Sendas Distribuidora operations began at February 1, 2004 through the Investment and Partnership Agreement, entered into in December 2003 with Sendas S.A. ("Sendas"). This subsidiary concentrates retailing activities of the Company and of Sendas in the entire state of Rio de Janeiro.

b) Partnership with Itaú

At July 27, 2004, a Memorandum of Understanding was signed between Banco Itaú Holding Financeira S.A. ("Itaú") and the Company with the objective of setting up Financeira Itaú CBD S.A. ("FIC"). FIC structures and trades financial products, services and related items to GPA customers on an exclusive basis (see Note 9 (d)). The Company has 50% shareholding of the FIC capital through its subsidiary Miravalles Empreendimentos e Participações S.A. (Miravalles).

c) Acquisition of Barcelona - (ASSAI)

At November 1, 2007, GPA , by means of a company controlled by Sé (Sevilha Empreendimentos e Participações Ltda. Sevilha), purchased shares representing 60% of the total and voting capital of Barcelona, recipient company of the spun-off assets of Assai Comercial e Importadora Ltda. (Assai) related to activities previously carried out by Assai in the wholesale market. With this partnership, GPA now operates in the cash & carry segment (atacarejo), thus, reinforcing its multiformat positioning.

2. Basis of Preparation and Presentation of the Financial Statements

The individual and consolidated Financial Statements were prepared based on the rules of the Brazilian Securities Commission (CVM) applicable to the preparation of the Quarterly Information (ITR), including CVM Instruction 469/08.

The authorization for the conclusion of the preparation of this quarterly information took place at the audit committee's meeting held on October 28, 2008.

At December 28, 2007, Law 11,638 was enacted, amending, revoking and introducing new provisions to Law 6,404 as of December 15, 1976 and Law 6,385 as of December 7, 1976. The main purpose is to update the Brazilian Corporate Law in order to allow the convergence of the accounting practices adopted in Brazil with the international accounting practices defined by the rules issued by International Accounting Standards Board (IASB).

The requirements of this Law apply to the financial statements related to the fiscal years starting as of January 1, 2008. These requirements do not qualify as changes in circumstances or estimates and, therefore, the adoption of new practices introduced by Law 11,638/07 should be, as a general rule, shown retrospectively, that is, by means of the application of these new accounting practices as if these practices were in use during all periods, observing the rule which deals with Accounting Practices, Changes in Accounting Estimates and Correction of Mistakes, approved by the Brazilian Securities and Exchange Commission (CVM), by means of Resolution 506.

Thus, changes in accounting practices are recorded in accounting books as adjustments from previous years, therefore, its impact is allocated to each of the periods presented. In the specific case of the Company, in which the financial statements for the year ended at December 31, 2008 will be presented as comparison with the 2007 figures, adjustments will be demonstrated at opening balances (January 1, 2007), so that both years will be presented observing the same accounting practices.

This procedure was also adopted in the preparation and presentation of 2008 Quarterly Information (ITR), so that the effects of changes in accounting practices are being allocated in each of the periods presented.

On May 2, 2008, CVM issued Ruling 469, which partially ruled Law 11,638/07, establishing minimum requirements to be observed in the presentation of quarterly information (ITR) during 2008. This Ruling, under certain conditions, authorized the full adoption of the provisions in said Law. The Company's management did not choose this alternative, and thus applied Law 11,638/07 in the minimum extension required by Ruling CVM 469/08 in the presentation of its quarterly information (ITR) during 2008.

2. Basis of Preparation and Presentation of the Financial Statements

(Continued)

Among the main changes in accounting rules introduced by said Law, below are those which, in a preliminary analysis made by the Management, could significantly affect the Company's and its subsidiaries' accounting statements for the year ended at December 31, 2008:

i) Analysis of the recovery of property and equipment, intangible and deferred assets as established by Pronouncement 1 of CPC, approved by CVM Deliberation 527. This procedure is adopted by the Company in the assessment of its property and equipment and deferred and intangible assets. Specifically regarding the analysis on the correct useful life of property and equipment, the Company takes a physical inventory every two years and considers the results in the definition of the correct useful life of the assets.

ii) Compensation of Officers and employees based on shares As mentioned in Note 18 (e), the Company has a stock option plan for managers and main executive officers. These benefits were recorded in shareholders' equity only upon the exercise of options, by capital increase, while as of December 31, 2008 they will be recorded as expenses on the date of concession. This subject was not ruled by CVM, although based on the IFRS 2 criteria of IASB, the Company measured the effects in the income for the period and shareholders' equity with the application of this change and presented these effects in the chart below.

iii) Leasing of assets used in business maintenance The Company has many financial leasing agreements which, in accordance with item IV of article 179 of the Brazilian Corporate Law, amended by Law 11,638/07, become eligible and classified as depreciable property and equipment, recording the existing liability, while previously the payment of considerations which were accounted as rental expenses. The Company measured the effects in the shareholders' equity for the period with the application of this change and presented these effects in the chart below.

iv) Long-term assets and liabilities should be adjusted at present value. Other balances should be adjusted at present value only when there is a material effect in financial statements. CVM, by means of the Notice to the Market as of May 12, 2008, determined that, when and if relevant, adjustment at present value shall be accounted in quarterly financial statements. Based on the analyses made and in the Management's best estimate, the Company concluded that the adjustment at present value of balances classified in current assets is not material as to quarterly information taken as a whole.

2. Basis of Preparation and Presentation of the Financial Statements

(Continued)

v) The preparation of cash flow statements and added value statements for 2008 becomes compulsory, with no indication of amounts corresponding to the previous year, substituting the statements of changes in financial position. The Company already adopts the procedure of disclosing on a quarterly basis the cash flow and added value statements, in comparison with the previous periods.

As of the quarter ended at March 31, 2008, the Company chose not to present statements of changes in financial position any longer.

vi) Requirements that the financial investments, including derivatives are recorded: (i) by their market value or corresponding amount, when we refer to investments for trading or available for sale ; and (ii) by the acquisition cost or issue value, restated according to legal or contractual provisions, adjusted at the probable value of realization, when this is shorter. Currently, asset and derivative financial instruments are recorded and measured initially at cost value and subsequently restated according to the clauses of agreements in effect, so as they reflect the changes in variations occurred up to the balance sheet dates (effective rate method or curve method). Based on accounting pronouncements available and on the Management's best estimate, the Company measured the effects in the income for the period in shareholder's equity with the application of this change and presented these effects in the chart below.

In compliance with CVM requirements by means of Ruling 469/08 and the Notice to the Market of May 12, 2008, the Company presents in the following chart its best estimate on impacts in consolidated shareholder's equity and the consolidated income for the period of this quarterly information and previous periods for comparison purposes, referring to the amendments introduced by Law 11,638/07 applicable to the Company. This preliminary measurement is subject to changes due to the issue of new accounting pronouncements on these matters, as well as additional interpretations from regulatory agencies.

Certain assets, liabilities, revenues and expenses are determined on the basis of estimates when preparing the financial statements. Accordingly, the financial statements of the Company and the consolidated financial statements include

various estimates, among which are those relating to calculation of allowance for doubtful accounts, depreciation and amortization, asset valuation allowance, realization of deferred taxes, contingencies and other estimates. Actual results may differ from those estimated.

Significant accounting practices and consolidation criteria adopted by the Company are shown below:

2. Basis of Preparation and Presentation of the Financial Statements

(Continued)

a) Cash and cash equivalents

(i) Cash and Banks

Cash and cash equivalents include the cash and checking account balances.

(ii) Marketable securities

Securities are recorded at cost, accrued of earnings verified up to the balance sheet dates and not exceeding the market value and are redeemable at any time.

b) Accounts receivable

Accounts receivable are stated at estimated realizable values. An allowance for doubtful accounts is provided in an amount considered by Management to be sufficient to meet probable future losses related to uncollectible accounts.

The setting up of provision is mainly based on the historic average of losses, in addition to specific accounts receivable deemed as uncollectible. The Company's installment sales occur with the intermediation of FIC and financing receivables not remaining in GPA (Note 9 (d)).

The Company carries out securitization operations of the accounts receivable with a special purpose entity, over which it has shared control, the PAFIDC (*Pão de Açúcar Fundo de Investimento em Direitos Creditórios*) (Note 4 (b) and Note 7).

c) Inventories

Inventories are carried at the lower of cost or market value, whichever is the shorter. The cost of inventories purchased directly by the stores is based on the last purchase price, which approximates the First In, First Out (FIFO) method. The cost of inventories purchased through the warehouse is recorded at average cost, including warehousing and handling costs.

