PROXY STATEMENT

The enclosed Proxy is solicited on behalf of Neurocrine Biosciences, Inc., a Delaware corporation (the "Company"), for use at its 2005 Annual Meeting of Stockholders to be held on May 25, 2005 beginning at 8:30 a.m., local time, or at any continuations, postponements or adjournments thereof for the purposes set forth in this Proxy Statement and the accompanying Notice of Annual Meeting of Stockholders. The Annual Meeting will be held at the Company's corporate headquarters, located at 12790 El Camino Real, San Diego, California 92130. The Company's phone number is (858) 617-7600.

This proxy statement is being first mailed on or about April 25, 2005 to all stockholders entitled to vote at the Annual Meeting.

ABOUT THE ANNUAL MEETING***What is the purpose of the Annual Meeting?***

At our Annual Meeting, stockholders will act upon the matters outlined in the Notice of Annual Meeting of Stockholders on the cover page of this proxy statement, including the election of a director, ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the year ended December 31, 2005, and approval of an amendment increasing the number of shares of common stock available under the Company's 2003 Incentive Stock Plan from 2,300,000 to 3,300,000. In addition, management will report on the performance of the Company and respond to questions from stockholders.

Who can attend the Annual Meeting?

All stockholders of record at the close of business on April 1, 2005 (the "Record Date"), or their duly appointed proxies, may attend the Annual Meeting. If you attend, please note that you may be asked to present valid picture identification, such as a driver's license or passport. Cameras, recording devices and other electronic devices will not be permitted at the Annual Meeting.

Please also note that if you hold your shares in "Street name" (that is, through a broker or other nominee), you will need to bring a copy of a brokerage statement reflecting your stock ownership as of the record date and check in at the registration desk at the Annual Meeting.

Who is entitled to vote at the Annual Meeting?

Stockholders of record at the close of business on the Record Date are entitled to receive notice of and to participate in the Annual Meeting. At the close of business on the Record Date, 36,641,360 shares of the Company's common stock, \$0.001 par value per share, were issued and outstanding. As of the Record Date, the Company had approximately 5,969 stockholders, of which 91 are stockholders of record. If you were a stockholder of record on that date, you will be entitled to vote all of the shares that you held on that date at the Annual Meeting, or any postponements or adjournments of the Annual Meeting.

Each outstanding share of the Company's common stock will be entitled to one vote on each proposal considered at the Annual Meeting.

What constitutes a quorum?

Edgar Filing: NEUROCRINE BIOSCIENCES INC - Form DEF 14A

The presence at the Annual Meeting, in person or by proxy, of the holders of a majority of the aggregate voting power of the common stock outstanding on the Record Date will constitute a quorum, permitting the Company to conduct its business at the Annual Meeting. As of the Record Date, 36,641,360 shares of common stock, representing the same number of votes, were outstanding. Thus, the presence of the holders of common stock representing at least 18,320,681 shares will be required to establish a quorum. The presence of a quorum will be determined by the Inspector of Elections (the Inspector).

Proxies received but marked as abstentions as well as broker non-votes will be included in the calculation of the number of shares considered to be present at the Annual Meeting.

How do I vote?

If you complete and properly sign the accompanying proxy card and return it to the Company, it will be voted as you direct. If you are a registered stockholder (that is, if you hold your stock in certificate form or are a Neurocrine employee who participates in the Employee Stock Purchase Program) and attend the Annual Meeting, you may deliver your completed proxy card in person. Street name stockholders who wish to vote at the Annual Meeting will need to obtain a proxy form from the institution that holds their shares.

The cost of solicitation of proxies will be borne by the Company. The Company will reimburse expenses incurred by brokerage firms and other persons representing beneficial owners of shares in forwarding solicitation material to beneficial owners. To assist in soliciting proxies (votes), the Company has retained Innisfree, a professional proxy solicitation firm, at an approximate cost of \$6,500, plus certain out-of-pocket expenses. Proxies also may be solicited by certain of the Company's directors, officers and regular employees, without additional compensation, personally, by telephone or by other appropriate means.

Can I vote by telephone or electronically?

If you are a registered stockholder you may vote by telephone, or electronically through the Internet, by following the instructions included with your proxy card. If your shares are held in Street name, please check your proxy card or contact your broker or nominee to determine whether you will be able to vote by telephone or electronically. The deadline for voting by telephone or electronically is 11:59 p.m., Eastern Standard Time, on May 24, 2005.

Can I change my vote after I return my proxy card?

Yes. Even after you have submitted your proxy, you may change your vote at any time before the proxy is exercised by filing with the Corporate Secretary of the Company either a notice of revocation or a duly executed proxy bearing a later date. A proxy will also be revoked if the stockholder attends the Annual Meeting and votes in person. Attendance at the Annual Meeting will not by itself revoke a previously granted proxy.

What are the Board's recommendations?

Unless you give other instructions on your proxy card, the persons named as proxy holders on the proxy card will vote in accordance with the recommendations of the Board of Directors. The Board's recommendation is set forth together with the description of each item in this proxy statement. In summary, the Board recommends a vote:

for election of the nominated director (see Proposal One);

2

for ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for fiscal 2005 (see Proposal Two); and

for approval of the amendment to the Company's 2003 Incentive Stock Plan to increase the number of shares of Common Stock reserved for issuance from 2,300,000 to 3,300,000 (see Proposal Three).

With respect to any other matter that properly comes before the meeting, the proxy holders will vote as recommended by the Board of Directors or, if no recommendation is given, in their own discretion.

What vote is required to approve each item?

Election of Director. The affirmative vote of a plurality of the votes cast at the Annual Meeting is required for the election of directors. A properly executed proxy marked **WITHHOLD AUTHORITY** with respect to the election of one or more directors will not be voted with respect to the director or directors indicated, although it will be counted for purposes of determining whether there is a quorum.

Other Items. For each other item, the affirmative vote of the holders of a majority of the shares represented in person or by proxy and entitled to vote on the item will be required for approval. A properly executed proxy marked **ABSTAIN** with respect to any such matter will not be voted, although it will be counted for purposes of determining whether there is a quorum. Accordingly, an abstention will have the effect of a negative vote.

If you hold your shares in **Street name** through a broker or other nominee, your broker or nominee may not be permitted to exercise voting discretion with respect to some of the matters to be acted upon. Thus, if you do not give your broker or nominee specific instructions, your shares may not be voted on and will not be counted in determining the number of shares necessary for approval. Shares represented by such **broker non-votes** will, however, be counted in determining whether there is a quorum.

Who counts the votes?

Votes cast by proxy or in person at the Annual Meeting will be tabulated by the Inspector.

