**REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION**

To the Shareholders, Board of Directors and Management of

Companhia Brasileira de Distribuição

São Paulo - SP

**Introduction**

We have reviewed the accompanying individual and consolidated interim financial information of Companhia Brasileira de Distribuição (the “Company”), included in the Interim Financial Information Form (ITR), for the quarter ended March 31, 2015, which comprises the balance sheet as of March 31, 2015 and the related statements of income, comprehensive income, changes in shareholders’ equity and cash flows for the three-month period then ended, including the explanatory notes.

The Company’s Management is responsible for the preparation of this individual and consolidated interim financial information in accordance with technical pronouncement CPC 21 (R1) - Interim Financial Information and the international standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB, as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

**Scope of review**

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion on interim financial information**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual and consolidated interim financial information included in the Interim Financial Information (ITR) referred to above was not prepared, in all material respects, in accordance with technical pronouncement CPC 21 (R1) and international standard IAS 34, applicable to the preparation of Interim Financial Information (ITR), and presented in accordance with the standards issued by CVM.

---

**Other matters**

*Statements of value added*

We have also reviewed the individual and consolidated interim statements of value added (DVA) for the three-month period ended March 31, 2015, prepared under the responsibility of the Company's Management, the presentation of which is required by the standards issued by CVM applicable to the preparation of Interim Financial Information (ITR) and considered as supplemental information for International Financial Reporting Standards - IFRS, which do not require the presentation of these statements. These statements were subject to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, consistently with the individual and consolidated interim financial information taken as a whole.

The accompanying interim financial information has been translated into English for the convenience of readers outside Brazil

Includes revenue from the leasing of commercial centers, prior periods were reclassified for comparability purposes; **(3)** Cnova: Cnova Brasil + Cdiscount Group. Includes revenue from commissions in the marketplace, not considering merchandise volume; **(4)** It includes revenues from intercompany operations. Apart from the closure of 42 stores between 2Q14 and 1Q15, in compliance with CADE, the growth was 0.1% in the quarter.

### Sales Performance - Consolidated

Consolidated net sales in the quarter amounted to R\$17.2 billion, increasing 14.8%, reflecting the opening of 211 new stores in the last 12 months and same-store sales growth of 4.0%. Excluding the effects from the Cdiscount consolidation, net sales grew 5.9% in the period.

In the food segment (Multivarejo + Assaí), net sales grew 8.0%, while in the non-food segment (Via Varejo + Cnova) net sales grew 23.5% (3.6% excluding Cdiscount), reflecting the more cautious behavior of consumers due to the macroeconomic environment.

Same-store sales increased 4.0%, with the highlights for Cnova (19.5%) and the Food segment (3.7% vs. 1.0% in 4Q14), which has accelerated driven by the performance of Assaí and the sequential improvement in the Extra banner. The Company's strategy focus on price competitiveness and the success of the commercial dynamics implemented in recent months drove same-store sales growth in the food category,

which supported a recovery in market share, primarily at hypermarkets.

The quarter was marked by the opening of 20 new stores, of which 14 were opened by Multivarejo, 3 by Assaí and 3 by Via Varejo.

### **Food Business (Multivarejo + Assaí)**

§ Net sales in the Food segment grew 8.0% to R\$8.9 billion in the quarter. This performance is mainly explained by the opening of 128 new stores opened in the last 12 months, with 105 convenience stores (86 Minimercado Extra and 19 Minuto Pão de Açúcar), 10 Assaí, 8 Pão de Açúcar, 3 Extra Super and 2 drugstores. On a same-store basis, net sales grew 3.7%.

§ **Multivarejo** posted an important recovery in sales in the quarter, with a return to positive same-store sales growth. The initiatives to improve price competitiveness and commercial dynamics have supported sequential improvement in the Extra banner since July 2014, with an important recovery in same-store sales in 1Q15, reversing the trend to achieve positive growth. This improvement was due to the new level of sales performance in food categories at hypermarkets, with recoveries in both sales volume and customer traffic at stores.

