This prospectus supplement and any related free writing prospectus may also add to, update or change information contained in the accompanying prospectus or in any documents that we have incorporated by reference into the accompanying prospectus and, accordingly, to the extent inconsistent, information in the accompanying prospectus is superseded by the information in this prospectus supplement or any related free writing prospectus.

This prospectus supplement and the accompanying prospectus do not contain all of the information included in the registration statement. The registration statement filed with the SEC includes or incorporates by reference exhibits that provide more details about the matters discussed in this prospectus supplement and the accompanying prospectus. You should carefully read this prospectus supplement, the accompanying prospectus and the related exhibits filed with the SEC, together with the additional information described under the headings **Where You Can Find Additional Information** and **Incorporation of Documents by Reference** in the accompanying prospectus.

No offer of these securities will be made in any jurisdiction where the offer is not permitted.

As used in this prospectus supplement, unless the context otherwise requires, references to the Company, Sprouts, we, us and our refer to Sprouts Farmers Market, Inc. and, where appropriate, its subsidiaries.

Basis of Presentation

We report our results of operations on a 52- or 53-week fiscal year ending on the Sunday closest to December 31, with each fiscal quarter generally divided into three periods consisting of two four-week periods and one five-week period. Our last three completed fiscal years ended on December 30, 2012, December 29, 2013 and December 28, 2014. For ease of reference, we identify our fiscal years in this prospectus supplement by reference to the calendar year ending closest to the last day of such fiscal year. For example, we refer to our fiscal years ended December 30, 2012, December 29, 2013 and December 28, 2014 as fiscal 2012, fiscal 2013 and fiscal 2014, respectively.

Market, Industry and Other Data

Unless otherwise indicated, information contained or incorporated by reference in this prospectus supplement or the accompanying prospectus concerning our industry and the markets in which we operate is based on information from independent industry and research organizations, such as Buxton Company, and other third-party sources (including the Nutrition Business Journal, the Progressive Grocer's 80th Annual Report of the Grocery Industry (referred to as Progressive Grocer), and other industry publications, surveys and forecasts), and management estimates. Management estimates are derived from publicly available information released by independent industry analysts and third-party sources, as well as data from our internal research, and are based on assumptions made by us upon reviewing such data and our knowledge of our industry and markets, which we believe to be reasonable. In addition, projections, assumptions and estimates of the future performance of our industry and our future performance are necessarily subject to a high degree of uncertainty and risk due to a variety of factors, including those described in Risk Factors in this prospectus supplement and the accompanying prospectus, as well as those contained in the documents incorporated by reference herein and therein. These and other factors could cause results to differ materially from those expressed in the estimates made by the independent parties and by us.

Recent Transactions

In 2002, Sprouts Farmers Markets, LLC, an Arizona limited liability company (referred to as Sprouts Arizona) opened the first Sprouts Farmers Market store in Chandler, Arizona. In 2011, we were formed when Sprouts Arizona combined with Henry's Holdings, LLC (referred to as Henry's), which operated 35 Henry's Farmers Markets stores and eight Sun Harvest Market stores (referred to as the Henry's Transaction). The Henry's Transaction was led by investment funds affiliated with, and co-investment vehicles managed by, Apollo Management VI, L.P. (referred to as the Apollo Funds). The Apollo Funds are affiliates of Apollo Global Management, LLC (together with its subsidiaries, referred to as Apollo). In May 2012, we acquired Sunflower Farmers Market, Inc., which operated 37 Sunflower Farmers Market stores (referred to as Sunflower). We refer to this as the Sunflower Transaction. The Henry's Transaction and the Sunflower Transaction are collectively referred to as the Transactions.

Effective as of April 23, 2013, we entered into a credit agreement with Credit Suisse AG, Cayman Islands Branch, as administrative agent, and certain lenders (referred to as the Credit Facility), providing for a \$700.0 million senior secured term loan (referred to as the Term Loan), and a \$60.0 million senior secured revolving credit facility. A portion of the proceeds of the Term Loan was used to repay in full the outstanding balance of \$403.1 million under our prior credit facility (referred to as the Former Credit Facility). We used the remaining proceeds of the Term Loan, together with cash on hand, to make a distribution to our equity holders, to make payments to vested option holders and to pay transaction fees and expenses. We refer to the transactions through which we entered into the Credit Facility and applied the proceeds as described above as the April 2013 Refinancing. We used a portion of the net proceeds of our IPO (as defined below) to repay \$340.0 million of outstanding indebtedness under the Term Loan. In addition, we made voluntarily principal payments of \$40.0 million and \$50.0 million under the Term Loan during the fourth quarter of 2013 and the third quarter of 2014, respectively.

Corporate Conversion

On July 29, 2013, Sprouts Farmers Markets, LLC, a Delaware limited liability company, converted into Sprouts Farmers Market, Inc., a Delaware corporation and the issuer of the shares of common stock offered by this prospectus supplement, pursuant to a statutory conversion (referred to as the corporate conversion). As used in this prospectus supplement, unless the context otherwise requires, references to the Company, Sprouts, we, us and our refer to Sprouts Farmers Markets, LLC

Table of Contents

and after the corporate conversion to Sprouts Farmers Market, Inc. and, where appropriate, its subsidiaries. In the corporate conversion, each unit of Sprouts Farmers Markets, LLC was converted into 11 shares of common stock of Sprouts Farmers Market, Inc., and each option to purchase units of Sprouts Farmers Markets, LLC was converted into an option to purchase 11 shares of common stock of Sprouts Farmers Market, Inc. For the convenience of the reader, except as the context otherwise requires, all information contained or incorporated by reference in this prospectus supplement or the accompanying prospectus is presented giving effect to the corporate conversion.

