The accompanying unaudited financial statements fairly present the consolidated statements of comprehensive income, consolidated balance sheets and consolidated statements of cash flows, and reflect all adjustments, consisting only of normal recurring adjustments which are necessary for the fair statement of the results of the interim periods. The interim results of operations are not necessarily indicative of the results to be expected for a full year. The balance sheet data as of June 25, 2015 was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America ( GAAP ). Accordingly, these unaudited financial statements and related notes should be read in conjunction with the audited consolidated financial statements and notes thereto included in our 2015 Annual Report on Form 10-K for the fiscal year ended June 25, 2015.

**Note 10 Commitments and Contingent Liabilities**

We are currently a party to various legal proceedings in the ordinary course of business. While management presently believes that the ultimate outcomes of these proceedings, individually and in the aggregate, will not materially affect our Company's financial position, results of operations or cash flows, legal proceedings are subject to inherent uncertainties, and unfavorable outcomes could occur. Unfavorable outcomes could include substantial monetary damages in excess of any appropriate accruals which management has established. Were such unfavorable final outcomes to occur, there exists the possibility of a material adverse effect on our financial position, results of operations and cash flows.

**Note 11 Fair Value of Financial Instruments**

Authoritative guidance issued by the Financial Accounting Standards Board ( FASB ) defines fair value as the price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The guidance establishes a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels:

- Level 1 Quoted prices in active markets that are accessible at the measurement date for identical assets and liabilities.
- Level 2 Observable inputs other than quoted prices in active markets. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- Level 3 Unobservable inputs for which there is little or no market data available.

The carrying values of cash, trade accounts receivable and accounts payable approximate their fair values at each balance sheet date because of the short-term maturities and nature of these balances.

The carrying value of our revolving credit facility borrowings approximates fair value at each balance sheet date because interest rates on this instrument approximate current market rates (Level 2 criteria), the short-term maturity and nature of this balance. In addition, there has been no significant change in our inherent credit risk.

The following table summarizes the carrying value and fair value estimate of our long term debt, including current maturities:

	December 24, 2015	June 25, 2015	December 25, 2014
Carrying value of long-term debt:	\$ 33,981	\$ 35,666	\$ 37,344
Fair value of long-term debt:	36,980	39,377	41,251

The estimated fair value of our long-term debt was determined using a market approach based upon Level 2 observable inputs, which estimates fair value based on interest rates currently offered on loans with similar terms to borrowers of similar credit quality or broker quotes. In addition, there have been no significant changes in the underlying assets securing our long-term debt.

**Note 12 Recent Accounting Pronouncements**

In November 2015, the FASB issued ASU No. 2015-17 *Income Taxes (Topic 740) - Balance Sheet Classification of Deferred Taxes*. ASU No. 2015-17 requires that deferred tax assets and liabilities be classified as non-current in a classified statement of financial position. ASU No. 2015-17 is effective for public business entities for annual periods, including interim periods within those annual periods, beginning after December 15, 2016. Early application is permitted as of the beginning of an interim or annual reporting period. The amendments in this update may be applied either prospectively to all deferred tax assets and liabilities, or retrospectively to all periods presented.

In the second quarter of fiscal 2016 the Company elected to early adopt this new accounting principle on a prospective basis. Approximately \$4,264 of net current deferred tax assets were reclassified to non-current on the balance sheet. Adoption of this amendment did not have an effect on the Company's financial position or results of operations, and prior periods were not retrospectively adjusted.

In May 2014, the FASB issued ASU No. 2014-09 *Revenue from Contracts with Customers (Topic 606)* and created a new ASC Topic 606, *Revenue from Contracts with Customers*, and added ASC Subtopic 340-40, *Other Assets and Deferred Costs - Contracts with Customers*. The guidance in this update supersedes the revenue recognition requirements in ASC Topic 605, *Revenue Recognition*, and most industry-specific guidance throughout the industry topics of the codification. Under the new guidance, an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In August 2015, the FASB issued ASU No. 2015-14 *Revenue from Contracts with Customers, Deferral of the Effective Date* which deferred the effective date of ASU

2014-09 for one year. Consequently, this new revenue recognition guidance will be effective for the Company beginning in fiscal year 2019. This guidance can be adopted either retrospectively to each prior reporting period presented, or retrospectively with a cumulative-effect adjustment recognized as of the date of adoption. The Company is currently assessing the adoption method and the impact of this new guidance on our financial position and results of operations.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### OVERVIEW

The following discussion and analysis should be read in conjunction with the unaudited Consolidated Financial Statements and the Notes to Consolidated Financial Statements.

