PROXY STATEMENT

FOR ANNUAL MEETING OF SHAREHOLDERS TO BE HELD

Tuesday, June 3, 2008

SOLICITATION AND REVOCATION OF PROXIES

The accompanying proxy is solicited by and on behalf of the board of directors of Omega Flex, Inc., hereinafter referred to as "Omega Flex" or the "Company". The cost of the solicitation of proxies will be borne entirely by the Company. Regular employees of the Company may solicit proxies by personal interview, mail or telephone and may request brokerage houses and other custodians, nominees and fiduciaries to forward soliciting material to the beneficial owners of the stock held of record by such persons. Broadridge Investor Communication Solutions has been retained by the Company to assist in the distribution of proxy materials and the solicitation of proxies by mail, for a estimated fee of \$2,688, plus expenses to be paid by the Company. This proxy statement and the enclosed form of proxy are first being mailed to stockholders on or about April 28, 2008.

If a proxy in the accompanying form is duly executed and returned, the shares represented will be voted at the annual meeting and where a choice is specified, will be voted in accordance with the specification made. Proxies may be revoked at any time prior to voting by (1) executing and delivering a new proxy to the secretary of the Company at or before the annual meeting, (2) voting in person at the annual meeting or (3) giving written notice of revocation to the secretary of the Company at or before the annual meeting.

This proxy statement and proxy card are being provided to shareholders of record of the Company as of April 9, 2008 in connection with the solicitation of proxies by the board of directors for use at the annual meeting of the Shareholders to be held on Tuesday, June 3, 2008.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of this proposed transaction, passed upon the merits or fairness of this transaction, or determined that the proxy statement is truthful or complete. It is illegal for any person to tell you otherwise.

PROPOSALS FOR SHAREHOLDER S VOTE

The following proposals are being submitted to the shareholders for a vote to approve or disapprove these measures. Please read each of the proposals carefully before voting your shares.

Proposal 1 - Election of Directors

Our board of directors is currently divided into three classes, with members of each class holding office for staggered three-year terms (in all cases, subject to the election and qualification of their successor, or in the event of their death, resignation or removal). Unless authority to vote for the election of any or all of the nominees is withheld by marking the proxy to that effect, the persons named in the enclosed proxy will, upon receipt of a properly executed proxy, vote to elect John E. Reed, Kevin R. Hoben and Mark F. Albino as Class 3 directors for a term expiring at the 2011 annual meeting of shareholders. Proxies cannot be voted for a greater number of persons than the number of nominees named. Each of the nominees is currently a Class 3 director whose term expires at the 2008 annual meeting of shareholders. All of the nominees have indicated their willingness to serve if elected, but if any should be unable or unwilling to stand for election, proxies may be voted for a substitute nominee designated by our board of directors.

The nominees to serve as directors for a three-year term expiring at the 2011 annual meeting of shareholders (Class 3 Directors) are:

John E. Reed	Age 92	Director of Omega Flex since 1996
Kevin R. Hoben	Age 61	Director of Omega Flex since 1996
Mark F. Albino	Age 55	Director of Omega Flex since 1996

For complete biographical information concerning each of the three Class 3 directors, please refer above to the information under the caption "Directors Background Information"

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE ELECTION OF THE
THREE NOMINEES LISTED ABOVE AS DIRECTORS.

Proposal 2 - Ratification of Audit Committee s Appointment of Auditors.

To ratify the appointment by the audit committee of the board of directors of Vitale, Caturano & Company, Ltd., as independent auditors for the Company for the fiscal year ending December 31, 2008. Although action by the shareholders in this matter is not required, the board believes that it is appropriate to seek shareholder ratification of this appointment in light of the critical role played by independent auditors in maintaining the integrity of our financial controls and reporting. If a majority of the shares present and entitled to vote on the proposed do not ratify the selection of Vitale, Caturano & Company, Ltd., the audit committee will consider the vote and the reasons therefor in future decisions on the selection of independent auditors.

Edgar Filing: Omega Flex, Inc. - Form DEF 14A

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE RATIFICATION OF THE
AUDIT COMMITTEE S APPOINTMENT OF AUDITORS.

No business other than that set forth in the attached notice of annual meeting is expected to be acted upon, but should any other matters requiring a vote of shareholders be properly brought before the annual meeting or any postponement or adjournment thereof, the persons named in the accompanying proxy card will vote thereon according to their best judgment in the interest of the Company.

