Duilio Calciolari, Chief Executive Officer, said: "During the first quarter of 2012 we **focused on implementing the new strategy** for the Company which: (i) established dedicated operating structures by brand; (ii) reducing risk at Tenda; (iii) expanding the contribution of AlphaVille's developments in our product mix and; (iv) refocusing the Gafisa brand on its core markets of São Paulo and Rio de Janeiro. We are **making progress in achieving our operating cash flow guidance** of R\$500- R\$700 million for 2012 with strong unit deliveries of 6.165, sales of inventory and positive cash flow generation at Tenda for the month of March.

Gafisa continues to witness demand throughout Brazil for the middle and middle to high income products represented by the Gafisa and AlphaVille brands, which sold over R\$498.7 million during the quarter, with a consolidated sales velocity of launches of 48%. With the implementation of a **narrowed geographic focus**, Sao Paulo accounted for 100% of the R\$214.7 million launches for the Gafisa segment in the 1Q12 and all of the AlphaVille projects of R\$249.0 million launched in the same period were outside of Sao Paulo and Rio de Janeiro."

"Planning is being realigned to get 'back to the basics', which means focusing squarely on **obtaining and maintaining operational consistency.**"

### FINANCIAL RESULTS

Net revenue for the first quarter of 2012, recognized by the Percentage of Completion ("PoC") method, increased 27% to R\$928 million on a year-over-year basis.

Gross profit gained 75% year-over-year to R\$201.6 million, as a result of lower level revenue reversal, without the impact of budget cost adjustments as compared

Code: Gafisa

to the same period of previous year. Gross margin reached 22%, as it is still impacted by a higher contribution of lower margin projects under construction, whose sale and delivery we expect to conclude within the next fifteen months.

EBITDA was R\$105 million, 267.8% above the R\$29 million posted during the first quarter of 2011. EBITDA for Gafisa and AlphaVille totaled R\$82 million and R\$40 million, respectively, while the EBITDA for Tenda was negative R\$17 million. Higher volume of EBITDA YoY was a result of improved sales performance of inventories. EBITDA Margin reached 11.3% and ex-Tenda 20%, well above the 4% and 14%, respectively posted in the previous year.

The 1Q12 net loss was R\$31.5 million compared with R\$13.7 million in 1Q11. The 1Q12 loss was a result of revenue reversals related to R\$340 million worth of contract dissolutions related to units at the low-income business, coupled with recognition of projects with lower margins as a result of the budget review announced in the previous quarter.

At the end of March 31, 2012, the Company had approximately R\$947 million in cash and cash equivalents compared to R\$984 million at the end of 4Q11. The net debt to equity ratio reached 122% in the first quarter of 2012, from 118% in the 4Q11.

## **OPERATING RESULTS**

Project launches totaled R\$464 million in 1Q12, a 10% decrease compared with 1Q11. The change reflects the restriction of Tenda launches to those that can be immediately transferred to financial institutions. The Gafisa and AlphaVille segments represented 46% and 54% of total launches, respectively.

Consolidated pre-sales totaled R\$408.2 million in the first quarter, a 50% decrease compared to 1Q11. Sales from inventory represented 45% of the 1Q12 total, while units launched during the same year accounted for the remaining 55%. First quarter sales velocity of launches reached 10.4%, or 16.1% ex-Tenda.

The Group delivered 34 projects encompassing 6,165 units with a potential sales value of R\$1.1 billion during 1Q12.

## RECENT EVENTS

### Progress towards Operating Cash Flow Generation

Gafisa ended the first quarter with R\$947 million in cash, which is similar to the balance at the end of 2011 after paying all obligations. In the 1Q12, preliminary consolidated cash burn was R\$76 million. Excluding the accrual of Gafisa debt of R\$90 million in the 1T02, we should have a cash generation instead of a consumption. Our operational consolidated cash flow was neutral in the 1Q12 and in March, Tenda achieved positive operating cash flow.

### Chart 1. Cash Consumption (3Q10 – 1Q12)

### Updated Status of the Results by Brand

#### Gafisa is delivering results reflected the new turnaround strategy:

**Gafisa:** (1) We are delivering our lower margin projects. Higher concentration projects launched in New Markets that should be finished this year. (2) Improved sales performance related to inventory.

**Tenda:** (1) Since June the number of units contracted by financial institutions has accelerated, which in part reflects the addition of a new CEF unit dedicated to major homebuilders. (2) In the first quarter, Tenda transferred 2793 units to financial institutions or 23% of the mid-range of guidance provided for the full year of 10.000–14.000 customers. (3) In March, Tenda achieved positive operating cash flow.

**AlphaVille:** (1) Continues to launch high demand developments - two projects (Juiz de Fora and Sergipe) were launched in March with sales of 62% in just the final month of the quarter. (2) The results underscore the growing share of AlphaVille in the product mix. The brand accounted for 54 percent share of first-quarter consolidated launches, up from a 35 percent a year ago.

### Record delivery units

In the first quarter of 2012, the Company also presented record delivery units. Gafisa delivered 34 projects encompassing 6,165 units, double the 3,060 delivered during 1Q11, with a potential sales value of R\$1.1 billion during the first quarter. In March, the Gafisa Group achieved record unit deliveries of 3,338 units.

## CONSOLIDATED DATA FOR THE GAFISA GROUP

### Consolidated Launches

First-quarter 2012 launches totaled R\$464 million, a 10% decrease compared to 1Q11, as the Group halted Tenda launches to focus on execution and delivery. The result represents 15% of the mid-range of full-year launch guidance of R\$2.7 to R\$3.3 billion and is in line with seasonally lower launches in the first quarter.

Four projects/phases were launched across 3 states in the first quarter, with AlphaVille accounting for 54% of launches and Gafisa the remaining 46%.

### Consolidated Pre-Sales

First-quarter 2012 consolidated pre-sales totaled R\$408.2 million, a 50% decrease compared to 1Q11. Sales from launches represented 55% of the total, while sales from inventory comprised the remaining 45%. Consolidated sales over supply reached 10.4%, compared to 21.4% in 1Q11, reflecting fewer launches to pursue remedial actions at Tenda. Excluding the Tenda brand, first-quarter sales over supply was 16.1%, compared to 17.7% in 4Q11 and 21.6% in 1Q11. The consolidated sales speed of launches reached 48.1%.

### AlphaVille Pre-Sales

First quarter pre-sales reached R\$181.9 million, a 6% increase compared to 1Q11. The residential lots segment's share of consolidated pre-sales increased to 45% from 25% in 1Q11. In 1Q12, sales velocity (sales over supply) was 22.2%, compared to 28.1% in 1Q11. First-quarter sales velocity from launches was 63.2%. Sales from launches represented 85% of total sales, while the remaining 15% came from inventory.

Projects demonstrating above average sales velocities include AlphaVille Sergipe, which was launched in March and achieved sales exceeding 65% in the first quarter, and AlphaVille Juiz de Fora, which was launched in February and achieved more than 55% sales in the same period.

Note: The VSO refers contracted sales over the corresponding period of the offer. In this calculation, we consider the stock adjusted to reflect the correct.

## TENDA SEGMENT

*Focuses on affordable residential developments, with unit prices between R\$80,000 and R\$200,000, has 20 regional store fronts, and projects developed in 105 cities across 15 states.*

### Tenda Segment Launches

Reflecting remedial actions at Tenda and a focus on execution and delivery, no projects were launched in the first quarter. Throughout 2012, Tenda is not expected to represent more than 10% of consolidated launch guidance of between R\$2.7 and R\$3.3 billion.