Inventories are also stated by the net value of allowance for losses and breakage, which are periodically reviewed and evaluated as to their efficiency.

2. Basis of Preparation and Presentation of the Financial Statements

(Continued)

d) Other current and noncurrent assets

Other assets and receivables are stated at cost, including, when applicable, contractual indexation accruals, net of allowances to reflect realizable amounts, if necessary.

e) Investments

Investments in subsidiaries are accounted for by the equity method, and provision for capital deficiency is recorded, when applicable. Other investments are recorded at acquisition cost.

f) Property and equipment

These assets are shown at acquisition or construction cost, monetarily restated until December 31, 1995, deducted from the related accumulated depreciation, calculated on a straight-line basis at the rates mentioned in Note 10, which take into account the economic useful lives of the assets or the leasing term, in case of leasehold improvements, whichever is shorter.

Interest and financial charges on loans and financing obtained from third parties directly or indirectly attributable to the process of purchase, construction and operating expansion, are capitalized during the construction and refurbishment of the Company's and its subsidiaries' stores in conformity with CVM Deliberation 193. The capitalized interest and financial charges are appropriated to results over the depreciation periods of the corresponding assets.

Expenditures for repairs and maintenance that do not significantly extend the useful lives of related assets are charged to expense as incurred. Expenditures that significantly extend the useful lives of existing facilities and equipment are added to the property and equipment value.

g) Intangible assets

Intangible assets include goodwill derived from the acquisition of companies and amounts related to acquisition of commercial rights and outlets. These amounts are supported by appraisal reports issued by independent experts, based on the expectation of future profitability, and are amortized in accordance with projected profitability over a maximum period of ten years.

2. Basis of Preparation and Presentation of the Financial Statements

(Continued)

h) Deferred charges

The expenditures related to the implementation of projects and development of new products and business models were recorded based on feasibility studies and are amortized for a term not exceeding five years.

i) Other current and noncurrent liabilities

These liabilities are stated at known or estimated amounts including, when applicable, accrued charges and interest or foreign exchange variations.

j) Derivative financial instruments

The Company uses derivative financial instruments to reduce its exposure to market risk resulting from fluctuations in interest and foreign currency exchange rates. In the case of financial assets instruments, these are accounted for at the lower of cost or market value, whichever is the shorter (Note 20).

k) Taxation

Revenues from sales and services are subject to taxation by State Value-Added Tax (ICMS), Services Tax (ISS), Social Contribution Tax on Gross Revenue for Social Integration Program (PIS) and Social Contribution Tax on Gross Revenue for Social Security Financing (COFINS) at rates prevailing in each region and are presented as sales deductions in the statement of income.

The credits derived from non-cumulative PIS and COFINS are shown deducted from cost of goods sold in the statement of income. The debits derived from financial income and credits derived from financial expenses are shown deducted in these proper items of the statement of income.

The advances or amounts subject to offsetting are shown in the current and noncurrent assets, in accordance with the estimate for their realization.

The taxation on income comprises the Corporate Income Tax (IRPJ) and Social Contribution on Net Income (CSLL), which are calculated based on taxable income (adjusted income), at rates applicable according to the prevailing laws 15%, accrued of 10% over the amount exceeding R\$240 yearly for IRPJ and 9% for CSLL.

Deferred IRPJ and CSLL assets were recorded under the item deferred IRPJ and CSLL from tax losses, negative basis of social contribution and temporary

differences, taking into account the prevailing rates of said taxes, pursuant to the provisions of CVM Deliberation 273, as of August 20, 1998, CVM Ruling 371, as of June 27, 2002 and taking into account the history of profitability and the expectation of generating future taxable income based on a technical feasibility study, annually approved by the Board of Directors.

l) Provision for contingencies

As per CVM Deliberation 489/05, the Company adopted the concepts established in NPC 22 on Provisions, Liabilities, Gains and Losses on Contingencies when setting up provisions and disclosures on matters regarding litigation and contingencies. The balances of provisions are presented net of the respective court deposits, when applicable (Note 16).

Provision for contingencies is set up based on legal counsel opinions, in amounts considered sufficient to cover losses and risks considered probable.

m) Revenues and expenses

Revenues from sales are recognized when customer receives/withdraws the goods. Financial income arising from credit sales is accrued over the credit term. Expenses and costs are recognized on the accruals basis. Volume bonuses and discounts received from suppliers in the form of product are recorded as zero-cost additions to inventories and the benefit recognized as the product is sold. Cost of merchandise includes warehousing and handling costs in the warehouses.

n) Earnings per share

The calculation is made in accordance with the $\text{Net income} / \text{Number of outstanding shares}$ ratio, pursuant to the Brazilian Corporate Law. Earnings may be: distributed, used for capital increase, or in the composition of the profit reserve for expansion, based on capital budget.

2. Basis of Preparation and Presentation of the Financial Statements

o) Consolidated financial statements

The consolidated financial statements were prepared in conformity with the consolidation principles prescribed by the Brazilian Corporate Law and CVM Ruling 247, and include the annual information of the Company and its subsidiaries Novasoc, Sé, Sendas Distribuidora, PAFIDC, PA Publicidade Ltda. (PA Publicidade), Barcelona, CBD Panamá Trading Corp. (CBD Panamá) and CBD Holland B.V. (CBD Holland). The direct or indirect subsidiaries, included in the consolidation and the percentage of parent company's interest comprise:

| Investor Companies | Interest in Investees - % | | | | | | | |
|--------------------|---------------------------|-------|----------------------|--------|----------------|-----------|-------------|------------|

| Sé | - | - | 42.57 | 0.29 | - | 60.00 | - | - |
| Holland | - | - | - | - | - | - | - | 100.00 |

Although the Company's interest in Novasoc is represented by 10% of Novasoc's quotas of interest, Novasoc is included in the consolidated financial statements as the Company effectively has control over a 99.98% beneficial interest in Novasoc. The other members have no effective veto or other participating or protective rights. Under the Bylaws of Novasoc, the appropriation of its net income does not need to be proportional to the quotas of interest held in the company.

2. Basis of Preparation and Presentation of the Financial Statements

(Continued)

p) Consolidated financial statements (continued)

The subsidiary Sendas Distribuidora was fully consolidated, in accordance with the shareholders' agreement, which establishes the operating and administrative management by the Company.

The proportional investment of the Parent Company in the income of the investee, the balances payable and receivable, revenues and expenses and the unrealized profit originated in transactions between the consolidated companies were eliminated in the accounting financial statements.

Pursuant to CVM Ruling 408 as of August 18, 2004, the Company as of the first quarter of 2005, started to consolidate PAFIDC's financial statements, as it understood this is a special purpose entity, organized with exclusive purpose of conducting the securitization of receivables of the Company and its subsidiaries, and most of risks and benefits related to the fund profitability are linked to subordinated quotas, maintained by the Company.

Since prevailing decisions related to the operational management of Miravalles lies on another partner quotaholder, Miravalles is not consolidated in the Company's financial statements.

3. Marketable Securities

The marketable securities at September 30, 2008 and June 30, 2008 earn interest mainly at the Interbank Deposit Certificate (CDI) rate.

4. Trade Accounts Receivablea) Breakdown

Credit card sales are receivable in cash from the credit card companies, except for electronic devices, which are received in up to 12 installments. Credit sales settled with post-dated checks bear interest of up to 6.50% per month (ditto at June 30, 2008) for settlement within 60 days.

The balance of subsidiaries accounts receivable refers to the Company's sale of goods for the supply of subsidiaries stores. The operation derives from the Company's warehouse and was made at cost.

b) Accounts receivable - PAFIDC

The Company carries out securitization operations of its credit rights, represented by credit sales with tickets and credit card company receivables, to PAFIDC. The volume of operations stood at R\$1,820,836 in the quarter ended at September 30, 2008 (R\$2,082,070 in the quarter ended at June 30, 2008), in which the responsibility for services rendered and subordinated interests was retained. The securitization costs of such receivables amounted to R\$33,325 (R\$33,863 in the quarter ended at September 30, 2007), recognized as financial expenses in income for the quarter ended at September 30, 2008 and 2007, respectively. Services rendered, which are not remunerated, include credit analysis and the assistance by the collection department to the fund's manager.