Vote Required

The Company's by-laws provide that the presence of the holders of a majority of the issued and outstanding stock of the Company entitled to vote at the annual meeting, in person or represented by a proxy, constitutes a quorum for the annual meeting; and that the vote of the shareholders who hold a majority of the voting power present in person or represented by proxy at the annual meeting and entitled to vote will decide any question brought before the annual meeting, unless otherwise provided by statute or the Company's restated articles of incorporation or by-laws.

The nominees for election as directors of the Company at the annual meeting who receive the greatest number of votes cast will be elected as directors for the three (3) positions on the board of directors of the Company to be filled.

Where the quorum requirement set forth above is met, broker non-votes will have no effect on the outcome of the election of directors or the ratification of the appointment of the independent accountants because the matters to be acted upon are routine matters for which brokers have the discretion to vote on behalf of beneficial owners in the absence of instructions from beneficial owners. Abstentions will have no effect on the outcome of the election of directors, but will have the same effect as a negative vote with respect to the ratification of the appointment of the independent accountants.

Voting Rights

The shareholders entitled to vote at the annual meeting will be those whose names appeared on the records of the Company as holders of its common stock at the close of business on April 9, 2008, the record date. As of April 9, 2008, there were issued and outstanding 10,108,287 shares of common stock of the Company, all of which are entitled to vote. The Company is not entitled to vote the shares of common stock held in the treasury nor are such shares considered issued and outstanding. As of April 9, 2008 there were 45,346 shares of common stock held in the treasury.

Shareholders are entitled to one vote for each share held on all matters to be considered and acted upon at the annual meeting. Cumulative voting is not permitted. There are three (3) directors to be elected at the annual meeting to be held June 3, 2008. Unless otherwise indicated on the proxy cards, the votes represented by such proxies will be voted in favor of the nominees listed thereon and in favor of the Proposals set forth above under the caption Proposals for Shareholder Vote.

Shareholder Proposals

Proposals that shareholders wish to present for consideration at the annual meeting to be held in 2009 pursuant to SEC Rule 14a-8 must be received at the Company's corporate offices no later than December 30, 2008 in order to be included in the Company's proxy statement and proxy relating to such meeting. Upon receipt of any proposal, the Company will determine whether or not to include such proposal in next year's proxy statement and proxy in accordance with regulations governing the solicitation of proxies.

In order for a stockholder to bring other business before a stockholder meeting, timely notice must be received by the Company within the time limits described above. Such notice must include a description of the proposed business, the reasons therefor and other specified matters. These requirements are separate from the requirements a shareholder must meet to have a proposal included in the Company's proxy statement and

proxy.

Audit Committee

The board of directors has established and maintains an audit committee comprised of three of the Company's independent directors. No member of the audit committee serves on the audit committee of more than three public companies.

The audit committee's responsibilities are as set forth in its charter, which can be found at the Company's website www.omegaflex.com. These responsibilities include assisting the board of directors in its oversight of the accounting and financial controls of the Company and the Company's compliance with legal and regulatory requirements. The audit committee selects the independent auditors, reviews the scope of the audit and the results of the audit, approves permitted non-audit services (such as tax services), and reviews the financial and disclosure controls procedures. The audit committee also oversees management's efforts to establish and maintain a process for handling complaints or concerns relating to accounting or financial matters, as well as compliance issues generally.

The audit committee acts pursuant to the Company's by-laws and the audit committee charter. The audit committee charter is reviewed annually by the audit committee to determine the charter's adequacy to respond to the issues raised in the course of the audit committee's activities. The audit committee has acted under its charter. The committee held 9 meetings in 2007, at which all members attended in person or by telephone (with the exception of one meeting at which Mr. Cianciolo was absent), and consulted with each other and management as necessary to discharge its duties. Please see the report of the audit committee set forth in this proxy statement. The current members of the audit committee are Messrs. Trainor (Chairman), Klink and Cianciolo. The board of directors has determined that (a) Mr. Klink and Mr. Cianciolo are each an audit committee financial expert under SEC rules, and (b) all of the audit committee members are financially sophisticated as required by the NASDAQ Listing Standards.

Executive Committee

To the extent permitted by the laws of the Commonwealth of Pennsylvania, the executive committee has and may exercise all the powers and authorities of the board of directors as follows: (a) to take action on behalf of the board of directors during intervals between regularly scheduled meetings of the board of directors if it is impracticable to delay action on a matter until the next regularly scheduled meeting of the board of directors, and (b) to take action on all matters of the Company that have been delegated for action by the board of directors. The executive committee meets from time to time, irregularly, and consults with each other and management as necessary to discharge its duties. The current members of the committee are Messrs. J.E. Reed (chairman), Hoben and Albino.