Our fiscal year ends on the final Thursday of June each year, and typically consists of fifty-two weeks (four thirteen week quarters). Fiscal 2016 will consist of fifty-three weeks, with our fourth quarter containing fourteen weeks. Additional information on the comparability of the periods presented is as follows:

References herein to fiscal 2016 and fiscal 2015 are to the fiscal year ending June 30, 2016 and the fiscal year ended June 25, 2015, respectively.

References herein to the second quarter of fiscal 2016 and fiscal 2015 are to the quarters ended December 24, 2015 and December 25, 2014, respectively.

References herein to the first half or first twenty-six weeks of fiscal 2016 and fiscal 2015 are to the twenty-six weeks ended December 24, 2015 and December 25, 2014, respectively.

As used herein, unless the context otherwise indicates, the terms Company, we, us, our or our Company collectively refer to John B. Sanfilippo & Son, Inc. and our wholly-owned subsidiaries, JBSS Real Estate, LLC, JBSS Ventures, LLC and Sanfilippo (Shanghai) Trading Co. Ltd. Our Company's Credit Facility and Mortgage Facility, as defined below, are sometimes collectively referred to as our financing arrangements.

We are one of the leading processors and distributors of peanuts, pecans, cashews, walnuts, almonds and other nuts in the United States. These nuts are sold under a variety of private brands and under the *Fisher*, *Orchard Valley Harvest*, *Fisher Nut Exactly*, and *Sunshine Country* brand names. We also market and distribute, and in most cases manufacture or process, a diverse product line of food and snack products, including peanut butter, almond butter, candy and confections, snacks and trail mixes, snack bites, sunflower kernels, dried fruit, corn snacks, sesame sticks and other sesame snack products under private brands and brand names. We distribute our products in the consumer, commercial ingredients, contract packaging and export distribution channels.

The Company's long-term objective to drive profitable growth, as identified in our strategic plan (the Strategic Plan), includes the following goals:

- i. Growing *Fisher* and *Orchard Valley Harvest* into leading nut brands by focusing on consumers demanding quality nuts in the snacking, recipe and produce categories,
- ii. Expanding globally and building our Company into a leading international branded and private brand snack nut company, and
- iii.

Providing integrated nut solutions to grow non-branded business at existing key customers in each distribution channel.

We face a number of challenges in the future which include, among others, volatile commodity costs for certain tree nuts and intensified competition for market share from both private brand and name brand nut products. We experienced increasing almond acquisition costs during fiscal 2015 which increased further in the first half of fiscal 2016. Consequently, the resulting price increases reduced consumer demand for certain almond products. For the remainder of fiscal 2016 and the first two quarters of fiscal 2017, acquisition costs for both almonds and walnuts are expected to decline significantly. These declines in acquisition costs are expected to lead to lower selling prices for products that contain these nuts. Since sales of almonds and walnuts comprise a significant percentage of our total net sales, we anticipate that lower selling prices could result in a reduction in total net sales in future comparisons until the impact of lower retail prices ultimately drives increased sales volume for these products. We will continue to focus on seeking profitable business opportunities to further utilize our additional production capacity at our primary manufacturing, processing and distribution facility located in Elgin, Illinois (the Elgin Site ). We expect to maintain our recent level of promotional, sampling and advertising activity for our *Fisher* and *Orchard Valley Harvest* brands, and our new *Fisher Nut Exactly* brand snack bite product line. We will continue to face the ongoing challenges specific to our business, such as food safety and regulatory issues and the maintenance and growth of our customer base. See the information referenced in Part II, Item 1A Risk Factors of this report for additional information about our risks, challenges and uncertainties.

### QUARTERLY HIGHLIGHTS

Our net sales of \$279.0 million for the second quarter of fiscal 2016 increased 11.0% from our net sales of \$251.4 million for the second quarter of fiscal 2015. Net sales for the first twenty-six weeks of fiscal 2016 increased by \$48.4 million, or 10.6%, to \$504.8 million from net sales of \$456.4 million for the first twenty-six weeks of fiscal 2015.

