Delaware Investments® Closed-End Municipal Bond Funds

April 9, 2013

Municipal bond market conditions

During the Funds' fiscal year ended March 31, 2013, the U.S. tax-exempt bond market, as measured by the Barclays Municipal Bond Index, returned 5.25%. In this favorable environment, higher yielding, lower-rated municipal bonds fared the best overall, with below-investment-grade issues gaining 14.23%, compared to returns of 6.50% and 3.78% generated by the higher-rated BBB and AAA segments of the market, respectively. (Data: Barclays.)

On Jan. 1, 2013, an agreement was reached in Washington, D.C., known as the American Taxpayer Relief Act of 2012. The good news for the municipal market was that the deal did not include a 28% cap on the municipal tax exemption.

Fund positioning: maintaining a long-standing approach

Our portfolio management strategy remained consistent throughout the Funds' fiscal year. We continued investing by utilizing a bottom-up approach to portfolio construction, meaning that we evaluated investment opportunities individually based on thorough research; ultimately, we selected bonds that we believed offered a favorable balance between risk and potential reward.

We were also mindful of market shifts that could lead to new opportunities (or risks) for investors. Several such situations occurred during the fiscal year, as risks emerged that we believed justified making the portfolio slightly more defensive.

One of these shifts took place in the final months of the fiscal year. Especially in light of back-to-back years of strong performance in the municipal bond market, we thought it prudent to take a defensive position in an effort to seek to mitigate some of the risk to the Funds from a potential rise in long-term interest rates. This entailed modestly reducing the Funds' exposure to longer-maturity securities. In addition, given global macroeconomic challenges, we limited the Funds' allocations to certain lower-rated bonds that we believed were potentially at risk. We should note that this shift represented only subtle changes to the Funds' portfolios. Throughout the Funds' fiscal year, we maintained our usual focus on seeking to generate relative outperformance by emphasizing bonds within the lower tiers of the investment-grade credit ratings.

This is a segment of the market in which we believe our credit research capabilities have the potential to add value to the overall investment process.

Performance effects

Although we slightly reduced the Funds' exposure to lower rated credit and decreased positions in bonds with longer maturities, these credits were among the strongest-performing bonds within the Funds. Additionally, the typically maintained overweight positions in these securities during the fiscal year.

Within **Delaware Investments Colorado Municipal Income Fund, Inc.**, the strongest performing bonds tended to include issues within the healthcare sector (one example was issued by the Colorado Health Facilities Authority, with a coupon of 5% and a maturity date of 2040). The weaker performers, meanwhile, included an issue by the Puerto Rico Infrastructure Financing Authority, which felt much pressure among that commonwealth's pension-related challenges and uncertainty surrounding a newly elected governor.

Within **Delaware Investments Minnesota Municipal Income Fund, II Inc.**, notable performers included bonds issued by the Dakota and Washington Counties Housing and Redevelopment Authority. These bonds were issued with a 8.375% coupon, and are scheduled to mature in 2021. Other contributors included tobacco settlement bonds, with an S&P rating of A- and a maturity date of 2031. The positive effects generated by these bonds were offset somewhat by the underperformance of bonds such as those issued by the Laurentian Energy Authority, with a 5.0% coupon and a maturity of 2021. Puerto Rican bonds likewise posed a mild drag on the Fund's performance, including bonds issued by the Puerto Rico Electric Power Authority.

Delaware Investments National Municipal Income Fund experienced a positive contribution from so-called tobacco settlement bonds. Another notable contributor to the Fund's performance was a bond issued by the West Virginia Hospital Finance Authority, with a stated coupon of 9.125% and a maturity date of 2041. Bonds issued out of Puerto Rico, including an issue by the Puerto Rico Sales Tax Financing Corporation,

were the weakest performers across the Fund.
