SPECIAL NOTE ON FORWARD-LOOKING INFORMATION

This Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, which we refer to as the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, which we refer to as the Exchange Act. Such statements are based upon current expectations that involve risks and uncertainties. Any statements contained herein or in documents incorporated by reference that are not statements of historical fact may be deemed to be forward-looking statements. For example, words such as may, will, should, estimates, predicts, potential, continue, strategy, believes, anticipates, plans, expects, and other similar expressions are intended to identify forward-looking statements.

Our actual results and the outcome and timing of certain events may differ significantly from the expectations discussed in the forward-looking statements. Factors that might cause or contribute to such a discrepancy include, but are not limited to, the factors set forth below and may impact either or both of our operating segments:

market conditions, including trading volume and volatility, potential deterioration of equity and debt capital markets and markets for commercial real estate and related services, and our ability to access the capital markets;

pricing, commissions and fees, and market position with respect to our products and services and those of our competitors;

the effect of industry concentration and reorganization, reduction of customers, and consolidation;

liquidity, regulatory, and clearing capital requirements and the impact of credit market events;

our relationships with Cantor Fitzgerald, L.P. and its affiliates, which we refer to as Cantor, including Cantor Fitzgerald & Co., which we refer to as CF&Co, and Cantor Commercial Real Estate Company, L.P., which we refer to as CCRE, any related conflicts of interest, any impact of Cantor's results on our credit ratings and/or the associated outlooks, CF&Co's acting as our sales agent under our controlled equity or other offerings, CF&Co's acting as our financial advisor in connection with potential business combinations, dispositions, or other transactions, our participation in various investments, stock loans or cash management vehicles placed by or recommended by CF&Co, and any services by CCRE with respect to finding and reviewing suitable acquisition or partner candidates, structuring transactions, and negotiating and due diligence services;

economic or geopolitical conditions or uncertainties, the actions of governments or central banks, and the impact of natural disasters or weather-related or similar events, including power failures, communication and transportation disruptions, and other interruptions of utilities or other essential services;

the effect on our businesses, our clients, the markets in which we operate, and the economy in general of possible shutdowns of the U.S. government, sequestrations, uncertainties regarding the debt ceiling and the federal budget, and other potential political impasses;

the effect on our businesses of reductions in overall industry volumes in certain of our products as a result of Federal Reserve Board quantitative easing, the ending of quantitative easing, and other factors, including the level and timing of governmental debt issuances and outstanding amounts;

the effect on our businesses of worldwide governmental debt issuances, austerity programs, increases or decreases in deficits, quantitative easing, and potential political impasses or regulatory requirements, including increased capital requirements for banks and other institutions;

extensive regulation of our businesses, changes in regulations relating to the financial services, commercial real estate and other industries, and risks relating to compliance matters, including regulatory examinations, inspections, investigations and enforcement actions, and any resulting costs, fines, penalties, sanctions, enhanced oversight, increased financial and capital requirements, and changes to or restrictions or limitations on specific activities, operations, compensatory arrangements, and growth opportunities, including acquisitions, hiring, and new businesses, products, or services;

factors related to specific transactions or series of transactions, including credit, performance, and unmatched principal risk, trade failures, counterparty failures, and the impact of fraud and unauthorized trading;

costs and expenses of developing, maintaining, and protecting our intellectual property, as well as employment and other litigation and their related costs, including judgments or settlements paid or received and the impact thereof on our financial results and cash flows in any given period;

certain financial risks, including the possibility of future losses, reduced cash flows from operations, increased leverage and the need for short- or long-term borrowings or other sources of cash relating to acquisitions, dispositions, or other matters, potential liquidity and other risks relating to our ability to obtain financing or refinancing of existing debt on terms acceptable to us, if at all, and risks of the resulting leverage, including potentially causing a reduction in our credit ratings and/or the associated outlooks and increased borrowing costs, as well as interest rate and foreign currency exchange rate fluctuations;

Table of Contents

risks associated with the temporary or longer-term investment of our available cash, including defaults or impairments on our investments, stock loans or cash management vehicles and collectability of loan balances owed to us by partners, employees, or others;

our ability to enter new markets or develop new products, trading desks, marketplaces, or services and to induce customers to use these products, trading desks, marketplaces, or services and to secure and maintain market share;

our ability to enter into marketing and strategic alliances and business combinations or other transactions in the financial services, real estate, and other industries, including acquisitions, tender offers, dispositions, reorganizations, partnering opportunities and joint ventures, and our ability to maintain or develop relationships with independently owned offices in our real estate services business, the anticipated benefits of any such transactions or relationships and the future impact of any such transactions or relationships on our financial results for current or future periods, the integration of any completed acquisitions and the use of proceeds of any completed dispositions, and the value of and any hedging entered into in connection with consideration received or to be received in connection with such dispositions;

our estimates or determinations of potential value with respect to various assets or portions of our businesses, including with respect to the accuracy of the assumptions or the valuation models or multiples used;

our ability to hire and retain personnel, including brokers, salespeople, managers, and other professionals;

our ability to expand the use of technology for hybrid and fully electronic trading in our product and service offerings;

our ability to effectively manage any growth that may be achieved, while ensuring compliance with all applicable financial reporting, internal control, legal compliance, and regulatory requirements;