4. Trade Accounts Receivable (Continued)b) Accounts receivable PAFIDC (Continued)

The outstanding balance of these receivables at September 30, 2008 and June 30, 2008 was R\$753,912 and R\$933,112, respectively, net of allowance.

c) Accounts receivable Paes Mendonça

The accounts receivable balance of Paes Mendonça relates to credits deriving from the payment of liabilities performed by the subsidiaries Novasoc and Sendas. Pursuant to contractual provisions, these accounts receivable are monetarily restated and guaranteed by commercial rights of certain stores currently operated by the Company, Novasoc and Sendas. Maturity of accounts receivable is linked to lease agreements (Note 9 (b) (i)).

d) Accounts receivable under commercial agreements

Accounts receivable under commercial agreements result from current transactions carried out between the Company and its suppliers, having the volume of purchases as benchmark.

e) Allowance for doubtful accounts

The allowance for doubtful accounts is based on average actual losses in previous periods complemented by Management's estimates of probable future losses on outstanding receivables:

| | Parent Company | | Consolidated | |
|-------------------------------------|----------------|------------|--------------|------------|

7. Pão de Açúcar Receivables Securitization fund PAFIDC

PAFIDC is a receivables securitization fund formed in compliance with CVM Rulings 356 and 393 for the purpose of acquiring the Company and its subsidiaries' trade receivables, arising from sales of products and services to their customers, except for receivables from installment system and post-dated checks.

A letter proposal was signed at February 22, 2008 to extend the fund maturity from May 26, 2008 to May 16, 2010.

The capital structure of the fund, at September 30, 2008, is composed of 10,256 senior quotas, held by third parties in the amount of R\$899,500, which represent 91.13% of the fund's equity (91.60% at June 30, 2008) and 2,864 subordinated quotas, held by the Company and subsidiaries in the amount of R\$87,526, which represent 8.87% of the fund's equity (8.40% at June 30, 2008).

7. Pão de Açúcar Receivables Securitization fund PAFIDC (Continued)

The net assets of PAFIDC at September 30, 2008 and June 30, 2008 are summarized as follows:

The subordinated quotas were attributed to the Company and are recorded in the non-current assets as participation in the securitization fund, the balance of which at September 30, 2008 was R\$78,357 (R\$71,423 at June 30, 2008). The retained interest in subordinated quotas represents the maximum exposure to loss under the securitization transactions.

The compensation of senior quotas is shown below:

| Quotaholders | Amount | CDI Rate | 09.30.2008 | | 06.30.2008 | |
|---------------------|---------------|-----------------|-------------------------------|-----------------|-------------------------------|--|
| | | | Redeemable Balance | CDI Rate | Redeemable Balance | |

Subordinated quotas are non-transferable and registered, and were issued in a single series. The Company will redeem the subordinated quotas only after the redemption of senior quotas or at the end of the fund's term. Once the senior quotas have been yielded, the subordinated quotas will receive the balance of the fund's net assets after absorbing any defaults on the credit rights transferred and any losses attributed to the fund. Their redemption value is subject to credit, prepayment, and interest rate risks on the transferred financial assets.

The holders of senior quotas have no recourse against the other assets of the Company in the event customers default on the amounts due. As defined in the agreement between the Company and PAFIDC, the transfer of credit rights is

b) Change in Investments (Continued)

(i) Novasoc Novasoc has, currently, 16 lease agreements with Paes Mendonça with a five-year term, which may be extended twice for similar periods through notification to the leaseholder, with final maturity in 2014. During the term of the contract, the shareholders of Paes Mendonça cannot sell their shares without prior and express consent of Novasoc. The operating lease annual rental payments amounted to R\$2,495 in the quarter ended at September 30, 2008 (R\$2,443 at June 30, 2008), including an additional contingent rental based on 0.5% to 2.5% of the stores revenues.

Under Novasoc Bylaws, the distribution of its net income need not be proportional to the holding of each shareholder in the capital of the Company. As per members' decision, the Company holds 99.98% of Novasoc's results as of 2000.

At September 30, 2008, the subsidiary Novasoc recorded capital deficiency. With a view to the future operating continuity and economic feasibility of such subsidiary, assured by the parent company, the Company recorded R\$15,724 (R\$20,899 at June 30, 2008), under Provision for loss in investments to recognize its obligations before creditors.

(ii) Sé Sé holds direct interest in Miravalles corresponding to 50% of capital stock, which indirectly represents the investment in FIC.

(iii) At November 1, 2007, GPA, by means of subsidiary company controlled by Sé (Sevilha), acquired shares representing 60% of the total and voting capital of Barcelona, a recipient company of Assai's spun-off assets related to the activities previously carried out by Assai in the wholesale market of the food industry by the amount of R\$208,504, originating a R\$206,068 goodwill recorded in the subsidiary Sevilha.

For non-controlling shareholders holding 40% interest in Barcelona, a shareholders' agreement was entered into that established a put and call option of such interest, under the following conditions:

1) Criteria for calculation of purchase or sale price for remaining interest of 40%:

9. Investments (Continued)

b) Change in Investments (Continued)

- The highest amount between 7 times EBITDA and 35.16% of net sales over the past 12 months immediately prior to the Option exercise date, deducting net indebtedness and probable contingencies of loss. Should EBITDA margin be lower than 4.62%, only the 7 times EBITDA criterion will be taken into account;
- Initial purchase value net of distributed dividend, restated by IPCA + 6.5% p.a.

2) Call Option (CALL) of total partners shares 40%

- Should GPA require the dismissal of chairman due to performance (by means of specific criteria set forth in the shareholders agreement) by criterion 1 of sales price;
- Should the chairman resign or be absent for more than 1/3 of Board meetings called during a determined fiscal year by the lowest value between criterion 1 or 125% of criterion 2 of the sales price;
- At any moment, up to December 31, 2011 - by the highest value between criterion 1 or 125% of criterion 2 of the sales price;
- From January 1 to 15 of each calendar year between 2012 and 2014 - by the highest value between criterion 1 and criterion 2 of the sales price;
- At any time in the event of disability or decease of the chairman, by criterion 1 of the sales price.

The Board of Directors is composed of 7 members, with a 3-year term of office, of which 4 members shall be appointed by GPA and 3 members by former partners of Assai, appointing among the latter, the Chairman of the Board of Directors. The former partners of Assai may also exercise the Put option as of January 1, 2012 as per conditions set forth in the item abovementioned.

The Board of Directors Meeting of Barcelona held at March 31, 2008, approved the reverse merger of Sevilha Empreendimentos e Participações Ltda., former parent company of Barcelona, with reference date as of February 28, 2008. The referred merger was carried out by book value, based on the appraisal report prepared by independent experts. With the merger of Sevilha into Barcelona, Sé now holds 60% direct interest in the total and voting capital

of Barcelona. This operation gave rise to a record under the item: Goodwill on investments in Sé, corresponding to the amount of R\$134,291. Barcelona set up a special goodwill reserve in the amount of R\$69,180 pursuant to CVM Ruling 319/99.

c) Investment agreement Company and Sendas

At October 19, 2006, Sendas S.A. notified the Company, expressing the exercise of put, pursuant to Clause 6.7 of Sendas Distribuidora Shareholders' Agreement, related to the transfer of equity control. The Company, understanding that a sale of control was not held, sent a counter-notice to Sendas S.A.

At October 31, 2006, the Company was notified by the *Câmara de Conciliação e Arbitragem da Fundação Getúlio Vargas - FGV* (Chamber of Conciliation and Arbitration of the Fundação Getúlio Vargas) informing that Sendas S.A. has filed and brought the matter to arbitration, authority expected to discuss such matter.

At January 5, 2007, Sendas S.A. notified the Company, expressing the exercise of right to swap the totality of paid-in shares owned thereby with preferred shares of the Company's capital stock, pursuant to Clause 6.9.1 of Sendas Distribuidora Shareholders' Agreement, subjecting the effectiveness of swap to the award of arbitration mentioned above not to acknowledge the put exercise right on the part of Sendas.

At March 13, 2007, the Company and Sendas entered into a commitment, commencing the arbitration proceeding.

At April 29, 2008, the Arbitration Court rendered an award agreeing with the rules of the Panel of Conciliation and Arbitration of FGV-RJ, with a favorable decision to GPA that sale of its share control did not occur, when the partnership operation with Casino was concluded in 2005.

Therefore, the claims of Sendas S.A. were rejected in the arbitration based on the non-existence of sale of control, especially that claim pleading the acknowledgment of supposed right to exercise PUT options for its shares in Sendas Distribuidora S.A.

