Pfeiffer Vacuum Share Performance

The shares of Pfeiffer Vacuum Technology AG have been traded in New York since July 16, 1996, and in Frankfurt since April 15, 1998.

Deutsche Börse, Prime Standard, Frankfurt	Trading Symbol: PFV
International Securities Identification Number:	ISIN DE0006916604
Reuters Symbol:	PV.DE
New York Stock Exchange (NYSE), New York	Trading Symbol: PV
International Securities Identification Number:	ISIN US7170671025
Number of shares issued:	8,790,600 (including 100,076 treasury stock)
Free-float as of March 31, 2006:	100%
Market capitalization as of March 31, 2006:	485.2 million

On the stock exchange in Frankfurt, Pfeiffer Vacuum share performance virtually paralleled the positive TecDAX development in the first three months of 2006. While the TecDAX advanced by 21.0% from 601 to 727 points, Pfeiffer Vacuum shares increased by 18.0%. On January 2, 2006, the shares opened at 46.76 and closed on March 31, 2006, at 55.20. This marked the period's high, too. The low for the period was recorded on January 17, 2006 with 44.45.

The prices of Pfeiffer Vacuum ADRs on the NYSE, which are traded in U.S. dollars, reflect changes in the share price and changes in the exchange rate parity between the euro and the U.S. dollar over the course of the year 2006. The ADRs opened on January 3, 2006, at a price of US\$ 54.82 and closed on March 31, 2006, at US\$ 66.50. On the NYSE, too, this marked the first quarter's high. The ADRs' low for the period was US\$ 53.81 on January 17, 2006. As one of the highest dividend issuers in the TecDAX, Pfeiffer Vacuum distributed a dividend to its shareholders for the seventh year in a row in 2005 (0.90 per share for fiscal year 2004). Management Board and Supervisory Board will propose a dividend of 1.35 per share (+50.0%) for the fiscal year 2005 at the forthcoming shareholders meeting on May 31, 2006.

Table of Contents

The Pfeiffer Vacuum Group's Business and Position

During the first quarter of 2006, Pfeiffer Vacuum succeeded once more in significantly increasing both, sales and operating profit in the Company's core line of business. Our net income was 6.4 million as of end of March 2006, up 30.0% over prior year.

Overall Economic Environment and Industry Situation

The general slowdown in the pace of growth in the world economy was roughly parallel to 2005 level. Structural problems in many industrialized nations coupled with rising interest rates and increasing energy prices reduced growth potential overall.

The competitive situation in the vacuum industry, coupled with the heightened competitive pressure in the vacuum market get worse in 2006. Due to enhancements and new developments of our products we were able to hold our technological leading, resulting in an increase of our business in the first quarter of 2006.

Business

Our business operations include the development, manufacture, sale and service of vacuum pumps, vacuum measurement, components and analysis equipment and instruments, as well as vacuum systems.

Sales

Presented below are net sales by segment, by region and by product for the periods ended March 31, 2006 and 2005. It should be noted with respect to net sales by segment that the sales shown in this presentation were allocated on the basis of the location that invoiced the sales. The segment-based presentation thus shows net sales by subsidiaries. Net sales by region, on the other hand, include all sales in a given region, regardless of which subsidiary within the Pfeiffer Vacuum Group actually invoiced the sales. Net sales by segment and by region can thus differ from one another to a greater or lesser extent. Net sales in the Asian segment, for example, differ from those shown for the Asian region, as the Asian segment includes only the sales of our two Asian subsidiaries in India and Korea. The presentation for the Asian region, on the other hand, additionally includes sales generated directly with Asian customers by the German company. In net sales by segment, the sales of the German company generated through direct shipments to agents and/or customers outside Germany are significantly higher than German sales by region. Net sales in the U.S.A. region and the U.S.A. segment, on the other hand, are nearly identical, because virtually all sales in this region are handled by our American subsidiary.