our ability to identify and remediate any material weaknesses in our internal controls that could affect our ability to prepare financial statements and reports in a timely manner, control our policies, practices and procedures, operations and assets, assess and manage our operational, regulatory, and financial risks, and integrate our acquired businesses and brokers, salespeople, managers and other professionals;

the effectiveness of our risk management policies and procedures, and the impact of unexpected market moves and similar events;

information technology risks, including, capacity constraints, failures, or disruptions in our systems or those of the clients, counterparties, exchanges, clearing facilities, or other parties with which we interact, including cybersecurity risks and incidents;

the fact that the prices at which shares of our Class A common stock are sold in one or more of our controlled equity offerings or in other offerings or other transactions may vary significantly, and purchasers of shares in such offerings or transactions, as well as existing stockholders, may suffer significant dilution if the price they paid for their shares is higher than the price paid by other purchasers in such offerings or transactions;

our ability to meet expectations with respect to payments of dividends and distributions and repurchases of shares of our Class A common stock and purchases or redemptions of limited partnership interests of BGC Holdings, L.P., which we refer to as BGC Holdings, or other equity interests in our subsidiaries, including from Cantor, our executive officers, other employees, partners, and others, and the net proceeds to be realized by us from offerings of our shares of Class A common stock; and

the effect on the market for and trading price of our Class A common stock of various offerings and other transactions, including our controlled equity and other offerings of our Class A common stock and convertible or exchangeable debt securities, our repurchases of shares of our Class A common stock and purchases of BGC Holdings limited partnership interests or other equity interests in our subsidiaries, any exchanges or redemptions of limited partnership units and issuances of shares of Class A common stock in connection therewith, including in partnership restructurings, our payment of dividends on our Class A common stock and distributions on BGC Holdings limited partnership interests, convertible arbitrage, hedging, and other transactions engaged in by holders of our 4.50% convertible notes and counterparties to our capped call transactions, share sales and stock pledge, stock loan, and other financing transactions by holders of our shares (including by Cantor or others), including of shares acquired pursuant to our employee benefit plans, unit exchanges and redemptions, partnership restructurings, acquisitions, conversions of our Class B common stock and our convertible notes, conversions or exchanges of our convertible or exchangeable debt securities, stock pledge, stock loan, or other financing transactions, and distributions from Cantor pursuant to Cantor's distribution rights obligations and other distributions to Cantor partners, including deferred distribution rights shares.

(GFI) for \$6.10 per share in cash and accepted for purchase 54.3 million shares (the Tendered Shares) tendered to the Company pursuant to our offer (the Offer). The Tendered Shares, together with the 17.1 million Shares already owned by the Company, represent approximately 56% of GFI's outstanding shares. On April 28, 2015 a subsidiary of BGC purchased approximately 43.0 million newly issued shares of GFI's common stock (the New Shares) at the price of \$5.81 per share for an aggregate purchase price of \$250 million, increasing our ownership in GFI to approximately 67.0%. The purchase price was paid to GFI in the form of a note due on June 19, 2018 that bears an interest rate of LIBOR plus 200 basis points. GFI is a leading intermediary and provider of trading technologies and support services to the global OTC and listed markets. Basis of Presentation

The Company's unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (the SEC) and in conformity with accounting principles generally accepted in the U.S. (U.S. GAAP). The Company's unaudited condensed consolidated financial statements include the Company's accounts and all subsidiaries in which the Company has a controlling interest. Intercompany balances and transactions have been eliminated in consolidation. Certain reclassifications have been made to previously reported amounts to conform to the current presentation.

During the year ended December 31, 2014, the Company changed the presentation of certain line items in the unaudited condensed consolidated statements of operations. The Company now presents a new section entitled Other income (losses), net which is comprised of Gain on divestiture and sale of investments, Gains (losses) on equity method investments and Other income. Gain on divestiture and sale of investments and Gains (losses) on equity method investments were both previously presented as separate revenue line items.

During the three months ended March 31, 2015 the Company created a new line item for the remaining noncontrolling interest shareholders of GFI, a consolidated subsidiary of the Company. On April 29, 2015, the Company announced that a subsidiary of BGC purchased from GFI approximately 43.0 million New Shares at that date's closing price of \$5.81 per share, for an aggregate purchase price of \$250 million. The purchase price was paid to GFI in the form of a note due on June 19, 2018 that bears an interest rate of LIBOR plus 200 basis points. Due to intercompany elimination, the New Shares and the note will have no impact on the consolidated balance sheet of BGC. Following the issuance of the New Shares, BGC owns approximately 67.0% of GFI's outstanding common stock. The Company accounts for the noncontrolling interest in GFI outside of permanent capital, as Redeemable noncontrolling interest, in the Company's unaudited condensed consolidated statements of financial condition. This classification is applicable, as these shares are redeemable at a price of \$6.10 per share pursuant to the tender offer, for cash and/or BGC shares.

Table of Contents

During the three months ended March 31, 2015 the Company changed the presentation of certain line items in our unaudited condensed consolidated statements of operations. We combined Market data and Software solutions into one line item Market data and software solutions. Reclassifications have been made to previously reported amounts to conform to the current presentation.

The unaudited condensed consolidated financial statements contain all normal and recurring adjustments that, in the opinion of management, are necessary for a fair presentation of the unaudited condensed consolidated statements of financial condition, the unaudited condensed consolidated statements of operations, the unaudited condensed consolidated statements of comprehensive income, the unaudited condensed consolidated statements of cash flows and the unaudited condensed consolidated statements of changes in equity of the Company for the periods presented.