§ The strategy's success and **Assai's** positioning translated into a continuation of the strong growth rates of recent quarters, indicating the format's excellent resilience. In 1Q15, net sales grew 26.3%, driven by strong same-store sales growth and the opening of 10 stores in the last 12 months. During the quarter, 3 stores were opened, 2 of which in the Northeast, a region that already accounts for 18 of the banner's 87 stores. These store openings are part of the acceleration of the expansion plan for 2015.

### Via Varejo

§ In 1Q15, net sales amounted to R\$5.4 billion, stable in relation to 1Q14 after excluding the effects of the closure of 42 stores between 2Q14 and 1Q15 to comply with Brazil's antitrust authority CADE. Including store closures, net sales decreased 1.0%. On a same-store basis, net sales decreased by 2.3%.

§ According to the Monthly Trade Survey (PMC) conducted by IBGE in January and February, the furniture, electronics and home appliance markets registered market share expansion in both specialty and overall markets (which includes online sales).

§ Considering the more challenging macroeconomic scenario, market share expansion continues to be the Company's main focus, which should leverage its position as the dominant market player, its strong cash position, its solid partnership with suppliers and leadership in media as the largest advertiser in Brazil, according to IBOPE.

§ Based on the successful results of pilot initiatives under the "Crescer Mais" Project, Via Varejo's growth strategy is to start rolling out these initiatives, which include:

- i) Complete revamp of the furniture category, with improved design, improved store ambience and offering of customized furniture at competitive prices;
- ii) Mobile Project, which involves a comprehensive renovation of the telephone category, with post-paid plan offerings from Brazil's leading mobile operators;
- iii) Accelerated organic expansion in higher-growth regions;
- iv) Repositioning of the Ponto Frio banner.

The highlights in the quarter were the smartphone and white line categories, while the television category contracted the most during the period, mainly as a result of the strong comparison base for this category

Edgar Filing: BRAZILIAN DISTRIBUTION CO COMPANHIA BRASILEIRA DE DISTR CBD - Form 6-K  
created by the World Cup in the first half of 2014;

§ Via Varejo closed 1Q15 with 1,037 stores. Three new Casas Bahia stores were opened in the quarter.

GPA started to consolidate Cnova’s international operations in 3Q14. Therefore, for the purpose of comparison with 1Q15, note that the results of these operations were not included in the 1Q14 figures.

All business segments registered gross margin expansion in the quarter. However, the 100 bps margin decline was due to the Cnova and Assaí mix effect. On comparable basis, which excludes Cnova Consolidated results (Cnova Brasil and International operation) from 1Q14 and 1Q15, gross margin improved by 50 basis points, from 26.6% to 27.1%.

Selling, general and administrative expenses increased 16.8% compared to 1Q14, due to the following factors:

- (i) consolidation of Cnova's international operations (which were not consolidated into the Company in 1Q14);
- (ii) increase in electricity costs and higher expenses with health plan benefits, which outpaced inflation in all Group companies;
- (iii) higher expenses with store expansion (211 stores opened in the last 12 months).

On comparable basis, selling, general and administrative expenses grew 8.6% this quarter.

EBITDA adjusted by Other Operating Income and Expenses, on comparable basis, grew 2.1% from 1Q14, with EBITDA margin of 7.6%, virtually in line with the same period in the previous year (7.7%). Adjusted EBITDA including the Cnova operation came to R\$1.017 billion, with adjusted margin of 5.9%.

In 1Q15, the Company strengthened its competitiveness strategy, chiefly in the Extra banner. The multi-format structure, which includes the Pão de Açúcar, Extra Super and convenience banners, enabled the Company to compensate the efforts aimed at driving competitiveness, resulting in the maintenance of Multivarejo’s gross margin. The 20 bps gross margin expansion in the quarter was due to the increase in revenue from lease of commercial centers. Sales of seasonal items during Easter had no impact on gross margin this quarter.

Selling, general and administrative expenses increased by 9.4% from 1Q14, reflecting the impacts of wage increases at the end of 2014 and higher expenses with health plan benefits, which outpaced inflation, as well as electricity costs; and higher expenses with store expansion (118 stores opened in the last 12 months); in addition to reinforced operational structures at stores to drive revenue growth. This quarter, the Company was successful in keeping general and administrative expenses under strict control.