Table of Contents**The Pfeiffer Vacuum Group's Business and Position****Sales by Segment (Companies)**

Our subsidiaries in the individual countries are independent legal entities with their own management which distribute the products and provide services. Accordingly, the Company identifies its operating segments geographically. Due to the similarity of their economic characteristics, including nature of products sold, type of customers, method of product distribution and economic environment, the Company aggregates its European subsidiaries outside Germany into one reportable segment, Europe (excluding Germany).

Sales by Segment

In K	Three Months Ended	
	2006	2005
		March 31,
Net sales		
Germany	19,209	15,882
Europe (excluding Germany)	12,549	13,264
United States	10,869	7,715
Asia	1,035	727
Total	43,662	37,588

In the first quarter of 2006 our total net sales increased significantly from 37.6 million by 6.1 million or 16.2% to 43.7 million.

Analysis of these numbers shows that we were able to increase sales in most of our segments. In Germany, our sales increased from 15.9 million by 3.3 million or 20.9% to 19.2 million. In the U. S. segment we recorded a sales increase by 3.2 million (40.9%) to 10.9 million. This increase was enforced by approximately 0.9 million foreign exchange gains due to the strengthened U.S. dollar against the Euro. The sales increase of our subsidiaries in Asia accounted for 42.4%. Only in the segment Europe (excluding Germany) we recorded a sales decrease by 5.4%. This decrease was primarily attributable to a big order in vacuum systems in the prior year.

Germany thus continued to be the segment that accounted for the highest share of total sales, 44.0% (42.3% in the first quarter of 2005). Rigorous efforts aimed at winning new customers and expanding business with existing customers and new products enabled us to go against the general economic trend in growing sales.

Table of Contents**The Pfeiffer Vacuum Group's Business and Position****Sales by Region**

To provide additional information, the Company is also presenting sales by region in the following table. It includes all sales in a given region, regardless of which company in the Pfeiffer Vacuum Group actually generated these sales.

Sales by Region

In K	Three Months Ended March 31,	
	2006	2005
Net sales		
Germany	11,827	9,535
Europe (excluding Germany)	12,735	13,881
United States	10,743	7,665
Asia	8,158	6,125
Rest of World	199	382
Total	43,662	37,588

This table, too, shows that we were able to increase our sales in the regions Germany, the United States and Asia. Accounting for 29.2% of total sales, Europe (excluding Germany) continues to be the Company's largest market.

Sales by Product**Sales by Product**

In K	Three Months Ended March 31,	
	2006	2005
Net sales		
Turbopumps	19,653	14,503
Measurement/analysis equipment, components	12,013	10,464
Service	5,855	5,467
Backing pumps	5,510	5,041
Systems	631	2,113
Total	43,662	37,588

The table above shows the overriding importance of turbopumps to Pfeiffer Vacuum. During the first three months of 2006, this product line generated total sales of \$19.7 million, representing an increase of \$5.2 million, or 35.5%, over the prior year. Turbopumps generated 45.0% of our total sales.

Table of Contents

The Pfeiffer Vacuum Group's Business and Position

Sales in vacuum instruments and components also developed positively, rising by 1.5 million, or 14.8%, to 12.0 million as per the end of March 2006. Additionally our service sales increased by 7.1% and sales in backing pumps rose by 9.3%. On the other hand, there was a decline by 1.5 million in net sales of vacuum systems. In the first quarter of 2005 we delivered in the segment Europe a major order for a coating system. In 2006 we did not have adequate sales in this product group.

Order Intake and Order Backlog

Our order intake increased from 41.4 million in the first three months of 2005 by 3.7 million to 45.1 million in 2006. New orders in our core product, turbopumps, advanced by 1.4 million responding 37.8% of the total increase. In addition, new orders for our backing pumps increased by 0.5 million, or 9.1%, from 5.5 million to 6.0 million. Service orders increased slightly from 5.8 million in 2005 to 5.9 million, while new orders in connection with systems likewise grow moderately by 0.1 million. The book-to-bill ratio, the quotient of new orders and sales, thus stood at 103% on March 31, 2006.

