ONE VULCAN, LOCALLY LED

Dear fellow shareholders,

I am pleased to invite you to attend our 2019 Annual Meeting of Shareholders on Friday, May 10, 2019, at 9 a.m. Central Daylight Time. The meeting will be held at Vulcan Materials Company's corporate headquarters, 1200 Urban Center Drive, Birmingham, Alabama 35242. During the Annual Meeting, we will discuss each item of business described in the Notice of Annual Meeting and this proxy statement.

It is our culture to do the right thing, the right way, at the right time. We call this The Vulcan Way.

STRATEGIC FOCUS & PERFORMANCE EXCELLENCE PRODUCING STRONG RESULTS

Since our inception, Vulcan's leadership has taken a decades-long view of the business, an approach that has rewarded us today with the most valuable construction materials assets in the United States, if not the world. This deliberate strategy has led to irreplaceable operations in 19 of the 25 fastest growing metropolitan areas of our nation, along with strategic positions in the Caribbean and a vast and well-run logistics network to supply growing markets. The leaders who came before us took a long-term view of the business, and so do we—even as we work to enhance the performance of the business day by day.

In 2018, we delivered revenues of \$4.4 billion, net earnings of \$515.8 million and adjusted earnings from continuing operations* of \$4.05 per diluted share. While net earnings were lower in 2018 than 2017 due to the inclusion of certain discrete income tax benefits in 2017, including benefits arising from the enactment of the Tax Cuts and Jobs Act, revenues and adjusted earnings from continuing operations per diluted share in 2018 were 13 and 33 percent higher, respectively, than in 2017. We realized these gains despite significant challenges to our sales and operations that included hurricanes, tropical storms and devastating wildfires, as well as rapidly rising energy costs that increased operating costs in the near term. We also improved on our world-class safety record.

OUR CULTURE DEFINES US

Throughout 2018 and into 2019, our senior leadership team has held numerous meetings with our employees and shareholders discussing our vision and our goals. We aim high, we are intent on continuing improvements in all areas of the business, and our people are all in. We have outstanding leaders at Vulcan. They are thriving in a culture that is built on integrity and that fosters innovation, creativity and mutual support.

With our One Vulcan, Locally Led approach to the business, we leverage the strengths and resources of a large company, while also placing great emphasis on the actions and energies of our local leadership teams—the men and women of our company who make the daily decisions that ultimately reward our shareholders, our communities, and our own people.

I am proud of them. We benefit from a High Values, High Performance culture, and we emphasize that every day. Our High Values culture is evidenced by the outstanding scores we received through the *Organizational Health Index*

survey conducted by McKinsey & Company. We rank in the top decile out of more than 1,700 participating companies across a variety of metrics that address employee satisfaction and engagement. Our High Performance culture is perhaps best exemplified by our world-class safety performance. It is also demonstrated by our industry-leading aggregates gross profit margins. Our operational disciplines and focus on operational excellence have made us the industry leader, but we are still improving. For us, that means staying focused on fundamentals while employing the flexibility to initiate and embrace change wherever and whenever that is needed.

To this end, throughout 2018, we:

Continued our leadership in proactive capital stewardship, reaffirming our capital allocation priorities and adhering to those priorities throughout the year. We maintained excellent liquidity, reinvested in our core operations, maintained our investment grade credit rating, pursued profitable growth opportunities, and returned \$282 million to shareholders through dividends and share repurchases.

* Adjusted earnings from continuing operations is a non-GAAP financial measure. We provide a reconciliation of adjusted earnings from continuing operations to the most directly comparable GAAP financial measure in Annex A to this proxy statement.

ONE VULCAN, LOCALLY LED

Further enhanced our One Vulcan, Locally Led competitive position, through reinforcement of the company's continuous improvement culture. We placed particular emphasis in 2018 on key disciplines including sales and operations, logistics, and other support functions. Continuous improvement in these functions directly supports the organization's long-term growth, and we will continue this focus throughout 2019.

Achieved the best safety record in the company's history further reducing the injury incident rate by 5% from the previous year's world-class record by continuing to engage our employees, and through a variety of safety process initiatives including near-miss reporting. We drove our MSHA reportable and OSHA recordable injury rate to 0.92 per 200,000 employee hours worked, and we intend to improve on that record in 2019.

Continued our work to ensure a more diverse workforce through the company's Diversity and Inclusion Council, by increasing diversity in the hiring of external candidates and recruiting diverse candidates to serve in leadership positions.

Continued our strong emphasis on superior environmental performance. We brought into service two new Panamax-class ships that are among the most energy efficient of their kind in the world. We reported to the Carbon Disclosure Project that we have continued to reduce our greenhouse gas emissions (GHG). Although we are not listed by the U.S. EPA as a significant source of GHG emissions, we have nonetheless reduced them by 49 percent over the last five years, and continue to make reductions that protect the environment and create new energy efficiencies and cost savings at our operations. Approximately 98.5% of all environmental inspections at our operations in 2018 resulted in no citation by either state or federal agencies.

For an organization to be great, it also must be good. From our company's beginning, we have focused on being good corporate citizens and looking out for our employees, our communities and our shareholders. These are mutually reinforcing and supporting commitments. It is our culture to do the right thing, the right way, at the right time. We call this The Vulcan Way. It continually challenges us, and it defines us.

A STRONG AND ENGAGED BOARD

We have a strong, balanced and independent Board. The members of our Board of Directors have diverse backgrounds, perspectives and experiences that add value for our shareholders and are of tremendous value to our management team. We have received national recognition from the *2020 Women on Boards* campaign for the diversity of our Board and will continue to seek candidates who are diverse in gender, race, background and professional experiences. Our Board refreshment process is robust, with five of our eight independent directors having served five years or less. Our Board plays a vital role in oversight and counsel concerning the long-term strategic direction of our company and in the effective governance of a company that is committed to do the right thing, the right way, at the right time.

YOUR VIEWS ARE IMPORTANT TO US

The dialogue we have with our shareholders and many other stakeholders is vital to the well-being and growth of our company. We believe that candid, transparent and open channels of communication are keys to good governance

These communications are helpful to us. We intend to continue them and to continue being responsive to the questions and concerns of our stakeholders. PROXY SUMMARY

BOARD COMPOSITION

The Board seeks a mix of directors with qualities that, together, create a high-functioning, diverse Board. All of our directors, other than Tom Hill, our Chairman, President and CEO, are independent. Each of our directors has proven leadership, sound judgment and a commitment to the success of our company. In recent years, we have had a number of members retire from the Board, and in December 2018, Kathleen Wilson-Thompson resigned from the Board due to other commitments. We have sought, and will continue to seek, as replacements diverse and experienced leaders with appropriate skills to oversee the management of our company.

PROXY SUMMARY

2018 COMPENSATION HIGHLIGHTS

We believe that the results of the 2018 Say on Pay vote demonstrate continued strong shareholder support for our current compensation program. Furthermore, **in the course of our shareholder outreach efforts, shareholders were generally supportive of our executive compensation program and the accompanying disclosures.**

In order to align our executives' interests with those of our shareholders, a substantial portion of our NEOs compensation is at-risk and will vary above or below target levels depending on company performance. As shown in the graphic below, in 2018, 84% of the compensation of our Chief Executive Officer (CEO) and an average of 75% of the compensation of our other NEOs was at risk and subject to performance factors.

We encourage you to read the more detailed description of our compensation program in Compensation Discussion and Analysis beginning on page 26 before voting on Proposal 2: Advisory Vote on Compensation of Our Named Executive Officers.

At our 2018 Annual Meeting of Shareholders, over 98% of votes cast were in favor of the compensation of our named executive officers (NEOs).

ELECTION OF DIRECTORS

Our constituent documents provide that our Board shall be divided into three classes, with the term of office of one class expiring each year and the number of directors in each class being as nearly equal as possible. At the Annual Meeting, three individuals will be elected to serve for three-year terms expiring in 2022 or until their successors have been duly elected and qualified. BOARD COMPOSITION AND DIRECTOR QUALIFICATIONS

Directors are responsible for reviewing and approving corporate strategy and overseeing the management of our company to assure that the long-term interests of the shareholders are being served. The Board believes that it needs a diverse skill set among its members to be able to respond to the needs of management and the company. The Governance Committee and full Board review annually the overall composition of the Board in order to ensure that Board members have the appropriate mix of skills and experience to best serve the company and its shareholders. The

Governance Committee and the Board use a director skills matrix in conducting this review.

The Governance Committee is also responsible for evaluating each director's individual performance and contributions to the Board, as well as each director's qualifications, skills, independence and competence, prior to recommending an existing director to the Board for re-nomination. The Board does not have specific diversity quotas, but considers race, ethnicity, gender, age, education and professional experiences in evaluating candidates for the Board.

The following pages list the three directors nominated for re-election at the 2019 Annual Meeting and the six directors with continuing terms that expire in subsequent years, as well as biographical information for all directors.

Proposal 2

ADVISORY VOTE ON COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS (SAY ON PAY)

In accordance with Section 14A of the Securities Exchange Act of 1934, as amended (the Exchange Act), we are asking shareholders to approve, on an advisory basis, the compensation paid to our named executive officers (NEOs) as disclosed in the Section entitled Compensation Discussion and Analysis, and in the compensation tables and narrative discussion contained in this proxy statement. While this vote is advisory and not binding on our company, it provides information to our Compensation Committee regarding investor sentiment about our executive compensation philosophy, policies and practices, which the Compensation Committee will consider when determining executive compensation in the future.

At our 2017 Annual Meeting of Shareholders, our shareholders once again indicated a preference that the advisory vote on the compensation for our NEOs occur on an annual basis. Subsequently, our Board determined to continue its policy for annual Say on Pay advisory votes. It is expected that the next shareholder vote on the frequency of Say on Pay advisory votes will occur at our 2023 Annual Meeting of Shareholders.

At our 2018 Annual Meeting of Shareholders, our shareholders voted over 98% in favor of our Say on Pay proposal. We believe this demonstrated strong support for our compensation program and policies. In 2018, we continued to analyze and make changes to our compensation program, considering new compensation trends and best practices, which led us to add our annual average growth rate of Aggregates Cash Gross Profit per ton (versus a pre-determined target) as an additional metric, together with Total Shareholder Return, for determining payouts for PSUs granted in 2019. We also participated in dialogues regarding our executive compensation program with most of our largest shareholders through our corporate governance shareholder engagement program. Please read the Compensation Discussion and Analysis Section on pages 26 to 44 for an in-depth look at our compensation program and how it was applied to the performance of our NEOs in 2018.

Based on the foregoing, the Board recommends a vote FOR the following resolution:

RESOLVED, that the shareholders approve, on an advisory basis, the compensation of the named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion contained in this proxy statement.

As an advisory vote, this proposal is not binding on our company. However, our Board and Compensation Committee will consider the outcome of the advisory vote when making future compensation decisions.

Your Board of Directors recommends a vote FOR the compensation of our named executive officers as contained in this proxy statement.

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee, which is composed solely of independent directors, has appointed Deloitte & Touche LLP as the independent registered public accounting firm for our company and its subsidiaries for the fiscal year ending December 31, 2019. The function of the independent registered public accounting firm is to audit our accounts and records; to report on the consolidated balance sheet and the related statements of consolidated comprehensive income, consolidated shareholders' equity and consolidated statements of cash flows of our company and its subsidiaries; to audit our internal controls over financial reporting; and to perform such other appropriate accounting services as may be required and approved by the Audit Committee. Although shareholder ratification is not required, our Board is seeking shareholder ratification as a matter of good corporate governance. Even if the appointment of Deloitte & Touche LLP is ratified by a majority of the votes cast at the Annual Meeting, the Audit Committee may, in its discretion, direct the appointment of another independent registered public accounting firm at any time during the year if it believes such appointment is in the best interests of the company and the shareholders. If a majority of the votes cast at the meeting fails to ratify the selection of Deloitte & Touche LLP as our independent registered public accounting firm, the Audit Committee will consider the selection of another independent registered public accounting firm for future years.

The firm of Deloitte & Touche LLP, or its predecessors, has audited our financial statements since 1956. A representative of that firm is expected to be present at the Annual Meeting, will be given an opportunity to make a statement and will be available to respond to appropriate questions.

