ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Board of Directors

As reported in a Current Report on Form 8-K filed on April 26, 2010, effective as of 5:00 P.M. on April 23, 2010, each of Mr. David Florman, Mr. Eric Haskell, Mr. Karl Sachs, Mr. Robert Shields and Mr. Barry Zeman (collectively, the “Prior Directors”) resigned as members of the Board of Directors. Over the course of the last several months, certain large shareholders of the Company had informed the Board of its opinion that the Board should retain Mr. Michael Earley as Chief Executive Officer and reconstitute the Board. After consideration of such information, the Prior Directors expressed their views that they did not believe these actions to be in the best interests of our shareholders as a whole and, accordingly, these large shareholders submitted to the Company an alternative slate of directors. The Prior Directors further expressed the view that they did not believe that it is in the shareholders’ best interests to engage in a proxy contest with the shareholders seeking to make the changes described above. None of the Prior Director’s resignations were due to any form of disagreement with our operations, policies or practices.

Effective as of the same date, Mr. Michael Earley, the sole remaining director, appointed six new directors to fill the vacancies created by the resignation of the Prior Directors as well as the vacancy created by the previous resignation of Dr. Martin Harrison in March 2010. Listed below are the names, ages and biographies of our current directors at April 23, 2010.

The information required by this item about our Executive Officers is included in Part I, "Item 1. Business" of the Original Form 10-K under the caption "Our Executive Officers."

ITEM 11. EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION & ANALYSIS

General Philosophy

Our executive compensation program, which is grounded in the principle of pay-for-performance, is intended to reward members of our executive team and senior management for sustained, high-level performance over the short and long term as demonstrated by measurable, company-wide performance metrics and personal contributions which are consistent with our overall growth and goals. We compensate our senior management team through a combination of cash compensation in the form of base salary and cash incentive compensation and equity compensation awards. Our compensation program has been structured to enhance our ability to achieve our short-term and long-term strategic goals and to retain and motivate the members of our executive team and senior management to achieve such goals.

To determine compensation, we first establish a target overall compensation figure for each member of our executive team and senior management and allocate this target amount among base salary, cash incentive compensation and equity compensation awards.

For our most senior executive officers, including our “named executive officers” listed in the Summary Compensation Table, we have designed our cash incentive compensation program predominantly to reward the achievement of company-wide performance goals by tying awards to our operating income.

Board Process for Determining Compensation

Our Compensation Committee has responsibility for evaluating and administering our director and executive officer compensation plans and making recommendations to our Board of Directors with respect thereto, including with respect to the compensation of our Chief Executive Officer. The Compensation Committee is also responsible for annually reviewing and making recommendations to the Board with respect to the compensation, including individual base salaries, cash incentives and equity compensation grants of the other named executive officers. In recommending compensation for the named executive officers, the Compensation Committee consults with the Chief Executive Officer and when it deems appropriate, other appropriate advisors.

Use of Compensation Consultants

Pursuant to its charter, the Compensation Committee has the authority to retain any compensation consultant to assist the Compensation Committee in its evaluation of compensation for our Board of Directors and/or senior executive officers. In accordance with this authority, in December 2006, the Compensation Committee engaged Watson Wyatt to conduct a review of the competitiveness of our compensation program for our named executive officers and our Board of Directors as compared to a peer group and to published survey data for companies with revenues similar to ours. In October 2007, to assist the Compensation Committee make determinations with respect to our executive compensation program for 2008, the Committee asked Watson Wyatt to provide an updated review of the competitiveness of our compensation program for our named executive officers. In late 2008, the Committee consulted with Watson Wyatt on various issues regarding our 2009 executive compensation program.

Use of Employment Agreements

We believe that employment agreements provide us with a mechanism to assist in the retention of our executive officers and provide us with competitive protections through provisions restricting these officers, for a period of time,

from commencing employment with a competitor within our service area or soliciting our employees or customers. We believe these agreements provide our officers with security upon their termination without cause or upon a change of control of the company. We are a party to employment agreements with Michael M. Earley, our Chief Executive Officer, Dr. Jose Guethon, our President and Chief Operating Officer, Robert J. Sabo, our Chief Financial Officer, and Roberto L. Palenzuela, our General Counsel and Secretary (collectively, the “NEO Employment Agreements”).

2009 Compensation as compared to 2008 Compensation

The primary change to our executive compensation program in 2009 was additional earnings opportunity for the executives with respect to short-term incentive compensation, which was reflected in the terms of our 2009 executive bonus plan. Under the 2009 bonus plan, the maximum amount payable equaled 2.5 times the target bonus percentage, up from 2 times the target bonus percentage under the 2008 plan. Additionally, the bonus thresholds were lowered so that 100% of the target bonus would be payable if the Company hit 93% of budgeted income before income taxes (the “Target Amount”) and 50% of the target bonus would be payable if the Company hit 85% of the Target Amount (or approximately 79% of budgeted income before income taxes). The Compensation Committee considered these lower thresholds to be appropriate considering that budgeted income before income taxes for 2009 was approximately 60% higher than 2008 income before income taxes and at the Target Amount was over 50% higher than 2008 income before income taxes.