3

Section 16(a) Beneficial Ownership Reporting Compliance

Edgar Filing: NEUROCRINE BIOSCIENCES INC - Form DEF 14A

Section 16(a) of the Securities Exchange Act of 1934, as amended (the Exchange Act), requires the Company's officers and directors, and persons who own more than ten percent of a registered class of the Company's equity securities, to file reports of ownership on Form 3 and changes in ownership on Form 4 or Form 5 with the SEC. Such officers, directors and 10% stockholders are also required by SEC rules to furnish the Company with copies of all Section 16(a) forms they file. Based solely on its review of the copies of such forms received by it, and written representations from certain reporting persons, the Company believes that its officers, directors and 10% stockholders complied with all Section 16(a) filing requirements applicable to them during the fiscal year ended December 31, 2004.

PROPOSAL ONE: ELECTION OF DIRECTORS

General

The Company's Bylaws provide that the Board of Directors will be comprised of eight directors. The Company's Certificate of Incorporation provides that the Board of Directors is divided into three classes. There are currently three directors in Class I (Joseph A. Mollica, Ph.D., Wylie W. Vale, Ph.D. and W. Thomas Mitchell), three directors in Class II (Corinne H. Lyle, Richard F. Pops, and Stephen A. Sherwin, M.D.), and one director in Class III (Gary A. Lyons). After each such election, the directors in each such case will then serve in succeeding terms of three years and until a successor is duly elected and qualified. Officers of the Company serve at the discretion of the Board of Directors. There are no family relationships among the Company's directors and executive officers.

The term of office for director Gary A. Lyons, will expire at the 2005 Annual Meeting. At the 2005 Annual Meeting, the stockholders will elect one Class III director for a term of three years.

Vote Required

The nominee receiving the highest number of affirmative votes of the shares present in person or represented by proxy at the 2005 Annual Meeting and entitled to vote on the election of directors will be elected to the Board of Directors.

Votes withheld from any director are counted for purposes of determining the presence or absence of a quorum, but have no other legal effect under Delaware law.

Unless otherwise instructed, the proxy holders will vote the proxies received by them for the Company's nominee named below. If the Company's nominee is unable or declines to serve as a director at the time of the Annual Meeting, the proxies will be voted for any nominee who is designated by the present Board of Directors to fill the vacancy. It is not expected that the Company's nominee will be unable or will decline to serve as a director. **The Board of Directors recommends that stockholders vote FOR the nominee named below.**

Charters for each of these committees have been established and approved by the Board of Directors, and copies of the charters of the Audit and Nominating/Corporate Governance Committees have been posted on the Company's website at www.neurocrine.com. No director attended fewer than 75% of the aggregate of the total number of meetings of the Board of Directors and the total number of meetings held by all committees of the Board of Directors on which each director served.

What are the various committees of the Board and which directors are on those committees?

The Compensation Committee consists of directors Joseph A. Mollica, Ph.D., Richard F. Pops and Stephen A. Sherwin, M.D. This committee met two times and took one action by written consent during 2004. The Compensation Committee reviews and recommends to the Board the compensation of executive officers and other employees of the Company. The Compensation Committee is comprised solely of independent directors, as defined by Nasdaq Stock Market Rule 4200(a)(15).

The Company's Audit Committee is also comprised entirely of independent directors, as defined by Nasdaq Stock Market Rule 4200(a)(15). Information regarding the functions performed by the committee, its membership, and the number of meetings held during the fiscal year, is set forth in the Report of the Audit Committee, included in this annual proxy statement. The current members of the audit committee are Corinne H.

Lyle, Richard F. Pops, and W. Thomas Mitchell. The Board of Directors has determined that Corinne H. Lyle and Richard F. Pops are audit committee financial experts within the meaning of item 401(h) of SEC Regulation S-K.

The Company also has a Nominating/Corporate Governance Committee, currently comprised of Joseph A. Mollica, Ph.D., W. Thomas Mitchell and Stephen A. Sherwin, M.D, all independent directors, as defined by Nasdaq Stock Market Rule 4200(a)(15). The Nominating/Corporate Governance Committee is responsible for developing and implementing policies and practices relating to corporate governance, including administration of the Company's *Code of Business Conduct and Ethics*, available on the Company's website at www.neurocrine.com. The functions of this committee also include consideration of the composition of the Board and recommendation of individuals for election as directors of the Company. The Nominating/Corporate Governance Committee will consider nominees recommended by stockholders provided such nominations are made pursuant to the Company's Bylaws and applicable law. The committee met twice during 2004 to recommend the slate of directors that was approved at the 2004 Annual Meeting of Stockholders. Additionally, the committee took action by unanimous written consent to recommend that the Board of Directors appoint Corinne H. Lyle to the Board as a Class II director. The committee met in early 2005 to recommend that the Board of Directors nominate Gary A. Lyons for re-election as Class III director for the upcoming three-year term. The Board of Directors subsequently approved this recommendation.

How are directors compensated?

Non-employee directors are reimbursed for expenses incurred in connection with performing their duties as directors of the Company. Directors who are not employees or consultants of the Company receive a \$20,000 annual retainer, plus \$1,500 for each regular meeting of the Board of Directors and \$750 for each special meeting or telephone meeting lasting more than one hour that such directors attend. In addition to the cash compensation set forth above, the Company has agreed to provide Joseph A. Mollica, Ph.D. as Chairman of the Board and Corinne H. Lyle, Chairman of the Audit Committee, each an additional \$5,000 annual cash retainer. Each other director who is a member of the Audit Committee, the Compensation Committee or the Nominating/Corporate Governance Committee will receive an annual \$2,500 cash retainer for each Committee on which he or she serves. Cash retainers for committee service are subject to a maximum aggregate cash retainer per director of \$5,000 (\$7,500 for Chairman of the Audit Committee) for committee service in any fiscal year.

Effective March 1, 2000, each non-employee director is eligible to participate in the Company's Deferred Compensation Plan, as amended (the Compensation Plan). In addition to non-employee directors of the Company, the Company's Vice Presidents and higher ranking officers of the Company are also eligible to participate in the Compensation Plan. Under the terms of the Compensation Plan, each eligible participant may elect to defer all or a portion of cash compensation received for services to the Company. Elections must be made by December 1 of each preceding year and are irrevocable once made. Upon receipt of an eligible participant's deferral election, the Company maintains a deferred compensation investment account on behalf

9

of such participant. Funds so invested are paid to participants based on an elected payout schedule over a period of up to 15 years. Upon death or termination for cause, funds are paid out within 60 days following the event. Funds may also be withdrawn for hardship under some circumstances. For the year 2004, Joseph A. Mollica, Ph.D. elected to defer 100% of his cash compensation from the Company pursuant to the Compensation Plan.

Additionally, each non-employee director receives a grant of nonstatutory options to purchase 12,000 shares of the Company's common stock (Joseph A. Mollica, Ph.D. as Chairman of the Board, will receive 15,000 options) at each Annual Meeting of Stockholders, provided that such non-employee director has been a non-employee director of the Company for at least six months prior to the date of such Annual Meeting. Each new non-employee director is automatically granted nonstatutory stock options to purchase 20,000 shares of the Company's common stock upon the date such person joins the Board of Directors.