Recent Accounting Pronouncements

In April 2014, the FASB issued ASU No. 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components on an Entity, which amends the requirements for reporting discontinued operations in ASC 205-20. The ASU includes changes in the criteria and required disclosures for disposals qualifying as discontinued operations, as well as additional required disclosures for disposals not considered discontinued operations. The amendments in this update are effective for the annual period beginning on January 1, 2015 for the Company. The adoption of this FASB guidance did not have a material impact on the Company's unaudited condensed consolidated financial statements.

On May 28, 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which relates to how an entity recognizes the revenue it expects to be entitled to for the transfer of promised goods and services to customers. The ASU will replace certain existing revenue recognition guidance when it becomes effective on January 1, 2018. Early adoption is permitted. The standard permits the use of either the retrospective or cumulative effect transition method. Management is currently evaluating the impact of the future adoption of the ASU on the Company's unaudited condensed consolidated financial statements.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements - Going Concern, which relates to disclosure of uncertainties about an entity's ability to continue as a going concern. The ASU provides additional guidance on management's responsibility to evaluate the condition of an entity and the required disclosures based on this assessment. The amendments in this update are effective for the annual period ending after December 15, 2016, and early application is permitted. The adoption of this FASB guidance would not impact the Company's unaudited condensed consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03, Interest - Imputation of Interest, which relates to simplifying the presentation of debt issuance costs. The ASU requires that debt issuance costs related to a recognized liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The amendments in this update are effective for the annual period beginning January 1, 2016 for the Company, and early adoption is permitted. The adoption of this FASB guidance would not impact the Company's unaudited condensed consolidated financial statements.

2. Divestiture

In connection with the successful completion of the Tender Offer to acquire GFI on February 26, 2015, the Company acquired Kyte Group Limited (KGL) which primarily included GFI's clearing business, and Kyte Broking Limited (KBL). On January 24, 2015, GFI entered into an agreement to sell its 100% equity ownership of KGL, and the

transaction was completed in March 2015. The total cash consideration received by the Company was approximately \$10.6 million. The loss incurred from the sale of KGL of \$0.2 million is recorded as Gain on divestiture and sale of investments in the Company's unaudited condensed consolidated statements of operations.

On February 3, 2015, GFI entered into an agreement to sell 100% equity ownership of KBL. In May 2015, the Company completed the sale of KBL. The Company recorded a gain on the sale of \$0.8 million, which was included within Gain on divestiture and sale of investments in the unaudited condensed consolidated statements of operations. KBL's operations prior to the completion of the transaction are included in the unaudited condensed consolidated statements of operations for the three and six months ended June 30, 2015.

3. Limited Partnership Interests in BGC Holdings

BGC Holdings, L.P. (BGC Holdings) is a consolidated subsidiary of the Company for which the Company is the general partner. The Company and BGC Holdings jointly own BGC Partners, L.P. (BGC US) and BGC Global Holdings L.P. (BGC Global), the two operating partnerships. Listed below are the limited partnership interests in BGC Holdings. The founding/working partner units, limited partnership units and limited partnership interests held by Cantor Fitzgerald, L.P. (Cantor) (Cantor units), each as described below, collectively represent all of the limited partnership interests in BGC Holdings.

Founding/Working Partner Units

Founding/working partners have a limited partnership interest in BGC Holdings. The Company accounts for founding/working partner units (FPU) outside of permanent capital, as Redeemable partnership interest, in the Company's unaudited condensed consolidated statements of financial condition. This classification is applicable to founding/working partner units because these units are redeemable upon termination of a partner, including a termination of employment, which can be at the option of the partner and not within the control of the issuer.

Table of Contents

Founding/working partner units are held by limited partners who are employees and generally receive quarterly allocations of net income. Upon termination of employment or otherwise ceasing to provide substantive services, the founding/working partner units are generally redeemed, and the unit holders are no longer entitled to participate in the quarterly allocations of net income. Since these allocations of net income are cash distributed on a quarterly basis and are contingent upon services being provided by the unit holder, they are reflected as a component of compensation expense under "Allocations of net income and grant of exchangeability to limited partnership units and FPU" in the Company's unaudited condensed consolidated statements of operations.

Limited Partnership Units

Certain employees hold limited partnership interests in BGC Holdings (e.g., REUs, RPU, PSU, PSI and LPU, collectively the "limited partnership units"). Generally, such units receive quarterly allocations of net income, which are cash distributed and generally are contingent upon services being provided by the unit holders. As prescribed in FASB guidance, the quarterly allocations of net income on such limited partnership units are reflected as a component of compensation expense under "Allocations of net income and grant of exchangeability to limited partnership units and FPU" in the Company's unaudited condensed consolidated statements of operations. From time to time the Company issues limited partnership units as part of the consideration for acquisitions. These units are not entitled to a distribution of earnings.

Certain of these limited partnership units entitle the holders to receive post-termination payments equal to the notional amount of the units in four equal yearly installments after the holder's termination. These limited partnership units are accounted for as post-termination liability awards, and in accordance with FASB guidance, the Company records compensation expense for the awards based on the change in value at each reporting date in the Company's unaudited condensed consolidated statements of operations as part of "Compensation and employee benefits."

