**MARKET ANNOUNCEMENT**

**SADIA SIGNS LETTER OF INTENT TO INVEST IN SANTA CATARINA**

Sadia S.A. has selected the city of Mafra for the construction of its third production unit in the State of Santa Catarina. The new project of the company, a pork slaughterhouse, will be set up in this municipality, located on the Northern Plateau, 310 km far from Florianópolis. Mafra was selected mostly due to its infrastructure and strategic location, close to the ports of Paranaguá (PR), Itajaí (SC) and São Francisco do Sul (SC).

This enterprise also comprehends a feed plant and integrated production farms. Total investment, to be made up to 2010, is around R\$ 650 million, out of which R\$ 400 million from own funds and R\$250 million from third parties.

With 35 thousand square meters of built-up area, the Mafra Unit will have a hog slaughtering capacity of 5 thousand heads/day and, when operating at full capacity, it will generate additional annual billings of around R\$ 500 million. The feed plant, in turn, will have a production of 60 thousand tonnes/month. As to jobs, 1.2 thousand new direct positions and 4.5 thousand new indirect positions will be created. This project contemplates the implementation of an integration system with 540 swine producers, comprehending piglet producing units and finishing units.

Last year, the International Committee of the World Organization for Animal Health (OIE) acknowledged the State of Santa Catarina as a foot and mouth disease (FMD) free zone where vaccination is not practiced, to this date a novel status for Brazil, opening the possibility of pork meat produced in this State winning new and important markets worldwide.