All options granted to non-employee directors vest monthly over the one-year period following the date of grant and have exercise prices equal to the fair market value of the Company's common stock on the date of the grant.

What is our director nomination process?

Director qualifications

In selecting non-incumbent candidates and reviewing the qualifications of incumbent candidates for the Board of Directors, the Nominating/Corporate Governance considers the Company's corporate governance principles, which include the following:

Edgar Filing: NEUROCRINE BIOSCIENCES INC - Form DEF 14A

Directors should possess the highest ethics, integrity and values, and be committed to representing the long-term interests of the stockholders. They also must have experience they can draw upon to help direct the business strategies of the Company together with sound judgment. They must be actively engaged in the pursuit of information relevant to the Company's business and must constructively engage their fellow Board members and management in dialogue and the decision-making process.

Directors must be willing to devote sufficient time to carrying out their duties and responsibilities effectively, and should be committed to serve on the Board for an extended period of time. Directors should offer their resignation in the event of any significant change in their personal circumstances, including a change in their principal job responsibilities. In evaluating director nominees, the Nominating/Corporate Governance Committee considers the following factors: the appropriate size of the Company's Board of Directors; personal and professional integrity, ethics and values; experience in corporate management, such as serving as an officer or former officer of a publicly held company; and experience as a board member of another publicly held company.

The Nominating/Corporate Governance Committee's goal is to assemble a Board of Directors that brings to the Company a variety of perspectives and skills derived from high quality business and professional experience. In doing so the Nominating/Corporate Governance Committee also considers candidates with appropriate non-business backgrounds.

Other than the foregoing, there are no stated minimum criteria for director nominees, although the Nominating/Corporate Governance Committee may also consider such other facts as it may deem are in the best interests of the Company and its stockholders. The Nominating/Corporate Governance Committee does, however, believe that at least one, and, preferably, several, members of the Board of Directors, meet the criteria for an audit committee financial expert as defined by Securities and Exchange Commission rules. The Nominating/Corporate Governance Committee also believes it appropriate for certain key members of the Company's management to participate as members of the Board of Directors.

10

Identification and evaluation of nominees for directors

The Nominating/Corporate Governance Committee identifies nominees for director by first evaluating the current members of the Board of Directors willing to continue in service. Current members with qualifications and skills that are consistent with the Nominating/Corporate Governance Committee's criteria for Board of Directors service and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of the Board of Directors with that of obtaining a new perspective. If any member of the Board of Directors does not wish to continue in service or if the Board of Directors decides not to re-nominate a member for re-election, the Nominating/Corporate Governance Committee identifies the desired skills and experience of a new nominee in light of the criteria above. The Nominating/Corporate Governance Committee generally polls the Board of Directors and members of management for their recommendations and may also seek input from third-party search firms. The Nominating/Corporate Governance Committee may also seek input from industry experts or analysts. The Nominating/Corporate Governance Committee reviews the qualifications, experience and background of the candidates. Final candidates are then interviewed by the Company's independent directors and executive management. In making its determinations, the Nominating/Corporate Governance Committee evaluates each individual in the context of the Company's Board of Directors as a whole, with the objective of assembling a group that can best perpetuate the success of the Company and represent stockholder interests through the exercise of sound judgment. After review and deliberation of all feedback and data, the Nominating/Corporate Governance Committee makes its recommendation to the Board of Directors.

We have not received director candidate recommendations from the Company's stockholders and do not have a formal policy regarding consideration of such recommendations. However, any recommendations received from stockholders will be evaluated in the same manner that potential nominees suggested by board members, management or other parties are evaluated.

What is our process for stockholder communications with the Board of Directors?

Although the Company has not established a formal process by which stockholders may communicate directly with directors, the Nominating/Corporate Governance Committee has taken note of recent corporate governance developments relating to stockholder communications and intends to consider development and implementation of specific procedures for stockholders to communicate directly with the Board. Until formal procedures are developed and posted on the Company's website, any communications to the Board of Directors should be sent to the Board in care of Neurocrine Biosciences Investor Relations, 12790 El Camino Real, San Diego, CA 92130.

What is our policy regarding Board-member attendance at the Company's Annual Meeting?

Although the Company does not have a formal policy regarding attendance by members of the Board of Directors at the Annual Meeting, the Company encourages all of its directors to attend. Joseph A. Mollica, Ph.D. and Gary A. Lyons represented the Board of Directors at the 2004 Annual Meeting of Stockholders.

REPORT OF THE AUDIT COMMITTEE

The following Report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this Report by reference therein.

The Audit Committee is currently comprised of directors Corinne H. Lyle, Richard F. Pops, and W. Thomas Mitchell. All current committee members satisfy the definition of independent director as established in the Nasdaq Stock Market qualification requirements. The Committee met five times during the year ended December 31, 2004.

The Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the Company's financial statements and the reporting process, including the systems of internal controls. In fulfilling its oversight responsibilities, the Committee has reviewed and discussed the Company's audited financial statements as of and for the year ended December 31, 2004 with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

The Committee also has reviewed and discussed the Company's audited financial statements as of and for the year ended December 31, 2004 with the independent registered public accounting firm, who are responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States, as well as their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Committee under the Statement on Auditing Standards No. 61 (Communications with Audit Committees), as currently in effect. The independent registered public accounting firm also is responsible for performing an independent audit of the Company's internal control over financial reporting in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). In addition, the Committee has discussed with the independent registered public accounting firm, their independence from management and the Company, including the matters in the written disclosures required by the Independence Standards Board No. 1, Independence Discussions with Audit Committees, and considered the compatibility of non-audit services with the auditors' independence.

The Committee discussed with the Company's independent registered public accounting firm the overall scope and plans for their audits. The Committee meets with the independent registered public accounting firm, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2004, for filing with the Securities and Exchange Commission. The Committee and the Board have also recommended, subject to stockholder approval, the selection of the Company's independent registered public accounting firm.

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee reviews and recommends to the Board of Directors for approval the Company's executive compensation policies. The Committee is responsible for reviewing the salary and benefits structure of the Company at least annually to insure its competitiveness within the Company's industry. The following is the report of the Committee describing the compensation policies and rationales applicable to the Company's executive officers with respect to the compensation paid to such executive officers for the fiscal year ended December 31, 2004. During 2004, the members of the Committee were Stephen A. Sherwin, M.D., Joseph A. Mollica, Ph.D. and Richard F. Pops.

