INFORMATION CIRCULAR

Solicitation of Proxies

This Information Circular is furnished in connection with the solicitation by the management of PAN AMERICAN SILVER CORP. (the “Company”) of proxies to be voted at the annual general and special meeting of the shareholders of the Company to be held at 2:00 p.m. (Vancouver time) on Monday, May 10, 2010, in the Crystal Room of the Metropolitan Hotel, 645 Howe Street, Vancouver, British Columbia, and any adjournments thereof (the “Meeting”).

Management’s solicitation of proxies will be conducted by mail and may be supplemented by telephone or other personal contact to be made without special compensation by directors, officers and employees of the Company or by the Company’s registrar and transfer agent. The Company may retain other persons or companies to solicit proxies on behalf of management, in which event customary fees for such services will be paid. All costs of solicitation will be borne by the Company.

Unless the context otherwise requires, references herein to “Pan American” mean the Company and its subsidiaries. The principal executive office of the Company is located at 1500 - 625 Howe Street, Vancouver, British Columbia, Canada, V6C 2T6. The telephone number is (604) 684-1175 and the facsimile number is (604) 684-0147. The Company’s website address is www.panamericansilver.com. The information on that website is not incorporated by reference into this Information Circular. The registered and records office of the Company is located at 1200 Waterfront Centre, 200 Burrard Street, Vancouver, British Columbia, Canada, V7X 1T2.

Unless otherwise indicated, all currency amounts stated in this Information Circular are stated in the lawful currency of the United States.

The date of this Information Circular is April 5, 2010, and it is first being sent to shareholders on or about April 9, 2010. The Annual Information Form disclosure required by National Instrument 52-110 – Audit Committees (“NI 52-110”) can be found in the Company’s Annual Information Form for the year ended December 31, 2009, under the heading “Audit Committee”, a copy of which is available on the System for Electronic Document Analysis and Retrieval (“SEDAR”) at www.sedar.com.

Appointment of Proxyholder

The persons named in the accompanying form of proxy for the Meeting are directors or officers of the Company, or both. A shareholder has the right to appoint some other person, who need not be a shareholder, to represent the shareholder at the Meeting by striking out the names of the persons designated in the accompanying form of proxy and by inserting that other person’s name in the blank space provided.

The instrument appointing a proxyholder must be signed in writing by the shareholder, or such shareholder’s attorney authorized in writing. If the shareholder is a corporation, the instrument appointing a proxyholder must be in writing signed by an officer or attorney of the corporation duly authorized by resolution of the directors of such corporation, which resolution must accompany such instrument.

An instrument of proxy will only be valid if it is duly completed, signed, dated and received at the office of the Company's registrar and transfer agent, Computershare Investor Services Inc. ("Computershare"), 100 University Avenue, 9th Floor, Toronto, Ontario, Canada, M5J 2Y1, Attention: Stock Transfer Department, not less than 48 hours (excluding Saturdays, Sundays and holidays) before the time set for the holding of the Meeting, unless the Chairman of the Meeting elects to exercise his discretion to accept proxies received subsequently.

If you have any questions about the procedures to be followed to vote at the Meeting or about obtaining, completing and depositing the required form of proxy, you should contact Computershare Investor Services Inc. by telephone (toll free) at 1-800-564-6253.

Revocation of Proxy

A shareholder may revoke a proxy by delivering an instrument in writing executed by the shareholder or by the shareholder's attorney authorized in writing, or where the shareholder is a corporation, by a duly authorized officer or attorney of the corporation, either at the registered office of the Company at any time up to and including the last business day preceding the day of the Meeting, or with the consent of the Chairman of the Meeting on the day of the Meeting, before any vote in respect of which the proxy is to be used shall have been taken. A shareholder may also revoke a proxy by depositing another properly executed instrument appointing a proxyholder bearing a later date with the Company's registrar and transfer agent in the manner described above, or in any other manner permitted by law.

Voting by Non-Registered Shareholders

Only registered shareholders or persons they appoint as their proxyholders are permitted to attend and/or vote at the Meeting. However, in many cases, common shares in the capital of the Company (the "Shares") beneficially owned by a holder (a "Non-Registered Holder") are registered either:

- (a) in the name of an intermediary (an "Intermediary") that the Non-Registered Holder deals with in respect of the Shares, such as a bank, trust company, securities dealer or broker or trustee or administrator of self-administered RRSPs, RRIFs, RESPs or similar plans; or
- (b) in the name of a depository (such as The Canadian Depository for Securities Limited) of which the Intermediary is a participant.

In accordance with the requirements of applicable securities laws, the Company has distributed copies of the Notice of Meeting, this Information Circular, the form of proxy, and the reply card for use by shareholders who wish to receive the Company's financial statements (collectively, the "Meeting Materials") to the depositories and Intermediaries for onward distribution to Non-Registered Holders.

Intermediaries are required to forward Meeting Materials to Non-Registered Holders, unless a Non-Registered Holder has waived the right to receive them. Very often, Intermediaries will use service companies, such as ADP Canada or ADP, to forward the Meeting Materials to Non-Registered Holders. Non-Registered Holders who have not waived the right to receive Meeting Materials will either:

- (a) receive, as part of the Meeting Materials, a voting instruction form which must be completed, signed and delivered by the Non-Registered Holder in accordance with the directions provided by the Intermediary on the voting instruction form (which may in some cases permit the completion of the voting instruction form by telephone or through the internet); or

- (b) be given a form of proxy which has already been signed by the Intermediary (typically by a facsimile, stamped signature), which is restricted to the number of Shares beneficially owned by the Non-Registered Holder but which is otherwise uncompleted. This form of proxy need not be signed by the Non-Registered Holder. In this case, the Non-Registered Holder who wishes to submit a proxy should otherwise properly complete this form of proxy and deposit it as described above.