### Tenda Segment Pre-Sales

In keeping with a necessary change in strategy, 1Q12 gross pre-sales were stable at R\$248.7 million. First quarter net pre-sales in the low income segment were negative R\$90.4 million, compared to negative R\$216 million in 4Q11. The difference reflects the dissolution of R\$339.6 million in contracts with potential homeowners who no longer qualified for a bank mortgage due to a change in circumstance, such as lack of financial capacity, increased income, move to dual household income, cessation of employment etc. Consequently, units, which are on average more than 70% complete, will be returned to inventory and

eligible for resale to qualified customers. We collected on average a down payment of 6% of the units that will be resold through financial institutions, where according to the PoC, the percentage of the incurred cost of a unit's value is received upfront. Going forward, pre-sales recognition and the remuneration of Tenda sales force will be based on the ability to pass mortgages on to banks.

Note: 1 PoC – Percentage of completion method. Negative numbers are related to dissolutions

## Tenda Segment Operations

Since June, 2011 we have witnessed an acceleration in the number of units contracted by financial institutions, which is in part likely due to the addition of a new CEF unit dedicated to major homebuilders. This improvement resulted in the delivery of 2,336 units in 1Q12. Transferred units totaled 2,500 units during the first quarter. We expect the number of units transferred to increase throughout 2012.

**Gross Profit**

On a consolidated basis, 1Q12 gross profit totaled R\$202 million, a increase of 75% over 1Q11, on the back of lower level revenue reversal and lower impact of budget cost adjustments, as compared to the same period of previous year. Gross margin reached 23.9%, still below normalized levels, as it is still impacted by a higher contribution of lower margin projects under construction, whose sale and delivery we expect to conclude within the next fifteen months.

**Selling, General, And Administrative Expenses (SG&A)**

SG&A expenses totaled R\$137 million in 1Q12, a 18% increase on the R\$117 million in expenses posted in 1Q11. Selling expenses decreased 2% to R\$58 million. Administrative expenses reached R\$79 million, a 40% increase over the R\$56 million posted in 1Q11. The main reasons for SG&A expenses increase were: 1)provision related to the distribution of variable compensation, 2)Administrative expenses related to the expansion of Alphaville operations and 3)new structure in smaller cost scale with the new strategy to segregate and give focus on each brand.

## Consolidated Adjusted EBITDA

EBITDA was R\$105 million, 267.8% above the R\$29 million posted during the first quarter of 2011. EBITDA for Gafisa and AlphaVille totaled R\$82 million and R\$40 million, respectively, while the EBITDA for Tenda was negative R\$17 million. Higher volume of EBITDA YoY was a result of improved sales performance of inventories and a lower dissolutions compared to the previous period. EBITDA Margin reached 11.3% and ex-Tenda 20%, well above the 4% and 14%, respectively posted in the previous year.

## Depreciation And Amortization

Depreciation and amortization in 1Q12 was R\$18 million, an increase of R\$6 million when compared to the R\$12 million recorded in 1Q11, mainly due to higher showroom depreciation.

## Financial Results

Net financial expenses totaled R\$42 million in 1Q12, compared to net financial result of R\$31 million in 1Q11 as a result of a higher level of leverage.

## Taxes

Income taxes, social contribution and deferred taxes for 1Q12 amounted to R\$20 million, compared to R\$19 million in 1Q11

## Adjusted Net Income

The adjustments mentioned related to costs and expenses, as well as financial expenses, had a direct impact on the company's profitability, resulting in a net loss in 1Q12 of R\$18.3 million compared to a net loss of R\$33 million in the same period of 2011.

**Backlog Of Revenues And Results**

The backlog of results to be recognized under the PoC method reached R\$4.2 billion in 1Q12, 4.3% higher than the R\$4.06 billion posted in 1Q11 and 6.2% lower than the R\$4.5 billion posted in 4Q11. The consolidated margin for the quarter was 35,7%, higher than the 39% in 1Q11 and 123 bps higher than the 34.5% posted in the 4Q11, mainly as a result of budget cost revisions and lower results to be recognized. The table below shows the backlog margin by segment:

## BALANCE SHEET

### Cash and Cash Equivalents

On March 31, 2012, cash and cash equivalents reached R\$947 million. We believe our cash position is sufficient to execute our development plans, and we see no need to increase this current level.

### Accounts Receivable

At the end of 1Q12, total accounts receivable decreased 4% to R\$9.1 billion, from R\$9.5 billion in 4Q11.

#### Table 37 - Total receivables

Receivables from developments – LT (off balance sheet)	4.398.947	4.686.158	-6%	4.215.809	4%

<b>Total</b>	<b>2.861.144</b>	<b>2.940.478</b>	<b>-3%</b>	<b>2.504.943</b>	<b>14%</b>

Inventory at market value totaled R\$3.5 billion in 1Q12, which is in line with the R\$3.5 billion registered in 4Q11. On a consolidated basis, our inventory is at a level of 10 months of sales based on LTM sales figures.

At the end of 1Q12, finished units accounted for 9% of total inventory. We continue to focus on reducing finished inventory primarily concentrated under the Gafisa brand, which represents 3% of total finished inventory of R\$3.5 billion and 1/3 of finished units of R\$322 million.

Note: Adjusted by cancellations and dissolutions. <sup>1</sup>Completed units (at market value): value adjusted according to incurred costs, but already delivered to customers (general meeting with customers). Given the same accounting criteria, the value would be R\$186.4 million.

Consolidated inventory at market value remained stable on a sequential basis. The market value of Gafisa inventory of R\$1.96 billion, 56% of total inventory, was stable at the end of 1Q12. The market value of AlphaVille inventory totaled R\$636 million at the end of 1Q12, a 11% increase compared to the end of 4Q11. Tenda inventory was valued at R\$915 million at the end of 1Q12, a 2% decrease compared to the end of 4Q11.

## Liquidity

As of March 31, 2012, Gafisa had a cash position of R\$947 million. On the same date, Gafisa's debt and obligations to investors totaled R\$4.3 billion, resulting in net debt and obligations of R\$3.3 billion. The net debt and investor obligations to equity and minorities ratio was 122% compared to 118% in 4Q11, due to R\$76 million cash burn in the first quarter. Our operational consolidated cash flow was neutral in the 1Q12 and in March, Tenda achieved positive operating cash flow. Excluding project finance, this net debt/equity ratio reached 48.3%.

Gafisa's cash position and liquidity are sufficient to execute our development plans. Gafisa's current debt maturity structure includes 32% of the total debt due within one year. We expect positive operating cash flow of between R\$500 – R\$700 million in 2012. Gafisa has additional receivables (from units already delivered) of more than R\$500 million available for securitization and R\$370 million of finished units in inventory. We also highlight our current debt covenants ratios, as shown below in the table 45.

Currently we have access to a total of R\$1.6 billion in construction finance lines contracted with banks and R\$0.9 billion in lines in the process of approval. Also, Gafisa has R\$2.4 billion available in construction finance lines of credit for future developments. The following tables provide information on our debt position:

## OUTLOOK

With the introduction of a new strategy and organizational structure, Gafisa is already making progress toward achieving its 2012 guidance. Launches for 2012 are expected to be between R\$2.7 and R\$3.3 billion, reflecting a new, more targeted regional focus and the deliberate slowdown of the Tenda business. Gafisa should represent 50%, Tenda 10% and AlphaVille 40% of launches. For the first quarter of 2012, the Gafisa Group launched R\$464 million.

The Gafisa Group plans to deliver between 22,000 and 26,000 units in 2012 of which 30% will be delivered by Gafisa, 50% by Tenda and the remaining 20% by AlphaVille. During the first quarter of 2012, the Company delivered 6,165 units and transferred 2,793 Tenda units to financial institutions.