Other than increasing the base salary of Dr. Guethon to reflect his promotion to President and Chief Operating Officer in September 2008, we did not make any other changes to the compensation of our named executive officers in 2009 as compared to 2008. In making compensation decisions for 2009, the Compensation Committee balanced the strong company performance and significant company accomplishments in 2008, including the successful sale of our HMO, against the rapidly deteriorating economy. After consulting with Watson Wyatt and reviewing the results of a flash survey completed by them in October/November 2009, the Compensation Committee determined that it was in line with the market to keep executive compensation packages in 2009 at the same level they were at in 2008.

Factors Considered in Determining Executive Compensation

The Compensation Committee considers a variety of factors in coming to decisions regarding compensation for the named executive officers. Competitive market information is an important consideration, but not the only one.

Market competitiveness. In making determinations regarding 2009 executive compensation, the Compensation Committee relied, in part, upon information regarding competitive market pay information and compensation structures provided by Watson Wyatt to the Committee in October 2007. As part of its study, Watson Wyatt compared the compensation paid in 2007 to our named executive officers to the compensation paid by a peer group comprised of 13 similarly sized companies in the healthcare industry (the “Peer Group”) as well as to published survey data for issuers with similar revenues (approximately \$250 million) to the Company (the “Published Survey Data”). This study updated the compensation study provided by Watson Wyatt to the Company in December 2006 which compared our performance and the compensation paid in 2006 to our named executive officers to the performance of and compensation paid to the same Peer Group. The Peer Group includes:

- Continucare Corporation
- Amsurg Corporation
- Healthways, Inc.
- Radiation Therapy Services, Inc.
- Pediatrix Medical Group, Inc.
- Pediatric Services of America, Inc.
- Vistacare, Inc.
- Horizon Health Corporation
- Techne Corporation
- Amedisys, Inc.
- Thoratec Corporation
- Integramed America, Inc.
- Ventana Medical Systems, Inc.

For each named executive officer, Watson Wyatt provided the Committee with information as to whether the base salary, target cash bonus as a percentage of base salary and equity incentive compensation as a percentage of base salary paid to the subject named executive officer in 2007 was at, above or below market as compared to the Peer Group and the Published Survey Data. The following table summarizes the results of the Watson Wyatt study.

Named Executive Officer	Base Salary	Cash Bonus as a Percentage of Base Salary	Equity Incentive Compensation as a Percentage of Base Salary
Michael M. Earley	Significantly Below Market	Competitive	Competitive (1)
Dr. Jose Guethon (2)	Competitive	Competitive	Above Market
Robert J. Sabo	Competitive	Competitive	Below Market
Roberto L. Palenzuela	Competitive	Competitive	Competitive

(1) Although Mr. Earley’s equity incentive compensation as a percentage of base salary is competitive with the Peer Group and Published Survey Data, since Mr. Earley’s base salary for 2007 was significantly below market, the actual dollar value of his equity incentive compensation for 2007 was below the market.

(2) As of the date of the Watson Wyatt study and for a substantial portion of 2008, Dr. Guethon served as the President of our Provider Service Network (our “PSN”). In September 2008, he was promoted to President and Chief Operating Officer.

In setting compensation levels for the named executive officers for 2008, the Compensation Committee sought to provide target compensation—in the aggregate, and generally for each element—that is competitive, and therefore approximates the 50th percentile (or the market median) for comparable positions in the Peer Group and companies included in the Published Survey Data. Individual compensation may be more or less than the median compensation amount when warranted by individual or corporate performance.

In December 2008, the Chairman of the Compensation Committee and the Lead Independent Director, now Chairman of the Board, consulted with Watson Wyatt regarding 2009 compensation considerations.

Although Watson did not provide a formal report, it informed the directors that, based upon a review of the still existing members of the Peer Group, the CEO’s base salary continued to be materially less than CEOs of the Peer Group companies. Mr. Earley, however, had indicated to the Compensation Committee that he did not desire a raise for 2009. Watson further indicated that the base salaries for the CFO and General Counsel continued to be competitive as compared to the Peer Group companies.

Watson further indicated that equity compensation as a percentage of base salary continued to be competitive as compared to the Peer Group companies.

Our executive compensation policies are generally applied in the same manner to all of the named executive officers, although the Chief Executive Officer’s compensation package is designed to incorporate a more significant performance based component than our other named executive officers. The comparison to the market median is done on a position by position basis and takes into account the relative responsibilities and authority of each named executive officer. The differences in amounts of compensation for each named executive officer reflect the significant differences in the scope of responsibilities and authority attributed to their respective positions.

Performance. Our policy is to provide our executive officers with compensation opportunities that are based upon their individual performance, the performance of the Company and their contribution to that performance. The Compensation Committee considers these performance factors when approving adjustments to the compensation of the named executive officers.

Mix of current and long-term compensation. Because the successful operation of the Company's business requires a long-term approach, one of the important components of the program is long-term compensation by means of long-term incentives. The Compensation Committee believes that the incorporation of a long-term compensation element assists in the alignment of the named executive officers' interests with the economic interests of the Company's shareholders.

Impact and mix of cash vs. non-cash compensation. The Compensation Committee considers both the cost and the motivational value of the various components of compensation. The Compensation Committee has determined that current compensation—base salary and annual bonuses—should be delivered in cash, but that long-term incentive compensation should include stock-based compensation so that the long-term financial rewards available to the named executive officers are linked to increases in our value over the long-term. The Compensation Committee believes that this also aligns the named executive officers' interests with the economic interests of the Company's shareholders.