Your Board of Directors recommends a vote FOR the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for 2019.

Corporate Governance

POLICIES

We take our corporate governance responsibilities very seriously and have adopted Corporate Governance Guidelines that provide a framework for the governance of our company. These Corporate Governance Guidelines build on practices that we have followed for many years and demonstrate our continuing commitment to corporate governance excellence.

Our Board, with recommendations from our Governance Committee, regularly reviews corporate governance developments and adopts appropriate practices as warranted. We have a Business Conduct Policy that applies to all of our employees and directors and deals with a variety of corporate compliance issues, including conflicts of interest, harassment, compliance with laws, confidentiality of company information, fair dealing and use of company assets. All employees and directors are required to fill out a questionnaire (biennially in the case of employees and annually in the case of directors) regarding their personal compliance with the Business Conduct Policy and are encouraged to report any illegal or unethical behavior of which they become aware.

Our Board has adopted a Code of Ethics for the Chief Executive Officer and Senior Financial Officers. The Code of Ethics defines Senior Financial Officers to include the Chief Financial Officer, Controller and Principal Accounting Officer. The Code of Ethics covers such topics as financial reporting, conflicts of interest and compliance with laws. If we make any amendment to, or waiver of, any provision of the Code of Ethics, we will disclose such information on our website as promptly as practicable, as may be required under applicable Securities and Exchange Commission (SEC) and NYSE rules.

You can access our bylaws, Corporate Governance Guidelines, Business Conduct Policy and Code of Ethics at our website www.vulcanmaterials.com, or you can obtain a printed copy free of charge by writing to us at: Corporate Secretary, Vulcan Materials Company, 1200 Urban Center Drive, Birmingham, Alabama 35242. Please note that the information contained on our website is not incorporated by reference in, nor considered to be a part of, this proxy statement.

SHAREHOLDER ENGAGEMENT

We believe that regular, transparent communication with our shareholders is important to our long-term success. In 2018, we continued our corporate governance engagement program and held dialogues with shareholders representing more than 60% of our outstanding shares in order to foster and deepen relationships with the governance teams of our largest

shareholders. Our discussions centered on the company's ESG efforts, including sustainability, carbon reduction, diversity and inclusion, culture, executive compensation and corporate governance matters. Shareholder feedback

from the meetings was shared with the Compensation Committee and the Governance Committee, as well as with the full Board.

DIRECTOR INDEPENDENCE

All of our directors, with the exception of Tom Hill, our Chairman, President and CEO, are independent under the NYSE listing standards, the Board's Director Independence Criteria, and the applicable SEC rules and regulations. The NYSE listing standards provide that a director does not qualify as independent unless our Board affirmatively determines that the director has no material relationship with our company (either directly or as a partner, shareholder or officer of an organization that has a relationship with our company). The NYSE rules require a board to consider all of the relevant facts and circumstances in determining the materiality of a director's relationship with our company and permit the Board to adopt and disclose standards to assist the Board in making determinations of independence. Accordingly, the Board has adopted the following Director Independence Criteria to assist

it in determining whether a director has a material relationship with our company.

DIRECTOR INDEPENDENCE CRITERIA

The Director Independence Criteria provide that a director will be considered independent if he or she:

- (a) has not been an employee of our company, or any of its consolidated subsidiaries, during the last three years;
- (b) has not received more than \$120,000 per year in direct compensation from our company, or any of its consolidated subsidiaries, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued

Table of Contents

CORPORATE GOVERNANCE

service) during any twelve-month period within the last three years;

- (c) has not during the last three years personally performed legal or professional services for our company in an amount more than \$10,000;
- (d) is not a current partner or employee of our company's independent auditor and has not been employed by the present or former independent auditor of our company and personally worked on our company's audit during the last three years;
- (e) during the last three years, has not been part of an interlocking directorate in which an executive officer of our company, or any of its consolidated subsidiaries, served on the compensation committee of another company that concurrently employs the director;
- (f) is not, and has not been in the past three years, an executive officer or an employee of another company (exclusive of charitable organizations) that makes payments to, or receives payments from, our company, or any of its consolidated subsidiaries, for property or services in an amount which, in any single fiscal year, exceeds the greater of \$1,000,000 or 2% of the consolidated gross revenues of such other company;
- (g) has no immediate family member who is, or has been within the last three years, an executive officer of our company, or any of its consolidated subsidiaries;
- (h) has no immediate family member meeting any of the criteria set forth in (b) - (f); except with respect to item (d), in which case an immediate family member may be an employee (not a partner) of the independent auditor so long as such family member does not personally work on our company's audit; and
- (i) has no other material relationship with our company, or any of its consolidated subsidiaries, either directly or as a partner, shareholder, director or officer of an organization that has a material relationship with our company or any of its consolidated subsidiaries.

In determining director independence, "immediate family member" is defined as a spouse, parent, child, sibling, mother or father-in-law, son or daughter-in-law, brother or sister-in-law, and anyone (other than a domestic employee) who shares the director's home. Individuals who are no longer immediate family members as a result of legal separation or divorce, or those who have died or become incapacitated, are not taken into consideration when determining a director's independence. The Director Independence Criteria also require our Board to consider all relevant facts and circumstances, including a director's commercial, industrial, banking, consulting, legal, accounting, familial and charitable relationships and such other criteria as our Board may determine from time to time.

In early 2019, the Board conducted an evaluation of director independence for each director, based on the Director Independence Criteria, the NYSE listing standards and applicable SEC rules and regulations. As a result of this evaluation, the Board affirmatively determined that all of the directors other than our Chairman, President and CEO, Tom Hill, are independent directors under our Board's Director Independence Criteria, the NYSE listing standards and the applicable SEC rules and regulations.

DIRECTOR NOMINATION PROCESS

The Governance Committee considers director candidates recommended by our shareholders. Any shareholder wishing to recommend a candidate for election at the 2020 Annual Meeting of Shareholders must submit that recommendation in writing, addressed to the Governance Committee, in care of our Corporate Secretary, at 1200 Urban Center Drive, Birmingham, Alabama 35242, in accordance with the deadlines and procedures set forth in our bylaws. The notice should include the following:

The name and address of the shareholder who intends to make the nomination(s) and of the person or persons to be nominated;

A representation that the shareholder is a holder of record or a beneficial holder of stock entitled to vote at the meeting (including the number of shares the shareholder owns) and intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice;

A description of all arrangements and understandings between the shareholder and each nominee and any other person or persons (naming such person or persons) pursuant to which the nomination(s) are to be made by the shareholder;

Such other information regarding each nominee proposed by such shareholder as would have been required to be included in a proxy statement filed under the proxy rules of the SEC (whether or not such rules are applicable) had each nominee been nominated, or intended to be nominated, by our Board, including the candidate's name, biographical information, and qualifications; and

The written consent of each nominee to serve as a director if so elected.

14 2019 PROXY STATEMENT

Table of Contents

CORPORATE GOVERNANCE

The Governance Committee will identify nominees by first evaluating the current members of our Board willing to continue in service. Current members of our Board with skills and experience that are relevant to our business and who are willing to continue in service are considered for nomination, balancing the value of continuity of service by existing members of our Board with the potential benefits of obtaining new Board members. If any member of the Board does not

wish to continue in service or if the Governance Committee or the Board decides not to nominate a current Board member for re-election, the Governance Committee may identify the desired skills and experience for a new nominee in light of the above criteria. Directors and members of management also may suggest candidates for Board service. Timely recommendations by our shareholders will receive equal consideration by the Governance Committee.

BOARD LEADERSHIP STRUCTURE

Our Board understands the importance of evaluating and determining the optimal leadership structure so as to provide independent oversight of management. Our Board also understands that there is no single, generally accepted approach to providing Board leadership and that given the dynamic and competitive environment in which we operate, the right Board leadership structure may vary from time to time. For this reason, our Board does not have a policy with respect to the separation of the offices of Chairman of the Board and Chief Executive Officer. The Board has determined that our company should have the flexibility to combine or separate these functions as circumstances deem appropriate. The Board believes that it is in the best interests of our company and its shareholders to have Tom Hill serve as our Chairman, President and CEO, at this time.

In considering its leadership structure, our Board has taken a number of additional factors into account. The Board, which consists exclusively of independent directors, other than Mr. Hill, and all of whom are highly qualified and experienced, exercises a strong independent oversight function. This oversight function is enhanced by the fact that all of the Board's committees, other than the Executive Committee, are comprised entirely of independent directors.

Most significantly, our Corporate Governance Guidelines provide for an independent lead director, a position that is elected annually from among the independent directors of our Board.

Among other things, the lead director is responsible for:

presiding at all meetings or sessions of meetings of the Board at which the Chairman is not present, including at executive sessions of the non-management and independent directors;

serving as liaison between the Chairman and the non-management and independent directors;

approving Board meeting schedules to assure that there is sufficient time for discussion of all agenda items, as well as meeting agendas and information sent to the Board;

having authority to call meetings of the non-management and independent directors; and

if requested by major shareholders, ensuring that he or she is available for consultation and direct communication. The duties of the lead director are delineated in our Corporate Governance Guidelines, which are available on our website at www.vulcanmaterials.com. Mr. Prokopanko currently serves as the lead director, and Mr. Hall will become lead director on May 10, 2019.

Our Board believes that these factors provide the appropriate balance between the authority of those who oversee our company and those who manage it on a day-to-day basis. For additional information regarding how oversight is exercised and how the Board receives information from our committees performing risk management and oversight functions, see Corporate Governance Enterprise Risk Management on page 19.

NON-MANAGEMENT EXECUTIVE SESSIONS

Our Board has adopted a policy relating to non-management executive sessions. Under this policy, the Board meets at each regularly scheduled Board meeting in an executive

session in which Mr. Hill and other members of management are not present. During 2018, the non-management directors met in executive session five times.

Table of Contents**CORPORATE GOVERNANCE****MEETINGS AND ATTENDANCE**

In 2018, our Board held five in-person meetings, and each current director who was a member of the Board in 2018 attended more than 95% of the total number of meetings of the Board and meetings of the committees during 2018 of which he or she was a member.

Our directors are expected to attend the Annual Meeting of Shareholders. In furtherance of this policy, our Board holds a regularly scheduled Board meeting on the same day as the Annual Meeting of Shareholders. All of our Board members attended the 2018 Annual Meeting of Shareholders in person.

ENTERPRISE RISK MANAGEMENT

MANAGEMENT

Our company has a management risk committee that is led by senior corporate officers and draws on the subject matter expertise of senior managers from various functional departments and from line operations management. The management risk committee meets on a regular basis to discuss and evaluate enterprise risks facing the company. The committee develops mitigation plans in response to identified risks and monitors the implementation of such plans. The management risk committee makes regular reports to the Board and the Audit and Safety, Health and Environmental Affairs Committees.

BOARD OF DIRECTORS

Although the Board has the ultimate oversight responsibility for the risk management process, various committees of the Board assist the Board in fulfilling its oversight responsibilities in certain areas of risk. In particular, our Audit Committee focuses on financial risk, including internal controls and cybersecurity risks. Our Audit Committee also assists the Board in fulfilling its duties and oversight responsibilities relating to our company's compliance and ethics programs. In addition, our Safety, Health and Environmental Affairs Committee assists the Board in fulfilling its responsibilities with respect to monitoring operational risks and compliance with safety, health and environmental laws and regulations and works closely with our company's legal and regulatory groups. Our Compensation Committee also assists the Board in

fulfilling its oversight responsibilities to create long-term value for our company, while discouraging behavior that leads to excessive risk taking. Finally, our Finance Committee assists the Board in managing risk relating to investment of the company's pension fund assets and debt/leverage risks. The Board is kept informed of its committees risk oversight and other activities through reports of the committees' chairs to the Board. These reports are presented at Board meetings and include discussions of committee agenda topics. The Board also considers specific risk topics, including risks associated with our strategic plan, our capital structure, our development activities and other current risk topics.