With the conclusion of the favorable decision to GPA, the effectuation of PUT is under negotiation notified to the Company on January 5, 2007 by Sendas S.A. showing the exercise of the right to swap all paid-up shares it

holds for preferred shares of the Company's capital stock, set forth in Clause 6.9.1 of the Shareholders' Agreement of Sendas Distribuidora.

d) Investment agreement – the Company and Itaú

Miravalles, a company set up in July 2004 and owner of exploitation rights of the Company's financial activities, received funds from Itaú related to capital subscription, which then started to hold 50% of such company. Also in 2004, Miravalles set up Financeira Itaú Companhia S.A. (FIC), with capital stock of R\$150,000. It is a company which operates in structuring and commercialization of financial products and services exclusively to GPA's customers.

At December 22, 2005, an amendment to the partnership agreement between the Company, Itaú and FIC was signed, and the clauses referring to meeting of performance goals, initially established, were changed. By such amendment, the meeting of goals and the guarantee account are not longer tied, and fines for noncompliance of the referred performance goals were established.

This partnership is effective for 20 years and may be extended for an indeterminate term. The operational management of FIC is under the responsibility of Itaú.

Miravalles' quarterly information in periods ended September 30, 2008 and 2007 were revised by other independent auditors. In the period ended at September 30, 2008, total investments and equity accounting of this investee represented 0.9% and 1.3%, respectively, compared to the total assets and net income presented in the Company's consolidated quarterly information (0.9% and -27.1% at September 30, 2007, respectively).

Deferred charges refer to expenses with specialized consulting fees, incurred during the development and implementation of strategic projects, we point out:

- Categories management;
- Maximum efficiency in stores;
- Implementation of CSC Shared Service Center;
- Implementation of procurement center of materials and indirect services.

12. Deferred Charges (Continued)

The pre-operational expenditures are also represented by costs incurred in the development of new products by means of creation of Brand TAEQ, which aims at serving the well-being segment and a new business model convenience retail or neighborhood supermarket Extra Fácil and Extra Perto. The projects already concluded are being amortized for a minimum term of 5 years.

The Company uses swap operations to convert U.S. dollar-denominated, yen-denominated obligations and fixed interest rate to Brazilian *real* pegged to CDI (floating) interest rate. The Company entered, contemporaneously with the same counterparty, into cross-currency interest rate swaps and has treated the instruments on a combined basis as though the loans were originally denominated in *reais* and accrued interest at floating rates.

13. Loans and Financing (Continued)

The annualized CDI benchmark rate at September 30, 2008 stood at 11.63% (11.17% at June 30, 2008).

(i) Working capital financing

Obtained from local banks and part of it is used to fund customer credit (the remaining balance not granted to PAFIDC), or originated from needs of financing of GPA growth. This is made without guarantees, but endorsed by the Company in case of Sendas Distribuidora.

(ii) BNDES credit line

The line of credit agreements, denominated in *reais*, with the Brazilian National Bank for Economic and Social Development (BNDES), are either subject to the indexation based on TJLP rate (long-term rate), plus annual interest rates, or are denominated based on a basket of foreign currencies to reflect the BNDES funding portfolio, plus annual interest rates. Financing is paid in monthly installments after a grace period, as mentioned below.

The Company cannot offer any assets as collateral for loans to other parties without the prior authorization of BNDES and is required to comply with certain debt covenants, calculated on the consolidated balance sheet, in accordance with Brazilian GAAP, including: (i) maintenance of a capitalization ratio (shareholders' equity/total assets) equal to or in excess of 0.4 and (ii) maintenance of a current ratio (current assets/current liabilities) equal to or in excess of 1.05. Management effectively controls and monitors covenants, which were fully performed. The parent company offered pledges as a joint and several liable party for settlement of the agreements.

In the event the TJLP exceeds 6% per annum, the excess is added to the principal. In the periods ended at September 30, 2008 and June 30, 2008, R\$145 and R\$158, were added to the principal, respectively.

Sixth issue at March 1, 2007, shareholders approved the issue and public placement limited to R\$779,650 of 77,965 non-convertible debentures. The Company received proceeds of R\$551,518, for 54,000 debentures issued from the first series, and R\$245,263 of 23,965 debentures (with negative goodwill of 0.24032%), issued from the second series. Out of proceeds obtained from second series, R\$242,721 were used to amortize 23,965 debentures of the fifth issue and part of interest. The debentures are indexed to the average rate of CDI and accrue annual spread of 0.5% payable every six months, starting at September 1, 2007 and ending at March 1, 2013. The debentures amortization will take place at March 1, 2011, March 1, 2012 and March 1, 2013, amounting to 25,988 debentures for each year. The debentures will not be subject to renegotiation until maturity at March 1, 2013. The Company is in compliance with debt covenants provided for in the 6th issue, calculated over the consolidated balance sheet, in accordance with the accounting practices adopted in Brazil: (i) net debt (debt less cash and cash equivalents and accounts receivable) not higher than the balance of shareholders' equity; (ii) maintenance of a ratio between net debt and EBITDA (Note 23), lower or equal to 3.25.

a) Taxes

Tax-related contingencies are indexed to the Central Bank Overnight Rate (SELIC), 8.57% at September 30, 2008 (5.38% at June 30, 2008), and are subject, when applicable, to fines. In all cases, both interest charges and fines, when applicable, have been computed with respect to unpaid amounts and are fully accrued.

COFINS and PIS

The Company and its subsidiaries discuss the constitutionality of the change in the basis of taxation of the Social Integration Tax (PIS) and the increase in the rate and basis of calculation of the Social Security Tax (COFINS) (Law 9,718/99). The provision includes unpaid amounts, monetarily restated, at September 30, 2008, amounting to R\$1,031,078 (R\$1,015,792 at June 30, 2008) resulting from the lawsuits in progress at the Regional Federal Court, and up to this moment, the Company has not been required to make judicial deposits.

16. Provision for Contingencies (Continued)

a) Taxes (Continued)

As the calculation system of such contributions started to use the non-cumulative tax principle in the calculation of PIS (Law 10,637/02) and COFINS (Law 10,833/03), the Company and its subsidiaries then started to apply said rules, as well as, to question with the Judiciary Branch, the extension of tax base of such contributions, as well as the appropriation of credits not accepted by laws. The provision recorded in the balance sheet at September 30, 2008 in the amount of R\$160,439 (R\$141,852 at June 30, 2008) includes the unpaid installment, monetarily restated. There are guarantees for these discussions in order to ensure the suspension of liabilities, judicial deposit amounting to R\$105,567.

Other

The Company and its subsidiaries have other tax contingencies, which after analysis of its legal counsels, were deemed as probable losses or as issues likely to be booked pursuant to CVM regulation. These are: IPI (excise tax) on codfish, for which it already has a deposit, notice regarding differences in the indices used (Summer Plan), IRRF and INSS notices, as well as notices related to purchase, manufacturing and sale transactions for export purposes of soybean and its byproducts (PIS, COFINS and IRPJ). The amount recorded at September 30, 2008 in accounting books for such issues is R\$33,150 (R\$32,454 at June 30, 2008) and a judicial deposit of R\$2,212.

b) Labor claims

The Company is party to numerous lawsuits involving disputes with its employees, primarily arising from layoffs in the ordinary course of business. At September 30, 2008, the Company recorded a provision of R\$53,291 (R\$52,362 at June 30, 2008) assessed as probable risk. Lawsuits the loss of which is deemed as possible by our legal counsels stand at R\$7,046 (R\$6,391 at June 30, 2008). Management, assisted by its legal counsels, evaluates these contingencies and provides for losses where reasonably estimable, bearing in mind previous experiences in relation to the amounts sought. Labor claims are indexed to the Referential Interest Rate (TR) (2.0% accumulated in the year ended at September 30, 2008) plus 1% monthly interest. The balance of net allowance for earmarked judicial deposits is R\$393 (R\$2,340 at June 30, 2008).

16. Provision for Contingencies (Continued)

c) Civil and other

The Company is a defendant, at several judicial levels, in lawsuits of civil natures, among others. The Company's Management sets up provisions in amounts considered sufficient to cover unfavorable court decisions when its internal and external legal counsels consider losses to be probable.

Among these lawsuits, we point out the following:

The Company brought a writ of mandamus in order to be entitled to not pay the contributions provided for by Complementary Law 110/2001 related to the FGTS (Government Severance Indemnity Fund for Employees) financing. The Company obtained a preliminary injunction recognizing the right of not paying such contributions. Subsequently, this preliminary injunction was reversed, determining the judicial deposit of unpaid amounts during the effectiveness period of the preliminary injunction. The enforceability of tax credit is suspended in view of appeal filed, which awaits decision by the Regional Federal Court. At September 30, 2008, the amount accrued is R\$52,323 (R\$50,860 at June 30, 2008) and the Company effected a R\$9,433 (R\$8,070 at June 30, 2008) judicial deposit, protecting the period in which it was not covered by the preliminary injunction.