The Company has also awarded certain preferred partnership units ("Preferred Units"). Each quarter, the net profits of BGC Holdings are allocated to such units at a rate of either 0.6875% (which is 2.75% per calendar year) or such other amount as set forth in the award documentation (the "Preferred Distribution"). These allocations are deducted before the calculation and distribution of the quarterly partnership distribution for the remaining partnership units and are generally contingent upon services being provided by the unit holder. The Preferred Units are not entitled to participate in partnership distributions other than with respect to the Preferred Distribution. Preferred Units may not be made exchangeable into the Company's Class A common stock and are only entitled to the Preferred Distribution, and accordingly they are not included in the Company's fully diluted share count. The quarterly allocations of net income on Preferred Units are reflected in compensation expense under "Allocations of net income and grant of exchangeability to limited partnership units and FPU" in the Company's unaudited condensed consolidated statements of operations. After deduction of the Preferred Distribution, the remaining partnership units generally receive quarterly allocations of net income based on their weighted-average pro rata share of economic ownership of the operating subsidiaries.

Cantor Units

Cantor units are reflected as a component of "Noncontrolling interest in subsidiaries" in the Company's unaudited condensed consolidated statements of financial condition. Cantor receives allocations of net income, which are cash distributed on a quarterly basis and are reflected as a component of "Net income attributable to noncontrolling interest in subsidiaries" in the Company's unaudited condensed consolidated statements of operations.

General

Certain of the limited partnership interests, described above, have been granted exchangeability into Class A common stock on a one-for-one basis (subject to adjustment); additional limited partnership interests may become exchangeable for Class A common stock on a one-for-one basis (subject to adjustment). Any exchange of limited partnership interests into Class A common shares would not impact the fully diluted number of shares and units outstanding. Because these limited partnership interests generally receive quarterly allocations of net income, such exchange would have no significant impact on the cash flows or equity of the Company. Each quarter, net income is allocated between the limited partnership interests and the common stockholders. In quarterly periods in which the Company has a net loss, the loss allocation for FPU, limited partnership units and Cantor units is allocated to Cantor and reflected as a component of Net income attributable to noncontrolling interest in subsidiaries in the Company's unaudited condensed consolidated statements of operations. In subsequent quarters in which the Company has net income, the initial allocation of income to the limited partnership interests is to Net income attributable to noncontrolling interests in subsidiaries, to recover any losses taken in earlier quarters, with the remaining income allocated to the limited partnership interests. This income (loss) allocation process has no impact on the net income allocated to common stockholders.

4. Acquisitions

Financial Services

On February 26, 2015, the Company successfully completed our tender offer to acquire shares of common stock, par value \$0.01 per share, of GFI for \$6.10 per share in cash and accepted for purchase 54.3 million shares tendered to us pursuant to the offer. The Tendered Shares, together with the 17.1 million Shares already owned by us, represented approximately 56% of the then outstanding shares of GFI. The Company issued payment for the Tendered Shares on March 4, 2015 in the aggregate amount of \$331.1 million. On April 28, 2015, a subsidiary of the Company purchased from GFI approximately 43.0 million New Shares at that date's closing price of \$5.81 per share, for an aggregate purchase price of \$250 million. The purchase price was paid to GFI in the form of a note due on June 19, 2018 that bears an interest rate of LIBOR plus 200 basis points. The New Shares and the note eliminate on consolidation of the Company. Following the issuance of the New Shares, we own approximately 67% of GFI's outstanding common stock, which now gives the Company control over the timing and process for the completion of the

Table of Contents

back-end merger pursuant to the tender offer agreement. GFI is a leading intermediary and provider of trading technologies and support services to the global OTC and listed markets. GFI serves more than 2,500 institutional clients in operating electronic and hybrid markets for cash and derivative products across multiple asset classes. The excess of total consideration over the fair value of the total net assets acquired, of approximately \$428.9 million, has been recorded to goodwill and was allocated to the Company's Financial Services segment. In addition, Total revenues in the Company's unaudited condensed consolidated statements of operations for the three and six months ended June 30, 2015 included \$172.5 million and \$236.9 million, respectively, related to GFI from the date of acquisition.

The following tables summarize the components of the purchase consideration transferred and the preliminary allocation of the assets acquired and liabilities assumed based on the fair values as of the acquisition date (in millions). The Company expects to finalize its analysis of the assets acquired and liabilities assumed within the first year of the acquisition, and therefore adjustments to assets and liabilities may occur.

Table of Contents

The following unaudited pro forma summary presents consolidated information of the Company as if the acquisition of GFI had occurred on January 1, 2014, and as if the Company owns 67% of GFI from the date of acquisition. The unaudited pro forma results are not indicative of operations that would have been achieved, nor are they indicative of future results of operations. The unaudited pro forma results do not reflect any potential cost savings or other operations efficiencies that could result from the acquisition. In addition, the unaudited pro forma condensed combined financial information does not include any adjustments in respect of certain expenses recorded in the GFI financial statements that were associated with non-recurring events unrelated to the acquisition (for example, a \$121.6 million charge related to the impairment of goodwill) and does not include any adjustments in respect of any potential future sales of assets. However, the unaudited pro forma results below for the six months ended June 30, 2015 do include non-recurring pro forma adjustments directly related to the acquisition which mainly consisted of: (a) Prior to the acquisition, GFI had entered into an agreement with the CME Group Inc. (CME) for CME to acquire GFI. The CME transaction was terminated and as a result, GFI incurred breakage costs of approximately \$24.7 million; (b) Severance and compensation restructuring charges of \$22.2 million incurred by GFI; and (c) The aggregate of BGC's and GFI's professional fees incurred which totaled \$24.9 million.