The Elements of Our Executive Compensation Program

The elements of our executive compensation program are as follows:

- cash compensation in the form of base salary;
- cash compensation in the form of incentive compensation (i.e. performance-based bonuses); and
- equity-based awards.

In addition, as discussed above, the NEO Employment Agreements provide for potential payments upon termination of employment for a variety of reasons, including a change in control of our Company. Each of these elements is discussed below.

Pursuant to our executive compensation program for fiscal 2009, the allocation of compensation among base salary, target performance-based bonus and equity-based awards was relatively consistent among our named executive officers, other than our Chief Executive Officer, with base salary generally comprising between 45% and 57% of the named executive officer's total compensation package for 2009, the target bonus generally comprising between 22% and 23% of a named executive officer's total compensation package for 2009 and equity awards generally comprising between 20% and 32% of a named executive officer's total compensation package for 2009.

The Chief Executive Officer's compensation package for 2009 had a more significant performance based component than our other named executive officers, with base salary comprising only 41% of his total compensation package while target bonus and equity awards comprised 20% and 37%, respectively, of his total compensation package.

In allocating executive compensation among these elements, we believe that, in light of their significant ability to influence our performance, the compensation of our senior-most management team and, most especially, our Chief Executive Officer should have a large performance based component.

Base Salaries

We include base salary as part of executive compensation because we want to provide our executive officers with a level of assured cash compensation that facilitates an appropriate lifestyle in light of their professional status and accomplishments. In accordance with our Compensation Policy, base salaries are set at levels which are intended to produce the highest value for us at an appropriate cost, reflect the individual's responsibilities, tenure and past performance and be competitive with the Peer Group.

Each named executive officer's employment agreement specifies a minimum level of base salary. The Board of Directors, however, may, in its discretion, set each executive's salary at any higher level that it deems appropriate. Accordingly, the Compensation Committee generally evaluates and recommends the base salaries for our named executive officers annually. Changes in each officer's base salary on an annual basis depend upon the Compensation Committee's and the Board's assessment of Company and individual performance as well as an assessment of the

competitiveness of the officer's base salary to companies included in the Peer Group and the Published Survey Data. For 2009, the Compensation Committee set each named executive officer's base salary as follows:

Name	2009 Base Salary
Michel M. Earley	\$375,000
Jose A. Guethon, M.D.	\$336,000
Robert J. Sabo	\$270,000
Roberto L. Palenzuela	\$225,000

For 2008, the median base salaries and total compensation paid by companies in the Peer Group and companies included in the Published Survey Data were the starting point of the analysis of base salary for each of the named executive officers. However, the Compensation Committee also analyzed a number of other factors in determining appropriate salary levels, including, but not limited to:

- the relative experience and skills of the subject officer;
- the importance of the particular position to us;
- the level of responsibilities assigned to the subject officer;
- the difficulty in replacing the executive;
- the subject officer's historical performance in light of the Corporate Objectives;
- our operating performance to date during his tenure with us;
- internal alignment considerations; and
- inflation.

As described further below, target cash incentive compensation and equity awards are generally set as a percentage of each named executive officer's base salary.

The relative weight applied to each of the foregoing factors varied with each position and individual and was within the sole discretion of the Compensation Committee. Decisions regarding the individual performance factors identified above and used by the Compensation Committee in making base salary decisions for each named executive officer, other than the CEO, were based on the Compensation Committee's review of the Chief Executive Officer's evaluation of the officer's individual performance for the prior year. Decisions regarding the individual performance factors identified above and used in making base salary decisions for the Chief Executive Officer were based on the Board of Directors' review of the CEO's individual performance for the prior year.

As discussed above, the Compensation Committee determined that, in light of the economic crisis, it was appropriate to keep base salaries at the same level in 2009 as in 2008. Notwithstanding the foregoing, the Compensation Committee recommended an increase in Dr. Guethon's base salary from \$320,000 to \$336,000 in consideration of his promotion to President and Chief Operating Officer.

Cash Incentive Compensation

Our executive bonus plan is a performance-based cash incentive plan designed to promote our interests and the interests of our shareholders by providing employees with financial rewards upon achievement of specified business objectives, as well as helping us attract and retain key employees. Under this plan, additional cash is payable to our named executive officers based upon the degree that the performance goals recommended by the Compensation

Committee and approved by the Board are met. The amount of cash incentive compensation earned by our named executive officers in 2009 is set forth in the "Non-Equity Incentive Plan Compensation" column of the 2009 Summary Compensation Table. These amounts were paid in February 2010 and were included in our results of operations for the year ended December 31, 2009.

The Compensation Committee assigns the named executive officers a competitive incentive target for each year under our executive bonus plan. The target incentive is expressed as a percentage of the participant's annual base salary as of the end of the year and is designed by the Compensation Committee to be indicative of the incentive payment that each participant would expect to receive on the basis of our strong performance and the strong individual performance by our senior vice presidents and vice presidents reporting to our named executive officers. The Compensation Committee set 2009 target incentives ("Target Bonus") for each of the named executive officers at the percentage of base salary as set forth below:

Name	Percentage of Base Salary at Target
Michel M. Earley	70%
Jose A. Guethon, M.D	50%
Robert J. Sabo	50%
Roberto L. Palenzuela	40%

For each named executive officer, the Target Bonus percentage for 2009 was the same as the target bonus percentage for 2008.