The Company filed a declaratory action of absence of legal relationship, in what concerns the contribution to SEBRAE, as enacted by Law 8,029/90, in order to also obtain the acknowledgement of restated credit for offsetting with balances payable to SESC (Social Service for Trade) and SENAC (National Service for Commercial Training), excluding the 30% limit. The Company was granted the right of not paying the falling due contributions, provided that judicial deposits are made, as usual. The proceeding awaits a decision of the extraordinary appeal. At September 30, 2008, the accrued amount is R\$42,471 (R\$40,695 at June 30, 2008), and judicial deposit in the amount of R\$42,665 (R\$40,892 at June 30, 2008).

The Company by means of a writ of mandamus is challenging the constitutionality of the FUNRURAL (Rural Workers Assistance Fund) for companies located in urban areas. The lawsuit is in progress at the Regional Federal Court and the amount of the provision is R\$35,122 at September 30, 2008 (R\$34,178 at June 30, 2008). There is no judicial deposit for such proceeding.

16. Provision for Contingencies (Continued)

c) Civil and other (continued)

The Company files and answers various lawsuits in which it requests the review of lease amounts paid by the stores. In these lawsuits, the judge determines a provisional lease amount, which then is paid by the stores, until report and decision define the final lease amount. The set up provision of difference between the amount originally paid by the stores and that defined provisionally in these lawsuits. At September 30, 2008 the accrual amount for these lawsuits is R\$15,263 (R\$14,165 at June 30, 2008), for which there are no judicial deposits.

d) Possible losses

The Company has other contingencies which have been analyzed by the legal counsel and deemed as possible but not probable; therefore, have not been accrued, at September 30, 2008, as follows:

INSS (Social Security Tax) The Company was served notice regarding the non-levy of payroll charges on benefits granted to its employees, and the loss, considered possible, amounts to R\$107,894 (R\$119,525 at June 30, 2008). These proceedings are under administrative discussion, starting the court stage. The provision has decreased due to the reclassification of the probability of loss in the notice periods that are longer than 5 years, pursuant to a recent Precedent issue by the Supreme Court.

IRPJ, IRRF and CSLL The Company was served several assessment notices regarding offsetting proceedings, rules on the deductibility of provisions and tax payment discrepancies, all of them await final decision in the administrative level, the amount of which corresponds to R\$144,637 (R\$89,386 at June 30, 2008).

COFINS, PIS and CPMF The Company has been challenged through administrative proceedings regarding motion for offsetting, tax payment discrepancies, in addition to the aforementioned collection of taxes on soybean export operations. These proceedings await decision in the administrative level. The amount involved in these assessments is R\$478,016 (R\$285,815 at June 30, 2008) and await administrative decision.

16. Provision for Contingencies (Continued)

d) Possible losses (Continued)

ICMS The Company was served notice by the state tax authorities regarding the appropriation of electricity credits, acquisitions from suppliers considered to be disreputable, return of goods to its stores, refund of tax replacement without due compliance of ancillary obligations brought by CAT Ordinance 17 of the State of São Paulo, among others, not relevant. The total amount of these assessments is R\$1,163,643 (R\$1,065,007 at June 30, 2008), which await a final decision in the administrative and court levels.

ISS, Municipal Real Estate Tax (IPTU), Property Transfer Tax (ITBI) and other These are related to assessments on third parties retention, tax payment discrepancies, fines due to non-compliance of ancillary obligations and sundry taxes, the amount of which is R\$25,588 (R\$19,951 at June 30, 2008) and await administrative and court decisions.

Other contingencies They are related to administrative lawsuits and lawsuits under the civil court scope, special civil court, Consumer Protection Agency (PROCON) (in many states), Weight and Measure Institute (IPEM), National Institute of Metrology, Standardization and Industrial Quality (INMETRO) and National Health Surveillance Agency (ANVISA), in great majority related to suits for damages, amounting to R\$76,495 (R\$68,122 at June 30, 2008).

Occasional adverse changes in the expectation of risk of the referred lawsuits may require that additional provision for contingencies be set up.

e) Appeal and judicial deposits

The Company is challenging the payment of certain taxes, contributions and labor-related obligations and has made court escrow deposits (restricted deposits) of equivalent amounts pending final legal decisions, in addition to collateral deposits related to provisions for judicial suits.

16. Provision for Contingencies (Continued)f) Guarantees

The Company has granted collaterals to some lawsuits of civil, labor and tax nature, as shown below:

| Lawsuits | Real Estate | Equipment | Guarantee | Total |
|-----------------|--------------------|------------------|------------------|------------------|
| Tax | 581,415 | 1,384 | 436,068 | 1,018,867 |

17. Income and Social Contribution Taxes (Continued)

b) Breakdown of deferred income and social contribution taxes (Continued)

(i) At September 30, 2008, in compliance with CVM Ruling 371, the Company and its subsidiaries recorded deferred IRPJ and CSLL arising from tax loss carryforwards and temporary differences in the amount of R\$578,470 (R\$598,685 at June 30, 2008) in the Parent Company and R\$1,132,891 (R\$1,158,740 at June 30, 2008) in Consolidated.

Recognition of deferred IRPJ and CSLL assets refer basically to tax loss carryforwards, acquired from Sé, and those generated by the subsidiary Sendas Distribuidora, realization of which, following restructuring measures, was considered probable, except for the provision for realization of deferred IRPJ shown in the previous table.

(ii) At December 20, 2006, at Extraordinary General Meeting, the Company's shareholders approved the merger operation of its parent company Vieri.

The special goodwill reserve, set up as a result of this merger, pursuant to paragraph 1 of article 6 of the CVM Ruling 319/99, will be purpose of capitalization to the benefit of controlling shareholders, without prejudice to the preemptive right ensured to other shareholders in the subscription of capital increase resulting from said capitalization, all pursuant to article 7, *caput* and paragraphs 1 and 2 of CVM Ruling 319/99, to the extent that the tax benefit earned, as a result of goodwill amortization, represents an effective decrease of taxes paid.

In order to enable a better presentation of the financial statements, the goodwill net amount of R\$515,488, less provision, which substantially represents the tax credit balance plus the amount of R\$1,806 were classified as deferred IRPJ. The net goodwill at September 30, 2008 totaled R\$439,970 (R\$472,395 at June 30, 2008).

At March 31, 2008, the Extraordinary General Meeting approved the reverse merger of Sevilha by Barcelona. Also pursuant to CVM Ruling 319/99, the special reserve of goodwill was created as a result of this merger. At September 30, 2008, the remaining net goodwill recorded by Barcelona amounted to R\$65,971 (R\$67,610 at June 30, 2008).

17. Income and Social Contribution Taxes (Continued)b) Breakdown of deferred income and social contribution taxes (Continued)

The Company prepares annual studies of scenarios and generation of future taxable income, which are approved by the Management and by the Board of Directors, indicating the capacity of benefiting from the tax credit set up.

Based on these studies, the Company expects to recover these tax credits within a term of up to 10 years, as follows:

| | Parent Company | Consolidated |
|-----------------|-----------------------|---------------------|
| 2008 | 48,791 | 110,451 |

b) Share rights

The preferred shares are non-voting and have preference with respect to the distribution of capital in the event of liquidation. Each shareholder has the right pursuant to the Company's Bylaws to receive a proportional amount, based on their respective holdings to total common and preferred shares outstanding, of a total dividend of at least 25% of annual net income determined on the basis of financial statements prepared in accordance with Brazilian GAAP, to the extent profits are distributable, and after transfers to reserves as required by Brazilian Corporation Law, and a proportional amount of any additional dividends declared.

The Company's Bylaws provide that, to the extent funds are available, minimum non-cumulative preferred dividend to the preferred shares in the amount of R\$0.08 per share. Beginning in 2003, the preferred shares are entitled to receive a dividend 10% greater than that paid to common shares or, if determined by the shareholders, in excess of the mandatory distribution.

