Highlights

- **Total accesses** reached 91.1 million in the quarter (+0.3% y-o-y), 76.2 million of which was in the mobile business and 14.9 million in the fixed-line business;
- **Fixed voice accesses** recorded growth (+13 thousand accesses in 2Q13 over 1Q13), for the first time since 3Q10;
- Growth in **fixed broadband services net adds**, recording 84 thousand in 2Q13, which represents 4 times the amount recorded in 1Q13. Growth in additions at higher speeds, with the FTTH customer base having reached 145 thousand in the quarter, 16% higher in relation to 1Q13;
- Positive quarterly growth in **TV accesses** (+4.1% q-o-q), excluding, in both periods, mandatory disconnections in MMDS technology, reversing the quarterly drop since 4Q11;
- Consistent leadership in the mobile higher revenue segments, recording growth in **postpaid accesses**, (+20.4% y-o-y in 2Q13 over +17.4% y-o-y in 1Q13). Strong improvement in the customer mix, being 27.1% of the accesses base in the postpaid segment, +1.5 p.p. above 1Q13;
- **Mobile ARPU** registered growth of 4.1% y-o-y, stimulated by the 23.4% growth in Data ARPU in the period;

- **Total Net Revenue** recorded growth of 3.0% y-o-y in the quarter. It must be pointed out that, in April/13, a reduction of the MTR by -11.8% and of the VC by -8.8% became effective. Excluding the regulatory effect the annual growth would be 4.6% in the quarter;

- **Fixed Service Revenue** recorded substantial improvement in the annual variation recording -5.2% y-o-y in 2Q13 (-4.1% excluding the effect of the reduction in the VC) over -8.9% in 1Q13;

- **Mobile Services Revenue** recorded variation of 5.2% compared to 2Q12. Excluding the effect of the MTR reduction in April/13, such variation would be 7.1% y-o-y;

- Year-to-date **Recurrent EBITDA** recorded R\$ 5.3 billion with **EBITDA Margin** of 31.3% (-2.0 p.p. y-o-y) in the semester;

- **Net Income** in 2Q13 recorded growth of 13% when compared to 1Q13;

- **Investments** of R\$ 1.3 billion in the quarter, equivalent to 15% of the Net Revenue, focusing on quality, 3G Plus and 4G coverage and fiber expansion;

- **Corporate reorganization** process concluded after ANATEL's consent and approval by the Special Shareholders' Meeting, simplifying the corporate structure and accelerating the operating integration process.

Note: (1) y-o-y: annual variation and (2) q-o-q: quarterly variation.

- **Total accesses** increased by 0.6% over 2Q12, closing the quarter with 76,200 thousand accesses. Worthy of mention the postpaid segment, which grew by 20.4% with 20,685 thousand accesses, increasing the postpaid customer mix which reaches 27.1%, an increase of 4.5 p.p. in the annual comparison.
- **Total market share** recorded a slight annual reduction by reaching 28.7% (-0.9 p.p. y-o-y) due to our selective commercial policy in prepaid. **In the postpaid market** Telefônica Brasil achieved 73.5% of the net additions in June, recording a market share of 37.8% (+1.2 p.p. y-o-y), reflecting the quality differential presented by the Company. In 4G technology Vivo holds 46.8% of the market share.
- Vivo led the market of **Data cards** with 48.1% market share, due to its differentiated 3G and HSPA+ coverage nationwide.

- In the **machine-to-machine (M2M)** market the customer base came to 1.8 million customers in 2Q13, a growth of 27.4% q-o-q.
- In 2Q13, the **mobile net additions** recorded 212 thousand accesses, having the postpaid net additions recorded 1,167 thousand accesses, double the number registered in 2Q12. During the quarter, the Company turned its commercial policy for disconnection of prepaid customers more restrict, constantly focused on profitability, reducing to 30 days without traffic and complying with the rule of 60 days after expiration of the recharge.
- The R\$ 22.8 **ARPU** represents a growth of 4.1% over 2Q12, mainly due to the increase in the data revenues. Excluding the regulatory impact, the ARPU would have recorded an annual growth of 6.0% in the period.