The purpose of these procedures is to permit Non-Registered Holders to direct the voting of the Shares they beneficially own. Should a Non-Registered Holder who receives either a proxy or a voting instruction form wish to attend and vote at the Meeting in person (or have another person attend and vote on behalf of the Non-Registered Holder), the Non-Registered Holder should strike out the names of the persons named in the accompanying proxy and insert the Non-Registered Holder's (or such other person's) name in the blank space provided or, in the case of a voting instruction form, follow the corresponding instructions on the form. In either case, Non-Registered Holders should carefully follow the instructions of their Intermediary or its service company.

In addition, there are two kinds of Non-Registered Holders - those who object to their name being made known to the issuers of securities which they own (called "OBOs", for Objecting Beneficial Owners) and those who do not object to the issuers of the securities they own knowing who they are (called "NOBOs", for Non-Objecting Beneficial Owners). Until September 2002, issuers (including the Directors and Officers of the Company) had no knowledge of the identity of any of their beneficial owners including NOBOs. Subject to the provision of National Instrument 54-101 - Communication with Beneficial Owners of Securities of Reporting Issuers ("NI 54-101"); however, after September 1, 2002 issuers could request and obtain a list of their NOBOs from intermediaries via their transfer agents. Prior to September 1, 2004, issuers could obtain this NOBO list and use it for specific purposes connected with the affairs of the corporation, except for the distribution of proxy-related materials directly to NOBOs. This was the first stage of the implementation of NI 54-101. Effective for shareholder meetings taking place on or after September 1, 2004, issuers can obtain and use this NOBO list for distribution of proxy-related materials directly (not via ADP) to NOBOs. This is the second stage of the implementation of NI 54-101.

The Company has decided to take advantage of those provisions of NI 54-101 that permit it to directly deliver proxy-related materials to its NOBOs. As a result NOBOs can expect to receive a scannable Voting Instruction Form ("VIF") from our transfer agent, Computershare. These VIFs are to be completed and returned to Computershare in the envelope provided. In addition, Computershare provides both telephone voting and internet voting services, as described on the VIF itself which contain complete instructions. Computershare will tabulate the results of the VIFs received from NOBOs and will provide appropriate instructions at the Meeting with respect to the shares represented by the VIFs they receive.

Voting of Proxies

Shares represented by properly executed proxies will be voted or withheld from voting in accordance with the instructions of the shareholder on any ballot that may be called for and, if the shareholder specifies a choice with respect to any matter to be acted upon at the Meeting, the Shares represented by such proxies will be voted accordingly. If no choice is specified, the persons designated in the accompanying form of proxy will vote FOR all matters proposed by management at the Meeting. If for any reason the instructions of a shareholder in a proxy are uncertain as they relate to the election of directors, the proxyholder will not vote the Shares represented by that proxy for any director.

Exercise of Discretion

The accompanying form of proxy when properly completed and delivered and not revoked confers discretionary authority upon the persons appointed proxy thereunder to vote with respect to amendments or

variations of matters identified in the Notice of Meeting, and with respect to other matters which may properly come before the Meeting. In the event that amendments or variations to matters identified in the Notice of Meeting are properly brought before the Meeting or any further or other business is properly brought before the Meeting, it is the intention of the persons designated in the accompanying form of proxy to vote in accordance with their best judgment on such matters of business. At the date of this Information Circular, management of the Company knows of no such amendment, variation or other matter which may be presented to the Meeting.

Voting Securities and Principal Holders of Voting Securities

The Company is authorized to issue 200,000,000 common shares without par value of which 106,903,990 fully paid and non-assessable Shares are issued and outstanding as of March 30, 2010. The holders of Shares are entitled to one vote for each Share held. The Company has no other classes of voting securities.

Any holder of record of Shares at the close of business on Tuesday, March 30, 2010 will be entitled to receive notice of the Meeting. Any such shareholder who either personally attends the Meeting or has completed and delivered a form of proxy in the manner and subject to the provisions described above shall be entitled to vote or to have his or her Shares voted at the Meeting. The failure of any shareholder to receive the Notice of Meeting does not deprive such shareholder of his or her entitlement to vote at the Meeting.

To the knowledge of the directors and senior officers of the Company, there are no persons or companies who beneficially own, directly or indirectly, or exercise control or direction over, more than ten percent of the issued and outstanding Shares.

This information was provided by management of the Company and Computershare.

Quorum

Under the Company's articles of incorporation (the "Articles"), a quorum for the transaction of business at a general meeting is two individuals who are shareholders, proxy holders representing shareholders or duly authorized representatives of corporate shareholders personally present and representing shares aggregating not less than 25% of the issued shares of the Company carrying the right to vote at that meeting. In the event there is only one shareholder, the quorum is one person personally present and being, or representing by proxy, that shareholder, or in the case of a corporate shareholder, a duly authorized representative of that shareholder.

Particular Matters to be Acted Upon

Election of Directors

The board of directors of the Company (the "Board") has determined that nine directors will be elected at the Meeting for the ensuing year.