Finally, the Company expects to generate between R\$500 million and R\$700 million in operating cash flow for the full year of 2012. At March 31, 2012, the Company had R\$947 million in cash and cash equivalents. The key drivers of cash flow generation include: (i) our ability to deliver units at Gafisa; (ii) the transfer of Tenda units to financial institutions; (iii) the sale of inventory; (iv) the securitization of receivables; (v) the sale of non-strategic land.

## GLOSSARY

### Affordable Entry Level

Residential units targeted to the mid-low and low income segments with prices below R\$200 thousand per unit.

### Backlog of Results

As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues and expenses over a multi-year period for each residential unit we sell. Our backlog of results represents revenues minus costs that will be incurred in future periods from past sales.

### Backlog of Revenues

As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues over a multi-year period for each residential unit we sell. Our backlog represents revenues that will be incurred in future periods from past sales.

### Backlog Margin

Equals to "Backlog of Results" divided "Backlog of Revenues" to be recognized in future periods.

### Land Bank

Land that Gafisa holds for future development paid either in Cash or through swap agreements. Each decision to acquire land is analyzed by our investment committee and approved by our Board of Directors.

### LOT (Urbanized Lots)

Land subdivisions, or lots, with prices ranging from R\$150 to R\$600 per square meter

### PoC Method

Under Brazilian GAAP, real estate development revenues, costs and related expenses are recognized using the percentage-of-completion ("PoC") method of accounting by measuring progress towards completion in terms of actual costs incurred versus total budgeted expenditures for each stage of a development.

### Pre-sales

Contracted pre-sales are the aggregate amount of sales resulting from all agreements for the sale of units entered into during a certain period, including new units and units in inventory. Contracted pre-sales will be recorded as revenue as construction progresses (PoC method). There is no definition of "contracted pre-sales" under Brazilian GAAP.

### PSV

Potential Sales Value.

### SFH Funds

Funds from SFH are originated from the Governance Severance Indemnity Fund for Employees (FGTS) and from savings accounts deposits. Banks are required to invest 65% of the total savings accounts balance in the housing sector, either to final customers or developers, at lower interest rates than the private market.

### Swap Agreements

A system in which we grant the land-owner a certain number of units to be built on the land or a percentage of the proceeds from the sale of units in such development in exchange for the land. By acquiring land through this system, we intend to reduce our cash requirements and increase our returns.

**Quarterly information - 03/31/2012 – Gafisa S.A.**

**ABOUT GAFISA**

Gafisa is a leading diversified national homebuilder serving all demographic segments of the Brazilian market. Established over 57 years ago, we have completed and sold more than 1,000 developments and built more than 12 million square meters of housing only under Gafisa's brand, more than any other residential development company in Brazil. Recognized as one of the foremost professionally managed homebuilders, "Gafisa" is also one of the most respected and best-known brands in the real estate market, recognized among potential homebuyers, brers, lenders, landowners, competitors, and investors for its quality, consistency, and professionalism. Our pre-eminent brands include Tenda, serving the affordable/entry level housing segment, and Gafisa and AlphaVille, which offer a variety of residential options to the mid to higher-income segments. Gafisa S.A. is traded on the Novo Mercado of the BM&FBOVESPA (BOVESPA:GFS3) and on the New York Stock Exchange (NYSE:GFA).

The fourth quarter financial statements were prepared and are being presented in accordance with the accounting practices adopted in Brazil ("Brazilian GAAP"), required for the years ended December 31, 2009. Therefore, they do not consider the early adoption of the technical pronouncements issued by CPC in 2009, approved by the Federal Accounting Council ("CFC"), required beginning on January 1, 2010. On November 10, 2009 the CVM, issued the deliberation nº 603 changed by deliberation nº 626, which provides the option for listed Companies to present 2010 quarterly information based on accounting practices in force at December 31, 2009.

**1. Operations**

Gafisa S.A. ("Gafisa" or "Company") is a publicly traded company with headquarter at Avenida das Nações Unidas, nº 8.501, 19º andar, in the City of São Paulo, State of São Paulo, Brazil and started its operations in 1997 with the objectives of: (i) promoting and acquiring all forms of real estate ventures on its own behalf or for third parties, taking into consideration that in the case of the later, as construction company and proxy; (ii) selling and purchasing real estate properties in general; (iii) carrying out civil construction and civil engineering services and (iv) developing and implementing marketing strategies related to its own or third party real estate ventures.

The Company forms jointly-controlled ventures (Special Purpose Entities - SPEs) and also participates in the formation of consortia and condominiums with third parties as a means of meeting its objectives. The controlled entities (SPEs) substantially share the managerial and operating structures and the corporate, managerial and operating costs with the Company. SPEs, condominiums and consortia operate solely in the real estate industry and are linked to specific ventures.

In the 4<sup>th</sup> quarter of 2011, the Company conducted an extensive review of its operations and business strategy, as well as those of its subsidiaries. As a result of this review, the following changes were made:

- Establishment of a new organizational structure divided into brands, with indication of the professionals responsible for the respective structures;
- Temporary reduction of the activities of the Tenda brand, until the Company is able to operate efficiently based on the fundamentals of this segment, that is, production at competitive costs (using the technology of steel structures) and immediate transfer, soon after the sale, of clients to a financial institution;

- Increase in investments in the Alphaville brand, as it is the most profitable segment of the product portfolio; and
- Focus the Gafisa brand on the markets of São Paulo and Rio de Janeiro.

**1. Operations** --Continued

As a consequence of this review and of the newly established structure, a series of measures were taken:

- Extensive review of all budgets of the costs of works in progress;
- Review of all portfolio of Tenda customers in order to confirm whether they fulfill the requirements of financial institutions; and
- Analysis of the recoverability of lands located in non-priority regions.

Because of these changes and reviews made, the Company recognized adjustments and provisions amounting to approximately R\$639,482 for 2011, of which R\$56,998 for the quarter ended March 31, 2011. Such adjustments and provisions did not produce an impact on the capital flow of the Company neither shall impact its capacity to fulfill commitments, as mentioned in Note 1 to the financial statements as of December 31, 2011.

**2. Presentation of interim financial information and summary of significant accounting practices**

The Board of Directors of the Company has power to change the individual and consolidated interim financial information ("quarterly information") of the Company after they are issued. On May 7, 2012, the Company's Board of Directors approved the individual and consolidated quarterly information of the Company and authorized their disclosure.

The individual and consolidated quarterly information were prepared and presented according to the same accounting practices adopted in the presentation and preparation, as mentioned in Note 2.1, of the financial statements for the year ended December 31, 2011, which shall be read together with this Quarterly Information.

Pursuant to CVM/SNC/SEP Circular Letter No. 03/2011, the Company states that the significant accounting judgments, estimates and assumptions, as well as the significant accounting practices are the same as those disclosed in the annual financial statements for 2011, and continue valid for the quarterly information hereof. Therefore, the corresponding information shall be read in Notes 2.1 and 2.2 of those financial statements.

Certain matters related to the meaning and application of the continuous transfer of the risks, benefits and control over the real estate unit sales have been analyzed by the International Financial Reporting Interpretation Committee (IFRIC), at the request of some countries, including Brazil. However, in view of the project for issuing a revised standard relating to revenue recognition, IFRIC has been discussing this

topic in its agenda, understanding that the concept for recognizing revenue is included in the standard that is currently under discussion. Accordingly, this issue is expected to be resolved only after the revised standard relating to revenue recognition is issued.

The individual and consolidated quarterly information was prepared based on historical cost, except if otherwise stated. The historical cost is usually based on the considerations paid in exchange for assets.

All amounts reported in this quarterly information are in thousands of Reais, except as otherwise stated.

The non-financial data included in this quarterly information, such as sales volume, contractual data, revenue and costs not recognized in units sold, economic projections, insurance and environment, were not reviewed.

