2012.

Summary Results for the Full Year 2013

Net revenues were \$184.7 million, a decrease of 23.9% compared to \$242.6 million for 2012.

Gross profit was \$92.2 million, a decrease of 16.6% compared to \$110.6 million for 2012.

Gross margin was 49.9%, compared to 45.6% for 2012.

Table of Contents

Net loss attributable to Acorn was \$39.9 million, compared to a net loss of \$17.9 million for 2012.

Basic and diluted loss per ADS was \$1.41 for 2013, compared to basic and diluted loss per ADS of \$0.60 for 2012.

The Company closed the year with revenue below expectations, primarily due to slower sales of its Yierjian product line, which has entered the later stages of the product life cycle, and mobile phones. Media efficiency of TV direct sales was adversely impacted by higher media costs. Meanwhile, the Company enjoyed a healthy increase in gross margin due to its kitchen and household product line, which accounted for 29.2% of gross revenue for the quarter. Electronic learning products posted the third consecutive quarter of year-over-year sales growth, mainly due to growing market acceptance of newer models incorporating mobile Internet interactive features, such as online tutoring services.

In 2014, Acorn will test new products in several categories and expand into fashion products including shoes, apparel and jewelry. The Company is drawing upon its expertise in media and branding to position its TV direct sales platform for success within the new regulatory environment that limits the length and frequency of infomercials aired on satellite television channels in China. Acorn will continue to leverage its other direct sales platforms, especially the e-commerce and catalog businesses, along with the nationwide distribution network of electronic learning products, to drive sales volume in the year ahead.

Business Results for the Fourth Quarter of 2013:

Kitchen and household products were the largest product category in the fourth quarter of 2013, generating revenues of \$10.5 million and representing 29.2% of total gross revenues. The Company considers this a key product category and intends to test new kitchen and household products in 2014.

Electronic learning products, which are sold primarily via Acorn's nationwide distribution network, was the second-largest product category in the fourth quarter of 2013, generating revenues of \$8.1 million and representing 22.7% of total gross revenues. Increased sales of electronic learning products was primarily due to growing market acceptance of new models incorporating mobile Internet interactive features such as online tutoring services. The fourth quarter of 2013 marked the third consecutive quarter of year-over-year sales growth for electronic learning products.

Sales generated from other direct sales platforms, which consist of outbound telemarketing, e-commerce and catalogs, decreased 31.8% in the fourth quarter of 2013 compared to the fourth quarter of 2012. The decrease in other direct sales was primarily due to the overall decrease in outbound telemarketing sales.

Table of Contents**Financial Results for the Fourth Quarter of 2013:**

Total net revenues were \$35.7 million, a decrease of 39.5% from \$59.1 million in the fourth quarter of 2012. Direct sales contributed to 74.0%, or \$26.4 million, of total net revenues in the fourth quarter of 2013, representing a 45.9% decrease from \$48.9 million in the same period of last year. The decrease in direct sales net revenue mainly resulted from lower sales of fitness products and mobile phones.

Distribution sales net revenues decreased 9.0% year-over-year to \$9.3 million, from \$10.2 million in the fourth quarter of 2012. Sales of electronic learning products, which accounted for 82.4% of distribution sales, increased 3.0% year-over-year. The increase was primarily due to growing market acceptance of the Company's newer model products which incorporate mobile Internet interactive features such as online tutoring services.

The table below summarizes the gross revenues of the Company in the fourth quarters of 2012 and 2013, respectively, broken down by product category:

	2013 Q4	Sales	2012 Q4	Sales
	\$ 000	%	\$ 000	%
Kitchen and household products	10,460	29.2%	1,860	3.1%
Electronic learning products	8,148	22.7%	7,695	13.0%
Collectible products	7,168	20.0%	5,588	9.4%
Mobile phones	3,462	9.6%	16,543	27.9%
Health products	2,727	7.6%	2,345	3.9%
Fitness products	1,807	5.0%	16,084	27.1%
Other products	2,101	5.9%	9,271	15.6%
Total gross revenues	35,873	100.0%	59,386	100.0%
Sales taxes	(133)		(286)	
Total net revenues	35,740		59,100	

Cost of sales in the fourth quarter of 2013 was \$18.1 million, representing a 45.8% decrease from \$33.4 million in the fourth quarter of 2012, primarily due to the decrease in overall sales.

Gross profit in the fourth quarter of 2013 was \$17.6 million, representing a 31.4% decrease as compared to \$25.7 million in the fourth quarter of 2012. Gross margin was 49.3% in the fourth quarter of 2013, as compared to 43.4% in the same period of 2012. The increase in gross margin was largely due to the larger contribution by kitchen and household products, which generally carry higher gross margin, in the product mix.

Table of Contents

Advertising expense was \$10.7 million in the fourth quarter of 2013, down 30.0% from \$15.3 million in the fourth quarter of 2012. Gross profit over advertising expense, a benchmark Acorn uses to measure return on its multiple sales platforms, was 1.64 in the fourth quarter of 2013, down from 1.68 in the fourth quarter of 2012 and also down from 1.67 in the third quarter of 2013. The decrease was primarily due to lower product sales in certain categories relative to the amount spent on television advertising, partially offset by a greater contribution of kitchen and household products in the product mix.

Other selling and marketing expense was \$13.4 million in the fourth quarter of 2013, up 10.4% from \$12.1 million in the fourth quarter of 2012. The increase in selling and marketing expense despite a decrease in total net revenues resulted primarily from higher labor costs.

General and administrative expense was \$8.4 million in the fourth quarter of 2013, representing a 16.8% increase from \$7.2 million in the fourth quarter of 2012. The increase in general and administrative expense resulted primarily from consulting fees and contingencies for litigation.