The term of office of each of the present directors expires at the close of the Meeting. Persons named below will be presented for election at the Meeting as management's nominees and the persons named in the accompanying form of proxy intend to vote for the election of these nominees. In the absence of instructions to the contrary, the accompanying form of proxy will be voted "For" the nominees herein listed. Management does not contemplate that any of these nominees will be unable to serve as a director, but if that should occur for any reason prior to the Meeting, the persons named in the accompanying form of proxy reserve the right to vote for another nominee in their discretion, unless the shareholder has specified in the accompanying form of proxy that such shareholder's Shares are to be withheld from voting on the election of directors. Each director elected will

hold office until the close of the next annual general meeting of the Company or until his successor is elected or appointed, unless his office is earlier vacated in accordance with the Articles of the Company or with the provisions of the Business Corporations Act (British Columbia).

The following table sets out the names of management's nominees for election as directors, the municipality and province or state in which each is ordinarily resident, all offices of the Company now held by each of them, each nominee's principal occupation, business or employment, the period of time for which each nominee has served as a director of the Company and the number of shares of the Company or any of its subsidiaries beneficially owned by each nominee, directly or indirectly, or over which each nominee exercises control or direction as at March 30, 2010. All of the proposed nominees were duly elected as directors at the last Annual General Meeting of Shareholders held on May 12, 2009.

The number of shares beneficially owned by each nominee or over which each nominee exercises control or direction set out in the above table has been obtained from publicly available insider reporting as at March 30, 2010 or have been provided by individual nominees.

None of the nominees for election to the Board named above are, as at the date of this Information Circular, or has been, within ten years before the date of this Information Circular:

- (a) subject to an order that was issued while the proposed director was acting in the capacity as director, chief executive officer or chief financial officer; or

- (b) subject to an order that was issued after the proposed director ceased to be a director, chief executive officer or chief financial officer and which resulted from an event that occurred while that person was acting in the capacity as director, chief executive officer or chief financial officer.

Except as set out below, none of the nominees for election to the Board named above are, as at the date of this Information Circular, or has been, within ten years before the date of this Information Circular, a director or executive officer of any company that, while that person was acting in that capacity or within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets, or has, within ten years before the date of this Information Circular, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or become subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold the assets of the proposed director.

Robert Pirooz was formerly a director of Pacific Ballet British Columbia Society (the "Ballet"). On December 23, 2008, within a year following Mr. Pirooz's resignation from the board of directors of the Ballet, the Ballet filed a Notice of Intention to Make a Proposal under subsection 50.4(1) of the Bankruptcy and Insolvency Act. Subsequently, on January 9, 2009, the proposal was unanimously accepted by the creditors of the Ballet.

In addition, none of the Board's nominees for election as a director of the Company named above has been subject to:

- (a) any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority; or
- (b) any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable shareholder in deciding whether to vote for a nominee as director.

Appointment of Auditors

Unless otherwise instructed, the accompanying form of proxy will be voted for: (a) the reappointment of Deloitte & Touche LLP, Chartered Accountants, of Vancouver, British Columbia, as the auditors of the Company to hold office until the close of the next annual general meeting of the Company; and (b) the authorization of the Board to fix the remuneration to be paid to the auditors of the Company. Deloitte & Touche LLP were first appointed auditors of the Company on October 26, 1993.

Advisory Resolution to Executive Compensation Approach

The Company is committed to being on the forefront of corporate governance issues. Accordingly, at the Meeting, shareholders will be asked to consider and, if deemed advisable, to approve an ordinary advisory resolution with regard to supporting the Company's approach to executive compensation.

Since the resolution is advisory in nature, it would not be binding on the Company. However, the Company and, in particular, the Human Resources and Compensation Committee, will consider the outcome of the vote as part of its ongoing review of executive compensation. For information on the Company's approach to executive compensation see "Executive Compensation" beginning on page 14. In the absence of instructions to the contrary, the accompanying form of proxy will be voted "For" this ordinary resolution.

The full text of the resolution to approve the advisory resolution on executive compensation approach is set out in Appendix “B” hereto.

Amendment to Stock Option and Compensation Share Plan

At the Meeting, shareholders will be asked to consider and, if deemed advisable, to approve an ordinary resolution to amend the terms of the Company’s stock option and compensation share plan (formerly known as the Company’s “stock option and stock bonus plan”, which was approved by the shareholders of the Company on May 13, 2008) (the “Plan”) to change the maximum number of compensation shares (“Compensation Shares”) issuable under the Plan from 50,000 to 200,000. For greater certainty, the total number of shares issuable under the Plan will remain at 6,461,470. In the absence of instructions to the contrary, the accompanying form of proxy will be voted “For” this ordinary resolution.

The text of the ordinary resolution to amend the Plan to change the maximum number of Compensation Shares issuable under the Plan is annexed as Appendix “C” to this Information Circular.

The terms of the Plan are described under the heading “Executive Compensation – Stock Options”.

The Board believes that the proposed amendment to the Plan is necessary and in the best interests of the Company and its shareholders in order for the Company and its subsidiaries to continue to attract and retain capable and experienced directors, officers and employees, as well as to provide incentives to other key service providers. The Company views Compensation Shares as a viable and preferable alternative to issuing stock options in certain of the foregoing circumstances and the Company does not believe that the current maximum number of Compensation Shares available is sufficient for these purposes. The Company believes that increasing the number of Compensation Shares while not increasing the overall number of shares (consequently options) issuable under the Plan has two distinct advantages from a shareholder perspective: (a) issuance of Compensation Shares to key personnel more closely aligns the compensation with the interests of the shareholders; and (b) the Company considers the award of Compensation Shares to be an incentive more in-line with current corporate governance practices.

In order to comply with the requirements of the TSX and Nasdaq, the Compensation Share Resolution amending the Plan must be approved by an ordinary resolution of shareholders. This proposed amendment of the Plan is also subject to regulatory approval by the TSX and Nasdaq.

