Report of Independent Registered Public Accounting Firm

To the Participants and Administrator

Owens Corning Savings and Security Plan

We have audited the accompanying statement of net assets available for plan benefits of Owens Corning Savings and Security Plan (the Plan) as of December 31, 2013 and 2012 and the related statement of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of December 31, 2013 and 2012 and the changes in net assets for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held at end of year as of December 31, 2013 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. This supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Plante & Moran, PLLC

The accompanying Notes to the Financial Statements are an integral part of this statement

**Table of Contents**

**Owens Corning Savings and Security Plan**

**Notes to Financial Statements**

**December 31, 2013 and 2012**

**Note 1 - Summary of Significant Provisions of the Plan and Accounting Policies**

**Operations of the Plan** Owens Corning Savings and Security Plan (the Plan) principally benefits designated groups of hourly employees of Owens Corning and certain subsidiaries (collectively, the Company). An eligible employee may elect to enroll in the Plan at any time.

Fidelity Management Trust Company (the Trustee) is the trustee as defined by the Plan and the Company is the plan sponsor.

Administrative expenses of the Plan are charged to the Plan and include professional fees and other administrative expenses. Annually, the Trustee returns excess participant investment fees that exceed the Trustee's cost of administration to the Plan as a revenue credit. The revenue credit is available to the Plan to pay plan fees or other expenses. If the Plan does not use the entire credit, the excess is returned to the participants.

Plan investment elections include investments managed primarily by Fidelity Investments and Company common stock. Therefore, these transactions qualify as permitted party-in-interest transactions. Effective October 31, 2013, the Company common stock warrants expired. Effective June 29, 2013, the Company common stock was frozen. On May 30, 2014, the Company common stock shares were liquidated and the proceeds thereof were invested into one or more of the investment funds pursuant to rules established by the Company.

The following descriptions of the Plan provide only general information. Participants should refer to the plan document or summary plan description for a more complete description of the Plan's provisions.

**Plan Contributions** - Participants may elect to contribute from 1 percent to 50 percent of their base pay and eligible incentive pay to the Plan. Participants may designate all or a portion of their contributions as deferred income up to the maximum allowed by federal law, pursuant to Section 401(k) of the Internal Revenue Code. These contributions are not subject to federal income tax until such amounts are distributed to the participants. Participants may also elect to make after-tax contributions to the Plan. The Plan requires remittance of participant contributions to the Trustee when deducted from participants' paychecks.

For certain groups of employees, the Plan may provide a retirement contribution equal to a specified percentage of eligible pay or a fixed dollar amount (which varies by employee group) for participants.

The Company may match participant contributions at various rates at certain other locations. All Company contributions are invested according to the participant's elections at the time of the contribution; if a participant has no election on file, the contributions are invested in the appropriate age-based life style Fidelity Freedom Fund.

**Table of Contents**

**Owens Corning Savings and Security Plan**

**Notes to Financial Statements**

**December 31, 2013 and 2012**

Included in participant contributions in the accompanying financial statements for the years ended December 31, 2013 and 2012 is \$ 700,992 and \$ 655,230, respectively, of rollovers from other plans.

**Allocation of Contributions** - Participant contributions and Company contributions are allocated to individual participant accounts each pay period. Each participant's account is adjusted on each business day to reflect the fair market value of the investment funds in which the account is invested.

**Plan Investment Options** - Participants elect to have their contributions invested in whole 1 percent increments among the investment elections made available under the Plan. On a daily basis, participants may change their investment elections and contribution rate as well as redistribute their account balances. Participants may discontinue their contributions to the Plan at any time. The Trustee, at its sole discretion subject to the provisions in the trust agreement, may hold any portion of any contribution in cash, which it considers necessary to meet anticipated disbursements.

**Basis of Accounting** - The accompanying financial statements have been prepared on the accrual basis.

The Statement of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The related activity is presented at contract value in the Statement of Changes in Net Assets Available for Plan Benefits.

**Investment Valuation** - The Plan's investments are stated at fair value, except for its common collective trust fund, which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on discounting the related cash flows of the underlying guaranteed investment contracts based on current yields of similar instruments with comparable durations. Investments in mutual funds are recorded on quoted market prices.