We believe the division of risk management responsibilities described above is an effective approach for addressing the risks facing our company and that our Board structure supports this approach. To further illustrate our approach, the Board devotes significant time and attention to the oversight of cybersecurity and information security risks, and benefits from the technical expertise of certain of its members, namely Messrs. Fanning and Hall. In particular, the Board and Audit Committee each receives regular reporting on cybersecurity and information security risks. The company's management risk committee is also focused on the issue. This collaboration between the Board, the Audit Committee and members of management ensures broad oversight of the evolving nature of cybersecurity and information security risks.

With respect to the transactions involving Messrs. Report of the Audit Committee

The Audit Committee of the Board is responsible for, among other things, reviewing our company's financial statements with management and our company's independent registered public accounting firm. The Audit Committee acts under a written charter which is available on our website at www.vulcanmaterials.com. Each member of the Audit Committee is an independent director as determined by our Board, based on the requirements of the NYSE, the SEC and our Director Independence Criteria.

Our company's management has the primary responsibility for our company's financial statements and financial reporting process, including the system of internal controls. Deloitte & Touche LLP, our independent registered public accounting firm, is responsible for expressing an opinion on the conformity of our company's audited financial statements with generally accepted accounting principles. Our independent registered public accounting firm also audits, in accordance with the standards of the Public Company Accounting Oversight Board (PCAOB), the effectiveness of our company's internal controls over financial reporting. The Audit Committee is responsible for monitoring and overseeing these processes.

In this context, the Audit Committee has reviewed and discussed our company's audited financial statements with management and the independent registered public accounting firm. The Audit Committee has discussed with the independent registered public accounting firm the matters required to be discussed by Auditing Standard 1301

Communications with Audit Committees issued by the PCAOB. In addition, the Audit Committee has received from the independent registered public accounting firm the written disclosures and letter required by the applicable requirements

of the PCAOB regarding the independent accountant's communications with the Audit Committee concerning independence, and discussed with the independent accountant its independence. The Audit Committee has also considered whether the independent registered public accounting firm's provision of any non-audit services is compatible with the firm's independence. The Audit Committee has concluded that the independent registered public accounting firm is independent from our company and management.

Based on the reviews and discussions noted above, the Audit Committee recommended to the Board that the audited financial statements be included in our company's Annual Report on Form 10-K for the year ended December 31, 2018, for filing with the SEC.

Executive Summary

Vulcan's unwavering commitment to reliability, quality and customer service has long provided us with a competitive edge, and we remain well-positioned as an industry leader. Vulcan's mission drives every aspect of our business, including the pay-for-performance philosophy of our executive

compensation program. We believe that our approach to executive compensation appropriately aligns management's interests with those of our shareholders and encourages a focus on producing long-term, sustainable shareholder value.

Our mission is to provide quality products and service; to foster the safety, skills and development of our people; to protect the environment; and to create superior, sustainable

value for our shareholders.

COMPENSATION DISCUSSION AND ANALYSIS

COMPENSATION MIX

To ensure management's interests are aligned with those of shareholders and the performance of our company, a substantial portion of our NEOs' compensation is at-risk and will vary above or below target levels depending on company performance. Additionally, in order to align our executives' interests with those of our shareholders, we have historically paid a majority of NEO compensation through long-term

performance-based equity awards. In recent years, the Compensation Committee has awarded PSUs and SOSARs in order to tie executive compensation more closely to company performance, including stock price growth. Of total cash compensation paid, roughly half is performance-based. The diagrams below show the percentage of our NEOs' 2018 target compensation that was performance-based and at-risk.

Our compensation program is intended to motivate our NEOs to achieve Vulcan's strategic goals and operational plans while adhering to our high ethical business standards.

COMPENSATION DISCUSSION AND ANALYSIS

2018 PERFORMANCE

FINANCIAL PERFORMANCE

Our operating disciplines, like our world-class safety performance, remained strong in 2018. Despite weather disruptions and a 25% increase in the cost of diesel fuel during the year, the company delivered strong top and bottom line growth a testament to our operating discipline and the talent of our people. For the year, the company increased total revenues and Adjusted EBITDA compared to the prior year.

We performed well in 2018 and are confident in our ability to deliver even stronger results in the future, as we benefit from the operational strength of our business and improving market trends. Notable in this regard is the marked increase in state and local highway funding that is now translating into increased aggregates shipments, thanks to state legislative initiatives and successful local ballot measures.

- (1) 2017 net earnings include discrete income tax benefits of \$297.0 million, including benefits arising from the enactment of the Tax Cuts and Jobs Act.
- (2) Adjusted EBITDA is a non-GAAP financial measure. We provide a reconciliation of Adjusted EBITDA to the most directly comparable GAAP financial measure in Annex A to this proxy statement.

SAFETY PERFORMANCE

Our collective safety performance in 2018 was the best in our company's history. We achieved a world-class level of 0.92 injury incidents per 200,000 hours worked, and our MSHA citation rate was 0.70 compared to an industry average of 2.06. Our safety performance underscores our strong culture, which is bolstered by an engaged workforce that believes in employee ownership of safety and operational performance. We believe that the more engaged our managers are with their teams and the more engaged our employees are with each other, the safer and more effective our operations will become.

In addition, each NEO's short-term performance-based bonus is dependent on the company's safety performance and may be adjusted as much as 25% of target based on measurable performance in safety. This bonus metric reflects the importance of safety at the highest levels of our management team.

We believe that safety culture is a leading indicator of a well-run company, and we are committed to continuous improvement on our world-class performance.

COMPENSATION DISCUSSION AND ANALYSIS

SHAREHOLDER ENGAGEMENT AND SAY ON PAY RESULTS

At our 2018 Annual Meeting of Shareholders, **over 98% of the votes cast were in favor of the advisory vote to approve the compensation of our NEOs** (Say on Pay vote). We believe the results of the 2018 Say on Pay vote demonstrate continued strong shareholder support for our current compensation program. **Furthermore, during our shareholder engagement discussions over the course of 2018, shareholders were generally supportive of our executive compensation program and the accompanying disclosures.**

We recognize, however, that we must always strive for continuous improvement. To that end, acting on some of the advice and guidance that we received in the course of our shareholder outreach efforts, we added our annual average growth rate of Aggregates Cash Gross Profit per ton (versus a pre-determined target) as an additional metric, together with Total Shareholder Return, for determining payouts for PSUs granted in 2019.

EXECUTIVE COMPENSATION PRACTICES

The table below highlights certain of our executive compensation practices, including practices we have implemented that drive performance, as well as those not implemented because we do not believe they would serve our shareholders' interests.

WHAT WE DO

Pay for performance. Tie pay to performance by ensuring that a significant portion of NEO compensation is performance-based and at-risk.

Median compensation targets. All compensation elements of our executives are generally targeted at the market median (50th percentile), subject to individual variation based on the Compensation Committee's assessment of each executive's performance, experience and responsibilities as well as internal equity considerations.

Robust share ownership guidelines with an equity retention requirement. We have stock ownership guidelines of 7 times base salary for the CEO and 3 to 4 times base salary for our other NEOs and an equity retention requirement of 50% of net shares paid as incentive compensation until ownership guidelines are met.

Clawback Policy. We have a compensation recovery (clawback) policy that requires officers to forfeit certain cash-based incentive compensation and/or equity-based incentive compensation if the company restates its financial statements due to the

PSUs are a substantial portion of long-term incentive awards. PSU grants, tied to our relative performance against the S&P 500, comprised approximately 73% of the total value of annual long-term incentive grants made to our NEOs in 2018. SOSARs comprised the remaining 27%.

Double-Trigger change of control requirement for long-term incentive awards. Our 2016 Plan provides that long-term incentive awards will not vest upon a change of control of Vulcan unless: (i) awards are not assumed, substituted or continued by the surviving company, or (ii) if such awards are assumed, substituted or continued by the surviving company, only upon a participant's qualifying termination of employment.

officer's misconduct.

No pledging of shares. Our directors and officers are not permitted to pledge Vulcan shares as collateral for loans or any other purpose.

No hedging. We prohibit directors and officers from engaging in short sales of Vulcan stock or similar transactions intended to hedge or offset the market value of Vulcan stock owned by them.

Independent compensation consultant. The Compensation Committee uses an independent compensation consultant that provides no other services to the company.

WHAT WE DON'T DO

Employment contracts. None of our NEOs have employment contracts that guarantee continued employment or a certain level of compensation.

Dividends on unvested PSUs. Our PSUs require 3 or 4 years to vest and dividends are neither paid nor accrued during such vesting period.

Repricing. Stock options and SOSAR exercise prices are set equal to the grant date market price and may not be repriced.

Excessive Change of Control Agreements. Our Change of Control Agreements do not provide for:

Single-trigger termination right;

Inclusion of long-term incentive value in the calculation of cash severance; or

Excise tax gross-ups.

COMPENSATION DISCUSSION AND ANALYSIS

Executive Compensation Program in Detail

COMPENSATION PHILOSOPHY

The dedication and performance of our employees, including our NEOs, enable us to accomplish our corporate goals. The compensation program for our NEOs is intended to motivate them to achieve Vulcan's strategic goals and operational plans while adhering to our high ethical business standards.

Vulcan's executive compensation program is centered on a pay-for-performance philosophy, which aligns executive compensation with shareholder value and ultimately impacts our compensation program design.

OUR THREE COMPENSATION PRINCIPLES

Link a significant portion of compensation to performance.

We believe that compensation levels should reflect performance both the performance of Vulcan and the performance of the recipient. This is accomplished by:

Motivating, recognizing and rewarding individual excellence

Paying short-term cash bonuses based upon company financial performance and individual performance

Linking long-term compensation to our company's stock performance through the use of PSUs and SOSARs

Maintain competitive compensation levels.

We strive to offer programs and levels of compensation that are competitive with those offered by industrial companies of similar size, value and complexity in order to attract, retain and reward our NEOs.

Align management's interests with those of shareholders.

Our program encourages NEOs to remain with us and to increase long-term shareholder value by granting long-term equity-based awards each year and tying short-term cash bonuses to the achievement of economic profit targets closely aligned with the creation of shareholder value.

BENCHMARKING COMPENSATION AND PEER GROUP DEVELOPMENT

On an annual basis, the Compensation Committee reviews a benchmarking analysis of total compensation for our CEO and other NEOs relative to market data. Our compensation consultant develops market data appropriate for a company of our size using a combination of peer group data and market surveys.

IMPLEMENTATION OF NEW PEER GROUP

We revised our peer group for 2018 in order to provide more relevant comparisons of pay level and pay practices, by including companies more comparable to Vulcan in terms of industry, size, margins and capital intensity. We implemented a systematic process that began with a list of all U.S. public companies, and we refined the potential list of peers using these and other selection criteria filters, resulting in the final list of 29 companies. When the peer group was approved by the Compensation Committee, our revenues approximated the median of the peer group and our market capitalization was above the 75th percentile.

We select peers based on their industry (construction, materials and mining) and then based on their size (revenues, capital intensity and operating margins).

COMPENSATION DISCUSSION AND ANALYSIS

USE OF PEER GROUP AND MARKET COMPENSATION STUDIES

The peer group compensation data, in combination with consideration of each NEO's experience, responsibilities and performance, assist the Compensation Committee in making informed, market-based decisions regarding our executive pay program.

In an effort to provide an additional reference point for competitive pay for NEOs, other than our CEO and CFO, our compensation consultant conducts an executive market study (using survey data from Aon and Willis Towers Watson, two global consulting firms specializing in compensation practices) that compares our NEOs' total compensation to that of similarly situated executives among U.S. manufacturing companies with revenues between \$1 billion and \$4.9 billion.

Using the peer group analysis and the Aon and Willis Towers Watson survey data, we seek to provide target compensation at a competitive level for each of the three elements: base salary, short-term cash bonus and long-term equity-based awards. We generally target each element at the 50th percentile of the market as determined by the analysis, subject to individual variation based on the

Compensation Committee's assessment of each executive's performance, experience and responsibilities as well as internal equity considerations.

This analysis serves as a starting point for evaluating appropriate levels of base salary. We generally target base salaries at the 50th percentile of the market as determined by our analysis, which we believe is the appropriate level for ensuring the competitiveness of our compensation.