Real Estate Services

During May and June 2015, the Company completed the acquisition of certain entities of Apartment Realty Advisors (ARA) and its members. ARA is the nation's largest privately held, full service investment brokerage network, focusing exclusively on the multi-housing industry.

During May 2015, the Company completed the acquisition of Computerized Facility Integration, LLC (CFI). CFI is a premier real estate strategic consulting and systems integration firm that provides corporate real estate, facilities management, and enterprise asset management information consulting and technology solutions.

The total consideration for acquisitions during the six months ended June 30, 2015, within the Real Estate Services segment was approximately \$122.9 million, comprised of cash, shares of BGCP Class A common stock and BGC Holdings limited partnership units. The total consideration included contingent consideration of approximately 0.3 million restricted shares of the Company's Class A common stock (with an acquisition date fair value of approximately \$2.3 million), 1.3 million limited partnership units (with an acquisition date fair value of approximately \$10.5 million) and \$24.2 million in cash that may be issued contingent on certain targets being met through 2018. The excess of the consideration over the fair value of the net assets acquired has been recorded as goodwill of approximately \$110.9 million.

The results of operations of the Company's acquisitions have been included in the Company's unaudited condensed consolidated financial statements subsequent to their respective dates of acquisition. The Company has made a preliminary allocation of the consideration to the assets acquired and liabilities assumed as of the acquisition date, and expects to finalize its analysis with respect to acquisitions within the first year after the completion of the transaction. Therefore, adjustments to preliminary allocations may occur.

5. Earnings Per Share

FASB guidance on Earnings Per Share (EPS) establishes standards for computing and presenting EPS. Basic EPS excludes dilution and is computed by dividing net income available to common stockholders by the weighted-average shares of common stock outstanding and contingent shares for which all necessary conditions have been satisfied except for the passage of time. Net income is allocated to the Company's outstanding common stock, FPU, limited partnership units and Cantor units (see Note 3 Limited Partnership Interests in BGC Holdings).

The Company's earnings for the three and six months ended June 30, 2015 and 2014 were allocated as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Net income available to common stockholders	\$ 9,347	\$ 7,601	\$ 23,402	\$ 15,609
Allocation of income to limited partnership interests in BGC Holdings	\$ 5,119	\$ 4,536	\$ 15,257	\$ 8,407

The following is the calculation of the Company's basic EPS (in thousands, except per share data):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014

Fully diluted EPS is calculated utilizing net income available for common stockholders plus net income allocations to the limited partnership interests in BGC Holdings, as well as adjustments related to the interest expense on the Convertible Notes, if applicable (see Note 17 Notes Payable, Collateralized and Short-Term Borrowings), and expense related to dividend equivalents for certain RSUs, if applicable, as the numerator. The denominator is comprised of the Company's weighted-average outstanding shares of common stock and, if dilutive, the weighted-average number of limited partnership interests and other contracts to issue shares of common stock, including Convertible Notes, stock options and RSUs. Except for the Preferred Units, the limited partnership interests generally are potentially exchangeable into shares of Class A common stock and are entitled to remaining earnings after the deduction for the Preferred Distribution; as a result, they are included in the fully diluted EPS computation to the extent that the effect would be dilutive.

For the three months ended June 30, 2015 and 2014, respectively, approximately 20.8 million and 44.4 million potentially dilutive securities were not included in the computation of fully diluted EPS because their effect would have been anti-dilutive. Anti-dilutive securities for the three months ended June 30, 2015 included, on a weighted-average basis, 19.7 million shares underlying Convertible Notes and 1.1 million other securities or other contracts to issue shares of common stock.

Additionally, as of June 30, 2015 and 2014, respectively, approximately 11.4 million and 5.8 million shares of contingent Class A common stock and limited partnership units were excluded from the fully diluted EPS computations because the conditions for issuance had not been met by the end of the respective periods.

11. Derivatives

In the normal course of operations, the Company enters into derivative contracts. These derivative contracts primarily consist of interest rate swaps, futures, forwards, foreign exchange/commodities options, and foreign exchange swaps. The Company enters into derivative contracts to facilitate client transactions, hedge principal positions and facilitate hedging activities of affiliated companies.

Derivative contracts can be exchange-traded or OTC. Exchange-traded derivatives typically fall within Level 1 or Level 2 of the fair value hierarchy depending on whether they are deemed to be actively traded or not. The Company generally values exchange-traded derivatives using their closing prices. OTC derivatives are valued using market transactions and other market evidence whenever possible, including market-based inputs to models, broker or dealer quotations or alternative pricing sources with reasonable levels of price transparency. For OTC derivatives that trade in liquid markets, such as generic forwards, swaps and options, model inputs can generally be verified and model selection does not involve significant management judgment. Such instruments are typically classified within Level 2 of the fair value hierarchy.

The Company does not designate any derivative contracts as hedges for accounting purposes. FASB guidance requires that an entity recognize all derivative contracts as either assets or liabilities in the unaudited condensed consolidated statements of financial condition and measure those instruments at fair value. The fair value of all derivative contracts is recorded on a net-by-counterparty basis where a legal right to offset exists under an enforceable netting agreement. Derivative contracts are recorded as part of Receivables from broker-dealers, clearing organizations, customers and related broker-dealers and Payables to broker-dealers, clearing organizations, customers and related broker-dealers in the Company's unaudited condensed consolidated statements of financial condition.

