- * Note: A securities rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.
- ** We expect that delivery of the notes will be made against payment therefor on or about August 10, 2017, which is the 4th Tokyo business day following the date of this term sheet (such settlement cycle being referred to as T+4). Under the E.U. Central Securities Depositories Regulation, trades in the secondary market generally are required to settle in two London business days unless the parties to such trade expressly agree otherwise. Accordingly,

purchasers who wish to trade the notes earlier than the 2nd London business day before August 10, 2017 will be required, by virtue of the fact that the notes initially will settle T+4, to specify an alternative settlement cycle at the time of any such trade to prevent failed settlement, and so should consult their own advisors.

The 2024 Notes, the 2027 Notes and the 2037 Notes are being offered separately, and are not part of a unit. The closing of each series of notes is not conditioned on the closing of any other series of notes.