- The financial volume of **Recharges** presented again a strong growth in the quarter (+9.2% y-o-y), despite an annual reduction of 5.2% in the prepaid customer base demonstrating the effectiveness of our prepaid disconnection action with no impact on recharges.

Net handset revenues	321.2	365.8	(12.2)	168.5	90.6	687.0	349.9	96.4

Note: In order to better reflect the performance of the integrated Company, revenues are presented after *intercompany*. Additionally, the Mobile Net Revenue considers the allocation of long distance revenues per call origination.

Net operating mobile revenues in the quarter recorded a growth of 8.0% in the annual comparison, driven by the increase in the data services revenue in addition to higher sales of smartphones, which stimulated handset revenues. The mobile service revenue grew by 5.2%, when compared to the same period of last year. Excluding the regulatory effect, the mobile net service revenue growth would be 7.1% y-o-y.

Access and usage revenues increased by 2.8% y-o-y, driven by the continued growth in prepaid recharges and by the increase in the postpaid customer base with the “*Vivo Ilimitado*” plans.

Network usage revenues decreased by 17.2% compared to 2Q12 mainly due to the reduction of MTR. By normalizing this effect, such reduction would be 7.4%. In the q-o-q comparison, a drop of 13.8% was recorded also due to the drop in the MTR.

Data and VAS (Value Added Services) revenues continued to record a good performance, with growth of 24.7% y-o-y. This is mainly due to the growth in sales of 3G and 3G Plus data packages tied to smartphones, and the increased sales of data packages to prepaid customers. In the quarter, Data and VAS revenues accounted for 32% of the net mobile services revenue, an annual growth of 5 p.p.. Considering outgoing revenue only, data and VAS would represent 38.0% in 2Q13.

Mobile internet revenues continued to accelerate, recording an increase of 35.7% in the y-o-y comparison and 12.6% in q-o-q comparison, accounting for 54% of data revenue in 2Q13. This performance is directly driven by the strong growth in the postpaid and data segments and by the increased sales of modems and smartphones data plans, especially the 3G Plus plans. In the postpaid individual customers segment, 70% of the customers own smartphones.

SMS revenues increased by 4.8% y-o-y, due to sales of unlimited packages in the postpaid plans (R\$ 10/month), higher SMS penetration in the *Vivo Sempre* campaign (R\$ 0.05/sms), as well as inclusion of off-net SMS in postpaid plans.

Data and VAS Other Revenues increased by 33.4% y-o-y, driven by *Vivo som de chamada* services, *Vivo Segurança Online* and by the education platform which recorded significative growth in the quarter.

The strong annual increase of 90.6% in the **mobile handset revenues** is mainly explained by the growth in smartphone sales, increased net addition of postpaid clients, and by the change in the sales model for SME segment.

- **Fixed-line** accesses recorded a growth of 0.5% in relation to the previous quarter, totaling 14,941 thousand accesses in 2Q13, driven by a better performance in all the fixed services.
- **Fixed voice** accesses recorded a growth of 0.1% in the quarter, totaling 10.6 million in 2Q13, and recording a drop in the annual trend of reduction in the fixed voice accesses. Corporate accesses remained its performance of the previous quarters and recorded a growth of 5% y-o-y.
- **Fixed broadband** accesses recorded 3,837 thousand customers in 2Q13, a growth of 3.2% over last year, recording 84 thousand net additions, which is 4 times more than it was recorded in 1Q13, with acceleration in the additions at higher speeds. In this respect, 80% of the additions were above 4mbps and the FTTH connections already records 145 thousand accesses in the quarter.
- **Pay TV** accesses recorded a reduction of 5.0% q-o-q, recording 537 thousand subscribers at the end of the quarter, a consequence of the disconnection of MMDS customers due to the occupation of the spectrum by 4G operators. Excluding the impact of MMDS in the customer base, there would be a growth of 4.1% over 1Q13, thus reverting the trend of drop in this service. This result already reflects the selective relaunching of the DTH TV services in some regions of São Paulo, which occurred in early June/13, and the acceleration of the IPTV platform.