The Company's philosophy in establishing its compensation policy for executive officers and other employees is to create a structure designed to attract and retain highly skilled individuals by establishing salaries, benefits, and incentive compensation which compare favorably with those

Edgar Filing: NEUROCRINE BIOSCIENCES INC - Form DEF 14A

for similar positions in other biotechnology companies. Compensation for the Company's executive officers consists of a base salary and potential incentive cash bonuses, as well as potential incentive compensation through stock options and stock ownership.

Base salary

The base salary component of compensation is designed to compensate executive officers competitively at levels necessary to attract and retain qualified executives in the pharmaceutical and biotechnology industry. The base salaries have been targeted at or above the average rates paid by competitors to enable the Company to attract, motivate, reward and retain highly skilled executives. In order to evaluate the Company's competitive position in the industry, the Committee reviewed and analyzed the compensation packages, including base salary levels, offered by other biotechnology and pharmaceutical companies. During 2004, the Company retained the services of an independent consultant to review and recommend improvements to the executive compensation policy. Some of the competitive information was obtained from surveys prepared by consulting companies or industry associations (e.g., the Radford Biotechnology Compensation Survey). As a general matter, the base salary for each executive officer is initially established through negotiation at the time the officer is hired, taking into account such officer's qualifications, experience, prior salary, and competitive salary information. Year-to-year adjustments to each executive officer's base salary are based upon personal performance for the year, changes in the general level of base salaries of persons in comparable positions within the industry, and the average merit salary increase for such year for all employees of the Company established by the Committee, as well as other factors the Committee judges to be pertinent during an assessment period. In making base salary decisions, the Committee exercises its judgment to determine the appropriate weight to be given to each of these factors.

Annual incentive compensation

A portion of the cash compensation paid to the Company's executive officers, including the Chief Executive Officer, is in the form of discretionary bonus payments that are paid on an annual basis as part of the Company's incentive compensation strategy. Bonus payments are linked to the attainment of overall corporate goals established by the Board of Directors and individual goals established for each executive officer. The Board of Directors establishes the maximum potential amount of each officer's bonus payment annually, based upon the recommendation of the Committee. The appropriate weight to be given to each of the various goals used to calculate the amount of each officer's bonus payment is determined by the Committee. The goal of the Company's incentive compensation strategy is to support the achievement of Company goals and objectives by basing compensation on a pay for performance basis.

Long-term incentives

The Committee provides the Company's executive officers with long-term incentive compensation through grants of stock options, restricted stock and/or stock bonuses under the Company's equity compensation plans.

14

The Board believes that these grant programs provide the Company's executive officers with the opportunity to purchase and maintain an equity interest in the Company and to share in the appreciation of the value of the Company's common stock. The Board believes that these grants directly motivate an executive to maximize long-term stockholder value. The grants also utilize vesting periods (generally four years) that encourage key executives to continue in the employ of the Company. The Board considers each grant subjectively, considering factors such as the individual performance of the executive officer and the anticipated contribution of the executive officer to the attainment of the Company's long-term strategic performance goals. Long-term incentives granted in prior years are also taken into consideration.

The Company has also established an employee stock purchase plan both to encourage employees, including the Company's executive officers, to continue in the employ of the Company and to motivate employees through an ownership interest in the Company. Under the plan, employees, including officers, may have up to 15% of their earnings withheld for purchases of common stock on certain dates specified by the Board. The price of common stock purchased will be equal to 85% of the lower of the fair market value of the common stock on the date of enrollment or exercise date, whichever is lower.

Chief Executive Officer compensation

The compensation of the Chief Executive Officer is reviewed annually on the same basis as discussed above for all executive officers. Gary A. Lyons' base salary for 2003 was set at \$475,000, and was later increased to \$510,000 for 2004. Mr. Lyons joined the Company in February 1993. His initial salary, potential bonus, and stock grants were determined on the basis of negotiation between the Board of Directors and Mr. Lyons with due regard for his qualifications, experience, prior salary, and competitive salary information. Mr. Lyons' base salary for 2004 was established in part by comparing the base salaries of chief executive officers at other biotechnology and pharmaceutical companies of similar size. Mr. Lyons has annual and long-term strategic and operational goals established by the Board. In light of the achievement of financial and

Edgar Filing: NEUROCRINE BIOSCIENCES INC - Form DEF 14A

operational goals and the advancement of drug candidates in the pipeline, Mr. Lyons earned a \$200,000 bonus for 2004. As with other executive officers, Mr. Lyons' total compensation was based on the Company's accomplishments and the Chief Executive Officer's contribution thereto.

Section 162(m)

The Board has considered the potential future effects of Section 162(m) of the Code on the compensation paid to the Company's executive officers. Section 162(m) disallows a tax deduction for any publicly held corporation for individual compensation exceeding \$1.0 million in any taxable year for any of the executive officers named in the proxy statement, unless compensation is performance-based. The Company has adopted a policy that, where reasonably practicable, the Company will seek to qualify the variable compensation paid to its executive officers for an exemption from the deductibility limitations of Section 162(m).

In approving the amount and form of compensation for the Company's executive officers, the Committee will continue to consider all elements of the cost to the Company of providing such compensation, including the potential impact of Section 162(m).

Compensation Committee interlocks and insider participation

**PROPOSAL THREE: APPROVAL OF AN AMENDMENT TO THE

INCREASE OF 1,000,000 SHARES

General

The 2003 Incentive Stock Plan of Neurocrine Biosciences, Inc. (the 2003 Plan) was approved by the Board of Directors and the stockholders of the Company in 2003. The Board has approved an increase in the number of shares of common stock reserved for issuance under the 2003 Plan from 2,300,000 to 3,300,000, subject to stockholder approval at the Annual Meeting.

The Board believes that the proposed increase in the number of shares of common stock reserved for issuance under the 2003 Plan will allow the Company to attract and retain valuable employees and continue to provide its employees, consultants and directors with a proprietary interest in the company.

The 2003 Plan authorizes the grant to our employees of options that qualify as incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended (the Code). The 2003 Plan also authorizes the grant of nonstatutory stock options, restricted stock awards and stock bonus awards to our employees, directors and consultants. The 2003 Plan also provides that certain nonstatutory stock options will be automatically granted to non-employee directors and the Chairman of the Board of Directors of the Company, as described below. As of April 1, 2005, under the 2003 Plan there were options outstanding to purchase 2,217,204 shares of common stock, and 46,019 shares available for future option grants; 3,411 shares issued upon exercise of options granted under the Plan are now outstanding shares of common stock;

25

and 33,366 shares were granted as part of the Company's stock bonus program. As of the Record Date, there were approximately 390 employees and directors eligible to receive grants under the 2003 Plan. The closing price of the Company's common stock on the Record Date was \$37.56.