Management is required by the Brazilian Corporation Law to propose dividends at year-end, at least, until the amount of mandatory dividend, which can include the interest on shareholders' equity, net of tax.

c) Capital reserve Special goodwill reserve

This reserve was set up as a result of the corporate restructuring process outlined in Note 17 b(ii), in contra account to the merged net assets and represents the amount of future tax benefit to be earned by means of amortization of goodwill merged. The special reserve portion corresponding to the benefit earned may be capitalized at the end of each fiscal year to the benefit of the controlling shareholders, with the issue of new shares. The capital increase will be subject to the preemptive right of non-controlling shareholders, in the proportion of their respective interest, by type and class, at the time of the issue, and the amounts paid in the year related to such right will be directly delivered to the controlling shareholder, pursuant to provision in CVM Ruling 319/99 and CVM 349/01.

At December 31, 2006, the tax benefit recorded derived from the goodwill merged from Vieri amounted to R\$517,294, which will be used in the capital increase, upon the realization of reserve.

At March 31, 2008, a tax benefit deriving from the goodwill in the merger of Sevilha into Barcelona was recorded in the amount of R\$69,180, which will be used to increase capital, upon realization of reserve.

d) Revenue reserve

(i) Legal reserve: is formed based on appropriations from retained earnings of 5% of annual net income, before any appropriations, and limited to 20% of the capital.

(ii) Expansion reserve: was approved by the shareholders to reserve funds to finance additional capital investments and working and current capital through the appropriation of up to 100% of the net income remaining after the legal appropriations and supported by capital budget, approved at meeting.

(iii) Profit retention: the balance at December 31, 2007 is available to the Shareholders General Meeting for allocation.

e) Preferred stock option plan

The Company offers a stock option plan for the purchase of preferred shares to management and employees. The exercise of options guarantees the beneficiaries the same rights granted to the Company's other shareholders. The management of this plan was attributed to a committee designated by the Board of Directors.

The granting price for each lot of shares is, at least, 60% of the weighted average price of the preferred shares traded in the week the option is granted. The number of lot of shares may vary for each beneficiary or series.

The right to exercise the options is acquired in the following manner and terms: (i) 50% in the last month of the third year following the granting date (1st tranche) and (ii) up to 50% in the last month of the fifth year following the granting date (2nd tranche), and the remaining portion of the second lot subject to restraint on alienation until the beneficiary's retirement, as per formula defined in the regulation.

Shares subject to restraint on alienation (Q), upon the exercise of the options, are calculated by using the following formula outlined in the stock option plan:

Q = Amount of 1000 (one thousand) shares to be encumbered by restraint on alienation.

$Q1$ = 50% of the total lots of Company's shares as of the granting date.

Pm = Market price of the lot of Company's shares as of the exercise date.

Pe = Original exercise price of the lot, determined on the granting date, observing the terms of the Plan.

The option price from the date of concession to the date of its exercise is updated by reference to the General Market Price Index - IGP-M variation, less dividends attributed for the period.

e) Preferred stock option plan (Continued)

Pursuant to Clause 14.5 of the Plan, the application of the mentioned formula shall be adjusted taking into account the reverse share split of shares representing the Company's capital stock, approved at the Extraordinary General Meeting held at July 30, 2007.

New preferred stock option plan

The Extraordinary General Meeting held at December 20, 2006, approved the amendment to the Company's Stock Option Plan, approved by the Extraordinary General Meeting held at April 28, 1997.

As from 2007, the granting of preferred stock option plan to management and employees will take place as follows:

Shares will be classified into two types: Silver and Gold, and the quantity of Gold-type shares may be decreased and/or increased (reducer or accelerator), at discretion of the Plan Management Committee, in the course of 35 months following the granting date.

The price for each Silver-type share will correspond to the average of closing price of negotiations of the Company's preferred shares occurred over the last 20 trading sessions of BOVESPA, prior to the date on which the Committee resolves on the granting of option, with negative goodwill of 20%. The price per each Gold-type share will correspond to R\$0.01 and the granting of these options are additional to the Silver options, and the granting or the exercise of Gold options is not possible separately. In both cases, the prices will not be restated.

The acquisition of rights to the options exercise will occur as follows in the following term: as of the 36th month to 48th month as of the start date defined as the date of the adhesion agreement of respective series and: a) 100% of granting of Silver-type shares; b) the quantity of Gold-type options to be determined by the Committee, after the compliance with granting conditions.

NB: Pursuant to assignments provided for in the stock option plan regulation, the Plan's Management Committee approved an advanced date of the year of first tranche of series VII options for December 13, 2005.

At March 15, 2007, series VI was cancelled and at June 10, 2008, series VII.

At September 30, 2008, the Company's preferred share price on BOVESPA was R\$33.00 for each share.

There are no treasury shares to be used as spread to the options granted of the Plan.

18. Shareholders Equity (Continued)e) Preferred stock option plan (Continued)

(ii) The chart below shows the maximum percentage of interest dilution to which current shareholders eventually will be subject to in the event of exercise up to 2011 of all options granted:

| | 09.30.2008 | 06.30.2008 |
|-------------------------------------|-------------------|------------|
| Number of shares | 235,249 | 235,202 |
| Balance of granted series in effect | 3,153 | 3,220 |
| Maximum percentage of dilution | 1.32% | 1.35% |

(iii) The table below shows the effects on net income if the Company had recognized the expense related to the granting of stock option, applying the market value method, as required by Official Memorandum CVM/SNC/SEP 01/2007 paragraph 25.9:

| | 09.30.2008 | | 09.30.2007 | |
|--|-----------------------|---------------------------------|-----------------------|---------------------------------|
| | Net income | Shareholders' equity | Net income | Shareholders' equity |

| Pro forma | 164,084 | 5,430,943 | 89,946 | 4,946,799 |

The market value of each option granted is estimated on the granting date, by using the options pricing model

Black-Scholes taking into account: expectation of dividends of 1.04% at September 30, 2008 (ditto at June 30, 2008), expectation of volatility of nearly 38.36% at September 30, 2008 (ditto at June 30, 2008), non-risk weighted average interest rate of 10.77% at September 30, 2008 (ditto at June 30, 2008). The expectation of average life of series VII and VIII is 4 years, whereas for series A1, the expectation is 3.5 years and for series A2, the expectation is 5 years.

20. Financial Instrumentsa) Credit risk

The Company's sales are direct to individual customers through post-dated checks, in a small portion of sales (nearly 0.65% of sales in the quarter). In such portion, the risk is minimized by the large customer base.

20. Financial Instruments (Continued)a) Credit risk (Continued)

In order to minimize credit risk from investments, the Company adopts policies restricting the marketable securities that may be allocated to a single financial institution, and which take into consideration monetary limits and financial institution credit ratings.

b) Exchange and interest rate risk

The Company is subject to market risks resulting from changes in foreign exchange and interest. Market risk is a potential loss deriving from contrary changes in market rates, such as exchange and interest rates. The Company's treasury policies establish proceedings that aim at decreasing the effects of such risks on the result (Note 20(e)). The results assessed that result from changes in the market rate, such as exchange and interest rate, are reflected on the quarterly information.

c) Market value of financial instruments

Estimated market value of financial instruments at September 30, 2008 approximates market value, reflecting maturities or frequent price adjustments of these instruments, as shown below:

| | Parent Company | | Consolidated | |
|---------------------------------|-----------------------|---------------|---------------------|---------------|
| | Accounting | Market | Accounting | Market |
| Assets | | | | |
| Cash and cash equivalents | 42,953 | 42,953 | 171,694 | 171,694 |
| Financial investments | 934,916 | 934,916 | 1,265,630 | 1,265,630 |

| | 1,056,226 | 1,056,226 | 1,437,324 | 1,437,324 |
| Liabilities | | | | |
| Loans and financings | 1,158,366 | 1,158,366 | 2,553,135 | 2,553,135 |
| Debentures | 788,143 | 783,963 | 788,143 | 783,964 |
| Swap agreements | 6,506 | (1,395) | 177,218 | 153,064 |
| | 1,953,015 | 1,940,934 | 3,518,496 | 3,490,163 |

Market value of financial assets and of current and noncurrent financing, when applicable, was determined using current interest rates available for operations carried out under similar conditions and remaining maturities.

In order to translate the financial charges and exchange variation of loans denominated in foreign currency into local currency, the Company contracted swap operations, pegging the referred to charges to the CDI variation, which reflects market value.

20. Financial Instruments (Continued)

c) Market value of financial instruments (continued)

The market value of financial instruments is calculated by the restatement of the face amount up to the maturity date and discounted at present value in face to future interest market rates published in the newsletters of Bolsa de Mercadorias e Futuros (Futures Exchange) – BM&F.

d) Derivative financial instruments

The Company's treasury policy allows contracting foreign currency loans since an additional derivative financial instrument is contracted when the original financing is contracted, so as the Company is effectively exposed to amounts in reais and interest, linked to a percentage of the Interbank Deposit Certificate – CDI. The contracting of these derivative financial instruments is made with the same terms of maturity of the original contract, preferably with the same financial institution, usually with large institutions, whose liquidity is largely recognized by the market, and within the limits authorized by the Company's Management.

