OPERATING RESULTS

Rental income, net rental income and operating loss for the second quarter of 2015 and the same quarter of 2014 were presented excluding the discontinued operations (Shenzhen and Wuxi facilities). Rental income was mainly derived from properties and lands located in Shenzhen. Operating loss for the second quarter of 2015 was \$2.7 million, which was at the similar level with the operating loss in the second quarter of last year. The rental agreement with external lessee on the Guangming land has ended in this quarter due to the expiry of the lease terms. As such, from the third quarter of 2015 onwards, the rental income is expected to be lower.

With respect to the discontinued operations (Shenzhen and Wuxi facilities), for the second quarter of 2015 and the same period of 2014, net sales were nil and \$2.6 million, gross profit was nil and \$0.2 million, and operating loss was \$0.2 million and \$4.8 million, respectively.

After considering the loss from discontinued operations (net of tax), net income in the second quarter of 2015 was \$0.8 million, or \$0.02 per diluted share, compared to net loss of \$4.5 million, or loss of \$0.10 per diluted share in the second quarter of last year. Net income for the second quarter of 2015 primarily is comprised of (i) income of \$0.9 million from continuing operations in the second quarter of 2015, compared to loss of \$0.2 million in the same period of last year, (ii) and loss of \$0.1 million from discontinued operations (net of tax) in the second quarter of 2015, compared to loss of \$4.3 million in the same period of last year.

Net income for the six months ended June 30, 2015 was \$0.8 million, or \$0.02 per diluted share, compared to net loss of \$26.1 million, or loss of \$0.58 per diluted share, in the same period of last year. Net income (loss) for the six months ended June 30, 2015 was primarily comprised of (i) the loss of \$0.2 million from discontinued operations (net

of tax) for the six months ended June 30, 2015, compared to loss of \$22.8 million (mainly included impairment charge of \$19.0 million on assets held for sale and land repurchase from local government in Wuxi and loss of \$3.2 million on one-off amortization for certain leasehold improvements), in the same period of last year, and (ii) income of \$1.0 million from continuing operations for the six months ended June 30, 2015, compared to loss of \$3.4 million in the same period of last year.

Please see page 6 of the Company's Condensed Consolidated Statements of Comprehensive Income for further details. COMPANY OUTLOOK

With the cessation of LCM business in April 2014, the Company has been focusing its effort in developing the land parcels in Shenzhen.

In view of the movement in the property market in Shenzhen for the past 12 months, we have engaged three internationally well-known and leading independent appraisal firms (namely Jones Lang LaSalle, Savills and DTZ) to prepare the latest valuation reports on the two land parcels (in Guangming and Gushu).

For reference to the reports, please see http://www.namtai.com/investors#investors/real_estates

In relation to the land parcels (in Guangming and Gushu) in Shenzhen, the construction permit application processes have been proceeding smoothly, and we believe that we can obtain the necessary permits and approvals to carry out the next stages of our property development projects on schedule.

For the Guangming project (Phase 1), we have obtained the Permit for Construction Site Planning where we are now allowed to start planning for the work at the site. We have appointed an internationally renowned, award winning architectural and qualified professional architectural design firm for the mixed-use style development for the next stage of this project.

Based on the current plan, subject to the final approval of the relevant authorities in China, the Phase 1 of the Guangming project will consist of mixed development of office buildings, retail area, hotel and apartment complexes. The Guangming project (Phase 2) will commence upon the completion of Guangming project (Phase 1). Based on the current timetable, the construction at the Gushu area is expected to commence no earlier than 2017.

A summary of our planned gross floor area of the two land parcels in Shenzhen is as follows:

	Guangming		Gushu	
	Phase 1	Phase 2	Phase 1	Phase 2
Plot ratios	2.55 to 3.63		6.33	
Gross floor area (GFA) sq meters	265,000	96,528	141,620	141,620
Underground floor area sq meters	125,280	45,000	40,000	40,000
GFA subtotal (by land area) sq meters	531,808		363,240	

Please note that the eventual plot ratio and GFA for the two parcels of land could be different from the above, and are subject to the final approval of the relevant authorities in China.