Except for the loss for the period, the Company does not have other comprehensive loss or income.

The explanatory notes that did not undergo significant changes in relation to the individual and consolidated statements as of December 31, 2011 were not included in the accompanying quarterly information.

**2.1. Functional currency**

The individual and consolidated quarterly information are presented in Reais (presentation currency), which is also the functional currency of the Company and its subsidiaries.

**2.2. Consolidated interim financial information**

The consolidated interim financial information of the Company includes the financial information of Gafisa, its direct and indirect subsidiaries, and jointly-controlled companies. The control over such entities is obtained when the Company has power to control their financial and operating policies, and is able to enjoy their benefits and is exposed to the risks of their activities. The subsidiaries and jointly-controlled companies are fully and proportionally consolidated, respectively, from the date the full or shared control begins until the date it ceases. As of March 31, 2012 and December 31, 2011, the Quarterly Information and Consolidated Financial Statements include the full consolidation of the following companies, respectively:

	<b>Interest %</b>	
	<b>March 2012</b>	<b>2011</b>
Gafisa and subsidiaries (*)	100	100
Construtora Tenda and subsidiaries ("Tenda") (*)	100	100
Alphaville Urbanismo and subsidiaries ("AUSA") (*)	80	80

(\*) It does not include jointly-controlled investees, as detailed below:

The accounting practices were uniformly adopted in all companies included in the consolidated Quarterly Information and the fiscal year of these companies is the same of the Company. See further details on these subsidiaries in Note 9.

**2.3. Restatement of consolidated quarterly information at March 31, 2011**

As mentioned in Note 1, in line with the new strategic direction of the Company, during the fourth quarter of 2011, the executives who assumed the management of the operations of Gafisa and its subsidiaries Tenda and AUSA, conducted an extensive review of the budgets of construction works while reviewing the short and long-term business plan of the Company, and estimated the costs necessary for their completion. In the review process, adjustments to budgets that should have been recorded in the quarter ended March 31, 2011 were identified and that were not identified through the internal controls operating at that quarter.

We highlight that the adjustments to costs that were identified are mainly from the operational problems in the performance of construction works by franchise partners and contractors, renegotiation of supplier's contracts and project changes.

The Company's management, in order to identify the effects retroactively, reviewed the costs of construction and brickwork stages; contracts for the replacement of contractors and franchise partners, additional costs of completed units delivered and earth moving.

The retrospective effects of adjustments to the budgets of costs for quarter ended March 31, 2011, as established in CPC 23 – Accounting practices, changes in accounting estimates and errors (equivalent to IAS 8), are as follows:

	<b>Company</b>		<b>Consolidated</b>

**3. New pronouncement issued by the IASB**

As mentioned in Note 3 to the financial statements for 2011, new pronouncements, amendments to existing pronouncements and new interpretations were published and are mandatory for the years beginning January 1, 2012 or later.

The Accounting Pronouncements Committee (CPC) has not issued the respective pronouncements and amendments related to this explanatory note of the new and revised IFRS. Because of CPC and CVM's commitment to keeping the set of standards issued that were based on the updates made by the IASB updated, these pronouncements and amendments are expected to be issued by CPC and approved by CVM until the date of their mandatory application.

The Company and its subsidiaries did not make the early adoption of such amendments in their consolidated quarterly information at March 31, 2012, neither had the opportunity to assess the possible impact of the adoption of such amendments.

No new pronouncement was issued besides those disclosed in the financial statements for 2011.

(a) As of March 31, 2012, Bank Deposit Certificates (CDBs) include interest earned varying from 90% to 105% (from 75% to 110% as of December 31, 2011) of Interbank Deposit Certificates (CDI). The CDBs in which the Company invests earn interest that is usually above 98% of CDI, however, the Company invests in short term (up to 20 working days) through securities purchased under agreement to resell which interest is lower (from 75% of CDI). On the other hand, this investment is exempt from the tax on financial transactions (IOF), which is not the case of CDBs.

(b) Restricted cash in guarantee to loans are investments in fixed-income fund, whose shares are valued by investments only in federal government bonds, indexed to fixed or floating rates or price indexes, and made available when the ratio of restricted receivables in guarantee to debentures reach 120% of the debt balance (Note 12). R\$42,486 of total refers to financial investments, with fixed interest at 101% of CDI, with grace period of 90 days, related to the assignment of receivables described in Note 5(v).

(c) Restricted credits are represented by onlending of the funds from associate credit (“*crédito associativo*”), a government real estate finance aid, which are in process of approval at the Caixa Econômica Federal. These approvals are made to the extent the contracts signed with clients at the financial institutions are regularized, which the Company expects it to be released in up to 90 days.

(d) Additional Construction Potential Certificates (CEPACs). In fiscal year 2010, the Company acquired 22,000 Additional Construction Potential Certificates (CEPACs) in Seventh Session of the Fourth Public Auction conducted by the Municipal Government of São Paulo, related to the consortium of Água Espraiada urban operation, totaling R\$16,500. At March 31, 2012 and December 31, 2011, the CEPACs, recorded in the account “Other”, in the amount of R\$10,799, have liquidity, the estimated fair value approximates cost, and shall not be used in ventures to be launched in the future. During 2011, the Company allocated a portion of CEPACs to new ventures. Such issue was registered with the CVM under the No. CVM/SER/TIC/2008/002, and according to CVM Rule No. 401/2003, CEPACs are put up for public auction having as intermediary the institutions that take part in the securities distribution system.

As of March 31, 2012 and December 31, 2011, the recognized amount related to open-end and exclusive investment funds is stated as available for sale at fair value, as contra-entry to income for the period or year.

**8. Land available for sale**

The Company, in line with the new strategic direction implemented at the end of 2011, opted for selling lands not included in the business plan approved for 2012. Likewise, it devised a specific plan for the sale of such lands in 2012. The carrying amount of such land, adjusted to market value when applicable, after the test for impairment, is shown by company as follow:

<b>Company</b>	<b>Cost</b>	<b>Consolidated Provision for impairment</b>	<b>Net balance</b>

**9. Investments in subsidiaries**

In January 2007, upon acquisition of 60% of AUSA, arising from the acquisition of Catalufa Participações Ltda., a capital increase of R\$134,029 was approved upon the issuance for public subscription of 6,358,116 common shares. This transaction generated goodwill of R\$170,941 recorded based on expected future profitability, which was partially amortized exponentially and progressively up to December 31, 2008 to match the estimated profit before taxes of AUSA on accrual basis of accounting. Goodwill balance at March 31, 2012 and December 31, 2011, is R\$152,856 (Note 10).

The Company has a 80% interest in AUSA and has a commitment to purchase the remaining 20% of AUSA's capital stock based on the fair value of AUSA in 2012, the purchase consideration for which cannot yet be calculated and shall be evaluated on the future acquisition dates, and paid in cash or shares, at the Company's sole discretion.

On October 26, 2007, Gafisa acquired 70% of Cipesa. Gafisa and Cipesa created a new company, Cipesa Empreendimentos Imobiliários Ltda. ("Nova Cipesa"), in which the Company holds 70% of interest and Cipesa 30%. Gafisa made an R\$50,000 cash contribution to Nova Cipesa and acquired the shares which Cipesa held in Nova Cipesa amounting to R\$15,000, paid on October 26, 2008. The non-controlling shareholders of Cipesa are entitled to receive from the Company a variable portion corresponding to 2% of the Total Sales Value (VGV), as defined, of the projects launched by Nova Cipesa through 2014. The maximum amount of this variable portion will be R\$25,000, accordingly, the Company's purchase consideration amounted to R\$90,000. As a result of this transaction, goodwill amounting to R\$40,687 was recorded based on expected future profitability (Note 10). As of December 31, 2011, the Company recorded a provision for the non-realization of this asset in the amount of R\$10,430, considering that the goodwill, net of this provision, amounts to R\$30,257 as of March 31, 2012 (Note 10).