Compensation Committee

The compensation committee's responsibilities are as set forth in its charter, which can be found at the Company's website at www.omegaflex.com. The committee's duties include establishing a compensation philosophy to guide the committee in executive compensation decisions, establishing and approving executive compensation plans, reviewing the compensation of the chief executive officer and the executive officers of the Company, and recommending to the board of directors the amount of compensation to be paid to the chief executive officer and the executive officers of the Company. Please see the report of the compensation committee set forth in this proxy statement. The committee met 4 times in 2007, with all members in attendance, to consider and recommend compensation plans matters to the board of directors. The current members of the committee are Messrs. Hunter (chairman), Evans and Trainor, each of whom have been determined to be independent directors in accordance with the Company's corporate governance guidelines, applicable SEC rules and the requirements of NASDAQ listing standards.

BOARD REPORTS

Nominating/Governance Committee Report

And Director Nomination Process

This report of the nominating/governance committee shall not be deemed to be soliciting material or subject to Regulations 14A or 14C of the Securities and Exchange Commission, or to the liabilities of Section 18 of the Securities and Exchange Act of 1934 (the Exchange Act) and shall not be deemed incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1993 or under the Exchange Act, notwithstanding any general incorporation by reference of this proxy statement into any other document, and shall not otherwise be deemed filed under such Acts. The Company will provide any person, without charge, upon filing a written request to the secretary of the Company at its general offices, with a copy of the Company's nominating/governance committee charter.

REPORT

The nominating/governance committee met in 2007 to review director qualifications, nominate directors for election at the annual shareholder meeting, to review the corporate governance issues for the board, and discuss the adoption of certain policies by the Company for its compliance effort.

Edgar Filing: Omega Flex, Inc. - Form DEF 14A

The Company has a policy, as set forth in its by-laws, of considering candidates for election to the board of directors who may be nominated by the shareholders. The board of directors recognize and fully appreciate their positions of stewardship of the Company for the benefit of the shareholders, and the board firmly ascribes to the proposition that the shareholders should be free to exercise their franchise to select and elect the persons who direct the Company in which the shareholders have invested. To that end, the by-laws of the Company provide for a process by which shareholders may nominate individuals for election to the board of directors. This process requires that such shareholder nomination be made in writing by a shareholder holding, or by a group of shareholders who in the aggregate hold, five percent (5%) or

Edgar Filing: Omega Flex, Inc. - Form DEF 14A

more of the Company's common stock continuously for at least one year prior to the date of the submittal of such candidate and delivered to the chairman of the board of directors not later than 120 days prior to the anniversary date of the immediately preceding annual meeting. Such nomination must also include (a) the name and residence of each proposed nominee and of the nominating shareholder, (b) the principal occupation of each proposed nominee, (c) the written consent of each nominee to serve as a director of the Company, if elected, and (d) any information regarding each nominee proposed by a shareholder that would be required to be included in a proxy statement filed with the Securities and Exchange Commission pursuant to the Securities Act of 1933, the Securities and Exchange Act of 1934, and the rules and regulations promulgated thereunder.

Any candidate for election to the board of directors nominated by a shareholder shall possess the minimum qualifications required of any of the directors, as required by the by-laws and by the corporate governance guidelines, to wit: (a) be a natural person, (b) be not less than 21 years of age, and (c) not be a director, officer or employee of a competitor of the Company. The specific skills or expertise of a shareholder nominee should complement the needs of the board at the time of the election. These needs will vary from time to time based on the composition of the board. In reviewing and identifying candidates for the board of directors, the nominating/governance committee is charged with a mandate under the Company's corporate governance guidelines to identify and consider candidates having significant skills or experience in any one or more of the following areas: understanding of the application and use of some or all of the Company's products, understanding of various manufacturing technologies, an understanding of general accounting principles as applied in the preparation and reporting of financial statements of a public company, and expertise and knowledge of management of a large multi-facility organization, international experience, and other pertinent characteristics—all in the context of an assessment of the then current perceived needs of the Company.

Identification of persons to become nominees for the board of directors are obtained through a variety of sources, including the directors, the chairman of the board, the executive officers of the Company, and trade or industry groups in which the Company participates. Once a candidate has been identified, the nominating/governance committee evaluates such candidate based upon his or her length and breadth of business experience, specific skills or knowledge, values, and other qualities which the Company may deem pertinent. The committee's review may include personal interviews and/or reference checks. This process is applied regardless of whether the potential nominee has been identified and proposed by a shareholder or by any other person.

As of the date of this proxy statement neither the chairman of the board nor the nominating/governance committee had received from shareholders owning more than 5% of the Company's common stock a nomination of any individual to the board of directors. There are no nominees included on the Company's proxy card who are not standing for re-election.