Our order backlog increased by 0.8 million, from 30.1 million at March 31, 2005 to 30.9 million at March 31, 2006. This 2.7% increase was predominantly attributable to the higher level of orders on hand for turbopumps, which rose by 0.7 million from 16.5 million to 17.2 million. Order backlog in systems advanced by 0.3 million to 3.3 million, orders on hand in vacuum components and instruments which accounted for 3.5 million were flat to the prior year amounts. Order backlog in service declined slightly by 0.1 million.

Contracts are only recorded as orders when they are based upon binding contracts. The value of orders on hand should not be used to predict future sales and order volumes.

Cost of Sales and Gross Profit

Our total cost of sales increased from 20.1 million in the three month period 2005 to 21.6 million in 2006. This increase by 1.5 million is primarily due to our significantly raised sales. As a result of the product mix and the economies of scale, we could improve our gross profit from 17.5 million in 2005 to 22.1 million in 2006. Our gross margin (gross profit as percentage of sales) enhanced from 46.6% in 2005 to 50.5% in 2006.

Permanent cost management in the production aligned with keeping our commodity prices for e.g. cast iron, stainless steel and aluminum at a virtually constant level, enables us to leverage our cost of sales.

Table of Contents

The Pfeiffer Vacuum Group's Business and Position

Selling and Marketing Expenses

Selling and marketing expenses totaled 6.0 million as of March 31, 2006, as opposed to 4.6 million for the corresponding period the year before. Our selling and marketing expenses increased by 1.4 million as a result of various marketing measures. Our goal is to expand our market share and to withdraw the competitive price pressure. Relative to sales, the ratio increased from 12.1% in the first quarter of 2005 to 13.7% in 2006.

General and Administrative Expenses

In the first three months of 2006, our general and administrative expenses amounted to 3.9 million and increased from 3.0 million in the comparable prior year's period. This increase by 0.9 million is partly due to expenses related to the adoption of SOA 404 at end of the fiscal year 2006 and additional personnel cost. Relative to sales, the ratio increased from 8.0% to 8.9%.

Research and Development Expenses

Research and development expenses decreased slightly from 1.8 million in the three month period 2005 to 1.7 million in 2006. As percentage of sales our research and development expenses declined from 4.7% to 3.8%, due to the significantly increased sales.

We will maintain the percentage of expenses allocated for research and development at a high level. We are dependent upon maintaining our technological edge in designing and manufacturing vacuum pumps, and invest in order to be able to continue to sustain our position on the world market, to expand our market shares and to open up new markets. All expenditures for research and development are expensed as they are incurred.

Operating Profit

During the first three months of 2006, our operating profit rose sharply from 8.2 million to 10.5 million, representing growth of 2.3 million or 29.3%. The ratio between operating profit and sales, totaled 24.1% in the first quarter of 2006 compared to 21.7% in the first quarter of 2005.

Table of Contents

The Pfeiffer Vacuum Group's Business and Position

Financial Income

Financial income comprises interest expense, interest income and exchange rate gains or losses. At March 31, 2006, our interest income offset by the interest expense amounted to 0.3 million as opposed to 0.2 million in the prior year's period. Our foreign exchange gain in the first quarter of 2005 amounting to 0.4 million turned to a loss in 2006 of 0.3 million, primarily due to the strengthened U.S. dollar against the Euro.

Income Taxes

Our income tax rate totaled 39.0% in the three month period ended March 31, 2006 and 39.9% in 2005.

Income from Continuing and Discontinued Operations and Net Income

In fiscal year 2005 we recorded losses from discontinued operations (see Note 5 Discontinued operations to our Notes to the Interim Financial Statements). These discontinued operations resulted in the first quarter of 2005 in a loss of 0.3 million; the net income of 2006 was not burdened with any expenses due to these discontinued operations.