Other operating income, net, was \$0.9 million in the fourth quarter of 2013, as compared to \$0.8 million in the fourth quarter of 2012.

The operating loss was \$14.0 million, as compared to \$8.2 million in the fourth quarter of 2012.

Other income was \$0.8 million, as compared to \$0.9 million in the fourth quarter of 2012.

Share-based compensation was \$107,000 in the fourth quarter of 2013, as compared to \$121,645 in the fourth quarter of 2012.

Income tax expense was \$0.5 million in the fourth quarter of 2013 as compared to \$2.0 million in the fourth quarter of 2012.

Net loss attributable to Acorn was \$13.8 million, as compared to \$9.4 million in the fourth quarter of 2012.

Basic and diluted loss per ADS was \$0.51 compared to basic and diluted loss per ADS of \$0.30 in the fourth quarter of 2012.

As of December 31, 2013, Acorn's cash and cash equivalents, with current restricted cash and short-term investments, totaled \$82.9 million, as compared to \$101.5 million as of December 31, 2012. The decrease in the Company's cash and cash equivalents was primarily due to the losses from operations for 2013 and the \$9.6 million non-current restricted cash, which was deposited to obtain long-term debt for a share repurchase transaction completed in March 2013.

Fiscal Year 2013 Results:

Total net revenues were \$184.7 million for the full year 2013, a decrease of 23.9% from \$242.6 million for 2012. Direct sales contributed 73.9%, or \$136.4 million, of the total net revenues for the full year 2013, a decrease of 29.5% from \$193.6 million for 2012, mainly due to a decline in sales generated from mobile phones, fitness products and other products.

Table of Contents

Distribution sales net revenues declined 1.4% year-over-year to \$48.3 million from \$49.0 million for 2012, primarily due to the transition in electronic learning products from older models to newer models incorporating interactive features throughout 2013.

The table below summarizes the gross revenues of the Company for year 2013 and 2012, broken down by product categories:

	Year 2013	Sales	Year 2012	Sales
	\$ 000	%	\$ 000	%
Electronic learning products	40,903	22.1%	41,345	17.0%

Collectible products	29,643	16.0%	20,427	8.4%
Kitchen and household products	27,008	14.6%	2,843	1.2%
Mobile phones	25,924	14.0%	64,713	26.6%
Health products	10,098	5.5%	10,692	4.4%
Other products	13,147	7.0%	40,630	16.7%
Total gross revenues	185,150	100.0%	243,280	100.0%
Sales taxes	(439)		(706)	
Total net revenues	184,711		242,574	

Cost of sales for 2013 was \$92.5 million, a 29.9% decrease from \$131.9 million for 2012. The decrease was primarily due to the decrease in overall sales.

Gross profit for 2013 was \$92.2 million, a decrease of 16.6% compared to \$110.6 million for 2012. Gross margin was 49.9% for 2013, compared to 45.6% for 2012. The increase in gross margin was largely due to a shift in product mix toward kitchen and household products, which generally have higher margins, and away from mobile phones.

Advertising expenses were \$51.7 million for 2013, compared to \$58.3 million for 2012. Gross profit over advertising expenses, a benchmark Acorn uses to measure return on multiple sales platforms, was 1.78 in 2013, down from 1.90 for 2012.

Other selling and marketing expenses increased 9.0% to \$54.9 million from \$50.3 million for 2012. The increase in selling and marketing expense despite a decrease in total net revenues resulted primarily from higher labor costs and marketing expenses related to electronic learning products.

Table of Contents

General and administrative expenses were \$30.7 million for 2013, a 13.3% increase from \$27.1 million for 2012. The increase resulted primarily from higher labor costs, consulting fees and contingencies for litigation.

Other operating income, net, was \$2.6 million for 2013, compared to \$3.3 million for 2012.

As a result of all of the items above, operating loss was \$42.5 million for 2013, compared to a loss of \$21.9 million for 2012.

Other income, primarily from interest income and investment income, was \$3.4 million, compared to \$5.8 million for 2012.

Share-based compensation was \$446,412 in 2013, as compared to \$424,445 in 2012.

The Company recorded income tax expense of \$0.6 million for 2013 as compared to \$1.8 million for 2012.

Net loss attributable to Acorn was \$39.9 million, compared to a net loss of \$17.9 million for 2012.

Basic and diluted loss per ADS was \$1.41 for 2013, compared to basic and diluted loss of \$0.60 for 2012.

Business Outlook:

On January 1, 2014, new regulations issued by China's State Administration of Press, Publication, Radio, Films and Television (the SAPPRT) became effective which impose limitations on the length and frequency of infomercials aired on satellite television channels in China. The immediate impact has been a significant reduction in airtime for infomercials promoting Acorn's products. Company management is closely monitoring the impact of these new regulations and seeking to better position the Company's TV direct sales business in light of the new regulatory environment. Given the uncertainty surrounding the SAPPRT regulations on its business, the Company is not in a position to provide financial guidance for 2014 at this time.

In response to the new regulations, the Company is refining its infomercials to make them more impactful with a new, shorter format and adjusting the product mix accordingly. It will continue to test new products and will expand into fashion products. The management strives to increase the effectiveness of outbound telemarketing efforts by leveraging its extensive customer database. Acorn also plans to devote resources to increase e-commerce and catalog sales and to expand its existing distribution network of electronic learning products to help drive sales volume and attract new customers.

Table of Contents

Acorn reminds investors that its operating results in each period vary significantly as a result of the mix of products sold in the period and the platforms through which they are sold. Therefore, operating results for interim periods are not necessarily indicative of results that may be expected for any other interim period or for the full year.

Consequently, in evaluating the overall performance of Acorn's multiple sales platforms in any period, management also considers metrics such as operating margin and gross profit return on advertising expenses.