Depending on our income before income taxes in 2009, actual cash incentive compensation payable under our executive bonus plan to each named executive officer could have been as low as zero or as high as the percentage of base salary set forth next to his name below.

Name	Maximum Percentage of Base Salary
Michel M. Earley	175%
Jose A. Guethon, M.D	125%
Robert J. Sabo	125%
Roberto L. Palenzuela	100%

In 2009, for our named executive officers to be eligible to receive the full Target Bonus under our executive bonus plan, our consolidated year-end income before income taxes for 2009 was required to equal or exceed \$25.37 million (the "Target Goal"), which was 93% of our budgeted consolidated year-end income before income taxes of \$27.29 million. For our named executive officers to be eligible to receive any bonus under the executive bonus plan, our consolidated year end income before income taxes for 2009 was required to equal or exceed \$21.57 million (the "Threshold Goal"), which was 85% of Target Goal. Our 2009 consolidated year-end income before income taxes, as adjusted by the Committee to take into account the costs associated with the anticipated CEO succession, gain on the sale of our HMO in 2008 and changes in estimates of HMO associated accounts, was approximately \$23.03 million. Accordingly, each of our named executive officers were eligible to receive annual incentive compensation equal to between 27% and 48% of his 2009 base salary as set forth in the Summary Compensation Table. Bonuses under the plan were paid in February 2010.

Equity Compensation

Prior to 2007, the primary form of equity compensation that we had awarded consisted of non-qualified stock options, which we believe provided a strong motivation to our executives to continue to seek growth in our business. In 2007, we began utilizing restricted stock grants in addition to option grants. Grants of restricted stock are increasingly becoming a trend in our industry and we believe that this type of award provides an equally motivating form of incentive compensation while permitting us to issue fewer shares, thereby reducing potential dilution of our shareholders.

Each year, the Compensation Committee assigns each named executive officer a competitive equity incentive dollar amount expressed as a percentage of the participant’s annual base salary for the subject year. In setting this percentage, in addition to competitive market information, the Compensation Committee considers our operating results and performance, individual performance against the individual’s objectives, as well as the allocation of overall share usage attributed to executives and the total number of shares issued in the grant relative to our outstanding shares. We do not place particular emphasis on any one factor but rather analyze the appropriateness of rewarding equity compensation in light of each of these considerations.

The Compensation Committee set 2009 equity incentives for each of the named executive officers at the percentage of base salary as set forth below:

Name	Percentage of Base Salary
Michel M. Earley	100%
Jose A. Guethon, M.D	70%
Robert J. Sabo	70%
Roberto L. Palenzuela	40%

For each named executive officer, the equity award percentage for 2009 was the same as the equity award percentage for 2008.

Equity awards for any year are generally issued to the named executive officers in February of the subject year and are generally paid approximately 60% in stock options and approximately 40% in restricted shares of Common Stock. See “Grants of Plan Based Awards” for information as to the total number of stock options and restricted shares of Common Stock granted to our named executive officers in 2009.

Options and restricted stock are generally granted pursuant to our Omnibus Equity Compensation Plan. Both our stock options and restricted stock granted to our employees generally vest ratably on an annual basis over a four year service period and expire after a ten year term. The exercise price for option grants is based on the closing price of our Common Stock on the NYSE Amex on the grant date. Stock options only have compensatory value if the market price of the Common Stock increases after the grant date.

Severance Benefits and Change in Control Payments

Pursuant to our NEO Employment Agreements, our named executive officers are entitled to receive certain severance payments upon their death, disability, termination without cause, resignation for good reason and upon a change in control of the Company. These benefits are designed to promote stability and continuity of senior management as well as to recognize the potential difficulty for such individuals to locate comparable employment within a short period of time. Information regarding applicable payments under such agreements for the named executive officers is provided under the heading “Potential Payments Upon Termination or Change-In-Control.”

Retirement Plan

The Metropolitan Health Networks 401(k) Plan (the “401(k) Plan”) is a tax qualified employee savings and retirement plan covering our eligible employees, including our named executive officers. At our discretion, we may make a matching contribution and a non-elective contribution to the 401(k) Plan. The rights of the participants in the 401(k) Plan to our contributions do not fully vest until such time as the participant has been employed by us for three years. In 2009, we made matching contributions to our named executive officers.

Perquisites and Other Benefits

We provide our named executive officers with perquisites and other personal benefits that we and the Compensation Committee believe are reasonable and consistent with our overall compensation program to better enable us to attract and retain talented employees for key positions. We periodically review the levels of perquisites and other personal benefits provided to named executive officers.

The named executive officers are each provided automobile allowances and mobile phone allowances. We believe these allowances enable our executives to be available to customers and employees at all times.

The named executive officers also participate in our medical, dental and life insurance plans to the same extent as our other employees. Upon relocation, key executive officers may receive, at the discretion of the Board of Directors, a relocation allowance in amounts individually negotiated at the time of relocation.