Comparable Store Sales

As used in this prospectus supplement, the term **comparable store sales growth** refers to the percentage change in our comparable store sales as compared to the prior comparable period. Our practice is to include sales from a store in comparable store sales beginning on the first day of the 61st week following the store's opening and to exclude sales from a closed store from comparable store sales beginning on the day of closure. We include sales from an acquired store in comparable store sales on the later of (i) the day of acquisition or (ii) the first day of the 61st week following the store's opening. This practice may differ from the methods that other retailers use to calculate comparable store sales.

In this prospectus supplement we discuss our **pro forma comparable store sales growth** for fiscal 2012 through fiscal 2014. We compute pro forma comparable store sales growth giving effect to (i) the 2011 combination of Sprouts Arizona with Henry's in the Henry's Transaction and (ii) our 2012 acquisition of Sunflower in the Sunflower Transaction, in each case as if such Transactions occurred on the first day of fiscal 2007. Stores acquired in these transactions have been rebranded as Sprouts Farmers Market stores. See **Prospectus Supplement Summary Summary Consolidated Financial and Other Data** for reconciliation of historical sales to pro forma net sales and a presentation of pro forma comparable store sales growth for fiscal 2012 through fiscal 2014.

In addition, in this prospectus supplement we refer to **pro forma comparable store sales growth on a two-year stacked basis**, which is computed by adding the pro forma comparable store sales growth of the period referenced and the pro forma comparable store sales growth of the same fiscal period ended twelve months prior.

We believe pro forma comparable store sales growth provides investors with helpful information with respect to our operating performance.

Non-GAAP Financial Measures

To supplement our financial information presented in accordance with U.S. generally accepted accounting principles (referred to as **GAAP**), we use the following additional measures to clarify and enhance an understanding of past performance:

Adjusted EBITDA, which is defined as earnings (net income or loss) before interest, taxes, depreciation, amortization and accretion, further adjusted to eliminate the effects of items management does not consider in assessing our ongoing performance; and

Adjusted net income, which is defined as net income, excluding store closure and exit costs, gains and losses from the disposal of assets, expenses incurred in our secondary public offerings and employment taxes paid by us in connection with options exercised in those offerings, the loss on extinguishment of debt and the related tax impact of those adjustments.

See **Prospectus Supplement Summary Summary Consolidated Financial and Other Data** for further discussion and a reconciliation of adjusted EBITDA and adjusted net income.

Table of Contents

Adjusted EBITDA and adjusted net income are performance measures that provide supplemental information we believe is useful to analysts and investors to evaluate our ongoing results of operations, when considered alongside other GAAP measures such as net income, net income per share, operating income and gross profit. These non-GAAP measures exclude the financial impact of items management does not consider in assessing our ongoing operating performance, and thereby facilitate review of our operating performance on a period-to-period basis. Other companies may have different capital structures or different lease terms, and comparability to our results of operations may be impacted by the effects of acquisition accounting on our depreciation and amortization. As a result of the effects of these factors and factors specific to other companies, we believe adjusted EBITDA and adjusted net income provide helpful information to analysts and investors to facilitate a comparison of our operating performance to that of other companies. We also use adjusted EBITDA, as further adjusted for additional items defined in our Credit Facility, for board of director and bank compliance reporting.

These non-GAAP measures are intended to provide additional information only and do not have any standard meanings prescribed by GAAP. Use of these terms may differ from similar measures reported by other companies. Because of their limitations, these non-GAAP measures should not be considered as measures of discretionary cash available to use to reinvest in growth of our business, or as measures of cash that will be available to meet our obligations. These non-GAAP measures have their limitations as analytical tools, and you should not consider them in isolation or as a substitute for analysis of our results as reported under GAAP.

The Company

Sprouts Farmers Market operates as a healthy grocery store that offers fresh, natural and organic food that includes fresh produce, bulk foods, vitamins and supplements, grocery, meat and seafood, bakery, dairy, frozen foods, body care and natural household items catering to consumers growing interest in eating and living healthier. Since our founding in 2002, we have grown rapidly, significantly increasing our sales, store count and profitability. With 198 stores in 12 states as of February 26, 2015, we are one of the largest specialty retailers of fresh, natural and organic food in the United States.

The cornerstones of our business are fresh, natural and organic products at compelling prices (which we refer to as Healthy Living for Less), an attractive and differentiated shopping experience, and knowledgeable team members who we believe provide best-in-class customer service and product education.

We are pursuing a number of strategies designed to continue our growth, including expansion of our store base, driving comparable store sales growth, enhancing our operating margins and growing the Sprouts brand. We intend to continue expanding our store base by pursuing new store openings in our existing markets, expanding into adjacent markets and penetrating new markets. We opened 24 stores in fiscal 2014, and we intend to achieve 14% annual new store growth for at least the next five years, balanced among existing, adjacent and new markets.

Adjusted net income is a non-GAAP measure defined as net income, excluding store closure and exit costs, gain and losses from disposal of assets, IPO bonus, expenses incurred in our secondary public offerings and employment taxes paid by us in connection with options exercised in those offerings, the loss on extinguishment of debt and the related tax impact of those adjustments.

The following table shows a reconciliation of adjusted EBITDA and adjusted net income to net income for fiscal 2014.