In the event that the Compensation Share Resolution is not approved by the requisite majority at the Meeting, the Company will be limited in the number of Compensation Shares that it may grant under the Plan. Accordingly, the Company may be forced to provide an alternate form of compensation and incentives to its existing and future employees, directors and officers.

Corporate Governance

The Board is required to supervise the management of the business and affairs of the Company. In February 1996 the Board adopted a formal written mandate which defined its stewardship responsibilities. This mandate was revised, amended and restated in April 2003, March 2005 and again in November 2005, in light of the adoption of NI 52-110, National Instrument 58-101 - Disclosure of Corporate Governance Practices (“NI 58-101”) and National Instrument 58-201 - Corporate Governance Guidelines (“NI 58-201” and, together with NI 58-101, the “Corporate Governance Disclosure Rules”) as well as the provisions of the Sarbanes-Oxley Act of 2002 and the Nasdaq’s corporate governance requirements (the “Nasdaq rules”).

The Board believes that good corporate governance is important to the effective performance of the Company and plays a significant role in protecting shareholders' interests and maximizing shareholder value.

Both the Corporate Governance Disclosure Rules and the Nasdaq rules have established guidelines for effective governance of listed companies. The Board is of the view that the Company's system of corporate governance meets or exceeds these guidelines.

The Company's corporate governance practices are compared with the NI 58-101 guidelines for effective corporate governance in Appendix "A" to this Information Circular. In addition, the Board has determined that, in the interests of the Company's goal of continuously improving its corporate governance standards, it intends to adopt a majority voting policy for its directors to be effective for the next annual meeting of shareholders of the Company. See the disclosure in Appendix "A" under the heading "6. Nomination of Directors".

Composition of the Board

The Board currently consists of nine directors, seven of whom, Ross J. Beaty, William A. Fleckenstein, Michael Larson, Michael J.J. Maloney, Paul B. Sweeney, David C. Press, and Walter T. Segsworth, qualify as independent directors under the Corporate Governance Disclosure Rules and the Nasdaq rules, and are independent of management and free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with their ability to act in the best interests of the Company. Geoffrey A. Burns and Robert P. Pirooz are related directors who are not independent due to their management positions with the Company.

Board Committees

The Board has established four committees: the Audit Committee, the Human Resources and Compensation Committee, the Health, Safety and Environment Committee and the Nominating and Governance Committee. Each committee operates in accordance with the Board's formal written mandate which defines its stewardship responsibilities. Committee members are appointed annually following the Company's annual general meeting.

The following is a description of the composition and mandate for each of the committees of the Board.

Audit Committee

The Audit Committee is currently composed of three directors, each of whom is an unrelated and independent director for the purposes of the Corporate Governance Disclosure Rules and all of whom are independent directors for purposes of the Nasdaq rules. The Chairman of the Audit Committee is Paul B. Sweeney. All members of the Audit Committee are financially literate. The Company considers "financial literacy" to be the ability to read and understand a company's fundamental financial statements, including a company's balance sheet, income statement and a cash flow statement. Long-Term Incentive Plan

The long-term incentive plan was initially approved by the Board on December 9, 2005 and was amended to reflect the Plan (as defined below) on August 12, 2008 (the "Long-Term Incentive Plan"). No options, Shares or other securities are issued under the Long-Term Incentive Plan. Under the terms of the Long-Term Incentive Plan, guidance is provided regarding the grant of stock options and Compensation Shares under the Plan to those holding senior management positions with the Company.

The Long-Term Incentive Plan was designed to create a sense of ownership by the key employees of the Company and to link the compensation of such employees with the performance of the Company. This plan provides a formula for calculating an incentive target award for each eligible employee of the Company related directly to each employee's individual annual performance. Targets are based on an employee's base salary and are directly dependent on an employee's responsibilities and contribution with regard to the long-term performance of the Company.

Please refer to the more detailed description of the Long-Term Incentive Plan on page 20 herein.

Stock Options

The Plan, which governs the Company's issuance of stock options and Compensation Shares, was established by the Board on May 13, 2008 (and approved by shareholders on May 13, 2008) and is given effect in conjunction with the Company's Long-Term Incentive Plan. The Plan contemplates (i) the granting of options to purchase Shares and/or (ii) the direct issuance of Compensation Shares to executive officers, directors and service providers of the Company. Recently, the Board renamed the Plan in order to reflect that the Compensation Shares being granted pursuant to the Plan formed part of the compensation of the Company's employees and management, and were not being granted as bonus payments. Pursuant to the policies of the TSX, the Board intends to amend the definition of "market price" in the Plan to reflect that the exercise price of options will be based solely on the volume weighted trading price of the Shares on the TSX, and not on Nasdaq. The amendment to the definition of Compensation Shares was done and the amendment to the definition of "market price" in the Plan will be done as administrative amendments without shareholder approval in accordance with the amendment procedures of the Plan.

The purpose of granting such options and/or Compensation Shares is to assist the Company in attracting, retaining and motivating executive officers, directors and service providers and to align the personal interests of such executive officers, directors and service providers to those of the Company's shareholders. The Plan is intended to be competitive with the benefit programs of other companies in the mining industry, and complies with the rules set forth for such plans by the TSX and Nasdaq.