(i) On May 16, 2008, the Company obtained approval for its 3<sup>rd</sup> Debenture Placement Program, which allows it to place R\$ 1,000,000 in simple debentures with a general guarantee maturing in five years.

Under the 3<sup>rd</sup> Debenture Placement Program, the Company placed a series of 25,000 debentures in the total amount of R\$250,000.

(ii) On August 12, 2009, the Company obtained approval for its 6<sup>th</sup> Placement of non-convertible simple debentures in two series, which have general guarantee, maturing in two years and unit face value at the issuance date of R\$10,000, totaling R\$250,000. In May 2010, the Company amended this indenture, changing the maturity from four to ten months. In October 2010, the Company carried out the early redemption of the first series of this placement in the amount of R\$150,000.

(iii) On November 16, 2009, the Company obtained approval for its 7<sup>th</sup> Placement of nonconvertible simple debentures in a single and undivided lot, sole series, secured by a floating and additional guarantee, in the total amount of R\$600,000, maturing in five years.

(iv) On April 14, 2009, the subsidiary Tenda obtained approval for its 1<sup>st</sup> Debenture Placement Program, which allowed it to place up to R\$600,000 in non-convertible simple subordinated debentures, in a single and undivided lot, secured by a floating and additional guarantee, with semi-annual maturities between October 1, 2012 and April 1, 2014. The funds raised through the placement shall be exclusively used in the finance of real estate ventures focused only in the popular segment.

(v) On September 17, 2010, the Company obtained approval for its 8<sup>th</sup> Placement of nonconvertible simple debentures, in the amount of R\$300,000, in two series, the first maturing on October 15, 2015, and the second on October 15, 2016.

The Company has restrictive debenture covenants which limit its ability to perform certain actions, such as the issuance of debt, and that could require the early redemption or refinancing of loans if the Company does not fulfill these.

As mentioned in Note 4.2, the balance of restricted cash in guarantee to loans in investment funds in the amount of R\$334,534 at March 31, 2012 (R\$365,765 as of December 31, 2011) is pledged to cover the ratio of restrictive debenture covenants.

**12. Debentures--Continued**

As of December 31, 2011, the Company exceeded what has been established for in the restrictive covenants of the First Placement of Tenda and the Seventh Placement of Gafisa given the EBIT was lower than zero, and of the Fifth Placement of Gafisa because the ratio was higher than 75% of equity.

(a) On March 13, 2012, at the Debenture holders' Meeting, the following resolutions were approved for the First Placement of Tenda and the Seventh Placement of Gafisa:

1. Approval of a new definition of the Coverage Ratio of the Debt Service, thus amending the wording of line (n) of item 6.2.1 of the Indenture as follows:

6.2.1.

(...)

*(n) the non-compliance with the Coverage Ratio of the Debt Service, calculated according to the formula below, and determined based on the audited or reviewed consolidated financial statements of the Issuer for each quarter until (and including) the quarter ended March 31, 2014:*

Total Receivables + Unappropriated Income + Total Inventory > 1.5

Net Debt + Properties Payable + Unappropriated Cost

2. Approval of the fixed percentage, as provided for in Covenant 4.4.5 of the Indenture, from 130% to 145% (First Placement of Tenda) and 125% (Seventh Placement of Gafisa).

3. As condition to the approval of the above items, for the First Placement of Tenda, the Company shall present the approval of the personal guarantee by the Board of Directors of Gafisa, attested by the presentation of the minutes of the Board of Directors Meeting duly registered and published in the appropriated authorities, where the Parties shall amend the Indenture.

**12. Debentures--Continued**

(b) On March 28, 2012, the Debenture Holders' Meeting approved the following resolutions on the Fifth Placement of Gafisa:

1. Amend the formula provided in line "m" of item 4.12.1 of the Covenant Four of the Indenture, which will have a new wording, as mentioned below, so that the calculation of the financial ratios provided for in the Indenture for the first quarter of 2012 are made by adopting the new methodology "m), by the Issuer, while there are Debentures outstanding, with the following financial ratios and limits ("Financial Ratios and Limits"):

1. 
$$\frac{\{Total Debt - (Venture Debts + Cash and Cash Equivalents + Short term investments)\}}{Equity} \leq 75\% ;$$

2. 
$$\frac{\{Total Receivables + inventory of Finished Properties\}}{Total Debt} \geq 2.2 \text{ or } < 0 ;$$

A. For the purposes of the provisions of line (m) above:

(...)

(c) "Venture Debt" – the sum of all contracts for purpose of funding the construction and which funds provided by the National Housing System (SFH) or the Severance Indemnity Fund for Employees (FGTS). Accordingly: Venture Debt = SFH Debt + FGTS Debt".

II. Amend the interest of Debenture provided for in item 4.9.1 of the Covenant Four of the Indenture to 120% of CDI, so that the new wording of this item is as follows, and the new interest shall be effective from March 30, 2012, according to the DI released by the CETIP:

*"4.9.1. Debentures will entitle to the payment of interest equivalent to the accumulation of 120% (one hundred and twenty per cent) of the daily average rates of one-day Interbank Deposits (DI), Extra Group, expressed as a percentage per year, based on 252 (two hundred fifty two) working days, calculated and released by CETIP."*

(a) In relation to the individual financial statements, in January 2008, the Company formed an unincorporated venture (SCP), the main objective of which is to hold interest in other real estate development companies, as mentioned in Note 9 (i) (a). As of March 31, 2012, the SCP received contributions of R\$213,084 (represented by 13,084,000 Class A units of interest fully paid-in by the Company and 200,000,000 Class B units of interest from the other venture partners). The SCP will preferably use these funds to acquire equity investments and increase the capital of its investees. As a result of this operation, due to the prudence and considering that the decision to invest or not is made jointly by all members, thus independent from Company management decision, as of March 31, 2012, payables to venture partners were recognized in the amount of R\$200,000, maturing on January 31, 2014. The venture partners receive an annual declared dividend substantially equivalent to the variation in the Interbank Deposit Certificate (CDI) rate; as of March 31, 2012, the amount accrued totaled R\$3,275. The SCP's charter provides for the compliance with certain covenants by the Company, in its capacity as lead partner, which include the maintenance of minimum indices of net debt and receivables. At a meeting of the venture partners held on February 2, 2012, they decided to reduce the SCP capital by 100,000,000 Class B units and, as consequence of this resolution, the SCP paid R\$100,000 to the partners that held such units. As of March 31, 2012, the SCP and the Company is in compliance with these clauses.

**14. Payables to venture partners --Continued**

On the consolidated financial statements, in April 2010, the subsidiary Alphaville Urbanismo S.A. paid-in the capital of an entity, the main objective is the holding of interest in other companies, which shall have as main objective the development and carrying out of real estate ventures. As of March 31, 2012, this entity subscribed capital and paid-in capital reserve amounting to R\$161,720 (comprising 81,719,641 common shares held by the Company and 80,000,000 preferred shares held by other shareholders). As a result of this transaction, due to prudence and taking into consideration the rights to which the holders of preferred shares are entitled, such as payment of fixed dividends and redemption, as of March 31, 2012, payables to investors/venture partners are recognized at R\$ 80,000, with final maturity on March 31, 2014. The preferred shares shall pay cumulative fixed dividends, substantially equivalent to the variation of the General Market Prices Index (IGP-M) plus 7.25% p.a. As of March 31, 2012, the balance accrued amounts to R\$9,032. The Company's articles of incorporation sets out that certain matters shall be submitted for approval from preferred shareholders through vote, such as the rights conferred by such shares, increase or reduction in capital, use of profits, set up and use of any profit reserve, and disposal of assets. As of March 31, 2012, the Company is in compliance with the above-described clauses.