Sales volume, measured as pounds sold to customers, increased 6.5 million pounds, or 9.4%, compared to the second quarter of fiscal 2015. Sales volume increased 6.5 million pounds, or 5.0%, compared to the first twenty-six weeks of fiscal 2015.

Gross profit increased by \$7.8 million and our gross profit margin, as a percentage of net sales, increased to 16.1% for the second quarter of fiscal 2016 compared to 14.8% for the second quarter of fiscal 2015. Gross profit increased by \$10.3 million year to date and our gross profit margin increased to 15.5% from 14.9% for the first twenty-six weeks of fiscal 2016 compared to the first twenty-six weeks of fiscal 2015.

Total operating expenses for the second quarter of fiscal 2016 increased by \$2.8 million, or 12.2%, compared to the second quarter of fiscal 2015. As a percentage of net sales, total operating expenses in the second quarter of fiscal 2016 increased to 9.1% from 9.0% for the second quarter of fiscal 2015. For the first half of fiscal 2016, total operating expenses increased by \$3.5 million, but decreased to 8.9% of net sales compared to 9.0% for the first half of fiscal 2015.

The total value of inventories on hand at the end of the second quarter of fiscal 2016 decreased by \$36.7 million, or 16.5%, in comparison to the total value of inventories on hand at the end of the second quarter of fiscal 2015.

With the exception of pecans, we have seen acquisition costs for domestic tree nuts decrease in the 2015 crop year (which falls into our current 2016 fiscal year). We have completed procurement of inshell walnuts during the first half of fiscal 2016. During the third quarter, we will determine the final prices to be paid to the walnut growers based upon current market prices and other factors. We have estimated the liability to our walnut growers and our walnut inventory costs using currently available information. Any difference between our estimated liability and the actual final liability will be determined during the third quarter of fiscal 2016 and will be recognized in our financial results at that time.

Our Board of Directors, after considering the financial position of our Company and other factors, declared a special cash dividend on October 27, 2015. The special cash dividend of \$2.00 per share on all issued and outstanding shares of Common Stock and Class A Common stock of the Company was paid on December 11, 2015. We paid approximately \$22.5 million to our stockholders.

## RESULTS OF OPERATIONS

### *Net Sales*

Our net sales increased 11.0% to \$279.0 million in the second quarter of fiscal 2016 compared to net sales of \$251.4 million for the second quarter of fiscal 2015. Sales volume, which is defined as pounds sold to customers, increased approximately 9.4% in the quarterly comparison. Sales volume increased for all major product types except almonds and pecans.

For the first twenty-six weeks of fiscal 2016 our net sales were \$504.8 million, an increase of \$48.4 million, or 10.6%, compared to the same period of fiscal 2015. The increase in net sales was primarily attributable to a 5.4% increase in the weighted average sales price per pound, driven mainly by selling price increases for most major nut types, except peanuts and walnuts, due to higher commodity acquisition costs, and a 5.0% increase in sales volume.

The following table summarizes sales by product type as a percentage of total gross sales. The information is based upon gross sales, rather than net sales, because certain adjustments, such as promotional discounts, are not allocable to product type.

Product Type	For the Quarter Ended		For the Twenty-six Weeks Ended	
	December 24,	December 25,	December 24,	December 25,
	2015	2014	2015	2014
Peanuts	12.2%	12.2%	12.9%	13.4%
Pecans	18.4	18.9	14.9	15.5
Cashews & Mixed Nuts	23.4	21.4	23.2	21.4
Walnuts	10.6	12.2	10.4	11.8
Almonds	20.6	20.6	21.7	21.5
Trail & Snack Mixes	10.2	9.5	12.1	11.0
Other	4.6	5.2	4.8	5.4
Total	100.0%	100.0%	100.0%	100.0%

The following table shows a comparison of net sales by distribution channel (dollars in thousands):

Distribution Channel	For the Quarter Ended		Change	Percent Change
	December 24,	December 25,		
	2015	2014		
Consumer <sup>(1)</sup>	\$ 176,769	\$ 162,044	\$ 14,725	9.1%
Commercial Ingredients	57,012	51,101	5,911	11.6
Contract Packaging	36,614	29,656	6,958	23.5
Export <sup>(2)</sup>	8,607	8,572	35	0.4
Total	\$ 279,002	\$ 251,373	\$ 27,629	11.0%

- (1) Sales of branded products, primarily all *Fisher* brand, were approximately 42% of total consumer sales during the second quarter of both fiscal 2016 and fiscal 2015.
- (2) Export sales consist primarily of bulk products and consumer branded and private brand products. Consumer branded and private brand products accounted for approximately 63% and 72% of total sales in the export channel during the second quarter of fiscal 2016 and fiscal 2015, respectively.