Stock Ownership Guidelines

In 2007, our Board of Directors adopted stock ownership guidelines for our senior executives, including our named executive officers, and for non-employee members of our Board of Directors. The Compensation Committee monitors progress under these guidelines annually. Although we expect each senior executive and director to make annual progress towards his or her target, each senior executive and non-employee member of our Board of Directors will have five years from the earlier of (a) the date he or she becomes a senior executive or non-employee director and (b) the date the guidelines were adopted to meet his or her target. If an executive is promoted and the target is increased, an additional five-year period will be provided to meet the increase in the target attributable to the promotion. Targets for our executives increase with rank in the organization and are based upon multiples of base salary. Shares counted toward the guidelines include:

- shares of Common Stock owned outright by the senior executive or director or his or her immediate family members residing in the same household;
- shares of Common Stock owned jointly by the senior executive or director with a spouse or children;
- shares of Common Stock held in trust for the benefit of the senior executive or director;
- restricted shares of Common Stock owned by the senior executive or director, whether or not vested;
- shares of Common Stock held in our 401(k) Retirement Savings Plan for the benefit of the executive or director; and
- shares of Common Stock acquired by the senior executive or director upon stock option exercises.

Material Changes since December 31, 2009

On January 26, 2010, our Board of Directors, upon the recommendation of our Compensation Committee, fixed the 2010 base salaries of our President and Chief Operating Officer, our Chief Financial Officer and our General Counsel (the “Applicable Officers”) and awarded each Applicable Officer a one-time retention bonus payable in restricted shares of our common stock (the “Retention Shares”) in an amount equal to his 2010 base salary. The number of Retention Shares issued in satisfaction of the bonus amounts was based upon the closing price of our common stock on the grant date. The following table sets forth the 2010 base salary of and the number of Retention Shares issued to each Applicable Officer:

Name and Title	2010 Base Salary	Percentage Increase Over 2009 Base Salary	Number of Retention Shares Issued in Connection with Bonus
Jose A. Guethon, M.D. President and Chief Operating Officer	\$346,080	3%	155,193
Robert J. Sabo Chief Financial Officer	\$278,100	3%	124,709
Roberto L. Palenzuela General Counsel and Secretary	\$231,750	3%	103,924

The 2010 base salary is effective retroactive to January 1, 2010.

The Retention Shares vest in four equal annual installments commencing on the first anniversary of the grant date. Notwithstanding the foregoing, any unvested Retention Shares held by an Applicable Officer will automatically vest upon a change in control, the subject officer's resignation for good reason, death or disability at any time or upon the termination of the subject officer without cause prior to the second anniversary of the grant date.

On February 24, 2010, upon the recommendation of the Compensation Committee, the Board established the target bonus amounts and the performance criteria applicable to the Company's 2010 bonus plan for executive officers and certain key management employees (the "2010 Bonus Plan").

For the named executive officers, bonuses will be payable under the Bonus Plan based upon our income before income taxes for the year ending December 31, 2010 ("2010 IBIT"). For any bonus to be paid to a named executive officer under the 2010 Bonus Plan, we must first achieve at least 80% (the "Threshold Goal") of our budgeted 2010 IBIT (the "Budgeted IBIT"). Provided the Threshold Goal is satisfied, the named executive officers shall receive some level of bonus.

In the event that we achieve 100% of the Budgeted IBIT (the "Target Goal"), the named executive officers will be entitled to receive a bonus (the "Target Bonus") equal to the percentage of their base salary set forth below.

Title	Percentage of Base Salary at Target
Chief Executive Officer	70%
Chief Financial Officer	50%
President and Chief Operating Officer	50%
General Counsel	40%

Actual bonuses payable may be as high as 250% of the Target Bonus or as low as zero depending on the Company's 2010 IBIT.

As a general rule, bonus awards under the 2010 Bonus Plan are subject to the participant's employment with us as of December 31, 2010. Bonuses pursuant to the Bonus Plan are anticipated to be paid once we complete the audit of our financial statements for the fiscal year ending December 31, 2010.

On April 26, 2010, our Board of Directors, upon the recommendation of our Compensation Committee, fixed the 2010 base salaries of our Chief Executive Officer at \$386,250, representing a 3% increase from his 2009 base salary. The 2010 base salary is effective retroactive to January 1, 2010.

Compensation Committee Report

Our Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Amendment.

Base Salaries

Base salaries paid to our named executive officers are set forth in the 2009 Summary Compensation Table. For 2009, base salaries paid to our named executives officers accounted for the following percentages of their total compensation: Mr. Earley (40.5%), Dr. Guethon (49.4%), Mr. Sabo (48.8%) and Mr. Palenzuela (56.7%).

Non-equity Incentive Plan Compensation

The non-equity incentive plan compensation set forth in the tables above reflects annual cash incentive compensation under our executive bonus plan. Annual cash incentive compensation is earned based upon a formula that takes into account our attainment of certain performance goals and the achievement by vice presidents and senior vice presidents of certain individual objectives. The components of the executive bonus plan are discussed in greater detail under the heading “Compensation Discussion & Analysis.”

Amounts paid to our named executives under the executive bonus plan are set forth in the 2009 Summary Compensation Table. For 2009, payments pursuant to the executive bonus plan to our named executives officers accounted for the following percentages of their total compensation: Mr. Earley (19.6%), Dr. Guethon (17.1%), Mr. Sabo (16.9%) and Mr. Palenzuela (15.7%).

