**Exhibit 99.1**

**OCEAN RIG UDW INC. REPORTS FINANCIAL AND OPERATING RESULTS FOR THE THIRD QUARTER 2014**

**November 5, 2014**, Nicosia, Cyprus. Ocean Rig UDW Inc. (NASDAQ:ORIG), or Ocean Rig or the Company, an international contractor of offshore deepwater drilling services today announced its unaudited financial and operating results for the third quarter ended September 30, 2014.

**Third Quarter 2014 Financial Highlights**

Ø

For the third quarter of 2014, the Company reported net income of \$104.2 million, or \$0.79 basic and diluted earnings per share.

Included in the third quarter 2014 results are:

-

Non-cash write offs and breakage costs associated with the full refinancing of the \$1.35 billion Senior Secured Credit Facility totaling \$22.0 million or \$0.17 per share.

Excluding the above items, the Company would have reported net income of \$126.2 million, or \$0.96 per share.

Ø

The Company reported Adjusted EBITDA of \$281.8 million for the third quarter of 2014, as compared to \$161.4 million for the third quarter of 2013.<sup>(1)</sup>

### **Recent Highlights**

-

On October 15, 2014, the Company's Board of Directors declared a quarterly cash dividend with respect to the quarter ended September 30, 2014, of \$0.19 per common share, to shareholders of record as of October 31, 2014 and payable on or about November 11, 2014.

-

On October 14, 2014, Ocean Rig Partners LP (the "MLP"), a wholly-owned subsidiary of the Company, filed a registration statement on Form F-1 with the SEC relating to a possible initial public offering of units in a majority-owned master limited partnership.

-

The Company has been awarded extensions of the drilling contracts for the *Ocean Rig Corcovado* and the *Ocean Rig Mykonos* by Petrobras for drilling offshore Brazil. The term of each extension is for 1,095 days with a total combined revenue backlog of over \$1.1 billion, excluding reimbursement by Petrobras for contract related equipment upgrades. The new contracts will commence in direct continuation from the end of the current agreements with Petrobras, in the first and second quarter of 2015, respectively.

George Economou, Chairman and Chief Executive Officer of the Company, commented:

We are pleased to report that during the third quarter of 2014, our fleet operated at 98.6% utilization rate which marks our best operating performance yet and is a testament to the superior operating results associated with modern assets and the collective efforts of our team. In addition and as a result of the high utilization rate as well as our cost control initiatives, we are happy to report a record Adjusted EBITDA of \$281.8 million for the third quarter.

During the fourth quarter we were awarded by Petrobras, three year contract extensions for our drillships Ocean Rig Corcovado and Ocean Rig Mykonos. These multi year extensions increase our total revenue backlog to \$5.5 billion and result in contract coverage of 87% and 64% of our calendar days in 2015 and 2016, respectively. With its strong backlog, Ocean Rig remains insulated from the short-term softness seen in the market today.

Our focus on value creation for our stakeholders continues and consists of several initiatives. Following our corporate restructuring last year, we have achieved significant cost reductions, driving our average fleet-wide daily operating expenses to below \$200,000 per drilling unit, despite our presence in high cost drilling areas (Norway, Angola and Brazil). In addition, our MLP subsidiary filed a registration statement with the SEC and the actual MLP IPO launch will depend on prevailing market conditions.

I am also pleased to report that for the third consecutive quarter, our Board of Directors declared a quarterly cash dividend of \$0.19 per share to our shareholders, with respect to operations during the third quarter of 2014. We expect this will continue into the future.

The current market softness has increased stacking activity of older and less capable rigs. High specification units have improved capabilities and offer significant cost savings to oil companies by reducing ancillary drilling related costs. In previous down cycles, approximately 18% of the drilling fleet was cold stacked before the market improved. Thus we believe that cold stacking of older units will accelerate in the future and drive the ensuing market recovery.

### **Financial Review: 2014 Third Quarter**

The Company recorded net income of \$104.2 million, or \$0.79 basic and diluted earnings per share, for the three-month period ended September 30, 2014, as compared to a net loss of \$21.5 million, or \$0.16 basic and diluted loss per share, for the three-month period ended September 30, 2013. Adjusted EBITDA<sup>(1)</sup> was \$281.8 million for the third quarter of 2014, as compared to \$161.4 million for the same period in 2013.