Audit Committee Report

This report of the audit committee shall not be deemed to be soliciting material or subject to Regulations 14A or 14C of the Securities and Exchange Commission or to the liabilities of Section 18 of the Securities and Exchange Act of 1934 (the Exchange Act) and shall not be deemed incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933 or under the Exchange Act, notwithstanding any general incorporation by reference of this proxy statement into any other document, and shall not otherwise be deemed filed under such Acts. The audit committee furnished the following report as required under the revised proxy rules adopted by the Securities and Exchange Commission. The Company will provide any person, without charge, upon filing a written request to the secretary of the Company at its general offices, with a copy of the Company's audit committee charter.

REPORT

The audit committee met nine times during the 2007 fiscal year and discussed with the Company's management the interim financial statements of the Company for each applicable reporting period prior to the filing or distribution of such financial statements. The audit committee met in March 2008 to review and discuss with the Company's management and the independent auditors, together and separately, the audited financial statements of the Company for the fiscal year ended December 31, 2007. Management has the responsibility for preparation of the Company's financial statements, and the independent auditors have the responsibility for examining those statements and expressing an opinion thereon. The audit committee's primary responsibility with respect to the Company's financial statements is one of review and oversight.

The committee has acted, pursuant to its charter, and has during the year, (a) reviewed with the independent auditors their internal quality control procedures and independence from management, (b) reviewed with management and the independent auditors recent accounting pronouncements and their effect on the financial statements of the Company, (c) reviewed the Company's financial and disclosure control procedures instituted by management, and (d) reviewed with the vice president-finance and chief financial officer the Company's internal system of financial and accounting controls and the results of internal audits.

The audit committee also discussed with the independent auditors matters required to be discussed by Statement and Auditing Standards No. 61, titled "Communication with audit committees," and received from the independent auditors written disclosures regarding the independence of the independent auditors from the Company as required by Independence Standards Board Standard No. 1, titled "Independence Discussions with Audit Committees." The audit committee considered the compatibility of the non-audit services the Company received from its independent auditor and the effect of such engagements on the independence of the independent auditors.

Based on all of the above, the audit committee recommended that the board of directors include the audited consolidated financial statements in the Company's annual report on Form 10-K for the year ended December 31, 2007, filed with the Securities and Exchange Commission.

Edward J. Trainor, *Chairman*, Lawrence J. Cianciolo, Bruce C. Klink, *Members*.

The compensation committee charter is available on the Company's website at www.omegaflex.com. nominating/governance committee charter.

REPORT

The compensation committee of the board of directors consists entirely of independent, non-employee directors. The committee has the responsibility for: (a) fixing the elements of a comprehensive compensation program for the chief executive officer and the executive officers of the Company that provide rewards and create incentives for their performance in maintaining and improving the profitability of the Company and enhancing long-term shareholder value; (b) reviewing the levels of compensation to be paid or granted to the chief executive officer and the executive officers of the Company; and (c) recommending to the entire board of directors the levels of such compensation to be paid or awarded.

The compensation committee is fully committed to the proposition that compensation paid to the chief executive officer and the executive officers of the Company should be fashioned in a manner so as to encourage initiatives by those officers that will promote the long-term growth and enhancement of the intrinsic value of the Company. The committee believes that growth of the Company's intrinsic value will ultimately translate into the growth and enhancement of the interests of the shareholders in the Company. This compensation program is further intended to provide incentives to the executive officers based on compensation that is linked in part to the financial results of the Company. The committee is also mindful of the need to attract and retain individuals possessing the vision and leadership skills necessary to continue the Company's growth into the future. With these propositions in mind, the compensation committee has based the compensation of the Company's executive officers upon three pillars: base salary, performance-related bonuses based on the actual financial results of the Company measured against its pre-established business plans, and long-term incentives, such as phantom stock units.

Base salary. The committee annually reviews the annual base salary of the chief executive officer, the chief operating officer and the chief financial officer, and the recommendations of the chief executive officer for the annual base salary of the Company's other executive officers. The factors upon which the committee determines the base salary of the chief executive officer and the Company's other executive officers include the performance in the preceding year in meeting pre-established business plan goals, the level of responsibility within the Company, comparison of such compensation to that paid to executive officers in other companies of similar size and organization, and the contributions of the chief executive officer and each of the Company's executive officers that will enhance the long range prospects of the Company, but the effects of which may not be immediately apparent. In 2007, the annual base salary of the chief executive officer was increased from \$297,361 in 2006 to \$316,000 in 2007.