The Company's policy does not allow contracting swaps with caps, breach of contract, double index, flexible options or any other types different from traditional swaps, for speculative purposes other than for hedging debt.

The Company's internal control environment was designed so as to ensure that transactions executed are in compliance with this treasury policy.

At October 17, 2008, the Brazilian Securities and Exchange Commission – CVM issued Resolution 550, which provides for the presentation of information on financial instruments in a note to the quarterly information – ITR. The information required applicable to the Company are as follows:

20. Financial Instruments (Continued)d) Derivative financial instruments (continued)

| | - | - | (153,064) | (325,082) | (177,218) |

Gains and losses, realized and unrealized, on these agreements are recorded as financial revenues and financial expense, respectively, and the balance receivable or payable in the net amount of R\$177,218 is recorded in loans and financings (Note 13).

e) Analysis of sensitivity of derivative financial instruments (not audited)

The Company's Management states that any asset positive or negative variation of foreign currency and interest swap transactions due to the foreign exchange rate variation is offset by an increase or decrease in the original financing operation in foreign currency. Thus, the net effect of the swap operations and of the original financing in foreign currency is exclusively the CDI rate variation, and, for this reason, the sensitivity analysis encouraged by Article 4 of CVM Resolution 550 has not been carried out.

21. Insurance Coverage (not audited)

Coverage at September 30, 2008 is considered sufficient by management to meet possible losses and is summarized as follows:

08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE DURING THE QUARTER**Operating Performance**

The numbers related to the Group's operating performance presented and commented on below refer to consolidated figures, which include the entire operating results of Sendas Distribuidora (a joint venture with the Sendas chain in Rio de Janeiro) and Assai (a joint venture with Atacadista Assai in São Paulo).

Sales Performance
Same-store sales grow by 10.3% in the 3Q08, the best quarterly performance
for the last three years

| (R\$ million) ⁽¹⁾ | 3Q08 | 3Q07 | Chg. | 9M08 | 9M07 | Chg. |
|------------------------------|---------|---------|-------|----------|----------|-------|
| Gross Sales | 5,055.6 | 4,131.7 | 22.4% | 14,934.4 | 12,505.1 | 19.4% |
| Net Sales | 4,407.0 | 3,496.5 | 26.0% | 12,890.4 | 10,574.1 | 21.9% |

(1) Totals may not tally as the figures are rounded off

(2) basis points

Third-quarter gross sales totaled R\$ 5,055.6 million, 22.4% up on 3Q07, while net sales increased by 26.0% to R\$ 4,407.0 million.

In same-store concept, gross sales recorded an increase of 10.3% and net sales moved up by 13.6%, in both cases outpacing period inflation. Non-food sales grew by 16.1%, led by the electronic products, while food products moved up by 8.5%, also above period inflation.

The same-store performance was due to the Company's policy of maximizing existing resources, the increase in customer traffic, and the higher average ticket. It is worth noting that only 28 stores were opened in the last 12 months, in line with the Group's strategy of seeking adequate profitability and returns on investments in new and existing stores.

In terms of format, Extra and Extra-Eleto were the best performers, recording growth above the Company average thanks to the performance of the non-food category, and CompreBem, due to its more aggressive positioning relative to competitive pricing.

Another initiative that helped the period sales performance was the Pão de Açúcar Group's 60th anniversary campaign, which began at the end of August with an innovative format and exclusive offers, including non-food products valid for all stores.

Year-to-date gross sales totaled R\$ 14,934.4 million and net sales came to R\$ 12,890.4 million, 19.4% and 21.9% up year-on-year, respectively, while same-store sales moved up 7.7%, or 2.1% in real terms (deflated by the IPCA general consumer price index), above our 2008 guidance.

In addition, Group sales outperformed the industry average recorded by both the IBGE and ABRAS (the Brazilian Supermarket Association).

As of January 2009, Grupo Pão de Açúcar will be publishing a preliminary quarterly sales report to replace the current monthly sales reports. This change in the reporting process is aimed at reducing share price volatility, caused by an excessive focus on short-term sales performance, thereby ensuring a closer alignment between market estimates and the Company's annual sales growth guidance.

**Gross margin reaches 27.0% in the quarter
Gross profit moves up 18.6% year-on-year**

| (R\$ million) ⁽¹⁾ | 3Q08 | 3Q07 | Chg. | 9M08 | 9M07 | Chg. |
|------------------------------|---------|---------|-------------------------|---------|---------|-------------------------|
| Gross Profit | 1,189.8 | 1,003.0 | 18.6% | 3,408.4 | 2,981.2 | 14.3% |
| Gross Margin - % | 27.0% | 28.7% | -170 bps ⁽²⁾ | 26.4% | 28.2% | -180 bps ⁽²⁾ |

(1) Totals may not tally as the figures are rounded off

(2) basis points

The 3Q08 gross margin reached 27.0%, 90 bps up on the 26.1% recorded in 2Q08, mainly due to the quarter-over-quarter improvement in Sendas and Assai's gross margins. In year-on-year terms, the gross margin declined by 170 bps. Gross profit totaled R\$ 1,189.8 million, 18.6% up on 3Q07.

As in 2Q08, the third-quarter gross margin was impacted by the maintenance of competitive prices and the change in the Company's product mix with a greater sales share of electronics items, which reduced the margin by around 40 bps in year-on-year terms.

In addition, the incorporation of Assai narrowed the margin by 80 bps.

Another significant impact came from the change in the way in which ICMS (state VAT) is collected, especially in the state of Sao Paulo, which reduced the margin by a further 50 bps.

**Operating Expenses
Reduction of 300 bps in percentage-of-net-revenue terms**

SG&A expenses represented 18.3% of net sales, substantially below the 21.2% recorded in 3Q07. In absolute terms, they totaled R\$ 804.6 million, 8.4% up year-on-year. However, if we exclude 3Q07 restructuring expenses of R\$ 7.9 million (R\$ 1.9 million of which in selling expenses and R\$ 6.0 million in G&A expenses), growth would come to 9.6% . It is also worth emphasizing that the upturn was well below the period sales increase.

Total operating expenses, including taxes and charges, represented 18.9% of net sales, below the 19.0% target established in the 2008 guidance. This ratio has remained stable since 1Q08, underlining the Company's consistent cost controls and the continuity of the process overhaul.

Third-quarter EBITDA totaled R\$ 357.2 million, 49.9% up on the R\$ 238.3 million recorded in 3Q07. The EBITDA margin reached 8.1%, versus 6.8% in 3Q07, an increase of 130 bps due to the higher gross margin and the maintenance of cost controls.

In the pro-forma comparison (which excludes the 3Q07 restructuring costs) EBITDA growth came to 45.1%, and if we exclude the Assai effect, the EBITDA margin stood at 8.3% .

In the first nine months, pro-forma EBITDA (excluding the restructuring costs) totaled R\$ 961.7 million, 37.2% up year-on-year, accompanied by a pro-forma EBITDA margin of 7.5%, 90 bps more than the 6.6% recorded in the same period last year, in line with our 2008 guidance target of between 7.5% and 8.0% .

(1) Totals may not tally as the figures are rounded off

Financial revenue grew 4.5% year-on-year to R\$ 72.2 million. Although the Company has maintained a greater average volume of cash invested at higher average rates than in 2007, this was offset by reduced revenue from installment sales (influence of promotional interest-free installment plans).

Financial expenses totaled R\$ 153.7 million, 25.2% up on 3Q07, primarily due to the impact of increased interest rates on a higher gross debt and the restatement of reserves for contingencies.

As a result, the net financial result was R\$ 81.5 million negative, in line with the negative R\$ 81.0 million in the previous quarter.

The last-12-month net debt/EBITDA ratio closed the quarter at 0.94x, better than the annual target of 1x.

At the beginning of the year, Grupo Pão de Açúcar took several important decisions to mitigate the effects of a possible deterioration in the financial markets, including:

- Anticipating funding and substantially strengthening its cash position;

- Investing in improving efficiency and results by substantially reducing expenses and intensifying commercial actions, resulting in increased sales and gains in market share;

- Implementing initiatives to minimize working capital needs, mainly by reducing inventories of low-turnover products (slow movers);

- Reducing 2008 CAPEX, combined with a new decision-making process for investments, which is exceptionally rigorous in regard to the returns on invested capital required for each project.