At this juncture, we continue to seek potential joint venture partners for the development of the land parcels in Shenzhen. External agents have been engaged to source suitable, capable and experienced joint venture partners. Before a joint venture partner is secured, we will work with other external professional firms in all material property development matters. In the event that no suitable joint venture partners can be found, we will continue with the land development projects mainly by relying on and supported by external professional firms. We have started to seek potential suitable, capable and experienced external professional agents or firms concerning our project management and permit applications for the development of the land parcels in Shenzhen. Based on the current timetable and progress, we do not foresee any immediate difficulties in the permit application process. We will continue to make timely announcements to keep shareholders informed about material developments.

As for our Wuxi plant, the factory building continues to be listed for sale.

The current headcount of our Group is 66 as at June 30, 2015 and we believe that our overhead expenses are under control. We currently derive a majority of our income from rental and interest income. In 2015, the People's Bank of China has, at three different occasions, cut the benchmark interest rates in China. This has resulted in the reductions in the Renminbi denominated official cash deposit interest rates in China and Hong Kong. Such reductions in the official cash deposit interest rates have adversely impacted our interest income correspondingly. From the third quarter of 2015 onwards, we expect the interest income to be lower. As of June 30, 2015, total cash was \$298.6 million which included \$55 million loan (as part of the approved \$90 million loan facility) drawn down from HSBC in preparation for the upcoming share repurchase program. Please refer to the Share Repurchase Program section below for more information on our share repurchase program. With our current cash position, we believe our finances remain healthy to fund the initial stages of these property development projects in the next two to three years. All our land development related applications are subject to government policies and regulations in the real estate market. However, this is our first venture into the land development projects after the cessation of the LCM business, and we may encounter industry-specific difficulties that result in losses as we progress with our projects in Shenzhen. For more information on risks in our business, please refer to the *Risk Factors* section of the 2014 Form 20-F as filed with the SEC and on our website.

The information contained in or that can be accessed through the website mentioned in this announcement does not form part of this announcement.

SHARE REPURCHASE PROGRAM

In our continued effort to demonstrate confidence in the Company and its prospects, we plan to execute another new tender offer program to repurchase up to 15 million shares. For more information specific to this tender offer, please refer to the Form 6-K as filed with the SEC and press release uploaded on our corporate website on this matter.

CHANGE IN FUNCTIONAL CURRENCY

Effective from April 1, 2015, the Company's subsidiaries in China changed their functional currency from the US dollar to the Renminbi. This change was made upon the progress of the property development projects in China causing the Company's subsidiaries primary operating activities to be in Renminbi and making the Renminbi the currency of the economic environment in which the entities primarily generate and expend cash.

PAYMENT OF QUARTERLY DIVIDENDS FOR 2015

As announced on December 19, 2014, the Company has set the payment schedule of quarterly dividends for 2015. The dividend for Q3 2015 was paid on July 17, 2015. The dividend for Q4 2015 will be paid before October 31, 2015 and the record date will be September 30, 2015.

The following table updates the previously announced schedule for declaration and payment of quarterly dividends in 2015.

Q3 2015	June 30, 2015	July 17, 2015	\$ 0.02	PAID
Q4 2015	September 30, 2015	before October 31, 2015	\$ 0.02	
Total for Full Year 2015			\$ 0.08	

The Company's decision to continue dividend payments in 2015 as set out and confirmed in the above table does not necessarily mean that cash dividend payments will continue thereafter. Whether future dividends after 2015 are to be declared will depend upon Company's future growth and earnings at each relevant period, of which there can be no assurance, and the Company's cash flow needs for business operations and transformation. Accordingly, there can be no assurance that cash dividends on the Company's common shares will be declared beyond those declared for 2015, and we also cannot assure you what the amounts of such dividends will be or whether such dividends, once declared for a specific period, will continue for any future period, or at all.