Note: In order to better reflect the performance of the integrated Company, revenues are presented after *intercompany*. Additionally, the Net Operating Fixed Revenue considers the allocation of long distance revenue according to origin and the allocation of revenues arising from FWT solution (“Vivo Fixo” and “Vivo Box”).

Fixed-line net revenues recorded an annual reduction of 5.2%, reducing the drop level recorded in previous quarters. Such variation is mainly due to the reduction in fixed voice revenues and reduction in fixed to mobile tariff (VC) last April. Excluding this effect, the reduction in the period would be 4.1%.

Voice and accesses revenues decreased by 9.5% in relation to 2Q12, due to the fixed to mobile substitution and regulatory impacts. This reduction was smaller in 3.9 p.p. when compared to the drop recorded in 1Q13. Excluding the VC reduction, the variation would be -7.5% y-o-y. In the q-o-q comparison, this revenue remained stable, something that had not been recorded since 3Q12. These variations already reflect initiatives towards acquiring and retaining fixed customers, which the Company has been implementing in the last months.

Network usage revenues increased by 2.0% in comparison to 2Q12 and 4.7% in comparison to the previous quarter.

Data revenues grew 2.5% y-o-y, +2.3 p.p. in relation to 1Q13. The Company has adopted actions for increasing broadband services revenue, including: improvement of the speed mix of our ADSL base and expansion of our fiber customer base.

In 2Q13, **Pay TV** revenues reduced by 24.3% y-o-y and by 5.9% in relation to 1Q13, reflecting disconnection of MMDS customers.

Other services revenues increased by 6.1% y-o-y and 7.4% q-o-q reflecting an increase in hardware sales for corporate SME segments.

Operating costs recorded growth of 14.9% y-o-y and of 1.9% q-o-q, totaling R\$ 5,916.0 million in 2Q13, without considering depreciation and amortization expenses. This variation is mainly due to the selling efforts made towards improving the fixed business performance and increasing the mobile customer base, with focus

on value generation, in addition to the sales of assets in 2Q12, which reduced the comparison basis. Excluding the non-recurring effects costs would have grown 8.8% in the y-o-y comparison.

Personnel costs in 2Q13 recorded a growth in the y-o-y comparison of 3.7%, due to the collective bargaining implemented in January/13. In the q-o-q comparison, a 18.5% reduction was recorded due to the organizational restructuring action carried out in 1Q13. Excluding this effect, the q-o-q comparison would record a reduction of 6.3%, already partially evidencing the result of the Spontaneous Dismissal Program.

The **cost of services rendered** in 2Q13 grew by 13.0% in relation to the same period of last year, due to a reversal of contingencies carried out in 2Q12, which reduced the comparison basis, partially offset by the reduction in the MTR occurred in April/13. Excluding these effects, the increase would be 5.7%, due to increased rent expenses (impacted by the towers sales), network maintenance (focused on quality and coverage increase), expenses with data partners (due to higher number of applications offered to our customer base), in addition to the increase in rent of last-mile for expansion of the sale of fixed corporate services outside the State of São Paulo. The quarterly variation remained almost stable, increasing by 0,3%.

The **cost of goods sold** in 2Q13 grew by 33.8% in relation to 2Q12. This variation is due to the growing sales of smartphones, which is a result of higher sales of postpaid and data plans, and because of the change in our sales model for SME segment, in addition to the increase in hardware sales for corporate segments.

Selling expenses recorded an increase of 13.9% y-o-y, affected by the launching of Vivo brand in 2Q12. If we exclude such effect, the annual variation would be 18.6%, mainly due to the selling efforts towards the fixed business, focusing on growth, in addition to the increase in the postpaid mobile customer base, supported by a commercial policy focused on value generation. The annual increase in third party services is due to greater expenses with call center and advertising related to the relaunching of DTH and efforts towards attracting and retaining fixed customers, as well as higher commissioning, resulting from increased gross adds in mobile data and postpaid plans.