The fair value of the Plan's investments in Owens Corning common stock and warrants is based on the New York Stock Exchange closing market prices.

**Stable Value Fund** - The Plan holds the Fidelity Managed Income Portfolio II - a stable value fund. The fund has certain limitations on withdrawals and exchanges as follows:

Participant-directed - Withdrawals made in order to accommodate distributions to participants or transfers to non-competing investments may be made on any business day. Transferred amounts must be held in a non-competing investment option for 90 days before subsequent transfers to a competing fund can occur.

Non-participant-directed - Withdrawals directed by a plan sponsor must be preceded by twelve month written notice to Fidelity Management Trust Company (Fidelity). Fidelity, however, may, in its discretion complete any such Plan-level withdrawal before the expiration of such twelve month period. No such notice has been given to Fidelity.

---

**Table of Contents**

**Owens Corning Savings and Security Plan**

**Notes to Financial Statements**

**December 31, 2013 and 2012**

There are no unfunded commitments or other redemption notice requirements related to this investment.

**Benefit Payments** - Benefits are recorded when paid.

**Use of Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

**Income Taxes** - The Internal Revenue Service has issued a determination letter dated May 21, 2012 stating that the Plan meets the requirements of Section 401(a) of the Internal Revenue Code (the "Code") and that the Plan is exempt from taxation under Section 501(a) of the Code. Participants generally are not subject to federal income tax on Company contributions or fund earnings until those amounts are distributed to them. Participants may elect to designate all or a portion of their contributions to the Plan as deferred income pursuant to Section 401(k) of the Code. This election permits the participants to exclude from gross taxable income for federal tax purposes that portion of their contributions so designated, subject to certain limitations, until such time as it is withdrawn from the Plan. The Plan has been amended since the determination letter was issued. Management believes that the amendments do not change the Plan's status for meeting the requirements of Section 401(a) of the Internal Revenue Code and that the Plan is still exempt from taxation.

**Uncertain Tax Positions** - In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes it is no longer subject to tax examinations for years prior to 2010.

**Proceedings in the Event of Plan Termination** - Although the Company has not expressed any intent to do so, it has the right to terminate the Plan. In the event of termination or upon a permanent discontinuance of Company contributions, the plan accounts of each participant, if not previously vested, would become fully vested. Participants would, in accordance with the terms of the Plan, receive a distribution of their account balances, including their contributions to the Plan and Company contributions to the Plan on their behalf and the earnings or losses on those contributions.

**Acquisition Rollover**- In January 2014, the Thermafiber 401(k) Plan was merged into the Plan. Total assets merged into the Plan were \$4,010,050.

**Table of Contents****Owens Corning Savings and Security Plan****Notes to Financial Statements****December 31, 2013 and 2012****Note 2 - Realized and Unrealized Gains and Losses**

Purchases and sales of investments are reflected on a trade-date basis. Realized gains and losses are calculated using the average historical cost of investments. Unrealized gains (losses) represent the change in cumulative unrealized gains (losses) on investments since the beginning of the year.

During 2013 and 2012, the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, gained by \$ 27,687,675 in 2013 and by \$ 14,412,761 in 2012, as follows:

	2013	2012
Net gain in fair value of investments:		
Mutual funds	\$ 27,624,030	\$ 14,219,899
Company common stock and warrants*	63,645	192,862
Total	\$ 27,687,675	\$ 14,412,761

\* The Company issued warrants on October 31, 2006 all of which expired on October 31, 2013 and are no longer outstanding as of December 31, 2013.

**Table of Contents****Owens Corning Savings and Security Plan****Notes to Financial Statements****December 31, 2013 and 2012****Note 3 - Significant Plan Investments**

The following presents investments that represent 5 percent or more of net assets available for plan benefits at December 31, 2013:

Fidelity Institutional Money Market Portfolio	\$ 43,241,318
Fidelity Low Priced Stock K	\$ 30,366,090
Fidelity Contrafund K	\$ 27,240,476
Spartan 500 Index - Institutional Class	\$ 16,578,475

The following presents investments that represent 5 percent or more of net assets available for plan benefits at December 31, 2012:

Fidelity Institutional Money Market Portfolio	\$ 47,057,769
Fidelity Low Priced Stock K	\$ 23,743,542
Fidelity Contrafund K	\$ 20,688,320
Spartan 500 Index - Institutional Class	\$ 12,878,803

---

**Table of Contents**

**Owens Corning Savings and Security Plan**

**Notes to Financial Statements**

**December 31, 2013 and 2012**

**Note 4 - Notes Receivable from Participants**

Notes receivable from participants represent loans made from the Plan to active participants. Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible. The total amount a participant may borrow is the lesser of \$50,000 or 50 percent of the participant's total vested account balance, limited to the total of contributions designated as before-tax and related earnings. The minimum amount available for a note is \$1,000. The total amount a participant may borrow is reduced by the highest outstanding note receivable balance in the prior one-year period.

Notes advanced are repaid through regular payroll deductions with interest equal to the prime rate in effect on the last business day of the month prior to the employee's note application.

A note can be requested for any reason. Under the Plan's terms, a borrower has from one to five years to repay the note. Notes transferred into the Plan from other plans are continued under the same terms applicable to the note when it originated. Some of these transferred notes may have a repayment term that is longer than five years. Repayments of principal and interest are invested in the same manner as the participant's contributions.

**Note 5 - Vesting, Forfeitures, and Distributions**

At a majority of locations, participants become 100 percent vested in Company contributions and earnings thereon after five years of completed service at a rate of 20 percent per year. At most remaining locations, participants become 100 percent vested after three years of completed service. Such amounts also become fully vested upon termination of the participant's employment due to retirement, disability, or death, involuntary termination of the participant's employment (other than for cause), termination of the Plan, or permanent discontinuance of the prescribed Company contributions to the Plan. Participants are always 100 percent vested in participant contributions.

Such vested contributions and earnings thereon are automatically distributable under the required minimum distribution rules upon the April 1<sup>st</sup> of the year following the year in which the participant attains 70 1/2 years of age or upon the participant's death, whichever is earlier. If termination of employment occurs for any reason other than death, the participant's account will become distributable either at 70 1/2 years of age as described above or upon an election for distribution filed with the plan administrator at any time following the participant's termination of employment.

Participants may make certain withdrawals from their accounts. After-tax contributions and the related earnings are eligible for withdrawal up to two times each calendar year, once between January 1 and June 30 of the year and again between July 1 and December 31 of the year. Participants who have attained age 65 and are fully vested may make withdrawals of Company contributions during the same periods.

**Table of Contents**

**Owens Corning Savings and Security Plan**

**Notes to Financial Statements**

**December 31, 2013 and 2012**

No other withdrawals of Company contributions can be made during employment. Participants aged 59-1/2, or older, may withdraw all or a portion of their before-tax contributions and earnings up to two times each calendar year on the same dates as discussed above. Otherwise, before-tax contributions may be withdrawn only under serious financial hardship. Earnings credited to the before-tax contributions before 1989, if any, are available for withdrawal only if participants can show evidence of a serious financial hardship.

Company contributions and earnings thereon subsequent to December 30, 1989 cannot be withdrawn by participants, even if vested, unless terminated, retired, 65 years of age, or deceased. Participants who voluntarily terminate or are terminated for cause will forfeit the nonvested portion of the Company contributions and related earnings. Forfeitures are applied to reduce subsequent Company contributions to the Plan. The market value of the underlying investments forfeited by employees withdrawing from the Plan was \$ 193,104 and \$ 157,736 in the years ended December 31, 2013 and 2012, respectively. The forfeited amounts were used to reduce Company contributions for the years ended December 31, 2013 and 2012.

**Note 6 - Risks and Uncertainties**

The Plan's invested assets consist of mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the inherent risk associated with investment securities and the uncertainty related to changes in the value of investment securities, it is at least reasonably possible that the exposure to these various risks and uncertainties in the near term would materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits and Statement of Changes in Net Assets Available for Plan Benefits.

**Note 7 - Fair Value**

The Company classifies and discloses plan assets using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability. In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

**Table of Contents****Owens Corning Savings and Security Plan****Notes to Financial Statements****December 31, 2013 and 2012**

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