The fair value of derivative contracts, computed in accordance with the Company's netting policy, is set forth below (in thousands):

	June 30, 2015		December 31, 2014	
	Assets	Liabilities	Assets	Liabilities

The notional amounts of these derivative contracts at June 30, 2015 and December 31, 2014 were \$19.0 billion and \$0.3 billion, respectively. At June 30, 2015, the notional amounts primarily consisted of long futures of \$9.3 billion and short futures of \$9.4 billion. As of June 30, 2015, these notional values of long and short futures contracts were primarily related to fixed income futures in a consolidated VIE acquired in the acquisition of GFI, of which the Company's exposure to economic loss is approximately \$5.8 million.

The interest rate swaps represent matched customer transactions settled through and guaranteed by a central clearing organization. Certain of the Company's foreign exchange swaps are with Cantor. See Note 13 Related Party Transactions, for additional information related to these transactions.

Table of Contents

The replacement cost of contracts in a gain position at June 30, 2015 was \$4.0 million.

The change in fair value of interest rate swaps, futures, foreign exchange/commodities options and foreign exchange swaps is reported as part of Principal transactions in the Company's unaudited condensed consolidated statements of operations, and the change in fair value of equity options related to the NASDAQ OMX hedges and forwards are included as part of Other income (loss) in the Company's unaudited condensed consolidated statements of operations. The table below summarizes gains and losses on derivative contracts for the three and six months ended June 30, 2015 and 2014 (in thousands):

Derivative contract	Three Months Ended June 30,		Six Months Ended June 30,

As described in Note 17 Notes Payable, Collateralized and Short-Term Borrowings, on July 29, 2011, the Company issued an aggregate of \$160.0 million principal amount of 4.50% Convertible Senior Notes due 2016 (the 4.50% Convertible Notes) containing an embedded conversion feature. The conversion feature meets the requirements to be accounted for as an equity instrument, and the Company classifies the conversion feature within Additional paid-in capital in the Company's unaudited condensed consolidated statements of financial condition. At the issuance of the 4.50% Convertible Notes, the embedded conversion feature was measured at approximately \$19.0 million on a pre-tax basis (\$16.1 million net of taxes and issuance costs) as the difference between the proceeds received and the fair value of a similar liability without the conversion feature and is not subsequently remeasured.

Also in connection with the issuance of the 4.50% Convertible Notes, the Company entered into capped call transactions. The capped call transactions meet the requirements to be accounted for as equity instruments, and the Company classifies the capped call transactions within Additional paid-in capital in the Company's unaudited condensed consolidated statements of financial condition. The purchase price of the capped call transactions resulted in a decrease to Additional paid-in capital of \$11.4 million on a pre-tax basis (\$9.9 million on an after-tax basis) at the issuance of the 4.50% Convertible Notes, and such capped call transactions are not subsequently remeasured.

12. Fair Value of Financial Assets and Liabilities

As required by FASB guidance, assets and liabilities are classified in their entirety based on the lowest level of FASB guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 measurements Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 measurements Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 measurements Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

As required by FASB guidance, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following tables set forth by level within the fair value hierarchy financial assets and liabilities accounted for at fair value under FASB guidance at June 30, 2015 and December 31, 2014 (in thousands):

The stock price volatility assumptions are based on the historic volatility of the Company's Class A common stock. During the six months ended June 30, 2015 and 2014, the Company released the restrictions with respect to approximately 1.9 million and 5.6 million of such shares, respectively.

Deferred Cash Compensation

As part of the acquisition of GFI, the Company now maintains a Deferred Cash Award Program which was adopted by GFI on February 12, 2013, and provides for the grant of deferred cash incentive compensation to eligible employees. The Company may pay certain bonuses in the form of deferred cash compensation awards, which generally vest over a future service period. In addition, prior to the completion of the tender offer, GFI's outstanding RSUs were converted into the right to receive an amount in cash equal to \$6.10 per unit, with such cash payable on and subject to the terms and conditions of the original vesting schedule of each RSU. The total compensation expense recognized in relation to the deferred cash compensation awards for the three months ended June 30, 2015 was \$8.2 million. The total compensation expense recognized in relation to the deferred cash compensation awards for the six months ended June 30, 2015 was \$11.4 million. Total unrecognized compensation cost related to deferred cash compensation prior to the consideration of forfeitures, was approximately \$44.5 million and is expected to be recognized over a weighted-average period of 1.55 years.

19. Commitments, Contingencies and Guarantees

Contingencies

In the ordinary course of business, various legal actions are brought and are pending against the Company and its affiliates in the U.S. and internationally. In some of these actions, substantial amounts are claimed. The Company is also involved, from time to time, in reviews, examinations, investigations and proceedings by governmental and self-regulatory agencies (both formal and informal) regarding the Company's business, which may result in judgments, settlements, fines, penalties, injunctions or other relief. The following generally does not include matters that the Company has pending against other parties which, if successful, would result in awards in favor of the Company or its subsidiaries.