Any grant of options under the Plan will be within the discretion of the Board, and the term of any options granted will also be at the discretion of the Board, but will not be in excess of ten years. The Plan also gives authority to the Board to issue up to 50,000 Compensation Shares in each calendar year. The maximum number of Shares which may be issued pursuant to options granted or Compensation Shares issued under the Plan may be equal to, but will not exceed 6,461,470 Shares. The number of Shares which may be issuable to any one optionee under the Plan together with all of the Company's other previously established or proposed share compensation arrangements, shall not exceed 5% of the total number of issued and outstanding common shares in the capital of the Company on a non-diluted basis. The number of Shares which may be issued to Insiders under the Plan, together with all of the Company's other previously established or proposed share compensation arrangements, in aggregate, shall not at any time exceed 10% of the total number of issued and outstanding common shares in the capital of the Company on a non-diluted basis. In addition, the number of Shares which may be issuable under the Plan, together with all the Company's other previously established or proposed share compensation arrangements, within a one year period: (i) to insiders of the Company in aggregate, shall not exceed 7% of the outstanding issue; (ii) to one optionee who is an insider of the Company or any associates of such insider, shall not exceed 2% of the outstanding issue; and (iii) to any non-employee director, other than the Chairman of the Board, shall not exceed an equity award value of \$100,000 (other than Options or Shares granted or taken in lieu of cash fees).

The exercise price of options granted under the Plan will be the weighted average trading price of Shares on the TSX for the five trading days prior to the grant date. The Plan provides for an optional cashless exercise mechanism where the optionee elects to relinquish the right to exercise their unexercised vested options and receive, in lieu thereof, a number of fully paid Shares. The number of Shares issuable pursuant to any such cashless exercise

is equal to the quotient obtained by dividing the product of the number of unexercised vested options tendered for disposition multiplied by the difference between the market price and the option price of all Shares subject to the tendered unexercised vested options by the market price of one Share. Under the Plan, options are non-assignable and non-transferable, and subject to such vesting provisions as the Board in their sole discretion shall determine. Where an option holder's employment with the Company is terminated, otherwise than for cause or by reason of death or disability, options granted under the Plan will terminate on the earlier of: (i) the expiry date of the options; (ii) 30 days after termination of employment; or (iii) the date the option holder ceases to be a service provider. In the event of termination for cause, the options will terminate immediately upon the date which the individual ceases to be a director, officer or service provider. In the event the individual ceases to be a director, officer or service provider due to death or disability, the options granted under the Plan will terminate upon the earlier of: (i) the expiry date; and (ii) 12 months after the date of death or disability. The Plan also contains an adjustment mechanism to alter the exercise price or number of shares issuable under the Plan upon a share reorganization, corporate reorganization or other such event not in the ordinary course of business. In the event of a take-over bid or change of control, 50% of an option holder's unvested outstanding options will vest and are conditionally exercisable until immediately before the completion of the take-over bid or change of control, provided that: (i) any options that are unvested or unexercised by the completion of the take-over bid or change of control become null and void; and (ii) in the event the take-over bid or change of control is not completed within 90 days of the proposed completion date, the option holder will be refunded any payments made to exercise the options, the exercised options will be reissued, and the purported exercise of the options will be null and void.

Except where not permitted by the TSX, where an option expires during a time when, pursuant to any policies of the Company, any securities of the Company may not be traded by certain persons as designated by the Company, including any holder of options under the Plan (the "Black Out Period") or within ten business days following the end of such Black Out Period, the term of such options will be extended to the end of day that is ten business days following the end of the applicable Black Out Period.

The Plan provides that the Board to make certain limited amendments to the Plan or any option without shareholder approval, including (i) amendments of a "housekeeping" nature, including any amendment for the purpose of curing any ambiguity, error, inconsistency or omission in or from the Plan or any related option agreement; (ii) a change to the vesting provisions of an option; (iii) extensions to the term of an option held by a person (other than an insider of the Company); (iv) accelerating the expiry date of an option; amending the definitions contained within the Plan; (v) amending or modifying the mechanics of the exercise of options (except with respect to the requirement that full payment be received for the exercise of options); (vi) amendments that are necessary to comply with the provisions of applicable laws or the rules, regulations and policies of the TSX; (vii) amendments relating to the administration of the Plan; (viii) amendments that are necessary to suspend or terminate the Plan; and (ix) any other amendment, whether fundamental or otherwise, not requiring shareholder approval under applicable law (including, without limitation, the rules, regulations, and policies of the TSX and Nasdaq).

The Plan expressly requires shareholder approval for: (i) amendments that increase the number of Shares issuable under the Plan, except in certain circumstances as contemplated in the Plan; (ii) any reduction in the option price of an option if the optionee is not an insider of the Company at the time of the proposed amendment; and (iii) amendments required to be approved by shareholders under applicable law (including, without limitation, pursuant to the rules, regulations and policies of the TSX and Nasdaq); and

The Plan expressly requires disinterested shareholder approval for: (i) amendments to the Plan that could result at any time in the number of Shares reserved for issuance under the Plan to insiders of the Company exceeding 10% of the outstanding issue; (ii) any reduction in the option price of an option if the optionee is an insider of the Company at the time of the proposed amendment; and (iii) amendments requiring disinterested shareholder approval under applicable law (including, without limitation, pursuant to the rules, regulations and policies of the TSX and Nasdaq).

As at March 30, 2010, there were options outstanding under the Plan to acquire up to 1,382,742 Shares which represents 1.3% of the Company's non-diluted share capital. Under the Plan, the Company has reserved a maximum of 6,461,470 Shares, which represents 6.2% of the Company's non-diluted share capital, which may be issued pursuant to options granted or Compensation Shares issued.

The Company provides no financial assistance to facilitate the purchase of Shares to directors, officers or employees who hold options granted under the Plan.