Interest expense, net	25,057
Adjusted income tax provision(e)	68,551
Depreciation, amortization and accretion	60,612
Adjusted EBITDA	\$ 265,376

- (a) **Loss on extinguishment of debt** represents the write-off of deferred financing costs and original issue discounts and expenses relating to the refinancing or unscheduled repayment of debt. We exclude losses on extinguishment of debt from our adjusted EBITDA and adjusted net income to provide period-to-period comparability of our operating results because management believes these costs do not directly reflect the ongoing performance of our store operations.
- (b) **Store closure and exit costs** represents reserves established for closed stores and facilities, adjustments to those reserves for changes in expectations for sublease or actual subleases or settlements with landlords. Ongoing expenses related with the closed facilities are also included. We exclude store closure and exit costs from adjusted EBITDA and adjusted net income to provide period-to-period comparability of its operating results because management believes these costs do not directly reflect the ongoing performance of our store operations.
- (c) **Loss on disposal of assets** represents the loss recorded in connection with the disposal of property and equipment. We exclude gains and losses on disposals of assets from our adjusted EBITDA and adjusted net income to provide period-to-period comparability of our operating results because management believes these costs do not directly reflect the ongoing performance of our store operations.
- (d) **Secondary offering expenses including employment taxes on option exercises** represents expenses we incurred in our secondary public offerings and employment taxes paid by the Company in connection with options exercised in those offerings. We have excluded these items from our adjusted EBITDA and adjusted net income to provide period-to-period comparability of our operating results because management believes these costs do not directly reflect the performance of our store operations.
- (e) **Adjusted income tax provision** represents the income tax provision plus the tax effect of the adjustments described in notes (a) through (d) above based on statutory tax rates for the period. We have excluded these items from adjusted income tax provision because management believes they do not directly reflect the ongoing performance of our store operations and are not reflective of our ongoing income tax provision.

- (5) Pro forma comparable store sales growth reflects comparable store sales growth calculated as if the Transactions had been consummated prior to all reported periods. Our practice is to include net sales from a store in comparable store sales beginning on the first day of the 61st week following the store's opening and to exclude net sales from a closed store from comparable store sales on the day of closure. We include net sales from an acquired store in comparable store sales on the later of (i) the day of acquisition or (ii) the first day of the 61st week following the store's opening. We use pro forma comparable store sales to calculate pro forma comparable store sales growth. A reconciliation of pro forma net sales to net sales and a presentation of pro forma comparable store sales growth are as follows for the periods indicated:

SHARES ELIGIBLE FOR FUTURE SALE

Prior to our IPO in August 2013, there had been no public market for our capital stock. Future sales of our common stock in the public market, or the availability of such shares for sale in the public market, could adversely affect market prices prevailing from time to time.

As of March 2, 2015, there are outstanding 152,068,893 shares of common stock, options to acquire 6,600,028 shares of common stock under the 2011 Option Plan and the 2013 Incentive Plan, and 99,375 shares of common stock issuable upon vesting of restricted stock units under our 2013 Incentive Plan. All of these outstanding shares are, and all of the shares being sold in this offering will be, freely tradable, except that any shares held by our affiliates (as that term is defined in Rule 144 under the Securities Act) may only be sold in compliance with the limitations under Rule 144 described below.

Stockholders who are not affiliates at the time of, and were not affiliates during the 90 days preceding, a sale, may sell in the public markets without restriction. Stockholders who are affiliates at the time of, or were affiliates at any time during the 90 days preceding, a sale, would be subject to Rule 144, including the volume restrictions of Rule 144 (but not the holding period requirement). Such stockholders would be entitled under Rule 144 to sell within any three-month period only a number of shares that does not exceed the greater of either of the following:

1% of the number of shares of our common stock outstanding at the time of such sale, which equals 1,520,689 shares as of March 2, 2015; or

the average weekly trading volume of our common stock on the NASDAQ Global Select Market during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale, which equals 5,087,050 shares as of March 2, 2015.

In addition, as discussed below, the Apollo Funds have the ability to require us to register shares of our common stock held by them for resale.

Lock-Up Agreements

We and the selling stockholders have entered into lock-up agreements with the underwriters of this offering providing, subject to certain exceptions, that we and they will not, subject to certain exceptions, dispose of or hedge any shares of our common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus supplement continuing through the date that is 60 days after such date, except with the prior written consent of the underwriters.

Registration Rights under the Stockholders Agreement

We and holders of all of the outstanding shares of our common stock prior to our IPO are parties to a stockholders agreement (the "Stockholders Agreement") that provides the Apollo Funds with certain demand registration rights and provides the other stockholders party thereto with piggyback and tag-along rights in connection therewith. MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS OF COMMON STOCK

The following is a general discussion of the material U.S. federal income tax considerations with respect to the acquisition, ownership and disposition of our common stock applicable to non-U.S. holders (as defined below) who purchase our common stock pursuant to this offering. This discussion is based on current provisions of the Internal Revenue Code of 1986, as amended (referred to as the Code), existing and proposed U.S. Treasury regulations promulgated thereunder, and administrative rulings and court decisions in effect as of the date hereof, all of which are subject to change at any time, possibly with retroactive effect. No ruling has been or will be sought from the Internal Revenue Service, or IRS, with respect to the matters discussed below, and there can be no assurance the IRS will not take a contrary position regarding the tax consequences of the acquisition, ownership or disposition of our common stock, or that any such contrary position would not be sustained by a court.