Dividends are reclassified as financial expenses in the financial statements.

(b) As part of the funding through issuance of Certificates of Bank Credit– CCB, described in Note 11, the Company and subsidiary AUSA entered into a paid usufructuary agreement in connection with 100% of the preferred shares in SPE-89 Empreendimentos Imobiliários S.A. and Alphaville Ribeirão Preto Empreendimentos Imobiliários S.A., for a period of six years, having raised R\$45,000 and R\$35,000,

respectively, recorded based on the effective interest method of amortization in the statement of operations.

## 16. Provisions for legal claims

The Company and its subsidiaries are parties to lawsuits and administrative claims at various courts and government agencies that arise from the ordinary course of business, involving tax, labor, civil lawsuits and other matters. Management, based on information provided by its legal counsel and analysis of the pending claims and, with respect to the labor claims, based on past experience regarding the amounts claimed, recognized a provision in an amount considered sufficient to cover expected losses.

(a) Civil, tax and labor claims

(i) As of March 31, 2012, the provisions related to civil claims include R\$73,755 related to lawsuits in which the Company is included as successor in enforcement actions and in which the original debtor is a former shareholder of Gafisa, Cimob Companhia Imobiliária (“Cimob”), among other companies. The plaintiff understands that the Company should be liable for the debts of Cimob. Some lawsuits, amounting to R\$6,576, are backed by guarantee insurance; in addition, there are judicial deposits amounting to R\$59,677, in connection with the restriction of the usage of the Gafisa’s bank account; and there is the restriction referring to the use of Gafisa’s treasury stock to guarantee the enforcement as well.

**16. Provisions for legal claims --Continued**

(a) Civil, tax and labor claims --Continued

The Company is filing appeals against all decisions, as it considers that the inclusion of Gafisa in the claims is legally unreasonable; these appeals aim at releasing amounts and obtaining the recognition that it cannot be held liable for the debt of a company that does not have any relationship with Gafisa. The final decision on the Company's appeal, however, cannot be predicted at present.

(ii) Subsidiary AUSA is a party to legal and administrative claims related to Excise Tax (IPI) and State VAT (ICMS) on two imports of aircraft in 2001 and 2005, respectively, under leasing agreements without purchase option. The likelihood of loss in the ICMS case is rated by legal counsel as (i) Probable in regard to the principal and interest, and (ii) Remote in regard to the fine for noncompliance with accessory liabilities. The contingency amount, rated by legal counsel as a probable loss, amounts to R\$11,959 and is provisioned at March 31, 2012.

(iii) As of March 31, 2012, the Company was a party to labor lawsuits, which had the most varied characteristics and at various court levels and is awaiting judgment. These claims corresponded to a total maximum risk of R\$119,929. Based on the opinion of the Company's legal counsel and the expected favorable outcome, as well as on the negotiation that shall be made, the provisioned amount is considered sufficient by management to cover expected losses.

As of March 31, 2012, the Company and its subsidiaries have judicially deposited the amount of R\$93,970 (R\$85,702 as of December 31, 2011) in the Company's interim financial information, and R\$119,321 (R\$108,436 as of December 31, 2011) in the consolidated interim financial information (Note 7) in connection with the aforementioned legal claims.

(iv) Environmental risk

There are various environmental laws at the federal, state and municipal levels. These environmental laws may result in delays for the Company in connection with adjustments for compliance and other costs, and impede or restrict ventures construction work. Before acquiring a piece of land, the Company assesses all necessary and applicable environmental issues, including the possible existence of hazardous or toxic materials, residual substance, trees, vegetation and the proximity of the land to permanent preservation areas. Therefore, before acquiring land, the Company obtains all governmental approvals, including environmental licenses and construction permits.

In addition, the environmental legislation establishes criminal, civil and administrative sanctions to individuals and legal entities for activities considered as environmental infringements or offense. The penalties include the stop of development activities, loss of tax benefits, confinement and penalties.

(v) Lawsuits in which likelihood of loss is rated as possible

In addition, as of March 31, 2012, the Company and its subsidiaries are parties to other lawsuits and civil, labor and tax contingencies. According to the opinion of the legal counsel, the likelihood of loss is rated as possible, in the amount of R\$547,861 (R\$489,549 as of December 31, 2011), based on average past outcomes adjusted to current estimates, for which the Company's Management believes it is not necessary to recognize a provision for occasional losses.

(b) Payables related to the completion of real estate ventures

The Company and its subsidiaries are committed to deliver real estate units that will be built in exchange for the acquired land, and to guarantee the release of financing, in addition to guaranteeing the installments of the financing to clients over the construction period.

The Company is also committed to completing units sold and to comply with the Laws regulating the civil construction sector, including the obtainment of licenses from the proper authorities, and compliance with the terms for starting and delivering the ventures, being subject to legal and contractual penalties.

As described in Note 4, at March 31, 2012, the Company and its subsidiaries have resources approved and recorded as financial investments guaranteed which will be released as ventures progress in the total amount of R\$69,754, in the Company's interim financial information, and R\$81,259, in the consolidated interim financial information, to meet these commitments.

(c) Commitments

In addition to the commitments mentioned in Notes 6, 11 and 12, the Company has the following other commitments:

(i) The Company has contracts for the rental of 28 real estates where its facilities are located, the monthly cost amounting to R\$1,123 adjusted by the IGP-M/FGV variation. The rental term is from 1 to 10 years and there is a fine in case of cancelled contracts corresponding to three-month rent or in proportion to the contract expiration time.

(ii) As of March 31, 2012, the Company, through its subsidiaries, has long-term obligations in the amount of R\$19,510 (R\$24,858 as of December 31, 2011), related to the supply of the raw material used in the development of its real estate ventures.

(i) Gafisa

The Company's Management uses the Binomial and Monte Carlo models for pricing the options granted because of its understanding that these models are capable of including and calculating with a wider range of the variables and assumptions comprising the plans of the Company.

A total of six stock option plans are offered by the Company. The first plan was launched in 2000 and is managed by a committee that periodically creates new stock option plans, determining their terms, which, among others: (i) Define the length of service that is required for employees to be eligible to the benefits of the plans, (ii) Select the employees that will be entitled to participate, and (iii) Establish the purchase prices of the shares to be exercised under the plans.

The Company and its subsidiaries record the amounts received from employees in an account of advances in liabilities. No advances were received in the quarter ended March 31, 2012 and in the year ended December 31, 2011.

As of March 31, 2012 and December 31, 2011, the changes in the number of stock options and corresponding weighted average exercise prices are as follows:

(ii) Tenda

Subsidiary Tenda has a total of three stock option plans - the first two were approved in June 2008, and the other one in April 2009. These plans, limited to maximum 5% of total capital shares and approved by the Board of Directors, stipulate the general terms, which, among others: (i) define the length of service that is required for employees to be eligible to the benefits of the plans, (ii) select the employees that will be entitled to participate, and (iii) establish the purchase prices of the preferred shares to be exercised under the plans.

In the quarter ended March 31, 2012, Tenda recorded stock option plan expenses amounting to R\$145 (R\$553 as of March 31, 2011).

Due to the acquisition by Gafisa of the total shares outstanding issued by Tenda, the stock option plans related to Tenda shares were transferred to Gafisa, responsible for share issuance. As of March 31, 2012, the amount of R\$14,203, related to the reserve for granting options of Tenda is recognized under the

account "Intercompany" of Gafisa.

(iii) AUSA

Subsidiary AUSA has three stock option plans - the first one launched in 2007.