Assaí continued to post strong growth, which, coupled with higher same-store sales growth compared to inflation, resulted in net sales of R\$2.3 billion in the quarter, up 26.2% from 1Q14. In the last 12 months, the banner opened 10 stores, three of which were in the quarter.

Gross margin expanded 30 basis points, from 13.3% in 1Q14 to 13.6% in 1Q15, mainly due to the maturation of stores. Operating expenses as a percentage of net sales increased 20 basis points, primarily due to new store openings in the last 12 months.

EBITDA amounted to R\$69 million, growing 30.4%, with EBITDA margin expanding 10 basis points, despite the impact of intensive store expansion (10 stores opened in the last 12 months). Assaí's consistent performance in the quarter demonstrates the resilience of the format and appropriate positioning.

(1) Some figures in this earnings release differ from those presented in the Via Varejo release due to the effects of intercompany transactions; (2) EBITDA adjusted by the line “Other Operating Income and Expenses”, thus eliminating nonrecurring income and expenses.

EBITDA totaled R\$546 million in 1Q15, growing 10.3% from 1Q14. EBITDA margin expanded 110 bps in the quarter to 10.2%.

EBITDA growth is explained by the 230 bps gross margin expansion, driven by: i) effects of new sources of revenue from delivery and assembly, as well as synergies with other Group companies; ii) initiatives to drive efficiency in logistics and assembly activities throughout 2014, with maturation and full impact in 2015; iii) sales mix, especially in the smartphone category, with growth above the company average; iv) the gains resulting efficiency and new revenues, which enabled Via Varejo to bolster its competitiveness strategy;

The impact of inflation on fixed costs was partially mitigated by initiatives to improve operational efficiency, which resulted in total operating expenses increasing by 4.6%, well below the inflation (as per IPCA) of 8.1% in the period.

- Cdiscount achieved +16.4% growth in net sales and Cnova Brazil +18.3% in local currency.
- Total marketplace share grew to 15.4% of GMV in 1Q15 from 8.5% in 1Q14, representing an increase in marketplace GMV of 132%.

- Share of traffic from mobile devices grew to 34.0% in 1Q15, compared to 22.0% in 1Q14.

§ Gross Margin excluding expansion to New Countries expanded by 18 bps as a percentage of net sales, reflecting:

- Stable price positioning both in Brazil since the end of 3Q14 and in France since the end of 1Q14.
- Increased contribution from marketplaces.

§ Selling, general and administrative expenses (SG&A) went up as a result of increased investments to drive future growth:

- Cnova accelerated the roll out of the click-and-collect network in Brazil by doubling the number of pick-up points at the end of 1Q15 compared to the end of 4Q14. In France, Cnova increased the number of pick-up points for large items which grew from 444 at the end of 1Q14 to 593 at the end of 1Q15.

- Cnova strengthened its logistics infrastructure. In France, the opening of the Paris warehouse combined with the ongoing extension of the Lyon distribution center have added 35% in capacity. These actions will enable the acceleration of express pick-up and same day delivery in Paris and Lyon for heavy products as well as manage the expanded product assortment. In Brazil, warehouse capacity is expected to increase by 23% by the end of 2015, in order to enhance product availability and to reduce by three days the delivery time for the Mid-West, South and Northeast regions.
  
- Cnova accelerated the conversions to new IT systems both in France and in Brazil:

§ In France, launch of a new warehouse management system (Manhattan), providing central visibility on inventories across multiple warehouses, enabling same day delivery.

§ Implementation of a new search engine (Solr) at Cdiscount providing customers improved navigation tools across an expanded product offering.

§ Implementation of a new mobile "responsive design" software at Cdiscount, which adapts online content and lay-out for mobile devices.

§ In Brazil, acceleration of new IT system conversions including the transition to a new ERP and customer service system, as well as the launch of a new recommendation tool.

§ Higher SG&A expenses also reflect increased investments to develop new specialty sites and to enter into new geographies:

- Development of four new specialty sites to be launched in 2Q15, including MonCornerKids and MonCornerJardin, both already live.
- Acceleration of international expansion with eight additional New Countries to be launched by year-end 2015, partly driven by expanded delivery areas of existing sites.

