Item 7.01 Regulation FD Disclosure

On February 15, 2017, the slide presentation attached as Exhibit 99.1 will be presented in various investor meetings by Jacob Chacko, M.D., Chief Financial Officer of Ignyta, Inc. (the Company). Information from this slide presentation may also be used by management of the Company in future meetings regarding the Company.

Included in this slide presentation are data from two Phase 1 trials of entrectinib the Company's investigational, orally available, CNS-active tyrosine kinase inhibitor targeting tumors that harbor TRK, ROS1 or ALK fusions. These data indicate that, based on a September 20, 2016, data cutoff, RECIST responses had been observed across 63% of patients (five out of eight) with primary or metastatic TRK, ROS1 or ALK fusion-positive disease involving the brain who had been treated with entrectinib, as assessed by maximum percentage change from baseline in sum of longest diameters of target lesions.

The information contained in this Item 7.01 and in Exhibit 99.1 of this Current Report on Form 8-K shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such a filing.

Item 8.01 Other Events

On February 15, 2017, Jacob Chacko, M.D., Chief Financial Officer of the Company will present data at various investor presentations from two Phase 1 trials of entrectinib the Company's investigational, orally available, CNS-active tyrosine kinase inhibitor targeting tumors that harbor TRK, ROS1 or ALK fusions. These data indicate that, based on a September 20, 2016, data cutoff, RECIST responses had been observed across 63% of patients (five out of eight) with primary or metastatic TRK, ROS1 or ALK fusion-positive disease involving the brain who had been treated with entrectinib, as assessed by maximum percentage change from baseline in sum of longest diameters of target lesions.