Incentive Bonus Plan. All of the executive officers of the Company participate in the executive incentive plan. The committee establishes the targets by which the Company's financial performance will be measured for purposes of the executive incentive plan. Historically, the performance measurement was a specified rate of return on the Company's net investment in its businesses. Each participating executive officer is assigned a percentage by the committee in the bonus pool generated under the executive incentive plan, based on both their respective levels of performance and responsibility. The specified return targets for the executive officer bonus program for 2007 was a 20% return.

As demonstrated in the Summary Compensation Table, the performance-based cash bonuses paid to the Company's executive officers in 2007 are a significant portion of their respective total compensation and thus the committee's objective of providing incentives to the Company's executive officers, based in part on the financial results of the Company, has been achieved.

Beginning January 1, 2008, the committee has adopted a new performance measurements for the Plan. The new performance measurements are a combination of increases in earnings before interest and taxes ("EBIT") and increases in net sales. The bonus pool generated by the executive incentive plan will be calculated as a percentage of the Company's

Edgar Filing: Omega Flex, Inc. - Form DEF 14A

pre-bonus EBIT, and would increase or decrease by reference to achievements against pre-established targets for net sales and EBIT for the relevant year. The targets would be a three year weighted average of the prior three years performance. As presented, the minimum level of performance in order to generate a bonus pool would be 100% of the initial 3 year weighted average of EBIT and net sales. As superior performance against the targets is achieved, the bonus pool would increase up to a maximum amount equaling 20% of the Company's pre-bonus EBIT. The committee chose these performance measurements to more fully align management's goals and objectives to the growth of the Company, as measured by earnings and net sales, which the committee believes is a more appropriate focus for a company such as Omega Flex.

Long-term Compensation. The Omega Flex, Inc. 2006 Phantom Stock Plan is designed to function as the long term component of our compensation program. Under the phantom stock plan, select members of the management team may receive units of phantom stock. The value of the phantom stock is tied to the value of our common stock. The phantom stock units have a vesting schedule, typically three years. After the phantom stock units have vested, the executive would receive the value of the phantom stock, which would be equal to the then current value of the company's common stock on the maturity date of the phantom stock units. This amount could either be full value (the phantom stock unit is equal to the common stock) or it could be appreciation only (the phantom stock unit is equal to any increase in the value if the common stock). If the executive voluntarily leaves the company or is terminated, then any unvested awards of phantom stock units are forfeited. Awards to employees are at the discretion of the committee and upon recommendation by the chief executive officer. The accrued amount of all phantom stock awards outstanding as of December 31 of each year is deducted from the total amount of the incentive bonus plan that was earned with respect to that year. In this manner, the amount of executive compensation is not increased, but reallocated. We do not have a formal program on the timing of the phantom stock awards, but we do review decisions on whether to grant phantom stock units on an annual basis in the first quarter, and then during the year depending on circumstances. Generally, the awards will be made either outside any black-out period applicable to insider trading of our common stock, or in conjunction with the calculation and payment of our annual bonus program, which occurs in the first quarter of each year.

After considering all of the factors and making recommendations upon the annual base compensation and bonus formulae and percentage participations for the chief executive officer and each of the other executive officers of the Company, the committee presents this report to the full membership of the board of directors at its December meeting each year. The recommendations of the compensation committee for 2007 was presented, discussed and voted upon, and approved in an executive session of the board of directors of the Company, Messrs. Hoben and Albino abstaining.

In addition, each year the entire board of directors, based upon the recommendation of the Compensation committee, considers the percentage participation of all employees (including the chief executive officer and the other executive officers of the Company) in the Company's profit sharing plan. For the fiscal year ended December 31, 2007, the committee recommended and the board of directors voted a Company contribution of three percent (3%) of annual base salary for all eligible employees up to the OASDI maximum of \$97,500 and a Company contribution of six percent (6%) of annual base salary for all eligible employees for amounts in excess of the OASDI maximum of \$97,500 (as limited in accordance with the Employee Retirement Income Security Act).

to use reasonable commercial efforts to cause our auditors to date their opinion on our audited annual financial statements on the same date that Mestek's auditors date their opinion on Mestek's consolidated financial statements and to enable Mestek to meet its timetable for the printing, filing and the dissemination to the public of any of its annual financial statements that include any financial reporting period for which our financial results are consolidated with Mestek's financial statements;

The separation and distribution agreement may have the effect of limiting our ability to choose our independent accounting firm, to elect to change one or more of our accounting principles, or restate our financial statements until the expiration of the applicable periods.

The audit committee approved the retention of Vitale, Caturano & Company, Ltd. to audit the Company's consolidated financial statements for the year ended December 31, 2007.