On June 1, 2010, two new stock option plans were issued by the Company for granting a total of 738 options. The assumptions adopted in the recognition of the stock option plan for 2010 were the following: expected volatility at 40% and risk-free interest rate at 9.39%. The volatility was determined based on the regression analysis of the relation between the estimated volatility of Gafisa and that of Ibovespa.

**18. Equity --Continued**

**18.3. Stock option plan --Continued**

On April 1, 2011, a stock option plan was launched by the Company, granting a total of 364 options. The assumptions adopted in the recognition of the stock option plan for 2010 were: expected volatility at 40%, and risk-free interest rate at 10.64%. The volatility was determined based on the regression analysis of the relation between the estimated volatility of Gafisa and that of Ibovespa.

As of March 31, 2012 and December 31, 2011, the changes in the number of stock options and their corresponding weighted average exercise prices for the year are as follows:

	2012		2011	
	Number of	Weighted average	Number of	Weighted average
	Options	exercise price (Reais)	options	price (Reais)
Options outstanding at the beginning of the period/year	1,629,000	10.48	1,932,000	8.01
Options granted	-	-	364,000	10.48
Options exercised	-	-	(133,000)	7.81

Options cancelled /sold	-	- (534,000)	7.61
Options outstanding at the end of the period/year	<b>1,629,000</b>	<b>10.48</b> 1,629,000	10.48

The dilution percentage at March 31, 2012 was 0.0005%, corresponding to earnings per share after dilution of R\$0.234057 (R\$0.234056 before dilution).

The market value of each option granted was estimated at the grant date using the Binomial option pricing model.

AUSA recorded expenses for the stock option plan amounting to R\$334 in the quarter ended March 31, 2012 (R\$274 in 2011).

Tax expenses - current	<b>(13,820)</b>	(8,150)
Tax expenses - deferred	<b>(6,319)</b>	27,008

(ii) Deferred income and social contribution taxes

The Company recognized tax assets on losses on income and social contribution taxes carryforwards for prior years, which do not have maturity term, and which offset is limited to 30% of annual taxable profit, at the extent the taxable profit is likely to be available for offsetting temporary differences, based on the assumptions and conditions established in the business model of the Company.

The initial recognition and subsequent estimates of deferred income tax are carried out when it is probable that a taxable profit for the following years will be available to be used to offset the deferred tax asset, based on projections of results prepared and on internal assumptions and future economic scenarios that enable its total or partial use should a full credit be recognized. As of March 31, 2012 and December 31, 2011, the Company did not recognize any deferred tax assets calculated on the tax loss. In the quarter ended March 31, 2012, there was no change in the retained earnings scenario.

## 20. Financial instruments

The Company and its subsidiaries participate in operations involving financial instruments. These instruments are managed through operational strategies and internal controls aimed at liquidity, return and safety. The use of financial instruments with the objective of hedging is made through a periodical analysis of exposure to the risk that the management intends to cover (exchange, interest rate, etc.) which is approved by the Board of Directors for authorization and performance of the proposed strategy. The policy on control consists of permanently following up the contracted conditions in relation to the conditions prevailing in the market. The Company and its subsidiaries do not invest for speculation in derivatives or any other risky assets. The result from these operations is consistent with the policies and strategies devised by Company management. The Company and its subsidiaries operations are subject to the risk factors described below:

**20. Financial instruments --Continued**

(i) Risk considerations

a) *Credit risk*

The Company and its subsidiaries restrict their exposure to credit risks associated with cash and cash equivalents, investing in financial institutions considered highly rated and in short-term securities.

With regards to account receivable, the Company restricts its exposure to credit risks through sales to a broad base of customers and ongoing credit analysis. Additionally, there is no history of losses due to the existence of liens for the recovery of its products in the cases of default during the construction period. As of March 31, 2012 and December 31, 2011, there was no significant credit risk concentration associated with clients.

b) *Derivative financial instruments*

The Company adopts the policy of participating in operations involving derivative financial instruments with the objective of mitigating or eliminating currency, index and interest rate risks to its operations, when considered necessary.

The Company holds derivative instruments to mitigate its exposure to index and interest volatility recognized at their fair value directly as part of the year income. Pursuant to its treasury policies, the Company does not own or issue derivative financial instruments other than for hedging purposes.

(i) Risk considerations --Continued

c) *Interest rate risk*

This arises from the possibility that the Company and its subsidiaries earn gains or incur losses because of fluctuations in the interest rates of its financial assets and liabilities. Aiming at mitigating this kind of risk, the Company and its subsidiaries seek to diversify funding in terms of fixed and floating rates. The interest rates on loans, financing and debentures are disclosed in Notes 11 and 12. The interest rates contracted on financial investments are disclosed in Note 4. Account receivable from real estate units delivered (Note 5), are subject to annual interest rate of 12%, appropriated on a pro rata basis.

d) *Liquidity risk*

The liquidity risk consists of the possibility that the Company and its subsidiaries do not have sufficient funds to meet their commitments in view of settlement terms of their rights and obligations.

To mitigate the liquidity risks and optimize the weighted average cost of capital, the Company and its subsidiaries permanently monitor the indebtedness levels according to the market standards and the fulfillment of covenants provided for in loan, financing and debenture agreements, in order to guarantee that the operating-cash generation and the advance funding, when necessary, are sufficient to maintain the schedule of commitments, not posing liquidity risk to the Company or its subsidiaries (Note 12).

The maturities of financial instruments, loans, financing, suppliers and debentures are as follows:

Fair value classification

The Company uses the following classification to determine and disclose the fair value of financial instruments by the valuation technique:

Level 1: quoted prices (without adjustments) in active markets for identical assets or liabilities;

Level 2: other techniques for which all data that may have a significant effect on the recognized fair value is observable, direct or indirectly;

Level 3: techniques that use data which has significant effect on the recognized fair value, not based on observable market data.

The classification level of fair value for financial instruments measured at fair value through profit or loss of the Company, presented as of March 31, 2012 and December 31, 2011:

(ii) Fair value of financial instruments

a) *Fair value measurement*

The following estimate fair values were determined using available market information and proper measurement methodologies. However, a considerable amount of judgment is necessary to interpret market information and estimate fair value. Accordingly, the estimates presented in this document are not necessarily indicative of amounts that the Company could realize in the current market. The use of different market assumptions and/or estimates methodology may have a significant effect on estimated fair values.

The following methods and assumptions were used in order to estimate the fair value for each financial instrument type for which the estimate of values is practicable.

- (i) The amounts of cash and cash equivalents, short-term investments, accounts receivable and other receivables, suppliers, and other current liabilities approximate to their fair values, recorded in the financial statements.
- (ii) The fair value of bank loans and other financial debts is estimated through future cash flows discounted using rates that are annually available for similar and outstanding debts or terms.

a) *Risk of debt acceleration*

As of March 31, 2012, the Company has loans and financing in effect, with restrictive covenants related to cash generation, indebtedness ratio and other. These restrictive covenants have been complied with by the Company and do not limit its ability to conduct its business as usual.

b) *Market risk*

The Company carries out the development, construction and sales of real estate ventures. In addition to the risks that affect the real estate market as a whole, such as supply disruptions and volatility in the prices of construction materials and equipment, changes in the supply and demand for ventures in certain regions, strikes and environmental rules and zoning, the Company's operations are particularly affected by the following risks:

- The situation of the economy in Brazil, which may inhibit the development of the real estate industry as a whole, through the slowdown in economy, increase in interest rates, fluctuation of currency and political instability, besides other factors.

b) *Market risk* --Continued

- Impediment in the future, as a result of a new regulation or market conditions, to adjust for inflation receivables using certain inflation indexes, as currently permitted, which could make a venture financially or economically unviable.
- The level of interest of buyers in a new venture launched or the sale price per unit necessary to sell all units may be below expectations, making the venture less profitable than expected.
- In the event of bankruptcy or significant financial difficulties of a large company of the real estate industry, the industry as a whole may be adversely affected, which could decrease the customer confidence in other companies operating in the industry.
- Local and regional real estate market conditions, such as oversupply, land shortage or significant increase in land acquisition cost.
- Risk of buyers having a negative perception of the security, convenience and activities of the Company's properties, as well as about their location.