We set the target cash bonus opportunity for our NEOs at competitive market levels consistent with similarly situated executives in our peer group and in the compensation surveys. Corporate performance at target levels is intended to yield a bonus for each NEO at a level approximately equal to the median level indicated in the compensation study with respect to similarly situated executive officers.

We establish a standard percentage of each NEO's base salary to be used as the targeted value of long-term awards to each NEO. The Compensation Committee sets the standard at approximately the 50th percentile of the awards made to individuals with similar positions in the market as determined by our competitive market analysis.

KEY PAY ELEMENTS

The following chart summarizes the key pay elements for our NEOs. Each element is described in detail beginning on page 37 in the Section Elements of Compensation.

COMPENSATION DISCUSSION AND ANALYSIS

THE ROLE OF INDIVIDUAL PERFORMANCE

Each NEO's base salary and annual bonus is determined through thoughtful consideration of individual performance, company performance, competitive market pay as well as individual responsibilities and experience.

CEO EVALUATION

With respect to our CEO, the independent members of our Board use a formal process for evaluating his performance. Each Board member provides a written evaluation in the areas of leadership, strategic planning, financial performance, safety performance, customer relations, personnel management, communications, board relations and overall performance. In its performance deliberations, the Compensation Committee has access to the input from the full Board and independently assesses the CEO's performance.

OTHER NEOs EVALUATION

For our NEOs other than our CEO, the Compensation Committee reviews performance reports, as prepared by our CEO. Individual performance is based primarily on the extent to which each NEO achieves a series of set goals throughout the period.

The following are notable individual accomplishments of each NEO in 2018:

Tom Hill CHAIRMAN, PRESIDENT AND CHIEF EXECUTIVE OFFICER

COMPENSATION DISCUSSION AND ANALYSIS

Elements of Compensation

Our elements of compensation, all of which are discussed in greater detail below, include:

Base salary

Short-term performance-based bonus

Long-term equity incentives

Benefits and perquisites

Change of control agreements

Retirement benefits

BASE SALARY

The base salary element of our compensation program is designed to be competitive with compensation paid to similarly-situated, competent and skilled executives.

The Compensation Committee uses the information and procedures described below to set base salaries tied to individual performance, contribution to business results and market compensation comparisons. The Compensation Committee determines if base salary adjustments are appropriate for our NEOs after considering all of the following factors:

NEO's performance relative to the pre-established goals and objectives in his or her areas of responsibility

NEO's overall managerial effectiveness with respect to leadership planning, personnel development, communications, strategy execution and similar matters

Competitive pay levels for similarly-situated executives set forth in compensation surveys and our peer group

Changes in NEO s responsibilities

NEO s level of expertise and potential for future contributions to the company, retention risks and fairness in view of our overall salary increases

Economic environment and its impact on the company

We review the base salaries of the NEOs annually, and also at the time of any promotion or change in responsibilities. The following table sets forth the annual base salary of each NEO at December 31, 2018:

NAME	POSITION	2018 SALARY
Tom Hill	Chairman, President and Chief Executive Officer	\$ 1,100,000
John McPherson	Former Executive Vice President and Chief Financial and Strategy Officer	\$ 828,000
Suzanne Wood	Senior Vice President and Chief Financial Officer	\$ 650,000
Stan Bass	Chief Growth Officer	\$ 608,000
Michael Mills	Chief Administrative Officer	\$ 608,000

Tom Baker	Senior Vice President	\$	608,000
------------------	-----------------------	----	---------

To further our goal of aligning the executives' interest with those of our shareholders, we generally reward superior performance through our short-term cash bonus program and long-term equity-based incentives rather than through base salary.

COMPENSATION DISCUSSION AND ANALYSIS

SHORT-TERM PERFORMANCE-BASED BONUS

Our short-term cash bonus incentive program is designed to motivate our executives, including the NEOs, and reward them with cash payments for achieving quantifiable, pre-established business results as well as for individual performance. We pay short-term incentives to our NEOs under the shareholder-approved Executive Incentive Plan (EIP).

In order for the NEOs to be eligible to receive a cash bonus, the company must attain a minimum performance threshold for the year, as established by the Compensation Committee. The minimum performance threshold is only used to determine a NEO's eligibility for a bonus payment under the EIP. For 2018, the minimum threshold was either: (1) cash earnings in the amount of \$300 million; or (2) EBITDA in the amount of \$400 million. If the Compensation Committee determines that either of the minimum performance thresholds are met, our NEOs may receive a bonus under the EIP. In 2018, Company performance exceeded each of these established minimum thresholds.

At the beginning of the plan year, the Compensation Committee determined the target bonus as well as the maximum bonus payable under the EIP for each NEO. After considering 2018 company and individual performance, the Compensation Committee exercised downward discretion from the maximum bonus amount to determine each NEO's actual bonus amount under the EIP.

The Compensation Committee used EBITDA Economic Profit (EBITDA EP*), which incorporates Return on Capital Employed (ROCE), as its short-term financial incentive metric in determining actual bonus payable to each NEO. We believe this metric provides an incentive for management to carefully consider deployment of capital as the company increases capital expenditures during the current construction up cycle.

EBITDA EP measures the extent to which Adjusted EBITDA exceeds an operating capital charge. Adjusted EBITDA EP is based on Adjusted EBITDA, but includes other performance adjustments, such as business acquisition performance versus planned performance. The operating capital charge is based on our company's average assets and liabilities associated with Adjusted EBITDA EP multiplied by the estimated pretax cost of capital. We believe that changes in EBITDA EP positively correlate with changes in shareholder value better than other commonly used financial performance measures.

The 2018 EBITDA EP target of \$503.8 million was based on performance during the preceding three years, weighted most heavily on the most recent fiscal year, less certain gains on sales of property or assets. The Compensation Committee determined actual cash bonuses for 2018 based on EBITDA EP of \$580.4 million, which was \$76.6 million above the target.

The Compensation Committee also considered the company's safety performance when determining actual bonuses payable to our NEOs. The company's actual safety performance is measured against pre-established goals set by the Compensation Committee and can result in an increase in each NEO's bonus multiple by up to 20 points or a decrease by up to 25 points. A bonus multiple point is equal to 1% of the NEO's target bonus. For 2018, the company achieved a world-class safety record with a total incident injury rate of 0.92 for every 200,000 employee hours worked. World-class performance is generally recognized as an injury rate of less than 1.0 per 200,000 employee hours.

worked. As a result, each NEO received an increase of 15 points to the performance bonus multiple used to calculate his or her bonus for 2018.

The table below shows the target bonus, the maximum bonus payable under the EIP and the actual cash bonus paid to each NEO based on 2018 company and individual performance.

NAME	TARGET BONUS AS A PERCENTAGE OF BASE SALARY		TARGET BONUS AMOUNT	MAXIMUM CASH BONUS PAID BASED ON 2018 PERFORMANCE	
	BASE SALARY				
Tom Hill	\$1,100,000	125%	\$1,375,000	\$3,437,500	\$2,021,300
John McPherson	\$ 828,000	110%	\$ 910,800	\$2,277,000	\$1,338,900
Suzanne Wood⁽²⁾	\$ 650,000	85%	\$ 184,167	\$ 460,417	\$ 270,700
Stan Bass	\$ 608,000	80%	\$ 486,400	\$1,216,000	\$ 965,000
Michael Mills	\$ 608,000	80%	\$ 486,400	\$1,216,000	\$ 715,000
Tom Baker	\$ 608,000	80%	\$ 486,400	\$1,216,000	\$ 715,000

(1)The EIP permits the payment of bonuses up to 4 times a NEO's target amount (but not to exceed \$7 million). However the amounts in this column equal 2.5 times the NEO's target bonus, which is the maximum allowed by the Compensation Committee.

(2)Ms. Wood joined the company in September of 2018; her bonus was prorated in accordance with the number of months she was employed in 2018.

* EBITDA EP is a non-GAAP measure. See Annex A for a reconciliation of non-GAAP financial measures to our results reported under GAAP.

COMPENSATION DISCUSSION AND ANALYSIS

LONG-TERM EQUITY INCENTIVES

Our long-term equity incentive compensation program rewards the NEOs based on the future performance of our company, by providing awards for creating value for our shareholders. The goals of the long-term incentive program are to:

Ensure NEOs' financial interests are aligned with our shareholders' interests

Motivate decision-making that improves financial performance over the long-term

Recognize and reward superior financial performance of our company

Provide a retention element to our compensation program

Promote compliance with the stock ownership guidelines for executives

Based principally on data and analysis from its independent compensation consultant, the Compensation Committee establishes a standard long-term equity incentive opportunity, expressed as a percentage of each NEO's base salary, to be used when making long-term equity awards.

Our 2016 Plan provides a variety of alternative types of awards that the Compensation Committee may use, at its discretion, for granting long-term incentives. The 2016 Plan became effective on May 13, 2016, after it was approved by our shareholders at our 2016 Annual Meeting of Shareholders. The types of awards authorized under the 2016 Plan include:

stock options

stock-only stock appreciation rights (SOSARs)

performance share units (PSUs)

restricted stock units (RSUs)

In recent years, the Compensation Committee has used PSUs, SOSARs or a combination of both for annual equity incentive grants to our NEOs.

2018 LONG-TERM INCENTIVE GRANTS

Annually at its February meeting, the Compensation Committee grants long-term incentive awards. All such equity-based awards are priced on the date of grant. Typically, any additional equity-based incentive grants are made to NEOs during the year only upon hire or promotion.

In 2018, the Compensation Committee made the annual long-term incentive grant to the NEOs in the form of a combination of SOSARs and PSUs. PSU grants comprised approximately 73% of the total value of the annual long-term incentive grants made to each NEO, while SOSARs comprised the remaining 27%. The number of equity-based awards granted is determined by valuing SOSARs and PSUs under valuation principles similar to generally accepted accounting principles (in the case of SOSARs, a Black-Scholes option pricing model, and in the case of PSUs, a Monte Carlo simulation model). The Compensation Committee normally grants a number of equity-based awards that produce an award value on the date of the grant that approximates the 50th percentile level of awards made to similarly-situated executives determined by our competitive market analysis. However, the Compensation Committee may make adjustments each year to the number of units granted.

Additionally, Ms. Wood joined the company in September of 2018 and received a hiring grant of 3,500 RSUs.

A summary of all long-term incentive (LTI) grants made to NEOs in 2018 is as follows:

NAME	2018 ANNUAL GRANTS			TOTAL LTI
	SOSARs	PSUs	RSUs	GRANTS
Tom Hill	27,200	27,200	0	54,400
John McPherson	14,000	14,000	0	28,000
Suzanne Wood	0	0	3,500	3,500

Stan Bass	6,600	6,600	0	13,200
Michael Mills	6,600	6,600	0	13,200
Tom Baker	6,600	6,600	0	13,200

These awards are also reflected in the Summary Compensation Table on page 46 and the Grants of Plan-Based Awards table on page 47.

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS*****Performance Share Units (PSUs)***

PSUs granted in 2018 will vest at the end of a three-year period to the extent that the company has met the performance goals established by the Compensation Committee. Vested PSUs are paid in Vulcan common stock. Unvested PSUs do not earn dividends. For PSUs granted in 2018, the performance measurement is the company's total shareholder return (TSR) percentile rank relative to the TSR of the S&P 500, averaged over the three-year period ending December 31, 2020. The Compensation Committee chose the S&P 500 as the comparison group for relative TSR performance because it is a broad and stable index group that represents investors' alternative capital investment opportunities. Vulcan is also a member of the S&P 500.

The following table shows the payout percentage of 2018 PSUs that will vest over the three-year period based on potential levels of performance:

PERFORMANCE SHARE UNIT PAYMENT TABLE⁽¹⁾

	THREE-YEAR AVERAGE TSR PERCENTILE	% OF PSUs
GRANT VALUE	RANK RELATIVE TO S&P 500 INDEX	PAYABLE ⁽²⁾
Value of awards made to similarly-situated executives	75th or more	200
at the 50 th percentile, based upon a market analysis	50th	100
	25th or less	0

(1) If the company's three-year average TSR relative to the S&P 500 Index is at the 50th percentile, the full award is paid. The payout is adjusted incrementally for performance above and below the 50th percentile and can range from 0% to 200%.