Additionally, we do not expect any charges in future periods.

Income from continuing operations totaled 6.4 million at March 31, 2006 and 5.3 million at March 31, 2005. This represents an improvement of 1.1 million, or 21.6%, over March 2005.

Net income increased 30.0% from 4.9 million in 2005 to 6.4 million in 2006.

Financial Position

The financial position of the Pfeiffer Vacuum Group continues to be characterized by cash and cash equivalents on the assets side of the balance sheet and by shareholders' equity on the opposite side. Our balance sheet total on March 31, 2006, increased by 7.6 million or 5.5%, in comparison with December 31, 2005. On the liability side of the balance sheet, this increase was especially attributable to the 6.3 million, or 5.6%, rise in shareholders' equity. Our equity ratio stood at 81.2%, representing a further improvement from its high level of 81.1% in 2005. Our shareholders' equity continues to enable us to finance our investments and operations without having to resort to bank debt.

Page 10

Table of Contents**The Pfeiffer Vacuum Group's Business and Position**

On the asset side, the increase in the balance sheet total was predominantly attributable to the 4.5 million increase in cash and cash equivalents to 66.2 million, as well as the 2.1 million increase in our inventories. The cash flow statement shows the development of liquid assets.

Cash Flow

Further on, we are able to generate required cash from operating activities to financing our day-to-day business and investment projects.

Cash flow from operating activities totaled 5.2 million for the first three months of 2006 and represents an increase of 2.0 million from the 3.2 million total for the comparable period in 2005. The increase of our inventories led to cash usage of approximately 2.2 million, offset by an increase in trade payables of approximately 0.6 million (cash provided). In the first quarter of 2006 we paid income tax liabilities and received income tax claims. Our trade accounts receivable as of March 31, 2006 increased by approximately 0.6 million, primarily due to higher net sales. Additionally, the increase in net income from continuing operations had a positive effect of approximately 1.1 million at the cash flow provided by operating activities.

Net cash used by investing activities totaled 0.5 million for the first three months of the year 2006 compared to 3.6 million for 2005. In the first quarter of 2005 we purchased investment securities amounting to 3.0 million.

Workforce

As of March 31, 2006, the Company employed a workforce of 687 people, 507 of them in Germany and 180 in other countries.

Workforce

	Germany		Other Countries	
		March 31,		
	2006	2005	2006	2005
Manufacturing	271	276	53	58
Research and Development	75	79		
Sales and Marketing	103	98	98	96
Administration	58	55	29	29
Total	507	508	180	183

Workforce decreased slightly by 0.6 % as compared to March 31, 2005.

After 19 employees as of March 31, 2005 no employees were engaged in discontinued operations on March 31, 2006.

Table of Contents

The Pfeiffer Vacuum Group's Business and Position

Risk Report

During the first three months of the 2006 fiscal year, there were no changes in the risks as described in our Annual Report (Geschäftsbericht) and our Annual Report on Form 20-F for the year ended December 31, 2005. Both reports are available on our homepage at www.pfeiffer-vacuum.net.

Major Events in Fiscal 2006

Since the beginning of the 2006 fiscal year, there have not been any significant changes in the Company's position or the industry environment.

Outlook

The forecast for the world economic growth in 2006 is still very low. We estimate that sales growth in the vacuum industry in 2006 will be the same as in the past fiscal year. Given our orders on hand and rising customer demand, we anticipate that our sales will grow faster than the market in 2006.

Nevertheless, we cannot exclude negative impacts due to the US dollar exchange rate or significant increases in commodity prices in the next few months.

Overall, we assume that along with constantly growing sales our profitability will remain in line with the last years or slightly improve.