For the purposes of this discussion, the term non-U.S. holder means a beneficial owner of our common stock that is not for U.S. federal income tax purposes any of the following:

an individual who is a citizen or resident of the United States;

a corporation, or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

an estate, the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source; or

a trust if (1) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (2) it has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

It is assumed in this discussion that a non-U.S. holder holds shares of our common stock as a capital asset within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all aspects of U.S. federal income taxation that may be important to a non-U.S. holder in light of such holder's particular circumstances or that may be applicable to holders subject to special treatment under U.S. federal income tax laws (including, for example, financial institutions, dealers in securities, traders in securities that elect mark-to-market treatment, insurance companies, tax-exempt entities, holders who acquired our common stock pursuant to the exercise of employee stock options or otherwise as compensation, controlled foreign corporations, passive foreign investment companies, entities or arrangements treated as partnerships for U.S. federal income tax purposes, holders subject to the alternative minimum tax, certain former citizens or former long-term residents of the United States, holders deemed to sell our common stock under the constructive sale provisions of the Code and holders who hold our common stock as part of a straddle, hedge, synthetic security or conversion transaction), nor does it address any aspects of the unearned income Medicare contribution tax enacted pursuant to the Health Care and Education Reconciliation Act of 2010. In addition, except to the extent provided below, this discussion does not address U.S. federal tax laws other than those pertaining to the U.S. federal income tax, nor does it address any aspects of U.S. state, local or non-U.S. taxes. Accordingly, prospective investors are encouraged to consult with their own tax advisors regarding the U.S. federal, state, local, non-U.S. income and other tax considerations of acquiring, holding and disposing of shares of our common stock.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds shares of our common stock, the tax treatment of a partner generally will depend on the status of the

Table of Contents

partner and the activities of the partnership. Partnerships holding our common stock and partners in such partnerships are urged to consult their tax advisors as to the particular U.S. federal income tax consequences of acquiring, holding and disposing of our common stock.

THIS SUMMARY IS NOT INTENDED TO CONSTITUTE A COMPLETE DESCRIPTION OF ALL TAX CONSEQUENCES RELATING TO THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK. HOLDERS OF OUR COMMON STOCK ARE ENCOURAGED TO CONSULT WITH THEIR TAX ADVISORS REGARDING THE TAX CONSEQUENCES TO THEM (INCLUDING THE APPLICATION AND EFFECT OF ANY STATE, LOCAL, NON-U.S. INCOME AND OTHER TAX LAWS) OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK.

Information Reporting and Backup Withholding

As discussed above under Dividend Policy, we currently have no plans to pay regular dividends on our common stock. In the event that we do pay dividends, generally we or certain financial middlemen must report annually to the Internal Revenue Service (referred to as the IRS) and to each non-U.S. holder the amount of dividends paid to, and the tax withheld with respect to, each non-U.S. holder. These reporting requirements apply regardless of whether withholding was reduced or eliminated. Copies of this information also may be made available under the provisions of a specific treaty or agreement with the tax authorities in the country in which the non-U.S. holder resides or is established.

U.S. backup withholding (currently at a rate of 28%) is imposed on certain payments to persons that fail to furnish the information required under the U.S. information reporting requirements. Dividends paid to a non-U.S. holder of our common stock generally will be exempt from backup withholding if the non-U.S. holder provides to the applicable withholding agent a properly executed IRS Form W-8BEN, W-8BEN-E or W-8ECI (as applicable) or otherwise establishes an exemption.

Under U.S. Treasury regulations, the payment of proceeds from the disposition of our common stock by a non-U.S. holder effected at a U.S. office of a broker generally will be subject to information reporting and backup withholding, unless the beneficial owner, under penalties of perjury, certifies, among other things, its status as a non-U.S. holder or otherwise establishes an exemption. The certification procedures described in the above paragraph will satisfy these certification requirements as well. The payment of proceeds from the disposition of our common stock by a non-U.S. holder effected at a non-U.S. office of a broker generally will not be subject to backup withholding and information reporting, except that information reporting (but generally not backup withholding) may apply to payments if the broker is:

a U.S. person;

a controlled foreign corporation for U.S. federal income tax purposes;

a foreign person, 50% or more of whose gross income from certain periods is effectively connected with a U.S. trade or business; or

a foreign partnership if at any time during its tax year (a) one or more of its partners are U.S. persons who, in the aggregate, hold more than 50% of the income or capital interests of the partnership or (b) the foreign partnership is engaged in a U.S. trade or business.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a non-U.S. holder can be credited against the non-U.S. holder's U.S. federal income tax liability, if any, and any excess refunded, provided that the required information is furnished to the IRS in a timely manner.

Table of Contents

Additional Withholding Tax on Payments Made to Foreign Accounts

Withholding taxes may be imposed under Sections 1471 to 1474 of the Code (such Sections commonly referred to as the Foreign Account Tax Compliance Act, or FATCA) on certain types of payments made to non-U.S. financial institutions and certain other non-U.S. entities. Specifically, a 30% withholding tax may be imposed on dividends paid on, or gross proceeds from the sale or other disposition of, our common stock paid to a foreign financial institution or a non-financial foreign entity (each as defined in the Code), unless (1) the foreign financial institution undertakes certain diligence and reporting obligations, (2) the non-financial foreign entity either certifies it does not have any substantial United States owners (as defined in the Code) or furnishes identifying information regarding each substantial United States owner, or (3) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules. If the payee is a foreign financial institution and is subject to the diligence and reporting requirements in (1) above, it must enter into an agreement with the U.S. Department of the Treasury requiring, among other things, that it undertake to identify accounts held by certain specified United States persons or United States-owned foreign entities (each as defined in the Code), annually report certain information about such accounts, and withhold 30% on certain payments to non-compliant foreign financial institutions and certain other account holders. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules.