(2)Payouts interpolated for returns between 25th and 50th percentile and 50th and 75th percentile.

In 2019, based on input from our shareholders, the Compensation Committee elected to add our annual average growth rate of Aggregates Cash Gross Profit per ton as an additional metric for determining payouts of PSUs granted in 2019.

Stock-Only Stock Appreciation Rights (SOSARs)

SOSARs entitle the recipient to receive, at the time of exercise, shares of Vulcan stock with a market value equal to the difference between the exercise price (the closing price of Vulcan stock on the date of grant) and the market price of Vulcan stock on the date the SOSARs are exercised. SOSARs have a ten-year term and vest at a rate of one-third annually over the first three years of their term.

Restricted Stock Units (RSUs)

RSUs vest on the third anniversary of their grant date. Once RSUs vest, payment will be made in the form of Vulcan common stock. Taxes are withheld when the net shares are distributed.

PAYMENTS OF PRIOR GRANTS

In February 2018, our NEOs received payment for PSUs that were granted in 2014, which vested on December 31, 2017, because the applicable performance criteria were satisfied. These PSUs were paid out at 160% of the amount of the original grant made in 2014. The PSU payment percentage of 160% was based on TSR performance of our common stock relative to the TSR performance of the companies that comprise the S&P 500 Index during the four-year performance period.

BENEFITS AND PERQUISITES

NEOs participate in each of the benefit plans or arrangements that generally are made available to all salaried employees including:

medical and dental benefits;

life, accidental death and disability insurance; and

retirement plans.

Our company pays 100% of the premiums for individual long-term disability policies that insure base salary and target bonus in excess of that insured under the group contract up to a limit of \$700,000 in covered compensation.

We revised our company car policy in 2018 and no longer provide company-owned cars to the NEOs for their use. Instead, we now reimburse NEOs for qualified expenses incurred while using personal vehicles for company purposes based on a fixed and variable rate reimbursement program.

We also make the company-owned aircraft available to the CEO and other senior executives for business travel. In addition, the aircraft is available to the CEO for personal use, subject to the policy described below. In certain limited circumstances, such as when a particular use is incidental to company business or is otherwise extraordinary (e.g., a medical emergency), an NEO may use the aircraft for personal travel without reimbursement to the company, provided, that such use is considered for inclusion in the applicable NEO's taxable income for the year.

In 2018, at the recommendation of our Compensation Committee, the Board approved a policy allowing the CEO to

use the company's corporate aircraft for personal travel outside of the aforementioned limited circumstances, without reimbursement to the company, up to a maximum value of \$100,000 per year. Tom Hill used the company-owned aircraft for such personal reasons in 2018 on 4 occasions, and the cumulative amount attributable to those uses was less than \$100,000.

In addition, in 2018, John McPherson used the company-owned aircraft for commuting on 16 occasions and for personal use on 1 occasion. Stan Bass used the aircraft for personal use on 6 occasions. Depending on availability, Mr. McPherson was also permitted to ride along on the corporate aircraft when it was already scheduled to fly to a specific destination for a business purpose. This use has no incremental cost to Vulcan. During 2018, Mr. McPherson rode along on 9 such trips on the corporate aircraft when it was already scheduled to fly between Texas and our corporate headquarters in Birmingham, Alabama.

In accordance with the company's policy, none of the flights mentioned above required reimbursement to the company, and each was considered for inclusion in the applicable NEO's taxable income for the year. Except as set forth above, none of the other NEOs received a personal benefit from the use of company-owned aircraft.

We do not provide other significant perquisites to the NEOs.

The Compensation Committee reviews our policies and determines whether and to what extent perquisites should be modified or continued.

COMPENSATION DISCUSSION AND ANALYSIS

CHANGE OF CONTROL AGREEMENTS

Effective as of January 1, 2016, Vulcan entered into new Change of Control Employment Agreements (COC Agreements) with Messrs. Hill, McPherson, Bass and Mills to replace prior change of control severance agreements. In 2018, Vulcan entered into the same form of COC Agreement with each of Mr. Baker and Ms. Wood. Each of the COC Agreements covers a term of three years and will be automatically extended annually for subsequent three-year terms unless Vulcan gives prior notice of non-extension. In the event of a change of control, said COC Agreements entitle the executives to continue employment with Vulcan for two years following the change of control, during which time period the executive will continue to hold a position and duties, and receive compensation and benefits, commensurate with the practices in effect during the four-month period prior to the change of control. Severance benefits under each COC Agreement will be payable following a qualifying termination (termination by the executive for good reason or by Vulcan without cause) that occurs within two years following (or prior to, but in connection with) a change of control. A change of

control is defined to include: (a) the acquisition of 30% or more of the outstanding Vulcan stock or voting power by an individual, entity or group; (b) a change in the majority of the board of directors of Vulcan that is not endorsed by the incumbent board of directors; (c) consummation of a reorganization, merger, consolidation or similar corporate transaction that results in a new group holding at least 50% of the beneficial ownership of the outstanding Vulcan stock or voting power; and (d) approval by Vulcan shareholders of a complete liquidation or dissolution of the company.

The COC Agreements provide for a payment of three times the sum of base salary and average bonus upon a change of control.

We enter into COC Agreements with the NEOs to provide for retention and continuity in order to minimize disruptions during a pending or anticipated change of control. For a detailed description of these change of control benefits, refer to **Change of Control Agreements and Related Cash Severance Benefits** on page 54.

RETIREMENT BENEFITS

Our company provides the following retirement benefits to our NEOs:

BENEFIT

BACKGROUND

Retirement Plan*

This pension plan covers all salaried employees of our company hired prior to July 15, 2007. **As of December 31, 2013, benefits under the Retirement Plan were frozen. The plan was amended to freeze service accruals effective December 31, 2013, and pay accruals effective December 31, 2015.**

Supplemental Plan*

The Unfunded Supplemental Benefit Plan provides for benefits that are curtailed under the Retirement Plan and the 401(k) Plan due to Internal Revenue Service pay and benefit limitations for qualified plans. This Plan is designed to provide retirement income benefits, as a percentage of pay, which are similar for all employees regardless of compensation levels. The Unfunded Supplemental Benefit Plan eliminates the effect of tax limitations on the payment of retirement benefits, except to the extent that it is an unfunded plan and a general obligation of our company. **As of December 31, 2013, pension plan benefits under the Supplemental Retirement Plan were frozen. The plan was amended to freeze service accruals effective December 31, 2013, and pay accruals effective December 31, 2015. Supplemental 401(k) benefits continue to accrue under this plan.**

401(k) Plan

This plan has two components: (1) an employee contribution feature with company matching and (2) an annual employer contribution.

* A discussion of all retirement benefits provided to the NEOs is set forth under the heading Retirement and Pension Benefits beginning on page 51.

In order to align the interests of the NEOs with our shareholders' interests and to promote a long-term focus for these officers, our company has executive stock ownership guidelines for the officers of our company. The stock ownership requirements are higher for the CEO than for the other NEOs. The following table shows the guidelines for the NEOs, expressed as a multiple of base salary:

Ms. Wood and Mr. Baker have five years from the date each joined or rejoined the company, respectively, to meet such guidelines.

SHARE RETENTION REQUIREMENTS

Pursuant to the equity retention policy in our stock ownership guidelines, all NEOs are required to retain 50% of net shares paid as incentive compensation until such officer meets or exceeds the applicable ownership guidelines.

COMPENSATION DISCUSSION AND ANALYSIS

Risk, Accounting and Tax Considerations

Our compensation program is balanced, focused and gives considerable weight to the long-term performance of our company. Under this structure, the highest amount of compensation can only be achieved through consistent superior performance over sustained periods of time. Goals and objectives reflect a balanced mix of quantitative and qualitative performance measures to avoid excessive weight on a single performance measure. Likewise, the elements of compensation are balanced among current cash payments and long-term equity-based incentive awards. The Compensation Committee retains the discretion to adjust compensation for quality of performance and adherence to our company's values.

Based on the foregoing features of our compensation program, the Compensation Committee has concluded that risks arising from compensation policies and practices for employees of the company and its affiliates are not reasonably likely to have a material adverse effect on the company as a whole.

In administering the compensation program for NEOs, the Compensation Committee considers the applicability of Section 162(m) of the Code, the consequences under financial accounting standards, the tax consequences in our analysis of total compensation and the mix of compensation elements, base salary, bonus and long-term incentives. Section 162(m)

generally prohibits public companies from taking a tax deduction for compensation that is paid to any one of certain employees (generally, our Chief Executive Officer and other NEOs, excluding our Chief Financial Officer in the case of tax years commencing before 2018) in excess of \$1,000,000. For tax years prior to January 1, 2018, Section 162(m) allowed us to deduct certain qualified performance-based compensation. Historically, we therefore intended that bonus payments under the EIP and grants of long-term incentives under our 2016 Plan would qualify as qualified performance-based compensation; however, we have always maintained the flexibility to grant awards that may not be tax-deductible. Section 162(m) was amended in December 2017, and for taxable years beginning January 1, 2018, the qualified performance-based compensation deduction is no longer available, except in limited situations that are eligible for transition relief. We are therefore not currently eligible to take a deduction under Section 162(m) for qualified performance-based compensation except in limited grandfathered situations, for which we may not qualify. The Compensation Committee maintains (and has maintained) the discretion to modify compensation that was initially intended to be exempt from Section 162(m), to the extent permitted by applicable law and the relevant governing documents, if it determines that such modifications are consistent with Vulcan's business needs.

(1) Pursuant to the rules of the SEC, we have provided a grant date fair value for Stock Awards and Option Awards in accordance with the provisions of FASB ASC Topic 718. For Option Awards (including SOSARs), the fair value is estimated as of the date of grant using the Black-Scholes option pricing model, which requires the use of certain assumptions, including the risk-free interest rate, dividend yield, volatility and expected term. The risk-free interest rate is based on the yield at the date of grant of a U.S. Treasury security with a maturity period equal to or approximating the option's expected term. The dividend yield assumption is based on our historical dividend payouts adjusted for current expectations of future dividend payouts. The volatility assumption is based on the historical volatility, and expectations regarding future volatility, of our common stock over a period equal to the option's expected term. The expected term of options granted is based on historical experience and expectations about future exercises and represents the period of time that options granted are expected to be outstanding. For Performance Share Awards, the fair value is estimated on the date of grant using a Monte Carlo simulation model. For the highest performance level, the maximum number of shares payable and the estimated grant date value are 54,400 shares (\$6,375,680) for Mr. Hill; 28,000 shares (\$3,281,600) for Mr. McPherson; 13,200 shares (\$1,547,040) for Mr. Bass; 13,200 shares (\$1,547,040) for Mr. Mills; and 13,200 shares (\$1,547,040) for Mr. Baker. We do not believe that the fair values estimated on the grant date, either by the Black-Scholes model or any other model, are necessarily indicative of the values that might eventually be realized by an executive.

(2) The Executive Incentive Plan (EIP) payments were made on March 14, 2019, for the previous year's performance. See discussion of the EIP under heading "Compensation Discussion and Analysis" above.

(3) Includes only the amount of change in pension value because our company does not provide any above market earnings on deferred compensation balances. The year over year change in pension value was attributable to two primary factors, which were: (i) aging (one year closer to retirement) and (ii) change in actuarial assumptions (change in interest rate from 3.35% to 4.02%, and mortality table to RP-2014 Health Employee & Annuitant Mortality White Collar Table, adjusted to 2006 base rates, with generational improvements projected using Scale MP-2018).

DEFERRED COMPENSATION PLAN

Our Executive Deferred Compensation Plan was established in 1998 to allow executives to defer a portion of their current year's compensation in a tax-efficient manner. We believe that providing a tax deferral plan gives our executives flexibility in tax and financial planning and provides an additional benefit at little cost to our shareholders. Our company does not make any contributions to the plan on behalf of the participants. Because our company purchases assets that mirror, to the extent possible, participants' deemed investment elections under the plan, the only costs to our company related to the plan are administrative costs and any contributions that may be necessary to true-up account balances with deemed investment results. The plan allows executives with annual compensation (base salary and target annual short-term bonus) of \$200,000 or more to defer receipt of up to 50% of base salary, up to 90% of annual cash bonus and up to 100% (net of FICA and any applicable local taxes) of long-term incentive awards, which are not excluded from deferral eligibility by the Code (or regulations thereunder), until a date selected by the participant. The amounts deferred are deemed invested as designated by participants in our company's common stock (a phantom stock account) or in dollar-denominated accounts that mirror the gains or losses of the various investment options available under our company's 401(k) plan. The plan does not offer any guaranteed return to participants.