Vote Required

At the Annual Meeting, the stockholders are being asked to approve the amendment to the 2003 Plan to increase the number of shares reserved for issuance thereunder. The affirmative vote of the holders of a majority of the shares casting their votes at the Annual Meeting will be required to approve the amendment of the 2003 Plan. **The Board of Directors recommends voting FOR the approval of the amendment to the 2003 Plan.**

The 2003 Plan also provides that certain nonstatutory stock options will be automatically granted to non-employee directors and the Chairman of the Board of Directors of the Company, as described below.

Limitations. Section 162(m) of the Code places limits on the deductibility for federal income tax purposes of compensation paid to certain executive officers of the Company. In order to preserve the Company's ability to deduct the compensation income associated with awards granted to such persons, the 2003 Plan provides that no employee may be granted, in any fiscal year of the Company, awards covering more than 250,000 shares of common stock. Notwithstanding this limit, however, in connection with an employee's initial employment, he or she may be granted awards covering up to an additional 250,000 shares of common stock.

Terms and Conditions of Options. Each option is evidenced by a stock option agreement between the Company and the optionee, and is subject to the following additional terms and conditions:

Exercise Price. The Administrator determines the exercise price of options at the time the options are granted. The exercise price of a stock option may not be less than 100% of the fair market value of the common stock on the date such option is granted. In the case of an incentive stock option granted to an optionee who owns more than 10% of all classes of stock of the Company or any parent or subsidiary of the Company, the exercise price may not be less than 110% of the fair market value of the common stock on the date such option is granted. The fair market value of the common stock is

26

generally determined with reference to the closing sale price for the common stock (or the closing bid if no sales were reported) on the last market trading day prior to the date the option is granted.

Exercise of Option; Form of Consideration. The Administrator determines when options become exercisable and may, in its discretion, accelerate the vesting of any outstanding option. The means of payment for shares issued upon exercise of an option is specified in each option agreement. The 2003 Plan permits payment to be made to the extent permitted under applicable laws by cash, check, promissory note, other shares of common stock of the Company (with some restrictions), cashless exercise, any other form of consideration permitted by applicable law, or any combination thereof.

Term of Option. The term of options granted under the 2003 Plan may be no more than 10 years from the date of grant. In the case of an incentive stock option granted to an optionee who owns more than 10% of all classes of stock of the Company or any parent or subsidiary of the Company, the term of the option may be no more than five years from the date of grant. No option may be exercised after the expiration of its term.

Termination of Employment. If an optionee's employment or consulting relationship terminates for any reason (other than death, retirement or disability), then all options held by the optionee under the 2003 Plan expire on the earlier of (1) the date set forth in his or her notice of grant (which date may not be more than three months after the date of such termination in the case of an incentive stock option or six months after the date of such termination in the case of a nonstatutory stock option), or (2) the expiration date of such option. To the extent the option is exercisable at the time of the optionee's termination, the optionee may exercise all or part of his or her option at any time before it terminates. Nonstatutory stock options granted to directors pursuant to the automatic grant provisions of the 2003 Plan will expire on the earlier of (1) three months after the date of termination of the director's service relationship for any reason (other than death or disability) or (2) the expiration date of such option.

Disability. If an optionee's employment or consulting relationship terminates as a result of disability, then all options held by such optionee under the 2003 Plan expire on the earlier of (1) six months from the date of such termination (or such longer period of time not exceeding 12 months as determined by the Administrator) or (2) the expiration date of such option. The optionee (or the optionee's estate or a person who has acquired the right to exercise the option by bequest or inheritance) may exercise all or part of the option at any time before such expiration to the extent that the option was exercisable at the time of such termination. Nonstatutory stock options granted to directors pursuant to the automatic grant provisions of the 2003 Plan will expire on the earlier of (1) 12 months after the date of termination of the director's service relationship as a result of disability or (2) the expiration date of such option.

Death. In the event of an optionee's death: (1) during the optionee's employment or consulting relationship with the Company, the option may be exercised, at any time within six months of the date of death (or such longer period of time as determined by the Administrator, but no later than the expiration date of such option) by the optionee's estate or a person who has acquired the right to exercise the option by bequest or inheritance, but only to the extent that the optionee's right to exercise the option would have accrued if he or she had remained an employee or consultant of the Company six months after the date of death; or (2) within 30 days (or such other period of time not exceeding three months as determined by the Administrator) after the optionee's employment or consulting relationship with the Company terminates, the option may be exercised at any time within six months (or such other period of time as determined by the Administrator at the time of grant of the option) following the date of death (but in no event later than the expiration date of the option) by the optionee's estate or a person who has acquired the right to exercise the option by bequest or inheritance, but only to the extent of the optionee's right to exercise the option at the date of termination. In the event of a director's death while

27

serving on the Board or within 30 days after such director's service with the Company terminates, nonstatutory stock options granted to such director pursuant to the automatic grant provisions of the 2003 Plan will expire on the earlier of (1) 12 months after the date of the director's death or (2) the expiration date of such option.

Retirement. The 2003 Plan provides that upon the retirement of any Company employee at age 55 or greater following five or more years of service to the Company, all stock options held by such employee will vest and be exercisable for a term of three years from the date of retirement.

Other Provisions. The stock option agreement may contain other terms, provisions and conditions not inconsistent with the 2003 Plan as may be determined by the Administrator.

Automatic Director Grants. Options granted to non-employee directors are nonstatutory stock options to purchase shares of common stock under the 2003 Plan. Any new non-employee director will be granted an option to purchase 20,000 shares of Common Stock on the date of his or her initial election or appointment to the Board of Directors (a First Option). In addition, each non-employee director and the Chairman of the Board of Directors will be automatically granted an annual option (a Subsequent Option) to purchase, in the case of a non-employee director, 12,000 shares, and in the case of the Chairman of the Board of Directors, 15,000 shares, each on the date of each annual meeting of the stockholders of the Company, if on such date, he or she has served on the Board of Directors for at least six months and will be continuing in office following the meeting.

The exercise price of the options automatically granted to directors will be equal to 100% of the fair market value of a share of common stock on the date of grant. First Options and Subsequent Options shall become exercisable in cumulative monthly installments of 1/12 of the shares subject to such option on each of the monthly anniversaries of the date of grant of the option, commencing with the first such monthly anniversary, such that each such option shall be 100% vested on the first anniversary of its date of grant. No portion of an option automatically granted to a director will be exercisable after the 10th anniversary after the date of option grant. Additionally, an option automatically granted to a director will be exercisable after the termination of the director's services as described above.