Restricted Stock

We grant restricted stock pursuant to our Omnibus Equity Compensation Plan. Our restricted stock grants generally vest at the rate of one-fourth per year. Restricted stock is not transferable other than by will or the laws of descent and distribution.

Stock Options

We grant stock options pursuant to our Omnibus Equity Compensation Plan. The option exercise price is equal to the closing price of our Common Stock on the NYSE Amex on the grant date. Our stock option grants generally vest at the rate of one-fourth per year and have a term of ten years. Stock options are not transferable other than by will or the laws of descent and distribution.

Employment Agreements

We are a party to employment agreements with Mr. Earley, Dr. Guethon, Mr. Sabo and Mr. Palenzuela.

Effective April 26, 2010, we entered into an amended and restated employment agreement with Mr. Earley, our Chief Executive Officer. This agreement has an initial term of one year and is automatically renewable for successive one-year terms, unless terminated in accordance with the terms of the agreement. The agreement provides for an annual base salary to be reviewed annually. Pension Benefits

We do not have any plans that provide for payments or other benefits at, following or in connection with the retirement of our employees, including our named executive officers.

Nonqualified Defined Contribution and Other Nonqualified Deferred Compensation Plans

We do not have any defined contribution or plans that provide for the deferral of compensation on a basis that is not tax-qualified.

Potential Payments Upon Termination or Change-In-Control.

The tables below reflect the amount of compensation payable to each of the named executive officers in the event of termination of such officer's employment. The amount of compensation payable to each officer pursuant to his employment agreement (i) upon termination for cause or resignation without good reason, (ii) upon termination without cause or resignation for good reason, (iii) in the event of disability or death of the executive and (iv) upon termination following a change of control is shown below. The amounts shown assume that such termination was effective as of December 31, 2009, and thus include amounts earned through such time and are estimates of the amounts which would be paid out to the executives upon their termination. The actual amounts to be paid out can only be determined at the time of such executive's separation from the Company.

Payments Made Upon Termination For Cause or Resignation Without Good Reason

In the event an executive officer is terminated for cause or resigns his or her employment without good reason, we are required pursuant to our employment agreements to:

- pay the executive any unpaid base salary earned through the date of termination or resignation; and
- reimburse the executive for reasonable business expenses incurred prior to the date of termination or resignation.

Under our employment agreements with the named executive officers, "cause" is defined to include (i) an action or omission of the executive which constitutes a willful and material breach of, or failure or refusal (other than by reason of disability) to perform his or her duties under the employment agreement, which is not cured within 15 days after notice thereof, (ii) fraud, embezzlement, misappropriation of funds or breach of trust in connection with his or her services under the employment agreement, (iii) conviction of a felony or any other crime which involves dishonesty or a breach of trust or (iv) gross negligence in connection with the performance of the executive's duties under the employment agreement, which is not cured within 15 days after notice thereof.

Under our employment agreements with the named executive officers, "good reason" is defined to include (i) the assignment to the executive of any duties or responsibilities inconsistent in any respect with the executive's position or a similar position in the Company or one of our subsidiaries, (ii) any other action by us which results in a substantial and compelling diminution of the executive's position, authority, duties or responsibilities, excluding an isolated, insubstantial and inadvertent action not taken in bad faith which we remedy within 15 days of notice by the executive or (iii) our breach of certain provisions of the employment agreement, other than an isolated, insubstantial and inadvertent failure not taken in bad faith which we remedy promptly after receipt of notice by the executive, (iii) our requiring the executive to be based at any office or location outside the area for which he or she was originally hired to work, except for travel reasonably required in the performance of his or her responsibilities. Any good faith determination of "good reason" made by our Board of Directors is conclusive pursuant to our employment agreements.

Upon an executive officer's termination for cause or resignation without good reason, any options granted to such executive pursuant to our Omnibus Equity Compensation Plan (the "Omnibus Plan") and vested as of the date of termination or resignation will generally remain exercisable for a period of up to three months, although our Compensation Committee has the right to cancel or suspend the option if the executive is terminated for cause or the Compensation Committee determines that the executive is competing or has competed with us. Any unvested options granted pursuant to the Omnibus Plan will immediately terminate.

Payments Made Upon Termination Without Cause, Resignation For Good Reason, Death or Disability

In the event an executive officer is terminated without cause, resigns his or her employment for good reason, dies or becomes disabled, we are required pursuant to our employment agreements to:

- pay the executive (or his estate, as applicable) any unpaid base salary earned through the date of termination or resignation;
- continue to pay the executive's base salary for a period of twelve months from the date of termination or resignation;
- continue to allow the executive to participate in all benefit plans offered by us to our executives for a period of twelve months from the date of termination or resignation or, if participation in any such plan is not possible, pay the executive (or his estate, as applicable) cash equal to the value of the benefit that otherwise would have accrued for the executive's benefit under such plan for the period during which such benefits could not be provided under the plan;
- reimburse the executive for reasonable business expenses incurred prior to the date of termination or resignation; and
- pay the executive (or his estate, as applicable) for any unused vacation days.

