AT SEPTEMBER 30, 2015 (Unaudited) (continued)

**A. Security Valuation** All securities for which market quotations are readily available are valued at the last sales price prior to the time of determination or, if no sales price is available at that time, at the mean between the last current bid and ask prices. Securities that are traded over-the-counter are valued, if bid and ask quotations are available, at the mean between the current bid and ask prices. Certain investments of the Fund may, depending upon market conditions, trade in relatively thin markets and/or in markets that experience significant volatility. As a result of these conditions, the prices used by the Fund to value securities may differ from the value that would be realized if these securities were sold and the differences could be material. All other securities and assets are valued at fair value as determined in good faith by the Board of Directors. It is possible that the estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and such differences could be material. In valuing the Fund's assets, quotations of foreign securities in a foreign currency are translated to United States ( U.S. ) dollar equivalents at the prevailing exchange rate in effect on the valuation date. Investments in open ended mutual funds are valued at current day's closing net asset value per share ( NAV ).

The various inputs that are used in determining the valuation of the Fund's investments are summarized into the three broad levels listed below.

Level 1 Unadjusted inputs using quoted prices in active markets for identical investments.

Level 2 Other significant observable inputs including, but are not limited to, quoted prices for similar investments, inputs other than quoted prices that are observable for investments (such as interest rates, prepayment speeds, credit risk, etc.) or other market corroborated inputs.

Level 3 Significant inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund's assumptions in determining the fair value of investments).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input, both individually and in the aggregate, that is significant to the fair value measurement. The inputs or methodology used for valuing instruments are not necessarily an indication of the risk associated with investing in those instruments.

The following table represents each valuation input as presented on the Schedule of Portfolio Investments ( SOI ):

	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	
	Quoted prices	Other significant observable inputs	Significant unobservable inputs	<b>Total</b>
<b>Total Investments in Securities(a)</b>	<b>\$ 117,002,032</b>	<b>\$</b>	<b>\$</b>	<b>\$ 117,002,032</b>

(a) All portfolio holdings are designated as Level 1 are disclosed individually on the SOI. Please refer to the Investment portfolio for industry specifics of portfolio holdings.

There were no transfers among any levels during the period ended September 30, 2015.

ITEM 2. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers have concluded based on their evaluation of the registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the registrant on Form N-Q is recorded, processed, summarized and reported within the required time periods and that information required to be disclosed by the registrant in the reports that it files or submits on Form N-Q is accumulated and communicated to the registrant's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding disclosure.
  
- (b) There were no changes in the registrant's internal control over financial reporting that occurred during the registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 3. EXHIBITS.