These contracts also contain change of control provisions such that, if a person acquires or gains control of more than 50% of the outstanding common shares of the Company or acquires sufficient shares to replace a majority of the Company's Board with its nominees and does so, the employee may, in certain circumstances, resign within nine months of the change of control and be entitled to additional payment. Where such a circumstance occurs, the contracts provide for payment equal to two year's annual salary, benefits for the same period (subject to certain limitations), plus an amount equal to two times the employees annual target AIP payment in lieu of certain other incentive payments and entitlements.

With respect to the employment contract for Mr. Burns, in the event of termination without just cause, the contract provides for a termination payment equal to two year's annual salary plus one month's salary for each fully completed year of continuous employment with the Company, in the aggregate not to exceed three times annual salary. Share Ownership

The Human Resources and Compensation Committee has recommended minimum requirements, as outlined below for share ownership by the following executive officers: President & CEO; Chief Operating Officer;

- 18 -

Chief Financial Officer; Executive Vice President Geology & Exploration; Senior Vice President, Mining Operations; Senior Vice President, Project Development; and General Counsel.

After 24 months employment	minimum 1,500 shares
After 48 months employment	minimum 3,000 shares
After 60 months employment	minimum 5,000 shares

The Human Resources and Compensation Committee of the Corporation annually reviews compliance with the foregoing requirements.

Human Resources and Compensation Committee

The Company has a Human Resources and Compensation Committee comprised of the following independent directors: Michael J.J. Maloney (Chair), David C. Press, Walter Segsworth, and Paul B. Sweeney. The duties and responsibilities of the Human Resources and Compensation Committee are set out in this Information Circular under the heading “Corporate Governance - Board Committees – Human Resources and Compensation Committee”.

Report on Executive Compensation

The Company’s compensation structure is designed to reward performance and to be competitive with the compensation arrangements of other Canadian mining companies with international operations of similar size and scope. The structure complies with the Company’s statement of Compensation philosophy which was adopted in February 2005 and amended in February 2009. The Company’s philosophy is to provide a total compensation package with an approximate positioning at the 60th percentile comparably against other companies in the mining industry.

Each executive officer’s position is evaluated to establish skill requirements and level of responsibility and this evaluation provides a basis for internal and external comparisons of positions. In addition to industry comparables, the Board and the Human Resources and Compensation Committee consider a variety of factors when determining both compensation policies and programs and individual compensation levels. These factors include the long term interests of the Company and its shareholders, overall financial and operating performance of the Company and the Board’s and the Human Resources and Compensation Committee’s assessment of each executive’s individual performance and contribution towards meeting corporate objectives.

The Company’s compensation practices are regularly monitored by the Human Resources and Compensation Committee and modified as required, to ensure the Company maintains its competitiveness and that it appropriately recognizes growth and change within the organization. The Company has traditionally utilized HayGroup (“Hay”), an independent consultant, to assist in conducting the executive compensation review. Detailed job descriptions have been prepared and are updated for each of the senior management positions in the Company. Where their participation is sought, Hay evaluates each position against appropriate, comparable and consistent data utilizing its proprietary point system. Hay then awards a point value to each position and the position and corresponding point value are compared to Hay’s Mining Review Compensation survey data. The survey utilizes compensation data from mining companies in Canada with comparable positions. Based on this market data, recommendations are submitted to the Human Resources and Compensation Committee to review and if appropriate adjust base salaries, short-term incentive targets and long-term incentive targets. The Human Resources and Compensation Committee then makes recommendations for changes to executive compensation to the Board.

Executive officer total compensation is composed of four major components: base salary, a cash short-term incentive program, long-term incentives and extended group benefits. In addition, the Board of Directors approved a three-year

retention program in June 2008 for certain key employees. In 2009, the retention program

- 19 -

was amended to extend payments over a period of four years, with no changes to the total payout values or program participants.

Base Salary

Base salaries are determined following a review of market data for similar positions in Canadian mining companies with international operations of comparable size and scope. The salary for each executive officer's position is then determined having regard for the incumbent's responsibilities, the financial capacity of the Company, potential for advancement, and the assessment of the Board and the Human Resources and Compensation Committee of such other matters as are presented by management, including industry comparable base salaries for similar positions.

In response to the significant decline in the prices of silver and zinc in the fourth quarter of 2008, the Company initiated a comprehensive series of measures to reduce costs. One of those cost control measures included a 10% reduction in salaries for all senior management, effective November 15, 2008. Due to favourable metal prices and business performance during the year, senior management salaries were reinstated to previous levels effective September 1, 2009, but no further general increases were made during the year.

Annual Incentive Plan

The second component of the executive officers' compensation is an annual cash bonus earned under the guidelines of the Company's AIP. AIP payments are determined on the basis of Company and individual performance with 50% of the AIP payment based on Company performance and 50% based on individual performance, with the exception of the Chief Executive Officer whose AIP payment is based 100% on Company performance. The ratio may be adjusted from year to year by the Human Resources and Compensation Committee, depending on the level of Company, departmental or individual focus desired.

The target AIP goal ranges from 45% to 50% of base salary for the Name Executive Officers, other than the Chief Executive Officer, and is 55% of base salary for the Chief Executive Officer.

The Company's performance is compared to a set of annual objectives that have been pre-determined and approved by the Board. These objectives include targets for production, costs, earnings, safety, reserve growth and project advancement and are tied directly to the Company's annual budget, which is also approved by the Board. Individual targets are set to achieve and surpass the Company's annual objectives.

For 2009, the Company's performance rating against pre-established annual objectives was 116%.

AIP awards are paid in the year following the year in which the recipient's performance is assessed. AIP awards were paid in March 2010 with respect to performance in 2009, but no awards were paid the previous year due to the challenging economic climate and uncertainty surrounding metal prices which fell precipitously in the 2nd half of 2008.