Under the applicable Treasury Regulations and IRS guidance, withholding under FATCA generally will apply to payments of dividends on our common stock, as well as to payments of gross proceeds from the sale or other disposition of such stock on or after January 1, 2017.

Prospective investors should consult their tax advisors regarding the potential application of withholding under FATCA to their investment in our common stock.

Dividends

As discussed above under Dividend Policy, we currently have no plans to make distributions of cash or other property on our common stock. In the event that we do make distributions of cash or other property on our common stock, generally such distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from current and accumulated earnings and profits, as determined for U.S. federal income tax purposes. Amounts not treated as dividends for U.S. federal income tax purposes will constitute a return of capital and will first reduce a non-U.S. holder's adjusted basis in our common stock, but not below zero. Any excess will be treated as capital gain from the sale of our common stock in the manner described under Gain on Sale or Other Disposition of Our Common Stock below.

In general, dividends, if any, paid by us to a non-U.S. holder will be subject to U.S. withholding tax at a rate of 30% of the gross amount (or a reduced rate prescribed by an applicable income tax treaty) unless the dividends are effectively connected with a trade or business carried on by the non-U.S. holder within the United States and, if required by an applicable income tax treaty, are attributable to a permanent establishment of the non-U.S. holder within the United States. Dividends effectively connected with this U.S. trade or business, and, if required by an applicable income tax treaty, attributable to such a permanent establishment of the non-U.S. holder, generally will not be subject to U.S. withholding tax if the non-U.S. holder provides the applicable withholding agent with certain forms, including IRS Form W-8ECI (or any successor form), and generally will be subject to U.S. federal income tax on a net income basis, in the same manner as if the non-U.S. holder were a U.S. person. A non-U.S. holder that is a corporation and receives effectively connected dividends may also be subject to an additional branch profits tax imposed at a 30% rate (or lower treaty rate), subject to certain adjustments.

Table of Contents

Under applicable U.S. Treasury regulations, a non-U.S. holder is required to satisfy certain certification requirements in order to claim a reduced rate of withholding pursuant to an applicable income tax treaty (including providing the applicable withholding agent with an IRS Form W-8BEN, W-8BEN-E or other appropriate form, certifying such non-U.S. holder's entitlement to benefits under a treaty). Non-U.S. holders that do not timely provide the required certification, but that qualify for a reduced treaty rate, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. holders should consult their tax advisors regarding their entitlement to benefits under an applicable income tax treaty.

Gain on Sale or Other Disposition of Our Common Stock

In general, a non-U.S. holder will not be subject to U.S. federal income tax on any gain realized upon the sale or other disposition of our common stock unless:

the gain is effectively connected with a trade or business carried on by the non-U.S. holder within the United States (in which case the branch profits tax discussed above may also apply if the non-U.S. holder is a corporation) and, if required by an applicable income tax treaty, the gain is attributable to a permanent establishment of the non-U.S. holder maintained in the United States;

the non-U.S. holder is an individual and is present in the United States for 183 days or more in the taxable year of disposition and certain other conditions are satisfied; or

we are or have been a U.S. real property holding corporation (referred to as a "USRPHC") for U.S. federal income tax purposes at any time within the shorter of the five-year period preceding the disposition and the non-U.S. holder's holding period.

Gain described in the first bullet point above will be subject to U.S. federal income tax on a net income basis at the regular graduated U.S. federal income tax rates in much the same manner as if such holder were a resident of the United States. A non-U.S. holder that is a corporation may also be subject to an additional branch profits tax equal to 30% (or such lower rate specified by an applicable income tax treaty) of its effectively connected earnings and profits for the taxable year, as adjusted for certain items. Non-U.S. holders should consult any applicable income tax treaties that may provide for different rules.

Gain recognized by an individual described in the second bullet point above will be subject to U.S. federal income tax at a flat 30% rate (or such lower rate specified by an applicable income tax treaty), but may be offset by U.S.-source capital losses (even though the individual is not considered a resident of the United States), provided that the non-U.S. holder has timely filed U.S. federal income tax returns with respect to such losses.

With respect to the third bullet point above, we believe that we currently are not, and do not anticipate becoming, a USRPHC. Because the determination of whether we are a USRPHC depends on the fair market value of our interests in real property located within the United States relative to the fair market value of our interests in real property located outside the United States and our other business assets, however, there can be no assurance that we will not become a USRPHC in the future. Even if we were or were to become a USRPHC at any time during this period, generally gains realized upon a disposition of shares of our common stock by a non-U.S. holder that did not directly or indirectly own more than 5% of our common stock during this period would not be subject to U.S. federal income tax, provided that our common stock is regularly traded on an established securities market (within the meaning of Section 897(c)(3) of the Code). We expect our common stock to be regularly traded on an established securities market, although we cannot guarantee it will be so traded.

UNDERWRITING

We, the selling stockholders and Barclays Capital Inc. and Morgan Stanley & Co. LLC have entered into an underwriting agreement with respect to the shares being offered. Subject to certain conditions, each underwriter has severally agreed to purchase the number of shares indicated in the following table.

Underwriters	Number of Shares
Barclays Capital Inc.	7,923,900
Morgan Stanley & Co. LLC	7,923,900
Total	15,847,800

The underwriters are committed to take and pay for all of the shares being offered, if any are taken.