The **Provision for Doubtful Accounts (PDA)** totaled R\$ 199.0 million in 2Q13, maintaining the rate of 1.6% of the total gross revenues recorded in the previous quarter and increasing 0.3 p.p. when compared to the percentage of such account in 2Q12. The Company keeps a strict control over the collecting actions and continuous refinement in the credit concession to maintain the default levels under control.

General and administrative expenses decreased by 10.9% in 2Q13 when compared to 2Q12, mainly due to reductions in rents and maintenance expenses.

Other net operating revenues (expenses) recorded expenses of R\$ 61.2 million in 2Q13, mainly due to the increase in provisions for contingencies inherent to the business, partially offset by the sales of towers in the amount of R\$ 79.6 million.

Ebitda

EBITDA (earnings before interest, taxes, depreciation and amortization) totaled R\$ 2,575.5 million in 2Q13, with **EBITDA Margin** of 30.3%. This result was affected by the sale of towers in the quarter, generating revenues of R\$ 79.6 million. Excluding this effect, the EBITDA margin would have been 29.4% in the quarter, an annual variation of -3.7 p.p., compared to the 2Q12 adjusted margin of 33.1%, which was positively impacted by R\$ 361.6 million (revenue from sale of towers in the amount of R\$ 181.6 million, expense with brand unification of R\$ 64.0 million, and reversal of contingencies of R\$ 244.0 million).

(*) Amortization of intangible assets generated by the incorporation of Vivo into Telefônica as of 2Q11.

Depreciation and amortization recorded an increase of 7.1% y-o-y. This increase is mainly related to the acceleration of the MMDS depreciation due to the discontinuity of this technology.

In 2Q13, the **net financial result** increased by R\$ 6.8 million when compared to 2Q12, mainly due to the expenses with PIS and Cofins arising from interest on shareholders equity deliberated by the subsidiary Vivo S.A. in June/13.

Net Income

The **Net Income** of R\$ 914.2 million in 2Q13 increased by 12.8% over 1Q13, mainly due to the posting of R\$ 320 million of deferred income tax, explained by the tax credits arising out of the consolidation of the subsidiaries. This effect was partially offset by lower EBITDA due to commercial efforts made in 2Q13.

The **operating cash generation** in 2Q13 was R\$ 1,968.6 million, an increase of R\$ 115.9 million over 2Q12. **Cash in investment activities** recorded an increase of R\$ 1,293.3 million in the period mainly due to the payment of the second installment of the 4G license acquisition. As a consequence, the **cash flow after investment activities** recorded a negative R\$ 63.8 million in 2Q13, an annual reduction of R\$ 1,177.4 million. The cash used in **financing activities** recorded a decrease of R\$ 3,281.7 million due to the issue of debentures in April/13, as long as the lower volume of dividends and interest on shareholders equity payment in 2Q13.

In comparison with 2012, the **operating cash generation** year to date increased by R\$ 294.5 million. The **cash used in investment activities** increased by R\$ 611.1 million mainly due to the payment of the second installment of the 4G license acquisition, having this effect been partially compensated by the greater generation of funds from the sale of assets. Thus, the **cash flow after investment activities** year to date recorded R\$ 1,356.7 million. The cash used in **financing activities** presented a reduction of R\$ 1,802.3 million mainly due to the issue of debentures.

The Company closed 2Q13 with **gross debt** of R\$ 8,991.0 million, 19.0% of which is denominated in foreign currency. The increase of 63.7% in relation to 2Q12 is mainly related to the issue of debentures of R\$ 2.0 billion in September/12 and R\$ 1.3 billion in April/13.

The **net debt** totaled R\$ 523.6 million by the end of 2Q13, representing 0.04 of the EBITDA in the last 12 months. In comparison with 2Q12, the net debt recorded a reduction of 83.5%, mainly explained by the cash generation of the Company. Foreign exchange exposure of the debt is 100% covered by hedge transactions.