Long-Term Incentive Plan

The third component of the executive officers' compensation is the granting of stock options and issuance of Compensation Shares. The Human Resources Committee or the Board may grant stock options and Compensation Shares on an annual basis to senior managers and executive officers. The Long-Term Incentive Plan is intended to help attract and retain employees by providing them with an opportunity to participate in the future success of the Company and to align the interest of the employee with those of the Company and its shareholders. Participation is limited to key management positions who have responsibility for influencing the policy, strategy and the long-term

performance of the Company.

- 20 -

The Company's Long-Term Incentive Plan provides guidance regarding the grant of options and Compensation Shares to those holding senior and corporate management positions. The Long-Term Incentive Plan provides a formula for calculating the annual Long-Term Incentive Plan target for each eligible employee, based on a percentage of base salary. Payouts pursuant to the Long-Term Incentive Plan are made available as options (75%) and Shares (25%). The Long-Term Incentive Plan is based on individual performance measures and targets, and is reviewed annually. Performance measures include commitment, initiative, knowledge, leadership, teamwork and communications.

The target Long-Term Incentive Plan goal ranges from 50% to 55% of base salary for the Named Executive Officers, other than the Chief Executive Officer, and is 60% of base salary for the Chief Executive Officer.

Extended Group Benefits

The fourth component of the executive officers' compensation is extended group benefits. The Company makes available an array of quality group benefit alternatives to address employee health and other needs, and those of their dependents.

Key Employee Long Term Contribution Plan

An additional element of the Company's compensation structure is a retention program known as the Key Employee Long Term Contribution Plan (the "Contribution Plan"). The Contribution Plan was approved by the directors of the Company on June 2, 2008 in response to the intensely competitive labour market in the mining sector that existed in early 2008, during which period highly qualified and experienced professionals were being actively approached and recruited by other mining and exploration companies. The Contribution Plan was designed and implemented to reward certain key employees of the Company over a fixed time period for remaining with the Company.

The Contribution Plan was amended in 2009 for all participants, with payments extended over four years instead of three years. The Contribution Plan is a four-year plan with a percentage of the total retention bonus payable at the end of each year of the program provided that the individual is still an employee of the Company. The Contribution Plan design consists of three bonus levels that are commensurate with various levels of responsibility, and provides for a specified annual payment for four years which started in June 2009. Each year, the annual contribution award will be paid in the form of either cash or Shares of the Company. No Shares will be issued from the treasury pursuant to the Contribution Plan without the prior approval of the Contribution Plan by the shareholders of the Company and any applicable securities regulatory authorities. As at December 31, 2009, there were 26 individuals eligible to receive retention bonus payments under the Contribution Plan and the aggregate value expected to be paid in cash or issued in Shares over the four-year period of the Contribution Plan was CAD \$10.65 million.

The Chief Executive Officer is not an eligible participant under the Contribution Plan, but has a separate retention program (the "President and CEO Contribution Plan") that was instituted for the same purpose as the Contribution Plan. The terms of the President and CEO Contribution Plan are substantially similar to the Contribution Plan, providing for a specified annual payment for four years which started in June 2009. However, unlike eligible individuals under the Contribution Plan, the recipient under the President and CEO Contribution Plan is required to use the after-tax award to purchase common shares of the Company on the open market within a specified time period and further requires that the recipient hold those securities for a defined period of time.

Chief Executive Officer Compensation

The Chief Executive Officer's compensation package is established after an independent review of compensation practices within a group of Canadian mining companies of similar size and scope, as described previously. This market data set is also used to develop compensation recommendations for other members of the Company's executive group.

Base Salary

The base salary compensation for the Chief Executive Officer is determined on the basis of a review of market data for similar positions in Canadian mining companies with international operations of comparable size and scope.

A reduction of the Chief Executive Officer's salary from CAD\$500,000 to CAD\$450,000 per year was approved by the Board of Directors effective November 15, 2008, as part of the cost reduction measure that reduced all senior management salaries by 10%. Due to improvements in the economy, stronger business performance and favourable metal prices, the Chief Executive Officer's salary was reinstated to its previous level effective September 1, 2009. There was no other change in salary during 2009.

Annual Incentive Plan

The AIP compensation paid to the Chief Executive Officer is based on achieving certain corporate goals and objectives which are set at the start of each year and approved by the Board of Directors. The Chief Executive Officer's AIP award is based 100% on Company performance for the financial year. The Chief Executive Officer has a target AIP award of 60% of salary, with an annual incentive opportunity ranging from 0% to 120% of salary.

There are three categories of annual corporate objectives. The first category represents metrics that should contribute to an increase in shareholder value and include increasing the Company's silver production per share and increasing the Company's proven and probable silver reserves per share. The second category is focused on growth and measures exploration success and the development and construction progress in the Company's major new mining projects. The third category measures operating performance and includes annual targets for silver production, cash costs per ounce, earnings, cash flow from operating activities and health and safety performance. The targets for each component are set such that they are greater than the Company's internally approved budget.

For 2009, the Company's performance rating against pre-established annual objectives was 116%. AIP awards are paid in the year following the year in which the recipient's performance is assessed.

Long-Term Incentive Plan

The Long-Term Incentive Plan equity-based compensation paid to the Chief Executive Officer is determined by the Compensation Committee's annual review of the Chief Executive Officer's personal performance, as measured against pre-established evaluation criteria which includes: commitment, initiative, knowledge, leadership, teamwork and communication.

In 2009, the Chief Executive Officer scored 75 out of a possible 80 points for his personal performance which entitled him to a Long-Term Incentive Plan payment of 72% of his annual base salary.