The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriters by the selling stockholders.

Per Share	Discounts and Commissions
Total	

Shares sold by the underwriters to the public will initially be offered at the public offering price set forth on the cover of this prospectus supplement. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$ _____ per share from the public offering price. If all the shares are not sold at the public offering price, the underwriters may change the offering price and the other selling terms. The offering of the shares by the underwriters are subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

The company and the selling stockholders have agreed with the underwriters, subject to certain exceptions, not to dispose of or hedge any of their common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus supplement continuing through the date that is 60 days after the date of this prospectus supplement, except with the prior written consent of the underwriters. This agreement does not apply to any existing team member benefit plans.

Our common stock is listed on the NASDAQ Global Select Market under the symbol SFM.

In connection with the offering, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions, and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than it is required to purchase in the offering, and a short position represents the amount of such sales that have not been covered by subsequent purchases. The underwriters must cover any such short position by purchasing shares in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the closing of the offering.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of our common stock, and may stabilize, maintain, or otherwise affect the market price of our common stock. As a result, the price of our common stock may be higher than the price that

Table of Contents

otherwise might exist in the open market. The underwriters are not required to engage in these activities and may end any of these activities at any time. These transactions may be effected on the NASDAQ Global Select Market, in the over-the-counter market, or otherwise.

We and the selling stockholders estimate that the total expenses of the offering, excluding underwriting discounts and commissions, will be approximately \$0.5 million. We have agreed to reimburse the underwriter for expenses relating to clearance of this offering with the Financial Industry Regulatory Authority, Inc. of up to \$20,000.

We and the selling stockholders have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act.

Other Relationships

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. The underwriters and certain of their respective affiliates have provided, and may in the future provide, a variety of these services to us and to persons and entities with relationships with us, for which they received or will receive customary fees and expenses.

In addition, in the ordinary course of their various business activities, the underwriters and their respective affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively traded securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of the company (directly, as collateral securing other obligations or otherwise) and/or persons and entities with relationships with us. The underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

The Company

Sprouts Farmers Market operates as a healthy grocery store that offers fresh, natural and organic food that includes fresh produce, bulk foods, vitamins and supplements, grocery, meat and seafood, bakery, dairy, frozen foods, body care and natural household items catering to consumers growing interest in eating and living healthier. Since our founding in 2002, we have grown rapidly, significantly increasing our sales, store count and profitability. We are one of the largest specialty retailers of fresh, natural and organic food in the United States.

The cornerstones of our business are fresh, natural and organic products at compelling prices (which we refer to as Healthy Living for Less), an attractive and differentiated shopping experience, and knowledgeable team members who we believe provide best-in-class customer service and product education.

Healthy Living for Less. We offer high-quality, fresh, natural and organic products at attractive prices in every department. Consistent with our farmers market heritage, our offering begins with fresh produce, which we source, warehouse and distribute in-house and sell at prices we believe to be significantly below those of other food retailers. In addition, our scale, operating structure and deep industry relationships position us to consistently deliver Healthy Living for Less throughout the store. Based on our experience, we believe we attract a broad customer base, including conventional supermarket customers, and appeal to a much wider demographic than other specialty retailers of natural and organic food. We believe that over time, our compelling prices and product offering convert many trial customers into loyal lifestyle customers who shop Sprouts with greater frequency and across an increasing number of departments.

Attractive, Differentiated Shopping Experience. In a convenient, small-box format (average store size of 28,000 to 30,000 sq. ft.), our stores have a farmers market feel, with a bright, open-air atmosphere to create a comfortable and engaging in-store experience. We strive to be our customers' everyday healthy grocery store. We feature fresh produce and bulk foods at the center of the store surrounded by a complete grocery offering, including vitamins and supplements, grocery, meat and seafood, bakery, dairy, frozen foods, beer and wine, body care and natural household items. Consistent with our fresh, natural and organic offering, we choose not to carry most of the traditional, national branded consumer packaged goods generally found at conventional grocery retailers (e.g., Doritos, Tide and Lucky Charms). Instead, we offer high-quality, healthier alternatives that emphasize our focus on fresh, natural and organic products at great values.

Customer Service and Education. Selling Stockholders

In 2002, Sprouts Farmers Markets, LLC, an Arizona limited liability company opened the first Sprouts Farmers Market store in Chandler, Arizona. In 2011, we were formed when Sprouts Arizona combined with Henry's Holdings, LLC (referred to as Henry's), which operated 35 Henry's Farmers Markets stores and eight Sun Harvest Market stores (referred to as the Henry's Transaction). The Henry's Transaction was led by investment funds affiliated with, and co-investment vehicles managed by, Apollo Management VI, L.P. (referred to as the Apollo Funds), including each of the selling stockholders. The Apollo Funds are affiliates of Apollo Global Management, LLC (together with its subsidiaries, referred to as Apollo). In May 2012, we acquired Sunflower Farmers Market, Inc., which operated 37 Sunflower Farmers Market stores (referred to as Sunflower). We refer to this as the Sunflower Transaction. The Henry's Transaction and the Sunflower Transaction are collectively referred to as the Transactions. Following the Transactions, immediately prior to our initial public offering, the Apollo Funds held approximately 51.8% of our common equity.