The following table shows a comparison of net sales by distribution channel (dollars in thousands):

Distribution Channel	For the Twenty-six Weeks Ended			Percent Change
	December 24, 2015	December 25, 2014	Change	
Consumer <sup>(1)</sup>	\$ 307,480	\$ 285,955	\$ 21,525	7.5%
Commercial Ingredients	112,415	99,047	13,368	13.5
Contract Packaging	67,918	55,351	12,567	22.7
Export <sup>(2)</sup>	16,966	16,057	909	5.7
Total	\$ 504,779	\$ 456,410	\$ 48,369	10.6%

(1) Sales of branded products, primarily all *Fisher* brand, were approximately 37% and 36% of total consumer sales during the first twenty-six weeks of fiscal 2016 and fiscal 2015, respectively.

(2) Export sales consist primarily of bulk products and consumer branded and private brand products. Consumer branded and private brand products accounted for approximately 71% and 73% of total sales in the export channel during the first twenty-six weeks of fiscal 2016 and fiscal 2015, respectively.

Net sales in the consumer distribution channel increased by 9.1% in dollars and 2.5% in sales volume in the second quarter of fiscal 2016 compared to the second quarter of fiscal 2015. Private brand consumer sales volume increased 2.5%, primarily due to an increase in sales of peanut and mixed nut products to existing customers. A 20.7% increase in combined sales volume of *Orchard Valley Harvest* and *Sunshine Country* produce products also contributed to the sales volume increase. Sales volume for *Fisher* snack nuts decreased 10.3%, primarily as a result of lower peanut sales to existing customers due to the timing of promotional activity.

In the first twenty-six weeks of fiscal 2016, net sales in the consumer distribution channel increased by 7.5% in dollars, though sales volume was relatively unchanged, compared to the same period of fiscal 2015. Private brand consumer sales volume decreased by 1.8% in the first twenty-six weeks of fiscal 2016 compared to the same period of fiscal 2015 due to a decrease in sales of almond products from the impact on consumer demand of significantly higher retail selling prices. Sales volume for *Fisher* snack nuts decreased 6.7% due to the reasons noted in the quarterly comparison. An increase in sales volume of our branded produce products, *Fisher* peanut butter, and *Fisher Nut Exactly* snack bites offset the sales volume decline in private brand products and *Fisher* snack nuts.

Net sales in the commercial ingredients distribution channel increased by 11.6% in dollars and 20.7% in sales volume in the second quarter of fiscal 2016 compared to the second quarter of fiscal 2015. In the first twenty-six weeks of fiscal 2016, net sales in the commercial ingredients distribution channel increased by 13.5% in dollars and sales volume increased 10.5% compared to the same period of fiscal 2015. The sales volume increase for both the quarterly and twenty-six week period was primarily due to an increase in sales of peanuts to other peanut shellers.

Net sales in the contract packaging distribution channel increased by 23.5% in dollars and 16.2% in sales volume in the second quarter of fiscal 2016 compared to the second quarter of fiscal 2015. In the first twenty-six weeks of fiscal 2016, net sales in the contract packaging distribution channel increased by 22.7% in dollars and 13.6% in sales volume compared to the first twenty-six weeks of fiscal 2015. The sales volume increase for both the quarterly and twenty-six week period was primarily due to increased sales of peanuts and trail mixes to existing customers.

Net sales in the export distribution channel was relatively unchanged in dollars and sales volume increased 29.3% in the second quarter of fiscal 2016 compared to the second quarter of fiscal 2015. Net sales in the export distribution channel in the first twenty-six weeks of fiscal 2016 increased by 5.7% in dollars and 17.0% in sales volume compared to the first twenty-six weeks of fiscal 2015. The sales volume increase for both the quarterly and the twenty-six week period comparison was primarily due to increased sales of bulk inshell walnuts.