As a result, the Company closed the quarter with a cash position of R\$ 1.4 billion, all of which is invested in fixed income with major financial institutions in Brazil with good liquidity and at higher rates (% of the CDI) than our average debt rate.

There will be no relevant changes in this cash position until the end of the year and, given the low level of maturities in 2009, it should remain high over the coming quarters.

The debt profile is long-term, with an average maturity of around 800 days.

It is also worth emphasizing that the Company is not exposed to any foreign-exchange risk, both in regard to its debt transactions and its financial investments. The only derivatives it possesses are:

- Swap operations whereby 100% of the foreign-currency debt or the existing balance of the debt indexed to the Brazilian Development Bank (BNDES) currency basket is hedged by an equal volume with the same repayment schedule, transforming the debt into percentage of CDI in reais.

Swap of the interest on the 6th debenture issue (CDI + 0.5%) for 104.96% of the CDI.

In addition, given the current operational and investment prospects, there will be no need for additional funding in 2009, showing that the company is prepared if the credit crunch continues for a longer period.

Equity Income

The result reflects FIC's strategy in private label and co-branded cards

In the third quarter of 2008, FIC (Financeira Itaú CBD) recorded a 14.2% share of the Group's total sales, with 5.9 million clients and a receivables portfolio of R\$ 1.4 billion.

It generated a negative equity income of R\$ 199,0 thousand, a substantial improvement over the negative R\$ 9.9 million reported in 3Q07. The quarterly performance was in line with expectations and reflected FIC's strategy of prioritizing the sale of private label and co-branded cards. Card growth was 85% higher than in 3Q07 and represented the highest volume of cards sold in a single quarter.

This strategy will bring important results in the coming quarters and we expect a positive contribution in 4Q08.

Minority Interest: Sendas Distribuidora

3Q08 EBITDA moves up 141.5% year-on-year

Sendas Distribuidora recorded gross sales of R\$ 801.6 million in 3Q08, equivalent to 15.9% of the Group total, while net sales came to R\$ 698.1 million.

The third-quarter gross margin stood at 28.6%, 190 bps up on 3Q07, and gross profit totaled R\$ 199.9 million, a 13.6% year-on-year increase.

Operating expenses (SG&A expenses) represented 19.5% of net sales, a significant 260 bps reduction on the third quarter of 2007.

Consequently, the period EBITDA margin stood at 8.0%, versus 3.5% in 3Q07, the best Sendas performance since the operation began in 2004. In absolute terms, 3Q08 EBITDA totaled R\$ 55.8 million, 141.5% up year-on-year.

Despite all of the above, Sendas Distribuidora posted a 3Q08 loss of R\$ 2.0 million, mainly due to the high financial expenses, which generated a positive minority interest of R\$ 840.1 thousand.

Year-to-date EBITDA came to R\$ 137.5 million, 204.1% higher than in the first nine months of 2007, while the EBITDA margin increased by 420 bps, from 2.2% in the 9M07, to 6.4%. This considerable improvement was due to the 110 bps increase in the gross margin and the 310 bps reduction in expenses.

Minority Interest: Assai Atacadista
Gross margin widens by 260 bps over 2Q08

Assai recorded gross sales of R\$ 347.8 million in 3Q08, equivalent to 6.9% of total Group sales. Net sales totaled R\$ 305.9 million. Gross profit stood at R\$ 50.1 million, with a gross margin of 16.4%, 260 bps higher than in the previous quarter, thanks to more advantageous negotiations with suppliers and a reduction in shrinkage.

Operating expenses came to 11.5% of net sales in the quarter. This result was expected, reflecting the Company's first-half investments in increased competitiveness, which generated gains in market share and higher sales, diluting operating expenses. Third-quarter EBITDA totaled R\$ 15.1 million, with a margin of 4.9%, and year-to-date EBITDA came to R\$ 26.7 million, with a margin of 3.1%.

Net income totaled R\$ 7.5 million, generating a negative minority interest of R\$ 3.0 million.

Third-quarter EBIT (earnings before income tax) totaled R\$ 124.1 million, 353.7% up year-on-year, mainly due to the improvement in the gross margin and consistent cost controls resulting from the Company's ongoing process overhaul.

Year-to-date pro-forma EBIT stood at R\$ 284.5 million, almost three times more than the R\$ 96.1 million recorded in 3Q07.

The Group posted a third-quarter net income of R\$ 82.5 million, 137.8% up year-on-year, primarily fueled by substantial sales growth and the continuing cost controls, which resulted in a significant improvement in the operating performance.

Pro-forma net income in the first nine months came to R\$ 196.3 million, 99.8% more than in 9M07.

It is worth noting that net income is jeopardized by non-cash expenses. If these accounts are excluded, net income (cash concept) would amount to R\$ 107.4 million in the quarter and R\$ 270.3 million year-to-date.

Investments totaled R\$ 107.0 million in the quarter

Third-quarter investments totaled R\$ 107.0 million and R\$ 330.8 million year-to-date, versus R\$ 648.3 million in 9M07.

Seven new stores were opened in the quarter: three convenience stores (Extra Fácil), two Extra stores (one Extra hypermarket and one compact hypermarket) and two Assai stores.

The main quarterly highlights were:

R\$ 73.2 million in the opening and construction of new stores and the acquisition of sites;

R\$ 23.5 million in store renovation;

R\$ 10.3 million in infrastructure (technology and logistics).

Twelve stores currently under construction (one CompreBem, six Extra Fácil and five Assai) will be opened in the final quarter and another 5 stores will be converted into Assai stores.

Since the beginning of the year, 12 new stores have opened and one CompreBem store was converted into an Assai store.

17.01 SPECIAL REVIEW REPORT UNQUALIFIED OPINION

A free translation from Portuguese into English of Review Report of Independent Auditors on quarterly financial information prepared in Brazilian currency in accordance with the specific regulations issued by CVM (Brazilian Securities Exchange Commission)

REVIEW REPORT OF INDEPENDENT AUDITORS

To the Board of Directors and Shareholders of
Companhia Brasileira de Distribuição

1. We have performed a review of the accompanying unconsolidated and consolidated Quarterly Financial Information (ITR) of Companhia Brasileira de Distribuição and Companhia Brasileira de Distribuição and subsidiaries (the Company) for the quarter and nine month period ended September 30, 2008, including the balance sheets, statements of income, statements of cash flows, statements of added value, report on the Company s performance and relevant information, prepared under responsibility of management of the Company. The financial statements of the investee Miravalles Empreendimentos e Participações S.A. (which significant amounts are mentioned in note 9) for the quarter and nine-month period ended September 30, 2008, have been reviewed by other independent auditors. Our review report on investments, equity pickup and other information included in the notes to unconsolidated and consolidated Quarterly Financial Information of the Company, pertaining to said investee, are exclusively based on the financial statements reported by this investee, which have been reviewed by other auditors.
2. Our review was conducted in accordance with the specific procedures determined by the Institute of Independent Auditors of Brazil (IBRACON) and the Federal Board of Accountancy (CFC), and included principally: (a) inquiries of and discussions with the management responsible for the Company s accounting, financial and operating areas regarding the criteria adopted for the preparation of the quarterly information and (b) review of information and subsequent events which have or might have significant effects on the Company s operations and financial position.
3. Based on our review and on the review performed by other independent auditors, we are not aware of any material modification that should be made to the Quarterly Financial Information referred to above for it to comply with specific regulations issued by the Brazilian Securities Exchange Commission (CVM), applicable to the preparation of Quarterly Financial Information, including the CVM instruction no. 469 of May 2, 2008.

4. As mentioned in note 2, in December 28, 2007, was enacted Law no. 11,638, effective upon January 1st, 2008. This Law changed, revoked and inserted certain provisions to Law no. 6,404/76 and give rise to changes to the accounting practices adopted in Brazil. Although the Law is already effective, certain introduced changes depend authorities regulations to be implemented by the companies. Therefore, in the transition period, CVM, through its instruction no. 469, allowed companies not to apply all the provisions of Law no. 11,638/07 for the preparation of the Quarterly Financial Information. Therefore, data disclosed in the Quarterly Financial Information for the quarter and nine-month period ended September 30, 2008, were prepared in accordance with specific CVM instructions and do not include all the accounting practices changes introduced by Law no. 11,638/07. The previous periods information, presented for comparison purposes, were adjusted to include the changes in the accounting practices introduced in 2008.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