Pursuant to our Compensation Policy, unless otherwise decided by the Board, in order to be eligible for a bonus in respect of any fiscal year, it is anticipated that an executive must be employed by us as of the end of such year. For our executives with employment agreements, which includes all of our named executive officers, unless otherwise decided by the Board, if such executive's employment is terminated following the end of the calendar year to which a bonus relates but prior to the date bonuses are paid, the determination of whether such executive is entitled to receive his or her bonus for the prior calendar year will depend on whether, pursuant to the applicable employment agreement, we are required to pay the executive his or her base salary for any period following the termination of employment. If we are required to continue to pay an executive's base salary for any post-employment period, such executive will receive any bonus payable pursuant to our executive bonus plan contemporaneously with other members of our management team as if he continued to be employed by us. If we are not required to continue to pay an executive's base salary for any post-employment period, such executive will not receive any bonus with respect to the prior year.

Upon an executive officer's resignation with good reason, any options granted to such executive pursuant to our Omnibus Plan and vested as of the date of resignation will generally remain exercisable for a period of up to three months and any unvested options granted pursuant to the Omnibus Plan will immediately terminate.

Upon an executive officer's termination without cause, any options granted to such executive pursuant to our Omnibus Plan and vested as of the date of termination will generally remain exercisable for a period of up to three months. Any unvested options granted under the Omnibus Plan generally will become immediately exercisable and fully vested in accordance with their terms and exercisable for three months following the date of termination.

Upon an executive officer's death or disability, any options granted to such executive pursuant to our Omnibus Plan and vested as of the date of termination will generally remain exercisable for a period of one year. Any unvested options granted under the Omnibus Plan generally will become immediately exercisable and fully vested in accordance with their terms and exercisable for one year following the date of termination.

The following table shows amounts that would be payable to each named executive officer upon his termination without cause, death or disability. The amounts in the table assume that the listed officer left Metropolitan effective December 31, 2009 and are based on the price per share of our Common Stock on that date of \$1.99. Amounts actually received should any of the listed officers cease to be employed will vary based on factors such as the timing during the year of any such event, our stock price and any changes to our benefit arrangements and policies.

Payments Made Upon Termination Following a Change in Control

In the event that following a "change in control" of the Company (as defined below), an executive officer is terminated without cause or resigns for good reason within one year of the event causing the "change in control", we are required pursuant to our employment agreements to:

- pay the executive any unpaid base salary earned through the date of termination or resignation;
- pay the executive a single lump sum payment of an amount equal to his or her then annual base salary plus bonuses payable, the value of annual fringe benefits paid to him or her in the year preceding the year of termination, and the value of the portion of his or her benefits under any deferred compensation plan which are forfeited for reason of the termination.
- reimburse the executive for reasonable business expenses incurred prior to the date of termination or resignation; and
- pay the executive (or his estate, as applicable) for any unused vacation days.

A "change in control" will be deemed to occur pursuant to our employment agreements in the event the shareholders of the Company approve (x) the sale of substantially all of our assets, (y) our liquidation or dissolution or (z) a merger or other similar transaction which would result in our shareholders prior to the transaction owning 50% or less of the combined voting power of the merged entity immediately following the transaction. In addition, with certain exceptions, a "change of control" will be deemed to occur upon any person or group's acquisition of more than 50% of

our outstanding shares or voting power.

Under the provisions of the Omnibus Plan and our award agreements with our executives, upon a change in control of the Company, any outstanding unvested stock options and restricted shares will become immediately and automatically vested.

Transactions with Related Persons

Stock and Stock Option Repurchases

In connection with our stock repurchase program, after the close of trading on September 8, 2009, we entered into stock and stock option repurchase agreements with certain of our directors and executive officers (collectively, the "Stock and Option Repurchase").

More specifically, as detailed in the following table, we agreed to repurchase an aggregate of 500,000 shares of the Common Stock at a per share price of \$2.1462 (the "Per Share Price"), which is equal to a two percent discount to the closing price of the Common Stock on the NYSE AMEX on September 8, 2009.

Name	Title	Number of Shares to be Repurchased	Total Repurchase Price
Dr. Martin W. Harrison	Former Director (1)	250,000	\$536,550
Karl M. Sachs	Former Director (2)	230,000	\$493,626
Robert J. Sabo	Chief Financial Officer	20,000	\$42,924

(1) Dr. Harrison resigned as a member of the Board effective March 8, 2010.

(2) Mr. Sachs resigned as a member of the Board effective April 23, 2010.

In addition, as detailed in the following table, we agreed to repurchase options exercisable for an aggregate of 567,500 shares of the Common Stock at a price per option equal to the difference between the exercise price of the subject option and the Per Share Price:

Name	Title	Number of Options to be Repurchased	Total Repurchase Price
Dr. Jose A. Guethon	President and Chief Operating Officer	300,000	\$70,360
Roberto L. Palenzuela	General Counsel	267,500	\$261,558

The Stock and Option Repurchase, which was approved by a special subcommittee of the Audit Committee formed for the purpose of negotiating and reviewing the Stock and Option Repurchase and comprised of those members of the Board of Directors who did not participate as sellers in the Stock and Option Repurchase, closed on September 10, 2009. The Stock and Option Repurchase was also approved by those members of the Board who did not participate as sellers in the Stock and Option Repurchase.

The directors and officers who participated as sellers in the Stock and Option Repurchase identified investment diversification, estate planning, desired liquidity and satisfaction of tax liabilities as reasons for entering into the Stock and Option Repurchase.