### ***Gross Profit***

Gross profit increased by \$7.8 million, or 20.9%, to \$45.0 million for the second quarter of fiscal 2016 compared to the second quarter of fiscal 2015. Our gross profit margin, as a percentage of net sales, increased to 16.1% for the second quarter of fiscal 2016 compared to 14.8% for the second quarter of fiscal 2015. The gross profit margin increase was primarily driven by improved alignment of selling prices and commodity acquisition costs.

Gross profit increased by \$10.3 million, or 15.1%, to \$78.2 million for the first twenty-six weeks of fiscal 2016 from \$67.9 million for the first twenty-six weeks of fiscal 2015. Our gross profit margin increased to 15.5% for the first twenty-six weeks of fiscal 2016 compared to 14.9% for the first twenty-six weeks of fiscal 2015. The gross profit margin increase was also primarily due to improved alignment of selling prices and commodity acquisition costs.

### ***Operating Expenses***

Total operating expenses for the second quarter of fiscal 2016 increased by \$2.8 million to \$25.3 million. Operating expenses for the second quarter of fiscal 2016 increased to 9.1% of net sales from 9.0% of net sales for the second quarter of fiscal 2015.

Selling expenses for the second quarter of fiscal 2016 were \$16.4 million, an increase of \$0.7 million, or 4.5%, from the second quarter of fiscal 2015. The increase was driven primarily by a \$1.3 million increase in compensation related expenses, partially offset by a \$0.4 million decrease in shipping expense driven primarily by decreasing fuel costs.

Administrative expenses for the second quarter of fiscal 2016 were \$8.9 million, an increase of \$2.1 million, or 29.8%, from the second quarter of fiscal 2015. The increase was driven primarily by a \$2.1 million increase in compensation related expenses.

Total operating expenses for the first twenty-six weeks of fiscal 2016 increased by \$3.5 million to \$44.8 million due primarily to increased compensation related expenses. Operating expenses decreased to 8.9% of net sales for the first half of fiscal 2016 compared to 9.0% of net sales for the first half of fiscal 2015.

Selling expenses for the first twenty-six weeks of fiscal 2016 were \$27.8 million, an increase of \$1.0 million, or 3.8%, from the amount recorded for the first twenty-six weeks of fiscal 2015. The increase was driven primarily by a \$1.6 million increase in compensation related expenses. Also contributing to the increase in selling expense was a \$0.4 million increase in sampling and advertising expense. Partially offsetting these increases was a \$1.3 million decrease in shipping expense for the reasons noted in the quarterly comparison above.

Administrative expenses for the first twenty-six weeks of fiscal 2016 were \$17.0 million, an increase of \$2.5 million, or 17.5%, compared to the same period of fiscal 2015. The increase was driven primarily by a \$2.3 million increase in compensation related expenses.

### ***Income from Operations***

Due to the factors discussed above, income from operations increased to \$19.7 million, or 7.1% of net sales, for the second quarter of fiscal 2016 from \$14.7 million, or 5.8% of net sales, for the second quarter of fiscal 2015.

Due to the factors discussed above, income from operations increased to \$33.4 million, or 6.6% of net sales, for the first twenty-six weeks of fiscal 2016 from \$26.7 million, or 5.8% of net sales, for the first twenty-six weeks of fiscal 2015.

***Interest Expense***

Interest expense was \$0.8 million for the second quarter of fiscal 2016 compared to \$0.9 million in the second quarter of fiscal 2015. Interest expense decreased 7.9% to \$1.7 million for the first twenty-six weeks of fiscal 2016 compared to the same period of fiscal 2015. The decrease in interest expense for both the quarterly and twenty-six week comparison was due primarily to a reduction in long-term debt.

### ***Rental and Miscellaneous Expense, Net***

Net rental and miscellaneous expense was \$0.3 million for the second quarter of fiscal 2016 compared to \$0.5 million for the second quarter of fiscal 2015. Net rental and miscellaneous expense was \$0.9 million for the first twenty-six weeks of fiscal 2016 compared to \$2.5 million for the first twenty-six weeks of fiscal 2015. The decrease in both comparative periods is due to repairs to the exterior of the office building located on our Elgin, Illinois campus being completed during the second quarter of fiscal 2015 while no such repair expenses were incurred in fiscal 2016.