On July 31, 2013, we priced our initial public offering and on August 1, 2013, our common stock began trading on the Nasdaq Global Select Market. Following our IPO, the Apollo Funds ownership interest in us was approximately 44.5%. The Apollo Funds, together with other pre-IPO stockholders, sold shares of our common stock to the public in registered secondary offerings completed in November 2013, March 2014 and August 2014. The Apollo Funds also sold shares of our common stock to the public in a registered secondary offering completed in November 2014. As of the date of this prospectus, the Apollo Funds hold 15,847,800 shares, representing approximately 10.4% of our common stock, all of which are offered hereby.

The following description summarizes the most important terms of our capital stock. Because it is only a summary, it does not contain all the information that may be important to you. For a complete description, you should refer to our certificate of incorporation and bylaws, which are included as exhibits to the registration statement of which this prospectus forms a part, and to the provisions of applicable Delaware law.

Common Stock

As of March 2, 2015, there were 152,068,893 shares of our common stock outstanding, held by 145 stockholders of record, and no shares of our preferred stock outstanding.

Dividend Rights

Subject to preferences that may apply to shares of preferred stock outstanding at the time, the holders of outstanding shares of our common stock are entitled to receive dividends out of funds legally available at the times and in the amounts that our board of directors may determine.

Voting Rights

Each holder of our common stock is entitled to one vote for each share of common stock held on all matters submitted to a vote of stockholders. Cumulative voting for the election of directors is not provided for in our certificate of incorporation, which means that the holders of a majority of our shares of common stock voted can elect all of the directors then standing for election.

Preemptive or Similar Rights

Our common stock is not entitled to preemptive rights and is not subject to conversion or redemption. The rights of the holders of our common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of our preferred stock that our board of directors may designate and issue in the future.

Liquidation Rights

Upon our liquidation, dissolution, or winding-up, the assets legally available for distribution to our stockholders would be distributable ratably among the holders of our common stock and any participating preferred stock outstanding at that time after payment of liquidation preferences, if any, on any outstanding shares of preferred stock and payment of other claims of creditors.

Preferred Stock

Our board of directors is authorized, subject to limitations prescribed by Delaware law, to issue up to 10,000,000 shares of our preferred stock in one or more series, to establish from time to time the number of shares to be included in each series, to fix the designation, powers, preferences, and rights of the shares of each series and any of its qualifications, limitations, or restrictions, in each case without further action by our stockholders. Our board of directors can also increase or decrease the number of shares of any series of preferred stock, but not below the number of shares of that series

then outstanding. Our board of directors may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of the common stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring, or preventing a change in our control and might adversely affect the market price of our common stock and the voting and other rights of the holders of our common stock. We have no current plan to issue any shares of preferred stock.

Options and Restricted Stock Units

As of March 2, 2015, we had outstanding stock options to purchase an aggregate of 6,600,028 shares of our common stock, at a weighted average exercise price of \$5.85 per share, outstanding under our 2011 Option Plan and our 2013 Incentive Plan and 99,375 shares of common stock issuable upon vesting of restricted stock units outstanding under our 2013 Incentive Plan.

Anti-Takeover Effects of Our Certificate of Incorporation and Bylaws

We are governed by the Delaware General Corporation Law (referred to as the "DGCL"). Our certificate of incorporation and our bylaws contain certain provisions that could have the effect of delaying, deterring, or preventing another party from acquiring control of our company. These provisions, which are summarized below, may discourage coercive takeover practices and inadequate takeover bids. These provisions are also designed, in part, to encourage persons seeking to acquire control of our company to negotiate first with our board of directors. We believe that the benefits of increased protection of our potential ability to negotiate more favorable terms with an unfriendly or unsolicited acquirer outweigh the disadvantages of potentially discouraging a proposal to acquire our company.

Undesignated Preferred Stock

As discussed above, our board of directors has the ability to issue preferred stock with voting or other rights or preferences that could impede the success of any attempt to acquire control of our company. These and other provisions may have the effect of deterring hostile takeovers or delaying changes in control or management of our company.

Limits on Ability of Stockholders to Act by Written Consent or Call a Special Meeting

Our certificate of incorporation provides that our stockholders may not act by written consent, which may lengthen the amount of time required to take stockholder actions. As a result, a holder controlling a majority of our capital stock would not be able to amend our bylaws or remove directors without holding a meeting of our stockholders called in accordance with our bylaws.

In addition, our certificate of incorporation provides that special meetings of the stockholders may be called only by the chairperson of our board or our board of directors. Stockholders may not call a special meeting, which may delay the ability of our stockholders to force consideration of a proposal or for holders controlling a majority of our capital stock to take any action, including the removal of directors.

Requirements for Advance Notification of Stockholder Nominations and Proposals

Our bylaws establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of our board of directors or a committee of our board of directors. These provisions may have the effect of precluding the conduct of certain business at a meeting if the proper procedures are not followed.

Table of Contents

These provisions may also discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to obtain control of our company.

Board Classification

Our board of directors is divided into three classes, one class of which is elected each year by our stockholders. The directors in each class serve for three-year terms. In addition, our certificate of incorporation and our bylaws provide that directors may be removed only for cause. The classification of our board of directors and the limitations on the ability of our stockholders to remove directors could make it more difficult for a third party to acquire, or discourage a third party from seeking to acquire, control of our company.

No Cumulative Voting

Our certificate of incorporation and bylaws do not permit cumulative voting in the election of directors. Cumulative voting allows a stockholder to vote a portion or all of the stockholder's shares for one or more candidates for seats on the board of directors. Without cumulative voting, a minority stockholder may not be able to gain as many seats on our board of directors as the stockholder would be able to gain if cumulative voting were permitted. The absence of cumulative voting makes it more difficult for a minority stockholder to gain a seat on our board of directors to influence our board's decision regarding a takeover or otherwise.