Revenues from drilling contracts increased by \$187.0 million to \$515.5 million for the three-month period ended September 30, 2014, as compared to \$328.5 million for the same period in 2013.

Drilling rigs and drillships operating expenses increased to \$198.4 million and total depreciation and amortization increased to \$81.7 million for the three-month period ended September 30, 2014, from \$128.9 million and \$61.2 million, respectively, for the three-month period ended September 30, 2013. Total general and administrative expenses decreased to \$33.5 million in the third quarter of 2014 from \$39.6 million during the same period in 2013.

Interest and finance costs, net of interest income, amounted to \$81.8 million for the three-month period ended September 30, 2014, compared to \$102.3 million for the three-month period ended September 30, 2013.

### **Adjusted EBITDA Reconciliation**

Adjusted EBITDA represents earnings before interest, taxes, depreciation and amortization, class survey costs and gains or losses on interest rate swaps. Adjusted EBITDA does not represent and should not be considered as an alternative to net income or cash flow from operations, as determined by United States generally accepted accounting principles, or U.S. GAAP, and our calculation of adjusted EBITDA may not be comparable to that reported by other companies. Adjusted EBITDA is included herein because it is a basis upon which the Company measures its operations. Adjusted EBITDA is also used by our lenders as a measure of our compliance with certain covenants contained in our loan agreements and because the Company believes that it presents useful information to investors regarding a company's ability to service and/or incur indebtedness.

## Forward-Looking Statement

Matters discussed in this release may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The Private Securities Litigation Reform Act of 1995 provides safe harbor protections for forward-looking statements in order to encourage companies to provide prospective information about their business. The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and is including this cautionary statement in connection with such safe harbor legislation.

Forward-looking statements relate to Ocean Rig's expectations, beliefs, intentions or strategies regarding the future. These statements may be identified by the use of words like anticipate, believe, estimate, expect, intend, may, project, should, seek, and similar expressions. Forward-looking statements reflect Ocean Rig's current views and assumptions with respect to future events and are subject to risks and uncertainties.

The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in Ocean Rig's records and other data available from third parties. Although Ocean Rig believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond Ocean Rig's control, Ocean Rig cannot assure you that it will achieve or accomplish these expectations, beliefs or projections described in the forward-looking statements contained herein. Actual and future results and trends could differ materially from those set forth in such statements.

Important factors that, in Ocean Rig's view, could cause actual results to differ materially from those discussed in the forward-looking statements include (i) factors related to the offshore drilling market, including supply and demand, utilization, day rates and customer drilling programs; (ii) hazards inherent in the drilling industry and marine operations causing personal injury or loss of life, severe damage to or destruction of property and equipment, pollution or environmental damage, claims by third parties or customers and suspension of operations; (iii) changes in laws and governmental regulations, particularly with respect to environmental matters; (iv) the availability of competing offshore drilling vessels; (v) political and other uncertainties, including risks of terrorist acts, war and civil disturbances; piracy; significant governmental influence over many aspects of local economies, seizure; nationalization or expropriation of property or equipment; repudiation, nullification, modification or renegotiation of contracts; limitations on insurance coverage, such as war risk coverage, in certain areas; political unrest; foreign and U.S. monetary policy and foreign currency fluctuations and devaluations; the inability to repatriate income or capital; complications associated with repairing and replacing equipment in remote locations; import-export quotas, wage and price controls imposition of trade barriers; regulatory or financial requirements to comply with foreign bureaucratic actions; changing taxation policies; and other forms of government regulation and economic conditions that are beyond our control; (vi) the performance of our rigs; (vii) our ability to procure or have access to financing and comply with our loan covenants; (viii) our ability to successfully employ our drilling units; (ix) our capital

expenditures, including the timing and cost of completion of capital projects; and (x) our revenues and expenses. Due to such uncertainties and risks, investors are cautioned not to place undue reliance upon such forward-looking statements.

Risks and uncertainties are further described in reports filed by Ocean Rig UDW Inc. with the U.S. Securities and Exchange Commission, including the Company's most recently filed Annual Report on Form 20-F.