Notes to the Interim Financial Statements (unaudited)

1. The Company and Basis of Presentation

Pfeiffer Vacuum is a full-line manufacturer in the vacuum technology business offering solutions for a variety of customer applications relating to the generation, control and measurement of vacuum. The products developed and manufactured at its production facility in Asslar, Germany, include turbomolecular pumps, a range of backing pumps, such as rotary vane, Roots and dry pumps, complete pumping stations as well as customized vacuum systems, vacuum components and instruments.

Pfeiffer Vacuum distributes its products through a network of its own sales offices and subsidiaries as well as independent marketing agents. Moreover, there are service support centers in most major industrial locations throughout the world. The Company's primary markets are located in Europe, the United States and Asia.

The Consolidated Financial Statements of Pfeiffer Vacuum Technology AG and its subsidiaries (the Company or Pfeiffer Vacuum) have been prepared in accordance with United States Generally Accepted Accounting Principles (U.S. GAAP). The interim financial statements reflect all adjustments (consisting only of normal recurring adjustments) which are necessary for a fair presentation of the financial position, results of operations and cash flows of the Company. For further information, refer to the consolidated financial statements and footnotes thereto included in the Pfeiffer Vacuum Technology AG Annual Report (Geschäftsbericht) and the Annual Report on Form 20-F for the year ended December 31, 2005, both available at the Company's homepage (www.pfeiffer-vacuum.net).

Pfeiffer Vacuum presents its Consolidated Financial Statements in euros (€).

2. Summary of Significant Accounting Policies

Consolidation Principles

All companies which Pfeiffer Vacuum Technology AG directly or indirectly controls are consolidated. The Company is considered to control an entity if it either directly or indirectly holds a majority of the voting rights and can therefore exercise a controlling influence.

All material intercompany gains and losses, receivables, liabilities, revenues and expenses are eliminated as part of the consolidation process.

Table of Contents

Notes to the Interim Financial Statements (unaudited)

Use of Estimates

The preparation of the Consolidated Financial Statements requires management to make estimates and assumptions that affect the amounts of assets and liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the reporting period that are reported in the financial statements and accompanying notes. These estimates and assumptions could differ from the actual results.

Components of Operating Expenses

Cost of sales include all expenses that are related to the sold product or service in a direct or indirect manner, for example, material consumption (including inbound freight charges), production related wages and salaries, purchasing and receiving costs, inspection costs, warehousing costs and certain service costs. Inventory excess and obsolescence charges are also recorded in cost of sales as well as warranty related expenses. Selling and marketing expenses mainly include wages and salaries, costs for marketing and advertising and costs related to trade fairs and conventions as well as other merchandising costs (including catalogs, brochures, etc.). General and administrative expenses predominantly include wages and salaries, allowance for doubtful accounts, audit and other general consulting fees and other costs that relate to the Company as a whole.

Reclassifications

Certain prior-year amounts have been reclassified to provide comparability with the presentation of the current year financial statements.

Foreign Currency Translation

The financial statements of the Company's foreign subsidiaries have been translated into euros () in accordance with Statement of Financial Accounting Standards (SFAS) No. 52, Foreign Currency Translation . The functional currency of all of the Company's foreign subsidiaries is the applicable local currency in which that entity conducts its business. When translating foreign functional currency financial statements, year-end exchange rates are applied to the assets and liabilities, while average annual exchange rates are applied to income statement accounts. The resulting translation adjustments are recorded as accumulated other comprehensive income (loss).

Notes to the Interim Financial Statements (unaudited)

3. New U.S. Legislation and Accounting Rules

As a result of the Company's listing at New York Stock Exchange, it is subject not only to the provisions of German law (corporation, codetermination and capital market legislation) and of its own Articles of Association but also to the licensing requirements of the New York Stock Exchange. American capital market legislation – specifically the Sarbanes-Oxley Act and the rules and regulations of the Securities and Exchange Commission (SEC) – also apply to Pfeiffer Vacuum.

4. Stock-based Compensation – Adoption of SFAS 123R

In order to allow its employees to participate in the future growth and development of Pfeiffer Vacuum Technology AG and its subsidiaries, the Company established a convertible bond arrangement also known as the employee participation program implemented on July 7, 2002 and running through 2007.