§ Cnova has reduced its net financial expense from €15.0 million to €5.4 million. Excluding a €7.1 million positive non-recurring item, Cnova has reduced its net financial expense by 17% through active management of its cash balance and a stronger balance sheet.

Cnova has accelerated its cash generation with Free Cash Flow over the last twelve months of €27.6 million at the end of 1Q15 vs. -€47.1 million at the end of 1Q14. Excluding the negative impact of exchange rate variation, Free Cash Flow over the last twelve months amounted to €25.4 million at the end of 1Q15 vs. -€66.8 million at the end of 1Q14, representing an improvement of €92 million.

The Group's investments totaled R\$516 million in 1Q15, up 87% from 1Q14, of which 71% was invested in the Food segment and 15% in Via Varejo.

In the Food segment, in line with the strategy to foster organic growth, 17 new stores were opened in the quarter, of which nine were Minimercado Extra, five were Minuto Pão de Açúcar and three were Assaí stores. Investments also reflected the initiatives to renovate stores in order to make them more attractive. This year, the Group plans to renovate a significant number of stores, especially in the Extra banner.

At Via Varejo, investments in the period were mainly related to implementation of new logistics management systems, as well as tools for credit analysis and management, and for increasing productivity at the stores and back office and stores renovation. In 1Q15, three Casas Bahia stores were opened in the Northeast, Southeast and South regions.

Note that efforts were maintained to optimize capex per m<sup>2</sup>, to intensify store renovations and to continue capturing synergies, in order to make the Group more modern and efficient.

The individual and parent company financial statements are presented in accordance with IFRS and the accounting practices adopted in Brazil and refer to the first quarter of 2015 (1Q15), except where stated otherwise, with comparisons in relation to the prior-year period.

Any and all non-accounting information or derived from non-accounting figures has not been reviewed by independent auditors.

To calculate EBITDA, we use earnings before interest, taxes, depreciation and amortization. The base used to calculate "same-store" gross sales revenue is determined by the sales made in stores open for at least 12 consecutive months and which did not remain closed for seven or more consecutive days in the period. Acquisitions in their first 12 months of operation are not included in the same-store calculation base.

GPA adopts the IPCA consumer price index as its benchmark inflation index, which is also used by the Brazilian Supermarkets Association (ABRAS), since it more accurately reflects the mix of products and brands sold by the Company. IPCA inflation in the 12 months ended March 2015 was 8.13%.

**Disclaimer:** Statements contained in this release relating to the business outlook of the Company, projections of operating/financial results, the growth potential of the Company and the market and macroeconomic estimates are mere forecasts and were based on the expectations of Management in relation to the Company's future. These expectations are highly dependent on changes in the market, Brazil's general economic performance, the industry and international markets, and are thus subject to change.

**About GPA:** GPA is Brazil's largest retailer, with a distribution network of over 2,000 points of sale as well as electronic channels. Established in 1948 in São Paulo, it has its head office in the city and operations in 20 Brazilian states and the Federal District. With a strategy of focusing its decisions on the customer and better serving them based on their consumer profile in the wide variety of shopping experiences it offers, GPA adopts a multi-business and multi-channel platform with brick-and-mortar stores and e-commerce operations divided into five business units: Multivarejo, which operates the supermarket, hypermarket and neighborhood store formats, as well as fuel stations and drugstores, under the Pão de Açúcar and Extra banners; Assaí, which operates in the cash & carry wholesale segment; Via Varejo, with brick-and-mortar electronics and home appliance stores under the Casas Bahia and Pontofrio banners; GPA Malls, which is responsible for managing the real estate assets, expansion projects and new store openings, and the e-commerce segment Cnova, which comprises the operations of Cnova Brasil, Cdiscount in France and their international websites.

In the individual interim financial information, equity interests are calculated considering the percentage held by GPA or its subsidiaries. In the consolidated Interim financial information, the Company fully consolidates all its subsidiaries, keeping noncontrolling interests in a specific line item in shareholders' equity.

**3.2. Associates – BINV and FIC**

Investments are accounted under the equity method because these associates are entities over which the Company exercises significant influence, but not control, since (a) it is a party to the shareholders' agreement, appointing certain officers and having veto rights in certain relevant decisions, (b) the power over the operating and financial decisions of BINV and FIC is held by Banco Itaú Unibanco S.A (“Itaú Unibanco”).