Restricted Stock Awards. A restricted stock award gives the purchaser a period of no longer than six months from the date of grant to purchase common stock. The Administrator shall establish the purchase price, if any, and form of payment for each restricted stock award, which purchase price shall be no less than 100% of the fair market value per share on the date of grant; provided that the purchase price per share for a restricted stock award may be reduced on a dollar-for-dollar basis to the extent the restricted stock award is granted to the purchaser in lieu of cash compensation otherwise payable to the purchaser. In all cases, legal consideration shall be required for each issuance of a restricted stock award. A restricted stock award is accepted by the execution of a restricted stock purchase agreement between the Company and the purchaser, accompanied by the payment of the purchase price for the shares. Unless the Administrator determines otherwise, the restricted stock purchase agreement shall give the Company a repurchase option exercisable upon the voluntary or involuntary termination of the purchaser's employment or consulting relationship with the Company for any reason (including death and disability). The purchase price for any shares repurchased by the Company shall be the original price paid by the purchaser. The repurchase option lapses at a rate determined by the Administrator.

Stock Bonus Awards. The Administrator may grant a stock bonus award to an employee, director or consultant that gives the recipient the right to purchase or receive a certain number of shares of common stock. The Administrator shall establish the purchase price and form of payment for each stock bonus award, which purchase price shall be no less than 100% of the fair market value per share on the date of grant; provided that the purchase price per share for a stock bonus award may be reduced on a dollar-for-dollar basis to the extent the stock bonus award is granted to the purchaser in lieu of cash compensation otherwise payable

to the recipient. A stock bonus award is accepted by the execution of a stock bonus agreement between the Company and the recipient, accompanied by the payment of the purchase price for the shares, if any. Unless the Administrator determines otherwise, the stock bonus agreement shall give the Company a repurchase option exercisable upon the voluntary or involuntary termination of the recipient's employment or consulting relationship with the Company for any reason (including death and disability). The purchase price for any shares repurchased by the Company shall be the original price paid by the purchaser. The repurchase option lapses at a rate determined by the Administrator.

Awards Not Transferable. Awards may not be sold, pledged, transferred, or disposed of in any manner other than by will or by the laws of descent and distribution, or with respect to awards other than incentive stock options, with the Administrator's consent, and may be exercised,

during the lifetime of the holder, only by the holder or such transferees as have been transferred an award with the Administrator's consent. If the Administrator makes an award transferable, such award shall contain such additional terms and conditions, as the Administrator deems appropriate.

Adjustments upon Changes in Capitalization. In the event that any dividend, distribution, stock split, reverse stock split, stock dividend, combination, reclassification, reorganization, merger, consolidation, split-up, repurchase, liquidation, dissolution or sale, transfer, exchange or other disposition of all or substantially all of the assets of the Company, exchange of common stock or other securities of the Company or other similar corporate transaction or event, in the Administrator's discretion, affects the common stock such that an adjustment is determined by the Administrator to be appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the 2003 Plan or with respect to awards granted under the 2003 Plan, appropriate adjustments shall be made in the number and kind of shares of stock (or other securities or property) subject to the 2003 Plan, the number and kind of shares of stock (or other securities or property) subject to any award outstanding under the 2003 Plan, and the exercise or purchase price of any such award.

In the event of a liquidation or dissolution, any unexercised awards will terminate. The Administrator shall notify the award holders 15 days prior to the consummation of the liquidation or dissolution.

In the event of a merger, sale of all or substantially all of the assets of the Company, tender offer or other transaction or series of related transactions resulting in a change of ownership of more than 50% of the voting securities of the Company, each outstanding award may be assumed or an equivalent option or right may be substituted by the successor corporation. The vesting of each outstanding award shall accelerate (i.e. become exercisable immediately in full) in any of the following events: (1) if the successor corporation refuses to assume the awards, or to substitute substantially equivalent awards, in which case the Administrator shall notify the award holders and the awards shall be fully vested and exercisable for 15 days following such notice, and all unexercised awards at the end of such period shall terminate, (2) if the employment of the optionee is involuntarily terminated without cause within one year following the date of closing of the merger or acquisition, or (3) if the merger or acquisition is not approved by the members of the Board of Directors in office prior to the commencement of such merger or acquisition.

Amendment and Termination of the 2003 Plan. The 2003 Plan will continue in effect until terminated by the Board; provided that no incentive stock option may be granted under the 2003 Plan after May 22, 2013. The Board may amend, alter, suspend or terminate the 2003 Plan, or any part thereof, at any time and for any reason. However, the 2003 Plan requires stockholder approval for any amendment to the 2003 Plan to the extent necessary to comply with applicable laws, rules and regulations. No action by the Board or stockholders may alter or impair any award previously granted under the 2003 Plan without the consent of the holder.

Federal Income Tax Consequences

Incentive Stock Options. An optionee who is granted an incentive stock option does not recognize taxable income at the time the option is granted or upon its exercise, although the exercise is an adjustment item for alternative minimum tax purposes and may subject the optionee to the alternative minimum tax. Upon a disposition of the shares more than two years after grant of the option and one year after exercise of the option, any gain or loss is treated as long-term capital gain or loss. If these holding periods are not satisfied, the optionee recognizes ordinary income at the time of disposition equal to the difference between the exercise price and the lower of (1) the fair market value of the shares at the date of the option exercise or (2) the sale price of the shares. Any gain or loss recognized on such a premature disposition of the shares in excess of the amount treated as ordinary income is treated as long-term or short-term capital gain or loss, depending on the holding period. A different rule for measuring ordinary income upon such a premature disposition may apply if the optionee is also an officer, director or 10% stockholder of the Company. Unless limited by Section 162(m) of the Code, the Company is entitled to a deduction in the same amount as the ordinary income recognized by the optionee.

Nonstatutory Stock Options. An optionee does not recognize any taxable income at the time he or she is granted a nonstatutory stock option. Upon exercise, the optionee recognizes taxable income generally measured by the excess of the then fair market value of the shares over the exercise price. Any taxable income recognized in connection with an option exercise by an employee of the Company is subject to tax withholding by the Company. Unless limited by Section 162(m) of the Code, the Company is entitled to a deduction in the same amount as the ordinary income recognized by the optionee. Upon a disposition of such shares by the optionee, any difference between the sale price and the optionee's exercise price, to the extent not recognized as taxable income as provided above, is treated as long-term or short-term capital gain or loss, depending on the holding period.

Restricted Stock Awards; Stock Bonuses. For federal income tax purposes, if an individual is granted a restricted stock award or a stock bonus, the recipient generally will recognize taxable ordinary income equal to the excess of the common stock's fair market value over the purchase

price, if any. However, to the extent the common stock is subject to certain types of restrictions, such as a repurchase right in favor of the Company, the taxable event will be delayed until the vesting restrictions lapse unless the recipient makes a valid election under Section 83(b) of the Code. If the recipient makes a valid election under Section 83(b) of the Code with respect to restricted stock, the recipient generally will recognize ordinary income at the date of acquisition of the restricted stock in an amount equal to the difference, if any, between the fair market value of the shares at that date over the purchase price for the restricted stock. If, however, a valid Section 83(b) election is not made by the recipient, the recipient will generally recognize ordinary income when the restrictions on the shares of restricted stock lapse, in an amount equal to the difference between the fair market value of the shares at the date such restrictions lapse over the purchase price for the restricted stock. With respect to employees, the Company is generally required to withhold from regular wages or supplemental wage payments an amount based on the ordinary income recognized. Generally, the Company will be entitled to a business expense deduction (subject to the requirement of reasonableness, the provisions of Section 162(m) of the Code and the satisfaction of a tax reporting obligation) equal to the taxable ordinary income realized by the recipient. Upon disposition of the common stock, the recipient will recognize a capital gain or loss equal to the difference between the selling price and the sum of the amount paid for such common stock, if any, plus any amount recognized as ordinary income upon acquisition (or the lapse of restrictions) of the common stock. Such gain or loss will be long-term or short-term depending on how long the common stock was held. Slightly different rules may apply to recipients who are subject to Section 16(b) of the Exchange Act.