Amendment of Charter Provisions

The amendment of the above provisions of our certificate of incorporation and bylaws requires approval by holders of at least two-thirds of our outstanding capital stock entitled to vote generally in the election of directors.

Delaware Anti-Takeover Statute

Our certificate of incorporation provides that we are not governed by Section 203 of the DGCL which, in the absence of such provisions, would have imposed additional requirements regarding mergers and other business combinations.

The provisions of our certificate of incorporation and bylaws could have the effect of discouraging others from attempting hostile takeovers and, as a consequence, might also inhibit temporary fluctuations in the market price of our common stock that often result from actual or rumored hostile takeover attempts. These provisions might also have the effect of preventing changes in our management. It is possible that these provisions could make it more difficult to accomplish transactions that stockholders might otherwise deem to be in their best interests.

Limitations of Liability and Indemnification

Our certificate of incorporation and bylaws provide that we will indemnify our directors and officers, and may indemnify our team members and other agents, to the fullest extent permitted by the DGCL, which prohibits our certificate of incorporation from limiting the liability of our directors for the following:

any breach of the director's duty of loyalty to us or to our stockholders;

Table of Contents

acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law;

unlawful payment of dividends or unlawful stock repurchases or redemptions; and

any transaction from which the director derived an improper personal benefit.

If Delaware law is amended to authorize corporate action further eliminating or limiting the personal liability of a director, then the liability of our directors will be eliminated or limited to the fullest extent permitted by Delaware law, as so amended. Our certificate of incorporation will not eliminate a director's duty of care and, in appropriate circumstances, equitable remedies, such as injunctive or other forms of non-monetary relief, remain available under Delaware law. This provision also does not affect a director's responsibilities under any other laws, such as the federal securities laws or other state or federal laws. Under our bylaws, we will also be empowered to purchase insurance on behalf of any person whom we are required or permitted to indemnify.

In addition to the indemnification required in our certificate of incorporation and bylaws, we have entered into indemnification agreements with each of our current directors and executive officers. These agreements will provide for the indemnification of such persons for all reasonable expenses and liabilities, including attorneys' fees, judgments, fines, and settlement amounts, incurred in connection with any action or proceeding brought against them by reason of the fact that they are or were serving in such capacity. We believe that these bylaw provisions and indemnification agreements are necessary to attract and retain qualified persons as directors and officers. We also maintain directors' and officers' liability insurance.

The limitation of liability and indemnification provisions in our certificate of incorporation and bylaws may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duties. They may also reduce the likelihood of derivative litigation against directors and officers, even though an action, if successful, might benefit us and our stockholders. A stockholder's investment may be harmed to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers, and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act, and is, therefore, unenforceable. There is no pending litigation or proceeding naming any of our directors or officers as to which indemnification is being sought, nor are we aware of any pending or threatened litigation that may result in claims for indemnification by any director or officer.

The selling stockholders may, from time to time, pledge or grant a security interest in some or all of the shares of common stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock, from time to time, under this prospectus, or under a supplement to this prospectus under Rule 424(b)(3) or other applicable provision of

case the transferees, pledgees, or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

In connection with the sale of our common stock or interests therein, the selling stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the common stock in the course of hedging the positions they assume. The selling stockholders may also sell shares of our common stock short and deliver these securities to close out their short positions, or loan or pledge the common stock to broker-dealers that in turn may sell these securities. The selling stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The aggregate proceeds to the selling stockholders from the sale of the common stock offered by them will be the purchase price of the common stock less discounts or commissions, if any. Each of the selling stockholders reserves the right to accept and, together with their agents from time to time, to reject, in whole or in part, any proposed purchase of common stock to be made directly or through agents. We will not receive any of the proceeds from this offering.

The selling stockholders also may resell all or a portion of the shares in open market transactions in reliance upon Rule 144 under the Securities Act, provided that they meet the criteria and conform to the requirements of that rule.

Any underwriters, broker-dealers, or agents that participate in the sale of the common stock or interests therein may be underwriters within the meaning of Section 2(11) of the Securities Act. Any discounts, commissions, concessions, or profit they earn on any resale of the shares may be underwriting discounts and commissions under the Securities Act.

In order to comply with the securities laws of some states, if applicable, the common stock may be sold in these jurisdictions only through registered or licensed brokers or dealers. In addition, in some states the common stock may not be sold unless it has been registered or qualified for sale or an exemption from registration or qualification requirements is available and is complied with.

We have advised the selling stockholders that the anti-manipulation rules of Regulation M under the Exchange Act may apply to sales of shares in the market and to the activities of the selling stockholders and their affiliates. In addition, to the extent applicable we will make copies of this prospectus (as it may be supplemented or amended from time to time) available to the selling stockholders for the purpose of satisfying the prospectus delivery requirements of the Securities Act. The selling stockholders may indemnify any broker-dealer that participates in transactions involving the sale of the shares against certain liabilities, including liabilities arising under the Securities Act.

We have agreed to indemnify the selling stockholders against liabilities, including liabilities under the Securities Act and state securities laws, relating to the registration of the shares offered by this prospectus.

We have agreed with the selling stockholders to keep the registration statement of which this prospectus constitutes a part effective until such time as all of the shares covered by this prospectus have been disposed of pursuant to and in accordance with the registration statement.