FIC's summarized interim financial information is as follows:

**FIC**

	<b>3.31.2015</b>	<b>12.31.2014</b>
Current assets	<b>3,712</b>	3,815

For the purposes of measurement of the investment in this associate, the special goodwill reserve recorded by FIC should be deducted from its shareholders' equity, since it is Itaú Unibanco's (controlling shareholder) exclusive right.

Notes to the interim financial information

March 31, 2015

(In millions of Brazilian reais, unless otherwise stated)

**4. Significant accounting policies**

Except for the item mentioned below, the significant accounting policies adopted by the Company in the preparation of the individual and consolidated interim financial information are consistent with those adopted and disclosed in Note 4 to the financial statements for the year ended December 31, 2014 dated February 12, 2015 and therefore should be read in conjunction with those annual financial statements.

**4.1. Present value adjustment of assets and liabilities**

Until 2014, Company recorded the adjustment to present value (“AVP”) over the credit card receivables without interest, after the sale of these amounts to the credit card companies, even considering that receivables were not long term (in average due in 4 months) and the impacts not significant on the short term. The reversal of the adjustment recorded was made in the net sales, once the financing to clients is part of the Company’s business. In 2015, the accounting practice of recording AVP over the sales using credit card was discontinued. Company aims to reduce the average term of receipt, and interest on installment sales in a higher portion of sales. These balances on December 31, 2014, were R\$6.

The long term assets and liabilities continue to be adjusted, considering the contractual cash flows and respective interest rate.

**5. Adoption of new standards, amendments to and interpretations of existing standards issued by the IASB and CPC and standards issued but not yet effective**

With the exception of the item mentioned below, the adoption of new standards, amendments to and interpretations of existing standards issued by the IASB and CPC and standards issued but not yet effective are consistent with those adopted and disclosed in note 5 to the financial statements for the year ended December 31, 2014 dated February 12, 2015 and therefore should be read in conjunction with those annual financial statements.

In 2015, the Company applied the annual improvements to the IFRSs referring to the 2010-2012 and 2011-2013 Cycles issued by the IASB, which are effective for accounting periods beginning on or after July 1, 2014. The application of these improvements did not have impacts on the disclosures or on the Company’s individual and consolidated interim financial information.

## **6. Significant accounting judgments, estimates and assumptions**

### Judgments, estimates and assumptions

The preparation of the Company's individual and consolidated interim financial information requires Management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of the reporting period; however, uncertainties about these assumptions and estimates may result in outcomes that require adjustments to the carrying amount of the affected asset or liability in future periods.

The significant assumptions and estimates for interim financial information for the three-month period ended March 31, 2015 were the same as those adopted in the individual and consolidated financial statements for the year ended December 31, 2014 dated February 12, 2015 and therefore should be read in conjunction with those annual financial statements, except for the impairment test, which is conducted annually, observing indicators during the year as described in notes 15 and 16.

### 23. Provision for risks – Continued

#### 23.3. Tax

As per prevailing legislation, tax claims are subject to monetary indexation, which refers to an adjustment to the provision for tax risks according to the indexation rates used by each tax jurisdiction. In all cases, both the interest charges and fines, when applicable, were computed and fully provisioned with respect to unpaid amounts.

The main provisioned tax claims are as follows:

#### COFINS and PIS

Since the noncumulative regime to calculate PIS and COFINS has been used, the Company and its subsidiaries have challenged the right to deduct ICMS from the base of these two contributions. The amount accrued as at March 31, 2015 is R\$ 77 (R\$ 72 as at December 31, 2014).

#### Tax and others

#### Tax

The Company and its subsidiaries have other tax claims, which after analysis by its legal counsel, were considered as probable losses and accrued by the Company. These refer to: (i) tax assessment notices related to purchase, industrialization and sale of soybean and byproducts exports (PIS, COFINS and IRPJ); (ii) challenge on the non-application of the Accident Prevention Factor - FAP for 2011; (iii) challenge on the Poverty Fighting Fund established by the Rio de Janeiro State Government; (iv) challenges on purchases from suppliers considered not qualified in the State Finance Department registry, error in application of rate and accessory obligations by State tax authorities; and (v) other less relevant issues.