Employment, Competitor-Related and Other Litigation

From time to time, the Company and its affiliates are involved in litigation, claims and arbitrations in the U.S. and internationally, relating to various employment matters, including with respect to termination of employment, hiring of employees currently or previously employed by competitors, terms and conditions of employment and other matters. In light of the competitive nature of the brokerage industry, litigation, claims and arbitration between competitors regarding employee hiring are not uncommon.

On March 9, 2012, a purported derivative action was filed in the Supreme Court of the State of New York, County of New York captioned International Painters and Allied Trades Industry Pension Fund, etc. v. Cantor Fitzgerald L.P., CF Group Management, Cantor Fitzgerald & Co., the Company and its directors, Index No. 650736-2012. The complaint was dismissed on September 23, 2013. The suit alleged that the terms of the April 1, 2010 8.75% Convertible Notes issued to Cantor were unfair to the Company, the Company's Controlled Equity Offerings unfairly benefited Cantor at the Company's expense and the August 2011 amendment to the change in control agreement of Mr. Lutnick was unfair to the Company. It sought to recover for the Company unquantified damages, disgorgement of payments received by defendants, a declaration that the 8.75% Convertible Notes are void and attorneys' fees (the New York Complaint). On April 2, 2012, a purported derivative action was filed in the Court of Chancery of the State of Delaware captioned Samuel Pill v. Cantor Fitzgerald L.P., CF Group Management, Cantor Fitzgerald & Co., the Company and its directors, Civil Action No. 7382-CS, which suit made similar allegations to the New York Complaint, and seeks the same relief (the Delaware Complaint). On April 12, 2012, the Delaware Complaint was subsequently amended to delete any claim for relief in connection with the 8.75% Convertible Notes. On June 19, 2012, Plaintiff Samuel Pill voluntarily dismissed the Delaware action, without prejudice. On the same date, Plaintiff Pill refiled his complaint in the Supreme Court of the State of New York, County of New York, captioned Samuel Pill v. Cantor Fitzgerald, L.P., CF Group Management, Cantor Fitzgerald & Co., the Company and its directors, Index No. 652126-2012. The two actions filed in New York were consolidated. Defendants filed a motion to dismiss the consolidated action on August 10, 2012, the motion was fully briefed and argued, and the motion to dismiss was granted on September 23, 2013 without prejudice. Thereafter, Plaintiffs filed a motion to reargue on October 15, 2013. The Plaintiff's motion to reargue was denied on March 12, 2014, and a final judgment dismissing the consolidated action with prejudice was entered on April 21, 2014. On April 24, 2014, Plaintiffs filed a notice of appeal and pre-argument statement. On January 23, 2015, the Plaintiffs-Appellants filed their opening brief on appeal. The Defendants-Respondents filed their opposition brief on March 25, 2015. Plaintiffs-Appellants filed their reply brief on April 3, 2015.

In the ordinary course of business, various legal actions are brought and may be pending against the Company. The Company is also involved, from time to time, in other reviews, investigations and proceedings by governmental and self-regulatory agencies (both formal and informal) regarding the Company's business. Any such actions may result in judgments, settlements, fines, penalties, injunctions or other relief.

Legal reserves are established in accordance with FASB guidance on Accounting for Contingencies, when a material legal liability is both probable and reasonably estimable. Once established, reserves are adjusted when there is more information available or when an event occurs requiring a change. The outcome of such items cannot be determined with certainty. The Company is unable to estimate a possible loss or range of loss in connection with specific matters beyond its current accrual and any other amounts disclosed. Management believes that, based on currently available information, the final outcome of these current pending matters will not have a material adverse effect on the Company's consolidated financial statements and disclosures taken as a whole.

Letter of Credit Agreements

The Company has irrevocable uncollateralized letters of credit with various banks, where the beneficiaries are clearing organizations through which it transacted, that are used in lieu of margin and deposits with those clearing organizations. As of June 30, 2015, the Company was contingently liable for \$1.4 million under these letters of credit.

Risk and Uncertainties

The Company generates revenues by providing financial intermediary, securities trading and brokerage activities, and commercial real estate services to institutional customers and by executing and, in some cases, clearing transactions

for institutional counterparties. Revenues for these services are transaction-based. As a result, revenues could vary based on the transaction volume of global financial and real estate markets. Additionally, financing is sensitive to interest rate fluctuations, which could have an impact on the Company's overall profitability.

Guarantees

The Company provides guarantees to securities clearinghouses and exchanges which meet the definition of a guarantee under FASB interpretations. Under these standard securities clearinghouse and exchange membership agreements, members are required to guarantee, collectively, the performance of other members and, accordingly, if another member becomes unable to satisfy its obligations to the clearinghouse or exchange, all other members would be required to meet the shortfall. In the opinion of management, the Company's liability under these agreements is not quantifiable and could exceed the cash and securities it has posted as collateral. However, the potential of being required to make payments under these arrangements is remote. Accordingly, no contingent liability has been recorded in the Company's unaudited condensed consolidated statements of financial condition for these agreements.

Indemnification

In connection with the sale of eSpeed, the Company has indemnified NASDAQ OMX for amounts over a defined threshold against damages arising from breaches of representations, warranties and covenants. In addition, in connection with the acquisition of GFI, the Company has indemnified the Directors and Officers of GFI. As of June 30, 2015, no contingent liability has been recorded in the Company's unaudited condensed consolidated statements of financial condition for this indemnification, as the potential for being required to make payments under this indemnification is remote.