The plan is funded by a rabbi trust arrangement owned by our company, which holds assets that correspond to the deemed investments of the plan participants and pays benefits at the times elected by the participants. Participants have an unsecured contractual commitment from our company for payment when the amounts accrue. Upon the death or disability of a participant or upon a change of control of our company, all deferred amounts and all earnings related thereto will be paid to the participant or participant's beneficiaries in a single lump sum cash payment.

Effective for deferrals made after January 1, 2007, the plan permits executives to defer payouts of PSUs, RSUs and DSUs into the plan, which would, absent such deferral, be distributed to the executives and immediately taxable. The PSU, RSU and DSU deferrals generally will be credited to the plan participant accounts in the form of phantom stock and an equal number of shares of our common stock will be deposited by our company into the rabbi trust. Deferrals of long-term incentive compensation payments are also invested in phantom stock of our company and may not be reallocated to an alternative investment option while in the plan.

Generally, most full-time salaried employees of our company that were hired prior to July 15, 2007, including Messrs. Hill, Bass and Mills, participate in our company's pension plans. Our NEOs are also eligible for supplemental retirement programs, as described below. Retirement benefits become payable as early as the date on which participants both attain age 55 and complete one year of service.

The following table provides for each NEO the number of years of credited service and the present value of accumulated benefits as of December 31, 2018, under each plan in which the NEO participates. (1) The present value of accumulated benefits are based on benefits payable at age 62, the earliest age under the plans at which benefits are not reduced, or current age if the participant is older than age 62. The following FASB ASC Topic 715 Compensation Retirement Benefits assumptions as of December 31, 2018, were used to determine the present values:

RETIREMENT INCOME PLAN

The Retirement Income Plan for Salaried Employees (Retirement Plan) provides benefits under a funded noncontributory defined benefit plan and covers most salaried employees, including all executive officers, hired prior to July 15, 2007. In 2013, the Retirement Plan was amended to freeze service accruals effective December 31, 2013, and pay accruals effective December 31, 2015.

The normal retirement date is defined in the Retirement Plan as the first day of the calendar month immediately following a participant's 65th birthday. The amount of benefit is based on earnings, service and the age at which a participant commences receiving a benefit. Eligible earnings under the Retirement Plan, or Final Average Earnings, is the average of a participant's highest 36 consecutive months of earnings and includes base monthly salary and cash bonus. Under Section 415 of the Code, the maximum annual benefit allowable under the Retirement Plan for an employee retiring at age 65 in 2018 is \$220,000. In addition, Section 401 of the

Code limits the amount of a participant's compensation that may be taken into account under the Retirement Plan to \$275,000. These dollar limits are subject to cost of living adjustments.

The Retirement Plan formula provides a monthly benefit equal to 0.9% of Final Average Earnings per year of service accrued prior to age 45, plus 1.2% of Final Average Earnings per year of service accrued after age 44, plus 0.5% of Final Average Earnings in excess of 50% of the Social Security Wage Base applied to all years of service. A vested participant may commence receiving early retirement benefits under the Retirement Plan as early as age 55. The amount of early retirement reduction depends on the age of a participant when active employment ceases. If active employment ceases after age 55 and retirement income commences at age 62, or later, the monthly benefit is not reduced. However, if the benefit commences prior to age 62, the monthly benefit is reduced at a rate of 7% per year for commencement between ages 55 and 62. If active employment ceases prior to age 55, the

monthly benefit is actuarially reduced for commencement between ages 55 and 65.

The normal form of retirement benefit under the Retirement Plan for an unmarried participant is a single life annuity, which is a monthly payment for life. The normal form of retirement benefit under the Retirement Plan for a married participant is a 75% joint and survivor annuity, which is a monthly payment for the life of the participant, and thereafter 75% of that amount to the surviving spouse payable for his or her lifetime. The Retirement Plan also permits the participant to elect, with spousal consent, other annuity options and a lump sum payment for benefits accrued prior to 2002. The optional forms of payment are subject to actuarial adjustment.

UNFUNDED SUPPLEMENTAL BENEFIT PLAN

The Unfunded Supplemental Benefit Plan for Salaried Employees (Supplemental Plan) enables our company to pay any person whose pension under the Retirement Plan has been reduced as a result of the limitations imposed by Sections 401 and 415 of the Code, an amount equal to the difference between the amount the person would have received under the Retirement Plan had there been no limitations and the amount the person will receive under the Retirement Plan after giving effect to the limitations. In 2013, the Supplemental Plan was also amended to freeze future

service and pay accruals in the same manner as described above for the qualified Retirement Plan.

The Supplemental Plan is unfunded and amounts payable to the employees covered thereby are considered to be general obligations of our company; however, the Supplemental Plan contains provisions that allow for the funding of a rabbi trust to improve the security of the benefit, to some extent, upon the occurrence of a change of control event (as defined in the Supplemental Plan).

The determination of the benefit amount and the payment options under the Supplemental Plan are the same as the Retirement Plan, except as follows. Effective January 1, 2007, the Supplemental Plan was amended to allow existing participants to make an election to receive supplemental pension benefits in the form of installment payments over a period of 10 years, thereby accelerating payout somewhat and minimizing to some extent the risk of future non-payment. The installment payments are actuarially equivalent to the various annuity options available under the Retirement Plan.

ELIGIBILITY FOR EARLY RETIREMENT

As of February 1, 2018, Messrs. Hill, Bass and Mills were eligible for early retirement under the Retirement Plan and the Supplemental Plan.

PAYMENTS UPON TERMINATION OR CHANGE OF CONTROL

This Section describes and estimates payments that could be made to the NEOs under different termination and change of control (COC) events. The estimated payments would be made under the terms of our company's compensation and benefits programs or the COC Agreements with the NEOs. The amount of potential payments is calculated as if the different events occurred as of December 31, 2018, and assumes that the price of our company's common stock is the closing market price as of December 31, 2018 (the last trading day of the fiscal year).

TERMINATION EVENTS

The adjacent list sets forth different types of termination events that can affect the treatment of payments under our company's compensation and benefit programs:

Retirement or Retirement Eligible Termination of a NEO who is at least 55 years old and has at least one year of credited service.

Involuntary Termination without Cause Termination by our company of a NEO who is not retirement eligible.

Resignation Voluntary termination by a NEO who is not retirement eligible.

Death or Disability Termination of a NEO due to death or disability.

Involuntary Termination for Cause Termination of a NEO for cause. Cause includes individual performance below minimum performance standards and misconduct.

Table of Contents**EXECUTIVE COMPENSATION****CHANGE OF CONTROL AGREEMENTS AND RELATED CASH SEVERANCE BENEFITS**

Our company entered into the COC Agreements, effective as of January 1, 2016, with respect to Messrs. Hill, McPherson, Bass and Mills, effective as of September 1, 2018, with respect to Ms. Wood and effective as of October 11, 2018, with respect to Mr. Baker. Under the COC Agreements, our NEOs are entitled to a cash severance benefit if, within two years of a COC, their employment is involuntarily terminated without cause, or they voluntarily resign for good reason. These claims are subject to standard release and waiver of claims requirements.

The COC severance payment is three times each NEO's annual base salary and short-term bonus, as defined in their COC Agreements. Also, such severance payments include the continuation of health, medical and other fringe benefits for a period of three years following termination. All of our COC Agreements have a double-trigger termination right (requiring both a COC and a qualifying termination of employment in order to receive COC severance payments), and do not include the long-term incentive value in the severance calculation or have tax gross-ups. In addition, each COC Agreement provides for the payment of a pro-rata short-term bonus for the year of termination.

The table below reflects an estimate of the severance payments that would be made to our NEOs if they were terminated as of December 31, 2018, in connection with a COC:

NAME	SEVERANCE MULTIPLE	BASE SALARY (\$)	GREATER OF 2018 YEAR AVG OR TARGET BONUS (\$)	TOTAL CASH SEVERANCE PAYMENTS (\$)	PRO-RATA BONUS (\$)	CASH SEVERANCE AMOUNT ⁽¹⁾ (\$)

Tom Baker	3	608,000	577,400	3,556,200	577,400	4,133,600

(1) These amounts represent cash severance payments to be paid to the NEOs under the COC Agreements in the event of a COC and do not include the value of other COC benefits.

CHANGE OF CONTROL-RELATED EVENTS

The following sets forth different types of COC events that can affect the treatment of payments under our company's compensation and benefit programs. These events also affect payments to the NEOs under their COC Agreements. None of the COC Agreements provide for a single-trigger; therefore, no payments are made under the COC Agreements unless, within two years of the COC, the officer is involuntarily terminated or the officer voluntarily terminates for good reason (as described below).

For purposes of our COC Agreements and equity awards under the 2016 Plan, a COC is defined as: (i) the acquisition by a person or group of 30% or more of the then outstanding common stock or voting securities of our company; or (ii) a change in the majority of members of the Board of Directors that is not endorsed by the incumbent Board of Directors; or (iii) consummation of a reorganization, merger or consolidation or sale or other disposition of all or substantially all of our company's assets unless our company's shareholders before such business combination or sale own more than 50% of the outstanding common stock following the business combination or sale; or (iv) approval by the shareholders of the company of a complete liquidation or dissolution of the company. Further, under our COC Agreements and the 2016 Plan, benefits are not triggered unless there has been both a COC and an Involuntary COC Termination or Voluntary COC Termination for Good Reason, where employment is terminated within two years of a COC, other than for cause, or the employee voluntarily terminates for Good Reason. Good Reason would generally be considered to have occurred if there were a reduction in certain types of compensation, a relocation under certain circumstances or a diminution in duties and responsibilities.

A COC occurs under certain of our company's award agreements executed in connection with the grant of equity awards under the 2006 Plan upon:

- (i) acquisition by any person or group of more than 50% of the total fair market value or voting power of our common stock. A transfer or issuance of our stock is counted only if the stock remains outstanding after the transaction. An increase in stock ownership as a result of the company's acquisition of its own stock in exchange for property is counted for purposes of the change in ownership standard; or

Table of Contents**EXECUTIVE COMPENSATION**

(ii) (a) acquisition by a person or group during a 12-month period of stock possessing 30% of the total voting power of our stock, or

(b) replacement of a majority of our Board of Directors during any 12-month period by directors not endorsed by a majority of the members of our Board prior to the date of the appointment or election; or

(iii) acquisition by a person or group during a 12-month period of assets from our company having a total gross fair market value of 40% of the total gross fair market value of our assets immediately prior to such acquisition. An exception exists for a transfer of our assets to a shareholder controlled entity, including transfer to a person owning 50% or more of the total value or voting power of our shares.

CHANGE OF CONTROL PAY AND BENEFITS PROGRAMS

The following table describes treatment of payments under pay and benefit programs upon a COC, and upon an employment termination (voluntary or involuntary) upon a COC:

(1) The vesting and payment benefits shown in this table relate to awards of SOSARs, PSUs and RSUs granted under the 2016 Plan, which contains a double-trigger change of control requirement. Awards granted under the 2006 Plan would immediately vest, SOSARs would have the remaining term to exercise, PSUs would be paid within 2½ months after the end of the year in which the COC occurs and RSUs would be paid within 90 days following the COC.