In connection with our stock repurchase program, on December 9, 2009, we repurchased options to purchase 116,667 shares of the Common Stock from Mr. Earley for aggregate consideration of \$180,974. The options, which were scheduled to expire on December 31, 2009, were repurchased at a price per option equal to the difference between (i) the exercise price of the subject option and (ii) \$1.9012, which is equal to a two percent discount to the closing price of the Common Stock on the NYSE AMEX on December 8, 2009.

Review of Related Party Transactions

The Board of Directors has delegated to the Audit Committee the responsibility to review and approve all transactions or series of transactions in which we or a subsidiary is a participant, the amount involved exceeds \$120,000 and a “Related Person” (as defined in Item 404 of Regulation S-K”) has a direct or indirect material interest. Transactions that fall within this definition will be referred to the Audit Committee for approval, ratification or other action. Based on its consideration of all of the relevant facts and circumstances, the Audit Committee will decide whether or not to approve such transaction and will approve only those transactions that are in the best interests of the Company.

Director Independence

We define an “independent” director in accordance with the NYSE Amex Rules. Because it is not possible to anticipate or explicitly provide for all potential conflicts of interest that may affect independence, the Board, with the recommendation of the Governance & Nominating Committee, is responsible for affirmatively determining as to each independent director that no relationships exist which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In making these determinations, the Board and the Governance & Nominating Committee each review information provided by the directors with regard to each director’s business and personal activities as they may relate to the us and our management.

Our Board of Directors, upon the recommendation of the Governance & Nominating Committee, has affirmatively determined that each of the following persons, constituting a majority of our Board of Directors, are “independent” and has no relationship with us, except for serving as a member of our Board of Directors and holding our securities: Michael Cahr, Richard Franco, Casey Gunnell, Arthur Kowaloff, Mark Stolper and John Watts, Jr. The Board also had previously determined in March 2009 that each of David Florman, Dr. Martin Harrison, Eric Haskell, Karl Sachs, Robert Shields and Barry Zeman, each of whom served as a director during all of 2009, was “independent.” The Board has further determined that each director serving on our Audit Committee, Compensation Committee and Governance & Nominating Committee is independent.

Audit Committee Pre-Approval Policy

Consistent with policies of the Securities and Exchange Commission regarding auditor independence, the Audit Committee has responsibility for the appointment, compensation and oversight of the work of the independent auditor. As part of this responsibility, the Audit Committee has adopted, and our Board has ratified, an Audit and Non-Audit Services Pre-Approval Policy pursuant to which the Audit Committee is required to pre-approve the audit and non-audit services performed by our independent registered public accounting firm in order to assure that these services do not impair the auditor's independence from us.

Prior to engagement of the independent auditor for the next year's audit, the independent auditor and the Chief Financial Officer submit a list of services and related fees expected to be rendered during that year within each of four categories of services to the Audit Committee for approval:

- (i) **Audit Services:** Audit services include the annual financial statement audit (including required quarterly reviews), subsidiary audits, equity investment audits and other procedures required to be performed by the independent auditor to be able to form an opinion on our consolidated financial statements. Audit Services also include information systems and procedural reviews and testing performed in order to understand and place reliance on the systems of internal control, and consultations relating to the audit or quarterly review as well as the attestation engagement for the independent auditor's report on management's report on internal controls for financial reporting.
- (ii) **Audit-Related Services:** Audit-related services are assurance and related services that are reasonably related to the performance of the audit or review of our financial statements, including due diligence related to potential business acquisitions/dispositions, accounting consultations related to accounting, financial reporting or disclosure matters not classified as "Audit Services," assistance with understanding and implementing new accounting and financial reporting guidance from rulemaking authorities, financial audits of employee benefit plans, agreed-upon or expanded audit procedures related to accounting and/or billing records required to respond to or comply with financial, accounting or regulatory reporting matters and assistance with internal control reporting requirements.
- (iii) **Tax Services:** Tax services include services such as tax compliance, tax planning and tax advice; however, the Audit Committee will not permit the retention of the independent registered public accounting firm in connection with a transaction initially recommended by the independent registered public accounting firm, the sole business purpose of which may be tax avoidance and treatment which may not be supported in the Internal Revenue Code and related regulations.
- (iv) **All Other Services:** All other services are those permissible non-audit services that the Audit Committee believes are routine and recurring and would not impair the independence of the auditor and are consistent with the Securities and Exchange Commission's rules on auditor independence.

Prior to engagement, the Audit Committee pre-approves the services and fees of the independent auditor within each of the above categories. During the year, it may become necessary to engage the independent auditor for additional services not previously contemplated as part of the engagement. In those instances, the Audit and Non-Audit Services Pre-Approval Policy requires that the Audit Committee specifically approve the services prior to the independent auditor's commencement of those additional services. Under the Audit and Non-Audit Services Pre-Approval Policy, the Audit Committee may delegate the ability to pre-approve audit and non-audit services to one or more of its members provided the delegate reports any pre-approval decision to the Audit Committee at its next scheduled meeting. As of the date hereof, the Audit Committee has not delegated its ability to pre-approve audit services.

All of the 2008 and 2009 fees paid to Grant Thornton described above were pre-approved by the full Audit Committee in accordance with the Audit and Non-Audit Services Pre-Approval Policy.
