**BRASKEM ACHIEVES FULL COMPLIANCE WITH THE  
REQUIREMENTS OF THE  
SARBANES-OXLEY ACT ONE YEAR PRIOR TO THE DEADLINE**

**São Paulo, Brazil, June 26, 2006** Braskem (BOVESPA: BRKM5; NYSE: BAK; LATIBEX: XBRK) is a leader in the thermoplastic resins segment in Latin America and one of the largest privately-owned industrial companies in Brazil. Braskem's shares are listed on the BOVESPA in São Paulo and the LATIBEX in Madrid, and Braskem's ADRs are listed on the New York Stock Exchange (NYSE). As a result of this listing in the U.S., Braskem had to conduct various analyses of its internal controls and implement new processes to comply with Section 404 of the Sarbanes-Oxley Act regarding internal controls over financial reporting in its consolidated financial statements. Braskem has achieved full compliance with the requirements of the Sarbanes-Oxley Act one year prior to the deadline established by the Securities Exchange Commission (SEC), which has required foreign private issuers, such as Braskem, to comply with these requirements by June 2007, when the Form 20-F for the year ending December 31, 2006 (including U.S. GAAP financial statements or a reconciliation of non-U.S. GAAP financial statements to U.S. GAAP) is due.

Compliance with the requirements of Section 404 one year before the established deadline and becoming one of the first Brazilian companies to attain this important objective forms part of a continuous improvement process of the internal controls and procedures of Braskem. This process will culminate with the implementation of the Formula Braskem project (an integrated management system) in October 2006 and will reaffirm our commitment to the highest levels of corporate governance, transparency and the creation of value for our shareholders, said Paul Altit, CFO and Investor Relations Director of Braskem.

The Sarbanes-Oxley Act was created in 2002 and aims to protect shareholders of publicly-traded companies against accounting fraud or conflicts of interest. Section 404 requires an annual evaluation by management of the internal controls and procedures for the issuance of financial reports and requires an opinion from independent auditors concerning the evaluation process conducted by the management of the company in respect of its internal controls and procedures.

As of the date hereof, Braskem's annual report on Form 20-F (Form 20-F for fiscal year 2005 was filed today with the SEC) will include the Annual Report of Management regarding Internal Controls related to the Consolidated Financial

Statements, which affirms the effectiveness of Braskem's internal controls for the year ended December 31, 2005 that were submitted to an evaluation process as required by the SEC.

Braskem, a world-class Brazilian petrochemical company, is the leader in the thermoplastic resins segment in Latin America and is among the three largest Brazilian privately-owned industrial companies. The company operates 14 manufacturing plants located throughout Brazil and has an annual production capacity in excess of 6 million tons of thermoplastic resins and other petrochemical products.