Potential Limitation on Company Deductions. Section 162(m) of the Code denies a deduction to any publicly held corporation for compensation paid to certain covered employees in a taxable year to the extent that compensation exceeds \$1 million for a covered employee. It is possible that compensation attributable to

awards granted in the future under the 2003 Plan, when combined with all other types of compensation received by a covered employee from the Company, may cause this limitation to be exceeded in any particular year. Certain kinds of compensation, including qualified performance-based compensation, are disregarded for purposes of the deduction limitation. In accordance with Treasury regulations issued under Section 162(m) of the Code, compensation attributable to stock options will qualify as performance-based compensation, provided that: (1) the stock award plan contains a per-employee limitation on the number of shares for which awards may be granted during a specified period; (2) the per-employee limitation is approved by the stockholders; (3) the award is granted by a compensation committee comprised solely of outside directors; and (4) the exercise price of the award is no less than the fair market value of the stock on the date of grant.

Restricted stock awards and stock bonus awards qualify as performance-based compensation under the Treasury regulations only if: (1) the award is granted by a compensation committee comprised solely of outside directors; (2) the award is earned (typically through vesting) only upon the achievement of an objective performance goal established in writing by the compensation committee while the outcome is substantially uncertain; (3) the compensation committee certifies in writing prior to the earning of the awards that the performance goal has been satisfied; and (4) prior to the earning of the award, stockholders have approved the material terms of the award (including the class of employees eligible for such award, the business criteria on which the performance goal is based, and the maximum amount (or formula used to calculate the amount) payable upon attainment of the performance goal).

The 2003 Plan has been designed to permit the compensation committee to grant stock options, restricted stock awards and stock bonus awards which will qualify as performance-based compensation. However, stock bonus awards granted to date have not been structured to so qualify.

The foregoing is only a summary of the effect of federal income taxation upon optionees, holders of restricted stock awards or stock bonus awards and the Company with respect to the grant and exercise of awards under the 2003 Plan. It does not purport to be complete, and does not discuss the tax consequences of the employee's or consultant's death or the provisions of the income tax laws of any municipality, state or foreign country in which the employee or consultant may reside.

The following table sets forth information about prior grants under the 2003 Plan to our executive officers, directors and employees.

- (2) Value based on the closing price of the Company's common stock on April 1, 2005 of \$37.56.
- (3) Pursuant to the terms of the 2003 Plan, (1) each non-employee director automatically shall be granted, upon his or her initial election or appointment as a non-employee director, an option to purchase 20,000 shares of common stock (a First Option); (2) each person who is serving as a non-employee director on the day of each annual meeting of stockholders automatically shall be granted an option to purchase 12,000 shares of common stock, if on such date, he or she shall have served on the Board for at least six months (a Subsequent Option); and (3) the Chairman of the Board of Directors automatically shall be granted an option to purchase 3,000 additional shares, or 15,000 shares of common stock, on the day of each annual meeting of the stockholders of the Company, if on such date, he or she shall have served on the Board for at least six months. These grants are subject to the vesting provisions described above (See Automatic Grants to Non-Employee Directors). Summary of the 2001 Stock Option Plan

The essential features of the 2001 Stock Option Plan, as amended (2001 Plan), are summarized below. This summary does not purport to be complete and is subject to, and qualified by reference to, all provisions of the Plan, as amended.

General. The purpose of the 2001 Plan is to attract and retain the best available personnel, to provide additional incentive to the employees and consultants of the Company and to promote the success of the Company's business. Effective May 22, 2003, options and stock purchase rights may no longer be granted under the 2001 Plan. Options granted under the 2001 Plan are to be nonstatutory stock options.

Administration. The 2001 Plan may generally be administered by the Board of Directors or a Committee appointed by the Board (in either case, the Administrator). The Administrator may make any determinations deemed necessary or advisable for the Plan.

Eligibility. Nonstatutory stock options and stock purchase rights may have been granted under the 2001 Plan to employees and consultants (including officers and directors) of the Company and any parent or subsidiary of the Company; provided that the aggregate number of shares issued or reserved for issuance pursuant to options granted to persons other than officers exceeded fifty percent (50%) of the total number of shares issued or reserved for issuance pursuant to options granted under the 2001 Plan. The Administrator, in its discretion, selected the employees and consultants to whom options and stock purchase rights may have been granted, the time or times at which such options and stock purchase rights were granted, and the number of shares subject to each such grant.

Terms and Conditions of Options. Each option is evidenced by a stock option agreement between the Company and the optionee, and is subject to the following additional terms and conditions:

Exercise Price. The Administrator determined the exercise price of options at the time the options are granted. The exercise price of a nonstatutory stock option was no less than the par value per share on the date of grant. The fair market value of the common stock was determined with reference to the closing sale price for the common stock (or the closing bid if no sales were reported) on the last market trading day prior to the date the option was granted.

Exercise of Option; Form of Consideration. The Administrator determines when options become exercisable and may, in its discretion, accelerate the vesting of any outstanding option. The means of payment for shares issued upon exercise of an option is specified in each option agreement. The Plan permits payment to be made by cash, check, promissory note bearing a market rate of interest, other shares of common stock of the Company (with some restrictions), cashless exercise, any other form of consideration permitted by applicable law, or any combination thereof.

Term of Option. The term of options are no more than 10 years from the date of grant. No option may be exercised after the expiration of its term.

Termination of Employment. If an optionee's employment or consulting relationship terminates for any reason (other than death, retirement or disability), then all options held by the optionee under the Plan expire on the earlier of (i) the date set forth in his or her notice of grant (which date is typically six months after the date of such termination), or (ii) the expiration date of such option. To the extent the option is exercisable at the time of the optionee's termination, the optionee may exercise all or part of his or her option at any time before it terminates.