### ***Income Tax Expense***

Income tax expense was \$6.5 million, or 35.0% of income before income taxes (the Effective Tax Rate), for the second quarter of fiscal 2016 compared to \$4.9 million, or 36.6% of income before income taxes, for the second quarter of fiscal 2015. For the first twenty-six weeks of fiscal 2016, income tax expense was \$10.8 million, or 35.0% of income before income taxes, compared to \$8.0 million, or 36.0% of income before income taxes, for the comparable period last year. The decrease in the Effective Tax Rate, for the quarterly and twenty-six week comparison, is primarily due to a lower estimated annual tax rate for state income taxes.

### ***Net Income***

Net income was \$12.1 million, or \$1.07 per common share (basic and diluted), for the second quarter of fiscal 2016, compared to \$8.4 million, or \$0.75 per common share (basic and diluted), for the second quarter of fiscal 2015.

Net income was \$20.0 million, or \$1.79 per common share basic and \$1.77 per share diluted, for the first twenty-six weeks of fiscal 2016, compared to net income of \$14.3 million, or \$1.29 per common share basic and \$1.28 per share diluted, for the first twenty-six weeks of fiscal 2015.

## **LIQUIDITY AND CAPITAL RESOURCES**

### ***General***

The primary uses of cash are to fund our current operations, fulfill contractual obligations, pursue our Strategic Plan and repay indebtedness. Also, various uncertainties could result in additional uses of cash. The primary sources of cash are results of operations and availability under our Credit Agreement, dated February 7, 2008 and subsequently amended most recently in September 2014 (as amended, the Credit Facility), that provides a revolving loan commitment and letter of credit subfacility. We anticipate that expected net cash flow generated from operations and amounts available pursuant to the Credit Facility will be sufficient to fund our operations for the next twelve months. Increases in our available credit under our Credit Facility, due to our improved financial performance in the past, have allowed us to consummate business acquisitions, devote more funds to promote our products, (especially our *Fisher* and *Orchard Valley Harvest* brands), develop new products, pay a special cash dividend the past four years, and explore other growth strategies outlined in our Strategic Plan, which includes expansion into existing markets and international markets such as China.

Cash flows from operating activities have historically been driven by net income but are also significantly influenced by inventory requirements, which can change based upon fluctuations in both quantities and market prices of the various nuts and nut products we buy and sell. Current market trends in nut prices and crop estimates also impact nut procurement.

The following table sets forth certain cash flow information for the first half of fiscal 2016 and 2015, respectively (dollars in thousands):

	<b>December 24, 2015</b>	<b>December 25, 2014</b>	<b>\$ Change</b>
Operating activities	\$ 81,871	\$ 37,952	\$ 43,919
Investing activities	(10,390)	(8,314)	(2,076)
Financing activities	(70,401)	(27,163)	(43,238)
Total cash flow	\$ 1,080	\$ 2,475	\$ (1,395)

**Operating Activities** Net cash provided by operating activities was \$81.9 million for the first twenty-six weeks of fiscal 2016 compared to \$38.0 million for the comparative period of fiscal 2015. This increase was due primarily to a reduced need for working capital for inventory. Our nut commodity purchases were \$11.3 million lower during the first half of fiscal 2016 than the same period of fiscal 2015, primarily due to the procurement of smaller quantities of pecans and walnuts combined with decreasing walnut acquisition costs.

Total inventories were \$185.3 million at December 24, 2015, a decrease of \$12.7 million, or 6.4%, from the inventory balance at June 25, 2015, and a decrease of \$36.7 million, or 16.5%, from the inventory balance at December 25, 2014. The decrease at December 24, 2015 compared to June 25, 2015 was primarily due to lower quantities of pecans and finished goods on hand, partially offset by higher cost cashews. The decrease at December 24, 2015 compared to December 25, 2014 was primarily driven by lower quantities of raw nut and dried fruit input stocks and significantly lower acquisition costs for walnuts.

Raw nut and dried fruit input stocks decreased by 7.7 million pounds, or 10.2%, at December 24, 2015 compared to December 25, 2014. The decrease was attributable mainly to lower quantities of pecans, peanuts and walnuts. The weighted average cost per pound of raw nut input stocks on hand at the end of the second quarter of fiscal 2016 decreased 14.9% compared to the end of the second quarter of fiscal 2015 due to the decline in walnut acquisition costs.