The monthly amounts that would have become payable to our NEOs if the termination event occurred as of December 31, 2018, under the Retirement Plan, the Supplemental Plan and the Defined Contribution Plan are itemized in the chart below. The amounts shown in the chart are monthly benefit amounts (other than with respect to the accrued benefits payable upon a COC, which would be paid in a lump sum) whereas the pension values shown in the Summary Compensation and Pension Benefits Tables are present values of all the monthly values anticipated to be paid over the lifetimes of our NEOs and their spouses in the event of their death while actively employed. These plans are described in the notes following

the Pension Benefits Table. Messrs. Hill, Bass, and Mills were retirement eligible on December 31, 2018. The benefits below were determined using the same assumptions used to compute benefit values in the Pension Benefits Table with three exceptions. First, the benefit payments were assumed to commence as soon as possible following December 31, 2018, instead of at normal retirement. Second, approximate early retirement reductions were applied. Finally, the benefits were not adjusted to reflect optional forms of payment. All benefits are the amounts that would be paid monthly over the NEO's life, except for the value of COC-enhanced benefits which would be paid in a lump sum.

EXECUTIVE DEFERRED COMPENSATION PLAN

The aggregate balances reported in the Nonqualified Deferred Compensation Plan Table would be payable to the NEOs as described in the Termination Pay and Benefits Programs and Change of Control Pay and Benefits Programs charts above. There is no enhancement or acceleration of payments under this plan associated with termination or COC events, other than the lump sum payment opportunity described in the above charts. The lump sums that would be payable are those that are reported in the Nonqualified Deferred Compensation Plan Table.

HEALTH BENEFITS

Because Messrs. Hill, Bass, and Mills meet the age and service eligibility requirement for health care benefits provided to early retirees, there is no incremental payment associated with a termination or COC event. Ms. Wood and Messrs. McPherson and Baker did not meet such eligibility requirement; therefore, their incremental cost for health benefits would be approximately \$80,678 each.

EXECUTIVE COMPENSATION

CEO PAY RATIO DISCLOSURE

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and Item 402(u) of Regulation S-K, we are providing the following information about the relationship of the median of the annual total compensation of our employees and the annual total compensation of Tom Hill, our Chairman, President and CEO (our CEO). The pay ratio included in this information is a reasonable estimate calculated in a manner consistent with Item 402(u) of Regulation S-K.

For 2018, our last completed fiscal year:

The median employee that was used for purposes of calculating the ratio of the annual total compensation of our CEO to the median of the annual total compensation of all employees is the same employee that was identified for purposes of our 2017 disclosure. There has been no change in our employee population or employee compensation arrangements since that median employee was identified that we believe would significantly impact our pay ratio disclosure;

The median of the annual total compensation of all employees of our company (other than our CEO), was \$79,390; and

The annual total compensation of our CEO was \$7,702,907.

Based on this information, for 2018, the ratio of the annual total compensation of our CEO, to the median of the annual total compensation of all employees (other than our CEO) was 97 to 1.

In accordance with SEC rules, we determined the median employee's 2018 total annual compensation by taking the sum of the following items:

1. \$61,842, which represents the amount of the median employee's compensation for fiscal 2018 that would have been reported in the Summary Compensation Table in accordance with the requirements of Item 402(c)(2)(x) of Regulation S-K if the employee had been a Named Executive Officer for fiscal 2018.
2. \$17,548, which represents the estimated aggregate value of the employee's compensation under company sponsored non-discriminatory benefit plans.

In accordance with SEC rules, we determined our CEO's 2018 total annual compensation by taking the sum of the following items:

1. \$7,681,409, which represents the amount reported for our CEO in the Total column of our 2018 Summary Compensation Table included on page 46 of this proxy statement.
2. \$21,498, which represents the estimated aggregate value of our CEO's compensation under company sponsored non-discriminatory benefit plans.

Table of Contents

Director Compensation

We use a combination of cash and stock-based compensation to attract and retain qualified candidates to serve on our Board. In setting director compensation, our Board considers the significant amount of time that directors expend on fulfilling their duties to our company, as well as the limited pool of, and competition among public companies for, well-qualified board members. Additional amounts are paid to committee chairs in recognition of the substantial responsibilities of the chair. Annually, the Compensation Committee's independent compensation consultant evaluates the competitiveness of the company's non-employee director compensation program relative to peer companies and recommends any changes to the Compensation Committee, which evaluates such proposed changes and recommends any changes to the full Board for approval.

Directors are subject to a minimum share ownership requirement. Within five years of becoming a director, each director is required to own at least 5,000 shares of our company's common stock. Shares or units held by a director under our deferred compensation plan are included in calculating the director's ownership.

CASH COMPENSATION PAID TO BOARD MEMBERS

Members of the Board who are not employees of our company are paid a retainer of \$110,000 per year, plus the following fees:

\$25,000 Lead Director retainer fee;

\$20,000 Audit Committee chair retainer fee;

\$15,000 Compensation Committee and Governance Committee chairs retainer fees; and

\$10,000 retainer fee for all other committee chairs.

DEFERRED COMPENSATION PLAN

We maintain a Deferred Compensation Plan for directors who are not employees of our company (Directors' Deferred Compensation Plan), under which such directors are permitted to defer the cash compensation to which they are entitled for specified periods or until they cease to be directors. The deferred amounts, at the election of the director, are either (i) credited with interest at prescribed rates; or (ii) converted into a number of stock equivalents equal to the number of shares of our company's common stock (based on the market price at the time of deferral) that could be purchased with the amount deferred. Whenever a dividend is paid on our common stock, the stock equivalent accounts are credited with an

additional number of stock units corresponding to the amount of the dividend. At the end of the deferral period, the stock equivalents are settled in shares of our company's common stock, and interest-based deferrals are settled in cash. The Directors' Deferred Compensation Plan also provides for a lump-sum settlement of a director's deferred compensation account in stock or cash, as applicable, if following a Change in Control (as defined in the Directors

Deferred Compensation Plan): (i) the participating director ceases to be a member of the Board; (ii) the Directors Deferred Compensation Plan is terminated; or (iii) our company's capital structure is changed materially. The Directors' Deferred Compensation Plan was approved by our company's shareholders in 1993.

DEFERRED STOCK UNITS

Equity-based grants are awarded to our non-management directors on an annual basis. These grants represent a significant portion of their compensation package. We believe that equity grants promote a greater alignment of interests between our directors and our shareholders through increasing their ownership of our common stock. Further, we believe that equity grants support our ability to attract and retain qualified individuals to serve as directors of our company by affording them an opportunity to share in our future success.

In May 2018, 1,180 DSUs were granted to each non-management director pursuant to the 2016 Plan, which was approved by our shareholders in 2016. These units were fully non-forfeitable on the date of the grant; however, payment is deferred until the director ceases to serve on the Board or a COC occurs. The DSUs are an unfunded, unsecured obligation of our company, and no shares have been set aside for these grants. The non-management directors have no right to receive the DSUs until the restrictions imposed either lapse or are waived. Generally, the restrictions expire when the non-management director ceases to be a director because of retirement, death, disability or a COC. During the period the shares are restricted, the non-management directors have no right to vote the shares. Dividend equivalents are credited as additional DSUs quarterly when dividends are paid on our stock. The DSUs are settled in shares of our common stock when the restrictions expire.

(2) This column represents the accounting expense for the awards granted in 2018; therefore, the values shown are not representative of the amounts that may eventually be realized by a director. Pursuant to SEC rules, we have provided a grant date fair value for stock awards in accordance with the provisions of FASB ASC Topic 718. For DSUs, the fair value is estimated on the date of grant based on the closing market price of our stock (\$127.37) on the grant date (May 11, 2018). At December 31, 2018, the aggregate number of DSUs accumulated on account for all years of service, including dividend equivalent units, were:

Annual Meeting and Voting Information

Why am I receiving these materials?

This proxy statement is furnished in connection with the solicitation by our Board of proxies to be voted at the 2019 Annual Meeting of Shareholders for the purposes set forth in the accompanying notice, and at any adjournments or postponements thereof. This proxy statement is being made available to all shareholders of record as of the close of business on March 13, 2019, for use at the Annual Meeting. This proxy statement, the accompanying proxy card and our 2018 Annual Report to Shareholders are being first mailed or made available to our shareholders on or about March 25, 2019. The Annual Meeting will be held at the company's corporate headquarters located at 1200 Urban Center Drive, Birmingham, Alabama 35242 on Friday, May 10, 2019, at 9:00 a.m., local time.

Why did I receive a Notice of Internet Availability of Proxy Materials in the mail instead of a paper copy of the proxy materials?

The SEC allows companies to furnish their proxy materials over the internet. As a result, we are mailing to many of our shareholders a Notice of Internet Availability of Proxy Materials instead of a paper copy of the proxy materials. All shareholders receiving such notice will have the ability to access the proxy materials over the internet and may request to receive a paper copy of the proxy materials by mail.

The Notice of Annual Meeting of Shareholders, Proxy Statement, Form of Proxy and 2018 Annual Report to Shareholders are available at www.proxyvote.com.

How can I access the proxy materials over the internet or obtain a paper copy?

Your Notice of Internet Availability of Proxy Materials, proxy card or voting instruction card will contain instructions on how to:

view our proxy materials for the Annual Meeting on the internet; and

obtain a paper copy of the proxy materials by mail.

Your Notice of Internet Availability of Proxy Materials will also provide instructions on how to receive your future proxy materials in printed form by mail or electronically. If you choose to receive future proxy materials electronically, we will provide instructions, containing a link to the website where those materials are available and a link to the proxy voting website. Your election to receive proxy materials electronically will remain in effect until you revoke it.

What should I do if I receive more than one Notice of Internet Availability of Proxy Materials or more than one paper copy of the proxy materials?

You may receive more than one Notice of Internet Availability of Proxy Materials or notice of this proxy statement and multiple proxy cards or voting instruction cards. For example, if you hold your shares in more than one brokerage account, you may receive a separate notice or a separate voting instruction card for each brokerage account in which

you hold shares. If you are a shareholder of record and your shares are registered in more than one name, you may receive more than one notice or more than one proxy card. To vote all of your shares by proxy, you must either (i) complete, date, sign and return each proxy card and voting instruction card that you receive, (ii) vote over the internet or telephone the shares represented by each notice that you receive, or (iii) attend the Annual Meeting and vote in person.

What proposals are to be presented at the Annual Meeting?

The purpose of the Annual Meeting is to (i) elect three nominees as directors, (ii) approve, on an advisory basis, the

compensation of our named executive officers, (iii) ratify the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for 2019, and (iv) conduct such other business as may properly come before the Annual Meeting or any adjournments or postponements thereof.

Who can attend the Annual Meeting?

Only shareholders as of the close of business on March 13, 2019 (the record date for the Annual Meeting), their authorized representatives and invited guests of our company will be permitted to attend the Annual Meeting. Proof of ownership of Vulcan common stock as of the record date, along with personal identification (such as a driver's license or passport), must be presented in order to be admitted to the Annual Meeting. If your shares are held in the name of a bank, broker, trustee or nominee and you plan to attend the Annual Meeting in person, you must bring a brokerage statement, and a legal proxy from your bank, broker, trustee or nominee entitling you to vote the shares held as of the record date at the Annual Meeting, along with personal identification, to be admitted to the Annual Meeting.

No cameras, recording equipment, electronic devices, large bags, briefcases or packages will be permitted in the Annual Meeting.

Who is entitled to vote?

All of our shareholders as of the record date, March 13, 2019, will be entitled to vote at the Annual Meeting. As of the close of business on that date, approximately 132,068,024 shares were outstanding and entitled to vote. Each share of common stock is entitled to one vote on each matter properly brought before the meeting.

What is the difference between a shareholder of record and a beneficial holder of shares?

If your common stock is held directly in your name with our transfer agent, Computershare Shareowner Services, you are considered a shareholder of record with respect to those shares. If this is the case, the notice or proxy materials have been sent or provided directly to you.

If your common stock is held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial holder of the shares held for you in what is known as street name. If this is the case, the notice card or proxy materials should have been forwarded to you by your brokerage firm, bank or other nominee, or their agent, which is considered the shareholder of record with respect to these shares. As a beneficial holder, you have the right to direct your bank, broker, trustee or nominee on how to vote the shares by

using the voting instruction card or by following their instructions for voting by telephone or internet.

How do I vote?

Proxies are solicited to give all shareholders who are entitled to vote on the matters that come before the meeting the opportunity to vote their shares whether or not they attend the meeting in person. You can vote by one of the following manners:

By Internet Shareholders of record may submit proxies over the internet by following the instructions on the Notice of Internet Availability of Proxy Materials or the proxy card (if received by mail). Shareholders who are beneficial holders may vote by internet by following the instructions on the voting instruction card sent to them by their bank, broker, trustee or nominee.