- The Company's profit margins may be affected by the increase in operating costs, including investments, insurance premium, real estate taxes and government rates.
- The opportunities for development may decrease.
- The building and sale of real estate units may not be completed as scheduled, thus increasing the construction costs or cancelled contracts of sale contracts.
- Delinquency after the delivery of units acquired on credit. The Company has the right to file a collection action to receive the amounts due and/or repossess the real estate unit from the delinquent buyer, not being possible to guarantee that it will be able to recover the total amount of the debt balance or, once the real estate unit is repossessed, its sale in satisfactory conditions.

- Occasional change in the policies of the National Monetary Council (CMN) on the investment of funds in the National Housing System (SFH) may reduce the supply of financing to customers.
- Drop in the market value of land held in inventory, before the development of a real estate venture to which it was intended, and the incapacity to maintain the margins that were previously projected for such developments.

(iii) Capital stock management

The objective of the Company's capital stock management is to guarantee a strong credit rating is maintained in institutions and an optimum capital ratio, in order to support the Company's business and maximize value to shareholders.

The Company controls its capital structure by making adjustments and adapting to current economic conditions. In order to maintain its structure adjusted, the Company may pay dividends, return on capital of shareholders, raise new loans and issue debentures, among others.

There were no changes in objectives, policies or procedures during the quarter ended March 31, 2012.

(iv) Sensitivity analysis

The chart shows the sensitivity analysis of financial instruments for the period of one year, except swap contracts, which are analyzed through their due dates, describing the risks that may incur material losses on the Company's result, as provided for by CVM, through Rule No. 475/08, in order to show a 25% and 50% increase/decrease in the risk variable considered.

At March 31, 2012, the Company has the following financial instruments:

- a) Short-term investments, loans and financing, and debentures linked to Interbank Deposit Certificates (CDI);
- b) Loans and financing and debentures linked to the Referential Rate (TR);
- c) Trade accounts receivable, linked to the National Civil Construction Index (INCC).

To the sensitivity analysis of the interest rates of investments, loans and accounts receivables, the Company considered the CDI rate at 9.66%, the TR at 1.40%, the INCC rate at 8.10%, the General Market Prices Index (IGP-M) at 3.23% and the National Consumer Price Index – Extended (IPCA) at 5.24%.

The scenarios considered were as follows:

*Scenario I:* 50% increase in the variables used for pricing

*Scenario II:* 25% increase in the risk variables used for pricing

*Scenario III:* 25% decrease in the risk variables used for pricing

*Scenario IV:* 50% decrease in the risk variables used for pricing

(a) Refers to operations in third-party's works.

(b) Refers to transactions between the consortium leader and partners and condominiums.

(c) The Company participates in the development of real estate ventures with other partners, directly or through related parties, based on the formation of condominiums and/or consortia. The management structure of these enterprises and the cash management are centralized in the lead partner of the enterprise, which manages the construction schedule and budgets. Thus, the lead partner ensures that the investments of the necessary funds are made and allocated as planned. The sources and use of resources of the venture are reflected in these balances, observing the respective interest of each investor, which are not subject to indexation or financial charges and do not have a fixed maturity date. Such transactions aim at simplifying business relations that demand the joint management of amounts reciprocally owed by the involved parties and, consequently, the control over the change of amounts reciprocally granted which

offset against each other at the time the current account is closed. The average term for the development and completion of the projects in which the resources are invested is between 24 and 30 months. The Company receives a compensation for the management of these ventures.

(ii) Commercial operations

In the quarter ended March 31, 2012, no commercial operations were carried out by units sold to the Management and the total receivable is R\$4,668 thus far.

(iii) Profit sharing

The Company has a profit sharing plan that entitles its employees and those of its subsidiaries to participate in the distribution of profits of the Company that is tied to a stock option plan and the achievement of specific targets, established and agreed-upon at the beginning of each year. The recognition of the provision for the Company bonus takes into consideration two metrics: (1) generation of cash from operations and (2) indebtedness ratio (net debt / equity). As of March 31, 2012, the Company recorded a provision for profit sharing amounting to R\$6,250 in the Company's interim financial information and R\$13,327 in the consolidated interim financial information (R\$2,133 in 2011) under the account "general and administrative expenses" (Note 23).

**26. Insurance**

Gafisa S.A. and its subsidiaries maintain insurance policies against engineering risk, barter guarantee, guarantee for completed unit and civil liability related to unintentional personal damages caused to third parties and material damages to tangible assets, as well as against fire hazards, lightning strikes, electrical damages, natural disasters and gas explosion. The contracted coverage is considered sufficient by

management to cover possible risks involving its assets and/or responsibilities.

The assumptions adopted, given their nature, are not included in the scope of the auditor's review of quarterly information.

**28. Segment information --Continued**

The Company's chief executive officer, who is responsible for allocating resources to businesses and monitoring their progresses, uses economic present value data, which is derived from a combination of historical and forecasted operating results. The Company provides below a measure of historical profit or loss, segment assets and other related information for each reporting segment.

This information is gathered internally in the Company and used by management to develop economic present value estimates, provided to the chief executive officer for making operating decisions, including the allocation of resources to operating segments. The information is derived from the statutory accounting records which are maintained in accordance with the accounting practices adopted in Brazil. The reporting segments do not separate operating expenses, total assets and depreciation. No revenues from an individual client represented more than 10% of net sales and/or services.

**29. Subsequent events**

a) Default on the CCB restrictive covenants and waiver

In April 2012, the Company was in default on the restrictive covenants of a CCB in the amount of R\$100,000 because of the corporate rating downgrading. Immediately thereafter, the Company negotiated and obtained from the financial institution a waiver related to early redemption in view of the non-compliance of the contractual covenant.

b) Annual Shareholders' Meeting of the subsidiary Construtora Tenda S.A.

On April 27, 2012, the Annual Shareholders' Meeting of the subsidiary Tenda was held, in which the following main resolutions were taken: (i) approval of the financial statements for the year ended December 31, 2011; (ii) election of members to the Board of Directors and to the Fiscal Council; and (iii) setting of the annual aggregate amount to be distributed among its key management personnel and fiscal council members.

**Comments on Company's Business Projections**

**OUTLOOK**

With the introduction of a new strategy and organizational structure, Gafisa is already making progress toward achieving its 2012 guidance. Launches for 2012 are expected to be between R\$2.7 and R\$3.3 billion, reflecting a new, more targeted regional focus and the deliberate slowdown of the Tenda business. Gafisa should represent 50%, Tenda 10% and AlphaVille 40% of launches. For the first quarter of 2012, the Gafisa Group launched R\$464 million.

The Gafisa Group plans to deliver between 22,000 and 26,000 units in 2012 of which 30% will be delivered by Gafisa, 50% by Tenda and the remaining 20% by AlphaVille. During the first quarter of 2012, the Company delivered 6,165 units and transferred 2,793 Tenda units to financial institutions.

Finally, the Company expects to generate between R\$500 million and R\$700 million in operating cash flow for the full year of 2012. At March 31, 2012, the Company had R\$947 million in cash and cash equivalents. The key drivers of cash flow generation include: (i) our ability to deliver units at Gafisa; (ii) the transfer of Tenda units to financial institutions; (iii) the sale of inventory; (iv) the securitization of receivables; (v) the sale of non-strategic land.
