English Translation of Excerpts from Quarterly Securities Report Filed in Japan

This document is an English translation of selected information included in the Quarterly Securities Report for the quarter ended June 30, 2014 filed by Mitsubishi UFJ Financial Group, Inc. (MUFG or we) with the Kanto Local Financial Bureau, the Ministry of Finance of Japan, on August 13, 2014 (the Quarterly Securities Report).

The Quarterly Securities Report has been prepared and filed in Japan in accordance with applicable Japanese disclosure requirements as well as Japanese accounting standards. In addition, the Quarterly Securities Report is intended to update prior disclosures filed by MUFG in Japan and discusses selected recent developments in the context of those prior disclosures. Accordingly, the Quarterly Securities Report may not contain all of the information that is important to you. For a more complete discussion of the background to information provided in the Quarterly Securities Report disclosure, please see our annual report on Form 20-F for the fiscal year ended March 31, 2014, filed on July 18, 2014, and the other reports filed with or submitted to the U.S. Securities and Exchange Commission by MUFG.

Effective July 1, 2014, we integrated the operations of The Bank of Tokyo-Mitsubishi UFJ, Ltd. in the Americas region with the operations of UnionBanCal Corporation (UNBC), which is a wholly owned subsidiary of The Bank of Tokyo-Mitsubishi UFJ, Ltd., and changed UNBC's corporate name to MUFG Americas Holdings Corporation. Effective the same day, Union Bank, N.A., which is MUFG Americas Holdings Corporation's principal subsidiary and our primary operating subsidiary in the United States, was also renamed MUFG Union Bank, N.A.

Risks Relating to Our Business

We describe below the major developments and changes since the filing on June 27, 2014, in Japan of our annual securities report for the fiscal year ended March 31, 2014, that we believe may have a material impact on your investment decision with respect to the risks to our business and other risks. The discussion below contains forward-looking statements, which unless specifically described otherwise, reflect our understanding as of the date of filing of the Quarterly Securities Report.

The numbering of the subheading of the risk disclosure below corresponds to the numbering of the subheading of the same risk disclosure in Risks Relating to Our Business in our most recent annual securities report filed with the Kanto Local Financial Bureau, the Ministry of Finance of Japan.

6. Risks relating to foreign exchange rate

Our business operations are impacted by fluctuations in the foreign currency exchange rate. If foreign exchange rates fluctuate against the Japanese yen, the Japanese yen translation amounts of assets and liabilities of MUFG Americas Holdings Corporation (including its bank subsidiary, MUFG Union Bank, N.A. (MUAH)) and Bank of Ayudhya Public Company Limited (Krungsri), major subsidiaries of The Bank of Tokyo-Mitsubishi UFJ, Ltd., or BTMU, which are denominated in foreign currencies, will also fluctuate. In addition, some of our assets and liabilities are denominated in foreign currencies. To the extent that our foreign currency-denominated assets and liabilities are not matched in the same currency or appropriately hedged, fluctuations in foreign currency exchange rates against the Japanese yen may adversely affect our financial condition, including capital ratios, and results of operations.

11. Risks relating to MUAH

Any adverse changes to the business or management of MUAH, one of our major subsidiaries, may negatively affect our financial condition and results of operations. Factors that may negatively affect MUAH's financial condition and results of operations include adverse economic conditions, including a downturn in the real estate and housing industries in the United States, particularly in California, substantial competition in the banking market in the United States, particularly in California, uncertainty over the U.S. economy, the threat of terrorist attacks, fluctuating prices of natural resources including oil, rising interest rates, restrictions due to U.S. financial regulations, losses from litigation, credit rating downgrades and declines in stock prices of our borrowers, bankruptcies of companies that may occur because of these factors and costs arising because of internal control weaknesses and an inadequate compliance system at MUAH and its subsidiaries.