Accounts payable were \$83.3 million at December 24, 2015, an increase of \$37.6 million, or 82.2%, from the balance at June 25, 2015, and a decrease of \$29.4 million, or 26.1%, from the balance at December 25, 2014. The increase in accounts payable from June 25, 2015 to December 24, 2015 is due primarily to higher acquisition costs for almonds and cashews and the receipt of the new walnut crop. The decrease in accounts payable at December 24, 2015 compared to December 25, 2014 is mainly due to decreased amounts due for walnut purchases due to lower acquisition costs.

**Investing Activities** Cash used in investing activities, primarily all for capital expenditures, was \$10.4 million during the first twenty-six weeks of fiscal 2016 compared to \$8.3 million for the same period last year. We expect total capital expenditures for new equipment, facility upgrades, and food safety enhancements for fiscal 2016 to be approximately \$15 million. Absent any material acquisitions or other significant investments, we believe that cash on hand, combined with cash provided by operations and borrowings available under the Credit Facility, will be sufficient to meet the cash requirements for planned capital expenditures.

**Financing Activities** Cash used by financing activities was \$70.4 million during the first twenty-six weeks of fiscal 2016 compared to \$27.2 million for the same period last year. We paid \$22.5 million in dividends during the second quarter of fiscal 2016 compared to \$16.8 million during the same quarter last year. Net repayments of short term borrowings under our Credit Facility increased \$36.1 million during the first half of fiscal 2016 compared to the first half of fiscal 2015, primarily due to increased operating cash flows.

### ***Real Estate Matters***

In August 2008, we completed the consolidation of our Chicago-based facilities into the Elgin Site. As part of the facility consolidation project, on April 15, 2005, we closed on the \$48.0 million purchase of the Elgin Site. The Elgin Site includes both an office building and a warehouse.

We are currently attempting to find additional tenants for the available space in the office building at the Elgin Site. Until additional tenant(s) are found, we will not receive the benefit of rental income associated with such space. Approximately 71% of the office building is currently vacant. There can be no assurance that we will be able to lease the unoccupied space and further capital expenditures may be necessary to lease the remaining space.

## ***Financing Arrangements***

On February 7, 2008, we entered into the Credit Facility with a bank group (the *Bank Lenders* ) providing a \$117.5 million revolving loan commitment and letter of credit subfacility. Also on February 7, 2008, we entered into a Loan Agreement with an insurance company (the *Mortgage Lender* ) providing us with two term loans, one in the amount of \$36.0 million ( *Tranche A* ) and the other in the amount of \$9.0 million ( *Tranche B* ), for an aggregate amount of \$45.0 million (the *Mortgage Facility* ).

The Credit Facility, as most recently amended in September 2014, is secured by substantially all of our assets other than machinery and equipment, real property, and fixtures and matures on July 15, 2019. The Mortgage Facility is secured by mortgages on essentially all of our owned real property located in Elgin, Illinois, Gustine, California and Garysburg, North Carolina (the *Encumbered Properties* ).

### ***Credit Facility***

At our election, borrowings under the Credit Facility currently accrue interest at either (i) a rate determined pursuant to the administrative agent's prime rate plus an applicable margin determined by reference to the amount of loans which may be advanced under the borrowing base calculation, ranging from 0.50% to 1.00% or (ii) a rate based upon the London interbank offered rate ( *LIBOR* ) plus an applicable margin based upon the borrowing base calculation, ranging from 1.50% to 2.00%.

