Item 2.05 Costs Associated with Exit or Disposal Activities.

On October 20, 2015, in response to challenging macroeconomic conditions, Cabot Corporation announced its intention to restructure its operations subject to local consultation requirements and processes in certain locations. As proposed, Cabot's plan would result in a reduction of approximately 300 positions across the company's global locations. These actions allow Cabot to respond to the current market conditions, resulting in a more competitive cost structure.

The Company expects this restructuring will result in a pre-tax charge to earnings of approximately \$35 million, almost all of which is comprised of severance and employee benefits. Substantially all of the pre-tax charge is expected to be recorded during fiscal year 2016. The total after-tax charge is estimated to be approximately \$25 million.

Net cash outlays related to these actions are expected to be approximately \$30 million, substantially all of which is expected to be paid during fiscal 2016.

Item 9.01 Financial Statements and Exhibits.