The purpose of this employee participation program is to provide compensation and motivate the management and some key employees by providing them with an opportunity to share in the Company's stock price development.

In prior years, when stock option plans were not allowed under German law, the use of convertible bonds was common practice among German public companies. Pfeiffer Vacuum's employee participation program utilizes convertible bonds in lieu of stock options. Under this program, the Company provides an employee a loan to purchase a Company-issued convertible bond. The loan and the nominal value of the convertible bond are equal to each other (and to what would be the exercise price in the case of a stock option), and the interest rate on the loan is equal to the interest rate on the convertible bond. Accordingly, there is no out-of-pocket cost to the Company or to the employee for either the loan or the convertible bond (as in the case of a stock option). The employee may then exercise her/his right to convert the bond to Company stock (equivalent to the exercise of a stock option) by repaying the loan to the Company for the nominal value of the convertible bond (which is equal to what would be the exercise price in the case of a stock option).

Within the scope of this employee participation program, on July 7, 2002, the Company issued 4,600 convertible bonds having an aggregate principal amount of 0.6 million to members of management and certain salaried employees of the Company in Germany and other countries.

The conversion feature entitles the bearer to convert each bond into 50 no-par ordinary shares of Pfeiffer Vacuum. The conversion price is based upon 110% of the average closing price on the Frankfurt Stock Exchange for the last ten trading days prior to issuance. The conversion price for the July 2002 issue was set at 42.86 per share.

Table of Contents

Notes to the Interim Financial Statements (unaudited)

There were 180,000 option shares, relating to the convertible bonds for the 2002 issue outstanding at March 31, 2006. Fair value at the date of grant was 10.35 per ordinary share option. Each holder of convertible bonds could convert up to 30% of such bonds to ordinary shares subsequent to the Annual Shareholders Meeting in 2004, up to 60% following the Annual Shareholders Meeting in 2005 and can convert up to 100% following the Annual Shareholders Meeting in 2006. The final conversion date is December 9, 2007. Conversion is only possible during specific periods of time.

The convertible bonds bear interest at 6% p.a. and are redeemable at their principal amount on December 10, 2007, unless previously converted or called. The bonds may be called by the Company at their principal amount upon termination of employment. Employees were given the opportunity of financing the purchase of the convertible bonds through interest-bearing employee loans. These loans bear interest at the same fixed rate as the bonds, have identical terms, are classified as other non-current assets in the balance sheet and are repayable upon conversion of the bonds or if the bonds are called by the Company upon termination of employment.

There is a right of setoff for both, principal and interest between the loan and the bond. Employee loans granted under this program amounted to 313,600 as of March 31, 2006.

Should the conversion right be exercised, interest on the converted convertible bonds shall cease to accrue at the day on which said conversion right was exercised. The shares of stock stemming from exercise of conversion rights shall participate in earnings from the beginning of the fiscal year in which said shares of stock were created through exercise of the conversion rights.

As of March 31, 2006, employees had forfeited 1,000 of these convertible bonds having an aggregate principal value of 128,000 and repaid the corresponding employee loans. The Company did not recognize any compensation expense for the stock-based compensation awards in the years 2005, 2004 and 2003.

The fair value of each option grant was estimated on the date of grant using the Black-Scholes option pricing model, with the following assumptions being used for grants issued in 2002. The risk-free interest rate was 4.5%; expected term 4 years; expected dividend yield of 1%; and expected volatility 30%. Expected volatility was based on historical volatility. The risk-free rate is based on the average interest rate of German government bonds. Expected term represents the period of time that options are expected to be outstanding.