Table of Contents**20. Income Taxes**

The Company's unaudited condensed consolidated financial statements include U.S. federal, state and local income taxes on the Company's allocable share of the U.S. results of operations, as well as taxes payable to jurisdictions outside the U.S. In addition, certain of the Company's entities are taxed as U.S. partnerships and are subject to the Unincorporated Business Tax (UBT) in New York City. Therefore, the tax liability or benefit related to the partnership income or loss, except for UBT, rests with the partners (see Note 3 Limited Partnership Interests in BGC Holdings for discussion of partnership interests), rather than the partnership entity. Income taxes are accounted for using the asset and liability method, as prescribed in FASB guidance on Accounting for Income Taxes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the unaudited condensed consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is recorded against deferred tax assets if it is deemed more likely than not that those assets will not be realized. As of June 30, 2015, the Company had \$287.7 million of undistributed foreign pre-tax earnings, it is our intention to permanently reinvest them in the Company's foreign operations. It is not practicable to determine the amount of additional tax that may be payable in the event these earnings are repatriated due to the fluctuation of the relative ownership percentages of the foreign subsidiaries between the Company and BGC Holdings. Pursuant to FASB guidance on Accounting for Uncertainty in Income Taxes, the Company provides for uncertain tax positions based upon management's assessment of whether a tax benefit is more likely than not to be sustained upon examination by tax authorities. As of June 30, 2015, the Company had \$8.0 million of unrecognized tax benefits, all of which would affect the Company's effective tax rate if recognized. As of December 31, 2014, there were no unrecognized tax benefits. The increase of uncertain tax benefits is due to acquired positions as a result of the GFI Acquisition. The Company recognizes interest and penalties related to income tax matters in Interest expense and Other expenses, respectively, in the Company's unaudited condensed consolidated statements of operations. As of June 30, 2015, the Company had approximately \$1.3 million of accrued interest related to uncertain tax positions. As of December 31, 2014, there were no accrued interest and penalties related to uncertain tax positions. The increase of accrued interest and penalties related to uncertain tax positions is due to acquired positions as a result of the GFI Acquisition.

21. Regulatory Requirements

Many of the Company's businesses are subject to regulatory restrictions and minimum capital requirements. These regulatory restrictions and capital requirements may restrict the Company's ability to withdraw capital from its subsidiaries.

Certain U.S. subsidiaries of the Company are registered as U.S. broker-dealers or Futures Commissions Merchants subject to Rule 15c3-1 of the SEC and Rule 1.17 of the Commodity Futures Trading Commission, which specify uniform minimum net capital requirements, as defined, for their registrants, and also require a significant part of the registrants' assets be kept in relatively liquid form. As of June 30, 2015, the Company's U.S. subsidiaries had net capital in excess of their minimum capital requirements.

Certain European subsidiaries of the Company are regulated by the Financial Conduct Authority (the FCA) and must maintain financial resources (as defined by the FCA) in excess of the total financial resources requirement of the FCA. As of June 30, 2015, the European subsidiaries had financial resources in excess of their requirements.

Certain other subsidiaries of the Company are subject to regulatory and other requirements of the jurisdictions in which they operate.

The regulatory requirements referred to above may restrict the Company's ability to withdraw capital from its regulated subsidiaries. As of June 30, 2015, \$514.1 million of net assets were held by regulated subsidiaries. These subsidiaries had aggregate regulatory net capital, as defined, in excess of the aggregate regulatory requirements, as defined, of \$243.7 million.

22. Segment and Geographic Information

Segment Information

The Company's business segments are determined based on the products and services provided and reflect the manner in which financial information is evaluated by management. The Company's operations consist of two reportable segments, Financial Services and Real Estate Services.

Accordingly, all segment information presented herein reflects the Company's revised segment reporting structure for all periods presented. The Company's Financial Services segment specializes in the brokerage of a broad range of products, including fixed income securities, interest rate swaps, foreign exchange, equities, equity derivatives, credit derivatives, commodities, futures and structured products. It also provides a full range of services, including trade execution, broker-dealer services, clearing, processing, information, and other back-office services to a broad range of financial and non-financial institutions. The Company's Real Estate Services segment offers commercial real estate tenants, owners, investors and developers a wide range of services, including leasing and corporate advisory, investment sales and financial services, consulting, project and development management, and property and facilities management.

The Company evaluates the performance and reviews the results of the segments based on each segment's Income (loss) from operations before income taxes.

The amounts shown below for the Financial Services and Real Estate Services segments reflect the amounts that are used by management to allocate resources and assess performance, which is based on each segment's Income (loss) from operations before income taxes. In addition to the two business segments, the tables below include a Corporate Items category. Corporate revenues include fees from related parties and interest income as well as gains that are not considered part of the Company's ordinary, ongoing business such as the

realized gain related to the GFI shares owned by the Company prior to the completion of the tender offer to acquire GFI on February 26, 2015. Corporate expenses include non-cash compensation expenses (such as the grant of exchangeability to limited partnership units; redemption/exchange of partnership units, issuance of restricted shares and a reserve on compensation-related partnership loans; and allocations of net income to limited partnership units and FPU) as well as unallocated expenses such as certain professional and consulting fees, executive compensation and interest expense, which are managed separately at the corporate level.

Certain financial information for the Company's segments is presented below. Certain reclassification have been made to previously reported amounts to conform to the current presentation. See Note 16 Goodwill and Other Intangible Assets, Net, for goodwill by reportable segment.
