**Item 2.02 Results of Operations and Financial Condition.**

**Item 9.01 Financial Statements and Exhibits.**

BSQUARE Corporation (the Company) is filing this Form 8-K/A to correct a typographical error contained in its Current Report on Form 8-K filed with the Securities and Exchange Commission on February 19, 2015 (the Current Report). Specifically, the introductory portion of the press release attached as Exhibit 99.1 to the Current Report incorrectly referred to the Company's two MobileV<sup>™</sup> third party product sales in the fourth quarter of the 2014 fiscal year as sales of proprietary software. In fact, these were third-party software sales, and were correctly accounted for as third-party software revenue in the Company's audited financial statements for fiscal 2014, and were also correctly reported as such in all financial information included in the Current Report.

MobileV is a modular hardware and software reference solution based on third-party board designs and third-party operating systems. The solution optionally includes the Company's proprietary MobileV UX software, sales of which are accounted for as proprietary software revenue. The 2014 sales referred to in the Current Report did not include this component, and thus were accounted for as third-party software revenue.

No other items or disclosures in the Current Report are being amended.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