Table of Contents**Notes to the Interim Financial Statements (unaudited)**

A summary of option shares related to the convertible bonds of the 2002 issue is as follows:

Shares Related to the Convertible Bonds

	Number of Shares Outstanding	Weighted Average Exercise Price per Share
Convertible shares outstanding January 1, 2005	190,000	42.86
Granted		
Exercised		
Forfeited	(10,000)	42.86
Convertible shares outstanding December 31, 2005	180,000	42.86
Granted		
Exercised		
Forfeited		
Convertible shares outstanding March 31, 2006	180,000	42.86

108,000 option shares of this program were exercisable at March 31, 2006, 72,000 option shares are non-vested. In December 2004 the FASB issued SFAS 123 (revised 2004), *Share-Based Payments* (SFAS 123R). At January 1, 2006, the Company adopted SFAS 123R, using the modified-prospective transition method. Pfeiffer Vacuum has a fixed plan (under the convertible debt arrangement) with the number of shares fixed at 230,000 and the exercise price fixed at 42.86. The exercise price was greater than the quoted market price of the stock as it was based on 110% of the ten day average traded stock prior to the grant date plus 2.56 (128 face value of each bond divided by 50 shares). All participants were employees within the consolidated Pfeiffer Vacuum Group as defined under common law. There have been no program modifications to date. In fact, despite partial vesting, no one has exercised options to date. There were 232,876 of total unrecognized compensation costs. These costs are expected to be recognized in the first six months of the fiscal year 2006, as the four year vesting period ends in June 2006. Under the assumption, that there will be no forfeitures through the end of vesting period, the Company recorded in the first quarter of 2006 compensation expenses amounting to 116.438. In its cash flow statements these expenses are disclosed in a separate line.

Under German tax law, expense related to share-based payment arrangements or specifically expense related to the intrinsic value of an instrument on a specified date is not tax deductible. Consequently, there were no deferred taxes recorded as part of SFAS 123R adoption.

Table of Contents**Notes to the Interim Financial Statements (unaudited)****5. Discontinued Operations**

In spring 2005, the Management Board committed to a plan to dispose of the DVD business, having obtained Supervisory Board approval as required in order to terminate this sideline activity. Beginning in 2005, the DVD business as part of the segment Germany is reflected as a discontinued operation. All prior period statements have been restated accordingly.

Gains and losses of discontinued operations were as follows:

Gains and Losses

In K	Three months ended	
	March 31,	2005
	2006	
Loss from operations of DVD business before income tax benefit		(552)
Income tax benefit		209
Net total loss from discontinued operations		(343)

The Company expects no future expenses due to these discontinued operations.

On March 31, 2006 and December 31, 2005 no assets or liabilities from discontinued operations were existent.

6. Inventories

Inventories consist of the following:

Inventories

In K	March 31,	December
	2006	31,
		2005
Raw materials	5,275	5,441
Work-in-process	5,365	3,989
Finished products	8,788	7,773
Reserves	(3,554)	(3,456)
Total inventories	15,874	13,747

The Company's positive order situation connected with a high plant utilization led to increased inventories in work-in-process as well as in finished products. Inventories are stated at the lower of cost or market.

Table of Contents**Notes to the Interim Financial Statements (unaudited)****7. Investment Securities**

The Company holds investment securities amounting to 9.0 million, which will be held until final maturity and are consequently valued at carrying cost of acquisition. Compared to December 31, 2005, there were no changes in the first quarter of 2006.

8. Earnings per Ordinary and Diluted Share and ADR

The following table sets forth the computation of basic and diluted earnings per share and ADR from continuing operations:

Earnings per Ordinary and Diluted Share and ADR

	Three months ended March 31,	
	2006	2005
<i>Numerator:</i>		
Net income from continuing operations (in thousands)	6,407	5,271
<i>Denominator:</i>		
Denominator for basic earnings per share weighted-average shares	8,690,524	8,690,524
<i>Effect of dilutive securities:</i>		
Convertible bonds	31,352	
Denominator for diluted earnings per share adjusted weighted average shares and assumed conversions	8,721,876	8,690,524
Earnings per share and ADR from continuing operations (in)		
Basic	0.74	0.61
Diluted	0.73	(0.04)