Disability. If an optionee's employment or consulting relationship terminates as a result of disability, then all options held by such optionee under the Plan expire on the earlier of (i) six months from the date of such termination (or such other period of time as determined by the Administrator) or (ii) the expiration date of such option. The optionee (or the optionee's estate or a person who has acquired the right to exercise the option by bequest or inheritance) may exercise all or part of the option at any time before such expiration to the extent the right to exercise would have accrued had the optionee remained an employee or consultant for a period of six months from the time of termination due to disability.

Death. In the event of an optionee's death: (i) during the optionee's employment or consulting relationship with the Company, the option may be exercised, at any time within six months of the date of death (or at such later time as may be determined by the Administrator but in no event later than the expiration date of such option) by the optionee's estate or a person who has acquired the right to exercise the option by bequest or inheritance, but only to the extent that the optionee's right to exercise the option would have accrued if he or she had remained an employee or consultant of the Company six months after the date of death; or (ii) within 30 days (or such other period of time as determined by the Administrator) after the optionee's employment or consulting relationship with the Company terminates, the option may be exercised at any time within six months (or such other period of time as determined by the Administrator) following the date of death (but in no event later than the expiration date of the option) by the optionee's estate or a person who has acquired the right to exercise the option by bequest or inheritance, but only to the extent of the optionee's right to exercise the option at the date of termination.

Retirement. The Plan provides that upon the retirement of any Company employee at age 55 or greater following five or more years of service to the Company, all stock options held by such employee will vest and be exercisable for a term of three years from the date of retirement.

34

Nontransferability of Options. Unless otherwise determined by the Administrator, options granted under the Plan are not transferable other than by will or the laws of descent and distribution, and may be exercisable during the optionee's lifetime only by the optionee.

Other Provisions. The stock option agreement may contain other terms, provisions and conditions not inconsistent with the Plan as may be determined by the Administrator.

Stock Purchase Rights. A stock purchase right gives the purchaser a period of no longer than six months from the date of grant to purchase common stock. The purchase price of common stock purchased pursuant to a stock purchase right is determined in the same manner as for nonstatutory stock options. A stock purchase right is accepted by the execution of a restricted stock purchase agreement between the Company and the purchaser, accompanied by the payment of the purchase price for the shares. Unless the Administrator determines otherwise, the restricted stock purchase agreement shall give the Company a repurchase option exercisable upon the voluntary or involuntary termination of the purchaser's employment or consulting relationship with the Company for any reason (including death and disability). The purchase price for any shares repurchased by the Company shall be the original price paid by the purchaser. The repurchase option lapses at a rate determined by the Administrator. A stock purchase right is nontransferable other than by will or the laws of descent and distribution, and may be exercisable during the optionee's lifetime only by the optionee.

Adjustments upon Changes in Capitalization. In the event that the stock of the Company changes by reason of any stock split, reverse stock split, stock dividend, combination, reclassification or other similar change in the capital structure of the Company effected without the receipt of consideration, appropriate adjustments shall be made in the number and class of shares of stock subject to the Plan, the number and class of shares of stock subject to any option or stock purchase right outstanding under the Plan, and the exercise price of any such outstanding option or stock purchase right.

In the event of a liquidation or dissolution, any unexercised options or stock purchase rights will terminate. The Administrator shall notify the optionee 15 days prior to the consummation of the liquidation or dissolution. To the extent it has not been previously exercised, the option or stock purchase right shall terminate immediately prior to the consummation of such proposed action.

In connection with any merger, consolidation, acquisition of assets or like occurrence involving the Company, each outstanding option or stock purchase right may be assumed or an equivalent option or right may be substituted by the successor corporation. The vesting of each outstanding option or stock purchase right shall accelerate (i.e. become exercisable immediately in full) in any of the following events: (1) if the successor corporation refuses to assume the option or stock purchase rights, or to substitute substantially equivalent options or rights, (2) if the employment of the optionee is involuntarily terminated without cause within one year following the date of closing of the merger or acquisition, or (3) if the merger or acquisition is not approved by the members of the Board of Directors in office prior to the commencement of such merger or acquisition.

Amendment and Termination of the Plan. The Board may amend, alter, suspend or terminate the Plan, or any part thereof, at any time and for any reason. However, the Plan requires stockholder approval for any amendment to the Plan to the extent necessary to comply with applicable laws, rules and regulations. No action by the Board or stockholders may alter or impair any option or stock purchase right previously granted under the Plan without the consent of the optionee. Unless terminated earlier, the Plan shall terminate ten years from the date of its approval by the stockholders or the Board of the Company, whichever is earlier.

Summary of the Employment Commencement Nonstatutory Stock Option

The essential features of the Employment Commencement Nonstatutory Stock Option issued to Wendell Wierenga, Ph.D. (the Optionee) on September 1, 2003 (the Option) in connection with, and as an inducement to, his becoming an employee and officer of the Company are summarized below. This summary does not purport to be complete and is subject to, and qualified by reference to, all provisions of the Option. The Option covers the right to purchase 100,000 shares of the Company's common stock at an exercise price of \$53.58 per share. The Option is a nonstatutory option for tax purposes and may not be transferred other than by will or the laws of descent and distribution.

Exercise of Option; Form of Consideration; Term of Option. The Option vests and becomes exercisable with respect to 25% of the shares 12 months after issuance and with respect to an additional 1/48 of the shares each month thereafter, subject to the Optionee continuing to be an employee or consultant. The Option permits payment to be made by cash, check, other shares of common stock of the Company (with some restrictions), cashless exercise, any other form of consideration permitted by applicable law, or any combination thereof. The term of the Option is 10 years from the date of grant. The Option may not be exercised after the expiration of its term.

Termination of Employment; Retirement. If the Optionee's employment terminates for any reason other than death or disability, then the Option expires on the earlier of (i) 90 days after the date of such termination or (ii) the expiration date of such Option. If the Optionee's employment terminates upon death or disability, then the Option expires on the earlier of (i) six months after the date of such termination or (ii) the expiration date of such Option. The Option provides that upon the retirement of the Optionee at age 55 or greater following five or more years of service to the Company, the Option will vest and be exercisable for a term of three years from the date of retirement.

Adjustments upon Changes in Capitalization. In the event that the stock of the Company changes by reason of any stock split, reverse stock split, stock dividend, combination, reclassification or other similar change in the capital structure of the Company effected without the receipt of consideration, appropriate adjustments shall be made in the number and class of shares of stock subject to the Option and the exercise price of the Option. In connection with any merger, consolidation, acquisition of assets or like occurrence involving the Company, the Option may be assumed or an equivalent option or right may be substituted by the successor corporation. The vesting of the Option right shall accelerate (i.e., become exercisable immediately in full) in any of the following events: (1) if the successor corporation refuses to assume the Option, or to substitute substantially equivalent options, (2) if the employment of the Optionee is involuntarily terminated without cause within one year following the date of closing of the merger or acquisition, or (3) if the merger or acquisition is not approved by the members of the Board of Directors in office prior to the commencement of such merger or acquisition.