At December 24, 2015, the weighted average interest rate for the Credit Facility was 2.68%. The terms of the Credit Facility contain covenants that, among other things, require us to restrict investments, indebtedness, acquisitions and certain sales of assets and limit annual cash dividends or distributions, transactions with affiliates, redemptions of capital stock and prepayment of indebtedness (if such prepayment, among other things, is of a subordinate debt). If loan availability under the borrowing base calculation falls below \$25.0 million, we will be required to maintain a specified fixed charge coverage ratio, tested on a monthly basis, until loan availability equals or exceeds \$25.0 million for three consecutive months. All cash received from customers is required to be applied against the Credit Facility. The Bank Lenders have the option to accelerate and demand immediate repayment of our obligations under the Credit Facility in the event of default on the payments required under the Credit Facility, a change in control in the ownership of the Company, non-compliance with the financial covenant or upon the occurrence of other defaults by us under the Credit Facility (including a default under the Mortgage Facility). As of December 24, 2015, we were in compliance with all covenants under the Credit Facility and we currently expect to be in compliance with the financial covenant in the Credit Facility for the foreseeable future. At December 24, 2015, we had \$99.0 million of available credit under the Credit Facility. If this entire amount were borrowed at December 24, 2015, we would still be in compliance with all restrictive covenants under the Credit Facility.

### ***Mortgage Facility***

We are subject to interest rate resets for each of Tranche A and Tranche B. Specifically, on March 1, 2018 (the *Tranche A Reset Date* ) and March 1, 2016 and every two years thereafter (each, a *Tranche B Reset Date* ), the Mortgage Lender may reset the interest rates for each of Tranche A and Tranche B, respectively, in its sole and absolute discretion. If the reset interest rate for Tranche A is unacceptable to us and we (i) do not have sufficient funds to repay the amount due with respect to Tranche A on the Tranche A Reset Date, or (ii) are unable to refinance the amount due with respect to Tranche A on the Tranche A Reset Date, on terms more favorable than the reset interest rate, then, depending on the extent of the changes in the reset interest rate, our interest expense would increase.

The Mortgage Facility matures on March 1, 2023. Tranche A under the Mortgage Facility accrues interest at a fixed interest rate of 7.63% per annum, payable monthly. As mentioned above, such interest rate may be reset by the Mortgage Lender on the Tranche A Reset Date. Monthly principal payments in the amount of \$0.2 million commenced on June 1, 2008. Tranche B under the Mortgage Facility accrues interest, as reset on March 1, 2014, at a floating rate of the greater of (i) one month LIBOR plus 3.75% per annum or (ii) 4.50%, payable monthly (the Floating Rate ). The margin on such Floating Rate may be reset by the Mortgage Lender on each Tranche B Reset Date; provided, however, that the Mortgage Lender may also change the underlying index on each Tranche B Reset Date occurring on or after March 1, 2016. In January 2016 the Tranche B interest rate was reset. The new rate will be 25 basis points lower than the previous rate, based on the same underlying index, effective March 1, 2016. Monthly principal payments in the amount of \$0.1 million commenced on June 1, 2008. We do not currently anticipate that any change in the Floating Rate or the underlying index will have a material adverse effect upon our business, financial condition or results of operations.

The terms of the Mortgage Facility contain covenants that require us to maintain a specified net worth of \$110.0 million and maintain the Encumbered Properties. The Mortgage Lender is entitled to require immediate repayment of our obligations under the Mortgage Facility in the event we default in the payments required under the Mortgage Facility, non-compliance with the covenants or upon the occurrence of certain other defaults by us under the Mortgage Facility. As of December 24, 2015, we were in compliance with all covenants under the Mortgage Facility. We currently believe that we will be in compliance with the financial covenant in the Mortgage Facility for the foreseeable future and therefore \$15.4 million of Tranche A and \$3.9 million of Tranche B have been classified as long-term debt which represent scheduled principal payments that are due at least twelve months beyond December 24, 2015.

#### *Selma Property*

In September 2006, we sold our Selma, Texas properties (the Selma Properties ) to two related party partnerships for \$14.3 million and are leasing them back. The selling price was determined by an independent appraiser to be the fair market value which also approximated our carrying value. The lease for the Selma Properties has a ten-year term at a fair market value rent with three five-year renewal options. In September 2015, we exercised two of the five-year renewal options which extended the lease term to September 2026. The lease extension also reduced the monthly lease payment on the Selma Properties, beginning in September 2016, to reflect current market conditions. One five-year renewal option remains. Also, we have an option to purchase the Selma Properties from the partnerships at 95% (100% in certain circumstances) of the then fair market value, but not less than the original \$14.3 million purchase price. The provisions of the arrangement are not eligible for sale-leaseback accounting and the \$14.3 million was recorded as a debt obligation. No gain or loss was recorded on the Selma Properties transaction. As of December 24, 2015, \$11.7 million of the debt obligation was outstanding.