President and CEO Contribution Plan

The President and CEO Contribution Plan provides for a pre-defined equal annual payment over four years. For 2009, the Chief Executive Officer received CAD\$200,000. The after-tax value of such payment was used to

- 22 -

purchase common shares in the open market, which, pursuant to the President and CEO Contribution Plan, the Chief Executive Officer must hold for a period of at least two years.

Total Compensation - Chief Executive Officer

For 2009, the Chief Executive Officer's total compensation, including cash and equity, was CAD\$1,379,901. The sum of base salary, short-term incentive and long-term incentive awards placed the Chief Executive Officer below the 50th percentile among comparable positions in the HayGroup 2009 Global Mining Compensation Review.

Compensation of Directors

Other than the Chairman, each non-executive director of the Company receives an annual Board retainer fee of \$70,000, starting on the date of the annual general meeting at which he or she is elected or re-elected as a director and ending on the date immediately prior to the date of the Company's next annual general meeting. At the election of each non-executive director, the retainer fee, net of applicable taxes, is received as either:

- (i) cash;
- (ii) Shares based on the 10-day weighted average of the Shares on the Nasdaq National Market immediately prior to the annual general meeting; or
- (iii) options to purchase Shares according to the Black-Scholes formula. The exercise price of such options will be equal to the weighted average trading price of the Shares on the Nasdaq National Market on the five trading days (on which at least one board lot of the Shares was traded) prior to the annual general meeting. The options will vest immediately and will expire ten years after the date on which they were granted.

In 2009, each non-executive director elected to receive a cash payment pursuant to subsection (i) above. In addition to the annual Board retainer fee, certain other compensation is provided to non-executive directors of the Company for the annual general meeting to annual general meeting period.

Each non-executive director receives a \$1,000 cash fee for each Board meeting attended. A non-executive chair of the Nominating and Governance Committee receives a \$3,000 annual cash retainer fee and a non-executive chair of the Compensation Committee and Health, Environment and Safety Committee receives a \$5,000 annual cash committee retainer fee. The non-executive chair of the Audit Committee receives a \$14,000 annual cash committee retainer fee and each other non-executive director on the Audit Committee receives a \$6,000 cash committee retainer fee annually. The lead director receives a \$10,000 annual cash retainer fee. Each non-executive director sitting on a committee received a \$1,000 cash fee for each committee meeting attended in that period. All non-Canadian resident directors also receive the cost of their Canadian tax filings as part of their compensation.

In 2009, the Chairman received an annual fee of CAD\$100,000, paid in cash net of applicable taxes, plus reimbursable expenses of approximately CAD\$100,000 to cover the administrative costs of running the Chairman's office.

The Company reimburses its directors for reasonable out-of-pocket expenses related to their attendance at meetings or other expenses incurred for corporate purposes.

The Nominating and Governance Committee will review the compensation of directors in 2010.

The following table sets forth all amounts of compensation provided to the directors for the Company's financial year ended December 31, 2009, with the exception of Geoffrey A. Burns and Robert Pirooz who receive compensation as executives of the Company but who do not receive compensation for services as directors of the Company.

If the consultant or advisor has been retained to perform any other work for the issuer, state that fact and briefly describe the nature of the work.

In addition, the Human Resources and Compensation Committee reviews and makes recommendations to the Board for approval with respect to the annual and long term corporate goals and objectives relevant to determining the compensation of the President and Chief Executive Officer.

The Company utilizes HayGroup ("Hay"), an independent consultant, to assist in conducting the executive compensation review. Detailed job descriptions have been prepared and are updated for each of the senior management positions in the Company.

8. Other Board Committees

If the Board has standing committees other than the audit, compensation and nominating committees, identify the committees and describe their function.

The Board also has a Health, Safety and Environment Committee which currently consists of four directors. The Company recognizes that proper care of the environment is integral to its existence, its employees, the communities in which it operates and all of its operations. The Health, Safety and Environment Committee ensures that an audit is made of all construction, remediation and

active mines. The results of such audits are reported to the Health, Safety and Environment Committee as is the progress on any significant remediation efforts. The Health, Safety and Environment Committee ensures that strict policies with respect to the health and safety of its employees are in place at each of its operations and that such policies are enforced.

individual directors are performing effectively.

The Board has also appointed a Nominating and Governance Committee, which proposes and makes recommendations to the Board with respect to: (i) the composition of the Board; (ii) the appropriateness of the committees of the Board, their mandates and responsibilities and the allocation of directors to such committees; and (iii) the appropriateness of the terms of the mandate and responsibilities of the Board. During 2005, the Nominating and Governance Committee, in consultation with the entire Board, undertook to formally establish the roles and responsibilities of each of the Lead Director, the Chairman of the Board and the Chief Executive Officer and determine against what criteria each such position should be assessed.

In 2006, the Nominating and Governance Committee developed a process to assess the Board as a whole and the committees of the Board. The performance assessment of the Board and each Committee of the Board is based on information and feedback obtained from director evaluation questionnaires provided to each director. Each director is asked to complete and return the assessment questionnaire to the Lead Director on a confidential basis. The Lead director may discuss the completed questionnaires with individual directors where clarification is required. The evaluation process focuses on Board and committee performance, and also asks for peer feedback and suggestions or comments regarding the performance of the Chair of each committee and the Lead Director. The Lead Director reports the results of the performance assessments to the

Board.

The Board and the Nominating and Governance Committee have formally assessed the effectiveness of each member of the Board, and have determined that each Board member is significantly qualified through their current or previous professions. Each member fully participates in each meeting having in all cases been specifically canvassed for their input.