By Telephone Shareholders of record who live in the United States or Canada may submit proxies by telephone by calling the toll-free number on the proxy card (if received by mail) and following the instructions. Shareholders of record will need to have the control number that appears on their proxy card available when voting. In addition, shareholders who are beneficial holders living in the United States or Canada and who have received a voting instruction card by mail from their bank, broker, trustee or nominee may vote by phone by calling the number specified on the voting instruction card. Those shareholders should check the voting instruction card for telephone voting availability.

By Mail Shareholders of record who have received a paper copy of a proxy card by mail may submit proxies by completing, signing and dating their proxy card and mailing it in the accompanying pre-addressed envelope. Shareholders who are beneficial holders who have received a voting instruction card from their bank, broker or nominee may return the voting instruction card by mail as set forth on the card.

In Person Shareholders of record may vote shares held in their name in person at the Annual Meeting. You also may be represented by another person at the Annual Meeting by executing a proper proxy designating that person. Shares for which a shareholder is the beneficial holder but not the shareholder of record may be voted in person at the Annual Meeting only if such shareholder is able to obtain a legal proxy from the bank, broker or nominee that holds the shareholder's shares, indicating that the shareholder was the beneficial holder as of the record date and the number of shares for which the shareholder was the beneficial holder on the record date.

Table of Contents

ANNUAL MEETING AND VOTING INFORMATION

Shareholders are encouraged to vote their proxies by internet, or voting instruction card, but not by more than one method. If you vote by more than one method, or vote multiple times using the same method, only the last-dated vote that is received by the inspector of election will be counted, and each previous vote will be disregarded.

If you receive more than one set of proxy materials or more than one proxy card or voting instruction card, it may mean that you hold shares of Vulcan stock in more than one account. You must return a proxy or voting instruction card or vote using one of the methods described above for EACH account in which you own shares.

What constitutes a quorum for the Annual Meeting?

A majority of the issued and outstanding shares of the common stock entitled to vote, represented in person or by proxy, is required to constitute a quorum.

How many votes are required to approve each of the proposals?

The votes required to approve each matter to be considered by Vulcan's shareholders at the Annual Meeting are set forth below:

Proposal 1 Election of Directors: Each Vulcan shareholder has the right to vote each share of stock owned by such shareholder on the record date for each of the three director nominees. Cumulative voting is not permitted. To be elected, a director-nominee must receive a majority of the votes cast at the Annual Meeting. Abstentions and broker non-votes will not be counted as votes cast for such purposes and, therefore, will have no effect on the results of the election.

Proposal 2 Advisory Vote on Compensation of our Named Executive Officers (NEOs): The affirmative vote of a majority of the votes cast on this proposal is required to approve, on an advisory basis, the compensation of the NEOs set forth in this proxy statement. Abstentions and broker non-votes will not be counted as votes cast for such purpose and, therefore, will have no effect on the results of this vote.

Proposal 3 Ratification of Appointment of Deloitte & Touche LLP: The affirmative vote of a majority of the votes cast on this proposal is required to ratify the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for 2019. Abstentions and broker non-votes will not be counted as votes cast for such purpose and, therefore, will have no effect on the results of this vote.

Who is soliciting my vote?

Our Board is soliciting your vote for matters being submitted for shareholder approval at the Annual Meeting.

Giving us your proxy means that you authorize the proxy holders identified on the proxy card to vote your shares at the meeting in the manner you direct. If you sign and return the enclosed proxy card but do not specify how your shares are to be voted, your shares will be voted in accordance with the recommendations of the Board. If any other matters are properly presented at the Annual Meeting for consideration, the persons named as proxies in the proxy card will vote as recommended by the Board or, if no recommendation is given, in their own discretion.

How does the Board recommend shareholders vote?

The Board recommends that you vote:

FOR the election of the following three individuals nominated by the Board as directors for three-year terms: Kathleen L. Quirk, David P. Steiner and Lee J. Styslinger, III.

FOR the approval, on an advisory basis, of the compensation of our NEOs; and

FOR the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for 2019.

Will my shares be voted if I do nothing?

If you are a shareholder of record, you must sign and return a proxy card, submit your proxy by telephone or internet, or attend the Annual Meeting in person, in order for your shares to be voted.

If your common stock is held through a broker, bank or other nominee, you will receive instructions from such entity that you must follow in order to have your shares voted. You must instruct the broker how to vote your shares. If you do not provide voting instructions, your shares will not be voted on any proposal on which the broker, bank or other nominee does not have discretionary authority to vote. This is called a broker non-vote. In these cases, the broker, bank or nominee can register your shares as being present at the Annual Meeting for purposes of determining the presence of a quorum but will not be able to vote on those matters for which specific authorization is required under the rules of the NYSE.

If you are a beneficial holder whose shares are held of record by a broker, bank or nominee, then your broker, bank or nominee has discretionary voting authority under NYSE rules to vote your shares on the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for 2019, even if the broker, bank or nominee does not receive voting instructions from you. However, your broker, bank or nominee does not have discretionary authority

to vote on (i) the election of the three nominees as directors or (ii) the advisory approval of compensation of our NEOs.

How can I revoke my proxy?

If you are a shareholder of record, you may revoke your proxy at any time before it is voted at the Annual Meeting by taking one of the following actions:

by giving written notice of the revocation prior to the commencement of the Annual Meeting to: Corporate Secretary, Vulcan Materials Company, 1200 Urban Center Drive, Birmingham, Alabama 35242;

by executing and delivering another valid proxy with a later date;

by voting by telephone or internet at a later date; or

by attending the Annual Meeting and voting in person by written ballot, if you are a shareholder of record or, if you are a beneficial holder of your shares, with a legal proxy from the entity that holds your shares giving you the right to vote the shares.

If you are a beneficial holder of your shares and you vote by proxy, you may change your vote by submitting new voting instructions to your bank, broker or nominee in accordance with that entity's procedures.

If you vote the same shares by more than one method or vote multiple times with respect to the same shares using the same method, only the last-dated vote that is received will be counted, and each previous vote will be disregarded.

Is my vote confidential?

Proxy instructions, ballots and voting tabulations that identify individual shareholders are handled in a manner that protects your voting privacy. Your vote will not be disclosed either within our company or to third parties, except: (1) as necessary to meet applicable legal requirements; (2) to allow for the tabulation of votes and certification of the vote; and (3) to facilitate a successful proxy solicitation.

Who will pay for the costs involved in the solicitation of proxies?

The company is making this solicitation and will pay the entire cost of preparing, assembling, printing, mailing and distributing the notices and these proxy materials and soliciting votes. In addition to the mailing of notices and these proxy materials, the solicitation of proxies or votes may be made in person or by telephone or email by directors, officers, or regular employees of the company. In addition, the company has engaged MacKenzie Partners, Inc. to act as its proxy solicitor.

and has agreed to pay it approximately \$9,500 plus reasonable fees and expenses for such services.

What is householding and how does it affect me?

We have adopted a procedure, approved by the SEC, called householding. Under this procedure, shareholders of record who have the same address and last name and do not participate in electronic delivery of proxy materials or in notice and access will receive only one copy of this Notice of Annual Meeting and Proxy Statement and the 2018 Annual Report to Shareholders, unless we are notified that one or more of these shareholders wishes to continue receiving individual copies. If you and other Vulcan shareholders living in your household do not have the same last name, you also may request to receive only one copy of future proxy statements and annual reports to shareholders.

Householding reduces our printing costs and postage fees and conserves natural resources. Shareholders who participate in householding will continue to receive separate proxy cards.

If you are eligible for householding but you and other shareholders of record with whom you share an address currently receive multiple copies of this Notice of Annual Meeting and Proxy Statement and any accompanying documents, or if you hold Vulcan stock in more than one account, and in either case you wish to receive only a single copy of each document for your household, please obtain instructions by contacting us at the following address or phone number: Vulcan Materials Company, 1200 Urban Center Drive, Birmingham, Alabama 35242, Attention: Mark D. Warren, Director, Investor Relations, Telephone: (205) 298-3200.

If you participate in householding and wish to receive a separate copy of this Notice of Annual Meeting and Proxy Statement and any accompanying documents, please contact us at the address or phone number indicated above and a separate copy will be sent to you promptly. If you do not wish to continue to participate in householding and prefer to receive separate copies of these documents in the future, please contact us at the address or phone number indicated above.

If you are a beneficial holder, you can request information about householding from your broker, bank or other holder of record.

Could other matters be decided at the Annual Meeting?

As of the mailing date of this proxy statement, we did not know of any matters to be raised at the Annual Meeting other than those referred to in this proxy statement.

ANNUAL MEETING AND VOTING INFORMATION

If you return your signed and completed proxy card or vote by telephone or internet and other matters are properly presented at the Annual Meeting for consideration, your shares will be voted as the Board of Directors recommends or, if no recommendation is given, in the proxy's own discretion.

Where can I find the voting results of the Annual Meeting?

The preliminary voting results will be announced at the Annual Meeting. The final voting results will be reported in a Current Report on Form 8-K filed with the SEC within four business days of the Annual Meeting and posted on our website.

General Information

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Under Section 16(a) of the Exchange Act, each of our directors, executive officers, and any beneficial owner of more than 10% of our common stock, is required to file with the SEC initial reports of beneficial ownership of our common stock and reports of changes in beneficial ownership of our common stock. Such persons also are required by SEC regulations to furnish us with copies of all such reports. Based

solely on our review of the copies of such reports furnished to us for the year ended December 31, 2018, and on the written representations made by our directors and executive officers that no other reports were required, we believe that during the year ended December 31, 2018, all reports were filed in a timely manner.

SHAREHOLDER PROPOSALS FOR 2020

To be eligible for consideration for inclusion in our proxy statement and form of proxy for our 2020 Annual Meeting of Shareholders, a shareholder's proposal must be received by us at our principal office no later than November 26, 2019. Proposals should be addressed to Jerry F. Perkins Jr., General Counsel and Secretary, 1200 Urban Center Drive, Birmingham, Alabama 35242. Proposals received after that date will be considered untimely and will not be eligible for inclusion in the 2020 proxy statement. If a shareholder desires to bring a matter before our annual meeting and the matter is submitted outside the process of Exchange Act Rule 14a-8, including with respect to nominations for election as directors, the shareholder must follow the procedures set forth in our bylaws. Our bylaws provide generally that shareholder proposals and director nominations to be considered at an annual meeting may be made by a shareholder only if (1) the shareholder is a shareholder of record and is entitled to vote at the meeting, and (2) the shareholder gives timely written notice of the matter to our corporate secretary. To be timely, a

shareholder's notice must be received at our principal executive offices not earlier than the close of business on the 120th day and not later than the close of business on the 90th day prior to the first anniversary of the preceding year's annual meeting, or between January 11, 2020, and February 10, 2020, for the 2020 Annual Meeting of Shareholders. However, in the event that the date of the annual meeting is more than 30 days before or more than 60 days after such anniversary date, notice by the shareholder to be timely must be so delivered not earlier than the close of business on the 120th day prior to the date of such annual meeting and not later than the close of business on the later of the 90th day prior to the date of such annual meeting or, if the first public announcement of the date of such annual meeting is less than 100 days prior to the date of such annual meeting, the 10th day following the day on which public announcement of the date of such meeting is first made by our company. The notice must set forth the information required by the provisions of our bylaws dealing with shareholder proposals and nominations of directors.

Table of Contents**Annex A: Reconciliation of Non-GAAP Financial Measures**

Generally Accepted Accounting Principles (GAAP) does not define Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA), and it should not be considered as an alternative to earnings measures defined by GAAP. We use this metric to assess the operating performance of our business and as a basis of strategic planning and forecasting as we believe that it closely correlates to long-term shareholder value. We do not use this metric as a measure to allocate resources. We adjust EBITDA for certain items to provide a more consistent comparison of earnings performance from period to period. Reconciliation of this metric to its nearest GAAP measure is presented below:

EBITDA is an acronym for Earnings Before Interest, Taxes, Depreciation and Amortization and excludes discontinued operations.