The amount accrued for these matters as at March 31, 2015 is R\$111 (R\$108 as at December 31, 2014).

The Federal Supreme Court ("STF") on October 16, 2014 decided that ICMS taxpayers that trade products included in the "basked of food staples" have no right to fully utilize the ICMS credits. The Company, with the assistance of its legal counsel, decided that it would be an appropriate procedure to record a provision for this matter amounting to R\$ 143 as at March 31, 2015 (R\$147 as at December 31, 2014) since this claim is considered a "probable" loss. The amounts accrued represent Management's best estimate of the probable cash disbursement to settle this claim.

The Company claims in court the eligibility to not pay the contributions provided for by Supplementary Law 110/01, referring to the FGTS (Government Severance Indemnity Fund for Employees) costs. The accrued amount as at March 31, 2015 is R\$51 (R\$48 as at December 31, 2014).

The Company also recorded a provision for contingent tax liabilities related to the equity interest of Cdiscount S.A., as required by CPC 15 (IFRS 3). As at March 31, 2015, the contingent tax liabilities amount to R\$21 (R\$20 as at December 31, 2014).

### 23. Provision for risks – Continued

#### 23.3.Tax – Continued

##### Others

Provisions for contingent tax liabilities were recorded as a result of the business combination with Via Varejo, as required by CPC 15 (IFRS 3). As at March 31, 2015, the recorded amount related to contingent tax liabilities is R\$88 (R\$87 as at December 31, 2014).

These accrued claims refer to administrative proceedings related to the offset of tax debts against credits from the contribution levied on coffee exports.

##### Contingency Bartira

In line with the business combination of Bartira in 2013 (details are provided in note 15 to the 2013 financial statements), contingent tax liabilities were assessed at fair value, as required by CPC 15 (IFRS 3R), the assessment of which differs from CPC 25 (IAS 37), the standard used for the assessment of other contingencies. The main matter refers to possible failure in supporting documentation of transactions, totaling R\$106 in income tax, social contribution, PIS, COFINS and ICMS, and total contingent liabilities amount to R\$118 (tax R\$106 and labor R\$12).

##### REFIS (tax debt refinancing program)

Law 12,996/2014 amended by Provisional Act - MP 651, introduced interest and penalties reduction benefits for cash payments and payments in installments of federal debts. The Company considered an appropriate procedure to enroll in the REFIS program to settle part of its debts, utilizing also part of the tax losses for payment of the debt balance.

#### 23.4.Labor

The Company and subsidiaries are parties to various labor lawsuits mainly due to termination of employees in the ordinary course of business. At March 31, 2015, the Company recorded a provision amount of R\$541 (R\$521 as at December 31, 2014) related to the potential risk of loss on these lawsuits. Management, with the assistance of its legal counsel, assesses these claims recording a provision for losses when reasonably estimable, based on past experiences in relation to the amounts claimed. Labor lawsuits are indexed to the benchmark interest rate ("TR"), 0.23% as at March 31, 2015 (0.86% as at December 31, 2014) plus monthly interest of 1%.

23.5.Civil and others

The Company and its subsidiaries are parties to civil lawsuits at several court levels (indemnities and collections, among others) and at different courts. The Company's management records provisions in amounts considered sufficient to cover unfavorable court decisions, when its legal counsel considers the loss as probable.

#### 23.5.Civil and others – Continued

Among these lawsuits, we point out the following:

- The Company and its subsidiaries are parties to various lawsuits requesting the renewal of rental agreements and the review of the current rent paid. The Company recognizes a provision for the difference between the amount originally paid by the stores and the amounts pleaded by the adverse party (owner of the property) in the lawsuit, when internal and external legal counsel consider that it is probable that the rent amount will be changed by the entity. As at March 31, 2015, the amount accrued for these lawsuits is R\$45 (R\$55 as at December 31, 2014), for which there are no escrow deposits.
- The subsidiary Via Varejo is a party to lawsuits involving consumer relationship rights (civil actions and assessments from PROCON) and lawsuits involving contracts terminated with suppliers and the amount claimed in these lawsuits totals R\$88 as at March 31, 2015 (R\$86 as at December 31, 2014).