9. Pension Benefits and Similar Obligations

Most employees of the Company are entitled to receive pension benefits from Pfeiffer Vacuum, which are covered by defined benefit plans. Plan assets for the German Pension Plans are held in the Pfeiffer Vacuum Trust e. V. (the Trust), a registered association. It is an independent, bankruptcy-protected, separate legal entity whose sole purpose is to act in a fiduciary capacity as trustee for the assets held. The trust has invested this cash in a mutual fund managed by an unrelated third party that pursues a target allocation of 30 % in equities and 70 % in fixed-income securities and cash.

Table of Contents**Notes to the Interim Financial Statements (unaudited)**

Pension expense for all plans included the following components:

Pension Expense for All Plans

In K	Three months ended	
	March 31,	
	2006	2005
Service cost	295	251
Interest cost	557	550
Expected return on assets	(473)	(544)
Amortization of		
unrecognized net actuarial (gains) losses	149	38
unrecognized prior service cost	17	18
unrecognized net obligation	6	6
Net pension cost	551	319

The increase in pension expense is predominantly due to lower expected returns on assets and higher amortization for actuarial losses. Both factors are caused by the decreased interest rate level in fiscal 2005.

10. Warranty

Warranty accruals are established in the period the related revenue is recognized. The estimate is based on managements estimate and historical experience by specific product type.

Warranty provisions developed as follows:

Warranty Provisions

In K	Three months ended	
	March 31,	
	2006	2005
Balance at beginning of period	2,887	2,897
Warranties issued during the period	349	244
Utilization of accruals	(217)	(109)
Balance at end of period	3,019	3,032

11. Segment Information

The Company s business activities include the development, manufacture, sale and service of vacuum pumps, vacuum components and instruments, as well as vacuum systems. The subsidiaries in the individual countries are independent legal entities with their own management which distribute the products and provide services. Accordingly, the Company identifies its operating segments geographically.

Table of Contents**Notes to the Interim Financial Statements (unaudited)**

Due to the similarity of their economic characteristics, including nature of products sold, type of customers, method of product distribution and economic environment, the Company aggregates its European subsidiaries outside Germany into one reportable segment, Europe (excluding Germany). The Company evaluates the success and performance of its subsidiaries on the basis of their income before income tax.

Information concerning the Company's continuing operations by geographic locations is summarized as follows:

Continuing Operations by Geographic Locations

In K	Three months ended	
	March 31,	
	2006	2005
Net Sales		
Germany		
Unaffiliated	19,209	15,882
Intercompany	16,468	13,538
	35,677	29,420
Europe (excluding Germany)	12,555	13,299
United States	10,823	7,718
Asia	1,283	886
	60,338	51,323
Intercompany eliminations	(16,676)	(13,735)
Total net sales	43,662	37,588
Net Cost of Sales		
Germany	(19,399)	(16,844)
Europe (excluding Germany)	(9,572)	(10,641)
United States	(8,558)	(5,942)
Asia	(754)	(498)
	(38,283)	(33,925)
Intercompany eliminations	16,684	13,834
Total cost of sales	(21,599)	(20,091)
Operating profit		
Germany	8,622	6,685
Europe (excluding Germany)	1,096	904
United States	608	316
Asia	206	148
	10,532	8,053
Intercompany eliminations	8	99

Total operating profit	10,540	8,152
-------------------------------	---------------	-------

Table of Contents

Notes to the Interim Financial Statements (unaudited)

12. Income Tax Expense

Under German corporate tax law, taxes on income are composed of corporate taxes, trade taxes and an additional surtax.

The Company's effective tax rate of its continuing operations was 39.0 % for the first three months of 2006 and 39.9 % for the first three months of 2005.

The tax rate used for calculation of the income tax benefit from discontinued operations was 37.9 % in the three month period ended March 31, 2005.
